Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 9

MULESHOE, BAILEY COUNTY, TEXAS, THURSDAY, OCTOBER 8, 1931

NUMBER

BAILEY CO. VALUATION \$3,970,968; \$63,482 INCREASE OVER LAST YEAR

Total Income for 1932 Is \$86,179.58 1,935 Poll Taxes Are Listed; County Rate is \$1.05; State Rate is Set at 74c

That Bailey county had a property valuation increase during the past year totaling \$63,482, is the statement of Deputy Collector Jim Cook, as shown by the tax rolls which were completed last week and approved by the Commissioners' Court and then sent to Austin for final approval.

Taxes were rendered on 544,803 acres in Bailey county, and the total tax value of these properties was \$3,970,968. The valuation of property in Muleshoe, also some lots in Progress, Enoch, Goodland and Bula, was assessed at \$174,532.

The county's personal property totaled \$743,334, giving a grand total wealth of the county amounting to \$3,970,968.

The total taxes paid into the state from this sum will be \$32,292.58, according to Mr. Cook, the state tax rate being 74 cents on the \$100 valuation.

The tax income to Bailey county will be as follows: ad valorem, \$41,799.98; County Road Funds, \$9,914.58; Segal common school district, \$1,779.07. Poll Taxes, \$485.75; a total income to the county amounting to \$53,970.00, including State tax the grand total is \$58,179.58. The county tax rate is \$1.05 on the \$100 valuation, being the same as last year.

There were 1,935 poll taxes assessed in the county.

NO TAX PENALTY LAW

The special session of the Legislature which ended last week, before closing passed a law cancelling interest and penalties against delinquent taxes of record October 20, 1930, provided the taxes were paid by January 31, next year.

However, Attorney General James V. Allred had advised the comptroller there is serious doubt as to the constitutionality of the law, and tax collectors are cautioned against following it.

Co. Schools Now Get \$10,400 Thru District Changes

At a meeting of the Bailey County School Board held Friday of last week, arrangements were made whereby two school districts within this county not receiving state truck aid were enabled to do so.

To make this possible the Board cut two and one-half sections of land from the West Camp district, adding it to the Longview school district, then cut three laborers of land from the Longview district, this arrangement giving to Longview and to Baileyboro each the 30 sections of land required to secure state aid, each district thus receiving \$800 per annum.

It was stated by County Superintendent J. E. Adams, that officers of the Muleshoe district generously offered to give up sufficient land to the Longview and Baileyboro districts to meet their requirements for state truck aid, and notwithstanding it would mean a loss of \$72.00 per year in taxes to the Muleshoe district. However, the County School Board saw fit not to accept this offer for two reasons: The West Camp district is the largest within the county, having an area of 115 square miles, while the Muleshoe district has an area of but 60 square miles; and taken from West Camp lies much nearer the Longview school house than would that taken from the Muleshoe district. The County Board, however, expressed its appreciation to officials of the Muleshoe district for their courteous offer, also to West-Camp officials for their spirit of good will toward these two districts.

It is understood that the taxes of the various school districts involved in the changes will be so equalized that West Camp will not lose any school income in the changes made.

With these changes now made, every school in Bailey county will now draw state truck aid with the exception of Segal and Wilson schools. The Segal school is not eligible to such because of its flourishing financial conditions, while Wilson school does not use trucks, and would be further ineligible in the fact that its territory is still below the 50 section requirement of the state.

County Superintendent J. E. Adams has been working on an equitable re-districting of school territory for the past three months, anxious that every district in the county receive state aid. He is to be congratulated in that he has practically succeeded, as this county will now receive the total sum of \$10,400, divided among the districts as follows: Muleshoe, \$1,600; Progress, \$800; Liberty, \$800; West Camp, \$800; Longview, \$800; Fairview, \$200; Baileyboro, \$800; Circleback, \$800; Bula, \$1,200; Goodland, \$800; Watson, \$800.

The Bailey County School Board is

Tonsils Removed From Eight Children Operations Sundry

As a part of the Health Improvement program being carried on in Bailey county under auspices of the Federal government, there were several tonsillectomy operations performed here last Sunday, two rooms of the court house being extemporized as a hospital for that purpose.

Because of stringent financial conditions, a special low rate was given by the surgeons performing the operations, which was greatly appreciated. Those having tonsils removed were Carol Lee Snyder, Arnold Gross, Horace McAdams, Mary Snyder, Charles E. Newton, Jr., Mere Gough, Kathryn Tucker and Geneva Fowler.

The operations were all very successfully performed by Dr. N. Scott Johnson, of Farwell and Dr. Raymond Willis of Friona. Mrs. F. S. Reynolds, a trained and experienced nurse of this city had charge of the patients and arrangements.

Picture-Story of 32 Counties of North Plains Distributed

With an aim to display the products and achievements of the Panhandle area in word and picture form, the Panhandle of Texas, Inc., an organization of the 32 northwest Texas counties including Bailey county, have banded together for the promotion of resources and advertisement of opportunities, and last week began distribution of several thousand copies of a 28-page publication in rotogravure depicting the agricultural, transportation, industrial and cultural advantages of this region.

The copy for Bailey county contained therein, was prepared by two local citizens compares favorably with the copy of any of the other counties, and is in many ways a much superior advertisement of the county's merits. The text is profusely illustrated with champion crop scenes, also a picture of the county's court house and Muleshoe school buildings.

The text stresses the 100,000 acres of Blackwater valley, in the northern part of the county, subject to irrigation from an inexhaustible supply of pure water at a depth of from 12 to 30 feet.

METHODIST CHURCH

The year is fast coming to a close and it is very imperative that every Methodist that has his or her name on the church roll do their best that they may make a creditable report of the year's work. We say that it can be done, and it will be done.

We have only five more weeks to do what is to be done, and we trust that every member will do their best. Make some sacrifices. The church is the life of the community. No person would want to live in a community where the church did not exist and its influence was helping to mold the lives and characters of the people. Every person that lives in any community should support the church.

Program for Sunday, October 11 Sunday School, 10:00 a. m. Sermon by Rev. H. C. Smith. Special Music. All leaguers at seven o'clock. Evening sermon, Rev. H. C. Smith. —W. B. HICKS, Pastor.

composed of M. G. Miller, president; J. E. Adams, ex-officio secretary; W. M. Pool Jr., treasurer; H. M. Thompson, and M. J. Matthiessen, members.

ONE OF BIGGEST WHISKEY PLANTS IN WEST HAVING 1250 GALLON CAPACITY IS CAPTURED SATURDAY SO. OF MELROSE

What was declared to be the biggest whiskey distilling plant ever captured in the Rocky Mountain region, was taken by federal and county officers yesterday morning seven miles south-east of Melrose in a secluded spot in the sandhills.

The big plant was dismantled by the officers and then brought to Clovis. Only a small part of the plant filled three large trucks. Other equipment was destroyed.

The officers who found the big distiller were R. L. Neal and Howard S. Beacham, federal agents, Sheriff R. M. Witherspoon and Jack Linnick, deputy sheriff of Curry county, Sheriff Tom Jernigan, of Roosevelt county, met the other officers yesterday and with three of them stood guard over the plant last night.

Hidden in Sandhills

Nestled in a secluded spot deep in the rolling sandhills, and out of view from all roads, the officers came upon an ineffective looking house, with a ramshackle barn, officers said. Even a good view of the barn gave no indication of the giant plant housed beneath their roofs, until the officers entered. As they approached the place the officers said they noticed the place seemed apparently disturbed as if someone had left hurriedly.

Find Cooker in Full Blast

In the center shed of three, the big cooker was in full blast but no one was around the place. The still, of 1250 gallon capacity, was in itself a truck load. In the same place with the still were the big condenser and other equipment.

Cattle Movement In Bailey County Area To Begin This Month

Movement of cattle from the ranches of Bailey county to markets and to the feed lots in other places will probably start early this month, says H. A. Eckler, agent of the Santa Fe railroad here.

The Halsell ranches, owned by W. E. Halsell of San Antonio and his son of Vinita, Okla., are probably the largest shippers. Other shippers include the V. V. N. ranch, Albert Taylor, the Anderson ranch, the Chesher ranch and some smaller ranches.

The ranches are, for the most part, located in the sand hills that cross the county and in the south part, near the Cochise county line.

Cattle shipments last generally through the months of October and November, the railroad official said. The fall crop this year has been very good and ranchers hope that the shipments will be larger than in recent years.

SINGING CONVENTION HELD AT WEST CAMP ALL DAY SUNDAY

The Bailey County Plateau semi-annual singing convention will be held at West Camp next Sunday, according to announcement made this week by Olen Burch, president.

It will be an all day session, with lunch served noon. Everyone is cordially invited to attend, bringing with them a well laden lunch basket.

Simultaneous with the closing of many banks in Texas, the statement is given out by Attorney General James V. Allred that it is unlawful for anyone to circulate any false rumors regarding the condition of banks, and that this law will be vigorously prosecuted.

The statute provides a penalty of \$2,500 and imprisonment in the penitentiary for two years.

Bailey County Families, It Is Estimated, Will Put Up 300,000 Cans of Food For Winter, While 5,000 Hogs Will Be Slaughtered for Use; Much Other Food Is Prepared

That Bailey county citizens are making due preparations for the coming winter, is clearly evidenced by the report made last week by Fred S. Reynolds, county farm agent, to the A. & M. Extension department at the College Station.

Reynolds states farmers all over this county will have plenty of feed to care for the cows during the coming winter, and many of them will have sufficient canned and cured foods for the majority living of their families, but present indications of money for buying necessary clothing, fuel and perhaps some needed medicines are going to be short.

The report is as follows.

Number of families planting spring and summer gardens in 1930 were 205; in 1931, 825.

Number of families making an effort to provide fruit and vegetables by canning in 1930 were 290; in 1931, 900.

Number of tin cans used in 1930 were 3,000; in 1931, 135,000.

Number of glass jars used in 1930 were 2,000; in 1931, 87,500.

Number of pressure cookers purchased in 1930 were 20; in 1931, 75.

Number of sealers purchased in 1930 were 8; in 1931, 25.

JUICY SPUD SAVES LIFE OF DRY CORN STALK

HAPPY, Okla., has been so dry in this section of the Panhandle this summer that the corn has been forced to take to the potato patch for moisture.

Harvey James, a farmer living near Happy, has been displaying the proof this week. The roots of a corn stalk intertwined through a normal potato, indicated the fact that the corn demanded moisture at any cost. The spud, well formed and fully grown, appeared to have suffered none the less for having helped relieve the depression.

Negro Woman Under Hi-jacking Charge Sent To Artesia

A negro woman, using her name as Willie Davis, 26, was arrested here last Saturday on Highway No. 7 by Sheriff H. Sterling on a charge of "hi-jacking" at Artesia, N. M.

According to Sterling, this negro and another, supposed to be Willie Smith, were charged with hi-jacking a citizen of Artesia, of \$250. Following the alleged crime, the woman came to Clovis, where the Davis woman purchased a Chevrolet automobile. What became of the other negro is unknown.

The Davis woman was returned to Artesia, Monday by Sheriff Conner, who came here for her. Carroll Bowlin, collector of Artesia, and a letter drafted to the Secretary of Agriculture, Washington, D. C. asking for additional relief was formulated by the representatives present and duly forwarded by County Farm Agent Fred S. Reynolds.

125 Delegates Meet At Olton Sat. For a Leaguers' Program

There were 125 delegates from different points who attended the District Epworth League rally held at Olton last Saturday and Sunday.

The Saturday evening program consisted of talks by various delegates from each district, followed by a banquet in the gymnasium, and interesting games.

Lectures on "Programs and Organization of Young People's Department," "Recreation," "Missions and World Friendship," were features of the Sunday program, being interspersed with readings and special music.

Lunch was served by the host Leaguers in the Olton school cafeteria. There were about 75 delegates remained over for the Sunday services.

Those attending from Muleshoe were Good Hardin, Francis Gilbreath, Woodrow Gaede, R. B. McHorse, Alvin Farrell, Miss Betty and Hazel Nelson, Alice DeBord, Twila Farrell, Mary Frances Willis, Marguerite Hicks.

FARMERS TO PROTEST PRICE OF COTTON SEED AND GINS

Farmers of Lamb, Hockley, Hale and Bailey county are requested to meet at Anton, Saturday afternoon, beginning at 2:00 o'clock, according to announcement made this week by J. W. Hale, secretary of the Littlefield Chamber of Commerce, for the purpose of discussing obtaining of better price for cotton seed and the lowering of ginning charges.

The present price of cotton seed is ruinous to farmers, said Mr. Hale, and we think it can be increased. We are also asking the ginners to meet with us to discuss the lowering of the ginning costs he said.

If wishes were horses today they would merely be in the way.

St. Certified Seed Growers Making Many Contracts

W. M. Pool Jr., returned Thursday last week from attending an off-meeting of the State Certified Growers Association, held at Dallas, he being vice-president. Officers are: J. A. Burroughs, president, and W. H. Cunningham, secretary-treasurer. There arrangements were made display booth for certified growers at the Dallas State fair.

A contract was entered in State Certified Cotton Seed association, having 1,600 handle certified grain seed. A contract was also made with Roebuck & Co., popular in house, to handle only certified cotton seed, and this company carry a half-page advertisement in their fall catalog.

Wins Fair Prizes

Mr. Pool, who is proprietor Purdy Seed Farm, a few miles of Muleshoe, and which is or oldest certified seed farms in this state, was winner of sweetstake prizes by the Lubbock Kiwanis club, Dallas-South Plains fair. Lubbock last week. The entry had of certified kefir corn, a winning was made against all varieties and breeders.

Gov't Will Allow 6c On Cotton In Warehouse Bond

As a result of numerous complaints from farmers of this county declaring the \$7.50 per bale plus seed allowed by the Government for cotton picking and ginning was insufficient, a meeting of representative business men and farmers was held at the court house Friday afternoon, and a letter drafted to the Secretary of Agriculture, Washington, D. C. asking for additional relief was formulated by the representatives present and duly forwarded by County Farm Agent Fred S. Reynolds.

Many of the farmers insist it is taking from \$10 to \$12 per bale to pick and gin their cotton, and extra allowance was urged in the letter. It was also urged that farmers loans be considered individually and where possible, that part of the loan be renewed for the coming year. It is understood that similar action was taken in other towns and in adjoining counties during the past week.

Tuesday morning George M. Moore, government field agent of this district, received a telegram from R. H. McEIVEN, in charge of the St. Louis Seed office, stating the Government would allow six cents per pound on cotton mortgaged to the Government where same was placed in a bonded warehouse. The telegram was as follows:

St. Louis, Mo. Oct. 5, GEORGE M. MOORE, Government Field Agent, Muleshoe, Texas.

Will allow six cents per pound on cotton where stored in bonded warehouse as collateral against note due government. Allowance does not apply towards payment on note but is accepted from marginal standpoint. Necessary sufficient amount cotton be stored to cover warehouse charges before releasing remaining crops.

R. H. McEIVEN

1932 Auto License Plates Are Received White, Yellow, Green

Automobile license plates for the year 1932 were received last week by Collector H. Sterling. The passenger car plates have a green background with white numbers, while the truck plates have a yellow background with green numbers.

There were 1,500 auto plates in the consignment, the passenger car numbers running from 22,201 to 23,700, inclusive, while the 475 truck plates received run from 7070 to 7525, inclusive.

The new plate is considered more attractive than the 1931 design. It has a dark green background and white facings, instead of the dark blue background and white facings. "Texas-1932" is located under the number, rather than at the side as is the case with the present plates. The 1932 numbers have no letters preceding the numerals.

The local office will begin issuing the new number plates about December 1, while the final date for obtaining plates without having to pay a penalty is January 31.

SUDAN COUPLE MARRIED HERE

Leon May and Miss Ethel Arp, of Sudan were united in marriage here Thursday night of last week at the Methodist parsonage, Rev. W. B. Hicks officiating.

Mr. May is one of the very successful young business men of Sudan, while the bride is a teacher in the public schools of that city.

At a meeting of the local Kiwanis club the matter of further relief was taken up by the membership, a telegram being sent to the St. Louis office, and in reply R. L. Brown, secretary of the local club, received the following letter from Mr. McEIVEN: Mr. R. L. Brown, Secretary, Kiwanis Club, Muleshoe, Texas.

We have and thank you for your telegram of October 1st, advising that it is necessary for farmers to have a more liberal concession in connection with harvesting their crops and that, unless the amount is increased, a large portion of the cotton will be left in the fields.

We are very anxious to meet the wishes of farmers in this connection, but in view of the fact that a large portion of the 385,000 farmers

MULESHOE JOURNAL

Published as second-class matter at the Muleshoe Postoffice under the Act of March 3, 1879.

Editor, T. C. HELL

Subscription Rates: By County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas. Advertising rates given upon application. Telephone No. 54.

Members who change their addresses, or fail to get their paper, should notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be brief and on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher. Advertising that does not show in its text or typographic that it is paid for should be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by what name, is an advertisement and when sent in for publication must be paid at the regular advertising rate per line for each issue printed. Obituaries, cards of thanks, and resolutions of respect will also be charged at the same rate. Any erroneous reflection upon the character, standing or reputation of a person, firm or corporation in which the advertiser has an interest, or which does not look himself liable for damage further than the amount received by him for such advertisement.

THOUGHT FOR THE WEEK

Now, therefore, I pray you, swear to me by the Lord, since I have loved you kindness, that ye will also be kindness unto my father. And give him a true token.—Joshua 2:12
Free man will ask for favor, what not claim as reward.—Terence.

FAIR EXHIBITS

Natural exhibits at fairs provoke certain reflex benefits both in mind and enthusiastic way, but it has for some time been in doubt their real benefits to us showing them. Frequently not a correct index of the actual conditions of the counties.

This year this is proven, and this year at both the Amarillo and Lubbock fairs are no exceptions. Indeed that every county exhibit always pick the best products for showings, and skilled the exhibitor in selection arrangement, the higher percentage of score card will contain. The ground space is required in an assortment of vegetables and products to fit the score card of exhibit and one who is skillful endeavor may raise practically everything needed for an exhibit. Such cases have been known, and where such methods are in practice, they show the latent possibilities of a given county but are not a correct index of existing conditions.

That fair exhibits may be carried on in an equitable manner and be really indicative of the true conditions of a given county, there should also be some requirements and regulations in the gathering of crop specimens, showing the number of people contributing, sections of the county such contributions come from, and accompanied by a sworn affidavit of a committee of at least three reputable citizens that effect, and this affidavit posted somewhere in the exhibit that visitors may know the exhibit is one of a comprehensive nature rather than the contribution of a few specialized citizens who are merely at obtaining county honors than in disseminating correct information.

Ribbons are nice things to obtain at district and county fairs, financial awards are not to be shunned, especially when the exhibitor receives the money for his labors, yet after all, such should be incidental to the real purpose of true publicity, information and education.

Take for instance at the Lubbock fair last week, a county noted for its rough terrain, an avowedly cattle raising county, and in an agricultural way where its preponderance of crop is wheat, won first honors. Visitors to that exhibit would naturally assume that county possessed of a wonderfully diversified croppage throughout its entirety, when it is not.

Again, Lamb County won second place at both the Amarillo and Lubbock fairs. No doubt they are entitled to it, and the Journal congratulates them heartily upon their high awards. But the inconsistency of the picked ex-

HOW TO MAKE A FORTUNE

I've seen a lot of fellows try a lot of different ways. For carvin' out their fortunes, through my little stretch o' days; I've watched the cleverest an' the ones that thought they were. The pleasure-seekin' moral an' the idle gossip. An' I've noticed at the finish, after all the fuss an' bust. That the chap who works the hardest is the one who gets the most. Edgar G. S.

"Alas," moaned the poor fish. "I see now that I was a sucker. These fishermen were not trying to make life easy for me by handing me free cats; they were only looking for a chance to grab me."

MORAL—You pay for a lot of things that are "FREE."

THE FAMILY TREE

A few days ago one of Muleshoe's business men told us of a young fellow who applied to him for a position in his store. He was a very nice appearing young chap, and he had two or three letters of diplomatic recommendation that spoke very highly of his family connection, especially praising his father as a good citizen and honest man. However, the young fellow himself didn't seem to have any special preparation or training for any particular line of work. To the Muleshoe business man it appeared to be a case of a no account son coming from a story we heard not long ago.

Another business man wrote to an acquaintance for information regarding an applicant for a position with him, and in reply, his information stated: "I know Mr. W. to be excellently connected and well bred. His grandfather was Col. R. G., a cousin of the late Admiral B. His mother was Miss A., before her marriage, and dates her ancestry back to the Countess Q., of England."

The business man in acknowledging the letter of information said: "Thanks for your note regarding Mr. W. However, we are looking for some one to do clerical work and not for breeding purposes."

One of the things we hear is appreciated in the West is the fact that it is not who you are nor where you come from, but what you can do that counts out here, and the man of humblest birth has an equal opportunity with the one of aristocratic breeding, if he can "deliver the goods."

DISSENTION IS RUIN
About two weeks ago in our neighboring city of Plainview its only bank was forced to close the doors, and since has been trying to organize for renewal of business.

Such closings are disastrous, not only to the town in which a given financial institution is located, to its depositors and stock-holders generally, but also to the surrounding areas.

Reports are to the effect this action was the result of factionalism and other inter-municipal strifes which leaves an otherwise excellent town in a bad way. It should be a decided lesson to other towns.

Nothing will hinder any town quite so much as internal discord, the dividing of citizen forces and pulling the one against the other. Towns are not built upon business failures, but rather on business successes. Loyalty and co-operation in all community actions are paramount, and as such are conducive to forward strides and the rearing of a progressive and enduring community.

Every knock that is given some person or some particular business is a knock against the town and community. Every word of help and encouragement is a boost. Present conditions are no time for back-biting, bickering, dependency and hysteria, but rather for co-operative thought, word and action in the highest possible degree.

Every citizen of Muleshoe owes it to himself, his town and all the business interests represented here to maintain a friendly and helpful attitude.

CANNED GOODS
The 15,000,000 containers of home-canned food disclosed by a recent survey of the pantry shelves of the state show that the average housewife not only knows what she wants for an adequate diet, but that if she doesn't have all of it she goes out after it.

Numerous instances are on record, and some of them right here in Bailey county where thousands of cans of home-grown fruit and vegetables have been put away for the winter months, where these wives have been doing considerable trade and bartering to get what they want for a well balanced menu for winter serving to their families.

One woman traded some hens for a calf, canned half of it and sold the other half to buy needed supplies. Plenty of women have been swapping garden sassa of different kinds, getting something they needed for something the other wife needed. One woman is reported to have purchased a yearling with money made from sewing, quilting, washing, etc., while still another rented a canner and sealer, paying for it with poultry she raised.

JESKO NEWS

(Received too late for last week) Mr. and Mrs. Boss Abrams returned from a visit in Okla., last week. Mr. and Mrs. Ed Jesko and children, Mrs. Joe Jesko and children, and Mrs. Abrams went to Clovis, Thursday to see the circus.

Miss Helen Jesko and brother, Alex, attended the Tri-State Fair in Amarillo, Saturday. They spent Sunday there, also. J. W. Miller spent the weekend in Portales with homefolks. Mr. and Mrs. W. J. Corfman are the proud parents of a big son. He made his arrival Sept. 8.

Mr. and Mrs. Matt Jesko were shopping in Muleshoe, Saturday afternoon. Mr. and Mrs. A. J. Hicks stopped by Mrs. Martha Jesko's Wednesday. They were on their way to Friona, to the big rodeo.

Mr. and Mrs. Matt Jesko attended the rodeo at Friona, Wednesday. Shorty Hollis attended the Al G. Barnes circus in Clovis Thursday. Steve Jesko was also there. Miss Helen Jesko was in Hereford, shopping, Thursday.

Mrs. O. G. York and daughter, Mrs. Floyd Templar, were callers in the home of Mr. and Mrs. Ed Jesko, Sunday afternoon. Grandma Jesko and son, Steve, spent Sunday with Mr. and Mrs. Ed Jesko.

Mr. and Mrs. Anderson have houseguests from Okla., this week. Mrs. Abrams was in Muleshoe Monday morning. She has some wonderful strawberries this year. The P-T. A. meets at the school house Friday evening at 8:30. Let's everyone be there and make a good meeting.—Reporter.

SR. LEAGUE PROGRAM OCT. 11

Topic—"What is Expected of Us as Good Citizens." (Rom. 13:1-7, Matt. 22:15-22.)

Leader—Miss Myrtle Burkhead. Part a, of division—Glen Rockey. Part b, of division 1, Jim Burkhead. Part c, of division 1, Mills Barfield. Division 2—Miss Beth Mardis. Part a, of division 3—Ralph DeBord. Part b, of division 3—Ray Buzzard. Part c, of division 3—Mrs. Faye Elrod.

Round Table discussion of questions directed by leader. All young people are cordially invited to attend. Come on every member, let's make our league a good one. —Reporter.

Trials Build Character
Trials, temptations, disappointments—all these are helps instead of hindrances, if one uses them rightly. They not only test the fiber of character, but strengthen it. Every successful temptation represents a new fund of moral energy. —James Buckham.

A \$1 Dinner for 4

How is your arithmetic? If you add these figures you will find the sum total is exactly one dollar. And if you know your dietetics as well as your mathematics, you will find that the sum total of these foods is a perfectly balanced meal.

It follows then, if you are wise that you will serve this sort of meal at least one day a week, and you will be healthy and wealthy as well. The recipe is as follows:

Simple to Make
Celery, Cabbage and Tomatoes: Have one cup cabbage cut in fairly large pieces and one cup celery cut in inch lengths. Cook separately until almost tender.

Blackberry Torte: Spread three-quarters cup of cornflakes in the bottom of a well buttered baking dish and cover with the contents of one Sounce can of blackberries from which the juice has been strained. Sprinkle one-fourth cup of sugar over, dot with one tablespoon butter, and cover with three-fourths cup of cornflakes. Pour in the blackberry syrup drained from the fruit, and bake in a moderate oven—375 degrees—for thirty minutes. Serve warm with rich cream.

Logan, Oran Sims, L. C. Gulley Grade One—Wanda Mae Beller, Mary Margaret Gulley, Dorothy Mae Gable, Euna Mae Mitchell, Wanda June Lovelady, Wilma Jackson, Lee Crabb, Billy Jackson, Vinson Cargile. Pupils making an A average are: Grade Eleven—Alice Wiltierding, Vera June Beller, Edwina Buhrmann. Grade Nine—Bobby Beller. Grade Three—Maxine Harris, Ruby Talent.

Grade Two—Nina Jackson.

The pupils of the intermediate room surprised their teacher, Mrs. Gilbert, Thursday afternoon with a birthday party. After playing games for a while, the happy group was served with lemonade and cookies. The pupils left at about seven o'clock wishing Mrs. Gilbert many more happy birthdays.

Watch for the coming of "That's One On Bill," a comedy in three acts. Will Bill get the fifty thousand? come and find out! The plot is full of action and humor. It is based on the unwillingness of certain young people to fall in love as desired by their elders, and the sidesplitting results which follow their attempt to straighten out the tangle. Watch for the outcome.

Cast of characters: Uncle Jimmie, Dick Willman; Bill Hailey, Albert Trauek; Harry Dover, Howard Barker; Lil Hailey, Edwina Buhrmann; Patricia Niles, June Beller; Babe Allen, Juanita Beller; Battling Bennie Bozo, Emmitt Parsons; Ned Collins, Marion Lindsey; Mrs. Hailey, Lucy Robison; Rosie, Alice Wiltierding.

Friday night, October 16.

The first meeting of the Parent-Teachers association will be held Wednesday night, October 14. A program has been arranged by Mrs. Perry McMinn. Everyone is urged to be present.

W. M. U. MEETING

Circle No. 2 of the Baptist W. M. U. met Monday, October 5, in the home of Mrs. C. A. Joiner for business and election of officers for the coming year. Mrs. Holland read the 138th Psalm for devotional.

Officers were elected for the ensuing year.

The circle decided to adopt the name "Joiner Circle."

Home A Bet

PROPOS of the fact that government statistics show that last year Americans consumed \$52,000,000 worth of canned foods, the Columbus Evening Dispatch makes this editorial comment in behalf of the American housewife. The writer says, in part:

"The American home is a better place in which to live and eat than it was before the Can-Canner Era. With all due respect to the traditions surrounding grandmother's cooking and the good old days, we venture the assertion that the modern meal is better in most respects than those consumed by former generations; and we'll stick to it, even if we have to leave town."

The food that comes in cans prepared with greater thought for man's den, taste and nutritive value than the home-made fare is the fact in the high. Also the can made possible and vegetables, when the ay things.

"The housewife's eye is constantly attracted to the far better colored materials. The good old days' tradition grandmother at the cook era is the best from a culinary canners have h

It closed with sentence prayers. The next meeting will be Monday, Oct. 19, in the home of Mrs. Buchanan. The time for Bible Study is at 2:30 p. m., after which we will have a Joiner Circle get together meeting.

We urge every woman in this circle to be present.—Reporter.

A Virginia man has a ham insured for \$1,000. Some actors also carry a heavy policy.

ALADDIN

\$150 NEW LAMPS
\$200 for OLD!

ALLOWED FOR ANY OLD LAMP

FOR A LIMITED TIME
From Oct. 15 to Nov. 14 Inclusive

Here's a rare opportunity for you to equip your entire home with the world's famous Aladdin kerosene (coal oil) Mantle Lamps at a big saving. Bring in any old oil or gasoline lighting device of any make or condition, and you will be given the generous allowance of \$150 to \$200 for it, depending upon the style of Aladdin you purchase. Bring in as many old lamps as you please as long as you purchase an equal number of Aladdins.

NEVER before has such a broad, liberal, generous offer been made on this most remarkable of all modern white lights. Certainly now you can well afford all the joys and comforts the Aladdin will bring to every member of your household. Why struggle along under the faint, yellow glow of the old style kerosene (coal oil) lamp when you can have this modern white light at such a substantial saving.

Come in NOW—Our Stock is Limited

Don't wait. Come in at once and inspect this new 1932 Aladdin. See it demonstrated. Examine the beautiful finishes and look over the many exquisite hand decorated glass and parchment shades. They'll charm and delight you. But remember this offer is limited both as to time and quantity. Our stock will not last long under so generous an offer. The offer positively will not be extended, so hurry your old lamps in while the opportunity is with you.

These New INSTANT LIGHT ALADDIN MANTLE LAMPS
Will Brighten and Beautify Your Entire Home

Note its features:
Burns common kerosene (coal oil) lights instantly. Gives a modern lamp. Absolutely safe. Burns at all altitudes. No odor, smoke, noise or trouble. Maintenance is a snap. Light a match and a minute that's all. Endorsed by world's highest authorities.

We will give away a Beautiful Aladdin FREE

ON DATE BELOW ASK FOR DETAILS

Many Styles with Exquisite Decorated Shades

There's an Aladdin for every purpose table, hanging, bracket, two and floor lamps, in a variety of colors and finishes, and a vast range of prices. Beautiful hand-decorated Glass or Parchment shades are available in decorative in shades too.

Saturday, October 31, at 10 P.

Divinely Consecrated To Foods Must Be Conserved

Another it has been the epigrammatic begins and ends would be more in truth and eternal to say: "Prosperity comes with the soil." Ends there reads too (perhaps) Memorials are generally when the soil has ceased to be soil there is nothing men and women are born only, after a time, to pass are raised only in time exist today but of to-

morning no one may forget. But the soil is eternally and always here. Prosperity may begin with it but surely need not end with it. As the foundation upon which the superstructure of our industrial life is builded we should keep ever in mind that nothing is more secure than the foundation upon which it rests.

Revitalizes Itself

Mines may cease to give up their minerals; human ingenuity knows no way of restoring their supply. Streams may fail of water to be replenished in God's own time. In laboratories men evolve means of quenching life, yet no known elixir will prolong life indefinitely. But the soil, divinely consecrated to the needs of the world, knows no ending to profitable use unless imprudently abused.

Man alone, by violating the laws of nature, may profitably waste its secret riches. Yet for every greedy, gluttonous plant, exhausting its stores, there is still another capable of revitalizing the wasted land. Arts of peace depend upon it. The armies of the world are sustained by it. Out of its elastic purse education is provided for in unison with its heart beats commerce flows through the arteries of industry. There exists no field of endeavor so promising of success nor so capable of expansion, under constant drain no other basic source so revitalizes itself, none other so faithfully works while the laborer sleeps. With magic wand it directs the growth of communities. Yet of all factors in the march of progress none have been so heavily burdened.

which netted him nothing but bruises, he ceased his efforts and subsisted on the food that was dropped in. Then the naturalist removed the glass partition. The minnows swam all around the bass but he did not strike at a single one. He was thoroughly sold on the idea that business was bad. Moral: When business is bad take another shot at the glass partition. Maybe it is not there.

FOOD CANNED IN BAILEY COUNTY THIS YEAR

Following is a reported list of fruit and vegetables canned in Bailey county. Let's swell the list!

This column will be continued with additions for an indefinite period. Folks are urged to send in their canning records for publication each week.

Baileboro Busy Bees	1,700 cans
Mrs. W. T. Cunningham	606 cans
Mrs. Walter White	308 cans
Mrs. W. B. McAdams	700 cans
Mrs. W. T. Erod	290 cans
Mrs. Georgia Johnson	140 cans
Mrs. Mae Wilenson	850 cans
Mrs. B. B. Christie	175 cans
Mrs. O. R. Eshbanks	500 cans
Mrs. Sue West	118 cans
Mrs. Bula Bybee	655 cans
Mrs. Tom Toombs and Mrs. Maurice Toombs, over	1,000 cans
Mrs. James	500 cans
Mrs. John Woodfin	250 cans
Mrs. Hugh Taylor	300 cans
Mrs. Iny Wimberly	150 cans
Mrs. E. B. Fleming	593 cans
Mrs. T. H. Murrain	962 cans
TOTAL	9,797 cans

(Others will be added to the list as they are reported.)

The Cornish Language

The ancient Cornish language has not been spoken for a century and a half, though many traces of it linger in the dialect of the county. In 1777 died Polly Jeffrey (nee Pentreath), in her ninety-third year, and she, it is said upon good authority, was the last person who spoke Cornish. She was born and died at Mousaleo (pronounced "Mauled"), a fishing village on Mousley bay.

Strong Food for Workers

The humble onion, butt of almost as many jokes as the cheese, figures prominently in history. An inscription on the great pyramid of Egypt informs the hungry wayfarer that nine tons of gold was spent for the purchase of onions, radishes and garlic fed to the workmen who built the mammoth structure.

BANKERS SUGGEST BANKING REFORMS

Economic Policy Commission of American Bankers Association Recommends Aids to Progress in Banking Business.

FOLLOWING a nation-wide survey of banking conditions and opinion among bankers, the Economic Policy Commission of the American Bankers Association has made the following recommendations for banking betterment:

- (1) Liquidation or consolidation of banks where changed local economic conditions render this desirable;
- (2) Wider affiliation among state banks with the Federal Reserve System;
- (3) Development of limited branch banking where economic conditions and legal authority make this expedient;
- (4) A more general practice, especially lacking among country banks, to analyze the cost of carrying accounts and other operating details and the establishment of proper charges to make all classes of function profitable;
- (5) A more general application of the theory and practice of secondary reserves;
- (6) Avoidance by banks of undue borrowing merely to increase their own profits by re-lending at higher rates, or to over-expand credit to local business in order to increase their own business;
- (7) Cooperation among bankers in local communities through city, county or regional clearinghouses so as to promote mutually beneficial conditions and practices;
- (8) The insistence upon higher educational effort and qualifications among employees, especially those to be trusted with executive duties.

Legislative Measures Proposed

"There are some external measures, along moderate legislative and supervisory lines, that we also believe will strengthen banking. Among these are:

- (1) The broadening in the states of branch banking laws where conditions warrant an extension of this type of banking service to the public;
- (2) The establishment of sound minimum capital funds under which banks will be allowed to operate, which should be materially higher than now prevails in the states; specifically, we believe that the minimum capital with which any new bank shall be chartered, whether state or national, should be at least \$50,000;
- (3) The provision of funds and regulation to keep the official staffs of all supervisory departments up to a level of ability and integrity that will universally inspire confidence among bankers whose activities they are empowered to review, and will supply real added defenses to the public interests they are appointed to protect;
- (4) In connection with the policies of bank charting departments, we would recommend that, even to a greater extent than is now the practice, the greatest care and moderation should be exercised in granting new charters, so as to guard against over-banking of the handling of new banks by unqualified persons, which have doubtless been serious factors in the bank failure situation in the past;
- (5) Also, referring to Federal Reserve practice and routine legislative action, we believe that the Federal Reserve Banks should exercise more freely their rights to examine banks and use their discretionary power to refuse readjustment facilities to banks indulging in objectionable banking methods."

Banker-Farmer Plan

An editorial in Southern Cultivator says: "Favorable comment is being made upon the wisdom and promised results of the farmer-banker agricultural program in Georgia. Industrial leaders and publicists, noting that 115 of the 161 counties in the state have pledged prosecution of the 'live-at-home' farm reform, are regarding the working out of the plan this year as of more interest to American farmers than any developments of the Soviet five-year plan in Russia. Agricultural actuaries are of the opinion that if Georgia farmers, backed by our cooperating bankers and supply men, demonstrate the expected economies and profits of this home-support plan, it will quickly become a contagious custom all over the agricultural areas of the nation. It will be the writing of a new 'declaration of independence' for the individualist farmers of the country, putting them upon solid terms of credit and prosperity without need of recourse to federal or state financial relief measures. The man of the soil who lives year in and year out 'on his own' will stand up in his community as an economic freeman, making his own terms with the world of finance and trade."

A meeting of farmers, bankers, and newspaper men of St. Croix County, Wisconsin, recently organized a drive to promote the growing of alfalfa in such quantity as to save the dairyman the expense of commercial feed, and insure greater dairy profits. It is planned in this campaign to have, within the next three years, at least one acre of alfalfa produced for each dairy cow in the county, or a total

Progress News Notes

Miss Iva Caphart is visiting in Anarillo with her sister, Mrs. Grady Childress. Mr. and Mrs. G. R. Baker and children, and Connie Blair, of Los Angeles, Calif., are visiting their sister, Mrs. W. C. Elmore. Miss Lulu King was shopping in Clovis, N. M., last Saturday. Mr. and Mrs. W. C. Elmore spent Sunday in Circleback.

The P. T. A. met Thursday night, October 1 and enjoyed a program delivered by some of the people in the community and the school children. Our next meeting will be October 15. Mr. and Mrs. John Burton and family visited in the J. F. Needham home Sunday.

The school welcomed the Killough children back Monday. There were 65 at Sunday school last Sunday. Let's have a bigger crowd next Sunday. Lulu King and Ruth Burton ate Sunday dinner with Mrs. J. L. Actkinson. Troy Actkinson visited home folks Sunday, returning to school at Farwell late in the evening.

Ellen McClaren spent Saturday night with Mrs. Earl Barger. George Lee Mason is visiting his grandparents, Mr. and Mrs. J. L. Actkinson, this week. Mr. and Mrs. Roy Baylis visited in the J. E. Burton home Sunday evening.

Mrs. Allen Fenton was hostess to a group of young people Saturday night. Games were played until a late hour when all departed declaring it a very pleasant evening. Those present were Lulu King, Deulah and Ruth Burton, Hester and Velma Kemp, Esther Marcum, Lois McDorman, Dorothy Barger, Enola Hollum, Ellen McClaren, Nora Bell Fenton, James McDorman, H. J. Phares, Buster Reid, Casper and Lois Needham, Kenneth Burton, Bill Locke, Ernest Hilcock, Mr. and Mrs. Tracy, Mr. and Mrs. E. R. Barger, and the host and hostess, Mr. and Mrs. A. R. Fenton.

Velma Kemp spent Saturday night with Lois McDorman. Tom Johnson visited Ira Myers, last Sunday. Mr. and Mrs. Clarence Whitte spent Sunday with Mr. and Mrs. Wilbur Lee. Mrs. E. R. Barger and Mrs. A. P. Fenton visited school Thursday of last week.

Circleback News

Miss Loreta McCollum was the guest of Miss Mable Burdick, Sunday afternoon. Mr. and Mrs. E. D. Mitchell were visiting their son and family, Mr. and Mrs. Robert Mitchell, Sunday.

Mrs. O. D. Cobb was a dinner guest of Mr. and Mrs. E. J. McCollum, Sunday. Mr. and Mrs. Louis Nail were visiting in the home of Mr. and Mrs. J. E. Pentens, Sunday.

Mr. and Mrs. Thaddeus Brown were dinner guests of Mr. and Mrs. Sam Brown, Sunday. Mr. and Mrs. Henry Darnon and daughter, Annie, and Miss Olga Brown attended the Singing convention at Portales, N. M., Sunday.

Mr. and Mrs. Jessie Freeman were the dinner guests of Mr. and Mrs. A.

H. Biggs, Sunday. Mr. and Mrs. George Darnon entertained with a play party Saturday night. Miss Thelma Cope, who has been visiting in this community left Thursday for her home in Wichita county. Misses Hattie and Elizabeth and Ollie Darnon visited at Hale Center, Saturday night and Sunday.

America's most economical truck

is now available in 25 different models priced as low as \$140—complete with body

NOTE: The model priced at \$140 is the open cab pick-up.

1 1/2-ton 157-inch Stake Truck \$810* (Dial wheels standard)

By actual road performance, week after week, month after month—the six-cylinder Chevrolet has proved its right to be called America's most economical truck. Owners have found that on a ton-mile basis Chevrolet costs less for gas and oil, less for upkeep and less for service than any other truck—regardless of the number of cylinders. And price-comparison will show that this big, sturdy Chevrolet Six is one of the lowest-priced trucks you can buy.

Today, any truck user can apply this economy to his own particular work. The current Chevrolet commercial car line covers practically every delivery and hauling need. Twenty-five different models. Half-ton and 1 1/2-ton pay-load capacities. Three wheelbase lengths. A wide variety of Chevrolet-designed and Chevrolet-built bodies. Just name the type of truck you need—and you will very likely find it in Chevrolet's all-inclusive line.

Half-ton 107" chassis \$355
Dial wheels standard \$400

1 1/2-ton 131" chassis \$520
Dial wheels \$575 extra

1 1/2-ton 157" chassis \$590

What's a BLUSH?

Technically and scientifically speaking it is a temporary erythema or colorific effusion of the physiognomy, etiologicalized by one's perceptiveness of the sensorium, when in a predicament of an equilibrium, from a sense of shame, anger, or other cause, eventuating in the paralysis of the vasomotor filament, with a radiance emanating from an intimidated pericardium.

BUT THERE'S NO REASON FOR A BLUSH WHEN TRADING AT A RED AND WHITE STORE

The high quality of our Groceries are always assured and the prices marked on them in plain United States figures

It's always a pleasure to trade at a Red and White store because of the fairness of the dealings accorded the customers. Instead of embarrassment over some trivial matter, one always leaves with a pleasant feeling.

PAPER REFLECTS TOWN

It is recognized that a town may be rather accurately judged so far as its progressiveness is concerned, by the way in which it supports its newspaper. In other words a creditable and prosperous looking newspaper may be safely taken as an indication of a live and enterprising community.

PLEASANT VALLEY CLUB MEETS

The Pleasant Valley Home Demonstration Club met at the home of Mrs. O. P. Burnham, Monday afternoon with Mrs. J. H. Harrell as assistant hostess. Six members and three visitors were present.

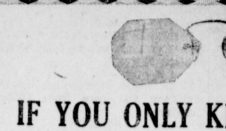

MUSIC PAYS COLLEGE FARE

Band scholarships, valued at \$150 each, have been awarded this year to nine students at Texas Christian university. Three students each playing clarinet, two playing trumpets, and one each of French horn, trombone, drum and bass were accepted.

The Candidate

In ancient Rome during political campaigns, it was customary for persons seeking office to appear in public wearing a white toga, and the white of the natural wool was brightened with chalk. The Latin word for white is candidus. An office-seeker was called candidatus, from which comes our word candidate.

Geography for the Blind A school geography, including maps and diagrams, has been prepared in Braille type for the use of blind children in England, the work consisting of seven large volumes weighing 23 pounds.

IF YOU ONLY KNEW

How badly you were cheating yourself, not your Optometrist, when wear cheap glasses over your eyes. Cheap clothes won't hurt you but cheap glasses will hurt you. You have only one pair of eyes, take care of them by giving them the best that Optical Science affords.

DR. C. E. WORRELL Eyesight Specialist 112 E. 4th., CLOVIS, NEW MEX.

Prepare— For the Rainy Day

That's an old proverb worth considering. Little productive labor can be accomplished during rainy days—and they come to all at some time in life.

If you had started saving years ago for these inevitable "rainy days," just think of the tidy sum you would now have!

It's not too late—there are lots of days and 'years' left. Profit by all the time you have.

A bank account gives you confidence in case of sickness, unemployment or business reverses.

Ascending the heights that men call greatness entails a great deal of attention to details.

GOVT WILL ALLOW SIX CENTS ON COTTON IN WAREHOUSE (Continued from page one)

cured aid from the Government are tenant farmers or there is a second mortgage over their crops, we are having complaints daily from landlords

and second mortgage holders that present allowance is jeopardizing chances of making collection of 1 from the sales of crops.

However, we have brought to attention of the proper authorities Washington the matter of securing more liberal concession in connection with the harvesting and ginning cotton, and should a change in policy be made, we will be very glad to inform you if and when such change is made.

Very truly yours, R. H. McELVEEN, Administrative Officer in Charge

It is understood that the near bonded cotton warehouse in this section is at Littlefield, where cotton may be duly stored according to Government requirements. A government-censed classer is also located there and will class the cotton, before it is shipped, at a charge of 25 cents per bale. Other bonded warehouses are located at Plainview and at Lubbock.

THE "HIDDEN QUART"

That Stays up in the Motor and Never Drains Away

-is Worth its Weight in Gold to Any Motorist!

It's not the mileage your speedometer shows that makes your car wear out quickly, lose power and need costly repairs. It's motor wear, caused by friction, that does it! And almost half of all this motor wear occurs while you're starting. Cut down starting wear and you'll give your motor longer life.

That's just what the "hidden quart" of Conoco Germ Processed Motor Oil does! It stays up in your motor and never drains away and thus cuts down starting wear! Ordinary oils drain away, leaving working parts unprotected until oil is pumped from the crankcase through the motor, which takes several minutes. Conoco Germ Processed Motor Oil penetrates and combines with metal surfaces of working parts, stays there and never drains away. The "hidden quart" safely lubricates every cylinder, piston and bearing the instant you touch the starter.

The "hidden quart" is worth its weight in gold to you! From the first fill with Conoco Germ Processed Motor Oil, you'll have this "hidden quart" up in your motor, giving safe lubrication at all times, lengthening your motor's life. Drain your crankcase now... fill with Germ Processed Oil at any station displaying the Conoco Red Triangle.
