

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, AUGUST 31, 1939

VOLUME 17 NUMBER 32

Conservat'n Dist. Is Favored, Vote Within 30 Days

That a Soil Conservation district, composed of Hookley, Lamb and Bailey counties, may be formed in the near future will be the consensus of opinion following a meeting discussing such formation held at Littlefield last Saturday, it being presided over by Judge W. G. Kennedy, Muleshoe, member of the State Soil Conservation board.

There were about 350 farmers from the three counties attended the meeting, some 20 of them discussing the subject, all but one expressing favor of the project. The proposed 3-county district will comprise about 27,000 acres for improvement work.

It is understood that a recent ruling may permit establishing of auxiliary CCC camps in various sections of the county for soil work service, in addition to the work done by the regular camp of CCC-men located at Littlefield, thus obtaining results in all portions of the three counties, rather than in the former limited radius of 25 miles each way from the head camp. The district will also be entitled to directional service of officials, engineers, agronomists, surveys and soil experts.

An election is to be called within the coming 30 days to determine desires of farmers for the organization, a two-thirds majority vote being the determining factor.

What's Happening In Washington; Other Important Cities

The entire Japanese cabinet including Premier Baron Haranuma resigned last Monday.

The Federal government has collected about a billion and a half dollars in legal beer since 1933.

While present indications are the farm income will be pretty close to the nine billion mark, yet, it is expected to run about five per cent lower than in 1938.

Announcement from London says human nudism is growing rapidly in the British nation, there now being 40 such camps, one of which has a membership of 30,000.

More than 5,000 Texas wheat growers have stored their products in the national Ever-normal granary awaiting better prices.

Twelve tons of tomato catsup was spread out over a California highway at Tulare last Saturday when two trucks crashed, rupturing the tank containing it.

When Roosevelt took the presidential office in 1932 there were 362,000 new job holders added to the federal payroll in a very short time. Now there are a total of 925,000 drawing federal salaries.

Japan is quite disturbed over German's signing of a pact with Russia, and has announced that in the future she will pursue a policy entirely independent of all other nations.

The U. S. Federal government now owns one-fifth of the land in the nation, or about 400,000,000 acres, its value not including buildings being placed at \$4,500,000,000, according to a recent federal inventory. On most of this land there is paid no taxes of any kind.

More than 10,000 men have already volunteered for service on the side of the allies in case war is declared in Europe, according to official report. Col. Charles Sweeney is planning a division of 50,000 volunteer soldiers from America, and ex-service groups are also reported enlisting many volunteers.

FARMERS TO MARKET ALL THEIR WHEAT

That an amendment to the marketing quota provisions of the AAA provide when wheat marketing quotas are in effect, farmers may market all the wheat they produce, if they keep within their wheat acreage allotments, is the statement of J. C. Smith, Bailey county AAA official.

WEST CAMP SCHOOL STARTS MONDAY

The West Camp public school will begin next Monday according to Prof. H. C. Robertson, superintendent. Other teachers are Mrs. Robertson and Miss Velma Sherbert. About 35 pupils from that district have transferred to the Farwell high school.

500 Texas Farmers Prove To Be A Good Yardstick

College Station, Aug. 29.—If the opinion of 500 Texas farmers is a good yardstick, the best work of the Triple-A has been "educating farmers to the need of saving and increasing fertility of the soil."

County committees, polled recently, gave that as their view, and ranked second in importance, the program's stress on diversified farming and farm-livestock development.

Third most beneficial aspect of the program, these men said was the development of a "more cooperative spirit among farmers."

Commenting on these responses to a questionnaire sent out in July, Frank Seale, Brazos county stock farmer and member of the State Agricultural Conservation Committee, said:

"It's encouraging to see that these county committees, who are chosen by the farmers of their communities to run the program in their counties are considering the long-time benefits first. They have placed the dollars-and-cents proposition in a secondary bracket."

Seale pointed out that the program provides direct aid for specific practices such as terracing, contour farming, strip cropping and planting soil-building crops.

"There is still a good deal of time left to earn soil building payments by carrying out these practices," he observed. "Farmers who haven't earned their full allowances should get hold of their county agents as soon as possible and find out what practices could be best adapted to their particular farms at this time of year."

Committeemen answering the questionnaire indicated that terracing is the most popular conservation practice in the state and that planting green manure crops and summer legumes comes next.

DUCK AND GESE SEASON OPEN NOV. 15

Duck hunters throughout the entire United States will be allowed a 45 day shooting season again this fall. In the Southern zone the open season will be from Nov. 15 to Dec. 29.

The regulations place the daily bag limit for ducks at ten, but the possession limit is twenty.

When a daily limit includes canvasback, redhead, buffhead and ruddy ducks, not more than three in the aggregate of these breeds may be taken. Possession of these ducks is limited to not more than six of any one kind or six in the aggregate.

G-ese and Brants.—The daily bag limit is four in the aggregate and the possession limit eight. Last year they were five and ten.

Hunters still may shoot a daily bag of twenty-five coots.

The hunting hours on waterfowl and coots for this year are from 7 a. m. to 4 p. m.

Decks or geese may be transported in any calendar week out of the state in which they are taken.

The regulations this year allow waterfowl to be taken by bow and arrow. Jokes said this weapon was added because of the recent interest in archery.

Taking waterfowl by means of bait or use of live ducks and geese; decoys is forbidden.

Hunters may use shotguns not larger than 10 gauge. The regulations continue the three-shell limit on repeating shotguns, either hand-operated or auto-loading.

DOVE SEASON TO OPEN SEPT. 1

The 1939 hunting season for mourning doves and white winged doves opens in Bailey county September 1 extending to October 31.

The bag limit this year is placed at 15 birds in the aggregate of both kinds, possession number shall not be larger. Hunting hours are from 7:00 a. m., until sunset, standard time.

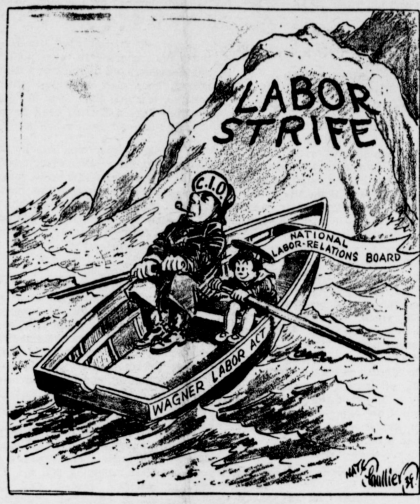

Migratory bird may be taken with a shotgun not larger than 10 gauge, fired from shoulder; a bow and arrow, or a dog. They must not be taken from an automobile or airplane, or any other power device. Guns holding more than three shells are illegal.

STREET PAVING WAS STARTED TUESDAY

The street paving project recently let for principal streets of Muleshoe was begun Tuesday with the laying of curbs and guttering on Chamberlain street, one block each way from Main street.

London has organized a women's auxiliary fire department.

THE LITTLE HELPER

Congressman Mahon, Senator Nelson President Williams, Federal Land Bank, Here For Farm Loan Meet

Moving Pictures, Community Singing, Cash Awards And Election Of New Officers Part Of Program

Tuesday, Sept. 5 is the day for the annual stockholders meeting of the Western National Farm Loan association to be held in Muleshoe, and plans are being laid to make it a gala occasion. Local business men are cooperating with officials of that association and a program of wide variety and large interest is assured.

A. C. Williams, president of the Federal Land Bank of Houston, will attend this meeting according to L. W. (Happy) Jordan, secretary-treasurer of the association. Mr. Williams has just returned from an extended tour of Europe, where he has made a close study of crop and marketing conditions throughout Europe. He will make one of the principal addresses at this meeting and those who are interested in farming throughout this area should hear his message.

The district of the Western National Farm Loan association comprises the counties of Bailey, Deaf Smith, Cochran, Lamb and Farmer, and all farmers and their families throughout this district are cordially invited to attend, whether a borrower or not through the Federal Land Bank.

State Senator Hobart G. Nelson of this senatorial district, will be here as another one of the leading speakers. U. S. Congressman George Mahon, this congressional district, will also probably be present, and if so will speak. Some time ago he was urgently invited, but at that time thought he would still be in Washington and could not avail himself of the privilege, but it is now understood he has returned to the office in Lubbock, and his presence is sanguinely anticipated. Both these men are not only prominent in the public eye, but also good public speakers, and will doubtless bring messages of interest and importance on that day. (Later a wife from Congressman Mahon says he will be here.)

FIRST P-T-A MEET IS MONDAY NIGHT

The first regular meeting of the Muleshoe Parent-Teachers association will be held at the high school auditorium, Monday evening of next week, beginning promptly at 8:00 o'clock.

There will be a short discussion of business concerning the organization. An interesting and entertaining short program is being arranged which will be followed by a social hour as a courtesy to teachers of the school. Mrs. Finley White will be chairman of the social.

All parents and patrons are cordially invited to attend and become better acquainted with the faculty and newly elected teachers.

Members of the executive committee will meet Thursday afternoon of this week at 4:00 o'clock at the home of Mrs. J. L. Taylor to complete the standing committees and discuss work for the year.

GIVE MYSTERY PLAY SEPTEMBER 8th

"The Black Derby," a 3-act mystery play, will be given at the High school auditorium here Friday night Sept. 8, beginning at 8:15 o'clock under direction of W. L. Crow.

The cast consists of Ted Bronson, a likeable sort of a chap, by Auda Luttrell; Jane Bronson, a bright, cheerful girl, by Evelyn Jennings; Tom Randall, a typical college boy, by Bob Cantrell; Betty Kees, a society girl, by Naomi Durham; Mrs. Benlow, the housekeeper, by Lela Mae Barron; Cora Kipper, the maid, by Rosa Renfrow; John, the chauffeur, by Paul Gardner; Mick, a pro-White, Wimple, a hick policeman, by Leo Baker.

Proceeds will go to benefit of the school athletic fund.

Members of the executive committee will meet Thursday afternoon of this week at 4:00 o'clock at the home of Mrs. J. L. Taylor to complete the standing committees and discuss work for the year.

Proceeds will go to benefit of the school athletic fund.

SCHOOL FACULTY IS NOW COMPLETED

With the election of three more teachers last Monday night for the Muleshoe schools, the faculty for the coming year is now completed, according to Supt. W. C. Cox.

Those last elected are Miss Ruth Suddrith of Tahoka, who will be combination teacher for the fourth and fifth grades; Miss Mildred Barton of Spring Lake, third grade; Miss Dorothy Marchison, Farmersville, commercial department.

The Philippine Government will erect a \$4,250,000 electric power plant.

Prominent Speakers For St. THDA Meet Lubbock, Sept. 6-8

College Station, Aug. 29.—A number of well-known Texans, including Marvin Jones of Amarillo, chairman of the agricultural committee, House of Representatives, will appear before the Texas Home Demonstration Association convention to be held in Lubbock, Sept. 6-8.

Other speakers will include Clifford B. Jones, president, Texas Technological College; George Manon, representative, Nineteenth Texas district; Mildred Horton, vice director and state home demonstration agent; and by-laws and M. College Extension Service; and C. E. Bowles, Extension specialist in cooperative marketing.

Approximately 1,000 reservations for visitors and delegates are expected to be made before Sept. 5 with Mrs. S. H. Robinson of Shawloster.

Mrs. W. G. Kennedy, Muleshoe is chairman of District No. 2, it is understood will be a candidate for state treasurer. Bailey county will be represented at the coming meeting with its home demonstration agent and a delegation of club members.

Mrs. J. L. Morris of Lamesa, president, will direct the business sessions during which election of officers and possible revision of the constitution and by-laws will take place. She will also report on the trip she made this spring to London, England where she represented Texas at a conference of Associated Country Women of the World.

The delegates will represent 2,197 home demonstration clubs from 183 counties which have an aggregate membership of over 40,000 women.

COUNTY WIDE PICNIC HELD LAST WEEK

About 125 men, women, and children were joyously entertained with a picnic, Wednesday last week at the U. S. Game Preserve south of Needmore.

One feature of the mornings entertainment was a Husband ailing contest. The winner of this event was undoubtedly Mrs. H. E. Schuster, since she was the only one who got her man.

In spite of all efforts expended in an attempt to do away with all the food, much of it had to be taken back home.

In the afternoon games, stunts and singing were enjoyed to the fullest extent and about 4:00 o'clock the crowd began to return home with every evidence of having had a generous feed and a good time.

BAILEY COUNTY TO GET COTTON CLASSIFICATION

College Station, August 28.—The number of Texas one-variety cotton groups applying for cotton classing service has now increased to 224 and will probably total 250 by September 1, the last date on which applications will be accepted, according to E. A. Miller, agronomist of the Texas A. and M. College Extension Service.

The service offered by the USDA Bureau of Agricultural Economics includes free classing by governmental classifiers and a current price on the various grades and staples.

A regional classing office is to be opened in Lubbock in the near future which station cotton classification for Bailey county will be granted, according to Finley White, county farm agent.

BRIDGE OPENING SET FOR SEPTEMBER 8

Celebrating the opening of the inter-state bridge across Red river at Vernon will be held Sept. 8, beginning at 2:00 p. m., according to information received here this week.

Gov. Miles of New Mexico and Gov. Odaniel of Texas, members of the Highway commissions from both state will be present and have parts on the program.

Members of the Bailey County Commissioners court and two auto loads of Muleshoe business men, members of the local Chamber of Commerce will also attend the passage of U. S. Highway over the new bridge when it is officially opened.

REV. JORDAN GOES TO A DALLAS PASTORATE

Rev. H. W. Jordan, Methodist pastor at Clovis, N. M., and well known here has been transferred to the pastorate of Trinity Heights Methodist church at Dallas, leaving last week.

Rev. H. C. Hoy, former Trinity Heights pastor has been sent to the Clovis Methodist church by Bishop Ivan Lee Holt.

Patrolize home industries.

\$75 In The Pot For Trades Day Here Next Tuesday

Topping all previous generosity, the Muleshoe Chamber of Commerce will give away absolutely free the sum of \$75.00 next Trades Day, which will be held Tuesday, September 5, being advanced to that day because of the stockholders meeting of the Western Farm Loan Association to be held that day. There will therefore, be no Trades Day observance here Saturday of this week.

The Loan Association meeting is expected to draw more than 1,000 people, and with the added Trades Day visitors it is expected the town will be practically overrun with visitors during the afternoon.

Heretofore, one particular name has been selected to receive the weekly Trades Day award of \$10; but because the party so selected has been absent, that sum has accumulated until there is now a total of \$60 in the first award offer. It is stated the committee has selected a number of names, and if the first selected person is not present, other names will be called until the \$60 is disposed of. There will be an additional \$15.00 awarded in smaller sums.

Last Saturday, G. J. Worby received \$7; Robert Trap, Clinton Clark, Mrs. Hattie White each received \$2.00, and another \$2.00 in small change was broadcast to the public at large.

40 Club Girls Go To Encampment At Ceta Canyon

About 40 4-H club girls, sponsors and mothers left early Tuesday morning of last week for Ceta canyon for a district encampment.

The West Camp 4-H club led with an attendance of nine 4-H club girls, two mothers and the 4-H club sponsor, Mrs. Lois Blakely.

Mrs. M. A. Snider of West Camp directed the games, while several of the clubs from over the county presented stunts. The girls returned late Wednesday afternoon, happy they had gone to the encampment and looking forward to the next one.

The following girls were known to attend while the names of a few were not registered: June Arnold, Eunice Rogers, Mary Frances Farley, Zelma Herington, Juanita Hughes, Maxine Hughes, Mary Jane Hill, Gemma Sue Vernon, Rosalie Kelm, Kennedy, Herington, Emma Lou Herington, Wilma Louise Snider, Peggy Williams, Frances Lou Darnon, Maxine Fletcher, Jane White, Colleen McMillen, Mary Jane Hill, Eva Mae Hallford, Geneva Hallford, Mattie Hogan, Virginia Kennedy, Artel Peck, Pauline Garth, Virginia Gart, Louise Spurdin, Doris Walker, Grace Chitwood, LaNora Mueller and Evelyn Mueller.

The following sponsors and mothers attended: Mrs. Albert Ellis, Mrs. Henry Hanover, Mrs. George Darnon, Mrs. J. J. Gosas, Mrs. C. A. Barnett, Mrs. Jim Clements, Mrs. Lois Blakely, Mrs. B. B. Dickinson, and Mrs. L. R. Hogan.

MRS. BRIGHT'S FUNERAL HELD HERE SATURDAY

Funeral service for Mrs. Lola Bright, 28, wife of Henry Bright, residing in the Lazbuddy community, was held here last Saturday afternoon from the Methodist church. Rev. Jim H. Sharp, pastor, officiating, and interment made in the Muleshoe cemetery.

She died that morning following a severe but brief attack of erysipelas. She is survived by her husband, her parents and two sisters.

"WALL" STREET GETS CURB, GUTTERING

Property owners on Chamberlain "Wall" street in the block immediately adjoining Main street on the west, have unanimously agreed to have curbs and guttering run in that block before the paving authorized by the city is laid, work to begin this week.

The improvement is to be done at property owners expense.

SUDAN MAN TAKES LIFT WITH GUN

Roy Smotherman, 55, of Sudan, was found last Saturday morning about 6:00 o'clock with a gun shot wound in his chest. He had been doing the morning chores, according to report, the body having been found in an out building near the family home. The death was termed suicide by official investigation.

He is survived by his widow, two sons and two daughters.

Editorial

Every Great Attempt is Glorious Even if it Fails

A THOUGHT FOR THE WEEK

The Lord is known by the judgment which He executeth: the wicked is snared in the work of his own hands.—Psalms 9:16.

Wickedness may prosper for a while, but in the long run he that sets all knaves at work will pay them.—L'Estrange.

WOMEN'S FREEDOM

The recent ninety-first anniversary of the first womens rights convention in the United States was observed as "Woman's Independence Day."

The average American woman, however, probably passed it by without any special recognition or observance. The woman of today regardless whether she lives on a farm, keeps house, or works in an office—will find it hard to envisage a day in which women did not have the freedom to permit their full participation in the world in which we live. The progress of independence for women has kept pace with the material and industrial growth of the nation and they have shared in the nations progress and wealth.

Now that women in other parts of the world are losing their freedom and find their rights abrogated by dictatorial edicts and collectivism, the American "Woman's Independence Day" should be observed every day. And it should take the form of a greater interest in those things which safeguard that independence. Only as women help to preserve and strengthen the foundations upon which the freedom of all of our people rests, only as they become more deeply interested in finding a solution to the problems which face the private enterprise system today—will they be able to retain their independence.

In other countries, where these rights were not guarded vigilantly, women are now relegated to the kitchen, the field and the raising of cannon fodder.

FAIR TIME

In numerous communities throughout Texas folks are now busy getting ready for state and county fairs. Much concern is now being manifested over restock, poultry, farm and home products and various 4-H club projects, and all with a desire that each fair shall be bigger and better than ever before. The usual exhibits for prizes in canning and preserving will intrigue and tempt the stomach of us all. The handicraft is always beautiful, and there are so many attractions of various kinds, it would be difficult to anticipate them all. It is with keen regret that this newspaper learns there will be no Bailey County fair this fall. We know many of our citizens are going to be greatly disappointed.

Perhaps the most successful feature of any fair is the social time. Many faces of friends appear at the yearly fair, not seen at any other time. It may mean a family reunion or community home-coming. It brings and renews associations of other years. Everyone enters a fair week with pleasure and support.

There have been many things which have changed in our day, things which would puzzle a grand-father or his father, perhaps, but they would still feel pretty much at home at the fairs. Old friends like pigs and horses, fat cattle and pumpkins, patchwork quilts and apples would greet them to day as yesterday. There may be popcorn and peanut stands crowding the stand-but that is the same as al-

ways! It is indeed good to have the institution of the county fair remaining as many other American institutions pass from the picture.

LABOR DAY

The celebration of Labor Day holds a most important meaning for all Americans. It is the acknowledgment that it is honorable in our country to work with one's hands. This is not so in many foreign lands where there is a class distinction so pronounced that the laborer for hire and employer who hires are in two distinct and separate classes. Almost every American has a part in labor at some time or another, and the average American is the American laborer.

Of course there is a labor problem in this country. For the conditions of labor alter from year to year and such a large organization as is the labor group needs to change in its various responsibilities. New leaders come and go, discord and divisions arise in its ranks. It is the hope of all that such difficulties will iron themselves out and we can continue to respect the purposes and aims of labor.

There have been times when exceptional cases have arisen to cause citizens to disapprove tactics of labor. In order to win a point, violence is not necessarily wise. As a whole, labor and its employers are on a firmer footing, a clearer understanding exists between the two. We wish that the common gain for both will be felt and the steady, strong leadership of such a force as labor will call forth wise and seasoned heads.

WELCOME HOME

This is about the time when folks in Muleshoe are returning from vacations with many stories to tell of trips and sights, experiences and meetings. The family that went north start off with a photo of a string of fish that makes an angler's palm itch. Of course, we know how often we have pictures taken with the other fellow's catch! There is the inevitable tale of the big one that broke the line, ate the bait, leader and sinker, pulled the boat around tangled with the anchor and left without saying goodbye. There are the folks who travelled many hundreds of miles from home and came across a fellow who used to live in Muleshoe and went to school here in the old days. We remark how small the world seems! The neighbors who saw the world's fair tell us of amazing sights and predictions of the future.

Those of us who remain at home and have not been lucky enough to have a vacation may be a bit envious of it all, but we are glad too. We welcome the travellers back and listen to your experiences, and say, "glad to see you home again."

WISE WORDS

Today and yesterday, tomorrow and thereafter, brings to us the constant plea of "be patient. How hard it is to obey, how difficult to heed the warning of patience and its virtue. There is the wisdom of words and quality of genius in the obeying.

From our childhood comes to us from lips we love, "you must be patient." From our adulthood we speak the same to those we love. The man who is wise pays heed. The Bible gives us the counsel of patience and the things to be ac-

complished through it. There may be a patience for evil, but patience for good is the right sort of staying power. Too bad, that too late we appreciate the wisdom of the quality and too often we are too busy to try it out.

BUSY TIMES

Busy times are just around the corner for West Texas farmers. Already the sudan harvest has been started, and in a few weeks more there will be the sorghum grain to cut and gather. Some silo owners are already busy filling their trenches. Then just a little later will come cotton picking time.

There is a general whir of machinery now all over the county as will be readily attested by anyone who drives out in any direction. It is a glorious time of realization for the countryman, a time when they begin to cash in on their hard labor of months past.

Harvest time represents reaping and storing as returns from honest toil, of benefit from sweat and sinew. Many of the crops of this county are a super-excellent, and we are happy with the farmers over their prospects.

SALUTE IT

A southern state has made it lawful for public school children to salute the flag. The court has ruled that the act has not a relation or connection with the religious belief of the school child. Some states have ruled otherwise, through their lower courts.

The symbol of our flag is a symbol of our liberty, and so is the liberty of religion closely linked to the flag, but, by the act of the salute, does the school child deny his religion? Does he repudiate the faith of his Father by giving allegiance to the church?

It is through the waving of that flag that the faith of the father, has lived, and when that flag ceases to blow in the breeze, when that flag falls to get its deserved stand in the schoolroom, look out for the church and your religious freedom.

Jaunty Journalettes

Every Muleshoe man is a hero to his wife if he can prove he snubbed a pretty girl for her sake.

One can't improve a lady by painting it, but there are some Muleshoe young ladies who realize they are not lilies.

Most folks in Muleshoe who insist upon making fools of themselves, usually try to keep other folks from finding it out.

If two-thirds of the population in this world have no liberty, does that figure also include married men in Muleshoe?

A sure way to make a hit with a Muleshoe woman who has been married 15 years, is to tell her she doesn't look it.

It isn't necessary to fool all the people in Muleshoe. Just fool 50 per cent of the population and you're a success.

What puzzles many a Muleshoe youngster is how their parents lived this long without knowing anymore than they do.

The only summer vacation some men in Muleshoe had was in doing the things their wives thought out for them to do last winter.

Almost every Muleshoe man likes flat cry, even though it sometimes is short of his own opinion of himself.

SNAP SHOTS

The road to poverty is often soaked with gasoline and paved with worn out auto tires.

Some women try to understand their husbands for awhile and then they just stand him.

The more a man talks the less he listens and the less he listens the less he knows.

Some men go about making up their wives as gently as a freight car making up a train.

Pavement Pickups

Some one asked E. E. Dyer "How's business?" Dyer squirmed a minute then replied: "A fellow told me the other day it was so quiet one could hear the noise at the bank nearly two blocks away drawing interest."

A customer in a local restaurant asked the waiter what were those black specks in the milk. "I don't know," she replied, "unless they are some of those vitamins the home demonstration agent has been talking about."

Homer Hinton says the Republicans are going to make political lambasters out of the crows next spring. They plan splitting their tongues, teaching them how to cuss the New Deal and then head them toward the solid Democratic south.

A northern prospector was in R. L. Browns office the other day, when Brown incidentally made some remark about the cotton gins here. "Good heavens," the visitor exclaimed. "I knew they were trying to find new ways for using cotton but never thought of them making gin out of it!"

When Clay Heavers, local poet, was a young man he used to be a Boy Scout, and one day he jumped into a lake to save a young girl who was drowning. After he brought her out he met her father and said: "Sir, I have just resuscitated your daughter." "Then, by gad," replied the father, "I'll see that you marry her."

Roy Jordan and Gil Wollard were talking about wives a few days ago. Roy said, "I know a fellow who got into trouble by marrying two wiv's." "That's nothing," replied Gil. "I know a lot of guys that got into trouble by marrying only one." "Heck," replied Roy. "I've got one better than that. I have known several fellows who got into trouble by just promising to marry one."

Rev. Jim Sharp has been holding a revival meeting at Sudan, and one evening while there a young couple came to the parsonage just as he was leaving for service. He explained to them it was time for service to begin and suggested they attend church, and at the close of the service he would be glad to perform the ceremony. They did so and at the close of the service, so as to give them the nod, he said, "All those desiring to be married come forward." There were 13 women and one man started for the altar.

WEST CAMP COMMUNITY MEETING TUESDAY

The regular community club meeting of West Camp will be held Tuesday evening at the school house; there, and a general invitation is extended the public to attend.

County Judge M. G. Miller will be the principal speaker, and there will be other speakers and interesting numbers on the program. The "Chunky" Morris orchestra will furnish music.

SEWING CLUB HAVE MEET

Members of the Sewing club met at the home of Mrs. W. H. Kistler Wednesday afternoon of last week. A very enjoyable afternoon was spent playing games and sewing.

Mrs. J. L. Wallace will be hostess to members of the club at their next regular meeting W. Tuesday afternoon, September 6. All members are urged to be present.

Helen Keller Gets Barkless "Seeing Eye" Dog

HELEN KELLER, famous deaf, dumb and blind lecturer greets her new "seeing eye" dog, Kanzan Go, upon his arrival at New York after completing an 11,000-mile journey from Japan by steamship. Especially trained for Miss Keller's use by the Tokyo Police Department, Kanzan Go, a shaggy, barkless Akita, was presented by the Japanese Foreign Office equivalent to the U. S. State Department, to remain in New York for two years ago.

The women of England were skilled in weaving fine linen as early as the Seventh century.

BE A BETTER COOK

with a new GAS RANGE

YOU can make all sorts of exciting new dishes on one of these marvelous new Gas Ranges. Broiling's a cinch with the smokeless broiler. Ovens have a whole new bag of tricks. They give higher heat than ever before—and hold a lower temperature as well. You can make vegetables more delicious the "waterless" way on the simmer burner. Visit your dealer and see these handsome new Gas Ranges. They are so sparkling, smart, modern. He will be glad to show you the many different models.

WEST TEXAS GAS COMPANY

GOOD FEED—POOR FEED

By T. C. RICHARDSON, Secretary Breeder-Feeder Association

Good crops of feed sometimes turn out to be poor food for livestock for no other reason than that they are not harvested, when at their best, and not properly cured or conserved. All hay and dry forage crops are more nutritious and more palatable if harvested before maturing seed. Sweet sorghum for hay or bundle feed should not be permitted to stand until over-ripe, which increases the "woodiness" of the stalk and usually results also in the drying up of part of the leaves. On the other hand, either sweet or grain sorghums which are to be used for ensilage should be permitted to stand until the seed are fully mature, since the seed constitutes an important part of the feeding value. The silo will preserve all its nutritional elements in the most palatable form, and ensilage will "keep" indefinitely without deterioration.

Most of the Southwest has produced good feed crops this season, and the next concern is to save them and turn them into money. All "roughage" must be fed as close to where it grew as possible in order to get the most value from it; on the same farm, so that the manure will go back to the land, is the best place. It is cheaper to bring the livestock to the feed than to haul the feed to the livestock.

There is no "perfect" feed alone; though good alfalfa hay comes about as near as possible, even it should be supplemented by carbonaceous feeds, either grain, grass or ensilage, to make a balanced ration.

Non-legume hay and ensilage must be matched up with protein

elements, such as cottonseed meal, alfalfa or other legume hay; and when one is on hand the other element should be bought if necessary in order to make a balanced ration.

The "cash market" for corn and other feed grains is keeping many Southwestern farmers from profits they might as well have. Last year some farmers in a certain Texas community were selling their corn at thirty-five to forty-five cents a bushel, by hauling it to the shellers. Other farmers in the same community were feeding the same kind of corn to pigs and cashing it in the form of pork at ninety cents a bushel. Many of those who sold their corn on the "cash market" bought bacon from Iowa to Wisconsin, and probably never tasted ham the year round!

When we, in the Southwest, begin to wrap our feed crops up in hides, or turn them into dairy and poultry products at home, before sending them to market, we will live better on home-grown fresh and cured meats, milk, butter and eggs, and will have more net cash income in the year besides.

Selling feed crops in the "raw" is poor economics for several reasons. Feeding them at home gives employment of time that would otherwise be wasted. Feeding them at home reduces the volume to be hauled to market. Feeding them at home spreads the income and the labor over a longer period.

We produce, in growing cotton, one of the finest livestock feeds in the world—cottonseed meal. In combination with the forage and grains we grow, it should be used here, instead of shipping it to Europe or the Corn Belt to carry fer-

tility to foreign soils. The most prosperous communities are those which are turning the raw products into butterfat, quality meat, and other consumable products instead of peddling their feed as soon as harvest and because more of their time is profitably employed than is possible in a straight crop-farming system.

The Breeder-Feeder program is nothing more or less than balanced farming—balancing crops with livestock and poultry, and vice versa.

Painted Turtle Likes Sun

The painted turtle loves to bask in the sun near the water's edge where it can quickly dive to escape enemies if disturbed. They are alert and shy and disappear with the slightest noise.

Shelter Young on Backs

Several swimming birds, like some swans and the grebes, not only carry their young on their backs but also shelter them there at night, raising their wings as a cover.

Why Judges Were Black Cap

Covering the head was a sign of mourning among the Israelites, Greeks, Romans and Anglo-Saxons—hence the black cap of an English judge passing a death sentence.

Lines Nest With Pitch

The red-breasted nuthatch (sharp black stripe across its white-sided head) lines its tree-cavity nest with resinous pitch, though why is not known.

The Language in Iceland

The inhabitants of Iceland, because of isolation, have preserved their language virtually as it was spoken and written before the Fourteenth century.

The First Public Building

The White House was the first public building erected in Washington, the cornerstones having been laid on October 13, 1792.

Much Hardened Copper Used

Despite the persistent notion that hardened copper is a "lost art," there are great quantities of such copper in commercial use.

Jade of Different Colors

Far from being exclusively green, a Chinese jade collection may include objects of rose, red, white, and steel blue.

"To Make Noise Like a Goose"

The word "giggel" is an attenuated form of the middle English word "gagelen," which meant "to make a noise like a goose."

FARM TOPICS

PASTURE GOOD FOR HENS, DUCKS, PIGS

Turkeys Also Improve if Allowed Greens.

By Prof. D. B. Johnstone-Wallace, Agronomy Dept., Cornell University, WNU Service.

Pastures have so long been associated with dairy stock that the value of pastures for other kinds of live stock, such as hens, ducks, geese, turkeys, fattening cattle, sheep, horses and pigs is often forgotten.

Young birds depend on something similar to milk in early growth, and the value of milk in their diet in later life is well known. Young cattle, sheep, horses, and pigs depend on milk for their early support as grown animals.

Perhaps the nearest approach to milk in its chemical composition is young leafy pasture herbage from a good pasture. Such material is not so largely produced from water, but rather the equivalent of a concentrated dairy or poultry feed and water.

Turkey growers should find the use of pasture helpful. When the amount of milk fed to turkeys is considered, it becomes evident that turkey growers are missing a fine opportunity if they do not use pasture herbage instead of milk which is so largely produced from water.

Turkey growers in the West and Midwest have been using pasture for some time and thus have been able to complete successfully with New York turkey growers.

Pre-Cooling Table Fowl Particularly Important

The pre-cooling and proper handling of poultry killed on the farm or at a packing plant is particularly important because the bloom will be quickly lost if the birds are not pre-cooled without delay and also handled properly, asserts a writer in the Montreal Herald. Most of the farm poultry is killed in the fall when cool temperatures prevail. If proper care is then observed in assembling and packing the birds they can be placed on the market in the best of condition. Wherever poultry is handled, the temperature of the pre-cooling room should be checked frequently with a reliable thermometer. A temperature of 32 degrees Fahrenheit is the best for pre-cooling and handling dressed poultry. Fresh poultry can be handled satisfactorily in a temperature a few degrees higher than 32 but never higher than 40 nor less than 32; if less than 32 the birds will freeze. Every effort should be made to pack the birds quickly and if intended for cold storage they should be frozen without delay. If they are intended for immediate consumption or for sale as fresh birds, they should be packed at a temperature of 32 degrees.

Some of the chief essentials in handling dressed poultry are: See that all birds are bled and plucked properly and that the feet and the mouth are washed clean. Birds should be hung up by both feet and allowed to pre-cool for twenty-four hours. The temperatures should be checked frequently with a thermometer. In transporting poultry to assembling or selling points it should be held at the temperature at which it was pre-cooled.

Milk by the Box

Modern milkmen drive rubber-tired wagons or trucks; even the horses wear rubber shoes. Enter now the noiseless milk bottle—rather paper box. The dairy department of the University of Illinois has developed a machine which folds pieces of heavy paper into boxes, coats them with hot paraffin, cools the paraffin, fills the cartons with milk, hermetically seals and staples the top. The process is sanitary, saves space in the refrigerator, and there are no bottles to return or get broken. A case of boxed milk weighs only 27 pounds against a weight of 63 pounds for a case of bottled milk.—Country Home Magazine.

Swap Day in No. Carolina

A reader writes from Dallas, N. C., about a swap day which has set aside one day a month for farmers who have something to swap. Cows, mules, pigs, tools, guns, seed, old cars—anything of value which isn't needed—are brought to town at the appointed time and parked on a vacant lot. A lively time ensues while the bargaining is on, and anyone who has something left over may have it auctioned off, usually at a fair price.

Sand for Litters

Sand is one of the most satisfactory litters for turkeys that growers use, according to a poultryman. If covered with burlap or papers for the first few days until the turkeys are well started on feed, there is very little danger that the turkeys will develop the habit of eating the sand. Sand is safe to use in brooding turkeys because there is very little danger of the birds becoming crop-bound or it clogging the intestines.

General News Over Texas And Other States For Week

Claude D. Teer, chairman of the State Board of Control, was killed Monday morning when struck by a train in San Antonio.

Fred C. Branson of Galveston has been appointed by Gov. O'Daniel to succeed Beta Gossett as state banking commissioner, effective Sept. 1, when Gossett's term expires.

GEN NEWS

Rev. J. Pat Horton, pastor and D. Clyde Hamilton, educational director of the First Baptist church at Plainview have both resigned. Horton has been pastor there for 14 years, and has resigned to times previously. Both resignations have been accepted by the congregation.

Presidential approval was given last Saturday on \$300,000 worth of WPA projects for New Mexico, 158-611 being for street improvements in Clovis, \$46,195 for sanitary sewer improvements in Albuquerque, \$104-626 for new court house in Socorro county and \$9,777 for archives research at the University of New Mexico.

The estate of the late Senator Bronson M. Cutting, of New Mexico, who met his death in an airplane crash in Missouri, had finally been probated, the total sum being announced as \$3,502,302. Much of his estate went to relatives, however considerable went to political assistants and friends in New Mexico. Senator Robert M. LaFollett of Madison, Wisconsin, received \$50,000.

A riot of considerable magnitude was generated at San Antonio last Friday night when Mayor Maury Maverick, that city, permitted a group of communists to hold a public meeting. About 24 people are said to have been more or less injured in the confusion when an estimated 3,000 citizens broke up the meeting. Following the fracas there is much talk of a petition of recall against Maverick.

Progress News

Large Dinner Sunday

A group of friends met in the home of Mr. and Mrs. Roy Hogan Sunday after church. The preachers in the revival which has been going on at Progress have not had time to visit in all the homes while in the community so a group met for a large dinner.

Those present were Revs. Hill and King, Mr. and Mrs. Byron Gwyn and daughter Joyce, Mrs. Swanson, Mrs. Gutwell, Mr. and Mrs. J. A. White, Mr. and Mrs. H. L. Whitte, Mrs. Jess Murrill and children, Gordon, Jerene, Jessie and Dorothy, Mr. and Mrs. Gross, Mary Margaret Guiley, Jeanette Vinson and Mr. and Mrs. Hogan and daughters.

Sunday School was well attended Sunday. It was the largest number present this quarter. There were 114 members and several visitors present. Two teachers were absent. Several of the regular members were also absent. There is now 137 on roll in the school.

MISSIONARY SOCIETY HOLDS MEETING

Members of the Maude Hart Missionary society, local Methodist church, met at the home of Miss Elizabeth Harden, Thursday evening of last week in their regular social meeting.

Mrs. Finley Pierson very interestingly gave a chapter in a study members have been pursuing for several weeks.

Mrs. Jim Burkhead was in charge of entertainment and games were played, followed by refreshments of salad and cookies.

Among those present were Misses Ora Sharp, Hazel Nelson, Marie Gooch, Mesdames Finley Pierson, Bonnie Isaacs, J. H. Sharp, Elizabeth Gardner, Inez Bobo, Jim Burkhead, Feryl Little and the hostess, Miss Elizabeth Harden.

MISSIONERS HAVE SOCIAL MEETING

The Methodist Missionary society, circle 1, met Tuesday afternoon at the home of Mrs. A. P. Stone, it being the regular social meeting.

The program was one of the "World Outlook," studying the subject, "Life Rededicating." Mrs. Finley Pierson leader.

Those present were Mesdames Barfield, Pierson, Farrell Sharp, Bayliss, Wallace, Edwards and the hostess Mrs. Stone. Visitors attending were Mrs. Stone, Horace Holt, Mrs. W. McHorse and her sister-in-law, Mrs. Roy Briggs, whose husband is the Methodist pastor at Corsicana.

Production of rose oil in Turkey last year aggregated 612 pounds.

**WEEKLY LAY SERMON
CRYSTALLINE RELIGION**

By JESS MITCHELL

Religion is never static. It is always changing, always improving. From the earliest days of idolatry there has been a constant development of man's idea of God, how to approach and imitate him. As ignorance and superstition recede, man attains a newer, better and more satisfactory idea of God and how to approach his own excellency. There is no comparison with the brilliancy, the purity and the clarity of religious ideas and ideals of the present day to that of two thousand years ago. They are as much alike as is a diamond from a shunk of bituminous coal the one being a refined product of the other.

Job the ancient patriarch, one time declared "the crystal cannot lie." That was simply a metaphorical utterance wherein that ancient gentleman from the Land of Nod sought to express the superior illumination and joy of the ancient ideal of religion as compared to those of still former days, and since these days when this ancient of great faith gave utterance to his historic expression religious ideals have made wonderful advancement.

I have on thought whatever of deprecating the crystal. It is the star of the mountains, the queen of the cave. Those of my readers who have visited the Carlsbad caverns of New Mexico and beheld the brilliancy of electric lights as they flooded the myriads of stalactites and stalagmites pointing downward or upward flashing before the eye in resplendent colors of the rainbow, know something of their startling beauty and magnificence.

Geology tells me there are six different kinds of crystal, everyone of them of mathematical precision, paying tribute to the attributes and the exactness of Creator's law in world management. This is no slipshod universe in which we live, by any means. Law, order, symmetry, precision are all its fundamental requirements. There are no loose screws in the world's machinery. Everything works with the exactness of a perfect automaton.

"We don't know when human beings first began making glass. Vases of glass beautifully colored, have been dug from out the ruins of Herculaneum, and glass beads were used as adornment by the women of ancient Egypt. It is the crystal in our window that keeps out the storm and cold and lets the light of day shine in. So our twentieth century religion is constantly becoming more crystalline. People are forming more intelligent ideas regarding God's

relation to his creatures and of man's relation to his God. The Bible is becoming more transparent. We are coming to know it more intimately and more intelligently, giving more lucid and perfect interpretation of its teachings and more consistently applying those teachings to the improvement of our own lives.

There are passages of Scripture that once were enigmas, puzzles, riddles, and impossible to understand. As the light of advanced knowledge they are rapidly becoming clear. There are metaphors and similes, poetic utterances and symbolic passages which have puzzled thousands in past years that are today being interpreted amid the bright intellectual light of the present century in a glorious soul-inspiring manner.

Providence which once seemed very dark is now quite pellucid. Understanding which was once quite shadowy is becoming more luminous and crystalline. As religious ideas are stripped of their trappings and sacerdotalism, their rituals and formulas, becoming more and more like the great teachings of that Master Man of Galilee, there are woven spiritual wreaths and crowns and constellations of crystalline clearness and soulful beauty supremely satisfactory to the heart of mankind in this present day.

Religion of the present day is beautiful in the harmony it extracts from the nature of man and God, showing its fundamental alikeness, the one being much lower than the other, yet having within it all the essentials of divinity. It is beautiful in the sentiment it implants, in the hope it kindles, the faith it engenders, in the logic it proposes and in the attainments of a spiritual kind that are made not only possible, but probable.

Twentieth century religion is rapidly losing its ancient staleness and becoming fresher and sweeter every day. As man's intelligence realizes new and proven factors of Omnipotence while many of the old ones of superstition and barabram slip away. It is quite proper that such should be the case. The diamond is only a mineral crystallization. Carbonate of lime rises until it becomes calcite or aragonite. Red oxide of copper crystallizes into rubies and octahedron, and crystals of all kinds which have been so popular in all years to adorn the home and enhance the personal beauty of femininity are only resur-

rected forms of earth that were once far from lustrous loveliness.

So religion has also undergone a great and marvelous transformation. During all the years of the past there has been a constant and wonderful improvement. The religion expressed in the New Testament is far superior to that of the Old Testament and as man has progressed spiritually and intellectually since the writing of those books and epistles, so has his interpretations of their teachings progressed in keeping with the evolution of his own nature, giving him a clearer, more comprehensive, more philosophic and inspiring abstract hypothesis and concrete basis of interpretation and application of the divine to the human. Every day now the Creator, through the manifestation of his spirit, is taking people as well as man, his tools as rock, chiseling the facets of their character and polishing their faces until they have a genuineness of spiritual entity that can scarcely be excelled on earth and a radiance of beauty almost matchless to behold.

Like has a strong tendency to produce its own kind, hence it behooves one to be careful of contaminating associations. I have attended prayer meetings of the past when I heard good folks delineate on their past crimes in such vociferous manner that I felt like grabbing my pocketbook and fleeing suddenly backside and turn criminal again. I have even known some ministers whose chief stock in trade was reiterating past crimes and dissipations. It is pleasant to know, however, that a countless number of people have been brought up from the very depths of degradation to the highest points of spiritual illumination, transformed from common coal into the scintillating and luminous spiritual diamonds through the powerful chiseling of religion. The coming power of the twentieth century Gospel is an almost unexplainable alchemy, whose light falling upon the natural soul of mankind reveals the crystalline essence contained in it, transforming and enhancing those primal virtues until the possessor becomes a magnificent jewel fit to adorn the mansions of eternity.

I grant you there is an inherent tendency for the coal to want to stay coal and for limestone to wish to remain limestone. It is the chiseling, the cutting and the polishing that enhances the natural rock and brings out the beauty of hidden character. There is within man an animal nature which has a tendency to resist the Omnipotent emery wheel which would cut the brilliant facets of refined character revealing the implanted immanence of divinity, letting it shine through out the world reflecting the essence of its Maker and inspiring other jewels in the progress of transformation.

Even at the best, jewels persist in tarnishing. The housekeeper must constantly polish the silver. The bride must repeatedly polish the cherished diamond she wears upon her third finger. She wears it there as a constant reminder of an eternal vow of fidelity she has taken. So human souls must be constantly polished. Contact with the grosser elements of this world means there must be a continued effort put forth to retain the acquired brilliancy, luster and attractiveness of a spiritual diamond. There can be no let-up. Day by day this spiritual rejuvenance must be continued.

There is nothing more wonderful in all crystallography than a brilliantly shining soul reflecting the prismatic colors of Omnipotence in this world. It is a resplendent mirroring of infinite attributes which shall last throughout eternity, growing constantly brighter as the years of forever onward roll.

Before I close, I must remind you that a crystal has no light of its own. Its shining comes entirely from borrowed light. I remember some years ago when in Kansas City seeing a show window in a jeweler's shop that was filled with diamonds, white topaz and other crystal-like gems. I first noticed it in the daytime as I passed it going to the auditorium where I was attending services, and paid no attention to it, for there was no particular attraction manifest in the ordinary daylight; but that night as I passed it the electric lights in the window had been turned on and I think it was the most magnificent scene of sparkling illumination I have ever witnessed. Its supreme beauty was absolutely beyond words to express.

So I come to tell you that these crystalline spiritual gems of earth shine and express their wonderful spiritual brilliancy in reflection of the borrowed light of the Sun of Righteousness—Jesus in their faces, Jesus in their songs, Jesus in their triumph—and they shall shine forever and forever.

There is an end to everything that is physical. The time is coming when the brilliant stars, mighty chariots of the skies shall all be halted, and the kings of the upper firmament riding in them shall be thrown out, their brilliant crowns dashing to pieces on the far away shores of time. Star after star, accompanied by the funeral torches of burning worlds, will be carried out for burial in the graveyard of the universe. Constellation after constellation will

**Appendicitis Fatal
One In 200 If No
Peritonitis**

Austin, Aug. 29.—"It has been estimated that an operation for acute appendicitis is performed every minute in the United States; moreover, that peritonitis, a result of this disease, takes the life of someone every twenty-nine minutes. Against this frightful toll may be placed the significant fact that if peritonitis does not occur the appendicitis fatality rate is but one in two hundred cases, emphasizes the Texas State Department of Health.

The perforated appendix, which is the cause of peritonitis, is a preventable condition. Prevention lies in prompt recognition of acute appendicitis and prompt surgery. Though this fact is well known to the medical profession and has been definitely proved in hospitals throughout the land for years, the public as yet is not sufficiently impressed with it.

"Thus it happens that the high appendicitis mortality rate in this country (incidentally, the highest in all civilized nations) is not due to a lack of skill in diagnosis and surgery but to the American tendency toward self treatment with the accompanying factor of delay.

"Appendicitis is essentially a disease of the young, seventy-five per cent of the twenty thousand persons who die annually from this cause in the United States being under the age of thirty, while only ten per cent are over forty.

"Hospital records disclose that delay in seeking medical advice was the outstanding reason for appendicitis deaths. An impartial survey of deaths from appendicitis in an Eastern state proved that the chances of dying are four times greater on the second than on the first, five times greater on the third, six times greater on the fourth day of the disease. The tragedy of procrastination in the presence of appendicitis is enacted only too often.

"Personal intelligence, then, is the key to the appendicitis mortality problem. The predilection for laxative's upon any, every or no occasion at all, is the great cause of the present time, insurmountable stumbling block. In the presence of abdominal pain, never take laxatives and call your family physician at once if the pain continues.

grow dim in despair, bow their heads and shiver as they wrap themselves about in the winding sheet of death and leap upon the funeral pyre of lost and forgotten worlds. But they who on earth have had a passion for the redemption of mankind, the great and noblest of human jewels, shall continue to shine in the crystalline beauty of their immortal characters forever. Their beauty and brilliancy shall never grow dim. The soul of mankind will then be freed to mount to the highest of the infinite communion with the divine where it shall shine in the glory of the Sun of Righteousness while the years of eternity onward roll.

IN THE COUNTY COURT OF BAILEY COUNTY, TEXAS IN THE MATTER OF THE ESTATES OF ROY H. EROD AND NORMA NINA EROD, MINORS. NO. 119 NOTICE

Notice is hereby given that I, Nina F. Barfield, guardian of the estates of Roy H. Erod and Norma Nina Erod, minors, have this the 29th day of August, A. D. 1939, filed my application in the above entitled and numbered cause for an order of the County Judge of Bailey County Texas, authorizing me, as Guardian of the Estates of said wards to make a mineral lease upon such terms as the Court may order and direct, on the following described real estate belonging to the estate of said wards, to-wit:

An undivided 3/4th interest owned by Roy H. Erod, and an undivided 1/4th interest owned by Norma Nina Erod, in and to the Southwest Quarter (SW 1/4) of Section Number 49, Block "Y", W. D. and F. W. Johnson subdivision in Farmer and Bailey Counties, Texas, said land being situated in Bailey County, Texas; and South Half of Northwest Quarter (S 1/2 of NW 1/4) of Section Number 49, Block "Y", W. D. and F. W. Johnson subdivision, in Farmer and Bailey Counties, Texas, said land being situated in Bailey County, Texas.

Said application will be heard by the County Judge at the Court-house in the City of Muleshoe, Texas, on the 11th day of September, A. D. 1939.

NINA F. BARFIELD, Guardian of the Estates of Roy H. Erod and Norma Nina Erod. Publ. Aug. 31, 1939.

PROGRESS NEWS
School will open here Monday. The Methodist revival closed Sunday night.

Mrs. W. B. Harlan entertained her Sunday school department with a party Thursday of last week.

Mrs. Dave Stovall and Miss Ila Kalk Duncan shopped in Clovis, N. M., Monday.

Miss Crystal Kennedy returned to her home Tuesday from Littlefield where she had undergone an appendicitis operation.

MARTHA SCHUSTER HAS BIRTHDAY PARTY

Little Miss Martha Joannah Schuster was honored by her mother, Mrs. H. E. Schuster with a party Thursday afternoon of last week. The occasion being to celebrate the honoree's fourth birthday anniversary.

As the little guests arrived, Miss Dorothy Mae Schuster played "Happy Birthday" on the piano. Oscar Ray White entertained the group by reading. Joannah next surprised her friends by giving several readings, followed by readings by her brother Jack Schuster. Each guest present gave nursery rhymes, after which each was given a balloon to be blown up and a paper plate with which they batted the balloons.

Various other games were played. Each guest was seated at the table and served vanilla ice cream and angel food cake. After refreshments the honoree hastened to a stand covered with many gifts and began opening them rapidly. She was recipient of many dainty and lovely gifts from her lit-

tle friends attending and several who were not present sent gifts.

Those present were: Wanda Lee Todd, Glenn Murry Chester, Oscar Ray White, Shirley Ann Jordan, Justin Allen and David Mathis, Howard and Gaylard Tate and the honoree, Joannah.

OUR APPRECIATION

True friendship is shown when needed most, and our sincere appreciation goes out to those who showed their genuine friendly helpfulness in our recent bereavement.

Mrs. Mary S. Davis
Mrs. Cliff Davis
Miss Mildred Davis
Hugh Davis
Mrs. R. W. Brunson.

TWO SUSPECTS ARE PICKED UP HERE

Two young men were arrested here by members of the Sheriff's department Wednesday morning, on advice from Oton, they being alleged as charged with hi-jacking. They were later turned over to Lamb county officers and returned to Oton.

WE HAVE DECLARED—

WAR ON HIGH PRICES

We don't care whether you are German, Polish, British or French—we extend to each and all citizens residing in and around Muleshoe to participate in the benefits of this economic war. There is a battle royal staged every Saturday at our store where numerous Prices are cut and slaughters, innumerable Values made captives, and Quality Merchandise taken as prisoners by our customers to their home to enter servitude in dining rooms for delightful nourishment of the entire family.

We seek no added territory unless it be filled with new customers. We ask no new emoluments, no greater prestige other than the honor of satisfactorily serving more people with good wholesome Foods that they may continue more efficiently their battles of life and gain more victories.

Mulshoe Business Concerns Donate Visitor Gifts

That Mulshoe business concerns will cooperate heartily with the National Farm Loan association on its anniversary day here next Tuesday is clearly evidenced by the number of gifts being offered members who attend. These are purely "guest gifts" with no qualifications nor strings of any kind attached to them. Parties receiving them merely go to the place where they are given and claim the courtesy they have extended.

Mulshoe business men appreciate the fine big crowd of guests expected to be here Tuesday, and the gifts are merely a mark of their appreciation to the visitors.

As the Journal goes to press, this list is not complete. There will be many other who will have gifts to offer whose names were not obtainable at this time.

Higginbotham-Bartlett Company—3 packages Kalkomine.
E. R. Hart Company—\$5.00 worth of wall paper.
Beaver Grocery—choice of 24 lb. sack of flour, 3 lb. can of coffee or 10 lbs. sugar.

The Robinson Shoe Shop—pair of shoes half-soled.
Dyer Hardware & Furniture—1 can floor or furniture wax.
Mulshoe Bakery—\$1.50 in merchandise.

Skeets Barber Shop—1 hair cut.
Holt Brothers Oil Company—5 gal gasoline.
Arnold Morris Auto Co—50 quarts of lub. oil.
Rockey & Son—10 gals. Fire Chief gasoline.

Border Grocery—\$1.00 in merchandise.
Opal's Shoppe—shampoo and set.
Opal's Shoppe—\$1.00 in merchandise.

Damron Drug Store—1 glass of Steffes Ice Cream to the borrower and every member of his family present given to the borrower with largest family present.

Western Drug Store—\$1.50 in merchandise.

Mr. and Mrs. W. B. Harlan and son W. G., visited in the home of her brother, O. B. Griffiths at Earth Sunday.
Jeff Grey of Lorenza, is visiting in the home of his uncle G. Gray.

FIRST NECESSITY FOR INCREASED PROSPERITY

GOVERNMENT LET BUSINESS ALONE	36%
INCREASE PRODUCTION	24%
PENSIONS AFTER 60	20%
IMPROVED CONDITIONS IN SOUTH	6%
UNEMPLOYMENT INSURANCE BENEFITS	5%
DON'T KNOW	7%

In a current survey conducted by the National Association of Manufacturers on a nation-wide basis, more than one-third of those responding said they thought the most important thing that would contribute to prosperity was to have government let business alone. Nearly one-fourth considered increased industrial production of first importance in order to improve national prosperity.

(Total of percentages does not aggregate 100% because some persons in replying specified two or more alternatives.)

TO INCREASE PROSPERITY TAXES SHOULD BE:

LOWERED	48%
LET ALONE	36%
DEPENDS	9%
RAISED	2%
DON'T KNOW	5%

LOWER taxes to bring increased prosperity were demanded by nearly one-half of those replying in a recent nation-wide survey by the National Association of Manufacturers to sound out public thinking on problems hampering recovery.

Whereas 48% urged lower taxes and 36% urged that taxes be held at their present levels, only 2% called for higher taxes.

TO INCREASE PROSPERITY GOVERNMENT SPENDING SHOULD BE:

DECREASED	58%
LET ALONE	23%
DEPENDS	8%
INCREASED	6%
DON'T KNOW	5%

DECREASED government spending was called for by 58% of those polled in a recent survey by the National Association of Manufacturers. They held that government spending should be decreased in order to bring increased prosperity. Only 6% wanted an increase in spending. An analysis of the re-

MRS. ORVAL CARTER GIVEN A SHOWER
Mrs. Orval Carter was honored with a stork shower Monday afternoon at the home of Mrs. R. N. Edwards, she being recipient of many dainty and useful gifts.
Refreshments of cakes and punch were served to the following attending: Mesdames Loyd Spies, Annie Howard, Buford Butts, W. O. Hampton, D. O. Buhman, Beulah Charles, J. W. Holmes, Richard Carter, C. E. Boyles Dudley Buzard, Ray Euzard, A. W. Copley, Jack Riddle, H. O. Barbour and Miss Lois West.
Those who did not attend but sent gifts were: Mesdames I. L. St. Clair, R. G. Spence, A. C. Gaed, C. B. Graves, R. C. Griffiths, Alvin Farrell, Good Harden, I. W. Harden, R. P. Taylor, E. Gilmer, Miss Hazel Nelson and J. R. Boyle.

The honoree was formerly Miss Marjorie West.
MULESHOE-TUCUMCARI TO PLAY BALL
Sunday afternoon the Mulshoe baseball team will motor to Tucumcari, New Mexico for a match game with the fast and furious team of that city hoping to bring the larger end of the scores home.
Sunday afternoon, September 10 the Tucumcari team is scheduled to play here with the Mulshoe team.
Last Sunday afternoon the local team did not participate in a game.

First Oil Painter
St. Bayon's cathedral in Ghent, Belgium, has one of the world's six greatest pictures, "The Adoration of the Lamb," by the brothers Van Eyck, one of whom is said to have invented oil painting.

AGRICULTURAL BRIEFS

By **FINLEY WHITE**
Bailey Co. Farm Agent

The growing season Bailey county farmers have been waiting on has finally arrived. We've all wanted the ground to be wet enough and the weather warm enough to make things jump. That combination has finally got together.

The past 10 days have been ideal for the greater part of Bailey county so far as growing conditions are concerned. These 10 days have brought our crop prospects from mediocre to excellent—especially is this true with feed and sudan.

Most of our cotton has sufficient moisture to mature a good crop. The best we could hope for is continuation of the same kind of weather we're having at the present writing. Of course, the ranchers wouldn't object to additional rains, but they're not suffering.

National Farm Loan Get Together
On the afternoon of September 5th, beginning at 1:00 p. m. the National Farm Loan association is giving a "Farmers Blow Out." This blow out is not confined to members of the association only, but is designed to give all farm people an insight to what the N. F. L. A. is trying to do for farm families. There will be some good agricultural speakers on the program, and too, there will be a big free picture show. This show covers agricultural and home life topics which should prove educational to 4-H club boys and girls, as well as to their Dads and Mothers. Every farm family in Bailey county is cordially invited to attend this half day of entertainment.

Bumper Feed Crops
Bailey county farmers are just about ready to wade into one of the biggest feed crops ever produced in this county—or any other county. There is one big question in the minds of all farmers who have lots of feed. That question is: What is this feed going to be worth?
The answer to this question is somewhat debatable, but nearly every one is agreed that it won't be worth much if sold immediately. Nearly every one is agreed to that the best way to market a bumper feed crop is through poultry and live stock.

When we think of marketing a feed crop through poultry and live-

stock we should consider the possibilities of the consumer demand for the product we will have for market. There are many angles to this question if every one in every county were to go the "feeder route" all at the same time the chances are the price of what they all had to sell would be rather low.

On bright spot shines forth in this big feed crop with expected low price picture. That spot is the possibilities offered through the storage of feed in trench silos.

Feeds tored in a trench silo will keep perfectly for an indefinite time. There is no chance of loss from weather, fire, rats nor spoilage. The time will come, even in Bailey county, when feed will not be as plentiful as it is now. The time will come when plenty of money can be made by feeding—if a fellow has the feed. The smart thing to do now is to dig a trench silo and store this surplus feed for use when it's scarce. Think that thing over a few days and if you feel that you're interested drop by the county agent's office and let's figure on the size of the hole to dig and how to dig it.

Latest bulletins published on this subject are available here for the asking.

Crosbyton 4-H Club Trip
The opening of school last Monday in several of the school districts cut the attendance of 4-H clubbers at the encampment from an expected 100 to an actual 20 boys. The 20 boys who attended the encampment didn't dampen the spirit of the thing at all. Three days and two nights were spent playing baseball, swimming, skating, boxing, wrestling and listening to good speeches.

There were 350 boys at the encampment and everything moved off with such precision one would have thought it was a military camp rather than a farmer boys camp.

The boys who attended this encampment received some first hand pointers on soil and moisture conservation from R. E. Dixon of the Spur experiment station. They also received some interesting facts on Agricultural education from Dean Leidigh of Lubbock Tech.

All in all the boys who attended the District encampment feel that it was time and money well spent. It will help them to be better citizens and better 4-H club boys.

The German Army is buying many pig-sons for its carrier pigeon service.

A TIMELY TIP!

FOR THE SMALL HOME OWNERS

Not only may you buy your cozy little home on the FHA government plan, but there are a number of accessories and conveniences that may also be purchased on this plan and paid for just like rent—on the monthly payment plan. We can furnish you some of these and can tell you about others. **COME IN!**
