"Analysis of the consignment ers shows the grower will pay dearly for the quick returns with which they are tempting growers. For example, the trade consignment conin Boston, against six months under the co-operative plan.

"We were very much interested Mrs. Roy Grimland. to hear one of the oldest wool uation in this country needs attention as badly as was the case in 1920 when the emergency tariff LUBBOCK TO HAVE was enacted. Such an analysis strengthens the contention of many that a temporary embargo on foreign wool is the need of the present. The National Wool Marketing Corporation and the National Wool Growers Association, together with the various subsidiaries of both organizations, are co-operating to see what can be done in this direction. Wool growers can help by calling to the attention of their congressmen in Washington the need for additional protection to offset the sharp decline in foreign exchange

"Growers not in close touch with the wool situation cannot fully appreciate just what it meant to the American grower to have the National Wool Marketing Corporation take its firm stand to halt foreign importations. Figures from the United States Department of Commerce show imports of wool during December, 1930, declined sharply compared with the same month in 1929. Imports of wool for clothing purposes amounted to only 146,000 pounds for December, 1930, against 1,065,000 pounds for the same month in 1929. Because of the corporation's interest in protecting the domestic market for the American grower foreign wool accumulations are the lowest in a long time and represent almost entirely specialty wools which cannot be supplied from the home-grown clip.

"As indicated in our last market news letter, the heavy clearances in Australia have been encouraging. It has been said that much of the wool from Australia was taken in lieu of cash settlements and that it would appear later for resale in London. Our advices indicate this analysis incorrect. Most of the wool from Australia has gone to manufacturers and the volume for resale is smaller than it was at the last sale. Japan has been an exceptionally heavy purchaser. The extent of the Japanese demand in Australia is shown by the total exports for the first five months of the season, which aggregated 133,788 bales as compared with 65,669 bales for the corresponding period a year ago."

FIRST HEREFORD SALE

Forty-three head of choice Hereford cattle have been consigned for the first annual Hereford sale at Lubbock, March 28. Eighteen leding Hereford breeders will have bulls and heifers to offer at the sale. Among the breeders are C. M. Largent & Son, Merkel; Joe T. Davidson, Ozona; C. C. Sanders, Big Lake; Bade Bros., Sterling City, and a number of others. The sale is being sponsored by the Texas Hereford Association. Thirtyfive bulls and eight heifers have already been consigned.

"EAT MORE LAMB"

Furious fighting has reigned TWENTY-FOUR along the percentage front in the "Eat More Lamb" campaign recently. Reagan, Pecos, Val Verde, Kerr and Uvalde counties have been scrapping wholeheartedly for the upper berths. At this writing we find that Reagan and Pecos counties have gone over the top-Reagan county with 1031/2 per cent and Pecos county with 101 per cent of their quotas raised. Congratulations are in order to C. C. Sanders and J. T. Baker and their committees for their splendid work. Val Verde county follows with 90 per cent. Val Verde county has worked hard and under the handicap of the largest quota has won third place, and would be far over the top were outright donations counted toward the county quota. Next in line is Kerr county. Kerr county has been standing pat with their percentage. With a little more effort they should raise the rest of their quota. A few revisions have been necessary. A few memberships were credited to the wrong counties, and this revision has changed the percentages some, but not materially. Glance over the standings and see where your county is. Are you helping it?

The promises given by various county chairmen a few days ago have been well carried out. Membership acceptances have been pouring into the office and to this time the six hundred mark has been passed. The outstanding workers have been J. C. Mitchell and Joe

Lion Frank Knapton Proposes Cheap Mode of Transportation to Group Meet

If proposed plans are carried out at least fifty per cent of the Sonora Lions Club will attend the group meeting at San Angelo, Thursday, February 26. It was suggested by Lion Frank Knapton that a Greyhound bus be chartered and the Sonora Lions Club visit San Angelo on Thursday. Lion Knapton gave the cost of the bus for the one day, the amount being thought very reasonable by the club. An assessment of \$1 per member was voted for the expense of the trip. **Bus to Parade Streets**

According to Lion Knapton it has been proposed that the bus with Sonora banners be driven over Sonora on the morning of the 26th. Any Lion wishing to make the trip is invited to climb aboard when the bus makes its rounds. The aggregation of Lions will leave Sonora at 10 o'clock Thursday morning and returning in the afternoon. At least two buglers from Troop 19, Boy Scouts, will accompany the played several numbers before the club, according to Knapton.

Well the Government woke up and voted \$15,000,000 for food right away. At first the Government said they would try and provide money to get the Farmers some seed for their next crops, but that they wouldent give them money for food as that would be too much like the "Dole," thats the thing they do in England when you cant get work they give you a certain weekly allowance, and its called the "Dole." Course everybody over there says it hasent worked out, and that it was a mistake to start it. But I guess the ones that have been receiving it and buying their bread, dont think that it is such a terrible blunder, so thats the way it is, it sorter depends on which side of the fence

If you live under a Government and it dont provide some means of you getting work when you really want it and will do it, why then there is something wrong. You cant just let the people starve, so if you dont give em work, and you dont give em food, or money to buy it. why what are they to do? What is the matter with our Country anyhow? With all our brains in high positions, and all our boasted organizations, thousands of our folks are starving, or on the verge of it. Millions of bushels of wheat are in Granaries at the lowest price in twenty years. Why cant there be some means of at least giving everybody all the bread they wanted

Here they are starving in Arkansaw and in our adjoining State of Oklahoma they are feeding their wheat to the stock to try and get rid of it.

How can you equalize it, by putting a higher surtax on large incomes, and that money goes to provide some public work, at a livable wage. I dont mean a wage that is maintained in other lines. I mean a wage is provided for the unemployed. That is if you could in no way find a job, you could go to some State or National, or City or Country Public work, that would give you say four hours a day work, instead of the usual eight. You wouldent be accepting Charity. But you would be doing honest work for it, until you could get employment in some line that

was not public work, and at a regular wage. It wouldent cheapen labor. It would only cheapen Public works, the thing that belongs to all the people, and the thing they would like to have cheapened. But it

In America we reject the name but accept the substance more and more liberally every year.

The greatest danger in Socialism lies in having it imposed upon or achieved by a people before they are ready for it. Its successful operation presupposes qualities in human nature which the great majority still do not possess. If everybody were intelligent, industrious and inherently just in all his relations with others no government at all would be needed. As we are constituted, we seem to be working out an aristo-democracy in America which comes closer to our national concepts and needs than any norm of government as yet devised anywhere else.

Few persons today realize that the first form of government adopted by the Pilgrim Fathers in the Plymouth Colony was precisely what today we call Communism.

Everything was held in common, craft which will combine safety work, good pay, and association all kinds. But even under the most primitive conditions, the experiment did not work, though it was tried for several years.

"This communitie," writes William Bradford, the first Governor of Plymouth, "was found to breed much confusion and discontent. .

By completing without mishap the first two legs of its flight from Germany to America the largest airplane yet built, the DO-X, has revived interest in the completion between planes and dirigibles. The DO-X has reached the Canary Islands, in the Atlantic Ocean, as I write. By the time this is printed it may have reached America, the first airplane to transport a "payload" across the ocean.

Builders of dirigibles are confident that they will establish regular freight and passenger routes between the continents in the course of a year or two. So are the builders of airplanes. Perhaps both will succeed, but it seems more likely that the trans-Atlantic flights of fifty years from now, when nobody will go by boat except those who are compelled to travel cheaply, will be made by air-

CREDIT

Is the Badge of Honesty

Credit came in with civilization—when man began to have faith in his fellowman. To revert to a no-credit plan would be equivalent to redersion to savagery. Germany lost the faith of humanity when she abused the faith all nations held in The Hague and other treaties.

CREDIT IS FOR YOUR CONVENIENCE!

It is the easiest thing in the world to get—if you play square—the hardest if you shirk your responsibilities.

Credit is based solely and absolutely on past performances.

If you have always paid your bills promptly you can obtain credit easily anywhere in Sonora or United States. It will make you feel better—it will strengthen your credit—and the financial machinery will function properly.

If you have evaded payment, even though your intentions are ever so good, you will be listed far and wide as "bad pay" and your credit is gone.

The Devil's Dream (By W. E. James)

"Let me live in a house By the side of the road, And be a friend to man."

No other words, to our way of thinking, can better describe the sentiment, aim and purpose of National Lionism than those heading this column. To "visit the sick and afflicted; to be a father to the fatherless," in other words be "a friend to man," should constitute the whole work of mankind.

PROHIBITION AND POLITICS

The long-awaited report of the Wickersham Commission on the enforcement of the prohibition law reopens on a national scale the whole question of whether or not prohibition can be enforced. That means that the "Wet vs. Dry" issue will be one of the biggest if not the dominant issue of the presidential campaign of 1932.

The Wickersham report itself is definite in its main conclusions and recommendations. It is opposed to repeal of the 18th Amendment. It is opposed to the restoration in any manner of legalized saloons. It is opposed to the federal or state governments going into the liquor business. It is opposed to any change in the law to permit the manufacture and sale of light wines and beer. It believes that the co-operation of the states and the support of public opinion is necessary for complete enforcement of the prohibition law, but believes that there has been an improvement in enforcement since the forces for that purpose were reorganized, although enforcement and obedience to the law are still inadequate, as are the agencies of

Congress the sole power to regulate the liquor traffic, and not leave anything to the states.

With this last conclusion President Hoover, in his message transmitting the deport to Congress, disagrees. He thinks that the burden of enforcement should not rest entirely upon the federal government. He has previously expressed himself as feeling that the states have not done their full duty. But with the main conclusions of the commission he grees.

WHY AND WHEREFORE OF NEW AUTOMOBILE LICENSE NUMBERS

The new 1931 license plates for automobiles have attracted considerable attention, due to the radical ceding the numbers has caused many questions. Here's the explanation:

The first 100,000 licenses for passenger cars have no letters preever, and "A" is prefixed. "B" represents 200,000, "C" 300,000, Theatre-goers in Sonora know and so on, until the last letter used "P," which represents 1,400,000. For example, there is number 5-1301. It is one of the numbers assigned to Bexar county. Then

ON TEXAS FARMS

College Station, Jan. 26.-If demonstration statistics may be taken as a guide there is a definite trend in Texas toward feeding beef cattle on the farm. There are twice as many men feeding beef calves in demonstrations superivised by county farm agents as a year ago, and where 40,808 head were fed then there are now 61,-704 head of cattle on feed. Another encouraging sign noted by A. L. Smith, beef cattle speicalist in the Extension Service of Texas A. & M. College, is that three-fourths of the 480 men engaged in these feeding demonstrations this year are farmers or ranchers, whereas last season more than half of the 211 demonstrators were commerical

In discussing recent trends in the farm beef cattle business Mr. Smith points out that 4-H club boys, to whom much credit is due for leading the way in farm cattle 14 Pounds of Fat feeding, are now feeding larger numbers per farm, thereby placing the boys' work on a more practical basis. Another trend is toward creep-feeding whereby the calves have access to grain while nursing their dams, resulting in calves that cotton fields and second crop grain
