riends and relatives wish them much happiness.

Thad Brown was taken suddenly ill Friday while driving Sharnon's delivery truck. The truck turned over but Thad was not seriously injured nor was the truck much damaged.—Reporter.

**Origin of Great Ice Age**

The origin of the glacial period is not definitely known. Some attribute it to a temporary elevation of the parts of the earth over which it spread; others to astronomical causes. The most probable hypothesis is that great changes in climate are results of changes in the constitution of the atmosphere, as, for instance, of carbon dioxide. A decrease in the amount of carbon dioxide would lower the temperature.

**The Word "Alright"**

Alright (all right), is a form commonly found, but not recognized by authorities as good usage.

**JUST WHAT DOES HE MEAN?**

**Tax Levy in Kansas Again Hits New Low**

TOPEKA, KAN.—Kansas' lowest tax levy and the lowest total tax charges against property in the state for ten years has been fixed by the state tax commission here. The new levy will raise \$3,276,425.88 in taxes, compared to \$3,657,312.65 in 1935.

How the state's taxes and tax rate have declined during the administration of Gov. Alf M. Landon, famed for balancing the Kansas budget while other states as well as the federal government were going far into the red, is shown in the following table:

| Year | Rate in mills | Yield          |
|------|---------------|----------------|
| 1933 | 1.88          | \$4,847,960.68 |
| 1934 | 1.30          | 3,330,501.77   |
| 1935 | 1.44          | 3,657,312.65   |
| 1936 | 1.29          | 3,276,425.88   |

The tax commission reported that it "has made ample provision for a possible rise in commodity prices, thus safeguarding against a deficit because of increased maintenance costs in the state institutions."

The statement also said: "The commission has given every consideration possible to every item of expenditures and receipts, to the end that the state's business may continue on the same business-like plane used by successful private and corporate businesses."

**U. S. Corn Imports**

Imports of corn during the first four months of this year were greater than the total corn imports for the five full years preceding 1935.

**Import Labor While Texas Pays Relief**

Chicago.—The necessity of importing Mexicans to pick a bumper Texas cotton crop while 138,404 persons are on work relief in the Lone Star state is too much for one former Democrat. He is E. F. Baxter, of Chilton, Texas, who wrote to the Republican National Committee headquarters here announcing his quarters and enclosing newspaper clippings which described queer goings on in his home state.

"The article striking me most forcibly is that where right here in Texas with thousands on relief the people in the lower valley section are asking for permission to ship in Mexicans to pick a bountiful crop," Mr. Baxter wrote. "So much for the Roosevelt relief."

The story to which he referred, an Associated Press dispatch in the Dallas News, said the Mercedes chamber of commerce had asked Congressman Milton H. West to seek suspension of the immigration rulings to meet the labor shortage. Growers feared damage to the crop if it were not picked at once, but no local labor could be obtained.

**Straight From the Heart**

"It would be well for politicians to remember that there are still more people off relief than on it. These will have a political machine with their own hard-earned dollars. — Charles Francis Coe.

"Nearly everything has been explained except why there are more unemployed this year than there were last year. —The Lynchburg (Va.) News, Senator Carter Glass of Virginia, owner.

**THE FOREIGN FLOOD**  
Food Imports 1933-1935

| Year | Live Hog Imports | Wheat Imports  | Corn Imports   |
|------|------------------|----------------|----------------|
| 1933 | 6,470 lbs.       | 31,383 bu.     | 160,288 bu.    |
| 1935 | 3,414,317 lbs.   | 27,438,870 bu. | 43,242,296 bu. |

The latest figures from the Department of Commerce at Washington show what has happened to the American food market in two years of New Deal mismanagement.

While New Deal bureaucrats were slaughtering hogs, ploughing under crops and yanking farm lands out of production, the rest of the world was busy shipping in food that the American consumer is buying.

In 1933 we imported only 6,740 pounds of live-weight hogs. IN 1935, AFTER THE NEW DEAL HOG SLAUGHTER, WE IMPORTED 3,414,317 POUNDS. This is five for the foreign hog raiser, but is hard on domestic producers and consumers alike.

The American corn and hog producing states have been penalized by fantastic New Deal theories which have turned the home market over to foreigners.

Corn, hogs and wheat represent only part of the loss to the American farmer. Hay, butter, beef and other farm products are pouring in. The American farmer is demoralized that this flood be stopped.

**Bula News Items**

The Baptists closed a very successful meeting here Sunday. The Methodist revival also began Sunday with Evangelist J. E. Cochran doing the preaching.

Several from Bula attended church at Friendship Sunday to hear Rev. Dunn.

**ELIMINATE All Pump Troubles**  
BY BUYING A **KIMBALL-KROGH PUMP**

*This company has been making pumps over 60 years. These pumps have been used in the Plains country around 15 years, and have given better service than any other pump ever sold in this area.*

Ask your neighbor who has a Kimball Pump if he has ever had pump trouble, and look around and see if you can't find where, at some time, some other of all other makes have given trouble.

**Liberal Terms Granted Under F. H. A.**

In buying a pump if you have plenty of money, you can afford to experiment; but if you are short of money, profit by the experience of others and buy a pump that has proven itself.

You might save a costly experiment if you will visit with the Lockney farmers who have been experimenting for the last 25 years with the different makes of pumps.

**BAKER PUMP COMPANY**  
"KIMBALL PUMPS ARE BUILT TO ENDURE"  
**ARTIE BAKER, Mgr.** Lockney, Texas
