DISARMAMENT IS DOMINANT IN LEAGUE

GENEVA, Sept. 1.—Disarmament was one dominant issue at the League of Nations assembled here this morning. A special committee of Americans headed by General Tash-er Bliss, former chief of staff of the United States army, brought the plans for disarmament, but announced the Government was in no way responsible for any part of it.

\$200 IS RAISED AT THE FIRST BAPTIST CHURCH TO PAY OBLIGATIONS

A fund of two hundred dollars was raised at the close of the morning service at the First Baptist Church Sunday to be used to pay current obligations made in purchasing new books and equipment for the church.

The church is in good financial condition considering the fact that a great building program has been carried out and this amount pays all the current incidental expenses of that institution.

THE FEDERAL LAND BANK

LOAN IS AMORTIZED—34 1-2 YEARS TO PAY IT OFF, OR AFTER 5 YEARS

AT YOUR OPTION

The system is working successfully and saving the farmers who borrow through this bank \$100 a year!

ENJOY THESE BENEFITS:

When you pay on an 8 per cent loan not Amortized—interest only—nothing on the principal at the end of 34 years you have paid \$8,280.00 in interest and you still owe \$3,000 the original amount of the principal.

ON OUR PLAN:

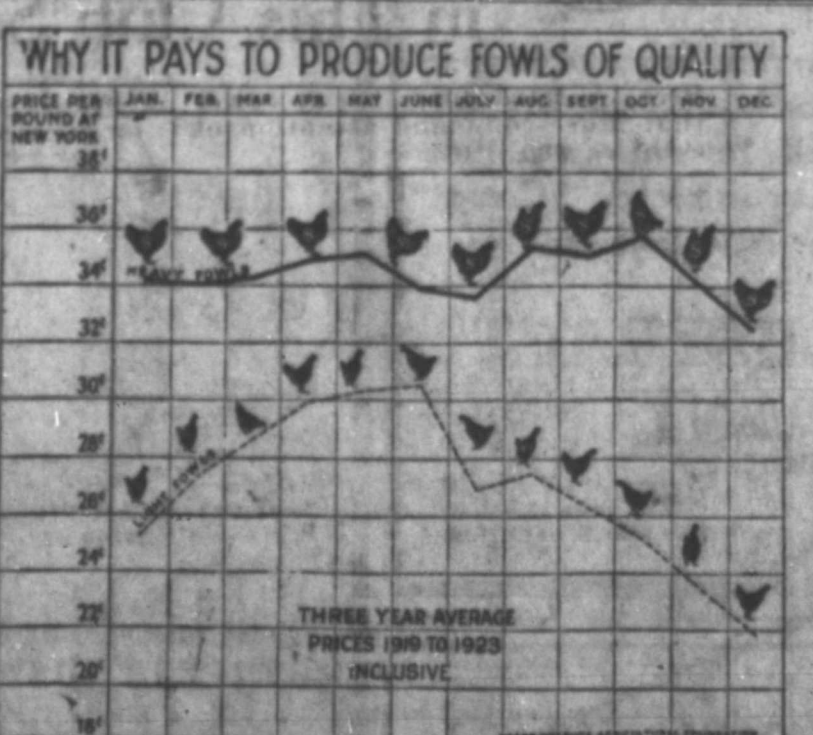

You have paid out at the end of 34 years only \$6,727.26 and you owe NOTHING.

Maximum loan obtainable is \$25,000. Ranchers and farmers, who cultivate their land personally, by hired labor or on the halves, are eligible to borrow.

It's the extra pound of flesh on the fowl that cheapens production costs and commands a premium price for the poultryman. According to the Sears-Roebuck Agricultural Foundation, the extra pound can be put on for from 5 to 7 cents, which increases the value of each pound to the consumer by making the entire carcass more plump and attractive, so it commands a fancy price over lighter birds. Heavy hens sell from 5 to 11 cents more than light ones. It's true all down the line—turkeys, ducks, capons, hens and young fry—the extra pound brings the extra dollar.

Over a period of three years the New York market shows heavy fresh-killed milk-fed fowls or hens weighing 9 pounds or over to average 9 cents higher per pound than the light fowls weighing 5 pounds. The five-year average for the month of September shows the heavy fowls to average 9 cents over the light weight, the margin broadening during October and November, reaching its height in December, when the heavy fowls range to 11 cents a pound over the light weight.

The average weight of the ordinary fowl as it comes from the farm is 3 1/2 to 4 pounds. The poultryman who has the business will add an extra pound or so and receive the top price. The farmer who takes this unadvised poultry to market is better off dead.

Robinson, which service was preceded by a twilight organ recital by Miss Mary Dunn and Mrs. Mamie I. Neal, of this city. A large crowd heard and enjoyed this service, as well as the splendid service conducted by Dr. Robinson.

W. S. POSEY IS COUNTY DEM. CHAIRMAN

Information has been conveyed to this paper from Hon. W. L. Clayton Director of finance for Texas, National Democratic Committee, of Houston, stating that Walter S. Posey, of the Lubbock State Bank has been appointed and has accepted the position as County Democratic Chairman, for Lubbock County, and will assist the Democratic Committee in the raising of funds for the Democratic campaign that has just opened. Mr. Clayton stated that Mr. Posey would organize the county and appoint assistance throughout the county to assist in this important work.

U. S. Flyers Land Safely at New Foundland Tuesday

MAKE TRIP FROM INDIAN HARBOR IN TEETH OF WIND

PLAN HOP TO NOVA SCOTIA WEDNESDAY AND TO BOSTON THURSDAY

By United News.
On Board U. S. S. Richmond, Bay of Islands, N. F., Sept. 2.—Lts. Lowell Smith and Eric Nelson, the globe-circling American army flyers, advanced another good sized hop toward their homeland Tuesday afternoon when they landed at Hawkes Bay, New Foundland, at 3:58 eastern standard time.

Flying head-on against a 30-mile wind, the airmen made the 276 mile flight from Ice Tickle in five hours and 43 minutes.

The flyers fought a hard battle with the wind as they flew along the desolate coast and across the straits of Belle Isle. The wind continued as they proceeded southward toward the shores of New Foundland where high hills clad with pines and a warmer atmosphere showed them that they had left the far north well behind.

Mist and rain veiled the waters below, but the visibility was sufficient to enable Smith and Nelson to pick out a landing place.

Lt. Smith, it is now believed, will hop to Pictou, N. S. Wednesday, it is learned that he intends to halt briefly to refuel at St. John, N. B., on the Pictou-Boston log. Interviewed before the Richmond left Ice Tickle, Smith declared that weather permitting, he hoped to reach Boston Friday.

Milwaukee Racing South.

HALIFAX, N. S., Sept. 2.—The two American around the world planes arrived at Hawkes Bay, New Foundland at 3:58 Tuesday afternoon from Indian Harbor, Labrador. The aviators will make the hop to Pictou Harbor, Nova Scotia, on Wednesday and from there will proceed to Boston on the following day if the weather continues favorable.

The U. S. S. Milwaukee is racing south after them bearing the replacement parts which had been taken to Pictou. Lt. Smith's plane developed trouble in its oil and gas pumps on the flight to Ice Tickle and it is desired to have the Milwaukee as near at hand as possible in case of further mechanical difficulty.

Many messages of congratulations were received Tuesday by the flyers, including communication from Major Mason M. Patrick, chief of the army air service, and Secretary of War Weeks. The Richmond will take on fuel Wednesday at the bay of Islands and then sail for Boston to await the arrival of the aviators there. The flyers will obtain gas and oil at St. John, N. B., on their way south. Reports on the positions of the naval vessels place the MacFarland off the coast of Labrador while the Charles Auburne is in Hawkes Bay.

WELLS SAYS "SPECIAL EDITION WILL BE FINE THING"

Spencer Wells, active manager of the Hemphill-Price Company of this city and one of the shrewdest advertising men on the Plains is an enthusiastic booster for the industrial and Commercial edition now being prepared for publication Sept. 21st.

"It will be a fine thing," says Mr. Wells. "It will be of much benefit to our city and to the entire South. Plans for few of us realize fully the extent of growth Lubbock has made during the past few months," he said.

The wholesale interests of Lubbock are responding to the edition and practically every industry in Lubbock will be represented. From 7 to 10,000 copies of this edition will be broadcasted to people interested in Lubbock and the South Plains at a time when results should be easily gotten.

POSTOFFICE BEING BUILT ON EAST SIDE

HODGES ENTERS CONTRACT TO FURNISH BUILDING FOR GOVERNMENT

J. A. Hodges, of the Hodges Brothers general merchandise store, has just entered into a contract with the government to construct a building on his lot just north of the Hodges Brothers Store to be occupied by the postoffice for a period of ten years.

The building will be fifty by seventy feet, with all modern features and especially arranged to accommodate the equipment, etc., to be found in the modern postoffice, as has been intimated by officials that such equipment, additional help, etc., as may be required to make the local office second to none in the state to be found in a town of this size, will be provided.

Mr. Hodges stated Tuesday that the contract for the construction of the building has not been awarded but he expects to let it early this week, as according to the contract with the government, the building is to be ready for occupancy within sixty days.

The lots on which the building is to be erected are on the east side of the square, and the location of the postoffice in that section of the city, according to Mr. Hodges, will in all probability stimulate interest in the erection of more modern business houses thereabouts.

ALLEGED SLAYER OF DEPUTY HOLLOWAY IS RELEASED

SAN ANTONIO, Sept. 2.—Eugenio Binquini, wanted here on an indictment charging him with killing Deputy Sheriff J. T. Holloway has been released at Piedras Negras according to information received by officers here Tuesday.

Application for requisition papers for Binquini were on route to Washington for action by the state department when the release was made on proceedings similar to habeas corpus action, according to the report.

THREE WOUNDED IN ATTEMPTED TRAIN ROBBERY

TWO DETECTIVES GUARDING MONEY SHIPMENT SHOT; ONE MAY DIE

By United News.
MEAD, Kansas, Sept. 2.—The Rock Island state limited, streaking across Kansas enroute to Los Angeles was the center of a pitched gun battle here Tuesday night between railroad detectives and three men, who officials of the road believe, had planned to plunder the mail car.

Two detectives, L. H. Keene and Roy Lewis, were wounded, as was Alonzo Fizeado, a Mexican, who was captured by the officers. The other two men escaped.

Keene's wounds may prove fatal, it was said late Tuesday night.

The train, according to A. J. Dentle, local agent, was flagged to a stop here to allow a man who had purchased a ticket to Colorado to climb aboard.

Detectives, who according to Dentle had been forewarned of the planned hold-up, saw three men board the mail car, one standing on top. When they ordered the men to leave one of them opened fire and the battle followed.

Dentle said the train was carrying a large shipment of money and valuables.

Fizeado was taken to jail after his wounds had been dressed and denied that he or his companions had plotted the hold-up. He said they were merely "bumming a ride."

Three Shot in South Dakota.

WHITE ROCK, S. D., Sept. 2.—After noting telephone and telegraph wires, five bandits stole into the quiet little town late Tuesday, broke into the Citizen's State Bank, wound three citizens who gave them battle, and escaped with \$5 in jangling pennies.

Hearing the bandits breaking an entrance into the bank through a window, Edward Berger, a garage man, sounded an alarm and then, grabbing his shotgun began shooting. He received 17 lacerated wounds in the back and is in a hospital in a serious condition. In the meantime, A. H. Kolset, responding to the alarm appeared on the scene with his shotgun. A bullet from a bandit's revolver crashed through his jaw and another entered his shoulder. Kolset's daughter, Helen 10, who followed her "daddy" was shot in the side of her nose. Berger and Kolset were both unconscious when a dozen or more citizens attacked the bandits. The entire village was finally aroused but the fusillade of shots kept the citizens away and the bandits escaped.

Telegraphic communication with the outside world was not restored for two hours.

FIRES RAGE BEYOND CONTROL IN THREE NAT'L FORESTS

SAN FRANCISCO, Cal., Sept. 2.—Fires were reported to be raging out of control in three national forests Tuesday night, according to the word received by the forest service here.

Two of the fires are in the upper end, the third is in the southern part of the state. One hundred and fifty men were reported making frantic efforts to prevent the spread of flames in Los Angeles forest, and more than 100 men were reported to be fighting a new fire out of control east of Virginia City, the forest patrol service reported. Some fifty men are patrolling Thoms creek in the California National forest to prevent a new outbreak of the fire in that district that was under control Tuesday.

VICTORIA COUNTY FREE OF TICKS SAYS BOARD

VICTORIA, Texas, Sept. 2.—Victoria county in zone no. 3 embracing over 50 counties, is the first county in the district to be declared tick free and after nine months had been released from special quarantine with the last regular dipping complete.

Calhoun and Arkansas counties are also expected to be released soon.

VAUGHAN NAMED POSTMASTER AT LOCAL OFFICE

ASSUMES DUTIES AFTER LONG EXPERIENCE IN GOVERNMENT WORK

John L. Vaughan, who for the past several months has been associated with the Lubbock Buick Company, has just received news from Washington of his appointment to the office of postmaster of the Lubbock office.

Mr. Vaughan, formerly postmaster of Mart, Texas, which office he presided over from the early part of 1909 to 1913, and who is also past president of the Texas Postmasters Association, is thoroughly experienced in postoffice work, and his appointment occasioned no surprise among his friends here.

Mr. Vaughan was elected president of the Texas Postmasters Association October 10, 1912, and the convention at Galveston held the following year made the great success it was through his efforts. Clippings from the Galveston newspapers printed during the convention show that Mr. Vaughan was very active in the convention, and proved himself an able leader of the state postmasters.

An interesting feature of his participation in the convention is that a number of recommendations made by him when he delivered his annual address to the membership have since been put into regulations of our postal system and are proving practical and helpful in carrying on this big feature of the nation's business.

While postmaster at Mart, Mr. Vaughan took an active part in city and community affairs and following his term as postmaster was elected mayor of Mart. The feature of his election to Mayor of that city is that he was, as is still the case, a republican and ninety five percent of the voters there were democrats.

Prior to the Galveston convention of the state postmasters at Galveston Mr. Vaughan went as a delegate from Texas to the convention of the National Association of Postmasters at Washington, D. C., where he also was very active, and directed several changes in the national postal system. His experience in these conventions as well as the practical experience in postoffice work has convinced the higher ups in the postal department of this government of his worth, and the people of Lubbock have right to be proud of the record that he has made in the past which will be added to by the service he will render here.

Mr. Vaughan came to Lubbock in April, 1921, and became identified with the Security State Bank and Trust Company, and has resided here since that time excepting a short time during which he was cashier of the First National Bank at Victoria. He has had charge of the bookkeeping department of the Lubbock Buick Company the past year.

Mr. Vaughan has been active in state politics for the past twenty five years, and was elected chairman of the state republican committee from the 30th district at the recent Republican convention at Fort Worth, which convention he attended as a representative of the Lubbock county republican executive committee.

Mr. Vaughan has been active in state republican politics for the past twenty five years, and was elected a member of Republican State Executive committee at the recent convention at Fort Worth which he attended as a representative of the 30th senatorial district.

He will leave for Dallas today to be in attendance at the meeting of the state republican executive committee Friday, and stated Tuesday that it will probably be the first of next week before he takes charge of the office.

MUSIC LOVERS GIVEN GREAT TREAT IN APPEARANCE MISS HORTENSE RAGLAND, "LUBBOCK'S OWN" BROADWAY STAR HERE

BY MRS. CURTIS A. KEEN
Lubbock music lovers enjoyed a veritable feast of harmony, art and expression Tuesday evening when the Lubbock Music Club presented Miss Hortense Ragland, a local girl who has studied for the past three years under Herbert Witherpoon of New York City, in recital, assisted by Mrs. William D. Green and accompanied by Miss Margaret Huff.

This was Miss Ragland's second appearance in Lubbock, her first being a year ago when presented by the Women's Civic Clubs of the city just before leaving for her winter's study in New York. Since her first appearance, Miss Ragland has not only enjoyed another year's study and training but has had special training in stage technique under Arthur Hammerstein as understudy to Mary Hays in "Mary Jane McKane," a Broadway success.

To say that the year has improved her artistry, her poise, the tone qualities of her voice and general stage presence it is to say little. The past year has, it is apparent, marked the turning point in her development from the hopeful promise of a career in music to a realization of the first fruits of her years of effort and labor toward such a goal.

While too much cannot be said of her own personal success in the evening's recital, generous praise is the happy right of both Mrs. Green who assisted with a gripping interpretation of that most beautiful of all grand opera, Madame Butterfly, and her accompanist, Miss Huff. Artists each in their own individual contribution to a well balanced programme that was impressive in the combined effect of ascending artistry that reached its full culmination in "One Fine Day," Aria, from Puccini's Madame Butterfly that was sung in costume by Miss Ragland as the closing number.

PROGRAMME IN DETAIL

It is impossible to comment at length and as each deserves upon the individual numbers presented in the programme. A comparatively little known arrangement by Verdi, "Ave Maria," from Otello, that offered exceptional opportunities for sustained tone refinement was the opening number of the evening and was breathlessly received by a well filled house.

The light, laughter and sparkle of Mozart at his best in "Del Vano Furdar" from LeNozze di Figaro, was an enjoyable antidote to

ANTI-KLAN PUTS ON STEAM ROLLER DRIVE

JOE BAILEY NAMED AS PERMANENT CHAIRMAN OF CONVENTION

By United News.

AUSTIN, Texas, Sept. 2.—The democratic state convention after a day spent in one scathing denunciation of the Ku Klux Klan after another adjourned late Tuesday until 8 a. m. Wednesday when the body is expected to plunge into the regular business.

The domination of the convention by anti-klan forces under the leadership of former Governor James E. Ferguson was the feature of the day's session. Ferguson's assumption of control marked his re-entrance into state politics after seven years of banishment resulting from his impeachment for misuse of state funds.

Occupying an important position on the stage was Mrs. Miriam A. Ferguson, wife of the former governor and the democratic gubernatorial nominee, and her two daughters. Mrs. Ferguson smiled her approval as Mrs. Crane, of Dallas, temporary chairman, opened the day's meeting with a savage arraignment of the klan.

Crane, in a short but vivid address declared the klan had no place in American politics and deplored the tendency of ministers to align themselves with the hooded organization. The anti-klan forces, in full control, steam-rolled through the permanent convention officers. Former Senator Jos. W. Bailey was seated as permanent chairman and Joe Burdett, of Eastland, was made permanent secretary. Klan delegates or their friends were not seated. Delegations were carefully scrutinized and at the end of the day, the body was declared by one leader as being 100 per cent anti-klan.

After the formation of the permanent organization, chairman Bailey took the speaker's stand and virtually read out of the democratic party the Ku Klux Klan.

"The democratic party is to blame for the entrance of the klan in its ranks," said Bailey. "Now it is up to the democrats to align themselves with the hooded organization in such a way that it never will be a power again."

The brief Ferguson platform which is to be submitted for consideration Wednesday can be summarized in four sentences.

1. Denunciation and condemnation of the klan.

2. Pronouncement against high taxation and demand that legislature bring appropriations within constitutional tax limitations.

3. Unreserved endorsement of the prohibition enforcement legislation and child labor legislation.

4. Endorsement of platform of national democratic presidential nominees, together with state administration of Governor Pat Neff.

Political observers predicted Tuesday night that the definite plans toward formulating an anti-klan legislation would be made before the convention ends. The main plan advanced Tuesday was to force members of secret societies to file their names with county clerks and to ban the wearing of masks or hoods on state highways, assessing fines and jail sentences for violation.

SWITZERLAND IS HONORED WITH PRESIDENT

GENEVA, Sept. 2.—Former President Motta, of Switzerland has been elected president of the fifth assembly of the league of nations which was convened here Monday.

Forty seven delegations participated in the opening ceremonies of the fifth assembly. Most of the seven absentees were South and Central American states.

Paul Hymans, of Belgium, presided over the opening session of the assembly. The United States, Mexico, Germany and Russia, which are not members of the League of Nations, now are participating in many of the league's activities.

In assuming the presidency of the assembly Motta said that the uncertainties which overshadowed the first meeting of the assembly had been swept aside. The fifth assembly he said, now is able to take up the league's task of settling the terms of the war and of assuring future peace and collaboration between nations with reasonable assurance of success.

NEW YORK, Sept. 2.—Weakened and ill from days of exposure on a storm tossed sea, six survivors of the Schooner Samuel W. Hathaway, who were rescued from a raft in mid-ocean by the Munson Liner Southern Cross, have been landed at Hoboken.

The men told a tale of heroism, and suffering in a battle with the elements that aroused wonder on the part of each experienced seaman that they had been able to survive.

They told how their crude raft hastily constructed of wreckage bound together by their clothing after they were hurled into the water, had ridden gigantic waves; how they had drunk the fresh blood of fish they caught and how they clung to the raft while ravenous sharks whose eyes gleamed like phosphorous, circled about them in the darkness.

The men who escaped death in the hurricane that raged last week were Gardner, mate; Fred Malvin, steward; and Axel Olafsen, boat-swain, all of Philadelphia; Ingolf Larsen, and Hartwick Larsen, of Brooklyn, and Wilhelm Weisland of Manhattan.

PRESIDENTIAL ASPIRANTS ARE FAR APART REGARDING POLICIES OF AMERICA IN FOREIGN AFFAIRS

By PAUL R. MALLON
WASHINGTON, Sept. 2.—Each of the three presidential candidates vary widely in their proposals for establishment of this nation's attitude towards foreign governments. This clear-cut difference is manifested in a comparison of their pronouncements on the foreign issues which they have selected to fight out in the campaign.

The foreign relations side of the campaign is given prominence by each of the candidates chiefly from the attitude of what influence their policies will have on the economic conditions of this country.

There are no blaring slogans like "He kept us out of war" (the Wilson banner of 1916) or "Down with the League of Nations" (the successful Republican intention of 1920.)

But a definite impression of the variances between President Coolidge, John W. Davis and Robert M. LaFollette may be gathered from the following compilation of their expressed views on important foreign issues.

League of Nations.

Coolidge—"I shall avoid involving ourselves in the political controversies of Europe, but I shall do what I can to encourage American citizens and resources to assist in restoring Europe with the sympathetic support of our government."

Davis—"From the day when the proposal was first put forward I believed that American duty and American interests alike demanded our joining, as a free and equal people, the other free peoples of the world in this enterprise. Nothing that since has occurred has shaken me in that belief. I have not at any time believed and do not now believe that the entrance of America into the League can occur, will occur or should occur until the common judgment of the American people is ready for the step."

LaFollette—"I favor an active foreign policy to bring about revision of the Versailles treaty in accordance with the terms of the armistice."

World Court.
Coolidge—"I propose to become a member of the Permanent Court of International Justice."

Davis—"I favor the world court in sincerity and not merely for campaign purpose or as an avenue of escape from the consideration of larger questions."

LaFollette—"It is idle to take any action for the preservation of peace among nations, under an American president and congress elected and controlled by an organized monopoly power which knows no law but might and greed."

Disarmament.
Coolidge—"When the reparations plan is in operation, I shall deem it an appropriate time to approach the great powers with my proposal for another conference for further limitation of armaments."

Davis—"We are ready for any conference on disarmament provided it is so general in its membership and so wide in its scope as to be able to deal broadly with so broad a theme."

LaFollette—"I favor firm treaty agreements with all nations to outlaw war, abolish conscription, drastically reduce land, air and naval armaments and guarantee public referendums on peace and war."

Cooperation.
Coolidge—"The foreign policy of America can best be described by one word—peace. We must necessarily proceed upon the principle of present cooperation without future entanglements."

Davis—"I am for a government administered without fear abroad. We must face the humiliating fact that we have a government that does not dare to speak its mind beyond the three-mile limit."

LaFollette—"American tradition demands that the state department reverse its policy. It should give all legitimate protection to American commerce in every part of the world, but it should serve notice on American concessionaires that we will not use the Department of State to promote their exploitation of foreign countries, nor sacrifice a single American life for the protection of their investments."

U. S. WILL TAKE BIG SLICE OF LOAN

By United News.
LONDON, Sept. 2.—The United States will take 50 percent of the \$100,000,000 loan to Germany provided for in the Dawes plan, according to predictions in British financial circles. British bankers are expected to take 40 percent and the rest will be raised on the continent. The loan will be made at 8 per cent interest. Financiers are generally optimistic over the loan's prospects, some predicting that the bonds will soon reach a premium. Reports of possible difficulties in floating the loan are declared to be "foolish" and it is declared that Germany has recently borrowed more than \$200,000,000 through ordinary commercial channels.

AMERICAN FLYER OVERCAME VERY GRAVE SITUATION

By OTIS PEARSON SWIFT
ON BOARD U. S. S. RICHMOND, Ice Tickle, Labrador, Sept. 2.—New tales of pluck and heroism on the part of the four American aviators who are now headed toward home on the last and easiest stage of their round-the-world flight, has been revealed as the flyers pause here briefly for their next hop.

This time the credit goes to Lieutenant Arnold, assistant to Lieutenant Smith, commander of the flight. Sunday was Arnold's birthday.

Four hours from Labrador, Smith's engine sputtered, faltered and threatened a speedy forced landing which would have put the flag plane out of the flight.

The principal trouble, it developed, lay in the failure of the fuel pump to function.

For four hours, Arnold, displaying "marvellous courage," proceeded to pump gasoline into the engine mechanically, at two strokes per minute, under great difficulty.

Arnold modestly told the newspapermen that his feat was "nothing at all because that after the first half hour, the pain to his arm and shoulder made them numb and insensible."

By maintaining a satisfactory rating of efficiency, to be determined largely by a self-rating chart, and by completing approved courses equivalent to six university credits, the teachers of Leominster, Mass., may receive an increase of \$50 beyond the maximum. A second increase of \$50 may be granted two years after the first special increase by earning six additional credits and maintaining a satisfactory efficiency rating.

HUNTERS MUST CARRY A LICENSE SAYS THE GAME WARDEN

"The game laws of Texas will be observed in this section if such is possible," warden E. E. Wofford, of Lubbock, told an Avalanche representative.

Wofford pointed out that it is a violation of the game laws for anyone to hunt outside their own county for any kind of game without they carry a hunting license, and he added that it is his opinion that this is known by only a very few while hundreds of good citizens violate this law each year.

Hunting license can be secured from game wardens for two dollars per year, and with the license is issued a slip of paper containing the information about the time of year the various game seasons are opened or closed, and the Avalanche, for the benefit of its readers, is printing herewith the bag limit and game season of Texas in order that they might protect themselves against intentional violation of any of these laws:

Bag Limit and Season.
You must not kill, catch, possess, or ship, at any time during the year, antelope, mountain sheep, woodcock, wood duck, egret or other plumbeous bird, non-game waterfowl, songbird, insectivorous bird, pheasant, turkey hen, the deer or spotted fawn.

You must not hunt from motorboat, sailboat, airplane, or boat under tow; and must not hunt at night with any sort of light or lantern.

You must not get (sell or barter) any game bird or animal. You may kill at any time, in any numbers, English sparrows, ricebirds and blackbirds, buzzards, crows, owls, hawks (except sparrow hawk) and rabbits. Also the following game:

TURN TEXAS LOOSE

We have heard this expression almost all of our life, but we have never realized just what it meant till the year 1924, when we came face to face with the real article. Texas has indeed been turned loose and she has gone "hog wild."

We believe the whole thing goes back to the years of carelessness that the people of Texas have engaged in. They failed in many respects to put men capable of the office to which they aspired, and either through incapability or indifference, they have failed to pass laws that are sensible and practical, and the failure to enforce the laws have brought on one thing after another and finally ended up in the organization of an order that is known as the Ku Klux Klan, who believed it their duty to take things in hand and see that the laws were enforced. We believe this is the wrong way to get the desired results, and that the organization has failed in its purpose, by going into politics and trying to force their organization down the throats of the people, who in the wind up resented it, and chose even an impeached man for governor rather than to endorse the candidate carrying the endorsement of the organization, so that we find that Texas has been turned loose, and the men who years ago were rejected have been placed in power and prominence, and we are of the opinion they are not the choice of the people of the state, but by reason of the issues that are involved. With these issues out of the way Jim Ferguson or any of his kindfolk could not have been elected to any office. John Bailey was set upon in the former elections in Texas, and today he is sitting at the head of the Democratic Convention, in spite of world influence and "fix" things in Texas, all brought about by him and his kindfolk.

These things are the causes we are sure, and until there is a readjustment of matters there is going to be strife among the people of Texas and in fact all over the United States for the result of the election in Texas has been more widely discussed, and more publicity been given it in the leading newspapers of the United States and the big magazines than anything that Texas has ever done. The fact that Texas people showed disfavor of klanism, and elected a woman to the office of chief executor has been the basis of comment, and the anti-klan forces have looked upon it as a signal victory.

As we view the conditions we feel that both organizations have absolutely no place in a civilized country, and that the people of an enlightened age, like we are supposed to be living in, should have better means of settling their differences than through organizations of this kind.

Texas indeed has been turned loose, and we never knew what it meant before, but we know now.

STEALING THE AVALANCHE

A number of complaints have been coming regularly from certain places of not getting the Morning Avalanche when there is every evidence that the paper was delivered at the proper place and at the regular time.

This became so serious that special attention was directed to these places and we discovered that at each place there was some one there to pick up the paper and carry it away, and those who got it were not subscribers at all, and if these parties (and they are known) who took the papers Tuesday morning from the following places: 716 Ave. J, 1631 9th, 1998-15th and the Jons Sign Shop report this offense they will have an opportunity to explain their action before the court. We can overlook a four legged dog getting the paper and carrying it off but when it comes to the two legged canine getting the paper and reading it, and depriving the fellow who has paid his money from getting it we will not tolerate it at all. It is just as much an act of theft to steal a newspaper as it is to steal another thing of value, and you newspaper thieves had better look out if you do not want to get some very unpleasant publicity. We know you, and we are camping on your trail, and you may be surprised some morning to find you are face to face with a warrant for your arrest.

DIFFERENCES OF OPINION

The differences of opinion brings about peculiar circumstances and peculiar statements. The Avalanche editor's position seems to be in doubt by some while others are just the opposite in where to place us. One fellow came rushing in and ordered his paper discontinued because we were running a demagogic klan paper, and another fellow said we do not see how a man of your position can support Ferguson, while numbers of others have congratulated us on not having anything to do with these issues during the campaign, and insisted on voting for the "man" rather than the "issue." So the opinions of people differ, and they miss the mark a mile some times. The editor of this paper

has expressed himself at different times on this question of klan and anti-klan, and we repeat that we are of the opinion that the klan should disorganize and the anti-klan follow suit post haste. These are issues that can never be settled as long as there is an organization of klans in the union. States will be torn and communities will be disrupted. Even families will be divided and the churches will be handicapped and unable to accomplish the things that should be their aim and ambition.

There is no place for division of this kind in Lubbock. This city has too many big things to put over to let small "isms" enter into the program and spoil the whole thing.

Away with them and down to business. Let our good officers enforce the laws, and our people will be happy.

THE PRESIDENT'S LABOR PARTY

President Coolidge broke into the Labor day political activities with a surprise party at the White House for more than a hundred labor leaders from all parts of the United States. Following the example of La Follette and Davis, the president outlined his Labor view. But he went the other two candidates one better for after his speech in the East room of the White House, he and Mrs. Coolidge held an informal reception for the labor leaders in the Blue room and then invited them into the state dining room for luncheon. Plans for the event had been in preparation for some time, but they were carefully kept secret. Coolidge prepared his most magnificent speech to date for the occasion.

He told the labor delegation that labor has the best chance of prospering under a government operated, not for any one class as corporations, banks, farmers or labor, but for all of the people. He declared for collective bargaining, the right to strike in private industry and for voluntary but not compulsory arbitration. The government can best serve labor, he said, by continuing its efforts to provide helpful surroundings, education, reasonable conditions of employment, fair wages for fair work, and stable business prosperity. Davis and La Follette also outlined their labor platforms. The former in a speech at Wheeling, W. Va., which was nationally broadcast, and the latter in a radio talk made through the studio of Washington. Wheeler, independent vice presidential candidate also spoke at Boston Common and Worcester, Mass. But the Coolidge party was the most unique of the day's political events. About 115 labor leaders, some well-known, others not, were seated in semi-circular formation in the great East room, some sat on the bench of the famous gift piano. At 12 o'clock Coolidge walked into the room, accompanied by his secretary, Mr. Slemp. Several of the labor delegates made short speeches of greeting in which they pledged their support to Coolidge and made covert allusions to the La Follette-Wheeler pledge of Samuel Gompers by declaring that no leader could deliver their votes and warning against experiments in government.

FISHERMEN GONE ASTRAY

Prohibitionists from conviction naturally do not like to hear it said that their strongest backers are bootleggers, but there is every reason why the last named should rejoice in a rock-ribbed Volstead law and strenuously oppose any modification of its provisions. For prohibition has furnished them an enormously profitable trade, excitement and risk. According to reports the profits of rum-running have tempted up as well as lower class Brits to engage in it, one of the most body outspoken as well as successful being a well-known baronet. On this side of the Atlantic the profits of bootlegging are not only causing many varieties of crooks to change their "line" but seems to be drawing many recruits even from the honest trades.

Recently the clerk of the Brooklyn County Court explained the marked decrease of burglaries in his city on the ground that "stickup" men have gone into bootlegging as both more profitable and less risky, the convicted bootlegger usually getting about 30 days and the burglar being likely to get as much as twenty years. And now, in explanation of the high price and scarcity of the better variety of fish in the urban markets of the North Atlantic states, a dealer is quoted as saying to a complaining housewife: "It is because all the fishermen have turned to bootlegging. We can't get much except halibut and cod, and that makes blue fish, sea bass and the like scarce and expensive."

Of course, the marlinerman's "all" was extravagant, but it would be quite reasonable to assume that many deep-sea fishermen have changed their occupation to one much more profitable and little more risky even if the reports from "Rum Row" did not so state.

PROHIBITION CONVICTIONS IN THE UNITED STATES

According to the record of the Federal revenue Department there has been considerable activity in the realm of the whiskey peddler and various offenders of the prohibition laws. The records show that within less than three years more than a hundred thousand prohibition cases have been terminated in the federal courts with a total of more than eighty-five thousand convictions. The guilty ones being punished by fines that have aggregated more than fifteen million dollars and jail terms figuring in total of more than six thousand years.

The record expedition of trials was made possible by the favorable action of the present administration on the petition for new judges. It was shown when the petition was made that 140,000 cases were pending and more were being filed at a rate that was steadily growing faster than the rate of disposal.

Twenty-five new judges were named and then the mills of justice that had been slowly choking began to hum.

AGED MINISTER TAKES OWN LIFE

FOUND IN HIS GARAGE AT DURANT WITH THROAT SLASHED SUNDAY

TARRANT, OKLA., Sept. 2.—The Rev. J. G. Miller, 62 years old, pastor of one of the largest churches here, was found in his garage with his throat cut a few minutes before the hour for morning services. A bloody pocket knife, belonging to him was lying at his side. He left a letter addressed to his wife, daughter and members of the church board in which he denied charges against his character which had been made recently, and declared that long for his family and church loved him to take his life rather than embarrass either.

Rev. Miller is one of the best known ministers in the Methodist church, and has held many responsible positions in the conference. Being presiding elder for years and held important places in educational work of the church. He recently transferred to Oklahoma conference and was at the time of his death holding one of the most responsible positions as pastor of the largest church in the Oklahoma Methodist Conference. He had just recently completed a church plant at that place which cost more than \$150,000.

MILLERS FUNERAL WILL BE HELD AT ABILENE

ABILENE, Sept. 2.—Word has been received by Mrs. G. C. Rollins of this place of the death of her father, the Rev. Jacob G. Miller, who was for several years presiding elder of this district, and one year pastor of the First Methodist church. Rev. Miller was found in his garage in Durant, Oklahoma early Sunday morning with his throat cut and died a few minutes later at a hospital.

The body will arrive in Abilene some time Wednesday and although definite arrangements for the funeral have not yet been made the plans are to bury the body Thursday.

The minister was 67 years old, and has for years been a prominent man in Texas. He was 4 years presiding elder of the Stamford district, and 4 years served in the same capacity of the Abilene district. He was a resident of Stamford, Texas, in 1915-16 immediately preceding President J. W. Hunt's administration.

Rev. Miller is survived by his wife, two daughters living in California, and Mrs. G. C. Rollins of Abilene. Mr. Miller will come to Abilene to live with her daughter.

HALL COUNTY WILL BUILD THREE BRIDGES

MEMPHIS, Texas, Sept. 2.—The Commissioners Court of Hall county had their session here this week and let contracts for three bridges in precinct No. 3. Contracts were let to the Austin Bridge Co., of Dallas.

The new bridges to be constructed are located near the Hall and Cottle county line. The Memphis Chamber of Commerce is endeavoring to get these bridges built in time for the Seventh Annual Convention of the West Texas Chamber of Commerce, to be held at Mineral Wells next year, so that persons from that portion of the country where the bridges are to be built may have easier access to Memphis and form a complete party to attend the convention.

This action closely follows the refusal of the Commissioners court of Motley county to rescind the order previously passed by that court to help build a bridge across the North Pease River, which bridge would give a direct connection between Matador and Memphis. Estel line and Childress. A petition had been presented to the court at Matador and Memphis, county seat of Motley county, asking for such revocation, and there is much rejoicing here that the refusal of the Commissioners Court to acquiesce in such request.

Eagle Lake Banker Enters Work With Local Bank

F. A. Norman and family of Eagle Lake, Texas, arrived in Lubbock Monday evening by automobile and will make their home here. Mr. Norman has accepted the position of vice-president and cashier of the Citizens National Bank, and has taken up his work there. His son, Floyd, now thirteen, will enter the Lubbock High School here, while his daughter, Kathryn, eleven, will enter school taking up sixth grade work. Mr. Norman has for the past six years been associated with the Eagle Lake State Bank, and has had a number of years experience in the banking business which equips him well for the work here. The business of the Citizens National Bank is growing with the development of this trade territory, and it is well indeed that the management of that institution has been fortunate enough to secure the services of the Eagle Lake man.

LLOYD HAMILTON IS ARRESTED AT "GAY PARTY"

By United Press

HOLLYWOOD, Sept. 2. A charming wearer of the flaming silk pajamas confronted Hollywood police early Tuesday at the home of Lloyd Hamilton, film comedian. The pretty girl in negligee, whose name no one thought to ask, was ruling over a gay party of seven male guests of the actor, officers said when they came back from a hurried trip into Laurel Canyon district. The police visit was made at the urgent request of neighbors who could not stand the sounds of revelry which they say broke harshly into the usual calm morning. But the vivacious Miss who proved the "queen of the carnival" seems to have exerted some confusing influence upon the officers for they brought one prisoner back with them. They chose the host of the party, Hamilton himself, and locked him up on charges of drunkenness. The screen funster later was released when bail was posted. And officers are wondering if perhaps the pink pajama girl might not have had something to do with the scarcity of liquor in the house, for they found no evidence of any infringement of prohibition laws.

POULTRY CULLINGS IN EASTLAND COUNTY

EASTLAND, Texas, Sept. 2.—A series of poultry culling demonstrations are to be staged in various portions of Eastland county. The same will be conducted by H. H. Bush, county demonstration agent, and the same follows a call of numerous farmers in the county to aid them in culling their flocks.

Eastland county is becoming the leading poultry in the state. There are now five large public incubators operated in the county. One of the leading advocates of poultry raising here is Col. R. Q. Lee of Cisco, vice-president of the West Texas Chamber of Commerce.

BIG VOTE FORECAST IN WISCONSIN PRIMARY

MADISON, Wis., Sept. 2.—Fair weather throughout Wisconsin Tuesday pressed an extremely heavy vote in the state's republican primary—a contest expected to decide secondary leadership of the party.

Governor John J. Blaine, hearing the stamp of approval of Senator Robert M. LaFollette, party chief, who has broken away to make an independent campaign for president is seeking re-nomination. Blaine is opposed by L. Goy, George F. Comings, a LaFollette follower who challenges Blaine's right to second

THE DAY THE LADY AND THE TARTS

One story was my father's stock of laugh provoking wit. The lady saw the ginger child, and like a shot of pain she'd never see again; There came the memory of a boy she'd never see again; So to that archness of the street she hurried but and said: "Oh, could you eat a tart, my lad?" the rascal raised his head. His eyes stretched wide as eyes must do when pleasure from them darts, "Could I eat a tart?" said he. Yes, forty blooming tarts!"

I've heard that tale a hundred times aye, that and many more, With it my father used to set the table in a roar, He'd chuckle as he'd roll it out, that yarn he loved so well, We knew as soon as he began just what it was he'd tell; But like the pink pajama girl had for him, 'tis 'grooved upon our hearts, And memory links him with the boy, the lady, and the tarts

WOMAN RAN DOWN CHILD AND IS IN JAIL

TEXARKANA, Texas, Sept. 2.—When the 12-year old son of W. B. Weeks was run down and critically injured on the streets here, police lodged the woman driver of the erring automobile in jail. The lad sustained a fractured skull internal injuries. The woman, one of the first arrests of its kind in this section of the state involving the gentle sex, was unable to make bond of \$1,000 and was placed in jail.

HOUSTON POLICE IS THE CHAMPION OF HARD LUCK

HOUSTON, Texas, Sept. 2.—Policeman G. A. Lewis lays claim to the world's champion hard luck experience. Several months ago he sustained a broken leg when struck by a brick while arresting three intoxicated persons. Recovering sufficiently to hobble about on a cane he sprained his other leg when he jumped on the patrol wagon on a hurry call. On the first day of his return to duty after this accident, he was badly slashed in an affray with a negro. This was followed by two general bustups while making routine arrests, and the crowning bit of catastrophe occurred last week when a bottle of home brew that had been taken in a raid exploded in his hand, sending him to the hospital with several severe lacerations.

INCOME TAX FROM TEXAS SHOWS INCREASE

FORT WORTH, Sept. 2.—Federal taxes paid by Texas in 1924 amount to \$36,836,758.04, according to figures received here from the Treasury Department at Washington. Of this amount \$28,206,285 was for income tax and the balance of over eight millions and a half for miscellaneous taxes. The figures represent an increase of eleven percent over 1923.

ELKS PLAN HUGE CELEBRATION TO BOLSTER CHARITY FUND

HAIR RAISING SCENES OF BRAVERY AND TRICK RIDING UNDER DIRECTION OF "HACKBERRY SLIM" TO BE SHOWN

Lubbock Lodge No. 1348, B. P. O. E., next Friday and Saturday, Sept. 5th and 6th, will stage in Lubbock, the greatest rodeo performance and frontier celebration ever attempted in this section since the days of the Long Horn and the Mustang pony.

"Hackberry Slim" Johnson, whose name is synonymous with successful frontier celebrations, and Lee Ford, arena director, have arranged to bring their entire outfit, including the best talent in rodeo performers, trick riders, calf ropers, broncho busters, steer climbers, wild cow milkers, wild mule riders and bull doggers, who really know the art of bull dogging, to Lubbock on those days and assist the local lodge in putting over a real frontier celebration, similar in many respects to the yearly celebrations put over so successfully at the Fort Worth Stock Show, Cheyenne, Wyoming, Pendleton, Oregon, Calgary, Canada and Tampico, Old Mexico.

Included in the itinerary of "Hackberry Slim", aside from the large number of cow boys and cow girls, bucking bronchos, Mexican Long Horn steers, and other animal flesh so necessary to make the performance complete will be found a bunch of bucking buffaloes that absolutely forbid the rider, staying astride more than one minute. He also brings with him "Rodeo Pete Boyd" the cow boy pronounced by many to be the best broncho buster in the show ring now. At each performance the \$100,000 fund for the relief of the blind will be allotted that much of the money. Five boys, as his mount, "Contest Rambler" the highest bucking steer in captivity, will be there, and a prize of \$25,000 to the successful rider will be hung up. "Triger" the high jumping horse, will be on the program at each performance. Those who have witnessed the remarkable feat of this horse, that of leaping over and absolutely clearing a five passenger automobile loaded with people, state it is a hair-raising and a heart stopper.

Big Cow Boy Dance Each Night
After each night performance on the show grounds will be started an old time cow boy dance. A platform 75 feet square is being erected and a splendid orchestra has been retained to supply the music for the old and young alike. A carnival, with the many attractions has also been contracted for, furnishing ample entertainment for all.

Lubbock is now assuming the atmosphere of the days of '49' with spurs, flaring bandannas, chaps and a gallop of romances. More than two eddy herds of horses, steers, buffaloes, and other paraphensia have arrived. A parade will be staged each day at 1:30 p. m. Two daily performances, 2:30 and 8:30 p. m., at the Lubbock baseball park.

Funds Go to Elk's Charity Fund
A goodly portion of the proceeds derived from the celebration will go into the Elk's Charity fund, to be used during Christmas times, to provide for the underprivileged children of the poor and the needy, the sick and the afflicted, who would not otherwise enjoy Christmas.

TILDEN BEATS BILL JOHNSTON FOR TENNIS BELT

BY WESTBROOK PEGLER
WESTSIDE TENNIS CLUB, FOREST HILLS, NEW YORK, Sept. 2.—Little Bill Johnston, the flyweight Californian, a tennis star who neither parts his name in the middle nor adorns it with a little curl paper of numerals on the end, was whipped again Tuesday afternoon in the final round of the men's national championship, which this year confers the unofficial championship of the world. William T. Tilden II, the austere Philadelphian, met another audacious challenge from the bony little bantam from the western slope and spanked him again, this time with disdainful ease. The scores were 6-1, 9-7, 6-2.

If the guy could be pinched for trying, Johnston would have a police record as long as the case of characters in the battle of Gettysburg. This was the fifth time in five years that Johnston had clattered all the way from California to the eastern seaboard, fought his way through the withering contest of the preliminary rounds and stepped to Tilden in the final match, in each case tantamount to saying, "William T. Tilden II, my name's Bill and I've got an idea I can wallop you."

Tilden after winning his fifth championship in five years may now retire from the tournaments and clean the way for Little Bill Johnston in 1925. Tilden was having one of his moods on the day that this tournament began and announced that he was sick of it all, as the phrase goes in the movies to which he has betrayed himself sick of the sham and the unmet amateur athletic society and longing to go away west to Hollywood. He also wished to devote himself to writing about tennis, so that the little kid-ies now growing up in the remoteness of Wyoming, Idaho and such wild places might go out into the world with some knowledge of the game. There was a suspicion at the time that this was only a ploy to get a bit of publicity for his book on tennis which came out simultaneously. Any way, nothing has been said about the matter since and it is not yet certain whether Tilden is a departing champion for the coming year or a teacher of tennis.

However, should Tilden leave tennis flat, Little Bill Johnston might never become a champion. For although he was the one who went through to the final round in this tournament there is no question that Vincent Richards, a younger player by several years, gave Tilden a much harder fight on the preceding day, and Richards might beat little Bill from the title in years to come as Tilden has in the past. Tilden simply took the feet from under Johnston with the velocity of his shots, driven with the great power of his broad shoulders and tall sneaky frame. Time and again, the ball went whining across the courts so fast that Johnston with only a stonk to take to intercept it, was left flat-footed watching the white ball go past him. Or Little Bill would make a belated leap and barely clip it with his racket, sending it far out of the court or dropping it into the net.

The thing began ominously for Johnston. Tilden took the first game in about half a dozen strokes and it was over, 4-9 before the little fellow could get hold of one and make a decent return. In the second set, Tilden seemed to go in for strategy, and as he did, he became wild.

GIANTS SPLIT DOUBLE BILL WHILE DODGERS WIN TWO WITH PIRATES IDLE DRAWING NATIONAL RACE TO TIGHT RUN

By United News.
The National League pennant race has become so tight within the last few days that the American League marion which held the daily interest of Major league fans by its heated pennant battle between Washington and New York is assuming a position of secondary importance.

The late slip of the Giants, who have led the league practically all through the season had gradually whittled down New York's margin of leadership from ten games to a point where their ejection is expected momentarily. The Pirates in mid-season embedded in the second division, have risen to a threatening place of only one game away from the Giants. Uncle Robby's supposedly humble Dodgers are lavishing in the ratified atmosphere of third place, a close distance astern of Pittsburgh and very much in the pennant fight.

Tuesday's result made the situation even more tense than it was the day before. The Giant's clung to their one game lead by splitting a double header with the Braves in Boston. New York was beaten in the first encounter, 7 to 3, but came back to win easily by 10 to 2. While the Pirates were being confined indoors because rain wet their ballyard, the Dodgers surged another lap to the front by handling the Phils a pair of defeats in a double-header.

The Brooklyn Club won the first game, 12 to 9, and the second an abbreviated match which went only five innings because rain interfered, by 4 to 3.

These victories advanced the Robbins within one game of second place, and two games of first. Although the leading Senators did not play Tuesday, their one game and a half lead remained intact because the Yanks, who are in second place, got no better than an even break in another double-header with the Red Sox in Boston. Boston won the opening match by 14 to 6 while New York grabbed the other 5 to 2.

MANY UPSETS STAND OUT IN WOMEN'S GOLF PLAY

By United News.
NAYATT, R. L., Sept. 2.—Good golf and numerous upsets stood out in the first round of match play of the Women's National championship on the Rhode Island Country Club links. Miss Marion Hollins, former national champion, who was figured to be a certain survivor was defeated by Mrs. Dorothy Campbell-Burd, who also has held the national title by 4 and 3.

Miss Maureen Orcutt, a New Jersey high school girl also upset the odds by defeating Miss Frances Stebbins, of Boston. Mrs. Hurd and Miss Orcutt will meet Wednesday.

The other former titlists provided surprises by permitting themselves to be licked. Mrs. Ronald H. Barlow was beaten by Miss Bernice Wall, of Oshosh, 3 and 2, and Mrs. H. Arnold Bennett lost to Miss Mary K. Brown, a former women's national tennis champion 4 and 3.

Mrs. Fred Letts, Jr., of Chicago, collapsed from the heat during her match with Mrs. Jack Renwick, of New York, and was compelled to default although she was six up at the time.

JESS NEWTON SENT TO CHICAGO UNDER HEAVY GUARD

By United News.
SAN ANTONIO, Texas, Sept. 2.—Jess Newton, alleged \$2,000,000 mail robber was taken from the Bexar county jail Tuesday morning and started to Chicago under heavy guard of United States Marshals to answer a charge of participation in the Bondout, Illinois, hold-up, of June 12.

All information as to the time of the departure and route were kept secret by United States Marshal Walker. He, with three deputies, visited the county jail shortly before 11 o'clock and the prisoner was delivered to them by jailer Tom Donoghue.

He was handcuffed to two of the deputies, placed in an automobile and taken away.

"We will move with as much secrecy as possible," said Marshal Walker, "to avoid any possible attempt by his friends to free him by violence."

TWO KILLED IN COLLAPSE WOOD GRAVEL BIN

By United News.
HOLLYWOOD, Cal., Sept. 2.—Collapse of a huge wooden gravel bin at Hollywood, a residential suburb Tuesday, started a landslide of rock and sand which caused the death of two men and injuries to four others.

The dead:
BEN WAKEFIELD, N. G. SWANSON, laborers.
Chestor Ogilvie, of Burbank, Cal., may die from his experience of being buried under tons of lumber and crushed rock. He was extracted by workmen after two hours of digging.

Rescuers worked eight hours before the bodies of the two workmen were recovered. It was estimated that over 200 tons hurtled down the hillside after the gravel bin collapsed.

MEN AND WOMEN IN NEWS OF THE DAY.

MRS. BULA CROKER & LUIS FIRPO, BOSON. MISS JANET LEE & HENRY CURRAN

The pale blue racing silks of the late Richard Croker, former boss of Tammany Hall, New York, who died on his Irish estate, will be seen again, his widow, Mrs. Bula Croker, having decided to reopen his training stables at Glencabra, Ireland.

CHURCH OF CHRIST MEETINGS AT AUDITORIUM GO OVER MONDAY WITH BIG CROWDS, GREAT SERMONS

The Evangelist seemed to have been at his best and delivered powerful sermons at both the morning and evening hours.

The Monday night sermon was on "The Gospel, The Power of God Unto Salvation."

1. The speaker said that, Christ was offered as a sacrifice for the sins of the world.

2. The Gospel is the Power: Rom. 1 to 16, to bring us to Christ. In that sense it becomes the Power of God unto Salvation.

3. The Evangelist showed that man could hear, Jno. 5, 25. Matt. 13, 14, 15.

4. Man can believe Jno. 8:24.

5. Now led to believe. Ans. Act. 16:7. Rom. 10:17.

6. The Evangelist said that God does not break down will of man and thus force Salvation upon him, but Jehovah knew the needs of man and provided a plan by which man could yield and obey God. Heb. 5: 8, 9. Rom. 6:17.

7. Next, he said that, the world of God is the need of the Kingdom, Luke 8:11.

The "wayside ground mentioned in Luke 8th Chapter refers to the man who is lost, and in whose heart the seed was sown and received, but the Devil came and stole it away lest they should believe and be saved. This statement was further proven by quoting from the following passages Act. 13:14, 1. Ret. 1:22-25.

Hence the Gospel was preached by a living man to other living men, they accepted it and were saved.

The speaker showed from Luke 10th Chapter that the prodigal son was dead and made alive, was lost and then found.

No one who heard the Evangelist Monday evening could fail to understand that he believed, that the Gospel of Christ is the power of God unto Salvation.

The closing remarks were powerful appeals for sinners to think and act upon God's Commandments and promises.

The song services are a feature of the meeting in that most everybody sings.

Mr. Rice is an enthusiastic leader and has those pleasant characteristics which make every one want to join in the singing.

BRYAN BIDS FOR LABOR VOTE IN SOUTH DAKOTA

EL POINT, S. D., Sept. 2.—Governor Charles W. Bryan, of Nebraska, democratic candidate for vice president, made a bid for the farmer vote of the middle west here on Labor Day in his first speech since accepting the nomination.

"Common honesty" and "equality before the law" were the two issues upon which the younger Bryan based his plea for democratic votes.

"That great leader of the democratic party, that able lawyer and statesman who has had the ability to determine what is wrong at the present time and has had the courage to say so, John W. Davis, says the issue in this campaign is 'Common honesty,'" Bryan said.

"I want to add five words and say the issue is 'common honesty and equality before the law.'"

Governor Bryan attacked the "brass tacks" campaign of General Charles G. Dawes and the "common sense" slogan of President Coolidge declaring:

"My friend and former townsman, General Dawes, says 'This is a campaign of brass tacks' and our good president says that we must apply 'common sense.'"

"I say that the republicans have already got the farmer down to bed rock and it is time to apply honesty in government as well as in private life if the confidence of the people is to be restored and if the masses of the people are to enjoy prosperity, and contentment."

"Agriculture is not asking for alms," Bryan said. "The farmers of the country are not seeking information as to how to farm. They are not suffering on account of their own extravagance or lack of thrift. They want the handicap and the hobble which have been placed

on them by the republican administration removed.

"The farmers of the country are making the same demands that labor is making. The farmers are insisting that they shall receive a sufficient price for their products to enable them to live at American standards with a margin for old age."

All of these things, Bryan said, will come to pass if the democratic party is successful at the polls in November.

HEROES' NAMES WOULD BE CARVED

International News Service. STAMFORD, CONN., Sept. 2.—Guthrie Borglum, the world famous sculptor, now engaged in carving the proud record of the confederacy on the stone mountain in Georgia, is planning an even more colossal undertaking, commemorating the idea through out the union that will make it the most gigantic sculptor enterprise in the history of the world.

He had refused to reveal the site of the new monument but said his scouts were out seeking an entire mountain of granite on which he would chisel a memorial to Washington, who founded the great union, and of Lincoln who welded together, and all other national heroes.

The famous author said too many people were thinking in terms of Ford and Woodworths when this great nation deserves more gigantic things to represent its power and bigness.

GIRLS SEIZED AND ASSAULT WAS ATTEMPTED

International News Service. SAN ANTONIO, Sept. 2.—A party of jelly beans who seized two girls, one fifteen and the other thirteen, early yesterday evening and held them all night in a vain attempt at assault is being sought by the police today. The episode is one of the boldest that has ever been attempted in the history of the police records of this city.

The girls were seized on a down town street, and were pulled into an automobile and carried to a deserted house, from which place they escaped early this morning. Their clothes were almost all torn from their bodies.

The youths, one twenty-one and the other eighteen were taken into custody this afternoon in connection with the bold kidnaping of the two small girls during the night.

COX WILL STUMP COUNTRY FOR DAVIS

International News Service. WASHINGTON, Sept. 2.—James M. Cox, democratic presidential nominee four years ago will take the stump for John W. Davis this week hence and will campaign until election days, the democratic national committee announced.

Gov. Al Smith of New York may not be presidential timber, but he is a dead game sport.

TEXAS OIL COMPANY OFFICES ROBBED IN FORT WORTH

International News Service. FORT WORTH, Sept. 2.—For the third time in three months yeggs looted the safe of the Texas Oil Company offices here early this morning. The loot this time totaled about \$100.00. The work seemed to be that of experts as there was no damage done to the safe, and no tools were used in opening the safe.

CROSSINGS TAKE A TOLL OF FOURTEEN

International News Service. CHICAGO, Sept. 2.—Grade crossing accidents the past twenty-four hours has brought the total of fourteen lives. Today three more are believed to be dying, when two crashes were reported this morning early. Six were killed at Appleton Wisconsin when a Chicago and Northwestern passenger train struck a car at a crossing. Four were killed and three were fatally injured in a Chicago, Rock Island Flyer crash this morning.

MCCOY PLEADS NOT GUILTY TO CHARGES

International News Service. LOS ANGELES, Sept. 2.—Standing with squared shoulders and smiling slightly, Kid McCoy pleaded not guilty to the Grand Jury indictment charging him with the murder of Mrs. Moses and on four counts of robbery and three for assault to murder today. The trial is set for October 20th, on a plea for more time by the defense.

CHINESE FACTION FIGHTING AT NANKING

SHANGHAI, Sept. 2.—Fighting between rival Chinese factions has broken out in Nanking. At Nanking the troop concentration have been the heaviest as given by today's reports.

All rail connection between Shanghai and Peking have been paralyzed on account of about fifteen miles of track being torn up near Shanghai. The telegraph communication also disrupted.

ONE BANDIT GETS AWAY WITH CASH

International News Service. CINCINNATI, Sept. 2.—In one of the boldest and cleverest daylight holdups, in the history of Cincinnati police records, a lone bandit obtained \$25,000 in cash and jewelry today when he entered the Sterling Jewelry store near the busiest corner in the city and swept up the loot and made his escape. He covered the employees with a revolver while he gathered in the valuable articles in the store, and also relieved the safe of the cash.

WALTER POSEY IS APPOINTED CO. TREASURER

Mrs. W. Hardy has taken charge of the work in the County Treasurer's office, relieving J. S. Slover who recently offered his resignation.

Walter S. Posey, of the Lubbock State Bank, was appointed treasurer by the commissioners court and has employed Mrs. Hardy as deputy treasurer who will probably serve until the first of January when Mrs. Hattie Stoker, who was elected to that office in the recent Democratic primary, will take charge of the office.

Mrs. Stoker is reported to be in ill health at this time else would have taken charge of the office as deputy treasurer.

Ministers in the Connecticut Valley prayed for rain last Sunday that the tobacco crop might be saved. But that, of course, need not prevent the preaching of sermons against smoking and chewing.

WORK RESUMED IN DISTRICT COURT

Work in the 72nd Judicial District Court was resumed Tuesday morning after having been inactive since Saturday when announcement was made that Labor Day would be observed by the court due to the fact that six of the petit jurors summoned to appear for court duty Monday were union men and were entitled to the proper observance of that holiday.

The case of Ed F. Mann vs L. B. Wright, et al, involving the title to certain properties, was taken up, and work continued on this case through the greater part of the day.

One of the main objections to another war seems to be that it would be followed by another peace conference.

Outlook for Farm Prices

WHOLESALE PRICES DURING THE CIVIL WAR AND WORLD WAR PERIODS (FOR THE CIVIL WAR 1862 TO 1865-1866, AND FOR THE WORLD WAR 1913 TO 1914-1915)

Will prices go up or down, or remain stationary during the next decade? If you know the answer to that question and know how to take advantage of the situation, it would mean money in your pocket, according to the Sears-Roebuck Agricultural Foundation.

Dr. G. F. Warren, agricultural economist of Cornell University, has collected evidence on the price trend to be expected. He finds prices are setting in almost exactly the same way they did following the Civil War. The price level following the Civil War continued to fall for 12 years. Dr. Warren believes price levels in the United States will again act in this way.

The present huge supply of gold has much to do with the situation. Great Britain alone has sent to the United States since the beginning of the war more than \$1,300,000,000 worth of gold—nearly a quarter of all the gold money in the world. Before long, Dr. Warren thinks, Europe will take her gold back. Even prices will go down.

While here they conferred with E. H. Esch, president of the local League whom they urged to enlist a large delegation of local leagues to attend the conference at Brownfield.

BOY STOLE COAT FROM MAN WHO HELPED HIM

International News Service.

SAN ANTONIO, Texas, Sept. 2.—J. C. Campbell is dubious of the Good Samaritan theory.

After coming upon a travel worn youth as he was returning from an overland trip to California, Campbell invited the boy into his car, drove him from West Texas to San Antonio, paid all of his expenses, took him into his home here, clothed him and gave him two dollars, the boy stole Campbell's overcoat and left town.

He later mailed a pawn ticket bearing a \$5 quotation back to Campbell with a note that he could recover his coat by redeeming the pledge.

MARKETS

MARKET FEATURED BY JUMP CALL MONEY RATE

By EDWARD CONDLON.

NEW YORK, Sept. 2.—The post holiday market was one of surprises in the first place it was surprising to note how quickly a boiling market, such as Saturday's proved to be could subside. The Tuesday turnover amounted to a scant three quarters of a million shares. The second rather surprising event was the sudden jump in the call money rate to 3 per cent from the 2 per cent level which has prevailed since early in July.

This leap in the money rate undoubtedly took much of the edge off trading in the final hour of business, sending such industrial leaders as U. S. Steel, American Can and Baldwin Locomotive substantially lower although the loss for steel common was held to a fraction. However, new highs were recorded by Postum Cereal Maxwell Motors and the "B" stock, Fleischman Galt Sulphur. The railroad issues held their own throughout the day, the average showing but a trifling decline.

Missouri, Kansas and Texas and St. Louis and San Francisco reached new high ground in fairly active trading. In connection with rails, one of the most interesting developments of the day was announcement that stockholders of Chesapeake and Ohio and others of the roads including the proposed Nickel Plate merger who do not agree to the plan of consolidation will be recognized in the new system if affected and receive benefits accruing as well as the larger holders.

The unexpectedness of the upward movement in Money rates is explained by the sudden withdrawal of certain funds from this center by interior banks which require money at home to finance the harvest. The government's billion dollar turnover of funds on September 15, with the note and interest payments and income tax receipts, may occasion a temporary stiffening of money rates, but it is hardly probable that Monday's gain was due to anticipation of the mid-month turnover.

For the first time in months New York's call money rate exceeded that at London which registered a 7 1/2 per cent. However, it was due to the shortness of supply rather than to an increase in the demand that forced up the rate for bonds, foreign exchange and the commodity markets on Tuesday found trading very light at times.

so that demands made upon the money market was relatively small. The quick disposal of the \$30,000,000 Belgian bond issue speaks well for public interest in foreign issues and may presage a good demand for future foreign issues which will include a French loan of 90,000,000 gold marks by Germany as the first installment on the initial service of the loan serves not only to draw attention to the proposed loan but creates a certain impression that Germany at least means business after her record in carrying out the stipulations of the treaty of Versailles.

GRADER STARTS ON MORNINGSIDE ADDITION

Graders have been working the last two days on the streets in Morningside addition—the addition that is being developed South of the City by W. B. Bush and M. P. Leair of this city. "Lots are still selling," said Mr. Bush, "and we intend to fully develop this addition this fall." Morningside Addition is one of the most beautiful residential sites so far offered about Lubbock. Several real nice homes have been erected there since it opened and prospects for further development are bright.

Mr. Bush stated that two lots were sold Monday over Long-distance telephone to a man named Jones who said that he was moving to Lubbock just as soon as his children completed their high school course at Abilene and build a bank and send them thru the Tech College.

The campaign gives promise of little humor, but still LaFollette is better than no fun at all.
