MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, NOVEMBER 30, 1933

NUMBER 44

## SOMEBODY TO GET BIG TURKEY FREE FOR CHRISTMAS DINNER AT MULESHOE TRADES DAY MON.

Next Monday is Trades Day again in Muleshoe, and with promise of being the biggest day yet held of this kind. Nearly everyone now has their crops harvested and cotton picked—much of it sold. People have more money now than they have had for many months past—they have more time for recreation and amusement, are all in better spirits because Roosevelt is gradually lifting the cloud of economic depression from off the nation. So everyone is cordially and urgently invited to come spend a day of pleasure and profit in Muleshoe.

**The Day's Feature**  
An "Installment" is to be the feature stunt of the day—a new kind of auction wherein the auctioneer, followed by the crowd, visits each place of business and offers for sale to the highest bidder some article the owner of that business may bring out to be knocked off under the hammer. The stunt contains plenty of competition and lots of exciting fun and enthusiasm.

**Turkey Turned Loose**  
A big bronze turkey is to be set free from the dizzy heights of the city tower to soar off on lifted wings through space. The one who successfully captures it may keep it and fatten it some more for their Christmas dinner table. Yum! yum! but it'll taste good in a few weeks!

**Many Other Features**  
There will be several athletic stunts of various kinds of interest, among them being a long distance baseball throwing contest, and chinning of a horizontal bar with one and two hands for men, while for the women there will be a ringing the post with a hoop contest and one to see who can pump the most apples into the head of a barrel. Suitable awards will go to each stunt winner.

**There will be a big street dance at night, weather permitting.**  
The usual sale and barter feature will be in order, and anyone having anything to dispose of is urged to bring it at this time. There is a special call for livestock on this occasion, horses, mules and cows. Several buyers having stated they will be present. Free auctioneer services for everyone with anything to go under the hammer is assured.

Realizing the holiday season is fast approaching, business men of Muleshoe have stocked their shelves heavily with the season's desires, and in many instances there will be special prices offered on merchandise of various kinds that will mean considerable money saving. Look over the page advertisement in this issue for the best of the best.

Next Monday is going to be worth something to have brains instead of beauty, for Skeet's barber shop is offering \$1.00 worth of barber work to the slightest man. Come in and register and get the work done. Three unbiased judges will be appointed to decide who will be the winner.

### Brown To Sell 4,000 Acres Bailey County Land On Cotton Plan

R. L. Brown, local realtor, last Tuesday closed a contract with J. L. Howard for the purchase of 4,000 acres of the Howard ranch to sell 4,000 acres of that fine body of land located on the new North and South highway now being built through the county and one corner of which comes up to the Needmore store. The land is located approximately 15 miles south of Muleshoe.

It is one of the choice agricultural bodies of this county, being principally of the red sandy loam type soil, commonly spoken of in this section as high moisture retentive qualities. Practically all of it lies well and even, with very few depressions of any kind, being practically 100 per cent tillable.

The land is to be sold on the "bale of cotton" plan, with the exception of the first small down payment, no cash being necessary to pay out the balance due on purchase price. The entire tract has been cut into about 20 separate tracts averaging 184 acres each and nine bales of cotton per year will pay for one of these tracts.

Mr. Brown states he already has a number of inquiries for land that may be purchased in this manner and is confident he will be able to sell the entire tract within a very short time.

Congressman Sam Jones, of Amnullo, will speak at Dimmitt December 1, on the pendency and value of federal administration plans.

Ed Stanton has taken an appeal in the death sentence given in Swisher county for the killing of Sheriff John Meeley of that county.

### Medicos, 4 Counties Organize, Matthews Named Vice-Pres.

A meeting of much interest to the medical fraternity of Bailey, Lamb, Cochran and Hockley counties was held at Littlefield last week at which time a medical association for the four counties was organized to become an auxiliary of the state organization. It will be known as the L. B. H. C. Medical society.

Dinner was served the following doctors: J. G. Little, J. D. Simpson, J. P. Coon, Littlefield; A. R. Matthews and T. A. Moore, Muleshoe; E. L. Rochelle, Amherst; I. J. Sparks, B. A. Prestridge, Otton; D. T. Jordan, Morton; W. H. Ford, Sudan; H. N. Lusk, C. R. Johnson, Levelland; W. L. Baugh, O. Q. English, Lubbock; J. D. Anderson, Ft. Worth; Drs. Baugh and Anderson attending for the purpose of assisting in the organization.

Sitting around the dinner table various subjects of interest to the medical fraternity were discussed, at which time was brought out the need of such an organization for mutual protection and benefit of the members of that particular profession. After the meal, officers were elected as follows: I. J. Sparks, president; A. R. Matthews, H. N. Lusk, D. T. Jordan, vice-presidents; J. G. Little, secretary; treasurer; C. R. Johnson, three year term; B. A. Prestridge, two year term; T. A. Moore, one year term, constituting the board of censors. J. D. Simpson, T. A. Moore, C. R. Johnson, D. T. Jordan, E. L. Rochelle, public relations committee; J. D. Simpson, delegate to state medical convention to be held May 2-4.

### Big Crowd Greet P-T. A. Program Given Monday Nite

There was practically a full house at the meeting of the Parent-Teachers association held in the High school auditorium last Monday night and much interest shown in the program rendered.

The second grade won the two dollar prize for obtaining more members to the P-T. A. organization than any other room. The Grammar school won the five dollar award for getting more members than did the High school.

The regular meeting was given by having the most mothers and fathers present at the regular meeting. There are now 56 members of the local organization.

### Farmers Of County Will Get \$7,091.74 On Wheat Reduction

Bailey county wheat farmers will obtain the sum of \$7,091.74 from the federal government as their part in the wheat reduction campaign, according to estimates made by the county wheat committee at its meeting last week.

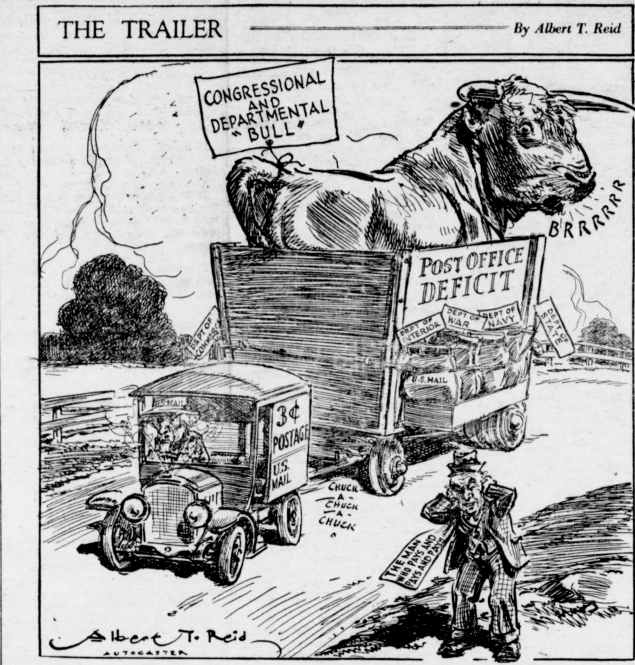

This estimate is based on an average of 4,003 acres of wheat planted over a three year period from 1930 to 1932, inclusive, which gives an average production of 46,646 bushels, though payment will be made on the average five year production which is 49,956 bushels.

### TURKEY MARKET SLOW, ONLY 15,000 LBS. BIRDS ARE SHIPPED

The Thanksgiving turkey market in Muleshoe has been the slowest this year for many years past, only about 15,000 or 16,000 pounds of the birds being shipped, while many raisers are holding other birds for the Christmas selling. Low prices are the principal reason for withholding from the market.

While the crop of turkeys raised in Bailey county this year was larger than that of last, the general crop raised throughout Texas was shorter. However, more birds of this kind were raised in the northwest and western central states than common, which largely accounts for the low prices paid.

The Chevrolet belonging to M. Q. Miller was also stolen the same night driven out to the edge of town and abandoned, the thieves keeping the keys.

### Methodist Parsonage Entered, Pastor And Wife Victims Of Mob

Thursday night of last week under guise of holding a choir practice meeting at the home of Rev. and Mrs. E. C. Raney, several people entered the parsonage in a decidedly ulterior manner—"beating up" the minister and his wife.

It was an old-fashioned "pounding" occasioned by the pastor being recently returned to the church here for another year's service, and was quite a surprise to the minister and family.

Rev. Raney returning late from his rounds of visitation saw several people sitting in cars in front of the parsonage, while others were going in with arms well laden with sacks, boxes, cans, buckets, etc., when it flashed across his mind the meaning of it all.

The articles of food tendered were high class groceries and some meat, all conducive to stimulating the physical as well as fundamental to developing the spiritual, which is the prime motive of the ministerial flock.

Commenting upon the nocturnal maneuvers of his Rev. Raney said: "The pounding was greatly appreciated by the family, everything being of need and value. Many who could not accompany the church 'gangsters' on that particular raid have sent in several articles since, and while the food itself is greatly appreciated, yet the token of friendship back of it is more gratefully received for after all it is the giving of ourselves accompanying the gifts which really counts. As some one has said: 'Not what we give, but what we share; for the gift without the giver is bare.' Then another has said, 'In as much as ye did it unto one of the least of these, ye did it unto me,' and we are among the least."

### CAR STOLEN TUESDAY NIGHT

The Chevrolet automobile belonging to J. B. Waide, Jr., was stolen last Tuesday night, being found early Wednesday morning with empty tank on the streets of Slaton. Mr. Waide did not know of his loss until notified by the Slaton chief of police over the phone early that morning.

It is stated that strikers were also made Tuesday night to steal the cars belonging to Gilbert Wollard and Jay Wyr.

The Chevrolet belonging to M. Q. Miller was also stolen the same night driven out to the edge of town and abandoned, the thieves keeping the keys.

### BAILEY TO GET \$700 IN DAILY RELIEF FUNDS

The first thing in order at the Kiwanis meeting last Friday at Mrs. Rice's dining room was a vote of appreciation to the caterer for the super-excellent dinner served the members, it being declared the only fault to find with it was the plates were not large enough and the diners didn't have big enough sideboards on their tummies to handle their physical satisfaction the delightful bill of fare provided for the hungry business men.

Pat Bobo, Bailey county relief director, having just returned from Austin where he attended a state-wide meeting of the Civil Works Administration, told members present something of the new plan of relief now operating throughout the state.

Mr. Bobo said there was no doubt now but the North and South highway through Bailey county was an assured fact. Last week, he said, there were 145,000 men on the state's relief rolls, 84,000 of whom went to work. The money for relief work is to be apportioned to counties in two different ways and on the basis of population.

Twenty-five percent of the money coming to Bailey county will be for relief by labor and 25 percent for direct relief not involving the labor question. It is now anticipated that the Bailey county relief committee will be able to work an average of about 143 men daily, which will mean between \$200 and \$800 relief money spent in this county daily until December when the plan may be somewhat changed.

Mr. Bobo stated the county was going to have to be put to considerable expense also in carrying out the new road plan, but gave it as his opinion that such extra expense would be well worth the project now being carried on.

The matter of the Trades Day for the first Monday in December was discussed, the committee stating plans were being made for a high grade program of an entertaining nature, introducing some new features in the day's bill of events.

The club unanimously went on record as approving President Roosevelt's plan of national recovery, and voted that a resolution setting forth such fact be prepared by the local secretary and forwarded to Washington, D. C.

The matter of \$156,000 delinquent taxes in this county was discussed and the club voted to use their influence toward getting as much of that tax paid as was possible.

Following is the resolution signed and sent to President Roosevelt:

**Resolution**  
WHEREAS, members of the Kiwanis Club, Muleshoe, Texas, realize that depressed economic conditions of the past three years have demanded a resolute and determined action on the part of our state and national govern-

ment officials to cope with the situation; and

WHEREAS, Hon. Franklin D. Roosevelt, President of the United States, has demonstrated his sense of the situation and ability as a statesman and leader to initiate such measures as are in our opinion, conducive to correcting said depression; therefore

**BE IT RESOLVED** that the members of this Kiwanis club who have all previously signed up under the NRA movement and are conscientiously conducting their several businesses according to its direction go on record as heartily endorsing the various means and measures initiated by our President for bringing about a more satisfactory and equitable adjustment of economic conditions in our nation and that we unequivocally condemn the actions of citizens and organizations who are attempting in any way to thwart or annul the various plans now being prosecuted by the President and his honored assistants toward national recovery; and

**BE IT FURTHER RESOLVED** that a copy of this resolution be forwarded to the Hon. Franklin D. Roosevelt, President of the United States of America; that a copy be furnished the Muleshoe Journal, our local newspaper for publication; and that a third copy shall be spread upon the minutes of this club for permanent record; that future generations may know this organization during the period of national stress and hardship; and that the President and our government of which he is the appreciated and honored leader.

**THIS RESOLUTION** was offered and unanimously passed by vote of the members of the club this 24th day of November, A. D. 1933, and to further signify and inform the President of individual subscription thereto the Secretary was ordered to affix the names of said members to said resolution in testimony thereof.

**NEL ROCKEY**, President, Muleshoe Kiwanis club.

**ALBERT H. ISAACS**, secretary, Muleshoe Kiwanis club.  
Members: J. E. Adams, J. E. Aldridge, Pat R. Bobo, Tom Davis, R. L. Brown, Ray Griffiths, Connie Gupton, Albert H. Isaacs, R. G. Jordan, A. E. Lewis, Jess Mitchell, A. R. Matthews, Jess Osborn, Neil Rockey, I. L. St. Clair, K. K. Smith, Cecil Tate, J. B. Waide, Jr., R. B. Canfield, Roy Cobb, E. C. Raney.

### BAILEYBORO BOY INJURED

Venetha Miller, of Baileyboro community, suffered a painful accident Tuesday afternoon of last week, being taken to Sudan for medical attention.

While stretching some barbed wire on a fence in some manner the iron bar used slipped, letting the wire back and severely cutting the young man's leg, requiring several stitches to close the wound which went through the muscle of the calf clear to the bone according to report.

## H. STERLING IS FREE OF STATE SHORT CHARGE

H. Sterling, former sheriff of Bailey county, was acquitted of charges alleging embezzlement of state funds, totaling \$388.02, last Monday in District court on an instructed verdict from Judge Charles Clements to the jury trying the case.

It was in April of last year that an auditor reviewing the books of the Sheriff's department reported an alleged shortage of \$14,770.1; \$861.50 of which was claimed to be county funds and \$815.51 said to belong to the State, some of this shortage afterward being repaid.

Sterling resigned office May 3, last year and his deputy Jim Cook, was appointed by Commissioners court to fill the unexpired term, afterward being elected to the office.

Bailey county entered suit against Sterling's bond company for the sum of \$735.71, the case coming to trial in the November term of District court last year and judgment granted plaintiffs in the sum of \$577.25, it being understood the county had collected the difference between the sum awarded and asked for in checks previously held by Sterling and turned over to the county.

In the trial last Monday the State was represented by J. K. Johnson, who had audited the books in Bailey county. However, the books at Austin had been audited by a different man Johnson failed to bring with him a certified copy of the Austin audit, could not personally swear to its correctness, hence the evidence was construed as "hearsay" and not directly admissible, and upon the State's failure to produce proper testimony the case was settled in favor of the defendant by instructed verdict from the judge.

Several witnesses had been called to testify on both sides of the case, but none were used.

### Bailey May Ship 23 Cows To Lubbock On Federal Relief Plan

Texas has an allotment of 20,000 cows to be purchased through the Federal Emergency Relief Administration, according to advices received last Monday by J. B. Waide Jr., Bailey county farm agent. Of this total 23 cows have been allotted for purchase in Bailey county.

Slaughtering points and packing houses have already been named by the administration and it is stated they will be purchased on the basis of \$1.75 cwt. Sale permits will be issued only to original growers, no commission will be charged and right is reserved to reject cows carrying insufficient flesh, crippled or diseased animals.

Cows from Bailey county will be shipped to the slaughtering plant at Lubbock, and farmers interested in making consignments should see Mr. Waide immediately for details of the plan.

### Every County Asked For Minimum Of Six Government Projects

Washington—As part of the plan to put 4,000,000 men now on part-time relief work on full time, under the new Civil Works Administration, every state highway commission has been urged to find a minimum of six road projects in each of the 3,000 counties in the country on which road maintenance expenditures are not more than \$5,000 each can be made promptly.

If fully realized, this would mean some 18,000 projects involving potential outlay of \$80,000,000. The cost is to be advanced in the proportion of 85 percent from Federal relief funds and 15 percent from Federal road aid to States. Highway commissions were asked to list immediately projects available in unemployeed areas.

The new Civil Works Administration is conducted by the Federal Emergency Relief Administration, with the same office force. President Roosevelt set apart for it \$400,000,000 from the public works fund to hasten full-time employment of present part time workers now on relief rolls, with the purpose of making them self-sustaining. Mean while the road improvement plan is one of many to start the 4,000,000 to work and to remove them and their dependents from relief rolls.

### JUDGE WEDS TWO COUPLES

Following the issuance of marriage licenses by County Clerk Burkhead Dan Waide and Miss Annie Pearl Gray, of West Camp, and Elmer McDonald, of Crosbyton and Miss Lena Wilson, of Sudan, were married last Saturday by Justice J. F. Vaughan

# THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor. I. F. MITCHELL, Bus. Mgr.

### SUBSCRIPTION RATES

In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas. Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

### A THOUGHT FOR THE WEEK

The Lord is good, a stronghold in the day of trouble; and he knoweth them that trust in him.—Nahum 1:7.

Happy the man who can endure with equanimity the highest and the lowest fortune.—Seneca.

seen in the sky, and when sacrifices and hardships will be forgotten. For these things, above all else, let us be thankful.

### A GOOD SPORT

The thing that distinguishes a genuine sportsman from a "bum sport" is that those who have the spirit of sportsmanship not only know how to win gracefully, but how to lose uncomplainingly. The difference between a genuine sportsman and the other kind is that your real sportsman never tries to shift the responsibility for his failure upon someone else.

That is something worth remembering, and the Muleshoe citizen—young or old—who is guided by it will be happier. Try your best to win, but if you lose don't be too quick to blame somebody else for your failure.

Nine times out of ten people get whatever rewards their individual ability, character and industry entitle them to. And it is also our observation that about nine times out of ten the man who fails is ready to lay the blame upon the government, or the capitalist or the boss, or anybody else but himself.

In these days when winning is so common, it is indeed refreshing to meet up with the good sport—the fellow who plays the game square and, if he loses, doesn't try to lay the blame at somebody else's door.

### NOT TOPPLING NOW

Not all the good news gets in the papers. For months past the big city dailies have overlooked the fact that there have been in recent months fewer bank failures than there were in normal times. Back in the hectic days following the World War there were on an average several hundred bank failures each month, yet no one expressed alarm and financial affairs throughout the nation went on with confidence unshaken. So now that bank failures have declined to the point where they are not as numerous as they were six, eight or ten years ago, it must strike the average Muleshoe citizen as good tidings. The only thing that is difficult to understand about it is why the daily press has not seen fit to broadcast such glorious news so that everybody, everywhere, can read it and be glad.

### A WARNING ISSUED

Farmers around Muleshoe will be interested in a warning now being sent out by the Farm Credit Administration against dealing with unlicensed and unauthorized persons who are going

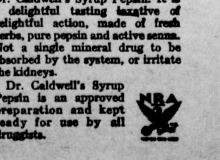

any prescription which he wrote. But most important of all, a gentle liquid laxative does not cause bowel strain, pure pepsin and active enzymes, and this is of the utmost importance to expectant mothers and to every child.

Expectant mothers are urged to try gentle regulation of bowels with Dr. Caldwell's Syrup Pepsin. It is a delightful tasting laxative of delicate action, made of fresh herbs, pure pepsin and active enzymes. Not a single mineral drug to be absorbed by the system, or irritate the kidneys.

Dr. Caldwell's Syrup Pepsin is an approved preparation and kept ready for use by all druggists.

All doctors know the value of the laxative whose dose can be measured, and whose action can be controlled.

The public, too, is fast returning to the use of liquid laxatives. People have now learned that a properly prepared liquid laxative brings a perfect movement without discomfort at the time, or after. Dr. Caldwell's long experience with mothers and babies, and his remarkable record, nearly three thousand births without the loss of one mother or child, should give anybody complete confidence in

ing about seeking to collect fees for the so-called service of helping them obtain loans from Federal Land Banks.

"No unofficial intermediary is necessary for farmers to make applications for loans, and no such person will have any influence upon the amount of the loan which will be made," says the warning from Washington. At the same time applicants are told to make all applications direct to National Farm Loan associations, to authorized correspondents of Federal Land Banks, or to the banks themselves.

Persons claiming they can procure or increase loans are frauds. Residents of this territory will do well to be on the lookout for them.

### Jaunty Journalettes

Maybe you've noticed that all the Muleshoe people who say brain work is harder than physical labor are brain workers.

If the good old days in Muleshoe were perfect why then were the people engaged in breaking their necks to bring about better days?

People around Muleshoe should be thankful for religion. It provides one way to save the farmer without soaking the taxpayer.

Some Muleshoe men are like automobile motors. They never get very far after they commence to knock.

Then there's faith, hope and charity—and the more Muleshoe folks have of the first two the less they'll need of the last.

The goodness of some Muleshoe men's wives is about all that can be said in their husbands' favor.

The average Muleshoe man who is having trouble to manage his dollars might find it advisable to turn them over to his wife.

### Pavement Pickups

Alex Paul says in his business about the only time he has any use for mathematics is when he goes to figure out how to make both ends meet.

Experts say most of the wheat is still held by farmers, but Tom Davis says that is true why don't the price go on up still higher.

E. R. Hart insists that the country would be much better off if there were more people living under the blue eagle and not so many on the red cross on up still higher.

Judge J. F. Vaughan, who is not over 30 years young, says he has about come to the conclusion there is as much chance of his getting rich as there is of a humming bird flying to the moon with the Bailey county court house tied to its tail.

Gib. Wollard promised to eat all the deer in 90 minutes if the County Gunton brought back with him from his recent hunt in the Big Bend country; but to date the fire siren hasn't blown, no preacher has been called upon to conduct his funeral, neither the medical nor RFC relief officials have been asked for assistance and the Journal has been patiently waiting for a front page story of that stunt. Yep, Connie got the deer!

Roy Cobb insists the man who will deliberately poison another's pet dog regardless of whether it deserves it or not, ought to be put a straddle a barbed wire fence and skidded down it for a half mile, and we're prone to agree with him.

About the meanest man we've heard of lately in Muleshoe was the one who recently threatened to cut off his dog's tail so his mother-in-law wouldn't know he was glad to see her when she came to visit the family.

Jim Riddle had an addition to his family last Thursday, and the first of this week Dr. Matthews drove out to see how the mother and babe were getting along. He found Jim had just finished a neat little washing of birdseye and was holding his head down in a rain barrel saying "daddy" just to hear the sweet echo ring in his ears.

Not many folks know that J. B. Burk, head, county clerk, is poetically inclined, but a scrap of paper innocently picked up out of his waste basket a couple of weeks ago by the Journal's leading reporter gives away that fact. It ran something like this:

"My Vynust is on her vacation My styno's awau fpr a seyk My asystyns vistyln her mutder" Just to hear these dumb keys play hide and see!

Chorus Bren bock, bring bak Oy, bring hecj Miz Revu tp mr; B(cng b4k) be-ng diez Oj, bvong boak m's helnio—Imix—oh helk!

G. O. Jennings, the new merchant in Muleshoe, says don't confuse the spelling. Bologna requires chewing. The kind you swallow whole is baloney.

Judge Vaughan married a negro couple one day last week. After the knot had been tied he asked the dusky groom what attracted him to his blushing bride. "Well, sah," replied the ebony-faced husband, "de first time as seed her I tuk er fancy to her—she was so good-lookin'." Den, when Ah learned dat she was a fast cotton-picker, right den and dar, sah, Ah surrendered.

Elmo Head says Turkey's ought to be especially thankful this year—they got to live until the very last day of November.

Lud Taylor last Monday had been working on a boiler which had got out of whack in the pressing shop. Looking up through the atmosphere which was blue with smoke and anti-theological expressions, he remarked: "I've just discovered why all the men folks in heaven wear whiskers: there ain't no barber there."

Clay Beavers, who has been making considerable boast about the octane content of Phillips 66 gas is now accused by J. B. Waide of having gas that is too darned good—so good, in fact, that it makes a car run off by itself, without even asking the owner which way it should go.

### SNAP SHOTS

It seems to be freely conceded it's a shame for anyone else to work more than 12 hours a day except mother.

It should not be a surprise now to hear that the corkscrew industry is enjoying a boom.

It is now being freely estimated that the conservation boys have by this time planted nearly enough trees to make up for the lumber they used for camps.

Salvation used to be free, but it is used to be because of Heaven's generosity instead of that from Washington.

Farm tractors have now got up to a speed of 35 miles per hour. Now the farmer can use the tractor to take the family to church on Sunday.

A free country is one in which the leaders consider a politician more important than the greatest scientist.

At least, no NRA code can keep a farmer from working overtime. Do your Christmas shopping early and get out of the way of those who chronically wait until the last week.

### THANKSGIVING DAY

We think it appropriate at this time to print the first account of the origin of Thanksgiving Day, as it was set down in 1623 by William Bradford, Governor of Plymouth Plantation. The spelling and punctuation are just as Governor Bradford wrote it in his Journal.

"Notwithstanding all their great paines & industrie, and ye great hopes of large crott, the Lord seemed to blast, & take away the same, and to

threaten further & more sore famine unto them, by a great drought which continued from ye 3. weeke in May, till about ye middle of July, without any raine, and with great heat (for ye most parte), insoomuch as ye corne began to wither away, though it was set with fishe, the moisture whereof helped it much. Yet at length it began to languish sore, and some of ye drier grounds were parched like withered hay, part whereof was never recovered. Upon which they set a parte a solemne day of humiliation, to seek ye Lord by humble & fervente prayer, in this great distresse. And he was pleased to give them a gracious & speedy answer, both to their owne & the Indians admiration, that lived amongst them. For all ye morning, and greatest part of the day, it was clear weather & very hotte, and not a cloud or any signe of raine to be seen, yet toward evening it began to overcast, and shortly after to raine, with such sweete and gentle showers, as gave them cause of rejoicing, & blessing God. It came without either wind, or thunder, or any violence, and by degree in yt abundance, as that ye earth was thorowly wet and soaked therewith. Which did so apparently revive & quicken ye decayed corne & other fruits, as was wonderful to see, and made ye Indians astonished to behold; and afterwards the Lord sent them such seasonable showers, with interchange of faire warme weather, as through his blessing, showed a fruitful & liberal harvest, to their no small comfort and rejoicing. For which merite (in time convenient) they also sett aparte a day of thanksgiving."

We have kept the form of Thanksgiving Day, but ought we not also to

## ST. CLAIR VARIETY STORE

# TRADES DAY

- AT -

# MULESHOE

Monday, Dec. 4th

This Trades Day is destined to be a Red Letter Day in the history of Bailey County. Crops are mostly gathered now, nearly every one has more money than they have had during the past two or three years—everybody has more time for enjoyment now, holiday shopping is in order, and the public generally is invited to come to Muleshoe for a day of bargains, barter and pleasure.

An Installment Auction on the order of the Serial Pictures shown at the movies will be a feature of the day. Every business house is being asked to put up something for auction. The auctioneer, followed by the crowd, will stop in front of each business concern, the manager of that particular business house will bring out some article and it will be auctioned off to the highest bidder. It's lots of fun and you don't want to miss it!

## STUNTS OF VARIOUS KINDS

Baseball Distance Throwing Contest, Chinning a Horizontal Bar with one and both hands for men. Ringing a post and putting apples into the head of a barrel for women. Suitable awards will be given winners in each event.

A big, beautiful bronze Turkey will be thrown from the top of the City Water Tower, and, as it flies away in the distance the crowds will follow The one who captures it may keep it for their Christmas dinner.

Orchestra Music by Parsons — Traweek and Others  
FREE AUCTION SERVICE: Right now there is a call for livestock of different kinds. Bring any horses or cattle you have for sale. There will be folks here wanting to buy it. Bring any farm implements, tools, household goods, etc., you want to dispose of by sale or barter. FREE auction service.

Special Price Offerings in Merchandise by Business Men!

### Al Smith Scores Roosevelt Gold Plan. Sen. Borah Upholds

Alfred E. Smith broke openly today with President Roosevelt's monetary program, declaring he was for sound money and a return to the gold standard.

"I am for gold dollars as against baloney dollars," said the former Governor in an editorial to be published in the December issue of the New Outlook.

"I am for experience as against experiment. If I must choose between private management of business and management of a government bureaucracy, I am for private management."

"If I must choose between the leaders of the past, with all the errors they have made and with all the selfishness they have been guilty of, and the inexperienced young college professors who hold no responsible public office but are perfectly ready to turn 130,000,000 Americans into guinea pigs for experimentation, I am going to be for the people who have made the country what it is."

"And I say this with full knowledge of the fact that there are many things in the old order of society which I should like to have changed and which I do not applaud or even condone."

Senator Borah, of Idaho, has taken a stand diametrically opposed to that of Al Smith and is upholding President Roosevelt's gold plan. Meanwhile the President is sitting easy, making no statement at all about the matter and the price of gold remains the same while people living in Alaska are working double shifts to find new sources of the yellow metal while the price is good.

### Nine Talked Of For Governor's Office Others May Come In

Names of nine proposed entries in next summer's gubernatorial contest are being discussed in Texas political circles. Some are certain to run and others awaiting further developments. Those fully expecting to make the race are not to become active until after the first of the year.

It is rather well determined that Edgar Witt, Tom Hunter, James V. Allred and Clint C. Small will seek gubernatorial honors, while there is a division of opinion whether Mrs. Ferguson will run for another term. Some Ferguson friends say she will and some say she won't, while her husband, James E. Ferguson, has given no public indications. Some of Cole R. Stevenson's supporters still want him as a candidate, although he has indicated he probably will return to the House and be candidate again for Speaker. Others in the list of possibilities include Walter Cline, C. C. McDonald and Claude Pollard.

Cline has a group of friends who would like to see him a contestant, and McDonald would enter only in case the Ferguson's stay out. Interest in Pollard has developed the last two weeks. He formerly was Attorney General and is now general attorney for Texas railroads.

If Hunter has any plans to run for any other state office, for railroad commissioner for instance, he has said nothing of it, but on the other hand he has informed friends that he has "never stopped running for Governor." He was third in the gubernatorial race in 1932, while Small was third in that race two years previously. A report recently was published that Hunter would run for the railroad commission against Lon Smith, but since Hunter is against a deer hunt confirmation is lacking.

### HART KIDNAPERS LYNCHED

While a whooping, jeering crowd of 6,000 people looked on approvingly, Thomas Thurmond and John Holmes, confessed kidnapper slayers of Brooks Hart, wealthy merchant's son, San Jose, California, were lynched Monday night by a mob of 100 men who had smashed their way into the county jail after a two hour battle to seize the pair. They were both strung up to limbs of trees in a nearby park.

### THREE MILES ROAD FINISHED

There have been 13 teams, one tractor and about 26 men working on the North and South highway through Bailey county during the week and the work is progressing nicely, according to Pat R. Bobo in charge.

Beginning at a point just north of the Wm. Pool farm nearly three miles will have been graded by Thursday night on which caliche will be later applied.

No man is ever at his best in a fog.

**THE RED CROSS MEMBERSHIP CALL CONTINUED THIS WEEK**  
The Red Cross membership campaign continues this week with additions being received daily and the young lady assistants under direction of Mrs. J. C. Weaver, county chairman are anxious to obtain all memberships possible before the week closes.  
Bailey county has special reason to appreciate the activities of Red Cross more than \$3,000 having been spent in this county by the national organization.  
There are still a few days left for enrollment, and Mrs. Weaver and her assistants would be glad for folks to see them during the remaining period. Several have volunteered their enrollment which is greatly appreciated, and Mrs. Weaver also expresses her appreciation to the young ladies who have so ably assisted her in this great humanitarian work.  
**Lightning Proof**  
A modern steel office building and a steel ship are practically lightning proof. It is safer in a house than outdoors. Caves and caverns and ditches are comparatively safe. Places to avoid are high ground, isolated trees, the edges of woods, wire fences, etc.

### General News Over Texas And Adjoining States For The Week

The Poultry show at Abernathy will be held December 6-9.

Curry county, N. M., farmers will get \$245,000 from the Federal government without allotment plan.

Gov. Ferguson last Friday appointed Guy L. Waggoner, Fort Worth, chairman of the State Racing committee.

Mrs. A. F. Woods Athens, was last week chosen state president of the Parent-Teachers association.

The Hockley county Poultry show will be held at Leveland, January 13 to 14.

There were 400 deer put in cold storage at Kerrville and Fredericksburg last week by lucky Nimrods.

Gov. Ferguson has appointed Dennis Zimmerman, Tulsa, lawyer, on the Board of Tech directors to succeed Houston Harte, San Angelo.

The first rolled oats plant in the Southwest is now operating at Sherman, with a capacity of 7,000 bushels of oats daily.

The State of Texas officially cast her repeal vote of the Eighteenth amendment last Friday when the 31 delegates met in the senate chamber, Austin, to perform that routine duty.

Royland Boynton, attorney general, and Will J. French, state auditor, Kansas, were voted impeached last Friday on charges of misdemeanor by the House of Representatives in that state.

The long extended strike of coal miners at Gallup, N. M., was finally settled last Thursday, men returning to work and Governor Hockenbuhl releasing all prisoners.

Charging the faculty with cause of his failure to graduate after attending the college five years, Herman Evans, of San Angelo, has sued S. M. U., for nearly \$22,000 damages.

Governor Hockenbuhl of New Mexico favors a big state park located somewhere in the eastern part of the state. About 8,000 acres will be required, and 300 men will be given jobs on the project as soon as location is settled.

Congressman Dennis Chaves was last week chosen democratic national committee man from New Mexico to succeed the late Governor Arthur Seligman.

There were 4,229 passenger automobiles registered in the state during October which is 156 per cent more than were registered during the same month of 1932.

Mrs. M. M. White residing north of Amherst boasts of a pantry whose contents is worth \$600. She has more than 1,000 cans of fruit and vegetables stored in it.

A county without crime, without any bonded indebtedness and without a cemetery is the record of Loving county, Texas, the newest county in the state, being organized about two years ago.

**PEP SQUAD ENTERTAINS THE FOOTBALL BOYS AT BANQUET**  
Miss Evelyn Boone, home economics teacher, and the girls of the High school pep squad were hostesses to members of the Muleshoe football team at a banquet given in the High school building, it being a big jollification event over the success of the pigskin tossers during the past season, since only one game was lost during the entire schedule.  
Coach C. R. Stevens was toastmaster for the occasion, presiding in a very efficient manner. Talks were made by Miss Mary Frances Willis on the benefit of a pep squad to the football team; Clyde Holt on benefit of football to the players; Prof. W. C. Cox on benefits of athletics in after life. There were also extemporaneous talks by Troy and Arnold Atkinson, some instrumental music and a reading, "Play Football," by Geraldine Reynolds.  
There were 66 who sat down to the daintily prepared banquet table, where a menu fit for kings and a service in perfect keeping with the occasion was given by the hostesses.

### METHODIST CHURCH

Sunday school at 9:45 a. m. The pastor will preach at 11:00 a. m. The ladies meet at 6:30 p. m. The song services for the evening begin at 7:15.

The ladies meet at 2:30 p. m., Monday, in their missionary work. The Wednesday night services are devoted to a study of the Sunday school lesson for the next Sunday. The choir meets on Thursday night. —E. C. RANEY, Pastor.

**First American Oil Well**  
The first American oil well was drilled at Titusville, Fla., in 1859. The well had a depth of 60 feet. The oil produced sold at from \$25 to \$30 a barrel.

**EXCELSIOR LEAGUE MEETING**  
The Excelsior League of the Methodist church met Sunday evening at 6:30 in the Methodist parsonage under the supervision of their sponsor, Miss Elizabeth Harden. There was a very good representation of young people.

Norma Elrod was leader for the evening. The program was as follows: Subject—My Need for Jesus. Song—America.

Talk—Origin of Thanksgiving, by Roy Elrod Jr.

Thanksgiving song—Wanda Farrell, Ethel Claire Raney, Lucille Bartley, Norma Elrod and Grace Churchill.

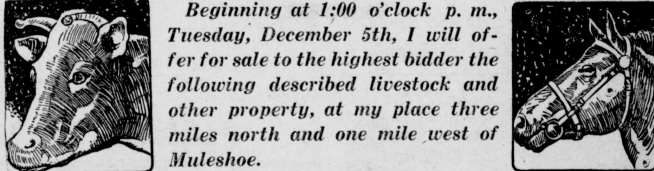

Talk—"I Need Jesus, by Rev. E. C. Raney.

Two short discussions of the topic by Evelyn Jennings and Lucille Bartley League benediction.

Rev. E. C. Raney will have charge of the meeting next Sunday, which is an assurance of an interesting and beneficial evening for all. Members and visitors are cordially invited to attend.

**CARLSBAD CAVE OWNED**  
Frank Vesely, state land commissioner of New Mexico, finds that the enabling act by which that state came into the union expressly forbids transfer, exchange, sale or lease of any of the school lands as defined by that act, except at public auction and then only to the highest bidder, therefore the procedure by which the federal government took over the famous Carlsbad cavern is illegal, and he says, "but a scrap of paper."

**A WORD TO THE WISE IS PLENTY**

**CARNIVAL EVENING NETS \$106**

The school carnival given at Baileyboro last Friday evening by members of the school there yielded receipts totaling \$106.00. The money will be used in the purchase of suits, bats,

balls and playground equipment. Miss Dolly Parish, sophomore, was elected carnival queen. Miss Loretta Warner running her a close second for the honors.

**BASKETBALL GAMES LISTED**

Muleshoe High school boys and girls basketball teams are now making schedules of games for near future playing a game being scheduled for playing at Farwell by both teams Wednesday night of this week. December 9 the return game between girls will be played at Littlefield. December 15 there will be games between girls teams played at Goodland in the south part of this county. Muleshoe boys team do not have games scheduled at this time for Dec. 8 and 15.

December 21 a game is scheduled between Muleshoe and Lashudday boys and girls teams to be played in Muleshoe.

**COTTON GINNING TO NOV. 1**

There were 5,657 bales of cotton ginned in Bailey county from the 1932 crop up to November 1, according to the Department of Commerce report issued from Washington, D. C. Last year of same date the number ginner was 5,281. Farmer county showed totals of 1,933 and 1,987 up to Nov. 1 for this and last year, respectively.

**WHY WORRY?**

Invest your money in good land. It can not get away from you. Even with inflation under perfect control, the value of money is bound to drop, while commodities and real estate will go up in value.

We have fine listings of choice land in Bailey county, both large and small tracts, some in the irrigated section, and will be glad to show them to you.

Prices on this land are still very reasonable and terms are desirable.

**OUR THANKSGIVING WISHES**

While the past year has not brought to each of us all we might wish because of the economic depression, yet we have enjoyed numerous blessings for which we are indeed thankful.

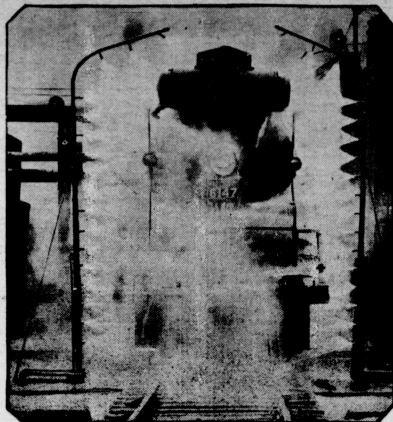

Looking about the nation we find many sections not so well off as is this portion of West Texas, and we should all be grateful for the many blessings we enjoy.

We are taking this opportunity of expressing our sincere appreciation to all our friends and customers for their patronage during the past year, and of wishing you a happy Thanksgiving day.

**THIS BANK WILL BE CLOSED THANKSGIVING DAY**

**Muleshoe State Bank** MULESHOE, TEXAS

**Shower Baths for Locomotives**

The compulsory shower bath method used at modern swimming pools has been adopted by the Canadian National railways for cleaning passenger locomotives. The locomotive is moved to and fro through a gate composed of strong spraying jets of water, as shown in the above photograph. Locomotives are given a thorough shower bath after every run. It has been found that in addition to adding to their appearance, this regular washing of locomotives also adds to their life.

**"Little Stories for Bedtime"**

by Thornton W. Burgess

**REDDY FOX DOES SOME PLANNING**

IF THERE is anybody in the wide world who wants to know all that is going on about him, it is Reddy Fox. Some folks like to find out all they can just through idle curiosity. One of the first things old Granny Fox taught Reddy when he was little was that the more you know about the affairs of other people, the greater is the chance that sooner or later you will be able to profit by your knowledge. So Reddy Fox never willingly or knowingly allows to slip by a chance to learn something of his neighbors and their affairs.

You remember how Johnny Chuck had thought himself very clever in making his new home in the corner

And There He Watched Until He Saw Polly Chuck Come Out.

of the old stone wall because it would give him protection on both sides. At least that is the way it seemed to him. And you remember how Reddy Fox had discovered that new house. And how he said that it couldn't suit him better possibly. The reason it suited Reddy so well was that he saw at a glance that the wall was too high for Johnny to see over even when he sat up, and so it would be an easy matter to creep up behind that wall and watch for a chance to surprise Johnny.

Of course, at first Reddy had not known that it was Johnny Chuck who had built that house. He had hoped that it was a young, foolish and ten-

der Chuck. So the first thing Reddy did was to find out just who the owner of that house was. He did it by peering over the wall from some distance away, watching until he had a good look at Johnny. You can imagine how surprised he was.

At first Reddy was disappointed. Johnny was no longer young and tender. Johnny was wise in the ways of Foxes. Reddy thought of how often he had tried to catch Johnny Chuck and failed. Then he thought of Polly Chuck and at once began to wonder if she was with Johnny. If she wasn't—well, he might be able to catch both. It would be worth trying, anyway.

So Reddy promptly stole down to a certain favorite hiding place where he could see the old apple tree in the far corner of the Old Orchard, and here he watched until he saw Polly Chuck come out to sit on her doorstep. Reddy grinned. "They've quarreled about something," thought he. "That is just what they have done, and Johnny has gone to live by himself. What a silly fellow! What a silly fellow to give up such a splendid safe home as he had for such a piece as he has now! Here I couldn't surprise him, but up there, well, we will see what we will see."

So for several days Reddy Fox watched Johnny Chuck, usually very early in the morning. Always he took care that Sammy Jay shouldn't see him. The minute Sammy arrived in that part of the Old Orchard, Reddy had business elsewhere. You see he knew that if Sammy once saw him watching he would at once tell Johnny Chuck, for there is nothing Sammy takes greater delight in than in upsetting the plans of others.

It didn't take Reddy long to learn that Johnny had to go some distance from his house to get his meals. He returned at just what hour Johnny breakfasted. He learned that whenever a wagon or an auto passed along the road, Johnny ducked down out of sight, but didn't stay down long. In fact, he learned all about Johnny's ways, and then Reddy began to do some planning, and all this planning had to do with the catching of Johnny Chuck. Reddy indulged in many schemes as he planned. If Johnny could have known what was going on, he would have been nervous. He certainly would.

© 1933, by T. W. Burgess—WNU Service.

**Thanksgiving Origin In Texas Was Begun By Gov. Bradford**

Austin, Nov. 28.—The primary reason for the institution of Thanksgiving Day was health. We know how Governor Bradford called together the people, those few of them who were left after that terrible first year of death and disease, to give thanks to God for all his mercies.

We have come a long way since that time in the matter of health, but now one seldom thinks of Thanksgiving in connection with the health that we enjoy. Most persons have been so accustomed to having these advantages that they are scarcely given a thought until sickness makes its appearance.

The State Department of Health, city and county health organizations have labored for years to secure the measure of health protection that the public now enjoys. They give thanks for the methods that have helped in the saving of thousands of lives each year and look forward to the years to come for greater service.

Since the first Thanksgiving, the mode of transmission of many diseases has been discovered and in many instances the prevention has become common knowledge. Yellow fever, plague, and cholera have practically ceased to exist. Smallpox, diphtheria, and typhoid fever can be eliminated as a cause of death if a person would have himself and children immunized. Malaria and many other diseases can be controlled if the public would demand that this protection be a part of the every day activities of the government and practice what is known in regard to prevention.

During the past fifty years the expectation of life has increased about 15 years. This means that a baby born now can be expected to live fifteen years longer than if he had been born fifty years ago. We have much more to be thankful for now than our Pilgrim forefathers, so let each in his Thanksgiving, pledge to assist in furthering the work being done to improve health conditions throughout Texas.

**West Camp News**

There was a good crowd out to singing, Sunday afternoon. The program given at the school auditorium was enjoyed by everyone present.

Mr. and Mrs. Howard Lindsey visited in the Floyd Brock home Sunday.

Everyone is busy harvesting his crop in this section.

Singing every second and fourth Sunday afternoons. Don't forget the dates! The Pollyanna club met with Mrs. C. L. Smith November 22, in the afternoon. They worked on quilt blocks and did some embroidery work. There were 13 present. After a late hour candy and apples were served.—Reporter.

**Keeps Steel Bright**

Crude lanolin, a waste product of the woolen industry, is used to keep steel surfaces bright and prevent rust. Tests have shown it to be superior to petroleum greases, kerosene used for coating purposes.

No book of etiquette is needed for the children in a good family.

**Why Children Need a Liquid Laxative**

The temporary relief children get from some synthetic, habit-forming cathartic may cause bowel strain, any even set-up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

Constitution can be corrected in children? "Yes!" say medical men. "Yes!" say many mothers who have followed this sensible medical advice: 1. Select a good liquid laxative. 2. Give the dose you find suited to the system. 3. Gradually reduce the dose until the bowels are moving regularly without aid.

An approved liquid laxative (one that is widely used for children) is Dr. Caldwell's Syrup Pepsin. The mild laxative action of this excellent preparation is the best form of help for children—and grown-ups, too. The dose can be regulated for any age or need. Your druggist has Dr. Caldwell's Syrup Pepsin. Member N. R. A.

**CHRISTMAS IS JUST AROUND THE CORNER**

It's only three weeks from Thanksgiving until Christmas—and not too early now to begin thinking of your Christmas shopping.

We are suggesting now that you make this Christmas period one of a really constructive kind, buying gifts that will not only be appreciated but useful as well.

Our store is chock full of a wide variety of suggestions—gifts that will be truly desired as well as of useful value. Make out your shopping list now and come look over our various lines of merchandise. We have something suitable for every member of the family.
