Harlem Stars Schedule Return Match March 26

The Harlem Stars, a team of basketball comedians, are coming to town. The Stars will play a return engagement in Sonora Friday, March 26, in the Bronco Gym at 8 p.m.

The Stars are a combination of Negro basketball players who tour the world putting on shows. They are skilled to give the fans an exhibition of razzle dazzle ball handling, intricate routines, both planned and impromptu comedy, and all sorts of "shenanigans".

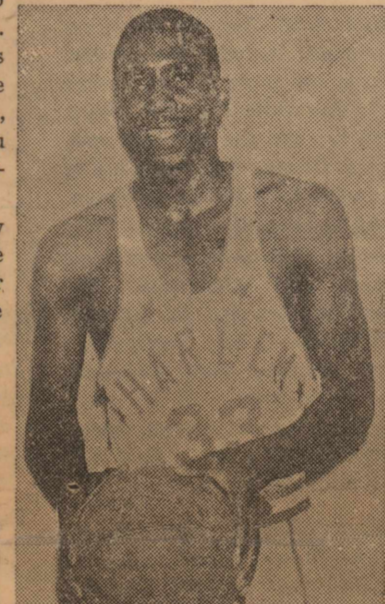

The Harlem Stars say they never try to run up a huge score against opponents. It is their policy to keep the game close devoting much time to comedy.

The Stars will face a Sonora basketball team which includes Bob Painter, Jerry Hopkins, Dennis Hayes, Bob McMinn, Gene West, Norman Rousselot, and Jimmy Harris.

Tickets for the Stars' performance may be purchased from

Rousselot, Harris, L. P. Bloodworth, and Louis Davis.

Adult tickets are on sale for \$1.25, student tickets for \$1, and children under 12 for \$0.50. Proceeds from the ticket sales will go to the Booster Club.

CINDERS

By John King

One 77-year-old rancher voiced a general feeling that this has been one of the mildest winters remembered in Sutton County. He said there had been more rain (east of town), more green grass, and the best winter conditions he could recall.

Retort to a grievance that perpetual betting would bring bad elements into a community: "No, it will just gather them all together so that the police can watch them better!"

"When you married me you promised to love, honor and obey."

"Well, I didn't want to start an argument in front of all those people."

"My husband was born on the second hour of the second day of the second month of the second year of this century, the second child of a second daughter and a second son," the wife said.

"Has Number Two been lucky for him?" his friend asked.

"Well, I'll say this. He's come out second best in everything he ever did."

Lions Clubs Plan Broom Sale Tues.

The Downtown and the West Side Lions Clubs are jointly sponsoring a broom sale Tuesday, March 23, which will begin at 1 p.m. and end at 5 p.m.

Club members will sell from door to door various types of household cleaning goods which the club will purchase from the Light House for the Blind. Proceeds will go to the Light House in the amount of 75% of the intake. The remaining 25% will go to the Lions Club to help finance the sale.

Herbert Fields, Downtown Lions Club vice-president, says that one of the Lions Club's primary objectives is conservation of sight. The Lions believe that through the Light House they can help blind persons help themselves, Fields added.

He urged all citizens to participate in this sale by purchas-

ing whatever they may need. The Light House merchandise is top notch, in addition to being on sale for a good cause, said Fields.

Zone chairmen for the sale are Nolan Johnson, W. B. Dillard, Leon Neely, E. B. Keng, George Wallace, and Jimmy Harris.

Members who have come into the church this Conference Year, which began June 1, 1964, are to be special guests and are to come without bringing food.

The Rev. Allen G. Roe, pastor, reminds the congregation that everyone is invited to attend the Fourth Quarterly Conference and that all Official Members are expected to be present, for they constitute the membership of the Conference.

New officers are elected each year at the last Quarterly Conference.

'DON'T EAT MEAT . . .'

It's hard to believe, but back in the 1920's many people regarded meat as an unhealthy food. A popular song of the period, catchily entitled "Button Up Your Overcoat", advised in its lyrics, "Don't eat meat. . ."

There's been a great change in the intervening years. For the great majority of us, an adequate quantity of meat is essential to sound diet. There is no longer any informed doubt that protein, bountifully provided by meat, makes an important contribution to physical and mental health in people of all ages. And the statistics reflect what has happened. Per capita consumption of beef, the most popular meat, increased

from 60 pounds in 1945 to over 100 pounds last year. As Dr. Herrell DeGraff, president of the American Meat Institute has said, "today's children eat more meat in a year than some of their ancestors ate in a lifetime."

There is stiff competition for the consumer dollar by other foods, and meat must face it. This competition, Dr. DeGraff believes, will be more than offset by the meat industry's ingenuity in the marketplace. He finds that it seems to be axiomatic that as disposable income rises, the appetite for beef rises with it.

Meat is a fine product, wanted by almost everyone, and expertly merchandised. This is the formula for success in a free market.

Abundance of Wild Flowers Anticipated In Edwards Plateau Area This Spring

By E. B. Keng
Soil Conservation Service
Travelers through the Edwards Plateau soil conservation district may now see the first of an expected abundance of native wild flowers.

At the present time roadsides and lightly grazed pastures are

turning yellow with the blooms of bladderpod or "cloth-of-gold". This small forb of the mustard family takes its name from its tiny bladder-like seed capsules. It is a palatable weed relished by sheep and goats.

A few small patches of pink blooms are becoming evident,

which are Roemer's phlox. Though less abundant than Bladderpod, the showy phlox will appear in colonies along roadsides.

Several wild mustards have been blooming during most of the mild winter. These have small yellow flowers and are not readily noticed. They may be identified by the tangy mustard or turnip flavor observed when the foliage is crushed. They are relished by livestock.

Several wild verbenas are now blooming. These square-stemmed plants usually have lavender-colored flowers. One verbenas, called "henbit deadnettle" is a weed in many lawns. Dakota verbenas or sweet william is beginning to bloom along roadsides and in pastures.

Other wild flowers blooming at present include the yellow flowered corydalis or "scrambled eggs"; the white flowered plains dozedaisy; and the shy anemone, or wind flower. The anemone is always the first flower to bloom.

With continued moisture wild flowers will bloom in waves along roadsides until midsummer. The present flowers will be followed by Huisache daisy; Engelmann-daisy; actinea; and coreopsis. Texas bluebonnet will be more plentiful this year. And poisonous bitterweed will have a field day about mid-April.

Native shrubs with showy flowers will include redbud, buckeye, leadtree, catclaw, mesquite, and dalea.

In addition to their beauty, wild flowers are valuable to the ranchman. Most flowering forbs are desirable and provide variety in the diet of livestock. The Edwards Plateau area is noted for the abundant variety of flowering weeds, grasses and shrubs that grow wild.

Ranchmen can increase the number of flowering plants—and livestock feed—by following good conservation practices. These include proper range use and a plan for occasional pasture deferment.

An Idle Mind Column

By Della King

Mrs. James (Thelma) Caldwell writes that she and her family are settled in their home in San Angelo after their move from Sonora several weeks ago, and she says James is enjoying his work.

The Caldwell's principal problems seem to be transportation and time and their yard, which they are trying to get in shape for spring.

As to transportation and time, she explains that their home is in the northwest part of San Angelo, while James works on the south side and Ann goes in the opposite direction to the west to school.

"I am caught in the middle," Thelma writes, "running the taxi, teaching several piano students, and keeping the home fires burning."

We are, of course, pleased that the Caldwell's are happy in their new home, but we cannot help regretting that the town has lost several families recently who made wide contributions to the community.

Another ex-Sonoran, Pat Billingsley, writes that she is recovering quickly now after a bout with pneumonia.

Sixty Days' Racing To Begin May 21 At Ruidoso Downs

Sixty days of thoroughbred and quarter horse racing have been scheduled at Ruidoso Downs beginning May 21 through September 12.

More than \$1½ million in purse money will be distributed throughout the season.

Seven consecutive Thursdays are included in the schedule starting July 15, presenting horsemen with additional racing opportunities.

Applications for stable reservations are now in circulation and must be returned by April 15.

A WINNER FOR THE FIFTH TIME

For the fifth consecutive year West Texas Utilities Company has been awarded first place in the Bureau of Safety Motor Vehicle Accident Prevention Contest. The 1964 award was presented to WTU President S. B. Phillips (right), by Ray Gillan of the Bureau of Safety at the annual management conference in Abilene.

WTU's frequency accident rate for the past 5 years is three accidents for every million miles driven. The national average for electric utility companies is twelve accidents for every million miles, or four times that of WTU. In 1964 WTU vehicles were driven a total of 5,997,374 miles with only 25 chargeable accidents.

One Month Remains For Car Inspection

"Only one month remains for vehicles without undue inconvenience to the motorist, provided the vehicle owners act promptly."

"From now until the deadline, every minute of the inspection station's time will be at a premium," Garrison warned, "and waiting lines will become general throughout the state."

Garrison suggested that congestion at inspection stations would be lessened if known defects in a vehicle were repaired prior to presenting the vehicle to the station for inspection.

Unlike berries, salad greens keep better if washed and trimmed before storing in your refrigerator. Wrap in a paper towel, and also line your crisper with a paper towel to delay rusting on the greens.

Garrison said that in the remaining month of the inspection period there is sufficient time for the 5,300 official inspection stations to inspect the remaining

We didn't have any school on Friday last week. The Teachers were at a district meeting of the Texas State Teacher's Association. The meeting was held in Brownwood.

Last week was Girl Scout Week. In fact, that is the theme Mrs. Steed is using for the show case window this month. Mrs. Cade and Mrs. Morgan have the other showcases.

The sixth and seventh grades marched together Wednesday and Thursday last week in preparation for the San Angelo Stock Show and Rodeo where they marched in the rodeo parade. They left the 12th of March at eight a.m. and returned about 7 p.m.

The week before last, the P.T.A. visited Mrs. Conaway's sixth grade science exhibit that the students made to show Power. There were projects on power "Now and Then", steam power, water power, wind power, engine power, and electrical

power. There were also reports on Madam Marie Curie, Thomas Newcomen, and Rudolph Diesel.

Also, the week before last, we got our report cards. I can't believe that we have gone through 4 six weeks—just 12 more weeks of school. The year has gone by very fast.

The winners of the Woman's Club Art Contest were, in the Elementary division, Cleveland Nance—1st, and Bill Thompson—2nd. In kindergarten, Kim Steed won first place and Susanne Renfro won 2nd.

"Ask your grandmother if she remembers this old 1893 Mosley oil-fired water heater and folding bathtub... I dare say, it would hardly meet the needs of 1964 living—supplying dishwashers, clothes washers, bathtubs, and lavatories with instant clean hot water upon demand.

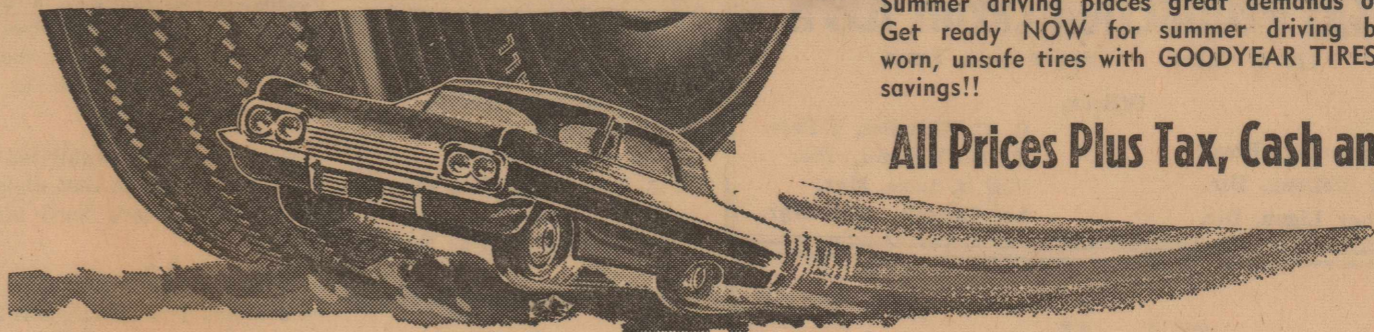

Few of us actually realize that over 2/3 of the water used in the home is hot water. With the completely automatic electric water heater there is no fear of a flame going out when hot water is needed the most. And being totally flameless, it requires no venting, is easier to install and maintenance is practically nil.

What a change from the 'good ol' days!"

Funds Sought for Screwworm Program
The Sutton County Screwworm Eradication Committee met Wednesday, March 17, to consider the problem of raising money to keep the screwworm eradication program in operation through June.

Ralph Mayer, chairman of the Sutton County committee, said that the Southwest Animal Health Research Foundation set the two week period beginning March 29 for committees in all Texas counties to ask livestock producers for contributions of \$300,000 to keep the project alive until the Federal government can assume full financial responsibility.

Eradication experts have estimated that during April, May, and June, which in the past has been a time of heavy screwworm activity, 100 million sterile screwworm flies will be needed each week to keep fertile insects from

Mexico from reinfesting the Southwest, where the livestock pest has been eradicated through use of the sterile male fly technique.

Cost of operating at this level will be \$12,000 a day or approximately \$1.1 million for the three-month period.

The \$300,000 to be raised by livestockmen, along with \$250,000 already appropriated by the Texas Legislature, will match an equal amount of Federal funds to supply the total required.

Two Win Titles

Little Dandy Bee, owned by Billy Galbreath, was named the reserve champion mare in the open division of the Quarter Horse show held March 10 at the San Angelo Fat Stock Show, and Jerry Shurley Jr. captured the reserve crown in the colt class in the youth activities of the show.

Little Dandy Bee won first place among mares foaled in 1962 in the halter classes of the open show.

Galbreath's daughter, Debbie, also showed two horses winning places in the show. In the halter classes she showed Miss Bar Money, which took second place among the mares foaled in 1964 and Glamor Play, second place among mares foaled in 1961 or before. Glamor Play also placed fifth in the barrel races in the performance classes.

Ed Lee Renfro's Peppy Aledo won second among stallions foaled in 1962.

In the youth division Shurley's winning colt was Eternal Man, foaled in 1964.

Miss Galbreath's horses also captured a number of places in the youth division: Mares foaled in 1964—Miss Bar Money, 2; aged mares, three years and older—Little Dandy Bee, 2, and Glamor Play, 3; pole bending, 13 through 18 years old—Glamor Play, 2; and barrel racing, 13 through 18 years old—Glamor Play, 2.

Mark Shurley's Golden Katy won fourth among mares foaled in 1963, and Tony Renfro's Red Mill Tony was fifth among geldings foaled in 1963-64.

Berger Takes 3

Chris Berger took three of the top four prizes in the junior Delaine breeding sheep division of the San Angelo Fat Stock show Friday.

Chris, the son of Mr. and Mrs. W. F. Berger, exhibited the champion ram, reserve ram, and reserve ewe, and his flock was named winner of the exhibitor's group award. He received a special trophy for the honor from the Texas Delaine Sheep Raisers Association.

Other placings won by Berger were as follows: ram lamb, 1; two-tooth ram, 1 and 4; ewe lamb, 1 and 2; two-tooth ewe, 2; pen of three, both sexes, 1; pen of three, owned by breeder, 1.

Chris also exhibited the second place ram lamb in the open show.

Stockmen's Feed Robbed of \$170

Other investigating officers were Herman Moore, sheriff; James Hough, deputy sheriff; and L. H. Purvis, Texas ranger.

No arrests have been made in the cases to date.

Teen Scene

This week we received the good news that two of our basketball-playing Broncos were placed on the All-District 8-A basketball team. The honored players are Bill Elliott and Mike Wuest. Maxie Delrie earned honorable mention. Congratulations to these boys.

Last week was the rodeo in San Angelo. As usual, Sonora was represented by a good-sized crowd of high school persons. Among these were Diana Black, Robert Brown, Wayne Bryant, Kay Campbell, Gail Espy, Bill Glasscock, Peggy Grobe, Randee Fawcett, Jo Ann Lowe, Nancy Pearl, Mike Sims, Mike St. Clair, Carla Whitworth, Allison Espy, and Libb Mills Wallace.

Some of the college kids who came home were Bill McClelland, Cleve T. Jones, Tom Glasscock, Joyce Hearn, Johnny Merck, and John Paul Friess.

Billy Sam Chadwick of Eden was a visitor in Sonora last weekend.

Mike Holley, a freshman, has moved back to Sonora from Muleshoe. Welcome home, Mike!

Janet Johnson, Linda, and Brenda McCutchen went to Junction Saturday. They had some fun and even brought back a little suntan.

Yours truly spent most of the weekend in a car. Main points of the trip were a speech workshop in Abilene and visiting the West Texas State University campus.

As the school year is getting shorter, many of the seniors are excited and maybe even anxious about being accepted by a college or university of their choice. Some of the "Seniors of '65" have been relieved of worry.

Tech has accepted Diana Black, Teddy Wheelis, and Jimmy Wilson. Southwestern University has accepted Cindy Galbreath and John David Fields. Barbara Holland and Dick Hardgrave have been accepted by the University of Texas. Trinity University has accepted Carol Hopf, Kay Campbell, Wanda Cole, Karen Davis, and Judy Lancaster are going to Durham's Business College in Austin.

Sonora's track meet was a

good one this year. We did not win, but there was good competition and experience for each of the teams. First place was captured by Ozona, second by Eldorado, third by Bandera, and fourth by Sonora.

Next weekend various groups of students from Sonora High School will travel to enter in some competition. There will be a volleyball game in Big Lake, a track meet in Eldorado, a speech meet in Abilene, and solo band contests in Brownwood. Good luck to all the Sonora participants in each of these contests.

Mrs. Renfro Hosts Twice Tuesday Club

YOUR MINISTER SAYS

By the Rev. Allen Roe, Pastor, First Methodist Church

It has taken man a long time to realize that we are all brothers and that we must live together whether we like it or not. We are hearing more about the necessity of living together than ever before because it is more essential now than ever. We now know that if we live together in peace and harmony we cannot claim privileges for ourselves, then we will know what is His that we cannot grant to others.

In the letter to the Colossians, St. Paul says of the Christ, "He is the head of the body, the church. He is before all things, and in Him all things hold together." We do not know any other way to hold the world together than through the Christian religion, and that way is to overcome evil with good.

There was a time when the Negro was a slave to the white man in America. Abraham Lincoln had the courage to say, "No nation can endure half slave and half free." As a boy he had stood before the auction block in New Orleans and watched the people buy human kind as you would a cow. His heart was stirred, for he knew that we are indeed members one of another.

Later, as President of the United States, Mr. Lincoln stood at the Gettysburg battlefield and said: "Fourscore and seven years ago, our Fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal." If this nation holds together we certainly must realize that God is "no respecter of persons"

About 35 guests were entertained in the home of Mrs. Collier Shurley. The hostesses served their guests coffee, punch, and cookies.

A St. Patrick's Day theme was carried out with a green Irish top hat filled with white flowers as a centerpiece.

State Lawmakers To Consider Bill To Regulate Pesticide Applicators

By Vern Sanford
Texas Press Association
AUSTIN, Tex.—A bill to regulate commercial applicators of pesticides is having a hard time in a House committee. This is an indication that it probably will be changed considerably before it is reported for floor action.

Its author, Rep. Grainger McRaney of Wheeler, tried unsuccessfully to get it referred to a different subcommittee from the one headed by Rep. Bill Rapp of Raymondville. House agriculture committee, however, did vote to instruct Rapp to report the bill to the full committee.

Rapp said the bill is one of the most important issues to come up before the Legislature this session, on par with redistricting, taxes and other statewide issues. "This bill doesn't affect only commercial aerial applicators," Rapp said. "It affects a lot of people."

Required by the bill would be licensing of owners and operators of equipment used to apply pesticides. Licensing would require passing an examination to demonstrate familiarity with application of pesticides and payment of an annual fee. Operator's fee would be \$10; owner registration, \$25; and \$25 for each piece of equipment.

Operators would have to show minimum financial responsibility of \$15,000, by insurance, bond or deposit, for each piece of equipment.

Proponents of the bill say farmers need protection because modern pesticide equipment can, if misused, damage large land areas, including adjacent property.

Rapp contends the bill needs to be studied carefully because the transient nature of some of the persons who work on pesticide equipment would require that the operator spend a lot of money on additional license fees and bonds.

HEALTH LEGISLATION—Sweeping new concepts for treatment of tuberculosis, mental illness and mental retardation are about to be written into Texas law.

Bills overhauling the entire state organization for dealing with these vast problems soon may be sent to Gov. John Connally for signature.

House passed 142-0 an amended version of legislation already approved by the Senate to set the TB eradication program in motion.

A separate bill to establish a new Texas Department of Mental Health and Retardation cleared the House 139-1 and was sent to the Senate.

The tuberculosis control measure by Sen. H. J. Blanchard of Lubbock and Rep. Menton J. Murray of Harlingen would shift all the hospitals and programs from the Board for Hospitals and Special Schools to the Texas Department of Health.

A bill by Rep. W. H. Miller of Houston also would take from

the Board all mental hospitals and special schools for the retarded, moving them to the new department.

Both emphasize community-centered attacks on the problems at hand.

Experts maintain that case-finding, long-term follow-up care and contract care of patients close to home can virtually eliminate tuberculosis. Proposed \$22,300,000, six-year program will begin in the San Antonio-Central-South Central Texas area and counties along the border from El Paso to Brownsville.

Community care centers to treat mental patients close to the cities they live in rather than big hospitals far away are heavily relied on for major progress in the mental health field.

HORSES BOOKED—Odds are long against the horse race betting advocates this session, but they will provide one of the Legislature's most colorful shows.

On March 29 the House State Affairs Committee will hear a bill to legalize parimutuel betting on supervised tracks. Bill is backed by the Texas Racing Association. It was introduced by Rep. Maurice Pipkin of Brownsville.

Rep. Rayford Price of Palestine has introduced a constitutional amendment which would outlaw parimutuel (in a pool) betting and all other forms of gambling in the state.

BUDGET CONFEREES TAKE OVER—Whether Texans will face substantial new taxation to finance expanding state services rests largely with 10 top lawmakers.

Budget writing was checked to a joint conference committee of senators and representatives after the Senate, without discussion, passed a \$3,650,000,000 appropriations measure. It called for \$617,000,000 in general revenue spending.

Senate version is \$13,000,000 above the House-passed bill in general funds earmarked for the 1966-67 biennium. Both houses left money "on the table."

Senate bill is \$14,000,000 below anticipated income; House bill \$25,000,000 below. But there are plenty of claims for the leftover.

Amount of the school teacher pay raise approved after the general budget finally is adopted is the real key to the magnitude of a tax bill. But recommendations of the conferees—likely to be approved by both houses—will determine just how much of the foreseeable revenue is left to apply toward better salaries for teachers and other new spending demands.

BEER-LIQUOR INTERESTS CLASH—One of the hottest floor fights of the session was waged over a bill which found beer and liquor interests on opposite sides and "wets" and "dries" somewhat confused.

Liquor store operators bitterly opposed a measure by Rep. Gus Mutscher of Brenham, which they contended permitted wholesale beer distributors to sell ale and malt liquor directly to consumers.

Mutscher said the two beverages should be treated as beer under state statutes, since they are made by breweries, not distillers.

After prolonged debate in the House, Rep. Bill Heatly of Paducah unsuccessfully tried to tack on an amendment to raise the beer tax \$1 a barrel.

Mutscher's bill finally passed 90-44 and went to the Senate for another round.

PICKUPS MAY SPEED UP—House has approved and sent to the Senate a bill permitting pickups trucks to travel 70 miles an hour on Texas highways instead of the present 55 mph limit.

Another bill by Rep. John Trager of Seguin specifies that pickups may be driven with a regular operators license. Some law enforcement agencies (not the Texas Highway Patrol) contend that drivers of pickups must have a commercial license. They say law is not clear on the point. Bill cleared committee and is on House calendar.

PROPERTY TITLES UNCLEAR—Rep. Forrest Harding of San Angelo believes that no Texan can be sure he has a clear title to any of his personal property because present law permits the state to get a preferred lien without notice on any property which has gone through the hands of a person arrears on his taxes.

Harding said the state can do this regardless of how many times the property has changed hands.

He has introduced a bill which would provide for handling of personal property liens in the same manner that liens on real property now are handled, including filing of a notice with the county clerk. No lien would be effective on personal property before the filing of such notice.

TEXAS CRIME RISING—Major crime is increasing at an alarming rate, warns the Texas Department of Public Safety.

Last year 260,860 major offenses were committed in the state. This represents an increase of 13.8 per cent over 1963, says DPS Director Homer Garrison Jr.

All seven categories—murder, rape, robbery, burglary, aggravated assault, theft and auto theft—recorded big jumps. Crime rate (offenses per 100,000 population) rose from 2,393 to 2,723.

If your turkey stuffing grows until you have more than you need, freeze the surplus without cooking it. It's grand for stuffing a flank steak, a chicken and the like.

GIRL'S GRASS JUDGING TEAM—Members of the all-girl grass judging team of the Sutton County 4-H Club are, front row, (left to right) Susan Allison, Martha Love, and Kaye Ellis. Pictured with them are Edgar Glasscock,

their coach, and Mrs. Lea Roy Aldwell, who accompanied the girls to the Houston Livestock Show recently. Miss Love is holding the trophy which she won in Houston as the high-point girl participant in the judging contest.

Conservation: Our Best Insurance

(Editor's Note: Following is the essay which won third place in the high school division of the 1965 essay contest sponsored by the Edwards Plateau Soil Conservation District.)

By Cindy Galbreath
Webster defines conservation as the "planned management of a natural resource to prevent exploitation, destruction, or neglect." Insurance is defined as "a guarantee against loss." Thus, conservation is a guarantee against loss of our natural re-

sources. America's natural resources are her greatest treasure. They are the reason that the United States has become such a great nation. Without these resources, the North American continent would never have been developed so rapidly.

The industries of America thrived on a seemingly endless supply of minerals and timber. Farmers and ranchers grazed their livestock on land that seemed to stretch westward forever.

But now we know that the supply of minerals and timber is not endless, that the grasslands do not extend into infinity. We now realize that unless something is done soon, America's natural resources will be gone.

In order to insure that our descendants may not inherit a worn out and starving nation, we must begin now to conserve our natural resources. If timber is cut without planting more trees to take the place of the ones which have been destroyed, there will soon be no more trees. If grasslands continue to be overstocked, the grass will soon disappear, and the land will be turned into a desert-like wasteland. If the mineral resources continue to be so rapidly depleted, America will soon be destitute of any sort of mineral wealth.

These things, however, need not happen. Conservation is our best insurance against them.

STRONG CHURCHES

Make STRONG COMMUNITIES

THE LISTENING POST

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

We don't consider it eavesdropping to "hear" our children's prayers. Nor is it too much trouble! In fact, it is part of our responsibility to God.

For Mollie and Ted are His children, too. Parents are partners with—not substitutes for—our Heavenly Father.

It is this sense of partnership that has brought faith and the Church into the life of our family. We are not foolishly depending on our mere adulthood to inspire character in them. We do not command that they do what we say, not what we do. And we never sit at home while they are in Church, as though the truth they have gone to seek weren't worth a grownup's effort.

We figure God wants us at the listening post, to monitor their spiritual searchings, to share with them the blessings He has given us all.

Two Track Meet Records Set by Sonora's Elliott

By Gary McGilvray

Sonora's Bill Elliott broke meet records in the broad jump and high jump to star in the Sonora Relays held here Saturday, March 13.

Last year Elliott set the broad jump record with a 22 foot, 1 inch jump. He easily broke his own record this year when he jumped 22 feet, 4 1/2 inches, topping his nearest competitor's jump by over a foot.

The most thrilling moment of the day came when Elliott won the high jump. After he had already won the event, he had the bar moved to 6 feet, 2 1/2 inches, 1/2 inch better than the old record of 6 feet, 2 inches set in 1958. Elliott cleared this height on his first jump. The bar was again raised, this time to 6 feet, 4 1/4 inches. He soared over this height on his third jump to set the new record.

Elliott also picked up a first place in the 180-yard low hurdles, and a second place in the 120-yard high hurdles to become high-point man of the meet with 41 points.

Two other records were set Saturday by Ozona, the winning team. Gary Pagan tossed the

shot put 52 feet, 7 3/4 inches to break the old record of 52 feet, 6 inches. Ozona's 880-yard relay team took first place with a record breaking time of 1:34 minutes flat.

Ozona won its second track meet, scoring 122 points. Eldorado was second with 107. Then came Bandera and Sonora with 71 and 69 points respectively.

Adding to Sonora's point total was the mile relay team consisting of Pat Brown, Laney Cook, Bert Bloodworth, and Elliott, finishing third behind Bandera and Ozona. Mike St. Clair tied for third in the high jump, and Mike Wuest received a fourth place in the discus. Laney Cook got fifth in both hurdle events, and Ben Perez also got a fifth place in the 220-yard dash.

TIPS FOR OUTDOORSMEN

Art Dotson's

Use Foil To Reflect Heat
Aluminum foil, that all-purpose "Handy Andy" of the camper, can make you an efficient camp oven.

Also, it can double as a fire reflector in cold weather.

Here's how to do it: Drive four 18-inch stakes in a square around your campfire. Leave one side open to stoke the fire and handle the food. Fasten the foil to the stakes to cover the other three sides. Make a top of small, straight, interwoven, green sticks and cover with foil. Secure top to the four stakes.

Foil surfaces reflect heat, creating high, even temperatures even with a small ember fire.
