## A. B. DAVIS, SOUTH PLAINS CIVIC LEADER GIVES VALUABLE ADVICE FOR GREATER MUNICIPAL GROWTH

### Group of Lubbock Boosters Add Much to the Flow of Wit and Wisdom at Chamber Of Commerce Banquet Here.

He accomplishes most who serves his people, was the emphatic closing statement of A. B. Davis, Chamber of Commerce manager of Lubbock, who was principal speaker at the local convivial body meeting and banquet held at the Methodist church Friday night last week.

There were about 60 men and women present. R. L. Brown, president, was toastmaster for the occasion, keeping the least well buttered, jellied and spiced as he gave each speaker appropriate introduction. Ladies of the Methodist church, were the delightful caterers of the evening, serving a menu of choice culinary designed to appease the appetite of the most glibly of exacting epicureans.

With Mr. Davis, there were also present from the Hub city: C. A. Whitaker, H. D. Woods, Geo. Meiser, Dan Tarpley and Mr. and Mrs. B. Sherrod, each of whom were introduced by the major, domo curruent and responded with appropriate remarks calculated to further cement the convivial social and business relations which have always existed between the "Hub" and this particular "spoke" radiating out toward the periphery of the South Plains domain.

### Musical Feature

Excellent piano numbers were rendered by Mrs. Flandie Gillman, music teacher in Muleshoe public schools and by Glenn Rooker, virtuoso de luxe of senegambian rag-time melody, enriching the heart and generally effecting the pedal extension of serious and sedate citizens a la St. Vitus.

### Other Speakers Here

Sherrod led in the chin excursions, as a few semihumorous jokes but not appropriate for Holy Writ, but

successfully turning over the tickle-boxes of his audience, who greatly appreciated his flow of wit and expressed good will.

Chas. A. Whitaker, who boasts of being able to insure anything except the immortal soul, and particularly his job being turned over to the Lubbock fire department, essayed to further increase the jollity of the crowd by throwing out a few bouquets containing "four or five roses," and making the famous Irish Blarney stone bluish with shame and mediocrity with his transcendent effluence of flattery and stock yard confetti, throwing promiscuously over the audience who gulped and inhaled it glibly.

Harley Woods, who is officially known as "public relations manager" of the Texas Utilities Co., and who in real life is an ambassador extraordinary of peace and good will for that soulful corporation, dexterously soothing any troubled waters that occasionally arise in the municipal lakes of genius homo consulting in South Plains areas served by his particular concern—very skillfully he manipulated his maxillary causticities in such pleasing manner that the audience rounded with generous encores of appreciation for the magnanimous slices of choice and perfumed vocabulary he dished out to them from the cruties of his psichritidinous physiognomy.

### A One-Man Band

Mr. Woods closed his extemporaneous harangue by introducing one George Meiser, a lineal descendant of Shem, a gentleman who denies not his genealogical connection with the ancient Hebrews, his articular derivation being from the Tribe of Benjamin, famed

(Turn to page eight please)

## MAHON vs. MAHON

newly getting acquainted" was the occasion as Congressman G. H. Mahon (left) and Congressman G. H. Mahon (right) met at the Capitol in Austin, Texas. It is thought to be the first time in the history of Texas that two sitting Members have had identical surnames and initials. Actually, there is only one Jones in Congress—Marvin Jones of Texas.

## MANY BILLS FALL INTO HOPPER AS TEXAS LEGISLATURE MEETS; A BIG POW-WOW, GOV'S INAUGURATION

### Thousands of Prominent Citizens Attend Ceremony; Solons Ask Amendments, Some More Taxes, Liberalize Penisons.

The Fortieth Texas Legislature was duly organized last week, Robert W. Calver, Hillsboro, being elected Speaker of the House and Will D. Pace, Tyler, independent pro tempore of the Senate.

Bills were introduced to repeal horse racing statutes, regulating and taxing the racing under the revised pari-mutuel system and to revise the oil production law. Constitutional amendments to reduce the 25 cent license on ad valorem taxation for general property other than land and to classify property in the real for taxation were also introduced. Representative K. Russell of Cleburne district introduced a ruling of attorney general's department, was contested.

Gov. Allred in his message before the joint houses declared he would liberalize old age assistance benefits until the present plan had been given a thorough trial. Regulation of utility rates to compel reasonable rates to be charged.

Tightening of driver's license law and more effective regulation of trucks and safety. Enabling laws to make constitutional amendments. Wardens board and courts to place defendants on parole boards.

## Farm Planning Meets Draw Crowds Who Are Interested In Future

Farm planning for future years is one of the chief topics being discussed at the county farm planning meetings held last week at various points in the county. The meetings were held at the following places: Fairview, Thursday night; at or spoke briefly at West Camp, G. Kennedy, county commissioner, told of accomplishments of his office at College Station recently. Miss Stewart home demonstration agent was in charge of recreation features at each meeting.

Be proud of your home town

Legislative representative re-districting. Ratifying of child labor amendment to federal constitution.

Raising additional revenue for old age assistance and general purposes. The first bill passed at this session, as per custom, was one of \$250,000 for salaries and expenses of legislators. It passed the house unanimously as introduced. The House also passed a bill raising salaries of elective offices from \$7.50 to \$8.50 per day, occasioned, it was claimed, by increased cost of living expenses.

Friday Senator L. J. Sulak, LaGrange, introduced a proposed constitutional amendment calling for a two per cent sales tax to support a more liberal old age assistance plan. A similar bill was also introduced in the House by Representative Alfred Petch of Fredericksburg. The measures are in conflict with Gov. Allred's ideas.

### Governor's Inauguration

Legislative activity became a status quo the first of this week as preparations were made for the inauguration of Governor James V. Allred for his second term.

Nineteen cannon shots roared in his salute following the Governor's kissing the Bible and taking the oath of office. Thousands of people attended the important function last Tuesday which took place in front of the 50 year old state capitol building. Lieutenant-Governor Walter F. Woodul was inducted into office a few minutes after the governor was reaffirmed. Attorney General Wm. McCraw was inducted into office for his second term last Saturday.

## J. S. Pollard Doing More Terracing, Finds Pays Big In Cropping

Nearly two miles of terrace lines were run and about one mile of terraces completed at a terracing demonstration at J. S. Pollard's farm in the Stoppel community last Monday. The work was under supervision of the county agent. Seven people of the community took part in the demonstration. Terraces were constructed with county road machinery. Mr. Pollard was so well pleased with production of crops in 1936 on contour land he has decided to terrace all land for row crops in 1937. He operates about a half-section, part of which is in wheat and which will be terraced later. Contoured land on this farm produced 310 pounds of sudan seed per acre in 1936 compared to 150 pounds on adjoining land which was not contoured. Time of planting and cultivation of the crop on each field were the same, according to Mr. Pollard.

## THIRTY-THREE IN ROLL

### Is Ele. Is

Thirty-three around in go-taken men to their hands on the Constitution thirty-fourth. Actually 27 of the elaborate ceremonies and that he thirty-seventh inauguration was held the next two in P. sch was the first to wear in. President Roosevelt the thirty-second Pr that list are only 31 Cleveland is counted w. term, was defeated by a rison, and then beat i other second-termers are once.

Also on the list are fo never went through the f inauguration ceremony T. Johnson and Arthur, eleva. presidency by the deaths chief, took the oath without. So did Theodore Roosevelt an Coolidge, but they went out a the right to be inaugurated fo selves. Oddly enough that la ceremony in which Coolidge was in by his father in a New England house was later found illegal a had to take the oath a second ti with no publicity given to the re wearing in.

Roosevelt is the eleventh Presid to be elected for a second term. T other 10 were Washington, Jefferson Madison, Monroe, Jackson, Lincol Grant, Cleveland, McKinley and Wilson.

John N. Garner is the second Vice

## EARL McCLURE, LUBBOCK DISTRICT EXECUTIVE, HELD LAST THURSDAY IN LITTLEFIELD

Earl McClure, Lubbock, was reelected district scout executive and secretary of the Lubbock district at a meeting held at the Methodist church in Littlefield, Thursday of last week. Other officers named for the coming year were as follows: Lyndon T. Grant and Sam A. Henry Lubbock assistant secretaries; A. B. Sanders, Littlefield, district chairman; H. H. Mann, Levelland, vice-chairman; H. B. Teal, Sudan, district commissioner; Rev. R. S. Watkins, Muleshoe and Russell Mitchell, Levelland, assistant district commissioners.

Chairmen of various committees were named as follows:

- Promotion, Rev. Vernie Pipes, Sudan; Organization, B. F. Minor, Levelland; Program, Pat Boone, Littlefield; Camping, Kendall Young, Levelland; Court of Honor, Floyd Goffman, Littlefield; Special Examiner and Merit Badges, Rev. R. S. Watkins, Muleshoe; Finances, Read Markham, Sudan; Sustaining memberships, Floyd Kennedy, Marton.

Troops of this district now include: Levelland, No. 24; Marton, No. 46; Littlefield, Nos. 5 and 23; Muleshoe, No. 20; Bula, 37; Sudan, No. 39; Circlebuck, No. 42; Anton, No. 41; Orlon, No. 44.

The meeting was well attended, dinner being served by ladies of the Methodist church, Littlefield. Rev. Willis Ray, Littlefield Baptist minister, returned thanks at the table after which there was an introduction of visitors led by Lyndon T. Grant, and Prof. F. O. Boles, stated the purpose of the meeting.

Hill Stevens, Levelland, read the report of the nominating committee which was passed upon, after which Prof. A. B. Sanders introduced the newly elected officers for 1937, and then led in a discussion of a program and objectives for the coming year.

A report of progress and needs in enrollment was given by V. L. Dougherty, South Plains Council, production engineer, followed by addresses from Earl McClure, scout executive; Dr. F. B. Malone, president of South Plains council, and Sam A. Henry, field commissioner.

The meeting is reported to have been very interesting, resulting in a decidedly forward outlook for greater activity in Boy Scout work in this section than at any time during the past.

## TO ASSIST EMPLOYERS

B. H. Thompson, special representative of the Texas Unemployment Compensation commission, will be located at the Chamber of Commerce office, Amarillo for the next few weeks to assist employers in solving any problems regarding this particular taxation first contribution of which are due January 23.

## FARM ASSOCIATION MEET

A meeting of the Progress Community Farm association will be held at the school house of that community Friday night, Feb. 5, all citizens of the community being expected to attend. At this meeting officers of the organization for the coming year will be elected.

## League Tournament Games To Be Very Close, Is Indication

Time for the County Interscholastic League tournament is again drawing near with several outstanding teams in the race, according to Prof. Glenn Daugherty, of Bula school.

With Muleshoe boys winning second place at Sudan, possibly makes them favorites for the boys division, the race will also be strong between the Goodland girls and Muleshoe girls, with Bula pushing a close competitor for both.

Everyone is much interested in the race this year for county honors as it seems to be the most even tilt to date.

Bill Stevens, Levelland, read the report of the nominating committee which was passed upon, after which Prof. A. B. Sanders introduced the newly elected officers for 1937, and then led in a discussion of a program and objectives for the coming year.

## LAMB CO. DISTRICT COURT

Lamb County District court will convene at Otton, February 10, the call for Grand and Petit jurymen being sent out last week. Several criminal cases are already docketed, but indications are the civil docket will be light.

## Memorial to America's First Cheese Factory Unveiled

In the costume of 1850, this old fashioned dairy maid helped to dedicate the memorial to the first cheese factory in America, at Rome, New York.

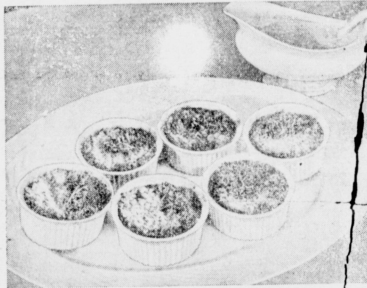

DAIRYMEN from all parts of the United States gathered in Rome, New York, this past week, when a memorial on the site of America's first cheese factory was unveiled.

A pageant in the costume of 1850, a parade of ox-carts, and a colorful ceremony preceded the dedication of the bronze and stone memorial commemorating the birth of the cheese factory system in the United States. The nation's first cheese factory was built in Rome, in 1811, by Jesse Williams, a dairy farmer of that community, son of a Revolutionary War hero.

The ceremonies at Rome served to inaugurate National Cheese Week for the nation, November 8 to 14. It was from this small beginning that the cheese factory in Rome that the entire cheese factory system in this country grew.

The bronze tablet and replica of the old cheese factory were presented to the city of Rome by George L. Mooney, secretary of the National Cheese Institute.

## You Can Make An Art of Left-Overs

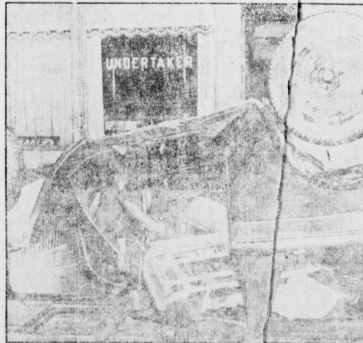

EVEN in the most carefully managed households, left-overs turn up, as surely as the sun rises. The real culinary artist is she who rises to the occasion and turns these Cinderellas of the refrigerator into Fairy Princesses of the dinner table. Little individual ramekins or an attractive earthenware casserole add greatly to the appetite appeal of left-overs. In these particular recipes a small quantity of quick-cooking tapioca takes a bow—and deserves it. For the tapioca adds necessary body, but with a delicacy which never detracts from the flavor.

**Ramekin of Salmon**  
 2 tablespoons quick-cooking tapioca  
 1/2 cup milk  
 1/2 cup salt  
 1/2 cup fine bread crumbs, buttered  
 Combine quick-cooking tapioca,

1 1/2 cups milk or chicken stock  
 2 tablespoons melted butter  
 6 to 8 unbacked baked pasta  
 1/2 cup powdered cheese  
 2 cups diced cooked chicken  
 Combine ingredients in order given. Turn into greased casserole and bake in hot oven (425°) 25 minutes, stirring mixture twice during first 10 minutes of baking. Place biscuits on top of chicken mixture after it has baked 10 minutes, return to oven and bake 15 to 20 minutes longer, or until biscuits are browned. Serves 4.

## RIGHT TO THE DOOR

Here is the end of a perfect car taken too fast and climbing up the fraction of a second. Out of this appalling highway traction (100) is developing a deep, connective resolve to seek safety legislation which will include all types of drivers, particularly the surging of Hinson's trucker-merchant who now escapes virtually all truck regulatory laws, evading taxes and burning his unmoderated and irresponsible course on our highways and streets.

## Cochran Officials Favor Road Work To Line And To Odessa

Friday afternoon last week County Judge M. G. Miller, Neil Rocky and Jess Osborne met with the Commissioners of Cochran county, at Morion, relative to the routing of the road leading from Enchis into Morion and on into Youkum county, finding members of that Court very much in favor of that section and ready to start work immediately.

At four years ago a meeting was held here to promote a West Texas County Line road from Dalhart, through the western tier of counties in this state on to Odessa where it will connect with State Highway No. 1, furnishing a shorter, more direct and better all season road from the East to El Paso, Denver and intermediate points.

At that time, while favorable promises were held out by the State Highway commission, yet nothing definite could be obtained. However, the road from Muleshoe to the south Bailey county line was given state official recognition and designated as State Highway No. 214, later PWA funds being granted for its improvement, together with promise of its paving as soon as the catclaw bed had been completed.

The State Highway department will have charge of finishing 17 miles of this road as soon as the strip from Muleshoe to Needmore is completed.

## MULESHOE DROPS DOUBLE HEADER GAME AT ANTON

The Muleshoe High school boys and girls basketball teams motored to Anton for match games Tuesday night, and were defeated in the double header by the Anton teams, the girls score being 24 and 14 and the boys score was 55 and 24.

A school bus was furnished by Hill Murrain which the players and the coaches, C. R. Stevens and Miss Adelle Bell Fort went in to Anton.

Friday night of this week the Lazbuddie High school boys and girls teams will play match games here at the gymnasium with the local school teams.

## ASKESW RECOVERING FROM AN AUTO WRECK MON. WEEK AGO

Mr. and Mrs. Arthur Askew, living in the eastern part of Bailey county are recovering in a Lubbock sanitarium where they were taken following an automobile collision near the Jayland store Monday afternoon of last week.

Mrs. Askew, who suffered a dislocated neck, was immediately taken to the hospital and Thursday night of last week it was decided advisable to also take Mr. Askew to the hospital. He suffered a wrenched back with several ribs broken loose from the vertebrae, and a fractured skull, according to report.

## METHODIST MISSIONARY MEET

The Woman's Missionary society will meet at the home of Mrs. R. S. Watkins Tuesday, January 26 at 3:00 p. m. in a World Outlook program.

At this meeting the ladies will make their yearly pledge. After the program a social hour will be had. All ladies of the church are urged to attend.

First class mail doesn't always make first class time.

## Texas Utilities Would Reduce Rates In City Of

Simultaneously with the completion of plans in Floydada to erect a light and power plant, the Texas Utilities Co. gave notice to its officials that it had reduced and reduced light and power rates for that and other cities of similar service consumption beginning with 1937.

It is said the new rates will approximate a saving of more than \$3,000 per annum to the users of that municipality, included in which is a city pumping station, saving of about \$500 per year.

Last week that city effected the sale of \$120,000 worth of municipal bonds voted a few months ago by its citizens for erection of a municipal light and power plant, such bonds being sold to Dunns, Israel & Co., at par, drawing five per cent on both future and accrued interest. Decision was also made by officials to proceed with construction of the local plant.

## Stainless Steel Discs The Biggest Improvement in Cream Separators in Years

STAINLESS STEEL DISCS with electrically welded stainless steel spacers—the most important improvement in cream separators since McCormick-Deering pioneered the use of ball bearings in cream separators.

What does this advanced McCormick-Deering feature mean to you? Just this—that it provides the same sanitation that you demand of kitchen equipment, and the same high skimming efficiency year after year. Even after hundreds of hours of service, the stainless steel discs in the McCormick-Deering look like new—no rusting . . . no pitting . . . no coating worn off. Ask us more about the great advantages of stainless steel discs.

## Congressman Mahon Asks Leniency On Loans To Farmers

Washington Jan. 20.—Congressman George Mahon, this district last Monday introduced in Congress a bill providing for the reamortization of certain Land Bank Commissioner loans.

He explained that since 1923 the Land Bank Commissioner had refinanced loans on farm lands in the sum of about \$900,000,000 in the United States wherein it was provided that borrowers should pay only interest for three years and liquidate the principal in the 10 years thereafter.

Principal payments are now becoming due on these loans, and Mahon believes it will be impossible for the average holder of such loans to liquidate them in 10 years. His bill provides these loans shall be reamortized giving borrowers from 25 to 35 years to pay them, as is now the case with regular Federal Land Bank loans.

Mahon explained there are now in Texas about \$48,000,000 outstanding in these short time Commissioner loans and that in the 19th Congressional district, there are about 5200 such loans, representing about \$8,700,000.

## REGULAR P. T. MEETING

The Parent-Teachers association will have their regular meeting Monday evening, January 25, at the High school auditorium, beginning promptly at 7:30 o'clock.

A very enjoyable and educational program has been arranged by the committee, as follows:

Talk, "Ratification of Child Labor Amendment," Judge J. E. Adams.  
 Talk, Mrs. Bonnie Loucas.  
 Sing-song, "Darling Nellie Gray."  
 "When You and I Were Young Margie."  
 "Oh, Dem! Golden Slippers."  
 "Battle Hymn of Republic."  
 "My Old Kentucky Home."  
 "Old Black Joe," by the audience.

## MRS. ADAMS ENTERTAINS

Mrs. J. E. Adams was the charming hostess to the Blue Bonnet club members Friday afternoon of last week with all members except one attending. They had as their honor guest, Mrs. Buster, of Brazil, who is visiting in Muleshoe with her daughter, Mrs. W. B. McAdams.

A very enjoyable afternoon was spent crocheting and doing various other kinds of needlework.

A delicious refreshment course was served by the hostess and all departed to meet with Mrs. Joe Damon Friday afternoon of this week.

# WEEKLY LAY SERMON

## THE CLOUDS

By JESS MITCHELL

The clouds are quite important for the comfort and satisfaction of folks living in this great southwest country. Entirely too often they are laden with dust and sand, or if fleecy, so close, where to unload their cargoes of liquid. In an area where the annual rainfall is only about 15 inches, the blessings coming from clouds is looked forward to with greater solicitation and much more appreciated than where the precipitation is greater.

To my mind there is no scene more inspiring than that of the bridal veils of mists that sometimes hang over these western prairies or the sun-kissed upholstery that hovers about the couch of the dying day as snowbanks of vapor are piled up high in the heavens of the western horizon.

Clouds aside from their economic duties, are one of the most mysterious and magnificent creations of nature. They are more than emerald-crested oases to dull the rays of the sun for human comfort. In their nature they are more than signs of wet or dry weather or barometers to warn old people of rheumatic troubles. They are veritable conservatories of the skies, pompous thrones of the upper firmament, heaped up in nebulous manner or strung out in form of bars and tinged with the water colors of old Sol. They are veritable angels of the mist, great cathedrals of light with altars of gold and silver before which angelic nymphs flow and cater in their pristine happiness, the real masterpieces of the omnipotent Creator.

These wondrous water chariots are indeed flying lakes and oceans of the skies. Instead of being a small gathering of vapor a few yards wide and just a little above one's head, as they generally appear, scientists tell us they more frequently are thousands of feet above us, miles across and filled with

deep ravines like unto the mountains of earth whose craggy heights sometimes seem to almost touch them.

Like some glorious equipage of vanguard, these mysterious vapor banks sometimes appear in the form of monster chariots in which the King of No-rains seems to ride forth to paint the towers in piles and terraces upon an earth just awaking from its slumbers.

Again in the evening these same chariots send down from the skies their reflections of saffron and orange and vermilion until as the sun bids its last adieu to earth they apparently throw down their torches and set all the western heavens afire. It is then with inspired vision and enhanced imagination that one can catch glimpses of the celestial and enjoy intuitive ideas of the eternity that is farther ahead.

Have you never been on the ocean and watched the parade of these heavenly vapors as they skimmed across the broad expanse, apparently treading the surface of the water? Have you never been up in a mountain and watched the chariots of air as they caper here and there in majestic tread, or still more inspiring, have you never been high up in an airplane and looked back down toward earth to behold this billowy sea rolling beneath you like a majestic Pacific stretching out farther than the finite eye can possibly see?

It is a sight no Raphael or Titian or Rembrandt could ever picture with his brush and palette. Perhaps there is nothing in all this universe that so in-

spires one to ecstasy as the vision of bright clouds in the upper firmament.

But I am reminded there are also black clouds Times, there are, when the elements above us seem to be in angry mood, their tempers becoming so fierce that at intervals their animosity flashes forth in fiery streaks, and as they come together in fierce conflict, their thunderings remind one of the fierce commencing of some great battle-field. They are never subtle nor insidious; but rather dominant and demanding, lashing forth in unafraid manner at their opponents. Apparently neither man nor angel, heaven nor hell can thwart them. No chariot of light ever drive on those beautiful bow-yards of blue when those fierce elements of nature start their tirades against one another.

Sometimes white cities are devoured by them and tumbled into seas. Sometimes wide areas of earth are devastated, homes are destroyed, crops demolished, lives drowned out and beautiful vistas of terra firma washed away. Irresistible in their nature, defiant in their manner, there is no known human power that can defy them. Mortal man, with all his scientific skill and meteorological knowledge, has never been able to combat them; but rather must be low in humble submission until their anger has become appeased.

Sometimes it seems as if Fate holds the reins of these fearsome steeds of the air as the chariots of colids dash thicker and thicker across the battle-fields of the skies; but such is not the case. They are simply responding to the laws of nature set in action when this universe was created, and there is an Omnipotent intelligence which permits them to go just so far and no farther—to vent their rage so great and no greater. The Supreme Architect of this universe never allows these steeds of the skies to get the bit in their mouths and sweep over the precipice of time, for He is not yet ready for eternity to dawn for the human race.

It is a blessed consolation as one puts their head upon the pillow at night that there is an all-wise and unseen Power that is controlling the elements floating above in their silent travel, through the zenith, and as we awaken again in the morning to know this omnipotent creature will eventually lift these cloud chariots into more rarified stratas, producing condensation that falls in liquid benevolence on earth for the invigoration, sustenance and growth of crops and the happiness of man and beast. He never forgets. Sometimes we grow terribly impatient and think the Great Governor of the universe is not doing things right because He does not do them just how and when we want them done; but we are such little creatures in His sight, so small in our intellects, so finite in our judgments, it is impossible for us to grasp the wide swing of His majestic and magnificent sweep of Infinity.

Sacred history tells us this Omnipotent Being who created the clouds shall some day himself ride down to earth in a majestic cloud the like of which has never been seen by earthly eyes and there He shall be accompanied by 10,000 of His assistants who, perhaps have been aiding in the formation, direction and manifestation of these fleecy elements for the millions of years past. That will be a magnificent day, awe-inspiring and all-important. It will be an end of drouths and drownings of calms and storms. There will be one mighty blast of nature, the reverberations of which shall sweep clear around the earth. The spirits of the dead shall peer from earthly vaults to join others after long aspirations, the coral sarcophagi will give up their occupants, the suffocated of rivers shall come up wiping the water from their eyes, and all this mighty host of earth, which in ages past has watched, admired and feared the clouds of earth, will be caught up in one immense chariot of celestial vapor and wanted to the shores of an immense and immortal infinitude where unmeasured bliss shall be theirs as the years of eternity onward roll.

### A Periodic Health Check Is Important Says State Doctor

Austin, January 19.—"Check up on your health assets and liabilities during the first month of this new year and establish a working balance in health that will carry you through the year," is the advice urged upon all citizens of Texas by Dr. George W. Cox, state health officer.

"Destruction of human beings by the forces of nature is often unavoidable but sacrifice of life to preventable diseases resulting from neglecting the principles of health," he said, "is due largely to man's supreme indifference to his physical welfare."

"The purpose of the periodic health examination is not the diagnosis of a disease but the detection of physical defects or predisposition to disease and faults in living habits, the correction of which would have even a remote beneficial action on the life of the person examined. Disease, physical failure, and ultimate death are due not to time alone, but to definite physical causes. The periodic examination endeavors to determine the causes or defects so that they may be removed or corrected."

"Unfavorable surveys and examinations have been made of preschool groups and of children in school to detect conditions that might lead to illness later on or to a physical condition of some sort, if allowed

**YOU'RE RIGHT, Mrs. Back-Seat Driver.** The trouble isn't under the hood; it is in the gasoline tank.

High test is what it takes to spin cold, balky motors into purring pets. High test ends the nuisance and damage of slow starting in winter. High test reduces the need for money-wasting use of the choke. And High test aptly is exactly what you get in every gallon of Phillips 66 Poly Gas.

### PLANS FOR THE 1937 AGRICULTURAL CONSERVATION PROGRAM ARE GIVEN GRAZING ACT IS IN SOUTH DIVISION

College Station, January 19.—The Agricultural Conservation program for 1937 will include provisions for range conservation. Extension Service workers were told by representatives who attended the conference of the southern region at New Orleans.

The 1937 program will follow out the basic objectives of the 1936 plan, but has been amplified in several respects. Among the changes are provisions for including commercial orchards and commercial vegetable plantings in the schedule.

Designation of the basic soil building and soil conserving crops remains virtually the same. The ruling on the planting of soil-depleting crops and summer legumes, such as corn interplanted with cowpeas, has been altered to classify all the acreage as soil depleting and in addition the acreage devoted to legumes shall also be classified as soil-conserving.

Likewise, land from which a cash crop has been harvested and which is double-cropped by planting legumes shall, in addition to being counted as soil-depleting, also be counted as soil-conserving. This 20 acre field planted to corn, harvested, and later planted to cowpeas would count as 20 soil-depleting and 20 soil-conserving acres.

In addition to bases already established in Texas, the 1937 plan contemplates establishment of a soil conserving base.

Furthermore, this is the first year that the grazing act has applied to the Southern division, according to Wm. G. Kennedy, president of the Bailey County Farm association. This act providing payment of \$30 per mile for fencing, allowance of \$200 for a well and 20 cents per yard for moving dirt for ground tanks, and some other provisions which he did not recall at the time of interview.

### Maple News Items

Mr. and Mrs. Louie Self, of Clarendon, have been visiting relatives here. The P-T. A. met Friday night. The AEC sermon presented by the school children provided lots of laughs. The A-H club girls sold pop corn and made \$140 for their treasury.

Mr. and Mrs. George Tyson and children attended to business at Morton, Saturday.

J. C. Hart was a Muleshoe visitor, Thursday.

Mr. and Mrs. J. C. Hart's two daughters and children from Berger visited them last week.

Mr. and Mrs. Sam Richardson and children returned from Electra last week where they had been visiting since Christmas.

Mrs. Tylene Butts, the 3rd and 4th grade teacher, and Billy Smith, son of Rev. and Mrs. B. C. Smith were married New Year's evening, we recently learned.—Reporter.

### MRS. TATE HOSTESS TO CLUB

Mrs. Cecil Tate was hostess to the Sew and So club at her home last Friday afternoon, when members gathered for the regular meeting.

After a short business session, needlework was enjoyed.

At the close of the afternoon delicious refreshments were served to Mesdames Finley Pierson, Morris Douglass, Jay Wyer, Joe Howell and the hostess, Mrs. Tate.

The next meeting will be with Mrs. Clayton Wells, Thursday, of this week.—Reporter.

Old-fashioned, but good advice: Read the Bible regularly.

# TAXPAYERS NOTICE

Your 1936 TAXES are now due and must be paid before the first day of February, 1937, to avoid penalty.

Both men and women are required to pay their poll tax. Unpaid poll taxes are a lien upon any real or personal property you may own or come into possession of.

Those who are 60 years of age or more are not required to have an exemption to vote; those who have become 21 years of age since January 1, 1936, or will become of age during 1937 are required to secure an exemption certificate during January, 1937, before they may vote in any of the elections during the year. No charge is made for these exemptions.

1936 automobile license tags are good until April 1, 1937.

## JIM COOK

Tax Assessor, Collector, and Sheriff of Bailey County

of the Progress community to attend the Farm Planning meeting held at that school house building last Monday night.

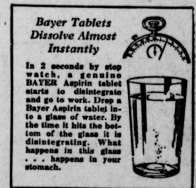

The meeting was under direction of the County farm and home demonstration agents, who presented citizens with questionnaires and farm planning blanks to be filled out for 1937 and 1938, and a prospective plan for further future activities on the farm.

Much interest was shown in the coming Federal plan and state farm organization objectives as explained by Judge Wm. G. Kennedy.

### DO THIS when you wake up with a Headache

ENJOY RELIEF BEFORE YOU'VE FINISHED DRESSING

When you wake up with a headache, do this: Take two quick-dissolving, quick-dissolving BAYER ASPIRIN tablets with a little water.

By the time you're finished dressing, nine chances in ten, you'll feel relief coming.

Genuine Bayer Aspirin provides this quick relief because it is rated among the quickest methods for relief science has yet discovered.

Try it this way. But ask for it by its full name, BAYER ASPIRIN; not by the name "aspirin" alone.

## Uncle Sam Looks to Texas in Battle To Rewin Markets Lost to Foreigners

With more than 30 per cent of America's sulphur export market lost to foreigners in last six years, Uncle Sam is counting on sons of the Lone Star state to shoulder responsibility not only of re-creating lost markets, but of preserving the domestic market by assuring U. S. farms and factories the steady supply of sulphur at low cost in case of the next war. So declares Porter A. Venable, general manager of Texas Sulphur Producers' Association. Texans are already in forefront of this battle to regain and market and among leaders is J. T. Claiborne, Jr., inset, upper right, native of Tarrant County, and vice-president of a leading sulphur company, Center, big plant erected in 1931 by large Italian sulphur company in Sardinia, Italy (Kewing, Galloway Photo). Lower right, loading sulphur in Brazoria County, Texas.

fit himself for a successful place in the world. You can do on better service for your community than to spend a few minutes now and then explaining to its growing boys that this is one of the finest places on earth for a fellow to get a start toward success.

### WHO STARTS OUR WARS?

When the gathering storm clouds break and war looms its pent-up fury upon the world, a large part of the blame can be laid to the statesmen of Europe. These "diplomats" are constantly building a bulwark against peace. Instead of conducting their negotiations in a friendly and courteous manner, they are sneeringly thumbing their noses and shouting epithets at each other across the council tables of Europe. In the light of present events such ugly practices lead to nothing but tears and trouble for the people these "diplomats" represent. Hot words lead to an exchange of hot notes. Small grievances which should be settled through friendly conference are magnified, and moulded into insults. The final outcome of all this is a war that, before it is finally settled involves nations that are innocent of any wrong-doing. About all America can do, it now appears, is to watch for these "diplomatic" explosions, and try to dodge them.

### Pavement Pickups

Precher Hawkins says about the best reason he knows of for eating with his knife is that his fork leaks. Reading the other day where a woman killed herself because she couldn't get a man, W. B. Lee remarked, "Wasn't my wife lucky!"

It is reported that a certain Muleshoe young lady who is planning getting married in the near future is now taking lessons in domestic silence.

Judge Vaughn says he can easily recall the days of red underwear; but back in that time he had no idea he would live long enough to see the days of red fingernails.

"These lie detectors scientists are talking so much about nowadays are nothing at all new," says J. E. Burkhead. "I married one of them more than 20 years ago."

"Several women have taken up sewing," remarked Finley Pierson the other day, "just to keep their minds occupied while they are talking." He probably had reference to members of the local Sew and So club, eh?

It is reported that one night last week a stranger in town got pretty well tanked up, and feeling rather tired and wobbly sat down on the sidewalk to rest. He kept looking for the moon to rise and finally saw a bright star above the horizon. He staggered over to it, finding it pinned on the breast of "Shorty" Bartley, deputy sheriff. It is said he spent the night in the county bastle.

### SNAP SHOTS

It may be true, but woman's the "weaker vessel," but it's usually the man that gets broke.

Money is like a man. When a man will go any length to get another drink he has already had too much.

Breathing through the mouth may be harmful; but talking through the mouth is often more harmful.

Only the rich man eat breakfast in bed. The poor can't afford to change the sheets every day.

Another thing about the well known School of Experience is that there are no recesses.

Hard work and no play may make a dull boy; but he usually winds up with money in the bank.

One weakness of law is that one can break a lot of them and still be decent, or break none and still be rotten.

The best husbands are those who marry young, for if they wait until they have money they suffer more when they part with it.

**Jaunty Journalists**  
It is said some Muleshoe wives can make a dollar go so far their husbands never see it again.

The boss of a Muleshoe family is the one who ignores the other's advice to take a dose of medicine.  
Any Muleshoe marriage is likely to be happy where he gives and she forgives.  
The Muleshoe boy who really wants to know how his girl will talk

er, should be briefly not later rejection is It is paid for remain in this matters not by mission fee or a must be paid also be charged or reputation of ms of the Mule- the attention of sements, the pub- in the amount re-

### It Falls

oring classes is a good country, or that any very some out of it. at after what this country rough during the past six with thousands shut out of t and seeking jobs, those steady work would be com- ent for the present. Wages be what they should be, but worst they still provide the with a living, and there is no out they can and will be raised satisfactory level just as soon as unity again gets solidly on its

objection the average man finds out of the strikes now in progress are not the outgrowth of disputes, but are the result of dis- cement over recognition of union demands. Striking because one or two en have been discharged—and prob- ably for good and sufficient reasons— doesn't fit in with the average man's idea of recovery. Throwing thou- sands out of work merely because two or three are laid off and the demands for their reinstatement refused by the employers is seemingly a mighty pow- er way to solve our most troublesome problem—the problem of unemploy- ment.

To bring about prosperity, to make good times nation-wide, to start things running all up and down the line this country needs several things, but the thing it seems to need most right now is a little more tolerance on the part of the working man. A little more of the spirit of give-and-take between industry and labor.

**A DARK RECORD**  
Regardless of how safely they may have driven their cars in 1938 motorists around Muleshoe can find little to cheer them in the announcement that it was the most disastrous year in the nation's history so far as automobile fatalities were concerned. There were almost 1,000 more deaths in auto accidents in 1938 than in 1935.

It must not be supposed, however, that all of the blame for more than 37,500 fatalities in 1938 are to be laid at the doors of the motorists. Careless and negligent pedestrians must share the blame with them. No matter how carefully cars are driven, there will always be deaths if pedestrians are not also careful. It is true there is vast room for improvement in the way this country's autos are operated, but it is just as true there is also room for improvement in the way thousands of men, women and children walk our streets and highways.

With both driver and pedestrian constantly careful and extremely alert every moment they are driving or walking, the record for 1937 should not be as black as the one that has just been written into history.

### TOO MANY STRIKERS

They say strikes are a good indication of recurring prosperity, that the country is getting into old-time form when capital and labor are at each other's throats. Maybe so, but it's hard to make the average citizen of Muleshoe believe that this spirit of unrest

### A CITIZEN'S CREED

I BELIEVE in my COMMUNITY, my STATE and my COUNTRY.  
I THANK GOD I am an AMERICAN and a TEXAN.  
I BELIEVE that MEN play a bigger part in townbuilding than natu resources, and that cities are what men make them.  
I am willing to give of my TIME, THOUGHT, ENERGY and MONEY to help advance the welfare of my community, in return for the great blessings I enjoy.  
I AM NOT AFRAID that my competitor will make more money than I will as the town grows.  
I will not be a SPONGE, taking all I can get and giving as little as possible.  
I want to LIVE in my town so that I can leave as a heritage the memory of me that I FLAYED MY PART WELL.  
I believe that MY RECORD on earth will be largely my record as a citizen of THIS TOWN.  
I believe in the SUCCESS of my community and want to have it said of me that I FLAYED MY PART WELL.  
I believe in the SINCERITY of other citizens, and will not indulge in BACK-BITING, SLANDER or "KNOCKING" against my town or my neighbors.  
I am PROUD of MY TOWN and want to live so that the town may be PROUD of ME.  
I will advance the FAME of my town by doing MY JOB the best I can... and perhaps better than it is being done ANYWHERE ELSE.  
I will INVEST my LIFE where I make my LIVING.  
—Texas City Sun

of camphor. Use after each washing of the hands and you'll find it not only prevents chapping but will keep them soft.

**In Your Kitchen**  
If you should be short on eggs for making pumpkin pie use a substitute in the form of two or three tablespoons of thick cream and a pinch of baking powder for each pie you bake.

**An Inspiration**  
Did you tackle the trouble that came your way  
With resolute heart and cheerful? Or hide your face from the light of day  
With a craven soul and fearful? Oh a trouble's a ton, or a trouble's an ounce.  
Or a trouble is what you make it, And it isn't the fact that you're hurt that counts.  
But only "How did you take it?"

### Gems Of Thought

**APHORISMS WORTH DWELLING UPON WITH SERIOUS CONTEMPLATION**

There is one right which man is generally thought to possess, which I am confident he neither does nor can possess—the right to subsistence when his labor will not fairly purchase it.—Thos. R. Malthus.

I love the man that can smile in trouble, that can gather strength from distress and grow brave by reflection. It is the business of little minds to shrink, but his whose heart is firm and whose conscience approves his conduct, will pursue his principles unto death.—Thomas Paine.

No man is in true health who can not stand in the free air of heaven, with his feet on God's free turf, and thank his Creator for the simple luxury of physical existence.—T. W. Higginson.

No one was at home when the fire was discovered except Mr and Mrs. Alva Moore the rest of the family attending a cooking demonstration at a nearby neighbor's home. The piano, living room suite, some bedding and a bicycle in the nearby garage was all that was saved. The garage also burned, due to a heavy wind blowing at that time; but the wind had heated nearby barns and feed stables were saved by neighbors who seeing the flames quickly congregated to the scene of destruction. The loss is estimated at about \$2,500. There was no insurance.

### THE JOURNAL'S Weekly Scrapbook

Week's Recipe  
Scalloped Apples—6 large tart apples; 2 cupfuls stale bread crumbs; 2 tablespoons molasses; 1/2 cupful hot water. Pare the apples and cut in generous slices into a buttered baking dish; put a layer of bread crumbs, then a layer of sliced apples, and a top layer of crumbs. Add the hot water to the molasses and pour it over the pudding. Bake twenty minutes.  
For Chapped Hands  
Women whose hands become red and chapped in the cold will be glad to try this lotion. To two ounces of cream add one ounce of aprits

You can never have a greater or a less dominion than that over yourself.—Luisardo da Vinci.

Every war is a national calamity whether victorious or not.—Gen. Von Moltke.

The vice of our theology is seen in the claim that the Bible is a closed book and that the age of inspiration is past.—Emerson.

**AGE**  
Age is a quality of mind. If your dreams you've left behind, If hope is cold; If you no longer look ahead, If your ambition's fires are dead— Then you are old.

But if from life you take the best, And if in life you keep the zest, If love you hold, No matter how the years go by, No matter how your birthdays fly— You are not old.  
—W. W. Fungie, Jr.

### REV. MOORE'S HOME BURNS

The home of Rev. J. E. Moore, Baptist preacher residing in the Circleback community, was completely destroyed by fire Wednesday evening of last week, it being discovered about seven o'clock.

No one was at home when the fire was discovered except Mr and Mrs. Alva Moore the rest of the family attending a cooking demonstration at a nearby neighbor's home. The piano, living room suite, some bedding and a bicycle in the nearby garage was all that was saved. The garage also burned, due to a heavy wind blowing at that time; but the wind had heated nearby barns and feed stables were saved by neighbors who seeing the flames quickly congregated to the scene of destruction. The loss is estimated at about \$2,500. There was no insurance.

# GENERAL NEWS

## TEXAS AND SURROUNDING STATES

More than 8,000 trench silos have been made in Texas during the past six years.

Terracing of farm lands in Texas adds an approximate value of \$8 per acre, according to reports from A. & M. college.

Contract has been let to Wheeler & Silver Co., Albuquerque for construction of a \$60,000 sewage disposal plant at Clovis, N. M.

Present automobile registrations in

15 counties of Texas indicate sale of cars this year will show an increase of approximately 22 per cent over those of last year.

Only 10 Commercial failures occurred in Texas during last December, being a drop of 41.2 per cent from the previous month and 61.5 per cent from the like month of a year ago.

During last December there were 105 new corporations chartered in Texas, an increase of 2.9 per cent over

the preceding month in number and an increase of 65.6 in money.

Nearly 4,000 trees will be planted in the public park at Lubbock before April. President Roosevelt reported to Congress that \$150,000,000 had been spent in Texas in the Works program since its inception 21 months ago.

Within the coming 60 days the Texas Utilities Co. will construct another three-quarters of a mile of line for irrigation service to farmers in Deaf Smith county, making a total of about 12 miles of rural power lines recently favored irrigationists of that county.

Fifty-five per cent of 4,604 students of State university, Austin, are earning all or part of their school expenses. 7,998 being reported as affiliated with some religious denomination. The Methodist church is in the lead in representation.

### Texo To Study In New Zealand

DENTON.—With a background through the Golden Gate, Miss Winifred Jones, student at Texas State College, Women (CIA), will say goodbye to America on Feb. 2 for a year that promises new experiences. The Lancaster, Tex., girl will sail aboard the liner S. S. Monterey from San Francisco, to spend a year as a foreign exchange student studying nutrition at the University of Otago in Dunedin, New Zealand.

Winifred Jones, New Zealand.

The honor came to Miss Jones in recognition of her outstanding work in the home demonstration field. She will arrive at Auckland, N. Z., two weeks and five days after sailing, and from the capital city of the islands she will go to Dunedin, capital of Otago Province, and begin her work under the fellowship granted in a reciprocal arrangement with the University. Miss Leahy Crowe, New Zealand student, attended the College in 1933 under the same plan.

### Contracts Progress On U. S. Highway 70 Closing Final Gaps

Work of placing caliche on a strip of U. S. Highway No. 70, beginning at the end of the pavement west of Olton, in Lamb county, and continuing a distance of about seven miles to Spring Lake, is progressing rapidly, according to F. B. Ogde, resident state engineer. The Lone Star Construction Co., of San Antonio have the contract, and when the caliche bed is laid the priming coat of asphalt will also be put down after which the road will be re-opened for traffic until spring. With the arrival of warm weather again, the asphalt paving will be finished.

Contract has also been let by the State Highway department to J. E. Briggs, of Pharr, for doing unit one work—grading and drainage construction—on the remaining 17 miles of this highway which connects with the pavement ending at the east side of Bailey county. The contract price of this fundamental work is approximately \$52,000. The Briggs Construction Co. is now working on State Highway No. 33 in Parmer county, and it is not now known when a crew will be put to work on No. 70.

With the completion of these two stretches, Highway No. 70 will be completely paved from the New Mexico line to and through Hale county and in east for several miles, thus becoming one of the leading all year arteries of travel in this section of the state. The average daily travel of this road is now more than 1,900 persons and it is expected to be greatly increased when these gaps are completed.

Be loyal to home town interests.

### A Public Wedding Is Feature Friendship Day At Plainview

A public wedding on the stage of the City auditorium on the morning of Wednesday, Jan. 27, will be the feature of next Friendship day in Plainview. The ceremony will be performed promptly at ten thirty o'clock by a local minister in an appropriate setting on the stage. The occasion will be as dignified and solemn as would be a church wedding.

Should a sufficient number of young couples present themselves by noon on Tuesday to carry out a proposed contest with the selection of two couples the wedding will be made a double one. The young couple, or couples, participating will be presented with their choice of a bedroom or living room suite of furniture. In the afternoon at two o'clock the usual cash contests will be held on the stage of the auditorium.

### Stegall News

Our community was shocked and saddened by the death of Miss Ann Gray last Monday, of intestinal flu. Burial was at Muleshoe. We wish to offer our sympathy to her aged brothers, familiarly known as Uncle Billy and Uncle Dave.

Charlie Phipps has gone to Arkansas on business. Rev. Barrington filled his appointment here Saturday and Sunday. Arthur Parnell left Monday for New Mexico.

We wish to correct an error in last week's news. Our new merchant is Hayden Baker, not Smith, as was stated last week.

Misses Elia and Anna Maud Morris of Goodland attended singing here Sunday night.

W. C. Taylor was in our community last week helping farmers with terrace building.

There will be a farmer's meeting here Friday night. W. C. Taylor and Miss Alma Stewart will be with us to help plan the general farm program for the year.

Mr. and Mrs. Ollin Damron of Circleback transacted business in our neighborhood last week. Mr. and Mrs. Jewell Phillips are building a new house just opposite the school house.

D. L. Lane and J. M. Phillips made a business trip to Littlefield, Tuesday. Mrs. Earnest Slape was called to Childress last week by the death of her sister's child.—Reporter.

### LOCKE FAREWELL PARTY

A farewell party was given Thursday evening of last week at the Educational building of the Methodist church by members and the sponsor of the Intermediate Epworth league in honor of one of the members, Thomas Locke, who returned to his home at Plainview. Various interesting games were played, after which delicious refreshments of sandwiches, cookies and lemonade were served.

The honoree received many useful gifts as token of appreciation from his friends. Among those attending were Willis Farrel, Marshal Morris, Gail Jackson, Horace Edwards, Billy Beavers, Orville Jackson, Clela Nell Bayless, Mary Sue Osborn, Betty Jo Jordan, Leona Bartley, James Jennings and the sponsor Miss Elizabeth Harden.

### ATTENDS FARM CO. MEET

Judge Wm. G. Kennedy, president, Bailey County Farm association, attended a very enthusiastic meeting of farmers of Floyd county Saturday afternoon of last week, at which time the association was re-organized and officers for the coming year elected. Mr. Kennedy explained some of the features of the present state organization and its state and federal objectives for the coming year, such points most being enthusiastically received by those present.

Red and White Groceries Are Best For Athletes!

In preparation for the coming Interscholastic League Tournament in Bailey county, we recommend that all pupils throughout the county participating eat only

Red and White Groceries

They are noted for their strength giving qualities, satisfying of appetites and putting of zip and vivacity into constitutions.

And—what is good for these athletic youngsters is also good for the rest of the family.

INTERSCHOLASTIC GAMES WILL BE CALLED FRIDAY, JAN. 22, TUESDAY, FEB. 2 AND FRIDAY, FEB. 5.

Mrs. R. W. Tyson last Saturday for ...  
 ... Bartlettville, Okla., being accompanied ...  
 ... by her son-in-law, A. M. Hughes, and will ...  
 ... make her home here from now on.

**The Taxation of Poll Taxes This Year**  
 Jan. 30 Dead Line

That payment of poll taxes for 1933 is exceptionally slow is the statement of Jim Cook, county tax collector. He says that only 234 such receipts had been issued to the first of this week, whereas if all paid the total should run around 1,400 or more by the close of this month.

In a community spoken as an "off election year" there were 1,433 poll tax receipts. Last year, a year of election, there were 1,024 poll tax receipts. Present indications are that there will be more than 750 issued in 1937. This is a considerable increase over the 1,400 receipts issued in 1937.

There is a general apparent disposition among numerous property holders of this state," said Mr. Cook, "to not pay poll taxes. Part of this money goes for school purposes which are currently needed for eliminating necessary expenses and if not paid now will eventually be added to personal or property taxes as such."

It is also quite probable that the Legislature, now in session will pass special bills approving liquor control, teachers retirement, and other measures. Already two constitutional amendments have been introduced in the Legislature, and which may be passed and put up to the franchise holders for their consideration for or against. Elections in school districts will be held and there may be several special elections of various kinds called and if not paid now will eventually be added to personal or property taxes as such."

**This Paper For One Year and 52 Issues of PATHFINDER ONLY \$1.75**

More than a million readers throughout the country read PATHFINDER regularly for complete, timely and unvarnished digest of news. Are you overlooking something? Today economic and political affairs are at their topsy-turvy. Every new turn of events is apt to affect you. Everyone's asking, "What's it all about, and how much is it going to cost me?" Before you can answer that question you must be able to interpret the news; and before you can interpret you must have all the facts clearly explained.

**EVERY WEEK from the NEWS CENTER of the WORLD** Pathfinder comes to you with its reliable, easy-to-read and easy-to-understand news columns in words, pictures and charts. Its complete survey of current events throughout the world; its impartial interpretation, analysis and explanation of the news enables you to think and talk straight. Other weekly news magazines sell at \$4 to \$5 a year. Pathfinder sells for \$1 a year, but for a limited time we can offer you a greatly reduced bargain price on a combination of this paper and PATHFINDER. Drop in and see our offer without delay. Insure your future by assuring your present affairs.

SOUTH PLAINS CIVICS VERY VALUABLE ADVISE MUNICIPAL GROWTH

of the ancient and renowned city of Jerusalem. He continues to examine inherent financial proclivities in the five and ten cent...

Mr. Davis speaks. He commended the Chamber of Commerce organization as the legitimate successor of old time town hall meetings...

Good schools, good churches, clean citizenship, efficient recreational facilities, civic and social consciousness are all essential factors in municipal development...

Eight Million Acres Here. The soil in this great South Plains area, declared the Lubbock commercial manager...

Mr. Davis emphasized the need of neighborliness and better acquaintance of townpeople with those residing in surrounding communities...

Address Appreciated. Mr. Davis' address was exceedingly practical, vitally logical in every respect, delivered with an earnest sincerity...

Old English Suicide Law. English law used to compel forfeiture of lands and goods in all cases of suicide, but the requirement came to be frequently evaded...

One-Third of Land In County Plowed Wheat Acreage Up

It is being estimated that approximately one-third of the land in Bailey county this spring has now been plowed, according to statement of several farmers residing in various sections of the county...

In a new county such as Bailey, it is pointed out that every year more of the ranch and grazing lands are being sold for agricultural purposes, hence more plowing and cultivation done.

Local real estate dealers report much interest is now being attracted to Bailey county, with more prospective land buyers visiting this county now than for the four years past...

Continued dry conditions have proven quite a hindrance to many farmers of the county in breaking their land, in some sections it being claimed that while plowing can be done yet because of the dry undersoil first class jobs are difficult to accomplish...

Pastures throughout this area generally speaking, are in good condition while stock is fat and flourishing.

Methodist Bishops Plan Church Work At Amarillo Meet

The Methodist bishops crusade meeting held in the Polk street Methodist church at Amarillo last Tuesday, being a movement in that church to commemorate the beginning of Southern Methodist missions in April this year...

Miss Anna Gloucey, died at her home in the Stegall family Wednesday night of last week from an attack of the flu.

Funeral services were conducted by Rev. R. S. Watkins, pastor, Muleshoe Methodist church, final arrangements being in charge of C. V. Steed, mortician, Clovis, N. M.

WHY THEY THINK

Men in the smaller towns located along highways near Lubbock are being supplied plenty of material for the hand to be put on it. In respect, Texas is not exempt...

Facing the field of action today, the storekeeper has no place left him. The modern merchant studies the needs of his trade and plans to serve that trade with what they want.

What we need here in Happy is what all communities need—namely more men and women of vision to see a bright future ahead for the community and the ability and willingness to work effectively for the realization of the vision.

What we do not need are jealous, envious, and pessimistic people who are looking about for themselves or the community, who would rather throw a wet blanket on every enterprise than to offer a word of encouragement...

PANHANDLE TRUCK WRECKED

H. C. Holt, this city, local Panhandle Products distributor, suffered another unusual loss last week when the delivery truck of his station at Morton was seriously damaged when struck by another automobile driving into it from the rear.

Neither driver was seriously injured, according to report, although a man riding with Ratliff is said to have received cuts about the face.

REDUCTION IN GAS RATE

The West Texas Gas Co. has offered a low gas service rate to the City of Lubbock, said to mean a saving of approximately \$12,000 to the city users or \$2.40 per family per annum.

A True Life. A noble part of every true life is to learn to undo what has been wrongly done.

COTTON GIN AT ENOUGH BURNED TUESDAY

The Enochs Farmers Co. Gin Co. plant at Enochs, southern part of Bailey county, Tuesday night of last week, Tuesday night of last week, to information received here today, the loss being estimated...

The fire was discovered about 12 o'clock midnight of Tuesday, when G. P. Howell, one of the principal stockholders was aroused from his sleep to discover the building was then completely in flames.

DANNER CHILD INJURED

Jane Danner, small daughter of Mr. and Mrs. G. C. Danner, of Farwell, formerly of Muleshoe, was said to have been run over by an automobile driven by Dick Hunter, the latter part of last week. The child was walking across the street when hit, the driver stopping immediately and picking her up. She received one bad cut on her knee which required 12 stitches by a physician of that city to close. Other than several bruises and cuts, the child was not seriously injured and is now recuperating nicely, according to report.

TO CONTROL EGG PRICES

Secretary Herbert Wallace, Washington, with a big stick in hand representing \$100,000,000, announces the Federal government will go into the egg marketing business in an effort to rectify and control the recent drop in prices of chicken-berries on the market.

## THIRTY-FOURTH U. S. PRESIDENT INAUGURATED WEDNESDAY WHEN ROOSEVELT TOOK SECOND OATH

### Seventh President To Be Re-Elected; Garner Fifth Vice-President; Some Have Taken The Oath On Sunday.

se times a lot of things President to be inaugurated for a second time since the system of party conventions came into use. Vice President Marshall who served with Wilson, was the first. Actually Garner is the fifth Vice President to go through two inaugurations.

John Adams was twice elected Vice President to serve with George Washington; Samuel D. Tompkins served through two terms with President Monroe; John C. Calhoun was twice elected Vice President on the ticket with Andrew Jackson;—though Calhoun resigned before the end of his second term.

This inauguration day—the first since the date was changed from March 4—fell safely on Wednesday. Four times in the country's history it has fallen on Sunday. President Monroe took the oath on the following Monday. President Taylor did the same. President Hayes, however, just awarded the election in a long-drawn controversy, took no chances with his title. During of their a dinner President Grant had given ceremony. him, Hayes, Grant and the Chief Justice with a few notables went into an adjoining room and had the oath administered on Sunday. He took it again the next day in the formal inauguration ceremonies. President Wilson, in his second inauguration, took the oath privately in the President's room at the Capitol on Sunday and went through the formal inauguration again the next day.

The form of a President's inaugural was largely devised by George Washington and through a century and a half little change has been made in the actual ceremonies although elaborate accompaniments have been added.
