"They do more than  
please your taste —  
they satisfy!"

Chesterfields "let you in" on an entirely  
new kind of cigarette enjoyment.

They not only please your taste, but they  
do something else besides.

Know what a big, juicy beefsteak does for  
your hunger?

Well, Chesterfields do exactly the same  
thing for your smoking. They touch the  
"smoke-spot." They let you know you're  
smoking. They SATISFY!

The blend does it. And the blend is the  
manufacturer's secret. Unlike a patent, it  
cannot be copied or even closely imitated.

If you want a smoke that really "satisfies"  
—ask for "Chesterfields."

*Liggett & Myers Tobacco Co.*

### STATE FAIR OF TEXAS.

#### Premium Classification for 1919

College Station, Texas June 4

Devil's River News, Sonora.

In accordance with my recent

promise, I am enclosing herewith

a copy of the premium classification

for the 1919 State Fair of Texas.

I consider that these premiums

are very liberal, and since a number

of the most prominent goat

breeders approved of this classification

before it was officially adopted,

I have every reason to believe

that we will stage the best and

largest goat show in Dallas and

that has ever been gathered

together.

Trusting that your readers will

be interested in this premium

classification, and thanking you for

your splendid cooperation in the

matter of bringing this to the attention

of the breeders, I remain,

Very truly yours,

J. M. Jones

Chief, Division of Animal

Industry.

### REGISTERED ANGORA GOATS.

Class A—Premium 1st or registered

Angora Goats carrying

fleeces from twelve to twenty

months' growth. Nothing eligible

shown before February 1918. All

goats to be registered in the

American Angora Goat Breeders'

Association. Certificates to be pro-

duced if request is made by superintendent

of Sheep and Goat Division.

Buck, 2 years and over. Buck,

1 year and under. 2. Doe, 2 years

and over. Doe, 1 year and under

2. Four prizes each class \$15, 10, 6 and \$4.

Champions—Buck, any age \$10.

Doe, any age \$10.

Exhibitors' Flock—Consisting

of one Buck, any age; one Doe, 2

years and over; one Doe, 1 year

and under 2; and one Doe Kid

under 1 year. \$25, \$20, \$15, \$10.

Pen of four Registered Angora

yearlings, get of one sire, bred by

exhibitor, who must be a member

of the American Angora Goat

Breeders Association. \$15, 10, 6

and \$4. Also a silver trophy cup

as a special premium for the best

breeder's flock.

Best Exhibit of Mohair on Angora

Goat, any sex, fleeces eight to

twelve or more in length. Awards

to be made upon basis of fineness

of hair, lustre, colour, quality,

density, and freedom from kemp.

\$25, 20, 15, 10.

### RULES.

(1) All Angora Goats competing

for prizes in the breeding class

must be recorded in the American

Angora Goat Registry Association.

Relative to the registration of Angora

goats the following is quoted

from Rule 11, governing registration

of Angora Goats: "All goats

registered upon and after the 1st

day of January, 1915, shall have two

marks of identification, the choice

of which two marks to be left optional

with the breeder having the animals

recorded. The two marks used to be

two of the following: A metal tag with

owner's initials and private number,

or a metal tag with the initials of

the association and the recorded

number of the animal; or by tattooing

or burning the owner's private

number in one ear or by using a

marking system."

(2) No prizes shall be awarded

to inferior Angora Goats regardless

of competition.

(3) Angora Kids will be exhibi-

ted as a separate class B. All kids

will be shown in full fleeces.

(4) Exhibitors are urged to have

Registration Certificates and Certi-

ficates of Title available for the

superintendent should be called for

same.

(5) Exhibitors of Angora Goats

should be prepared to give such

information relative to the time

and method of shearing as may be

requested by the superintendent,

in certain classes should any

question arise.

### BIG BARBECUE

Ball Game, Goat

Roping, Dancing

etc., at the 20 mile

waterhole, near

Mayer on Wednesday

July 16. Good

music night and

day. 30 by 40 plat

form. Everybody

come and bring

your friends.

### PRINTING AND OFFICE SUPPLIES.

Blank Books, Loose Leaf Systems

and Binders, Pencil Sharpers, Ink,

Pens, (Nemco Waste Baskets, In-

destructible), Pencils, Paste, Gine

Paper Fasteners, Letter and In-

voice Files, Typewriter Paper,

Adding Machine Paper, Carbon

Paper or anything in the printing

or office supply line.

HOLCOMB BLANTON,

28 West Beauregard, San Angelo.

### SERVICE CAR.

I have a five passenger Ford

for service night or day. Will go

anywhere in this part of the coun-

try. First class service. Reason-

### THRIFT IS POWER

### PRINCIPLE OF SCOUTING.

Scouting is becoming an important

factor in the successful raising of

boys to manhood. The scout move-

ment develops the sense of duty in

the youngster that enables him to

probe within himself for the manly

characteristics. It's a man-size job to

be done in a man's way, and W. A.

Perry, the editor of Scouting, offers a

few lines on that subject:

"I am not interested in scouting in

a high-spirited school amid landscap

gardening, and staturary, and drinking

fountains—all made by somebody else

—I am interested in a forest far from

civilization, where I must either con-

quer nature—or confess myself a

weakling. It is a fine thing to teach

boys to stand in line with spotless un-

iforms and win the applause of a crowd

gathered to witness a dress parade.

But I would rather develop a boy so

that he could walk alone into a world

of wickedness, conscious of the great

laws back of it all, with a spirit which

would make him forget self and fight

for the right."

### SCOUT ASLEEP KEPT SECRET.

"But, mamma, what did I say!

What did I say?" There was anxiety

in the boy scout's tones.

The little fellow had joined the ten-

derfoot class of the boy scouts the

night before, and had been cautioned

not to reveal the password of the

rank, to not even mention it "in his

sleep."

Next morning his mother asked him

what made him so nervous during his

sleep, telling him he had talked all

## BOY SCOUTS

### M'ADOO STRONG FOR SCOUTS.

The following telegram from former

Secretary of the Treasury W. G. Mc-

Adoo was sent from Santa Barbara,

Cal., to Chief Scout Executive James

E. West of the Boy Scouts of America,

New York:

"Truly the organized boyhood of

America as constituted in the boy

scouts has rendered an extraordinary

and wonderful service to the country

in connection with the Liberty loan

and War and Thrift Stamps cam-

paigns. In the fourth Liberty loan

campaign I am told that the boy scouts

secured subscriptions for \$22,000,000

representing 700,000 subscribers, and

that in the War and Thrift Stamps

campaign they have sold approximate-

ly \$42,300,000 to 2,150,000 individuals.

This is an inspiring achievement, and

the Boy Scouts of America have vin-

dicated by their initiative, patriotism

energy and courage the highest con-

ditions of Junior American citizen-

ship. Give the valiant troops of the

boy scout organization my warm con-

gratulations and best wishes. I am

proud of these boys, and the country

is proud of them. There is still vital

work to be done for the country, and

I look to the boy scouts to do their

part with the same valor and patriot-

ism they have exhibited in previous

campaigns."

### EXPLORER ANTHONY FIALA.

Noted arctic circle traveler is now

commissioner of boy scouts at Spring

field, Mass.

### HENHOUSE HINTS

Your poultry houses should be well

ventilated in summer. Every glass

door should be left open night and

day or removed until cold weather. It

will require only a few minutes to do

this and it will contribute much toward

the comfort and best welfare of your

hens, writes D. J. Lambert, Rhode

Island station. During warm weather

it does not matter which side of the

house is open. It would be better if

all sides were out. There is no dan-

ger from draft during August and

September.

Growing chicks will grow best when

they can roost where there are clean

perches and only a roof over their

heads. With this simple arrangement

there will be less danger from crowd-

ing and mites. These mites or spider

lice multiply very rapidly when the

roosts are neglected. You will find

them under the perches and in cracks

and crevices of the adjoining wood-

work. They crawl out of their hiding

places at night and suck their fill of

blood from the birds on the roosts.

You can often detect them by a very

disagreeable odor which they throw

off.

In order to get rid of them, the house

must be opened up to the air, brushed

and cleaned out thoroughly from cel-

ling to floor and then sprayed with a

solution of cresote oil and water and

then with whitewash, so as to know

every part of the house has been

covered. If a dirt floor, five or six inches

of the top must be removed to make

a complete job of housecleaning.

Those who keep poultry and neglect

to keep them clean and comfortable

cannot expect them to be profitable.

### Displaying the Flag.

There is no federal flag law now in

force pertaining to the manner of dis-

playing or hanging the flag, but cus-

tom decrees that the union shall be

**RAILROAD NEWS.**

The Mexican government, thru a committee of citizens at Del Rio, has placed in the hands of officials of the Kansas City, Mexico and Orient lines an order for thirty-five miles of rails and ties with which to complete the building northward of the Mexican International from Alamo to Del Rio. It is a bit of news which Albert DeBernardi of Wichita, Kansas, general manager of the Orient system, imparted Thursday afternoon while in San Angelo. Mr. DeBernardi stated that the order was placed in the Orient's hands only a few days ago and that so far it had not been filled. It is supposed that the Mexican government is prepared to build the line across to the border as soon as necessary materials arrive.—Standard.

Duward O'Connor, and Elmo Mitchell, are the Little Devils this week.

Mrs. Hollie O'Dell of Dallas, is visiting her mother Mrs. J. L. Davis this week.

Mrs. Noah Schrier was in from the Leo Aldwell ranch Monday visiting and shopping.

Frank Baker of Junction who has large ranch and cattle interest in Sutton County was here several days this week looking after things.

**MARTIN'S SCREW WORM KILLER**  
Kills Worms, Keeps off Flies, Heals wounds. 6 oz. bot. 35 cents. Your money back if not satisfied. Ask your Dealer.

Mrs. Rena Adams of the Llano who has been visiting her son Lum Adams near Camstock returned home Monday accompanied by her grand son Sam Adams.

B. M. Halbert left for Dallas last Saturday to see a specialist about his hearing. In other words getting his head worked over.

Lost a black bead center silver shoe buckle on Monday night between the School house and Happy Hour. Finder will please leave at the News office.

Mr. and Mrs. J. S. Allison and children Margarete and Jack of Angelo, were in Sonora several days this week visiting. They were the guests of Mrs. Geo. S. Allison.

Capt. Henry S. Coleman, special representative of the Stroud Motor Manufacturing Association of San Antonio was in Sonora several days this week soliciting business for his Company.

Little time will be lost if you wash cut the wound with **BOROZONE ANTI-SEPTIC LIQUID** and dress it with **BOROZONE POWDER**. It purifies the wound and heals quickly. Use it on your stock for sore-worms, dehorned cattle or any kind of cut or bruise. For man or beast. Sold by the Sonora Drug Co.

**Notice to Eastern Star Members**

The time of meeting has been changed to the third Tuesday of each month.

Oscar Seargeant was up from the Cornell & Seargeant ranch in Edwards County Thursday.

Misses Marie Lowrey and Elaporfields arrived home Thursday from Denton where they attended the C. I. A. school.

C. E. (Jack) Martin son of Mr. and Mrs. Sid Martin, arrived home Thursday. Jack went to France in an engineering replacement unit of the Twenty-third division and was assigned to the service of supplies.

PHONE 101 for cream at 50 cents per quart. A quart of this cream will make a pound of butter. Phone 101 85.

J. D. Pepper sold to P. T. Wood 160 acres, more or less adjoining Rock Springs on the west, the tract between the Rooksprings-Sonora lane and the Babb lane, the consideration was \$25 00 an acre. This land is near Mr. Wood's town place and it makes him an extra nice home. There is considerable fine farming land, and Mr. Wood says he will get it in cultivation. —Edwards Co. Leader.

**MORE LIVE STOCK PRODUCED**  
Increase in Pork in West Virginia More Than Million and One-Half Pounds—Silage is Fed.

(Prepared by the United States Department of Agriculture.)  
County agents of West Virginia, in carrying out the program of the United States department of agriculture and the state agricultural college to increase food production, last year encouraged the farmers of the state to keep additional sows, the result being that these sows produced 137,722 pigs, which increased West Virginia's pork production by more than a million and half pounds. The value of good blood in live stock breeding has been one of the things particularly emphasized by the agents and thereby 10,446 cows were bred to registered sires instead of scrubs, which meant an increased value at birth of calves of at least \$104,460, it is estimated. The agents report that 7,520 cattle were fed silage for the first time last winter with a resultant saving of not less than \$37,000 to their owners. Bred to the number of 6,895 were bred to registered rams instead of scrubs with a prospective increased value of the lamb crop of upward of \$8,600. Sheep numbering 4,225 and valued at more than \$21,000 were saved from the ravages of parasites through the activities of the various county agents.

Some hog men prefer to hand-feed their pigs during the weaning period.

If we are to continue to eat beef we must exert ourselves to produce more beef cattle.

More pigs are lost between farrowing and weaning than at any other period.

Oats, scattered out thinly to force exercise, are fed to brood sows by many good hog men.

There are a lot of cows in barns that ought to be in the cans. The cow-testing associations find them.

**U. S. EATS LITTLE MUTTON**

In Great Britain about 22 per cent of all meat consumed is mutton. In France the per cent is about 11. In Canada it is not quite 7, and in the United States it is only about 3-1-3 per cent. Last year (1918) the consumption of dressed mutton (lard excluded) in the United States averaged 150 pounds per person, of which only 5 were mutton and lamb.

The British, the Canadians and the French—all similar types of people and having habits of life similar to Americans—use less meat than Americans do but a much larger proportion comes from sheep. The United States gets its meat principally from cat and hogs. Pork consumption is about 14 times, and beef consumption about 13 times, as great as our use of mutton and lamb. These are the annual averages for last year.

Ed Glascock of Sonora bought from B. W. Hutcherson 400 goats at \$6. per head.

Ed Glascock of Sonora sold to Allison and Wyatt 1500 yearling ewes at 14.60.

Giles Hill was in from the ranch Tuesday and reports that he got 58 cents for his 12 months wool at Mertzon.

J. T. Shurley bought twelve sections of the O. T. Word ranch from J. W. Wilson & C. O. Riddle at \$12 per acre. Mr. Shurley will move to his new place and let some of the boys look after the old place.

Stings or bites of insects that are followed by swelling, pain or itching should be treated promptly, as they are poisonous. **BALLARD'S NOW LINIMENT** counteracts the poison. It is both antiseptic and healing. Sold by the Sonora Drug Co.—Adv.

F. F. Cocks of Sonora Mercantile Co. bought several sacks of wool from Ed Glascock at his ranch North of town, at 58c, and Ed sold a part of the same clip at San Angelo for 56 7/8. Sell at home if you can. What about that wool warehouse.

**BUCKS FOR SALE.**  
I have 20 head of Rambouillet Bucks 2 years old \$45 per head.  
E. Glascock,  
93 if Sonora

Frank Baker sold to Allison & Wyatt, of Sonora 2200 fall lambs, at \$8.25.—A. B. Hodges and Joe Maddox bought from Frank Baker and Joe Turner 350 ewes at \$11.50 W. A. Quisenberry bought from Joe Turner 1800 head of mutton sheep at \$9.50.—Roy Blackburn and Joe Turner sold 600 head of nanny goats to Holland Brothers at \$6.00.—Junction Eagle.

Additional sales made last week at various points in West Texas disposed of another considerable installment of wool. Owing to a scarcity of help, shepherds have been delayed considerably in shearing this season so a large amount still remains to be sold. Twelve months' clip of wool sold Tuesday at Mertzon brought an average of 56c, while from 41c to 50 1/2 c per pound was received for fleeces disposed of at Sterling City. Sterling County sheep men sold 300,000 pounds of wool to the George H. Gilbert Manufacturing Company of Gilbertville, Mass. James Farquhar of Boston and William Campbell of South Bend Ind., represented the buyer. One hundred and twenty three thousand pounds of wool changed hands at Mertzon. The West Texas Wool and Mohair Association had over 400,000 pounds of wool and 100,000 lbs mohair on hands and sold between 60,000 and 70,000 pounds of wool to H. Welge of San Angelo, a former Kerrville wool man; 33,000 pounds to Henry D. Allen, representing Charles J. Webb & Co. of Philadelphia, and 25,000 pounds to Caldwell Palmer of San Antonio, buyer for Jeremish Wilcox & Co. All the wool sold at Sterling City and Mertzon is being shipped to Galveston by rail. It will then go to Philadelphia and Boston by boat. At Talpa last week, 35,000 pounds of long wool sold by the growers to Caldwell Palmer, James Cohen of Jacobus & Co. of St. Louis, S. D. Rainer of Llano and to Spahr & Co. of St. Louis. The average price was around 55c a pound.

**READY TO COME HOME.**

St. Nazaire, France, June 22  
T. L. Benson, Sonora, Texas.

Dear Dad,—Just a few lines to let you know that we are just about ready to depart this country, in fact so near it that we expect to stand em'arking in a section about Wednesday and I've been busy getting everything ready which is necessary for that inspection which lets you go up the "Gang Plank." In addition we have been having becapeup (many) drills. Received a letter from Sherwood about my trunk and found traces of his baggage which was shipped out on the 13th. inst. I wrote him about it and he will probably have received it by the time the letter reaches him.

The first thing on the program in the morning is a hairnet, specific I to be not over an inch long—then comes, at nine o'clock, full pack inspection for the entire detachment, and if so much as a tent pin, a comb, tooth paste, service stripes, identification tags tied wrong or missing the Adjutant draws a red line through our names which spells we sojourn in France yet a while, which same order would be very distasteful to me, therefore I dream about tent pins, sublimated gauze, instrument cases' complete, tourniquets adhesive plasters and fifty other things which go in the medical pack.

Will write you when I land.  
W. T. Benson.

**A MYSTERY**

The river hemmed with living trees  
Through its meadows green;  
A low blue line of mountains showed  
The open pines between.

One sharp, tall peak above them all  
Clear into sunlight sprang;  
I saw the river of my dreams  
The mountains that I sang!

No clue of memory led me on  
But well the ways I knew;  
A feeling of familiar things  
With every footstep grew.

Not otherwise above its crest  
Could lean the blasted pine;  
Not otherwise the maple hold  
Aloft its red ensign.

So up the long and shorn foothills  
The mountain road I crept;  
So, green and low, the meadow fold  
Its red-haired kins asleep.

The river wound as it should wind,  
Their place the mountains took;  
The white torn fringes of their clouds  
Were no unwanted look.

Yet never before that river's rim  
Was pressed by feet of mine;  
Never before mine eyes had crossed  
That broken mountain line.

A presence, strange at once and known,  
Walked with me as my guide;  
The skirts of some forgotten life  
Trilled noises at my side.

Was it a dim remembered dream?  
Or glimpse through seasons old?  
The secret which the mountains kept  
The river never told.

But from the vision ere it passed  
A tender hope I drew,  
And, pleasant as a dawn of spring,  
The thought within me grew.

That love would temper every chance,  
And soften all my steps;  
And, misty with the dreams of earth,  
The hills of heaven arise.

—Whittier.

**Mothers' Cook Book**

The poppy blazes in the sunshine, the grain fields are ripening into golden splendor, and the butterflies and humming birds seemed to have gathered the gorgeousness of nature's love-lives and imprisoned them within their folded wings.

**Some Summer Sandwiches.**  
Sandwiches are a most popular form of food which will be served freely during the warm weather. The following may be suggestive:

**Picnic Sandwiches.**  
Take French rolls, cut off the top of each and then with a spoon scoop out all the crumb, leaving the shell with a small opening at the top. Mix together four chopped olives, one pickle, a teaspoonful of capers and one large green pepper, chopped fine. Add three tablespoonfuls of finely chopped boiled tongue and mix with the white meat of a chicken chopped fine. Moisten with mayonnaise dressing and fill the roll; replace the top and arrange in a sandwich basket, serving at once. The filling may be added the last minute so that the shells will not become soaked.

**Potato Sandwiches.**  
Mash four good-sized boiled potatoes, add a teaspoonful of salt, four tablespoonfuls of thick cream and the yolks of four hard-cooked eggs rubbed to a paste, a dash of cayenne and two tablespoonfuls of olive oil; mix well, and when a smooth paste is formed spread on slices of brown bread. Garnish the top with cress or lettuce.

**Chicken Salad Sandwiches.**  
These may be prepared as the picnic sandwiches and filled with chicken salad, or the chicken salad may be finely minced and spread on buttered bread.

**Sardine Sandwiches.**  
Cut slices of bread a half-inch thick, butter after toasting and trim off the crust. Remove the skin and bones from sardines, lay them carefully over the toast and sprinkle with chopped olives and capers mixed. Add a teaspoonful of lemon juice and serve cut in any desired form.

**Lettuce and Cucumber Sandwich.**  
Butter thin slices of white bread, then cover with a slice of cucumber and a bit of lettuce with salad dressing.

**Fruit and Nut Sandwiches.**  
Put through the meat chopper a quarter of a pound of almonds with half a pound of chopped figs with a cupful of pecan meats, mixing them while grinding so that they will be well blended. Pack the mixture into round baking powder cans, pressing it in firmly. When wanted dip in hot water to loosen and cut in very thin slices with a sharp knife. Place between rounds of buttered bread.

**Nellie Maxwell**  
Concerning Tax Returns.

Nonresidents, including returning soldiers will have 90 days after the proclamation of peace for filing tax returns. The extension was announced by Internal Revenue Commissioner Roper. The Internal Revenue bureau's ruling that salaries of state officials and employees of counties, cities, and other subdivisions of a state, are not subject to federal income taxes, was upheld by Attorney General Palmer.

**The Duty of All.**

When the world blames and slanders us our duty is not to be vexed with it, but rather to consider whether there is any foundation for it.

**Will Require 200,000 Men To Harvest Kansas Wheat, Says Labor Service Chief**

An army of more than 200,000 men will be required to harvest the wheat crop in Kansas this year, according to A. L. Barkman, director of harvest work, United States employment service. Sixty thousand of this number must come from outside the state.

In making the estimate, he referred to the report of the Kansas board of agriculture, which said that "with a general average condition of 90.32 per cent on an estimated total of 10,753,500 acres of growing winter wheat, Kansas never has a more flattering prospect for a record-smashing crop."

The harvest labor problem in Kansas is more difficult than in any other state, and 47,000 posters have been distributed among government buildings throughout the nation. While 500 letters a day are received from prospective workers, Barkman said most careful distribution will be necessary to prevent a labor shortage.

Wheat cutting usually starts in the south central counties of Kansas about June 15 to 20, reaching the central part of the state ten days later. The demand for men increases as the harvest district broadens.

"Men should, if possible, provide themselves with sufficient funds to tide them over for a few days in case of rains or unavoidable delays in securing work," said Barkman. "The harvest fields do not offer light work, and the sun is often exceedingly hot. Therefore, boys and men who are unused to heavy work are handicapped in securing employment in competition with able-bodied, experienced men."

Missouri can care for its big wheat crop with local labor, Barkman said. Nebraska and states north will be supplied with harvest labor by the drift of men from Kansas, if that state, the center of the wheat belt, has sufficient supply.

**Cheap Coffee Is Made From Dandelion Root, According to a Prominent Botanist**

Much of the "surpassing" cheap brand of coffee is made from dandelion root, according to Prof. William Trelease of the department of botany at the University of Illinois. Dandelions, he points out, belong to the chicory family, and the root is used to adulterate coffee much as chicory. It is also used to adulterate chicory. Professor Trelease believes that the dandelion, which generally is considered a pest to good lawns, is a very useful plant, which has strayed from its proper place in the garden where it is cultivated.

Besides being used for cheap grades of coffee, the plant yields a milky juice which, in the form of extract, is used as a medicine. The bleached leaves of the dandelion are often used for salads. They are also used as greens.

In America there are two varieties of the dandelion, both of which are weeds. One kind has an olive-colored root, while the other has a red fruit pod. The latter is not so good for greens, since the leaves are stringy and cook down to almost nothing.

There are 57 varieties altogether, most of which are native to Europe. In French gardens where they are cultivated they are delicious, especially for salads. The leaves are used to feed silkworms when mulberry leaves are not available.

Many people believe that dandelions are used for bitter coloring. This is a mistake, however, as the name dandelion on the package is a trade mark. The coloring is made from coal tar dyes.

**Canning Club Products in Demand, Bring Good Prices and Increase Food Supply**

Some of the canning club girls organized by the home demonstration agents of the United States department of agriculture and the state agricultural colleges utilize their canning knowledge only to provide the family table with plenty of fruit and vegetables. The larger number, however, not only practice what they have learned for the benefit of their families, but increase their incomes by marketing the surplus. The agents who helped during the canning later assist in the marketing of the products.

The uniform excellence of the 4-H brand makes it a comparatively easy task to keep a customer once he has used the products. The agent in Jasper county, Mississippi, has found a ready sale for the canned fruits and vegetables her girls wish to sell. One day in March \$75 worth were weighed, sold and shipped. The demand is constant, because the buyer reports that the club girls' canned goods are the best he has found on the market.

**Use Large Granite Slab to Form Marriage Certificate**

Among the islanders of Jersey there is a pretty but curious marriage custom. As soon as the ceremony is over, and when the happy couple are entering into occupation of their home, the large granite slab over the porch is inscribed with the initials of the bride and bridegroom, and between the two a rough representation of two hearts is entwined, the whole thus forming a marriage certificate for all the world to see. It is said that, should the couple by any chance be one day divorced, the hearts are pierced through by an arrow, which is cut into them.

When you feel lazy, out of sorts and yawn a good deal in the day time, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It purges the organs, cleanses the bowels and puts the system in good healthy condition. Sold by the Sonora Drug Co.—Adv.

**BOY SCOUTS**  
SCOUTS HONOR ROOSEVELT

A memorial to Theodore Roosevelt, drafted by Hermann Hagedorn and adopted by the National Council of the Boy Scouts of America, is as follows: He was found faithful over a few things and he was made ruler over many; he cut his own trail clean and straight and millions followed him toward the light.

He was frail; he made himself a tower of strength. He was timid; he made himself a lion of courage. He was a dreamer; he became one of the great doers of all time.

Men put their trust in him; women found a champion in him; kings stood in awe of him, but children made him their playmate.

He broke a nation's slumber with his cry, and it rose up. He touched the eyes of blind men with a flame and gave them vision. Souls became swords through him; swords became servants of God.

He was loyal to his country, and he exacted loyalty; he loved many lands, but he loved his own land best.

He was terrible in battle, but tender to the weak; joyous and tireless, being free from self-pity; clean with a cleanliness that cleansed the air like a gale.

His courtesy knew no wealth or class; his friendship, no creed or color or race. His courage stood every onslaught of savage beast and ruthless man of loneliness, of victory, of defeat. His mind was eager, his heart was true, his body and spirit, defiant of obstacles, ready to meet what might come.

He fought injustice and tyranny; bore sorrow gallantly; loved all nature, bleak spaces and hard companions, hazardous adventure and the zest of battle. Wherever he went he carried his own pack, and in the uttermost parts of the earth he kept his conscience for his guide.

**PERUVIAN BOY SCOUTS.**

The boy scout movement in Peru has made considerable progress in the three years since the first scout brigade was established. It has now extended to all the principal cities there.

The official report for the year says that the scout movement in Peru has filled a need among a people whose education is almost purely intellectual, and efforts which tend to the development of the mental, physical and moral forces of the young are all the more necessary to make the future generation a creditable one.

The scout movement in Peru has made as much progress as private initiative will warrant. The hope is now that the government will aid in the work.

One excursion of Peru scouts, lasting 25 days, was made to the Panama canal.

**THANKFUL FOR SCOUT TRAINING**

From the army of occupation comes this word: "I am in the medical corps, and what we must know in regard to the handling of wounded and the first-aid is taught in scouting first aid. If I did not have the men who had been in scouting as boys and as officials, I would have been at a loss in picking men for dangerous work such as evacuating the wounded from the front lines. Two such have been recommended for the D. S. C. Even in war they showed themselves to be true scouts. The only thing I can say is, 'Thank God for the scouts, who have always been prepared.'"

And Sergt. Edward Pickering is not the only one who has expressed these sentiments.

**BOY SCOUT DOINGS.**

Boy scouts of Los Angeles, Cal., held off one day in their milk bottle drive to welcome home their big comrades from France.

The boy scouts in State College, Pa., organized and maintained a fire fighting patrol to assist the community in preventing or controlling forest fires.

Among the daily good turns reported by the boy scouts of Troop No. 1 of Albion, Okla., was recovering a stolen dog after following the thief for five miles.

Boy scouts in a troop in Woodford, Mo., saved the lives of two people from drowning at different times and rendered first-aid to a woman who had been knocked down by a vehicle and injured.

The beauty of Oklahoma City will be preserved, because the boy scouts are on the job. An unauthorized pruning of trees on streets or on park property will be reported to the park commissioner.

One thousand Roosevelt memorial trees of white Norway pine, secured from the forestry commission, were planted by boy scouts at Baudette, Minn.

All that the boy scouts of Gloucester, Miss., ask is for the township to buy the lawn mower, and they'll see that the town hall grass stays well trimmed.

Terra Haute, Ind., has designated a conspicuous bit of park property to become "Scout park." Here each troop will plant a Roosevelt memorial tree, while all the scouts will undertake to beautify the park.

**Notice to Trespassers**

Notice is hereby given that all trespassers on my ranch east of Sonora for the purpose of cutting timber, hauling wood or hunting hogs without my permission, will be prosecuted to the full extent of the law.

W. J. FIELD, Sonora, Texas.

**FARM STOCK**  
SHEPHERD'S DON'T'S

(Prepared by the United States Department of Agriculture.)

1. Don't keep sheep on wet land.
2. Don't feed moldy or spoiled hay, roots, silage or grain.
3. Don't forget to keep salt and fresh water before the sheep.
4. Don't neglect the sheep in winter. Keep them in good condition.
5. Don't forget to tag the ewes before breeding and lambing time.
6. Don't forget exercising the bred ewe.
7. Don't let the lamb go too long without suckling.
8. Don't neglect to feed the lamb grain as soon as it starts eating.
9. Don't let parasites kill your lamb without sucking.

**Interest Young People in Sheep Raising.**

For lack of some fresh green pasture, 10. Don't shear your ewes until warm weather comes.

11. Don't tie your fleeces with anything but wool or paper twine.

12. Don't hesitate to ask any questions of the county agent, or write to the department of agriculture at Washington, D. C.

**FINISH ANIMALS FOR MARKET**

Horses, Cattle and Some Classes of Sheep Can Be Fed Quantities of Roughage.

Animals being fattened for market and animals during the first year of their growth should not be expected to consume large quantities of cheap roughage, but horses, cattle and some classes of sheep that are being carried through the winter can be fed rations carrying appreciable quantities of cheaper roughage, provided they are properly supplemented with nitrogenous feeds of the right sort, such as leguminous hays or linseed or cottonseed meal.

**PROPER WAY TO FEED SHEEP**

During Stormy Weather Feed Them in Shed in Long Manger Constructed for That Purpose.

Never feed straw and hay to the sheep by throwing it down in heaps on the ground, but have a long rack for the purpose; and when it is stormy do not allow them to stay out, but feed them inside the shed in a long manger made for the purpose.

**LIVE STOCK NOTES**

A tablespoonful of blood meal mixed with a little milk is very good for a calf that has diarrhea or other digestive disturbance. It is highly nutritious for a weak calf, too.

The keeping in repair of wire fences is necessary on the stock farm and so the wire stretcher is a handy tool, both in repairing and building new fences.

When oats cost no more than half as much as corn the swine division of the University of Illinois recommends they can be fed profitably to hogs.

Hogs are very sensitive to wind and cold at night and will suffer just as much as a cow or horse in cold open houses.

The best results from feeding skim milk to pigs are obtained when about three pounds of it are fed for each pound of grain.

Sludge-fed cattle shed their coats better in the spring and gain quicker and faster than those fed dry roughage.

Clover is an ideal forage for pigs, particularly the young growth coming on after the wheat is harvested.

Ensilage is good stuff to have, but it is not an all-around feed. Some hay and a bit of grain should go with it.

Calves will nibble at hay when they are not more than a week old.

Cleanliness is quite essential for the calf indoors.

Plenty of bedding is needed for the calf.

**Notice to Trespassers.**

Notice is hereby given that all trespassers on my ranch 21 miles south of Sonora for the purpose of cutting timber, hauling wood, working live stock, hunting hogs or injuring fences, without my permission, will be prosecuted to the full extent of the law.

**CALLED HER FAMILY TO HER BEDSIDE**

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and ragged-out? If so, give Cardui, the woman's tonic, a trial.

J. T.

**DEVIL'S RIVER OIL & GAS COMPANY.**

UNINCORPORATED  
SITUATED IN EDWARDS COUNTY, TEXAS.  
DOBS THING'S DIFFERENT.  
STUDY OUR PLAN

A careful study of the Devil's River Oil & Gas Company's plan will convince the close student of investments that we are offering the BEST inducement in the OIL fields. Oil production in Texas fades the total gold production of Alaska in its best days into insignificance. Alaska's best production of gold was only \$15,000,000.00, while Texas is producing about \$150,000,000.00 worth of oil. The production is increasing so rapidly that it is conservatively estimated that the output will be close to \$300,000,000.00 in 1920.

NOW is the time to get in the oil business in order to reap the early harvest. With 600 acres of oil lands to draw from, we anticipate making big profits on our most liberal plan. PROFITS that will make fast friends for our company in future enterprises which we have in mind when the Company's present plans are in operation.

DO NOT DELAY your subscriptions. There is nothing to gain and MUCH to lose by deferring until some future date. NOW is the time to INVEST, and OUR company is the ONE to be in, for it gives you the biggest run for your money in the race for MILLIONS.

Fill in the subscription blanks NOW and sail in the good ship PROSPERITY.

See our Agent,  
**GEO. J. TRAINER,**

**WHAT ONE CLASS IS DOING**

Ten per cent of the weekly collection of the Loyal Men's Class of the South Dallas Christian Sunday School is put into a sinking fund by investing it in War Savings Stamps. The accompanying picture of the Class was taken Easter Sunday in celebration of the winning of an attendance contest over every other class in the school.

The Class has an active War Savings Society and meets every other Tuesday night. The Class also pays a regular amount toward the support of a Home for Aged Persons and is active in all lines of church work.

What this Class has done, others can do. The Sunday School Class which is also a War Savings Society is laying up money which may be needed at any time and which can always be secured—with interest—on ten days' notice to the postmaster.

Have you bought your Thrift Stamp today?
