### ED MAYFIELD PAYS \$86,000 FOR RANCH

ACQUISITION OF R. MARTIN RANCH BRINGS HOLDINGS TO 70 SECTIONS

Ed C. Mayfield closed a deal with Russel Martin for the nine-section McLaughlin was tamping in a hole ranch known as the "Old Ed Jackson White House Ranch," paying the sum of \$15 per acre. This brings Mr. Mayfield's ranch holdings to seventy sections of some of the best ranch lands in West Texas. The new ranch lies in the northern part of Edwards county. Mr. Mayfield will take possession of his new holdings the 15th of this month. Livestock from his other ranches will be placed on the Martin place.

> Mr. Mayfield has 20,000 sheep. 3,000 goats and about 1,500 head of cattle. He is president of the Sonora Wool & Mohaid Company, which is composed of Sutton county ranchmen, and president of the Sonora Wool & Mohair Marketing Corporation.

#### T. C. U. '27 ATHLETES WILL HOLD REUNION

Fort Worth, Nov. 6.—Prominent athletes of the class of 1927 of Texas Christian University will be among the members of the class who will attend its first reunion here November 15, in connection with the T. C. U.-Texas game.

Among those who will be present are Harry Taylor, second fourletter man of T. C. U., Harold (Hobo) Carson, Luther Scarborough, Herman Clark and Johnny (Three-point) Washmon.

Members of the class will hold their reunion in connection with the alumni luncheon at the Texas Hotel at noon on the day of the game. Karl E. Ashburn, head yell leader nomics in T. C. U., will direct an old-time pep meeting.

#### A Round of Slugs (By S. U. M. Bull)

Gene Bailey has been given the "love serum," and it is thought that it will have its effect. Gene, it is reported, is the most ardent lover in Sonora and will be given a medal of distinction. His room mate declares that he talks in his sleep, but would not disclose what was said. Evidently Gene must have been subject to falling in love before he was given the serum.

Congressman DePriest was again elected to a seat. That will give the wives of the white congressmen more grief and create a stir in Washington. Anyone could not blame the white women in not wanting to associate with Mrs. DePriest, a negress.

Another horse-killing job awaits someone between here and Eldorado and on up the line. However, we are not going to give any advice or offer any suggestions to anyone. Anyway, the horses are HUSBAND AT FISHING a nuisance and dangerous to the

### EAT MORE LAMB

Production of lambs is one of the principal industries of Sutton county, and to further the cause we should help consume lamb meat. Lamb is considered by leading physicians to be the most wholesome and delicious meat on the market.

Our lambs are purchased from Sutton county ranches, and we are selling it very reasonably. There are many ways of preparing lamb meat and you should be acquainted with the many ways in which it can be served.

Our beef is the best to be found, and it too, comes from Sutton county producers. Just phone us your order and it will be delivered promptly.

BEVERLY HILLS. - Well all 1 know is just what I read in the papers. I was just sitting reading a

very beautiful Horse Magazine called, "Polo." It is the issue that tells of the great Internation Match played between England and America, and it gives the very detail of each play, and also tells of the sale of the

Horses after the match. You know I was just thinking it might be interesting to some of you to know something especially about the horses, for you dont have

There was \$335,000 worth of horses sold at public auction after the games. The British sold 48 head for \$183,400, The Americans 36 head \$73,000 and the Australians 25 head for \$77,600. The British averaged pretty near \$4,000 a horse, The Americans only about \$2,000 and the Australians \$3,000. White Slave, an English bred mare played by the English, brought \$13,000 Bucks. Lady Luck, another English one. brought \$10,000, and an Australian mare, Isobel, \$10,000. The reason : Americans dident bring as much was the fact that most of the best horses played by the American team was privately owned and was not put up for sale at all. The ones sold were just the ones that were owned by the Polo Association.

The games are pulled off under the management of the U.S. Polo Association. They guarantee the British team their Transportation and expenses and all which is taken out of the Gate receipts, and this year the Association had themselves bought up quite a string of Ponies for our team. Heretofore they had depended entirely on the generosity of other players loaning their best horses to the big team, but this year they bought some themselves, and sold them after the games. Of course some individuals sold their Horses. Charley Wrightsman a fine young Sportsman and member of our Clubs out here on the coast was good enough to mount Eric Pedley, the sensation of the games, and a fellow Coast Player. Eric had gone back there to try out proper chance for he wasent properly mounted, but this time Charley sent back twenty head just for Eric to play through the test Matches on.

You know a horse is really from 60 to 70 percent of the game. Thats about the ratio the Experts figure it. If you cant beat a man to the ball why there is no use going. Its lows we would get run over.

Most of the Horses that make those big games are Thoroughbreds, or three quarters so. An awful lot of them are bread and raised on Western ranches, and lots of them have run cattle. Polo had not only been a recreation or Hobby of a lot rich people, but its been a God-send to the Horse business. It has done more to establish the breading of good horses than even races have. Now it is a big business, and there is dozens of men just prowling all over the west buying likely "prospects" for Polo. The game is growing so fast and the demand for horses so great that its a real business now.

All the Colleges have taken up

for it, and this thing of it costing all this money is a lot of Hooey. You can d buy three or four old fifty dollar crow bates and have as much fun with the game as Jock Whitney, or Laddie Sandford, who each have perhaps

from a quarter to a half million just in their Polo Strings alone. That half million to them is just like as buying an extra bowl of Chili.

he boy on the sand lot gets as big ick out of a home run as Babe th, and the Dub Polo Player on tired horse gets just as much kick t of making a goal as Hitchcock. Its a great game and it learns you ride quicker than anything on rth for when you start hitting at e ball you forget about how you going to stay on, you just do it consciously. Age dont keep you om playing it. Arthur Brisbanes

modities which only a few can af- pressed itself in revolutions which out. In Europe political conditions are critical in Germany, England, France and Spain, from the same

Economists who have delved deeply into the present world situation blame it largely on the overproduction of raw materials of all kinds, all over the globe. And that overproduction is a direct result of the war. Although the war was over twelve years ago, its effects are still being felt, as they for first in sertion per week and 2

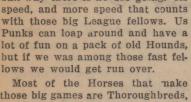

During the war every form of FOR RENT-One bed room. Apply production of raw materials was this office. immensely stimulated in the countries outside of the war zone. BUILDING-

Building operations in the United States go by fits and starts. One year there will be a building boom, the next year a depression. One reason is the difficulty of financing the spread between first mortgage money and the building own-

Some Chicago builders have a plan whereby the people concerned in the building industry do this financing themselves. Contractors, supply manufacturers, dealers in building materials, architects, and labor are to take a part of their pay in junior mortgage certificates, to be paid off in installments. This plan will not reduce wages or profits, but generally adopted will make building operations independent of general financial conditions.

#### BOULDER-

Things are moving in the Hoover Dam project at Boulder Canyon on the Colorado River. Power lines are about to be run to the site, to furnish energy for the handling of the immense masses of stone and concrete which will be required to build the dam. Engineers are being appointed, plans have been fluences, and the new law seems made for the town to house the ten thousand workmen who will be employed on the job, bids have been asked for some of the materials which will be first required.

It takes time to carry out a great project like this. Five and one-half years is the lowest estimate from the day construction begins until the great dam is finished. It takes a lot of time to prepare to begin

That is the difficulty about relying upon public works to relieve a sudden stress of unemployment -it takes so much time to plan them and provide for financing them that by the time the work is ready to begin the period of unemployment may be almost over.

### SUGAR-

The announcement by the Department of Agriculture that the federal sugar cane experiment station at Canal Point, Florida, has developed a cane which yields a third more sugar to the acre than any previously known variety, and is at the same time resistant to cane diseases, is of importance to everyone in the United States. We consume several times as much sugar as any other nation in the

world. Our sugar producers have had difficulty in competing with foreign sources. The sugar industry in Louisiana was practically wiped out a few years ago by plant diseases; the Mississippi flood of 1928 almost finished the job. But the introduction of a new type of sugar cane from Java, known as "P. O. J. 213," has rejuvenated the Louisiana sugar industry, which is now producing five times as much sugar as in 1926.

The ne wcane developed in Florida, called "C. P. 807" yields a ton more sugar to the acre of cane than does "P. O. J. 213." That should mean, eventually, both a reduction in cost of sugar to the consumer and better profits to the

It looks as if there is at last a way in which shippers of farm products can get the money due them. State and local laws don't protect them; they operate in favor of the local dealer and against the shipper from another state. The federal courts are not subject to local into have teeth in it.

#### EDUCATION-

We spend more money for education than for anything else, but there are still hundreds of thousands, if not millions, of American grown-ups who have never yearned to read or write. The death the other day of Thomas Young, whose occupation was that of "public writer," in a good-sized town close to New York city, revealed the fact that hundreds of persons in White Plains who could not write were in the habit of going to him to write their letters for them.

In New York state alone, by the

tion during the past twelve months. I am not soliciting business for the News when I venture to say that among the unfortunates are merchants who foolishly quit advertising when they saw the first signs of changing conditions.

Last week's paper was well filled with seasonable advertising, and the citizens of Sonora are indebted to the merchants who bought the space, because with their ads they are doing their part in keeping Sutton county money at home. Were it not for the messages to the people in the News, many more thousands of dollars would find their way into the coffers of big mail order houses that cater to potential buyers by providing each of them with an attractively illustrated catalog.

Talking of times-good and bad, didn't those San Angelo Kittens have the "devil's" own time trying to score on the Bronchos? And then they didn't accomplish their purpose.

And while Mr. and Mrs. Sam Stokes have never had a quarrel, they have had many good times, but I doubt if any of them was any better than the one they enjoyed when all their friends and relatives gathered to celebrate the Golden Anniversary of their wedding.

Those of you who were young when the Sonora school was in its infancy, back in those days of which Mayor Aldwell spoke at the dedication, will smile as you recall some prank you played on the Hallowe'en of that year. I hope your faces will still be cheerful when you view the disarrangement caused by the youngsters of this year. They thought they were having a good time, you know.

See you after election, and I'm etting Texas goes Democratic.
