Hughes Firm In Reply To Exclusion Protest

DOOR IS CLOSED FOR ANY CHANGE FINAL NOTE SAYS

JAPAN RELEASED FROM TERMS GENTLEMEN'S AGREEMENT

By THOMAS L. STOKES (UN Staff Correspondent) WASHINGTON, June 18.—Secretary of State Hughes has informed the Japanese government that the door is closed for any change in the immigration law excluding Japanese and that the act of congress must be considered as final.

The secretary of state in a note answering Japan's protest of May 31 against the exclusion expresses the good will of this government toward Japanese and recalls the wish of President Coolidge to modify the law but declares that the action of congress is mandatory upon the executive branch of the government and allows no latitude for the exercise of executive discretion.

The note is couched throughout in very friendly terms, Hughes expressing the conviction. Recognition of the report of each government to legislate in control of immigration should not derogate in any degree from the mutual good will and cordial friendship which has always characterized the relations of the two countries. It was presented to Japan through Ambassador Hanabara here.

SUIT TO BLOCK RAIL MERGER BE FILED

AUSTIN, Texas, June 18.—A suit by the Interstate Commerce commission and the Gulf Coast Lines, in an effort to block the merger of the International Great Northern Railway with the Gulf Coast lines will be filed by the Texas attorney general in the United States district court at New Orleans, it was announced Wednesday afternoon. The merger has just been authorized after having been contested by the state.

The contest will attack the power of the interstate body to override a state constitution. It is claimed that the merger would violate the provision that no Texas railroad can be consolidated with a non-Texas railroad corporation.

THREE HURT AT CROWELL IN ELECTRICAL STORM

CROWELL, Texas, June 18.—Two white men and a negro were injured in a severe electrical storm here Wednesday. Two ranch hands of the Habel ranch and a negro cook were struck by lightning. The two white men regained consciousness about an hour later, but the negro was six hours in recovery.

AMERICAN LOST LIFE IN CHINA

KILLED IN OUTBREAK BY RIVER WORKERS AT HANKOW IS REPORT

By United News. SHANGHAI, June 19.—Another outbreak by river workers at Hankow in which Edwin C. Hawley, aged 42, an American, lost his life, was reported in telegraphic advices received here today from Hankow. Hawley, who has been employed as manager of the Washburn office of the British firm of Arnold Brothers and company, was reported to have been supervising the loading of a steamer June 17, when attacked and killed by a gang of river boatmen.

LOCAL OFFICER ATTACKED BY 2 YOUTHS

An investigation is being made by city and county officers following a shooting affair last night in the north part of the city between nightwatchman Herrin and two youths. It is thought possible that the pair of brigands may be the ones sought by Tarrant county officials in connection with the slaying of deputy sheriff Joe Morgan, of Muskogee, Oklahoma. According to a statement made by officer Herrin, he noticed two youths slinking in an alley, while in pursuit of an automobile. He believed to have contained liquor. He was driving a Ford touring car at the time. Upon being questioned by deputy Herrin as to their names and business they asked for directions to Mexican town. Herrin said he offered to take them there, and when he asked them to occupy the front seat and drive the car while he occupied the rear seat one of the boys drew his gun and shot once, missing his mark. Following this the two youths broke into a run and returned to the car. Herrin said he opened fire at one of them, but did not know whether his shots went wild or not. He immediately reported for assistance to county sheriff Johnston and Chief of Police Carter, he said and an investigation of the affair was opened.

At press time this morning no report had been received in connection with the investigation.

CANADA POSTAL WORKERS STRIKE HALTED, BELIEF

OTTAWA, Canada, June 18.—Late Wednesday afternoon it was announced that a nation-wide strike of Canadian postal workers probably would be avoided as the result of the announcement of acting postmaster general Stewart that some of the most important demands made by the men had been met by the government. The officers of the postal workers' federation were to give their final decision Wednesday night.

LIMESTONE CO. HIGHWAY CASE SET FOR OCT. 15

AUSTIN, June 18.—The supreme court Wednesday granted a motion to advance the Limestone county highway law test suit and set the case for submission on next Oct. 15th. This is the only attack on the state motor vehicle license tax and highway maintenance now in litigation. The Hamilton county case recently having been withdrawn by agreement.

No farmer ever paid interest on a mortgage with promises and predictions.

KANSAS PRISONERS PAROLED FOR DUTY IN HARVEST FIELD

LEAVENWORTH, June 18.—So great is the demand for harvest hands in Kansas that prisoners of the state penitentiary are being sent into the fields. The men are released on "harvest paroles" which expire on August 15, according to Warden A. V. Anderson. Twenty five convicts left Wednesday.

WITNESS SAYS AIR PRESSURE TOO LOW

SAN PEDRO, June 18.—The Naval board of inquiry investigating the U. S. S. Mississippi explosion late Wednesday closed its sessions with the examination of Captain Yates Sterling, commander of the U. S. S. New Mexico, and a member of the inquiry board. Captain Sterling told of his conversation with Chief Turley, Captain R. J. Ryne, in which the turret No. 2 chief told him that the air pressure in the gas ejection tubes on the guns was too low for efficient work.

This statement of Ryne had been brought out Tuesday and it is expected to bear materially on the board's decision as the cause of the tragedy which took 48 lives. Immediately after Captain Sterling's testimony, the board retired to secret sessions at which its findings will finally be assembled before they are forwarded to the navy department at Washington.

Chief Gunners Mate Harry Francis, gun captain from the New Mexico, was questioned concerning the effect low air pressure would be in dispersing gas from the gun bores. Francis said in his experience he had seen guns loaded, before the gas had been completely blown out.

"It is customary to put the shells in first and they set as a barrier between the hot gases and the turret," Francis said.

The powder bags rammed in later, are separated from the gas by the shell between the air pressure would not be of vital importance.

R. S. Goodwin, a seaman from the New Mexico was asked concerning the powder bags, over the removal of which some question has arisen. Goodwin said that the bags were removed properly and that he himself took off several as an observer.

The late of Ensign Horatio Smith's bravery in entering the turret was told again when Lieut. Commander Fox, one of the board of inquiry members said that he had seen Smith plunge into the smoking chamber.

LUMBER MILL IS DEMOLISHED BY BLAST

JASPER, Texas, June 18.—The J. S. Pickett Lumber Company mill, six miles west of here, was practically demolished and two employees killed when a boiler exploded Wednesday morning. A. R. Wilburn was killed instantly and John E. Alexander died of injuries several hours afterward. Low water in the boiler is said by Mr. Pickett to have caused the explosion.

BANK EMPLOYE OF RANGER DROWNS IN LAKE

YOUTH ON TRIAL MURDER CHARGE

CHARGED WITH SLAYING OF MERVIN HAWKINS IN PULLMAN CAR

By United News. TEXARKANA, Texas, June 18.—Rush Wimberly, 17 year old youth went to trial in circuit court here Wednesday on a charge of murder in connection with the death of Mervin Hawkins, 16, who was shot in a Kansas City Southern Pullman car at the Union Station here January 7. The boys were charged with a Missouri Military school and with about a dozen others en route there after spending the Christmas holidays at their homes in various points in Louisiana.

GROOM SPENDS HONEYMOON IN JAIL

By United News. SAN ANTONIO, Texas, June 18.—Cheered by a visit from his pretty young bride, C. Del Costa dapper Italian Wednesday continued his lonesome honeymoon behind the bars of the Bexar county jail, where he was held on a charge of impersonating a federal officer. Married here on a license brought from Laredo, the bridegroom was arrested the same day. There is an element of mystery about Del Costa's motive in his alleged impersonation, although he is said to have obtained money from one man by posing as a federal officer. One theory is that he intended to impress his bride, who accompanied him to the special treasury agent's office here where he is said to have announced he would "report for work tomorrow." There was some speculation over the possibility that Del Costa really is an "undercover" official as he is said to have reported information regarding smugglers.

KANSAS YOUTH KILLED WHILE ASLEEP ON TRACK

COFFEYVILLE, Kans., June 18.—Francis Bates, 20 son of Francis Bates of Afton, Oklahoma, butcher, was killed by a train while he slept on the Missouri Pacific right of way, his head on a rail a mile and a half, south of here Tuesday night at 11:05 o'clock. His head was cut into above the right of way. A companion of Bates, Eugene Depew, also of Afton, sleeping near the track was awakened by the approach of the train but was hit by the locomotive in his confused efforts to get out of the way, he said. He regained consciousness about four hours later he said and notified a farmer living nearby of the tragedy. His injuries were not serious. The body of the dead boy was shipped to Afton Wednesday afternoon.

MININGITIS IS GIVEN AS CAUSE SLEEP OF YOUTH

HOUSTON, Texas, June 18.—Wednesday night found Manuel Middleton, 12, still sleeping, with no apparent change in his condition. Manuel, the son of Mr. and Mrs. M. V. Middleton, has been in a comatose condition in bed, since May 17. Meningitis was diagnosed as the cause of the youngster's illness in April, and his lethargy is blamed on that disease.

THREE ATTEMPTS AT OWN LIFE BY EL PASO GIRL UNSUCCESSFUL

EL PASO, June 18.—Unsuccessful attempts at suicide have been tried by Imogene Taylor, 23, according to police and she is recovering Wednesday from self-inflicted razor blade slashes on her wrists. Twice during the present week the woman has attempted to take her life by pecking carbonic acid the officers say. Drug addiction is the cause officers say.

GREER REFUSES TAKE STAND IN TRIAL

By United News. LOS ANGELES, Calif., June 18.—"I'd rather go to the pen for life than tell about Mabel Normand." And so, rushing gallantly as a knight of old to the rescue of his lady fair, Horace A. Greer, a spectacled chauffeur who is charged with the shooting of Courtland S. Dines, Wednesday chose a dramatic method of fading out of the threatened limelight. A muttered conversation with his attorney, S. S. Hahn, told the expectant court crowd that something was going to happen. On edge to get the inside story on "secrets of Hollywood," they were keenly disappointed and Hahn came forward with the statement that the defense would close its case without calling a single witness. Hahn denied an agreement with Mabel Normand by which he is said to have promised to keep Greer from the witness stand. "I tried to make him testify," Hahn declared, "but what can you do with a man who won't talk?" "I told him he hadn't made any defense—that he might go to the pen if he refused to talk," Hahn said. And answering that Greer with the affected intonation of a high class hero, had rejoined dramatically "I'd rather go to the pen for life than to tell on Mabel! The way you tormented her Monday when she was on the witness stand made my heart bleed. I don't think she should be made to suffer the poor kid."

Aside from the tension which came when Hahn was, according to his own declaration attempting to get Greer to testify, the trial proceeded merrily on its way Wednesday. Throughout the morning, there were several comedy features that kept the spectators in good humor.

One of these centered around the reading by Stenographer C. L. Buckley of notes taken at the time of Greer's first statements concerning the shooting. Buckley read calmly along until he reached the name "Miss Normand."

Miss Normand was sitting on the davenport and gave the impression of being ready. She sat there with four letters crossed out and the question mark out.

That started something. All sorts of charges were hurled back and forth by attorneys, intimating that the records had been tampered with. Although some deletion was obvious just what was left out no one seemed to know. Buckley was ordered to read the passage over more slowly and the crowds hushed their merriment.

"This time he read as follows: 'She gave the impression of being ready and sat on the davenport with her blank, blank, blank questioning.'"

REVIVAL HERE WELL UNDER WAY

METHODISTS BE GUESTS OF EVANGELIST AT NOON MONDAY

In spite of the heat last night a great crowd greeted the evangelist as they came to the platform. The large chorus choir opened the song service at eight-fifteen and from them Mr. Eddins, musical director, turned his attention to the congregation. People like his leading for the reason that he has something going on all the time. There is not a dull moment in the entire song service. The congregation shared even honors last night. At seven-fifteen, the young people gathered for a great rejuvenation. Refreshments were served and Mr. Eddins spoke briefly upon the subject, "Kindness." The services for young people thus far have been a feature of the meetings. Mr. Eddins is looking for even more enthusiasm as the days go by.

The boys and girls heard Mrs. Freeman at the story telling hour yesterday afternoon at three-thirty. This organization was organized Tuesday afternoon with seventy eight charter members. Credits were given for every new member brought this afternoon. Before Mrs. Freeman spoke to the boys and girls, Mr. Eddins held a very impressive service taking in the new members. The boys and girls are planning a great pop concert for Saturday night. This, according to Mr. Eddins, will be one of the most out of the ordinary entertainments of the year.

A very good crowd attended this morning service and heard Rev. Freeman give his address on the subject "Hungry and Thirsty." It has been said by those who attended the morning services that they are very impressive.

The Methodist men of the town are to be the guests of the Evangelist Party, and the pastor of the church Friday noon at the Army. The luncheon will be served by the ladies of the church. This luncheon is a great get-together affair for the men of the Methodist church, or those who are kin to the church. No charge will be made and plans are being made for a great time together. The luncheon will be held within the hour, starting at twelve o'clock and closing sharp at one o'clock.

The humor last night was one of such merriment and Freeman kept his audience in an uproar all the while he spoke. His text was taken from the first chapter of 2nd Peter and the 18th verse. "But Grow in Grace, and the Knowledge of our Lord and Saviour." The evangelist said in part, "There are spiritual babies as well as there are physical babies. And they have to be fed upon a bottle." Addressing a bevy of children when they laughed at his remark, he said, "What are you laughing at. Did you never see a bottle baby?" The with that big smile of his, he said "You must have been a bottle baby."

"One of the saddest pictures you can find any where is the face of growth in any family. It is a very sad thing to me to go into the forest—and see there the stunted trees. Failed to grow. To see a member of the human family that has remained dwarfed. But the saddest thing of all is the spiritual baby that has never taken on weight. We have them in every church. Poor little things still dressed in their swaddling clothes, and have never gotten strong enough to even walk for Jesus, to talk for Jesus, or to sing and shout for Jesus."

"Normal development in any life is growth. If at the end of the month your baby has not gained weight you are right down to the doctor to see what is the matter. If at the end of twelve months you are not a better Christian than you were when you started then you had better see the Great Physician."

We want our baby to develop. If our schools were as much interested in the development of the spiritual life of our boys and girls as they are interested in the development of their mental and physical life, we would have a great America in the next few years. Cottage prayer meeting is to be held in the following homes this afternoon. Mrs. R. W. Brown, 16th street. Mrs. Stambler, 18th street. Mrs. Deady, northeast corner Avenue N. and 14th street.

ACTION CAUSED BY REFUSAL TO EXPEL CUMMINS

AMERICAN EMBASSY TAKES OVER BRITISH EFFECTS IN MEXICO CITY

By United News. WASHINGTON, June 18.—Great Britain has broken off all diplomatic relations with Mexico as a result of the refusal of the Mexican government to rescind its order expelling Herbert Cummins, British agent for a number of years at Mexico City.

At the request of the British government, the American embassy at Mexico City has taken over the archives and effects of the British legislation, the state department announced Wednesday night. Great Britain made the request through the American embassy in London.

This means the breaking of diplomatic relations between the two governments, as it will result in the immediate recall of Cummins, in accordance with views already expressed by the British government as well as the cancellation of the mission of Sir Thomas Hopler, who was to go to Mexico soon to open the way of a full resumption of relations between the two governments.

The announcement from the state department said: The request of the British government transmitted through the American ambassador at London, 'the American charge d'affaires of Mexico, Mr. H. S. Arthur Schoenfeld, has been instructed today to take over the archives and effects of the British legislation in Mexico City, and to inform the Mexican government of this action as an act of courtesy.

Further Action Unknown. While this action of Great Britain means the breaking of present relations between the English government and Mexico, and blocks the way for a resumption of full relations for which the Hopler mission was to pave the way it is not known whether the consular officers will be recalled.

Great Britain never has recognized the present Obregon government.

In the absence of a British minister, Cummins has acted as the agent for Great Britain for a number of years.

Ask Cummins Be Recalled. In a note from Mexico to Great Britain made public immediately in order to obviate further difficulties," the British government was informed, the Mexican government would "consider as a sincere demonstration of His Majesty's government the immediate recall of Mr. Cummins fully realizing as in previous instances that this attitude of defiance of the national honor would mean the cancellation of Mr. Hopler's mission, leaving His Majesty's government to determine what it may deem correct."

EASTLAND MAN IS KILLED BY T. & P. TRAIN

By United News. EASTLAND, Texas, June 18.—R. E. Mitchell, 40, employe of the Prairie Pipe Line Company here was instantly killed when his small roadster was struck by the west bound Texas and Pacific passenger train No. 3 at a crossing just outside of the city limits Wednesday afternoon.

When the train crew finally stopped the train and went back to the wrecked car the found Mitchell's only companion, his crippled dog, standing faithfully at his side, watching over the body of his master.

The body was brought into Eastland where an examination was held.

WEATHER. WEST TEXAS Generally fair tonight and Thursday. Panhandle Cooler.

GIRL ADMITS FIRING SCHOOL

ACT ATTRIBUTED TO FEELING OF RESENTMENT IN UNDEVELOPED MIND

LOS ANGELES, Calif., June 18.—There is no reason to doubt the confession of Josephine Barthelmy, the 16 year old girl who Wednesday declared she had fired the Hope Development School on the night of May 31, according to the statement of Lola Bademaker, a matron who rescued several of the survivors.

Mrs. Mary E. Jacobs, owner and conductor of the school which burned with a loss of 24 lives, said that Josephine acted strangely after the rescued children had been gathered together. Mrs. Jacobs confirmed Josephine's statement that she had never been satisfied in the school and attributed her act to a feeling of resentment which had been nourished in the girls underdeveloped mind.

Neither Mrs. Jacobs nor Mrs. Bademaker doubted the accuracy of the confession. Josephine appeared at the district attorney's office with W. H. Prescott, head of the juvenile department, Wednesday.

"I started the fire," she said and began to cry.

"They did not treat me right," so I borrowed a match from my room mate," she continued between sobs. "After I had lit some kindling wood in the basement I went to bed. I was not afraid of being burned but ran downstairs with the other girls when some one hollered 'fire'."

Those who knew Josephine when she was an inmate of the Hope School, say she seemed to have the mental development of a child of eight or nine. She is less than five feet tall and rather tall and pretty in a Spanish way. Her parents are dead and she has been in the school since her orphanage began.

There seemed to be no remorse for the lives of her 23 mates. The tears that came were for her own part in the confession.

District Attorneys aides say that Josephine probably would be sent to some institution for treatment. Her mental condition is such that there is no probability of legal punishment they said.

The fire, for which the Barthelmy girl takes responsibility, was first reported some time after its start. Flames, eating into the dried wood of the structure, had gained headway that no amount of effort could halt. One matron, Mrs. J. C. Thomas, lost her life in addition to the 23 inmates who perished. Long regarded as a fire trap, the Hope School was unfit for use as an institution for girls after the tragedy disclosed. The Los Angeles county grand jurors in its probe of the disaster has asked construction of new institutions and has conducted a vigorous campaign against buildings which house children and are not properly equipped.

Ice and fire are all right separate but combined were never known to cook anything.

APPEAL COURTS

Special to the Avalanche.
AMARILLO, June 18.—Proceedings of the court of civil appeals for the seventh district, at Amarillo, today.

Motions overruled: Victor Refining Co., et al. vs. City National Bank of Commerce, et al. rehearing and to certify, from Wichita; W. J. Meals, et al. vs. J. H. Adams, rehearing, from Wichita; C. H. Tippy, et al. vs. J. W. Ferguson, et al. rehearing, from Wichita; Fort Worth and Denver City Ry. Co. vs. C. A. Lovett, et al. rehearing, from Wichita; J. L. Maxwell vs. Whner Gas Stove Co., rehearing and to certify, from Wichita; National Bond and Investment Co. vs. Geo. W. McCoy, rehearing from Wichita.

Dismissed: Woodward Lane, et al. vs. Harry A. Nelson, et al. from Gray.

Affirmed in part, reversed and remanded in part: Mercantile Bank and Trust Co. et al. vs. E. G. Schubart, et al. from Dallas.

Reversed and remanded: Marion Machine Foundry and Supply Co., et al. vs. A. P. Peck, et al. from Wilbarger; P. O. Brock vs. Cullum Bros. from Lubbock.

Submitted: Oil Well Supply Co. vs. Texanna Production Co. from Wichita; Georgia Casualty Co. vs. Oile Campbell, et al. from DeWitt; Q. C. Davis vs. J. L. Jacobs, from Hale; W. J. McElhany et al. vs. J. E. Swepton, guardian, from Fisher; R. L. Scott vs. Industrial Finance Corporation, from Collingworth; Panhandle and Santa Fe Ry. Co. vs. C. B. Whitten, et al. from Floyd.

HUGHES FIRM IN REPLY TO EXCLUSION PROTEST

(Continued From Page 1.)

such an international agreement or that by virtue of the existing understanding, or of the negotiations which it has conducted in the past with the Japanese government, it has in any sense lost or impaired the full liberty of action which it would otherwise have in this matter.

Sovereignty Right Reserved.
"On the contrary, that freedom with respect to the control of immigration which is essential element of sovereignty and entirely compatible with the friendly sentiments which animate our international relations, this government in the course of these negotiations has fully reserved."

"While this government acceded to the arrangement by which Japan undertook to enforce measures designed to obviate the necessity of a statutory enactment," it further says "the advisability of such an enactment necessarily remained within the legislative power of this government to determine."

"As this power has now been exercised by the congress in the enactment of the provisions in question, this legislative action is mandatory upon the executive branch of the government and allows no latitude for the exercise of executive discretion as to carrying out of the legislative will expressed in the statute."

Holds Execution Right.
Hughes points out that in the treaty of commerce and navigation between this country and Japan in 1911, "this government

was careful to negate any intention to derogate from the full right to exercise its execution. "The point of substantial difference between the existing arrangement and the prevention of the immigration act is that the latter has expressed as the president has stated, "the determination of the congress to exercise its prerogative in defining by legislation the control of immigration instead of leaving it to international arrangements."

"It is not understood that this prerogative is held in question but rather your government expressly recognizes that it lies within the inherent sovereign power of each state to control and limit immigration to its own domain, an authority which is believed the Japanese government has not failed to exercise in its own discretion with respect to the admission of aliens and the conditions and locations of their settlement within its borders."

GREAT BRITAIN BREAKS WITH MEXICO

(Continued from page 1.)

vent for its interests in the future relations of the two countries," Premier MacDonald, of Great Britain, in an interview with the Mexican consul at London on Monday, had informed the Mexican representative that if Mexico insisted on expelling Cummins that he agent would be recalled immediately and that the Hopler mission would be cancelled the statement from the Mexican embassy here stated.

Cummins Reported Recalled

MEXICO CITY, June 18.—It is reported in reliable sources here that Herbert C. Cummins British charge d'affaires has been recalled by his government.

Great Britain will turn over her affairs to the United States as reported in Washington dispatches. It is assumed that her next step would be to recall her representative. That would the usual course in the severance of international relations.

This action came after Mexico had refused finally to withdraw its order expelling Cummins. It follows a long aggravated state of affairs between the two governments, brought on when Mexico objected some weeks ago to alleged "discourtesy" of Cummins, and asked for his recall.

This Great Britain refused and Mexico ordered that he be expelled.

The British consul declines to comment, but an official of the ministry of foreign affairs states that Cummins has been recalled on passports, as Mexico refused to accept any other solution of the problem.

It is understood that Cummins

will go to New York to take charge of the archives in the British consulate there. The foreign policy here believes that he will leave within the next 24 hours.

Meanwhile British oil companies and other British interests here are left without any representation of the British government in Mexico City.

The British club on the report that Cummins had been withdrawn called a meeting of members whether representatives should be made to England with a view of having British representatives sent here.

BUREAU HEAD IS EXONERATED OF CHARGE

(Continued from page 1.)

WASHINGTON, June 18.—Major Louis T. Grant, manager of the 12th district of the Veterans Bureau, has been exonerated of charges against him in the majority report of a committee of investigation which has been approved by director Hines, of the Bureau.

The committee finds that Louis T. Grant is at present time efficient morally, for the office which he governs and that the disabled men of this district have not suffered because of anything under the control of Major Grant.

or any disclosure made regarding him," the majority report states.

YOUNG FORGER IS GIVEN TWO YEARS IN PRISON

FORT WORTH, June 18.—Mona Richards, attractive young lady forger of sixteen aliases, occupied a cell in the county jail here today, pending a journey to Huntsville for a two year sojourn. So nearly did the jury come to succumbing to Mona's "overwhelming girlishness" that the judge was forced to remind them of more material things. She was finally given a verdict of guilty.

CLASS PICNIC IS ENJOYED BY MEMBERS

The "Young Business Men's Bible Class" of the First Baptist church went to Cottonwood Springs Tuesday evening for a picnic and social occasion, together with their wives and friends. It was a very enjoyable occasion. About one hundred persons were present.

We wish to take this opportunity of complimenting the committee on arrangements for the outing. Every detail was thoroughly worked out and nothing was left undone in making the affair a great success. There was chicken, cake, ice-cream and everything good to eat. Several short talks were made in the interest of the class. Among the speakers of the evening was the pastor Rev. J. M. P. Morrow. He and his wife were both present and seemed to enjoy the outing very much.

We wish to thank everyone who had a part in making the meeting the success that it was. And we also want to extend an invitation to all young businessmen to attend our class, which meets every Sunday morning at 9:30 o'clock.

Secretary.

COMMUNITY CLUB HOLDS INTERESTING MEETING

The County Line Community Club held a very interesting meeting Tuesday afternoon at the home of Mrs. E. W. Jackson.

The club was just recently organized and is progressing rapidly under the direction of Mrs. Walter Robinson, president. Mrs. F. S. Nettison, vice-president and Mrs. Harvard Barnes, secretary treasurer. Regular club meetings will be held the first and third Tuesdays of each month. The next meeting will be held in the home of Mrs. Frank Barnes.

Miss Marsh, local home demonstrator, was in attendance at this meeting and she is profuse in her praise of the work the members are doing.

Baptist Choir to Practice
The Baptist choir will practice Thursday evening at the church at 8:30 o'clock. A full attendance of those interested in good music is urged.

HUB TOWN STROLLERS POSTPONE THEIR PLAY

The Hub Town Strollers have postponed their entertainment from June 28 to July 1, so as not to conflict with the Methodist revival.

FLANNEL FOR SPORT WEAR

BY HEDDA HOYT
Fashion Editor of United Press
NEW YORK, June 18.—All hats worn with the sports suits are small and cloche-shaped. Shoes are either plain pump affairs, the single-strapped models or the plain types with buckles. The very low flat heel is not as popular as the medium heel for sports wear. With light colored suits or wraps the white shoe predominates. Vivid colored shoes are not worn.

Drop in to-day and make your selection from our complete stock at the price you have in mind.

Kodaks \$6.50 up
Brownies \$2.00 up

CITY DRUG STORE

this year by the better groomed women. Where coloring is used on the sports shoe it appears as piping or applique and even then the coloring is restricted to subdued tones. White shoes trimmed with light tan or brown leather are noticeable and black shoes with appliques of brown leather are also being worn.

A suit which, though simple, proved very effective at the race track was fashioned of dove gray capelet effect. The cape, which was of fingertip length, was lined in soft, powder-blue silk crepe and tied at the throat with long streamers of powder-blue. Hat, shoes and hose carried out the powder-blue tones.

A stunning coat which could be made by the amateur dressmaker was made of amber-flannel in long, straight, cuffed-about lines. It was collared and cuffed in skunk fur and a band of skunk extended diagonally from the front and rear hemline.

Blanket wraps were worn by several of the motorists. They actually looked as though they were made of blankets of Navajo patterns and bound with silk tane about the borders. Besides the Navajo designs, there were many

which had huge checks or stripes of brilliant coloring. No fur pieces were worn with these, the effect being that one is wrapped in a huge blanket.

Personals

Mrs. A. G. Epps is at home after a visit with relatives and friends in Brownwood.

Mr. and Mrs. J. A. Presley and children of Memphis arrived here this week to make their future home. Mr. Presley will be engaged in the oil business at Ropesville.

Mrs. J. M. Davis returned to her home here Wednesday after having spent two weeks visiting with friends and relatives at Brasher, Texas. Mrs. Davis stated that she is mighty glad to be at home here again and that she appreciated the climate of the plains more now than ever.

VO. SENATOR SUFFERERS ATTACK OF GRIPPE

KANSAS CITY, Mo., June 18.—Senator James A. Reed, of Missouri was under the care of a physician at a hotel here Wednesday following an attack of grippe. Reed's condition was not pronounced serious, but his physicians indicated it might delay his trip to New York to attend democratic convention.

BUILD A HOME.

FATHER PLEADS FOR THE RELEASE OF SONS PARKING FINE

FORT WORTH, June 18.—An old man appeared before Judge Cullen Bailey in police court here to plead that the case against his son charging him with parking longer than the limit, be dismissed.

"It isn't the fine I want to avoid, your honor," he explained. "It is the odium attached to paying a fine I don't like."

"One dollar and costs," said the judge, "and give the boy the odium."

PEOPLE DON'T EXCUSE PIMPLES—GET RID OF THEM

Black and White Ointment, and Soap, are doing almost miraculous things for people who had tried many things in desperation trying to get rid of pimples, blotches, bumps, eczema, "breaking out." That more than two million packages are being used a year just proves its wide use and tremendous popularity with the people whose skin it has cleared up.

Any dealers can supply you with both the Ointment and the Soap. So there is no excuse to keep being bothered with your skin troubles. The 50c size Ointment contains three-times as much as the 25c size.

PIGGLY WIGGLY IS NOW UNDER NEW MANAGEMENT

W. E. Humphreys and J. M. Davis of Brasher, Texas, owners of a paying mercantile establishment there and of one of the leading lumber businesses of that section, have just bought the Piggly-Wiggly store in Lubbock which has been owned by Sam and Emmett Darby and J. I. Noah.

They also obtained the exclusive Piggly Wiggly rite in Lubbock county, and while no statements concerning the further development of the business were made, friends of Messrs. Davis and Humphreys know they are in a position to take such steps when conditions permit.

Mr. Sam Darby will remain with the store for an indefinite time, he having been in the grocery business here for a number of years and having a large following of friends and customers will be a valuable aid to the new management.

The Ladies Aid of the Cumberland Presbyterian church will have a food sale at Myrick Hardware Co. Sat. Select your Sunday dainties early. 200-1.

Dollar Parasols

Minter-Gamel Co.
Lubbock's Newest Store

Announcing— The Purchase of Piggly Wiggly

It is with pleasure that we announce our purchase of the Piggly Wiggly Store, at Broadway, also the rights to the entire Lubbock county.

The members of the new firm are W. E. Humphries and J. M. Davis both of Brasher, Texas, where they have successfully engaged in the mercantile business for the past 13 years, continuing a business at that place at this time in addition to Piggly Wiggly here.

The Piggly Wiggly rights for Lubbock and Lubbock County were formerly owned and the Broadway store operated by Sam Darby, Emmet Darby and J. I. Noah, all local men.

The same high class service always found at Piggly Wiggly Stores in addition to highest quality and big values can always be found at this store. We ask your continued patronage, and a visit from any who are not familiar with Piggly Wiggly values or method of doing business. We thank you and invite you to call.

It is with much pleasure we retain the services of Mr. Sam Darby on our force. Mr. Darby will assist in the operation of our Broadway store.

OPEN 7:00 A. M. TO 7:00 P. M.

WHO IS TO BLAME FOR THE JAP DEMONSTRATIONS?

The Japanese Ronins, who are the leaders of the demonstrations in Tokyo against the way the United States congress passed the exclusion act, are "loyalty men" who have pledged themselves to keep alive the loyalty spirit of ancient and medieval Japan. Ronin means "wave man," one who is a rover, because of the death of his lord and cannot take service under any other master, because loyalty can never be divided.

The most popular story in Japan concerns the deed of the Forty-seven Ronins, who, in 1703, attacked the households of a great lord of the Shogunate's court in Tokyo (then called Yedo), because the lord had insulted and caused the death of their own master. The Forty-seven Ronins killed all the members of the offending household and cut off the head of the enemy lord.

For this they were condemned to death and all forty-seven committed hara-kiri by disembowling. The disembowling ceremony is spiritual in its significance. Theoretically it releases the soul so that observers can see the soul is pure, even though the deed may be impure. The graves of the Forty-seven form a natural center of reverence in Tokyo. Their deed was committed in an age of degeneracy and effeminacy and stirred the Yamato spirit from its lethargy.

The modern Ronins are trying to preserve for Japan the so-called Yamato ideal, which is based on loyalty even above the needs of material desires. The Ronins are led by a picturesque figure in Japan's life, Mitsuru Toyama, who is regarded as the "Robin Hood" of Nippon, helper of the weak against the strong. He is an elderly man, who gives orders from his Tokyo residence that are religiously carried out by his followers.

There is much difference of opinion among Japanese concerning Toyama and his Ronins. Among the romantically minded, he has been invested with the glory that attaches to the name of Robin Hood in America and England. But there are many who deny the truth of the legends about him.

Instead of being concerned with checking the modern materialism of Japan, Toyama and the Ronins are said to represent that part of the character of the old Samurai which was quarrelsome, autocratic and swashbuckling. The Ronins in Tokyo have been accused of letting themselves out for hire, for the purpose of breaking up meetings, purely from motives of political partisanship. They have not hesitated, it has been charged with rushing into the diet and attempting by threats of violence to overawe members of parliament.

Instead of favoring constitutional evolution of government in Japan, the Ronin often give the impression that they want an autocratic regime, believing that democracy leads to materialistic degeneracy. Toyama, who is deeply religious, always worships/facing in the direction of the residence of the Mikado.

Toyama's power is beyond dispute. His influence upon Japanese thought cannot be dismissed in considering Japan's relations with the western world. He is the undoubted spokesman for a large part of the population of Japan, which, while not favoring violent methods, nevertheless, looks with dismay upon the possibility of western ways undermining Japan's virtues and crushing the nation's sense of spiritual values.

Modern statesmen and business leaders have paid Toyama sums of money to restrain his Ronins or to purchase their use for personal support. There is abundant evidence that Toyama takes money in this way, but his supporters say that like Robin Hood, he takes it only to give it to the poor. So there is room for the two views that prevail about his true personality.

SIXTY-EIGHTH CONGRESS A FAILURE.

Unless the Sixty-eighth Congress can claim credit for the things it did not do, there is little to which either Democrats or Republicans can point with pride. It proved to be a session in which politics played the leading role. Our foreign affairs have been left in a muddle. The country as a whole, is in worse condition, politically speaking, than it was before Congress assembled. An immigration bill was passed because there was an emergency, but it was done with such a spirit that our relations with Japan have been seriously strained and undoubtedly our business in the Far East will suffer. A bonus bill was passed. It was a compromise affair which will increase the number of public employees by many thousands and increase public expenditures by billions of dollars without giving the service men the compensation they desired or hoped for. The income tax was reduced, but in view of the bonus bill and other Government expenditures, it is a foregone conclusion that the people will pay some other way.

Beginning early in the session Congress started on an investigation rampage. The air reeked with scandal, and if witnesses are to be believed, or if there is any truth in the old saying that "where there is smoke there must be fire," some of our public officials should be breaking rocks in the penitentiary. Thus far nothing has been done to-

wards bringing the guilty to the bar of justice and very few persons believe that anything ever will be done. As the scandal investigations warmed up there was a brazen effort made to block proceedings and give protection to those charged with crime or with laxity in public duty. Men who were striving to bring guilty before the courts were themselves charged with crime, and in other ways hampered in their work. "Hush" was the password to party councils. It was again "party first and country last." All through the session measures were introduced and votes cast with a view of saving the little \$7,500 job, and results have demonstrated that the job pays too much for the class of service rendered the country.

About the only commendable thing done by Congress was to fail to pass the political farmer legislation up before it in various forms, thus cleaning the slate for some real constructive measures when the new Congress assembles. Not much can be expected of the short session which convenes in December. It will be the same old crowd and they will not have much time to give to the country after they go through the formality of drawing their mileage money and their salary checks.

There are many conscientious men of ability in Congress who ought to be returned, but they have been outnumbered and outvoted by those whose self interest outweighs the needs of their country.

The Sixty-eighth Congress is another argument for reducing the number of representatives by one-half. A smaller body would do more constructive work with less fuss. The members who played politics and blocked the business of the country would have less opportunity to hide himself and escape detection.

FRANKS CASE LESSON TO PARENTS.

Busy parents, who have not time to properly care for their children are responsible for the Leopold-Loeb-Franks case in Chicago, according to Dr. Wm. C. Covert, general secretary of Christian Education of the Presbyterian Church. Covert lives in Philadelphia.

"I know the parents of the Leopold and Loeb boys and they are seemingly fine people," Dr. Covert said, in discussing the case. "They are intelligent, but they were too busy to attend to their son's education. Therein lies the answer."

"An educated person without character is a menace. He has no moral direction to his life, nothing to guide him in the right way and consequently is self-indulgent and anti-social."

"A man who has no moral education comes pretty close to the jungle. He reverts to the rule of the beast and there you have the cause for this crime in Chicago. There you have the difficulty with Leopold and Loeb. Both boys were intelligent people, but they were too busy to would buy, but they were lacking in something far more precious—moral stability."

"My son was a councillor in a camp in Wisconsin which Loeb attended. He knew him as only persons who have lived in the open together can know each other. Loeb at that time was a healthy, normal boy, inclined to be mischievous, but not vicious. He grew older and his brain developed, but he had no restraint placed upon his normally active thoughts. Consequently he took the path the results of which is known all over the world."

"There is no question of sanity in this case. Both boys are admittedly brilliant, but they have not schooled themselves to restraint. They followed their impulses, regardless of where it led them."

"The biggest necessity in the world today is the arousing in American parents a consciousness of their responsibility to their children. When this is done there will be fewer cases of juvenile delinquency and the world will be a better place to live in."

BOYS CLUBS ARE GROWING.

Boys Clubs are providing valuable community assets, especially in the larger cities, where they rescue hundreds of boys from the slums and evil influences and develop them into good and useful citizens.

There are 231 boys clubs in the country with a membership of 175,000 between eight and eighteen years of age. Their buildings and equipment are valued at \$8,000,000. Nineteen new clubs and 20,000 additional boys have come into the national federation during the past year.

Data is available which shows conclusively that the clubs take boys off the street corners and break up the gangs in which criminals are so often developed. It is of record that in a particularly tough district in Chicago juvenile delinquency fell off 73 per cent, within a year after a boys' club had been opened.

Every effort of this character should be encouraged, particularly where the boys of foreign born parents may be drawn into true American environment.

Little Avalanches

The laundry does all it can to keep the cool. It puts holes in your shirts for ventilation.

Revenue to the government means income, to the taxpayer outgo and to the congressman a lot of damaged fences.

The Chinese bandits have been on another rampage, but they are still unable to keep pace with the New York variety.

Science has figured out a way to apply radio surgery and cut off legs with it. The large majority of radio soups that way.

It's a poor rule that doesn't work both ways. If a neighbor mistreats your dog, don't feed his cat any more milk.

There is one telephone for every eight people, and sometimes it sounds like all eight are trying to use it at once.

Just Folks

by Edgar A. Guest

THE NON-BELIEVER

The non-believer is a man who
Lets the morning sunshine in
And thinks by chance this world
began,
As men throw dice and lose or
win,
He sees the violets bloom and
blow,
But not the power which makes
them grow,
Chance chartered every planet's
course!
By chance the summer follows
spring,
Chance gave to man the faithful
horse
And made the swallow fleet of
wing!
How these things came he doesn't
know,
He thinks they merely happened
so.

Oh, what a jumble there would be
If chance were shaping beasts
and men,
Could blind chance once repeat
a tree,
Or bring the June roses back
again?
The simplest truth we've learned
to know
Tomorrow chance might overthrow
Without confusion or mistake
There is a power which rules
us all,
A higher law we cannot break,
An eye which sees the sparrow
fall,
In every twig and leaf and blade
I see God's handiwork displayed

(Copyrighted 1924, by Edgar A. Guest)

J. M. MARSHALL FOR DISTRICT ATTORNEY

I am a native Texan, reared on a farm in Nacogdoches county, attended the law school at the University of Texas, and have practiced law for twelve years with no other occupation.

I am a democrat and have fought, at all times, for the principles of democracy. I believe that straight-forward, honest methods and purposes will win in the long run.

Ambition to serve the public and society in the courts of our country, helping to enforce the criminal laws, prompts me to announce for district attorney, which office affords a great opportunity for service. There is a great work to be done, and I want to engage in this work. The opportunity is the greatest I have ever seen for real law enforcement. It is respect for the law that makes government possible. A rigid enforcement of the law is the best means of securing proper respect for the law.

We have the strongest and the best government on earth today. The strength of our government lies chiefly in the love we have for our free institutions, the protection we receive from the government, the confidence we have in our officials, and in the fact that in this country all men of all classes stand equal before the law. It is therefore important that we stand by our government and our laws, if our government shall endure.

I regret that anything but qualifications and fitness for office should enter into the selection of officers, but the Klu Klux Klan is an issue in our politics now. I have no disposition to dodge the issue, for I believe that no question is ever settled until it is settled right. I am not a Klansman. I am opposed to all secret organizations which, by violence or threats to all make laws, enforce laws, or function as a governing body, because they are not in harmony with the American system of government, and would destroy the very foundation of all law and order.

While the people have a right to know how each candidate for office stands on any question, I shall, if elected be a servant of all the people alike without distinction as to class or clan. The business of law enforcement is one of the biggest things, for us to think about and we should not forget our duty to our country and to society.

Should I be elected district attorney, I would stand for a strict enforcement of all laws, a square

deal with every person with special privileges to none.

JUDGE HILDEBRAND MADE DEAN OF LAW SCHOOL

AUSTIN, June 18.—Judge I. P. Hilderbrand, professor of law in the University of Texas, has been made acting dean of the School of Law during the summer session. Dean G. C. Butte is making a tour of European law schools this summer.

Long jump from the Folies to London grand opera, but Mary Lewis, a daughter of Arkansas, pulled it off.

SELF DEFENSE IS CLAIM IN BIG KILLING

Neighbors Testify Brown Was Benefactor To Them All When He Slew Enemies

Excitement was intense last night when a hurry call came to headquarters with the tip that a riot had broken out in an exclusive neighborhood. Officers rushed to the scene and demanded an explanation.

"Why Mr. Brown did it—and we are all thanking him for killing them, too," declared one pretty woman, in the center of the large crowd on the sidewalk. "We've been nearly tormented to death with flies, mosquitoes, roaches and ants, but Mr. Brown came home tonight with some Fly-Fu and said he was going to rid the whole neighborhood of these pests. He did it too, and I guess we forget ourselves in our joy and make a lot of noise."

"Just look in our houses now and you won't find a one of those awful insects living. They are every one stone dead—and they are all going to die that come around us again, now that we know what Fly-Fu will do."

Fly-Fu is certain death for every kind of insect or bug pest. Flies, Roaches, Mosquitoes, Waterbugs, Ants, Fleas or the bugs and lice that infect plants drop dead the minute they breathe it. Kills moths and their eggs. Yet it is absolutely harmless to humans or plants—is an excellent deodorant and cannot stain.

Price 50c for large bottle with handy sprayer free, at druggists, grocers and general stores. Substitutes can't and won't do the work. Get genuine Fly-Fu and end the insect pest.

THREE TEAMS FROM U. S. DOWNED INTEREST HIGH IN TENNIS AT WIMBLEDOWN BY ENGLAND IN WEIGHMAN MATCH IN COMING MATCH

LONDON, Eng., June 18.—A sound strangely akin to a catty moan vibrated through the polite atmosphere of Wimbledon tennis stadium Wednesday afternoon.

The pride of the United States Miss Helen Wills, had just been defeated in most thorough fashion by Miss Edith Covell of England in the first of the international matches for the Weighman cup.

Suzanne Lenglen, herself, had made a scenic entry into the stands during the matches and had sat through them enjoying the spectacle of the American triple defeat.

Miss Covell simply permitted Miss Wills to throw the match away by error. Helen started unsteady and shot two double faults on her first service.

When Chas. Olson, middleweight champion wrestler of Canada, meets Thor Jensen, of Herford, here at the community auditorium Saturday night the fans of Lubbock will see one of the best matches that has ever been staged here.

Hines points out that Olson's record is similar to that of Jensen's, and that the two are going to battle for what the know to be the biggest plum offered a winner of any match ever staged in Lubbock.

Kala Pasha wrestled Olson for a draw here on one occasion at the end of which both he and Olson declared that they would not meet again under a time limit.

Jensen is fast, scientific and has only two pounds less weight than Olson, and the match between them is sure to be a good one.

Messtime sport fans are showing no little interest in the battle royal that will be staged by five negroes, and while this sport might be a little rough to some, the tactics who have been selected to make this little show are handily nearly matched that they will take good care of themselves.

Since her arrival in London some weeks ago, However, Myrick conceded that the British singles players did not make a mistake.

Miss Covell simply permitted Miss Wills to throw the match away by error. Helen started unsteady and shot two double faults on her first service.

The crowd was small and composed of school girls largely, who had come to see the beautiful Californian in action.

Mid-Covell received a shout from the crowd when the match ended and Helen rushed up to shake hands with her.

"I have no excuse," Helen said. "I was out played. I have no desire to discredit Miss Covell but I do believe that I was off my usual game. I simply couldn't get started."

Then she announced that she had changed her mind again and would defend her title as world champion among women players against all comers at the regular Wimbledon tournament.

If Miss Wills overcomes the excessive anxiety seemed to be her chief trouble in the Weighman cup match with Miss Covell, she may yet advance through the Wimbledon tournament to meet Miss Lenglen in the final for the world title.

Miss Covell's score over Miss Wills was 6-2, 6-4. Miss McKane defeated Mrs. Mallory 6-2, 6-2, and Miss Goss and Mrs. Jessup lost to Miss Covell and Mrs. Barron 6-2, 6-2.

Julian Myrick of the United States Lawn Tennis Association advanced the excuses for the American players saying the team was short of practice.

When Chas. Olson, middleweight champion wrestler of Canada, meets Thor Jensen, of Herford, here at the community auditorium Saturday night the fans of Lubbock will see one of the best matches that has ever been staged here.

Hines points out that Olson's record is similar to that of Jensen's, and that the two are going to battle for what the know to be the biggest plum offered a winner of any match ever staged in Lubbock.

Kala Pasha wrestled Olson for a draw here on one occasion at the end of which both he and Olson declared that they would not meet again under a time limit.

Jensen is fast, scientific and has only two pounds less weight than Olson, and the match between them is sure to be a good one.

Messtime sport fans are showing no little interest in the battle royal that will be staged by five negroes, and while this sport might be a little rough to some, the tactics who have been selected to make this little show are handily nearly matched that they will take good care of themselves.

The four rounds boxing match in which Arthur Dula of the Avalanche is to appear will be another feature of the program that will attract many fans.

Preparations to accommodate a large crowd are being made.

Politics exhibit knives' often than they use them.

TIGERS MENACE TOP PLACE IN AMERICAN

The New York Yankees have been relieved of the Boston menace for the time being, but a more serious threat comes from the Tigers of T. R. Cobb and the end of the week may see the Detroit ball club leading the American League with the season one third spent.

The Tigers beat the Red Sox and pushed them deeper into third place in their game at Detroit Wednesday. The score was 5 to 3. Meantime the Yankees were losing to the Indians in Cleveland by a score of 6 to 5.

Three of the second division clubs won the white Sox in Chicago 5 to 4 by scoring in the ninth, Ray Kulp pitching for the Browns in St. Louis shut out the Athletics 5 to 0.

In the National League the Giants and Cubs maintained their stride in the front of the procession. The Giants, who lead by a fairly comfortable margin, won from the Cards in New York 3 to 1 and the Cubs beat the Phillies in Philadelphia 9 to 2.

The Reds whipped the Dodger aggregation 2 to 1, in Brooklyn and the Pirates nosed out the Braves in Boston 4 to 3.

Another casualty — Bascom Siemp's rep as a political councilor was also shot up considerably.

CONDITIONS OF WEATHER CAUSE DELAY IN FLIGHT

By United News. MITCHELL FIELD, L. I., June 18.—Unfavorable weather conditions have caused the postponement of Lt. Russell L. Maughan's attempt to beat the sun across the continent in a dawn to dusk flight from here to the Pacific coast.

The hop-off scheduled to occur with the first glimmer of dawn at Mitchell Field Thursday take place until Friday last and may be put back days, depending upon the weather.

Miss Mabel Mugh, local demonstration leader, met with ladies of County, June Tuesday and organized a committee club. The ladies entered with heartily into the work and looking forward to the work which was outlined.

LOCALS TO PLAY AT LAMESA SUNDAY

The local amateur baseball squad will journey to Lamesa Sunday afternoon for a clash there with the Lamesa lads, skipper Allen of the locals made known here yesterday.

Despite the fact that these lads are not under regular training, they are showing up well on the ball lot, with several hard fought victories to their credit.

They have met practically all of the hard nines in reach of this city, and have sent some of the tough ones back with a pang of regret.

Terry, ace moundman, has yet to be charged with the loss of a game when he had proper and expected support.

Skipper Allen very plainly made it known that he was anxious for as many of the local fans to attend the exhibition at Lamesa as can possibly make the trip, and a good game is promised.

Lamesa also has a string of

MARKETS

RALLY CENTERS ON RAILROAD STOCKS

By EDWARD J. CONDLON (U. N. Financial Editor.)
NEW YORK, June 18.—The orderliness of trading was perhaps the most striking characteristic of the stock market on Wednesday, profit taking was met by fresh buying particularly in the railroad issues where the rally centered around Nickel plate with Chesapeake and Ohio, Rock Island and Atchafalaya in good demand. The assumption is that large numbers of prospective purchasers have buying orders at prices just under current levels. Certainly the performance of the market Wednesday gave evidence of this, as the demand appeared with renewed vigor on all recessions and prices rallied quickly in most instances.

Publication of the weekly reports on the steel industry were somewhat reassuring. Increase in the demand for structural steel was a feature, bookings totalling some 30,000 tons, the largest in nine weeks. More than half of the weeks bookings were for oil tank work.

Quite significant is the fact that sales of pig iron have been increased in many districts. In Chicago at least 74,000 tons has been sold for delivery during the

third quarter at prices \$1. a ton under last weeks market, while Pittsburgh and Cleveland have enjoyed considerable new business.

Another reassuring feature in the days griet was the improvement in the leading foreign exchange rates. Gains were small but the market showed an excellent under tone. News of the diplomatic rupture between England and Mexico did not come until after the close of business, but it is doubtful if this incident would have materially affected sterling.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Lubbock, WHEREAS, By virtue of an Alias Execution issued out of the District court of Lubbock County, Texas on a judgement rendered in said Court on the 20th day of February, A. D. 1924, in favor of International Shoe Company, et al. and against A. Judd, and W. A. Ford, jointly and severally No. 1702 on the Docket of Said Court, and to me as Sheriff, directed and delivered, I did on the 11th day of June A. D. 1924, at 10 o'clock A. M. levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to A. Judd and W. A. Ford, defendants, to-wit: The fol-

lowing property of A. Judd, defendant: lot No. 12 in Block No. 40 original town of Lubbock, Lubbock County, Texas, all of blocks 80, 81 and 82 of the Wheelock second addition to the town of Lubbock in Lubbock County, Texas, also rent business house, now located on the E. W. Estes lot on North side of square in town of Lubbock in Lubbock County, Texas. 2—the following property of defendant W. A. Ford: Lots Nos. 11 to 16 inclusive out of Lot No. 7 of the Judd-Ford and Ellis subdivision of the T. B. White Subdivision of survey 2 in Block O, abstract No. 595, in the town of Lubbock, Lubbock County, Texas on the 5th day of August, A. D. 1924, being the first Tuesday of said month, between the hours of 10 o'clock, a. m., and 4 o'clock p. m. on said day at the Courthouse door of Lubbock County, Texas, in the town of Lubbock; I will offer for sale at public auction, for cash, all the right, title and interest of the said A. Judd and W. A. Ford in and to said property.

WITNESS my hand this 11th day of June A. D. 1924.
H. L. JOHNSTON, Sheriff of Lubbock County, Texas, by U. L. George, deputy. 194-4.

More dangerous than red propaganda—these free lectures to women, telling them they can all be beautiful.

MAYOR SEES HIS CITY FROM THE AIR AT LUFKIN

LUFKIN, Texas, June 18.—"He may be old, but he has young ideas," is a saying which applies very appropriately to Mayor Sam H. Kerr.
His Honor wanted to see how Lubbock looked from the air, so he took an official trip with "Chubby" Watson, recently appointed aerial policeman.
"It looks like a real city," was his report.

Mrs. L. A. Posey is spending the week in Plainview with her daughter, Mrs. E. O. Nichols.

Mayhap you have noticed that the guy who's always saying he will "shoot the works" never by chance works.

That Gray Car

Who Will Win It?

Saturday Evening of this week one of the Contestants becomes owner of that beautiful \$745 Gray Car. Your subscription now to The Lubbock Morning Avalanche or the Lubbock Daily News will have much to do with who wins the car.

Subscribe To-Day

There are several contestants out soliciting your subscription. One of these will win the car. You want one or both of the papers—they cost you no more to subscribe now and give your preferred candidate the votes.

How do Candidates Stand?

Nobody knows! The voting box is in the Lubbock State Bank vault sealed and locked. Votes cannot be counted until the contest has closed. There wasn't much difference in the standing of the contestant last Sunday. We do not know how they stand to-day, candidates have no idea nor does anyone else. The most subscriptions received gets the most votes. The most votes win the car. Only three days are left. Your subscription is solicited now and your votes will be appreciated by contestants.

Will Baskin Will Operate Blue Gin Here

With Baskin, will know local gin man whose acquaintance with the farmers of the county will be valuable to him in his new business, has just bought the Blue Gin of the West Texas Gin Company, and will have charge of its operation this fall.

Mr. Baskin is making improvements on the gin this time and will be ready for business at the very beginning of the ginning season. He is thoroughly experienced in that business and his many friends over the county, especially among the cotton growers, are glad to know that he will have charge of that gin this coming season.

MOVIE ACTRESS CAUSE MURDER IS CHARGE

LOS ANGELES, June 17 (UN) — Barbara La Marr, the too beautiful girl of the screen, heroine of a half dozen love episodes which led to the altar and many others which did not, is the central figure in a story of a strange murder mystery which detectives were seeking to unravel Tuesday night.

According to weird confession of a prisoner in the county jail, Count Mario Escobar, rich in the noble blood of Spain but poor in a monetary way, is the man who loved the voluptuous Barbara with a persistence which led to his destruction. Morris Nodler, former newsboy under sentence to San Quentin is the person whose story gained enough credence at detective headquarters and the sheriff's office to send a deputy in disguise to the wind swept cliffs of the Pacific, below San Juan Capistrano Tuesday in search of the body.

Nodler faces a prison term following his conviction on a charge of highway robbery. He was recently returned here after being arrested in Houston, Texas, where he fled when the officers got on his trail.

Pleading for immunity, he requested to Deputy District Attorney Joe Ryan as weird a story involving persons well known in Hollywood studio circles as was ever enacted before the camera.

Some months ago the authorities have learned, Count Escobar came from Spain in Hollywood to make his fortune in the picture. He rented a small bungalow. Possessed with a charm and culture given to his race, he soon won favor in the hearts of many actresses in Hollywood—much more so than in the eyes of the casting directors.

"Bits" and small parts were all Count Escobar appeared to be able to obtain. But if his plain efforts were deemed to suffice, his ambitions were soon dubbed a "love bungalow" prospered. His small residence by many actor folks in Hollywood folks who listen to stories of romance within their set with any movement, and proceed under the motto of live and let live.

Two months ago Escobar disappeared. Not the least grudge of the mourners who were saddened by his departure was Barbara La Marr, the "too beautiful girl" according to those who claim to know where Escobar had gone.

Several members of the film colony were questioned after the strange disappearance but none appeared to know where Escobar had gone. In the manner of the transient ways of Hollywood residents and Hollywood hearts, the affair was soon forgotten.

CRAZED NEGRO IS SHOT BY OFFICER

International News Service. FORT WORTH, June 18.—Crazed with drink and terrorizing the negro district, Charlie Nelson, colored, was shot to death by a motorcycle officer this morning.

MAN NOW THE FASTEST THING IN THE WORLD

PHILADELPHIA, June 17.—Man is now the fastest thing on earth. Within the last few years, after being hopelessly inferior in speed, since the beginning of time, to the birds, beasts and fish, man has, with the aid of his mechanical inventions, outstripped them all.

On land, man, with the aid of the motor car, is vastly superior to the four-legged beast. Tommy Milton, the racing driver, is down on the records as having exceeded 180 miles per hour with a flying car. Compared with this, the cheetah, or hunting leopard of India, the fastest thing on legs, which has been timed for short distances to have reached 60 miles per hour is a sluggard.

AGED SOLDIER IS ON HIKE TO ANGELES

FORT WORTH, June 18.—With his silvery locks flowing down past his shoulders, George Sherman, eighty-five years old and a Confederate veteran of Barnsville, Georgia, passed through the city today walking to Los Angeles.

DENTON CITIZENS POSSESSES MANY RELICS

International News Service. DENTON, Texas, June 18.—With a cordon of rangers and local officers thrown around the prisoners and court room, jury selection was started this morning in the trial of John Richardson, negro, charged with assaulting a white woman near here several weeks ago.

KING EMANUEL'S PALACE IS ROBBED OF JEWELS

LISBON June 18.—Thieves broke into the Emanuel Palace, owned by King Emanuel during the night, stealing costly carpets and almost priceless Chinese antiques. The caretaker was arrested today.

thereof, or the cost thereof, or the manner in which the cost shall be paid and apportioned among the owners of property abutting upon the said streets, or who may be in anywise interested in said improvements, contracts, assessments, proceedings, or any in any matter; this contract, thereupon or incident thereto, shall be held by and for the City Commission of the City of Lubbock, on the 1st day of July, 1924, at 9:00 o'clock a. m., in the present City Office in Court House in the City of Lubbock, Texas, and at such hearing all owners of property abutting upon the said portions of streets, their agents and attorneys and all others in anywise interested, concerned or affected, shall receive a full and fair hearing of all matters with reference to the said proposed assessments against them and their property, and any irregularity or any invalidity in any proceeding with reference thereto, the special benefits of said improvements to their property in the enhanced value thereof, or any other matter or thing with reference thereto; and such hearing may be continued from day to day and from time to time without further special notice, until all presenting themselves either in person or by agent or attorney have been fully and fairly heard. At such hearing any owner of property or any other person interested or affected shall have the right to introduce evidence and sub-poena witnesses. After such hearing the City Commission from the evidence before it will determine the amounts to be assessed against each parcel of abutting property and the owner thereof, and may correct any errors, irregularities and invalidities requiring correction that may come to the attention of the City Commission; and such hearing will be closed and assessments will be by ordinance levied against the various parcels of abutting property and against the owners thereof, whether such owners be named herein or not, and the real and true owners and all other persons in anywise interested in any property abutting upon the said portions of streets shall be and are hereby notified of the said hearing, of the time and the place thereof, and of all other matters and things herein contained. Said assessments when levied shall be a first and prior lien upon the property against which such assessments are levied and a personal liability of the real and true owners of such property.

IV The improvements on each portion of street or avenue above set forth constitute a separate and distinct unit of improvement and the assessments for the improvements in each unit shall be made and determined independently of assessments for the improvements in any other unit. The amounts of the assessments for the improvements in one unit shall in no wise be affected by any facts in connection with the improvements in any other unit.

V That the City Secretary is hereby directed to give notice to all owners of property abutting upon portions of streets to be improved and to all others in anywise interested in any improvement of the time, place and purpose of such hearing by causing a substantial copy of this resolution to be published in a newspaper published in and of general circulation in the City of Lubbock at least three times, the first of which publications shall be made not less than ten days before the date fixed for such hearing; and by such notice the real and true owners of the property abutting upon all said portions of streets shall be and are notified of all matters and things herein contained, whether named herein or not, and whether or not their property be correctly described herein.

The City Secretary shall also mail a copy of such notice by registered letter addressed to each of such owners at their address, if known, or if unknown, to their agent or attorney, if known; deposited in the post office of the City of Lubbock, Texas, at least ten days before the date set for said hearing, but such notice and service by letter shall be only cumulative of the said notice by advertisement and publication, and such notice by advertisement and publication shall in all cases be sufficient, valid and binding, whether or not any other notice be given.

The facts recited in preamble hereto constitute and create an emergency requiring the rule providing for ordinances to be read at more than one meeting, be suspended, and requiring that this ordinance be passed and take effect as an emergency measure. And such rule is accordingly suspended, and this ordinance is passed as an emergency measure and shall take effect and be in force immediately upon its passage.

F. R. FRIEND, Mayor, City of Lubbock, Texas. J. R. Germany, City Secretary. E. GILLILAND IS HERE LOOKING AFTER PROPERTY. E. Gilliland and family, of Wallace, Texas, arrived in Lubbock the first of the week and are visiting at the home of his sister, Mrs. L. O. Burford, and their son, G. G. Gilliland.

CLARENDON COLLEGE BOOSTERS TO COMPLIMENT LUBBOCK WITH A VISIT ON THURSDAY, JUNE 26TH

A delegation of boosters for Clarendon College will visit Lubbock on June 26 for the purpose of meeting our people and placing Clarendon College before them, according to a communication received from J. H. Burris, secretary of the Clarendon Chamber of Commerce, which organization is fostering a movement for exploiting the college and adding to its enrollment, hoping to literally fill it with students.

The delegation will arrive here about 5:30 o'clock p. m. Thursday, June 26, and will spend the night here shaking hands with the people. They are especially desirous of meeting prospective students, their parents, and relatives, for the purpose of inviting them to attend at Clarendon, and impressing upon them that it is unnecessary to leave this section of the west to attend college.

The manner in which Clarendon speaks well for the future of the institution and it is due to take on a more rapid growth. The method in which Clarendon people welcome the students indicates that they will soon feel at home. Incidentally, it is said that the prospects of the college were never brighter than at present, and it is the intention of Clarendon people to eventually make it a Senior College.

Lubbock should welcome this party of trippers to our city for they are working in a worthy cause, a Panhandle-Plains institution for Panhandle-Plains people. The importance of education cannot be over-estimated.

SEEN AND HEARD ON RIO GRANDE VALLEY

BY A. E. SNIDER
United Press Staff Correspondent
DALLAS, Texas, June 18.—While charges of fraud and misrepresentation are being hurled around the senate chamber in Washington about land deals in the Rio Grande valley of Texas, the "subject of the sketch" is producing oranges, grapefruit, cotton and garden truck in vast quantities, apparently unmindful of all that's said or done in the nation's capital.

If there is any widespread discontent among the landholders of that section, it does not manifest itself to the visitor to the valley. Everyone seems to be busy and the chief trouble seems to be the difficulty growers have in obtaining cars in which to ship their products. Of course there is also a question of freight rates.

The valley is served by one railroad, the Gulf Coast line, which extends from New Orleans, through Houston and skirts the edge of the Gulf of Mexico to Brownsville. A branch of this line extends from Haringen, just above Brownsville to Sam Fordyce, up the valley proper.

Over this single line of railroad come annually the thousands of cars of produce. During the rush season, a delay of a few hours such as can be caused by the burning of a railroad bridge or a train wreck may cost the growers thousands of dollars in loss of perishable products.

To the casual observer, the

valley needs another railroad more than it does a senatorial investigation. At any rate, the benefits of another line over which to ship perishable products, undoubtedly would be more immediate and greater than the average senatorial investigation results.

Railroad Planned
At present, there are plans afoot for another railroad to tap the valley. The proposed line more than likely would link up San Antonio with the garden spot of Texas and give shippers another direct route for moving their citrus fruits and garden truck. Recently, a group of eastern capitalists, accompanied by several railroad magnates, made a tour of inspection through the valley and definite action for a second railroad may result soon, it is hoped by shippers.

As for fraudulent land companies and their dealings with land buyers from the north there undoubtedly has been some of this sort of thing, but the questionable land agents have been weeded out, so they tell you in the valley, and the farmers from Iowa and Nebraska are in no danger of being film-flamed when they come down to buy a tract of valley land. They can go out and please and not be herded in the land agent's special station.

It is easy to understand why there have been disappointed investors there. Northern farmers, who own a farm of 160 or 240 acres back home, go down into the valley during the winter, compare the sunny climate with the cold and snows up north, look over the palms, the orange groves and the flowers and immediately want to buy up a hundred or so acres of high-priced land. Right there is where they go wrong.

To make money in the valley, the farmer must work, and work hard for it. Crops don't "just grow."

It takes lots of hard work and considerable capital before the grower begins to realize from his investment. If he has bought 30 to 40 acres of high priced land and shouldered too heavy a financial load, and expects to clear this land and make his money back the first year, he, more than likely, will soon be complaining that he's been "stung" so the older residents of the valley tell you.

Their advice to the prospective buyer of valley land is to buy only a small tract of land that can be paid for, cleared and put in to cultivation and still leave the owner a rainy-day fund of ready cash. Mexicans do the heavy work but the new land owner has to farm more carefully than he did up north for he's farming land that cost him, say, \$350 an acre, and it's all new to him. If he does this—and the elements are kind—he'll pull through and in a few years will have a most desirable place to live and be satisfied.

The feeling in the valley is that there has been a lot of injustice done that section because of the charges that have been aired in Washington since Senator Heflin turned his attention to the lower sections of Texas. It is admitted that land agents, of the shadier type, have brought excursion trains of northern farmers into the valley and have kept them herded together, "not permitting them to talk to those owners of land who might have unfavorable reports to make, and taking them to model fruit ranches where inspiring talks are made by the agents, after which numbers of the excursionists, swept off their

feet by the scenery and the oratory signed up for more land than they could pay for with the inevitable result—defaulting payments, and another crop of 375,000 land holders.

Whatever the Washington investigation brings out, the fact remains that the valley is producing the goods and that some of the growers down there have made big money. They have done it, not through luck, but through hard work, sound business methods and good crop years.

TEXAS UNIVERSITY PUTS OUT ITS OWN CATALOGUE

AUSTIN, Texas, June 18.—For the first time in the history of the school, the University of Texas catalogue is being completely printed and bound on the campus. There will be 11,000 copies printed of the 1924-25 catalogue, according to A. C. Wright, manager of the University Press, and they will be distributed through the office of the registrar, E. J. Mathews.

The new catalogue is smaller than customary due to the fact that the catalogues of the Medical Branch at Galveston and of the El Paso School of Mines were printed in separate volumes. The three catalogues will later be bound together, and 1,000 copies of the combined catalogue will be printed.

New binding equipment costing \$6,000 and recently installed by the University Press has made possible the publication of the 352 page catalogue, it is stated. It is indicated that the press will be still further improved and enlarged to meet the needs of the University as the Graduate School is enlarged and the publications of the school become more numerous.

JAILED FOR DISPLAYING FAKE GOODS—HALF MAN, HALF DEVIL

EL PASO, June 18.—J. C. Frazier's "half man, half devil" which he advertised as a mummy discovered by a cowboy in the Oregon mountains, hereafter will be on display in the Alamogordo jail according to word received here. Frazier who left here recently with the mummy on a tour of the country, was arrested and fined for displaying fake goods, according to Alamogordo police. The "mummy" was a combination of paper mache and excelsior, it was charged.

CURIOSITY COST BOY A THUMB; BUT WHY WORRY

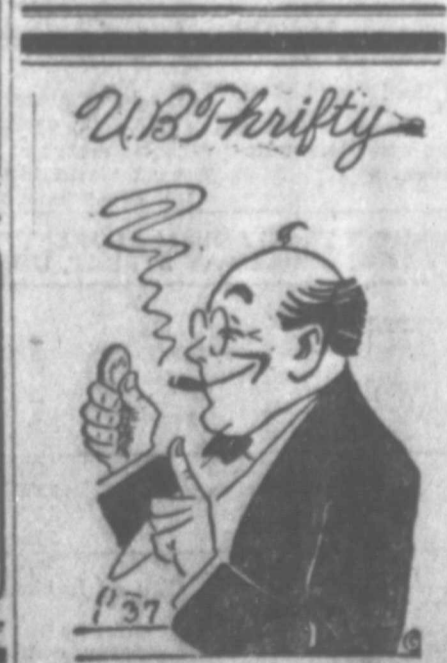

SAN MARCOS, June 18.—The curiosity of Joe Dickens, Jr. three years old, cost one of his thumbs when he stuck his hand in an electric clothes wringer and turned on the power. One of the child's thumbs was torn off before the machine could be stopped.

Canada has succeeded in restocking Lake Ontario with whitefish.

Good Advice for Women

San Antonio, Texas.—While taking Dr. Pierce's Favorite Prescription for (female) weakness I was also relieved of stomach trouble. The "Favorite Prescription" was exactly the tonic I needed in every respect. I got well shortly after I started taking it. My help is that which it did for me it will do for others. Therefore I advise all women who are in poor health to take a course of this treatment.—Mrs. J. T. Stauffer, 1522 W. Houston Street.

All dealers, Tablets or liquid. Send Dr. Pierce, President Invalids' Hotel, in Buffalo, N. Y., 10c for trial package tablets.

It is better to die trying than sighing.

NEW WHEAT IS COMING INTO PLAINVIEW

PLAINVIEW, June 18.—Ira Ratliff, who farms three miles west of Plainview, brought the first load of new wheat into Plainview this morning. His wheat grades No. 1, dark hard, and weighs 62 pounds to the bushel. He is combining between twenty-five and thirty bushels to the acre. He received a cash premium of \$25.00 from the Harvest Queen Mills.

The second load came from Joe Kelleher's farm northwest of Plainview. It also graded No. 1, dark hard, and is of good weight.

These two loads were sold to the Harvest Queen Mill and Elevator Co., which hopes to ship out a carload today to Amarillo, the Great West Elevator there offering a premium of \$100 for the first car of milling wheat of the season.

There was in the Plainview yard this morning a car of wheat being moved by the Santa Fe from Floydada to Amarillo by the Southwest Wheat Growers' Association.

Willie Sammann, northeast of Plainview, hauled his first load of wheat to Jeffus-Delaach Grain Co. this morning. It grades No. 1, dark hard, and weighs 62 pounds to the bushel. He has not yet threshed enough to compute yields.

Throughout the Plainview territory today combines are "warming up." W. E. Risser is starting to harvest on his farm near H. V. Tull's place on the Lockney road, and Lloyd Tull, who is farming Mr. Risser's farm near Ferguson Switche is starting today.

George Bryson, 12 miles northeast of Plainview; A. G. Cox, six miles southeast; Pet Waling, northeast; W. G. Williams, northeast, and many others are harvesting today.

Not only is wheat making a good yield, but the quality is excellent. Practically all of the early wheat in the Plainview territory will grade No. 1, dark hard.

Germans Seek Home In U. S.; Despair Of Nation's Future

By United Press
BY CARL D. GROAT
United Press Staff Correspondent
BERLIN, June 17.—Vastly more Germans want to emigrate to the United States than the new immigration bill will permit.

The Berlin American consulate stated today that every consulate is swamped with applications. In fact, they were "overset" at least two months ago, while the requests still are continuing.

As soon as the new regulations are received here, the Berlin consulate will begin an apportionment of visas for the lucky ones. So far, no complete tabulation of applications has been possible.

Though the general economic situation has improved vastly since the last quota was exhausted, the wanderlust grows steadily.

This is due to the conviction on the part of thousands that, in this generation, they will never be able to live comfortably or at least not be able to save anything for old age.

Young couples wanting to marry are confronted with the literal impossibility of finding dwellings at either high or low rates. Forward looking people estimate that reparations will drain the country to such a point that, while all can live, the masses will have to limit their standards to even more modest levels than they knew before the war.

These thoughts are the compelli-

WEATHER MAN CALLED TO TESTIFY IN SUIT FOR DAMAGES

By United Press
HOUSTON, Texas, June 18.—The weather man was called on for testimony in a damage suit here and asked whether the wind blew north on January 9, 1923. His word was wanted in a suit growing out of a grass fire.

Will Moore, of Lorenzo, was in Lubbock Wednesday on business.
