OLD SANTA TO VISIT MULESHOE, SATURDAY, DEC. 18

CHRISTMAS TREES, BRIGHT LIGHTS OF MANY COLORS TO ADORN MAIN ST. AS SANTA CLAUS PAYS VISIT

Gifts Of Candy, Fruit and Nuts To Be Given All Children Of Bailey County Who Attend On This Occasion.

Muleshoe, in keeping with other progressive towns of this area, will celebrate the Yuletide season in gala manner, according to R. L. Brown, president, Chamber of Commerce, who with a committee is this week directing the erection of three big Christmas trees to be appropriately decorated and which will be located at the three principle street intersections on Main street.

It is the plan of the committee to ho string wires across the Main street strategic places to turn be strings of highly colored electric lights of -rigated hues. Holly, mistletoe and her appropriate decorations will also nature the display.

Saturday afternoon, December 18, Santa Claus and his son, Santa Jr., and possibly his daughter, Miss Claus, will be here with marvelous big packs of candy, nuts, fruit, etc., to present every according to -Booster Bob, Sharp school child in Bailey county. It is going to be a whole of a jollification time, shooter Jim and Cephus Curtis, who are putting in long hours and arduous labor seeing that everything is in proper condition for the annual appearance of this much famed gentleman of long whiskers from the Arctic regions.

Information is going out this week to every school district in Bailey county regarding the gala occasion and all teachers find school boards are being asked to make appropriate arrangements toward seeing that every one of their pupils may be present to have a word with Old Santa and receive the tokens of love and appreciation he has for his young Americans.

Sharpshooter Jim says the reason Old Santa is bringing his son, Santa Jr., along with him this time, is because the reverend old gentleman is getting quite aged and in another year or so may have to retire from these wintry visits, turning the pleasurable task over to his boy, whom he is breaking in this winter and giving him the opportunity of becoming intimately acquainted with all the boys and girls of Bailey county. All parents are urged to co-operate with the business men of Muleshoe in seeing that ways are provided for their children of all ages to attend this particular annual visitation meeting and receive their gifts from Old Santa.

Social Welfare Meet To Be At Amarillo Fri-Sat. Dec. 10-11

Program for the regional meeting of the Texas Conference of Social Welfare was announced Saturday by Mrs. Floyd Cooper, general chairman, to be held in the Crystal ballroom of the Herring Hotel, Amarillo, December 10 and 11.

"Public Welfare" will be the theme of the opening session at 10 o'clock Friday morning December 10. Alwyn Williams will preside; John McCarty will give the address of welcome; Judge A. R. Allison of Levelland will speak of "County Organizations for Welfare Purposes."

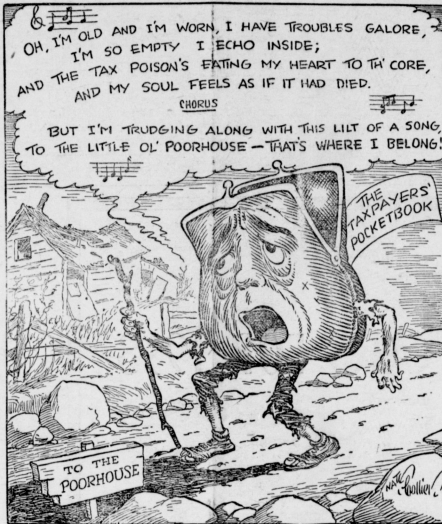

At the luncheon meeting Friday, Miss Rosalind Giles will preside. The "Youth Section" will meet during the early afternoon with C. M. Rogers, presiding; and "Old Age Assistance" group in the later afternoon with Mrs. Charles Thresher, of Abilene presiding.

At the dinner meeting where "Public Health" will be the theme, Dr. B. M. Primer will preside. At the evening meeting Friday, Bishop Lacey will preside and Governor James V. Alfred will speak on "Probation and Parole."

Family welfare, rural social and economic problems, and the participating of the laity in the public welfare plans will be included on the program of Saturday, December 11. The meeting will be attended by Mrs. Frances Thomas, Bailey county social welfare worker, and Judge M. G. Miller, of Muleshoe.

Following a two years absence, Col. Mrs. Charles A. Lindbergh slipped out into America last Monday to find the Christmas holidays. They had their children in England and will turn shortly. No statement has been made public regarding their trip here.

THE POCKETBOOK'S LAMENT

3,080 Acres Of Land 20 Town Lots Change Hands During Nov.

There were 3,080 acres of land and 20 town lots in Bailey county that changes hands during the month of November, according to records at the County Clerk's office, as follows:

Houston Brandon et ux to D. E. Harris, section 23, Block C, 640 acres.

L. C. Cotham et ux to J. G. Cotham S½ section 54, block Z, W. D. & F. W. Johnson subdivision, 320 acres.

Mrs. Birdie H. Parker to Sam Sanders, labor 15, league 208 Ochiltree county school land, 177.1 acres.

May Wilemon, et ivr to A. R. Matthews, lots 13, 14, 15, block 39, Muleshoe.

D. B. Carles et ux to Jack Stallings north 40 acres of W½ of SW¼ section 41, Block Y, 40 acres.

H. G. Harvey to C. L. Long, 1 acre out of labor 21, league 188, Swisher county school lands.

H. G. Harvey to Hershel Baker, 1 acre out of labor 21, league 188 Swisher county school lands.

Mrs. Mollie Stearns to M. O. Stearns E½ section 2, block X, 320 acres.

Elbert Adamson et ux to G. W. Davis W½ labor 25, league 112 Crosby county school land, 85.5 acres.

T. C. Grusenford, et ux to J. K. Stoker, section 34, block C, Melvin Blum and Blum, 640 acres.

Mrs. Earl Thomas et vir to A. R. Matthews, lots 15, 16, 17, block 45, Muleshoe.

C. J. Cotham, et al to L. C. Cotham, S½ section 54, block Z, 320 acres.

Byron Waller to Roy Regd, NW¼ section 43, block Z, 160 acres.

Frances Prass et al to Harry Berkson NW¼ section 29, block Z, 160 acres.

Goldie Mac Kay to R. J. Vierman, N½ section 37, block C, 320 acres.

P. T. Vierman to R. J. Vierman, N½ section 37, block C, 320 acres.

Jim Cook, sheriff to Claude Callaway County Judge, Ford Co., labor 6, league 192, Ford county school lands, 177.1 acres.

Jim Cook, Sheriff to Claude Callaway labor 15, league 192, Ford county school lands, 177.1 acres.

Jim Cook, sheriff to Claude Callaway, labor 16, league 192, 177.1 acres.

Walter White to W. B. McDaniels, lots 11 and 12, block 43, Muleshoe.

W. L. Keen et ux to Elvin C. Smith lots 11 and 12, block 5, Warren addition, Muleshoe.

Joshua Blocher to Harvey Edward Threft, lot 37, block 4, Apple street, Progress.

Texans Protest Cut Of Highway Moneys Sought By President

If plan of President Roosevelt for curtailing highway building expenses as a means toward balancing the federal budget pass congress, it is said Texas will have to take a 50 per cent cut for the next two years and a 37 per cent reduction thereafter.

Officials of this state are making serious remonstrances against such reductions, numerous group and other organizations being held this week. While it is known that northern and eastern states that already are well equipped with roads favor the reduction, yet western and southwestern states, where many more miles of improved highways are needed are strongly opposed the move.

It has been intimated that some road-building already authorized in Texas, including topping of State Highway No. 214 south of Muleshoe, may have to be held up for awhile if the President has his way in this matter.

TEXAS BUILDS HIGH MONUMENT

Texas citizens are raising the highest monument in the U. S. to memory of heroes of the battle of San Jacinto, that 18 minute fight which gave the state freedom from Mexico.

The monument will be 564 feet high, nine feet higher than the Washington monument in the nation's capital. President Roosevelt will be asked to dedicate it next April 21.

CHURCHILL IS WINNER IN THE TURKEY SHOW

Washington Grower Is First Winner; 256 Birds Shown.

Grand champion honors of the Southwestern Dressed Turkey show held at Plainview last week went to A. L. Hamilton, Chehalis, Washington on a 20 pound bird. A 26-pound young hen exhibited by Hamilton also took first award in that class.

Levi Churchill, Bailey county turkey grower, exhibited the winning pair of young tens and first prize box of young hens. Churchill also won third for young tom; fourth for young hens, and second on old tom.

There were 256 birds on exhibit during the show, and 3,838 pounds of dressed birds were sold under the hammer by Col. H. S. Hilburn, auctioneer, bringing an average price of 20 cents per pound.

Officials of the show were high in their praise as to quality of birds exhibited, declaring them to be much better than those shown last year.

PREACHER SEVERELY POUNDED

Rev. J. F. Sharp, recently appointed pastor of the Methodist church here, and his family were given an old-fashioned "pounding" by members of his congregation Wednesday night of last week, it coming as quite a surprise to them.

While a meeting of teachers and church officials was being held at the church, designing members of the flock quietly slipped into the parsonage and piled the dining table high with a wide variety of appetizing foods just as an introductory appreciation of the good judgement of Bishop Boaz and his cabinet members in sending this minister here.

Rev. Sharp is starting off nicely with the church work at this point, many words of commendation and appreciation having been expressed by members of the church.

SHIP FEED TO OKLA. ORPHANS

A 60,000 pound carload of feed, consisting of maize and kafir corn, was last week donated by citizens of Hockley and Cochran counties and shipped to Tipton Orphan home in Oklahoma.

There are 236 children in the home at this time. The feed will be used for a dairy herd which in turn supplies the inmates.

ATTEND METHODIST MEETING

Rev. Jim F. Sharp, local Methodist pastor, accompanied by Mrs. Sharp, Mrs. H. C. Holt and A. C. Gaede attended a district meeting of pastors, stewards and officials of the masonry society that denomination held at Tullis last Tuesday.

B. N. McDANIEL GIVEN 5 YEARS FORGERY GUILT

Criminal Conviction Also Given In The County Court.

B. N. McDaniel pleaded guilty to a charge of forgery last Tuesday in District court here and was given a sentence of five years in the penitentiary. Wednesday morning he was taken by officers to Lamesa to face similar charges. He is said to have been an old hand at the forgery business, according to finger print records.

Edward Moore, previously confined in the Floyd county jail, was given two years sentence in the state penitentiary on a charge of stripping trailers of castings.

Louis McGinty, charged with stealing chickens, was assessed six months servitude in the county jail, and having been so incarcerated for that period was discharged by the court.

Dewey Kincaid pleaded guilty to a charge of driving while intoxicated and given a 30 day jail sentence.

In County Court
Ernest McDonald, on a charge of theft, pleaded guilty and was assessed a fine of \$100 plus costs and 10 days in jail.

Pete Rowe, on similar charge, was fined \$25, costs and six months in jail.
Raymond Miller on similar charge, was assessed \$25, costs and one year in jail.

Will Harper, negro, pleaded guilty to possession of liquor and was given a fine of \$10, costs and three days in jail. Similar penalty was assessed Dasfon Lawrence.

Baca Dupreto Jr., on a charge of theft returned a fine of \$100 and five days in jail.

Nine indictments were returned last Friday by the Grand jury.
District court dismissed Tuesday night until Thursday morning.

SUSPEND TAKING COTTON

Cotton gins in several towns of this area have been so rushed with ginning they have been compelled to suspend taking cotton until they catch up with requests.

At O'Donnell, 5,000 bales of seed cotton is reported parked on the grounds about the gins, and similar situations exist in other towns.

Government warehouses also are being relieved of their congestion, several thousand bales having been shipped last week and this week to gulf or other concentration points.

MIST AND RAIN HERE

A mist and light rain fell in the Muleshoe area Thursday night of last week, falling slowly and sinking in the ground to refresh fall wheat plantings and pastures.

DEPUTY ST. SUPERINTENDENT G. D. HOLBROOK ADDRESSED TEACHERS INSTITUTE HELD IN MULESHOE FRI.

Chamber of Commerce Banquets Visitors At Noon; County League Officials Are Named; Free Picture Show.

Farm Committeemen Named For Farmers Program For 1938

With the completion of election meetings to select community committeemen for the 1938 Agricultural Conservation program, held during the past three weeks, it is noted that few changes were made in the various communities from 1937. The county is allowed three committees composed of three regular members and one alternate.

The committee selected by farmers in the north part of the county, designated as Community "A," which shall serve West Camp, Progress, Muleshoe, and Y L districts, is composed of W. G. Kenney, chairman, C. A. Reeves, vice-chairman, E. L. Smith, third member and Roland Bigham, alternate.

Community "B," which covers Baileyboro, Watson, Maple, Goodland and Stegal districts will be served by W. L. Key, chairman, Louie Arnold, vice-chairman, C. W. Williams, third member and G. A. Davis, alternate.

Community "C," composed of Longview, Fairview, Circleback, Bula and Enoch elected G. W. Damron, chairman, V. C. Weaver, vice-chairman, J. C. Terrell, third member and V. E. Garner, alternate.

To avoid the possible necessity of holding additional committee elections in the event any of the above committeemen are unable to serve, a second alternate was elected for each of the communities as follows: Community A, Tom Radney; Community B, J. A. Johnson, and Community C, W. R. Carter. These are not official committeemen but will go on the official roster when and if any members of the official group fall for any reason to serve.

Chairmen and vice-chairmen of the various community committees constitute the County Board of Directors and will elect the county committee from among members of their group. This part of the organization is to be completed within the near future.

TEACHERS IN RETIREMENT PLAN

Of the 64 teachers employed in Bailey county public schools, 49 of them have joined the Teachers Retirement system, Nov. 30 being the deadline for such action, according to M. G. Miller, county school superintendent.

The fund is maintained by a five per cent tax on each teacher's salary. About \$155 per month will be contributed toward this fund from teachers of this county.

H. D. Council Will Have Christmas Tree At Baileyboro, 15th

Bailey County Home Demonstration council met at Baileyboro school house at 2:00 p. m. Wednesday, December 1, and the following officers were elected:

Mrs. M. A. Snider, West Camp, chairman; Mrs. Henry Hanover, Goodland, vice-chairman; Mrs. D. O. Chester, Joyland, secretary; Miss Elzada McMahon, Progress, treasurer.

Plans were made to have a county-wide Christmas party at Baileyboro school house at 2:30 p. m., Wednesday, December 15. The public is invited to attend.

The council membership asks that each person who attends bring a home made or an inexpensive Christmas gift. Those who bring gifts will be expected to bring a gift for each guest. No names will be placed on the gifts. Those who bring their husbands are asked to bring an extra gift.

COLLECTS \$8,659 TAXES IN NOV.

State and county taxes collected during November total \$8,659.44, according to Jim Cook collector, this including payment of 75 poll taxes.

Collections this year are running about the same as this time in 1936, he said, maybe a little less.

Cook reminds those who became 21 years of age after January of last year that an exemption certificate will be required before they will be permitted to vote. All poll taxes must be paid by January 31, so as to vote.

The Bailey County Teachers Institute held here Friday of last week in the auditorium of the Methodist church was declared by many who participated as being the best of its kind they ever attended. Every teacher employed in the county, with the exception of two who were unavoidably detained, attended the all day session. There were also present members of the County School board and various district boards and other visitors.

County Superintendent M. G. Miller presided over both morning and afternoon sessions in an efficient and businesslike manner. The morning program was opened with the singing of "America" by all present, after which Rev. Jim F. Sharp, local Methodist pastor read the twenty-third psalm and conducted a short and very appropriate devotional period.

Miss Robble Foster, Bula, was named secretary for the session, and committeemen were appointed as follows:

Resolutions: Johnnie Love, Circleback; C. R. Stevens, Muleshoe; Emmett Brumblow, Stegall; F. O. Boone, Liberty; H. C. Robertson, West Camp.

Intercholastic League: Fred Bryant Longview; Mrs. Lillian Beatty, Muleshoe; Russell Craft, Baileyboro; Otis Taft, Bula; Roger Harvey, Watson.

Teachers organization: W. C. Cox, Muleshoe; G. M. Daugherty, Bula; Richard Finch, Willam; M. L. Gunter, Progress; Seth Rollins, Goodland.

With this phase of business out of way, the audience then listened to a very timely and interesting address by Prof. W. C. Cox on the "Teachers Retirement Plan" in which he gave many details of the new law soon to become effective. This was followed by a well received violin solo by Mrs. Curtis Taylor, accompanied by Miss Orla Mae Lawrence at the piano.

Henry Hanover, Goodland, county school board member, told of "Some Things the County Board Would Like to See Done." Prof. G. D. Holbrook, Lubbock, deputy state superintendent of education, gave the address of the day in which he made numerous suggestions of a vital nature along educational lines. The session was then adjourned for a banquet at the American Legion.

TWO MODELS, 1938 FORD V-8 AUTOS NOW ON DISPLAY HERE AT DEALERS MANY NEW FEATURES ARE IN CARS

Ford V-type 8-cylinder cars for 1938 are on display in Muleshoe Motor Co. dealer showrooms here. They are offered this year as two distinct lines, differing in appearance and price. Both are in the lowest price field.

One is a newly-styled standard Ford line, in coupe, Tudor and Fordor body types, powered either with the 85 or the 60 horsepower V-8 engine. The other is a newly-designed de luxe line for owners who desire additional style and appointments. Powered only with the 85 horsepower V-8 engine, the line includes eight body types, the coupe, Tudor and Fordor sedans, as well as the club coupe, convertible cabriolet, club convertible cabriolet, convertible sedan and the phaeton. The de luxe cars are larger in appearance. The hood has been lengthened. Its nearly vertical front is carried in a "V" well down into the radiator grille, with the familiar V-8 emblem at the tip of the "V". Horizontal lines of the grille bars and the louvers are echoed in a bright rustless steel band which is carried along the belt to the rear.

Fenders in both cars are massive, formed lower to provide more complete coverage of the running gear and extending farther back. Headlamps are

again recessed in front fender aprons, new type tail lamps in the tips of rear fenders.

Interiors of the two cars are roomy and attractive, styled in keeping with the exteriors. The de luxe sedan interiors are larger.

A new instrument panel adds measurably to the beauty of the front compartment. The panel of the de luxe line cars is in walnut grain finish. The standard line cars in mahogany finish. Instruments in both cars are lighted by improved fringe illumination, designed to provide safer lighting for night driving.

Steering wheels of the de luxe cars are of flexible multiple steel spoke type, with hubs of rich brown bakelized material and rims of lighter contrasting color. Standard car steering wheels are of three-spoke type, finished in beige. The upper spokes are widely spaced to give the driver unobstructed view of the instrument dials.

Night driving safety is also increased by addition of a headlamp beam control on the toe-board of both lines. The control is operated by the foot. A tell-tale light on the instrument panel indicates the position of the beams, whether high or depressed.

Both front and rear seats are wide

enough for three persons. Seat cushions and backs are finished in piping and pillow treatment. In the de luxe cars the finish is set off with rows of ornamental buttons. Ash trays are recessed in rear seat arm rests of the de luxe closed sedans.

Bodies of both car lines are all-steel. There is no metal-to-metal contact between body and frame, the result of thorough use of insulation. Safety glass is used throughout in windshield, doors and windows.

The luggage compartment in all cars is closed off by a wall from the passenger space, and locked with a separate key.

The V-8 112-inch wheelbase chassis has been improved. Its features include "centerpoise" construction, rubber-cushioned engine, easy steering, softer springs, improved cable-controlled brakes, semi-centrifugal clutch, full torque tube drive and straddle-mounted rear axle driving pinion.

Refinements in the V-8 engines to provide better performance, particularly at lower car speeds, and brake improvements increase the ease of control by the driver. Riding is made more comfortable by the improved springs.

Politeness

"Politeness can't be put on all of a sudden," said Uncle Eben. "Some men try'n' to be polite makes you think of a swallow-tail coat hurried on over a suit of overalls."

MRS. MARY DAVIS HONORED

Mrs. Mary Snow Davis was honored on her birthday anniversary last Thursday at the regular meeting of the Half Century club. The honoree was very unsuspecting when the guests gathered at her home for the scheduled meeting.

Many lovely gifts were presented to her from club members. The real surprise came when a beautiful birthday cake was presented to her by Misses Alma Stewart, Eunice Florence and her daughter Mildred Davis. The cake was served to the guests with a delicious punch drink.

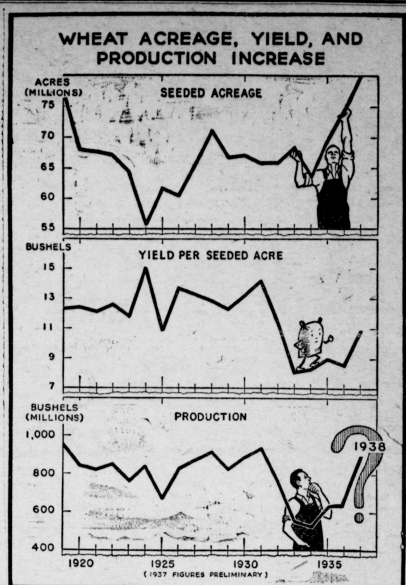

Those attending the meeting were: Mesdames C. C. Mardis, T. L. Eason, Alex Paul, Carl Taylor, Neil Rocky, J. A. Mothermal, A. P. Stone, Beulah Carles, and the guest of honor, Mrs. Mary Snow Davis.

CARD OF THANKS

We take this method of thanking our many, many friends for all their kindness and help shown us during the illness and death of our loved one, husband and father, and pray god's blessings upon one and all. We also greatly appreciated the beautiful floral offerings.

—Rosie Moon, wife; Mary Moon, daughter; D. P. Moon, son; Curtis Hill Moon, brother.

Buy it in Muleshoe.

College Station—A resume of recommendations made by program planning committees over the nation's wheat belt shows they recommend 66 million acres as the ideal wheat acreage, according to W. E. Morgan, economist in program planning of the Extension Service division of Texas A. and M. college.

The recommendation is based on past acreages, yields, consumption, carry over, and land use, Morgan said.

If in 1937-38 farmers seed 81 million acres to wheat, as they did last year, and if yields are average, they

will produce a crop of 950 million bushels. This, with the estimated carry over, will give a supply of more than a billion bushels.

A billion bushels supply would be some 350 million bushels more than we ordinarily use for domestic needs, Morgan pointed out.

Exports of American wheat have declined for the past 15 years, and there is little likelihood that the export market will absorb any considerable part of a carry over that large. This situation probably would depress domestic wheat prices to an unfavorable level, according to Morgan.

Longview News

Mr. and Mrs. N. C. Moore were visitors in Sudan, Sunday.

Tom Watson was in Lubbock on business Friday.

Charlie Tiller of Organ is visiting his parents, Mr. and Mrs. P. T. Tiller of this community.

Mrs. E. W. Duke returned home from Big Spring Sunday where she had been visiting her sister.

H. E. Tiller of Oklahoma, visited his parents, Mr. and Mrs. P. T. Tiller, Friday.

Mr. and Mrs. D. R. Totten were shoppers in Clovis, N. M., last Thursday.

Mr. and Mrs. Tom Watson were shoppers in Clovis, N. M., Wednesday of last week.

Mr. and Mrs. W. E. Wagon went to West Camp Sunday.

Mrs. Sam Morgan, son, J. T. Morgan and George Duval of Lubbock, visited Mr. and Mrs. W. E. Wagon, of this community, Friday afternoon.

Chester Allison of Hillsboro is visiting in the home of Mr. and Mrs. F. R. Barton of this community.

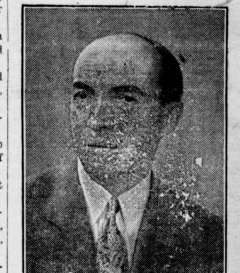

H. F. Vaughn, who has been visiting his sister, Mrs. Carl Heard, has returned to his home in Atlanta, Ga.

Mrs. Lila Cooper was a shopper in Clovis, N. M., Saturday.

Mr. and Mrs. J. W. Johnson are the proud parents of a girl, "Wanda Carroll," born Dec. 4.

J. F. Wills of Farview, visited in the home of Mr. and Mrs. J. C. Kuykendall and family of this community, Sunday.

Announcing

TWO NEW FORD V-8 CARS FOR 1938

THE DE LUXE
85 HORSEPOWER

DE LUXE FORD V-8 . . . 112" wheelbase; 85-horsepower engine; Improved Easy-Action Safety Brakes; Center-Poise Ride; All-steel body; Mohair or Broadcloth upholstery; Walnut-finished trim; Twin horns, tail lights, sun visors; Clock; 600" black tires, white side-walls are extra; 8 body types; 6 colors.

THE STANDARD
60 OR 85 HORSEPOWER

STANDARD FORD V-8 . . . 112" wheelbase; 85 or 60 horsepower engine; Improved Easy-Action Safety Brakes; Center-Poise Ride; All-steel body; Broadcloth or Mohair upholstery, Mohair extra in "60"; Mahogany-finished trim; One tail light, sun visor; Twin horns; 3 body types; 3 colors.

Ford offers two new cars for 1938—the Standard Ford V-8 and the De Luxe Ford V-8. They are different in appearance—but built to the same high standard of mechanical excellence—on the same chassis.

Because people liked our 1937 car so well, they bought more than of any other make. They liked its looks, its smooth performance, and the way it handled. We have improved on that car in the newly styled Standard Ford V-8.

But some folks wanted still more size and style, with the same Ford advantages. For them, we designed a new De Luxe line.

The De Luxe Ford V-8 Sedans are longer with more room, larger luggage space, and finer appointments all around.

De Luxe cars are equipped with the 85-horsepower engine only.

The Standard is even lower priced than the De Luxe. It has graceful new lines and well-tailored interiors—with a choice of engine sizes—85 or 60 horsepower.

Before Ford made V-type 8-cylinder engines available to every one, they were used only in expensive cars. Since then, four million Ford owners have learned the genuine enjoyment of driving an eight-cylinder car with all-around economy. The thrifty "60" engine, especially, makes possible in Standard models a very low first cost and equally low operating cost. With two distinct designs, two engine sizes and two price ranges, you'll find a 1938 Ford car to fit your needs exactly.

PRICES FOR CARS DELIVERED IN DETROIT—TAXES EXTRA

Standard Ford V-8 (60 hp.)—Coupe, \$599; Tudor, \$644; Fordor, \$689. Standard Ford V-8 (85 hp.)—Coupe, \$629; Tudor, \$669; Fordor, \$714. De Luxe Ford V-8 (85 hp. only)—Coupe, \$689; Tudor, \$729; Fordor, \$774; Club Coupe, \$749; Convertible Club Coupe, \$804; Phaeton, \$824; Convertible Sedan, \$904.

Standard and De Luxe cars equipped with bumpers, bumper guards, spare wheel, tire, tube, tire lock and band, cigar lighter, twin horns, and headlight beam indicator on instrument panel, at no extra charge.

In addition, De Luxe cars are equipped with extra tail light, windshield wiper, sun visor; also de luxe steering wheel, glove compartment lock, clock, and chrome wheel bands, at no extra charge.

ARE NOW ON DISPLAY HERE IN OUR SHOW ROOM

You are cordially invited to be among the first to see these magnificent new Ford V-8s for 1938—differing in appearance, body, size and price from anything heretofore ever seen.

We will be pleased to have you visit our showrooms and get full information of our premier showing. Also—

SALES SERVICE

TUDOR — FORDOR

We have ready for your inspection, the new 1938 Standard Models in the above body types. These cars will appeal to the eye thru their new streamlining with the more massive hoods, fenders and larger bodies. You will find considerably more room in trunk as well as the body. The dash is newly styled and the new freshness extends throughout the car to the airplane propeller trunk handle and rear license plate light which is mounted in the center of deck door. This standard line of cars will appeal to your sense of economy, as it is truly a well-balanced car, both as to beauty and price, still retaining the smoothness and economy of V-8 operation. Come in and see them now.

Sanitation Pays in Raising Hogs

Quarters, Feeding, Handling Are Important Points as Economy Measure.

By PROF. JOHN P. WELLMAN, New York State College of Agriculture, Cornell University

The hog has been called "an animal that deserves its name," but when it comes to economy in converting feed into edible meat, the hog excels all other farm animals.

As one of the best housekeepers, a hog will keep his quarters clean if given a chance. He should not be criticized too severely for digging holes in the ground or for wallowing in the mud, because this is the only way the hog has to cool himself.

Swine are not equipped with so many sweat glands as other farm animals, and for this reason they like to dampen their bodies to become cool.

Many farmers would undoubtedly find that their hogs would be more profitable with more sanitary quarters and better feeding and handling. Every breeder should aim to produce the type of pig that feeders, breeders, and butchers demand, and he should do his best to enable his swine to convert as economically as possible the various feeds suitable for swine into food for human use.

Plenty of Water, Salt, Life-Saver for Horses

Sudden hot weather, intense and continued for days, usually brings reports of horses being lost from over-heating. This is unnecessary. Good horsemen do not lose horses, no matter how hot the weather may be.

The Horse and Mule Association of America advising taking a couple of barrels of water, on a wagon or stoneboat, to the field, and allowing the horses opportunity to drink at the end of each hour. If this is done, and the animals are allowed access to all the salt they want in stables, or in pastures when turned out at night, heat losses will be reduced.

The same plan—plenty of water and all the salt they want—allowed to men who work about coke ovens, where the temperature is about 135 degrees, has stopped fatal heat strokes among men. It works, with men or with horses, and is so simple, so easily adopted, that there is no excuse for losing horses from overheating, no matter how hot the weather is.

Common sense in working animals, water every hour and all the salt the animals want, is all good horsemen use in handling their work animals in hot weather. It will save work stock from heat prostrations.

Foot Rot in Sheep

Foot rot in sheep is a chronic infectious disease of the tissues of the foot, and remains more or less localized to that area. The economic importance of foot rot lies in the severe losses which the owner sustains from a long period of activity of the infected animals from the loss of body weight, from decreased wool clip, from the diminished milk production at lambing time, and finally from the probable infection of the newborn and others.

Music for Milk

"Music hath charms to soothe the savage breast"—and to make cows give more milk. A farmer in a village on the German-Czechoslovakian frontier plays the concertina every morning to his cows. He first noticed that one refractory animal became docile when he heard the strains of the concertina, and applying this lesson to the other cows found that they submitted more readily to milking and gave increased yields.

Agricultural Hints

Potato varieties do not cross in the field. New varieties are produced from real seeds.

Agricultural conditions in Great Britain are much better than a year ago.

Yellow corn meal has more of vitamin A than white meal, but otherwise the food value is about the same.

Trees grow best on well cultivated soil which slopes to the north or east. The porous soil is much better than hard clay.

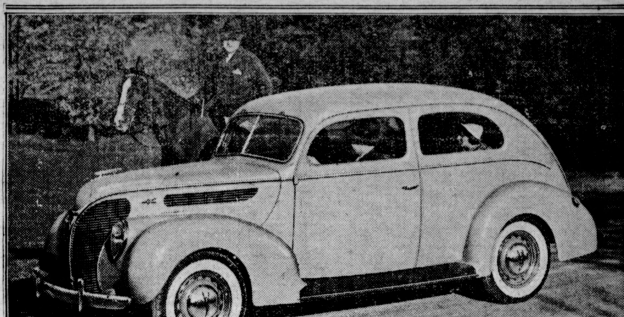

Probably no subject has taken more space in the bee journals or caused more study and discussion among beekeepers than the subject of swarm control.

Broccoli, known in Italy for more than a hundred years, was not widely known in the United States until 1918.

According to recent figures, nearly 1,000,000 rural boys and girls are enrolled in 4-H clubs in nearly 3,000 counties in the United States.

Trials show that forest soils soak up 50 times as much water as the same area of bare soils and from 3 to 20 times as much water as pasture land.

Two 1938 Ford V-8 Cars Displayed

TWO distinct lines of Ford V-8 cars are now being displayed in dealer showrooms. One is a newly-styled standard Ford line in three body types, the other a de luxe Ford line in eight body types. The de luxe Tudor sedan is pictured above. The de luxe sedans are larger in appearance, with longer hood and sweeping lines. The de luxe cars are powered with the 55 horsepower V-8 engine, the standard cars with either the 35 or the 60 horsepower engines. Newly-styled interiors are pictured at right. New instrument panel has instrument group in front of driver, grille for radio speaker installation in center, flanked by engine controls and cigar lighter, and glove compartment at right. In the de luxe cars, the compartment door, and a clock is recessed in the compartment door.

A headlight beam control is fitted on the toe-board, a tell-tale light on instrument panel indicates whether the headlight beams are raised or depressed.

THE REST OF THE RECORD

By James V. Allred Gov. of Texas

AUSTIN—A few daily papers last week carried the story of an incident in Waco, which while amusing, affords considerable food for thought.

The story reported the meeting of a group gathered from various points over the State to discuss the endorsement of a candidate for governor who would stand for a full pension of \$30 for every person over 65 regardless of need. Various possible candidates had representatives there trying to line up the old folks' vote.

The amusing thing is that with one exception none of the talked-of candidates have made any public statement as to whether they favor pensions for everybody, or for the needy only. The meeting broke up without any candidate securing an endorsement, but with the understanding that one would be endorsed later on.

Now everybody is interested one way or the other. Whether we favor pensions for everyone, or for the needy only, we ought to know just where these candidates stand. Certainly no secret commitments or promises should be acceptable to even those who favor pensions for everybody.

We don't know yet, of course, just who will be candidates for governor. Several months are still ahead before the time expires for announcements,

but the point is that none of us ought to be ourselves up to any candidate until we have some open public statements as to their views not only on this important question but on many others.

Many people, for instance, on both sides of the question would like to know the platform of each candidate on sale of liquor by the drink; on the general sales tax; on taxing oil and other natural resources; on an income tax; on a one-house legislature; on the race track gambling law; and on law enforcement.

You know of the fine work that has been done by the Public Safety Commission in driving the big-time gamblers out of Texas. They have had to fold up their tents and get out of business. There is hardly a large community in Texas that has not been benefited by being rid of the presence of these racketeers. Naturally the gamblers and racketeers are intensely interested in electing what they call a "liberal" as governor next year. They have openly admitted that they are going to put up money to try and elect somebody who will not stand for law enforcement. Let's find out what candidate they are backing before we commit ourselves.

There is another aspect of law enforcement just as important. You will remember that I have said we were not going to have any "sit-down" strikes in Texas; and we haven't! At the same time I said we weren't going to have any violence on either side of the controversy; that is no interference with freedom of speech, assemblage or peaceful picketing. I happen to know that agitators who are interested in bringing about "sit-

down" strikes in the future are trying to get quiet commitments from certain candidates that they will not be interfered with. I know the people of this State will not stand for this unlawful method of taking possession of property; or for violence on either side.

Let's find out about a candidate's attitude before we make up our minds to support him.

Finally, it might be a good idea to withhold judgment until we can examine the records of some of the suggested candidates; and see how those records fit in with their platform declarations, if they make any.

There is still lots of time for us to get the facts; and I have an idea the facts will be forthcoming in due time.

The Name "Scioto"

Like the Cuyahoga, there are three explanations for the origin of the name "Scioto," applied first to the river and then to the county in Ohio. Says a writer in the Cleveland Plain Dealer, Henry Howe, early Ohio historian, believes the name was first used by the Wyandot Indians who called it Sci-on-to, the meaning of which is unknown. The geographer, Gannett, however, believes the name was derived from the word "Seeyotah," meaning "Great Legs," and that it was applied to the river because of its long tributaries. Other authorities insist Scioto is the Wyandot for deer.

Water Follows Oil

Usually oil in an underground reservoir is backed up by water in hydrostatic connection with the oil, so that as the oil is produced at the wells water follows in its place.

ELECTRICAL APPLIANCES

- Waffle Iron \$3.95, \$9.95
- Iron, heat control, \$3.98, \$4.95
- De Luxe Toasters \$5.98
- Electric Mixer, with brake \$1.98
- Table Lamps \$1.50
- De Luxe Coffee Maker with heat control \$6.95

RADIOS

\$5.00 to \$750.00 Buffet Gifts!

- Cocktail Shaker \$6.95
- Tea or Coffee pot, with trays, Cream Pitcher and Sugar Bowl \$9.95
- Book Ends, Ash Trays, Candle Holders, Vases, and many other things for the Buffet chest.

EDITORIAL AND FEATURE PAGE

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor.

L. F. MITCHELL, Bus. Mgr.

Subscription Rates

In Bailey County, one year, \$1.50; Outside of County one year, \$2.00

Published every Thursday at Muleshoe, Texas.

Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even if It Fails

A THOUGHT FOR THE WEEK

This should not tempt upon usury of thy brother; usury of money, usury of victuals, usury of any thing that is lent upon usury.—Deuteronomy 24:19.

A money-lender serves you in the present mood; he lends you in the conditional mood; keeps you in the subjunctive; and ruins you in the future.—Addison.

A HAPPIER HOLIDAY

The Postmaster General has addressed a timely appeal to the people of the United States. He says: "The government will be thankful to you if you will shop early, wrap carefully, address plainly and mail promptly all of this year's Christmas merchandise."

This is a reasonable and a sensible request and we feel sure everyone around Muleshoe can profit by following it. Shopping early means getting the best of everything in stock before it has been picked over, and also more time for making selections. Wrapping carefully means the goods will go through the mail without breakage and without loss. It also means quick handling, and getting the things you are sending into the hands of those for whom they are intended in good condition.

Addressing plainly and mailing promptly go hand-in-hand with the other two suggestions. Taken altogether, these suggestions mean a happier Christmas for the ones who carry them out. Merchants have more time in which to wait on you, and also time in which to personally help you solve your buying problems. If you will do your buying early and not wait until the last minute, Postoffice employees can be relieved of the heaviest part of their annual burden if you will only cooperate with them by following the Postmaster General's suggestions.

Best of all, shopping early, wrapping carefully and mailing promptly brings happiness to those who do it. It will help to make your own individual Christmas happier, too, and that is why there should be more of it done.

SANTA AND HIS PACK

With Christmas just around the corner, toy-makers announce that the volume of business has been greater this season than at any time for the past seven years. They have manufactured a quarter of a billion dollars

worth of toys for this Christmas and distributed them to the trade, so it is evident Santa's pack is going to be well filled this year, especially for the children.

It should be of interest to Muleshoe citizens to learn in connection with this report that the toy-makers have this year steered clear of war toys, which have been the rage in years gone by. Through an agreement reached early last spring they reduced the manufacture of toy cannon, guns, soldiers and all other type of toys that snack of war and instead have turned out more toys stressing scientific, industrial and transportation lines. They consist of many ingenious mechanical features, and the airplane, the auto, the streamlined locomotive along with toys that do marvelous acrobatic stunts will this year direct the childish mind away from war and its destruction.

This is good news and it reflects the sane judgment of the men who design and manufacture the things which go to make up Santa's pack. It is high time that American fathers and mothers turned the interests of their children away from thoughts of war and directed their minds more toward the worth-while things of life.

SOMETHING FOR NOTHING

The Muleshoe citizen who contends that "you can't get something for nothing" is wrong. All he has to do is catch cold and he will realize that he can get enough free "cold" remedies to fill a book. Of the number, some may be beneficial, yet all of them are worthless to those who know how to avoid catching cold.

Comfortable clothing, fresh air in the sleeping room, careful attention to the elimination of waste matter from the system and drinking plenty of fresh water daily, it has been determined, go far toward preventing what we know as the common cold. Even this falls at times—and then it when a cold becomes dangerous. In that case the best possible advice is to go to bed. Don't try to wear it out. Better the loss of a little time spent in bed than contracting one of the many serious conditions that common colds are capable of bringing on. Don't look lightly on a cold. Go right after it the moment you feel it coming on, and don't stop doctoring it until you have it under control.

It always works

Everybody knows the story of Robinson Crusoe, how he was stranded on an island with only a goat, a parrot and a black man as his companions, and how badly he wanted to get off of that island, but most people do not know that it was advertising that got him off.

He had only a ragged shirt with which to do his advertising, but he stuck it on a pole, planted the pole in the ground and waited. He didn't get discouraged when no one came the first day—no good advertiser does. He kept advertising his predicament by means of that old shirt waving in the air—and finally he got results.

If Robinson Crusoe with one old shirt could reach people he sought, how much more easy is it for merchants in this territory to reach the people they want to sell goods to thru the columns of a modern, home-town newspaper? Now that the winter buying-season is in full swing, this is a pretty timely subject to which may be devoted a little study.

Patronize home industries.

A SAFETY STUNT

A Cleveland, Ohio, man has suggested it might help to reduce auto accidents if every time a motorist kills a bright red license tag be substituted for the regular one he has on his car. The number would remain the same, of course; only the color would be changed, and that to a bright crimson. In this way the public would know, he points out, the moment it spied a car with a crimson tag that it had been the agency through which someone met death, and other drivers, fearing the publicity and comment such a tag would bring would naturally drive far more carefully.

We have heard many suggestions for safer driving offered by motorists around Muleshoe, but never anything touching on this line, and while such a suggestion will probably never be adopted by any state in the union, it shows to what extremes those who make a study of safety are willing to go to cut down the nation's annual death toll.

Jaunty Journalettes

Perhaps the only reason some Muleshoe men say good-bye to their wives is so they may have the last word.

Potatoes must be getting cheaper, for several people living in and around Muleshoe report they are again making their appearance as coris for coal oil cans.

Even the preachers may not be able to technically and adequately explain just why a waifu supper will get people into church faster than a good sermon.

Some Muleshoe men's idea of the pursuit of happiness is to keep one step behind his neighbors and two jumps ahead of the sheriff.

One way of looking at life for the average Muleshoe citizen reminds them that life is a good deal like hash. One gets out of it just what they put into it.

As the average Muleshoe housewife views it, the price of steak is really something to beef about.

It's a darn good thing there is no finer nor other sentence for a Muleshoe auto driver for telling how many miles he can get out of a gallon.

Judgement day might have been here yesterday if the good things a lot of people around Muleshoe intend to do tomorrow hadn't been postponed.

Nearly any Muleshoe man can tell you he could have missed a good deal of misery if he hadn't been afraid he might miss a little fun.

When you hear of a Muleshoe man getting stung by some fake stock salesman, you can generally bet your bottom dollar he don't read the Journal.

If a lot of husbands went out in the cold dressed as their wives dress, people might think they were trying to commit suicide.

SNAP SHOTS

Who would have thought, back in the good old days, the time ever would come when women get drunk just like men!

Still another nice thing about the wars in Ethiopia and China is nobody thought to write any dirty songs about them.

Any man who has been hungry can tell you that one hot dog is worth a truck load of advice.

Wild riders of the old west once notched their guns for every man they killed. Nowadays they notch their steering wheels.

It seems now days one of two results are inevitable. If you are a pedestrian a car will kill you, and if you own a car you will work yourself to death trying to support the darn thing.

Ever stop to think that about the only dollar one can spend and expect to see again is the one spent here at home?

Pavement Pickups

"All men may be born equal," suggests Tom Childers; "but it's what they are born equal to that counts."

J. W. McDermott wants to know if woman really was made of man's rib, what became of his backbone?

A Muleshoe man remarking to his wife that the bank had returned a certain check, she exclaimed: "Good! What can we buy with it this time?"

According to Lehman Carpenter, figuring building cost is easy. Just add up the cost of material and labor and multiply by two.

It's an easy matter now days to recognize a dry state. The people there still use cornob stoppers, says Hub Motheral.

Clyde Holt says times must be improving, as the Morton newspaper last week told about several of its citizens having their pockets picked.

As Byron Griffiths sees it, you needn't worry much about civilization so long as virtue can depend on a collection plate and sin has to charge an admission.

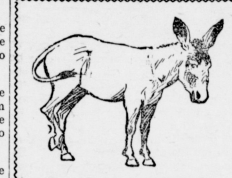

Preacher Sharp suggests that the expression about a man "arriving at the years of discretion" may possibly mean he's too young to die and too old to have much more fun.

Jess Osborn says this certainly would be a fine country around Muleshoe is every fellow who threatens to do so would actually start a savings account the first of the year.

A negro working at L. Brown was reported having got cut in the fracas a couple nights ago. Upon being asked about it by Brown, the negro denied it, declaring the knife just went in his hip.

At the Gupton hotel a few nights ago all guests were awakened by what sounded like some one running at a tremendous pace in on of the rooms. The same noise occurred the second night. The third night the noise was a little different, and the party hit the floor with a bump that shook the entire hostelry. Connie set out to investigate. "What's the matter here," he queried. "I'm just taking my medicine," replied the man. "Dr. Williams said to take it two nights running and then skip the third night."

There's an Ingersoll for every member of the family—watches for pocket, wrist or handbag at prices from \$1.25. You can buy them at stores right here in town.

Jess' Jasack Josh and Mulesense

No use for anyone cussing their auto—it's like a mule, it don't give a damn.

It's always a good idea to stand in front of a mule and behind a shot gun.

A hick town is a place where the doctor can't come right now because he's working on a sick mule.

Some Muleshoers are about as stubborn as a mule. They invariably put their best foot backward.

After all, it's the mule's ability to kick; but to pull that makes the mule a high-priced animal. Some humans take notice!

It is said a white mule never has the bots, because the bot fly won't light where it can be seen, hence they skip the white hair. What do you know about it?

BEHIND-BEFORE On mules we find two legs behind and two we find before. We stand behind before we find What the two behind are for.

We read the other day where a North Carolina farmer was using dynamite for blasting stumps and one of his pigs ate some of the dynamite and then nipped at the heels of a mule. Presto! No pig—no mule.

We heard the other day of a mule that had a record for being slow. Recently when he was tied to a fence post, the hired man rode him all day before discovering that fact.

We have been advised that one of the best ways for a Muleshoer to commit suicide is to kick a mule. You can always depend on the mule to return the compliment—and that's all!

Noticed in the dailies the other day where Italy was buying Missouri mules. Seems like Mussolini ought to have enough trouble with the Ethiopians, Spaniards and standing up for the Japs without any mules to reckon with.

Mountains in Scotland Scotland, which is a small country, contains wide valleys, immense moors, great estuaries and lofty mountains, which give an appearance of vastness. While these lofty mountains are found to measure a height of barely 4,500 feet, the towering paradox is explained at they rise from sea level so that the full majesty is visible to the eye, giving the appearance of great heights.

Staves of 3390 B. C. The oldest metal staves, figurines of copper, dug up in Syria, go back to 3390 B. C.

THE JOURNAL'S Weekly Scrapbook

Week's Best Recipe

Scrambled Hamburger—4 tablespoons bacon fat; 3 tablespoons minced onion; 2 tablespoons minced pimientos; 2-3 pound ground beef; 1-4 teaspoon salt; 1-4 teaspoon paprika; 1 egg yolk; 2 tablespoons milk. Brown onions and pimientos in fat melted in frying pan. Add meat and let cook until it has browned, about seven minutes. Add rest of the ingredients and cook for two minutes when it is ready to serve.

Kitchen Kinks

Add a few drops of lemon juice to powdered sugar cake icings; it will add to the whiteness. Cocoa will dissolve more readily and be free of lumps if the cocoa and sugar are mixed well together first. Run cold water over dried fruits before chopping in the food chopper and they will not stick together.

On Wash Day

Printed lines should be put quickly through the washing machine without preliminary soaking as such material does not hold the dye as well as some other fabrics. If washable by hand, materials are washable in the washer; they can be rubbed with a soft brush. If the edges remain soiled after wash-bristle brush. Violent hand-rubbing will break the threads.

Little Stunts

To make an attractive waste paper basket, take the colored linings from Christmas card envelopes, cut them in irregular shapes and paste them around

the outside of large oatmeal boxes. Then shellac the entire box. Each child may have his own waste basket for scraps when cutting paper dolls.

An Inspiration

The feet of the humblest may walk in the field Where the feet of the Holiest trod. This, then, is the marvel to mortals revealed. When the silvery trumpets of Christmas have pealed That mankind are the children of God.

THREE TO BE INITIATED

Tuesday evening of this week, members of the local Eastern Star Chapter met at the hall in regular session, Mrs. Virginia Weyer, worthy matron, presiding in her usual efficient manner. Harold Wyer, Mesdames Bert Mathis and Mary Frances Holt were elected to receive the degrees of the order, which will be given Monday evening of next week.

It was decided to invite the Littlefield lodge to be present for this occasion.

The chapter members voted to send the O. E. S. home at Arlington a Christmas gift of \$5.00. Also, \$15.00 to the national memorial at Washington, D. C.

Mrs. J. F. Sharp was a visitor to the chapter and gave a very interesting talk, complimenting the lodge on the efficiency of its work.

Lei Day in Hawaii

Lei day in Hawaii honors the traditional wreaths that require approximately 50 blossoms.

WEEKLY LAY SERMON WISHING vs. WORKING

By JESS MITCHELL

It is an old suggestion possessing considerable merit, to "spit in one hand and wish in the other, and see which fills the more rapidly." In other words, wishing must be accompanied by working to bring success. There is no exception to the rule, yet there are multiplied millions of would-be workers today who can do nothing but wishing, largely because economic conditions of the nation are set dead against them. The worker with initiative and pride in his accomplishments is rapidly dying off. The pride of craftsmanship is rapidly dwindling, and social unrest of various kinds is finding valuable and violent expression in the CIO. False thinking and sophistry has crept into a plan of renovating the Supreme court Bigger and better subsidies are being demanded as Federal government handouts, while the real spiritual life of the nation is being rapidly supplanted by a dogged lust for material things. There are plenty of wholesome, sincere and energetic American workmen today who would almost give their right hands to be able to go back to work as they once did; but they cannot. Individual effort is rapidly becoming a something of the past, for labor has been collected and mechanized and controlled. The spiritual energy of labor is fast disappearing, for much labor today has no more spirit than the machines by which it is performed. A few years ago men took pride in their ability to perform a certain labor in an efficient manner far above any criticism. They were proud of their production. Plenty of workers were so absorbed in their work they even hated to hear the whistle blow. Foreman and overseers of different kinds were less numerous then, because not needed. Such is not the major case today.

Big business has demanded volume work—demanded men stand on their feet for eight consecutive hours and jab bolts into a certain piece of metal, twist in so many screws per day, sling the point on to so many pieces or slap on so many mechanical parts—working like automatons, doing so many things per second or minute, working in never-ending rhythm for a certain time at a stipulated wage—all of which wears down incentive and satisfaction. Consequently this routine, mechanical, irksome system has resulted in demands for shorter hours, more leisure and additional wages to enjoy leisure in compensation for the added grind. Gradually there has grown up the principle of doing as little as possible for the most possible reward—until today the "line" has become necessary for the employer to get value received from those he does employ. Big business is largely relegating to the past workmen over 40 and fussing because there are so few skilled laborers under 40, while on the other hand, young people in all trades and professions, consider it an insult to be asked to begin at the bottom and work up toward the top. They want the same privileges and income as the man who has been 10 or 20 years on the job. Why is it so? Perhaps older workmen are responsible; perhaps Big Business system is more responsible; perhaps soap-box orators, agitators of various kinds and selfish seekers are contributing factors.

It is natural for everyone to want to "enjoy life," but instead of there being rest and happiness, there is discontent and nervousness—a restlessness that is spreading in every direction and gradually, but certainly invading every trade and occupation. Fundamentally, most people are inherently lazy. Necessity of past centuries has largely spurred them on and work brought its compensating rewards; but with advent of mass production, the pride and satisfaction of this routine, piece work brought on an increased lethargy, a general dissatisfaction and work became loathsome. Some of this loathesomeness was mitigated when WPA and other relief measures sprang into existence a few years ago; yet this relief problem has also been considerably aggravated by

Dee Moon, Respected Colored Man Expired Saturday, Pneumonia

Dexter C. Moon, a highly respected colored man, living over in the edge of Lamb county on the R. L. Brown farm, died last Saturday afternoon of pneumonia. He had been in the employ of Brown for the past 22 years.

"Dee," as he was familiarly known to his neighbors and friends, was a man of excellent character, dependable to a high degree and enjoyed the close friendship and confidence of his neighbors, many of whom declared he was a much better man than lots of white folks." He had the reputation of being honest in all his dealings, an exceptionally good neighbor, frequently mingling with the folks of his community in a business way as did the white folks living about him.

Moon's demise followed a two weeks siege of double pneumonia, and regardless of the heroic efforts of two physicians who did their best to save his life. He was born Dec. 19, 1891 at Cadogan Gap, Ark., his parents both being slaves in the early days, and was nearly 46 years of age at death. He moved to Lamb, this state in 1915, later coming to the Plains area where he lived until death.

He is survived by his widow Rosa and two children, Mary Lois and Dexter. Funeral services were held in Clowis, N. M., Tuesday afternoon from the colored Baptist church, a minister from Roswell being in charge of the last obsequies. Dee was a member of the colored Methodist church. Interment was made in a Clowis cemetery.

While citizens attending the funeral were Mr. and Mrs. Fred Detemmer, Miss Delois Detemmer, Mr. and Mrs. Raymond Rubneck, Millard Moore, Sam Lawrence, Dr. A. R. Matthews and R. L. Brown.

State Doctor Warns Against Flu, Colds Now On Increase

Austin, Dec. 6.—Reports from widely separated parts of Texas to the State Health Department indicate that influenza is on the increase. Recent snows and colder weather account for the increase, according to Dr. Geo. W. Cox, state health officer.

Colds, gripe, influenza or whatever we may call them are believed to be spread from person to person discharges from the nose and throat. To protect yourself and others from such discharges, here are precautions to be followed:

Influenza is highly infectious. Practically everyone is susceptible to it. No matter how many times you may have had the disease, you may contract it again. Therefore, keep away from people who are sneezing, coughing, or sniffing, or who are actively ill with colds, influenza or pneumonia.

Keep away from crowded places. Have your own towel and drinking cup and always wash your hands before eating.

Keep yourself as fit as possible. Drink plenty of water, eat simple, nourishing food, exercise out of doors every day, dress according to the weather, get plenty of sleep in a well-ventilated room.

If you feel an attack of flu, or even what you may think is an ordinary cold, coming on, go to bed, send for your doctor, and follow his directions. A cold can too easily develop into a fatal mistake.

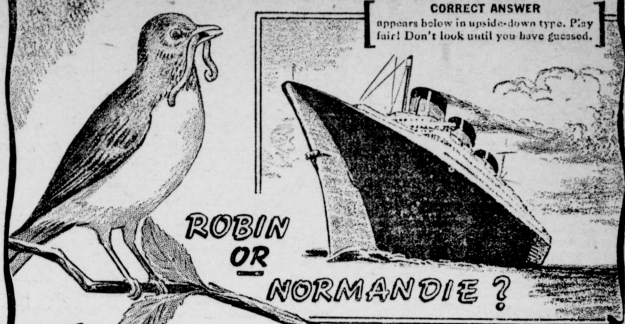

governmental desires to preserve the principles of democracy and capitalism. Various administrative moves existing today have tended to remove the necessity of work by many people and thrown the responsibility of supporting the American social and economic life upon small groups of people who do work, and through the taxes they pay kept the U. S. treasury from going bankrupt.

The President and his cohorts have been trying to accentuate the principle of ownership in production, and in that idea he is largely right. Concentrating ownership into the hands of a few promotes discontent and will eventually lead to a revolution; but the methods used in accomplishing this result have caused conscientious, hard-working groups to work harder to pay the bigger taxes thrust upon them and to meet the harsher denunciations thrown at them that satisfaction may come to the other vast group which has been encouraged to thrust out his hands for government largesse. Even hard working, conscientious people can be goaded into revolt.

Clearly, America needs a spiritual rebirth—a resurrection of desire to work coupled with compensating satisfactory rewards for such labor. There needs burying the growing idea that a government should support its people and a re-birth of the principle that people should support the government—and have a real delight in doing so. Workers must get a vision of some kind beyond the redundancy of turning over so many spadefuls of dirt, screwing on so many nuts or slapping on so much paint during a given period and for a certain stipend. Indeed, if there is not, there are present indications that the present struggle between capitalism and communism is an outward manifestation of inward decay and it is only a matter of time until our boasted civilization of this twentieth century will collapse. Even now, it may be quite near the verge.

A species of stingless bees has been found in South America.

GUESS WHICH IS FASTER!

BUT—
YOU DON'T HAVE TO GUESS WHICH GASOLINE STARTS FASTER!

The highest test gasoline you can buy at regular price is Phillips 66 Poly Gas. It starts cold motors much faster. Warms them up quickly. Delivers maximum power with minimum fuel. And increases mileage by decreasing the need for wasteful chocking. Remember, Phillips 66 high test is unsurpassed, yet costs nothing extra... because Phillips is **WORLD'S LARGEST PRODUCER** of Natural High Test gasoline.

ANSWER: The Normandie, holder of the Blue Ribbon for the Atlantic Ocean speed record, averaged 55.9 miles per hour. The robin in flight has actually been clocked just a shade faster at 55.9 miles per hour.

Muleshoe Basketeers Split Honors With Farwell Tues. Nite

The Muleshoe High School Boys Basketball team beat the Farwell boys in a fast and smooth game, 26-10, Tuesday night in the Farwell gym.

The Muleshoe girls were downed by the Farwell sextet 22-19 in a fast moving game. The Muleshoe boys quintet opened their season on the Farwell court Tuesday night with a skill that points to success this year. During the entire game, Robert Starkey, a new face on the team, kept the Muleshoe score far ahead of the Farwell score; due to the good teamwork and goal-shooting of Topper Ivy and Johnnie Starkey. Another new face defended the goal with an ability Muleshoe should pride. Frank Prescott played a good game worthy of his teammates.

The prospects are good this year for a successful season and the support of the basketball fans is urged toward every game.

The Muleshoe girls played their second game Tuesday night when they were defeated by the Farwell sextet. Prospects are also good for the girls this year. There are several new players, but they have the skill of good basketball players. Members of the girls squad that played were: Clotus Pointer, Jo V. Goins, Mary Hons, Leona Lee, Rosa Benfroy, Alta Mae Hons. There is also a good second team that backed these girls with fine sportsmanship.

BEWARE OF FUR SALESMEN

The fur salesman has already made his appearance in several towns of this area, resulting in folks being gypped in purchase of winter wraps.

Such type salesmen and saleswomen always have some apparently legitimate reason or excuse for offering a fur coat for half or less than it is supposed to be worth; but beware!

Frequently there is something wrong with the article. It may be only rabbit fur or some other cheap fur, or it may have some other hidden fault.

Of course there are legitimate house-to-house canvassers; but this is the time for the other kind to also make appearance.

Patronizing home business concerns who stand behind the merchandise they sell, is an especially good idea this time of the year.

BASKETBALL GAMES AT BULA

The Muleshoe Boys and Girls Basketball teams will journey to Bula this weekend to enter the cage tourney being held there Thursday, Friday and Saturday. The boys team has not yet been scheduled to play, but the girls are to combat for scoring honors with the Richmond team Thursday night. Muleshoe fans are urged to attend and support their teams to their best voicing capacity.

The tournament has prospects of having very strong teams entered.

The local basketball schedule is still incomplete, having only a few games scheduled with out of town teams. After the tournament there is only one game before the Christmas holidays, at Bowling December 17. Then after Christmas their first game is scheduled at Springlake January 7.

Both teams have some excellent new material for promising a strong team, even though the practice courts are outside and practice is slow.

U. STUDENTS SPLIT IN VOTE ON GOVERNOR AND WAR DANGER

Austin, Dec. 7.—In a recent poll of student opinion, the Daily Texan, student publication at the University of Texas, asked two questions—"Do you favor a third term for Governor James V. Allred?" and "Do you believe there is actual danger in another World War breaking within the next year?"

The results of the third-term poll was: Yes, 33.5 per cent; no, 62.2 per cent. The remaining 14.2 per cent of the students interviewed had no opinion.

The vote on the danger of another World War was 68.9 per cent "no" and 23.5 per cent "yes," with 7.6 per cent of the students having no opinion on the matter.

BAILEY COUNTY TEACHERS HOLD ANNUAL INSTITUTE

Teachers and guests who attended the annual Bailey County teachers' institute at the First Methodist Church in Muleshoe last Friday. The attendance record of the county's 64 teachers was remarkable, for of the only two absent one was ill and the other was out of the county. The six men shown in front of the group are, left to right: Tye C. Young, of Muleshoe, president of the county school board; Henry Hanover, Goodland, dean of the county board; G. D. Holbrook, Lubbock, deputy state superintendent of schools and main speaker at the institute; W. C. Cox, superintendent of Muleshoe schools; M. G. Miller, county superintendent; and the Rev. J. H. Sharp, pastor of the First Methodist church.

—Courtesy Clovis News-Journal.

- A surprise quilting party was held at the home of Mrs. A. C. Gaede Wednesday. Many guests were present and enjoyed the opportunity to visit with one another.
- Mr. and Mrs. Linton Sullivan, of Vernon, spent Tuesday night in the home of her sister, Mrs. S. C. Beavers and family. They returned home on Wednesday.
- Charley Smith of Vernon was in Muleshoe on business Tuesday of this week. While here he visited in the home of Mr. and Mrs. S. C. Beavers, they being old acquaintances.
- News drifted in here a few days ago to the effect that in the big wind last Friday a week ago the gin at Enochs lost about 100 bales of cotton from hulls blowing out of the burning pit.
- Charles Alsop, who is employed in a tailor shop in Sudan, visited his parents Mr. and Mrs. J. L. Alsop, and friends last weekend, returning to Sudan Sunday.
- Mr. and Mrs. Toad Wagnon and sons of Lazbuddy spent Sunday with her sister and husband, Mr. and Mrs. Bill Garrett. Sunday evening the group journeyed to Lazbuddy to visit in the home of Mrs. Henry Ivy.
- Mrs. Courtland Paul of Oil Center, New Mexico, who has been visiting in the home of her parents-in-law, Mr. and Mrs. Alex Paul, returned to her home Sunday.
- Mr. and Mrs. J. L. Alsop visited in the home of Mr. and Mrs. Raynes Sparks at Sudan Sunday. They also visited with Dr. Sparks of that city who is ill with a paralytic stroke.

MULESHOE, TEXAS

OIL NOTES

The Eitz-Enochs oil test well drilling in the southern part of Bailey county was down 4,500 feet last Monday night when a party of Muleshoe citizens visited it.

Drillers were found to have been on a fishing job for the last three days, having lost a bailer in the hole because of dirt caving below the 2,000 feet that had been cased. At that time they were within about 12 feet of the lost bailer, which they expected soon to recover and bring out, when drilling would be resumed.

When the bailer was lost temporarily stopping drilling, the bit had gone through salt water at about 4,127 feet nearly filling the hole, and they were then drilling in brown lime. Officials in charge expressed their optimism regarding outlook for striking oil before many more feet of drilling.

Numerous oil men who have visited this section corroborate the statement of investigating geologists to the effect there is doubtless oil in paying quantities in the southern part of this county, they declaring it is merely a matter of making sufficient investigation to find the underground liquid gold when a well paying field may be opened in this area.

'SQUARE DEAL' URGED FOR 'BOSS'

Detroit (IPS)—There is a need now for a "square deal for management as well as for workers," Alfred Reeves, general manager of the Automobile Manufacturers Association, declares.

Because managements are not being treated fairly, he indicated, the employee and the public at large are suffering. This, he said, is because extra costs have been added to products of manufacturers, making it difficult to pay higher wages and placing an extra burden on the consumer.

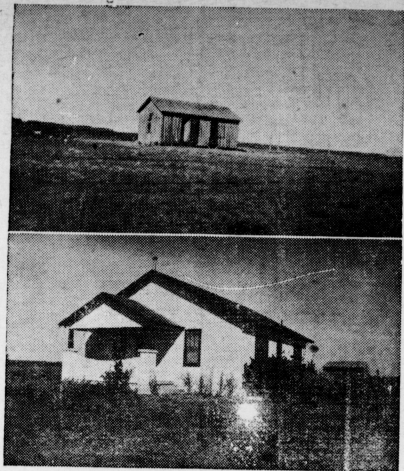

"What disturbs the outlook now," he said, "is the very dangerous" they can't discharge me' attitude of too many misinformed workers with a chip on their shoulders." He described sit-down and slow-down strikes as an attempt to usurp the functions of management in determining what the output should be. "This is what causes wage losses and additional costs in the product, he said.

HAS FRESH AND CANNED FOOD

"There has not been a day from the middle of April until the 16th of November that I could not get fresh vegetables from my garden or frame garden," said Mrs. J. A. Johnson, home food supply demonstrator of Goodland home demonstration club. The Johnsons have 300 feet of sub-irrigation.

Not only has Mrs. Johnson raised fresh vegetables for her family; but she has canned 500 containers of food. The value of her pantry is \$110. She also built a new cellar to store the food.

The Johnson family sold \$216.30 worth of milk and \$157.74 worth of eggs from January 1 to November 15. They have 200 hens.

How the Farm Security Administration is assisting farm families return to a self-supporting basis and maintain themselves through balanced, live-at-home program is illustrated in the above photographs.

**General News Over
Texas And Adjoining
States For The Week**

Representative Clarence E. Farmer, Fort Worth, has announced his candidacy for governor of Texas.

A new fish hatchery with capacity of 500,000 small bass is under construction at Elephant Butte dam in New Mexico.

The peanut crop grown in Texas this year will total 107,000,000 pounds as compared with 99,000,000 pounds grown last year.

There were a total of 17,608 enrolled in the CCC in Texas during the past year, according to Washington report issued last Monday.

John Temple Rice, El Paso, was last week elected grand master of the Masonic Grand Lodge of Texas, at the annual Waco meeting, succeeding Gallo-way Calhoun of Tyler.

Contract for construction of a new hospital at Clovis, N. M., has been let and approved by PWA headquarters Fort Worth. It will be partly financed by federal funds, costing approximately \$100,000.

Annual meeting of the Texas Agricultural association is being held at Fort Worth today. 2,000 farmers probably attending, and at which time proposed farm legislation recommendations will be made to Congress.

The Texas Supreme court last week held unanimously that the State's chain store tax was valid, asserting that to rule otherwise would be inconsistent with decisions of the Supreme court of the United States.

Gov. Clyde Tingley of New Mexico last week granted a pardon to Marcus Loco, 53, who voluntarily returned to Santa Fe, giving himself up to the state penitentiary warden to finish serving a sentence of 20 years. He is married now and has nine children.

The Texas deficit shows a decrease from an all-time high of \$17,242,602 to \$16,895,523, more than \$350,000 lower than the November 30 report made by Charley Lockhart, treasurer. State warrants issued up to April 23, No. 147,250 will now be paid.

About 15,000 of the more than 50,000 persons eligible to participate in the new state teachers retirement program have passed up the opportunity. Participation is optional with current teachers; but hereafter those entering the profession must take part.

WOLLARD BIRTHDAY PARTY

Tuesday afternoon, Leo Wollard was honored with a birthday party celebrating his sixth birthday.

The many little guests gathered around the table decorated with a lighted Christmas tree while the honoree opened his gifts. Also from the tree the guests received candy, Santa Claus favors, balloons and suckers.

Angel food cake and punch was served to the following guests: Max Gardner, Richard Reed, David Weyer, Carl R. Hart, Carter Taylor, Jack DeShazo, and the guest of honor, Leo Wollard. Mrs. Gilbert Wollard was hostess for the occasion, with Mrs. James Cox, assistant hostess.

MINISTERS UPHOLD SABBATH

Sabbath observance was the principal theme of discussion at the meeting of Lamb County Ministers' alliance held at Olton last Monday. It being declared by preachers attending that definite steps should be taken by the churches and their communicants to curtail such desecration.

Rev. Griffiths, of Olton, conducted the devotional service, and Rev. Ed Hawthorne of Feldton delivered the principal address.

The next meeting will be held at the Amherst Methodist church, next Monday, beginning at 10:30 a. m.

GOVERNMENT AND BUSINESS

Not very long ago President Roosevelt said that the recovery of business during his first Administration was not the result of pure chance or a mere turn of the wheel in a cycle: "We planned it that way and don't let anybody tell you differently."

Confronted now by the fact that a very substantial recession of business has taken place, he has quoted an economist to the effect that "the continuance of business recovery depends far more upon business policies than it does upon anything that may be done, or not done in Washington." According to this reasoning, when business is good, the Government deserves the credit and when business is bad the fault lies with business.

Government policies have raised production costs, and now propose to raise them more. Government taxes have prevented the piling back of earnings into new equipment which would lower prices and widen the market for production. Government deficits have aroused a fear of still higher taxes than those which now prevail. Government competition has discouraged the investment of private capital in a great industry, the public utilities, where new construction has been lagging far behind the normal rate. Government regulation has overstepped the bounds of protection of the public interest, in some cases, and become essentially punitive in character.

It is somewhat unreasonable, in these circumstances, to ask business single-handed to check a recession which governmental policies have helped to bring about.—New York Times.

There are 29 Hawaiian Islands, but only 9 are inhabited.

PARASITE CONTROL TO IMPROVE FLOCK

Poultrymen Can Help Birds by Routing Lice.

By O. C. UFFORD, Extension Poultryman, Colorado State College—WNU Service.
Poultry producers can improve the vigor and producing capacity of their flocks by controlling poultry parasites.

Internal parasites such as round worms and tape worms are increasing, but may easily be prevented by growing young stock on ground that has been plowed and used for crop production, or on ground that has not been used by poultry for at least one year.

External parasites such as lice and mites can readily be controlled. The former may be eliminated by applying nicotine sulphate to the roosts or by using sodium chloride as a dip, or by sprinkling the dry powder into the plumage of individual birds.

For the control of mites strong spraying material, such as commercial dips, is recommended. These may be painted or sprayed on the roosts, walls and floors of the chicken house.

It is during the warm months that parasites multiply most rapidly and become a serious menace to the poultry flock. These pests are responsible for much of the poor health and lack of vigor among many flocks.

Best Time to Caponize

From Two to Four Months

Cockerels may be caponized at from two to four months of age or at from 1½ to 2 pounds in weight, the weight being a better guide than the age. They should be kept without food for from 24 to 36 hours previous to the operation and by themselves for a few days thereafter, being then fed the usual ration. The American breeds, notes an authority in the Rural New-Yorker—Barred Rocks, R. I. Reds, Wyandottes and others of this class are preferred for medium-weight capons, weighing from 8 to 10 pounds at maturity. The heavy breeds, such as the Jersey Giants, Light Brahmas and others of this class will make capons weighing over 10 pounds. The Barred Rocks are the most popular of breeds for caponizing and the yellow skinned breeds have some preference in most markets. Market demand is greatest from November to April and the heavier capons are preferred. Records show that it takes from 9 to 10 pounds of feed to produce a pound of weight, the cost of this being the largest item in the expense account.

Unless exceptional opportunities for limiting production costs or obtaining superior prices in the market are available, it is a question whether there is any profit in keeping chicks of broiler age for sale as capons, though these latter fowls are of unquestioned superiority to mature fowls on the table.

Breeds of Geese

The most important breeds of geese are the Toulouse, Embden, African, Chinese, Canada Wild and the Egyptian. The last named are kept for ornamental purposes only and are usually found in parks and public gardens. The Toulouse geese originated in France, and the Embden, sometimes called the Bremen, had its origin in Central Europe. The African goose is a cross between the Chinese and the Toulouse, and there are two varieties of Chinese geese, the white and the brown.

Must Keep Pens Clean

If poultry has had a disease and has recovered, the pens should be considered as infested with the germs. They must be cleaned properly before any new birds can be put into them with safety. The most satisfactory way of doing this is to cleanse the chicken yard thoroughly, making sure that all residue has been removed. Then cover all the damp places with unslacked lime.

Use of Cod Liver Oil

Cod liver oil and vitamins A and D come from the same source and are of great importance to the poultry industry because of the important part that they play in preventing nutritional diseases due to a lack of vitamins A and D. The definite results that can now be obtained with tested oils speak well for the improved technique of production, refinement and standardization which has been developed in the last few years, says the Rural New-Yorker.

Wheat, Corn Combination

When a good grade of wheat is available on the farm then yellow corn and wheat (equal parts) makes an excellent grain combination. When wheat is not available then either standard middlings or a combination of wheat bran and middlings may be used. It is important that the wheat by-products be of good quality. A mixture of dirt, weed seeds, and middlings is sometimes sold as wheat middlings with mill run screenings.

DEPUTY ST. SUPERINTENDENT G. D. HOLBROOK ADDRESSES THE TEACHERS INSTITUTE HERE FRI.

(Continued from page one)

Chamber of Commerce Banquet
Judge Miller presided at the banquet. R. L. Brown, president of the organization, gave the address of welcome, and a very appropriate response was made by Seth Rollins of Goodland.

There was a piano solo by Mrs. Claudie Gallman, teacher of music in the Mulleshoe public schools; a brief talk by Judge C. R. Russell, of the District Court. A snappy address by Chas. R. Dean, district attorney, who emphasized the importance of teaching Americanism to the pupils of today. Prof. Holbrook spoke at some length on "Education" and its value to American citizenship, citing the fact that 13 billion dollars was spent in this country last year on crime while only two billion dollars were devoted to education. The very tasty menu was furnished by ladies of the Methodist church and greatly enjoyed by all partaking.

In the afternoon the session was opened by community singing led by Prof. Claudie Gallman, after which a very interesting address on the values of fundamentalism as relating to successful citizenship was delivered by Rev. J. F. Sharp. There were also brief talks by Miss Alva Stewart, Bailey county home demonstration agent, and W. C. Taylor, county farm agent, in which both emphasized the value of 4-H club work and urged co-operation of teachers in this direction. Miss Frankie Mae Russell, teacher of expression in Mulleshoe schools gave a reading. Reports of various committees were made, after which Miss Frances Stewart, an outstanding teacher of the county, gave a report of the State Teachers association recently held at Houston, Officers for the Bailey County Interscholastic League were then elected as follows:

W. C. Cox, Mulleshoe director general; Robbie Foster, Bula, secretary; G. M. Daugherty, Bula, director athletics; Miss Stella B. Jackson, Mulleshoe director of debate; Miss Frances Stewart, Watson, declamation; Martin Shuttlesworth, Circleback, extemporaneous speaking; Miss Laura Pullen, Bula, essay writing; Mrs. Ira D. Sexton, Goodland, drama; Mrs. Frankie Gallman, Mulleshoe, choral singing; Mrs. Carrie Lee Bishop, Longview, picture memory; F. O. Boone, Liberty, arithmetic; Richard Finch, Wilson, 3-R contest; Miss Ruth Light, Fairview, spelling; Bevington Reeves, Mulleshoe, 1-act play; Miss Robbie Lee, Bula, typewriting; Miss Addie Bell Fort, Mulleshoe, shorthand contest; Mrs. B. Waller, Progress, story telling; Emmett Brumalbow, Steagall, journalism; Miss Lois Wren, Baileyboro, rhythm and band.

This organization out of the way for a considerable time they spent in discussing various topics of interest to the profession. That evening a large number of the teachers remained over to attend the moving picture show at the Palace theatre, through the courtesy of Walter Moeller, manager. Place of next meeting will be decided by the Executive committee and announced later.

Resolutions
Resolved that another annual teachers meeting be called by the County Superintendent between September 1 and December 1, 1938.
Resolved that our most hearty and wholesome appreciation be extended the pastor and officials of the Methodist church in Mulleshoe for the courteous use of their building in which to hold our county institute.
Resolved that the teachers of Bailey county do express to officials and members of the Mulleshoe Chamber of Commerce our sincere thanks for the fine banquet tendered delegates of the institute at the noon hour, for the excellence of the musical and literary program accompanying it at that hour and express our thanks for the manifest skill of the Methodist ladies who were caterers for that occasion.

Resolved that we extend our sincere appreciation to Walter Moeller, manager of the Palace theatre for the very interesting movie program tendered the teachers and other guests of the institute on this occasion.
Resolved that we are deeply indebted to Rev. Jim F. Sharp, pastor, Mulleshoe Methodist church, and to Prof. G. D. Holbrook, deputy state superintendent of education for the very fine and inspirational addresses given on the occasion of our annual meeting and for the potent suggestions offered in round table discussion.

Resolved that the teachers do request Judge M. G. Miller, ex-officio county superintendent, to extend to members of the County School Board our appreciation for their efforts in promoting better schools throughout the borders of Bailey county, pledging their own further support and cooperation, and that we do also express our appreciation to the members of the various school district boards of this county for their loyalty, sacrifice and interest toward better schools and for their labors in behalf of the teachers and pupils of their respective district.
Resolved that we do form a Teachers association having a purely social objective; that this meeting shall consist of a banquet and appropriate program and that a committee be appointed by the County Superintendent to work out the details of such an organization, set the date of such banquet, arrange the program and notify the various teachers of this desirable event.

Christmas Turk Mark't Is Open At 14c; Pool Brings 22 Cents Top

The Christmas turkey market opened here last Monday and will close Saturday; but during that brief period it is expected by local dealer that between 25,000 and 30,000 prime birds will be sold for Yuletide dinners.

The market opened with No. 1 birds bringing 14 cents per pound. Birds are said to be in better condition than during the Thanksgiving period, having had the benefit of a few weeks to fill out their already sturdy frames.

Patrons of the Southwestern Turkey pool are now receiving checks for their birds sold during Thanksgiving season, and returns are showing 20 cents per pound for prime young toms and young hens; 17 cents per pound for prime old toms and hens, and choice young birds; and 14 cents per pound for commercial young toms and hens. These prices are based on farm dressed turkeys, one cent per pound being deducted where turkeys were dressed in the plant.
It is reported many turkeys are also going into the Christmas pool.

FERGUSON RALLY STARTS BIG BUZZING AMONG POLITICIANS

A rally held at the Driscoll hotel, Austin last week in behalf of "Pa" and "Ma" Ferguson has set tongues wagging and brains buzzing in anticipation that Mrs. Ferguson may announce her candidacy for governor shortly after the first of the year.

Jim has already announced that publication of the "Forum" his political newspaper will be resumed this week.
Jim said they were not supporting any candidate now and intimated neither he nor his wife would make any definite statements in that direction before January 1.

Willis Vandevanter, 78, retired from the U. S. Supreme Court bench last June, is planning to resume judicial work "quite shortly." While no longer sitting on the Supreme court, he said, "I am still in office and still in a position to perform judicial duties. I'm expecting to be called quite shortly for that purpose."

LYNCHED

While our national representatives are fighting tooth and claw over the "Antilynching" bill, it would be awful to read in the papers where some one in Mulleshoe or elsewhere in Bailey county had been lynched because they didn't buy their groceries at Henington's.

That will probably never be the case; but plenty of people's appetites and pocketbooks get lynched every week by the Laws of Craving and Demand when they do not get enough to eat because of Excessive Costs.

Henington is very humanitarian. He believes in the spirit of "live and let live." Therefore he supplies his patrons with the very Best at Lowest possible price. If you haven't been trading here, you have certainly been missing a treat for your appetite and pocketbook.
