CINDERS

By John T. King

Clean up time is of course important to our town as we look forward to the usual influx of summer visitors and the special guests which the Diamond Jubilee will bring to see Sonora.

However, the following article from the Devil's River News, April 27, 1912, indicates that cleanup may have been an even more serious matter 53 years ago.

"Naturally we the people of Sonora know that we must have clean premises. Nature has given this town location and many advantages as to drainage etc., but it has become necessary not to wait on Nature and it now becomes necessary for the County Health Officer endorsed by the Sheriff—who also is a graduate in medicine, to require all residents of Sonora to have their premises cleaned. Not only in front of the house but at the back also. As the News understands the proposition from the Doctors, all filth must be removed.

"Those who have homes not entirely underpinned must haul and rake all dead cats or chickens or other carriers of disease from under their homes. It also will be necessary to thoroughly fumigate your home and the premises occupied by you.

"See that the dumping ground two miles south of town is the receptacle for the filth and germ holding debris that surrounds your habitation.

"Do it now—and at once. Two Doctors armed with the law are on your trail. If not satisfied with this clean up notice phone Dr. H. P. Wardlaw, county health officer, or Dr. J. S. Allison, sheriff."

Men with moustaches do cause considerable comment. The other night it was pretty dark at the 4-H Center and E. B. Keng came in. Seeing him from a distance, Mrs. Philip Jacoby said, "Oh my goodness, I left my purse in the car!"

Pettiet Auto Parts Opens on S. Main

WHEREAS one of the duties of the board of commissioners is to see that the physical appearance of the City of Sonora is maintained in a clean and attractive manner; and

Garden Beautified For 75th Jubilee

Mrs. A. W. Awalt announced recently that work is still being done on the sunken garden and that every effort is being made to make the garden as beautiful as possible for the 75th celebration here in August.

She also added that latest contributors to the garden include Sonora Wool and Mohair Company, Joe Brown Ross, and Mr. and Mrs. Joseph M. VanderStucken.

Mr. and Mrs. Sam Adams, Mrs. James D. Wood, and Saundra's Flowers have recently given plants for the garden.

Mrs. Garcia, 64, had been a resident of Sonora for 40 years. She was born June 18, 1900, in Mexico.

Clean-Up Campaign Scheduled

Now is the time for all citizens of Sonora to begin cleaning up their homes and surrounding areas. The City Commission has designated "Clean Up Time" starting the latter part of June through July 9, and free pick up service will be given all residents who will pile the refuse at the street's edge starting June 28 through July 9.

In a proclamation issued by the Mayor, A. E. Prugel, this week, he urges all citizens to do their part in brightening up the community. He points out that this is especially a good time to clean up certain areas because of the coming Jubilee celebration that will bring many visitors to Sonora.

Areas that might need special attention during the Clean-Up Campaign are attics, yards, and vacant lots, as well as public spots such as parks and streets.

HERE I LIVE...

Loyalty to home industries and home merchants is one of the greatest means of city building, and people should consider well before they send one dollar away from home for any article. They should be absolutely assured that the margin of difference is wide enough to justify the depletion of local circulation to that extent.

Everything else being equal, the following reasons for buying at home should far outweigh a few cents in price. One should say:

- "I buy at home
- "Because my interests are here;
- "Because the community which is good enough for me to live in is good enough for me to buy in;
- "Because I believe in transacting business with my friend;
- "Because I want to see the goods;

"Because my home merchant carries me when I am short;

"Because the dollar I spend at home stays at home and works for the community in which I live;

"Because the man I buy from stands back of the goods;

"Because I sell most of what I produce here at home and here I buy;

"Because the man I buy from helps support my schools, my church, my lodge, my home;

"Because when ill luck, misfortune or bereavement comes, the man I buy from is here with his kindly greeting, his words of cheer, and his pocketbook if need be."

Here I live and here I buy.

Evil Black Bruce Strikes Again

By Grady Roe

Hello once again from your budding columnist. You may remember that in my last attempt I promised an exciting serial. One with passion, greed, etc.; so with this week's paper I will start.

The serial stars only three people. Capable Casey, the hero, is a nice guy with sandy hair and lots of muscles (many between his ears) who is constantly doing good and answering questions in Sunday school. He loves the heroine, Sweet Sal, who is graceful, and lovely and kind. Sweet Sal's looks are spoiled only by her buck teeth. In fact, Sal is so buck-toothed, she can eat apples through a picket fence.

The third character is Black Bruce, the evil, sinister, and sometimes naughty villain. For fun, Bruce runs through the maternity ward at the hospital screaming, "Fire, fire!"

Now to the story. Sal and Casey are in love and plan to someday wed. But, Bruce also loves Sal, and wants her to wed him. He does everything he can to hurt Sal, because she doesn't return his love. That Bruce! He's the kind of guy who helps little old ladies across the street whether they want to cross or not.

As the story opens, we find Bruce, who has kidnapped Sal,

School Board Hires Teachers for Fall

Three teachers were elected to teach in the Sonora Public Schools next fall and one teacher's resignation was accepted at the School Board meeting Monday, June 14.

The board elected Mr. and Mrs. Ray Stanley, who will come from San Antonio. Mrs. Stanley will teach girls' P.E. in high school and Stanley will teach junior high science. Mrs. Mary Jean Baldwin was also elected to teach in the elementary grades. She has previously taught in a school district near San Antonio.

Miss Janis Abernathy's resignation was accepted by the board at this meeting. She taught girls' P.E. and biology in high school. Miss Abernathy has resigned to accept a teaching post in Reno, Nevada.

The board voted to grant all teachers a salary raise under the new state teachers' pay raise bill.

Scheduled for discussion at the next meeting is a study of the matter of how to teach children to study.

stalking her down in front of a herd of elephants (you were expecting maybe something else?). Sal cannot move and begins screaming as the beasts approach.

"Arrrgh" screams Sweet Sal. "Help me". Bruce snickers and rides away. "Arrrgh" screams Sal again, but not as loud because it hurts her throat. Besides, she knows Casey will soon save her.

Sure enough, the sound of galloping horses hooves comes to her ears. All this time the ele-

phants are getting closer. Then, in the distance, Casey and his gallant steed (whose name incidentally is Gallant Steed) speed toward Sal. But it is plain to see that Casey can never reach Sal in time. The elephants will trample her to death before he can reach her. Suddenly, Casey gets an idea. But will it work? Can Casey save his love from a brutal and slightly messy death? Will Bruce's evil plan succeed?

See next week's paper for the next exciting episode.

Sanderson Disaster Emphasizes Value Of Sonora's Flood Prevention System

By E. B. Keng

Soil Conservation Service Last week's tragic flood at Sanderson, which snuffed out 26 lives, and caused property damage in the millions, should make Sonora citizens justifiably proud of their flood prevention system.

Sonora was even more vulnerable to flood damage than was Sanderson or Ozona, because more of the city is located in a low flood plain. Also, two large tributaries—the 30,000 acre Lowrey Draw and the 100,000 acre Dry Devils River merge in Sonora's

dam system designed to hold back 38,000 acre-feet of water before any is lost through emergency spillways. This is equivalent to water one foot deep on 38,000 acres, or water a foot deep over

a 60 section ranch. The structures will hold back the destructive surges of floodwater—like the 15-foot rise which demolished

The local flood prevention system was designed to give 96 percent reduction in flood damages from the largest storm expected in a 100-year period. Individual dams were designed to hold the largest storm expected in 140 to 250 years, depending upon distance of the dam from Sonora and the size of the watershed above the structure.

In the event of a storm of 100-year frequency magnitude Sonora could expect light flooding from the uncontrolled area below the structures. This flooding, however, is expected to be only 4 percent as great as damage without the structures.

Sonora's watershed project was started in 1956 when supervisors of the Edwards Plateau soil conservation district applied for flood planning assistance to the Soil Conservation Service. They were joined by the Sutton County Commissioners

Court and the City of Sonora, and by the Schleicher County Commissioners Court and the Eldorado Divide SCD.

Exhibitors Receive Local Firm's Offer

In order to hasten the project Sutton County, the City of Sonora, the Edwards Plateau SCD, and local people raised \$18,500 to speed up planning. Local landowners and oil and gas companies donated all easements. The Soil Conservation Service furnished approximately \$2,000,000 for construction of the 13 dams. Sutton County assumed maintenance of completed structures.

The project was completed in April, 1961, and stands ready to function in event of flooding. No major flood has been received since completion, but minor flood damage has been prevented on several occasions.

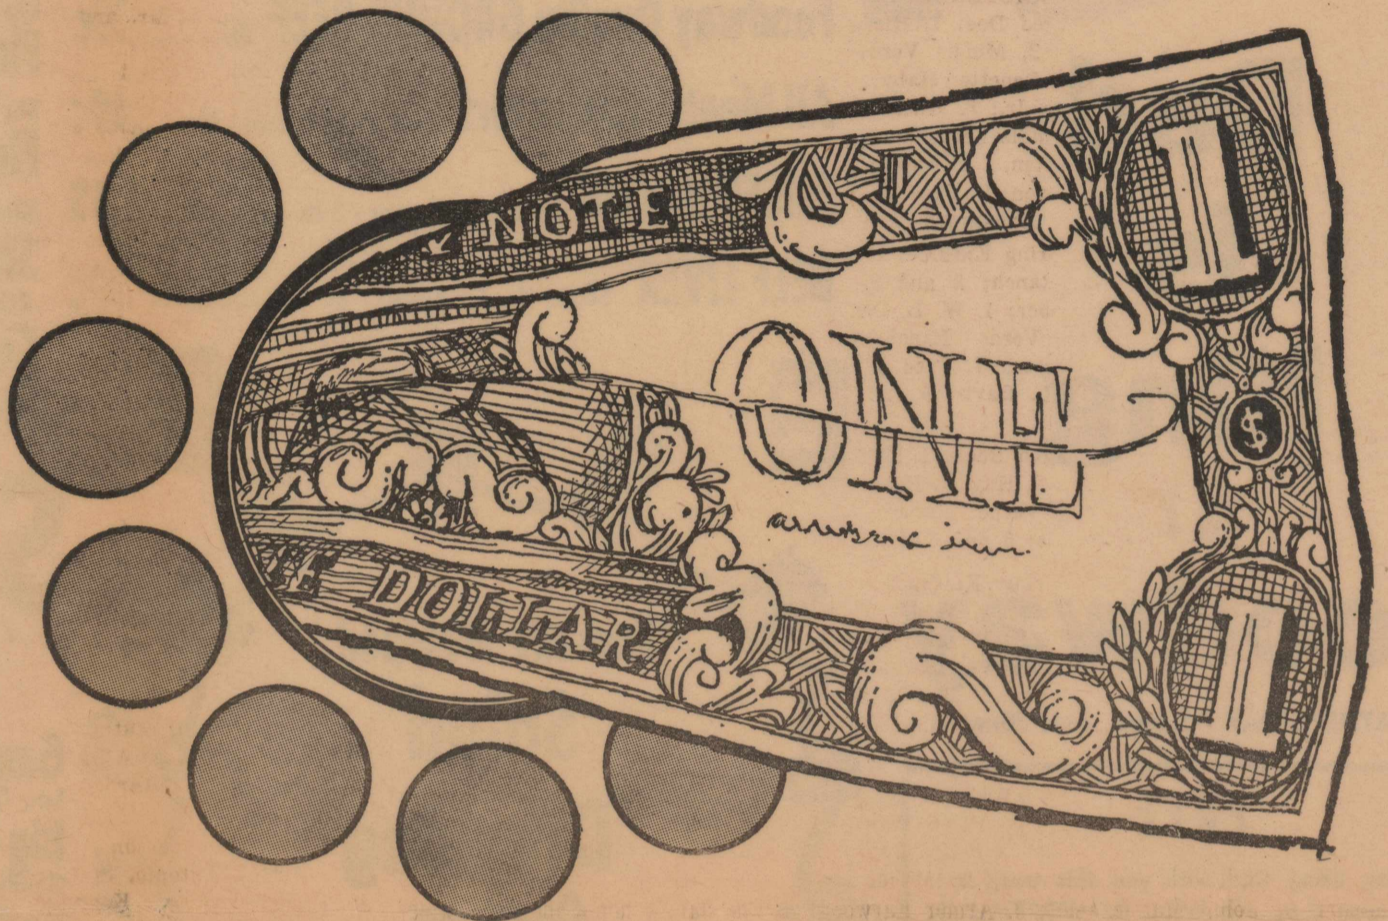

In 1962 or 1963 Sanderson officials spent a Saturday inspecting the Sonora flood prevention system. It is indeed regrettable that they did not install flood protection prior to last Friday's storm.

The Sonora Wool and Mohair Company offered to buy the 4-H and F.F.A. wool and mohair exhibited at the Sonora Wool and Mohair Show recently.

More than 13,000 pounds of wool and mohair was entered in the show this year, and Fred Earwood remarked that this was 3,000 more pounds than had ever been entered before.

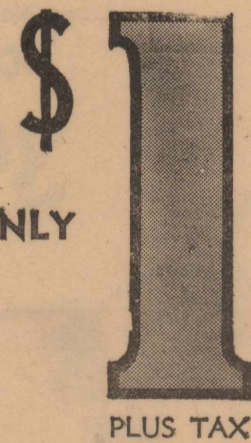

Earwood said that the Sonora Wool and Mohair Company would pay 60 cents a pound on wool, 70 cents a pound on adult mohair, and \$1 a pound on kid mohair.

Mrs. Cashes Taylor accompanied her mother, Mrs. Elizabeth Goodwin, to a cousins reunion at Coleman, June 7, and to the 50th wedding anniversary of her mother's sister and husband, Mr. and Mrs. W. A. Priddy of Coleman. Mrs. Taylor then visited her mother's home, Hobbs, New Mexico.

The Devil's Workshop

An Idle Mind Column

By Della King

Sometimes the mail brings us something really outstanding.

This week we received a letter from Mildred and Sam Logan that was so heartwarming that I hope they won't mind if I share it.

The Logans—who have been away from Sonora since 1955 when they went to Arabia, then later Afghanistan, and finally to Addis Ababa, Ethiopia—say that "Pappa Joe" (Logan) has been airmailing them the newspaper each week which has helped them "feel closer to Sonora once again."

Further, they enclosed a check for a block of stock in the Diamond Jubilee.

"This sort of commemorates our 17 years together," Mrs. Logan wrote, "as we just celebrated our wedding anniversary. Sam and I feel that we owe a lot to Sonora; he grew up there, we met there when I came to Sonora to teach school in 1946, and the drought broke us there in 1955. Then we returned to foreign service.

"In the school year 1946-47 there were five or six of us school teachers who became engaged to Sonora boys and married them. Reggie Trainer married Nancy, Dr. Joe B. Logan married Mary (we were roommates in the University of Texas and came to Sonora to teach school), the Simons boy who was killed later in a car wreck married the home economics teacher, two others that I can't remember their names and who have moved away, plus

Sam and I. Sonora probably has more wives than any other town in West Texas.

"Many people in Sonora feel Sam and I are slightly added to stay overseas working for Uncle Sam. I disagree in that Sam has a special gift of promoting Americanism, getting along with his fellow Americans and with the best country people. Goodness knows, our foreign service needs more men like him. He has put all the good background he was brought up in to work for America.

"I've told Sam that someday it would be fun to come back to Sonora and live on the ranch, keep girls of families overseas and let them go to school in Sonora. I have always felt Sonora schools were among the best (Rex Lowe came to Sonora as principal of the Elementary School when I came as third grade teacher). It would be a healthy, wholesome environment for children."

Mrs. Logan closes by complimenting the paper and saying, "Excuse my looking back over our lives somewhat."

We sincerely thank her for her graciousness and for giving us the opportunity to see Sonora through her eyes.

It is no accident that men, the world over, have built clocks into the steeples of their churches:
 Reduce life to its simplest components and what have you? TIME and GOD.
 Time marks the beginning of life. It measures the growth of our bodies. It provides opportunity for our work and play. It reveals to us our human limitations. And then, one day, Time leaves us behind...

But God is the origin of life. He measures the growth of our souls. He provides our strength and forgives our weakness. He reveals to us His limitless Love. And, never deigning to leave us behind, God beckons us on — even beyond the circle of time.

A parable then: the clock in the steeple!
 Man finds material security and temporal happiness as he learns to respect Time.
 Man finds spiritual security and eternal happiness as he learns to love God!

TIPS FOR OUTDOORSMEN
Make Oars Wear Longer
If you will cover the part of your oars that rub against oarlocks, and also the oar tips, with strips of fiberglass and epoxy resin, the oars will last much longer.
Chamois Skin Bait
Fishermen are a resourceful breed. One angler's idea is to use an old chamois skin for bait. He washes the skin through several waters, then cuts it into strips of various sizes to resemble real pork rind strips.
He argues that chamois skin is just as pliable as pork rind, and the fish don't know the difference.

An added feature is that you can carry the strips in your pocket.

This Father's Day Ad Isn't Selling Anything (except a point of view)

The third Sunday in June is a time when youngsters will show their affection and admiration for their fathers. And what father isn't glad to get it.

Moreover he earns the respect through fairness, understanding, and especially good judgment. And it's certainly true that one important way he shows good judgment is through selection of the right bank for his banking business.

That's our thought for Father's Day. We believe in it, not only as businessmen, but as fathers.
