SON OF PRESIDENT LAID TO LAST REST

Discount "Wall Street" Rumor Be Davis' First Move

MAIN CAMPAIGN FOR PRESENT BE STAGED IN WEST

DAVIS SEVERS CONNECTION WITH LAW FIRM HANDLING MORGAN BUSINESS

By RAYMOND CLAPPER (UN Staff Correspondent) NEW YORK, July 10. (UN)—John W. Davis has decided that his first task as the democratic presidential nominee is to dispel any impression that may have been spread west of Hudson that he is a "Wall Street candidate."

Davis met with the democratic national committee Thursday to discuss plans for waging a campaign which would be directed especially at the progressive west.

Following this conference, Davis announced that he was severing, temporarily at least, his connection with the law firm of Stetson, Jennings, Russell and Davis, attorneys for J. P. Morgan. He said he would go to his old home at Clarkburg for the formal ceremonies incident to his official notification of the nomination.

Most important of all, he announced his intention of making a campaign trip through the west to talk face to face with the farmers and the progressive independent voters of the west.

That the democratic nominee with his ability as an orator, his friendly genial manner, and his commanding platform presence, hopes to convince the voters of the west that the country would be safe in his hands.

Well Known In Country Among those who have known Davis as a congressman, as solicitor general of the department of justice and as ambassador to Great Britain, such a campaign would be totally unnecessary. Even among his political opponents at Washington, Davis is known as a man of scrupulous integrity, a clean fighter and a brilliant lawyer. In congress he was identified with several progressive legislative measures.

His first words upon being informed that he has the nomination were: "There can be no compromise with reaction. Liberal principles must win."

Undoubtedly the LaFollette forces will lay heavy emphasis upon the corporate connections of Davis. They see in his nomination the complete demonstration of their contention that Wall Street controls both the major parties. They point to Davis on the democratic side. On the republican side they call attention to one of Coolidge's close friends and advisors, Dwight Morrow, one of the Morgan partners. Morrow was an eminent classmate of Coolidge's and has visited at the white house several times in the last year. But unless this line of attack is handled with great skill and restraint, it may prove a boomerang.

Bryan to Work Farm Regions. In addition to the efforts that Davis will make to present himself to the electorate as a progressive, the democrats will work Governor Bryan the vice presidential candidate, overtime in the farm district. Bryan has a strong following in the west and the party is counting on considerable help from him.

But in the sections where Bryan might be expected to help the party LaFollette is the popular idol. At the moment, it looks as if the conservative vote would be divided between Coolidge and Davis and that the progressive and radical vote both in the cities and in the west would go to LaFollette. If this proves to be the case, it may be that neither candidate would receive a majority in which case the election would be thrown into the house.

Possibly the senate may yet have to choose between Davis and Bryan and put one of them in the white house because of a tie up in the electoral college and in the house.

But November is five months away and until more water has gone over the dam, forecasts are idle. W. J. Bryan seems to have quickly forgotten his bitterness toward Davis. Bryan did everything in his power to stop the Davis stampede. During the roll call just preceding the one on which Davis was nominated the writer, encountering Bryan on the convention floor asked

ACTUAL CONSTRUCTION STARTED ON THE TECHNOLOGICAL COLLEGE BUILDINGS HERE

BANK CASHIER FOILS ROBBERS

TWO YOUTHS ATTEMPT ROBBERY OF BANK AT BALLINGER

BALLINGER, Texas, July 10.—Walking into the side door of the First National Bank at Rowena, near here, a man struck Fred Keichle, cashier over the head with a sandbag in an attempt to rob the bank. The blow failed to knock Keichle out however, and he grappled with the assailant. The man jerked loose from Keichle and fled outside where another bandit was waiting in an automobile, with the engine running. The two bandits fled, pursued by officers put out on the trail by the cashier. After a ten mile chase the bandit car was overtaken when they had a puncture and the two men were brought to town and lodged in jail. They gave their names as Virgil Harding 29, and John Keys, 18, and said they lived in San Angelo.

BODY OF ORPHAN IS FOUND IN RIVER NEAR DALLAS

DALLAS, Texas, July 10.—The body of Willie Paul, 17, was found in a creek near here Thursday afternoon after the boy had been away from home since morning. Willie was an orphan and lived with his aunt and uncle on their farm. He went out early in the morning to chop cotton and when he failed to return for lunch his relatives sent out another boy to find him. The boy returned with the word that Willie was not in the field but that his clothes were lying on the bank of a creek nearby. A rescue party was organized and after several divers went down in search of the boy's body, Dennis Brown found it under ten feet of water.

HOUSTON LINEMAN IS KILLED BY HIGH TENSION WIRE

HOUSTON, July 10.—While business men and elevator boys grumbled or jeered Thursday, at being stranded in office landings by failures of electric power at the elevators, death was stalking on the wires. Thomas F. Schalaida, lineman was in the grip of a deadly current. He was making repairs to a high tension wire and he is believed to have dropped it across his leg. The regulator at the power company's plant, which is supposed to trip and shut off the current when anything goes wrong exploded as a result of the short circuit. Power was cut off about 45 minutes.

RAILROAD FILES SUIT AGAINST RIO GRANDE CO.

EL PASO, July 10.—The M. K. & T. filed suit here against the Rio Grande Oil company seeking to recover \$21,853.42 allegedly under charges and claims that the oil company "had caused crude oil to be blended with casing head gasoline" thereby getting a lower freight rate. The rate on crude oil from Pioneer, Texas, is 37 1/2 cents and on casing head gasoline 58 cents the complaint stated and the suit is brought to recover difference in rate. The under charges are claimed on 124 cars, according to the complaint. One trouble with many a wide-awake young fellow of today is he doesn't get wide awake until midnight.

NEFF SAYS DEMS CHOICE IS WISE

DAVIS RIGHT MAN SAYS GOVERNOR WHO RAPS POLICY OF STATE

AUSTIN, Texas, July 10.—The nomination of John W. Davis of West Virginia was "exceedingly wise," in Governor Pat Neff's opinion, but should have occurred about the third instead of the one hundred and third ballot in the democratic national convention, and was vindication of Governor Neff's anti-constructed campaign in Texas, and according to the governor, showed that it is "all wrong to tie the delegates in a sack and turn them over to some self-serving politician to hold and to handle as his selfish interests direct." This was Governor Neff's response to questions by newspapermen on his return Thursday from watching the democratic convention. The governor had refused to go as a delegate under the unit rule binding him to vote for McAdoo.

"No one could have witnessed the proceedings of the convention for two weeks without being absolutely convinced that such a policy was unwise," he declared. "Texas sent 96 delegates to New York for the purpose of announcing 40 votes for McAdoo each time the roll was called when as a matter of fact any thoughtful observer should have known after the first few ballots, that neither McAdoo or Smith could be nominated."

TWO TRUSTIES MAKE ESCAPE FROM KAN. PRISON

KANSAS CITY, Kans., July 10.—Hoodlums have been placed on the trail of two fugitives who escaped from the state penitentiary Thursday. The fugitives are James Sharp, 25, sentenced to 25 years for burglary and Cecil Scott 25, given a similar sentence for robbery. Both formerly lived at White Church, Kansas. Both were trustees at the prison, and were engaged in hauling away tin. They were missed shortly after 2 p. m. and a search disclosed the truck they had driven away in, near Muncie, Kansas.

AGED MAN DEVOTES LIFE IN HUNT FOR TREASURE

ARKANSAS CITY, Kans., July 10.—Out of a sparsely inhabited region dotted with caves, hidden springs, and rugged gulches there came a grizzled fortune hunter, Thursday who brought with him a breath of covered wagon days. "Creaking wheels! Fagged horses! Alert frontiersmen! and—hidden loot! These danger before the sharp and kindly eyes of Elzey Harris, 70, prosperous farmer, who for 25 years has lived the life of a recluse searching vainly for the golden pot at the end of the rainbow. In 1870, the Cummins, Cook and Walker outlaw gang romped rough over southern Kansas and Oklahoma. Trains, stores, and timid early settlers were their prey. They feared neither God nor man. And when posses picked up their trail before the loot could be disposed of, it was buried. It is this treasure that Harris seeks. He has followed each clue to the end and found bits of evidence which led him to continue his search. "There is more than \$2,000,000 in gold dust buried somewhere in this region," Harris said Thursday. "I will hunt it until I die." He sought maps and old data Thursday and after finding them left quietly and silently—back into the woods and the canyons. The treasure still is to be found.

PLANS NOW BEING MADE TO OPEN FIRST SESSION OF INSTITUTION IN 1925; ALL WORK BEING RUSHED

Actual work has been started on the Texas Technological College and such showing has been made by the contractors that visitors to the grounds can readily see that plans to have the college ready for students in 1925 will be carried out. Ramey Brothers, general contractors, who are to build the administration building, have had work started on the building and one can see now something of how large this structure will be as the basement for which excavation is now being made is full size of the ground floor of the building.

EL PASO FIGHTS RAIL MERGER

PAPERS BEING PREPARED PROTESTING MERGER AS PRECAUTION

EL PASO, Texas, July 10.—El Paso will intervene in the proposed merger of the El Paso and Southern Pacific Lines, Mayor R. M. Dudley having instructed the city attorney to prepare papers for immediate filing before the Interstate commerce commission. This is merely a precautionary measure, the mayor announced, to preserve the rights of El Paso, until it can be determined definitely what action will be taken. A hearing will be arranged in El Paso, it is stated. James G. McNary, appointed on the committee by the chamber of commerce to investigate the proposed merger has returned from New York, where he held conferences with officials of the Southern Pacific, and reported that their statements were satisfactory in every way. A full report will be made later in the week.

JURY FINDS STOVALL GUILTY BRIBE ACCEPTANCE

WAXAHACHIE, Texas, July 10.—E. F. Stovall, of Abbott, Hill county, in 1920, Pleinishment was sentenced to seven years in the state prison after deliberation of jury lasting an hour and ten minutes. Stovall was previously tried on the same charge in Hill county and was sentenced to six years in the penitentiary. The defense succeeded in securing a new trial and having the case transferred to Ellis county.

BABY GIRL FORCED TO OBEY RULE FOR MODESTY

LONG BEACH, Cal., July 10.—Famed California beaches still have a sense of modesty. Little 3-year-old Bonnie Barrett, who came from Los Angeles with her parents for a salty dip can vouch for that. Bonnie, attired in a snug bathing suit was playfully disporting herself in an indoor pool Thursday with her papa and mamam watching her fondness for the water when up came a plunge attendant. "That girl will have to get another bathing suit," the individual remarked. "We can't allow anything like this." Mr. and Mrs. Barrett glanced at the little girl and her suit. Then they looked about them at the other occupants of the plunge. Shapely limbs and glistening bodies were weaving to and fro in the water or posing on the pool's edge. With a sigh of resignation they led little Bonnie from the scene. Modesty had been championed.

\$700,000 WORTH LIQUOR AND 150 ARRESTS MADE DURING CONVENTION

NEW YORK, July 10.—It was a dry convention—so the officials say. And yet \$700,000 worth of good liquor was seized during the two weeks the democrats were here and 150 arrests made. There were 120 agents working, eighty of whom were sent here as extras during the convention. B. O. Merrick, divisional chief of federal agents said that the little evidence of public drinking in the last two weeks is an "extraordinary" indication of general respect for the law.

PIRATES TAKE HUGE RUM LOOT

ENRAGED CREW REPORT HAUL MADE OFF NEW JERSEY COAST

HALIFAX, July 10.—Bringing a startling story of how pirates looted her of a half million dollars worth of liquor fifteen miles off the New Jersey coast, the battered French steamship Mulhouse, a veteran of New York's sun now has put into this port with an indignant captain and an outraged crew. The "Mulhouse" jammed to the hatch comings with liquor, and manned by a dare-devil crew which laughed at the risks of their trade, had brought a heavy cargo to the rum fleet zone. She patrolled the New Jersey shores, awaiting the dash of rum running motor boats, when one particularly large rum runner hove in sight the crew of the ship prepared to trans-ship cargo. A big party of men came aboard from the rum runner, and in a moment leveled guns confronted the crew. The officers and men of the "Mulhouse" were herded into the hold of the vessel while the pirates took charge of the ship. For a week they manned the vessel, each night unloading consignments of liquor, which were taken ashore. In all \$500,000 worth of fine old liquor was taken from the craft. A number of motor boats were employed to run the cargo into the beaches. When the pirates abandoned the ship they left about 1,100 cases of liquor on board, but took \$3,000 in cash with them. During their stay on the ship the pirates disputed among themselves according to the crew of the Mulhouse, and one of the pirate gang was shot by his comrades. It was not known whether he was killed and his body thrown overboard or whether he was only wounded and put ashore. The Mulhouse is in port here awaiting orders and Canadian customs officials are aboard the craft.

GERMANY SAYS WILL NOT TAKE "DICTATIONS"

BERLIN, July 10.—Germany has already started a campaign against accepting any "dictation" from the inter-allied conference which meets in London on July 16, to discuss reparations and the experts report. Foreign Minister Stresemann speaking at Elberfeld Thursday declared that Germany cannot be subjected to the dictates of the conference and further declared that the allies must make concessions if the experts report was to be put into effect by Germany.

Suppose you lived in Africa, where the thermometers drop way down to a hundred every winter? Being poor is all right except you haven't anything to do.

SERVICES VERY SIMPLE AS LAST RITES ARE SAID

THOUSANDS THROUG PATH OF PROCESSION TO PAY TRIBUTE

PLYMOUTH, Vt., July 10.—In a sequestered dimple of the Green Mountains over which the wraiths of Ethan Allen and his Green Mountain boys still ride at night, young Calvin Coolidge, the president's son, was laid away Thursday to rest eternally with the stoic pioneers who broke their way through the forests and established the settlements of Vermont when the country was young.

It seems almost an affront to the Coolidges to say that their boy was restored to these hills under most simple auspices. They were no longer the president and the president's wife, but a plain couple who had lost their son, and they had taken him back to the little cross roads burying ground in their home country to put him away with all their dreams of his career.

Because Calvin Coolidge is the president of the United States, a battery of writers came with the funeral party. Calvary was sent up the trail over the thank-you-man's as a guard of honor, a bugler came from the army post named Ethan Allen to blow taps across the still green valleys and crowds struggled up the lumpy roads for the second time in the history of Plymouth. The first occasion was just about a year ago when Calvin Coolidge on a vacation at his old father's home was sworn in by the light of a kerosene lamp as president of the United States to succeed Warren G. Harding. In the nearest towns the telegraph offices were swamped with stories of the burying on the mountainside, where rilling streams flash and sparkle between the trees. In those streams not so long ago, young Calvin cast for trout.

Before the dusk the crowd had clattered down the hills again to towns which toll before the rivers in the lowlands to the railroads which follow the breaks in the mountains, and were soon leaving young Calvin alone to the serenade of the Whip-poor-will.

There were two songs at the grave side—"Savior Like a Shepherd Lead Us," and "My faith Looks up To Thee." The boys from the Merceburg school who knew young Coolidge as themselves, sang the same sort of song that voiced the grotesque song "Keep Cool with Coolidge" a short-time ago in Cleveland.

The Rev. K. E. Wells repeated the congregational service. The father and mother of the boy with their only other son John, stood near the brink, tears pouring down their faces. The bugler from Fort Ethan Allen raised his battered brass horn to his lips and filled the valley with the sobbing notes of the last call. The mourners as if by a common instinct withdrew a few more paces. A moment more, muffled thumps as of earth striking on the casket, then the cavalry escort swung back into their saddles, and the Coolidges turned their backs on young Calvin.

Instead of returning down the mountain at once, they went to Plymouth Notch to visit the old ramshackle homestead of the president's father, Col. John Coolidge, in which the president was born.

At his father's home, the president took John to a doornail to measure his height again as he has done once a year since 1914. This time John stood higher than the president. But the pencil marks which recorded his growth were still plain, with their dates. And so were young Calvin's. When he had marked John's height, President Coolidge drew another pencil line a half inch below John's.

KIWANIANS APPOINT A COMMITTEE TO SPONSOR BAND AFTER BORDEN PRESENTED ORCHESTRA THURSDAY

"The Necessity of a Band for Lubbock," was the subject for discussion at the Kiwanis Club luncheon Thursday with Neal Douglas chairman of the program.

R. Borden, manager of the Lubbock Band, together with the members of his orchestra were guests of the club and rendered appreciated music throughout the program.

Louie F. Moore, champion for every forward movement for Lubbock, made a thoughtful speech on "Why Lubbock Should Have a Band," in which he pointed out how Mr. Borden had worked faithfully in establishing the band here and how he had thoroughly organized it and played a street concert before asking for any support from the business men.

Mr. Borden played a xylophone solo accompanied by Miss Willette Waters, pianist.

"How Lubbock Can Keep a Band" was told by L. C. Ellis who pointed out that while it is up to the musicians to furnish the music, the members of the Kiwanis Club and every other organization in Lubbock could well afford to give of their money to maintain the organization as it will require some money to keep the organization going.

Mr. Borden, in a short talk to the Kiwanians, assured them that he will do his best to maintain a creditable organization and appreciated very much the things that had been done for him by Mr. Moore in getting the band in shape.

The attendance prize, a beautiful gold pencil, was donated by Sam C. Arnett and was received by the chairman of the program.

President S. C. Wilson read a letter from District Governor Bobo expressing his appreciation of the courtesies extended him last week and urging that the club be represented at the convention at Lawton, Oklahoma, in August.

G. C. Barrier, of Shreveport, was guest of Raymond Barrier and made a short talk in which he expressed gladness at seeing Lubbock has made such progress and assured his hearers that they would find a hearty welcome awaiting them at Shreveport any time they might visit there.

Louie F. Moore and L. C. Ellis were appointed as representatives of the Kiwanis Club to get sponsors of the Lubbock Band and will aid in raising necessary finances, etc.

By vote of the members of the club expressed a desire to have the club retain membership in the Texas Highway Association for which annual dues of \$10 will be paid.

others, are lending their efforts unsparringly toward advancing every interest of this great institution and are thereby serving the people of Texas in a way that will give the results of their efforts such place in the very life of education in Texas as to be remembered as long as the Texas Technological College remains in existence.

FARMER EXHIBITS FINE STALKS OF COTTON

T. J. Day, prominent Lubbock county farmer whose home is just southwest of the city, was at the Avalanche office Thursday exhibiting a number of stalks of cotton that had been grown on his place and measured as much as eighteen inches in height, all of which were well fruited.

Mr. Day stated that he has thirty acres of this cotton, which has already been cultivated the third time and he expects to go over it another time or two before the crop is laid by.

He also exhibited stalks of Hicoria which bore heavy, maturing heads which will be perfectly matured for feed within a few weeks.

Mr. Day stated that it is his opinion that ten acres of the crop that he has on his farm is proving drought resisting and making better growth than other feeds.

"Farming on the plains is not so easy as some might think. It takes hard and almost constant work battling weeds and keeping the soil in good shape but it's a sure thing that every well worked farm will produce something every year," Mr. Day said.

Mr. Day said that it won't do to expect a farm to take care of itself and make any headway against weeds and dry weather at the same time but that most of the crops will withstand the driest weather experienced here if given "a good showing."

LITTLEFIELD GETS TWO INCHES OF RAIN WEDNESDAY

LITTLEFIELD, Tex., July 10.—Rain amounting to more than two inches has just fallen all over the Littlefield territory, and the still falling. Already good crop prospects are greatly increased and bumper crops of cotton and feed stuff are assured.

The greatest development so far experienced in the south west is confidently expected here this year.

OFFICIAL WEATHER REPORT

The following is summary of the weather conditions prevailing during the month of June, 1924.

Maximum temperature 108 degrees.

Minimum temperature 49 degrees.

Mean temperature 82.2 degrees.

Departure from normal, plus 7.59 degrees.

Maximum relative humidity 60 per cent.

Minimum relative humidity 12.5 per cent.

Mean relative humidity 43.6 per cent.

Total wind run for month, 6,238 miles.

Normal wind run for June, 6,089 miles.

Departure from normal, 149 miles.

Total evaporation for June, 10,35 inches.

Number clear days, 26.

Number of cloudy days, 0.

Number of partly cloudy days, 4.

Total precipitation for June 1.79 inches.

Normal precipitation for June, 3.18 inches.

Total precipitation since January 1, 1924, 4.08 inches.

Normal precipitation Jan. 1 to July 1, 9.30 inches.

Departure from normal since Jan. 1, 4.62 inches.

FINN GREATEST RUNNER OF DAY SAYS COACH

By TOM KEANE
Copyright 1924 by United News
COLOMBES STADIUM, Paris, July 10.—I have seen many miles run, many great miles on cinders, on boards, and in mud. But the feat of Paavo Nurmi, of Finland, in winning the final Olympic 1500 meters run in rubber shoes shoes against the best miles the world could send against him, in time that was within two fifths of a second of the world's record, confirmed my belief that he is the greatest runner that ever lived.

JOKE HOAX LEADS YOUTH INTO DEATH TRAP

KENSURBY, N. J., July 10.—Urged on whispered assurances that a beautiful woman awaited him in her secluded bungalow 17 year old Geo. Rexon scrubbed himself clean after a night's work in a garage, purchased a brick of ice cream a box of candy and a bag of resorting fruit and walked to his death when he tried to keep his trust.

Practical jokers planned the hoax and when George approached the designated bungalow a hoarse voice challenged him.

"What are you doing here? Call on my wife will you?" George dropped his sweets and fled as a fusillade of shots rang out all about him.

ATTEMPT IS MADE TO ASSINATE PRINCE TOGUGAWA
TOKIO, Japan, July 10.—Twenty members of the Etta class beggars, were arrested today charged with attempting the assassination of Prince Togugawa. The prince had refused to accede to Etta's demands for legislation favorable to them.

BALL AND CHAIN ON AMERICAN ATHLETES MAY BE NECESSARY TO RETARD WINNING STRIDE AND RETAIN INTEREST IN MEET

COLMBES STADIUM, PARIS, July 10. (UN)—They may have to put a ball and chain on the ankles of every American athlete in the Olympic track and field games just to retard their winning stride and make the blamed thing interesting.

The Americans took first, second and third places in the pole vault Thursday, thanks in part to the withdrawal of the worlds champion, Hoff, of Sweden. These feats added 20 points to the scoring. Then to make matters worse for those nations who have an idea of competing for this years championship Tootell, and Matt McGarth, the large New York harness cop, tossed the hammer half way across France for 15 more points, Tootell winning and McGrath, taking second. Jim MacAhearn of San Francisco, added another point, being sixth.

The real honors of the day, however, went to Paavo Nurmi, of Finland, the tireless running machine from Helsingfors who within the space of one hour walked off with two first places in the longer runs. Nurmi won the 1500 meters carrying an Ingersoll in his hand with which it timed himself every hundred yards paying absolutely no attention to the others in the race. Yet so fast was his stride that in the desperate scramble to keep up with him Stalard of England, collapsed at the finish and was unconscious for an hour. Ray Watson, of the United States tried to run with Nurmi for the first part of the race and was so exhausted that he did not even finish in the money.

The other place winners were still lying around on the grass by the fifth time when Nurmi had sprinted back to the dirt in the desperate race for the 5,000 meters. Ray Butler, and Lloyd Hahn, of the United States were fifth and sixth in the 1500.

Nurmi winning the 5,000 would have had the same easy time had it not been for his little fellow country man, Willie Ritola, late of New York, who set out to try to win the race himself. Ritola caused Nurmi all kinds of trouble but did not beat him. They finished a yard apart, about 100 yards ahead of the rest of the field, in New Olympic time. Johnny Romig, of the United States was fourth in the 5,000.

There was had blood between the two Finns and at the end when Ritola tried to congratulate Paavo, Nurmi turned away and ignored his hand. American casualties came in the trials of the four hundred meters when two of the four Yankees were forced out in the second round. The United States still has two men in the semi-finals, however it was the second round of the 400 meters which produced the only world record of the day. And this surprisingly enough was made by a young Swiss boy, Imbach, a dark horse of extremely brunette complexion. His time was 48 seconds and it was in this heat that Wilson of the United States was beaten out of a qualifying place.

Lee Barnes, a high school boy from Hollywood, California, who by some miracle escaped the gin cocaine and other deleterious habits which are said to be prevalent in his home town, won the pole vault at 12 feet 8 1/2 inches, which was 3 1/2 inches short of the trial height that the Americans made at Harvard a month ago. Ralph Spearow, of the University of Oregon was expected to take the title after the withdrawal of Hoff. Glenn Graham, of California Tech was second to Barnes and Jim Brooker of the University of Michigan was third.

The United States had a point score of 177 at the end of the day. Finland came next with 103 and England with 46 1/2; Sweden 24 1/2; Hungary 7 1/2; South Africa 5; New Zealand and Norway four each; Denmark 3 and Canada 2.

They finished a yard apart, about 100 yards ahead of the rest of the field, in New Olympic time. Johnny Romig, of the United States was fourth in the 5,000. ST. LOUIS IS WINNER OVER KINSEY FOR TENNIS CROWN

By United News. ST. LOUIS, July 10.—Wm. T. Tilden successfully defended his national clay court tennis title by defeating Robert Kinsey, of Berkeley, Calif., 6-3, 3-6 6-3 and 8-6, in the fifth round of the singles events in the national clay court tournament here Thursday.

Kinsey put up a bitter fight, winning the second set, and forcing the champion through. Tilden's smashes close to net and his famous cannonball shots on critical points enabled him to take the last set after it had gone to deuce.

WHY MAKE A POLITICAL CAMPAIGN A CESSPOOL?

Just why political campaigns cannot be conducted on a high plain is more than we can understand, but it seems that it has come to the point that most political campaigns get down to a case of mudslinging and slander-mongering before it is over with. This is a mighty regrettable situation, and red blooded Americans and true West Texas chivalry should be above and beyond this.

In some of the races for Governor, we notice that the candidates have gotten down in the mire and are slinging mud here and there, and doing everything that can be done to defame the character of their opponents, and such as this should be resented by the high class voters of the country but on the contrary, it seems that a great many people enjoy it and the "rotten" it is the better they like the dope.

This kind of stuff has actually gotten into local politics, and we are disgusted at times to hear the reports that are being circulated just for the sake of a few votes. It would be so much better if a campaign could be conducted on the merits and qualifications and not because a fellow happens to be a ku klux or anti-ku klux, union or non-union, but upon the qualifications for filling the office. We believe that all men who hold public office should be good, clean men from a moral standpoint. They should be men that are reputable citizens, and that they should be elected on their own merits and not on the demerits of their opponents. Why not point out your own qualifications and let the other fellow do the same, and there need be none of this muck-raking, and rotten-stuff campaigning.

We have been surprised at some of the reports that we have heard on some of the men running for office. Fact of the business we did not have any idea whatever, that we had a citizen that is as low down, and degraded as some of the reports that we have heard would indicate.

LABOR GOING INTO BUSINESS.

It is announced that Warren S. Stone, president of the Brotherhood of Locomotive Engineers, perhaps the strongest union in America, proposes to abandon detailed direction of union affairs and devote his time to the banking and financial activities of the Brotherhood, which now controls five large banks, and contemplates establishing others.

Labor has now established twenty-five banks in the United States and is actively planning to open ten more. It is taking up real estate and building on a large scale. It is invading other business and financial fields. And it has ambitions to extend such activities as rapidly as its capital, ability and experience will permit.

Do High Finance and Big Business object? Not at all. The largest investment institution in Wall Street recently joined a labor bank in handling a large bond issue. The Armour and other leading grain corporations in Chicago are offering to sell out lock, stock and barrel to farm co-operative organizations, so that our grain growers may be enabled to do their own marketing of their own crops. Utility companies are rapidly becoming owned by their customers. Almost every progressive industrial corporation is making it easy for its wage-earners to become owners of its stock, and the day is already within sight when wage-earners will acquire control of certain important enterprises if they keep on as they are now doing. While, in its strict sense, this may be classed as "communism," it is a species that will be endorsed by all classes of Americans.

TO LIVE LONG, BE MODERATE.

Moderation in eating, drinking, sleeping, smoking and exercise is the rule if you wish to live to be 100 years old. That is the manner of living recommended by "Uncle Jake" Cable, of Connoquenessing Township, an inmate of the county home for the past three years. "Uncle Jake" before being admitted to the county home, had lived all his life on a farm near Whitestown, where he was born. He will be 107 years old in October. He was outside of Butler county only once, when he visited Pittsburgh to enlist in the Civil War. Because he was barely five feet tall he was rejected. Cable's father lived to the age of 104, and his mother, brothers and sisters also lived long. Today Cable enjoys good health, although his hearing is slightly defective. He still reads a newspaper, however, and shaves himself with a straight blade razor. "Uncle Jake" admits he started to chew tobacco when he was 16 years old and had continued the habit in moderation since. Bread, potatoes, and fruit form the base of his meals, and he has never had a serious illness. His photograph has been placed in a collection of contentions being made by the research department of John Hopkins University, of Baltimore.

THE CHAIN STORE BLIGHT.

The growth of the "chain store" system of retail trade indicates that in the near future nearly all lines of merchandising will be operated by great central organizations. At first this kind of store was chiefly devoted to such essential commodities as teas and groceries. Then followed remarkable success of a chain of "ten-cent" stores, with branches in all regions of the United States. Today we have confectionery shops, bakeries, shoes, haberdashers, ready-to-wear men's and women's garments, hats for both sexes and electrical goods. Buying in immense quantities delivered by train loads, the chainstore organizations have been able to secure lower prices, and in some instances, special discounts.

As a rule, these stores do not handle established lines unless the profit warrants. Against what they claim to be unfair competition, the old-fashioned retailers have protested in vain. The neighborhood stores whose proprietors had a friendly acquaintance with their customers, have found many of them drawn away by the lure of cut prices or a promise of better service.

The effect of these stores on newspaper advertising is already most pronounced. The effect on community enterprises will be even more pronounced, for everyone knows they contribute nothing. There's no sentiment in their cold business code.

BUSINESS FAILURES.

Business failures are averaging over 100 per cent more than they were in pre-war years, despite the cautious buying and the greater supervision of credits. During the first half of the present year, there have been 10,785 failures, over 1,000 more than last year and with liabilities nearly \$50,000,000 more than for the same period last year.

Recent prosecutions have shown that quite a number have the taint of fraud, but the bulk of the failures are free from it. In very many cases incompetence and poor business judgment or lack of adequate capital are prime causes. There is some ground, also, for believing that trading is overdone and that more little factories and stores have been established than the population can support. They have usually no reserves wherewith to tide over a bad season or two, and their capital is frittered away in overhead. A lot of people have yet to learn that running a business is not so easy a proposition as many still believe and that a real merchant is something more than a salesman. Merchandising is a desperate game at best, less than 10 per cent ever winning out.

BUSINESS AND SENTIMENT.

"I never let sentiment influence me in business." This was the explanation offered by a banker relative to a framed motto over his desk, reading "He laughs best who laughs last."

Is business something cold, cruel, hard, selfish, utterly mercenary? Does it demand that during the hours we spend at it we must be less than human? Is business an invention of the devil?

Or can business be made as human as human nature itself? Can it be a source of satisfaction? Can it afford us an arena in which to cultivate and develop the finest faculties and instincts God implanted in us? Business, after all, is only another name for work. And is it not work that makes men of us all? Is it not work that yields us opportunities to grow and serve? Crush out all sentiment from our daily lives, and think you, would man rise to nobler heights or sink to deeper depths? He who scorns the thought of sentiment in business has miserably failed to learn the art of living.

May Providence preserve you and preserve me from spending our lives in a business into which no sentiment is ever allowed to enter.

LOSSES DUE TO FINANCIAL CRIMES.

America's annual loss through embezzlement and financial crimes by trusted employees has increased at least five times over since 1910 and is still increasing. The president of the National Surety Company asserts that records show this crime loss amounts to \$3,000,000,000 in round figures. This is made up of embezzlements, burglaries, stock frauds, custom frauds, credit frauds and petty thefts. These frauds show a steady increase each year since 1913 until it amounts to a total of 500 per cent since ten years ago. A close study of the question convinces officials that it is due to the "state of mind" as a result of the war. Whether this wave of financial crime can be controlled or suppressed is a serious question, but it is a question that business men will be compelled to solve.

One Canadian manufacturer of dried milk has sold the whole output of his factory for the next five years to a large British catering firm. Another British firm is trading for the entire asbestos output of Australia.

ONE-TWELFTH MALE ADULTS ON PUBLIC PAY ROLL.

Recent statistics, carefully compiled, indicate that one of every twelve of the nations adult male workers is on the public pay rolls. This means, it appears, that the money paid for a single year to the recipients of government compensation would meet the pay rolls of the entire automobile industry of the country for a ten-year period. Or again, the nation is paying from its Treasury three times as many persons as are employed in all branches of the mining industry, five times as many as mine its coal, and six times the number engaged in the basic production of iron and steel and the maintenance of its foundry and machine shops.

The little island of Cyprus is swamped with orders. Checho-Slovakia has offered to buy all the skins Cyprus can send. France is taking 20,000 dozen shoe heels, and the United States wants more fancy needlework and embroidery than she is likely to obtain.

Just Folks
by Edgar A. Guest

THE HUNGRY MIND

He never reads a book nor cares
To look beyond the day's affairs,
The thoughts of dreamers, old or new,
He has no wish to wander through
Fill up his hours with merriment,
And he will laugh and be content,
His stomach hunders aft for meat,
And with delight his food he'll eat;
Or should by chance he miss a meal
The loss of it he'll plainly feel;
Or, over-stuffed the night before,
The morrow finds him back for more.

Strange, is it not, that he will take
Such care for just his stomach's sake,
Yet in his system cannot find
The cravings of a hungry mind?
He'll miss a meal, but not one pain
Will warn him of a starving brain.
Oh, there are many like him here
Who follow pleasure far or near,
And treat themselves to wine and bread
And leave their intellects unfed,
They'll fill their stomachs, praise
the cook,
And then refuse the mind a book!

REBELS DEPOSE GOVT. OF STATE

DEAD AND WOUNDED LIE IN SAO PAULO STREETS; FOOD VERY SHORT

By United News
BUENOS AIRES, July 10.—Brazilian revolutionists at Sao Paulo have deposed the Sao Paulo state government and a rebel force, headed by Juan Francisco, is marching on Parana, hoping to unite with rebel groups there, according to dispatches from Port Alegre, Brazil.
These dispatches, which are not confirmed state that the Sao Paulo revolutionists plan to invade other states if they can join the Parana forces.
State troops are being concentrated at Port Alegre prepared to march at a moment's notice, the dispatches report.

BUENOS AIRES, July 10.—While general dispatches from Brazil report that the government is dominating like-Sao Paulo rebellion, private and unconfirmed messages state that the government forces probably are getting the situation under control along a tenacious struggle.
Dead and wounded lie everywhere about the streets of Sao Paulo, according to private dispatches, and shortage of food is beginning to be felt in the city.
A Frenchman, arriving by motor at Santos, says that he met a person whom he believed to be the Sao Paulo state governor walking along the road and gave him a lift toward Santos. Other reports say that the governor is a prisoner of the rebels.
It is also stated that the seat of government of the Sao Paulo district may be transferred to Santos. This would explain the official announcement that Admiral Canalis has been appointed civil and military governor of the zone.
Army reserves in Santos are being called out, but it is said that they are not eager to fight. Three federal battalions are now at Santos and about 200 marines from these ships left Santos for Sao Paulo Wednesday. No word has been received yet

as to whether they have got into action.
Reports from Santos state that about 500 people have arrived there by motor from Sao Paulo. They are presumed to be refugees. Dispatches quote them as saying that the rebels at Sao Paulo are expected to form a new government.
Rumors are also current that a revolutionary spirit has developed among members of the crews of the federal warships. It is stated that a few officers and men from the battleship Minas Geraes refused to go aboard the ship when she was about to sail on the coast to see if it would be possible to flank the rebels by sea from Port Itaipas.
The men were arrested, it is said, and taken aboard the vessel, which sailed, cleared for action. It is reported, however, that troops at Port Itaipas are also in revolt, and that they prevented the Minas Geraes from passing the fort.
It is understood that the fifth battalion of the federal army has joined the rebels, but this report together with the story of the revolt at Port Itaipas comes from private sources and cannot be confirmed.

DAY LIGHT SAVINGS ORDINANCE REPEALED

SANTA BARBARA, Calif., July 10.—After a very close vote, a different story, the city council here Thursday night repealed the daylight saving ordinance it adopted a few weeks ago.
Leading merchants refused to obey the edict. Half of the city went all one time while the other half remained an hour ahead.
Gov. Richardson refused to make daylight savings statewide and the agitation to abandon it here was started.

DEBS SENDS CONGRATULATIONS FROM SICK BED

By United News
CHICAGO, July 10.—Ill in a sanitarium here, Eugene V. Debs five times candidate of the socialist party for president, sent a message of congratulation Thursday to his old friend, John W. Davis, of West Virginia.
Debs has been in a sanitarium for several weeks. His condition is such that his physicians allow him to see no one except hospital attendants. During the coming campaign, he is reported to have said in letters to friends, he expects to support LaFollette.

UNIDENTIFIED MAN IS FOUND IN RIO GRANDE

EL PASO, Texas, July 10.—The body of an unidentified man with a bullet hole through the neck and abdomen, was found in the Rio Grande Thursday and is believed to have been killed by immigration officers who exchanged shots with alleged run runners Tuesday night. The officers captured nine gallons of alcohol, and declared they believed this was what the man carried when two men were seen, ordered to halt and opened fire, which was returned by the officers. One of the men was seen to fall into the water and was not seen again, officers state.

CONFINED TO BED

Birmingham Lady Took Cardui for Relief of Change of Life Troubles and Says It Helped Her "So Much."

Birmingham, Ala.—"I first took Cardui for that tired, worn-out feeling that comes from being dreadfully run-down," says Mrs. Catherine E. Smith, of 2106 Stout Street. "Twenty-five years ago, I was suffering from womanly weakness.
I read of Cardui in an almanac, and thought I would try it. I got a bottle and it helped me from the first. After that, during the whole of my married life, I took Cardui when I needed it.
"About four years ago, change of life came on me. I grew weaker and weaker, and was confined to my bed, where I lay on my back for days. I was told that only a severe operation could do me any good, and this depressed me very much, for I dreaded such an ordeal.
"I remembered how Cardui had helped me for female troubles in the past and I had read of how it had helped other women during change of life, so one night I told my husband to go to the drug store and get me a bottle. I began taking it at once. From the first dose I could feel myself getting stronger. I continued to take Cardui until I was entirely through this very trying period of a woman's life."
Cardui at all dealers. NC-158

LOST—L. H. S. Glass ring 1924 Finder please return to this office

DAVIS NOMINATION BRINGS RECORD HIGH STOCKS

By EDWARD J. CONDLON
NEW YORK, July 10.—By the system of logic peculiar to Wall street Thursday was the day for reactions. Professionals took the stand that the good news was now out on the democratic nomination and that the time fore the gathering in of profits was at hand. This was exactly what happened.
Although the rails averaged half a point lower and the industrials three-fourths of a point, the session was not without its record highs. In transactions which aggregated nearly a million shares, American Waterworks reached a record high as did Nickle Plate, although the former broke 3 1-2 from the high in the final dealings.
Of premier importance in the news at midday was the announcement of the unfilled tonnage contracts of the U. S. Steel Corporation, as of June 30, showing a net loss of 365,684 tons in the forward orders for the month. This brings steel unfilled contracts down to 3,262,805 tons, approximating the smallest figure ever reached.
That this slump in new buying

of steel has been largely discounted was evidenced by the performance of steel common when the tonnage figures were announced. The stock actually gained 1-8, but later the market broke under par with the selling movement which engulfed the leading industrials. A somewhat distributing situation was created in the Louisiana district in crude and in tank wagon gasoline prices. However, this was somewhat offset by figures of the American petroleum institute on domestic crude oil production, showing a net decline in the daily production of 7,390 barrels for the week ended July 5.

With call money again holding at the low of the movement, viz two per cent pool managers are laying plans for further drives. The chance is too good a one to let slip. The market is not swayed by the movement of a handful of rail and industrial leaders as it was only a few weeks ago. The infrequently traded stocks are having their inning, and it may be said that they encouraged substantial gains only too infrequently seen in recent months. The bond market is passing through about the same technical readjustment as is the stock market. Liberty bonds, foreign issues, rails, and industrial mortgages, all have had to undergo a round or two of profit taking, but judging from the array of new issues that are being groomed for early offering, it is evident that bond houses are not looking for a mid-summer slump in prices just yet.

Of Interest Society To Women

Mr. and Mrs. Ater Entertain Friends Wednesday Eve.

A fishing party, composed of people from Lubbock, Slide and Ropesville, was delightfully entertained by Mr. and Mrs. B. B. Ater of 1619 Tenth Street, Wednesday evening at their farm place six miles east of Ropesville.

Seventy-five pounds of fish caught and prepared, which was spread with a delectable picnic lunch. Conversation prevailed until a late hour when the following guests returned to their homes with a feeling of having spent an ideal evening: Mr. and Mrs. P. T. Rucker, E. M. Worthy, Misses Lucile Strickel, Ruby Lee and Corieene Ater of Lubbock; Mr. and Mrs. W. B. Copeland and daughters Thelma, Jaunette and Mattie, Mr. and Mrs. J. D. Tunnell and daughters, Golda, Velma and Virgie, Misses Emma Harriet, Gladys and Rachel Eades, Messrs. Jones Mabra, Gail Mabra, Floyd and Grady Harriet, of Slide; Mr. and Mrs. A. L. Ater and daughter, Miss Hazel, and sons, Raymond and Alvie, Mr. and Mrs. Lee Vaughan, Messrs. Chester Stevenson and R. J. Murphy of Ropesville; Mr. and Mrs. T. L. Sanders who live at the Ater place.

MANY VISITING ELKS ATTEND DANCE HERE

A large number of visiting Elks and their ladies attended the Elks dance given here Monday night by the local lodge. Splendid music was furnished by Jack Gaines eight piece orchestra, of Fort Worth, and the proceeds were applied on the Elks benevolent fund.

OPEN HOUSE OBSERVED AT COUNTRY CLUB LADIES' DAY

Ladies Day at the Country Club was unusually enjoyed with open house from three-thirty to five o'clock Wednesday afternoon.

The receiving rooms were doubly attractive with a decoration of Shad-dan daisies, where tables were placed for bridge and forty-two, which featured the entertainment. Golf furnished out-door attraction for several of the ladies, who later joined the party for tea.

Hostesses for the occasion were: Mesdames, Starnes, J. O. Smith, T. W. Thomas, Weaver, Wilson, G. C. Wolfarth, Eastin, Wolfarth, Frank L. W. Wright and Vickers.

A delicious ice course was served to about forty guests. Missionary Society Meets The Woman's Missionary Society of the First Methodist Church met Monday afternoon at four o'clock in the ladies' parlor, where a very interesting business session was held, with the president, Mrs. George Wolfarth in the chair.

Plans were completed for the entertainment Friday evening, at which time Mrs. Minnie Proctor Hamilton, dramatic reader, will be presented in recital by the Missionary Society. Wednesday Needle Club Meets Mesdames, E. L. Robertson and L. C. Ellis were joint hostesses Wednesday afternoon to the Wednesday Needle Club at the home of Mrs. Robertson, 1510 Ave. O.

After an hour was pleasantly spent in needle work and conversation, delicious orange sherbet and cake was served to the club members and the following out-of-town guests: Mrs. Exie Sowell and daughter, Miss Beena, and Miss Lena Andrews of Waxahachie; house guests of Mrs. Robertson and Mrs. Cooper of Mississippi.

Personals Mrs. Gus Hayes and daughter, Miss Adaline, have returned home

from a visit with the former's sister, Mrs. John Woodard of Snyder. Mr. and Mrs. R. D. Carter, of Dallas, are here visiting their son, Tom H. of the Avalanche, whose home is at 1016 Ave. E. After visiting here some two weeks they will go to Lockney where they will spend a month visiting other relatives and friends. Mr. Carter visited at the Avalanche office Wednesday afternoon where he was heartily welcomed by all members of the force.

RELIABLE FOR ECZEMA, PIMPLES AND BLOTCHES

The many people here who have gotten such wonderful results from Black and White Ointment, and Soap, for pimples, blotches, bumps, "breaking out," eczema, rash, itching, etc., are proving their gratitude by giving them the most wholehearted and enthusiastic word-of-mouth publicity ever known.

The fact that Black and White Ointment, and Soap, are already selling at the phenomenal and unheard-of rate of more than two million packages a year, proves louder to people who had never before than words how dependable they are when able to get relief from their skin troubles by using anything else.

Black and White Ointment, and Soap are economically priced in liberal size packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and the Soap.

DISCOUNT "WALL STREET" RUMOR DAVIS' FIRST MOVE

what his attitude would be if Davis should be nominated. "He is not going to be nominated," Bryan retorted with fierce look, as he reached out to buffet hole a delegate and put in a word against the West Virginia candidate. But by midnight following the nomination when everything seemed all set to go, another Charles Bryan over as the vice presidential nominee, the Commoner seemed to have subsided. Thursday the breach was healed when Bryan called on Davis and placed himself at the candidate's service. They shook hands and chatted for a moment. Then later in the day, Bryan again called with his brother, the candidate, who saw Davis for the first time since their respective nominations.

They discussed campaign plans briefly. Gov. Bryan will go to Washington for a day or so and then return to his home at Lincoln, Neb., and prepare for the opening of his campaign some time early in August. Bryan will tour the western states thoroughly. His brother W. J. is going to Florida to rest. He will take the stump early in the fall.

Losing your temper is a sure sign of bad luck. FLETCHER'S ELECTRIC SHOP Room 2, Lowery Building Contracting and Repairing Day or Night. Phone 569

U. S. FLYERS ARRIVE ON EUROPEAN SOIL THURS.

CONSTANTINOPLE, July 11.—Lts. Smith, Wade and Nelson, the three American round-the-world fliers, arrived here in quick succession at 3 o'clock Thursday afternoon after leaving Aleppo at six a. m.

Officials from the American embassy welcomed them as they landed on European soil for the first time in their globe-circling flight. "It was a beautiful trip," said Smith enthusiastically. "In flying over Taurus, we went through some clouds. We were thrilled at flying across the Bosphorus."

The airmen will continue their journey westward into Europe, Saturday, their first stop taking them to Bucharest, the capital of Roumania.

From there their route will take them over Austria and into Western Europe.

SON OF PRESIDENT LAID TO LAST REST

(Continued from page 1)

and marked it "C. C. 1924, if alive." Meantime Mrs. Coolidge was resting in a tree shaded bedroom of the mountain home. They tempted her to a "home dinner" before leaving time and the old colonel also was persuaded to go back to Washington.

Then they got into the black limousine and went back down to the valley to get the train. Their progress all day had been marked by tributes along the way at small stations on the line where clusters of people stood with their heads bared and bowed. There were funeral services in the morning at Northampton, Mass., the Coolidge's summer home, before the last stop of the journey to the hills.

MORE THAN A MILLION DOLLARS SPENT FOR LAND

AMHERST, Tex., July 10.—More than \$1,200,000 has been spent for land purchases in the Amherst territory since August 1st, 1923, according to figures compiled by Stanley Watson of this city. This represents one of the largest land movements in the West. Many of the new settlers in this territory have come from Oklahoma and Kansas.

Hon. R. A. Baldwin, of Station, accompanied Mrs. Baldwin to Lubbock Thursday morning where she was placed in a local sanitarium for medical attention. It is probable that Mrs. Baldwin will undergo a serious operation as her health has been failing for some time and every effort is being made for recovery.

U. S. REFUSES TO GIVE ADHERENCE TO LEAGUE PACT

GENEVA, July 10.—The United States has declined to adhere to the proposed league of nations treaty providing for mutual guarantee as the basis of world disarmament.

The league expects to launch this treaty at its September meeting and Secretary Hughes had been requested to outline America's attitude on the plan.

An analysis of the various provisions of the treaty renders it apparent that the fundamental principle of the treaty is to provide guarantees of mutual assistance and to establish the competency of the council of the league of nations. Hughes said in a reply made public here Thursday.

The constitutional organization of the United States coupled with the fact that the latter is not a member of the league, renders it impossible for the United States to adhere.

BLED SOE RECEIVES SOME PHOTOGRAPHS OF TECH PLANS

Senator W. H. Bledsoe has just received photographs of the floor plans and front elevations of the buildings that are now under construction for the Texas Technological College and those which are to

be built in the future. These photographs will give one an idea of how the school plant will look when finally completed and will be kept at the Senator's office in order that those who are interested might have an opportunity to see them.

AMHERST TERRITORY GETS PLENTY GOOD MOISTURE

STAMFORD, Tex., July 10.—Reports coming to the West Texas Chamber of Commerce from Amherst, Shallowater, Sudan and other points south of Amherst on the Plain state that that territory has had excellent rains at reasonable intervals all through the spring and summer, and that the crops are better than 98 percent perfect. The rain during June averaged better than 2 inches and there was a little better than a half inch rain on the night of July 2nd.

Miss Lucille Winfrey, of Dallas, arrived in Lubbock Tuesday to visit her aunt, Mesdames Sam and Emmett Darby.

Mrs. W. T. Foster, of Belton, is here visiting her son, L. S. Harkey, local insurance man.
