DEER "CHUMS" WITH COWS AND SHEEP

Eight Point Buck Can Be Seen Grazing on Farm in New

York.

Many are the interesting idiosyncrasies of wild life met with by the Conservation Commission's field force as a result of the many hours spent in the open. Unusual or noteworthy oc- to please you. currences are thus constantly being brought to the atttention of the commission. An oddity of this kind which was of particular interest was recently reported by D. W. Rose, a game protector of Richfield Springs, Otsego county, who told of a handsome eight point buck that could be seen almost any day grazing in company with any day grazing in company with OIL STOCK IS CERTIFICATE cows and sheep on a certain farm in OIL STOCK IS CERTIFICATE

his territory. Accounts are not uncommon of deer which in the stress of winter have entered barn yards and there satisfied the pangs of hunger. But a deer which in summer when food is abundant, has so far departed from its natobliteration as to "chum up" with farm animals and graze in an open pasture

was surely worthy of record. The services of the camera man were therefore requisitioned, and both still pictures and movies of the unusual deer were secured. The star actor behaved beautifully, from a drop dead?" asked the neighbor. photographer's standpoint-was found just where he was looked for, had no see a good customer of mine was orobjection to the brightest sunlight, and ganizing a company or something. went through all his paces in the most Any way he wanted to sell the stock;

Announcement of the

WOOL GROWERS CENTRAL STORAGE CO., SAN ANGELO, TEXAS.

We wish to advise our Customers, and all those who are contemplating the consigning of their wool, that we are going to store the Sutton County and Sonora Country wool separately and sell it on the merits of Sutton County wool. J. S. ALLISON, Vice-President.

RIVER OIL & GAS COMPAN

(UNINCORPORATED)

SITUATED IN EDWARDS COUNTY, TEXAS. DOES THINGS DIFFERENT. STUDY OUR PLAN.

A careful study of the Devil's River Oil & Gas Company's plan will convince the close student of investments that we are offering the BEST inducement in the OIL fields. Oil production in Texas fades the total gold production of Alaska in its best days into insignificance. Alaska's best production of rold was on'y \$15.000,000.00, while Texas is producing about \$150,000,000 00 worth of oil. The production is increasing so rapidly that it is conservatively estimated that the output will be close to \$300,000-000.00 in 1920.

NO is the time to get in the oil business in order to reap the early harvest. With 600 acres of oil lands to draw from, we anticipate making big profits on our most liberal p'an, PROFIIS that will make fast friends for our com pany in future enterprises which we have in mind when The Company's present plans are in operation.

DO NOT DELAY your subscriptions. There is nothing to gain and MUCH to lose by deferring until some future date. NOW is the time to INVEST, and OUR company is the ONE to be in, for it gives you the biggest run for your money in the race for MILLIONS. Fill in the subscription blanks NOW and sail in the good

ship PROSPERITY. See our Agent, GEO. J. TRAINER.
