ALLIED CONFERENCE OPENS SESSION

G. O. P. Head Pledges Co-operation In Campaign Fund

SAYS WILL KEEP FULL TAB ON ALL EXPENDITURES

ALSO PLEDGES SUPPORT TO WATCHING EXPENSES OF OTHER PARTIES

By LYLE C. WILSON (UN-Staff Correspondent) NEW YORK, July 16.—Chairman Wm. M. Butler, of the republican national committee has pledged republican cooperation in the effort of the senate committee headed by Senator Wm. E. Borah, of Idaho, to keep tab on convention contributions to all parties between now and the election in November.

Butler has written Senator Borah promising not only to furnish full information on contributions to the republican caucus but to report what may come to his knowledge concerning contributions or expenditures of opposing parties. Butler's letter was in reply to one from Senator Borah in which the senator explained the existence of a senatorial committee to investigate and report to the senate upon campaign expenses. Senator Borah asked six point blank questions about the financial aspects of the approaching campaign.

An eastern campaign manager will be appointed within a couple of days Butler said with headquarters in two floors of a building in East 47th street. Although immediate directions of the campaign in this section of the country will be vested in the eastern man it is yet to be selected, the general campaign strategy for this and all other sections will emanate from general headquarters in Chicago where Butler expects to spend most of his time.

Daniel E. Pomeroy of Englewood, N. J. has been appointed assistant treasurer of the national committee and Mrs. Charlotte Farrar of New York has been appointed assistant executive member of the tenth assembly district of New York. The tenth in the district over which Judge W. B. Givara presides as Tammany boss, for ten years provided an Tammany district leader.

Butler answered the six questions in a letter which he gave out Wednesday during a conference with reporters at the Biltmore hotel. In answering Borah that he could have the requested information, Butler declared he was engaged in devising a budget system for the conduct of the republican presidential campaign. The party, Butler said, "would place a reasonable limit upon contributions Senator Borah's questions and Butler's reply follows:

1.—What was the amount of money your committee had on hand July 1, 1924? The committee had on hand July 1, approximately \$50,000. The treasurer will give you the exact amount. 2.—What is your system or plan for raising funds to meet the expenses of the coming campaign? We expect to raise funds to meet the expenses of the campaign by personal solicitation conducted by authorized representatives of the committee and by communications addressed to members of the party by officers of the committee. 3.—What is the amount which it is proposed to raise and expend in the election of your ticket in the coming election? I am not able to state at this time the amount that is proposed to raise and spend. I am endeavoring to establish a budget which I expect to complete shortly. 4.—What is the limit, if any which it is proposed by your committee to place upon the amount which any individual, corporation or firm may be permitted to contribute? We propose to place a reasonable limit upon contributions for the campaign; we do not propose to collect money from corporations inasmuch as corporations are not permitted by law to contribute to campaign funds. 5.—Would your committee be willing to make a report to this committee every ten days beginning with September 1, 1924, of the amount of funds collected the names of the contributors and the addresses and what

Many Forest Fires Under Control But Situation Yet Very Serious

STILL UNSOLVED YOUNG SLAYERS G. O. P. RELIES ON STATE BODIES

DEFENSIVE FIGHT BE MADE IN MID-WESTERN STATES BY COOLIDGE FORCES

By United News. WASHINGTON, July 16.—In combatting the progressive drive of Senator LaFollette and the liberal-toned campaign of John W. Davis, forces behind President Coolidge will rely primarily on the organizations that already have built up to hold their grip on the western and northwestern agricultural states. All three political groups will wage vigorous battles in these states, as they are likely to be decisive ground.

The distribution of patronage for the last three years has given the republicans strongly welded state organizations. Word has gone out to these organizations to start the wheels. Lines for the defense have been lightened. The republicans will be on the defensive. Democrats and progressives will capitalize the agrarian discontent in the west and the northwest, but they lack the organization of the republicans. Through the organizations will be the mainstay of the administration's battle in the disaffected sections. Coolidge's leaders will also have their defense. To charge that the administration has failed to give farm relief they will answer by pointing to the extended operations of the war finance corporation and the establishment of the 12 intermediate credit banks, and will point out that farm leaders in the last congress were unable to agree to any further form of relief.

THREE BANDITS ROB KANSAS BANK OF \$3,500 CASH

By United News. KANSAS CITY, Mo., July 16.—Three bandits entered the Swope Park bank here Wednesday forced 8 people to lie face downward on the floor and escaped with all the cash in sight amounting to between \$3,500 and \$4,000. L. F. Wyrick, cashier, J. R. Breed president, two bookkeepers, a stenographer two customers and an unidentified woman were in the bank at the time. Three unmasked men entered and forced all to lay on the floor. A fourth man was in a large touring car outside which was later found abandoned by police. The robbers drove several blocks and then transferred the loot to a larger car and disappeared.

GENERAL TIE UP OF BUILDING LOOMS AT HOUSTON

By United News. HOUSTON, July 16.—New complications occurred Wednesday in the building trades situation in Houston, threatening to lead to a general tie up of all construction work in the city. Building contractors at the meeting held in the Builders Exchange Wednesday afternoon refused to accede to the demands of holding engineers, who walked out on jobs over the city Thursday morning. All union will be pulled off the big construction jobs as a result of the contractors' decision. An out and out building trades war then ensue.

Miss Irene Grantham, of Snyder, was in Lubbock Tuesday.

NO LOSS OF LIFE YET REPORTED BUT 24 PERSONS UNACCOUNTED FOR IN AREA COOLIDGE PLEDGES FEDERAL AID IN FIGHT

SENSATIONAL DISCLOSURE MADE BY CROWE IN FRANKS CASE

By United News. CHICAGO, July 16.—The fastening of the brutal murder of 13-year-old Robert Franks on Richard Loeb and Nathan Leopold, jr., was all that prevented these two young intellectuals from kidnapping and slaying their own multimillionaire fathers and Thomas Loeb, ten-year-old brother of Richard.

Disclosure of this startling and almost unbelievable angle of the complex Franks case came Wednesday through Clarence S. Darrow, chief defense counsel. Later, confirmation came from attaches of the states attorney's office and some of the alienists retained to examine the two young killers, sons of multimillionaires and former University of Chicago students. Loeb and Leopold have been in possession of this information since the confession of the two boys after an all night questioning in the office of the states attorney here, broke down and confessed the most astonishing crime in history of American criminal jurisprudence.

With the same calm deliberation that attended their preparations for abduction and murder of the Franks boy, Loeb and Leopold planned to carry out one of their horrible experiments in human emotions on "Tommy Loeb" from one to two months after the Franks murder. Then they planned to abduct and slay Albert H. Loeb, father of Richard who has been an invalid and confined to his home for some time, and later they planned to kill Leopold's father. The preparations for all four murders were worked out at the same time, and on the very day that the one 19-year-old slayer lured Robert Franks into their automobile, killed him and hid his body in a lone swamp on the outskirts of Chicago. They had completed a wholesale murder plot, hideous and unnatural in its details.

The elder Loeb, ill and helpless was to have been removed from home with the aid of his own son on a pretext, according to the boys plan. He was to have been led to believe that he was being taken to a place for rest and recovery. Then, according to the plan, he was to be killed with either chloroform or ether. This murder was to take place about four months after the Franks killing.

Leopold, Sr., a strong and active man, was reserved for the last of the quartet of contemplated murders because his case presented the most difficult problem for these human laboratory savants to solve. Two of the methods of subjecting the older Leopold to the tests which so interested his son and Loeb that they committed a murder and planned others, were discussed by the youths. One plan involved administering to Leopold an opiate in a cup of tea or coffee in his home, then carrying him to a rented automobile later at night, driving to some secluded spot and after the killing, hiding the body. The other was to invite Leopold on an automobile ride, to render him senseless with a blow over the head, just as the Franks boy was knocked unconscious, and later to dispose of the body.

In all four cases, it was planned to make relatives of those who disappeared believe they had been kidnapped and to present ransom demands. The collection of the ransom not only was a part of the plan to test emotional reactions under unusual circumstances but also was designed to create a fund with which the two youths could go to Europe as well.

200 TROOPS REPORTED KILLED NEAR GALITZA

LONDON, July 17.—A unconfirmed dispatch from Belgrade states that ten Jugo Slav regulars and 200 Albanian troops have been killed in fighting near Galitza. Clashes are frequent between Jugo Slav and Albanian forces along the Albanian front. The border line is disputed between the two nations, and feeling runs high in the zone, which is isolated and mountainous.

HOBART MURDER AT AMARILLO

CORONER RENDERS VERDICT OF MURDER BUT NO CLUE IS FOUND

By United News. AMARILLO, July 16.—After a long inquest held Wednesday and the investigation of may clues by officers since Monday night the mystery surrounding the finding of the body of Edward W. Hobart, 51, of Plainview, near here with five bullet holes in the head was still unexplained.

Hobart was married about a year ago to Mrs. Ruth Lloyd of Amarillo. He was a representative for a furniture store in Kansas City. A coroner rendered a verdict of murder but no clue could be found to the slayer or the cause for the crime.

AMERICAN FLYERS ARE WELCOMED IN LONDON

By United News. LONDON, July 16.—The American round-the-world fliers triumphantly received on their arrival here, are pushing on immediately to the next stage of their globe circling dash. The airmen leave London at 11 a. m. Thursday for the tiny hamlet of Brough, near Hull, the first point on their long sky trail to the homeland via Greenland and Labrador.

Sweeping out of the east, the airmen sped to earth at Croaydon. Residents there faced a tumultuous welcome, a flood of invitations and a storm of praise and applause. But after personally supervising the cleaning, re-fueling and oiling of their machines and after an evening of being lionized as guests of the Aero Club, the fliers prepared for the resumption of their journey. Lt. Lowell Smith, commander of the fliers, says that the date of departure from Brough will depend upon the facilities for outfitting and overhauling the planes there. He declares that he does not expect to remain longer than a week. Possibly the job may be finished in five days. The advance supplies for the airmen will be sent to Greenland from Denmark on July 23, and should arrive there about August 1.

While the planes are being overhauled in Yorkshire, the fliers will get another taste of the gaieties of London. They will return here Friday for a dinner at the Aero Club. Sunday they will be given a luncheon at the Duke of Southland's house, and the airconductor will tender them a dinner Monday.

No loss of life has been reported though 24 persons were still missing in that district. President Coolidge took a hand in the situation Wednesday by wiring Governor Richardson of California pledging all possible federal aid.

Two large fires raging uncontrolled in the Klamath national forest were causing forest officials most alarm. Additional supervisors were dispatched from this city and every able bodied man in the district has been conscripted to battle the blazing infernos.

Industry has ceased operation and all employees of the lumber mills have been rushed to the battle lines. More than 8,000,000 feet of timber has been burned, according to estimates made Wednesday.

Five hundred weariest men from their constant fight which has been in progress more than a week now, are attempting to stop the flames in the Tahoe National preserve. The fire is still out of control. In the Sequoia national forest a blaze in the Bull Run district that had been reported under control, was again leaping forward into new stands of timber. Several hundred men were rushed to the fire lines there.

A brush fire near Monterey was said to be under control though 500 soldier fire fighters from the Monterey Presidio were being held on the lines. In Western Washington and Oregon heavy rains were prevalent throughout the day and no serious fire was thought to be burning. Forest service headquarters here Wednesday were deserted as virtually all the federal officials were supervising the battles on various fronts.

LOS ANGELES, July 16.—Reports from all sections of southern California in which forest fires have been raging during the last week Wednesday afternoon indicated that their most serious menace is past.

At the county foresters office it was announced that fires which appeared dangerous Tuesday night, particularly in the Sierra Madre range back of Pasadena, had been subdued with but little property damage.

Further north, in the Santa Barbara and Angeles National Forests the blaze is still burning steadily but not with the furious rush of the last several days. Officials in charge of the battling against the fire, are sending relays to relieve the exhausted crews.

The efforts of these new men will be directed chiefly towards stamping out the fire in Pine Canyon, the only spot at which further spread is feared. At present a favorable wind is helping the fire fighters and with the coming of night, it is not expected that the blaze will lick into new areas. A determined stand will be made during the night, forestry men said, with the hope of finally curbing the danger before a change of wind occurs.

THREE FARMERS YET MISSING PORTLAND, July 16.—Three forest fire situations on the northwestern Pacific slope showed improvement on Wednesday. In only one spot—Arrow Lake, British Columbia is there thought to be any danger of loss of life. There four Doukhobor farmers members of a party of 18, who were driven from their homes on Monday have not yet been reported safe.

In Idaho, the fire in the region of Pine Creek still burns fiercely over a 30 mile front and the total damage due to it since it started last week is estimated at \$1,000,000. (Continued on page 6)

KELLOGG STRIKES KEYNOTE OF AMERICAN PARTICIPATION WHEN HE SPOKE AT OPENING SESSION

By United News. LONDON, July 16.—The American delegates to the inter-allied reparations conference have come in the same spirit of helpfulness as those of other nations, although they are not present in the same capacity or with the same powers. Thus Frank B. Kellogg, American ambassador to Great Britain struck the keynote of American participation in the great reparations parley the fifteenth allied gathering since Versailles when he spoke at the opening session here Wednesday.

His statement followed the address of Premier MacDonald in which the English leader made an appeal to the American people to play a strong part in the rehabilitation of Europe. "The United States was a great partner in the war," MacDonald said. "We ask her not as a government but as a people with many resources and good hearts to take her share in the financial schemes which must be put into operation if there is to be a speedy reconstruction of Europe."

FIRE DESTROYS TOWN IS REPORT

ALL COMMUNICATION FROM CITY CUT OFF LATE WED. AFTERNOON

BUTTE, Mont., July 16.—Eight hundred emergency fire fighters are battling so far in vain to curb the most extensive and dangerous series of forest fires of the year in western Montana and Idaho.

Eighteen new fires have broken out in the Kootenai reserve within the past 24 hours, and it is feared that the high winds may ignite those with the nearby blazes in the Blackfoot reserve. This fire, the tremendous Bear Creek fire in the Nez Perce territory was continuing its advance Wednesday night with four thousand acres of valuable timber reduced to ashes in its wake. This fire shortly after midnight Wednesday jumped three miles of trenches that had been painstakingly constructed in an effort to stop it by a weary crew of fire fighters, and is now roaring forward beyond all hope of control.

SPAKANE, Wash., July 16.—Conflicting reports regarding the fate of the town of Tiger, in the fire stricken Pend Oreille country, were being received here Wednesday night. One report asserted that the town had been completely destroyed by the forest fires. Another version said that Tiger had been saved by back-firing.

All communication with Tiger and the whole Lost Creek area failed late Wednesday afternoon. The Lost Creek fire is sweeping unchecked through the stands of timber east of the Pend Oreille river, advancing directly on Diamond City.

Battery after battery of fighters is being hurled against the relentless walls of flames in a futile effort to check the devastation. Three complete camps of the Leach White Pine company have been burned out and a fourth was afire Wednesday night, beyond hope of being saved.

Another fire north of Lockeyes cut a wide swath as it moves forward to join the Lost Creek blaze. Danger of being trapped between these two fires, both of almost volcanic force, makes it almost impossible to fight the north front of the flaming forests.

A report early Wednesday night from Usk said the properties of the Diamond Match company, the Ohio Match company and the Panhandle Lumber company had been burned out.

The loss in the Pend Oreille district will soon exceed a million dollars, according to a composite estimate of the report arriving here from the various fronts.

Corsicana Girl Killed By United News. CORSICANA, July 16.—Christine English, 12, was instantly killed Wednesday afternoon when she became entangled in the machinery of the laundry at the State Orphans Home. The child was said to have been playing around the laundry when she caught her hand in the wringer. The body was badly mangled.

Appeals to America. MacDonald appealed to America as a spectator withdrawn from the feelings and ambitions of Europeans, saying that "she may be able at critical points to help us with wider views and calmer judgment than those of us amidst the wrecks and dangers may be able some times to command."

Kellogg in his speech, emphasized that the American delegates were not on the same footing as the European participants due to the fact that the United States did not sign the treaty of Versailles. The ambassador's high tribute to the work of the experts committee however, and in his address before the conference declared that the United States government and the American people believed that the experts report was the first great step in the stabilization of Europe.

Ten Nations Represented. The great conference at which ten nations are represented, opened Wednesday at the British foreign office with Premier MacDonald presiding.

France was represented by Premier Herriot, and General Nollet. Finance Minister DeStafani represented Italy. Premier Thenuis and foreign minister Hymans spoke for Belgium. Baron Loh and Baron Hayashi served as Japan's delegates while the Portuguese ambassador to London and the Jugo-Slav, Greek and Rumanian ministers upheld the interests of their countries.

The principals were gathered at a great horse-shoe shaped table, while smaller tables accommodated the experts.

Premier MacDonald welcomed the delegates with an address in which he surveyed the situation created by the expert, and urged the importance of launching the plan outlined by the experts committee as an integral unit. He declared that the conference must mark out two essential points; namely:

1. The restoration of the economical and financial unity of Germany. 2. The question of giving adequate security for the investors who would be asked to lend Germany \$200,000,000.

The premier emphasized that the experts had eschewed politics and concentrated on business and economics and expressed the hope that the conference would do likewise.

With special welcome to the United States it was pointed out that the presence of the Americans was significant of the good will of the American government and the American people. The party get (Continued on Page 4.)

WEATHER WEST TEXAS: — Partly cloudy tonight and Thursday; probably showers extreme west portion.

### Of Interest Society To Women

#### Party Honoring Out-Of-Town Guests.

Mr. and Mrs. A. B. Pollard and Miss Buena Frost jointly entertained with a party Tuesday evening at the home of their parents, at 2023 Broadway, in compliment to their house guests, Misses Ellen and Faye Gill, of Plainview, Miss Gill, of Acuff, and Fern Pollard, of Duncan, Oklahoma.

Carnations and various garden flowers, arranged in baskets and vases, were effectively used in the decoration of the rooms where Mah Jongg, forty-two, cards and dancing furnished entertainment.

Delicious refreshments of iced punch and cake were served to about twenty guests.

#### Personals.

Mr. and Mrs. G. C. Moore and son, Decker, of Monroe, La., are visiting their sister and aunt, Mrs. John R. Houston at the home of Mrs. L. H. Barkham, 1626 Tenth street. They are delighted with the ideal climate of the plains.

Mrs. H. H. Cooper and little son, Harney, of Menard, are here visiting the former's sister, Mrs. George Tarnho.

Mr. and Mrs. A. E. Caldwell, of Fort Worth, passed through Lubbock Wednesday. They are making a tour of the plains.

Mr. R. L. Bowers and Miss Margaret Copeland were here Wednesday from their home at Brownfield.

Mrs. F. M. Pratt will leave the

latter part of the week for Lubbock after spending several weeks here. Several parties have honored Mrs. Pratt while she has been in the city and several more will be given in farewell compliment to her. Mrs. W. T. Duncan, of Yelata, will entertain for Mrs. Pratt Tuesday at luncheon. Mrs. George Spencer gave a luncheon in her home in El Paso Monday for Mrs. Pratt, and Mrs. J. B. Paden will entertain Thursday afternoon, for Mrs. Pratt.—El Paso Herald.

#### PEOPLE DON'T ADMIRE ROUGH, PIMPLY SKIN

Before you can impress some one of the opposite sex enough to get them to share the happy state of love with you, you certainly must keep your appearance pleasing and attractive. Pimples, blotchy, eczemic skin seems ten times worse to strangers and new acquaintances. And even husbands, wives, parents and kin feel sorry for loved ones who suffer from such skin diseases. The way to get rid of all these drawbacks to affection and devotion from dear ones is to use Black and White Ointment, and Soap, like thousands of people are doing. They are economically priced, in liberal packages. The 56c size Black and White Ointment, contains three times as much as the 25c size. All dealers have both the Ointment and the Soap.

#### DAVIS TO CARRY PROGRESSIVE MESSAGE

WASHINGTON, July 16—When John W. Davis goes out into the west this summer he may be expected to open the eyes of the country with the progressive and liberal tone of his campaign speeches.

These speeches will be part of an effort by democratic leaders to offset the effect of the candidates former Wall Street dealing and capture the vote of the western progressive belt.

Davis has the reputation of being a conservative, though of independent mind. From now on, the democrats are going to do everything to rub off the conservative brand and stamp their candidate with the progressive trademark.

Toward this end, Davis will carry a progressive message when he tours the west, under campaign plans now being formulated for that sector.

Davis is going to spring a surprise by the liberal and progressive tone his speeches will take. They will be eye openers.

This was the comment of one here who was in close touch with the development of plans for the campaign.

At first the democrats considered it sufficient to depend on the campaigning of their vice presidential candidate, Charles W. Bryan, to bring the west in line as far as possible, since he is from the section and is well known there.

But they are finding now that this is not enough. They have come to realize that the victory may be decided in those western agricultural states which have been sending up howls of dissatisfaction in the last several months and it is Davis who head the ticket. And Davis who must be sold to the people of the west. He must carry a progressive message.

Davis does not face an easy task. The democrats are depending on him to swing the eastern conservative vote from Coolidge, and on

the other hand to hold as much as possible in the west and northwest from LaFollette. Their best method of appealing to both sides is to present him as an independent minded man who thinks and acts for himself. As the search for a new chairman of the democratic national committee continued, it was reiterated here Tuesday that Coolidge will be the real director of his race with Wm. M. Butler, chairman of the republican national committee as his chief associate.

#### REMAINS OF H. C. DUERING IS SHIPPED

The remains of Dr. H. C. Duering, who died here January 11, 1924, were taken from the Lubbock cemetery Wednesday and shipped to St. Louis by the Rix Company.

Final interment will be made in the family vault there. Mrs. Duering who has been visiting a sister at San Antonio will go from there to St. Louis to take charge of the remains upon arrival there.

#### AN ANTI-PRESCRIPTION ORDINANCE SOUGHT IN AMARILLO

AMARILLO, July 16—Agitation for a city ordinance which would prohibit drug stores from selling liquor prescriptions apparently has led with the filing of an opinion by city counsel, holding that such an ordinance would be invalid. Temperance workers demanded the passage of the ordinance following the decision of the United States supreme court that a similar ordinance passed in Los Angeles did not conflict with the Volstead act. The city held an ordinance would conflict with state laws.

#### BLACKLISTING IS GAINING POPULARITY IN TEXAS

CLEBURNE, Texas, July 16—Blacklists are growing in popularity and the latest is the official collection of "dark hued" names in the county clerk's office here. The list is consulted every time a prospective bridegroom seeks to purchase the necessary license. It contains over seventy names supplied by parents who have ruled against the marriage of a son or daughter below the legal age. Any fidgety bridegroom or blushing bride whose name appears on this list is promptly escorted from the office and parents notified of their attempt to secure the required documents.

Mrs. Norton Baker of the Baker Furniture Company, left Monday for Colorado, where she will spend some time visiting the resorts of that state. She was accompanied to Kansas City by Miss Delia Wilkinson.

#### NEW GARNISHMENT LAW IS BEING SOUGHT IN TEXAS

FORT WORTH, July 16—Open war on Texas "deadbeats"—those who feel no obligation to pay their honest debts—is seen in the organization here devoted toward the promotion of legislation designed to permit garnishment of personal earnings to an extent of 25 per cent.

Under existing laws it is impossible to garnish any part of a man's wages.

H. L. Tooker of Fort Worth is leading the move that has received the approval of the Texas Retail Merchant's Association.

Tooker is conducting a tour over the state in behalf of his measure, distributing petitions. "Make Texas Safe for Credit" is the slogan of the bill's supporters. Several state labor organizations including that of Amarillo have endorsed the proposed legislation, according to Tooker.

## IS LUBBOCK GETTING HER JUST DUES?

Lubbock seems to be getting some unfavorable publicity just at this time on the tourist park proposition. We do not know why this is, and we believe that some quick work should be done to offset any such publicity as we fear she is getting. The State Board of Health is issuing bulletins to the tourists. That department is issuing seals to the tourists that they call "Safety seals," and by the way, they are mighty good things, and it is a great benefit to the tourists and the state Health Department is to be congratulated for it, but we believe they are either not making their work thorough enough, or else it is some fault of the people of local communities. We have received recently two circulars listing towns that had the stamp of approval, but neither of these listed the city of Lubbock or the park in the list, and we believe that there is an oversight somewhere and it should be corrected. The last circular we received gave out the following information to tourists and gave a list of the requirements, all of which Lubbock can and we believe does come up to.

**ATTENTION, TOURISTS:** If you contemplate touring the state this summer on your vacation, you will probably be interested to know that there are 36 tourist camps that bear the "Safety Seal" of the State Board of Health.

Realizing the danger of spreading contagious diseases through the medium of insanitary camps, Dr. Malone Duggan, State Health Officer, ordered an investigation of the tourist camps in the state. At the present time, more than 70 camps have been inspected, 36 have been approved, and 20 more are to be given approval as soon as they can make necessary improvements to meet the requirements of the State Board of Health.

These requirements are safe and protected water supply. The water supplied by camps is analyzed to be sure that it is safe. If the source of the water supply is a spring or well, then a sanitary engineer inspects same to make sure that it is properly protected from soil drainage, or other polluting sources.

Proper sewerage facilities. Camps have to have approved type pit privy, chemical closet, or septic tank, where direct connections are not made with city sewerage system.

Proper garbage disposal. Incinerators are required for the burning of all waste, and covered garbage cans in which to place camp refuse.

A caretaker to oversee grounds who enforces rules as to cleanliness, and removes mosquito hazards by the elimination of breeding places.

While traveling in the state, if you find camps that are not following sanitary regulations and are a menace to the health of the people, please report same to the State Board of Health. If you find it necessary to stay over-night at an unprotected camp, protect yourself from mosquitoes by using mosquito bars. It would be well for every tourist to have his doctor give him an immunizing treatment against typhoid before starting on his trip. Look for the State Board of Health "Safety signs" on camping places.

## CROP CONDITIONS

According to reports that have been compiled in the agricultural departments of the United States government, one is shown that Texas is standing head and shoulders above every other section of the United States in general condition of the crops, while the Panhandle and the South Plains are at the very top of the scale in crop conditions. In the north plains and the Panhandle, the wheat crop is fine, and the yield is far above the average over the state. It is now being harvested and is making from fifteen to forty bushels to the acre, and is the very best grade. In this part of the Plains, the cotton crop is showing up well, and there is going to be one of the biggest feed crops that has ever been gathered on the plains. True, there are places where the crop will be very short, but much of the acreage is showing up splendidly. The Fort Worth Record, which is one of the several Hearst publications, printed two maps showing these conditions and the other portraying the crop conditions and in commenting on this, showing the record says:

"These are business maps of the United States as of July 1, 1924. It is a map such as these that big business executives, manufacturers and jobbers, sales managers and salesmen and the bankers, who lend money to finance business, study before they begin to spend their money. Big business men are watching maps like these every day and the expenditure of many millions of dollars hinges on the complexion of the maps."

Consulting the map more thoroughly we find that the biggest "good crop" territory is in West Texas. In fact, the west half of the state is so designated, while there is only one section, a small scope of country between Dallas and Houston that is listed with the dark line, that denotes conditions only fair, the balance of the state is listed

good and very good, so that Texas is very favorably conditioned this year.

The Plains and the Panhandle is in the very good territory, and we should feel the effects of this condition from now on through the year. While at this time money matters are close, there is every indication that there will be a general loosening-up along this line within a few weeks at the outside. The marketing of the big wheat crop in the northern part of the plains, and in the north part of the Lubbock trade territory will bring more or less money into this city, which will fall into the hands of the business men and from there will go into the hands of the people, and get a thorough distribution.

By the time the wheat crop is harvested and sold, the cotton crops of the South Plains, which by the way, is the biggest by far that has ever been raised, will begin to come in, and in this way there will be the liquidating of thousands of small loans, and the merchants will be able to realize on many of their accounts, which will mean an increased cash per capita for the people of this city.

The expenditure of half a million dollars in the paving campaign, and the big amount being spent by the state of Texas on the college buildings, the school spending \$125,000 on an addition to the buildings and other improvement, there is no need for the people of the South Plains to become alarmed at conditions; and in fact, they should feel glad that they are living in this part of the State of Texas. We have much to be thankful for, and the pessimist is going to have an awful hard time living on the South Plains.

## THE AVERAGE MAN.

We hear much talk about the average man. The reason we have so many average men is because so many men are afraid they will do too much—that is the reason he is an average man. If he was not afraid of doing a little more than he was really paid for he would be an exceptional man in place of just an average human, and if he really knew it, the exceptional man is the man that is in demand and is the man that is pulling down the big juicy sweet grapes while the average man is gnawing on the little sour mustang variety of fruit, so to speak. It is a true and a common quotation that broad is the way that leads to destruction and many there be that find it. Under ordinary conditions it is easy enough for a fellow to do that which is expected of him, but it is a different question to find those who really will hit the ball and do those things that are really within his reach. Soldiers on the job, make it hard for the fellow who really wants to push forward. They are nagged, criticized, and cussed for doing a bit more than possibly is expected of them. They are the exceptional type of men. They are men that are appreciated by employers, and they never lose anything by their attitude toward the business. Big business appreciates men of the exceptional type. The average man attracts no attention, but he who steps out and puts forth effort, shows activity and promise is the fellow that big business men are after.

Getting by is a phrase that has ruined many a man's future. Most any fellow can get by, but he who would succeed, here this young man, is the fellow who has the interest of his employer at heart, and who is willing to do just a bit more than is really expected of him if necessary to put things over. This is always noticed by men who are employing help, and while you may think you are "getting by" nicely, there will come a time, when the "exceptional fellow comes along that the average man will be replaced by the former. Strive to be an exceptional man, and not an average.

## SEVERAL MORE TICKETS SHOULD BE GOTTEN OUT.

If it is right to have an anti-klan ticket and a klan ticket, it would be nothing more than right for the Methodist, Baptist, Christian and each other church organization to put on a ticket, and the Elks, Masons, Odd Fellows and the other lodges of the town to also put out a ticket. There would be just as much sense in it, and we believe that either one of the organizations might select better men for some of the offices than some that are running.

The people, as a rule, are getting full of this "issue" stuff and we believe there will be a reaction before the election yet, and the fellows that are out on their own limbs, or are depending on certain would-be organizations to put them over will find that the fellow that is making the campaign on his own merits, and not the demerits of the other fellow, will be at the top of the list when the votes are counted.

This is as it should be, and we believe the women vote of this section is going to bring about the reaction. We believe that the women of the country are showing more good old common sense in the matter voting, and staying more clear of the "organizations" than the men, and the effect of their better judgment in the matter will be felt when the smoke of battle is over.

## MORE TECHNICALITIES.

If there is anything under the shining sun that defeats justice in the courts of the United States it is technicalities—something that amounts to very little only in that unique phraseology to which our criminal lawyers are more than adept. It must be on the technicalities of the indictments found against Albert B. Fall by a grand jury in the District of Columbia that he has entered his plea of "not guilty." Surely it is the opinion of the mass of the American people that Albert B. Fall accepted bribes in some form or other in the leasing of certain government oil reserves. To plead not guilty to the indictments will not convince the people that he is not guilty. Even though the courts decide in his favor, there will always remain in the minds of a great majority of people that "something was very rotten in Teapot Dome."

# KLAN AGAIN IN LIMELIGHT IN OKLAHOMA

By United Press Staff  
OKLAHOMA CITY, July 16.—The Ku Klux Klan has once again become the foremost political issue in Oklahoma, with "Iron Jack" Walton, impeached governor, leading the anti-klan hosts in a bitter fight for supremacy in the approaching state primaries. "Fightin' Jack" who declares "he was railroaded" from the governor's chair and crucified on a cross of fire has developed sensational strength in the eleventh hours of a bitter campaign for the democratic nomination for United States senator. With the primaries less than three weeks away and the klan support divided four opponents, it was generally admitted by prognosticators that Walton was sitting in the figurative "drivers seat."

Since his impeachment the militant foe of kluxism has carefully laid out his political fences and the entire state has stamped ground. He carried the anti-klan cry to thousands of voters. In picturesque fashion, characteristic of his campaign methods, Jack addressed hundreds of curbstone gatherings in every section of the state. Like a crusader pleading the cause of religious "righteousness" he had wept "till tears streamed from his face" railed at the kluxers and shouted for votes which will send him to Washington and vindicate the fight for religious and political liberty in Oklahoma.

Opposing Walton are C. C. Wrightman, Tulsa; oil millionaire; Tom Gore, former blind United States senator; E. B. Howard, congressman from Tulsa, and S. P. Freeling, former attorney general. None of these candidates has denounced the robed order and Walton is said to have a virtual monopoly of anti-klan support in the state. In addition he has a large following of farmer laborers in rural precincts where his strength held since the heyday of his political popularity.

"I will gather enough votes in the southern half of the state alone to insure my nomination and election," he declared in a recent speech.

Ex-Senator Gore, an eleventh hour entry admitted when he tossed his hat in the circle, that Walton was the most formidable of the candidates. He offered himself as a solution to the enigma said to confront certain voters who believe the klan issue should be kept out of politics and came forward as an out and out candidate of the old fashioned political school, broadening the tariff, taxation and other time-worn campaign platitudes. Wrightman, Howard and Freeling are generally regarded as "sectional" candidates. They are popular in their own districts, but the sheer fact the field is crowded and that the klan issue has been forced to the fore by Walton gives the ex-governor the post position at the start of the race. Republican candidates for the Oklahoma senatorship are W. B. Pine, Oklahoma publisher and Colonel Hugh Scott, head of the veterans bureau hospital Muskogee. These politicians are said to be looked forward to the nomination of Walton by the democrats. Normally, winning the democratic nomination is equal to victory in the election, Oklahoma favoring the party of Jefferson. And the republicans believe they can beat the ex-governor, the democrats who oppose him would vote for a republican before they would vote to send Walt to Washington according to the republican theory. Democrats, however, refuse to concede this situation. They are determined to defeat Walton in the primaries August 4, as that seems their only hope to prevent the picturesque anti-klanman from going to Washington as Oklahoma's next senator.

**WILLIAMSON COUNTY FARMER DIED SUDDENLY TUESDAY**

STAMFORD, Texas, July 16.—Frank Schall, Williamson county farmer, died suddenly Tuesday night while driving home with his year old son. The man fell over and on his shoulders. Frightened the boy called for help. Another farmer in a nearby field answered the call, but Schall was dead when they got him to a house. He is survived by a wife and six children.

**EAMONN DE VALERA IS RELEASED FROM PRISON**

DUBLIN, July 16.—Eamonn de Valera after almost a year's confinement in various free state prisons for his championship of the republican cause in Ireland is again a free man.

**TYPHUS FEVER IS RAMPANT IN RIO GRANDE**

AUSTIN, July 16.—Dr. Malone Duggan, state health officer, is on route to Rio Grande city today in response to reports of a typhus fever rampant here. The typhus fever epidemic is one of the most dreaded diseases known, exacting great mortality. Duggan left in answer to pleas from stricken area for preventive measures further spreading.

**Negro Crushed to Death**

HOUSTON, July 16.—Caught between two coal gondolas which had sidestepped at an open switch on the ship channel, John Cornish, negro dock worker was almost instantly killed Wednesday afternoon.

**ALLIED CONFERENCE OPENS SESSION**

(Continued from page 1)  
off to a business-like start, appointing committees to consider vital points within two hours after assembling. The committee meeting, which really consists of three small conferences, are likely to continue almost all day Thursday.

The Canadian high commissioner has announced that privy councilor H. Bellcourt has agreed that he will hereafter represent Canada at the meetings.

The British had conceded the dominions the right of representatives at the conference, but had urged that colonial minister Thomas represent them. It is expected that Australia and the Irish Free State now will send representatives.

Prof. and Mrs. M. M. Dupre made a trip to the O. L. Slaton ranch near Slaton Tuesday, where they enjoyed a chicken dinner and watched the banding in progress there in the afternoon.

# "GOING UP" PLAYED TO FULL HOUSE AT LINDSEY

The presentation of "Going Up" by Virgil Siner Review at the Lindsey Theatre Wednesday evening was to a full house. This bill is without question the best yet presented by Mr. Siner since his playing in Lubbock. It was filled with the countless laughs and with its many interludes of dancing by the chorus, singing and enjoyable numbers by the Trio made it a big success. Mr. Siner played the leading role of the famous book aviator and Mrs. Siner drew much applause by her splendid acting in the part of the comedienne.

## G. O. P. HEAD PLEDGES CO-OPERATION IN CAMPAIGN FUND

(Continued from page 1)

If any official position the contributor holds?

"We will be pleased to respond to whatever arrangement your committee desires with reference to meeting reports of contributions, names and addresses and official positions, if any."

"We would be glad to have also any facts coming to the knowledge of your committee as to money being raised or expended by any organization or committee in opposition to the candidates of the ticket to which your committee is interested in electing. In other words, any information which you can give this committee which will enable it to make a thorough investigation as to money expended in opposition will be as readily received and considered as facts relating to money used in support of the ticket in which your committee is interested."

"We will furnish from time to time, such information as may come to our knowledge with reference to the inquiry contained in the sixth paragraph of your letter."

Butler intends to leave for Chicago as soon as the eastern campaign machinery has been organized.

# Just Folks by Edgar A. Guest

THE FEMINE PASSION  
Janet has to be in style,  
Bless her heart! That's all there's to it!  
I'll keep working all the while  
And wear shabby clothes to do it.  
That's a whim that's truly human,  
Downright feminine, my guess,  
Well I know the ways of women—  
She must have her pretty dresses.  
Facts are what I bank upon,  
Circumstances alter cases,  
But they never change this one—  
Women live for silks and laces!  
Take 'em young and take 'em old,  
If they're of the female gender,  
Pretty, winsome, shy or bold,  
They wear the latest splendor.

(Copyrighted 1924, by Edgar A. Guest)

## DAVIS AND BRYAN.

The circulation manager is an out and out Davis and Bryan supporter but we want to impress upon the people of this section, that if they want to keep abreast of doings politically, they must become readers of the Morning Avalanche and the Lubbock Daily News. These two dailies and their special leased wires, will keep you posted up to the minute regarding the national, state and district campaigns.

Our special club rate will only be open until Saturday July 19, so it behooves you to phone or call at our desk and enroll as a regular subscriber. The local campaign is warming up and many things can happen before the primary election, July 26th. There is no doubt in our mind but that one copy of either one of the dailies will be well worth the price asked for a three months' subscription for the two papers. Local merchants are running special bargain price ads in each issue of the two papers, if taken advantage of that will save any one the amount asked for a three months' subscription upon a ten dollar purchase.

If you want to vote intelligently, or save money on your goods, groceries, etc., you cannot afford to be without your daily papers. Vote for Davis and Bryan and buy from home people, also help clean-up the town and be a public benefactor.

Yours truly,  
Circulation Manager.

## MITCHELL LEADING IN MUNICIPAL GOLF PLAY WITH SCORE OF 85 IN QUALIFYING ROUNDS; OTHERS CROWDING CLOSE BEHIND

With seven of the qualification rounds in the first annual municipal golf tournament, having gone on record since Tuesday morning, business around the course is beginning to pick up, and it is believed that two more days will see the end of the classification fights.

M. M. Mitchell is high individual in the seven tournaments that have been played, with a score of 85, on 18 holes, which is the required number for classification. He was paired with Anthony Bohro, who drew a score of 127. Next high comes John Pennell and L. H. McLarty, who battled around 18 holes for a tie score of 89.

Sled Allen and Gib Jackson, both baseball hands, came in for their high score with a 90. Other pairs and their scores are: F. M. Bowen 106 vs. O. E. Sears 146; T. L. Mullican, 103 vs. Otis Felty 129; John Jarrott 105 vs. Pete Posy 105; Gene Wofford 101 vs. Fred Joyce 104.

In this list there are only one or two of the country club members, but it is expected that today's contests will ring in the balance of the Country Club members who have entered in the municipal tournament, including J. R. Germany, J. O. Smith, J. Dick Slaughter, Joe Nislar, Curtis Keen, Lee Duggan and Erick Posy.

With but one or two exceptions, not a ripple of discord has marred the stillly waters of the tournament, and all have entered into the spirit of play with good sportsmanship, and have been high in their praise and words of commendation for the efforts put forth by those who have had charge of bringing the municipal course into shape. It is pointed out by officials of the association that neither the public nor an irate individual who is possessed of hard luck at the time, can expect a \$10,000 course on an appropriation of only a few hundred dollars, and that it is also the intention of officers of the association, which is yet only a few months old, to make improvements in the present course, just as fast as time and funds will permit.

In fact, Country Club Members who are participating in this tournament admit the fact that the municipal course, already so well known to officials in charge, and it is believed that elimination fights will be opened probably about Saturday.

The tournament is proceeding satisfactorily to all concerned, according to officials in charge, and it is believed that elimination fights will be opened probably about Saturday.

The tournament is proceeding satisfactorily to all concerned, according to officials in charge, and it is believed that elimination fights will be opened probably about Saturday.

## LEAD OF YANKEES IN AMERICAN LEAGUE IS CUT DOWN

While the New York Giants are enjoying a comfortable berth at the top of the National League where they lead by so wide a margin that the National league champions are predicting another pennant, the Yanks who also top their circuit, made things less comfortable for themselves in a game with the Indians in New York.

The Indians beat the Yanks 4 to 3 in a play off game and in consequence the already narrow lead of the Yanks became even narrower. They are only one half game ahead now and might have been in still another hotter water had the Washington Senators played Wednesday.

In Philadelphia, the tail end Athletics sprang a surprise on the first division White Sox by handing them two beatings in a double header. The National league situation became even more uninteresting. The Giants took the Pirates in a match in Pittsburgh where long George Kelly whacked out his 14 homer of the season to give the Giants an 8 to 7 win.

The Cubs were beaten by the Phillies in Chicago 3 to 2. The Dodgers broke even with Cincinnati 5 to 4 and 6 to 5. The Cards took both ends of a double header with the Braves in St. Louis.

Myrick only voiced the grouch of other nations when he called attention to the fact that there are only two showers in the women's dressing quarters to accommodate a large number of women competitors who some times come off the courts in groups of half a dozen and such is the naive innocence of the French officials, that they expected the women to take their showers while carpenters were still working in the room.

There is no provision for drinking water near the courts and the players have to fetch their own from the bar. There are no towels for the players to rub down with as they pass the umpires chair between sets and the press facilities are hopelessly inadequate for covering the swift developments on the courts.

Summing up, it might be said that the French conception of championship conditions is better adapted to a Montana rodeo than such a refined sport as lawn tennis. The managers of several other teams had discussed their objections together and at least they came to the Americans and found them to be in a similar state of vexation.

Some of the ushers in the tennis stadium stepped into the path of a storm when they underestimated the famous temper of Mrs. Molla Mallory, former American woman champion. Mrs. Mallory playing for Norway had just eliminated Mrs. Chastanoga of Holland 9-7, 6-0 and started to enter the stands to sit beside her husband. The ushers tried to keep her out. Then it happened.

There was another moment of unhappiness when Lazarus of the American boxing team received a foul punch from Andren of Sweden, as they came out of a clinch. The crowd was booing Lazarus because he was an American any way, and when he was struck in the breakaway he discharged a right swing which took the Swede on the chin and stiffened him on his back. The crowd yelled murder and the officials ignored Oudrene's first foul disqualified Lazarus. The was thus the only American boxer to lose in Wednesday's matches.

Another demonstration of back alley sportsmanship came from Kehrling, the Hungarian singles plays who croaked at the referees decisions in his match with R. N. Williams of the American team. Williams whipped him 6-4, 6-3, 3-6, 4-6, 6-3. Williams' bad knuckle still bothered him somewhat.

Vincent Richards put out Manuel Aonzo, the Spanish champion 7-5, 10-8, 2-6, 6-3, and he also participated in a mens' doubles triumph in which he and Francis T. Hunter beat Zemler and Kozeluh, of Czechoslovakia 6-1, 6-3, 6-4.

Watson Washburn lost to Jacobs of Indiana 6-1, 6-4, 8-10, 5-2, and joined Hunter. Miss Lillian Scherman and Miss Eleanor Goss in a group of eliminated Americans on the side lines. Miss Scherman and Hunter went out of the singles Tuesday and Miss Goss was eliminated Wednesday by Mile Selasto, of France 6-3, 2-6, 6-4.

In the women's doubles, Miss Helen Wills, and Mrs. Wightman took a default victory for the Americans from Mrs. Mallory and Miss Dahl, of Norway. Miss Dahl was ill. Mrs. Marion Jessup, of the United States beat Mile. Torres, of Spain 6-2, 6-0. Williams and Washburn won from Tegner and Ulrich, of Denmark in the mens' doubles, 6-4, 6-4, 12-10.

Wassler of Belgium, who eliminated Hunter on Tuesday, was defeated in turn by Morphuro of Italy, 2-6, 6-4, 1-6, 6-4, 8-6.

Cochet of France beat Fukuda, Japanese, 6-2, 6-1; 6-3, Sarada of Japan, beat Gilbert, England, 10-8; 2-6; 11-9; 6-2. Jean Borotra of France, holder of the Wimbledon title, easily won from Kingscote of England 6-1, 6-3, 6-1.

Miss Kitty McKane, the womens champion of the Wimbledon tournament stopped Mrs. Fick of Sweden 6-1, 6-1.

Trivolt, the American bantamweight boxer, won another match, defeating Tarrant of England on points. Fields of the United States won the featherweight match from Hansson of Norway, on points.

Kealoha and Wyatt, of the American team qualified for the final in the 100 yard back-stroke swim. Mrs. Garahy of the United States qualified for the final of the 200 meters for women. She made the best time of the days trials, 3:25 3-5. Miss Coleman was disqualified.

Thursday is the day of the general naval game on the Seine. The United States has qualified for five of the seven races, and is expected to take the big event the eight-oared struggle in which the great Yale crew will row against England, Italy and Canada. In the trial Canada was an easy victim for the American oarsmen.

## U. S. TENNIS TEAM THREATENING TO WITHDRAW FROM CONTESTS IN PROTEST OF POOR ACCOMMODATIONS OFFERED

PARIS, July 16.—Alarmed by threats of the American Tennis team that it would withdraw from the Olympic competition unless the French committee provide better accommodations, the committee probably will take special action Thursday to provide improved facilities for the Yankee players.

A number of other nations lined up behind the Americans in their protest.

PARIS, July 16.—Unaccustomed to "roughing it" at championship tournaments the American tennis team has threatened to withdraw from the Olympic competition and several other nations may do likewise as a protest against the poor accommodations provided by the French committee.

Julian S. Myrick, president of the United States Lawn Tennis Association speaking for the American team told the international committee his players would quit "if civilized facilities were not provided at once."

This row was not the only unpleasant incident of a grouchy day in various fields of sport, but it was the most conspicuous, and it dwarfed the importance of the days actual results on the tennis courts, in the ring and on the water.

Watson Washburn and Miss Eleanor Goss, of the American team were eliminated from their respective singles tournaments before the afternoon's play but otherwise the Americans fared well.

Myrick only voiced the grouch of other nations when he called attention to the fact that there are only two showers in the women's dressing quarters to accommodate a large number of women competitors who some times come off the courts in groups of half a dozen and such is the naive innocence of the French officials, that they expected the women to take their showers while carpenters were still working in the room.

There is no provision for drinking water near the courts and the players have to fetch their own from the bar. There are no towels for the players to rub down with as they pass the umpires chair between sets and the press facilities are hopelessly inadequate for covering the swift developments on the courts.

Summing up, it might be said that the French conception of championship conditions is better adapted to a Montana rodeo than such a refined sport as lawn tennis. The managers of several other teams had discussed their objections together and at least they came to the Americans and found them to be in a similar state of vexation.

Some of the ushers in the tennis stadium stepped into the path of a storm when they underestimated the famous temper of Mrs. Molla Mallory, former American woman champion. Mrs. Mallory playing for Norway had just eliminated Mrs. Chastanoga of Holland 9-7, 6-0 and started to enter the stands to sit beside her husband. The ushers tried to keep her out. Then it happened.

There was another moment of unhappiness when Lazarus of the American boxing team received a foul punch from Andren of Sweden, as they came out of a clinch. The crowd was booing Lazarus because he was an American any way, and when he was struck in the breakaway he discharged a right swing which took the Swede on the chin and stiffened him on his back. The crowd yelled murder and the officials ignored Oudrene's first foul disqualified Lazarus. The was thus the only American boxer to lose in Wednesday's matches.

## Long Shots By Heavy Artillery

Wednesday home run hitters: National: George Kelly, Giants. American League, Myatt, Indians. The leaders so far:

Babe Ruth 26; Jacques Fournier, Dodgers 21; Ken Williams Browns 16; Joe Hauser, Athletics 14; Dolly Jacobson, Browns 13, Kelly Giants 14.

## FORMER SEC. FALL AND WIFE VISIT CALIFORNIA

LOS ANGELES, Calif., July 16.—Former Secretary of the Interior Albert B. Fall and Mrs. Fall arrived here this afternoon from their ranch in New Mexico, intending to spend a short vacation in various southern California resorts. The Falls were met at the train

by E. L. Doheny, millionaire oil man, and were spirited away to Doheny's palatial home in Beverly Hills.

Neither Fall nor Doheny, both of whom are under federal grand jury indictment in connection with naval lease inquires, would make a statement "at this time" they said.

## Card of Thanks.

We wish to thank our friends who so sweetly ministered to our dear mother in her last illness for their acts of kindness, words of love, and sympathy and beautiful floral offering. Our prayers are that when sorrow comes to you, as it must come, you will have the solace of friends so dear. May God bless you. The Bellah Children.

## Mexico Harvests First Bale

EL PASO, Texas, July 16.—The first bale of cotton of the 1924 crop in Mexico was brought in and sold for fifty cents a pound at Terreon, Mexico, last week, according to reports reaching here.

BUILD A HOME!

## Station-to-Station Calls Cost Less

When you ask Long Distance to get a certain telephone number in a distant city and, when connected, you speak to any one at that number, you have made what is described as a Station-to-Station call.

That is, on a Station-to-Station call do not specify a particular person to be reached, but give only the number of the telephone or the name or address under which that telephone is listed.

A Station-to-Station call costs less than a call for a particular person because less operating labor and less circuit time are required than if a particular person has to be located and brought to the telephone.

Charges can not be reversed on Station-to-Station calls.

## ABE GOLSTEIN WINS DECISION OVER CHAS. LEDOUX

RINGSIDE VELODROME NEW YORK, July 16.—Charlie Ledoux the French bantamweight one of the oldest boxers in the ring, went the limit of 15 rounds with young Abe Golstein the champion of the class Wednesday night and left the ring more honored than the champion himself. Ledoux was game and Golstein was clever. But Abe was not called on to take any punishment. All he had to do was step away from the fat old Frenchman's rush and carve Charlie's face with swishing right and left uppercuts. Ledoux had to take them and he took them with a courage that was almost reminiscent of Eugene Criqui's heroic stand against Johnny Dundee last summer, which was the greatest stand that any boxer has made in these precincts since the boxing law raised the embargo on cauliflower. Golstein won the decision easily.

The champion has improved greatly since he won the title from Joe Lynch a few months ago. Then he was scared and uncertain.

### CARPENTER TAKES OWN LIFE IN HIS ROOM HERE

At nine o'clock this morning in the Wilson Rooming House at 1404 Ave. K, another of the unexplainable tragedies that stalk into the presence of men was committed, when with a .38-caliber bull dog pistol, D. H. Stator, carpenter, of whom very little is known here, took his own life.

Other occupants of the rooming house rushed to Stator's room when the pistol shots were heard, and found him sprawled face down upon the bed, evidently having been standing facing the bed when the fatal shot was fired. Death was instant, according to those who first reached him.

No note giving any reason for the tragedy was to be found and inasmuch as the man's personal belongings contained nothing which would give the officers information leading to the location of relatives and it may be some time before anything can be done toward notifying anyone who might be interested in that disposition to make of the body.

The remains are being held at the Rix Undertaking Parlors awaiting instructions.

It seems from the scant information concerning the dead man that could be gathered from those who knew him only in a casual way that he had made his home in Lubbock for several months but left here some three weeks ago, returning the first of the week.

It was said by one man who knew him only by a short acquaintance that he had had a very dark outlook upon life and had complained several times that he was with whom he had dealt had shown unfairness toward him, that he could not secure a job despite every effort in this connection and that falling health added to the seriousness of life for him. This information, however, is only vague inasmuch as our informant had only a few casual conversations with the man who took his own life, and perhaps circumstances about which self inflicted death will forever hold from men hampered his efforts toward gaining a place that would lend to life any semblance of happiness for the unfortunate who foresaw in the grim tragedy that was enacted by him an end to it all.

Another man who claimed he had a conversation with Stator two days ago said he had spoken about having spent a great deal of time in Oregon, and mentioned also that he had done construction work in Oklahoma.

Meaning Sheriff Johnston and Deputy Sheriff U. L. George are bending every effort to locate a man who has been here some time and whose name is Watson whom it has been said knows the deceased intimately and will be able to give some information concerning the whereabouts of his relatives.

Watson, it has been said left last week for Oklahoma, and it is doubtful that he can be located for several days.

**Father of Deceased Is Located**

Since the above account of the tragedy was written, an investigation conducted by County Attorney Owen McWhorter and members of the sheriff's force, disclosed the fact that the dead man's father, C. A. Stator, resides at Burte, Montana. He has been notified of the tragedy and instructions for the disposition of the body are expected hourly by the sheriff's force.

### SCOTTISH RITE CLUB MEETING TONIGHT

This evening at 8:30 every member of the Scottish Rite Masons club should attend. Work will be rehearsed and an interesting evening is promised to all.

The Club was organized at the Maundy Thursday Banquet held in April of this year, with eighteen members. Since that time several have joined and it is intended to make it a club for the whole South Plains. Any thirty second degree Scottish Rite Mason is eligible to membership.

### LEGIONNAIRES HERE PLAN TO ATTEND STATE MEET

At a meeting of the Executive Committee of the local post of the American Legion held last night at the courthouse a number of matters of special interest were discussed the most important of which, perhaps, dealing with the State Convention to be held in Brownwood, August 18, 19 and 20th. It is expected that a number of the members of the post as well as other ex-service men will make a special effort to be in Brownwood during the three days of this convention.

Advice from State Headquarters state that among the few notables who are expected to attend are: Gen. John J. Pershing; Assistant Secretary of the Navy, Theodore Roosevelt, Jr.; Judge Landis, baseball magnate; and National Commander, John R. Quinn. Brownwood is expected the largest congregation of Legionnaires ever assembled in Texas to greet Madam Schumann Hienk when she puts on her great concert. There will be an air circus consisting of 42 air planes, horse racing and other amusements equally as attractive, where one can enjoy every minute of the three days stay in Brownwood.

The local post will have one more meeting before the Brownwood convention. This meeting will be held in the Justice Court Room of the Court House. A considerable amount of work has been going on quietly in the local post and it is hoped that at the next meeting a very representative attendance will be out to hear detailed reports of the Legion activities.

A large number of ex-service men

### TAMMANY HALL PLEDGES DAVIS THEIR SUPPORT

NEW YORK, July 17.—The promise of Judge Olvany new Tammany leader that his organization would support John W. Davis in the presidential race this fall has brought increased betting support to the democratic candidate. Not since Davis' nomination has so much money been available to bet on his chances, according to W. L. Darnell and company, bond street brokers.

That firm announced Wednesday that it had placed several substantial combinations one of \$5,000 to \$17,500 and another of \$5,000 to \$15,000 that Davis would be elected. Several thousand dollars more are available at the same odds, it was announced, New York's increased belief in Davis chance is based on the assumption that Governor Smith will run for re-election, thus placing the state solidly in the democratic column.

### Three Injured In Fire

KANSAS CITY, July 16.—Three persons were slightly injured in a fire which swept the J. H. Tebudy Hardwood Lumber company's yards here late Wednesday. Loss was approximately \$50,000. Two of the injured were firemen.

### Auto Moved Into Court Room As Evidence

KANSAS CITY, Mo., July 16.—"Why Chris Walk Home" might have been the title of a playlet enacted here Monday afternoon when defense attorneys in an assault case moved their clients automobile into district court room to prove his innocence.

Scores of spectators, including society women, were visibly thrilled when 20 mechanics strode noisily into court lugging the heavy parts of Barney Goodman's big motor car. The trial went on, while the mechanics hastily assembled the machine.

Shining and resplendent it stood at the right of Judge James H. Austin's bench while the state rested its case against Goodman wealthy realtor accused of assaulting Miss Margaret Thayer, stenographer while on an automobile ride. Then without ceremony a defense lawyer walked over to the car and labelled it "Exhibit A."

Tomorrow, Goodman's attorneys expect to establish through "Exhibit A" that the rich realtor, the car will be used to demonstrate that the alleged attack, as described by Miss Thayer, would have been physically impossible in that model machine.

### FOREST FIRES UNDER CONTROL; SITUATION SERIOUS

week is estimated at one million dollars.

Members of a hundred families, some of whom have been rendered homeless are gradually making their way over circuitous mountain trails and are being cared for in towns that have railroad connections and are out of the danger zone. The experiences of these refugees are very similar. Driven from their home by the approaching flames, they took refuge in the mine tunnels that peck mark the hills in the district. Here with food and water supplies, they remained until the fire had swept past and then made their way to safety and it is confidently expected that when communication to the burned zone is restored no loss of life will be discovered.

The surface works of several mine have been destroyed and the plant of the Constitution mine has been threatened several times, but was still standing Wednesday afternoon.

In Pend Oreille county Washington several small towns were in jeopardy from a fire which was burning along a 30 mile front up the Pend Oreille valley but it was expected that unless a sudden high wind came that all these settlements would be saved. In Western Washington and Oregon rains which fell Monday and Tuesday have relieved the fire danger for the present.

Austin's bench while the state rested its case against Goodman wealthy realtor accused of assaulting Miss Margaret Thayer, stenographer while on an automobile ride. Then without ceremony a defense lawyer walked over to the car and labelled it "Exhibit A."

Tomorrow, Goodman's attorneys expect to establish through "Exhibit A" that the rich realtor, the car will be used to demonstrate that the alleged attack, as described by Miss Thayer, would have been physically impossible in that model machine.

### Auto Moved Into Court Room As Evidence

KANSAS CITY, Mo., July 16.—"Why Chris Walk Home" might have been the title of a playlet enacted here Monday afternoon when defense attorneys in an assault case moved their clients automobile into district court room to prove his innocence.

Scores of spectators, including society women, were visibly thrilled when 20 mechanics strode noisily into court lugging the heavy parts of Barney Goodman's big motor car. The trial went on, while the mechanics hastily assembled the machine.

Shining and resplendent it stood at the right of Judge James H. Austin's bench while the state rested its case against Goodman wealthy realtor accused of assaulting Miss Margaret Thayer, stenographer while on an automobile ride. Then without ceremony a defense lawyer walked over to the car and labelled it "Exhibit A."

Tomorrow, Goodman's attorneys expect to establish through "Exhibit A" that the rich realtor, the car will be used to demonstrate that the alleged attack, as described by Miss Thayer, would have been physically impossible in that model machine.

### Parks Board Will Visit Lubbock In September

Supt. M. M. Dupre, of the Lubbock City Schools and who is also a member of the Lubbock County Parks Board, has just received a letter from Phoebe K. Warner stating that the State Parks Board would visit Lubbock county in September, but as yet has not announced the exact date on which they will be here.

Keen interest in securing a designated State Park in the county is being shown and the people of this county are in sympathy with the work that is being done by the state parks board.

Supt. Dupre, W. K. Dickinson S. E. Staggos of Stator, Mrs. Wm. L. Baugh of Lubbock and the other members of the park committee have shown themselves willing to do anything within their power toward securing a park for this county and the members of the state parks board will receive the very heartiest co-operation from them when they visit this county.

If you want to please your friend get through talking so he can begin, suggests the Atnoona Kas., Tribune.

You are hereby commanded to cause to be published once a week, for ten days, exclusive of the first date of publication, before the return day hereof, in some newspaper of general circulation published in said county, which has been continuously and regularly published in said county for a period of not less than one year, the following notice:

guardianship upon the estate of R. B. Barrier, Sr., a person of unsound mind, and at the next regular term of said court, commencing on the 21st day of July, A. D. 1924, at the courthouse thereof, in Lubbock, Texas, at which time, all persons interested in the welfare of R. B. Barrier, Sr., may, and are hereby cited to, appear and contest such application, should they desire to do so.

Herein fail not, but have you then and there before said court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Lubbock, Texas, this the 9th day of July, A. D. 1924.

HERBERT STUBBS, Clerk of County Court, Lubbock County, Texas. 21 10-17 By IRMA PRYOR, Deputy.

It is somewhat difficult to understand a woman or a man who spends spare time seeking lost relatives, states the Oklahoma City Times.

### GAS PRICES CAUSE BIG SHUFFLE IN OIL STOCKS

By EDWARD J. CONLON, (United News Financial Editor).

NEW YORK, July 16.—The stock market suffered from a series of shocks on Wednesday which for a time threatened to spread to the entire list. Not the least of these disturbances was the commotion in the oil stocks on the further reductions in gasoline prices in the Louisiana and Kentucky districts and the additional cut of 25c a barrel in the top grades of mid-continent crude.

Although weakness in Sinclair shares during the last few days presaged the passing of the dividend, it was not until after the announcement was made that the stock dropped to a record low. In the general weakness which occurred in the oil list, Texas company and Pacific oil went to new lows on the movement.

In the rail section of the list, however, support was always in evidence when most needed and the gains in this group about offset the net loss for the day sustained in the industrial list. The higher dividend rates talked for some of the transcontinental roads do not look quite as likely as a few weeks ago and many of the market letters now going out are inclined to put a more conservative front on estimates. While the stock market excitement on the decline in industrial carried trading over the million share mark, feverish trading in the Chicago pit sent grain soar

ing. September wheat reached a new high in the upward rush of prices which sent this option 5 3-8 cents higher for the day. Failure of the Canadian crop to receive moisture in time was the principal cause for the leap.

Corn, oats and rye established substantial advances in the other or named strength in the other commodity markets was a feature of the day. Cotton scored impressive gains on unfavorable weather news.

### MAN ESCAPED FROM ASYLUM ADMITS ATTACK

By United News.  
KEARNEY, N. J., July 16.—Jacob Herman, who escaped Monday from an insane asylum admitted to the police here late Wednesday that he had criminally assaulted right year old Francis J. McDonalds, whose mutilated body was found near his home at Port Richmond, Staten Island, Tuesday night.

Herman denied, however that he had killed the boy.

The escaped asylum inmate was picked up earlier in the day by two motorcycle policemen. Detectives who heard his weird confession were inclined to believe that he had imagined the crime, but are investigating the tale, to see if it can be confirmed.

# A SPLENDID MUSICAL PROGRAM WAS RENDERED AT ROTARY LUNCH AT THE ARMORY BUILDING TODAY

Ernest Conley and L. C. Montgomery ably demonstrated their ability to put over a good luncheon program Wednesday and the meeting was one of the best of the season and the attendance was up to par.

Splendid music featured the program, with Miss Mary Dunn, Mrs. Switzer who is here teaching piano, Mr. Rolley Brown, R. Borden and members of the Virgil B. Siner musical comedy company that is now playing at the Lindsey rendering appreciated numbers. The local quartet composed of Messrs. J. M. Brooks, F. Holland, Wendell and Gunn was in attendance and rendered a number that received hearty applause.

The orchestra played quite a number of selections throughout the program and added to the program.

J. D. Tinsley, agricultural agent for the Santa Fe was among the visitors and made a short account of what is being done in developing a pure seed supply for Lubbock county on the Pat Nix farm in the Canyon community.

L. C. Denton, candidate for commissioner of Precinct No. 4, was among the speakers on the program and told how he had lost his first attempt at presenting his claims to the voters of the county at Shallowater on Tuesday evening. It seems that Denton had arranged a perfectly good speech for the occasion, but as the chairman of the program called upon him he in some way lost all grip on his speech and despite the fact that he spent some time rousing his hair, stopping the floor and acting wise at the members of the audience that appeared as a sea of faces, it was of no avail and the speech stubbornly refused to come to him, therefore he was unable to pass it on to the hearers. Denton said though that he is not going to let the loss of that opportunity to make a speech knock him out, for he is making regular trips to the country where he practices from thirty minutes to an hour on the speech that he will make at Acuff when the candidates assemble there soon. This frank account of an unsuccessful attempt at oratory was appreciated by the Rotarians, all of whom at some time or another have stood in the same shoes that were so uncomfortable to Rotarian Denton else they have missed one of the most embarrassing predicaments into which one can be thrown.

An announcement was made of an organ recital that will be given at the First Methodist Church next Tuesday evening.

The following guests attended the program:

Mr. Beatty of L. C. Montgomery; Rev. J. W. Morrow of Dr. C. M. Balenger; Frank Bettig of Pine Hill, Texas, and C. C. Lindsey of J. A. Medlock; Dr. Wm. L. Baugh of E. L. Robertson; J. C. McAfee of Cisco; Guy McAfee; V. A. Graham of Dallas; L. C. Montgomery; J. D. Tinsley of David F. Eaton; Owen McWhorter of Richard Douglass; H. H. Griffith of Curtis A. Keen; Dr. Dunn of Chas. Wagner.

This musician were the guests of L. C. Montgomery and Ernest Conley.

**HUGH BARBER WILL SERVE SHORT TERM FOR TRANSPORTING**

R. S. Claud, penitentiary agent, arrived in Lubbock Wednesday to take Hugh Barber of Lubbock county to Huntsville where he will secure a year's sentence in the state penitentiary for transporting liquor.

Barber pled guilty to the charge in the district court and asked for the minimum term, which was granted by the court. He is going to be held here until he can be taken to the penitentiary several weeks ago but after the trial he developed a severe case of appendicitis and underwent an operation in a local sanitarium. He was sentenced during the June term of court here.

Claud was on a trip through this section of the state and carried a number of prisoners from out of this district, Barber having been the only Lubbock county man taken by him on this trip, however.

Barber's young wife is terribly disturbed over his having to go to the penitentiary.

## CHURCH AFFILIATION OF STUDENTS AT THE TEXAS U.

AUSTIN, Texas, July 16.—That the majority of University Students of Texas University take some active part in some religious denomination is shown by a religious census taken by the Young Women's Christian Association. Out of 4,655 students only 9.8 per cent fail to give any religious preference, there were 2,554 men and 1,610 women, making a total of 4,164.

Methodist students lead other denominations in numbers, as shown by the statistics just compiled. There were 1,319 students either members of the Methodist church or having a preference for that church, Baptists Presbyterians, and Episcopalians were the next ranking in order given by the statistics just compiled. They were represented: Methodists 1,145 members, 174 preferences, total 1,319; Baptists, 836 members, 115 preferences, total 951; Presbyterian 661 members, 54 preferences, total 715; Christian, 307 members, 48 preferences, total 355; Episcopal 351 members, 5 preferences, total 356; Church of Christ 47 members, 5 preferences, total 52; Catholic 186 members, 4 preferences, total 190; Christian Science 19 members, 3 preferences, total 22; Jewish 102 members, 11 preferences, total 113; Lutheran 85 members, 5 preferences, total 90; Congregationalists 15; Unitarian 10; miscellaneous 38, no preference 453.

## GERMAN CLAIMS CAN PRODUCE PURE GOLD

Copyright, 1924, by United News BERLIN, July 16.—Claiming to have realized one of the wildest dreams in human history, Dr. Adolf Meithe, professor in the Charlottenburg University of Engineering announces that he has discovered a method for the artificial production of gold and displays the proof of his achievement.

The first gold won by man thru the decomposition of mercury glittered in the middle of a small cup of precious, polished agate. The United News correspondent held it in his hand passed to him by the discoverer of the process.

In the view of Dr. Meithe, it represented materialization of a dream for which innumerable alchemists have toiled and died in vain from the day of Babylon to recent times.

Dr. Meithe, in co-operation with his assistant, Dr. H. Stammreich, has discovered that by the introduction of a certain amount of energy from the outside, mercury undergoes decomposition which results in the production of gold and helium. Hitherto, it has been thought that mercury was an unalterable element. Experiments with a so-called electric arc furnace filled with mercury, according to Meithe destroyed the intrinsic stability of the mercury and by a slow process caused its partial decomposition into gold.

Although Professor Meithe is of unquestioned authority in scientific circles the discovery seemed so incredible, even to him that the experiment was repeated again and again, always with the same result. The most careful analysis by Meithe and other scientists, including Prof. Haber, famous inventor of the process for extracting

**FOUR STATES PRODUCE 68 MILLION BUSHELS WHEAT**

International News Service.

KANSAS CITY, July 16.—The four states from which Kansas City market gets most of its wheat have produced 68 million bushels more this year than in 1923, an increase of more than 50 per cent, according to the government July forecast. This means that the gross income from this year's wheat crop in Kansas City territory will be 80 to 100 per cent more than last year.

## YOUTH SLAYERS DESERTED BY PARENTS

By United News.

CHICAGO, Ill., July 16.—Nathan Leopold, Jr., and Richard Loeb, the brilliant college youths whose confession of the brutal slaying of Robert Franks created a solution as mysterious as the crime itself had been, could improvise no paradoxes, no wise cracks, no verbal cocktails when they were informed Tuesday that the love of their parents for them had changed itself into a consuming fear.

The suave Leopold was showing newspaper reporters that one can be clever behind bars as well as behind bottles when told his father, Nathan Leopold, Sr., was an ordinary fellow who did not understand ivory towers on creatures who experimented with death. Leopold strutting in the bull pen of the county jail has just defined newspapers as "periscopes with which society sees the sores on its own back," when a reporter abruptly changed the subject to something that would make better copy.

"Mr. Darrow tells us that your family is actually afraid of you and that they don't want to see you get out of this," the reporter said casually flicking the ashes from his cigarette.

The cynical snuff on Leopold's nether lip fled from his expression. "He even went further than that," the reporter continued. "Mr. Darrow admitted that Mr. Leopold actually would fear for his own personal safety living with you."

Leopold who casually uses the phrase "I must say nothing on advice of counsel," regard his personal predicament recovered himself sufficiently to shuffle and grin ecstatically.

He refused to discuss the subject. He fell into silence and standing behind the bars of the darkened bull pen the "super-intellectual" struck unconsciously a sorry attitude—something unusual for him.

Clarence S. Darrow, chief counsel for the defense of Leopold and Loeb had revealed earlier Tuesday that the families and lawyers actually were afraid of the youths.

"Anyone who could commit such a crime," he said, "as the murder of Bobby Franks, might do it again."

Mr. Darrow then said he believed that a just for excitement led Leopold and Loeb to do up acts to which they so glibly confessed after their arrest.

"There was no other reason for the crime," the lawyer said, "They thought they could get away with something and they probably still believe they are going away with it. One thing did them up—something always does them up—moral imbecility."

Another defense alienist, making 13 in all, visited the youths at the jail—his help, perhaps, that Loeb and Leopold are what Darrow says they are—moral imbeciles.

## Forty Percent Of The Texas U. Students Self Sustaining

AUSTIN, Texas, July 16.—Forty six percent of the students of the University of Texas were either partially or entirely self-supporting last year and just as many expect to work their way through next term judging from the deluge of letters asking for work now being received by the University Y. M. C. A.

Statistics recently compiled by the Y. M. C. A. authorities show that 113 permanent jobs were secured thru that office for boys last year, earning for the boys employed \$15,025.40. In addition there were 580 jobs secured for 794 boys, earning for them \$3,567.30. These figures represent only a part of the work done by the students, however, for after the first year most boys are able to secure work for themselves, and in many cases have their own places for the next year secured when they go home in the spring. Many girls secure work through the Young Women's Christian Association and through their own initiative.

It is shown by statistics prepared by Registrar E. J. Mathews that there were 46 per cent of the students working while attending school and that of this proportion 22 per cent were partially self-supporting and 24 per cent were actually independent. Some, indeed, were even more than self-supporting and either assisted members of their families in school or helped to help home folks.

In spite of the encouraging number of students working their way through school, new students are not advised to come to the University without at least \$200 to enter school for themselves, and in many cases have their first month's room and board, to pay for books, and to pay matriculation expenses, and to support themselves until they are able to secure work. It is often advisable for students to get established and well into their university courses before they attempt to do outside work.

## Southwest Texas Will Produce Bumper Crops

By International News Service.

SAN ANTONIO, July 16.—Southwest Texas will produce bumper crops of cotton this year. A million bales, valued at over a hundred and twenty-five million, agricultural experts reported today after a careful survey of the conditions of the crops.

Miss Boulah Dixon left Wednesday morning for a few weeks visit with relatives and friends in Fort Worth, Dallas and other points in that part of the state.
