Cites Penalties on Truck Operators

Officers to Enforce New Truck Law That Will Affect Truck Operators

Carrying on an educational campaign necessitated by new legislaion on the subject, Sam Johnson, Railroad Commission motor bus and carrier inspector, is conducting operations in and about San Angelo the remainder of the week. The inspector, one of four with the commission, arrived in San Angelo Wednesday evening, and was conferring with officers relative to strict enforcement of the laws in the future.

Urging compliance by truck owners with the new statutes, Mr. Johnson points out that an operator found guilty of violating the permit requirements, for both class A and B trucking designations, is subject to a fine of \$500 and a prison sentence of one year upon conviction.

Drivers' license must be procured than three drivers, it is further pointed out. These licenses cannot be obtained from J. D. Kirk, state highway inspector. The highway department has sufficient duand A. Wood Carvino

There are eighty-eight Merit Badges available to first-class Scouts, these badges covering a variety of handicrafts, vocations and hobbies. Through this laboratory of professions, many boys are enabled to receive a glimpse into the possibilities of each subject as a potential life work.

Wood Carving

To obtain a Merit Badge for Wood Carving a Scout must:

1. Plan and carve an appropriate design, low relief on some simple object such as book ends, a tray, a pair of bellows, a chest, a screen, a clock case, a letter opener

2. State the qualities of hard wood and soft wood, and the best woods to be used in woodcarving; name, describe, and explain how to sharpen the different kinds of woodcarving tools; and explain methods of handling the grain of and Mrs. Fred Crowder. wood in designing.

Enjoy Your Meals!

A Demonstration Will Convince You

Let us demonstrate the many advantages of electric cookery, and explain the Hotpoint Range superiorities. A small down payment will install this modern "Electrical Servant" in your home. Let the resultant economies make the remaining payments.

The most delightful part of having the Hotpoint "Phantom Maid" cook your meals is that you merely prepare them, at any convenient time, and then entrust their cooking to the infallible Automatic Electric Timer and Heat Control.

In addition to this important labor and time-saving feature, you will find your meals far more tasty and appetizing. With Hotpoint "Controlled Heat" you are able to retain all the delicious flavors and the health-giving minerals and salts—they are not boiled away as in the old, unscientific ways of cooking.
