

MULESHOE, County Seat of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, APRIL 15, 1937

VOLUME 15 NUMBER 12

BAILEY CO. WILL GET OIL TEST BY MAY THE FIRST

Feverish Activity and Continued Leasing in South Part.

Every present indication is that Bailey county's first oil test well will be spudded in by May 1. According to available information.

It will be located south of Bula in the southeast corner of Bailey county, in labor 4, league 700, to be drilled under direction of E. L. Wilson et al., the lease recently formed by R. F. and C. J. Duggan, having been taken over by the Maracheo Oil Exploration Corporation. It is understood that the Illinois Oil Co., of Dallas will move a rig from Hobbs, N. M., here for the drilling. The hole will be dug 6600 feet over in Bailey county from the Lamb county line.

Just how many acres are embodied in this particular lease has never been made public. Leasing, it is said, began at 50 cents per acre; but the price has been hiked to \$3; and in some instances to \$5 per acre.

Hockley Well Flowing

The Bob Slaughter well brought in in Hockley county last week continues producing by heads. After three days shut-down it yielded 14 barrels per head. Four tanks, each holding 500 gallons, have been located, and the oil is reported to be of 31.9 Baume gravity. The well is 5,200 feet deep.

Report is to the effect this well has been plugged back to 5,023 feet to shut off sulphur water encountered in sandy flow from 5,023 to 5,030 feet, and the test will be accepted after cement plug has set. The pay section in the pool opener has been logged from 4,938 feet to 5,022 feet, gradually increasing in flow as the drill went down. This well is located 725 feet from the south and 665 feet from the west line of labor 83, league 28, Zavalla county school land.

More than 1,300 acres of land was leased for oil in Hockley county last week.

Magnolia Petroleum Company has assembled a solid block of 7,000 acres in southern Bailey county and northern Cochran county. It was reported that the acreage, acquired under a 10-year lease for 30 cents rental per acre, is located in leagues 22 and 24, Childrens county school land survey.

In league 124, the acreage includes labours 9, 6, 15, 16, 23, 24, 17, 14, 7, 9, 3, 8, 13, 18, 22, 19, 12, 11 and 21. The acreage in league 124 includes labours 4, 5, 6, 7, 8, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22. The acreage is about eight miles northwest of the Westbrook Oil Corporation No. 1 Slaughter, Cochran county test abandoned as a failure at 5,589 feet. It is about 10 miles northwest of the Bond & Harrison No. 1 Cameron, wildcat now drilling in labor 1, league 85, Greer county school land survey.

Circleback Wins The Loving Cup at Bailey County Convention

The Bailey County Singing convention held last Sunday at Longview is reported by many attending to have been the best melody meeting ever held in this county; more than 750 attendants being counted, and the beautiful \$20 loving cup being awarded the Circleback singing class by A. L. Carpenter donor, president of the convention and who also presided at the session. The next meeting was voted to be held at Progress the second Sunday in October.

Musical competition was keen in the class contest, Progress and Fairview classes ardently vying with the Circleback class for high honors. There were present also a large number of solo leaders and quartets, and many skilled songsters from all over this western area, some of them coming from quite a distance to enjoy the vocal scale tripping with shapely notes to guide their soulful utterances.

A feature of the meeting was a big basket dinner spread at the noon hour, participated in by all present, and with several of the proverbial "baskets" of food left over, though no miracle was performed.

Other officers of the association are Mrs. S. E. Simms, vice-president and Tye Young, secretary. New officers will be chosen at the October meeting.

A million dollar fire swept over more than one and a half square miles of a thickly populated section of Manila, Philippine islands, Wednesday of last week, leaving more than 10,000 people homeless, several dead and injured.

DRAWN \$121.89 FINE AND COSTS

Ira Welch arrested last Saturday night at a country dance hall about 10 miles east of Muleshoe was given a fine of \$100 plus \$21.89 costs in Bailey County court last Monday morning.

Members of the Sheriff's department made the arrest, claiming they secured 37 bottles of beer not bearing government revenue stamps.

2 BAROMETERS BANK AND P. O. SHOWING GAINS

Healthy Financial Condition Reflected in Reports.

Postal receipts and bank deposits of any given city are generally considered one of the best financial indices of that city, therefore, the excellent statement of the Muleshoe State Bank found elsewhere in this issue of the Journal and the financial statement of the local post office for the past quarter supplied by Postmaster A. J. Gardner are reasons for gratitude on the part of citizens of Muleshoe and surrounding territory.

Perusal of the local bank statement shows individual deposits now totaling \$32,062.12 with surplus and undivided profits totaling more than \$100,000. Postal receipts of the Muleshoe post office for the quarter ending March 1, 1937, are \$19,127.75 for the same period this year the total was \$2,166.80 a gain of \$249.59 or 19.25 per cent.

County Planning Says New Crop Balance Is Needed Throughout State

College Station, a decrease of 30 percent in the acreage of Texas cotton and an increase of 44 percent in wheat acreage and 46 percent in grain sorghums are indicated as the collective recommendation of Texas farm men and women, according to W. E. Morgan extension economist in agricultural planning, who headed a committee which tabulated the county recommendations. All percentages are based on departures from the 1929 acreage.

Committees of representative farm people in 241 Texas counties were asked to indicate the crop balance which they thought best suited to the economic welfare of their counties over a period of years, Morgan said. A committee of Extension Service specialists compiled the state figures, which have been transmitted to AAA officials in Washington.

The AAA uses the recommendations of the county committees to discover trends in local agriculture. It is understood that future AAA programs may contain provisions which reflect the results of the county, state, and nation-wide recommendations.

Further recommendations of the county committees were that pasture land on farms be increased by 13 percent over the 1929 figure; the corn acreage be increased by seven percent; and that a large increase in the acreage of legumes would be beneficial. The recommended increases are to come out of lands which have been classified by the Bureau of the Census as land devoted to crop use.

HOCKLEY CO. OIL WELL BRINGS MUCH INTEREST TO PEOPLE HERE

Not only are Muleshoe citizens vitally interested in development of the discovery oil well now developing in Hockley county; but citizens of that particular county and elsewhere in this area are manifesting much enthusiasm over the possible bringing in of another oil field in this section, according to J. L. Alsop, local insurance man, who, accompanied by J. T. Gilbreath, Muleshoe grocer, visited the new well Friday of last week.

While development of the well has been temporarily arrested following location of the big oil tanks on the site, yet feverish interest is still being manifested by citizens of that section as well as by many visitors who are constantly arriving to see the well.

Land adjacent the discovery well is now said to be leasing at from \$20 to \$30 per acre.

FIRE AT SUDAN THURSDAY

The Peoples store, K. Haddad proprietor, Sudan, was considerably damaged soon after midnight of last week, supposed to have been caused by defective wiring in the building.

The fire was discovered about 9:30 p. m. quick work by the fire department soon subdued the flames. Damage, not yet estimated, was said to have been mostly from water and smoke. It was partly covered by insurance. Hadley, but the store in at Sudan last October 1.

THREE CLOVIS BUSINESS HOUSES BURNED OUT LAST FRIDAY NIGHT LOSS BEING ESTIMATED AT \$250,000

J. C. Penny Store, New State Auto Company, Piggly Wiggly Bulding Razed, The Cause Of The Fire Is Unknown.

Fire, totaling approximately \$250,000 in loss swept the business district of Clovis, N. M., Friday night of last week when the J. C. Penny store, New State Auto Co., and another building formerly occupied by the Piggly Wiggly, but now vacant went up in flames.

The fire was first discovered in the ceiling of the Penny store, and spread rapidly before firemen could get it under control. Streams of water were also played on other adjoining buildings to keep the flames from spreading.

While the cause is unknown, defective wiring is suggested as a reason, probably in the Piggly Wiggly building, as wiring in the Penny building had been recently checked for possible defects and none found. The fire discovered at 1:40 Saturday morning led on tenaciously until nearly 5:00 o'clock before firemen and volunteer assistants had it under control.

C. P. Hardwick, that city owned the Penny and Piggly Wiggly buildings, while the building housing the auto company was owned by J. F. Sellers. The Fox Drug Co. had more than \$7,000 worth of fixtures in the Piggly Wiggly building that were reduced to ashes.

\$46,000.00 STATE FUNDS COMING TO BAILEY CO. New Appropriation To Bring \$6,500 To The County Schools.

Bailey county will receive approximately \$6,500 salary and transportation aid this year, as result of an additional appropriation bill allowing \$1,080,000. It recently passed the state legislature. In addition the Muleshoe school will receive about \$4,500 High school tuition money. Of the former fund the Muleshoe school will obtain about \$1,095 teacher aid and \$600 transportation aid, according to Superintendent W. C. Cox.

This information is of interest to the schools of this county, since because of a deficiency existing, Bailey county schools would have received only 70 per cent of this total had the bill not been passed.

It is stated by M. G. Miller, county school superintendent, that Bailey county school will this year receive approximately \$46,000 state funds for school purposes, \$23,585 of this sum being state per capita money on the basis of \$19.00 each for the 1,715 pupils named in the last scholastic census.

Muleshoe Teachers All Re-employed But Two By School Board

Fourteen teachers out of the sixteen were re-elected at a meeting of the School Board held Monday evening at the Muleshoe High school building, as follows:

Miss Adella Beavers, Mesdames Curtis Threlkeld, C. R. Stevens, Fowler, Mr. and Mrs. Fauda Gallman and Howard Davis for grade school, Misses Lucille Beatty, Stella B. Jackson, Josephine Lee, Adelle Belle Port, Evelyn Boone and C. R. Stevens and Prof. W. C. Cox for High School.

Under direction of the excellent faculty employed here, Muleshoe district has enjoyed a good school year. There are 459 pupils enrolled, 26 of whom are in the graduating class of High School.

BIG CROWDS HERE SATURDAY

Streets of Muleshoe were jammed to capacity, double center parking being in vogue in some places last Saturday, so large was the crowd attending here. With more than \$80,000 in government funds disbursed during last week many folks were anxious to pay up past accounts and buy much other needed merchandise.

During the afternoon cash awards were made under direction of the Chamber of Commerce as follows: Mrs. E. M. Lovelady, Muleshoe, \$5; Miss Leola Sullivan, Fairview, \$5; Miss Gale Hammond, route 2, Muleshoe, \$2. Cash awards will be made again next Saturday.

SURVEY RURAL ELECTRIC LINE

Harry N. Roberts, former assistant state engineer located here, has begun surveying in Lamb county for a rural electric line to serve farmers.

The survey is made north of Littlefield to serve farms living at and in the vicinity of Earth, Hart Camp and Spade communities.

NEGRO GUILTY SHERIFF DEATH IN LAMB COUNTY

Black Claimed Drunk And Knew Nothing of Shooting At Time.

A jury in 64th district court at Otton, Lamb county, last Saturday afternoon, condemned Leroy Kelly, 32-year-old negro, to die in the electric chair for the murder of Sheriff F. A. Loyd of Lamb county at Littlefield last March 20.

Less than one hour's deliberation was required to reject the negro's mercy plea that he was so drunk when the shots were fired that he recalled nothing of the occurrence. That plea, made by Kelly himself from the witness stand that morning was offered as his sole hope that his punishment might be fixed at life imprisonment, rather than death.

Verdict of the jury was received with out any marked demonstration. At-

Agri Conservation Program Points Are Given By Co. Agent

Points relative to the 1937 Agricultural Conservation program to which failed to attend community meetings special attention is called to those who are given herewith.

Payments will be made for diverting 1/3 to 35 per cent of the cotton base. There is no minimum per cent as was the case in 1936.

Payments will be made for diverting 1/3 to 15 per cent of the general base which is the same as for 1936.

The rate for payment on cotton acreage will be 5 cents per pound on the established yield.

The rate for payment on acreage diverted from the general base will be approximately \$1.00 per acre less than for 1936. The average for Bailey county in 1936 was \$9.00 per acre.

Grain sorghums are classified in 1937 as soil-depleting, irrespective of use, except where such grain sorghums are planted solid or broadcast which practice is not adapted to this county.

Sudan grass, sweet sorghums (cane) and millet are classified as soil conserving if seed or heads are not harvested.

The soil building allowance will be limited in 1937 to \$1.00 per acre for each acre diverted for payment, plus \$1.00 per acre for each acre of soil conserving base. The 1936 soil building payment of \$1.00 per acre applied to all acres on which soil building crops were left on the ground or turned under even if such acreage exceeded the acreage diverted for payment.

Soil building crops such as Sudan grass, sweet sorghum or millet must be left on the land in 1937. Payment was made in 1936 if these crops were turned under as green manure.

Wheat and other small grains will not be classified as soil conserving in 1937, except by special permission of the State Committee and Director of the Southern region.

The Soil Sheet Signing in connection with the 1937 Agricultural Conservation program has been nearly completed for Bailey county during the past week. Sign-up dates have been held in all school districts in the county. It is expected, however, that a few farmers who failed to sign in their own communities will come to the county office to sign before the closing date which it is thought may be set for about April 30.

No accurate count of Work Sheets could yet be made at the county office because a number of county officers in charge of the work had not turned in their work at this writing.

REVIVAL MEETING CLOSED

The revival meeting which has been in progress for the past two weeks in Muleshoe at the Church of Christ, closed Wednesday evening of this week. Jack Hardestade, of Amherst did the preaching, his sermons being enjoyed immensely by the crowds who attended.

CONSTRUCTION \$12,000.00 BLD'GS TO START SOON

Gilbreath, Sneed And Moeller Plan New Brick Bld'gs.

That Muleshoe is on the eve of a business building boom is indicated by plans now in progress by several local concerns for buildings soon to be erected.

J. T. Gilbreath and son, local grocers, last week purchased lots of D. H. Sneed formerly occupied by the Muleshoe hotel which burned a few years ago, and on which he will erect a brick and the building 56x80 feet.

Under the building will be a well constructed basement, practically the same size, which will be used as a warehouse for feed, flour and a storage place set aside for accommodation of farmers who wish to store Irish and sweet potatoes, onions and other farm products, while the upper floor will be devoted largely to a grain and seed business.

Adding this on the east D. H. Sneed will erect a two story brick and tile structure 38x60 feet for business accommodation.

It is also reported that C. F. Moeller is now erecting concrete blocks for a business house to be erected just south of his Palace theatre, the building to be strictly modern in every detail and to be occupied by a business concern when completed.

While little details of these three building projects have yet been given it is understood their total cost will approximate around \$12,000, work of construction will begin within a short time.

FARMERS TO BUILD DAMS

Construction of small dams and erosion tanks under provisions of the farm and range conservation section of the 1937 agricultural conservation program are of special interest to farmers of this area, as is indicated by talk of farmers and ranchers of this year and adjoining counties who are either now or soon will be building such dams.

It is realized such small dams constructed by farmers, not only every farm on until there will be good size ponds capable of holding a good reserve supply of water.

While this is a comparatively flat country, yet an nearly every farm there are places where such dams may be built, frequently located so as to care for any surplus water coming off of fields and meadows also been contoured or terraced.

SCHOLASTIC CENSUS FINISHED

There are 387 scholastics in the Muleshoe Independent School district, according to the census just completed by Cecil McLaury, who says these figures show an increase of 22 pupils over the number of last year.

Several included in last year's census have passed the school age requirement this year and could not be included, he said.

19 Bailey Co. Boys Answer CCC Call To Lubbock For Exams.

Nineteen Bailey county young men have answered the government call for more soldiers of the soil, some of them having already left for Lubbock to take physical examinations last week, while another contingent of CCC accepted applicants left Wednesday of this week.

While it is not definitely known what area their assignments will take them if accepted, it is said possibly many of them will be sent into some of the northwestern states for government duty.

Boys leaving on the first call were: Jeff Maner, Oliver Harriman and Glen Welch, Muleshoe; Clifton Shanks, Progress; Earl Smith, Fairview; Floyd Brashears and Ray Tartton, Goodland; Harvey Vanlandingham and Alfred Calvert, Enochs.

Those sent out under the second call were: Lester Walker, J. B. Beal, Albert Perkins, Circleback; Ray Workman, Enochs; Elmer Lowery, Y. L. Floyd Hagedale, Bob Hildre, Muleshoe; Dewey; Earl Smith, Fairview; Floyd Henderson, Watson, Calvin Calvert, Enochs was sent out as an alternate in case some of the others might fail in examination.

Because of the shortage of prospective CCC workers in other states it is anticipated another call may be made the later part of April or the first of May, according to Mrs. Frances Thomas, in charge of recruiting in Bailey county.

PROVED BY THE PAST—IMPROVED FOR THE FUTURE

\$2,500 IN PRIZES WILL BE GIVEN AT PANHANDLE-PLAINS DAIRY SHOW HELD AT PLAINVIEW, APRIL 22-24

Plainview, April 12.—Cash awards for winning exhibitors in the tenth annual Panhandle-Plains Dairy Show here April 21 to 24 total \$2,500 according to Pete H. Smith, Plainview Chamber of Commerce secretary and manager of the show.

With range and crop conditions generally good over the Plains and West Texas regions, dairymen are showing increased interest in the 1937 show. Featuring educational programs conducted by recognized dairying authorities, the 1937 show has been designed to appeal to the family dairymen as well as to the commercial dairymen.

In addition to \$2,500 in prizes to be paid to winning exhibitors in the dairy products show, a department superintended by Miss Chloe Huffaker, Hale county home demonstration agent, and designed as an educational feature for girls, women and commercial dairymen.

Besides the dairy show proper, which is expected to attract more than three hundred animals in charge of exhibitors from a wide area, there are dances, an A. & M. College Round-Up, rodeo, crowding of the Dairy show queen, Midway attractions, numerous concessions, carnival, annual banquet and other attractions.

On the night of April 22, second day of the show, more than 200 A. & M. college exes are expected at a banquet at Hilton hotel where E. E. McQuillin, secretary of the A. & M. Ex-Stud-

ent, Homer Norton, A. & M. coach, and E. R. Eudaly, dairy specialist, also, are to appear on the program.

A rodeo every day of the dairy show, in charge of Frank Danahy of Oton is expected to attract approximately 100 contestants. Rodeo prize

money totals \$750. Contestants will parade daily on Plainview streets.

On the night of April 21 at the city auditorium the queen of the Dairy show will be crowned amid surroundings befitting the occasion. More than fifty princesses, representatives of towns and organizations, will compose the group, from which the queen will be selected by judges at an afternoon tea.

On April 20, day preceding official opening of the show preliminary test and production contests will be conducted. The show will officially open at 9 o'clock the next day.

On Thursday, second day of the show, Jersey and Guernsey cattle will be judged at nine o'clock. At 10:30 C. B. Martin, Hale county agent, and E. R. Eudal will conduct an educational program on "Feeding Dairy Cattle on the Plains."

Starting at nine o'clock Friday morning, Holstein and Milking Shorthorn cattle will be judged. A program on "Producing Clean Milk on the Farm," in charge of Dr. F. G. Yarbaugh, Texas Tech., is scheduled Friday night at 7:30. Scheduled is the annual banquet and meeting of the Dairy association at the Hilton hotel. The banquet will be followed by the Dairy association dance.

On Saturday, final day of the show, exhibitors will parade animals with awards displayed through Plainview streets.

On Monday following the Panhandle Plains Dairy show, the second annual Plainview Fat Stock show will get underway. Prize money for this event, designed to encourage and train boys to feed livestock on a commercial basis, totals more than \$1,000.

On the night of the 28th calves, lambs and possibly some hogs exhibited in the show will be shipped to Kansas City where an auction conducted by commission firms has been scheduled for April 30.

Bailey County Exhibits

Each home demonstration club in Bailey county will enter products at the Dairy show, as follows: American cheese, cottage cheese, Process Cottage cheese, Neufchatel cheese, sweet milk, 1 qt., farm butter, 1 lb.

The County Home Demonstration council will enter an educational exhibit showing the value of a pint of milk.

The exhibit committee of the council will have charge of the exhibit, members being Mrs. Tommy Galt, Goodland; Mrs. Grace Snider, West Camp; Mrs. Roy Nelson, Enochs. This committee will take the products entered by Bailey county to the Dairy show, but they must be in the office of the home demonstration agent by 6:30 o'clock Wednesday morning, April 21. All products must be labeled with name of product, name of individual and county. Cash prizes will be offered to those showing.

CHILDREN ENJOY SAND HILLS

Last Sunday afternoon Jess Murrah took a school bus load of children to the sand hills southeast of Muleshoe to play.

Those going were Mr. and Mrs. Jess Murrah and children, Claudis, Jerene, A. L. Jessie and Dorothy, Mrs. Roy Hagan and children, Bernice, Mattie Jean and Myra, Lela Francis and Lavern Mason, Myrtle Parker, two Bagwell children, Pud, Winn and Joe Smith.—Reporter.

S. E. MORRIS CONDITION IS VERY SERIOUS FOLLOWING OPERATION

S. E. Morris, sr., for several years past a citizen of Muleshoe community, is said to be in a serious condition following an operation last Monday morning at a Lubbock hospital.

Mr. Morris has been in ill health for some time past, and for several weeks has been taking treatments at Lubbock for liver trouble of some kind. Failing to respond readily to treatments the operation was found necessary, disclosing a tumor of some kind growing on the hepatic gland.

Famous trail—the California doctor who advised a change of climate.

85,000 Texas Babies Lost Last Year Through Neglect, Says Doctor

Austin, April 12.—In Texas during 1936 700 mothers lost their babies through childbirth and associated conditions. Fatality struck 8,000 babies under one year of age with 4,000 more stillborn. On a national basis the figures reached the tragic total of nearly 85,000. These facts become particularly distressing when it is realized that at least two-thirds of this motherhood penalty could have been avoided, states Dr. Geo. W. Cox, state health officer.

"Never before in the history of obstetrics have scientific precautions against complications been so advanced and so available as they are today. However in spite of the improvement in the techniques involved and the further development of antiseptic control, the maternal mortality figures pathetically indicate that medical knowledge alone cannot solve the problem.

"Generally speaking, innocent or willful neglect is largely responsible for the preventable maternal deaths. It is to be emphasized that the proper time for expectant mothers to seek medical attention is when the expectancy is first realized.

"Indeed, prenatal care is the great defense against many of the conditions that cause tragedy at birth. Consequently, expectant mothers should place themselves under the supervision of a physician at the beginning of the term. If this fundamental safety rule would be adopted more generally, the present maternal mortality toll could be markedly diminished.

"As one authority aptly states, 'To cut the appalling maternity death rate, thoughtful and cooperative initiative must originate in the home!' In other words, science has done its part, now the prospective mothers must do theirs.

Jack McNairy Killed In California; His Funeral Here Friday

Jack McNairy, 33, formerly of Muleshoe but who had been at Banning California for the past four and one-half years, employed with the Metropolitan water district, San Jacinto, was instantly killed Saturday, in a tunnel when a muck car broke loose on the track and ran over him, according to report received here the first of the week by his relatives.

His body was shipped here for burial, the funeral service to be conducted Friday afternoon at three o'clock at the Baptist church by Rev. J. Manley Reynolds and Rev. R. S. Watkins, local pastors.

For two days following the accident, identity of the body was not fully known; but was finally determined by papers found on his person and later verified by telegrams sent to relatives living in Muleshoe.

The deceased is survived by his mother, Mrs. J. F. Vaughan, a sister, Mrs. Ike Robinson, and brother, I. G. McNairy, Muleshoe, another brother, M. V. McNairy, Vernon and another sister, Mrs. Elise Hilliard, Odell.

Baileyboro News

Mr. and Mrs. J. E. Potest returned Monday from Madison, where they have been visiting relatives.

Mr. and Mrs. Jesse Boy returned home Sunday from Wellington, where they were called to the bedside of the latter's mother.

Mr. and Mrs. Charlie Durham, of Loveland, are spending the weekend with Mrs. Durham's parents, Mr. and Mrs. G. L. Blackshear.

We are happy to welcome the new Mrs. C. H. Mitchell to our community. She is the former Miss Estelle Stapp, Leather Ragsdale, and Henry Bas was the two new members elected to serve as school trustees.

The B. B. Club News
The B. B. Club met Tuesday, April 6 at the school house. As it was not the regular meeting the time was spent socially, quilting and piecing quilts, there being 14 members and two visitors present. The visitors Mrs. Leta Fern Lafon and Mrs. E. L. Cunningham.

The club is presenting a play Friday, night April 16, at the school house, title being "The Gay Masquerade," under the direction of Mrs. W. B. Waggon, who is a former elocution teacher and experienced in this line. Everyone is cordially welcome, a very small admission in exchange for a big evening will be charged. We hope to see all our friends out.

Next meeting will be held Tuesday, April 27, at 2:30 p. m., at the school house, hostess, Mrs. Sybil Moore; leader, Miss Alma Stewart.—Reporter.

Big Manitou Falls

In the far northwestern corner of Wisconsin is a natural wilderness area of rough terrain, rocky escarpments, cascades, waterfalls and deep gorges—140 acres of scenic land. Here the Black river, which rises in the highlands of Minnesota, cascades over the rocky range on its rush to Lake Superior. Here the river plunges deep into a mountain gorge in a waterfall that is higher even than the Canadian falls at Niagara. This sheer drop, the highest in Wisconsin, was called by the Indians "Gitchee Monido," the Falls of the Great Spirit. It is known as Big Manitou Falls.

GOODLAND SUNSHINE CLUB

The Goodland Sunshine club met with Mrs. Tommy Galt, Wednesday, April 7. Nine members and one visitor were present.

Business was transacted and members reminded of the dairy show to be held at Plainview. After a round-table discussion, a motion was made and carried to order polishing cloths for silverware. These are to be sold by club members and the money put in the treasury.

Because of weather conditions and lack of time, the sewing machine demonstration was not given. A call meeting was set for Friday, April 16, with Mrs. M. D. Gaddy, for the purpose of having this demonstration.

Seven cents were collected through the surprise package. Mrs. Cecil Creamer held the lucky number and was given the powder jar.

The fortune telling game used as recreation was cleverly turned into a handkerchief shower, honoring the birthday of the president Mrs. Galt, who then opened and admired her gifts.

Refreshments were jello salad, sand-

wiches with potato chips and lemonade.

The next regular meeting will be with Mrs. Cecil Creamer, April 21. At this meeting the agent will discuss meal planning.

MULESHOE H. D. CLUB MEET

The Muleshoe H. D. club met Thursday last week with Mrs. O. N. Robb as hostess. Mrs. C. C. Mardis, as a delegate to the Sewing Machine clinic held at Progress, March 22, gave a demonstra-

tion on "The Care and Cleaning of a Machine," and "How to Adjust a Machine."

A report of the Council meeting was given by Mrs. Vernice Snyder, council delegate.

Refreshments of ice-cream and refrigerator cookies were served by the hostess to eight members and three visitors.

The next regular meeting has been postponed for one week, and will be held April 29, with Mrs. C. H. Justus.—Reporter.

I'M A NEW WOMAN THANKS TO PURSANG

Yes, Pursang contains, in properly balanced proportions, such proven elements as organic copper and iron. Quickly stimulates appetite and aids nature in building rich, red blood even in cases of simple anemia. When this happens, energy and strength usually return. You feel like new. Get Pursang from your druggist.

THE WINNER over Jack Dempsey in this particular bout is Amanda Snopce of Minneapolis, who visited the ex-champ while passing through New York on her way to represent the state of Minnesota at the Pressman's Birthday Ball in Washington, Sunday. Bill in Washington, Sunday. Bill in Washington, Sunday. Bill in Washington, Sunday.

BELLY BOTTLES—The popular new design of "belly bottles" is so convenient that you can hold seven in one hand if you are as expert as Fred Schmitt shown here, champion lawn carter in New York's German-speaking colony.

THROUGH BROAD AND BEAUTIFUL ENTRYWAYS VISITORS WILL PASS TO THE NEW YORK FAIR

NEW YORK, (Special)—Forty thousand persons an hour—visitors from every state and every nation—must be accommodated in comfort at but one of the entryways to the New York World's Fair of 1939, according to arrangements the Fair Corporation is completing to handle a maximum daily attendance of 800,000. The artist's drawing, as reproduced above, calls for a magnificent double-decked entryway with underpasses, overpasses, pedestrian walks, bus terminals, comfort stations and bridge connections assuring comfort while providing an area of architectural splendor.

Shown is a ramp leading from the exposition grounds toward the L.I.T.-24-TT. entryway terminal, at a point where it is necessary to cross over the Long Island railroad track and to avoid undue congestion of pedestrian traffic. Show in the left foreground is a domed rest room, and within a fountain basin and a concourse bordered by stonework planters and, nearer, an open-air cafe and an information kiosk. Along the banking walls the artist has delineated the Fair world concept which looks to "the building of a peaceful happier World of Tomorrow."

ALASKA - OLD AND NEW

THERE are two pictures that illustrate vividly the changes which time and man have wrought in the development of Alaska, the great northern outpost of the United States. The top drawing, faithfully reproduced from an old photograph, authentically portrays a great horde of prospectors, toiling up the steep slopes of Chitko Pass, north of Juneau, on their way to the famous Klondike Gold Fields in 1898. The photograph to the right shows a section of the modern railway which penetrates these same mountains from Skagway, Alaska, to Whitehorse in the interior of the Yukon, and over which thousands of tourists and big game hunters travel annually. The route of the railway is considered one of the scenic wonders of the world and as sporting territory it is without an equal.

Albany's Claims
In addition to Albany's claim of being the oldest chartered city and the oldest settlement of continuous existence in the original thirteen colonies, that city—seen in the distinction of being the terminus of the first inland post route established in the colonies.

King George III Statue
Four pieces of a statue of King George III, erected in New York city's Bowling Green in 1770, are on exhibition at the New York Historical society.

OFFICIAL STATEMENT OF THE FINANCIAL CONDITION OF THE MULESHOE State Bank

at Muleshoe, State of Texas, at the close of business on the 31st day of March 1937, published in the Muleshoe Journal, a newspaper printed and published at Muleshoe, State of Texas, on the 15th day of April, 1937.

Longview News

Everyone enjoyed the singing Sunday and are looking forward to the one at Progress in October.
Mr. and Mrs. W. B. Wagoner and son Joe Mack were visitors in the home of Mr. and Mrs. G. G. Johnson, at Muleshoe, Sunday.
H. E. Mison, of Oklahoma City, Okla., is in the Longview community on business.
Mr. and Mrs. G. D. Neal and family visited in the home of Mr. and Mrs. L. P. Lynskey Sunday.
Shelton Smith and son, Irvin were in Littlefield on business Wednesday of last week.
Mrs. G. W. Edwards and children of Maple and Mr. and Mrs. Raymond Hanna of Bidart, spent Sunday in the home of Mr. and Mrs. Carl Hendry.
Mr. and Mrs. Claude Withrow and Children, Ann and Ona Beth, and Mrs. Neal Warren spent the week in Hollis, Okla., visiting relatives.
Tom Weston is reported improving while at Hot Springs, N. M., taking treatments.
Mr. and Mrs. T. L. Gallagher and family visited in Dora, N. M., Sunday.
Phil Brewer is visiting in the home of P. E. Tiller this week.

The following were in Muleshoe on business Saturday: D. R. Tolan, G. L. Hanes, P. E. Tiller, W. R. Carter, Mr. and Mrs. N. E. Moore, Mrs. J. C. Kuykendall, Mr. and Mrs. E. T. Shockley, Mr. and Mrs. W. B. Wagoner, Mr. and Mrs. L. P. Lynskey, C. M. Black, D. S. Wilson, Mr. and Mrs. Willis Ellis, J. C. Williams, J. C. Essary, Mr. and Mrs. Bill Starkey, J. S. Smith and Mr. McLehland.
Mr. and Mrs. J. C. Williams were in Clovis, N. M., on business Friday.
L. P. Lynskey went to Bushland, Tuesday.
Mrs. Lennie Wittmer and son, Clevis Ray, of Sudan, spent the weekend visiting Mr. and Mrs. Bryant and Fannette.
C. S. Smith and Drew Cartwright of Vernon, visited G. D. Neal Saturday.
Mrs. C. R. Black is reported to be convalescing nicely after her few days illness.
Mr. and Mrs. W. R. Carter and family visited Bremer Williams and family at Texaco, Sunday.
Roy Tiller is visiting his father, P. E. Tiller at Eldorado, Okla., this week.
Mr. and Mrs. B. H. Black and Eugene, visited at Melrose and Portales, New Mexico, Sunday.
Mr. and Mrs. Tanner and Mrs. Nettie Barton of Elda, New Mexico, were vis-

iting in the home of Mr. and Mrs. F. R. Barton.—Reporter.
Y. L. 4-H CLUB MEETING
"You should select good material that will not fade or shrink," said Miss Alma Stewart, home demonstration agent, to the 4-H club members of Y. L. held at the school building, April 8.
"In selecting material for dresses, be sure the colors are becoming in a small check or figure, using a simple pattern."
The club members have their cold frames prepared and planted. They have decided to have a pie supper and a play in the near future.
The members present were: Elma Redgett, Wanda June Lovelady, Mary Emma Jacobs, Wanda Reed, Maxine Mary Catherine Lowery, Luna Mae Wiltschko, Mabel Wika, Vivian Harris, Frances Buse, Mae Belle Reeves, Dorothy Mae Gable, Clarence Lea Reeves, Bonnie Trawick.—Reporter.
Making Salt
Salt springs and salt lakes are found all over the world, and much of the salt of commerce is made by boiling the brine until the water passes off as steam, leaving the solid salt in the pans.

LEAGUE COURSE AT SUDAN
Members of the Senior and Junior Epworth Leagues of the Methodist Church here attended a Booster's unit meeting at the Methodist church in Littlefield, Sunday afternoon at 2:30 o'clock. Leagues from Earth, Sudan, Amberst, and Littlefield were also present.
A study course was taught by Rev. Vernon Henderson, of Shallowater.
Among those from here who attended were Alvin Farrell, Burgin Watkins, Hazel Neson, Wanda Farrell, Lester Garth, Willis Farrell, Mary Sue Odom, Leelle Bartley, Nona Fay Johnson, Leona Bartley, Harold Norris, Dorris Churchill, Paul Smith, Holly Ann Buey, Miss Elizabeth Harden, Rev. and Mrs. R. S. Walding.
The study course will be completed next Sunday afternoon at the Methodist church in Sudan, several from here planning to attend.
Patronize home industries.

The Inland Empire
The Inland Empire is a popular name for the rich agricultural, stock raising and mining region of the Northwestern United States, lying between the Rocky and the Cascade mountains. It embraces a considerable part of the Columbia River plateau, including Eastern Washington, Northeastern Oregon, the northern or panhandle part of Idaho and the extreme western part of Montana.
Cause of Cloudbursts
Cloudbursts are caused by violent whirlwinds which carry the hot and moist air up to tremendous heights. The vertical force of the wind is great enough to prevent the condensed waterdrops from falling until long after they are formed. When the upward current of air is finally broken, the amount of water collected is so large that it falls almost as a solid sheet, and a cloudburst results.

EDITORIAL AND FEATURE PAGE

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.
JESS MITCHELL, Editor.

Subscription Rates
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.
Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as such. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by subscription, otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even if It Fails

A THOUGHT FOR THE WEEK

And they shall know that I am the Lord their God, that brought them forth out of the land of Egypt, that I may dwell among them: I am the Lord their God—Exodus 29:46.

In all his dispensations, God is at work for our good.—John Jay.

THAT ILL WIND

The age-old saying that "it's an ill wind that blows nobody good" has probably left a lot of people around Muleshoe wondering what good is going to come out of those recent floods in the Mississippi and Ohio river valleys. Perhaps it will cause the construction of a great system of federal flood prevention that will protect these sections for all time to come; perhaps it will bring newer and better buildings than those destroyed; perhaps it will start a reforestation movement that will again cover barren hills and prevent the washing away of millions of tons of fertile land. If it results in all of these things, or in even a part of them, then some good will have come out of the floods to balance the destruction they wrought, and the "ill wind" will have blown much good after all.

On the other hand, many people in this section have been wondering what virtue could possibly come out of the terrible sand storms which periodically visit this area.

Perhaps it will teach land-owners and renters something of the real value of land, a thing many do not today realize. Plenty of farmers today are entirely too thoughtless or else so damphool lazy they don't do a single thing to protect this God-given heritage they possess. There should be a law forbidding any man owning land who will not protect it against the elements of nature.

States pass laws imposing taxes on this land. They pass laws forbidding requiring land-owners to get rid of prairie dogs inhabiting it, against planting certain kinds of grasses and not permitting growth of certain weeds of a noxious nature, why not also a law requiring a land-owner to cover his land during winter with a crop of rye, wheat or rape against wind erosion demanding and enforcing certain types of farming known to be conducive to retaining the soil where Nature first put it? Why not require rotation of crops, the planting of certain kinds of legumes.

If President Roosevelt wishes to chisel his name in the hall of fame for the coming years of eternity, let him incorporate such ideas into his

New Deal system. It is certainly more important and will be of far greater value to the coming generations than trying to pack the Supreme court. Yes, it's an ill wind that blows no one any good. The appropriating of millions of dollars to combat soil erosion is good as far as it goes, but it is likely to be little more than a shot in the arm, a mere hypodermic injection, like a dose of morphine—just a temporary relief that is over in a little while after the dose has been taken. Something permanent is needed.

NEVER SETTLED

With seeding time now on all over the country, the old argument boils up again as to whether it is best to plant certain vegetables in the dark or the light of the moon. If you haven't heard the argument over it in Muleshoe this year, just be patient, for you are pretty sure the argument will be heard again this year. It is just the other way, that it is in the dark of the moon—or when there isn't any moon, to be exact—when such things should not be planted. Then you ask a scientist and he will tell you that both arguments are wrong, and that the moon has no effect upon seeding time. But no harm is done by this ancient old argument, and probably no one is the loser who follows either side of the argument. Right now the real loser is undoubtedly the man who doesn't plant at all.

However, it is a notable fact that some of the scientists who once were so arrogantly against "moon-planting" now admit there might be some planting virtue in it. They have to admit the moon has its effect upon the things, so why not upon some other things. Some seed houses believe so strongly in the moon idea they put out pamphlets telling what should be planted in the light and what in the dark of it. We still have considerable way to travel yet in regards to the moon. Neither scientists nor laymen know everything yet, by a jug-full. These old timers who years ago convinced themselves of the virtue of moon-planting may yet see the day when the scientists become convinced—even against their will.

THE SAVING HABIT

Give the average man an opportunity to save money and he'll do it. That is true of the American people, and it holds good right here in Muleshoe. For several years they haven't had much of an opportunity to practice saving, but slowly and surely things are working around to where they will have, if that time hasn't already arrived.

Thanks to a wise piece of legislation, confidence in savings institutions has been restored. Insured deposits has done that very thing. Then another incentive for savings came with the introduction of "Baby Bonds," bonds in amounts as low as \$25, which the modest worker who desires to save can purchase. In two years over 750,000 people have bought this type of security, and they now have a total of over \$750,000,000 invested in them.

This sort of financing teaches thrift and also aids in restoring confidence in the saving habit. With far more money per capita in the banks and

New "Super-Chief" for Western Run

This gleaming train, of light weight, stainless steel will become the famous "Super-Chief" of the Santa Fe railroad when it goes into service early in the spring. The train, nine cars in length, now is under construction by the Edward G. Budd Manufacturing Company of Philadelphia.

Traversing the picturesque lands of the Navajo, it will take over the weekly run between Chicago and Los Angeles—a distance of 2,225 miles—and will cover the route on a schedule of 39 hours, 45 minutes.

Through use of light-weight construction principles, the new train will weigh only half as much as the train it will supersede and will be a radical departure from the conventional design of railway equipment. The train will be Diesel powered. Now features for comfort and convenience have been built into it and it will have a striking decorative design. The nine cars include five sleepers, cocktail and lounge car, baggage and postoffice car, dining car and an observation car.

Journal being cast upon the bosom of a sandstorm headed in the direction of Taylor.

CHILD PRODIGES

Folks make much ado about child prodigies, young super-intellectuals, etc., but statistics show such manifestations of intelligence is extremely quite short lived. Perhaps right here in Muleshoe there are folks who can recall manifestations of special talents in very young people who, when they reached adult age or before, had become just ordinary folks in intellectual manifestations.

Just how much comment is being made regarding Mary Christine Dunn, Bonne Terre, Mo., 28-month old child who is manifesting remarkable intelligence. It is said she composes many of the songs she sings and knows a total of 28 songs of various kinds.

The writer knows a baby, now a young woman who, when she was 24 months old knew the words and music of 32 songs, by actual count, they being mostly of a religious nature, and she gave numerous other manifestations of superior intellectual vigor; but as that baby grew into girlhood she gradually lost her genius manifestation, and by the time she became a young woman, very beautiful in a physical way, yet quite slovenly and mediocre intellectually. Sad, but so often that is true!

Jaunty Journalists

Among the Muleshoe men can live up to be his mother's opinion of him and a silk hat.

It's a good idea Muleshoe man to never argue with a fool. Listeners might get the idea both are that way.

The average Muleshoe motorist seems capable of detecting a rattle in his car quicker than he can one in his head.

Much of the smart of a smart Spring hat is that a Muleshoe man sees it on another woman's head.

Even if a Muleshoe man doesn't have very high ideals, it helps some if he lives up to those he has.

Farmers around Muleshoe could breathe more easily if they could sidetrack their bills as easily as Congress does.

Some Muleshoe people could dodge a lot of this world's troubles by simply giving a darn how other people run their own affairs.

Every Muleshoe man should have enough insurance to keep his family from suffering; but not enough to keep them hoping his health will fail at an early date.

Any Muleshoe citizen has reached the age of discretion when he sees somebody doing something wrong and refrains from offering advice as to how it should be done.

Some of the Muleshoe people who are grumbling about their income taxes this year are the very same ones who were grumbling a few years ago because they didn't have any income to tax.

As a general rule the Muleshoe man who argues loudest about his "Constitutional rights" about the way one reads the Constitution, and his opinion as to changing it has no more virtue than the barking of a coon hound at the moon.

SNAP SHOTS

Money still talks, and in most homes around here it persists in speaking the mother tongue.

The only farm relief that will ever benefit some farmers will be to relieve them of their farms.

Maybe a congressman doesn't violate his conscience. If he had a conscience perhaps he wouldn't be a congressman.

The beauty about rearing a large family is that at least one of them may not turn out like the others.

Life has a much better chance to be bright and joyous for those who manage to keep their noses out of other people's business.

They say babies are going out of fashion. All right, a vacuum sweeper will pick up the tacks and pins from off the floor just as carefully.

Another trouble with this world is that man has developed enough skill to destroy it; but not enough sense to save it.

It's a funny country in which people make rules to guide the umpire and then cuss and throw pop bottles at him if he enforces them.

It's difficult for the average American to understand how France can vote five billion francs for war yet can't pay two s-u on the war debts she still owes us.

From nine to 14 used to be the spanking age, now it appears to be the marrying age. Folks marrying older are likely to make a mess of it.

People used to pray for "peace on earth, good will to men." Now they appropriate billions of dollars for armament building for the same purpose. Definite results of both systems are yet to be proven.

Pavement Pickups

John Kropf says 70 may be too old for a judge, but most of our troubles have been caused by the dumbness of men who were much younger.

Since England has refused to vote ex-King Edward a pension, Bob Carfield suggests he might come over here and get a job with the WPA.

Chickens come home to roost alright, says C. C. Mardis, but generally not until they have finished scratching up some neighbor's garden.

D. O. Smith says one trouble with the country today is that too many people are attempting Rolls Royce speed on wheesharrow income.

Miss Stewart readily admits her first name is Alma; but she still has no idea what her last name may be. She isn't married yet.

It is reported a mechanic at the local Chevrolet garage has written Gov. Murphy of Michigan suggesting paving a law requiring tacks be placed in the overall seats of all-down strikers.

Newly Moore, local ace pitcher, says when a baseball player's legs give out, he can always make an umpire out of him.

While it's a true scrap iron is now bringing top prices, that is no reason, says A. P. Stone, why owners of old cars should drive them recklessly. A pile of scrap iron can kill about as quickly as a shiny new car, he says.

Seeing a young Muleshoe gent stealing a kiss from his lady love in the dark last Sunday night just before they went in the church, prompted the observer to remark that the crime wave had finally struck Bailey County.

R. L. Brown has what is supposed to be a Neon "Real Estate" light sign on one of his office front windows; but J. Clyde Taylor says it's a fake for when Sam Lawrence gets enthused talking about Bailey county oil prospects the light just naturally turns red from blushing.

Mrs. J. W. Gregory says some folks think they have a hard time making a living now days when they have nothing but the government to depend upon; but backed in the days when she was first married the government didn't help them any and they had nothing to depend upon but a one-horse plow, a double shovel, calumet and saffraas tea.

"If Anne Lindsay Clark is the fiancee of her youngest son, John, it's news to Mrs. Franklin Roosevelt," says a front page boxed article in a daily newspaper coming to the Journal last Friday. Frankly, it is not generally supposed the prominent miss has any son at all, or that the youngest one is named John. The young man referred to is probably the youngest son of Mrs. Roosevelt, though the garbled manner of the article does not so state.

Judge Wilterding says the only way he knows of preventing automobile accidents is to pass a law permitting only one auto in each county to operate at a time, and requiring all other travelers to use ox-carts. He says no one ever heard of an ox-cart climbing a telephone pole nor turning over five times in a bar-bit. Even mules are safer than horses, he insists, but he has no idea of a law which would be a fact in any state.

March of Progress Aids Farmers Whose Crops Are In Demand

The corn from more than a million acres, cotton linters from more than 2,000,000 acres, 5,000,000 acres of soy beans; plantations of sugar cane and proportionately great quantities of original molasses, turpentine and rosin are in regular demand for manufacturing purposes.

As high as 96,500,000 pounds of wood pulp and 61,950,000 pounds of cotton linters were used in the manufacture of rayon in a single year. Cellulose derived from these products of nature is important in a thousand new chemical products.

Research and science are higher responsibilities of industry. Such departments of the government as Agriculture and Commerce, plus the Bureau of Standards and dozens of other agencies and bureaus have proved their great usefulness because they specialize in research and scientific investigations.

Louisiana cane sugar had "run out" until Government scientists scoured the earth to find ways to bring back the crop. Cane sugar is being successfully grown in Florida—simply because Government research and skill has piloted the way. Sugar beets are the offspring of American intelligence.

In 1913 it took six weeks to apply the many coats of paint and varnish to finish an automobile for the market. That paint job cracked in six months. Now the job is started, finished and dried in a few hours. Fields of cotton are used in the laquers of those automobiles that pass along the highways.

VOEGISH!
IT APPEARS TO ME THAT THIS MODERN YOUTH MOVEMENT WE HEAR OF SO MUCH IS ABOUT 60 MILES AN HOUR—59% ON THE LAST DAY OF SCHOOL.

Contested and Uncontested

Mary Ann Walker

Helen Millwee

For the second time in three years the 2400 students at T. S. C. W. elected the president of their student body by a unanimous vote. Miss Mary Ann Walker of Wichita Falls, a journalism student, was accorded this honor. On the other hand, the contest for the vice-presidency, won by Miss Helen Millwee of Dallas, was one of the most heated in the history of the school. They will serve during the 1937-38 scholastic term.

**WEEKLY LAY SERMON
HOLDING THE ROPE**

By JESS MITCHELL

In this world of turmoil and exasperation, as it is today, it is indeed refreshing to occasionally learn of this some one who thinks of others rather than of himself first. In a time when folks are grabbing and gripping and then grumbling because they didn't or couldn't grasp something still larger, it is inspiring to know there are still some who are willing to divide and share such as they have of this world's goods and opportunities.

It is a conclusion arrived at long ago that we can't all live in the spotlight, some must remain in the shadows. We can't all be leaders, some must be followers, and it has also been determined that the helper is just as important as the director. No general could win any battle without the co-operative assistance of his soldiers. Really, there is nothing at all insignificant in the world. Everything and everybody is of more or less importance and should be given due recognition.

A common pin is a very small and oftentimes insignificant little thing, yet a woman in dressing will place upon these tiny shafts of brass and steel great responsibilities, sometimes entrusting her entire modesty to just two or three of them, yet there are so many of them made in the United States that their manufacturers pay an annual income tax amounting to more than three million dollars.

A six penny nail is not very large, yet everyone of them that is driven into your house will hold a weight and strain of 500 pounds. The smallest raindrop carries its significance the same as a mighty cloudburst. The minutest things of life are frequently as important as great magnitudes. Great things are often an aggregation of small things. Infinity is made up of infinitesimals.

There are plenty of unrecognized and unrecorded services in life that are of vital importance and are contributory to great results. Sacred history tells of a man, a very prominent man in his day, and whose life and writings are of considerable influence today, who, to save his life from seeking enemies, as let down over a wall with rope by his friends. History does not tell who twisted the hemp into a rope, who tied that rope to the basket in which that gentleman stood, or who laid hold of the rope, letting it slip through their hands gradually as their friend slid down the wall outside to safety. No, we do not know their names, their post office address nor street number; but they did some very important work on that day.

So today there are many people holding the rope for others. Plenty of parents are holding the rope for their children that success may come to them later on in life. Plenty of taxpayers are holding the rope for fellow-citizens, paying into government treasuries multiplied millions of dollars annually that their fellow-creatures may become rehabilitated and once more get a start in life. None of these people may eventually become a Paul to preach mighty sermons; they may never be a George Washington to lead a country to freedom; they may never be a Lincoln to take a people out of bondage; they may never be anyone great, as the world calls greatness; but they are important folks as the Creator rates importance, and their task of holding the rope for some one else's benefit is a very important one.

Nearly every great man has had some one holding the rope for him. Daniel held the rope for Cyrus. Pompey held the rope for Caesar. Col. House held the rope for President Wilson. Franklin D. Roosevelt has had a great host of people holding the rope for him that he might make a success of our economic governmental affairs. Plenty of fathers are today holding the rope for their boys, and mothers holding it for their girls—helping them down over the wall of their difficulties and out onto the great highway of life. That rope may not seem very large; yet it is strong with good resolutions, and parents need keep a firm grip on it, lest it slip through their hands, causing these young lives to fall and sustain injuries from which they may never recover.

In Tokio, Japan there is a Japanese temple wherein the beams and rafters are held in place by cables of human hair. To fasten this temple together it took a rope 4528 feet long and seven inches in diameter, and more than 350,000 people contributed toward it before there was enough hair to weave and twist that rope; but now it is finished and doing a mighty work of great responsibility. So in the construction of the human temple there are many contributions which go toward making up the numerous strands forming the cable of life. There are mighty potencies of present environment, the hereditary traits and tendencies of past generations, the idiosyncrasies and peculiarities of individual makeup; the bias of family relations, the influence of home and community—all contributing toward the twisting of the great strand of life that is to hold together the human temple. How important that each and every person be careful of their thoughts, words and actions, for they are of mighty influence in the weaving of some one's career.

I have heard people brag about how they have made themselves what they are; how they fought their way through the world; but I am quite sure that

In most cases there have been helpful influences they have never acknowledged. No doubt most readers of this article can look back and recall influences that have been quite beneficial toward moulding their plans and fixing their futures. Some cord has kept you tethered in the straight and narrow way. It may reach back to some home in the New England states, up into the Northern states, over some Southern plantation or out into the prairie section of this mighty West; that rope may be a hundred, 500 or 1000 miles long and it may reach back 20, 30 or 40 years; but you have not forgotten it, and though the mortal hands that tied it to you have long ago gone out of sight, yet they still have hold of that rope and they are constantly pulling you toward a great ideal, and to some blissful hereafter.

Some day, I think, we shall give due recognition to those on earth who did unrecognized service to humanity. There are a great many who have let us down over the wall of trouble, helped us out of some great difficulty and we never knew it; but today they are receiving full recognition for their faithful service while on earth. There are lots of unrecognized and unrecorded people who once lived on earth that I should like to meet some day and express to them my appreciation for some of the many things they did that resulted to my personal benefit. Sacred and profane history are full of nameless people who were helpful to others. I would like to know who was that nameless widow that fed the Prophet Elijah; who was the widow that cast her mite into the treasury; who was that king of Salem that helped a man out of a difficulty who was the good Samaritan; who was little Rhoda; who were those mothers of Salem that brought their little children out to be blessed by the Great Nazarene; who was that palsied one he healed, and who were those unnamed men who let the Apostle Paul down over the walls of Damascus with a rope; and how many that are helping his life for the benefit of future generations. In the social and economic world I could tell of hundreds of nameless people who have been of incalculable benefit to the world in a thousand different ways. On there are so many people who in their quiet, humble way and self-sacrificing spirit have held the rope for others, helping them toward success, both in this life and in the life to come!

Some future day I think many of us are going to be wonderfully surprised to learn that many of the so-called most ordinary folks of this life have won for themselves highest eternal honors because of their meritorious actions for others. I know an invalid woman in Illinois who has been sick over 30 years, yet she has made more than \$14,000 and given it all for human benefit. I know a man in Pasadena, California who has laid out a back for more than 15 years, yet he raises more than \$5,000 every year which he gives for religious benefit. I know a mother who raised her children which has gone out into the world as worthy members of society, honest merchants, mechanics, professional men, faithful wives, consecrated nurses. She did it in a very quiet way of leading and directing—just holding the rope for them, and now she is reaping a great reward. Many a father, too, is being similarly recognized in eternity. A cipher standing alone means nothing; but place the figure one to the left of it and it means ten times the power of nothing. Write out six ciphers which within themselves mean nothing and put the figure one to the left of them, and you have a million. So our comparative nothingness placed to the right of Omnipotence may be augmented times without number, for Omnipotence can take the simplest acts and from them produce the most wonderful results.

Throughout all the ages of this world and of the world to come will be felt the effect of those who have held who are holding the rope for others!

ATTEND DISTRICT LEAGUE MEETING HELD AT LUBBOCK

The District Interscholastic League meeting will be held at Lubbock Friday and Saturday of this week.

That illustrious Muleshoe who won in various events at the Bailey county meet held here about two weeks ago will participate in district meet, are as follows:
Woodie Lambert, Delbert Parsons, Odell Rollins, Clayton Hill and Martin Hill for track; Hattie Ray Griffiths, Bergrin Watkins, Arvin Justice and one grammar school boy for declamation; Betty Ruth Moeller, Irma Willis, Mary Hester Glaze and Weldon Brooks for essay; Marie Lee for extemporaneous speaking; Lucille Bartley and Rosa Renfrow for debate; Joe V. Goins, Holly Ann Bucy, Margaret Ann Cook, Janusia Coker and Wanda Farrell, one-act play.

The students are planning to go in cars furnished by parents and teachers.

A mixup between CIO and other independent union miners at Picher, Okla., resulted in 18 injuries, mostly of a serious nature, before the fight could be stopped.

NOTICE FOR BIDS

Notice is hereby given that bids will be received by the Board of Trustees, Liberty School district, for two truck drivers in said district, the drivers to furnish own trucks, the district furnishing bodies for same, at a meeting to be held at the school building in said district Thursday, April 22, beginning at 8:00 p. m.
The Board reserves the right to reject any and all bids.

Make Every Farm a Factory Every Day of the Year

HAVE WE LEARNED OUR LESSON?

The experiences of life are many and varied. Some of them make impressions so deep as to appear permanent. But really impressions are as chalk-marks on a blackboard, made today and erased tomorrow. Economic conditions of one day are forgotten the next. Man repeats his mistakes because impressions do not stick.

HAVE WE LEARNED OUR LESSON?

OUR ACTIONS WILL SPEAK FOR US

During the World War prices rose to new high peaks. Money was plentiful and spending was reckless. Credit was easy and large obligations were assumed hopefully. Prices slumped and millions were ruined. Have we forgotten?

OUR ACTIONS WILL SPEAK FOR US!

St. Clair Variety Store

MULESHOE, TEXAS

● Mr. and Mrs. K. K. Smith were in Lubbock the first of the week with her father, S. E. Morris, sr., who is in a sanatorium there.

● E. S. Morris, of Wichita Falls, has been visiting for the past few days with relatives in Muleshoe and with his brother S. E. Morris sr., at Lubbock.

● Kenneth Jennings and H. A. Robb jr., left last Sunday for Los Angeles, California, to visit relatives, friends and look for jobs.

● Mr. and Mrs. Ray Griffiths made a business trip to Lubbock Monday and while there visited S. E. Morris sr., at a hospital.

● Mrs. Virgil Bennett and daughter, Sherwin Ann, of Lockney were Muleshoe visitors Friday afternoon of last week.

● FOR RENT: 5-room and bath, attached to 2-room basement, modern. Enquiry, Journal office. 5Hff

● Miss Dora Nell McCarty, student at Texas Tech college, Lubbock, spent the weekend in Muleshoe visiting home folks and friends.

● A. X. Erickson, Denver, Colorado, attorney, and owner of considerable land in Bailey county, was here last Monday night on business.

● Mr. and Mrs. Tye Yorging and son, Jack, attended the singing convention held at the school house at Longview, Sunday.

● FOR SALE: Half ac. Half Cotton Seed, pure, \$125 per bu. W. B. Gwyn, 1/2 mile S. Lariat. 10-3tp

● Mr. and Mrs. A. P. Stone and daughter, Florence, visited in Lamesa, Sunday with Mrs. B. O. Key, sister to Mrs. Stone.

● N. Shadid, of Mangum, Okla., is here for two or three weeks visit with his sons and daughters in the Famous department store.

● Austin Sherrod, of Vernon, accompanied by O. M. Jennings, Labuddy, who is one of Farmer county commissioners, were here last Friday on business.

● F. L. Gaede of Palco, Kansas, was here last Friday visiting his old time friend R. L. Brown and looking after property interests, he owning a good 320 acre farm in Bailey county.

● FOR SALE: D. H. Zeigenfuss will be here Saturday at the R. L. Brown Realty office with grape plants to sell. 11-1tc

● A marriage license was issued at the court house in Muleshoe Friday, April 9 by J. J. Williams, county clerk, to Miss Annie Mae Curry and Mose Harris, colored couple.

● Mr. and Mrs. J. L. Alsop and R. B. Dennis made a business trip to Plainview, Monday afternoon where Mr. Alsop attended a meeting of the Plainview Productive Credit association.

● Work was completed the latter part of last week on new side walks at the Methodist church and parsonage. In the near future more flowers will be planted and arrangements are being made for a lawn to be started.

● Mrs. Clyde Holt, son Jimmy, and Mrs. Ann Carter, of Morton, visited relatives in Muleshoe, Saturday. They were accompanied on their return

home by Mrs. Holt's mother and sister, respectively, Mrs. Irma Mitchell, and Miss Irma Willis, who spent the weekend there.

● A school of instruction for members of Eastern Star organizations will be held Thursday, May 20 at the Masonic hall in Littlefield. Several members of the local chapter are planning to attend.

● Miss Ruby White, who has been employed at the court house in Muleshoe for the past few months with the United States reemployment service, was transferred to the office at Plainview, Tuesday.

● R. L. Brown made a business and pleasure trip to Herford last Sunday, incidentally trying out his new Ford bus. Being naturally a wee bit nervous, he didn't dare drive more than 100 miles per hour, according to report.

● FOR SALE: 5-in. American centrifugal pump, 32-1/2 wood frame complete, good condition. 6-in. American pump, good condition. Less shafting. J. R. Stanley, Dexter, N. M. 9-4tp

● A marriage license was issued in Muleshoe, Saturday, April 10, to Miss Ona Pearl Lord and Thomas Wingo, of Sudan, by J. J. Williams, county clerk. The couple was married the same day by Rev. B. S. Watkins.

● Mr. and Mrs. Claudie Galman and Ray Cheery returned to Muleshoe the latter part of last week from Canyon where they attended the funeral service held for the father of Mrs. Galman and Ray.

● A marriage license was issued in Muleshoe, Wednesday, April 7 by J. J. Williams, county clerk, to Miss Ina Fay Burt, of Sudan and Jake Johnson, who is employed on the Paul Bros. ranch located in the southern part of Bailey county.

● G. C. Smith, of Albuquerque, N. M., was here Tuesday looking after his farm interests northwest of town. When he saw the big crowd of people in town that afternoon he remarked that the price of his land had advanced another \$50 per acre.

● Gordon Lyons, Farwell, local merchant, returned to Muleshoe last Friday, attending the local Chamber of Commerce meeting and making further investigations regarding a prober prospect well to be drilled on the I. C. Knocks land in the southern part of this county.

● Mrs. J. W. Border returned last week from California, glad to be back in Texas. She says she couldn't possibly get any kick out of living in a state of perpetual summer. It's too monotonous. Out there no one ever knows how good a fire feels when a blizzard is raging they miss the delicious flavor of sparrows and hercubuses when the frost is on the ground, their greatest diversion is a rain and never a single sandstorm to make life a little exciting.

Progress News

Rev. H. H. Copeland, of West Caigo preached his Sunday morning sermon, Henry Young and Ollie Brown of Canyon, visited relatives and friends here over the weekend.

● A number of people attended the singing at Longview last Sunday. Progress winning second place in the singing contest. The next convention will meet here.

● Mr. and Mrs. W. B. Harlen and son, W. G., visited in Lubbock, Saturday.

● Mr. and Mrs. Dave Stovall visited in the Circleback community Sunday.

● Mr. and Mrs. Casper Neudham of Jesko, attended church here Sunday morning and visited with friends in the afternoon.

● Mr. and Mrs. "Shortie" Quiet and children of Leveland, visited her brother Clarence Lobstein and wife, Sunday.

● A. J. Wilson returned from Lorenzo last week where he had been visiting with relatives and friends.

● Mrs. L. N. Walker and children were called to Knox City last Friday to attend the funeral of Mrs. R. E. Walker, mother of Mr. Walker. He had been at her bedside for some time. They returned home Monday.

● Grandma Garner returned home Sunday after spending a few weeks with her daughter, Mrs. Dave Stovall.—Reporter.

PAINT

IN THE STATE OF TEXAS, IN THE DISTRICT COURT OF BAILEY COUNTY, TEXAS, TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY GREETING:

YOU ARE HEREBY COMMANDED, that you summon, by making publication of this citation in some newspaper published in the County of Bailey, State of Texas, if there be a newspaper published in that county that is not, then in the nearest county where a newspaper is published, for four consecutive weeks previous to the return day hereof.

Mrs. G. E. Mickle and husband Joe J. Mickle whose residences are unknown, E. R. Richter, Harry J. W. Niehaus, William E. Chapman, George J. Thomassen and wife Sarah Thomassen, F. F. McElhinney, Henry McDonnell, Ely-Walker Dry Goods Company, International Shoe Company, Tootie-Campbell Dry Goods Company, Tro Company, H. Seifried & Sons Inc., G. H. & E. Freyberg Inc., M. W. Hodkins Company, Oregon City Manufacturing Company, Jackson Corset Company, all non-residents of the State of Texas, and the Unknown Stockholders of the Northwestern Steel & Iron Works, a defunct corporation, and the unknown heirs of such unknown stockholders, whose names and residences are unknown.

TO BE AND APPEAR before the Honorable District Court of Bailey County, Texas, at the next regular term thereof, to-wit: the 27th day of May, 1937, there to answer the petition of E. R. Hart, filed in said court on the 30th day of March, A. D. 1937, in A. D. 1937, wherein E. R. Hart, Plaintiff, vs. S. T. Harrison, T. M. Harrison, Mrs. Addie Neal Clover, a widow, Mrs. G. E. Mickle and husband Joe J. Mickle, R. E. Richter, Harry J. W. Niehaus, William E. Chapman, George J. Thomassen and wife Sarah Thomassen, F. F. McElhinney, Henry McDonnell, Ely-Walker Dry Goods Company, International Shoe Company, Tootie-Campbell Dry Goods Company, Tro Company, H. Seifried & Sons Inc., G. H. & E. Freyberg Inc., M. W. Hodkins Company, Oregon City Manufacturing Company, Jackson Corset Company, The Unknown Stockholders of the Northwestern Steel & Iron Works, a defunct corporation, and the unknown heirs of such unknown stockholders, whose names and residences are unknown, are defendants.

The nature of the plaintiff's demand being as follows, to-wit: Suit of Trespass to try title, alleging that the defendant who is the plaintiff in the said Court of Bailey County, Texas, has wrongfully and unlawfully seized and possessed of the land and premises situated in Bailey County, Texas, holding title to the same in fee simple, to-wit: All of the North One-Half (N¹/₂) of Section Number Thirty-two (32) of Township Melvin, Blum & Blum Survey, Bailey County, Texas, holding title to the same in fee simple, to-wit: All of the said land, that on the day and year of the aforesaid defendants unlawfully entered upon said premises and ejected the plaintiff therefrom, and unlawfully withheld from him the possession thereof, to his damage. Plaintiff prays judgment for title and possession of said above described land and premises.

HEREIN FAIL NOT, but have you then and there before said Court, this writ, with your return thereon, showing how you have executed the same.

WILLIAMS, J. J. Williams, Clerk of the District Court of Bailey County, Texas. APR. 15, 1937.

THE STATE OF TEXAS, To the Sheriff or any Constable of Bailey County-Greeting: YOU ARE HEREBY COMMANDED, that you summon by making publication of this Citation in some newspaper published in the County of Bailey, State of Texas, if there be a newspaper published therein, but not, then in the nearest county where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, Mrs. Eula Bell Dancy and her husband, whose name is unknown, and the heirs of Mrs. Eula Bell Dancy; Grace Hagins and her husband, whose name is unknown, and the heirs of Grace Hagins; and Bernie Hagins and the heirs of Bernie Hagins are defendants. The nature of the plaintiff's demand being as follows, to-wit:

Suit in trespass to try title, plaintiff alleging himself to be the owner in fee simple of Labor No. 2 of League No. 189 of Ector County School Lands in Bailey County, Texas, having acquired the same from Ector County, a political subdivision of the State of Texas, on January 21, 1936. Ector County having acquired such land from the State by grant for school purposes, alleging that the defendants unlawfully entered upon said premises and dispossessed him thereof, and withholds such possession, and praying for title and possession and costs of suit.

HEREIN FAIL NOT, and have you then and there before said Court, on the 27th day of March, A. D. 1937, a suit numbered on the docket of said Court No. 1103, wherein Charles Malone, Jr. is plaintiff and Mrs. Eula Bell Dancy and her husband, whose name is unknown, and the heirs of Mrs. Eula Bell Dancy; Grace Hagins and her husband, whose name is unknown, and the heirs of Grace Hagins; and Bernie Hagins and the heirs of Bernie Hagins are defendants. The nature of the plaintiff's demand being as follows, to-wit:

Suit in trespass to try title, plaintiff alleging himself to be the owner in fee simple of Labor No. 2 of League No. 189 of Ector County School Lands in Bailey County, Texas, having acquired the same from Ector County, a political subdivision of the State of Texas, on January 21, 1936. Ector County having acquired such land from the State by grant for school purposes, alleging that the defendants unlawfully entered upon said premises and dispossessed him thereof, and withholds such possession, and praying for title and possession and costs of suit.

HEREIN FAIL NOT, and have you then and there before said Court, on the 27th day of March, A. D. 1937, a suit numbered on the docket of said Court No. 1103, wherein Charles Malone, Jr. is plaintiff and Mrs. Eula Bell Dancy and her husband, whose name is unknown, and the heirs of Mrs. Eula Bell Dancy; Grace Hagins and her husband, whose name is unknown, and the heirs of Grace Hagins; and Bernie Hagins and the heirs of Bernie Hagins are defendants. The nature of the plaintiff's demand being as follows, to-wit:

AMERICANS WEAR GLASSES

Spectacles are worn by 34,000,000 people in the United States who have defective eyes. At the age of 70 only 5 per cent have reasonably normal eyes.

Outdoor workers are likely to have better vision, but 53 per cent of office workers and 75 per cent of workers in close-vision trades as the garment industry are provided eyesight.

By the time people reach the age of twenty, 1 out of 5 is near-sighted.

A good measure of a person is the distance he can walk in the second mile.

Company vs. Carter Thompson, Et Al. placed in my hands for service, I Jim Cook, as Sheriff of Bailey County, Texas, did, on the 8th day of April 1937, levy on certain Real Estate, situated in Bailey County, Texas, described as follows, to-wit:

The Southeast One Quarter (SE¹/₄) of Section Forty-eight (48) in Block G of Blum and Blum lands in Bailey County, Texas, and levied upon as the property of Carter Thompson, Eula E. Thompson, a Feme Seised, and their heirs, a single man, Melisse Thompson, a Feme Seised, Ronald Thompson, a minor, O. S. Thompson and H. G. Thompson, and that on the First Tuesday in May 1937, the same being the 4th day of said month, at the Court House door of Bailey County, in the town of Muleshoe, Texas, between the hours of 10 o'clock A. M. and 4:00 P. M. by me said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Carter Thompson, Eula E. Thompson, Ronald Thompson, Melisse Thompson, Roger Glenn Thompson, O. S. Thompson, and H. G. Thompson. And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County.

By my hand, this the 5th day of April, 1937. JIM COOK, Sheriff, Bailey County, Texas. Publ. April 8, 15, 22, 1937.

NO. 1007 JOSEPHINE SCOTT, INDIVIDUALLY AND AS REPRESENTATIVE OF THE ESTATE OF A. J. SCOTT DECEASED VS. W. P. SCOTT, STATE OF TEXAS, COUNTY OF BAILEY.

IN THE DISTRICT COURT OF BAILEY COUNTY, TEXAS. NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION. WHEREAS, by virtue of an order of sale issued on the 15th day of December, A. D. 1936, in favor of Josephine Scott, individually and as Independent Executrix of the Estate of A. J. Scott, deceased, and on the Docket of said Court, on the 6th day of April, A. D. 1937, at 5 o'clock P. M., in said Court, the following described tract of land situated in the County of Bailey, State of Texas, and belonging to the East One-Half of the Southeast Quarter of Section Number Twenty-three in Block V of the W. D. and F. W. Johnson Subdivision, Bailey County, Texas, said tract consisting of eighty acres of land; and on the 4th day of May, A. D. 1937, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4:00 P. M., on said day at the Court House door of said County, I will offer for sale and sell at public vendue for cash all the right, title and interest of the said W. P. Scott in and to said property.

DATED at Muleshoe, this the 6th day of April, A. D. 1937. JIM COOK, Sheriff of Bailey County, Texas. Pub. April 8, 15, 22, 1937.

HEAP BIG INJUN Need Heap Hot Water

With the Self-Action Gas Water Heater you have hot water, always on tap—no just every now and then when you remember to light the heater or fire the burner. Why be without this original convenience? The Self-Action Gas Water Heater costs little to own and use. Come in today. We'll be glad to give you facts on its economy.

West Texas Gas Co. Good Gas With Dependable Service

DYNAMITE AND OIL

Atchison, Kans.—Trapped in the crushed cab of their truck and showered with ignited gasoline, two drivers were burned to death, when colliding with another transport loaded with dynamite five miles southwest of here. What is left of it, after the fire, is in the foreground of the picture. It is such disasters as this, endangering the lives of the motoring public generally, that induce the National Safety Council to consider rigid legislative measures for safety. This includes maximum hours of service by drivers, inspection of the vehicle, particularly as to the carrying capacity of the body in relation to the chassis, inspection of brakes, lights and tires.

RESULT OF OVERLOADING

Kansas City, Mo.—Laden with an overloaded tonnage of steel, here is what happened to the highway of an out-of-bur truck leading into Kansas City. The right rear wheel cannot be seen as it is completely submerged in the concrete slab. So many highway accidents have occurred in this state and the need for data which may be used as a basis for determining the proper road costs incurred by trucks is so great that state highway departments are now conducting surveys in several states to determine a fair charge against the trucks for the use of highways. While thousands of motor trucks daily bring about destruction of highways shown in the above illustration, it is pointed out that pleasure cars and light farm and delivery trucks stand an unjustifiable share of costs of highway upkeep.

ONE TRUCK'S WILD RIDE

Kansas City, Kans.—A 15-ton truck on a wild ramped, finally came to a stop at this hardware store. A part of the damaged wall of the building rests on the truck which cannot be removed until workmen brace the structure so the wall will not collapse.

RY THIS TRICK By PONIAV HARRAM

Blue green is the color of this chic woolen ensemble. Its very short jacket has tuxedo revers of black Persian and its simple dress is made with an adjustable scarf neckline. The unusual belt with the entwined horns effect is of black calf.

Brownwood Program For WTCC Is Ready 10,000 Are Expected

Brownwood, April 12.—Elaborate preparations are being made for the nineteenth annual convention of the West Texas Chamber of Commerce to be held here May 10, 11 and 12.

Brownwood Chamber of Commerce already has appointed the convention steering committee and committee chairmen. Jed Rix, assistant WTCC manager, has opened convention headquarters in Hotel Brownwood.

An attendance of at least 10,000 people is expected. Hotel reservations are being received daily.

General outline of the program has been completed, but a number of details are yet to be worked out. The program will include two general assemblies, on Tuesday and Wednesday mornings.

In addition to the general assemblies, four group conferences will be held. "Soil Conservation and Flood Prevention," general theme of the entire convention, will be topic of discussion at one of the conferences. Subject of another one of the conferences will be "Oil and Gas Development in West Texas."

Two luncheons for WTCC directors, who are expected to attend from all affiliated cities and towns, will be held, one on Monday and the other on Tuesday. The directors will hear reports from the convention work committees and vote on proposals and resolutions received.

A luncheon for newspapermen and Chamber of Commerce secretaries will be held Tuesday, May 11.

Two outstanding shows, for which talent already is being secured, will be presented under the direction of Dr. Mollie W. Armstrong Brownwood. The shows will be highlights of the Monday and Tuesday night programs of the convention.

Governor James V. Allred and Col. Ernest O. Thompson, members of the Texas Railroad Commission, have accepted invitations to speak during the convention. Other speakers of national prominence will appear on each program during the three-day session.

Presidents as Latin Solvers Taft, Coolidge and Hoover were good Latin scholars, but not linguists in modern languages.

What's Happening In Washington And Other Cities Of Importance

The House division of Congress last Friday suddenly decided to table the sit-down strike bill without voting on it.

The Shell Union Oil Co. in its report for 1936 just released, says its consolidated net income was \$22,494,264, the largest earnings for the past 15 years.

The Florida grapefruit crop this year is reported six million boxes above normal, or a total of 17,500,000 boxes, each box holding approximately two bushels.

A total of \$57,566,707 has been allocated by the Rural Electrification Administration for construction work in 42 states. More than 130,000 farms will be serviced from this fund.

A "big family" decree issued in Russia last June is bearing fruit, births of the first three months of the year totaling 32,632 compared with 16,246 for the same period in 1936.

Senator Robinson, Arkansas, says reelection this year is likely to be cut down so money may be used for other purposes. He declared there will be no new taxes this year.

Members of the Workers Alliance have made an appeal to Harry L. Hopkins WPA administrator for a 20 per cent wage increase which will be promptly disapproved. He also refused to approve a \$4,000,000 relief bill for next year.

MULESHOE WINS IN TENNIS

Tuesday afternoon the tennis teams of Muleshoe High school motored to Farwell to play match games with players of the High school there. Players from here and their winnings are as follows: Mary Hester Glaze, girls singles, who won; Irma Willis and Betty Ruth Mueller, girls doubles, and won; Weldon Brooks Winn, boys singles and he won; Clifton Griffiths and Charles Alsup played boys doubles, but they were defeated.

Friday of this week they will compete in the District Intercollegiate League meeting at Lubbock.

PAPER STOCK PRICES GOING HIGHER! INCREASED COST OF RAW MATERIALS MAY AFFECT PRICES

Business Men Should Place Orders Early Before Advance In Prices Necessary

During the past two months paper stock of all kinds has advanced from 20 to 35 per cent, and present indications are for still higher prices. A leading paper house has sent out the following letter of warning:

"At this time last year, sulphite pulp was costing paper manufacturers \$37.50 per ton against a cost today of \$83.00 per ton, with some mills offering to pay a bonus of \$5.00 per ton for additional pulp."

This means advances of 100 per cent for paper stock may soon be in order, while the average advance will be around 30 per cent.

WHY THE INCREASE

Chemicals and pulp, used in paper manufacture are also largely used in manufacture of rayon, gun-cotton and other war materials. Many foreign countries are keeping at home and using these materials. Home demand plus tariff levies in America have virtually cut off all importations of chemicals and paper to this country. Advance in all costs, including labor, are responsible for increased prices of paper.

It is suggested that business concerns soon needing printing of any kind place their orders NOW, thus saving on future rising costs which seem inevitable.

NEGRO DEATH OF SHERIFF DEATH IN LAMB COUNTY

(Continued from page one)orney E. A. Bill, Littlefield, and J. A. Gowdy. Oltun had been appointed by Judge C. D. Russell to defend the negro. Following the jury verdict, the negro was returned to the Lubbock county jail where he was held until Monday of this week to be returned to Oltun for sentence pronouncement. It is reported his attorneys may make motion for new trial; but if such is denied the black was promptly transferred to a death cell in state penitentiary. Later, motion for new trial was duly made, decision of judge to be given next week.

The case was given to the jury early in the afternoon after the forenoon had been devoted to hearing testimony for the prosecution and defense, the delivery of the case's charge and the start of argument by attorneys. The state had announced Friday afternoon that it rested and the defense examined one witness, but next morning Judge Russell gave District Attorney Charles H. Dean permission to resume the introduction of prosecution testimony. Practically all the state's testimony Saturday was designed to plug the one hope the negro held of escaping the chair—the theory that he was so intoxicated that he did not know what he was doing. The jury was not permitted to consider that defense in arriving at a verdict of guilt or innocence, but it was allowed for consideration in fixing punishment, if the jurors so chose.

Prosecution witnesses called first were, in the order, William Gordon, a negro; Constable Tom Matthews of Littlefield, who arrested Kelly after the fatal shooting; and J. T. Spights, Littlefield, companion of Matthews when the arrest was made. Sheriff Abel of Lubbock was the last defense witness after Kelly had testified. Gordon's Story Not Heard It was while attempting to arrest Kelly for having threatened Gordon that Sheriff Loya was shot, down. Technicalities barring Gordon's testimony were upheld by Judge Russell which prevented the negro from telling his story.

Constable Matthews said that Kelly when arrested, recalled that he had "shot a white man." The constable related also that he discovered the negro's forearm had been shattered by a bullet and that the man still carried the death weapon in his right-hand pocket.

Spights' testimony corroborated that of the constable and did not add what further. He said that he first sighted Kelly, and that he halted a gesture by the negro toward his pistol pocket with the warning, "don't try any funny stuff or I'll cut you in two." Sam Hutson, deputy sheriff, who was with his chief when the shots were fired, broke down on the witness stand in giving testimony.

The high spot of Saturday's proceedings was reached when Kelly took the stand, testifying clearly and made a good witness for himself. He related that he was reared in East Texas, but had spent the last several years in West Texas, the last four at Littlefield. His only work during that time, he said, has been occasional jobs.

He testified that he began drinking early on the day of the slaying, first consuming a pint of whiskey and then half a gallon of choc beer. He still was drinking beer, he said, when he "passed out," and he insisted that he remembered nothing from that time until he awakened in the Lubbock county jail the following day to be told that the sheriff then was at the point of death in a Lubbock hospital. The sheriff died the following day.

The district attorney was assisted in the prosecution by R. Hall, Lamb county attorney, and Mead Griffin of Plainview, former district attorney. A. C. Brigrance was foreman of the jury.

BENNETT HAS CAR STOLEN Virgil Bennett, former Muleshoe citizen; but now living at Lockney, reported to police last Thursday morning that his 1926 model Ford sedan had been stolen while parked in front of the Hotel Clovis, at Clovis, N. M. The car was stolen about 11 o'clock Wednesday night. It bore Texas license and was equipped with white-walled tires.

It was located the next day by police being found in the sandhills south of Clovis, stripped of accessories and abandoned about two and a half miles west of the Portales highway. Clothing belonging to Bennett and Paul Lawrence, also some blankets had been taken.

SENATOR NELSON SPEARS HERE State Senator G. H. Nelson will deliver the Commencement address before the Senior class of Muleshoe High school here Friday evening May 21 according to a letter received Tuesday replying to an invitation from Superintendent W. C. Cox. Senator Nelson is a good public speaker and school patrons and citizens may look forward to an intellectual treat on this occasion. Prof. Cox stated the minister to deliver the baccalaureate sermon had not yet been selected.

NEWS—FISH BITES MAN PRAIRIE DUCKS WIS—Archie Mann cut a hole in the Mississippi river ice and was scooping out fragments when a large garpike bit his hand and held on until Mann jerked him out on the ice. The fish had taken a chunk out of his hand.

General News Over Texas And Adjoining States For The Week

Dallas city manager reports parking meters in that city produce an average monthly income of \$10,000.

Farmers of Texas last year revived the almost extinct crafts of leather-tanning and syrup-making, adding \$200,000 to their incomes from such.

There are now 580 schools in Texas teaching vocational agriculture to 10,293 youths, while 11,000 adults attend night classes in such schools.

Hal Wright, Buna, Newton Co., has peacn trees on his place 100 years old, planted by his great-grandfather who settled the place.

Joseph F. Knapik, 65, San Antonio, has just retired after traveling 40,000 miles during 30 years as a mail carrier in that vicinity.

Effort is being made through circulated petition to oust D. P. Trent head of the Resettlement administration at Dallas.

Hockley county last week received \$23,000 government agricultural checks, Lamb county receiving about \$80,000.

More than 100 Texans left last week on a special train for Washington to protest against President Roosevelt's Supreme court reorganization plan.

Mrs. Ralph E. Smith, Port Arthur, has a rose bush 26 years old. It is 16 feet high and 18 feet in diameter. People from all over the U. S. have been attracted to it.

The University of Texas has assets totaling \$56,613,249 in the Austin main campus, and the Galveston medical building, according to an audit recently made.

Mrs. Emiline LaShappelle, 92, a citizen of San Antonio for the past 83 years, has recently applied for citizenship papers. She is a native of Germany.

Kenneth Trooper, Lipscomb county, owns a cow that has given birth to four sets of twin calves consecutively. Two were normal and had a different size.

Texas has 286,000 tenant farmers, comprising one-third of the state's total, yet has seven and three-quarter million acres of undeveloped farm land within its borders.

A nursery for U. S. Forestry service has been established at Plainview. About 50 acres has been purchased, to be irrigated and from 20 to 50 men will be employed.

The Senate last week overrode Gov. Alford's veto of a revenue remitting taxes to Harris county, intimating there was getting to be entirely too much of this county tax remittance.

The Oklahoma legislature has appropriated \$35,000 for a statue in the late Will Rogers to be placed in the National Statuary hall at Washington, D. C.

A committee has been appointed in the Texas House legislature to investigate at least 17 alleged violations of state laws by employees and department heads.

One important crop produced in Jack county, this state is that of petrified wood. One man's yard fence is composed of such stone posts, with knots plainly visible where the limbs once grew.

A big deposit of pelicanic ash, basis of many washing compounds, has been discovered in the "lost river" bottoms near Big Spring. The pumiceous deposit is in large hills and practically free from deleterious elements.

Citizens of Portales and elsewhere in Roosevelt county, N. M. have signed up a petition of approximately 500 signatures, only 392 being required to vote bonds for a proposed new court house in that county.

Port Arthur has the only sub-court house in Texas, it costing \$227,350. Law provides such may be built in a city other than the county seat when the city reaches a population of 50,000. Jefferson is the only county in this state where such condition exists.

Dickens county now has a White House. The court house at Dickens built several years ago, has been completely remodeled, enlarged by addition of several rooms, new roof added, and all painted white. Today it looks much like the White House at Washington.

El Paso has joined other towns throughout the nation in protesting regulations of New Mexico Port of Entry laws. It is reported newspapers and auto clubs north and east are advising tourists to avoid New Mexico entirely because of fees charged trucks and cars passing through that state.

Great throngs crowded around the First National Bank at Beaumont last Saturday demanding 50 deputy sheriffs and policemen to clear the way when \$10,000,000 in deposits was transferred from the bank's old building to vaults of the new one occupied that day.

It is reported the Legislature may

take steps to halt the sale of babies in Texas, which is said becoming common among founding homes, where babies are left for adoption of childless parents. Rep. Ben O'Neal proposes a bill prohibiting marketing of babies under 15 years of age, claiming many are sold at from \$15 to \$50, while it is reported many movie actresses and other wealthy people have paid as high as from \$500 to \$1,000 to get a baby for adoption.

The U. S. Supreme court last Monday upheld constitutionality of the Wagner labor relations act when applied to interstate commerce.

Invalids gain faster with this marvelous new tonic which helps build healthy, red blood corpuscles

It is remarkable how much better Pursang makes invalids feel. And not only invalids but those who always feel "half sick" because of illness, overwork, wrong food or lack of exercise have reduced the iron content of their blood.

Physicians and hospitals now often prescribe Pursang as an aid to convalescence. If you are tired or nervous, can't sleep or eat well, or find it hard to recover from simple illnesses, try Pursang for a week or so. See how much better you feel.
