**PENSION LAW IS NOT PAUPER LAW
SAYS COMMISSIONER, \$3,000,000 WAS
BORROWED TO MAKE DEC. PAYMENT**

Austin, Dec. 2.—The new pension law is not a 'pauper's law' nor can it be so construed as to mean that an applicant must take a pauper's oath to receive aid, declared Orville S. Carpenter, acting director of the Texas Old Age Assistance Commission, today.

"The entire criteria of eligibility is 'need,' and there is no legal formality whereby an aged person must embarrass himself by declaring to the world that he is a pauper. Such a method of administration would be wrong and unfair," the director said.

"Our workers have been instructed to be courteous. Each of our investigators knows that immediate discharge will result if he is discourteous or harsh in his dealings with the aged of his county.

"Investigations by employees of this

Commission will be conducted in a dignified and quiet manner. If we find an old person in necessitous circumstances, we will see that he receives help from the State, provided, of course, he meets constitutional requirements. The fact that he will be given a pension is his own affair," Carpenter added.

State Borrows \$3,000,000

The plan of borrowing \$3,000,000 from the Republic National Bank in Dallas for financing old age assistance through the Winter was signed by state officials today and forwarded to Washington for federal study.

Signed by the Treasurer, Attorney General, Comptroller and the Old Age Assistance Commission, the plan is that provided by the Legislature for paying

pensions until the omnibus tax bill begins to bring in revenue.

The plan must be accepted by the Social Security Board in Washington before the state agency can apply for state funds for December pensions.

The plan is for the bank to accept the warrants up to \$3,000,000 worth, and hold them until revenue sufficient to pay them has come into the pension fund. Their bid was low, offering to accept the warrants at 2 1/2 per cent interest.

**About your
Health**

Things You Should

by John Joseph Glines, M. D.

YOUR FRETFUL CHILD

The peevish, fretful baby is known to most parents. Given a new toy, or a piece of candy, he accepts it for the moment—to cast it aside, and resume his ill-tempered habit.

To assume that such a little one is only exercising a naturally bad disposition is a pitifully erroneous conclusion. The trouble is, he is not healthy, and no amount of spanking will cure him.

No child in perfect health will fret—unless his clothing may be so fitted or adjusted that it hurts him, or make him uncomfortable.

To punish a baby, or to accuse him of being the possessor of a bad "temper" just because we didn't know what ails him, shows how incompetent even some mothers may become.

In case the baby is fretful, bear in mind that his digestive tract is the first thing likely to have gone wrong; see that his food is of the right kind, and given at proper times. Do not over-feed, as you are so prone to do yourself. It is baby's business to grow—and growth is painless; he will grow if you give him half a chance.

If you cannot find the cause of baby's fretfulness and apparent ill-temper, that doesn't mean that there is no cause. Don't let him grow into a spindling, ill-nourished, fault-finding neurotic, as he may do unless your family physician does not keep in touch closely.

"Doping" babies with soothing-syrups has been long under the ban; no intelligent, reading mother will resort to such lazy, criminal tactics; see that your baby all right inside—then outside. There are no other sides to a baby.

Santa Makes Hundreds Of Gifts at Plainview Wednesday, Dec. 9th

Santa greeted thousands of his friends, old and young when he made his official visit to Plainview last Wednesday. He gave the kiddies candy and fruit, was welcomed by city and county officials, and opened the Christmas season with a big flourish.

The Friendship Day committee at Plainview has persuaded Santa to remain over until next Wednesday, Dec. 9, to participate in further Christmas season plans, and the old fellow will be on hand to welcome visitors to Plainview on next Friendship Day.

Plans for December 9th include another window guessing contest with substantial cash awards of \$20.00, \$15.00 and \$10.00, less new state tax. It's lots of fun and very much worth while for the winners. This contest will be in progress throughout the day.

At three o'clock in the afternoon, at the bandstand, weather permitting, or at the city auditorium if the weather is inclement, more than 100 items of merchandise will be awarded those who have registered in the stores during the day up to that hour. This merchandise will be carefully selected so each item will be generally acceptable. It will all be clean, new merchandise; not odds and ends that have failed to sell.

Sixty lights will be up, sidewalk Christmas trees will be in place, merchants will offer special Christmas bargains, and next Friendship Wednesday promises to be as interesting as was the big opening program last Wednesday.

**DETAILED EXPLANATION OF SOCIAL
SECURITY TAX AND AMOUNTS TO BE
RECEIVED AFTER 65 YEARS OF AGE**

Beginning Nov. 24, the U. S. Government set up its Social Security account for all eligible employees, which means that all such of 65 years or over will stop working and be favored with a government check every month for the rest of their lives. If they have worked at least one day each of any five years after 1938 and have earned during that time a total of \$2,000 or more. These checks are paid regardless of the amount of property or income one may have. If one prefers working after 65, the monthly checks will begin coming when they decide to stop working and retire.

Monthly check amounts will depend upon amount of previous monthly earnings. If one has a steady job and makes a reasonable wage, they may obtain as much as \$85 per month for life after 65 years, the smallest monthly benefit in any case is \$10.

The Amounts Received
Suppose you are making \$25 a week, says a government bulletin, and are young enough now to go on working for 40 years. If you make an average of \$25 a week for 52 weeks in each year, your check when you are 65 years old will be \$55 a month for the rest of your life. If you make \$50 a week, you

will get \$74.50 a month for the rest of your life after age 65.
Suppose you are about 55 years old now and have 10 years to work before you are 65. Suppose you make only \$15 a week on the average. When you stop work at age 65 you will get a check for \$19 each month for the rest of your life. If you make \$25 a week for 10 years, you will get a little over \$23 a month from the Government as long as you live after your 65th birthday.

If you should die before you begin to get your monthly checks, your family will get a payment in cash, amounting to 3 1/2 cents on every dollar of wages you have earned after 1936. If, for example, you should die at age 64, and if you had earned \$25 a week for 10 years before that time, your family would receive \$455. On the other hand, if you have not worked enough to get the regular monthly checks by the time you are 65, you will get a lump sum, or if you should die your family or estate would get a lump sum. The amount of this, too, will be 3 1/2 cents on every dollar of wages you earn after 1936.

Taxes To Be Paid
The same law that provides these old-age benefits for you and other workers, sets up certain new taxes to be paid to the United States Government. These taxes are collected by the Bureau of Internal Revenue of the U. S. Treasury Department, and inquiries concerning them should be addressed to that bureau. The law also creates an "Old-Age Reserve Account" in the United States Treasury, and Congress is authorized to put into this reserve account each year enough money to provide for the monthly payments you and other workers are to receive when you are 65.

Employee's Part of the Tax
The taxes called for in this law will be paid both by your employer and by you. For the next 3 years you will pay maybe 15 cents a week, maybe 25 cents a week, maybe 30 cents or more, according to what you earn. That is to say, during the next 3 years, beginning January 1, 1937, you will pay 1 cent for every dollar you earn, and at the same time your employer will pay 1 cent for every dollar you earn, up to \$3,000 a year. Twenty-six million other workers and their employers will be paying at the same time.

After the first 3 years—that is to say, beginning in 1940—you will pay, and your employer will pay, 1 1/2 cents for each dollar you earn, up to \$3,000 a year. This will be the tax for 3 years, and then, beginning in 1943, you will pay 2 cents, and so will your employer, for every dollar you earn for the next 3 years. After that, you and your employer will each pay half a cent more for 3 years, and finally, beginning in 1949, twelve years from now, you and your employer will each pay 3 cents on each dollar you earn, up to \$3,000 a year. That is the most you will ever pay.

Employer's Part of the Tax
The Government will collect both of these taxes from your employer. Your part of the tax will be taken out of your pay. The Government will collect from your employer an equal amount

of his own funds.
This will go on just the same if you go to work for another employer, so long as you work in a factory, shop, mine, mill, office, store, or other such place of business. Wages earned in employment as farm workers, domestic workers in private homes, Government workers, and on a few other kinds of jobs are not subject to this tax.

Old-Age Reserve Account
Meanwhile, the Old-Age Reserve fund in the United States Treasury is drawing interest, and the Government guarantees it will never earn less than 3 percent. This means that 3 cents will be added to every dollar in the fund each year.
Maybe your employer has an old-age pension plan for his employees. If so, the government's old-age benefit will not have to interfere with that. The employer can fit his plan into the Government plan.

What you get from the Government plan will always be more than you have paid in taxes and usually more than you can get yourself by putting away the same amount each week in some other way.
