G. O. P. SUFFERING FROM SCANDAL

Junior C. of C. Opens Tree Planting Campaign

CITIZENS ARE URGED ASSIST THEIR PROGRAM

PAST EXPERIMENTS SHOW TREES FLOURISH WITH VERY LITTLE CARE

It does not take a full meeting of the Junior Chamber of Commerce to start things. A half dozen or so can get together and launch a movement that will catch the popular mind of the citizenship of the city and with the help of the rest of the bunch, put it over in real city style.

Notices were mailed Saturday noon for a Junior Chamber of Commerce meeting for Monday morning. So many of these were delayed in the heavy volume of Sunday's mail that only a few men were present but the question of tree planting was brought up and thoroughly thrashed out. The excellent work being done by the county in the county recreational park east of town was commented upon and it was decided that the Junior Chamber of Commerce take active steps for the encouragement of tree planting in and around Lubbock for the coming four weeks and that every home owner and property owner be urged to plant some kind of trees, vines, hedges or other similar plants in front of their property, in the back yard and around their places.

Trees Will Grow in Lubbock—Why Not More of Them. It was pointed out that throughout the South Plains section trees will make a most gratifying growth if given half a chance. The exceptional work done by the state experiment farm two miles east of Lubbock is an indication of what every farm and city home in this section could and would look like if given half a chance. More than fifty different kinds of trees, hedges and evergreens are growing at the experiment station and most of them are doing most satisfactorily well and making good progress from year to year. They require very little water or attention after being properly planted and add more to the appearance of the place than any other one factor.

All over Lubbock are homes that stand out on account of the beautiful trees that were planted three, four, or ten years ago. Plainview is one of the most beautiful cities in Texas as a result of a series of tree planting campaigns that have been waged in that city in past years. Now the annual home beautiful campaign where honors and premiums are given for the best kept and most artistic planted yard and home each summer keeps the city in the very pink of civic perfection and is one of the best advertising stunts they could possibly pull. Lubbock can profitably pattern after Plainview in this work.

With the coming of the Tech college it is particularly necessary that Lubbock give attention to beautifying the homes of the city, the planting of trees, of flower gardens and the purchase and maintenance of suitable public parks. Property is high—that is true and it will cost a lot to purchase suitable tracts for park purposes but it is not one-tenth as high as it will some day be and sooner or later the city is going to have to put in some public parks. Why not look ahead and make the first investment now, plant the trees and let them get started to growing—then when we are ready to make real parks out of them they will already be well started.

Letters To Be Written, Stories Feared. Letters will be written to new property owners as they are brought to the attention of the organization thru newspaper stories, reports, etc., asking them to plant trees as they build. Stories will be carried in the newspapers—full co-operation of both of which has already been assured—attention will be called to the matter at the luncheon clubs, the

\$1,000,000 TRANSFERRED BY TRUCK TO BANK

By United News. EL PASO, Texas, Jan. 28.—One million dollars in hard cash came rattling down the main street of El Paso at 10 o'clock Monday in an old truck, being transferred from the Federal Reserve Bank of El Paso to the City National Bank of El Paso. The transfer followed loan losses sustained by the City National bank which caused unwarranted rumors regarding the solvency of the bank to arise. National bank examiners are wholly satisfied as to the solvency of the City National bank. It possesses ample cash resources for all needs, they explained.

Railway Strike Settled.

LONDON, Jan. 28.—The British railway strike has been settled following an all night conference between the railroad managers and the executive committee of the striking engineers and firemen, according to the Central News. The manager summoned the strike leaders into conference early in the evening.

FOUND GUILTY OF FRAUDULENT USE MAILS

HOUSTON, Texas, Jan. 28.—A federal jury after less than two hours of deliberation Monday found S. E. J. Cox and E. O. Glenn, promoters of the Blue Rock Oil company, guilty of using the mails to defraud. Sentence will be passed Tuesday. Cox, nationally known as an oil promoter, and who was sentenced to the federal prison at Fort Worth in connection with the promotion of the Petroleum Producers Association, a Cook was interested, refused to employ in which Dr. Frederick A. Play counsel and pleaded his own case.

"PULPIT POLITICIANS" WIN FIGHT OVER COURTS

KANSAS CITY, Mo., Jan. 28.—Kansas City ministers apparently have won their fight to prevent the courts from successfully carrying out what they charged was "a brazen attempt to muzzle the pulpit."

Circuit Judge Thad Landon, who started the controversy by rebuking the Rev. Baxter Walters from his condemnation of packed juries and tricky lawyers, which he said were making the courts powerless, had no comment to make on the denunciation of his action by ministers in their sermons Sunday.

In a terse statement, "I have nothing to say," however, Judge Landon left the impression that he was satisfied to let the controversy and as it is.

The Central Labor Union Monday was on record approving Judge Landon's action and rebuking "pulpit politicians."

FIRE AT SPARENBURG DESTROYS MERCANTILE STORE

LAMESA, Texas, Jan. 28.—The General Mercantile owned by Conrad Watson was destroyed by fire, details of how the fire originated is not known. Little or no insurance carried.

PIONEER DIED HERE LAST NIGHT

Uncle Billy Tubbs, well known locally and throughout the South Plains, died at his home here last night at about 8 o'clock at the age of 85 years.

For many years Uncle Billy has been a familiar figure on the streets of this city, having settled here in the early pioneer days, and having carried his share of the burden of hardships which accompany the pioneering day of any new country.

5 REBEL CHIEFS EXECUTED SUN.

REBEL SUFFER HEAVY LOSS ON VERA CRUZ SECTOR; GENERAL IMPRISONED

By United News. JUAREZ, Mex., Jan. 28.—Following the execution of five rebel leaders early Sunday morning Juarez was quiet Monday with no outward indications of high tension.

The rebels were taken to Juarez cemetery at 8 a. m. Sunday morning between an escort of cavalry and infantrymen, lined up against an adobe wall and summarily executed by a firing squad. They died shouting "viva de la Huerta."

The conspiracy, it is authoritatively stated by Mexican Consul Ruiz, was engineered in El Paso and steps will be taken here and in Washington to have the department of justice take action against the El Paso conspirators on ground of violating United States neutrality.

At 3 a. m. Sunday soldiers of the Juarez garrison swooped down on a stall in the public market and there found a cache of bombs, pistols and ammunition.

Then, in various parts of the city they entered half a dozen houses already chosen for search. They found more ammunition and took 17 prisoners.

Colonel Ramon Lopez, in charge of the Juarez garrison, questioned them all. The mayor and other officials sat with Lopez. When the proceedings were finished, five had been condemned to death and 12 to imprisonment at Chihuahua.

The condemned men were: Feliciano Marquez, Augustin Alvarado, Higinio Gomez, Sergio Rodriguez known as "El Cubano" and Francisco Trevino.

The condemned men were given short shrift. They were lined up outside the military headquarters. A company of 50 infantrymen and 25 cavalrymen escorted them to the cemetery about 3 miles south of the city.

There against an adobe wall they were executed, one at a time before

TECH COMMITTEE SPENT MONDAY AT RALEIGH

RALEIGH, N. C. Jan. 28.—A party of representatives of the Texas Technological College at Lubbock, Texas, spent today in Raleigh in conference with President Brooks of the State A. & M. College of North Carolina. The party consists of President P. W. Ross, Mr. John W. Carpenter of Dallas, regent, Mr. L. C. Robert, Jr., of Atlanta, Georgia, Mr. W. C. Hedrick of Fort Worth and Mr. William Ward Watkin of Houston, architects. The Texans were especially interested in the textile department of this institution, as the North Carolina college is now engaged in expanding this department to a very considerable extent. The Texas people found much to interest them in the institution.

After leaving Atlanta and before reaching Raleigh, the party stopped at Greenville, S. C., and at Charlotte, N. C. At these places they visited extensive cotton mills, conferring with men interested in the educational side of mill work. At Greenville they conferred with Mr. B. E. Gear, president of the Judson Mill Company, who was formerly a professor of textile engineering in Furman university, and also with Mr. C. W. McSwain, who is head of a textile school at Greenville. While in Charlotte they were guests of Mr. M. L. Cannon, and visited extensively in cotton mills. It is stated that there are a thousand cotton mills within a radius of a hundred miles of Charlotte.

The party had intended to spend a day at Clemson College, S. C., but on account of the recent sudden death of President Egge and his funeral on January 25, this stop was omitted.

Although the party is largely interested in textile work, they are also making a study of the agricultural department, the academic end, and also the matter of school buildings.

VERDICT OF SUICIDE RENDERED IN DEATH YOUNG SOCIETY LEADER

By United News. BOSTON, Mass., Jan. 28.—Miss Margaret Harding, 24 year old daughter of William P. G. Harding, governor of the Federal Reserve bank of Boston, committed suicide because she was broken in health, it is believed here.

Suicide "with no one else involved" was the report of Associate Medical Examiner Dr. Wm. J. Brickley who signed a burial certificate with the notation "hemorrhage—to be investigated."

Reports that Miss Harding, prominent in Washington society, had taken her life because of a broken romance with Stanley Hawkins, an attaché of the current informant on division of the state department in Washington, were emphatically denied here.

The lifeless body of Miss Harding was found in her room at the family home on Beacon street about 2 o'clock last Saturday afternoon. Sunday night her death was announced and Monday a verdict of suicide came from Associate Medical Examiner Brickley.

According to Governor Harding, who was on his way from New York here when his daughter died, Miss Harding had been in broken health for the past two years, and was sent abroad 18 months ago when her condition showed no signs of improvement.

About a week ago she is understood to have suffered a bad lung hemorrhage and another on Wednesday. Late Thursday she returned from Washington and Governor Harding said he believed she was stricken with another hemorrhage on Saturday and decided to end her life.

Funeral services for Miss Harding were held Monday afternoon in the Chapel of the Massachusetts Cremation society at Forest Hills.

HOUSE GRANTS 25 PER CENT REDUCTION ON INCOME TAX

By United News. WASHINGTON, Jan. 28.—The house ways and means committee late today adopted a provision granting a 25 percent reduction for incomes under \$20,000. It also adopted a motion arbitrarily making all incomes of less than \$5,000 a year subject to the deduction allowed on earned incomes.

THREE CONFESS TO FRAMING ROBBERY

By United News. MISSOULA, Mont., Jan. 28.—Three University of Montana students tonight are facing serious charges as a result of their confessions that they framed the Missoula post office robbery in which they obtained more than \$30,000 early this morning.

Robert A. Heller, of Boston, Mass., who had been working as post office night clerk, first told inspectors that two masked men had overpowered him, taking the registered package containing currency for a local bank.

Later he admitted to postal inspectors that he had planned the robbery with Robert Quackler, Butte, and Bernard A. Quesnell, Kalishell. The robbery was "staged" to fool other postal employees.

VERDICT OF JUSTIFIABLE HOMICIDE IS RENDERED

By United News. EL PASO, Texas, Jan. 28.—Coroner Wilson late Sunday night rendered a verdict of "justifiable homicide" after an inquiry into the killing Sunday afternoon of Jose Apodaca at Canutillo, Texas, 14 miles above El Paso.

Apodaca attacked Constable J. M. Martin with a knife. Martin shot and instantly killed Apodaca.

GRAND JURY RETURNS 8 ADDITIONAL FELONY INDICTMENTS

The Lubbock county grand jury returned eight more felony indictments this afternoon, making a total of 13 bills returned, since convening Monday a week ago.

1000 REBEL TROOPS TAKEN IN CLASH

MEXICO CITY, Jan. 28.—The federal troops pushing forward toward Vera Cruz have defeated the rebel army in a heavy engagement in which 1000 revolutionists are said to have been killed, according to federal sources.

It is expected the key city of Esperanza, now held by the rebels, will be captured by the federals within a few hours.

The decisive engagement was fought en route to Esperanza. President Obregon, telegraphing from Celaya Sunday, reported that Esperanza had fallen.

Obregon, however, is far from the front, and later messages from Secretary of War Zerrano, who is personally conducting the advance on Vera Cruz said that Esperanza had not yet been captured.

COURT BLOCKS STABILIZED SUGAR RATE

By United News. WASHINGTON, Jan. 28.—The supreme court had blocked the only effort made by the government to stabilize the price of sugar, the attempt to stop speculation in the commodity on the New York exchange.

In a decision handed down Monday the court virtually placed its approval on dealing in futures, which were described as "valid and useful" in the opinion written by Chief Justice Taft. The court upheld the decision of the federal district court in New York which refused some months ago to grant an injunction to the government, restraining speculation on the sugar exchange. The suit was brought by Attorney General Daugherty after an extensive investigation, and charged violation by the New York sugar and coffee exchange of the anti-trust laws.

This action of the supreme court brings to an end a case which excited nationwide attention last spring, when sugar suddenly jumped several cents a pound in the course of a few weeks. Women's organizations particularly were active and demands from all sections of the country that the sugar "gouge" be stopped came pouring to the White House.

IOWA CITIZEN AVERSE TO APPOINTMENT BY COOLIDGE

CHICAGO, Ill., Jan. 28.—James R. Howard would rather hoe corn than direct activities of America's shipping interests.

Likewise, Howard's strapping Iowa-raised sons, now attending college, are yearning to once again wrestle with the plow and feed the chickens.

All of which is a consensus of Mr. Howard's way of letting his friends know through a letter made public Monday that he had heard reports President Coolidge intended to appoint him to the shipping board and that he hoped the reports were not true. Howard is averse in any event to residing in Washington.

WITT CLEARED OF LIQUOR CHARGE

The jury in the case of Herbert Witt, charged with violating the liquor laws, returned a verdict of "Not Guilty" after more than two hours consultation Monday evening.

Witt, his wife, father, two brothers and Archie Reynolds, were defense witnesses, while the state only introduced one witness, A. L. Weaver.

Father-in-Law of Obregon Ill.

By United News. EL PASO, Texas, Jan. 28.—Mrs. Alvaredo Obregon, wife of President Obregon of Mexico, arrived in Juarez late Sunday night in the president's private car, en route to the bedside of her father, Colonel Francisco Tapia, who is seriously ill at Hermosillo, Sonora.

A guard of fifty Mexican soldiers accompanied the private car.

RESIGNATION OF MANY OFFICIALS IS DEMANDED

ISSUE LIFTED FROM FALL; HURLED INTO FACE G. O. P. ADMINISTRATION

BY RAYMOND CLAPPER (U. N. Staff Correspondent)

WASHINGTON, Jan. 28.—Political graves are being dug in Washington for the participants in the Teapot Dome and California oil leasing scandals.

The resignations of Secretary of the Navy Denby, Attorney General Daugherty, and Assistant Secretary of the Navy Theodore Roosevelt are regarded as inevitable now. If they don't come voluntarily they will be demanded formally by the senate. Some admirals may also be asked to turn in their commissions.

The growing storm over the oil lease scandals swept on Monday with a fury that amazed the whole capital. Ex-Secretary Fall has become only a pathetic figure in the turbulent scene. The storm has swept over his prostrate form and has struck the Coolidge administration square in the face.

Coolidge in Conference. Coolidge held a long conference at the White House Monday night on the Teapot Dome situation attended by Lodge, majority leader of the senate; Curtis, senate whip; Lenroot, chairman of the investigating committee; Hale, chairman of the naval affairs committee and Peppers, a member of that committee. All refused to say whether the question of Denby's resignation was discussed.

Demands for the resignation of cabinet officers involved in the oil deals showered down on the White House from Capitol Hill during the furious debate Monday. Administration senators sat in dazed silence while democrats, one after another, demanded the head of Denby at once. Not a word was uttered in his defense. It was a spectacle seldom seen in the historic chamber.

Resignations Demanded. The cry for action came with a swift climax at the end of the day. Walsh, moving spirit in the oil scandal inquiry, called for Denby's resignation "before sundown." LaFollette sat with a resolution in his pocket calling for the resignations of both Denby and Daugherty. Robinson, minority leader, hurriedly prepared and offered a resolution asking for the immediate resignations of Denby and officers and officials in the navy department who approved of the leases—a provision directed at Assistant Secretary of the Navy Theodore Roosevelt, Rear Admiral Robinson, and other officers. Unless the desired resignations come forth voluntarily, he will call for a vote Tuesday or Wednesday, and the coalition of democrats and republicans insurgents is confident of being able to pass it.

Responsibility for the transactions which have amazed the country is being shifted from the lone shoulders of Ex-Secretary of the Interior Fall to those of the Harding-Coolidge administration as a whole. During a whole day of hard pounding from the democratic members of the house and senate, the majority members raised scarcely a voice in defense of the administration.

Democrats Charge Coolidge. Democrats bluntly charged Coolidge with trying to involve democrats in the scandals by his midnight statement Saturday night and challenged him to show that the administration as a whole was not responsible for the oil deals now under attack.

Unless the desired resignations come forth voluntarily at once, LaFollette will attempt to force his resolution through the senate, and in view of the coalition majority which the democrats and insurgent republicans hold, it is almost certain of adoption unless it is brought to a vote.

Denby Non-Committal

Denby was silent in face of this demand. "I am saying nothing regarding the Teapot Dome matter," he said. Daugherty is at Miami, Florida. Meanwhile Coolidge was moving

(Continued on Page 8.)

THE WEATHER WEST TEXAS—Fair to night and Tuesday; colder to night.

IDALOU IS ONE OF THE FASTEST GROWING TOWNS ON THE PLAINS HER CITIZENS ARE PROGRESSIVE

Idalou is one of the fast, if not the fastest growing towns, on the South Plains, for though the population has not as yet gone far beyond the five hundred mark, there are five brick business houses, a stucco garage, two residences and other buildings under construction which the writer observed on a recent visit to the fast growing town.

Idalou business men have great confidence in the territory surrounding them and from which the source of wealth is derived, and this confidence more than anything else is giving impetus to the building program.

The farm lands about Idalou are in the very highest state of cultivation. Large herds of fine work animals, dairy and stock cows and poultry flocks are to be found on practically all of these farms, and the harvest that has just been made has been extra good. The gins of Idalou have been kept busy handling one of the biggest cotton crops grown in that vicinity.

The bank deposits of the Idalou bank show the prosperity of the people to be far beyond the average, and the number of new homes thrust out that vicinity are of the most substantial type, being built with all modern conveniences.

Idalou is served with electricity from the Lubbock plant of the Texas Utilities Company, and the homes of that place are lighted and equipped with the same labor-saving devices as are the homes of Lubbock or any other place where electric light and power is available.

One very striking characteristic of Idalou is the cleanliness of the streets, home and business sites and vacant lots, for though the people of that community are as busy as are those of any other busy town in the country, they have taken time to keep the appearance of the town beyond par, many shade and fruit trees have been planted and every possible effort has been made to beautify the town.

The Morning Avalanche has a number of readers at Idalou. In fact the news stand there which supplies the papers of the non-subscribers is visited regularly by a number of the citizens of that place while many copies are mailed direct to many of them from our office in Lubbock.

Idalou will continue to grow. The right kind of people have made their homes there, they possess civic pride and personal ambitions enough to place the building and development program of that vicinity far in advance of their time.

L. C. DENTON ANNOUNCES FOR RE-ELECTION FOR COM.

The Avalanche is authorized to place the name of L. C. Denton in the announcement columns, seeking for re-election to the office of County Commissioner of Precinct Number 4. Mr. Denton is one of the old timers in Lubbock, having been here a little over twenty years. He was appointed to the office first to succeed P. von Rosenberg, who resigned before his term of office had expired, and was then elected to the place two years ago.

Mr. Denton is a careful student of the things that are for the interest of the people of the county, and is a safe man for the responsibilities of the office. We have not heard of any opposition to his work, and he will probably not be opposed in the race, but if he is, the past record as commissioner and as a citizen should guide the voters in the matter of electing a commissioner for that precinct.

Dr. Ferguson, Dentist, Conley Bldg., knows how to cure Pyorrhea. 29730p

BUILD A HOME.

PHOTOPLAY IS MOST STARTLING

The age-old argument as to whether or not a wife has the right to demand of her husband the same rigidity of standards as he demands of her, or to do the same as he does forms the sensational theme of "Flaming Youth," a powerful story of modern unconventional life which is at the R. & R. Theatre today.

"Flaming Youth," vividly dramatic screen version of Warner Fabian's daring novel, is considered one of the outstanding photoplays of the year.

It is amazingly frank and while it is not a preaching against the mode of living in certain circles of present-day American life, it no less points to the ever-growing abandonment of the conventions on the part of the younger generations.

Sermons have been preached on the topics which form the basis of the sensational play, yet "Flaming Youth" is not a sermon. It is clear-cut entertainment, dealing with a vivid type of American men and women.

"Flaming Youth" is a story of a mother and her three daughters—all unconventional to a more or less degree. The father, as though for full measure, is inclined toward a fondness for women in no way connected with his own family.

Told in a frank and interesting way, "Flaming Youth" subtly distills home the lesson that conventionalities, though wholesome, are necessary for the preservation of the home.

Colleen Moore plays the leading part in this powerful First National picture. Other members of the brilliant all-star cast are Milton Sills, Elliott Dexter, Myrtle Stedman, Sylvia Breamer, Betty Francisco, Phillips Smalley, Walter McGrail, Ben Lyon and others.

"Flaming Youth" a First National picture, was directed by John Francis Dillon, one of the most noteworthy directors of this type of pictures in the motion picture industry.

BOYS' AND GIRLS' CLUBS WILL RECEIVE \$100 PRIZES

COLLEGE STATION, Jan. 28.—A gift of \$1,000.00 has been given to the Extension Service of the A. & M. College by Colonel Frank P. Holland, owner and publisher of Farm and Ranch and Holland's Magazine, to be used as prize money in aiding the Extension Service in the boys' and girls' agricultural club work. It will be given as premiums and club prizes during the year of 1924.

The sum will be divided into ten prizes of \$100 and one will be offered to the best boys' and girls' club in each of the nine extension districts of the state. The tenth prize of \$100 will be awarded to the best club of the entire state, so that the best club in the state this year will receive a district prize and a state prize totaling \$200. The awarding of the premiums will be included in the regular Extension Service program of the year's work and will be judged by members of the service on the reports of various county committees to be appointed later.

MARRIED OVER 4000 PEOPLE

KINSTON, N. C. (United Press)—Genneth F. Foscoe, justice of the peace here, believes he holds a record. For 40 years he has been justice and in that time he has married over 2,000 couples.

A RELIC IN THE BY-GONE DAYS IN CAPITOL CITY

WASHINGTON, D. C., Jan. 28.—On Eye Street, a thoroughfare of maples and sedate houses, stands an old fashioned red brick house with a copper mansard roof, now green with age, which marks the changes of conditions of the capitol in two generations.

Under its roof and through its halls, famous men and beautiful women have passed but where once the rustle of rich satins and the scraping of aristocratic feet was the only sound in its well kept halls, clacking typewriters surrounded by efficient filing cabinets now reign supreme.

When the late John Wannamaker was Postmaster General under President Harrison he lived in the house. William C. Whitney, father of Harry Payne Whitney also lived there when he was Secretary of the Navy under President Cleveland, and the older Frelinghuysen when Secretary of State walked through its halls with dignified tread.

Today a defiant group with minds centered on the betterment of the farmer have taken hold. The National Board of Farm Organizations now owns this Eye Street house. Gone are the precious articles which graced its halls. Gone are the high public officials who walked with dignified tread. In their place is a group of efficient men and women, most of them young, who walk snappily, laugh heartily and think fast.

ORANGE GROVE WILL BE LAID IN HEART OF COTULLA

COTULLA, Texas, Jan. 28.—Oranges will grow in the heart of business district of Cotulla, according to plans which are being made by T. A. Hamilton, president of the International and Great Northern Railway.

The orange grove will be laid in the center of a large natural park. Its purpose will be to show what can be grown in Cotulla.

Hamilton recently made a visit here and was so greatly impressed with the possibilities for future development of the Frio-Nueces valley that he pledged the International and Great Northern railroad to this part in the development.

GRAHAM LEADS TEXAS IN SAVINGS CERTIFICATES

GRAHAM, Texas, Jan. 28.—Graham leads the State of Texas in per capita sale of treasury savings certificates, the postoffice department at Washington has announced. Graham sales ran more than \$40 per capita for the year. More than \$50,000 worth of certificates were sold during September.

BIG TREE PLANTING PROGRAM UNDER WAY

WASHINGTON, D. C. Jan. 28.—Following a great tree planting week in which everybody turned out in the city of Sacramento, the American Tree Association today called on the people of the country to make the year 1924 the biggest tree-planting year the nation ever had.

Under the direction of Irvin Engler of the Chamber of Commerce, and a committee made up of M. B. Pratt, state forester, F. N. Evans, park superintendent, Geneva Watson, of the Beautification Committee and Hugh McWilliams, county forester, Sacramento opened on January 20 the year's campaign. The week had its climax Saturday, when reports to the American Tree Association say, ten thousand school children turned out and planted trees, shrubs and flowers. The campaign had been launched in the churches on the previous Sunday.

"Thousands have heard our call to celebrate the centennial of Arbor Day in 1924 by planting the trees now and 1924 will be a record breaker," says Charles Lathrop Pack, president of the Tree Association. "We registered 69,890 tree planters in the tree planting army during 1923. The first report in 1924 on roadside planting comes from Mrs. E. M. Savage of Eustis, Florida, where an entire school planted trees along the Dixie Highway. The old Spanish Trails with headquarters in San Antonio, Texas, has big plans underway as has the Lee Highway particularly in Tennessee.

"Most important of all planting perhaps, scheduled for 1924 is the planting of 26 miles of the Harding Highway starting at Lima, Ohio, and planting toward Marion. Mrs. Florence Kling Harding, her health permitting, will inaugurate this planting in co-operation with Lynn B. Timmerman, the Boy Scouts, J. Earl Miller of Lima; Carl J. Gugler of Galton the president of the Harding Highway Association any myself. This planting will be in April."

THE LOPSIDED CURLING OF HAIR STYLE IN ENGLAND

LONDON, Jan. 28.—English society has launched a new style of coiffure. The hair is coiled over one ear in heavy circular plaits, being drawn across the head to leave the other ear completely bare. The bare ear is usually adorned with a long drop earring. The change the fashion effects in appearance is startling.

MODERN TAXI INVADES THE HOLY LAND - TOURISTS RESORT

JERUSALEM (By Mail to United Press)—Pilgrims to Palestine must be prepared to find the Holy Land a little less of a shrine and more of a tourist resort than it used to be. The days of slow and laborious travel by caravan, sleeping in tents by night and shaming something of the rude and primitive life of the people are gone.

Before the war there was only one motorcar in the country—one harmless Ford. Now Jerusalem is crowded with taxis, parked in front of historic gates.

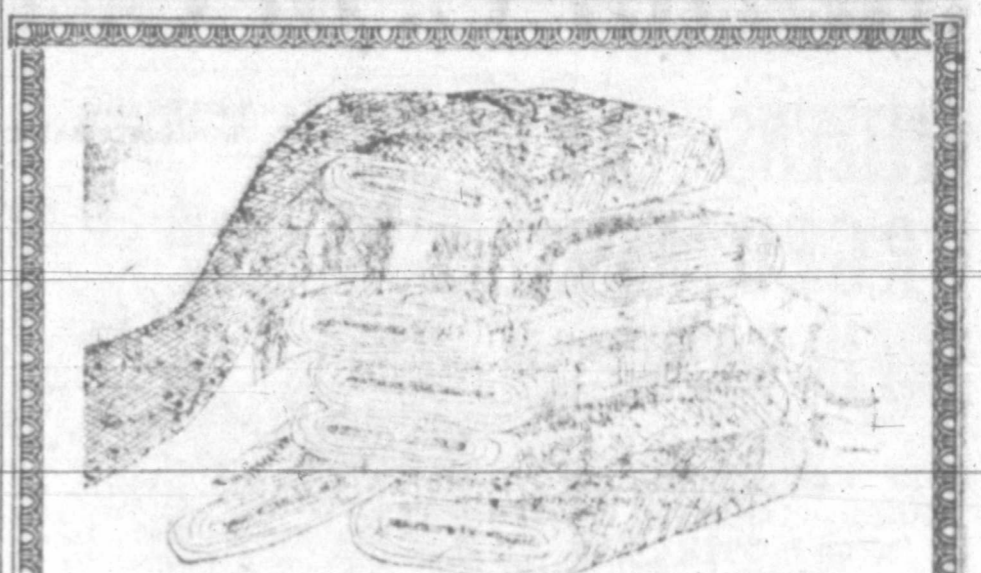

Automobiles have almost altogether replaced the camel and mule. Non-stop tourists dash about from Damascus to Jerusalem, from Bethlehem to the Sea of Galilee, dining and occasionally sleeping, in modern hotels, and returning to boast that they have "done Palestine completely in 48 hours." Nevertheless, travel by automobile is full of adventure. For the roads

in many places run into deep ruts, pools and bogs. One such place is that near the part of the Jordan associated with the Baptism of Christ. A distinguished traveler, Sir Martin Conway, describes his experiences at this spot as follows:

"We were driven by an Arab chauffeur, an individual easily excitable and liable to become reckless in adversity. His method was simple: When in doubt bang ahead and put your faith in Allah."

Allah was good to Sir Martin and his party, for they got through much to the chagrin of a band of "local spectators who stood by ready to dig us out for a consideration."

Pupils assume responsibility in matters of behavior at the Gordon School, Cleveland. A "behavior council," consisting of a representative of each room in the school formulates whatever rules it considers necessary for safety and order. Guards elected by the pupils enforce these rules, and in cases of extreme misbehavior the teachers may be consulted.

MINIATURE GIN APPARATUS IS IN USE ON EXPERIMENT STATION TO INSURE PURITY OF COTTON SEED

Ginning the 1923-1924 crop of cotton is employing several of the farm workers this week, and the miniature gin apparatus, which is being pulled by a Ford touring car with a special attachment, being crammed to capacity several hours each day, at the Lubbock Experiment Station.

The seed, which will be distributed among farmers, are taken from the little gin and put into labeled sacks.

The method employed for ginning the crop is good in that all the seed can be kept pure and clean of any foreign seed, which would make further experiments with the grade of cotton difficult.

Mr. Karper has completed some very decisive demonstrations at the station this past year, and it would be well for farmers who contemplate planting cotton on the plains next spring who are not familiar with climatic and soil conditions, to confer with him before going ahead with their work.

Mr. Karper has been a great help to the agricultural life of Lubbock county. During the planting and growing seasons he is consulted every day by numbers of farmers seeking enlightenment on the problems that confront them, and his attention is given their every request.

LOCAL TOURIST PARK IS CLOSED UNTIL SPRING AND PLANS COMPLETED FOR TOURIST BUILDING

The Tourist Park that has been maintained by the Junior Chamber of Commerce at the Fair Ground in connection with the County Recreational Park that adjoins the city on the east for the past three years has been closed for the next sixty days, according to notice posted on the entrance last week.

In speaking of the matter Secretary Keen and President Louis Moore of the Fair Association said in substance: "The Tourist Park was opened for the convenience and comfort of the automobile tourist passing thru this city and section during the summer months. During the fall months when the real tourist travel has about dropped to nothing the number of automobile prospectors, cotton pickers and others coming into this section to look over lands with a view to buying a home, or renting a farm or getting work increased to such an extent that the park was kept open to accommodate them. As the cotton season wore on and the severe winter weather set in an increasing number of floaters, loafers, knife grinders, apple peddlers and others began to abuse the privileges of the tourist park by over staying the three day limit that is set on the park and when asked to move on or kick in a little cash to help pay for the fuel they were using, would get nasty and grouch around.

Things went from bad to worse until at one time there were eight families living in one big room down there with a few strips of cotton sacking strung up between them for walls. Fires were built just anywhere without regard to the possible danger of burning the buildings down, and this in spite of the fact that two good stoves have been provided by Junior Chamber of Commerce without cost to any of those staying there. The buildings, during the cold wet weather, became unsanitary and the quality of people making use of the park simply ran out until a really desirable citizen or traveler would not stop there—hence our action in closing the park for a few weeks.

New Building, Better Improvements.

Plans are under way for a real tourist building and community center for Lubbock county to be built overlooking the Yellow House canyon and overlooking the recreational park and lake below. Shower baths will be provided, a camp kitchen, tables and other conveniences found in a modern, well equipped tourist park.

Road signs will be placed thruout this section on all roads leading into Lubbock for a distance of more than 150 miles, inviting the real tourist to make use of the park. Lubbock, thru the Junior Chamber of Commerce, will take care of her bona fide tourists and visitors, but she has neither the time, money nor inclination to provide a sweating place for every worthless floater in the country who is just hunting some place to stick around.

If you haven't driven down thru the county park recently, do so the first time you are out with nowhere in particular to go. Turn in on the left across the little bridge about 300 yards east of the Fair park entrance and drive down into the canyon and around the lake. You will be surprised and agreeably so.

AT THE CHURCHES

Church of the Nazarenes.
Our attendance and interest have been steadily increasing for some time and it seemed Sunday was indeed a red letter day with us. The Sunday school hour proved very helpful. Some of the new people who are moving into Lubbock are continually finding their way to our Sunday school and we trust they will continue to come as we have a place and a welcome for all.

The message in the morning hour on the text, "What Doth the Lord Require of Thee," was applied not only to the newly elected teachers and officials but to the church in general. Our marvelous opportunities in a growing town like Lubbock was shown and the point of our responsibilities was especially stressed. Two were received into the church.

The subject of the evening hour on "True Happiness" brought out the fact that ever since man by sin separated himself from the presence of God there has been an unfilled vacancy in the human heart. This restless longing has sent all generations on a quest of happiness or satisfaction for the soul. That it is not found in either fame or wealth, social standing or political success is proved

eration of the great debt we owe sacrifice to the end that men may know of Christ.

In the afternoon quite a number drove out to hear a sermon preached by the regular minister at the southwest ward school.

The young people's meeting grows in interest. Five forty-five is the hour. All young people are welcome.

"Man's Fall and Redemption," was the subject discussed at the evening hour. The Lord's Supper is prepared at that hour also for those unavoidably kept from the morning service.

Cumberland Presbyterian Church. Sunday school was especially interesting for all, there being 107 present, 35 absent and an offering of \$6.02 was made, which shows that from a percentage standpoint our school ranks well with any of them.

The pastor preached at the morning from the 26th chapter of Matthew, using as his subject "Christ and Humanity Transposed." This was a real gospel message and was heard by a large congregation.

There were 22 present at the Senior Endeavor.

At the evening services the pastor preached to a goodly number using as his subject "Witnesses for Jesus." This message was received by an attentive audience.

COL. ASHBURN ACCEPTING FUNDS FOR 8th OLYMPIAD.
COLLEGE STATION, Jan. 28.—Colonel Ike S. Ashburn, executive secretary of the A. & M. extension association has accepted the responsibility of receiving and forwarding donations to the fund of the eighth Olympiad, American headquarters of which are being maintained in New York City. He has accepted the appointment from Major General Henry T. Allen, who was his commanding officer while he served with the army of occupation in Germany.

Baptist Church.
Sunday was a good day with us. All services were well attended and a good interest shown toward the work.

Dr. J. B. Tidwell, of Baylor university, spoke at both morning and evening hours, also to the Young People's Union. His messages were greatly enjoyed.

At the close of the morning service the pastor stated that an amount of \$4500 was needed to take care of an indebtedness on the new church. A collection was taken which amounted to about \$3000.

Prayer services Wednesday evening at 7:30. Every member urged to come.

All regular services next Sunday.

Church of Christ
Bible Study attendance gave 171 present with interest and enthusiasm in many of the classes.

1 Peter 5:1-10 was the scripture read with the important subject of "Church Government," continued. "Render unto Caesar the things that are Caesar's and unto God the things that are God's." Bro. Carney compared and contrasted church and civil government. The two extremes of citizens were pictured, the man who refuses to submit to civil authority and he who gives his all to civic matters forgetting his soul's welfare. Deut. 8:18, shows that God gives us the power to gain wealth, thus the christian owes God the greatest debt of gratitude in service to Him.

No church has a right to make a law to bind upon others—one who does such is a spiritual anarchist.

Great and efficient leaders in the church have made mistakes—Paul said he withstood Peter to the face for preaching dissimulation. Thus we, today cannot denounce our leaders in the church but rather honor them for their works sake in patience, meekness and consistency opposing, however, those things that do not make them examples to the flock. An elder who for any reason feels himself disqualified for the work should do himself the justice to say so.

Let us forget self and in consid-

MAY DRILL FOR OIL AT ABERNATHY AGAIN SOON

(Abernathy Review)

Correspondence has been received by a party of our city in the past week in the nature of an inquiry concerning wild-cattling in this territory again for oil. It appears from the reading of the contents of the letter its purpose is to serve as what we would term as a feeler. He need not entertain any fear whatever in approaching us, or in other words touching us lightly, as we have all already been put through the trying ordeals and pleasures that accompany an oil boom. The acreage hinted for could easily be secured, is our opinion of the matter, and we would gladly lend every assistance at our command to usher the cause along if they really mean business and wish to make a stab at the proposition. The thing to do is to step out to the forefront and let's get busy on the job and try and get quick action. In speaking from a standpoint of prospects of oil to be found here in our immediate country is no mystery as we have previously tapped the bowels of old mother earth here to the slight depth of 4,500 feet, and in making our way down to the bottom of the hole we had several light showings of oil at different intervals, as best we remember at about 1,300 feet there was the best showing of oil, and was estimated by the drillers that this sand would afford a well that would make from eight to ten barrels a day. But you understand at that particular time we took but little cognizance of small matters like unto that, as our ideas were entirely too large in scope to consider little things those days. We shall furnish the gentleman at Sayre,

Okla., a complete copy of the log of our well and let him surmise for himself. We would like for him to come down and survey the situation personally.

BASKETBALL CHAMPS TO BE NAMED AT CHICAGO IN APRIL

CHICAGO, Jan. 26.—The sixth annual interscholastic basketball tournament under direction of the University of Chicago, will be held here April 1 to 5, inclusive, Director H. O. Crisler has announced.

High school teams from throughout the United States will compete for championship honors. Because of the national scope of the tournament, only state champions or teams with unusual records will participate. A consolation tournament will be held for teams eliminated in the first round. Team and individual prizes will be awarded.

Last year's winner was the Kansas City, Kan., high school. Teams from New England, the Atlantic Seaboard, inter mountain regions and the middle west competed.

The tournament is in line with a program adopted by the university to raise the standard of athletics, Crisler said.

LUBBOCK PEOPLE HEAR HON. W. J. BRYAN

Many of the radio fans in Lubbock heard Hon. William Jennings Bryan lecture at the Coliseum at Dallas yesterday afternoon and at night broadcasted by the Dallas News and Dallas Journal. The service was exceptionally good, and the lectures were greatly enjoyed by a large number of people who heard it.

Mr. Bryan will deliver a number of addresses in the state and he will no doubt be heard by a larger number of Texas people this year than ever before, through the medium of the radio.

A "trouble bureau" is operated by the Service Citizens of Delaware, an organization which co-operates with the State department of immigrant education in preparing foreign-born persons for citizenship. More than 1,000 problems concerning naturalization were presented to the bureau during the past year by 746 applicants who needed help. These applicants represented 33 nationalities.

BETTER HOMES IN AMERICA.

In the quality of the American home lies the greatest safeguard of the nation's future, according to Herbert Hoover, in his foreword to the 1924 plan book of Better Homes in America, of which he is president, and which will be made public Wednesday. The organization will work "from the point of view of the family with a small income, that has to make both ends meet." Mr. Hoover said. It will be the clearing-house for educational efforts to improve the physical and cultural standards of home-making in America. Last year 1,000 model homes were demonstrated in communities throughout the country and during Better Homes Week, which this year will fall between May 11 and May 18, it is hoped that the number will be even larger. Secretary Hoover's foreword in substance says: "There is danger that the shortage of homes which was occasioned by the Great War, and the increasing drift to the cities, may deprive an increasingly large portion of our population of the inestimable values which lie in the true home. Through local organizations, however, it is possible to increase the amount of available housing. It is possible and desirable also to maintain and develop high standards, not only of safety, convenience and comfort, but also of privacy and beauty, which may be expressed in the house itself, its equipment and its surroundings. The amenities of our civilization should be accessible to all persons, whatever their income is or their occupation. High standards are consistent with economy and can be put within the reach of all.

"Our families are self-reliant; they have a strong creative instinct; they strive ever for something better, and ever to make the best use of what they have. Beyond having their home decent and healthful they want to make them attractive and beautiful, and they are eager in contriving to reduce household drudgery. Besides the will, they have the education and practical ingenuity needed to make the best use of the devices which modern civilization has placed at their disposal. On the other hand, with the passing of individual handicraft in making articles for the home, men and women find difficulty in making the best selection from the vast number and variety of articles and methods that are offered to them.

"A great need is apparent for well directed, concerted efforts to work out a solution from the point of view of the family with a small income, that has to make both ends meet.

"The cooperation of the citizens of each community in Better Homes Demonstrations has been found successful and agreed upon by leading organizations representing millions of men and women as a practical way of meeting this need, and of presenting the results of study to the public in a way that can readily be grasped. I therefore have no hesitation in urging such cooperation as an outstanding form of public service. From this movement there should develop steadiness of character, high ideals of family life, civic pride, and responsibility throughout our land."

CAPITOL SYNDICATE LAND SHOULD NOT BE SOLD IN LARGE TRACTS.

News from Austin Wednesday by the Associated Press stated that the 59,000 acres of land recovered from the Capitol Syndicate by the state will be sold under the existing law by Commissioner Robinson in September, provided the court decree on the partition of the land is entered in time. The writer gives Robinson as his authority.

If sold under the present law it will mean that as much as eight sections can be bought by anyone who has as much as one-fortieth of the price it brings at public sale in cash. The balance will run for 40 years at 5 per cent interest. The dispatch states that Robinson says the work of classifying, valuing and advertising cannot be done in time for the May 1 sale of public lands, and hence it must go over till September.

It would be a tragedy for this land to go on the market under the old school land law. Everybody knows that the "eight section" law held back development in the Panhandle more than anything else, and in territory contiguous in Oklahoma and New Mexico where land was homesteaded in quarter-section tracts, development has been much more rapid and substantial than across the line in Texas.

This land should be safeguarded against speculators and land hogs, and, to this end, there should be some special enactment providing for purchase in small tracts (not over a section), and another provision for residence and improvements.

It makes no difference whether the land is taken in Dallam and Hartley counties, or elsewhere in the state where the Capitol syndicate has holdings, in justice to the state it should be disposed of by law, and some steps should be taken to prevent the land commissioner from disposing of the land until the legislature meets in January of next year. Dalhart Texas.

We are of the opinion that a special act of the legislature should be had in the disposition of this land, if the Commissioner has not authority to sell

it other than through the provisions of the old land law of the State. We are of the opinion that this land should not be sold only to actual settlers and not more than a 160 acres to the man. That is enough of land for a fellow to make a home and a living on, and it would prevent the tract of land from being bought up by ranchmen, who would not develop the country, but would hold it for a higher priced bonus. The home seeker should have the first chance at this land and there is room enough on that tract for more than three hundred families, while if the state should go ahead and sell it at eight sections to the man it would only give about ten men the use of this great tract of land.

This land is too valuable as agricultural land to be gobbled up by a few fellows when 328 persons could just as easily have homes there, and are really entitled to a place to live and rear their families.

MILLIONS OF FARMERS BANKRUPT BY THREE YEARS OF REPUBLICAN RULE.

Official figures collated and published by the Department of Agriculture are revealing the extent of the distress which has been experienced by the agricultural producers of the country during the last three years of Republican control of national affairs. Practically a million farmers have been bankrupted. It is estimated that five or six millions of men, women, and children have been involved in this wholesale ruin of agriculture values.

The Department of Agriculture conducted a special inquiry among the farmers of fifteen states of the east north central region in which there are a total of 2,289,000 owners and operators of farms. Replies were received from about 2,400 of these farmers. The results of this inquiry indicate that in the section studied more than 108,000 farmers had lost their farms or other property through foreclosure or bankruptcy, more than 122,000 had lost their holdings without legal proceedings, and nearly 373,000, although practically ruined, had kept their property only through the leniency of creditors.

While these farmers are in poverty and distress the Republican Administration is devoting all its energies to the task of reducing surtaxes to the wealthiest classes in the country. The Administration's insistence on the enactment of the Mellon tax plan in preference to any other would consume practically all the present session of Congress and thus prevent the passage of any legislation for the relief of the farmers.

The Republicans are going to have a hard time explaining to the farmers just why they have not given them relief. Why they, as hard working men, the bread earners of the United States are getting little or no relief, while the administration leaders are devoting much of their time in trying to reduce the taxes of the fellows who have the biggest incomes of the United States.

The tax exempted securities do not look good to the average farmer either, nor to the wage earner, or the small business concerns and corporations who are struggling along for existence, and endeavoring to help develop the country, and make an honest living by working hard, as they are thones that are keeping the government tills filled, while the fellow with his millions invested in tax exempted securities goes scott free and pays nothing.

This is all wrong, and should be corrected. We doubt if the Republicans will do it. Their money powers have them by the collar and the Administration leaders know they have to dance to the money-power music or lose out. It is pretty sure bet that they are going to lose out anyway, and the next few months will determine however, we will see how the rank and file of the voters feel about the Republican Administration.

FAKE STOCK SWINDLERS

The "get-rich-quick" desire of the human race makes gamblers or crooks of many of us. We live by example. Here and there some man makes a good guess on the wheel of fortune in Wall Street and reaps riches. But he does it at the expense of some "sucker" at the other end. Its a gambling game "within the law." If there were no "suckers" there would be no game—or at least very little of it. But the number of the gullible continues to increase to such an extent that, according to official records, the gullible public has been gold bricked of more than \$500,000,000 by fake stock swindles outside of the big "exchanges"—and a good deal of this seems to be "within the law." In fact that seems to be the only difference between picking pockets or robbing banks, and floating worthless stock securities on a confiding and over-anxious public. The law prohibits one but fails to reach the other. The whole legal aspect seems to hinge on the question of where or how to draw a line—to distinguish between swindlers and swindlers to protect the gentleman's game and prohibit the "rough stuff." As the matter now stands no federal action is probable and unless the people desire to continue to contribute to the horde of sharpers there is but one remedy—don't monkey with the buzz-saw

Little Avalanches

It is a great shock to find we can't have steam-heated government on a log cabin fiscal basis.

One trouble with Europe is, that one-half the Nations are trying to make the other half take bitter medicine.

Calvin can't abolish Mexico's national sport single-handed, but he aims to keep professional's mouth of revolution at any rate.

The Filipinos demanded a public accounting by Governor General Wood of the \$500,000 annual fund used in his department. Mr. Wood appealed to the Insular Court and the grandstand proceedings were dismissed. The legislature now refuses to make a similar appropriation for next year.

Corn: No. 2 mixed 78 1-2c; No. 3 mixed 76 1-2c to 78c; No. 4 mixed 75c to 75 3-4c; No. 5 mixed 74 1-2c to 75c; No. 6 mixed 73c.

Corn: No. 2 white \$2; No. 3 white 79 3-4c; No. 4 white 76 1-2c to 77 3-4c; No. 5 white 75 1-2c to 76 1-2c.

Oats: No. 3 white 47 1-4c to 48 1-4c; No. 4 white 46 3-4c to 47 1-4c. Standards 46 1-4c to 47c; Barley

61c to 82c; Rye No. 2 72 1-2c; Timothy \$6.50 to \$9.00; Clover \$18.00 to \$23.25.

FULL RECEIPTS POULTRY RESULT LOWER VALUES

(Written by Swift & Company for The Morning Avalanche)

CHICAGO, Jan. 28.—Full receipts of live poultry at eastern markets caused a larger supply than was needed, resulting in a lowering in values of approximately 2 cents a pound on live fowl.

Good demand for dressed poultry continues, storage stock being lighter than a year ago.

The butter market has shown a little more strength toward the close of the week, due to colder weather throughout quite a portion of the producing territory.

Receipts of fresh eggs are gradually increasing. Markets are fluctuating from day to day, due to supply and demand, principally influenced by changing weather conditions. Prices, however, are still on a pretty high basis, and with production gradually increasing, the outlook is for a somewhat lower price level on fresh stock.

A meeting of those interested in the egg industry was held with representatives of the Bureau of Economics of the U. S. Department of Agriculture on Monday and Tuesday, January 21 and 22, at Chicago, to consider tentative plans for standardizing the grades of eggs. Much good is expected of this conference.

POLITICAL ANNOUNCEMENTS

The Avalanche is authorized to announce the following for the office given below, subject to the Democratic Primary in July and the voters of this county are urged to give them due consideration at the polls:

For District Judge, 72nd Judicial District—
CLARK M. MULLICAN
(Re-Election.)

For District Attorney, 72nd Judicial District—
PARKE N. DALTON
(Crosbyton)

For Clerk, 72nd Judicial District—
LOUIE F. MOORE
(Re-Election.)

For County Judge—
CHARLES NORDYKE
J. H. MOORE
GEORGE W. FOSTER

For County Attorney—
OWEN W. McWHORTER
(Re-Election.)

For County Clerk—
HERBERT STUBBS
(Re-Election.)

For Sheriff—
H. L. JOHNSTON, (reelection)
Route 1

For County Commissioner, Prec. 2—
B. N. WHEELER, (Re-Election.)
E. N. (Uncle Ed) HARRISON

For County Commissioner, Prec. 4—
L. C. DENTON, (Re-Election.)

For County Superintendent of Schools—
W. M. PEVEHOUSE
H. C. BOWLIN
P. F. BROWN

For Tax Assessor—
R. C. BURNS, (Re-Election.)

W. S. (Billie) CLARK
L. M. CAMPBELL
P. O. BROCK
J. B. HEARRELL

For Public Weigher, Precinct No. 4—
Idalou
H. N. ESTES, Idalou.
J. T. LEE, (Idalou).
AL H. TURNER.

PUBLIC OPINION

SAVE YOUR MONEY.

Secretary Mellon's program for tax reduction has brought a flood of approval from every section of the country. In black and white he has set down just exactly the number of dollars that every one of our nearly six million taxpayers with incomes ranging from \$1,000 to \$5,000 will be able to save. This is definite. The people can see where they benefit. Also they can see that every day Congress delays action nearly \$1,000,000 of unnecessary taxes are being taken from their pockets.

David Lawrence in the Saturday Evening Post of January 5 records an interview with Secretary Mellon which every voter should read. In part Mr. Lawrence says: "There sits a man in the Treasury Department who was never elected to public office, who never had much to do with politics and has no political aim, who has made a financial success in his private business, who is not under obligation to any interest or group of

interests in America, who is sixty-eight years of age, and has nothing to gain or lose but a reputation for honesty and business sense, and whose only ambition in public office is to serve the American people effectively and to the best of his ability."

Mr. Mellon, in the course of his interview with Mr. Lawrence, said: "The usual argument in favor of high surtaxes is that people should be taxed according to their ability to pay. But in practice that theory has limitations. History has shown that there always is a point of diminishing returns beyond which taxes cannot be pushed, if the revenue receipts are to be maintained. In wartime it is at one point, in peacetime at another, for if the tax is not productive of revenue the whole purpose of the tax is lost. Taxes cease to be productive when they are oppressive and this results in so many different disturbances to the economic life of our people that high living costs, decreased opportunities for everybody and other ill effects are bound to follow.

"It is an axiom that you can't force a man to work against his will. Labor insists upon its right to quit work whenever a wage commensurate with effort is not forthcoming. So also it can be taken for granted that capital will not work if the return is not worth while.

"For instance in the year 1916 there were 1296 persons in the United States who on their income-tax returns showed that they were receiving a taxable income of \$300,000 a year or over. The total amount of the income of these 1296 persons was approximately \$1,000,000,000 that year. By analyzing the income-tax returns we found that of that \$1,000,000,000, \$700,000,000 came from dividends on stock and interest on investments generally. But every year since then we have noticed a decline in the number of persons in this class of returns. For instance, in 1918 it dropped to 627, and finally in 1921 only 246 persons were in the group of incomes of \$300,000 or over, and the total amount of their taxable income from dividends and interest on investments amounted to only \$155,000,000, as against \$700,000,000 in 1916.

"One of the most unfair features of our present tax law is the failure to distinguish between earned income and income from investment. I sincerely trust that my recommendation on this point to reduce taxes on earned incomes may be approved by the Congress. It would mean much to millions of deserving American workers.

Asked as to what he thought would be effect during 1924 if it were believed a tax bill along lines of his recommendations would be passed, Mr. Mellon said: "People would have more confidence in the future. They would be able to plan expansion. Capital would flow more freely. Take the married man, the lawyer, the doctor, the skilled mechanic, the laborer, or any one or woman who earns money without the use of capital. Suppose our proposition is put into effect. Such a taxpayer would get 25 per cent reduction. Knowing that he or she will have to provide less money with which to pay income taxes in 1925 and thereafter, the buying power of that class of people will immediately be increased."

In summarizing the interview, Mr. Lawrence says: "It will be noted that Mr. Mellon did not discuss political effects. He feels that the readjustment of surtaxes is not in any sense a partisan measure, because it has been recommended on substantially the same basis by every Secretary of the Treasury since the end of the war, irrespective of party.

"So far as the mass of taxpayers are concerned, of course, they would feel the effects of an improved situation in countless ways. The proposed repeal of taxes on admissions affects millions of persons who attend the theaters or the movies. The Mellon program includes also the repeal of taxes on telephone and telegraph messages, and miscellaneous taxes which have not improperly been termed nuisance taxes in legislative parlance.

"Not since the war has there been a single issue raised of such far-reaching importance to the people of the United States. And not since the war has there been such an opportunity by a single piece of legislation to relieve the burdens of the people and at the same time lead them to the road they have yearned to travel—the road to an enduring prosperity."

—The Manufacturer.

DAIRY DEVELOPMENT MEETING BE HELD NEAR CANYON

CANYON, Texas, Jan. 28.—Six dairy development meetings are to be held around here Feb. 6 and 7 under the direction of County Agents P. C. Bennett of Swisher and J. W. Jennings of Randall county, West Texas State Teachers' College here and the Mistletoe Creamery Company of Amarillo and Fort Worth.

The program at these meetings will be as follows:

Club Work—P. C. Bennett (at Happy only).

Cotton Production—J. W. Jennings.

Results of a Test of College Dairy Herd—Frank R. Phillips of W. T. S. T. C.

Illustrated Lecture on Breeding, Feeding and Handling of Dairy Cows—J. W. Ridgway, dairy development director for the Mistletoe Creamery Company.

The meetings Wednesday, February 6th will be as follows: 10:00 a. m. at the college; 2:30 p. m. Olympic Theatre, Canyon; 7:30 p. m. Happy High School Auditorium. Those Thursday will be: 10:00 a. m. at the college; 2:30 p. m. Fairview school house; 7:30 p. m. Cambarger school house.

SPORT NEWS

LONDOS-BROWN MATCH TONIGHT AT AUDITORIUM PROMISES LOCAL FANS THRILLING SKILLFUL CONTEST

All arrangements are complete, the opponent is on the ground, and everything now awaits the gong that will officially open the first professional wrestling match for Lubbock, according to a statement made last night by Billy Londos, local welterweight who will mix things tonight at the city auditorium with Cactus Pete Brown.

Both men have been in hard training for several days preparatory to the clash, and both pronounce themselves as being in the best of condition. Brown met Cal Farley at Amarillo last Saturday night, and in one of the hardest tussles which Farley has seen for many days, held him to a close decision. Brown has wrestled throughout the United States and old Mexico, and during his career has met many of the best men in the country.

Londos recently came here from Chicago, where he has been under the training of Jim Londos, his brother, known and recognized throughout the world as one of the strongest mat men who ever con-

tested his strength inside the roped arena. Billy has expressed a desire to locate here permanently, and in fact has already made arrangements to do so, and is now planning to schedule his matches in regular routine, bringing here men who wrestle only clean and above board. His past history in the arena brings out forcibly not only the fact that he engages in clean skillful sport, but that he is now considered as a strong contender for the world's championship in the welterweight class.

All in all, this match tonight promises local fans a thriller from beginning to end, a decision to be given on two out of three falls, in the main event. Good lively preliminaries have been arranged, all of which is local talent.

Already many reservations for seats have been registered from outlying cities; Plainview and Amarillo being among the lead in this. The doors will be opened at 7:30 and preliminaries will start at 8 o'clock. Seats are now on sale at the Red Cross Pharmacy.

RECRUITING OF SCHOOL ATHLETES BY COLLEGES NOT ILLEGITIMATE SAYS COMMISSIONER OF ATHLETICS

BY JOHN L. GRIFFITH
Commissioner of Athletics, Big Ten Conference.

CHICAGO, Ill., Jan. 28.—The attention of the directors of athletics of the western conference at a meeting held in Ann Arbor in June 1923, was called to the conference rule which states that it is not possible nor desirable to prevent the alumni from recruiting high school athletes.

The directors at this time agreed unanimously that there was a difference between legitimate and illegitimate recruiting, and further that the alumni of the ten universities would co-operate in the administration of any sensible rule.

At this meeting the directors agreed that they would consider the raising of funds by any group of men, such funds to be used for the purpose of making loans or gifts to prospective athletes.

At this meeting it was decided to conduct an investigation for the purpose of determining insofar as possible to what extent illegitimate recruiting was being carried on in the conference.

The following methods were used:

1. Through the State High School Athletic Association secretaries of Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota and Iowa, where principals were requested to report any instance that had come to their attention that would come under the head of illegitimate recruiting.
2. The colleges that compose the National Collegiate Athletic Association were likewise requested to send in any information.
3. Further, 200 colleges in the middle west were asked to do the same.
4. Similar requests were made of groups of Y. M. C. A. directors, recreation directors and others.
5. Some men were employed to make an investigation in the middle western states.

The result of the requests that come under the first four headings was that not over six cases were reported to this office and most of these were reported through a misunderstanding of what constitutes recruiting. The investigation consumed four months.

One man who interviewed several hundred high school players and coaches reported: I did not find any concrete facts that would substantiate the claims that the conference universities were making inducements to high school athletes.

Another man, who travelled extensively, reported that during two months of investigation he found only one case of recruiting and that was being done by rival fraternities.

My own conclusions are that college athletes are as honestly administered as any other department on the university campus or as any business or profession, and that there is not enough illegitimate recruiting going on in the conference to warrant the charges that are so frequently made concerning professional athletics in the colleges.

My own conclusions are that college athletes are as honestly administered as any other department on the university campus or as any business or profession, and that there is not enough illegitimate recruiting going on in the conference to warrant the charges that are so frequently made concerning professional athletics in the colleges.

AMERICA TAKES EASY VICTORY OVER BELGIAN HOCKEY CLUB

By United News.

CHAMONIX, France, Jan. 28.—The United States, Sweden and Canada easily advanced through the first round of the Olympic hockey competitions Monday. The American team, consisting largely of men from Boston, defeated the Belgians, 19 to 0. Victory was so easy that the Americans were not given occasion to show their very best skill, but their conduct on the ice was sufficiently dashingly and expert to justify strong hopes of the championship, regardless of whom they meet.

Sweden beat Switzerland 9 to 0 and Canada overwhelmed Czechoslovakia 30 to 0.

Drury, a Pittsburgh athlete, playing center on the American team, was the outstanding performer of the match. He did about half of the scoring against Belgium.

PADDOCK ASKS REINSTATEMENT INTO A. A. U.

By United News.

BOSTON, Mass., Jan. 28.—Charlie Paddock, the great sprinter who has become the storm center in amateur track and field athletics in this country since he was suspended by the A. A. U. last summer, for competing in France without a sanction, has formally applied for reinstatement.

His application was received Monday by President W. C. Prout of the Amateur Athletic Union. It will be accepted and considered, according to Prout, at the meeting of the A. A. U. executive committee in Chicago next week.

Paddock's action is looked upon as the first step in his possible restoration to a position where he will be eligible to run for the United States in the Olympic games next summer.

Aside from announcing that Paddock had applied for reinstatement Prout made no statement concerning his case.

SIMMONS FIELD BE GREATLY IMPROVED

ABILENE, Jan. 28.—Parramore Field, the Simmons College athletic ground will be enlarged and extensive improvements made immediately, to afford the best track facilities in this part of the state, according to announcement of Coach A. B. Hays of Simmons. The action was taken recently by the Board of Trustees of the college in preparation for the annual meet of the T. I. A. A. which will be held in Abilene on May 8 and 9 with Simmons College and Abilene Christian College, the newest member of the association as hosts. Work will begin at once on a regulation quarter-mile cinder track and new bleachers will be constructed.

Plans were originally made to hold the association meet at the West Texas Fair Park, but the action of the college board will make possible the shifting of the big event to Simmons territory. This work on the college field will also prepare for the Intercollegiate

LUBBOCK DISTRICT MEET WHICH IS HELD EACH APRIL ON THE SIMMONS FIELD; IMPROVEMENTS AT THIS DATE WILL ASSURE THE SETTING OF THE TRACK IN TIME FOR THE SPRING MEETS.

The improvements on Parramore Field include a hundred foot extension on the east side of the present field, cindering of the track, and placing of a concrete curb around it, and shifting of the gridiron for the accommodation of two football fields for practice work. This change in football arrangements and the construction of additional bleachers to the north will make it possible to use the old grandstand, formerly reserved in the grid season, for seating the crowds at the football games; and thus, accommodate all branches of college athletics from the same stand.

TWO FIRES IN LUBBOCK SUNDAY

The interior of the Del Monte cafe was destroyed by fire at 6:15 o'clock Sunday morning.

The fire, it was said, started when the workmen about the cafe attempted to burn the soot from the stove pipe by using oil, and an explosion resulted.

This building is located just east of the Sheppard-Smith Drug company, and being a frame structure it is probable that it cannot be replaced unless non-combustible materials are used.

The De Lux cafe, which is just east of the Del Monte, and which is separated from the Del Monte by the City barber shop building, was also threatened by fire Sunday night at 12 o'clock, the flames originating from live coals that fell under the stove. The floor was burned and the smoke and water damage was estimated at about \$200.

ACTRESS CLAIMS TRUTH TOLD ON STAND

By United News.

LOS ANGELES, Calif., Jan. 28.—Mabel Normand, film actress, told the truth about the shooting of Courtland S. Dines in his apartment New Year's by her chauffeur, Horace A. Greer, District Attorney Aas Keyes said Monday after re-questioning Miss Normand for two hours.

"I have hesitated, I have held back; but I haven't lied," Miss Normand said before answering Keyes' questions, which were prompted by belief that important facts in the sensational affair have been withheld by Dines.

Keyes announced the postponed hearing of Greer probably could not be held Wednesday because Dines was still ill to appear in court. Justice Hanby will not convene his court until the Denver oil man is able to appear in person for severe questioning.

Miss Normand amplified her original story rather than changed the facts, Keyes said. The star gave him certain details which will make it easier to force Dines to remember incidents of the shooting, Keyes believes.

STATE OFFICIAL GIVES GOOD ADVICE

To Butter Makers:

The State Butter Law will not allow retail or wholesale merchants to sell butter only in the following net weights: One-quarter pound, or four ounces; one-half pound, or eight ounces; three-quarter pound, or twelve ounces; one pound, or sixteen ounces.

A merchant cannot sell a 1-4 ounce cake of butter and only collect for 1-4 ounces, in fact if a sale of butter in cake (or mold) form is made of any other weights than the above standard weights, it constitutes a violation of the Butter Law and the party or parties so selling are subject to a fine of not less than \$25.00 nor more than \$200.00.

All butter makers are requested to put their name and net weight on all cakes of butter sold by them to merchants and consumers. The above law does not apply to butter sold in bulk, but only to butter sold in cakes or cartons.

MIDDLEWEIGHT SCORES 23RD STRAIGHT VICTORY

By United News.

NEW YORK, Jan. 28.—Paul Berlenbach, latest middleweight sensation, scored his 23rd straight victory Monday night when he knocked out Frank Carbone in the sixth round of a scheduled 12 round fight at Madison Square Garden.

Berlenbach dropped the veteran Carbone two in the first round for long counts, and from that time continually battered Carbone all over the ring until 47 seconds of the sixth round had elapsed, when Carbone went down for the final count.

In another 12 round affair, Joe Ryder, of New York, was given the judge's decision over Irish Johnny Curtin of Jersey City.

FOR SALE
10,000 acres choice Bally county land; very liberal terms. A. X. Erickson, 305 Foster Building, Denver Colorado, at Merrill Hotel, Lubbock, first week in February.

Carbone two in the first round for long counts, and from that time continually battered Carbone all over the ring until 47 seconds of the sixth round had elapsed, when Carbone went down for the final count.

In another 12 round affair, Joe Ryder, of New York, was given the judge's decision over Irish Johnny Curtin of Jersey City.

\$450,000 DAMAGE SUIT CHARGES MONOPOLY

By United News.

NEW YORK, Jan. 28.—William H. Hays, director of the movie firm, has been made a defendant in a \$450,000 damage suit brought under the provisions of the Sherman anti-trust act by Norman H. Samuelson, Newton, N. J., theater owner.

Samuelson charges that Hays and his co-defendants, prominent producers, have united in a conspiracy to monopolize the entire motion picture industry to ruin his business, force him to close his theater, and to injure his credit and standing because he has refused to be "subservient" to them.

The action names as defendants with Mr. Hays, the Famous Players-Lasky Corporation—Associated First National Pictures, Inc., Goldwyn Pictures Corporation, Metro Pictures Corporation and the Hoy Reporting Service.

NOTICE OF RECEIVER'S SALE

THE STATE OF TEXAS, County of Lubbock.

By virtue of an Order of Sale issued by Honorable Clark M. Mulligan, Judge of the District Court of Lubbock County, Texas, in cause No. _____, styled J. T. Brown vs. W. S. Hodges, on the 21st day of January, A. D. 1924, I will proceed to sell all of the assets of the partnership known as the Star Mercantile Company, composed of J. T. Brown, and W. S. Hodges, in my possession as Receiver, at public sale to the highest bidder for cash, at the store of said Star Mercantile Company in Lubbock, Lubbock County, Texas, on the 4th day of February, A. D. 1924, at 2:00 o'clock p. m. Immediately after said sale, a report thereof will be made to the Court, and any sale made will be subject to the approval of the Court.

Witness my hand at Lubbock, Texas, this 22nd day of January, A. D. 1924.

CHRIS HARWELL, Receiver.

74-10.

Local Happenings

Everett Pringle, lawyer of Little Rock, Arkansas, returned to his home Thursday after spending three days visiting in Lubbock. Judge Pringle expressed himself as being very favorably impressed with Lubbock and the South Plains country.

G. A. Nichols, painter and paper-hanger, of Dallas, has made his home

in Lubbock and will be engaged in that business here.

Miss Lola Elkins from the Boyd ranch and Mrs. Fay Proctor and mother, Mrs. Mattie Mitchell, visited this week-end in the home of Mr. and Mrs. Pat Wolforth's on Ave. I.

ROCK ISLAND TO CONDUCT EDUCATIONAL CAMPAIGN

AMARILLO, Texas, Jan. 28.—The Rock Island lines will shortly conduct a cotton educational campaign throughout the Panhandle. The plan of campaign will be to spend an entire day in each town, with lecturers, films, literature, etc. The road will have competent speakers on how to raise cotton in the Panhandle, the best varieties to raise, methods of cultivation. A place for the cow, the sow and the hen will be arranged on the program.

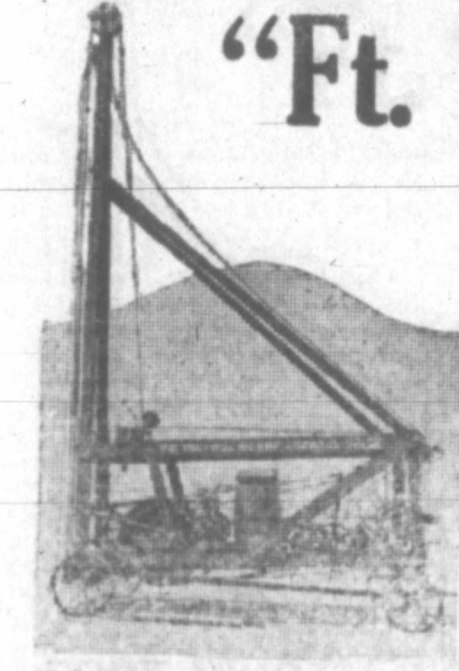

There will be no expense to local people except furnishing a place of meeting and giving the meeting and its objects all possible publicity so as to bring out a good attendance.

EIGHTH CHILD OF FAMILY GRADUATES FROM COLLEGE

VALUE OF HIGH PRODUCTION COWS SHOWN IN TEST BY AGRICULTURAL DEPARTMENT OF TEACHERS COLLEGE

Written Specially for The Morning Avalanche

By FRANK R. PHILLIPS, Director of Agriculture, Canyon Tex. CANYON, Texas, Jan. 25.—The West Texas State Teachers' College, through its agricultural department, has been doing some constructive work for those farmers of West Texas who are interested in the dairy business, as well as affording its students practical information along dairy development lines.

The college has just made public the following figures, based upon the production of its dairy cows for the week ending January 20th. These cows are divided into three groups. The first group includes cows giving from three to four gallons of milk per day; the second group includes those giving from two to three gallons per day; and the third group those cows which give less than two gallons of milk per day during the week.

Costs More to Feed Good Cows
It has often been stated that it costs no more to feed a poor cow than a good one. However, experiments at this institution have proved that this is not always the case.

The average cost of feeding per cow for Group No. 1, or the three to four gallon group, was 37.1c per

day or \$2.60 per week. The milk returned by these cows averaged \$13.75, or a profit of \$11.05 per cow for the week. This, of course, did not include the labor bill for milking and feeding the cow.

Group No. 2, or the three-gallon group, had an average cost of feeding per cow of 34c per day or \$2.38 per week. The cows in this group returned milk which sold for \$11.88 which gave a profit of \$9.00 per cow for the week, which again did not include labor connected with the cow.

Group 3, which includes cows that gave sixteen pounds of milk per day or a little less than two gallons, returned milk which sold for \$7.28, while the average cost of feed for this group was 27c per day or \$1.89 per week. This, when subtracted from \$7.28 leaves a profit of \$5.39, or less than one-half the profit of the thirty-pound cows.

In speaking about this, Professor Frank R. Phillips, head of the Agricultural Department, stated that these figures were not unusual but merely corroborated similar figures to be found in all parts of the United States, showing that in the dairy business as well as in other livestock enterprises, it does not pay to use inferior grades of stock.

year and serve for three years—giving the body continuity and enabling them to carry out a programme planned far in advance without a hitch.

Every citizen of the city, both men and women, are eligible for membership and welcome to participate in the deliberations of the organization. The directors meet the second and fourth Tuesdays in each month at nine o'clock and any citizen or visitor of the city is welcome to attend and to hear the discussions and plans that come up for the consideration of the body. The coming year is one of the most important in the history of the organization and its work for this city and section and every man and woman interested in the growth, development and reputation of Lubbock is invited to line part in the organization and take in looking after the best interests of the city.

"Don't Watch Lubbock Go—Help Lubbock Grow."

WEST TEXAS GIN BURNED AT IDALOU SUN.

The local fire station members received a call at 10:30 o'clock Sunday morning to go to Idalou where the West Texas Gin was ablaze. Though the fire had been started some time when the alarm was received here, it was only twenty-seven minutes from the time the local men received the call until they were on the job.

The big new truck of the department was used, and though it would have been ready for any local emergency, the firemen had to get additional oil and gas for the run to Idalou, and this delay coupled with that of giving several of the members time to get to the station before the start was made, handicapped them a bit. The fact that they were on the job at Idalou in twenty-seven minutes despite these delays, however, shows something of the value of the new truck.

The distance from Lubbock to Idalou is between twelve and fourteen miles, exact figures being hard to get due to the fact that local motorists are disagreed on the exact distance.

Despite the rushed trip, the flames had gained such headway that the firemen were successful in saving only a portion of the unginced cotton that was in a storeroom and some other loose materials.

Notice to Contractors.
Notice is hereby given that sealed bids for the construction of an addition to the city light plant of the City of Lubbock will be received at the office of the City Secretary until 3 p. m., February 5th, 1924, to cost approximately \$5,000.

Plans and specifications are on file at the City Secretary's office, 76-4
Signed: M. S. Ruby, City Mgr.

INDIVIDUAL MEMBERSHIP CARDS SENT LOCAL ORGANIZATIONS TO ACQUAINT PUBLIC WITH THE WORK

Each individual member of either of the Chambers of Commerce will receive a membership card within the next few days according to a statement from the Secretary Monday afternoon. These cards have been printed and are being mailed out as fast as they can be filled in with your name and properly signed. They are of the regular Membership Card size to fit into our bill folder and carry the following wording:
"Cities Do Not Happen—They Are Built."
Lubbock Chamber of Commerce, Lubbock, Texas.
This card certifies that Mr. Good Citizen is a Member of this organization and as such accepts the obligations of citizenship as well as the privileges of membership.
It is signed by the President of the Junior or Senior Chamber of Commerce, as the case may be and countersigned by the Secretary. Tinted into the face of the card is the Lubbock Chamber of Commerce Seal—"The Hub of the Plains."
The Firm Membership plates are of much better material, being of a polished brass with etched letters, very similar to the Bank Association membership plates and is to be suspended by a little copper chain. The figures 1924 are prominently displayed and are so arranged as to permit of the 4 being changed to a 5, 6, 7 and so on in the coming years. The plates will remain the property of the Chamber of Commerce but will be displayed in the place of business of each firm member as long as their membership dues are kept up.
"There are two reasons for issuing membership cards and plates at this time," said Secretary Keen in discussing the new plan. "The first is that Lubbock has grown past the country town stage when everybody knew who every member of every organization was and how much he was contributing to every cause and the second is—that it is about time the folks of the city and the section were knowing who it is that is supporting the various institutions, movements and propositions that are put over here from time to time and place their business, good will and regard accordingly. It is impos-

FELT TIRED, SO TIRED

Indiana Lady Says She Was Run-Down, Suffered With Her Back, Took Cardui, and Got Well.
Richmond, Ind.—"I thought I would write a line or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney, 31 Railroad Street, this city.
"I was all run-down until my family thought they could lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so, to please him, I did, and will say I do not regret it, for I am able to do all my work and do my shopping.
"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine.
"I suffered with my back; a very weak feeling in my limbs.
"I felt hardly able to drag just tired—so tired all the time.
"It was an effort for me to do anything, but Cardui helped me so I felt like a different woman."
If you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you.
Take Cardui. NC-14

SUDAN-LUBBOCK STAGE IS OPERATED BY JESS YORK

A very needed addition to the service car business in Lubbock has been the establishment of a stage line between Sudan and Lubbock, which is operated by Jess York, formerly of the Littlefield Garage, at Littlefield.

Mr. York gives seven-day service between Sudan and Lubbock, visiting Amherst, Littlefield and Shallowater between the two points.

Many prospectors are using this line daily in getting in touch with the land owners north of Lubbock it has been reported.

CITIES COUNCIL BE HELD BY CHURCH

PITTSBURGH, Pa., Jan. 28 — Eninent clergymen and laymen of the Methodist Episcopal Church and leaders in social, industrial and city work of other Protestant churches, will take part in the council of cities which will be held here February 27-29, under the auspices of the department of city work of the board of home missions of the Methodist Episcopal Church.

The keynote address will be given by Dr. Melvin P. Burns, superintendent of city work of the Methodist Episcopal Church.

"Religious Education and Its Relation to the Church Program" will be discussed by L. E. Weigle, Dean of the Yale school of the Religious Education, New Haven, Connecticut.

"The Stranger Within Our Gates" will be the subject discussed by Rev. Frank L. Anderson, president of the National Baptist Seminary, East Orange, N. J.

Bishop McConnell, Pittsburgh, will preside.

Warren S. Stone, president of the Locomotive Engineers, Cleveland, Ohio, will speak on "What Labor Thinks of the Church, and the Possibility of Co-operation between the Church and Labor."

Rev. Bromley Oxnum, pastor of the Church of All Nations, Los Angeles, will speak on the "Outstanding Points of Contact Between English and American Labor Movement."

Among the other speakers on the program are: Governors Sweet of Colorado; Rev. Fred C. Baldwin, D. D., district superintendent, Newark district; Rev. Chas. N. Pace, First Church, Duluth, Minn.; Rev. A. D. Craig, Evansville, Ind.; Rev. J. M. Gray, Elm Park Church, Scranton,

Pa.; Rev. H. J. Burgstaller, First Church, Rochester; Rev. C. E. Scudder, Market Street Church, Patterson, N. J.; Roy L. Smith, Simpson Church, Minneapolis, Minn.; Rev. R. N. Merrill, White Temple, Miami, Fla.; Rev. George W. Hollingshead, Goodwill Industries, Jersey City, N. J.; Rev. Warren N. Clark, Community Church, Chicago, Ill.; Rev. Chas. Skinner, D. D., Central Park Church, Buffalo, N. Y.

PENNIES GO INTO MISSION BOXES

CHICAGO, Jan. 28 — What becomes of the pennies? Not all of them go into the baby's bank or into the gum machines, according to a report issued by the Woman's Home Missionary Society of the Methodist Episcopal Church.

Last year, the report states, 17,000,000 pennies were collected by women of the society.

Forty missionary conferences reported receipt of more than \$1,000 in pennies. The ten leading conferences were:

Western Ohio, \$10,844.51; Northeastern Ohio, \$9,165.51; Northern Indiana, \$8,849.18; Philadelphia, \$7,807.16; Detroit, \$7,786.95; Rock River, Mass., \$6,849.18; Southern Ohio, \$5,559.23; Wyoming, \$5,064.05; Erie, Pa., \$4,876.48; Central New York, \$4,470.59.

LEDOUX COMING TO U. S.

PARIS (United Press, — Charles Ledoux, grand old French bantam, is planning an invasion of American rings in March. Spry and enthusiastic as a high school freshman despite his fifteen years' campaigning, Ledoux is training hard for his bout February 19 with Edouard

Mascart, French featherweight wonder. Ledoux is giving away weight to the youngster.

HEALTH CONDITIONS ARE BETTER IN DALLAS

DALLAS, Texas, Jan. 28 — Dallas was a healthier city in 1923 than in 1922, according to annual figures compiled by Miss Birdie Smith of the Bureau of Vital Statistics. The figures show that the death rate has

decreased from 12 per thousand to 11.7 per thousand.

There was one less death during 1923 than in 1922.

No death from rabies were reported while in 1922 there were two.

CAR THAT WAS RENTED FROM LOCAL STATION WAS STOLEN FRIDAY BY YOUNG MAN; OFFICERS ON THE JOB

Forgetfulness is a bad habit with some fellows who rent cars from a local driverless Ford station, and just Friday the same habit overtook one of the renters.

A Ford coupe was rented by a nineteen year old boy giving his name as C. W. Cooper. He forgot to return the car and after due time officers were notified and a search is being made for the car at this time that covers practically all of the towns in a radius of two hundred miles of Lubbock.

He was last seen at Crosbytown and telegrams were sent to officers in that direction in an effort to head him off, but by a keen maneuver he

dodged them and now has a good start.

This is the third car that has been stolen from this station recently, the other two having been recovered and the management is now of the opinion that this one will be recovered before long.

A twenty-five dollar reward has been offered for the location of the car and the same price has been offered for the arrest of the driver.

Such inroads on the driverless car business will have to be checked if the business is to be profitable, it was said by the manager, who is going to devise some means of halting this practice.

DAILY CONGRESS FEATURE

WASHINGTON, Jan. 28.—The House and Senate floors, buzzing with charges and counter-charges over the Teapot Dome leases, attracted members of congress away from most other activities Monday and the play went on before crowded galleries.

Action on resolutions aimed at cancellation of the leases was proposed in both house and senate but is expected to take place Tuesday. The house, however, voted an appropriation of \$100,000 to pay attorneys in the investigation with Representative Blanton, of Texas, the sole objector.

Senator Robinson of Arkansas, minority leader, will ask action also on Tuesday on his resolution asking the resignation of Secretary of the Navy Denby and any other officials of the navy who are guilty of "misfeasance or malfeasance" in connection with the leases.

The investigating committee, itself, was not in session Monday and the house naval committee which had called two admirals to explain the navy's part in the leasing policy, proposed its meeting.

Senator Borah called his Russian committee together, but it adjourned almost immediately.

The senate agricultural committee met long enough to give its approval to a \$75,000,000 relief bill for the farmers. The house ways and means committee continued its tax study and adopted a provision granting 25 percent reduction for incomes under \$20,000.

Henry Ford failed to appear before the military affairs committee, which wanted to question him about his offer for Muskego Shoals. Representative Hull, of Iowa, introduced a bill leasing the government properties to the three associated power companies, Ford's only rivals.

JUNIOR C. OF C. OPENS TREE PLANTING CAMPAIGN

(Continued from page 1) schools will be asked to assist—every possible effort will be made to call to the attention of the folks of Lubbock our need for a tree planting program for this spring.

With the decision to limit the pavement of streets in the residential section of the city to the width necessary to care for the present volume of traffic is presented an additional reason for the planting of trees and hedges. For with the increased width of the area between the property line and the street curb our streets will look awkward and straggling unless that area is broken by the planting of trees, flowers or vegetation of some kind. Instead of a vacant block or a vacant lot now and then around over town, as we have had them in the past with their unsightly weeds and refuse, we will have a vacant area of unsightly growth or barrenness in front of each

home between the property line and the street paving.

Four Big Jobs for the Junior Chamber of Commerce.

There are four big items on the Junior Chamber of Commerce program for the coming weeks. The first is the management of the annual meeting and banquet for the election of officers in the senior Chamber of Commerce that is scheduled for the second Tuesday in February. The tree planting campaign that is already getting under way. Then street signs and house numbers for the city. And last but far from least is the early preparation for the greatest volume of tourist travel ever recorded for this city.

Each of these items is important and if the organization successfully completes either one of them they will have justified their entire existence. But in line with their past record for doing things, they will not only complete one of them successfully but take care of all four of them and a lot more on the side equally as important before the year is gone.

A Young Man's Organization Full of Action.

The Junior Chamber of Commerce is the young men's organization of Lubbock. They have built a reputation for doing things with a snap, winding it up and then starting something new. They meet in the mornings over the breakfast table and their meetings are so absolutely informal that they almost border on the edge of a rough house. There is no clique, clan or steam roller tactics employed. Every man thinks for himself and is sufficiently healthy and independent to express himself loud enough to be heard on whatever subject may be under discussion. Every young man in Lubbock is eligible for membership that lives here, is between the ages of eighteen and thirty-one, kicks in with one iron man per month and can pay for his own breakfast once or twice a month.

The next meeting of the organization is called for Thursday morning of this week at 7:30 at the Elk's cafe. If you belong, come out. If you don't belong, come out anyway for it's your meeting. After you have been there five minutes you will have forgotten that you are not a charter member of the organization.

G. O. P. SUFFERING FROM SCANDAL

(Continued from page 1) with all possible haste. At his suggestion, Majority Leader Longworth obtained an appropriation of \$100,000 in the house to defray the expenses of federal prosecution through special counsel. Coolidge spent the day searching for outstanding republican and democrat lawyers willing to undertake the government's case. Republicans are making desperate

efforts to prevent the oil scandal from developing into a major political issue. So long as the accusing finger pointed only to Fall, there was little fear, but now the whole scandal has taken a sudden shift in the direction of the entire administration and there is genuine alarm over the effect this will have upon the country, which is thoroughly aroused over the disclosures.

FIVE REBEL CHIEFS EXECUTED SUNDAY

(Continued from page 1) a firing squad of 10 soldiers. All faced death courageously save one. He attempted flight but was shot while running. He was Rodriguez.

Rebel General Captured.

EL PASO, Texas, Jan. 28.—Consul General Ruiz stated on Monday that rebels have suffered severe losses on the Vera Cruz sector. Among prisoners taken were General Samuel Alba and staff. Mr. Ruiz denied that any additional executions had taken place at Juarez, following the execution early Sunday morning of five rebel leaders found possessing large quantities of ammunition, rifles, pistols and hand grenades.

CHINAMAN SENTENCED TO DIE CONFESSES COMPANION GUILTY

SAN FRANCISCO, Calif., Jan. 28.—The law of the Chinese tongs, that a highbinder must take his medicine with his mouth shut if he is caught, has been violated by a Chinese face to face with death, it was revealed here today.

For the first time in history, according to J. M. Kirklee, chief of police of Reno, Nevada, now visiting here, a highbinder, one Hughie Sing, has "peached" on his fellow to save his own neck.

Sing with Gee Jon was sentenced in Carson City, Nev., to die in a lethal gas chamber for the murder of Tom Quong, Chinese laundryman during a tong flare at Mina, Nevada.

Last Saturday the state pardon board at Carson City refused to commute the sentence of Gee Jon, but saved Sing from the gas chamber

and commuted his punishment to life imprisonment.

According to Kirklee, Sing confessed not only that Gee Jon actually fired the shot that killed Quong, but that Gee Wing Fong, former manager of the Alturas cafe in Reno and now serving a two year sentence in Leavenworth penitentiary for smuggling narcotics, hired himself and Jon to go to Mina and kill Quong.

Jon now must face death alone in the gas chamber being built and into which deadly hydro-cyanic gas will be forced February 8.

SOCIETY

Surprise Party Enjoyed Event

Mrs. F. W. Wilcox entertained very prettily last Friday evening with a surprise party honoring her daughter, Miss Margaret on her fifteenth birthday. After dancing and playing various games, dainty refreshments were served to the following: Cleo Edwards, Doris Clark, Stella Mae Vaughn, Peggy Whipp, Clara Randolph, Opal Crawford, Lois Morrison, Margaret Wilcox and Misses Marguerite and Ethel May Whipp; Masters Jack Nelson, Milas M-Coy, Walker Stafford, Charlie Wilson William Lewis, Hayden Morgan, Marvin Council, Desmond Abbott, J. W. Edwards, Messrs James and Ira Wilcox and Mesdames Whipp and Wilcox.

MRS. M-CALLISTER HURT IN AUTO ACCIDENT SAT.

Mrs. Wesley McCallister, of the Gray Motor company, was badly hurt Saturday night when she was run down by a Buick automobile being driven by R. L. Smith.

Mrs. McCallister was knocked down and badly bruised, but her injuries are not serious.

TAX REDUCTION FAVORED BY COMMITTEE

WASHINGTON, Jan. 28.—The first step toward direct tax relief for the salaried man and the wage earner was taken Monday by the house ways and means committee.

The committee tentatively approved the provision in the Mellon tax bill giving a 25 percent reduction for wages and salaries on incomes under \$20,000. It also adopted a motion arbitrarily charging all income under \$5,000 to wages and salaries, which would give these incomes the double tax reduction automatically.

Under the earned income provision, a 25 percent reduction in taxes is allowed after the normal income tax has been figured at the regular rates.

The committee has not yet decided whether the added provision automatically charging all income under \$5,000 to wages and salaries will be deductible up to the \$20,000 limit fixed, which has been suggested.

EXTRADITION FOR "PHYSICIANS" PROBABLE

SAN FRANCISCO, Calif., Jan. 28.—Aliens who obtained entry to the United States as "physicians" and "surgeons" whose degrees were obtained from so called "diploma mills in Missouri and California, face extradition if they can be found, Dr. C. B. Pinkham, secretary of the California board of medical examiners stated today.

Dr. Pinkham said confession of Dr. D. R. Alexander, head of the Kansas City College of Medicine and Surgery, that he had sold diplomas to Japanese and disclosures that a "mill" in Los Angeles had been doing a similar business with people in Italy, has clothed the nation with international significance.

California is now being searched for Japanese who may have been admitted as "scientists" of any kind and their credentials will be thoroughly examined for evidence of fraud, according to Dr. Pinkham.

Spring Suits That Beget Self-Respect

Self-respect is a man's best friend. If you don't have it, you cannot command it from others.

Your clothes are an outward expression of your mental opinion of yourself.

These Spring Suits tell the world you're a "comer"—They have that air about them. And they have the quality that saves money—that helps, too.

Step in and pick out your—

New Kuppenheimer for Spring

Or should you prefer your Spring suit made to your individual measure, the New Samples from Ed V. PRICE and J. L. TAYLOR are now on display. Come in and look them over and don't feel obligated to buy.
