KATY TRAIN IS ROBBED IN OKLA.

GOVERNOR BRYAN OF NEBRASKA ISSUES STATEMENT TO COAL DEALERS; HE WILL NOT STAND HOLD UP

LINCOLN, Neb., Aug. 21.—Governor Charles W. Bryan has notified the coal dealers that unless prices are lowered he will furnish coal to the public at \$8.20 per ton and protect the public like in "Gasoline Combine."

A direct ultimatum at the municipal coal yard states that coal costing \$6.60 f. o. b. in carload lots will be sold at \$9.50. It is said that it does not cost more \$2.50 per ton to deliver the coal. Governor Bryan says, "we expect to protect the public from the coal monopoly."

LATE EDITION
The Avalanche will issue a late Evening Edition carrying the Base Bill Game Results which will be distributed in town tomorrow morning at an early hour. Get it before breakfast.

TWO FIREMEN KILLED AND OTHERS INJURED WHEN BUILDING FELL

NEW YORK, August 21.—Two firemen were killed and forty seven injured when the old Masonic Hall in Brooklyn collapsed while burning.

When the roof and walls fell, for a time firemen were buried in the debris but made remarkable escapes.

The building covered a city block and was used for a dance hall.

ITALIAN HOME PARTIALLY DESTROYED BY BOMB IN DETROIT

DETROIT, August 21.—Fifteen persons, seven of them children, were blown from their beds but unhurt, when a bomb partially wrecked the home of Ignazio Manischelchi here today.

The bomb was thrown from a large touring car containing four passengers. Manischelchi could give no reason for the attack.

CRIPPLE BARELY ESCAPED WITH LIFE AS HOME BURNED

COLUMBUS, Texas, Aug. 21.—Representative J. J. Mansfield of the ninth Texas district who has been confined to a wheel chair, barely escaped with his life when his home was destroyed by fire.

Mansfield was alone in the house at the time of the fire, but was rescued by neighbors who saw the blaze.

TEXAS MAN MAY BE NAMED AMBASSADOR TO MEXICO

WASHINGTON, D. C., Aug. 21.—President Coolidge and Secretary Hughes have accepted the terms of the Commission that met in Mexico City relative to the recognition of Mexico by the United States Government as a basis of the resumption of diplomatic relations between the two countries.

This announcement though not official is given out by persons who are in close touch with the situation, and is believed to be almost as authentic as if it came direct from the government head itself.

The report says further: "everything is all fixed up and agreement is acceptable to the United States Government." It is also stated that Charles H. Warren will not be named as ambassador to Mexico, in the event the negotiations are completed although it was the desire of the Mexican Government that he be named to fill this position. It is understood that a Texas man may be appointed to the office of Ambassador to Mexico.

FRENCH REPLY RECEIVED WITH PESSIMISM ON DOWNING STREET

LONDON, Aug. 21.—A courier brought a copy of the French reply to the British reparations note to London this evening and it was forwarded immediately to Premier Baldwin, who is in the country.

The British view of the note is pessimistic and Downing Street gave out the impression that the note offers but slight, if any, basis of settlement.

It was indicated in the reply of Poincare that it is largely a re-statement of the French position and contained no constructive proposal.

ORANGE MAN BEING HELD IN CONNECTION WITH KILLING

ORANGE, Texas, August 21.—W. M. Gibbons, age thirty-five, is being held in connection with the killing of L. H. Moreland, oil field driller.

Three shots were fired at Moreland, two taking effect and the third striking a negro wounding him slightly.

Gibbons refused to discuss the shooting.

The wives of the two men are said to be cousins.

It takes a train only, one second to win the decision over an auto.

RETAIL PRICES SCHEDULED TO GO HIGHER IN THE FOOD LINE

WASHINGTON, Aug. 20.—The retail cost of food averaged two percent higher in July than in June while during the year ending July 15 the general advances amounted to 4 percent.

Figures made public today by the bureau of labor statistics of the department of labor revealed that 18 articles increased in price from June to July 15, potatoes leading with a rise of 11 percent. Declines ranging up to 14 percent for cabbage were registered for 19 articles and nine showed no change.

The average family expenditure for food increased during the month in 15 representative cities and decreases for the year period, while 6 showed a 6 percent rise.

Forty-five cities also recorded an increase for the year period, while 5 showed a reduction amounting to two percent at Portland, Ore., one percent at Dallas, and less than one-half of one percent in the other four.

Rotarians Will Meet Church of Christ to At Christian Church Complete Meeting at Building Wednesday Church on Broadway

Rotarians take notice. The ladies of the First Christian Church will have charge of the eats tomorrow, and instead of the meeting being held at the J. H. Rankin building as was first announced, it will be held at the Christian Church building, that meeting complete.

This meeting is to be very important and all are urged to bring guests. The program will be devoted entirely to a discussion of the election to amend the charter of the city of Lubbock which will be held on August 30th. This is one proposition that all Lubbock must take a keen interest in and it is altogether fitting that the Rotarians take the lead in this instance as has been the case in the past.

The speakers for the occasion are Mrs. W. H. Blodgett, Hon. Perry Spencer and Rev. Jack M. Lewis this feature alone assuring those who will attend that they will be well entertained.

Joe Rix is chairman of the dinner.

WATER FAMINE AT OMAHA CAUSED WHEN BANK OF RIVER CAVES

OMAHA, Neb., Serious water famine was caused here when the mud bank in Missouri river caved in just above the intake pipes filling the city pumps, with muddy water. All the laundries were forced to close down on account of the muddy water. Many other industries were also forced to close down on account of the muddy water. Near a riot occurred at Elmwood Park where several thousand persons gathered around seven artesian wells for drinking water. The police department rushed a force of men to the park to maintain order.

HUGE LOAN IS MADE FOR THE TEXAS COTTON BUREAU; GIVEN CREDIT IN NEW YORK TO ASSIST IN MARKETING

NEW YORK, Aug. 21.—A New York banking syndicate, headed by the Seaboard National Bank, and Goldman, Sachs & Co., Wednesday completed arrangements for a large loan to the Texas Farm Bureau Cotton Association for the purpose of assisting in the orderly marketing of the cotton crop in that State.

The initial credit is understood to be for \$10,000,000, with a series of others as they are needed. Under the terms of the agreement the association undertakes to market a certain amount of its product each month, and it was assured the bankers that 90 per cent of the crop will be sold when the final paper matures June 15 next.

Interest Rate Higher.

While the details of the loan were not made public, it is understood that the interest rate will be slightly higher than the association paid on a \$12,000,000 loan last year because of the higher discount rate in effect now. Last year's loan was arranged through Southern banks, with several New York banks participating. The interest on that loan averaged 5 1/3 per cent. This year's loan is the largest cotton credit ever organized under local financial leadership.

Negotiations for the loan has been in progress for several weeks between Col. Sloan Simpson of Dallas, Texas treasurer and trustee of the association and the local bankers. Col. Simpson returned home several days ago and the final details were concluded by wire.

Secured By Warehouse Receipts.

The loan is to be secured by warehouse receipts on cotton stored in the Houston Compress Company in Houston, Texas, the largest independent warehouse in the State and connected in any way with the association. The cotton so stored is to be graded according to specifications mutually agreed upon between the association and local bankers, the latter being assured of a conservative margin as security for the loan.

The Texas company is the largest of its kind, having a membership of 27,000 cotton planters in all sections of the State. Last year the association handled 77,000 bales of cotton, and this year it expects to make between 175,000 and 225,000 bales.

Smaller associations operated on somewhat similar lines have been organized in the Carolinas, Louisiana, Mississippi and other Southern States.

MOTHER REACHES BORDER SAFELY WITH HER KIDNAPED SON

EL PASO, Aug. 20.—When Mrs. Esther Black Parmelee and her four year old son, Charles Roy Parmelee Jr., crossed the border from Mexico into the United States here yesterday, another chapter was written in an international drama of domestic difficulties which had their beginning in Los Angeles nearly two years ago.

Mrs. Parmelee was awarded the custody of her child 18 months ago by Los Angeles courts. Shortly before the final decree was entered the child was taken by its father to Mexico City. According to her story, told here yesterday an attempt at reconciliation with her husband in Mexico City failed and despairing of a satisfactory arrangement, she hid the boy under an automobile rug and spirited him away for the north bound Mexican Central train.

Parmelee Sr. is a veteran of the world war in the United States army and a member of a wealthy Los Angeles family.

HOW IS THIS FOR FIGURING WIND VELOCITY

PORT ARTHUR, Texas, Aug. 20.—No one will dispute this yarn.

An enterprising reporter estimated there were 500 fans in Port Arthur and that their average diameter was eight inches. Such fans will generate a wind velocity of 10 miles per hour.

All the fans would generate a wind velocity of 50,000 miles per hour. All the fans running for a single day would create a total velocity of 200,000 miles, or more 663,600,000 feet of air.

At least that's what the reporter figures—and its hot to argue.

USED AMERICAN FLAG TO WRAP LUGGAGE

WICHITA FALLS, Aug. 20.—A lesson in flag etiquette was given a veteran of the 90th division who held an enviable war record, by members of the Local American Legion post recently.

The veteran with his wife passed thru this city in an automobile en route to Colorado. An American flag was being used as a cover for the luggage on his car.

Several persons called the legion headquarters and notified members of the breach of etiquette. When Legionnaires waited on the tourist and asked them to take the flag from the baggage he complied cheerfully and at the same time showed them his honorable discharge and his war record.

After thanking the committee for calling his attention to the mistake the veteran bought a tarpaulin and placed it over the baggage.

SCHOOL OPENS AT TAHOKA SEPTEMBER 3RD

TAHOKA, Aug. 21.—School will open September 3rd. The last teacher was secured this week. Miss Porterfield who was employed for the Home Economics department resigned in a short time, and we have secured Miss Lena B. Price for this place. Miss Price is the superintendent said today, and comes highly recommended and I am sure we shall be well pleased with her work. She has taught high school, Howard Payne College, and other good schools. I have just received a telegram from the state department stating that Miss Price is qualified to teach under the Smith-Hughes law.

EXPRESS AND MAIL CAR IS LOOTED AND MEMBERS OF THE CREW ARE SLUGGED, WHILE BANDITS ESCAPE

Al Jennings Says It's Work of Amateur; Others Says It Was a Band Which Is Headed By Al Spencer.

OKLAHOMA CITY, Okla., Aug. 21.—A posse is in pursuit of the daring band of train robbers, who held up the Katy passenger train from Kansas City to Oklahoma City near Okesa, Oklahoma, shortly after midnight last night. It is believed that the band is being led by Al Spencer.

Four members of the train crew were slugged and the mail car was looted of an undetermined amount of money and registered mail. After forcing the engineer to cut off the mail car and run down the track with it and the locomotive, the bandits looted the car leisurely and then fled in automobiles into the hills. Twenty packages of registered mail was taken.

The passengers were unharmed.

It is stated by the train crew that there were more than a dozen bandits that participated in the holdup, and that they kept up a constant revolver fire while the robbery was being accomplished by the remaining number.

REPRESENTATIVE OFFERS TO INVESTIGATE PIPE LINE COMPANY'S

AUSTIN, Aug. 21.—Representative W. C. Morgan, of Liberty county, today offered his services to push the investigation of certain refiners products and pipe line companies for one dollar a year. This offer was made to the Railroad Commission which will decide this afternoon. Morgan filed a petition for the investigation of alleged conspiracy.

FIVE AMERICANS KILLED IN FRANCE AS AUTO IS WRECKED

NICE, France, Aug. 21.—Six persons, including five Americans, were killed when a tourists automobile plunged over an embankment near here today.

Police announced that twelve Americans were injured.

USED AMERICAN FLAG TO WRAP LUGGAGE

WICHITA FALLS, Aug. 20.—A lesson in flag etiquette was given a veteran of the 90th division who held an enviable war record, by members of the Local American Legion post recently.

The veteran with his wife passed thru this city in an automobile en route to Colorado. An American flag was being used as a cover for the luggage on his car.

Several persons called the legion headquarters and notified members of the breach of etiquette. When Legionnaires waited on the tourist and asked them to take the flag from the baggage he complied cheerfully and at the same time showed them his honorable discharge and his war record.

After thanking the committee for calling his attention to the mistake the veteran bought a tarpaulin and placed it over the baggage.

Late Wire Briefs

Floggers Still Operating.
DALLAS, Aug. 21.—Bands of floggers are still operating in several of the southern states, declared authorities, but that their operations are not as pronounced.

Mail Planes Enroute.
MINEOLA, Long Island, Aug. 21.—The mail planes, destined to reach San Francisco in twenty-eight hours by rapid relays, left here at noon today. The first scheduled stop it at Cleveland.

Mail Plane Arrives.
RENO, Nevada, Aug. 21.—The mail plane which left San Francisco, enroute to New York, arrived here shortly before eight o'clock. Pilot Winslow reported the flight from the coast city void of accident. The mail will be transferred quickly into another plane and the journey quickly resumed.

Air Leviathan Launched Tonight.
DAYTON, Ohio, Aug. 21.—The army department will launch its Leviathan of the skies tonight, when she bumps off into the air. The maiden flight of the huge Baring bomber will be attended by a number of high army officers. If the ship flies it will be the first forty thousand pounds heavier than the machine that has lifted itself from the ground. Six Liberty motors supply the power and the plane is equipped with parachutes so the crew may escape in safety in event of accident.

Perishing's Old War Horse Is Dead.
WEST HARTFORD, Conn., Aug. 21.—"George Washington," General Perishing's war horse, is dead. The animal was gassed in France during the war, immediately declined in health and was sent to a farm here to rest. It was decided finally to put him out of misery and he was shot.

The horse was born and bred in Missouri. Perishing rode him in Villa's raid and later in France. Dr. Paul Waterman, who owned the horse, died just a month ago.

WEATHER

N Carolina, Georgia fair tonight and Wednesday unsettled probably thunder showers, interior moderate south winds. Alabama, Mississippi, Except Northwest Florida, fair tonight, Wednesday local thunder showers, somewhat cooler in interior gentle south winds. Florida local thunder showers tonight and Wednesday, gentle to moderate east to south winds.

Louisiana tonight generally fair, Wednesday, partly cloudy, local thundershowers in southwest portion, light to moderate south to southwest winds on the coast.

Arkansas tonight and Wednesday partly cloudy, thunder showers and cooler in northwest portion Wednesday.

Oklahoma tonight and Wednesday unsettled probably thunder showers in east portion cooler in west portion tonight and east and south.

East Texas tonight, generally fair, Wednesday, partly cloudy, cooler in northwest portion, light to fresh southerly winds on the coast.

West Texas tonight and Wednesday partly cloudy, cooler in north portion.

Neal Douglass, Jr., City Editor
J. E. Griffith, Adv. Mgr.

Entered at the Postoffice at Lubbock, Texas, for transmission thru the mails as second class matter.

NOTICE—It is not the intention of the Avalanche to cast reflection upon the character of anyone knowingly, and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

AVALANCHE PUB. CO.

ACTION VS. WORDS

The San Angelo Standard expresses a great truth in the following paragraphs:

"The Fort Worth Record has said something which the business men of Fort Worth may well heed. Urging that Fort Worth join whole heartedly in the Tech celebration at Lubbock August 28, the Record says 'But Fort must not let its interest extend no further than words and platitudes.'"

"The Record expresses a friendliness for West Texas that business men there have not. Their stubbornness in refusing to withdraw a complaint attacking general freight rate that jeopardizes the common point, held to be essential for the continued development of West Texas, has aroused such a storm of protest and resentment at their action that in many quarters a boycott is hinted. While Fort Worth business men may consider themselves independent of this section, there can be no doubt but that concerted turning of trade to San Antonio and other cities as near possessing equal trade advantages a blow that would shake their stable selves to the very foundation."

"It is well and good to send a delegation to Lubbock and to the West Texas Chamber of Commerce convention and thus strive to strengthen the ties that bind West Texas to Fort Worth's trade territory. But all such good propaganda can very well be undone by destruction of the done. Fort Worth will get a large percentage of the blame."

"The Record editorial regarding the sending of a delegation to Lubbock follows: 'Fort Worth has been recess of that growing and entre-joining with Lubbock in the surprising West Texas city in the contest for Texas Tech, just as Fort Worth would have rejoiced had any of the live and worthy contestants secured the prize.'"

"Fort Worth is interested in everything that affects West Texas because Fort Worth wants to see West Texas grow and prosper and, incidentally, because as West Texas advances Fort Worth advances."

"But Fort Worth must not let its interest in West Texas go no further than words and platitudes. This is a country of action and the actions of Fort Worth will prove its sincere interest in West Texas more than words."

"One very fine opportunity to prove our interest in the West and Lubbock and Texas Tech in particular, is by the sending of a large delegation to the 'Hub of the South Plains' on the occasion of the Texas Tech Jubilee, women who attended the jubilee Aug. 28."

"The Fort Worth men and on March 3, with which Sweetwater voiced the delight of West Texas over the passing of the Texas Tech bill, will not want to miss the Lubbock affair. They know the enthusiasm, the hospitality, the inspiration of the West."

"At Sweetwater 10,000 men, women and children gathered for a one-day celebration of the authorization of an institution of higher education. Many came from points hundreds of miles distant from the local joint of the day's events. It was a wonderful demonstration of the interest of West Texas in higher education. It was a gathering possibly without precedent."

"Lubbock will be able to add the actual site to the authorization of the college. It has the concrete evidence of the reality of the college in the making. One can guess the enthusiasm and the depth of emotion that

will be reached in the coming jubilee. 'Fort Worth must send a large and representative delegation to Lubbock. It is not self-interest alone that dictates such action. The interests of this community in education, its kinship with the West, its neighborly joy with West Texas and with Lubbock in the triumph that crowns the long fight for a state college in the western portion make it imperative that Fort Worth be at Lubbock Aug. 28 of the state—all these things in full force.'"

EDITORIAL COMMENTS ON THE TECH. COLLEGE

Ralls and The Tech

Lubbock was selected as the proper place for the West Texas Tech College, and in our opinion it was the logical place. The college being located at Lubbock (32 miles from Ralls) will mean as much to us as if it were located in our own county. The college at Lubbock will cause Crosby County to develop ten times faster than it would otherwise—it will mean hundreds of new people for us—a larger and better town. Opportunity now knocks at our door, and lays prone before us, it is but necessary that we grasp it. Ralls needs a few improvements that it must have and among them is a water system. This proposition should receive your consideration at once."

"Our citizens must wake up to the magnitude of the proposition that is before us. We must take time by the forelock and get in action. Before many moons people who desire to be near the college will be looking for a location and it is up to us to prove to them that Ralls is the place that they should live."

West Texas and The Tech

Lubbock, a sister city of our great West Texas, got the new Technological College that is soon to be erected and let us hereby pledge our support and hearty co-operation to Lubbock. The 'Tech' will be a great boon to our West Texas boys and girls."

"Lubbock is planning a big celebration August 28th at which time Governor Pat M. Neff will be present to deliver the principal address of the occasion. All who possibly can should attend this jubilee and help Lubbock to celebrate the coming of the 'Tech' for Lubbock's gain is also the gain of all West Texas."

"Let's get behind any movement that is for the advancement of West Texas and the Panhandle, and push it to the extent of our ability. As far as we, personally are concerned, we are for West Texas now and forevermore."

"And we say, 'Hurrah for Lubbock!'" Silverton Star

What The Tech Means to Lamesa

The location of the Tech College at Lubbock means that in the next two years there will be created there

a college which is only one of its kind west of the Mississippi river and there are only four in the United States. This means a specialty school and not one as some understand for the general education. Lamesa was never an applicant for the school as the observation of those who have observed College Station understand that that school of general education for boys has done little for that place."

"37 other towns lost but we notice they are grieving little over it. Let Lamesa furnish the splendid soil we have to offer. Give us another railroad and we will grow to a city second to none on the Plains. We hope Lubbock will realize her fondest hopes in this school and what we are saying is in no sense aimed at the idea of any harm to our sister city but just to put a lot of our readers right on the fact that such a school will make a city out of Lubbock and benefit all other towns. In the next two years you will observe a slight growth in Lubbock and no injury whatever to other towns. We at first viewed the matter as an injury to others but all that it may mean and we hope it means much to Lubbock it is going to have little to do with other towns." Lamesa Reporter.

The real West Texas spirit was never more thoroughly demonstrated than the past few days have shown it in the loss of the Texas Technological College. Many West Texas towns are showing up in a bigger way than they have ever been permitted show themselves by the great spirit of good sportsmanship with which they take their loss of this coveted prize. Lockney Beacon.

Panhandle Pleased

The entire Panhandle takes pleasure in knowing that the Tech College is located at Lubbock. There were other good towns that were candidates, but by the school coming to Lubbock it is located above the Cap Rock and is really in the Panhandle. The fact that the school would come to the Panhandle was hardly a possibility, but it is now a reality. The Panhandle coming into its own power, and telling east Texas that we demand 50-50 deal from here on out. It means that the Panhandle will be well supplied with educational facilities, thank you. With the Baptist College at Plainview, the Methodist College at Clarendon, the West Texas State Teachers' College at Canyon, and the Tech college at Lubbock, there will be no need for Panhandle young people leaving home to finish their education. The Panhandle per capita will now perhaps be better supplied with junior and senior colleges than any other portion of Texas. Here's a hand to Lubbock for pulling the plum. The towns of that portion of the South Plains united in pulling for Lubbock, so the school was not located at one town, but was rather located in one section. With the big university for a pulling power it probably means that more railroads will center in that section, perhaps roads will build there and on to connections with other roads in New Mexico. Canadian Record.

The News congratulates Lubbock in landing the new Tech College. Every town in the race made a clean square fight, and the victory of Lubbock is a victory for the Panhandle country. Mr. Brallex, Mr. Brazel

Mr. Marrs all stated time and again during the time of inspection that the people of the town winning the college should not expect too much of the school to start with. It is true that the Tech starts out with more money for a physical plant than any school which has ever been started in Texas, but schools do not grow over night. The Tech will be a great school if all of the people of West Texas show as much enthusiasm for its maintenance as they did for its creation and location, but it will have to have time in which to grow. —Randall County News.

JAPAN'S PRINCE CLIMBS FUJI SACRED MOUNT

By CLARENCE EDUBOSE (United Press Staff Correspondent) TOKYO (By mail to United Press) Crown Prince Regent Hirohito and his brother Prince Chichibu are running a race for popularity and sports leadership in Japan. The future Emperor is in the lead. Perhaps no member of the Japanese Imperial family has ever been held in as much popular esteem as he is.

His latest stunt is to climb Mount Fuji, Japan's Sacred Mountain, the ascent of which every Japanese hopes to make at some time. During the summer season when the snow has gone and the trails are passable, thousands of pilgrims from all over the empire flock to Fuji and swarm up its sides. The pilgrims are garbed in white. They wear girdles of jingling bells. They pray at the many shrines on the mountain and the objective of one and all is to reach the very summit in time for sunrise, and how low and cry "Banzai" to the "rising sun of Japan," as it sweeps up from beyond the sea.

A. B. ELLIS VISITING ATLANTIC CITY RESORTS

A member of the Avalanche force is in receipt of a card from A. B. Ellis, of the Lubbock State Bank, stating that he had been enjoying the cool waters of one of the world's greatest resorts at Atlantic City. Mr. Ellis did not state when he would return to his home here, but he is expected about the 1st of September.

Well, the Prince Regent went up Fuji just like anybody else—the first of his line ever to do this thing, which means so much, sentimentally, to every Japanese. The people hailed it as just another proof that their future Emperor is a regular fellow.

ASSISTANT EDITOR THE EARTH HERE FOR TODAY

A. M. Hove, assistant editor of The Earth, Santa Fe publication, is here today from his home at Amarillo. Mr. Hove has shown a great deal of interest in Lubbock and the South Plains and we are always pleased to have him visit here. The Avalanche received a very pleasant visit from Mr. Hove. —Avalanche Want Ads Pay.

The Last Call of the Big Clean Sweep Sale

The Last Day Has Now Arrived

The last day of the Clean Sweep Sale has arrived. With the close of business tomorrow night the Clean Sweep Sale closes. It has been a wonderful sale, a sale that has received the large response that the remarkable reductions justified, a sale that has made new records in value giving in Lubbock. One more day remains for you to supply yourself in every line of summer goods reductions are now the most severe. Complete your purchases tomorrow.

LADIES GARMENTS

Throughout the entire ready-to-wear department final reductions are now in force. In every case reductions approach half price, in some cases they are less. No matter what your needs may be in these lines you can supply yourself tomorrow at a price that will surprise you.

FINAL CLOTHING REDUCTIONS

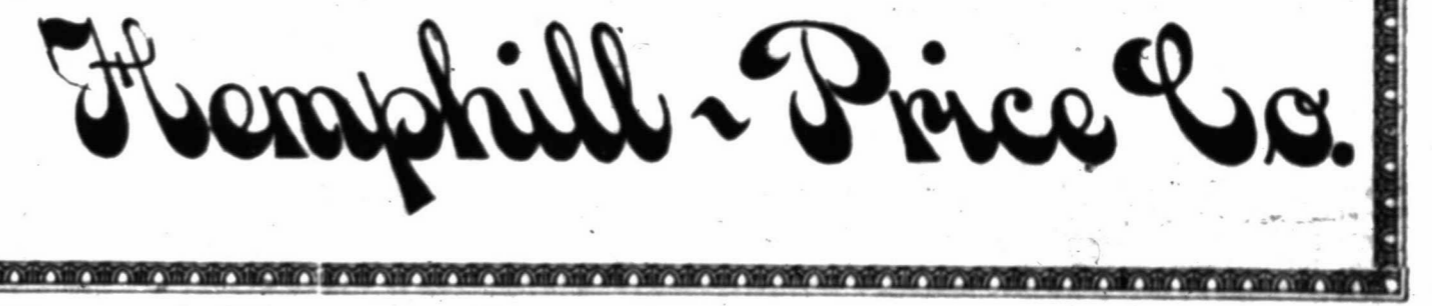

Men's clothing and furnishings appear tomorrow for the last time at these price reductions. Suits in some cases are priced half price—in every case at least 1-3 off. Could you wish a more liberal reduction on standard garments. Practically our entire stock of furnishings are offered at reductions of 1-4 off. Shirts, collars, hosiery, neckwear and underwear can be purchased at this saving. You will wish to lay in a supply for months to come.

DRY GOODS ITEMS

In the dry goods section much most staple goods as well as strictly spring and summer lines are reduced. You will find prices in force tomorrow that will not prevail for months to come. Many broken lines and short lengths are now reduced even greater for the last day's selling, making it decidedly worth your while to be among the shoppers in this section tomorrow.

IN THE SHOE SECTION

In no department of the store are reductions so marked off so appropriate as in the shoe section. Here we are selling many lines at reductions that have only been on our shelves a matter of weeks. In many other lines reductions are made on strictly staple lines that in most sales are never reduced. A visit tomorrow to this department of our store will be most profitable.

THE PEAK OF THE SEASON IS APPROACHING FOR Moline Tractors

If it's plowing you want to do it's the Moline Tractor you want. Gas and oils are decreasing in price and feed is going to be mighty high and scarce. If its cultivating a Moline Tractor IS what you want. When you are ready for the tractor buy the Moline which will enable you to sell your teams, sell your feed and do your farming in a more efficient and economical manner.

The romance of a bewitching South Sea dancer and the American millionaire who tried to tame her.

Alice Brady was never so beautiful, so warmly appealing as in this romance of South Sea, love and New York Society.

Alice Brady as a dark flower of the South Seas dancing her way into men's hearts—as the sensation of New York Society.

Married to a man she hated, what did this primitive beauty from the South Seas do when another man whispered sweet nothings into her ear?
Men called her "The Leopardess" and loved the sweet danger of her smile.

To Ranger By Night

The first day's travel will take the party east to Ranger, with a side excursion up to Breckenridge.

The next day the train will run west to San Angelo, and thence on the Santa Fe to Lubbock, where the third night will be spent.

At Each Stop Along the Way

At each stop along the way the band will remain and lead the processions in the streets of the various towns.

To Meet Sponsors

At each stop, too, the Abilene trade trippers will meet in person the young lady appointed from that town as Duchess to the Queen of West Texas.

A notable addition to the staff of speakers who will be called upon to voice Abilene's greeting to the visiting towns was made Monday morning in the person of Judge Fred Cockrell, who will make the entire trip with the train.

Of special interest for Tuesday's run will be the stop at Cisco, where the business man of the city will meet the train with a large number of automobiles to take the Abilene party for an inspection of the big dam, newly completed, and other interesting spots about the city.

HARDING'S NEWSPAPER CREED

The following is the late President Harding's newspaper creed. It was pasted on the wall in his editorial room in the office of the Marion Star. Others than editors and reporters

will find this creed a good one to live by; there is something in it for everyone. "Remember there are two sides to every question. Get both. Be truthful. "Get the facts. Mistakes are inevitable, but strive for accuracy. I would rather have one story exactly right than a hundred half wrong. "Be decent. Be fair. Be generous. "Boost. Don't knock. There's good in everybody. Bring out the good and never needlessly hurt the feelings of anybody. "In reporting a political gathering get the facts; tell the story as it is, not as you would like to have it. "Treat all parties alike. If there's any politics to be played, we will play it in our editorial columns. "Treat all religious matters reverently. "If it can be avoided, never bring ignominy to an innocent woman or child in telling of the misdeeds or misfortunes of a relative. "Don't wait to be asked, but do it without the asking. "And above all be clean. Never let a dirty word or suggestive story get into type. "I want this paper so conducted that it can go into the home of any one without destroying the innocence of any child."

SPORT NEWS

Roy Morgan Is Again Champion Of Local Club.

ABILENE, Aug. 21.—For the second consecutive year, Roy B. Morgan of this city won the championship of the Abilene Golf Club in the final match played Sunday afternoon. Morgan, won 2 and 1, over his opponent Dr. Roy C. Maddox. The match was a brilliant one, and Maddox lost when his tee shot went into the rough too often. Maddox was the superior of the two players in putting.

A silver loving cup, which was won the first year of the tournaments held by the Abilene Golf Club by Sam Shannon, and which was won last year by Morgan, will become the permanent property of Morgan.

Only one match in the entire tournament remains to be played, this being between A. T. Jones and J. N. Hodge for the title in the first flight consolation. It was not definitely known Monday morning when this match will be played off.

Mrs. Avery Turner Makes Club Course In 43; New Record.

AMARILLO, Aug. 21.—Another course breaking the former record of the Amarillo Country Club when Mrs. Avery Turner shot a 42 over the course breaking the former record of 44.

Recently W. A. Brown broke the record for men by making the course in 33.

THE T-ANCHOR BOYS WILL MEET IN REUNION NEXT THURSDAY

CANYON, Aug. 21.—The old cowboy reunion will be held on next Thursday, August 23rd. J. E. Prichard offered the use of his home, the old T-Anchor headquarters for this reunion, and all of the old timers will visit the place during the day. But the reunion proper will be held at the Wragge Park owing to the splendid shade. Invitation has been sent to all of the old time cowboys of the Plains who saw service here in the 80's.

Guss Lee, old negro cook at the T-Anchor headquarters, will come from Roswell and superintend the noon feed as he did at Hereford last year.

An interesting program has been arranged, as follows:
History of the Old Ranch House and the Graves on the Hillside—Judge L. Gough, Amarillo. The boys will know him as "Parson."

Panhandle Old Settlers—Judge Tom Turner, Amarillo, who likes all the boys and does not tell all he knows.

A round-up of the Older Days—Sid Boykin, Clovis, New Mexico, who knows what a "Roundup" was.

A Boy's Recollection of T-Anchor Cowboys—Horace Russell, Amarillo, whose childhood was spent near the ranch.

Tales of the Trail—E. P. Earhart, who drove cattle from Texas ranges to Kansas City markets and

can tell you all about it. He lives in Lubbock.

Patching up the Cowboy—Dr. J. H. Wayland, who drove all over these plains saving the pieces of the cowboys who had "mixed it" with another cowboy or Spanish mount.

Round Table—One Amusing Thing That I Remember—All the boys get a chance to talk in this feature. They each have one pet story, maybe they will jar loose from it here.

All the program will be interspersed with cowboy songs led by Wallace Clark of the Teachers College at Canyon.

The guests eligible for this day are the cowboys of the entire Panhandle who lived here up to and including the year 1890. Those wishing to get permits to enter the grounds will write to either of the following: A. H. Elliott and Walk Bradley of Hereford; Ed Baird and Isaiah Jenkins of Canyon; Vas Stickle, Canadian and L. Gough, Amarillo.

All wishing to camp the night before will find accommodations on the grounds.

Chuck Wagon grub will be served but everybody is asked to bring a basket for reinforcement of Gus Lee, the old ranch cook who is retiring to come.

LOCAL PEOPLE VISITED THE WHITE MOUNTAINS IN N. M.

Mr. and Mrs. Walter Clark, accompanied by Mrs. C. P. Simpson, returned to their home here yesterday from a trip into the white mountains of

New Mexico, where they spent ten days. The trip was a very enjoyable one, and they are eager for another such vacation.

A descendant of Christopher Columbus was recently admitted to the bar in England.

THE THEATRES

WHAT YOU CAN SEE TODAY

A VITAL QUESTION

It is Raised By Story of Alice Bradys "The Leopardess."

Suppose you were taken from your home town and forced to live among the Eskimos in Alaska or Iceland? That would be about as bad as the fate that befalls Alice Brady in her latest Paramount stellar production, "The Leopardess," which will open at the R. and R. Theatre Wednesday. A young South Sea half-caste girl, Miss Brady is married to an American adventurer. Against her will, he takes her back home with him and presents her to his friends prominent in high society. Events of the most dramatic description follow in quick succession. How the girl meets the man she really loves and gains her freedom through the vengeful act of a leopardess whom her husband vainly sought to tame, is graphically told. Edward Langford plays opposite the star and heads an excellent supporting cast which includes Montague Love, Charles Kent, George Beranger, Maxine Forrester and Glorie Ellis.

IMPORTANT NOTICE!

The Church of Christ Revival Meeting has place has been changed from the City Auditorium to the church building at corner of Broadway and Avenue N.

Brother J. B. Nelson will continue to do the preaching. His ability to present the Gospel clearly, forcibly, yet very kindly, will interest you. We are anxious for you to meet with us and enjoy these lessons he so earnestly presents.

A glad welcome awaits you. Come.

It had been a romantic fancy day, seated in place, I would have knelt, the haired boys knee. My hair and they are young love. The many times the story-told-eyed audience. I know the disillusionment mothers try abolish the fully, "Some care much aren't like. I used to to my mother one how—probably he not to their ably listened of today, by themselves. It took me to learn my to the fact would not but at last defeat in of has now be dious thing. I have a miser which happiness—up our sto or one of the times—we quietly unt along and sometimes nursery rh thinking up turn before of us, my started on switched in the "Now she cannot Mother to Ge loves to te she sees it girls who it day for we and grow fter until I of goodness get in one each night short and which can making of most popul. I have le and make pride in m me to it an ful for my than that I sery "The happy. Let it be guide their laughing ca story always they will knee by th well as you for the ho so vividly. In regard of which a I will say it will not an effort things, bu effort not a case, slip ered and— Man wa being in t Placed in den called the fish of the and o over cree upon the (Adam) which he the Lord saying "O thou may tree of k thou shalt day that shalt sure Now th than any the Lord unto the said, ye of the ga unto the fruit of f of the fr the mid said ye s shall ye t serpent s not sure Now i which U discussed so then while di : The s the pena takes the the pena We deny is the s is etern Now i subjects cussion for the propose settle e be a fr bot hto both aid in the c will be the Bibl We v tions of lawyers (as ma bers) or not our cau I hav all who to resol both m

HOME EDUCATION

It had been one of the many romantic fancies of my life that some day, seated in front of a glowing fireplace, I would observe that holy of holies, the story hour, with my fair-haired boys and girls gathered at my knee.

I took me a rather long time to learn my lesson. I hated to give in to the fact that I was beaten and I would not give up that story hour but at last I was forced to admit my defeat in order to keep the hour that has now become an even more precious thing than I had envisioned it.

I have come to a happy compromise which is really what all great happinesses are based on. We make up our stories together. I start in or one of the children starts, or sometimes we all just sit there ever so quietly until a new thought comes along and hops right out of us.

I have learned how to tell a story and make it interesting. I stubbornly pride in my romantic fancy brought me to it and for once I can be thankful for my stubbornness but more than that I have learned how to observe. The story hour and shake it happy.

Let it be the children's story hour, guide their shapeless thoughts into laughing channels but let it be their story always and you will find that they will have their time at your knee by the soft firelight quite as well as you and be willing to sit there for the hours that we all think we so vividly remember.

DEBATE

In regard to the debate the notice of which appeared in the Avalanche, I will say that in these discussions it will not be, as are some debates, an effort to say cute and cutting things, but an honest and earnest effort not to try a case but review a case, already tried, a verdict rendered and a sentence passed.

Man was created perfect, a human being in the likeness of his creator. Placed in a perfect place, or a garden called Eden, given dominion over the fish of the sea and over the cattle and over all of the earth, and over creeping things that creepeth upon the earth. God made man (Adam) a real king over the earth which he had formed for man.

Now the serpent was more subtle than any beast of the field which the Lord God had made and he said unto the woman "Yea, hath God said ye shall not eat of every tree of the garden?" and the woman said unto the serpent: "We may eat of the fruit of the trees of the garden, but of the fruit of the tree that is in the midst of the garden God hath said ye shall not eat of it, neither shall ye touch it lest ye die."

Now there are two statements on which the first proposition will be discussed. Does man really die. If so then he must remain unconscious while dead.

Now in the discussion of these great subjects we will enter into the discussion with earnestness, reverence for the book and its authors, and propose to let the Bible testimony settle every point of issue. It will be a friendly effort on the part of both to bring out all the facts on both sides. We invite every minister in the city and country as our efforts will be to see if the true teachings of the Bible is now being maintained.

I have selected an off time as that all who will, may attend. We wish to resolve all who attend into jurors, both men and women, so they may

judge what our findings are. Whosoever will, let him come and be with us.

WELTON WINN DR. SUTTON ISSUES STATEMENT REGARDING COMPREHENSIVE SURVEY

AUSTIN, Texas, Aug. 20.—The following statement has just been issued by Dr. W. S. Sutton, acting President of the University of Texas.

"In view of the fact that the Thirty-eighth Legislature made an appropriation of \$50,000 for a comprehensive survey of the educational system of Texas, and that a public meeting will be held at Waco on August 21 to consider ways and means whereby intelligent and patriotic citizens may assist the purposes of the survey, the Board of Regents of the University of Texas wish to express its sincere gratitude to the Legislature for making possible such a forward-looking investigation, and to offer its earnest cooperation to the citizens gathered at Waco on August 21. Such a survey will be a mass wealth of instructive information concerning the origin, growth and present operation of our system of public instruction, and facing the facts thereby disclosed candidly and impersonally, the survey commission will make constructive recommendations accordingly. The regents are of the opinion that one of the most valuable services which the Waco meeting can perform will be to make efficient provision for presenting forcefully to the public in language easily understood, the findings and recommendations of the Commission. It is an opportunity which will not be repeated in one generation to inform the people of the purpose, character and value of every phase of the State's educational system."

LANGLEY, MOTHER SHIP TO AIRCRAFT, BEING SHOWN TO THE PUBLIC

WASHINGTON, Aug. 21.—(United Press.) The U. S. S. Langley, a floating airplane, is making an exhibition tour of the Atlantic Coast.

Airships are launched from the landing deck of this mother ship 75 feet above the water and return to be trapped in a network of wires which can stop an airship in 30 feet. In 500 landings there has not been a miscue.

The ship, as seen from the shore, appears to be a floating motion picture set, with its top deck as an open-air stage. Steaming about the ship is an odd appearing spectacle with a stockade built as a wind break for the planes on the side.

When a ship is to be sent off, all projections above the deck line drop from sight. The smokestack hands over, flagpoles sink and the big steel stockade pickets drop from view. Then the first airship takes off in 60 feet. Ships are sent off at intervals of a few seconds. When they are ready to land they make three circuits of the ship, feeling prevailing wind currents. Then moving as slowly as possible the plane is flown at a height of 12 to 20 feet over the stern of the Langley, dropped to the deck and halted within a few feet by the special landing device developed by the navy.

One Every Two Minutes. A ship can be landed every two minutes. It requires thirty seconds to stop the plane and a minute and a half to release it from its trapeze bonds and taxi it up to the starting line.

A net similar to that used by circus acrobats is stretched over the sides of the Langley. When a plane is ready to land or take off, all operating help drops into these nets so as to absolutely clear the deck.

The water supply of Fort William, Ontario, was too pure, which is something new in municipal experience. The water had no sediment formation when put in tanks, and the linings of the tanks were exposed to the full oxidizing influence of aerated water.

The only successful substitute for brains is silence.

Nearly all men about town are about broke.

RAYMOND BARRIER AND FAMILY ENJOYED MOUNTAIN TRIP

Raymond Barrier, of the Barrier Brothers Department Store, who, together with his family and father, R. B. Barrier, made a trip to the White Mountains of New Mexico and the Davis Mountains of Texas, reports having enjoyed every day of the trip.

Mr. Barrier has been on the job very close for the past several years, and the trip was a deserved and needed one. We are pleased to notice that he is back on the job with more vim and pep than ever, ready for any of the tasks that are common in the management of the big store.

'SOLD SOUTH' WANTS BOTH THE CANDIDATE AND CONVENTION

ATLANTA, Ga., Aug. 21. (United Press.) The "Sold South" is going to demand payment for the long years of loyal service to the Democratic party.

The bill, now considered overdue by Southern politicians, will be presented in the form of an invitation for the party to hold its next national convention in the Southland and a request that the candidacy of Senator Oscar W. Underwood for the presidential nomination be endorsed.

Organized efforts are underway to back up the item regarding the national convention. Atlanta interests have solicited important personalities in the party seeking support for its plan to hold the coming convention in Dixie. A number of party leaders have pledged their cooperation.

Atlanta, aside from the claim that it is a moral obligation of the Democrats to meet at that city this year, will point out that it has ample quarters for the convention, scenic, adequate hotel arrangements and, generally, as accessible as New Orleans.

Senator Underwood is expected to announce his candidacy for the presidential nomination in a recent speech in Montgomery, Ala., and the keynote of the South's plea for endorsement of a native son.

The time has come, Underwood declared, when the "Sold South" should ask of the Democratic party that "a son of the Southland should once again bear the banner of democracy."

"I am sure that our brethren from the north are no longer considering as a vital question the state from which the candidate hails; but their first thought is the principles for which he stands and their second the character of the candidate."

The South plans to use only moral suasion to secure payment of its bill, but it considers it has a legitimate claim and will press for payment.

Wind Damaged Barn and Silo at Medlock Dairy Mon. After'n

J. A. Medlock, proprietor of Medlock's Dairy, sustained about a seven hundred and fifty dollar loss as a result of the high wind here yesterday afternoon.

One of the large silos on his place was torn down by the wind, and a barn nearby was very materially damaged.

Another silo of equal size, and built upon identical foundation, and which was only eight feet from the one that was blown down was not effected at all by the wind.

Though the Medlock place is well stocked with dairy cattle, hogs and chickens, they were, fortunately, not near the destroyed buildings and were not hurt.

RICHEST FARMING COUNTRY IN WORLD TO HAVE A 'CHEESE DAY'

MONROE, Wis., Aug. 21. (United Press.) Cheese, great round wheels of Swiss cheese, will be given away in a million sandwiches when this fertile dairy country, "The Switzerland of America," celebrates its first cheese day since the outbreak of the war.

One-third of all the Swiss cheese in the world is produced here in Green County. On October 2 and 3, the cheese-makers are prepared to welcome 35,000 visitors from a half dozen states. Seventy-five years ago a little band of 155 sturdy Swiss led west in covered wagons to a spot in Wisconsin they had been told about before they left their Alpine home.

They had 24 square miles in which the descendants of this little group

live represents the wealthiest farming area of its size in the United States. There are only four people to every auto in the county. There are three cows for each of the 16,000 inhabitants.

On Cheese Day the sports of old Switzerland will be revived. There will be Swiss yodeling, turning, wrestling, and dancing in the public square. Dairy maids, in the quaint costumes of the Alpine meadows, will display fat Holsteins, bedecked with ribbons, in the new \$35,000 sales pavilion, built by dairymen.

Underneath Monroe stretch miles of darkened tunnels where thousands of tons of cheese are aging to that proper degree of sharpness to command highest prices on eastern markets. It is all Swiss, Ilmberger, and other foreign varieties.

Blowing red-hot rivets through a hose of metal is replacing the old "rivet tresser" and the boy with the "catching can" as a means of transportation. The new apparatus is known as the "Penflex Rivet Gun" and consists of a galvanized metal tank with a connection welded to the side for the air supply line. The discharge valve is opened by a movement of a steel rod attached to the treadle. A metal receiver with a buffer block is at the discharge end of the conveyor tube. This prevents the plastic rivet from being

deformed when suddenly arrested upon reaching the end of its run.

Golfers and woodpeckers are about the only birds who use their heads to get into the hole.

Some men argue with their wives. Others are single.

HEALTH

By the American Child Health Association.

Diseased tonsils and adenoids among children offer serious economic handicaps to the community, warns Dr. Emil Krulish, of the United States Public Health Service. And while public health education is making progress in remedying these conditions, more communities should provide school inspectors to detect ailments which now retard mental evolution and physical growth during youth, and create future opportunities as the young victims grow up.

Writing in "Mother and Child," the magazine of the American Child Health Association, Dr. Krulish declares: "although the relief is comparatively a simple procedure and the improvement resulting therefrom almost miraculous, yet the effects of neglect are too often manifest in every community, in some cases due to ignorance and in others to gross neglect of parents or guardians."

From the mild cases of "mouth breathers", adenoids, Dr. Krulish says may develop earache an dimpair the hearing, may make the little victims easy prey of other diseases, diminish their capacity for study or play, and even cause death. The action of adenoids grows in limiting the amount of air possible for the child to breathe, he points out, is often the cause of "pigeon breast" and permanent deformities of the features. While adenoids are not hereditary, he says, they are often a family characteristic. Damp or unequal climatic conditions are contributory causes.

While the tonsils under normal conditions become much less prominent during adolescence, Dr. Krulish says, repeated attacks of tonsillitis in childhood, climatic inequalities, and irritation and inflammation of the throat accompanying diseases of childhood often lead to diseased or enlarged tonsils. Infected tonsils, warns, are now considered to be one of the chief causes of rheumatism, while enlarged glands of the neck are frequently due to chronic tonsillitis and not to tuberculosis.

In both cases, says Dr. Krulish, operations for the removal of these are the only efficient remedy, as sprays or gargles only offer temporary relief. Danger in connection with such operations, he declares, is practically nil when performed by competent surgeons under proper conditions, and he warns: "a little attention in early life will often insure a child's future, whereas neglect will never be forgiven if the child attains an age to realize the impediment which has been forced upon it."

Cases are cited of the improvement noted in the child's health, appetite, mental development and general condition, in one case a mother reporting that her son was "so full of mischief" that she almost regretted the operation.

Commenting on the fact that "parents are too often opposed to physical examination of school children on the false theory of personal rights and liberty," Dr. Krulish finds "education is rapidly removing such antagonism, and it is but a question of time before every community will appreciate the economy of preventive medicine."

"The community will be fully compensated for the additional expense incurred," he says, "by the greater number of healthy men and women and their increased earning capacity."

CONTRACT LET FOR BIOLOGY BUILDING AT THE STATE UNIVERSITY

AUSTIN, Texas, Aug. 20.—Contract for the new Biology Building to be erected on the University of Texas campus was let at a meeting of the Board of Regents held August 13, the total cost of the building to be \$358,137. Wattinger Brothers of Austin was awarded the general contract for the new building at a figure of \$318,640. The plumbing contract was given to Charley Brothers of San Antonio at a figure of \$20,579. The heating bid went to John L. Martin of Austin at a cost of \$14,558, and the elevator contract was awarded to the Otis Elevator Company at a figure of \$4,260. In each case the contract was awarded to the lowest bidder.

The Herbert M. Greene Company of Dallas are the architects, having recently been appointed by Board of Regents as architects for the University of Texas work.

The building is to be located on the site of the present E and K Halls, immediately east of F Hall and within 35 feet of the north line of the present campus. This location is in accordance with the new campus plan placing the building in the science group, with the east end of the future avenue running north and south through the center of the new campus. It is the first building to be built with reference to the new campus plan recently adopted tentatively, by the Board of Regents, and marks the first step in the University's plans of extension.

The height of the new structure is three stories in addition to which is a full basement and an attic story. The dimensions are 192 feet in length on the north and south fronts, by a width of 66 feet, the building being rectangular in shape.

The exterior design is in adapted Spanish Renaissance in harmony with the Library and the Education building, the most recent of the permanent buildings. This style is to be carried out in the future additions to the campus and is most logical from the viewpoints of beauty, adaptability to climate and historic tradition. The base is of rusticated Texas limestone and the first story of the same material in plain ashlar. The second and third stories are of buff colored matt brick while the trim around the attic windows, under the cornice is of polychrome terra cotta. The wide overhanging cornice is of wood, touched with color; the roof of

Spanish tile in variegated shades or red.

The floor plan arrangement is the result of the most careful and thorough study on the part of architects working in collaboration with the biology faculty making the building one of the best and most modern of its kind in the country. It contains a total of 18 laboratories for faculty research work. Twenty offices afford the necessary office space for the majority of the teaching staff. There are three lecture rooms, the largest of which is at the east end of the ground floor and has a seating capacity of 200.

The attic space has been economically utilized for the biological museum. On the third floor is the library while throughout the building are such other appurtenances as photographic dark rooms, constant temperature rooms, store rooms, animal rooms, etc.

The building is fireproof throughout, the floors and stairs being of reinforced concrete, wall bearing construction, with steel trusses supporting the roof.

Rix Store Is to Be Headquarters for the Plainview Delegation

Jed Rix, of the Rix Furniture and Undertaking Company, has just received a letter from John L. Boswell, secretary of the Plainview Board of City Development, stating that Plainview will accept the invitation to make the Rix store headquarters on that date.

Mr. Rix together with the other businessmen of Lubbock, sent out invitations to all towns in West Texas to make their headquarters at the respective stores, and this reply to Mr. Rix is believed will be similar to those that will be received by other businessmen.

Plainview, according to Mr. Boswell, will be represented at the Tech celebration to be held here on the 28th, by its boy band, together with a large delegation of citizens.

The Plainview Board of City Development has been busy encouraging other towns of Hale county and that vicinity of the plains to send large delegations to the Tech celebrations.

"HEALTH GAME" HELPS THE KIDDIES TO ENJOY LIFE

"And when the children gathered around the picnic table everyone's hands were clean." To anyone who has ever had a big bunch of kids on a picnic this may sound like a fairy tale. But it's not. It is part of a report of a unique picnic which a group of sixty children at Fargo, N. D., held not long ago. The report was made by Dr. William J. French, who is conducting a Child Health Demonstration in Fargo to show what any American community can do to improve the general health of its kiddies. The demonstration is financed by the Commonwealth Fund and directed by the American Child Health Association.

Another thing that made this picnic unique was that the children themselves prepared the food and served it themselves. There were only two grown-ups there. The hand scrubbing was a part of a health game which the children have been playing since the demonstration was begun some time ago; and there was no compulsion about it. Another part of the health game was the eating of fruit and vegetables as a part of the picnic meal—this being also a choice of the children themselves.

This attention to the health game didn't interfere with the little picnickers having a good time. Dr. French reports, and they all want to have more picnics.

SCHOOL WORK

Requires close application and continued concentration day after day of

EYESIGHT
Hundreds and thousands of school children have either abnormal vision or eye strain that are being neglected.

CONSULT US FREELY
In confidence regarding your child's eyesight, which is essential and indispensable in every calling and avocation in life.

YOU CAN KNOW
After a careful scientific examination whether your child's eyes are abnormal and in need of help or not. We make a specialty of children's eyes and the complicated cases.

SIMPLE CASES REQUIRE
Skill in order to avoid future trouble. We will be perfectly frank and honest with you, and if glasses are not required we will so advise.

NAVAL OFFICER, OUT OF A JOB, STARTS A BAR

TOKYO (By mail to United Press)—The Washington Conference has added another bar to Tokyo's Great Wet Way.

A good many Japanese naval officers have found themselves out of a job as a result of naval reduction. Among the lot left high and dry was a young lieutenant, who had learned a lot of things in the navy besides the operation of ships and guns. It seems that as he journeyed up and down around the globe he specialized, as a sort of side-line, in learning in each land visited all the lore to be had about the gentle art of cocktail compounding.

So, when the Washington Conference scuttled this lad's job, he simply hired himself a cozy little place in the heart of the downtown district and began to commercialize all that he had learned about cocktails up and down the Seven Seas. The sign in front of his place reads: "Amateur Stand Bar." He is insistent upon being recognized as a gentleman amateur and not a professional in the cocktail industry.

His invitation to patrons reads: "I have been in all climes and places throughout the world, where I have picked up the art of mixing cocktails of all varieties, kinds and shades. There is no cocktail unknown to me, and I can invent

many. I can satisfy the most discriminating taste in Tokyo." An American read that, walked in and asked for a Volstead cocktail. The amateur Japanese bartender, without batting an eye, shook him up a bunch of plain water and charged the usual price.

C. E. YAGER SPENT SUNDAY DAY AT ABILENE

C. E. Yager of Yager's Shoe Shop, visited homefolks at Abilene Sunday, returning to his home here Monday morning.

Mr. Yager stated that section of the country did not receive any rain last week, and that crop prospects are not as good as is usually the case this time of the year.

Business is especially good there and shows the substantiality of Abilene, Mr. Yager stated.

NATION OF 200,000 OR RUSSIAN PROVINCE IN 100 YRS.

By GUS M. OEHM (United Press Staff Correspondent) BERLIN, Aug. 20 (United Press)

—One hundred years from today Germany will either have a population of 200,000,000 or be a Russian province, according to Professor Dr. Grober of Jena university.

Pointing out the rapid strides being made in England, the United States and South American countries in the matter of eugenics, Dr. Grober

declares unless Germany wakes up to the need of spreading information on this subject Germany is due to national extinction.

"It will be necessary for us, if we do not wish entirely to withdraw from the battle of people, to interest ourselves in the spreading of eugenics knowledge," Dr. Grober said, "otherwise we will either disappear or become a meaningless people. We will either have a population of 200,000,000 or become a Russian province within the next 100 years."

"Nowhere in Germany are the universities and schools of higher education interesting themselves in the

matter of maintaining the German racial stock. The example of England and her colonies, North America, the Latin countries of South America and more recently Sweden and the results of their endeavors should awaken Germany. We at Jena are taking an initial step in the right direction—in an effort to purify and lengthen human life. We have established a course in eugenics, which we hope will be the forerunner of similar courses throughout Germany. Our national existence upon how we take hold."
