### The Mode of the Season

Six attractive models in kid, representing the newest and smartest in afternoon shoes, both formal and informal. The black kid pump in the upper left hand corner is appropriate for morning and informal afternoon wear with simple frocks. The shoe in the upper center is of silver kid, and suitable for the more elaborate evening gowns. The brown kid shoe to the right shows to advantage the smartness of the new lizard trim when combined with the softness of kid. Lower left, an Oriental gray kid shoe, simple of line and cut, indicating the change from intricate openwork. The white kid shoe, with the flower-petal cut-out, is appropriate for the light, dainty gowns of mid-summer, while the shoe at the right illustrates, once more, the effectiveness and smartness of black kid.

### Of Interest Society To Women

#### MISSSES WYNONA AND LEOTA GUEST ENTERTAIN

Misses Wynona and Leota Guest entertained a number of young people Thursday night with a dance at their home, 702 Denver street. ### ONE AMERICAN MACHINE IS WRECKED

HORNAFORD, ICELAND, Aug. 3.—Lieutenant Lowell H. Smith, Commander of the American round the world flight has arrived here from Kirkwall, Scotland.

KIRKWALL, SCOTLAND, Aug. 3.—Lieutenant Leigh Wade, American round the world flyer, has been picked up by the cruiser Richmond after being forced down into the sea at a point 115 miles north of Birsay. Wade left here on the 500 mile hop to Hornaford, Iceland, in company with Lt. Lowell Smith at 9:18 Sunday, to join Lt. Eric Nelson, This is one of the most northerly points in the Orkney Islands.

ON BOARD U. S. S. RICHMOND, KIRKWALL, SCOTLAND, Aug. 3.—"So long! See you in Iceland! Good luck!"

As these shouts from the blue-jackets of the Richmond were dimmed in their ears above the roar of their planes, Lt. Lowell and Leigh Wade of the American round the world flight expectation skimmed over the gas-like surface of Hutor bay and into the air on their 500 mile hop to Iceland.

The two fliers left in perfect weather. The sky was bright and cloudless and the sea was blue as the sky. The air jump to Hornaford where Smith and Wade were to join Lt. Eric Nelson, who arrived there Saturday after weaving through the fog which led his comrades to turn back when they lost track of him was begun at 9:18.

A great crowd was gathered at the beach and movie cameramen cranked rapidly as the two aviators scooted down the bay to the accompaniment of cheers and shrieking whistles from the Richmond. They spent several minutes talking about the bay to get "the feel" of their ships.

Once in the waters of Scapa Flow the airmen navigated most cautiously to avoid the tops of the German battleships sunk there during the greatest marine battle of the world war. These wrecks are bigly dangerous to shipping during low tide. Wade experienced some difficulty in rising from the sea smooth surface and taxied for near 40 minutes, but at 9:18 both planes were in the air. They were flying low with their aluminum engine hoods flashing in the sunshine, as they soared out of sight of Signal Hill.

Just before the two Americans took off, Smith received a wireless from Lt. Nelson: "I got into a wash and almost fell into a tailspin," Nelson reported, "but I came through all right under the fog. Hope to see you both Sunday."

Nelson added that he had passed great banks of fog. With the departure of Smith and Wade, the Richmond left for Reykjavik, leaving the rusty buoys used by the Americans for the use of Lt. Locatelli, the Italian aviator, who is flying from Pisa to New York.

By Otis Peabody Swift. ON BOARD U. S. S. RICHMOND, Enroute to Reykjavik, Iceland, Aug. 3.—A possible tragedy in the American round the world flight has been averted with the rescue of Lt. Leigh Wade from the icy waters of the North Atlantic through the efficient conveys of American airmen.

Meanwhile, Lt. Lowell Smith, commanding, has arrived in Iceland. Wade, who was forced down about 115 miles north of Birsay, in the Orkneys was rescued after spending more than five hours afloat. He was forced down at 10:56 Greenwich time and was rescued by the S. Destroyer, Billingsly at 4:05 Greenwich time.

His location when picked up was given as 69° 40' north longitude, 5° 28' west latitude. A trawler, according to wireless advices, has taken Wade aboard in the bay.

### NOTED PROFESSOR SAYS TO BE PATIENT WITH THE STUDENTS

AUSTIN, Texas, Aug. 3.—Miss Lillie M. Casis, professor of romance language in the University of Texas is possibly the only professor in that institution who has taught in every rank from student assistant to professor. Beginning as student assistant as a senior in 1894, she has been a tutor, instructor, adjunct professor, associate professor, and now a professor. Miss Casis mentioned these facts in explaining her attitude toward her work. She said that two years she served as dean of women were of invaluable help to her in understanding students. "It is very interesting," she said, "to observe the different ways in which students will work their way out of difficulties. I believe in advising with them and being patient. It is the personal contact with the students in class room and conference that gives me the greatest pleasure in my work."

### MARTIN GRAVES RUN DOWN BY CAR TODAY

Martin, the fourteen year old son of W. J. Graves of Lubbock, was painfully injured at eight o'clock this morning when he was run down by a Buick Automobile being driven by Hershel Hamilton, negro. The accident occurred at the southwest corner of the square on the east side of Avenue I in front of the A. B. Conley, Jr. Store. Eye witnesses declared that the rear wheel of the car passed over the boys body. He was rushed to the West Texas Hospital where an X-ray examination was made and it was found that no bones were broken, and that unless it develops that he was hurt more seriously internally than the examination reveals, he will be able to be about again soon. Martin is a messenger boy for the Western Union Company and together with another delivery boy was on the job when the accident occurred. He was riding his bicycle when it was struck by the bumper of the automobile, throwing him to the pavement beneath the car.

Pneumonia promises to be derived of its annual toll of 45,000 lives by the serum developed by Dr. Lloyd B. Feldon, of the Harvard Medical School. The substance is a white powder or antibody against pneumonia. It was discovered after five years of work following the influenza epidemic of 1918.

CHANGE OF LIFE Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful, and Got Well.

Altha, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of Route 2, this place, said: "I became so weakened it was an effort for me to get around. I knew what was the matter, but I felt like I couldn't give up. "I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling. "I would get depressed and out of heart. "I began to feel, after awhile, there was no use to try to get well. This is all wrong, for it makes person worse. "I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results. "I took one bottle (of Cardui), then I saw I wasn't so nervous, so I kept it up. "Gradually the nervousness left me. I began to eat and sleep better. Was soon well, and all right. Cardui did wonders for me, and I certainly do recommend it. "Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others. "Sold everywhere. Try it. NC-146

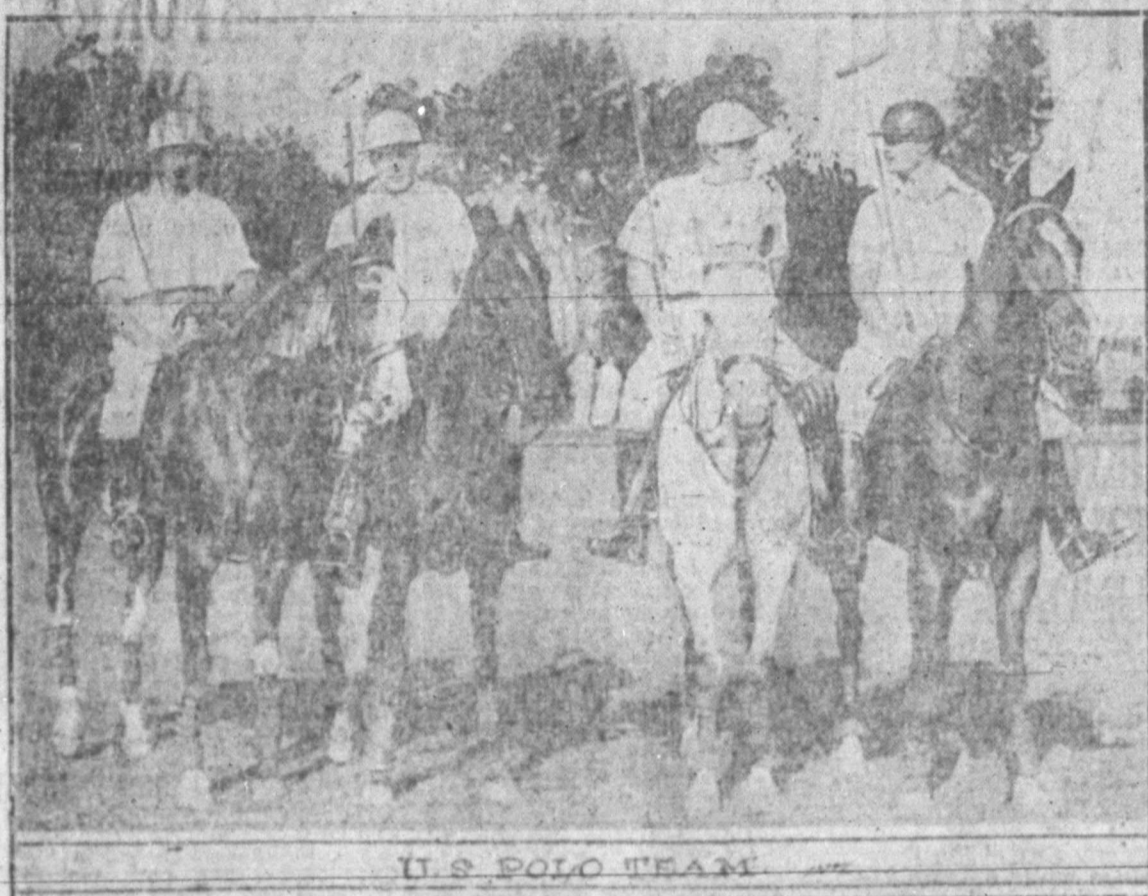

### LEOPOLD AND LOEB LOOB FORWARD TO DEATH ON THE GALLOWS AS A CURIOUS INTERESTING ADVENTURE

CHICAGO, Aug. 3.—Experimenters with human life, Nathan P. Leopold Jr., and Richard Loeb, look forward to death as a curious and interesting adventure, one that will enable them to make discoveries useful and enlightening to mankind. Both 19 year old intellectuals have confided to their chief counsel, Clarence S. Darrow, and to several friends, that they believe they will die on the gallows for the abduction and murder of 14 year old Robert Franks. So both are planning to try to pierce the veil that sequesters death from life after the hangman's noose has ended their existences. While states attorney Robert Crowe completed preparations late Sunday to fight the introduction of any more testimony by defense attorneys and demand a jury trial on an insanity plea, the two astonishing killers busied themselves calmly discussing with relatives and friends the keen interest with which they awaited death. Leopold declared that if he were sentenced to die by Justice John Caverly before whom the hearing to determine mitigating circumstances is being held, he would write ten of the world's greatest Riddle on pieces of paper, lock them in a strong box and attempt to answer those riddles after death. "If there really is anything beyond this life, I will try in some manner to tell those I leave behind of it by answering the questions locked in the box" the young killer said. Loeb has a scheme to prove the possibility of communication between those beyond the grave and those still living, as definite as that willing to play rather a passive role, of his colleague in crime. He is one in which he will cooperate with the youth who helped plan one of the most remarkable crimes in the annals of jurisprudence. If there is any existence beyond the grave in which definite personalities exist and move about freely, then it should be possible to communicate with those still on the earth Loeb reasons. He believes he and Leopold will be able to accomplish the experiment in a satisfactory and convincing manner by sheer superiority of intellect he told friends.

1 Per Cent 2 FARM LOANS THROUGH THE FEDERAL LAND BANK LOAN IS AMORTIZED—34 1-2 YEARS TO PAY IT OFF, OR AFTER 5 YEARS AT YOUR OPTION The system is working successfully and saving the farmers who borrow through this bank \$100 a year! ENJOY THESE BENEFITS: When you pay on an 8 per cent loan not Amortized—interest only—nothing on the principal at the end of 34 years you have paid \$8,280.00 in interest and you still owe \$3,000 the original amount of the principal. ON OUR PLAN: You have paid out at the end of 34 1/2 years only \$6,727.26 and you owe NOTHING. Maximum loan obtainable is \$25,000. Ranchers and farmers, who cultivate their land personally, by hired labor or on the halves, are eligible to borrow. SEE E. C. YOUNG, Secretary-Treasurer Lubbock National Farm Loan Association Citizens National Bank Building, Lubbock

PROBABLE U. S. TEAM THAT WILL DEFEND POLO CUP.

Above is shown the probable players for the American International Polo Team that will defend the cup from the British challengers in matches to be played on Long Island in September, attended by the Prince of Wales. Left to right are Doreen, riding an American polo player and captain of the team, Malcolm Stevenson, veteran poloist; "Tommy" Hitchcock, the youthful star who runs a close second to Hilburn, and Eric Pedley, the marvelous young California rider.

RUHR EVACUATION EXPECTED BE CENTER OF NEGOTIATIONS ON ARRIVAL OF GERMAN DELEGATES AT INTER-ALLIED MEETING

By United News. LONDON, Aug. 4.—Ten years to a day from that critical hour in 1914 when Great Britain declared war against Germany a committee of German statesmen are on their way to London to be admitted as equals in a conference which seeks to re-establish the peace of Europe.

of their relatives. They charged their neighbors, the physician declared. "It is clear that Leopold is intensely melodramatic," Dr. Healy said.

MCKINLEY FILES APPEAL FROM 6 YEARS TERM

By International News Service. AUSTIN, TEXAS, Aug. 4.—Convicted on the grounds that he encouraged murder, George McKinley today filed an appeal from a six-year term handed him in Teras county in connection with the brutal murder of Otis Ballard, eighteen, whose skull was crushed and his body weighted with irons, was thrown in a creek.

LIVING COST CAUSE WORLD TROUBLE BUTCHER SAYS

By United News. CHICAGO, Aug. 4.—Although the same idea undoubtedly has dominated the thinking of thousands, and thousands of other men, it remained for John T. Russell, of Chicago to come out publicly with the declaration that the high cost of living was the cause of all troubles in the world, and that if the woman in the kitchen did not buy her groceries with the same aggravating hesitancy that she bought her hats, there would not be any high cost of living.

MINE OPERATOR IS MADE PRINCIPAL IN BREACH SUIT

By United News. LOS ANGELES, Aug. 4.—Five days after he had met Ann Luther, motion picture actress, Jack White had loaned her \$16,000, the mining magnate declared Monday as Miss Luther's suit against him for \$100,000 because of an alleged breach of contract began.

SECOND RACE IS CLEVELAND MAN WARMING UP IN STATE

By United News. FORT WORTH, Aug. 4.—The runoff campaigns are slated to get underway this week. Several have made known their schedule of speaking dates. Felix Robertson will open his campaign at Wichita Falls Tuesday night. Mrs. Ferguson and Manager Jim, will appear Wednesday night at the Fair Park in Dallas.

CLEVELAND MAN FOUND DEAD IN EMPTY CAR

By United News. CLEVELAND, Aug. 4.—The body of a man with his jaw broken and his skull crushed was found in an empty box car that had arrived here from Detroit today. Money and a watch was found in his clothing that the motive for the murder was not robbery. A card on his person showed him to be an employee of the Ford Motor Co. He was killed in Detroit and his body put on the box car train bound for Cleveland, it is believed.

slave by a king. Some times he dreamed of being made a slave by a powerful girl. Although these fantasies the idea of suffering cropped out.

"This imaginary life developed early. Why, even last year his aunt noticed that he frequently would lay down and dream. He was having these peculiar fantasies during this period, he told me.

"These fantasies of both Leopold and Loeb had an enormous influence on their lives," Dr. Healy continued. "These normal fantasies of people are carried out in their effort to express their ambitions.

"Any boy who was good looking would appeal to Leopold, and he immediately would embody the boy in his dreams," the witness continued. "The boy would be eligible for the slave role in his fantasy.

"For this operation Leopold had dreamed of a special kind of a brand—a peculiar design, highly significant of abnormality in itself.

"Narrow at times questioned the witness. He asked him when Leopold's dreams first included Loeb as a component part of his fantasy or life," Dr. Healy said.

"About a year or so ago Leopold began weaving Loeb into his fantasy or life," Dr. Healy said. "He commented to regard him as wonderful as good looking, as a heroic figure, an ideal man. He knew none of these things to be true, but he imagined them to be fact.

"In this connection it is interesting to read an excerpt from a poem that Leopold sent me on a piece of paper only the other day in this court."

"Let me dream once. That I am yours, O heart's desire."

The United States could support population of nearly 3,000,000,000 with no greater relative dependence on other countries for food and raw material that we have today.

A population of that size would, however, have to go on a very different standard of living than we now have, and the productivity of the soil farms and forest land would have to be held at much higher level than at present.

## LABOR FOR LA FOLLETTE AND WHEELER

According to Matthew Woll, president of the Federation of Labor in an exclusive article to the United News under an Atlantic City, N. J. date line, says Labor is for La Follette and Wheeler officially and to the finish.

Labor repudiates what it holds to be the unrelieved reaction of the republican party and the slipshod evasiveness of the democratic party.

Mr. Mathews continues by saying that Labor's non-partisan policy stands as the guide. "We are partisan to men and measures, to principles, and to those who espouse them, but not to parties or political organizations. The report just adopted offers no comfort to third party proponents. We are not interested in any third party movement and all we hope for the two major existing parties at this time is the defeat of their presidential tickets. We have kept ourselves absolutely aloof, too, of minorities such as the socialist party. They may support Senator La Follette but they cannot involve us in their beliefs over his shoulder. Senator La Follette stands for certain great principles. We want those principles to be implanted in the heart of our government. We shall back Senator La Follette to the limit. Where candidates for congress are concerned, we shall support them also on their records. We shall support republicans, democrats and whoever may be regarded as true to the cause of the masses of the people. It is our belief that this campaign will be nearer a crusade than any political campaign our country has ever known in the last half century. We are going to do our best as our report indicates to clean the political house. The oil scandal was more than an oil scandal. It represented and still represents a state of affairs, a political creed and we have had enough of it. We found no promise of relief from that creed in the major platforms, and there was but one thing to do. We do it without hesitation, conscious that a great idea still lives among our people, the idea that right makes might.

The practical work of the campaign, will begin at once. We shall be able to send into the field more political speakers and workers than any other organization in America. We may not be able to collect millions in money, like the others, but we shall do them in the work of zealous volunteers. We shall easily spend a million dollars worth of volunteer work in this fight.

The next step will be to get the machinery to work to put our declaration into effect. This will mean getting local committees into action every where under guidance from the American Federation of Labor, getting speakers on the platform and getting literature into print. This we shall do as rapidly as possible, and we believe we shall do it with good effects. The issues are drawn. The fight is on. Labor like blue quail have a habit of staying together, until they are closely pursued, then they begin to scatter and the harder you pursue them the more they scatter, until finally you do not have more than one in a place.

La Follette flew the track of the old Republican party, and in doing so he hoped to carry enough of the disgruntled Republicans—wheat farmers etc.—the dissatisfied democrats and the labor vote. Just how well they will succeed, it is to be seen, but we are of the opinion that they will not get anywhere much by their efforts to tear down the walls of the republican fortress or destroy the democratic strongholds. They may be able to detract enough of votes from the republicans to land a democrat in the president's chair, but this is only possible and we hardly think probable.

## "MOBILIZATION DAY"

The War Department sponsors of the great celebration announced for September 12 have called "Mobilization Day." General Pershing has referred to it as "Defense Day." President Coolidge suggested that it ought rather to be called "Injunction Day." Whatever the proper term, something very big and impressive is in view, for it seems not only the National Guard and the military in general but the civil and industrial population are to be "called out" at the request of the War Department. All of which suggests mobilization on a very extensive scale, not of course for immediate war, but as a spectacular test of the nation's strength and preparedness for possible war.

It is only natural to wonder why this so-called military "gesture" is regarded as more appropriate and desirable now than it was last year or the year before. Is it because Great Britain saw fit recently to parade her vast fleet with much pomp and show? Is it because an American Vice Consul has been murdered by a mob of religious fanatics in bankrupt and feeble Persia, a country that has been moribund for centuries? Is it because Japan resents certain features of our immigration law and several of her citizens have made protest in the form of harikiri with a view to bring misfortune on the United States from the world of the so-called dead? Whether any of these seemingly insufficient reasons have or have not been concerned in our government's military strength, power and resources in general on September 12, that decision seems to be regarded by some as ominous and certainly it may be classed with the unexpected.

With England parading 194 modern vessels of

war, and the United States getting ready to make parade of her whole military power and resources in general, we can hardly wonder at the sinister suggestion that there is something behind the scenes not yet disclosed. If not, where are the results of that great disarmament conference of the nations in Washington? Was that also a mere "gesture" to meet the demands of a war-worn and war-hating world? Is it useless for the peoples to look to their governments in this connection, and is the League of Nations with its disarmament policy their only hope? The League, by the way, is to meet in September and is likely to join with the war-weary governments of Europe in viewing our mobilization day as an unpropitious sign.

It remains to be said, however, that under present conditions preparedness for war is a necessity, recognized by all except the doctrinaire pacifists. The way out has not yet been found, but cannot all needed preparedness be achieved without such parade and display as may encourage a not altogether desirable spirit at home and breed suspicion and fear abroad?

## STATE PRISONERS AND DEPENDENT CHILDREN.

The State of Ohio feeds, clothes, and shelters all occupants of its 23 prison institutions and supplies practically all the needs of the political divisions of the State through the operation of 22 industries that are a part of the State's penal system.

Under the law abolishing the convict system in the State, in 1911, the control and management of the state institutions were transferred to the Ohio Board of Administration. Subsequently there was established the manufacturing and sales department, the purpose of which is to furnish employment to prisoners. In order to finance this system the State Legislature appropriated \$305,000 from 1910 to 1914. The appropriation was made as a rotary fund. Mr. Harper, Director of Public Welfare, contends that sufficient attention has not been directed to the payment of a wage for labor performed commensurate with the needs of the prisoners' dependent families. It is his contention that compensation should be fixed at a rate that will allow worthy families to be cared for. The Legislature appropriated \$110,000 for the year ending June 30, 1923, for the payment of compensation to prisoners. From this appropriation \$107,613.95 was expended on a wage basis from one to five cents per hour. It is Director Harper's recommendation that an additional appropriation be made to provide for a maximum of 10 cents per hour for prisoners having dependents, or a compensation from five to 10 cents per hour, the amount paid to be determined by the number of dependents and their economic condition. When the State confiscates the time and labor of the breadwinner of a family for a term of months or years and neglects the dependent children, the State is creating more criminals than it corrects. California has solved this problem to a very great extent.

## "WHO'S WHO IN AMERICA."

Many Europeans of the immigrant type think wistfully of America not only because they hope to prosper here but because they are under the impression that there are no class distinctions and that all are "equal" under the Stars and Stripes. "Who's Who in America," the latest edition of which has just been published, could serve to modify such a view. Even in a political democracy education, occupation and superior abilities—to say nothing of wealth or ancestry—inevitably bring about division into groups more or less sharply defined. We have not merely the "society" circles in every community of size but the group drawn from the country as a whole includes the more than ordinarily successful in the various arts and professions.

The American "Who's Who" for 1924-1925 shows that out of a population of more than a hundred millions only 25,357 men and women have gained more than local distinction or notability through the achievements chronicled in their brief biographies. Still more restricted would be a list of the permanently notable or famous, for few of the names in the volume are as ephemeral as the official positions now occupied. It is significant that 70 per cent of the "eminent" persons in "Who's Who" were the sons and daughters of professional or business men, while less than 25 per cent were farmers' children, less than 1 per cent the children of unskilled laborers, and few whose parents were foreign born. In America, as in Europe, it is reserved for but a relatively small number to rise above the general level, and in this particular there is no such thing as equality.

## PUTTING THE SCREWS ON FRANCE.

The Dawes plan for settling the difficulties between France and Germany seems to representatives of both nations simply a jump from the frying pan into the fire. Germany wants and needs a loan of \$200,000,000. France wants and needs at least half of this loan which will be only about one per cent of the amount claimed. The American and English bankers who are asking such tremendous commissions that France is unable to see where she will get anything out of it all. In addition France is asked to surrender its reparations priority to lenders, give up guarantees that Germany will not misbehave again, admit that the Reparation Commission is not a sovereign body, but that the American arbitrator or a committee of neutrals is to decide everything, that the Ruhr Valley be evacuated, militarily as well as economically, that the Cologne district of the Rhineland be evacuated next year. In addition to this Germany will have some demands to make on its own part. The German industrial and railway bonds may or not be floated among the American people, but the banks don't propose to take long chances.

Some French politicians wonder with dismay whether they are not the victims of a great political and financial rump. Where do the French come in, they ask? They have not even been allowed to point out that if they are to receive nothing from Germany, they cannot pay their own debts to England and America. What is the counterpart of all these concessions proposed to France?

The result of the London Conference to date seems to indicate that, though France is reluctant to break up the conference, the French representatives may withdraw at any moment.

## FIRE FIGHTERS CLAIM CONTROL IN FOREST

SAN FRANCISCO, Calif., Aug. 3.—Fire fighters in various sections of California which are menaced by forest fires were reported Sunday to be winning their battle against the flames, despite generally high winds.

The Juincy blaze in the Plumas National preserve, which had endangered the town of Quincy, was reported to have "veered" with the wind but still out of alcohol, it was burning, away from the city.

A new fire in the vicinity of Eagle Lake, Lassen County, was said to be the most serious now burning. Six hundred and fifty men on the fire lines there, however, were expected to bring it under control soon.

Sixty additional men have been sent to the blaze on the Hutchinson timber company's land near Oroville which was said to be still out of control.

The Mount Tamplhas fire was reported to be out.

Officials of the Southern Pacific railroad company Sunday announced they would take an active part in the fight to prevent fires in mountainous regions near its lines.

Working in close cooperation with state and federal forestry officials fire trains will be maintained at strategic points the railroad officials said.

## ENGLAND GIVES UP WORLD RACE

McLAREN WRECKS PLANE IN NORTHERN PACIFIC AND GIVES UP

CORDOVA, Alaska, Aug. 4.—England has dropped out of the round the world air race.

Major A. S. N. McLaren has been defeated by the elements, and by bad luck in the Northern Pacific, and his plane is so badly damaged that he has abandoned the flight, according to radiograms, from McLaren himself to the United News Naval Radio Station here.

McLaren's big amphibian plane, in which the gallant British aviator had fought his way more than half the distance around the world, met disaster when alighting in a heavy fog on a choppy sea at Nikolai, in the Komandorski Islands, off Kamchatka.

The heavy fog, which settled suddenly along the route the British plane was following thickened on the flight from Petro Pavlovsk, Kamchatka to Nikolai, when McLaren was almost within sight of a cove where he could bring his plane safely to the water. His amphibian settled heavily, smashing the wing floats and tail under it and putting the plane completely out of commission.

## GIRL'S SLAYER IS SHOT TO DEATH BY POSSE

NEW ORLEANS, Aug. 4.—John Triploni shot and killed a fifteen year old girl yesterday was discovered barricaded in a house and shot to death by a posse who laid siege on him. Triploni killed the girl after assaulting her.

## BROTHERS KILLED BY LIGHTNING SUNDAY

REMEDIJ, Minn., Aug. 4.—Lloyd Nelson, 12 and his brother, Elmer, 6 were struck by lightning and killed and a third brother, Clifford, 13, sustained serious injuries from the same bolt during a severe electrical storm here.

When the storm started the three boys took refuge under a tree. After the storm their mother went to look for them, and found them on the ground. Clifford was removed to a hospital.

## CALIFORNIA HAS HIGHEST PRO-RATA OF OLD FOLKS

SACRAMENTO, Calif., Aug. 4.—With 26.1 per cent of the state population over 45 years of age, California has a higher pro-rata of old people than any other state in the union, according to statistics just disclosed by the state bureau of statistics. Georgia with 16 per cent of her residents over 45 is at the bottom of the list, the figures show.

## REVIVAL MEETING STARTS SUNDAY AT MONROE SCHOOL

Brooks Stoll, evangelist for the Church of Christ, will begin a revival meeting at the Monroe School Sunday morning, according to an announcement made here Monday by S. A. Graham of that community.

The evangelist is said to be an able and forceful preacher, and much is expected of him in that community as the laymen of that church will assist him in every possible way.

## RICHARD TALMADGE IS SERIOUSLY INJURED

HOLLYWOOD, Calif., Aug. 4.—Richard Talmadge, movie stunt actor, was seriously injured Monday during the course of one of a number of scenes before the camera.

The action called for a flying leap into a swimming automobile. Talmadge made a jump but was unconscious when the car came to a standstill. Hospital reports said that he had fractured several vertebrae.

## ADOUE RETAINS CHAMPIONSHIP IN TENNIS

DALLAS, Aug. 4.—J. B. Adoue, jr., of Dallas, stood today the renewed champion in the southwestern tournament, defeating Bradley Hogue of Dallas, winning three of the five sets played.

## BUMPER COTTON YIELD EXPECTED IN OKLAHOMA

OKLAHOMA CITY, Okla., Aug. 4.—Oklahoma's prospects for a bumper cotton yield have never been better, according to C. D. Carter, state agricultural statistician. According to present indications, the yield may reach 1,122,000 bales.

## WHICH?

By MORRIS.

The other day I heard a boy squawking down the street. He had a pair of lousy shoes upon his lousy feet; With every step he squeaked a squawk so wonderfully true—The whole world, hearing understood those Sunday shoes were new; The thoughtless smiled to hear that sound and chuckled soft and low. But I recalled an incident which happened long ago.

Once when I was a little boy, not more than twelve years old, My father took me to a store where sturdy shoes were sold; He chose a pair which laced with hooks and had a loop behind. A neat device to draw them on, now out of style and mind—"These are your Sunday shoes," said he, "Now keep them looking neat." You'll wear them when you go to church, but not to run the street.

Our pew was third row from the front; the long and stately aisle seemed like a narrow avenue that stretched for half a mile. That Sunday when our group arrived, just twenty minutes late,

Father set out to reach the pew, erect, and stiff and straight; Mother, as noble as a queen, my sister and brothers next. And then I entered just as Parson Brown announced his text.

Squawk went my right foot, squawk the left, together both feet squawked; I filled that church with squeaking tones with every step I walked; The congregation turned to see just what 'twas all about. The parson stopped to watch me come, for I had squawked him out; With squeak and squawk I kept right on until I'd reached our pew. And everybody in the church had guessed my shoes were new.

And so I smiled to hear that boy go squeaking down the street. For back to me there came the time I thought such music sweet; Once more I saw that long church aisle and patient Parson Brown Who stood in silence watching me as I came squeaking down; I think I felt the old time flush of pride upon my cheek. When I drew some attention, too, and did it with a squeak.

(Copyrighted 1924, by Edgar A. Guest)

her of scenes before the camera. The action called for a flying leap into a swimming automobile. Talmadge made a jump but was unconscious when the car came to a standstill. Hospital reports said that he had fractured several vertebrae.

## HUSBAND REFUSED SALARY, WOMAN FILES DIVORCE

SALENA, Kas., Aug. 4.—Mrs. Earl W. Callabress filed suit for divorce against her husband here Monday because he refused to pay her \$4 a day, the same as he paid his farm hands.

In her petition, Mrs. Callabress declared that she did all the cooking for the hands, and believed she was entitled to some compensation. Her husband thought differently, and she filed suit.

A fire in the Arapahoe National Forest in Colorado started from a camp fire left smoldering by careless motorists and burned 2,500 acres of excellent pine timber in a little more than three hours. This rapid destruction took place despite the fact that officers of the Forest Service, with a force of 250 men began fighting the fire almost as soon as it started.

Six of the fourteen provinces of Argentina have already adopted eight-hour day legislation.

# SPORT NEWS

## NINTH INNING RALLY BY LAMESA SUNDAY GIVES BERRY 2 TO 0 SHUT-OUT EXHIBITION OVER TERRY IN PRETTY PITCHERS' BATTLE

Terry again met Berry here Sunday afternoon at the Merrill park, and in one of the prettiest pitchers' battles seen on the local lot this season, Berry for Lamesa emerged the victor in a shut-out count of 2 to 0, against the local amateurs. Terry however, held the visiting lads to five hits, while his team mates were gathering seven well scattered bingles from the offerings of Berry. Three successive singles in the ninth, preceded by a free pass, the only one allowed by Terry during the exhibition, chased two Lamesa men across the rubber for the only count during the afternoon.

The exhibition, presided over by Jimmy Doyle, former Texas League arbiter, was fast and snappy, and with but one exception not a ripple marred the stilly waters of the fray. This was occasioned when a Lamesa fan allowed his ire or something worse to take precedence over his better judgement, but he was soon quieted with no-one the worse off.

Fans were kept on their seats for the entire time, with one exception, then the other passing up opportunities that might have gone for runs, but on these occasions pitch-line would tighten, and the coveted home plate could not be reached.

In the second the local lads brushed through one of these seiges without a run, having three men on bases with only one out. Jones lead off with a single, and took second on a wild pitch. DeLong reached first when Lane dropped his fly, and stole second; Wright went out pitcher to first; Baker then was hit filling the bases, and in a mix-up when he tried to reach second, forced Jones out at the plate, for the second out. The skipper went out third to first.

In the eighth inning, Berry, seemingly getting stronger as the game progressed, struck out three men in succession. In the ninth, after Lamesa had gained two points on them, the lads called weakly, but could not muster the necessary hits. With one out, Jones singled, and DeLong singled; Wright struck out, and DeLong was forced at second when the skipper bounded a near hit to this section for the third out. Jones had a hitting for the day with two singles and a double out of four trips. Wells, with Lamesa hit two for four.

The box score:

Lamesa	AB	R	H	O	A	E
White, rf.	4	0	0	0	0	0
Wells, 2b.	3	0	0	2	4	1
R. Lane, c.	4	0	0	1	1	1
G. White, ss.	3	1	0	3	1	1
O. Smith, 3b.	4	1	1	1	2	0
F. Smith, lb.	3	0	1	1	0	0
Wells, cf.	4	0	2	1	0	0
Fandal, cf.	4	0	0	1	0	0
Berry, p.	4	0	0	3	0	0
Terry, p.	2	0	0	3	2	0
Totals	32	2	5	27	12	2

Score by innings:  
Lamesa..... 000 000 002-2  
Lubbock..... 000 000 000-0  
Summary: Two base hits Jones; bases on balls off Terry 1; Berry 1; Struck out by Terry 3; Berry 10; hit by pitcher Terry (U. Lane); Berry (Baker); wild pitches Berry 1; stolen bases Jackson, DeLong, E. Smith, Wells; sacrifice hits E. Smith; double plays U. Lane to G. White to E. Smith; time of game 1:55; umpire Jimmy Doyle.

## WOMAN CHAMPION HANGS UP LOW TO QUALIFY

LAKE FOREST, Ill., Aug. 4.—Miss Edith Cummings, national woman golf champion, splashed her way around the Onwentsia Club course on Sunday and emerged with the low score of the qualifying round for the women's western golf association tournament. The tournament will start Tuesday morning.

Miss Cummings made an 84. As something akin to the Johnstown flood hit the course shortly before play started, some of the scores went well into three figures.

Miss Miriam Burns, of Kansas City, the defending association champion and Mrs. E. E. Harwood, of Chicago, were the first off. Miss Bernice Wall, of Oshkosh, Wisconson, state champion, Mrs. Lee Mida, of Chicago, and Mrs. Fred Letts, of Chicago, tied for second place with 88 each.

Mrs. David Gaut, of Memphis, was third with 84 and Mrs. J. W. Taylor, of Evanston, was fourth with 90.

## AMARILLO TO MEET LOCAL AMATEURS HERE SUNDAY

The Amarillo hard nine will be here next Sunday for a tie-up with the locals, said a message received by Skipper Allen Monday evening, and according to the message, they are coming strong.

This exhibition will be an attempted relation for the drubbing given the Gasser City boys on their own home lot two or three weeks ago when the South Plains representatives appeared here.

"We are coming with the strongest team the north plains affords," the message received by the skipper read in part.

## BILL TILDEN TAKES TENNIS SINGLES IN GAME LAST SUNDAY

LOS ANGELES, Calif., Aug. 4.—Bill Tilden national singles champion defeated Al Chapin, Jr., of Boston in the final of the Southern California tennis championships Sunday. The match went four sets 3-6, 6-4, 8-6, 6-1.

Tilden was off his game in the first set, driving repeatedly into the net. After holding the championship in the second set, Chapin lapsed in his play and Tilden ran out the set. Tilden's return to form enabled him to take the third set after Chapin was leading, 5-3, and then to run out the final set in fast time.

## BOY KILLED BY BLOW WHILE BOXING

IREDELL, Texas, Aug. 4.—Brook Schenck was killed in a friendly boxing match here with his best friend Homer Sims. Both boys were twenty years of age. Schenck suffered concussion of the brain from a blow behind the ear.

## FIRPO ONE OF HARDEST FIGHTERS OF AGE AND INSISTS ON TRAINING IN HIS OWN WAY FOR BOUT WITH WILLS ON SEPT. 11TH

BY WESTBROOK PEGLER, United News Staff Correspondent  
NEW YORK, August 4.—Luis Angel Firpo, one of the richest boxers in the world and the worst is determined to get richer and worse. It will be comparatively easy for Luis to realize the first of these two desires because he makes money in large portions by little effort.

But imagination has its limits and it is not easy to picture a worse boxer than Luis Angel is today.

However, he is a very determined man and it would be bold statement to say that any one with the genius to become as amazingly unskilled as Luis Angel Firpo, is capable of making himself just a wee bit more awful. He certainly is going about it in the right way.

It was when Luis was preparing for his rough evening with Jack Dempsey last fall, that he decided to be the worst boxer of all time. Tex Rickard had suggested that he try to improve his boxing and recommended young Fitzsimmons as a sparring partner who could help him in this way. Luis Angel reluctantly welcomed young Bob to his reservation in Atlantic City and spent a few days fielding jabs with his nose.

It was like trying to teach Battering Siki to use a fork. Every time Luis Angel moved he was pricked on some tender spot by a sharp jab from the son of the old Cornish blacksmith. At last Luis gnawed the glove lace off his wrists, tossed the mitts through the ropes and said:

"Tomorrow I train my own way. I will not learn to box. When I box I get hit. When I fight I do the hitting."

At Saratoga where Firpo is indulging in what he calls his training for the fight with Harry Wills on Sept. 11, his preparation consists mainly of booting a soccer football over the lawn which slopes down to the lakeshore.

He also goes away up the hills accompanied by one of his countrymen on hikes which are known as roadwork. The theory is that Firpo runs when on the road and when he comes in wheezing like a yard engine after these jaunts to report that he has run seven miles over hill and dale, every one takes his word for it because no one takes the trouble to go along with him and check up on him.

The probability is, however, that Luis Angel finds the comfortable shade of some large tree about a mile from the hotel and does most of his roadwork on his shoulder blades for that is the indolent nature of the hombre.

Soccer football with his street clothes on, including the celluloid color, little strolls over the Adirondacks, ten minute romps on the lawn for the benefit of the camera-men and even shorter assaults on the ponderous heavy bag do not constitute a program which can menace Luis Angel's title as the worlds worst boxer. He is in no danger of improving. He might possibly grow worse with age.

It may be recalled that the doctors of the boxing commission found fault with Luis Angel's physical make up when they examined him just before the Dempsey fight. His eyes were not the best and one seems to recall that they found something slightly wrong with his heart. At any rate, he was not the man that Dempsey was and the surgeons told him so, a revelation which Firpo later exploited in Buenos Aires in one of his many explanations of the great defeat.

This was after Dempsey had found the Saratoga quarters an unhealthy place in which to train. Now Firpo has gone to the same quarters because there are crowds handy and the place has facilities for collecting training camp gate receipts.

On the whole, Luis Angel is consistent. He has abjured scientific training. He wants none of the

## GIANTS CONCEDED NEAR CINCH IN NATIONAL

By United News  
With almost two-thirds of the season's business disposed of, the New York Giants are so far in front on the main body of the National League that only an epidemic of corns can prevent them from walking to their fourth consecutive league championship. The Giants divided a pair of games with the Cubs in New York Monday. They won the first 5 to 1, with Jack Bentley pitching for them. The Cubs took the other 5 to 2. The loss of one game is important to some ball clubs but is trifling to the Giants now. They enter the last lap of the season with a lead of about seven full games, and the real race of the league is a race for second and third place. For two seasons, the Pirates thought they had second money won but each time they dropped off in the last drive of the schedule and were posed out of second place. They are fighting hard this year and have dislodged the Cubs from second place for the time being at least. The Pirates won Monday's game with the Dodgers in Brooklyn, 5 to 3. The Cincinnati Reds are the outstanding disappointment of the year in the National League remain a first division outfit apparently it is not in them to make a fight for the pennant. They beat the Phillies in Philadelphia six to three. The Cards of St. Louis whipped the discouraged and disillusioned Braves in Boston 4 to 1.

The Yankees and Tiger battled fiercely for the lead in the American league in a game on the Detroit lot which finally went to the Yankees after 11 innings. The score was 9 to 8.

The Yankees were on the short end of a 7 to 4 score when they had a convulsion in the eighth inning, hammering out four runs. The Ti-

gers evened it with one more in the 9th and they went into extra sessions with the day's lead as the prize.

The Washington club in third place, neglected a chance to close in on the Tigers and Yanks. The Senators lost to the Browns 5 to 1. Rain stopped the White Sox, and Athletics in Chicago scoring 0 to 0 in the fourth.

The Indians massacred the Red Sox 14 to 5 in Cleveland.

## FRANCE TO COMPETE FOR TENNIS BELT IN AMERICA

By United News  
NEW YORK, Aug. 4.—The American Tennis season which has been rather dull in comparison with the major events on foreign courts, will produce a series of big events in the next few weeks as the national championships are fought out again in various divisions of the game.

The French tennis federation, evidently with full confidence that France will win the European preliminary round of the Davis cup matches, has decided to send two doubles teams to the national men's doubles tournament at Boston, starting August 18. It is assumed that France will include these players in her Davis cup team and the United States Lawn Tennis Association understands that the doubles teams will be composed of Cochet, Brugnon, Borotra, and Lacoste.

The same players will also enter the men's singles championship in which a grand collection of scrappers will attack William T. Tilden for his title.

- INTERNATIONAL LEAGUE
- Syracuse 5-2; Newark 4-0.
- Rochester 5-3; Toronto 10-2.
- Buffalo 3; Baltimore 6.
- THREE I LEAGUE
- Danville 7; Decatur 1.
- Peoria 7; Bloomington 0.
- Evansville 12; Terre Haute 3.

**A better pipe tobacco**

**Why better?**  
"Wellman's Method"

**famous old-time Secret, now ours -exclusively**

**Certainly rounds tobacco out!**

**Cut just right, too (See below)**

**In foil, not tin -therefore 10¢**

**Granger Rough Cut**

**A Pointer on Tobacco—**  
The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Granger is "rough cut" to smoke slow and cool - not for pipe, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

### Calvin Coolidge Began Public Life As Obscure Councilman, Reaching High Office After Active Service

A biographer has said of President Coolidge:

"The story of Calvin Coolidge is an amazing story, none more so. A red-haired, freckled boy on a plain farm, who was not a leader even among the boys of a small Vermont village, has become President of the United States. He always kept on going, from the farm, on the farm, up and on and always. His is a story for every father and mother and child, a story of responsibilities for the first, and of opportunity for the last."

As a struggling young lawyer in the city of Northampton, Mass., this man who was destined to greatness first became interested in public ser-

vice and in 1899 he was elected to his first office—city councilman, without a salary.

Successively he has been chosen for eleven additional public offices since that time, a record of twenty-five years of unselfish and able administration. He was the city solicitor of Northampton in 1900 and 1901 and his subsequent offices follow:

Clerk of the Courts, Northampton, 1902.

Chairman Northampton City Committee, 1904.

State representative, 1907-08.

Mayor of Northampton, 1910-11.

State Senator, 1912-15.

President of State Senate, 1914-15.

Lieutenant Governor, 1916-18.

Governor, 1919-20.

Vice-President of the United States, 1921-23.

President, 1923.

By being "as quick to stand by the weak when they are right as to leave power when it is wrong," President Coolidge throughout his public career has marked his various administrations with an unquestioned stability.

Momentous decisions have been his to make. He has made them, often under severest criticism, conscious of justice and sympathy. His thought always has been, as R. M. Washburn, a former colleague declared: "for the long, the permanent good and not for the demand of the present."

In each of his trusts he has kept the faith with those who believed in him—the plain people.

### BAPTISTS REPORT ON MONEY DISTRIBUTED

DETAILED STATEMENT AS TO WHERE 75 MILLION CAMPAIGN COLLECTIONS HAVE GONE IS ISSUED

### USE DISTRICT ASSOCIATIONS

Agency Nearest Local Churches Will Be Employed in Bringing About Fuller Development in Future Program

DR. C. E. BURTS  
General Director, 1923 Program, Southern Baptists.

Indicating the objects to which the money collected on the Baptist 75 Million Campaign goes, the headquarters of that movement in Nashville has issued the following statement of the distribution of the \$55,772,542, representing the revised figures on the sum collected on that movement up to May 1, 1924: Foreign missions \$9,898,820.20; home missions \$5,757,820.09; state and associational missions \$9,093,749.27; Christian education \$14,849,043.57; orphans \$4,464,985.57; ministerial relief \$1,570,355.94; expenses and fixed charges not otherwise absorbed \$2,021,608.56; special credits and miscellaneous items \$1,580,990.47; purchase and operation of state denominational papers \$62,200.35; foreign relief \$67,602.16; undistributed balance \$152,230.77; Home Mission Board special \$15,349; Foreign Board special \$26,103; raised by churches on foreign fields and expended by them in work there \$1,003,390.68.

### All Work Goes Forward

Every department of the general missionary, educational and benevolent work fostered by Southern Baptists has been greatly enlarged and strengthened by the campaign. It is reported, while a suggestion of the development that has come in the activities and liberality of the local churches as a result of the forward movement is furnished in the following statement of progress along general lines, furnished by the headquarters office:

Comparing the growth of the denomination during the five years preceding the Campaign with the five years since that program was projected it is shown that during the last five years the following advances were recorded over the previous corresponding period: 1562 more new churches organized, a gain of 22 per cent; 241,966 more new members gained, an advance of 66 per cent; 209,692 more baptisms administered, a gain of 27 per cent; 1,663 more Sunday schools organized, a gain of 118 per cent; 354,727 more new Sunday school pupils enrolled, a gain of 123 per cent; \$35,088,970.82 more reported in gifts to missions and benevolence, a gain of 187 per cent; \$51,153,872.83 more noted in gifts to local church purposes, a gain of 95 per cent; \$84,417,361.55 more reported in gifts to all causes, a gain of 117 per cent; and \$57,147,004 advance shown in the value of local church property, a gain of 81 per cent.

### Complete Collections Now

In the hope of completing the collection of all Campaign subscriptions by the close of this year and securing cash offerings from those Baptists who did not subscribe to the five-year program an intensive effort during the remainder of the summer and fall will be waged throughout the South under the general leadership of Dr. L. R. Scarborough, general director, with the co-operation of the various state mission offices and the officers and workers in the nearly 1,600 district associations. It is planned that the interests of the denomination shall be adequately set forth at all of these associations in their annual meetings in the hope that the delegates to the associations will in turn carry the message back to their local churches and secure the co-operation of these churches in fully completing the Campaign program so as to clear the way for the next forward program, beginning January 1, 1925.

Dr. C. E. Burts, former general secretary of the Baptist work in South Carolina, has assumed his duties as general director of the 1925 program and announces that he believes the program for next year can be most successfully launched by the satisfactory completion of the 75 Million Campaign during the remaining months of 1924. While making his plans for the projection of the new program, he is co-operating fully with Dr. Scarborough in the completion of the old one.

King Alfonso of Spain, who is corporal in the Italian Fascist, is the only reigning sovereign who holds such rank in the irregular

### COLLEGE & SCHOOL LABORATORIES AID OFFICERS ESTABLISHING PROOF INTOXICANTS IN BOOTLEGGING CASES

By Eric G. Schroder  
DENTON, TEXAS, Aug. 3.—A water immersion refractometer, a fractional column, and a condenser in the laboratory of the College of Industrial Arts have put tight hold, bad men of the Lone Star State behind the bars within the past seven months. The new Sherlock Holmes who manipulates the delicate apparatus is Dr. W. H. Clark, professor of chemistry and withal an unassuming quiet individual, whose well-trained hands have repeatedly borne out the suspicions of the well-trained olfactory organs of sheriffs' force.

When a catch of mash is discovered in Denton County, it is immediately brought to the spectacled man at the College on the hill who spends the greater part of his working hours showing 1700 girls why H. joined to O, makes C. The serious-faced man immediately works out a formula which proves that prisoner plus mash means jail.

He dilutes 100 cubic centimeters of the mash with 50 cubic centimeters of water, and neutralizes any acid that may be present. The mixture is then placed in a glass still, and 95 cubic centimeters of water are evaporated. Alcohol, which has a lower boiling point than water, naturally is distilled first.

To this distillation, or 95 per cent, 5 cubic centimeters of water are added. Professor Clark now proceeds to determine the specific gravity as well as the refractive index of the connection, and once they are found, government tables will tell him at a glance the amount of alcohol that is present. He has never found less than between two and three per cent of alcohol in his testings, and the amount has run sometimes to nearly 10 per cent.

The booze which is examined often contains poisons far more deadly than grain alcohol. Propyl alcohol, butyl alcohol, and amyl alcohol, which comes from the protein in the grain, and combined, make fusel oil alcohol, are usually in evidence. Green whiskey, according to the chemist, fairly reeks with these destructive agencies, and only the old process of ageing liquors in bonded warehouses is satisfactory in eliminating them. Although the process could be carried out chemically the cost would be excessive.

So—'tis a bad year for the bad men of Denton County. The old combination of "Tinker to Evers to Chance" had not a thing on the modern "Bootlegger to Clark to Jail."

### Conley Brothers Are Off for Eastern Markets

Elmer and Ernest Conley, of the A. B. Conley, Jr., store, left Saturday night for Saint Louis, Chicago and New York, to buy fall and winter goods for that popular store. They will be gone two or three weeks, according to statements made at the store, Monday.

### HONDURAS IS IN THE THROES OF REVOLT

NEW ORLEANS, Aug. 4.—Confirmation of the report that Honduras is in the throes of another revolution was received here today. It is reported that Marcos DeColon was attacked by 400 rebels, many of whom were killed or wounded in a battle that retired the insurgents.

The Springfield Republican says Candidate Davis' sojourn in New England is receiving "as much attention as if he were president," and refers to an article in the Boston Transcript which speaks of his Islesboro retreat as a "White House potential." Naturally Mr. Davis would prefer a "White House actual."

The brain of an ant is about the size of the head of a darning needle. These insects live from eight to ten years as a general rule, although specimens in captivity have been known to reach the age of fifteen.

Old York and New York have been linked together by the unveiling of a tablet in the ancient city by the younger municipality, the Duke of York performing the ceremony.

Mail bags are now picked up by airplanes in full flight by means of a hook which seizes a rope to which the bags are attached.

### SONS OF MULTI-MILLIONAIRES FACE CHARGES IN CHICAGO AS A RESULT OF AN EXCITEMENT SEEKING SPREE

By United News.  
CHICAGO, August 3.—Wine befuddled brains, a bad aim and darkness—these are all that prevented two young sons of Chicago multi-millionaires who engaged in a gun fight with police after an exciting automobile chase on the south side, from being charged with murder Sunday. Like Richard Loeb and Nathan F. Leopold, Jr., these two boys, Robert F. Carey, 19, University graduate and son of Thomas Carey, millionaire brick manufacturer and Bernard McMahon 20, son of P. J. McHon, millionaire real estate owner and political leader, started out for excitement. Early Sunday they were under bonds totalling \$12,000 after having found more excitement than they had anticipated and after they had led squads of police a chase over most of the principle boulevards on the southside. South Park policeman Frank McGovern was taken to the Chicago hospital with a bullet in his

left ankle, the result of an exchange of shots between the youths and police.

South Park Policeman Edwards received severe injuries when he was forced to leap from his motorcycle to avoid a collision while pursuing the youths.

Carey is charged with assault with a deadly weapon, with intent to kill, speeding, driving while intoxicated and disorderly conduct. Meahon is charged with disorderly conduct.

The disturbance started at Michigan avenue and 36th street when the two boys drove a big touring car by Lt. Wm. Collins and his squad from the detective bureau. Because of the high speed of the passing car Collins thought bandits were in it and he started chase. At 37th street two more policemen joined on motorcycles. The speeding automobile turned off Michigan avenue at 37th, rounding the corner on two wheels, and sped away at a speed the police said exceeded 60 miles an

hour at Grand Boulevard, after narrowly missing many automobiles and pedestrians, Carey and Meahon turned their vehicle south and finally ran into an alley some blocks from Grand Boulevard. There they fired two shots and McGovern fired two shots.

Then Marks saw a wall looming up and realized they had been led into a blind street, he and McGovern jumped off their motorcycles, as "the car ahead of the came to a quick stop."

One of the occupants of the car, the police charged, jumped out, fired three shots at them and burst away. McGovern fell wounded. Then other policemen arrived. They found McMahon in the automobile. He said he had not been driving and denied he fired a revolver.

A few minutes later Carey staggered out of the darkness clad only in his underwear. He refused to tell what had become of his clothing. At first he denied knowing anything of the chase, but later he eagerly gave a rather boastful description of the whole affair. The youths told the police they had been imbibing "lots of red wine" in southside cabarets.

### A MEXICO LAND OWNER SHOT TO DEATH

MEXICO CITY, (Aug. 3.—Mrs. Rosalie Evans, whose fight to regain lands she claims had been agitated with the Cummings case a few weeks ago has been shot to death, by assassins who escaped.

Mrs. Evans, a British subject, was ambushed while driving in an automobile with her hacienda manager Saturday night.

She was instantly killed and her manager was badly wounded.

The United States embassy is investigating the murder.

### BANDITS ATTEMPT EXPRESS OFFICE ROBBERY

NEW YORK, Aug. 4.—One bandit is wounded and six are captured, while three escaped today after a gun battle with twelve detectives who frustrated the robbery of the American Express office. There was almost a fortune saved in real currency. The detectives clubbed six of the men to unconsciousness.

### METHODISTS ARE HOLDING REVIVAL MEETING AT LITTLEFIELD

(Special to Lubbock Daily News.)  
LITTLEFIELD, Aug 4.—Much interest has been shown in the revival meeting that is being conducted at the First Methodist church here by Rev. H. C. Gordon, pastor of the church at Post City.

The meetings are being held at a tabernacle erected for temporary use during the revival.

A number of additions have been made to the church during the course of the meeting.

A drove of "floating islands" was recently encountered by a steamer off the coast of Borneo. The largest was about seven acres in area, and contained palm trees more than a hundred feet high.

### CHIEF FIGURES IN NEWS OF THE DAY.

Pietro Mascagni, famous composer of *Lavateria Rusticana*, announced in his Budapest home he had a contract to appear in America, but that he would not do so. "New York has money, but no conception of artistic things," he declared when asked to change his New York program.

U. S. Senator David L. Walsh, of Massachusetts, has been on a tour of inspection by "labor," the official publication of the Progressive Party and of the railroad labor unions. Under Foreign Secretary Arthur Ponsonby has announced in the British House of Commons that he has notified Japan and the United States that England will consider alteration of battleships for division of guns as a breach of the 1906 naval pact.

Prince Wilhelm, eldest son and heir of the German Emperor, has gone to work as a clerk with

## Hupmobile

Clutch Release Bearing—This is an annular ball bearing of chrome nickel steel—the material used in all Hupmobile bearings of roller, taper and annular type. It is encased in a dust-proof housing and provided with a grease valve for positive pressure lubrication, in addition to self lubrication from the transmission through a drilled hole in the clutch gear shaft.

### Look at a Car From the Inside

Heretofore it has been almost impossible to consider a motor car that way. Hupmobile now enables you to do so.

Learn what enables the Hupmobile to stand up so long at phenomenally low costs—and you will know what to demand in any motor car.

To that end we show in our salesroom a Parts Display which reveals, at a glance, what good construction is, contrasted with ordinary practice.

Come in and see it—and you will then be sure to buy your next car with your eyes wide open.

Dealer Wanted for this territory.

## E. LEE BROWN'S CONDITION IS UNCHANGED

E. Lee Brown local agent for the Magnolia Petroleum Company who was seriously injured when a car in which he was riding turned over on the highway near Littlefield last Friday, is unchanged but physicians believe he will recover. Brown, according to the physicians, is suffering from concussion of the brain and spinal column and until the inflammation has been cleared away from the base of the skull where it was fractured, very little change can be seen in his condition. He is unconscious at times, but this is not considered serious as his condition is not unusual for one suffering from such injuries. Mrs. Brown arrived Sunday from Fort Worth where she has been for the past several weeks and is now at the bedside of her husband. McKensie, of Amarillo, who too was injured in the accident, is resting well and should be expected to

## CAMPAIGN FOR FULL VOTING STRENGTH UNDER WAY

**CHICAGO, Aug. 4.**—A vigorous campaign to get all voters to vote in the fall elections is being planned by all the Kiwanis clubs of the country, in accordance with policies which have been adopted by Kiwanis International at a meeting just concluded here. In 1896, 80 per cent of all those eligible voted in the presidential elections; in 1900, 73 per cent voted; in 1904 the percentage decreased to 66 per cent; in 1912 there was a further decrease to 62 per cent; and in 1920 less than 50 per cent of the voters exercised their franchise. "This campaign," said Victor M. Johnson, newly elected president of Kiwanis International, "will be to urge all citizens to express their views on the entire people, and not less than half of them. A continuation of the present low voting percentage would certainly lead to the impracticabilities and danger of a radical minority. The work of the clubs will be part of our general campaign to promote an intelligent, aggressive and servicable citizenship. There is no partisanship in this campaign, and no fund is being raised to carry it on. Members of each of the 1250 Kiwanis clubs will work in their communities, purely on a basis of developing this much needed citizenship."

## BROTHER OF D. F. STATEN ON VISIT IN LUBBOCK

E. B. Staten, of Reading, Mass., arrived in Lubbock Saturday and will remain here several days looking after the property of late D. F. Staten, who committed suicide by shooting himself with a pistol at his room in the Wilson Rooming house here July 16th at eight o'clock in the morning. Mr. Staten declared that without a deranged mental condition was the cause of his brother's rash act. He is unable to give any cause for it. He stated that their mother died when D. F. was only two months old, but that after that time their father married again and the home circle was kept as best as possible, until about twenty-five years ago D. F. left home and since that time had little or no association with the other members of the family. Their father died on November 11, 1922, and at that time D. F. could not be located and could not be notified of his father's death. Very little or nothing of the life of his brother during the past fifteen years is known to E. B. Staten, other than that he was a master builder who enjoyed some degree of success in his work and had acquired quite a bit of the world's goods, most of which he lost in a bank failure in Butte, Montana several years ago. He has had enough since that time, however, to be comfortable with and financial troubles had no part in causing him to take his own life, in the opinion of his brother.

## POST BUFFALO CAUSES RUMPUS IN STOCK YARD

**KANSAS CITY, Mo., Aug. 4.**—A Texas buffalo weighing 1400 pounds brought business at the stock yards to a temporary standstill here Monday by its strenuous objections to being penned up. Buyers and traders crowded around the pen while the buffalo tossed its head angrily and became difficult to manage. The animal was shipped from Post, Texas, by its owners who desired to have its head mounted.

## MARKETS

### STEEL COMMON AND G. E. HIT NEW HIGH FOR YEAR

**By EDWARD GONDOLN** (Financial Editor UN) **NEW YORK, Aug. 4.**—It is indeed a dull session of the stock market which does not record at least a dozen highs on some descriptions whether they be highs on the movement for the year or for all time. The opening session of the week was no exception to the rule. First honors went to the Industrial stocks led by steel common, and the intrepid general electric. The former reached a new top for 1924 at 110 and the latter scored a record high for all time with an advance of close to seven points. There were mere gossip concerning newly formed pools making the rounds on Monday than there has been for some weeks. Some of the impressive gains in several of the more infrequently traded industrials gave rise to reports that certain interests were determined to put these stocks up to a fired level before the market as a whole suffers a reaction. This was not generally true of the mills, aside from the issues mentioned in connection with the proposed new Nickel Plate system which are well supported from all sides. The object of pool support is of course to establish confidence in given issues so that public buying may not falter. Certainly, public participation in the stock market at this writing furors no inconsiderable part of the total turnover.

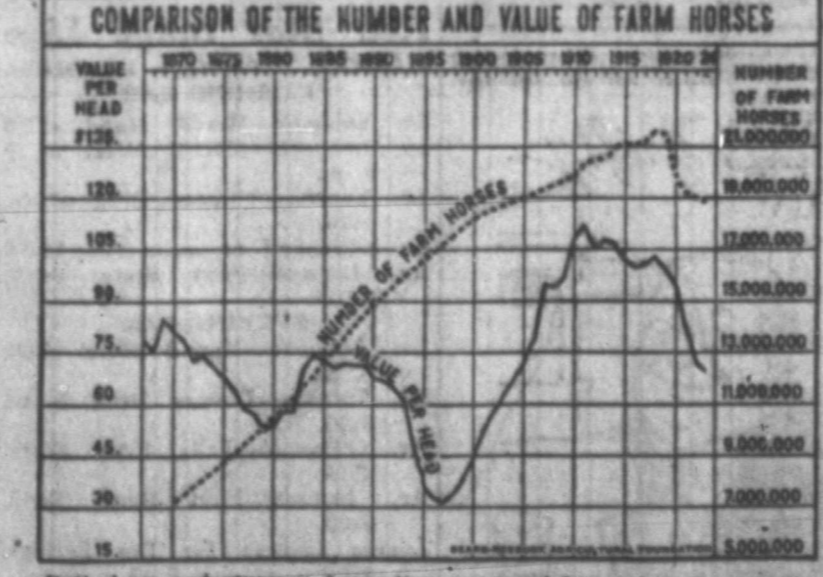

With the start of the German delegation for the London conference Wall Street has begun to talk German loan in earnest. At present this conversation concerns the nature of the possible terms. The consensus give the interests rate at 7 percent with the selling price under par which would place the yield to the investor in the neighborhood of 4 percent. If the precedent of the Austrian loan is to be followed the German loan will be guaranteed by the allied governments. The two cent advance in the pound sterling made a new 1924 high which was a further outward manifestation in the financial community over the brighter outlook for world trade. It is obvious that any improvement in world trade spells better times for British markets at a standstill owing to the British August bank holiday. Guilders, too, made a new top for the year as did Swiss francs. Now were the Scandinavians neglected. The firming up in the afternoon carrying the Norwegian Korner to new high for 1924.

The commodity markets were uninteresting. Wheat declined a fraction on favorable crop estimates and the increase in the visible supply but the other grains were slightly higher. Cotton did not fluctuate very widely in view of the absence of Liverpool cable. The weather map was the chief factor in trading together with the additional crop estimates put out by cotton houses.

## Prospects Bright for Better Horses

Both farm and city are demanding more and better horses, according to the Sears-Roebuck Agricultural Foundation. Despite the 15,251,295 automobiles and trucks in the United States, there are 18,263,000 head of horses and mules on farms today and 2,800,000 horses pulling loads in city streets. The coming of the auto and trucks reduced the equine workers in cities to 2,000,000 between 1910 and 1920, a reduction of 30 per cent. But during the last three years there has been a decided trend in the opposite direction. Between 1910 and 1920 the horse population on farms decreased 10 per cent. On January 1, 1924, there was 18,368,000 horses, compared with 21,555,000 six years before. This was the smallest number since 1905. Still, 97 per cent of all field work is done by horses and mules. According to the Sears-Roebuck Agricultural Foundation, the industry of automobile and replacement by mechanical power, horse prices began to decline. Mule prices, unlike horses, advanced during the war, reaching their peak in 1923. In 1923 there was a third more horses and mules sold than during the previous year. Good mares and stallions are scarce. During the war horse breeding languished. The number of colts produced failed to keep pace with the losses by death. Between 1910 and 1920 horse and mule colts combined decreased 22 per cent. The largest percentage of the horse population is old. Low prices will continue to discourage horse and mule production and cause still further decrease in the population until the average price turns upward. Unless breeding operations are increased, demand will soon be greater than the supply. How soon the market turning point will be reached for the rank and file of horses is uncertain. Prices have already improved for the

## MRS. FERGUSON TO TAKE STUMP IN "HER OWN" RACE

**By United News**  
**TEMPLE, Texas, Aug. 4.**—Monday was opening day in Mrs. Miriam A. Ferguson's race against Felix D. Robertson, of Dallas, for the Texas governorship. Plans are complete for a whirlwind speaking tour covering most of the important cities of Texas before August 23, when the run-off primary is to be held. Mrs. Ferguson has decided to take the stump herself this time, to introduce her husband, James Ferguson, impeached governor of Texas. Her platform of economy and honesty in government with an added appeal to clear "Jim's name" will be largely explained by her husband, but Mrs. Ferguson emphatically declared that she is making the race, not Jim. "When Jim was in office, he was governor of Texas," she said. "Now I'm going to be elected, and I'll be governor of Texas. Of course I'll discuss things with Jim. Why not? He discussed things with me, lots of times, when he was governor." The first speaking date is to be held in Dallas Wednesday night at Felix Robertson's city home. And that is the Ferguson method of doing business. **FORT WORTH, Aug. 4.**—With counties in committee and only about one thousand votes out. The count gave Mrs. Ferguson a lead over Lynch Davidson of 5,237 votes.

## AUTO ACCIDENTS REACHED HIGH MARK SUN

**FORT WORTH, Aug. 4.**—Automobile death tolls in Texas Sunday amounted to four with over forty injured according to reports received here today. At Waco Eugene Copeland, sixteen, was killed in a collision. Ritta Cortes, sixty seven years of age met death in a similar manner. At Giddings Martin Sworman was killed when run down by an auto and Alice Ripy, twenty-three, a student of Austin was killed when the car in which she was riding overturned. Thirteen were injured in Houston, twelve in Dallas, ten in Fort Worth and other cities reported an unusual number.

CHIEF FIGURES IN THE NEWS OF THE D.

FRANKLIN D. ROOSEVELT, FORMER ASSISTANT SECRETARY OF THE NAVY, WHO MANAGED GOVERNOR AL SMITH'S EFFORTS TO SECURE THE DEMOCRATIC PRESIDENTIAL NOMINATION, WILL ACT AS MANAGER IN THE EAST FOR JOHN W. DAVIS'S PRESIDENTIAL CAMPAIGN. DAVID DELANO, NOTED THEATRICAL MANAGER, IS SERIOUSLY ILL FROM A NERVOUS BREAKDOWN IN A NEW YORK CITY HOTEL. PRINCESS MARIA, YOUNGEST DAUGHTER OF THE KING AND QUEEN OF ITALY, IS ILL WITH SCARLET FEVER IN ROME. A PLOT TO ASSASSINATE KING ALEXANDER OF SERBIA HAS BEEN NIPPED IN THE BUD IN BELGRADE.

Franklin D. Roosevelt, former Assistant Secretary of the Navy, who managed Governor Al Smith's efforts to secure the Democratic Presidential nomination, will act as manager in the East for John W. Davis's Presidential campaign. David Delano, noted theatrical manager, is seriously ill from a nervous breakdown in a New York City hotel. Princess Maria, youngest daughter of the King and Queen of Italy, is ill with scarlet fever in Rome. A plot to assassinate King Alexander of Serbia has been nipped in the bud in Belgrade.

A SWEEPING CAMPAIGN WILL BE WAGED IN BEHALF OF LAFOLLETTE FOR PRESIDENT OF UNITED STATES

ATLANTA CITY, Aug. 4.—The labor federation today began on sweeping plans for a gigantic campaign in which speakers will appear before every labor union chapel in the country in behalf of LaFollette. The federation pointed to Dawes as the most outspoken enemy to labor, declaring he founded an organization dedicated to forcing anti-union shop planks in all political platforms. The union denounced both parties.

LABOR APPEALS FOR SUPPORT LAFOLLETTE

ATLANTIC CITY, N. J., Aug. 3.—Condemning the republican and democratic presidential candidates, the American Federation of Labor in a report to its executive council appeals to all the laborers of the nation to stand by their friends LaFollette and Wheeler. The report is a bitter blow at the major parties and pledges most vigorous support to the independent ticket. It satisfies every hope of the friends of Senator LaFollette and definitely denies previous rumors that only a "left handed" pledge would be given the two progressive senators. It is endorsement only as regards LaFollette foreign policy. The platform of LaFollette is definitely designated as conforming more nearly than any other to the proposals of labor. "We cannot do other than point at this fact, together with the

further and more important fact that the candidates, have through their whole political careers stood steadfast in defense of the rights and interests of the wage earners and the farmers, said the report. "We cannot fail to observe that both republican and democratic parties through manipulated control, are in a condition of moral bankruptcy, which constitutes a menace to our country and its institutions. "Our course is clear. In pointing to the platform and records of the independent candidates, we do so with the confidence that no other course than endorsement can be pursued if we are to remain true to convictions and our traditions. "Those who are hostile to labor and to the people generally and who devoted their energies to the service of reaction and special interests must be opposed. We call upon the wage earners and the great masses of the people everywhere who stand for freedom, and justice, democracy and human progress, to rally in this campaign to the end that the representatives of reaction and special interests may be defeated and the faithful friends and servants of the masses be elected. To make it plain that the endorsement cannot be interpreted as a departure from the federation's traditional principles of non-partisanship, the report further states: "Cooperation thereby urged is not

of identification with an independent party movement or a third party, nor can it be construed as support for such party, groups or movement except as such action accords with our non-partisan political policy. Neither can this cooperation imply our support, acceptance or endorsement of policies or principles advocated by any minority reports or organization that may see fit to support the candidates of Senator LaFollette and Senator Wheeler. "Organized labor owes allegiance to no political party or groups. It is not partisan to any political party or groups. It is partisan to principles—the principles of freedom, justice and democracy. "It is the duty of the trade unionists, their friends and sympathizers, and all lovers of freedom, justice and democratic ideals and institutions to unite in defeating these seeking public office who are indifferent or hostile to the people's rights and interests. "It is the duty of all to support such candidates who have been fair and just and outspoken in behalf of the welfare of the common people. "In connection with the congressional elections the federation urges that only candidates who adhere to labor principles whether they are democrats or republicans, receive the backing of labor.

CITY OFFICIALS ENGAGE IN GUN DUEL SUNDAY

CANTON, Ill., Aug. 3.—Assistant Police Chief David O'Brien was shot and killed, a man said to be Edward Harn, of Beardstown, Ills. was killed and Police Chief Wm. Roy was shot five times during a pistol duel Sunday on a crowded street here between police and a band of bootleggers. Chief Roy was shot in the breast and several teeth were shot out, and tip of his nose was shot off. The police had received a tip early Sunday that men in an automobile were coming from Beardstown to Canton to rob a freight car containing cases of whiskey. The chief and his assistant met the bandits just after they alighted from the automobile here. As O'Brien was getting out of the police car one of the bandits opened fire on him. Crowds on their way to church scattered as the fire became general between police and gunmen. Wounded by one of the first shots fired, O'Brien shot and killed one of the bandits, and then fell dead. Chief Roy emptied his revolver at the bandit and as O'Brien fell, stopped, picked up his assistant's gun and emptied it at the bandits, who then ran to their waiting car and drove away, leaving one of their number dead on the street. Poses of police and citizens immediately started scouring the highway in every direction. Chief Roy is in the Graham hospital here. He is not expected to die.

VALUABLE PAINTING ARE STOLEN FROM CHICAGO

CHICAGO, Aug. 3.—An oil landscape and three water color sketches, the work of Turner, the famous English painter of the Victorian age, have been stolen from the Chicago Beach hotel apartments of G. H. Lord, a coal and iron mine owner. Lord returned from a long vacation Sunday and discovered the loss. Before going his art treasures had been wrapped in newspapers and hidden in a closet. There are very few Turners in America and those stolen from Lord are valued at more than \$60,000. The Tower Bridge in London costs \$165,000 a year to keep in repair.

STATE TROOPS TO PREVENT TROUBLE

LAWRENCE, Mass., Aug. 3.—A large number of state troopers under the command of Captain G. G. Parker was on the alert Sunday throughout Essex county, the north eastern tip of Massachusetts to prevent further violence and bloodshed in the event a big scheduled meeting of the Ku Klux Klan is held at Swampscott. According to report reaching the headquarters several hundred Klansmen from other New England states were to swell the ranks of the state order. Several thousand spectators and anti-klanmen, authorities were led to believe might seek the meeting place. To prevent a possible clash between the two factions, the troops were being held in readiness to enforce the disarming order of Brig. Gen Alfred Foote, commissioner of public safety. State authorities in their efforts to enforce the law are confronted with the following situation: Holding of Klaverns in the industrial districts of Essex county resulted in open hostility on three separate occasions during the past week. Eleven persons were seriously hurt during resulting riots, and approximately 100 persons were less seriously injured. Nineteen arrests were made resulting in fines and convictions on charges of disturbing the peace and in one case a jail sentence for carrying dangerous weapons. Several other cases are awaiting trial. While authorities do not question the right of Klansmen to hold meetings, General Foote in issuing the department order, did so in the interest of peace. The order is applicable to all persons attending a klavern and to spectators and persons found in the vicinity, regardless of whether they have permits to carry firearms. Those possessing permits, police announced might obtain their weapons the following day upon proper identification. Those found armed and without permits were to be arrested and charged with carrying dangerous weapons. A truckload of weapons of all descriptions, ranging from rifles and shotguns to blackjacks, baseball bats, rocks was seized after disarming every one present at the klavern meeting, the troopers cordoned around the field where the klavern was in progress and preserved order. In the year 1907 China enacted the most spectacular moral reform in history. To free themselves of the opium slavery they plowed up the poppy dens, and old smokers stacked up their pipes in the market places and burned them. "Everything in life should be taken earnestly, but nothing should be taken tragically."—Edouard Herriot.

BATTERY C, OF 132ND FIELD ARTILLERY GOES TO FORT STANLEY

More than fifty members of Battery C, 132nd Field Artillery, left Sunday morning for Fort Stanley, San Antonio, to spend two weeks in intensive training. Lieutenants H. H. Griffith and M. M. Mitchell have charge of the battery, and will remain with them throughout the two weeks at camp. The men were elated over the prospect for a fine time at camp as they marched to the depot to entrain, and many hundreds of loyal people accompanied them to the station. Together with Lieutenants Mitchell and Griffith, the following men left to go to camp: Sergeants: James G. Hankins, Will E. Sanders, Iran Wilson, Louis A. Kitterell and Leland R. Brogdon. Corporals: Charles H. Coleman, Jenkins A. Allen, William A. Hensley, Elmer J. Moore and Guy H. Johnson. Specialists: J. M. Connor and Stockton Henry Jr. Privates first class: Calvin K. Council, Raymond H. Bullock, Orville L. Green, Weidon Hawkins, Fred S. Heim, Salmon S. Stubbs, Harvey R. Ramp, Wesley B. Smith and Olive E. Lanham. Privates: Raymond Coleman, Otto H. Gibson, Harvie H. McClellan, Layton Adams, Rodney J. Adams, Clarence R. Barton, Lester L. Christian, Paul Clark, Lawrence R. Carraway, Alvie J. Dunlap, R. E. Dickinson, George E. Eaton, Hollis Green, Alfred Gallemore, John Hensley, T. L. Mullican, Delma A. McCarty, Emmitt L. McMahon, E. S. Nesmith, Ross Owens, Austin Perry, Arthur F. Phillips, P. H. Folk, Randall O. FIRST YEAR STUDENTS AT TEXAS U. TO ENJOY PROGRAM

AUSTIN, TEXAS, Aug. 3.—Announcement has just been made by L. H. Hubbard, dean of students of the University of Texas, of a two day program planned for the reception of first-year students this fall. Notice has been given by Registrar E. J. Mathews that new students are expected to appear on the campus on Saturday morning, September 20, before the regular matriculation period begins, in order that they may attend a series of lectures on problems peculiar to freshmen. The new plan has been suggested by the faculty, and it is intended to make the two days an advisory period for students and faculty. On Saturday morning the program will begin at 10:15 o'clock with an address of welcome by President W. M. Splawn, Dr. W. S. Sutton, dean of the school of education will deliver an address on "What is the University?" Registrar E. J. Mathews will then speak to the students on "How to Register." On Saturday afternoon at 3:00 o'clock the prospective new students will again assemble to hear the following addresses: "A Word of Advice," by Dr. T. U. Taylor, dean of the College of Engineering; "Students Self-government," by Eldon Dyer, President of the Student's Association; "The Honor System on Examinations," by Ed Gossett, chairman of the Men's Council; and "Extra Curricular Activities and the New Eligibility Rule," by Dr. E. T.

Pittenge, Acting dean of the school of education.

On Tuesday, September 23, there will be a convocation of freshmen boys at 10:15 o'clock, and the following addresses will be delivered: "Keeping Fit," by L. Theo Bellmont, dean of the college of physical training; "The New Absence Rule," by Dr. H. Y. Benedict, dean of the College of Arts and Sciences; "How to Avoid Failure," by Dr. H. T. Parlin, dean of the junior college of arts; "The Handbook," by L. D. Hubbard, dean of students. On Tuesday afternoon, September 23, there will be a convocation of freshmen girls at 3:30 o'clock, and the following addresses will be heard: "Greeting," by Miss Anna Hiss, director of physical training for women; "The New Absence Rule," by dean Benedict; "Social Regulations for Women," by Miss Lucy J. Newton, dean of women; "How to Avoid Failure," by Dean Hubbard. It is claimed by scientists that the results of taking from the earth such vast quantities of oil, relieving as it must certain pressure from within the earth may prove serious. The exact nature of such results is, of course, merely a matter for speculation. At the recent sale of the Britwell Library, Dr. A. S. W. Rosenbach, of New York and Philadelphia, paid \$9,300 for one of the 5 copies known of the seventh edition 1632, of Shakespeare's "Rape of Lucrece." The Order of St. Gregory the Great has been conferred by Paris XI on William C. Frost, leader of the United States Olympic forces in the games at Paris.
