SENATOR LODGE AT POINT OF DEATH

Negro Given 50 Years For Attack on White Woman

JURY RETURNS VERDICT AFTER 2-HOUR SESSION

NEGRO FOUND GUILTY OF ATTACK ON WOMAN IN ACUFF COMMUNITY

Willie Hall, 18 year old negro, who faced trial in the 72nd Judicial district court here yesterday charged with assault with intent to rape upon Mrs. Mattie Rush, wife of a respected farmer of the Acuff community last Thursday, was found guilty by the jury and sentenced to serve a term of fifty years in the state penitentiary.

The jury received the case at 9:30 o'clock and deliberated an hour and forty-four minutes.

Throughout the special trial, which was begun early Thursday morning and the evidence of which was gone into after the noon recess, the district court room was crowded to capacity, there never being a time when at least 250 people filled the seats and lined the walls. Acting Special Judge Parke N. Dalton, attorney elect of the seventy-second judicial district, warned the audience at the outset of the trial that no display of violence would be tolerated and that the law would be enforced.

The case is the first of its kind that has ever been tried in the Plains section and ever since the apprehension of the negro a feeling of unrest has existed throughout the county. Sheriff H. L. "Red" Johnston, the same of the Ross-Good trial fame, has had his force organized at all times and handled the situation admirably. In order to leave every avenue against violence guarded Johnston secured the services of Sheriff John McDermitt, of Crosby county, and Sheriff John Keller, of Yoakam county, two of the outstanding peace officers of West Texas, to aid in the handling of the prisoner. City policemen were also pressed into service and never since the completion of the famous trials of Milt Good and Tom Ross here has such precaution been exercised in upholding peace and order.

Prosecuting the case was the veteran District Attorney Gordon B. McGuire, whose arguments resulted in the conviction of Ross and Good, with Owen W. McWaters, Lubbock county attorney, one of the outstanding young prosecutors of West Texas, as his assistant. Arranged against the veterans of many a hectic legal skirmish, were three young local attorneys, each going through his baptism of fire before a court of law. Appointed by the court to defend a negro charged with a heinous crime against a respected white woman.

The three young lawyers, Vaughn E. Wilson, Robert H. Boat and Franklin D. Brown, all of them sincerely out of their teens, put up a defense that surprised the court and its spectators.

TEXAN FOUND DEAD NEAR RAILROAD TRACK IN OKLA.

MUSKOGEE, Okla., Nov. 6.—The body of a man, identified as E. D. Dunlap, of Denison, Texas, was discovered about the railroad track near Taft, Okla., by a freight train crew of the Midland Valley today.

The body, bruised about the face and with a bullet wound in the hand was brought here and held pending a coroner's inquest.

Mystery surrounds the manner in which Dunlap met his death. Detectives investigating the case, however, declared tonight that they believed the man had been shot while riding a train and then thrown to the ground where the body was found.

ELECTION RESULTS PLEASES STANLEY BALDWIN.

Stanley Baldwin, Tory leader, and one of the richest men in England, is shown with Mrs. Baldwin in the garden of their home near London, stated after the recent general election, which will return Baldwin to No. 10 Downing Street as the next British Premier.

TAX REDUCTION AGAIN BOBS UP

TWO PLANS ARE SUBMITTED TO BRING ABOUT FURTHER CUTS

By THOMAS L. STORES. WASHINGTON, Nov. 6.—Tax reduction, a welcome subject to millions of Americans, bobs up again with the elections over and the line up in the new congress settled. Talk of further reductions than those made last session has begun already.

There were two starters here Thursday, coming almost before the final returns trickled in.

1. A plan whereby surpluses in the treasury would be applied immediately to reduction of taxes whenever they occurred was suggested by representative Madden, of Illinois, chairman of the house of appropriations committee.

2. Word came from the treasury that Secretary Mellon will include a recommendation of the tax plan which bears his name in his annual report to the president. Madden plans to embody his idea in a bill which would require the treasury to report surpluses when they appear and would empower the president to reduce taxes automatically in the proportion of the surpluses.

Thereby the tax payers would keep up a constant agitation for real government economy. Madden said.

"The way to save the government money is to keep the government hard up." While these opinions indicate the trend of thinking along the taxation line, it is unlikely that there will be any immediate action. The short session of congress hardly will touch taxation, but will confine itself to the numbers of appropriation bills which must be passed. This congress, if any rate, would not treat kindly any further suggestions for reduction along the lines laid down by Mellon.

The president, however, in his annual message to the old congress in December, is expected to present his views on taxation, and reiterate his appeal for reduction of surtaxes. He has stood straight through for the Mellon plan and in his last address before elec-

(Continued on Page 2)

JAPAN RESENTS U.S. MANEUVERS

WAR INEVITABLE IF PLANS FOR OPERATION CARRIED OUT, PAPER CLAIMS

By United News. OSAKA, Japan, Nov. 6.—War between the United States and Japan will be inevitable if the American navy maneuvers planned for January bring the Pacific fleet into the Hawaiian Islands in fighting trim, according to a protesting editorial in the conservative Yomiuri newspaper.

"The purpose of the maneuvers doubtless is to study how to fight Japan," the Yomiuri says. "The only point differentiating the maneuvers from actual warfare is that the fleet does not proceed to Hawaii direct from the Philippines. If the fleet should do this the maneuver would be regarded as one of open hostility to Japan to the tactical point of view."

"Japanese suspicion toward the United States already is at a climax, and the untimely navy maneuvers make the matter worse. Preparations of the American navy in the Pacific last summer were detrimental to the strained relations between the two countries."

The Yomiuri refers to the speech of Secretary Wilbur, of the Navy Department, who recently declared that coal steel would cool hot passions. After detailing the preparations being made for the occupation of Hawaii by the American fleet, the Yomiuri declares: "Occupation of the Hawaiian group of islands by the American fleet will be regarded as indicating a belligerent spirit and the cruise of the fleet there in fighting would make war inevitable."

LAMESA LEGION WILL CELEBRATE ARMISTICE DAY

LAMESA, TEXAS, Nov. 6.—The Lamesa Post of the American Legion has arranged a program for November 11th, in celebration of Armistice Day. A parade, headed by the Lamesa Chamber of Commerce Band will be staged. An appropriate service will be given at eleven o'clock following which a banquet will be served for the Legion members and their families.

TECH JUBILEE INTEREST HIGH AS TIME NEARS

SENATORS WOOD AND WITT ACCEPT INVITATIONS TO CELEBRATION

With the near approach of November 11th, when the laying of the cornerstone of the Texas Technological College will be held increasing importance is attached to the event by the acceptance of many distinguished men and women of the state, of invitations extended them by the board of regents of the school. Senator W. H. Blodgett, member of the State Senate from this district who was re-elected to this office in the late primary and the recent general election stated Thursday afternoon that Senator A. E. Wood of Williamson county had accepted the invitation of the Board of Regents to be present on Armistice Day. The senator also stated that Senator Edgar E. Witt of Waco would be present. Both of these members of the state senate are regarded as not only warm friends of the Texas Technological College but are considered thoroughly imbued with the idea of making the youngest of the state educational institutions one of the largest of its kind in the entire southwest. It is felt that the presence of these men on the ground where actual work on the various buildings is taking place will lend added impetus to their interest in fostering the future development of the school.

It has not been definitely learned whether Mrs. Ferguson newly elected governor of Texas, will be able to be in Lubbock for the Tech jubilee or not. It is probable that the strenuous campaign through which she has just passed may necessitate her not being here. An early visit to Lubbock may be expected of her, however, as it is believed she will be a staunch supporter of the new school in furthering the objectives of the Tech College.

Advices from Fort Worth indicate that there will be at least two pullmans of Fort Worth boosters in Lubbock for the Armistice Day event. It is understood that Amon G. Carter of Fort Worth who is chairman of the Board of Regents of the Texas Tech is bending every effort towards having as large a representation from his home town here as possible. The present outlook is extremely bright for a large gathering in Lubbock from practically every section of the state.

All committees are reported as progressing in good fashion and every citizen of Lubbock and surrounding territory will pause on this day to make these visitors feel the broad and hospitable spirit that prevails in this section. Practically every town within a hundred miles radius of Lubbock has notified the committee that they will be represented here. Ross D. Rogers, manager of the Board of City Development of Amarillo, has expressed himself as not only expecting to be here but that a large group of Amarillo people will be here. Littlefield will be here with approximately a hundred cars, the Littlefield band, and hundreds of Littlefield citizens according to information received here late Thursday afternoon. Lockney, Lamesa, Plainview, Memphis, Post, Ralls, Muleshoe, Brownfield, Slaton and other towns have all been heard from and indications point to representative gatherings from all points.

The order of parade will likely be published not later than Monday in order that each town may fall in the parade in a designated position and carry with it the idea that all West Texas is for the Texas Technological—one hundred percent.

DALLAS BAND VISITS STUDENTS AT C. I. A.

DENTON, Nov. 6.—The Hella Temple band of Dallas played before the students of the College of Industrial Arts last Saturday night in the college auditorium. Two thousand persons were in attendance.

New Pastor Local Methodist Church

REV. E. E. WHITE

WHITE TO LEAD LOCAL CHURCH

NEW METHODIST PASTOR WILL ARRIVE HERE NOVEMBER 15TH

Rev. E. E. White, for the past three years pastor of the First Methodist Church at Waco, will arrive in Lubbock November 15th to take up his work as pastor of the local First Methodist Church.

Rev. White is well known throughout Texas, and members of the local congregation are pleased that he will be identified with the work here, and he is assured of receiving their heartiest co-operation.

Rev. White will by no means be a stranger in this section. His first appointment in the Northwest Texas Conference was at Spur, where he labored four years, during which the church prospered, great interest having been taken in all branches of the church, more especially the Sunday School, during his work there.

Following his four years faithful service in the church at Spur, Rev. White was called to the Sycamore Heights Church at Fort Worth, and the Gray Street Church at Dallas.

To give the readers some idea of the valuable work achieved at Waco by the newly elected pastor of the local church, we offer the following article taken from the Waco News-Tribune:

Rev. E. E. White, pastor of the First Methodist Church for the past three years, and Rev. W. B. Vaughn, pastor of Herring Avenue Methodist Church the past year, have been transferred to the Northwest Texas Conference, the former to be stationed at Lubbock and the latter at Chillicothe.

Announcement of the change was made Monday by Dr. C. R. Wright, presiding elder of the Waco district of the Central Texas Conference. The change will be made just as soon as the places in Waco are filled by the Central Texas Conference at Brownwood next week.

Rev. E. E. White has been in Waco three years, and has had wonderful success at First Methodist Church, that church having grown very rapidly indeed in all departments. He came to Waco from the Northwest Texas Conference and is now being transferred back. Lubbock is a fine charge and in addition to its prestige the pay is \$4,500 a year.

The Chillicothe charge is an important one, and Rev. Mr. Vaughn will fill it next conference year, leaving here within the next two or three weeks.

During the time that Rev. Mr. White has been pastor of the church there have been added 750 persons to the membership; two additional paid workers have been added, and the financial budget almost doubled, while various departments have functioned unusually effectively.

LITTLE HOPES FOR RECOVERY HELD BY PHYSICIANS AFTER RUPTURE OF BLOOD VESSEL

CAMBRIDGE, Mass., Nov. 6.—Senator Henry Cabot Lodge was still battling for his life at the Charles Gates hospital here late Thursday night, with little hope for his recovery held out by his physicians.

At 11:20 p. m. Dr. Frederick Winslow, one of the attending physicians, announced that the patient's condition remained unchanged.

"There is no change in Senator Lodge's condition," Dr. Winslow said.

"He is very gravely ill. Senator Lodge has been unconscious since Wednesday noon when he suffered a stroke of paralysis resulting from the rupture of a blood vessel in the brain. Until the unexpected stroke came he was believed to be recovering from the effects of two operations recently performed for a bladder ailment.

Members of the Lodge family who had gathered at the hospital during the day left late in the evening but were to be called if the senator's condition became worse before morning.

At 6:30 in the evening the patient's condition was described as unchanged in a bulletin issued by Doctors John H. Cunningham and Frederick Winslow, the attending physicians.

"No decided change during the day. Outlook most favorable," it said.

Earlier Dr. Cunningham said he might linger in his present condition for days or he might die at any minute.

There is little that can be done for him in a medical way, the physician added, "as everything known to surgery and medical science has already been done."

The sudden collapse of the 74 year old statesman Wednesday was entirely unexpected. He was operated upon twice for "prostatic obstruction," the second time October 20. On both occasions he showed remarkable physical strength and power of recovery.

Toward the end of last week, however, he seemed to weaken slightly and at noon Wednesday he suddenly lapsed into unconsciousness.

Through the day members of the senator's family remained near his bedside, awaiting some feeble sign of recognition.

SEVEN SUBMITTED TO FILL PLACE OF WALLACE

CHICAGO, Nov. 6.—The names of seven suggested as candidates to succeed the late Henry C. Wallace as secretary of agriculture, are being submitted to president Coolidge by the American Farm Bureau Federation from which President Coolidge invited such suggestions.

The recommended are: Frank O. Lowden, former governor of Illinois. It will be recalled that Lowden has refused the post in the past.

J. R. Howard, former president of the American Farm Bureau Federation.

H. M. Gore, acting secretary of agriculture; J. W. Coverdale, Secretary treasurer of the Grain Marketing Association.

M. B. Lincoln, secretary of the Ohio Farm Bureau Federation.

L. T. Tabor, national manager of the Grange.

Dr. Arthur Gilbert, secretary of the Massachusetts state farm bureau federation.

BROOKHART RE-ELECTED IS OFFICIAL STATEMENT

By United News. DES MOINES, Nov. 6.—Colonel Smith W. Brookhart has been re-elected to the United States senate by a plurality of 1,529 votes, it was announced officially late Thursday. Brookhart had been lagging behind his democratic opponent from the start, until an error in his favor, discovered in the afternoon placed him several hundred votes ahead. Since that time his lead has steadily increased. The complete figures: Brookhart 447,599; Stock 446,001.

J. S. PENNY DIED HERE THURSDAY

SUCCUMBS TO STROKE OF PARALYSIS IN LOCAL HOSPITAL

Joe Styles Penny, age 47 years, seven months and three days, died at a local hospital Thursday morning at 5:10 o'clock, thirteen hours after he had been stricken with paralysis.

At four o'clock Wednesday afternoon while talking with A. V. Weaver and others in Weaver Brothers office in the Conley building, Mr. Penny suffered a severe stroke of paralysis that for a while rendered him unconscious.

He was rushed to the hospital where every attention was given him and for a while his recovery seemed assured. However, death occurred following a choking spell despite all that could be done for him.

The deceased was an employee of the Long-Bell Lumber Co., where he had been employed for eleven years. He has been a resident of Lubbock for the past twenty six years, during which time he has enjoyed the friendship and highest esteem of those with whom he was associated.

He is survived by his wife, two sisters, four brothers and his mother, Mrs. W. E. Penny, of Lubbock.

His brothers are John and R. T. of Lubbock, R. E. of Roaring Springs and Barrett, of Morton. His sisters are Mrs. J. C. Enright, of Lubbock and Mrs. W. E. Powell, of Lubbock.

Funeral services will be conducted at the family home at the corner of 14th street and Avenue K, at two o'clock this afternoon by Rev. Andrews, rector of the Episcopal church of Plainview. Interment will be made in the Lubbock cemetery immediately following.

Pall bearers are: C. A. Keem, Ross Edwards, Jack Randall, Ed Haynes, Raymond Allen, J. O. Smith, J. L. Stinson and J. H. Jones.

TWO MORE DEATHS BRING TOTAL OF PLAGUE TO 28

By United News. LOS ANGELES, Nov. 6.—Two deaths Thursday brought the total number of lives claimed by the pneumonic plague to 28. Two new cases of the disease were reported in the daily statement given out by W. M. Dickie, secretary of the state board of health and director of the eradication campaign. According to Dr. Dickie's announcement, there are now nine living patients, who have been stricken. These are in isolation at the general hospital. There have been no evidences of the malady outside the originally infected area, where the pneumonic infection first appeared on October 19, the statement declared, adding that "the situation is satisfactory."

Newly all of the epidemic victims have been Mexicans.

WEATHER

Geo. M. Hunt Parent-Teachers' Club Met Thursday

The Geo. M. Hunt P. T. A. enjoyed a very interesting meeting at the school last Thursday at 3:30 p. m. A beautiful Artistic Day Program was rendered by the pupils of the low third grade.

A number of important business matters were attended to and plans made for the improvement of the school.

The teachers will sell pies twice a week at the school and the mothers will furnish the pies. It is to be hoped by this means to raise funds sufficient to liquidate all the present debts of the club.

The club voted unanimously to buy the records for the music appreciation contest for this school. This was very much appreciated by the teachers in this work.

Mr. Wilford very ably discussed the duty of the parents and teachers when a child's first report card shows failure. Mrs. Sowder gave her report on the subject and Miss Alexander read a very touching little poem on "The Boy Who Didn't Pass."

Mothers, you are missing a great deal by not attending these meetings. Come and help us in the good work.

Reporter.

Ruth Mildred Rylander Has Birthday Party

Little Miss Ruth Mildred Rylander charmingly entertained a large number of her friends with a Halloween party last Friday. This was also a birthday party and all black cats, witches and other things were present for her. She is a real Halloween girl.

The guests came in costumes, masked and amid much excited merriment had their fortunes told and sipped the cat's tail.

Very thrilling games were played and at 10 o'clock cake and cream were served.

Mrs. Copeland is Given Delightful Luncheon Thursday

Mrs. Mauna Cosby gave a delightful luncheon party Thursday for her mother, Mrs. W. N. Copeland who leaves today for Espes where she will live in the future. A group of a dozen close friends enjoyed turkey and all that goes with it, and had a rare afternoon pleasure visiting with each other. This was in no sense a fare-well for everyone feels that Mrs. Copeland will be in Lubbock for many such parties during the winter, tho all regret that she will not be here constantly as in the past.

Mrs. Copeland was given a shower of dainty handkerchiefs just as the guests were being seated at the dinner table.

Those present were: Mrs. Hub Jones, Mrs. F. E. Friend, Mrs. L. A. Posey, Mrs. W. B. Spencer, Mrs. E. E. Perkins, Mrs. F. E. Butler, Mrs. W. H. Meador, Mrs. Walter Posey, Mrs. Rocco Wilson, and Mrs. Percy Spencer.

THE PHILATHEA CLASS OF THE METHODIST CHURCH

The Philathea class of the Methodist Sunday School held a delightful social meeting on Monday evening with Miss Mary B. Hood.

The guests spent the evening in sewing, some for the little girl in the West Texas Orphanage and others making dainty Christmas gifts.

At the close of the evening a dainty salad course was served.

BUILDERS CLASS OF METHODIST SUNDAY SCHOOL

A very delightful meeting of the Builders class of the Methodist Sunday School was held Tuesday evening at Mrs. Moreman's home with Mrs. Moreman and Mrs. Sid Wells as hostesses.

A business session was held in which it was reported that the class had spent \$27.55 during the year, had paid two hundred on the pipe organ and had supported an orphan boy.

The class will buy curtains for the class room this month. Mrs. Robinson spoke very instructively on conference work and at the close of the meeting sandwiches, cake and chocolate were served to the following members:

Mrs. C. H. Smith, Mrs. H. R. Scott, Mrs. Mamie Neal, Mrs. Stella T. Brown, Mrs. Leona Gray, Mrs. Mary E. Dineen, Mrs. Anna G. Gentry, Mrs. Charles, Miss Edna Gray, Mrs. Edna, Mrs. F. P. Sizemore, Mrs. Ruth, Mrs. Tom Foster, Mrs. F. V. Robinson, Mrs. B. J. Mosey, Mrs. Gail, Mrs. Hester, Mrs. J. M. Davis.

PERSONALS

Mr. Mauna Cosby and his mother Mrs. Cosby, who are in business in Wichita Falls, this week, left Lubbock Wednesday for Fort Worth and Eastland where he has legal interests.

County Tax Collector I. F. Holland returned Wednesday morning from Bryan, where he went to be at the bedside of his brother, E. B. Holland, who underwent an operation for appendicitis there early in the week. The Bryan man visited I. F. here two weeks ago.

TAX REDUCTION AGAIN BOBS UP

(Continued from Page 1)

tion before the chamber of commerce, here, he again urged the necessity of cutting tax rates to a lower figure.

The president may call a special session of congress some time after March 4 to consider further reduction of taxes in keeping with the plan he has made, and not wait until the regular session begins in December, 1925. His recommendations to the next congress, it is believed will embody a still further reduction in the average man's taxes, with a cut of perhaps 25 percent as a maximum for surtaxes, now at 40 percent.

The republicans, it is true, have made gains in both house and senate, but whether these gains are of such character as to insure sympathetic treatment of recommendations for substantial reduction in surtaxes still remains to be seen. Even staunch administration members, like floor leader Longworth of Ohio, would not follow the appeal of Mellon and Coolidge for a cut of surtaxes to 25 percent in the last congress.

It is certain, of course, that congress will not need any urging to reduce the average man's tax still further and it is rather definite that this reduction will come, provided there is a surplus to warrant it, and this appears reasonably sure.

PRESBYTERIANS CLOSE REVIVAL AT PLAINVIEW

PLAINVIEW, Texas, Nov. 6.—The two week revival at the Presbyterian church closed Sunday night. Rev. John White, pastor, has been

preaching and Mr. and Mrs. R. G. Fraser had charge of the music.

The pastor reports that the increase in Plainview's population is being distinctly felt in the Sunday School as well as in every other organization of the church.

ORPHANS' HOME THREATENED BY FIRE THURSDAY

At four o'clock Thursday afternoon the frame structure occupied by the West Texas Childrens Orphan Home, was threatened by flames when fire spread from a trash accumulation that was being burned to the building.

Members of the Lubbock fire department were called to the scene and extinguished the flames before any material damage was done.

WHITE TO LEAD LOCAL METHODIST CHURCH

(Continued from Page 1)

ably the largest auditorium of any church building in the conference. Also the new parsonage cost about \$10,000 and is very modern. Lubbock is now regarded as a strategic center.

The Waco Times-Herald had the following to say concerning Rev. White's work in Waco and his departure for Lubbock:

Transfer of Rev. E. N. White, pastor of First Methodist Church, and Rev. W. B. Vaughn, pastor of Herring Avenue Methodist Church from the Central Texas to the Northwest Texas Conference is announced by Presiding Elder C. R. Wright.

Rev. White will leave his Waco pastorate after three years of successful service to take the pastorate at Lubbock, a charge that is destined to increase in importance with the opening there of the Texas Tech college. Rev. Vaughn will go to Child-

UNION OFFICIALS RULING IS UPHELD IN CHICAGO

By United Press
CHICAGO, Nov. 6.—The ruling of the United States Railroad Board to compel union labor officials to appear before it, was upheld Thursday by Judge J. H. Wilkerson in federal court. In view of the fact that railroad labor union officials have previously refused to appear before the board, the ruling is of sweeping effect.

Judge Wilkerson's ruling was on the case of D. R. Robertson, of Cleveland, president of the Brotherhood of Locomotive Firemen and engineers and J. McHugh, of Chicago, chairman of the grievance board of the Brotherhood of Locomotive Engineers on the Chicago and Northwestern.

Both were among 105 men who refused summons of the board to testify in cases between the Chicago and Northwestern railroad and the Union. The railroad labor board asked the court to force them to testify and pleas were entered on their behalf. The pleas were denied by Judge Wilkerson Thursday. Donald Kieburg, attorney for the two union officials has announced that he will appeal the case to the circuit court of appeals.

BEST PANTOMIME EVER STAGED WHEN CAR STOPS SUDDENLY

By United Press
HOUSTON, Texas, Nov. 6.—It took three youths and a street car conductor, T. Z. Timmons, just three minutes to stage one of the best little pantomimes ever presented in the city.

Timmons was outboard with his car when the power went off. He alighted to replace the trolley and stopped before the muzzles of three pistols. There was not a word spoken, according to Timmons, who said he understood perfectly why the three hijackers were there.

The traction company lost \$36 and Timmons \$20.

Mr. Mauna Cosby and his mother Mrs. Cosby, who are in business in Wichita Falls, this week, left Lubbock Wednesday for Fort Worth and Eastland where he has legal interests.

MASSACHUSETTS TO PLAY BIG PART IN GOVERNMENT

WASHINGTON, Nov. 6. The election has been a complete vindication for Massachusetts and for the next four years the state will have a good deal to say about how the rest of the country lives. Several years ago, Calvin Coolidge wrote a book entitled "Have Faith in Massachusetts" but he probably never dreamed that his injunction would be so literally obeyed by 16,000,000 voters.

It is hardly fair to the president to say that Massachusetts will "run the country," but the fact is that several of the most important seats of power at Washington, in addition to the white house itself, will be occupied by sturdy sons of Massachusetts. Two of them probably will be found in the cabinet, unless Secretary of War Weeks should resign and return to his brokerage office in Boston.

Weeks was brought into the cabinet by President Harding, but Coolidge has found him such a vigorous political adviser and he is so popular personally among the officers of the war department that the war department will not be inclined to lose him unless he insists upon returning to private life.

Weeks, having been a member of congress and a senator is an adept at dealing with congress in the matters of appropriations, and is a distinct asset to the white house in this respect.

Another Massachusetts member of the cabinet is almost certain to be Wm. A. Butler, the mill magnate, who tried out hard-balled business methods in his own big Coolidge's campaign. In accordance with the traditions, he should go into the post office department, but Coolidge may put him somewhere else. Butler was somewhat of a shock to the old time republican politicians. For years he had been a man of business affairs, and such political business as he found it necessary to do in Massachusetts was usually done by issuing orders to politicians who had to obey.

Butler thought he ought to run the national campaign the same way and he proceeded to do so, much to the consternation of various state leaders who had always been accustomed to holding lengthy hotel conferences before deciding upon anything, if at all. They didn't like the idea of this New England business man giving them orders as if they were his foreman. And Butler did not even stop them on their backs and tell them funny stories to help make them like it. They just had to obey. However, Butler does not seem to have lost any states by these hard-balled tactics.

Then we have also Senator F. H. Gillett, late speaker of the house or representative. Gillett had a big talk in the house, but he probably will have more actual influence in the senate. The speaker of the house nowadays is the creature of the rules committee, so Massachusetts really gains in national influence by placing Gillett in the senate and the republicans incidentally acquire a much needed vote for jobs against the insurgents in the upper house.

Senator Lodge if he recovers from his present grave illness, will continue as majority leader in the upper house.

One other son of Massachusetts may be drawn into a more responsible position, Edward F. Clark, now personal secretary to Coolidge, probably would be his presidential secretary should Weeks retire as is expected. The president's secretary is a man of considerable influence in national affairs. Clark was formerly secretary to Lodge and was secretary of the vice president, when Coolidge held that office.

FERGUSON LEAD IS CUT TO 26,559 IN 59 COUNTIES

DALLAS, Nov. 6. According to incomplete returns counted here today by the Texas Election Bureau for 59 counties, Mrs. Miriam A. Ferguson, democratic gubernatorial nominee, received a majority of 26,559 over Dr. Geo. C. Bette, republican nominee. There are 93 counties yet to be counted. This will be announced tomorrow the bureau stated.

County	Bette	Ferguson

ROBERTS ASSAILS TESTIMONY OF NAVY CHIEF

LOS ANGELES, Cal., Nov. 6. Defense testimony offered by Rear Admiral J. K. Robison chief of the navy engineering bureau, was assailed vigorously by the government Thursday in the oil-lease cancellation suit now being tried here in Federal court.

Admission of Robison's vagueness on facts connected with E. L. Doherty leases in the Elks Hills naval oil leases were obtained in a strenuous cross examination conducted by Owen J. Roberts, assistant government counsel.

Robison said that secrecy concerning arrangements for Pearl Harbor storage construction work was decided upon just before the contracts were signed Roberts presented a deposition, made out by Robison in the Mammoth Oil Company suit, which the witness admitted that secrecy was decided upon on October 21, 1921, several months before the contracts were presented.

At one point Roberts waxed dramatic, raising his voice and pointing a finger at Robison, he shouted: "Didn't you, who claim to have been in close touch with the whole navy program, didn't you know that the bureau of yards and docks went to congress and asked for \$1,000,000 for Pearl Harbor work?"

The witness denied any such knowledge.

Robison brought out an admission that Robison did not want bids on the storage project from the Standard Oil Company.

But you know that the Standard oil company applied a contract

such as the Pan-American company secured, Mr. Roberts asked. "I did not much want a bid from the Standard Oil," Robison replied, explaining this statement by saying that the Standard held leases in the same vicinity and that he did not believe they would work there so advantageously to the government as would the Pan-American.

SILVERWARE IS DESTROYED BY FIRE; PAPER NOT HURT

VAN ALSTYNE, Texas, Nov. 6. Fire which destroyed the home of Wallace Shield here recently played an unusual trick.

Searching among the ruins of his home, Shield found a chest which contained silverware and some valuable papers. Opening the chest Shield found that the silverware was completely melted, but the papers were barely scorched. A small amount of money, also in the chest, was unharmed.

Some travelers accumulate a wonderful lot of misinformation.

THOROUGHNESS

There is hardly any trait that a person can possess more important and more commendable than the trait of being thorough, if it may be termed a trait at all. We once heard it said of Karl Schmeig, who is a furniture maker of note, and understands wood in all of its wonders, that he would gloat and purr with joy over a piece of unusually fine wood with as keen delight as a collector of paintings experiences when he comes into possession of a Rembrandt. He knows woods by their Latin names, by their local names and by their trade names. Professors in the forestry departments of colleges and universities consult him.

He has the history of period furniture at his fingers' ends. One of his associates said that Schmeig could tell the difference between a Chipendale and a Sheraton piece, blindfolded and without touching them—just by smelling and listening.

And he can make any article of furniture with his own hands, from the cutting of the log to the final touch of delicate varnishing. On his next vacation Schmeig is going to South America to visit some of his woods in their homes.

There you have a man who is thorough in his work. It seems to be a rather rare quality, these days. Of course, there are other men just as thorough as Schmeig in their various lines of effort, but compared with the vast army of toilers in all industries, such men are very scarce.

The invention of machinery did much to minimize the human factor in workmanship. The growth of many industries to such huge proportions that workmen were compelled to specialize in some one detail, did even more.

There is much slipshod work going on in the world, and there are many workers who are more interested in the number of hours they work than they are in mastering all the details of their occupation.

Thoroughness in one's work, however, is a quality worth developing. A man who is ambitious to succeed is foolish if he does not first study all the details and all the ramifications of his present task.

It also improves workmanship. Genius has been described as nothing else than a capacity for taking infinite pains. Alas, very few workers are geniuses!

But, even beyond such reasons for being thorough, there comes a reward in the form of satisfaction that we have done our best and a diversity of interests that we acquire by exploring and snooping along the lines that touch our own, out of which we can often derive real pleasure.

The musician who does not know the history of music, the painter who knows nothing of how paints are made, the farmer who does not study the chemistry of the soil—such people belong to the kingdom of mediocrity. And they usually stay there.

WEST TEXAS DEVELOPMENTS CONTINUE.

The developments in West Texas are going rapidly on. The big ranches are being divided and farmers are coming to make their home in the future. They are not at all uneasy about making a go of it either, regardless of the awful description the folks back in the sticks are giving them of the west. Regardless of the "friendly warnings" that they are getting from business men, real estate men and the newspapers of the "back east" type they are coming. They are finding in this section of the country something that they have never been able to find before—a place where they can buy a home.

A number of the leading state and national publications are giving much publicity to this section of Texas, and this has had a great effect with the people of the east and north who are interested in this section of the southwest, and are coming in large numbers to claim their part of the rich soil of this state.

The following mention of one of the big tracts is only one of the many that have been reported in the big papers of the north and east that give rise to the great interest that is being shown in the South Plains country. The report says:

"News that the famous Spade Ranch in Lamb and Hockley counties has been divided into 177-acre tracts is just another indication of the rapid change of the Plains country from a cattle range to diversified farming territory.

"The Spade Ranch, owned by Elwood Brothers, was originally 300,000 acres in extent and there still remains 175,000 acres after several large sales.

"It is estimated that at least 1,000 families will occupy at the outset land that formerly supported only one concern and the force of cowmen and others who operated the ranch. Later the property undoubtedly will support many more thousands."

THE INCOME TAX SQUABBLE

The Department of Justice has made no effort to meet as yet the charge that somebody in the treasury blundered egregiously in making the 1923 tax payments public. Some of the most prominent attorneys of the capital have given it as their opinion that the publicity clause applied only to the tax year 1924 and succeeding years. The tax year 1924 is specifically defined in the act as referring to incomes earned in 1924, the returns on which would not be made until March 15, 1925. The only reference made to 1923 taxes is the paragraph granting a flat reduction of 25 per cent of all individual returns made for that year.

Expenses and corporations, aggravated that their payments should have been published to the world, apparently have no redress, because it would be difficult to prove damages by the publication of income tax payments.

One outcome of the present squabble is likely to be the introduction into the coming session of congress of several schemes on taxation to supplement or take the place of the income taxes which have been shown to be anything but equitable. There is likely to be a renewed fight for the sales tax, but that, too, is declared to be inequitable in that a man with an income of \$2,500 probably would have to spend every cent of it, and therefore would be taxed on every dollar earned; whereas a man with an income of \$100,000 might spend only one-fourth of the total and therefore would have \$75,000 a year entirely untaxed.

The American people are going to hear more about taxes this coming winter than ever before in all their taxed life.

POLITICS IS A STATE OF MIND

An unprejudiced review of the recent political campaign convinces that politics is a state of mind, and that there are only two parties—the pros and the antis. There are not even conservatives, radicals, reactionaries, liberals or progressives, for these are mere names, and the folks who label themselves with them are continually crossing the borderland. Nobody ever gets more than an approximation of what he wants in politics and government, and the phrase "the people's choice" is a delusion. Names are mascots or hoodoos, and are used in place of thought. But the voter wants something and knows what he wants, and in the toilsome and devious long run will get it.

As time goes on a lot of this present agitation will minimize and the future right thinking of the country will depend on minority thinkers who have the nerve to think outright, regardless of where it leaves them in public estimation. An idea never starts with a group. It starts with an individual and converts to it are gradual, increasing in number according to the soundness of it and the honesty of the man who is advocating it.

It is a natural tendency to assume that everything is all right, to assume that the United States will last forever, that we are the greatest people in the world, and wisdom does not exist. The fact is, we are not the greatest people in the world, but we have a plan of organization which, taken advantage of when understood, would make us the greatest people indeed.

JAPAN IS WORRIED OVER CRAFT IN THE HIGH OFFICES OF THAT COUNTRY.

Correspondents to the United Press from Japan bear the information that Japan as a nation is becoming greatly disturbed over the fact that graft has been found in some of the high offices of that country.

Late disclosures chiefly concern members of the Tokio Municipal Assembly. The indictment of 20 members of the Government controlled railways caused intense interest in the manner in which it was alleged these men had misused public utilities and obtained about 170,000 yen for their influence in various matters.

Tokio has been without a mayor for nearly a month now and a half-dozen members of the assembly are suspected of complicity in a bribe plot which has caused great internal dissension in Tokio's city government.

The mayor resigned when his appointment of a new head of the city electrical bureau was refused by the assembly and that body elected another man for the post.

Since then, one alderman has been ordered held in prison pending his trial for giving bribes to buy votes for this new chief of the bureau, Ryota Daido, and others are being questioned by the procurator as to their parts in the scandal. In the meantime, the assembly cannot settle on a new mayor.

This has held up reconstruction work in the capitol. The program, which was to have started late in September, has been delayed.

HIGHWAYS OF THE AIR

Out of the nation-wide voyaging of the Shenandoah, and the trans-Atlantic trip of the newly christened Los Angeles, has sprung a new interest in the dirigible balloon. Hitherto development has been along the line of the heavier-than-air machine, the airplane, kept aloft by its powerful engines, driving its planes against the resistant air. Colonel Henderson, Second Assistant Postmaster General, declares that the air mail across the continent is succeeding, and will presently be extended by the establishment of collateral connections, running north and south and acting as feeders with lower rates.

The announcement that a company at Akron, Ohio, is about to undertake on a large scale the manufacture of dirigible aircraft for commercial purposes, promises to bring all large cities into closer touch with each other, and make the air, like the ocean, a highway of peace and prosperity.

Since France has officially recognized Russia, Great Britain will be compelled to do likewise for self-protection. Russia has officially announced that it is prepared to open its markets to French capitalists under certain conditions, and treat with good will the question of reimbursing the holders of Russian bonds. This action will go a long way in promoting peaceful relations between France and Germany.

LET'S CELEBRATE WITH LUBBOCK

(A Star-Telegram Editorial)
Lubbock will celebrate the laying of the cornerstone of the first Texas Technological College building Tuesday. That rapidly growing, hustling city of the South Plains is planning a big party. It is preparing for 30,000 visitors and it expects these visitors to come from every part of the State. Lubbock doesn't want the celebration to be local, or even a strictly West Texas affair. Lubbock wants the entire State to join with her and to this end not only has issued a general invitation to the State, but has invited cities to send representative delegations.

Texas should celebrate with Lubbock and every large city should send representative delegations. The Texas Technological School when it is opened will not be a local school. It will be a state institution, the only one of its kind in the state, created to serve the entire state, and to afford a character of technical education not afforded by any other institution in the state.

Particularly should Fort Worth be well represented in Lubbock, not only by numbers but by the character of the representation. West Texans are our friends and in an event of this character, one that means so much to the future of that section particularly, Fort Worth should show its interest and its gratification. A movement to this end is already under way. A special car will be set aside on the T. & P. leaving here at 2:40 p. m. Monday and arriving at Lubbock at 7:30 a. m. Tuesday. The car will go through to Lubbock without change and will be set aside for use there, open to passengers at 9 p. m. Tuesday. It will leave there at 1:35 a. m. Wednesday, arriving in Fort Worth at 3:40 p. m. of the same day. Business men who make this trip will lose but little more than a day by so doing. Certainly, there is none who can not afford this brief time off, when the event is of a character that means so much to West Texas, and incidentally to Fort Worth.

HEALTH NURSE FOR LUBBOCK COUNTY MAY BE SECURED SOON; STATE IS WILLING CO-OPERATE WITH COMMISSIONERS

Miss Dorothy Anderson, representing the State Health Department, was in Lubbock Wednesday and conferred with County Judges Claus Nordyke and Judge Nordyke concerning the possibility of establishing a public health nurse here. County Judge Nordyke went into the subject thoroughly, making inquiry into every feature of work carried under the directions of the nurse, being careful to survey the work the nurse will do with reference to the situation in Lubbock county.

Judge Nordyke was impressed with the educational work the department is doing through the county health nurse offices in the counties where such offices have been established and advised the department representative to announce a recommendation of the commissioners' court in the near future to present to the court the proposition as it was presented to him.

At the present time, Nordyke will speak with the commissioners when they meet in regular quarterly session here Monday. He is interested in the program that would be carried out by a public health nurse, which he has seen as being similar to the program being carried out by the county health department and county agents.

Lubbock county is in need of improvements at this time, Judge Nordyke pointed out, which will require the expenditure of a great deal of money. It is his belief that these improvements will stand in the way of the establishment of a public health nurse for a while, however, not necessarily so providing all members of the court can see the advantages to be derived through the establishment of the office in the county.

Miss Anderson pointed out that the nurse would best be prepared to carry on the work if provided an office in the courthouse. This will be possible when the city offices and the library have been moved into the new city hall.

While the demand for money to keep Lubbock county abreast with the other progressive counties of the state is drawing greatly upon the treasury, the carelessness and untidiness shown by the county judges in making any of these improvements stand out as worthwhile investments means much to the county. With the rapidly increasing demand for improvements in the county, however, is the rapidly increasing tax values and it would be unpragmatic to expect the commissioners' court the demands of a rapidly increasing population on the same financial expenditures as met the demands last year, or the year before.

More than one thousand club women of Lubbock county petitioned the commissioners' court to establish a county health nurse office in the county early this year, but due to the fact that the commissioners at that time did not know just what the desires of the people of their respective communities were, the matter was deferred.

Miss Anderson returned to her home at Littlefield Wednesday afternoon but expects to go to Quanah to meet with the commissioners' court of Hardeman county Monday.

"RED" GRANGE TAKES LIMELIGHT ON MID WESTERN GRID

By Harold Andrews.
CHICAGO, Nov. 6.—Interest in middle western football has centered almost completely about the personality and play of Harold "Red" Grange, the gridiron giant-titan whose name is being written in touchdowns at the University of Illinois.

Grange is occupying the place in football that "Babe" Ruth occupies in the realm of baseball and inspired experts are referring to him placidly as the "King of Smash."

All of which is why the tickets already have been sold for Harold's next appearance, which will be Saturday against the University of Chicago on Stagg Field. Where "Red" is, the crowd is, whether there is any doubt about the result or not.

So great is the fame of "Red" the Chicago coaches have begun to refer to themselves as "the under dog" and are ending each night of practice with a prayer for the favor of the fickle goddess of chance.

"We've got an under dog's chance," explained a scout for the Maroons after watching "Red" tackle a dummy. "We'll need the breaks—all of them. The trouble with the Illinois team is that it hasn't any weak spots. As for Grange—you can't tackle a man you can't catch. But as I say we have the under dog's chance and a fighting dog always has a chance."

Much interest is being exhibited in the game scheduled for Saturday between Northwestern and Michigan, which will be played at Arbor as it will be one of those "master versus pupil" affairs. Coach Thelma of Northwestern taught the captain of the Michigan team the rudiments of football back in the latter high school days. Besides this several of Thelma's assistant coaches were trained at Michigan under Yost.

Ohio State is making strenuous attempts to restore its old time punch for the game with Indiana at Columbus. The teams are about evenly matched. Wisconsin will meet Notre Dame. Iowa will play Butler. Purdue will meet DePaul and Minnesota will play Iowa state college at Ames, Iowa.

Kane Confident Of Mandell Win Over Bernstein

By United News.
NEW YORK, Nov. 6.—The turn of mystery which has hung about Sammy Mandell since it was announced that he was to fight Jack Bernstein, was lifted Thursday when Eddie Kane dropped into town bearing word from the Pacific coast that the fight Friday night "will be a good workout for my little Sammy Mandell." Eddie, the saved-off manager of the "Sheik of Futania," the only title that Mandell has yet won, spread a tale of prowess about Mandell that brought tears to the eyes of his listeners.

"I was never as confident of winning a fight as I am of this one," he began in all seriousness. "Sammy will knock Bernstein full of holes. Mandell had four bouts on the coast in eight nights, beating two of the best bets out there, Frankie Burns and Dick Hooper. He will scale 134 pounds at 2 o'clock Friday afternoon."

Kane's optimism has failed to persuade New York sporting circles. Bernstein is the favorite.

The fight is the first important

SANDE TO RIDE AGAIN DESPITE HIS INJURIES

NEW YORK, Nov. 6.—Earl Sande, America's greatest jockey will ride despite injuries which he received at Saratoga in August when his horse fell on him. Sande who rode Zev to victory over Papyrus in the great international race last year made this announcement Thursday when he left Roosevelt hospital where he had been confined since his accident. Though his injured leg is still in splints, he is able already to get about with the aid of a cane.

AUSTIN COLLEGE MEETS RICE INSTITUTE FRIDAY

By United News.
HOUSTON, Texas, Nov. 6.—The Austin college football team arrived here today from Sherman to take on the Rice Institute Owls on the Rice field tomorrow. This probably will be one of the season's best games.

Austin has defeated Baylor University and Rice has defeated Texas University this fall. Dope gives Austin the edge because Rice is saving her thumper for a game with the Texas Aggies on November 14.

Giants Beat White Sox Before Eyes of British Royalty

LONDON, Nov. 6.—King George, Queen Mary and HRH, the Prince of Wales, arrived at the White Sox stadium Thursday to see the Giants and the White Sox battle for the baseball championship of Stamford bridge athletic grounds.

The Giants won 8 to 5, and Wales who knows all about baseball, had a big time in the royal box amid cheering and prompting his father and mother to applaud at the proper time. Queen who is a home body if she is a queen, was bewildered at the rapid pace of the game. The king enjoyed the exhibition, but hardly knew what it was all about, although he had seen a few games before.

Before the game started King George, Wales, Prince Henry, Ambassador Kellogg and John McGraw went on to the field where Johnny Evers shifted his chair to the other cheek and introduced the players to His Majesty.

Reduction Second Class Postal Rate Under Discussion

By United News.
WASHINGTON, Nov. 6.—Proposals to reduce second class postal rates were discussed at a lengthy conference with President Coolidge at the White House Thursday, attended by Cyrus H. K. Curtis, publisher; S. C. Pearson, chairman of the American Publishers' Conference; Postmaster General New; J. H. Stewart of the postoffice department and Representative Madden, of Illinois, chairman of the appropriations committee.

Stewart has just completed for the postoffice an extended investigation into all second class rates, with the conclusion that the government is losing money even at the present rates.

Madden is opposed to a proposal to increase rates in order to secure money for a general boost in salaries of postal employees and made his position clear in this respect at the conference. The publishers, it is understood, urged reduction in present second class rates.

REMODELING WORK ON THE WEAVER BUILDING IS BEING RUSHED

Good progress in remodeling the A. V. Weaver building at the corner of 13th and Avenue I, formerly occupied by the Star Mercantile Company is being made by Contractor Clemons.

Mr. Weaver stated that the building will be occupied just as soon as the contractor completes the remodeling work.

This will be one of the most attractive store buildings in the city when the work that is now under way has been completed. A drug store, a men's furnishings store, fish and oyster market and two other businesses will be housed in this structure.

Mr. Weaver stated that the Elk's Hall, which occupied the second floor of the building, will not be altered at this time.

The department of archeology of Phillips-Anderson Academy, in co-operation with the State of Mississippi, has excavated the Indian mounds at Natchez, and has found a number of seventy-two mounds, buildings and some 2,500 pieces of pottery and articles of bone, stone and clay. The skulls, which are said to be typical of the Indians of the Southwest, have been presented to the Smithsonian Institution and seventeen of them have been completely restored.

Some subscribers appear to give our bills their unrelenting attention.

BILL TO LEGALIZE BOXING LEADS IN CALIFORNIA

By United News.
SAN FRANCISCO, Nov. 6.—California—Home state of many of foremost former world champion prize fighters and boxers has staged a comeback, and after ten years of "bootleg" boxing bouts apparently has legalized the fighting game.

As returns from Tuesday's election continue to arrive from the outlying sections, the boxing bill, legalizing championship fights, apparently had a sufficient lead to insure a majority.

Since 1914, championship boxing bouts have been illegal in California. All the fighting done by the native sons who aspired to national fame in the fight world since then has been limited to four round amateur contests or to back lot free-for-alls.

As the success of the boxing bill which permits ten-round no-decision bouts or 12 round no-decision bouts became apparent late Thursday fight promoters over the state made a wild scramble for championship fights.

Rumor in San Francisco had it that attempts would be made to bring the Walker-Shade fight for the welterweight championship from New York to California.

SAYRE ARRIVES IN AMERICA WITH PRINCE OF SIAM

VICTORIA, B. C., Nov. 6.—Dr. Francis R. Sayre, son-in-law of Woodrow Wilson, and advisor on Siamese affairs in his majesty's government and Prince Sawarong Kunjara of Siam, arrived in America Thursday aboard the steamer President Jefferson.

Prince Kunjara is enroute to Cambridge, Mass. to pursue his studies at Harvard University while Dr. Sayre will go to England to negotiate a treaty with the British government. The treaty he hopes to close with Great Britain will concede the same sovereign rights to Siam that the United States and Japan recognized recently. Dr. Sayre will then visit other European countries on the same mission.

Prince Kunjara, son of the grand marshal of the court and great grandson of a former King, will study under Dr. Sayre's supervision. He shows inclinations for mechanical engineering, but his course will be determined by the showing he makes at his studies at Harvard.

BOMB EXPLODED IN U. S. BY RADIO FROM ENGLAND

By United News.
NEW YORK, Nov. 6.—Demonstrating the sinister possibilities of a new deadly weapon of future warfare, a bomb, sitting at the top of a powerful radio station in London Thursday night flashed an invisible beam across the Atlantic and exploded a bomb in New York City.

The bomb, however, was only a demonstration bomb at the Third annual national radio exposition and there were no casualties.

The statistical department of the city of Tokio has just published a final report of the losses and damages caused by the earthquake and fire in Japan: Tokio, \$590,000,000; Yokohama, \$590,000,000; other areas, \$250,000,000. This does not include the losses of art treasures and personal property. It is believed that if they were included the losses would total \$8,000,000,000,000.

COOLIDGE POPULAR VOTE INCREASES WITH REPORTS

By United News.
NEW YORK, Nov. 6.—President Coolidge's popular vote in Tuesday's election continues to increase as returns from outlying districts make the totals more complete. It is apparent now that the president's aggregate vote will pass well beyond the 15,000,000 mark and may reach 14,000,000.

The electoral vote remains unchanged. The democrats still hold New Mexico although the republicans are gaining there. Should they capture the state, their electoral vote would rise to 382, causing the democratic totals to drop to 136.

In North Dakota, Coolidge increased his plurality over La Follette to 9,548 votes late Thursday and independent hopes for that state seemed to have vanished.

Senator Brookhart squeaked thru victorious in Iowa by a scant thousand votes, but the republicans still have a majority in the senate over the combined democratic and independent strength.

Senator Johnson in Minnesota conceded the victory of his republican opponent, Thomas D. Schell. Samuel Bratton, democrat, retained a slight lead over Senator Brown, republican in New Mexico and Bratton's victory appeared certain.

These returns did not affect the situation in the house where the republicans are certain of twenty votes majority.

GRANDS' STUBBS UPSET BY ARRIVAL OF 2 GRANDSONS

C. F. Stubbs, after residing in the Avalanche for Mrs. Stubbs had been unacquainted with two grandsons in less than three days realized that though he was not mentioned in the news item that he was indeed the father of the situation. "Alas," he said, "where do I come in? The stork hath hurried me and disturbed me and disturbed my usual mode of living, my name hath all been taken. Can it be that by the time this unusual mood has passed away that 'he' will be spoken of as widow Stubbs?"

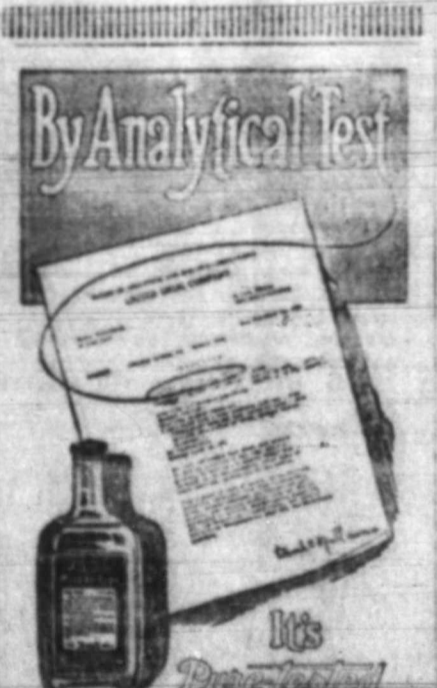

HOUSEHOLD ART DEPARTMENT PUBLISHES ECONOMIC PAPER

DENTON, Nov. 6.—The Household Arts Department of the College of Industrial Arts will publish the November issue of the State Home Economics Monthly a paper issued by the State Home Economics Association. Data, much of it concerning C. I. A. is now being compiled by the department faculty members.

FROM BUENOS AIRES TO NEW YORK BY AUTO IS TASK

ANCON CANAL ZONE, By Mail to United Press.—Francisco Horvath and Julio Ovarth, Argentine young men of Hungarian parentage, left Buenos Aires on February 28, 1924 on a proposed automobile trip to New York. They passed through the crest of the Andes by way of the tunnels of the Transandine Railway and reached Santiago Chile, on March 24. There they worked two months to gain funds, leaving for the north on May 22. After tremendous difficulties in the desert country of Chile and the broken regions of northern Chile, they reached the Peruvian border on August 26, at Lima. On September 23 they reached Lima. They are driving a stripped Ford car which was built in January, of 1918 and had been in service five years as a delivery vehicle for a bankrupt in Buenos Aires.

The idea of a Pan-American high-

Analytical tests show that PURETEST MINERAL OIL (Russian Type) possesses a very high specific gravity, as well as a viscosity (body) that is equal to, if not exceeding, other types of heavy medicinal mineral oil.

When you add to this the fact that PURETEST MINERAL OIL is odorless and tasteless, you will understand why we recommend it so strongly.

Mineral Oil is a wonderful intestinal lubricant, and in the PURETEST, you get it at its best.

CITY DRUG STORE

may have been in recent years a popular dream, appealing to the general imagination even more than the long talked of Pan American railroad. If these resourceful young Argentines can plow their way through their achievement will give the idea an impetus and probably crystallize into a positive movement for the building, link by link, of the highway.

In Panama the present road program provides for a highway from the Canal over half-way to the Costa Rican boundary, 200 miles from the Canal, and already the newly elected delegates to the National Assembly from the Western and northwestern provinces are agitating the extension of the highways the rest of the way to the boundary. To the south and east there is a passable highway now for about forty miles of the two hundred to the Colombian boundary.

The two Argentines, however, will come to grief in the jungles of Panama, in the opinion of those familiar with the country. If they can reach the Panama Canal they can make the rest of the trip, despite some hard going, in northwestern Panama and southern Costa Rica, but from the Colombian border to the new continuous to the Canal an air-line distance of about two hundred miles, is a section of well nigh impenetrable mountains, jungles, swamps and tidal marshes.

Only one white person, a German woman, Fraulein Anna Grist, is known to have made the trip overland, on foot; and for an automi-

bile to make it will mean a bitter struggle of cutting, digging, fording and portaging.

NEW TEST FOR SOBRIETY INVENTED ON COAST

LOS ANGELES, Calif.—Of all the tests for sobriety this one is the newest.

It was invoked by Judge Summerfield in Superior court recently as the case of Irong B. Meek against her husband, Morris Meek, came up. Meek was \$300 in arrears in his alimony payments.

"He drinks up all his money," Mrs Meek flashed when her husband on the stand professed an overwhelming love for her: "Why he's drunk now."

The judge looked from wife to husband.

"Stand up," the court commanded. "Say Methodist-Episcopal."

"Methodist-Episcopal" belted the husband.

"Now say 'Whoop,'" ordered the court.

"Whoop," exploded Meek. Judge Summerfield announced Meek sober.

A new comet has been discovered by the astronomer Finler, of Borno Germany, and its presence has been confirmed by reports from Berlin, Lick Observatory and Harvard Observatory. The comet is of the sixth magnitude, just short of being within the unaided vision of the eye, and is said to be growing bright-

"Life National Bank" Replaced by Shoe.

REPLACES LIFE NATIONAL BANK

Since the "roll your own" has become so popular, the "Life National Bank" has been liquidated, so modern day girls have had the heels of their slippers hollowed out to carry their coin and keys.

Mrs. Callie Schultz, a Dakota farm woman, beat an armed tramp and put him into flight.

Oh Henry!

A Fine Candy 10c a Bar

Why d'ye think 600,000 people go into candy stores every day in the year, lay down 600,000 dimes and say "Oh Henry!"

That's what happens every day in the year . . . 600,000 bars a day!

But what d'ye think is the reason? It's just this: The man who originated Oh Henry! had the idea of making a GOOD candy to sell in the quantity that most people want . . . just a little to nibble on!

And he pays as much for his materials as the best package candy manufacturers pay.

He won't make a 5c bar, because he can't make it good enough.

And 600,000 people appreciate that quality EVERY day.

You'll like it yourself!

MORAL: Get a dime's worth of good candy in the ORIGINAL.

Analytical tests show that PURETEST MINERAL OIL (Russian Type) possesses a very high specific gravity, as well as a viscosity (body) that is equal to, if not exceeding, other types of heavy medicinal mineral oil.

When you add to this the fact that PURETEST MINERAL OIL is odorless and tasteless, you will understand why we recommend it so strongly.

Mineral Oil is a wonderful intestinal lubricant, and in the PURETEST, you get it at its best.

MARKETS

MARKET CONTINUES HEAVY TRADING THURSDAY

By EDWARD J. CONDLON. NEW YORK, Nov. 6.—The real significance of the defeat of the third party as expressed by Wall Street in terms of prices and volume of its acknowledged leaders and interpreters, is not difficult to grasp.

The astonishing volume of business on Wednesday and the virtual duplication of this volume on Thursday with all the attendant hurrah and churning-up of markets does not at all give the true picture. The financial news dispatch during the next few weeks and for the next few months will tell what is now taking place in the minds of the leaders in the financial community.

When reports of mergers in various lines of industry and business begin to appear in the public prints in concrete form, it will be realized that the long harbored hope and plan of the business world are being fulfilled. One can hardly measure off a square inch in the stock market table which does not include a stock which is in some way linked with some merger whether it be in the nebulous or final stages.

Many generalities have been uttered since election day about prosperous times that loom ahead as the result of the turn of the election.

Whether or not a full four years of plenty are in store for the nation is a matter of course, which cannot be accurately forecast, but it can be quite definitely stated that the immediate future never looked brighter in recent years than it does today.

If the expectations of financial leaders are to be fulfilled, security prices will be maintained for some time to come by the increase in investment demand and the natural tendency of business to widen its scope of operations. We are assured cheap money rates for some time to come which will naturally have the effect of expanding credit and promoting needed expansion which is to include the many mergers now pending.

The set-back in prices of industrial stocks on Thursday and the leap in call money rates to the highest level since May 28, last, was due respectively, to profit taking and the unexpected large volume of stock market transactions.

Fort Worth Livestock. FT. WORTH, Nov. 6.—Cattle receipts 5,000; calves 2,000; steady. Hogs receipts 900; market steady; best \$10.00@10.10; good light weight \$9.75@10.00; fair light \$9.00@9.50; packing sows \$8.50@9.50; good mixed \$9.50@10.00; fair mixed \$9.50@9.75; common \$7.50@8.75; pigs \$7.50@7.75.

Sheep receipts 250; market steady; spring lambs \$10.00@12.25 yearlings \$9.00@10.00; ewes \$6.50@6.25; stocker sheep \$3.00@6.00; feeder lambs \$9.00@11.00; wethers \$6.00@7.15; culls \$1.00@2.00; goats \$1.00@2.00.

Kansas City Livestock. KANSAS CITY, Nov. 6.—Cattle 6,500; very slow, on most killing prices, quality killing steers plain; practically no early sales; canners and cutters steady \$2.50@3.50; stockers and feeders slow and steady. Hogs 7,000; early sales to shippers around 10c lower; butcher market steady 10c lower; shipper top \$9.50, early packer top \$3.35; desirable 150- to 300lb averages mostly \$8.10@9.45; packing sows \$8.50@9.50; stock pigs strong 25c higher at \$6.50@7.25. Sheep receipts 3,000; killing prices steady range lambs \$14.00; other western and fed lots \$13.75@13.95; clipped \$12.50; others \$11.25@11.90; fed Texas wethers \$8.00.

R. E. FLOWERREE & CO. Correspondents FENNER AND BEANS.

New Orleans Cotton. NEW ORLEANS, La.—The cotton market was a small dull affair today with prices averaging about yesterday's levels until in the late afternoon they slipped a few points on liquidation advance of the bureau.

prediction of rains in the north half of the belt followed by freezing temperatures in the northwestern section and an estimate of 12,000,000 from a prominent Texas spot house stimulated covering on the part of yesterday's sellers at the start and gave the market a good tone for quite a while. This firm made allowance for 4.5 per cent abandonment average in its estimate, which, like ours, was based largely on the predicted yield per acre. Other estimates issued during the day ranged from 12,900,000 to 13,000,000 and were apparently based on the governments average without allowance for abandonment.

Ginning predictions were raised to 9,351,000 by one of the bureaus. Spots appear to be holding firm, the outlook in the shape of export continues to increase and a well known authority in the trade predicts consumption of American cotton will run about 12,500,000 against 11,241,000.

The outlook is for bad weather in the sections that now need good weather, and the market would probably respond to it with an advance were it not for the uncertainty over the governments estimate due Saturday.

Dallas Cotton. DALLAS, Texas.—Basis 15 points weaker. Somewhat better demand at lower basis. Shippers bidding 115 to 123.5 off Dec. for all November shipments. Cotton can be bought at about 90 off, though nothing pressing for sale and offerings are still light. Holding continues.

Chicago Grain. CHICAGO—Wheat—News was bullish and market had strong undertone closing at the best figures of the day. Locals took profits on upturns. Commission house absorbed offerings on dips. Cash basis strong to shade better. Millers reported a much better flour trade and bought 215,000 bushels cash wheat here.

Minneapolis reported improved flour business. St. Louis reported largest in flour shipments for some time. Relieve market has definitely turned and that purchases can be made on all set backs. Cash basis half cent better relative to futures. One shipped had an order here to take all offerings on a certain basis and his business was restricted only to the amount he could buy. Weather over the belt generally favorable. Oats—Trade light and market stronger mostly in sympathy with other grains. Cash trading basis firm to one quarter better. Shipping sales reported 35,000 bushels weather favorable but country offerings to arrive light.

DROUGHT COVERS THE ALBUQUERQUE RANCHES

ALBUQUERQUE, New Mexico, Nov. 6.—Ranges of the southwest are suffering from the most pronounced drought of recent years, according to W. R. Chapline, grazing inspector of the forest service. Considerable shipment of stock has been necessitated and there will be a shortage of feed this winter, he says.

SOLDIER MEMORIAL WILL BE UNVEILED

PLAINVIEW, Nov. 6.—A memorial to Willie Landrum will be unveiled Sunday afternoon at Lockney, Landrum, in the military service of the United States, was killed in action. His body was brought back to the United States several months ago and interred at Lockney.

One of the women's clubs of Lockney has raised funds for the memorial. Judge E. C. Nelson, Jr. of Floydada, will deliver the principal address. Members of the Ray Blakemore Post of the American Legion have been invited to participate in the ceremonies. Battery A, 131st F. A., will participate according to Capt. Thos. Ray, commanding officer. A detachment of eighteen mounted men will be sent down.

Suit for \$50,000 has been brought by Miss Jacobine Serna of Cleveland against Victor Downs charged with kidnaping and placing in a sanitarium his brother, Antonio, to whom she was to have been married.

MAN GETS A SECOND CROP OFF OF PEA STALKS

By United Press. TROUPE, Texas, Nov. 6.—During the haying season this year a tenant on the J. T. Chinkale farm near Troupe mowed his pea vines and put them in his barn for winter feed. He thought his haying done for this season. But to his surprise he is now supplying his needs and those of many of his neighbors with fresh green peas which have grown from the stalks of the initial crop. Later in the season he expects to harvest a second crop of hay from these vines.

TO SHORTEN ROAD TO HALE CENTER

PLAINVIEW, Nov. 6.—An effort is being made to secure a highway from Hale Center which will parallel the Santa Fe. Such a route will shorten the distance between the two towns. Claude Gentry, Hale Center banker, yesterday communicated with the Board of City Development of Plainview asking its cooperation in such a move. He has assurance from the State Highway Department that if the right of way can be secured within the next thirty days the department will grade the road up and accept it as a state highway. W. E. Riser, director of transportation, will have charge of Plainview's end of the work for the Board of City Development.

NOTICE To the Stockholders of the South Plains and Santa Fe Railway Company: You are hereby notified that the Board of Directors have called a meeting of the stockholders to be held in the City of Lubbock, County of Lubbock, State of Texas, at the principal office of the Company on the eighteenth day of November, 1924, between the hours of 10 o'clock a. m. and 4 o'clock p. m. to consider and act upon a proposition to authorize the execution of the Company of a mortgage or deed of trust to be called "first mortgage" or by such other name as may be determined, on all of its railroad properties now owned or hereafter acquired, to secure bonds to be hereafter issued in series—so much of such bonds as may be necessary to be used from time to time in paying or exchange for the indebtedness of the Company, other bonds to be issued to be used for the acquisition, construction, reconstruction, improvement, addition and betterments to such railroads and properties now or hereafter owned, and for other lawful corporate purposes, such series of bonds to be issued to mature at such time and provide for the payment of interest at a fixed rate, to be tax free or not tax free, to be convertible or not convertible into shares of capital stock as may be determined by the Board of Directors, and to contain such other terms and conditions as shall be determined or prescribed by said Board, and such mortgage to contain such terms and conditions as may be prescribed or authorized by the stockholders at said meeting. W. S. POEY, Secretary.

ORDINANCE NO. 271. AN ORDINANCE whereby the question of issuing bonds of this City in the sum of \$75,000.00 bearing semi-annual interest at a rate not greater than 6 per cent, such bonds payable serially over a period not greater than forty years from date of issuance, for the purpose of extending and improving the water works system of this City, may be issued fixing the date and place of such election providing for notice thereof, appointing the officers to hold the same, and declaring emergency on account of the necessity of improvements in such system because of the increase of people to be served thereby. Be it ordained by the City of Lubbock, Texas: SECTION 1. An election is hereby declared to be held at the office of the City Secretary in this City on the 9th day of December 1924, at the usual hours, whereat the duly qualified property tax paying voters of this City may determine if bonds of this City shall be issued as hereafter set out.

SECTION 2. The fact that there are not sufficient Sanitary Sewer lines and disposal plants for the needs of the citizens of this City, creates an emergency and public necessity that the rule of the Charter requiring Ordinances to be read in two several meetings before passage by, and the same is hereby suspended, and this Ordinance passed by unanimous vote at the meeting of its introduction, and it is so ordered. Passed and approved this 6th day of November, 1924. (SEAL) F. R. FRIEND, Mayor, City of Lubbock.

SECTION 3. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 4. The following persons are appointed as judges to hold such election: W. S. Clark and H. D. Woods, and they shall make return of such election as is required by law. **SECTION 5.** The fact that there are not sufficient Sanitary Sewer lines and disposal plants for the needs of the citizens of this City, creates an emergency and public necessity that the rule of the Charter requiring Ordinances to be read in two several meetings before passage by, and the same is hereby suspended, and this Ordinance passed by unanimous vote at the meeting of its introduction, and it is so ordered. Passed and approved this 6th day of November, 1924. (SEAL) F. R. FRIEND, Mayor, City of Lubbock.

SECTION 6. The fact that the highways in this City are in such condition from lack of drainage and permanent surfacing as to render travel difficult and the great need of reconstructing such condition, creates an emergency and public necessity that the rule of the Charter requiring Ordinances to be read at two several meetings before passage should be, and the same is suspended, and this Ordinance finally passed at the meeting of its introduction by unanimous vote, and it is so ordered. Passed and approved this 6th day of November, 1924. (SEAL) F. R. FRIEND, Mayor, City of Lubbock, Texas.

SECTION 7. A certified copy of this Ordinance published in a newspaper published in this City, and a certified copy of this Ordinance posted in three public places within the City, as required by law, for thirty days preceding such election shall be sufficient notice thereof. **SECTION 8.** Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 9. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 10. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 11. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 12. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 13. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 14. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 15. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

copy of this Ordinance published in a newspaper in this City and posted at three public places within the City, as required by law, for thirty days preceding such election, shall be sufficient notice thereof. **SECTION 3.** Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$25,000.00 of Sanitary Sewer Bonds and for the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." And those opposed to the issuance of such bonds shall have written or printed on their ballots "Against the issuance of \$25,000.00 Sanitary Sewer bonds and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and, if a majority of the voters, voting against such election, shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 4. The following persons are appointed as judges to hold such election: W. S. Clark and H. D. Woods, and they shall make return of such election as is required by law. **SECTION 5.** The fact that there are not sufficient Sanitary Sewer lines and disposal plants for the needs of the citizens of this City, creates an emergency and public necessity that the rule of the Charter requiring Ordinances to be read in two several meetings before passage by, and the same is hereby suspended, and this Ordinance passed by unanimous vote at the meeting of its introduction, and it is so ordered. Passed and approved this 6th day of November, 1924. (SEAL) F. R. FRIEND, Mayor, City of Lubbock.

SECTION 6. The fact that the highways in this City are in such condition from lack of drainage and permanent surfacing as to render travel difficult and the great need of reconstructing such condition, creates an emergency and public necessity that the rule of the Charter requiring Ordinances to be read at two several meetings before passage should be, and the same is suspended, and this Ordinance finally passed at the meeting of its introduction by unanimous vote, and it is so ordered. SECTION 7. A certified copy of this Ordinance published in a newspaper published in this City, and a certified copy of this Ordinance posted in three public places within the City, as required by law, for thirty days preceding such election shall be sufficient notice thereof. **SECTION 8.** Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 9. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 10. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 11. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 12. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 13. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 14. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 15. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 16. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 17. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

SECTION 18. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots "For the issuance of \$75,000.00 of water bonds for the levy of a tax sufficient to pay the Water Bonds, and the levy of a tax sufficient to pay the interest as it accrues, and for a sinking fund to retire the bonds at their maturity." and if a majority of the voters against such election shall vote in favor of the issuance of such bonds, same will be issued and a tax levied upon all property within this City subject to taxation sufficient to pay the interest as it accrues, and to create a sinking fund to retire such bonds at their maturity.

LAMESA LEGION POST ELECTS NEW COMMANDER

LAMESA, Texas, Nov. 6.—The local post of the American Legion has recently elected Joe M. Peterson as post commander. The officers of the post are very enthusiastic and are striving to make their organization one of the best units in the entire state. Plans are being made at this time for the erection of a permanent club house for the post. It is thought that this will be done in a few months.

LEAVERTON SOLD HOME ON 14TH STREET FOR ALL CASH

D. N. Leaverton, local building contractor, has stated that the modern home he has just completed in block 102 on 14th street has been sold for a cash consideration of \$4,500. This was among the few all-cash deals consummated here during the past week.

BEAUTIFUL BRICK HOME ON 14TH STREET IS UNDER CONSTRUCTION

D. N. Leaverton is erecting a modern brick home in block 102, 14th street, for Dick Green, well known local man. When completed this will be one of the most attractive homes in the city as well as one of the most substantial.

It has been discovered that owls have two pairs of eyelids. During the daytime one set is lowered over the eyes, but even with its vision thus obscured it can see farther than a human being. This upsets the theory that the owl is blind in the daytime.

Votes From Over The Nation

Minnesota
ST. PAUL, Minn., Nov. 6.—Thomas D. Schall, blind republican congressman, increased his lead over Senator Magnus Johnson, farmer-laborite candidate for re-election in the senatorial race by a plurality of 17,565 votes in returns late Thursday.

Despite this lead Senator Johnson refuses to concede defeat, saying that the 700-vote margin yet to be heard from will push him ahead of his opponent.

Most of the precincts yet to be reported are from the rural districts where Johnson is strongest.

The vote from 3238 precincts show Schall 365,261; Johnson 347,696.

Missouri
ST. LOUIS, Nov. 6.—Dr. Arthur W. Nelson, democratic candidate for governor had cut the lead of Supt. Baker, republican, down to six thousand in latest bulletins Thursday.

Many of the 188 missing precincts are in democratic territory, it was stated. The democrats have refused to concede defeat so far.

The total vote cast, about 1,300,000 approaches previous records.

North Dakota
FARGO, Nov. 6.—President Coolidge had increased his plurality over Senator La Follette in the presidential race in North Dakota to 9,548 votes, it was indicated by late returns Thursday. Out of 2,128 precincts, 1,822 had been reported.

ARIZONA
PHOENIX, Ariz., Nov. 6.—With only a few precincts to report election of George W. P. Hunt, democrat, for his fifth term as Arizona's governor was conceded Thursday.

Dwight B. Heard, republican, ran behind Hunt by approximately 1,000 votes.

The presidential count stood: Coolidge 24,862; Davis 20,158; La Follette 13,847.

Johnson Concedes Loss
ST. PAUL, Minn., Nov. 6.—Senator Magnus Johnson, the farm-laborite candidate, for re-election to the United States senate conceded his defeat late Thursday to his republican opponent, Thomas D. Schall, the blind orator-congressman.

Iowa
DES MOINES, Nov. 6.—Col. Smith W. Brookhart took the lead in the senatorial race over Daniel F. Steuck, his democratic opponent Thursday when an error of 300 votes in his favor was discovered in Buena Vista county which probably elected him by a majority of 1,000 of the present race is maintained.

As returns from outlying counties dribbled in, Brookhart had crawled up to a 700 lead, and as the counties yet to be heard from are in districts where he is most popular, apparently this lead will be increased.

Brookhart's showing in his reelection for U. S. senator has been one of the real surprises of the campaign. Even his opponents did not hope to defeat him, and eleven months ago the "regular" republicans were conceding that he would be re-elected by a bare majority.

Until the error of 300 votes was discovered in Buena Vista county, Brookhart had been trailing Steuck. Late Wednesday night, it seemed certain that Iowa would be represented by a democrat in the United States senate for the first time in 63 years. Brookhart issued a statement from his home in Washington, Iowa, Wednesday, conceding the election to Steuck by 5,000.

Late in his campaign manager, Louis Cook, also said that it looked as if Brookhart would be defeated.

The democrats were jubilant. Preparations for a celebration had been made when the error was discovered. Republican headquarters receiving county reports have placed Brookhart's lead at more than 1,100 and his friends are now predicting his election by 1,500 majority.

CAN I AFFORD IT?

Many decisions we make are based upon the answer we can give to the question: "Can I Afford It?"

Ask yourself that question about your increasing impulse to open an account at this Institution.

You will quickly realize that you can't afford not to!

CITIZENS NATIONAL BANK
"THE BANK FOR YOU"

ed results from several outlying counties show the vote to be: Brookhart 136,770; Steuck 455,970.

New Mexico
SANTA FE, N. Mex., Nov. 6.—Democratic state headquarters positively claim that Sam G. Bratton, democrat, has defeated United States Senator Bursum, republican, by at least 4,000 to 3,000 votes.

The election is based on returns from 399 out of the state's 715 precincts which show Bursum winning 3,339 behind him. Congressman Jami Morrow, democrat, has a majority of 2,430 votes in the same precincts.

Hannett, democrat, is leading Otero, republican, by approximately 2,830 votes.

President Coolidge has a slight lead of 605 over John W. Davis. La Follette ran a poor third.

Returns from the rural precincts are coming in slowly.

Kansas
MANHATTAN, Kansas, Nov. 6.—A democrat was elected to a county office here for the first time in thirty years.

John T. Barr, appointed acting probate judge of Riley county following the death of Judge E. E. Morris has been declared winner over his republican opponent, S. A. Kimball.

He had a plurality of 80 votes.

DRYS GAIN IN BOTH HOUSES, REPORTS INDICATE

By United News
WASHINGTON, Nov. 6.—Wide margins for the drys in both houses of congress are shown in detailed figures on election results given by Wayne B. Wheeler, counsel for the Anti-Saloon League.

"Reports from all but eleven districts show 318 members of the house favorable to prohibition enforcement legislation and against a beer and wine amendment, and 165 wet," he said.

"In the senate, of the 33 senators elected only one can be classed as wet, with four others for law enforcement, but not classed as dry. This added to the holdover members of the senate, means that there will be at least 72 senators favorable to prohibition enforcement legislation and 24 opposed and of these 24 not all will vote against such legislation."

"Gains were made by the drys in the senate in Kentucky, Tennessee, Massachusetts and West Virginia, and the vote was defeated in senatorial contests in Illinois and Delaware."

"Tulagians from the states indicate gains in the election of legislators and governors friendly to prohibition enforcement in the states," Wheeler said.

AMERICAN FLYERS DUE IN HOUSTON SATURDAY

By United News
HOUSTON, Texas, Nov. 6.—Two of the American flyers that blazed the air trail around the globe are scheduled to arrive here Saturday at 11 a. m. for a 24-hour visit.

Mayor Holcombe and a chamber of commerce representative will be one of 10 planes to meet the airmen and escort them to Winston field.

A parade through the city has been planned.

TORY CABINET IS ANNOUNCED

LORD CURZON, FORMER HIGH EXECUTIVE IS LOWERED IN RANK

BY CHARLES MC CANN
LONDON, Nov. 6.—Stanley Baldwin has announced the composition of his Tory cabinet, and with his formal proclamation the august Lord Curzon begins to step down the height to which he struggled in his futile effort to become leader of the conservative party and Prime Minister of England.

Austin Chamberlain, one of the Lord George coalition renegades who refused to desert the Little Welshman when the coalition fell, succeeds Curzon at the foreign office, where the noble purport played the martinet from 1916 to the labor success in 1923.

Curzon has been demoted to the title, and nominal duties of leader of the house of lords and Lord President of the council.

Winston Churchill, a former liberal cabinet member who recanted that faith a year ago, and was returned in last week's election as a constitutionalist has obtained the chancellorship of the exchequer, the chief plum short of the premiership itself. Curzon's eclipse, the emergence of Churchill and Chamberlain as first grade stars in the conservative constellation, and the general complexion of the cabinet itself, apparently definitely mark Baldwin's break with the die-hard element of his party. For the next four or five years England will be governed by the progressive wing of conservatism.

Churchill is an uncompromising free trader. His inclusion in the cabinet in the job that has led liberals and conservatives before him direct to the premiership seems to signify that the conservative party has abandoned its protectionist theories of economics and that tariffs "the American sense of the term will not be levied against imports."

BRYAN SOON TO BEGIN WORK ON HIS MEMOIRS

By United News
CORNING, N. Y., Nov. 6.—W. J. Bryan is about to begin the work of writing his memoirs, he announced when his arrival here Thursday night. Bryan said he would discontinue his lectures and would go to Miami, Fla., to begin chronicle the recollections of his political career.

Asked if this meant retirement from politics, Bryan said: "I'll be in politics as long as I'm alive."

JAMESA RECEIVES 300 BALES OF COTTON DAILY

LAMESA, Nov. 6.—Cotton is still coming in to local gins at the rate of three hundred bales a day. The six gins have been running constantly for the past two months and there appears to be no let up as yet. 15,787 bales have been ginned here up to Wednesday night, November 6th. Many farmers have gotten over their crops for the first picking and are waiting for the green bales to open before picking over their crops for the second time.

There has been more cotton ginned in Lamesa this season than was marketed here the entire season of 1923. There are ten gins in this county outside this town and it is estimated that 30,000 bales have been ginned in this county. All of this cotton with the exception of possibly three thousand bales will be marketed at this place. The crop in this county is about two-thirds out.

Many farmers who came to this county last year and bought land, and put in their crop this spring on the red have already made enough to pay for their farms. Every farmer has not done this, but many can be found who have or will do so before the season is over.

An intoxicated man at Neillville, Wis., fell and went to sleep on a freshly made cement sidewalk, and upon awakening next morning found one hand anchored in the concrete, which had hardened during the night.

LITTLEFIELD BAND GOES TO MINERAL WELLS

LITTLEFIELD, Nov. 6.—An announcement was made here today by Clayborne Harvey, secretary of the Littlefield Chamber of Commerce, that plans have been already perfected by which the Littlefield Chamber of Commerce Band will lead a large delegation from this city to the Seventh Annual Convention of the West Texas Chamber of Commerce in Mineral Wells next year. Littlefield will make the trip overland, using the Fort Worth Rowell highway.

FATHER OF LOCAL MAN DIED THURS. IN GEORGIA

V. H. Guy, a member of the Avalanche staff of writers, received a telegram Thursday stating that his father, B. H. Guy, a retired merchant of Manchester, Ga., died at 1:00 o'clock Thursday.

Funeral services will be conducted there today. The local man will not attend. He visited his father two weeks ago, at which time he was recalled to be very low, with scant hopes for recovery.

The deceased was 85 years old, and is survived by his wife, four sons and two daughters.

Five Webb brothers of Letcher county, Kentucky, came in here from 10 to 25 years ago in good health, and each expects to live to reach the century mark.

AMERICAN FLYERS DUE IN HOUSTON SATURDAY

By United News
HOUSTON, Texas, Nov. 6.—Two of the American flyers that blazed the air trail around the globe are scheduled to arrive here Saturday at 11 a. m. for a 24-hour visit.

Mayor Holcombe and a chamber of commerce representative will be one of 10 planes to meet the airmen and escort them to Winston field.

A parade through the city has been planned.

LAMESA RECEIVES 300 BALES OF COTTON DAILY

LAMESA, Nov. 6.—Cotton is still coming in to local gins at the rate of three hundred bales a day. The six gins have been running constantly for the past two months and there appears to be no let up as yet. 15,787 bales have been ginned here up to Wednesday night, November 6th. Many farmers have gotten over their crops for the first picking and are waiting for the green bales to open before picking over their crops for the second time.

There has been more cotton ginned in Lamesa this season than was marketed here the entire season of 1923. There are ten gins in this county outside this town and it is estimated that 30,000 bales have been ginned in this county. All of this cotton with the exception of possibly three thousand bales will be marketed at this place. The crop in this county is about two-thirds out.

Many farmers who came to this county last year and bought land, and put in their crop this spring on the red have already made enough to pay for their farms. Every farmer has not done this, but many can be found who have or will do so before the season is over.

An intoxicated man at Neillville, Wis., fell and went to sleep on a freshly made cement sidewalk, and upon awakening next morning found one hand anchored in the concrete, which had hardened during the night.

FATHER OF LOCAL MAN DIED THURS. IN GEORGIA

V. H. Guy, a member of the Avalanche staff of writers, received a telegram Thursday stating that his father, B. H. Guy, a retired merchant of Manchester, Ga., died at 1:00 o'clock Thursday.

Funeral services will be conducted there today. The local man will not attend. He visited his father two weeks ago, at which time he was recalled to be very low, with scant hopes for recovery.

The deceased was 85 years old, and is survived by his wife, four sons and two daughters.

Five Webb brothers of Letcher county, Kentucky, came in here from 10 to 25 years ago in good health, and each expects to live to reach the century mark.

DRYERS GAIN IN BOTH HOUSES, REPORTS INDICATE

By United News
WASHINGTON, Nov. 6.—Wide margins for the drys in both houses of congress are shown in detailed figures on election results given by Wayne B. Wheeler, counsel for the Anti-Saloon League.

"Reports from all but eleven districts show 318 members of the house favorable to prohibition enforcement legislation and against a beer and wine amendment, and 165 wet," he said.

"In the senate, of the 33 senators elected only one can be classed as wet, with four others for law enforcement, but not classed as dry. This added to the holdover members of the senate, means that there will be at least 72 senators favorable to prohibition enforcement legislation and 24 opposed and of these 24 not all will vote against such legislation."

"Gains were made by the drys in the senate in Kentucky, Tennessee, Massachusetts and West Virginia, and the vote was defeated in senatorial contests in Illinois and Delaware."

"Tulagians from the states indicate gains in the election of legislators and governors friendly to prohibition enforcement in the states," Wheeler said.

AMERICAN FLYERS DUE IN HOUSTON SATURDAY
