DEVILS' RIVER OIL & GAS COMPANY.

UNINCORPORATED

SITUATED IN EDWARDS COUNTY, TEXAS. DOBS THINGS DIFFERENT.

STUDY OUR PLAN

A careful study of the Devil's River Oil & Gas Company's plan will convince the close student of investments that we are offering the BEST inducement in the OIL fields. Oil production in Texas fades the total gold production of Alaska in its best days into insignificance. Alaska's best production of gold was only \$15,000,000.00, while Texas is producing about \$150,000,000.00 worth of oil. The production is increasing so rapidly that it is conservatively estimated that the output will be close to \$300,000. 000.00 in 1920.

NOW is the time to get in the oil business in order to reap the early harvest. With 600 acres of oil lands to draw from, we anticipate making big profits on our most liberal plan, PROFITS that will make fast friends for our company in future enterprises which we have in mind when The Company's present plans are in operation.

DO NOT DELAY your subscriptions. There is nothing to gain and MUCH to lose by deferring until some future date. NOW is the time to INVEST, and OUR company is the ONE to be in, for it gives you the biggest run for your money in the race for MILLIONS.

Fill in the subscription blanks NOW and sail in the good ship PROSPERITY.
