

# THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 11

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, JULY 27, 1933.

NUMBER 26

## FARMERS START PLOWING UP COTTON ACREAGE

WHEAT REDUCTION PLAN EXPECTED TO BE PUT INTO EFFECT SOMETIME DURING THE MONTH OF AUGUST, OFFICIALS SAY

### Three Year Basis Will Be Used For Estimate of Yield

Plan Will Be Form of Insurance Against Failure.

County Agent J. B. Waide, Jr., received information from Washington Monday that instructions concerning the wheat acreage reduction plan would be mailed from the Extension Department at A. & M. College, within a few days, and in the meantime he was to give out no information concerning the plan for publication, as plans are yet incomplete and subject to change.

A rough idea, however, of how the domestic allotment plan for aiding wheat farmers is intended to work out in practice is given by Texas A. and M. College Extension Service officials in the case of the well known John Doe.

John's three year average (1930-32) of wheat production has been 12 bushels per acre on 100 acres. He signs the three year contract with the Government to reduce his acreage for 1934 and 1935 as directed by the Secretary of Agriculture. He will be paid this fall and next spring an extra 30 cents per bushel on the domestically and humanly consumed portion of 1200 bushels—the three-year average production. John's wheat, however, blew out in the high spring winds and he harvested no wheat at all this year. That doesn't matter. He will get his payments just the same, for the wheat plant includes this crop insurance feature. The Administration has decided that 50 per cent is the portion of the 1933 crop that will go into domestic human consumption. This means that John would be paid 30 cents per bushel for 600 bushels, \$120 soon after September 15th and the remaining \$60 next spring.

Now suppose, in the fulfillment of John to reduce his planting this year. John's three year average has been 100 acres, yield 12 bushels, and production 1200 bushels. Cutting off 50 per cent would indicate a 1934 yield of 960 bushels. If 50 per cent is declared again as the portion domestically and humanly consumed in the United States, John's allotment—the part on which he would be paid in the fall of 1934 and spring of 1935 the equivalent of any processing tax levied next year—would be 480 bushels. He would have 480 acres to produce this amount, 46 acres at 12 bushels per acre, and as much more as he desires up to 80 acres. His 1934 payments would be made on this 480 bushel allotment. What John would be, no one can say for no one knows what the processing tax for the 1934 crop will be. That point will be determined by the cents per bushel that will have to be added to the 1934 wheat price to bring wheat prices up to the general price level.

The same process would be repeated in 1934-35. At no time can the Secretary of Agriculture order a cut of more than 20 per cent. It is said that the cut this fall will probably be 15 per cent.

### Jones Barbecue at Amarillo Postponed Due to Urgent Call

Elaborate plans for paying homage to Congressman Marvin Jones with a Panhandle-wide barbecue on Monday, July 31, at the Fair grounds at Amarillo, were postponed Tuesday, according to a letter from Wilbur C. Hawk, who was in charge. Congressman Jones received an urgent call from the President to return to Washington.

### EDITOR YIELDS TO CALL OF ENCHANTING ROCKIES

Yielding to the beckoning call of the enchanting Rocky Mountains, Editor Mitchell, accompanied by Mrs. Mitchell, left Wednesday afternoon of last week for an extended vacation trip through the mountainous regions and other points of interest in New Mexico and Colorado. The destination point on the outward journey will be Creed, Colo., where Mr. Mitchell will employ his skill as a fisherman—angling for the elusive speckled trout in the cold mountain streams of that region. On the return trip they will attend the Press Association meeting of New Mexico and Southern Colorado at Raton, N. M.

### Pat. R. Bobo Heads Relief Committee For Bailey County

Pat. R. Bobo has been named local administrator for the Texas Rehabilitation and Relief Committee, an organization created for the handling of R. F. C. funds in Texas. It was learned this week. Jess Osborne, Wm. Poole, Jr., Roy Sheriff, W. F. Evans and A. J. Noddy form the county committee for handling the work.

Frank M. Glazier, representative of the Texas organization was here the first of the week setting up the new organization and outlining plans for the work.

It is understood that a change of the administration of these funds is being made all over the state. Therefore funds have been handled by civic organizations through the West Texas Chamber of Commerce for this part of the state. The Texas commission was created by an act of the Texas Legislature, replacing voluntary organizations that have been doing the work over the State. R. L. Brown has been handling the R. F. C. work here in the past, the principal effort being made toward paying the streets of the City of Muleshoe.

### M. E. Senior Class to Give Unique Party For Church Benefit

The Senior S. S. class of the M. E. Church will entertain the people of the community with a party Friday night, July 28th, at the church building.

Games and entertainment for the entire gathering are now being planned and a gala evening is promised to all who attend.

A big feature of the evening will be "Moon Gazing." An instrument has been perfected by Prof. N. E. Trostle, of the State Highway Engineering staff, that will show a close-up of the moon, with its craters, etc. An extra charge of five cents will be made for this feature.

### LAZBUDDY SCHOOL GETS TEN AFFILIATED UNITS

E. R. Haskins, superintendent of the Lazabuddy schools, reports that the Texas Department of Education has allowed that school 10 units of affiliation.

The school is accredited with the following subjects: English I, II and III (three units); history I and II (two units); general science (one unit); mathematics, including algebra I and II, plane geometry, solid geometry and advanced arithmetic (four units).

### FARMERS ARE WARNED AGAINST PLANTING NEW, UNUSUAL CROPS

Warning cotton farmers against plugging their cotton acres retired in the acreage reduction campaign into new and unusual summer and fall crops, O. B. Martin, director of the Texas Extension Service, outlines a general four-fold plan for revamping farm systems to fit the new situation acreage reduction has forced upon Texas. "The safest, surest and most profitable uses for this land have been demonstrated over and over again in almost every community in Texas," he says. "The Extension Service offers nothing startling and magical as a general guide to farmers at this time, but the same plan that has brought success to many farmers in the past and which is now a logical necessity."

"The first part of the next step for Texas cotton farmers is using 25 acres of land, more or less, and with proper livestock and equipment making most of the family food and feed requirements at home. This is what saved us in the last three years and its continuation will make us money in the future."

### TEXANS WILL PRESENT "AIDA" AT CHICAGO WORLD'S FAIR

Native Texan singers and dancers have been rehearsing two years for their gigantic performance of "Aida" at A Century of Progress—the Chicago World's Fair—on Texas Day, August 23, according to Mrs. John Wesley Graham of Houston, general music chairman of Texas and manager of the opera performance at the Fair.

Some 1,500 singers and dancers are busily engaged in rehearsal at Houston now. Mrs. Graham announces, under the direction of Vittorio Versa, co-conductor of the Metropolitan opera, who will conduct the Texas performance at the fair.

The Texas presentation of "Aida" will be one of the most spectacular ever staged. It will be given in Soldier Field, on a huge outdoor stage, with a cast of more than 1,500 persons. Elephants, camels and horses will be there to add to the oriental splendor of the setting, and two train coaches full of negroes are coming up to play the parts of slaves. The opera will be sung in English with an ensemble of 500 singers, a ballet of 150, 250 soldiers in Egyptian uniforms, and an expected audience of 100,000, including more than 15,000 Texans who are going on forty trains for the occasion.

### CHURCH OF CHRIST MEETING BEGINS FAIRVIEW SATURDAY

Earl Allen, of Littlefield, will begin preaching a revival meeting at the Fairview school house Saturday night, July 29th, and continue two weeks. The meeting will be under the auspices of the Church of Christ.

Everyone is cordially invited to be present for each sermon.

### What!! — No Burglar??

Some Wore Pajamas—Some Sans Shirts—Some Had Lost Shirt.

(Time: 11:15 p. m. last Thursday; the citizenship hall was left for the night.)

Burglar alarm on local bank rings loud and long.

(Interval of 15 minutes giving burglar ample time to get away.)

Mighty males break all records getting to bank; the more fortunate clad in pajamas—other had no shirt—some (in market slump) had lost shirt.

Lady bank employe hastens up to door of building; unlocks it—turns

better years, I think, which are ahead. The immediate need in Texas is for quick feed and pasture crops.

"The second part of the step ahead is closely linked with the first. Living at home these last few years naturally gave surplus of farm and home manufacture for sale. It meant extra farm income and it will continue to give extra income. The home port sort of boiled over surpluses of hams and bacon and cheese and syrup and leather goods and the like, which could be sold.

### IMMUNIZE AGAINST DIPHTHERIA SAYS TEXAS HEALTH OFFICER

Austin, July 26.—Dr. H. N. Barnett, Director of Child Hygiene, State Department of Health, in a statement today, urged all parents to have their children immunized against diphtheria. Each child six months old or over should have this preventive treatment now as it takes some time for immunity to develop after the last inoculation.

In the use of toxoid we have an agent that will give passive immunity to this disease; 812 persons died last year in Texas from diphtheria. Two-thirds of all cases occur before the tenth year and approximately 80 per cent of the deaths from this disease occur between the ages of one to five years. Our young children are therefore in danger of contracting the disease and dying from it.

It is a treacherous disease. The first symptoms are so indefinite that the mother can easily overlook their presence. It is necessary even for the physician to look closely for the signs of diphtheria in order to discover them as the child does not necessarily complain of pain in the throat. Take your children to your family physician and have them protected against diphtheria, he said.

### SCHOLASTIC TRANSFERS MUST BE IN BY AUGUST 1, SAYS JUDGE

County Judge J. E. Adams stated this week that all scholastic transfers positively must be in by August 1st. Patrons wishing to transfer are urged to take notice and attend to this before it is too late, he says.

### POISON GRAB AT CEMETERY

Mr. J. E. Egan, caretaker of the Muleshoe cemetery, reports this week that he has put out some poison grain on cemetery lots, and has issued a warning to citizens visiting there to beware lest children come in contact with it and are poisoned.

### BLACKS 12; MULESHOE 4

A crowd of 100 or more hundred people attended the baseball game between the Lubbock Blacks and Muleshoe. Thirteen runs and two errors were chalked up by the Blacks, while Muleshoe made nine hits and 10 errors. Muleshoe got three three-base hits, while the negroes got a home run.

### Blacks 12; Muleshoe 4

A new universal language called "Basic English" contains only 850 words. Inasmuch as it makes no distinction in the use of "shall" and "will" we are for it.

### U. S. INSPECTOR SAYS YIELD ESTIMATES ARE HIGH HERE

A. R. Bateman, of Plainview, Department of Agriculture, is in Bailey county again this week inspecting cotton acreage pledged to the government.

Mr. Bateman stated that in many cases he found that local committees had estimated the yield per acre a little too high, but as a rule he finds they are accurate enough that he was not recommending they be changed. He commended the commitment of this county for the good work they have done.

### Wheat Prices Gain After Record Fall Of 32c Last Week

One of the most drastic market declines wheat has experienced came last weekend when wheat prices plunged 32 cents in two days, the local market dropping for 97 to 65 cents. Other grains, as well as hogs, made drastic declines, but none broke as sharply as wheat.

The Federal government took immediate action, warning both the Chicago and New York exchanges that this must not occur again. The price of wheat was "pegged" in order to prevent further decline, and a limit was placed on its price to eight cents, up or down, in one day.

The wheat market rallied considerably since that time, however, showing sharp upward trends the first of this week. Local market quotations for wheat here Wednesday afternoon were around 80 cents, a gain of 15 cents over last week's low.

In a warning to put their own house in order or the government would reform grain market prices, the Farm Administration at Washington this week informed the grain trade that it did not recognize that the present trading regime "has any divine right to handle the farmers' products." The Government has limited trading hours on the exchanges, and promises to straighten trading matter out.

### B. T. S. Associational Meeting Next Sunday At Baptist Church

The quarterly associational meeting of the Baptist Training service for Young People, Maple Wilson B. T. S. Sunday school afternoon beginning at 3:00 o'clock, according to Rev. C. A. Joiner, local pastor.

### Torch Murder Trial Now Being Held at Clovis; Many Attend

Sheriff Jim Cook, Deputy Sheriff T. E. Arnold, Constable J. I. Bartley, D. O. Smith and others attended court at Clovis, N. M., Wednesday to hear the trial of Roy Sneed and Leonard Beck, charged with first degree murder in connection with the torch murder of Lee Marshall, Quay county, N. M., homesteader, on February 15th.

### \$308,102.00 is Total Amount of Money To Be Paid Here

Permit Forms Arrive Monday; All Have Been Issued.

A total of 27,504 acres of cotton is in the process of being plowed up in Bailey county this week, as a result of permits issued this week by County Agent J. B. Waide, Jr., allowing farmers to take their land out of cotton production.

Blanks for permit application and permits to plow up the cotton arrived at his office Monday, and his force has been working at top speed issuing them to all applicants whose contracts have been accepted by local county committees.

The permits grant farmers the right to immediately start plowing up cotton acreage and preparing the land for other crops.

It is understood that these permits are not final, but are issued in an emergency to allow farmers to prepare land for other crops. Final settlement of contracts still depends upon acceptance in Washington, which must be done before checks will be issued.

Cotton farmers are urged to start plowing up cotton as soon as permits are granted, as this will aid materially in expediting payment on acreage. A total number of 798 contracts have been cleared to date through the office of County Agent J. B. Waide, for the Agriculture Adjustment Administration representing approximately the total number that will be sent in from Bailey county. The total sum of money that these contracts represent, and that Bailey county farmers will receive within the next few weeks, is \$308,102.00.

The estimated cotton acreage for this county is 60,940 acres. Of this total \$75,000 has been offered to the government, far surpassing the goal set for this county of 8,850 acres. According to figures given out by the government, the total cash without option represented in the contracts is \$206,948.50. Total cash payments with option will be \$101,152.50, with 3,741 bales of government cotton optioned to the Bailey county growers for future markets.

With the exception of perhaps a scattering few contracts that have yet to be corrected, all contracts from this county have been mailed. Numerous inquiries have been made as to what time payment will be made on the agreements, Mr. Waide said, and he estimates it will be fully three weeks before the checks can be mailed.

Before payment can be made, he said, permits for plowing up must be issued, and after this an inspection and report made by local committees to the County agent's office here. In return, these must be sent to Washington before checks can be issued.

Mr. Waide stated that he did not know how the payments would be made; whether checks would be mailed direct or be sent through the County Agent's office.

In Washington administrators of the farm law formally accepted the first of the individual contract offers signed by cotton growers in 16 states, last week, mailing approximately 15,000 acceptances to county agents.

This week the acceptances are going forward at the rate of 40,000 or more each day. Administrators estimated that more than 850,000 contracts have been received as a result of the program, and more than 10,000,000 acres of cotton land will be plowed up in coming weeks.

### The first checks started going out

(Continued on last page)

**Wilson News Items**

Quarterly conference of the Methodist church was held here Saturday. Presiding Elder Tittle preached a very good sermon at the 11:00 o'clock hour. The ladies brought well-filled baskets and a bountiful lunch was served at the noon hour. Conference was held in the afternoon, and all were pleased with the report of the local church for the past quarter. Visitors were: L. R. Hogan, George Lindsley, Mr. Atchinson and son, Theo. of Progress, Mr. and Mrs. Davis, of Fairview, and the Presiding Elder, from Plainview.

Sunday school was well attended Sunday and Rev. L. L. Hill preached a very enjoyable sermon from the 6th chapter of Hebrews. We regret very much that Rev. Hill is to be taken from us as he is being transferred to the Lockney circuit. We wish him much success in his new location. As yet, we do not know who will take his place, but are assured it will be filled.

Rev. and Mrs. L. L. Hill and children took supper Saturday night with Mr. and Mrs. B. B. Christie; later going to Mr. and Mrs. Tom Toombs to spend the night.

Miss Pauline Powers and Millard Weed were united in marriage Thursday, with Rev. Huff officiating. We wish them much happiness.

Mrs. Albert Calhoun and children spent Wednesday with Mrs. E. B. Fleming.

Mrs. Mathis of Oklahoma City, Okla. is here visiting her daughter, Mrs. A. F. Reichards.

John Tyson has been going around with a broad smile on his face the last few days. Alice Maxine arrived Sunday, July 18th, to make her home with them. Mother and babe are doing nicely.

Mr. and Mrs. A. W. Early and Marie Hendrix were Sunday guests of Mr. and Mrs. W. L. Blaylock and Wilma.

Rev. and Mrs. L. L. Hill and children and Rev. and Mrs. Hendrix visited with Mr. and Mrs. Iris Holloway Sunday. In the afternoon the ladies, accompanied by Mrs. Blaylock and Mrs. Early, visited Mr. and Mrs. John Tyson.

Cecil Stokes of Lubbock is here visiting friends.

Mr. and Mrs. Robert Sanders visited her parents, Mr. and Mrs. Henry

Hanover, of Goodland, Sunday. Mrs. W. W. Smith and baby are visiting her mother, at Meridian, returning there with a sister who had been visiting here.

Mr. and Mrs. E. B. Fleming and children were dinner guests of Mr. and Mrs. H. W. Garvin, Sunday.

Mr. and Mrs. George Tyson visited Sunday with his parents, Mr. and Mrs. J. C. Tyson.

Mr. and Mrs. B. B. Christie and baby spent Sunday with Mr. and Mrs. D. H. Pender.

This community was visited late Sunday with a nice little downpour which will benefit growing crops very much.

There have been a few cotton blooms reported and cotton is looking good, considering the lengthy drought which was broken a week ago.

**PERCENTAGES OF MULESHOE TENNIS CLUB ARE GIVEN**

Player	Won	Lost	Pct.
Hugh Davis	1	0	1.000
Ralph Glover	7	1	.875
Ralph DeBord	4	1	.800
Howard Towery	1	1	.500
Jim Alsop	1	2	.333
L. S. Baron	1	2	.333
J. E. Aldridge	0	1	.000
Jim Holt	0	1	.000
Claude Wilmonen	0	2	.000
George Wood	0	4	.000
Charles Alsop	0	0	.000
Jim Cox	0	0	.000
Walter Moeller	0	0	.000
W. C. Morgan	0	0	.000
Glen Rokey	0	0	.000

Following are the standings of the individual players of the Muleshoe Tennis club as reported on July 24th:

Features of last week's play were the defeat of Glover in straight sets by Towery and DeBord's defeat by Glover in a hard-fought 3-set match.

**FEATHERY FLOCK HAS REUNION**

Hopkins, Mo.—Mr. and Mrs. Edwin Bird entertained the following relatives at dinner:

Mr. and Mrs. Loren Buzzard, Mr. and Mrs. Kenneth Bird, Mr. and Mrs. Eugene Crane, Dale Bird, Mr. and Mrs. Joe Bird.

All the guests live in the Eagle neighborhood, near here.

An exchange tells of a fellow who dropped a bundle of laundry on the sidewalk and broke both bottles.

**TWO YEARS' COLLEGE WORK REQUIRED OF TEACHERS IN RURAL AID SCHOOLS; DEGREE FOR HIGH SCHOOL TEACHERS**

The State Board of Education has passed a resolution which will require two years college work for a teacher to be qualified to teach in a school receiving rural aid, according to J. E. Adams, County Judge and Ex-Officio School Superintendent. This information was given out by State Superintendent L. A. Woods, stating that the ruling will become effective for the school year 1934-35.

The State Committee on Classification and Affiliation of High Schools has also set a new standard, according to the same report, and a college degree for all grade and high school teachers of four-year affiliated schools will be required of all new teachers coming into a school, and of all old teachers who go to another fully affiliated school. This will also become effective for the school year 1934-35.

These two new rulings are aimed at raising the standard of teachers in Texas schools, Judge Adams stated, and he expressed himself as being in favor of the movement.

"Not many years ago," Mr. Adams continued, "we recall that almost any high school graduate could take teachers' examinations and get a certificate; then they were being offered in three grades. Much improvement has been made in requirements since that time, and for several years now college

work has been required for the granting of teachers' certificates. We may accept the new ruling as a further step forward in the welfare of our public schools."

Bailey county school teachers are warned to take note of the changes in requirements and to make arrangements now to qualify themselves for the new requirements, in case they have not already done so, for the year 1934-35.

There are two ways in which teachers may work off the requirements: summer school work or correspondence courses.

West Texas schools are making plans now to take care of teachers who will need further work before next year. A bulletin from Texas Technological college states that it is offering approximately 250 subjects by correspondence which will be given on either the term or semester basis.

**BIRTHDAY PARTY**

Lucille Bertler entertained a group of her friends on her 13th birthday, Friday evening of last week. Refreshments of ice cream and cake were served to the following: Norma Elrod, Grace Churchill, Betty Ruth Moeller, Wanda Farrell, Margaret Ann Cook, and Florence Stone. All reported a delightful afternoon.

**METHODIST CHURCH**

Sunday school 9:45; the pastor will preach at 11:00 o'clock on "The Business of Jesus." The leagues will meet at 8:00 p.m. with a program for each department. The young people have not met for a Sunday or two but we hope they may get together and renew their interests. It has been talked that they are going to visit our encampment this weekend at Ceta Canyon.

The pastor will preach at 8:30 in the evening. It being cloudy last Sunday night, we almost started on time.

We are not going to mention the mid-week meeting, as we may let that rest until September. It is almost resting now. The choir meets this week with Mr. and Mrs. Trostle at the home of Mrs. Beulah Motheral.

The Presiding Elder preached a good sermon last Sunday and we had some good reports at the conference which followed the sermon. Our attendance has been exceptionally good this summer, in spite of the hot weather and vacationists.

We believe that we need to begin thinking in terms of the church more and the value of the church—what it is, and what it means and does. Also to get more people to the church and prepare to be in the church. For the remainder of this year we shall do that as far as we are able. "Make Church Membership Mean More."

—E. C. RAINEY, Pastor.

In plays people in a parlor do not all talk at once as they do in real life.

**LAWN PARTY**

Miss Retta Mae Arnold entertained Thursday night with a lawn party in honor of her house guest, Miss Rachel Lindsey, of Abernathy.

After music and various forms of entertainment were enjoyed, refreshing iced drinks were served on the lawn.

Those attending were: Miss Rachel Lindsey, the guest of honor, Misses Reva Mae Williams, Alice Ragsdale, Mildred Davis, Mabelle Alsop, Louise Lewis, Opal Morris, Ruth Boarden, Bernice Arnold, and the hostess, Miss Retta Mae Arnold.

A delicious breakfast was served the following morning to the guests who remained overnight.

**DANISH FARMERS CULL HERDS**

Danish dairy farmers are rigidly culling their herds as a means of eliminating overproduction. Already they have destroyed some 10,000 cattle (burning the carcasses so that they will not add to the surplus of meat) and will do away with approximately 50,000 more cattle this year.—Dom. Dept. of Agriculture.

**Hitler and Goehring**

Chancellor Adolf Hitler, voted supreme dictatorial powers for a period of four years as head of the government in Germany and Minister Herman Goehring are shown here as they appeared at a recent public demonstration in Berlin.

**Champ Pretzel Twister**

Helen Hoffer of Reading, Pa., claims the world championship as pretzel twister, her record being 48 pretzels per minute. . . and maintaining this average. . . Helen is not complaining, what with beer on tap and pretzels in demand.

**Indicted Banker**

An early trial is scheduled for Charles E. Mitchell, resigned chairman of the National City Bank of New York, and now under indictment for income tax evasion. When arraigned Mitchell pleaded not guilty.

**NEW ECONOMY FOR FORD OWNERS**

**Exchange Your Engine Cylinder Assembly For A Re-Built Factory Unit**

Here's one of the greatest economy plans ever offered the motorists of this country. A sure way to save money and get many thousands of extra and satisfactory miles from your Ford car. Simple—easy—quick.

Drive in your old Ford Four or Ford V-8 and we'll exchange your old ENGINE CYLINDER ASSEMBLY for a completely re-built unit. Makes no difference how old your car or how far you've gone, the price is the same.

No long wait. We have the motors in stock. All of these exchange assemblies have been reconditioned at the Ford plant in Dearborn.

**A Real Value at These Prices**

**FORD FOUR**  
**\$37<sup>50</sup>**  
PLUS FREIGHT  
(Models A and B)

**FORD V-8**  
**\$40**  
PLUS FREIGHT  
(1932 and 1933 Models)

**Here's What You Get in Ford Re-Built Engines**

- Reconditioned Cylinder
- Assembly
- Reconditioned Crankshaft
- Rebored Cylinders
- Block Re-abbitted
- New Pistons
- New Piston Rings
- Reconditioned Connecting Rods
- New Connecting Rod Inserts
- New Exhaust Valve Inserts

All necessary parts replaced by new genuine Ford parts

**MOTOR COMPANY**

"SELLING A CAR WITH VALUE FAR ABOVE PRICE"

**Motorists have 3 kinds of pocketbooks . . . and Gulf makes an oil for each!**

She has to "watch the pennies"

He pays moderate prices . . . for big values

He'll pay for and get the best

**WHEN** you go to a Gulf station you can pick and choose! You can pay what you want to pay—for oil—and for gas!

For Gulf offers you your choice of 3 fine gasolines and 4 fine motor oils. Each is at a different price—and each is an amazing value!

So buy your gas and oil to suit your taste and your pocketbook. Come to Gulf! Whatever you buy, you'll get the finest product that can be made at the price. And—once you come—you'll come often!

**3 GREAT GASOLINES**

*Gulf Traffic Gas*—A dependable, white anti-knock gasoline  
**Low Price**

*That Good Gulf Gasoline*—The famous FRESH gas. Higher in anti-knock than most regular gasolines—now lubricated. No extra cost.  
**Medium Price**

*No-Nox Ethyl*—As fine gasoline as money can buy, plus Ethyl. Specially designed for modern high compression motors.  
**Premium Price**

**4 GREAT MOTOR OILS**

*Gulf Traffic Oil*—Safe! A motor oil vastly superior to many oils at this price.  
**15¢** a quart plus tax

*Gulf Lub* . . . Gulf's sensational "low-lubrication" motor oil (or *Gulf Supreme*, "The 100-mile-an-hour oil").  
**25¢** a quart plus tax

*Gulf Pride*—No finer motor oil than this. Refined by the famous Alchor process—exclusive with Gulf.  
**35¢** a quart plus tax

And every Gulf customer gets these **FREE** services:

1. Clean windshield—to help you avoid accidents.
2. Fill radiator—to keep your motor safely cool.
3. Inflate tires—to put longer life into them.
4. Check oil—to save you many repairs.

**Y L News Items**

Rev. H. H. Allen is at Petersburg this week conducting a revival meeting for our former pastor, Rev. Cecil Matthews.

Mr. Russell Burman and Miss Juanita Beller were married at Portales, N. M., last Thursday.

Mr. Withrow is home this weekend visiting. He is working in the oil fields.

There was a fine crowd out at Sunday school and church last Sunday. The Christian meeting is getting along fine.

The Methodist meeting will start at Y. L. school house on Monday night, July 31. Everyone is invited to attend. Rev. R. S. Watkins, of Hale Center, will do the preaching. He is one of the best evangelists in the Plainview district.

**TWO LOCAL WEDDINGS**

Business picked up last week for County Clerk J. B. Burkhead and Justice of the Peace Vaughan when two marriage licenses were issued locally and the ceremonies performed at the court house.

Licenses were issued to the following: Kirk Williams and Miss Violet Taylor, of West Camp; Melvin McGuire and Miss Nina Lee, of Progress.

**B. Y. F. U. PARTY**

The Intermediate and Senior B. Y. F. U.'s of the Baptist church entertained the Intermediate and Senior Leagues of the Methodist church Monday night with a tacky party in the Educational building of the Baptist church. There were about thirty young people present in costume to participate in numerous outdoor games.

At the close of the evening, pineapple ice cream and cakes were served to all. The sponsors of the evening were: Mrs. Jim Cook, Mrs. C. A. Joiner, Miss Elizabeth Harden and Mrs. G. C. Holland.

**GOOD RAINS REPORTED**

Good rains were reported to have fallen in south Bailey county and other portions of the territory Sunday afternoon, although no rain fell at Muleshoe.

**A WOMAN TALKS TO GOD**

Now, God, I am so glad that thou didst so construct woman in the beginning that we could advance step by step until we could see the deficiencies in our architectural designs of our bodies and remedy your mistakes.

First, I would call your attention to the homely feet you gave us. You made them flat and level on the bottom. There could have been made with a two or three inch peg like projection under the heel so that we could walk on the ends of our toes without the danger of falling backward. I admit that walking that way is painful, misshapes our toes and causes us to stagger and shuffle along like a crippled hen. But it is the style and we have adopted it.

Second, you gave us hair that was straight and homely like that on a cow's tail instead of making it into a permanent wave which is much more attractive. With our ingenuity we have worked out the permanent wave and adopted it. Most of the men believe that our beautiful wavy hair is natural. Now, Lord, allow me to say that you want to see the other extreme when you made the Negro's hair in waves so permanent they strive from the cradle to the grave to straighten it and fall. When you made our faces you fell short on decorations. You made our cheeks plain white and lips a pale pink when you should have tinted both a brilliant blood-red. With our inventive schemes and at great expense, we have successfully made the change and we are proud of the result.

Third, you gave us a voice that in song, sounded straight and woeful like the wail of a wolf or the honk of a quack, you wanted us to sing in the frigid zone, instead of the quavering warble of the wild song bird. By continuous hard struggle, some of us have gargled, gurgled and gobbled until we have raised the staid old voice out and substituted the beautiful modern warble. Old fogey people say that our modern singing sounds like a pig trying to yodel and the screech owl's shivering scream. This is because they are too ignorant to appreciate any thing modern.

Fourth, I am aware of the fact that soon after you made the first woman you caused her to hide her nakedness with a robe made of big leaves. I know that in an early period in which you personally directed your people, their garments were of wool or animal skins covered their bodies down to their feet. Perhaps that was alright at that time, but it would not work now, because the prime object of the majority of us modern women is to attract man at whatever cost. Not that we are coarse or carnally inclined, but we are giving our attention. We have discovered that the more some men see of us, the more they are attracted and that leads us on. Under the excuse of comfort and convenience, we make our clothes so as to show our bosoms and legs. In fact, when we are at the bathing beach, performing in a show, or attending a private party, we dress to show as much of us as the law will allow and some times, more. We know that it is vulgar and dangerous to make these sex appeals to men but we must attract them in some way. It is a great pleasure to have them frisking around us. We know just how far to go and when to retreat. At least some of us do.

Now, dear Lord, we do not blame you for all these mistakes that you made because at that time you had no wise, modern women to guide you. However, if you had made us right, at the beginning, we could have saved billions of lives that are spent for cosmetics and permanent waves and avoided this awful depression that your mistakes and politicians have brought on us. Humbly yours.—A Modern Woman.

**WEENIE ROAST AND PARTY**

Miss Irma Willis entertained several of her friends Friday night with a delightful weenie roast and lawn party.

The guests assembled at Miss Willis' home and went from there to Horseshoe Bend where they partook of a delicious supper of weenies and all the usual trimmings, seasoned with a little sand.

After supper all returned to Miss Willis' home where lawn games of various kinds were in order.

Those who attended were: Tidwell Douglas, Ruth Gilbreath, Wanda Farrell, Mildred Burkhead, Irma Willis, R. E. Willis, Spencer Beavers, Lamar Witte, Junior Winn, Huston Hart, Mary Frances Willis, Ruth Mitchell, Hugh Davis and Hebron Gilbreath.

**HARNESS THE FISH**

The engineers have harnessed Niagara, and we are now harnessing the Tennessee River, there is incalculable electricity going to waste in fish.

A keeper at the aquarium in London accidentally brushed the tail of an electric eel with his hand. "Instantly," writes Craven Hill, F. Z. S., "he received a shock which not only knocked him off his feet but put him on the sick list for several days."

And consider the torpedo ray. "A holiday maker bathing in the sea off Devon came in contact with one of these fish, and only just managed to come out alive."

Writing for Everybody's Magazine, the biologist confesses, "Why some fish should be capable of thus generating electricity is a mystery, because no animals or birds can do so, nor can any reptiles. All we know is that they do, and that they use their deadly power to keep their foes at bay and also as a weapon."

**SOIL BLOWING CAN BE STOPPED WITH DUCK FOOT PLOW, SAYS COLLEGE MAN**

Soil blowing, which caused such disastrous losses to the Panhandle wheat grower this spring, can be at least partially controlled by revising the methods of soil preparation now in common use, according to Dr. P. C. Mangelsdorf, Agronomist in Small Grains Investigations of the Texas Agricultural Experiment Station, College Station. He further states that the secret of preventing soil blowing lies in keeping the soil in a rough condition, leaving as many clods and as much straw as possible on the surface. Many of the Panhandle wheat farmers have, unfortunately followed exactly the opposite procedure, breaking the soil with the one-way plow and smoothing and pulverizing it with spike-tooth harrows. The disastrous results of this practice are still evident in the ridges of soil and along fence rows, huge mounds in fields and around buildings and many fields swept almost bare of the fertile surface soil.

Now is the time to prevent a repetition of last seasons disaster. Many farmers are blaming the trouble on the extensive and continued use of the one-way plow and they are not far wrong. Perhaps the greatest improvement that can be made in soil preparation is the substitution of the duck-foot or field cultivator for the one-way plow. The duck-foot cultivator is being extensively used by wheat growers in Kansas, Wyoming, and Montana. In Wyoming its use has made wheat growing possible on blow soils where wheat farming had previously been extremely hazardous if not impossible. The Wyoming Experiment Station reports that experimental fields which failed in 70 per cent of the trials with common methods of tillage, resulted in failure in only four per cent of the trials when duck-footing was the only method of tillage used.

The duck foot should be used for the first breaking, following harvest, if the stubble is not too rank, and may be used for subsequent tillage to keep down weed growth. It leaves the surface soil in furrows, with most of the straw on or near the surface, and throws clods to the surface permitting the finer soil to sift down.

Should the stubble be too rank to use the duck-foot, breaking the ground with a lister is preferable to the one-way plow as it leaves the field in a rougher condition. The lister ridges are later worked with the duck-foot or with a lister cultivator.

Sowing with a furrow drill and increasing the seeding rate also have a tendency to decrease soil blowing.

With soil blowing, as with most other troubles, an ounce of prevention is worth several pounds of cure. In this case, prevention consists entirely in deepening surface soil as rough as possible so that fine particles picked up by the wind will be stopped before they gain momentum.

**General News Over Texas and Adjoining States For The Week**

Hagar Smith, negro, of Texarkana, Ark., is so convinced that President Roosevelt will lead the nation back to prosperity that he is plowing up his cotton and refuses money. "I don't want any money to help Mister Roosevelt," he told a committee man.

In spite of good rains around Clovis, Portales, and other points in Eastern New Mexico, there are many reports of continued drought in that state; some farmers considering it too late to plow, feed still hope for a money crop of pinto beans.

An old wall clock, which had been in use for many years, stopped Sunday night at its owner, R. T. May, of Portales, N. M., was dying.

Hale county dries began their drive for votes in a mass meeting Sunday night at Plainview; many churches of the city suspending services for the occasion.

Beth B. Holman, owner of the Hereford Brand, died at his home in Hereford Thursday morning of last week, after an illness of many months.

Good general rains were reported all over Floyd county last week. Levelland for the location of a cheese factory there.

A small cyclone reported to have struck near Elida, N. M., last week.

**WHERE IS MY WANDERING BIRD?**  
"Who's the stranger, mother dear?  
Look! He knows us! Ain't he queer?"  
"Hush, my own! Don't look so wild.  
That's your father, dearest child!"  
"He's my FATHER? No such thing!"  
"Father died, you know, last spring!"  
"Father didn't die, you die!"  
Father joined a golf club.  
But they closed the club so he had no place to go, you see?  
No place left for him to roam—  
That's why he is coming home.  
Kiss him—he won't bite you child!  
All them golfing guys look wild!"

**JUNIOR B. Y. F. U. PROGRAM**

Following is the Junior B. Y. F. U. program to be given at the Baptist church next Sunday evening:

Subject: "The Gateway of the World." Complementary topics will be discussed as follows:

The Isthmus of Panama—Weta Mae Danner.

The Country—Margaret Ann Cooke.

The People and How They Live—Jimmie Adams.

Baptist Work During the Building of the Canal—Mary Hester Glaze.

Baptist Work in Panama Today—Betty Jo Holland.

It is urged that all Juniors attend these meetings each Sunday evening.

A man's head isn't above the water simply because he floats a debt.

Anyone who knows how to speak sparingly can be a man of mystery.

**Girl Scout News**

The Girl Scouts met in the Legion hall Tuesday afternoon with Commissioner Mrs. J. C. Weaver in charge.

A letter to the scouts from one of their sister scouts, Ruth Eckler, who is visiting relatives in Missouri, was read and enjoyed.

The lesson was on camping, which was very appropriate as we are planning to take a trip into the mountains of New Mexico at an early date.

Irma Willis was appointed to arrange girls into various committees, and all girls who expect to make the trip are requested to meet at the hall Saturday at 8:00 o'clock p. m. for the hearing of reports and working out details of the trip.—Reporter.

Many who consider themselves leaders will follow a little white golf ball all day.

**McCORMICK-DEERING Grain Drills**

**FOR TRACTORS AND HORSES**

McCormick Deering Grain Drills are built in sizes ranging from the 5-disk, one-horse drill to the big 28-marker, power-lift tractor drill—a size and type for every farm. These drills have either fluted-feed or double-run seed delivery in plain and fertilizer types.

A variety of furrow-openers individual press wheels, gang press attachments, and force-feed grass seed attachments are available.

We have the drill you need. Come in and look it over.

IN ANSWER TO A LADY'S LETTER

A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made.

The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why?

By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps.

Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight.

The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours.

The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy. As to upkeep, our dealers say that in recent years the improved quality of Ford cars has cut down their repair business 50 per cent. As to price with quality,—judge for yourself.

As to economy, here is the record of a stock car three weeks out of shop in Oklahoma:

On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles.

That should answer a lot of questions.

July 24th, 1933

*Henry Ford*

**LOCAL HAPPENINGS**

- Graham Chandler visited friends in Silverton Sunday.
- Bill Collins and Aubrey Jarman were in Clovis, N. M., Friday evening on business.
- Judge J. E. Adams and Attorney Cecil H. Tate left Monday afternoon for Austin on official business.
- Mrs. Mary Hart and Houston and Charles Alsop left Tuesday on a short trip through Colorado and Oklahoma.
- Eugene and David Guiley, of Lariat, were in Muleshoe on business Tuesday afternoon.
- Will Simpson and son, George Lewis, of Amarillo, were in Muleshoe on business Tuesday.
- Claude Wileman, Jim Burkhead, Clyde Holt, and Jeff White visited friends in Farwell Sunday evening.
- Fred Schmoker and T. C. Young of Vernon, were transacting business in Muleshoe Monday.
- H. S. Harper and H. A. Belew, of Amarillo, were here buying produce Monday.
- Mr. and Mrs. Joe E. Damon and family returned Friday evening from Abilene and Snyder.
- E. W. Hester and H. N. Roberts spent the weekend at their homes in Lubbock.
- J. B. Waide and Ralph Glover attended the show in Clovis, N. M., Thursday night.
- Mr. and Mrs. Ruben Berge, of Abilene, visited her brother, A. J. Sparks, Monday afternoon.
- Mr. and Mrs. W. J. Burrows left Sunday for Priona to spend the week with relatives there.
- Mr. and Mrs. Clay Beavers and daughter, Adella, were in Clovis, N. M., Monday afternoon.
- Mrs. B. W. Carles, Mrs. Beulah Motheral and Miss Beth Mardis motored to Lubbock Friday of last week.
- Tom Connally, Clarendon grain man, was in Muleshoe on business last weekend.
- Ronald Barber, of Progress, is visiting his aunt, Miss Henrietta Burns this week.
- Mrs. R. B. Dennis and little daughter, Carolyn, returned Monday afternoon from Lubbock.
- Mr. and Mrs. Bill Garrett spent the weekend in the home of her parents, Mr. and Mrs. Henry Ivy, of Lazbuddie.
- Miss Rachel Lindsey, of Abernathy, who has been visiting Miss Retta Mae Arnold, returned to her home Friday.
- Miss Mozelle Alsop spent the weekend in Olan visiting in the home of Dr. and Mrs. I. J. Sparks.
- George Magness, of Farwell, was in Muleshoe on business Saturday afternoon.
- Dr. and Mrs. Elmer Moore, of Dimmitt, visited in the home of her brother, Dr. A. E. Lewis, Sunday.
- Mr. and Mrs. Dooley Moore and Miss Lavaca Moore spent the weekend in Silverton visiting friends.
- Mr. and Mrs. Corban Hester, of Clovis, N. M., visited Saturday night with his uncle, Dr. A. R. Matthews.
- D. H. Sneed returned Friday night from a two weeks' trip to the Century of Progress Exposition.
- Mr. and Mrs. Frank Covey, of Newland, visited Mr. and Mrs. St. Clair Sunday.
- Miss Geraldine Skeeters is visiting this week with her grandparents, Mr. and Mrs. A. E. Thornton, of Idalou.
- Mrs. C. F. Moeller and children, Betty and Walter, attended church in Littlefield Sunday.
- Mrs. Jack Cox visited in the home of Mr. and Mrs. Ray Carter, of Baileyboro, Sunday.
- Mrs. Mary Hart, Mrs. Joe E. Damon, Mrs. T. B. Fry and daughter, Mrs. Susie Eiler, were in Clovis, N. M., Monday.
- Mr. and Mrs. M. F. Colline and daughter, Bessie, of Texico, N. M., visited their son and wife, Mr. and Mrs. Bill Collins Friday afternoon.
- Mr. and Mrs. Charlie Walker and children, of Flagg, spent Sunday and Monday with her parents, Mr. and Mrs. C. F. Moeller.
- Misses Retta Mae and Bernice Arnold left Tuesday for Hollis, Okla., to attend the Old Settlers Reunion held there Wednesday and Thursday.
- Connie Gupton and Roy Cobb sided with the Farwell golf team Sunday in a tournament with Vega, in which Farwell won.
- Mrs. C. C. Blackwell and daughters, Deliese and Daphne Fern, of Silverton, are visiting this week with Mrs. C. C. Copley.
- Mrs. Vance Wagon and little daughter, Sandra, and Joe Crowley left Tuesday for White Deer to visit her mother.
- W. K. Hollowfield and son, of Melrose, N. M., were in Muleshoe Friday on business and attended the noon-day luncheon of the Kiwanis club.
- Mrs. Walter Witte, accompanied by a group of friends visiting her from

- Durant, Miss, visited Carlsbad Caverns last week.
- R. J. Klump spent Sunday in Lubbock visiting his brother-in-law, Jim Harding, who is in a hospital there recovering from an operation.
- Mr. and Mrs. R. W. Moore, formerly of this city, left Saturday for Lubbock where they will make their home.
- Irvin St. Clair returned Sunday from Dallas and Ft. Worth where he has been to market. He also visited his father, J. T. St. Clair, of Lapan.
- Mr. and Mrs. Jimmie Ivy, of Lazbuddie, and Wayne Wallace left Tuesday morning for Hollis, Okla., where they will have a short visit with friends.
- Mrs. Frank Patter, of Fort Worth, who is visiting in Sudan, and Vic Nelson, of that city, were in Muleshoe Friday visiting in the home of Mrs. J. T. Lindsey.
- A. P. Stone and Mrs. Holly Bucy and daughter, Holly Ann, were in Vaughan, N. M., Sunday visiting her father, J. W. Kinsinger, who has been seriously ill for some time.
- Mr. and Mrs. Will Harper and family and Miss Eunice Griffiths returned Thursday from Waco, where they have been visiting friends and relatives.
- Mr. and Mrs. Less Dodson and little daughter, Delaine, left Saturday night on an extended vacation in Northern Arkansas. They are accompanied by Mrs. H. A. Towery.
- Mr. and Mrs. W. H. Parsons, Mr. and Mrs. C. H. Needham, and Mr. and Mrs. Elton Parsons visited in the home of Mr. and Mrs. E. L. King, of Childress, Sunday.
- Mr. and Mrs. Frank Snyder and children, Mrs. T. L. Snyder and daughter, Mary, and Mrs. Raymond Chitwood, of Progress, visited in the home of Mr. and Mrs. H. V. Snyder.
- Misses Margaret Sanders and Bessie Bellomy, Bob Badger and Paul Hyatt, of Littlefield, visited Mrs. Alice May and went swimming in the pool here Saturday night.
- Mrs. W. Z. Burrows and daughter Mrs. Jacobson, of Goodland, were callers at the News office Thursday of last week and left a pound of tin-foil they had saved for the aid of the Masonic home at Dallas.
- Mr. and Mrs. J. M. McAdams, Mrs. L. E. Bagdale and son, Edley Mack, Mrs. Walter Witte and little daughter, Martha Jean, attended the Primitive Baptist association at Clovis, N. M., Sunday.
- Mr. and Mrs. Will Harper and family and R. B. Dennis and family spent Sunday in Lubbock visiting Mrs. R. B. Dennis and Miss Eunice Griffiths, who are convalescing in a sanitarium there.
- County Judge J. E. Adams and Sheriff Jim Cook and families returned last week from a vacation trip in Northern New Mexico and Colorado, where they spent considerable time fishing. Judge Adams stated that they caught all the speckled trout they wanted to eat—no foolin'.

**New Wheat Holds Out High Promise**

**"Yogo" Hailed by Department of Agriculture for Many Reasons.**

Prepared by the United States Department of Agriculture—WSU Service.

A new winter wheat, "yogo," has been developed by the Department of Agriculture and the Montana agricultural experiment station for limited trial in Montana under farm conditions.

Yogo is thought to be the best hard red winter wheat yet produced for the northern area by the wheat breeders of the department. It survives the severe winters of Montana, yields well, and is resistant to bunt or stinking smut. These three qualities, difficult to combine in one wheat, furnish the basis for distributing yogo and for believing that it will be successful in northern areas.

At present there is no seed available for distribution. Last year a limited quantity was distributed to farmers in Montana as fall seeding. If the variety continues to show outstanding performance general distribution of seed will follow.

Yogo has been developed and thoroughly tested by the department for yield, winter hardiness, smut resistance, and milling and baking qualities. In 1932, it was one of 50 varieties tested for smut resistance. After the seed had been inoculated with smut it was grown at eight experiment stations in the Great Plains area. Yogo ranked eighth, averaging only 1.7 per cent of infection, whereas karnal, a hard red winter wheat grown extensively in Montana, averaged 47.6 per cent.

Yogo combines the hardy characteristics of all leading winter wheat varieties. In it are Belegina, recognized in its original home in Russia as one of the most hardy red winter wheats known; miniturski, which itself was a cross of Olesse and turkey wheats originating in the Black Sea region; and Buffum No. 17, a hardy selection from Turkey developed in Wyoming about 20 years ago.

Yogo is one of many new varieties that are being tested in the comprehensive winter wheat breeding and improvement program of the department in co-operation with the state experiment stations in Texas, Oklahoma, Kansas, Colorado, Nebraska, Wyoming, Minnesota, South Dakota, North Dakota, and Montana.

**\$308,102.00 IS TOTAL AMOUNT OF MONEY TO BE PAID IN COUNTY**

(Continued from page one)

early this week, with approximately 100 millions in cash to be distributed in addition to options on more than two million bales of government-owned cotton.

If diminutive automobiles become more popular, drivers of 10-ton trucks will be more arrogant than ever.

The Cubans want to have a revolution, but fear that Uncle Sam won't let them have it in peace.

**THREE-YEAR BASIS WILL BE USED FOR ESTIMATE OF YIELD**

(Continued from page one)

ments, the committee would have to check up on him. If the sum of all the individual farm allotments in the county (unsigned acreages taken into account) exceeds the county allotment, the association would have to make adjustments of all acreages. The cost of all this local work is estimated to amount to an average of about two cents per bushel, and would probably be deducted in some way from John's payments.

Should John fail to keep his contract next year the Government would declare his 1933 payments liens against his future crops and collect it back. If he should sell or rent his farm his successor would have to carry out the contract. But if John is loyal in living up to his contract and farms his allotted acres in a workmanlike manner, he will get his payments whether he makes a crop or not.

Extension Service officials point out again that the plan in its present form would discriminate against many Texas farmers because state and county allotments are based on five year averages while the individual farm allotment is based on three years. Wheat acreages in Texas are increasing, all they explain, and hence Texas would have to reduce an average of 26 per cent under the 1932 acreage if a 20 per cent cut were ordered. In 45 of the 65 counties that produce 100,000 bushels or more per year, farmers would have to cut 25 per cent or more if a 20 per cent cut is ordered. A brief has been filed with the Administration pointing this out and asking for readjustments of the plan.

An educational campaign to explain the plan and organize county wheat production control associations will probably be started by county agents sometime about mid-August, Director O. B. Martin of the Extension service says.

**ONLY 27 COMMERCIAL FAILURES REPORTED IN TEXAS FOR JUNE**

Austin, July 26—Only 27 commercial failures were reported in Texas during June, according to exclusive reports to the University of Texas Bureau of Business Research from experts. There has been only one other month—November, 1928, when only 24 failures were reported—since May, 1920, when fewer failures were reported than in the month just past. Liabilities totaled \$456,000, a substantial decline as compared with the total liabilities of \$1,044,000 reported by the 56 failures in May, and \$1,550,000 reported by the 59 bankruptcies in June a year ago.

No failures with liabilities of \$100,000 or more were reported.

Let Texas folks live for Texas.

Keep the upward gaze. It turns prisons into palaces and transforms hotels into castles.

The only sure way of avoiding mistakes is never to attempt anything.
