

**City and State news**

**Clements not satisfied with plans**

By The Associated Press  
Texas Republican gubernatorial candidate Bill Clements is not satisfied with plans to broadcast locally only a series of three debates with his Democratic opponent, Attorney General John Hill.

The Democrat, however, applauded his agreement to appear with Clements. Hill said it would lead to "the most extensive broadcast 'debates' between two candidates ever held in Texas."

The candidates were to start the series with an appearance today in Houston. A Dallas station arranged to broadcast the taped debate later in the day.

Other appearances are scheduled Oct. 28 in Dallas and Oct. 31 in Amarillo. Clements said at a Capitol news conference Monday that Hill still has not agreed to a statewide debate. "These are all local," he said. "The people of Texas are entitled to hear us statewide from the same platform, at the same time and answering the same questions."

Meanwhile, the bitter Senate race between Republican Sen. John Tower and Rep. Bob Krueger, D-Texas, heated up Monday as Tower's campaign director protested that Krueger is waging a campaign of "distortion" and "deception."

Ken Towery mailed a two-page complaint to the Fair Campaign Practices Committee in Washington in behalf of the Republican incumbent.

Krueger replied in a statement. "Anyone who examines the allegations by Ken Towery will recognize them as inaccurate, groundless and as a last-minute effort to attain publicity for a losing battle."

Towery said a Krueger brochure repeats a false charge that Tower voted for a 29 percent pay increase in 1977, and another brochure aimed at black voters misrepresented Tower quotations.

Krueger said Tower's complaints stem from the fact that his campaign "is losing and is out of gas. His charges are the last gasp of a losing candidate — one who will go to any length to win."

In another development in the Senate race, La Raza Unida senatorial candidate Luis Diaz DeLeon said Monday in San Antonio he will file suit before the Nov. 7 general election against Krueger aide Mark Campos.

DeLeon claims that Campos had offered him inducements totaling nearly \$2 million to withdraw from the race, because it was thought that DeLeon might swing 2-3 percent of the vote from Krueger.

Campos denied that he had made the offers and said DeLeon had solicited a federal job and several federal grants favored by La Raza Unida.

"He (Campos) has a right to say whatever he wants to," DeLeon told a news conference. "He will have his day in court."

Krueger has also denied that any offers were ever made. Tower has called on U.S. Attorney Tony Canales to investigate the alleged offers. DeLeon, who has taken his allegations to Assistant U.S. Attorney Ruben DeLuna in Brownsville, said he will cooperate with a federal investigation.

An incident last week attracted more attention Monday as Tower offered an explanation of why he refused to shake his opponent's hand at a Houston Press Club forum.

"I was brought up to believe that a handshake was, and is, a symbol of friendship and respect," said Tower in a mailgram. "I was not brought up to believe that a handshake is a meaningless and hypocritical act done for public display."

The Senate candidates were seated at the same table one week ago after Tower had withdrawn from four scheduled appearances with Krueger. The Republican had accused his opponent of engaging in "gutter politics."

Krueger denied the charge and said Tower's actions were an indication he was not willing to be available to the voters or the press.

"Sen. Tower wants to buy his little TV advertisements and say what he wants to say without answering to me or to the voters," Krueger told reporters after the incident.

**Texan may enter book of records**

AUSTIN, Texas (AP) — John Coates, paralyzed from the waist down in a shooting accident, was \$6.8 million richer today and might have a place in the Guinness Book of World Records.

But the money won't make up for his loss of the use of his legs, Coates says.

"Nothing can compensate me for what I've lost," Coates, 42, told reporters Monday, shortly before a judge formalized his settlement with the Remington Arms Co.

Coates was wheeled into court by his son Will, 16, who was holding a Remington Mohawk 600 rifle when it discharged during a deer hunting trip last Dec. 11.

Coates' attorney, Joe Jamail of Houston, said the rifle fired when Will pushed the safety to the "off" position but did not pull the trigger.

State District Judge Tom Blackwell entered judgment in a closed-door session requested by Remington's lawyer, Robert McKissack of Corpus Christi.

Jamail called the judgment "apparently the largest single payment settlement of a tort case in history."

The latest edition of the Guinness Book of World Records says a \$6.3 million judgment for Thomas Hooks, 18, of Venice, Ill., in 1975 was the largest lump-sum personal injury award.

There have been larger settlements but they involved payment over a period of years.

Jamail said Will was in a four-wheel-drive vehicle with his father and other deer hunters when it was discovered his rifle was loaded. To unload, Jamail said, the safety had to be off.

"When he took off the safety, that's all she wrote," Jamail said. The high-powered 243 caliber rifle fired into the back of Coates, who was sitting in the front seat, ripping through his spine, kidneys and other organs.

Jamail said Remington has not admitted the rifle was defective.

"They admit nothing, but they ought to recall the goddamn things," Jamail said, adding that he has heard of no recall plans.

McKissack, Remington's lawyer, refused to talk to reporters.

Coates said the bolt action rifle that shot him was four or five years old but was seldom used.

GLYNDENE SHELTON is a nominee for director on the District Nine Altrusa International Board. Shelton has served two terms as president of Altrusa Club of Pampa and also as program coordinator, recording secretary and treasurer with the club.

**Altrusa conference underway**

The annual conference of District Nine Altrusa International began Sunday in Sherman.

Glyndene Shelton, office manager for Southwestern Public Service, is a nominee to serve as director on the District Nine Board. Shelton is a member of Pampa Chamber of Commerce, Pampa Community Concert Association and works for the United Fund and local associated organizations.

Attending the conference from Pampa Altrusa Club along with Shelton will be Marian Stroup, president; Mary McDaniels, vice-president and Geneva Tidwell.

**Outing turns into tragedy**

AUSTIN, Texas (AP) — It's been a prolonged, double tragedy for the Emory Garth family since two sons left on a target practice outing Saturday.

The Travis County medical examiner ruled that one stepbrother died of an accidental rifle shot and the other blasted himself in the mouth with a shotgun in despair.

Funeral services for Bruce Garth, 23, and Brett Henry, 17, were scheduled for 11 a.m. today.

A passerby discovered Garth's body Saturday evening slumped in a car on a wooded tract popular with target shooters. Deputies found his hands still clutching a shotgun, said investigator John Crowe.

The medical examiner's officer notified the family, who said Garth had left with his younger stepbrother. Deputies returned to the scene and

found the second body after several hours of searching.

"He had been shot once in the head," Crowe said. "We found the .22 in the back seat of the car. We assume after the accident, the older boy went to the car and shot himself."

The investigator said either Henry had accidentally shot himself or had accidentally been shot by Garth.

"They had left in good spirits about 2 p.m.," Crowe said.

The two youths had lived together for "five or six years," since Garth's father married Henry's mother, said Penny Jordan, Henry's sister.

"They liked to hunt and fish together and stay on the lake," said Mrs. Jordan, who moved to Shreveport, La., in 1971.

"They had been target shooting before, yes; to a great extent, no," said Emory Garth, their father.

## Of oil rigs in area

# Canadian chamber plans tour

CANADIAN — A guided tour of one of the big drilling rigs in the Canadian area will be a special feature of a business and industrial tour planned by the Canadian Chamber of Commerce in connection with Canadian's annual Fall Foliage Tour next Sunday afternoon.

The industrial tour replaces the highly successful "tour of homes" which featured the Foliage Tour date last year, and like the tour of homes, proceeds from the ticket sales (\$2 for adults, \$1 for children under 12) will all go to the community-owned Edward Abraham Memorial Home, a non-profit nursing home.

Headquarters for the Foliage Tour, which is free, and for the Industrial Tour, will be the lobby of the Moody Building at the corner of Second Street (Highways 60 - 83) and Main in downtown Canadian. Maps and brochures will be available there for both tours.

The business and industrial tour will also include guided tours of the Moody Building itself (the historic Hotel Moody which has been restored and remodeled into a luxurious office building housing the Malouf Abraham Company and Sansing and Nies law firm on its upper floors, plus shops and a coffee shop in its "mini-mall" on the ground floor); and of Canadian Millwork, the home-

grown multi-million dollar industry which ships finished hardwood trim all over the United States.

The Millwork buildings, stretching out for blocks along the Santa Fe tracks at the lower end of Main Street, a block and a half from the Moody Building, contain a manufacturing plant which converts raw hardwood from Malaysia into finished trim and mouldings which are shipped to builders throughout the U.S. It employs more than 100 people, using sophisticated and automated woodworking equipment, and visitors will be offered a guided tour of the entire operation.

Concluding the industrial tour

will be a short trip by bus (transportation will be furnished) to one of the big drilling rigs near the city, and visitors will be taken on a short tour of the rig itself. Before taking the buses, visitors will be invited to view a 20-minute color film, "Making Hole", provided by the Baker & Taylor Drilling Company, which shows the whole drilling process. The film will be shown continually during the afternoon in the Canadian Room at the First State Bank Building (across Main Street from the Moody Building) and buses will leave from that point at half-hour intervals during the afternoon (from 1 p.m. until about 5:30 p.m.) for the short trip to the

working drilling rig. At the rig, visitors will get a close-up look at the drilling operation.

In addition to the industrial tour, visitors to Canadian on Sunday afternoon (from one until six o'clock) will be invited to drive Canadian's famous Fall Foliage Trail to Lake Marvin, and to visit the Nature Trail laid out on the east side of the Lake by Naturalist A.S. Jackson. There will be no charge. Maps and brochures will be available in the lobby of the Moody Building and at the concessions building at Lake Marvin.

Also during the afternoon, visitors will be invited to attend Canadian's annual Hobby Show and Sale which will be held in

the Moody Building Coffee Shop, offering home-baked goodies for sale and featuring barbecued beef brisket - on - a - bun and cold drinks.

The Moody Mall shops will also hold open house for visitors during the afternoon. Fall foliage in the Canadian valley should be at its peak of color for this weekend; and if good weather holds, thousands of visitors from all over the Panhandle area are expected to take the tours this year.

City Auditorium (one block down Main Street from the Moody Building) and this is also free for all.

Canadian's restaurants and cafes, including the handsome new Beef Country Restaurant on Highway 83 north of the City overlooking the municipal golf course, will be open to serve visitors at mid-day, and a "Kountry Kitchen" sponsored by members of the Women's Service League, will be in operation from 11 to 5 o'clock in

## Foreign briefs

BILBAO, Spain (AP) — Two Spanish civil guardsmen died and two were seriously injured when they were sprayed with machine-gun fire as they returned to police headquarters after a soccer match.

Police said the assassins escaped in a speeding car Sunday. Police speculated the gunmen were members of the ETA, a Marxist organization seeking independence for Spain's Basque provinces.

The killings came a week after another member of the government's paramilitary

force was killed by terrorists in Bilbao.

BANGKOK, Thailand (AP) — China plans to send three or four students to a university in Thailand under a scientific and technical cooperation agreement, a foreign ministry spokesman says.

The spokesman said Sunday a Chinese delegation led by the

deputy minister for international economic affairs, Wei Wu-ming, will arrive in Thailand Thursday to approve the agreement.

BONN, West Germany (AP) — The West German economy will grow 3 to 3.5 percent this year and about 4 percent in 1979, reports by five private research institutes say.

## Americans can help themselves by buying U.S. made products

By DONALD M. ROTHBERG Associated Press Writer  
WASHINGTON (AP) — Sen. Ted Stevens of Alaska was explaining how Americans could help correct the nation's trade deficit by purchasing domestically made products.

Then he looked across the room at Susan Alvarado, one of his top aides, the person he describes as his "eyes and ears on the Senate floor."

"I wish I could convince her," said Stevens, the assist-

ant Republican leader of the Senate.

Miss Alvarado, it turns out, recently bought a Japanese automobile, sold it at a profit, and then bought a German-made car.

She stood her ground despite the needling from her boss, who went on to provide her with an argument for her practice.

"I never bought a car for cash, until I was about 50 years

old," said Stevens. "And that was a mistake. It was a lemon."

You'd think the White House would never pass up a chance to remind people of its big victory in this year's water projects fight with Congress.

President Carter went toe-to-toe with Congress and vetoed a big appropriations bill because it contained money for several projects he thought wasteful.

When an effort to override the veto fell far short of the necessary votes, Congress had to adopt a continuing resolution to provide the money for other programs in the bill. Agreement was reached with Carter to drop funds for projects he didn't want and the bill was passed and sent to the White House.

When Carter signed the resolution, the occasion was marked by a brief press release saying only that he had signed a measure that "provides continuing appropriations for a number of federal agencies through Sept. 30, 1979."

Not a drop of water was mentioned.

The name Richard M. Nixon retains a negative political magic in the halls of Congress.

One of the final acts of the 95th Congress was to name several public buildings for retiring legislators.

Sen. John Chafee, a Republican from Rhode Island, objected that the Democratic majority seemed willing only to honor Democrats.

Not true, said Majority Leader Robert C. Byrd, D-W.Va., pointing out that he was a sponsor of the resolution that named a Senate office building for the late, very Republican Sen. Everett McKinley Dirksen of Illinois.

Sen. Edmund Muskie, D-Maine, then took the floor to "reassure my good friend from Rhode Island... a public building in Maine was named after my predecessor Frederick G. Payne," also a Republican.

Next on his feet was Sen. John Durkin, D-N.H. "I was going to suggest the new federal building in Providence be named the Richard Nixon Building," said Durkin. "That causes me to regroup," said Chafee, dropping his complaint.

## Washington briefs

WASHINGTON (AP) — The director of the CIA says the agency will continue to covertly recruit foreign students at Harvard University despite complaints about the activity from school officials.

Stansfield Turner said Sunday that the agency would ignore the university's restriction on the recruiting activity because "Harvard does not have any legal authority over us."

Harvard President Derek C. Bok has complained to a Senate committee that the CIA recruiting threatened "the integrity and independence of the academic community."

Turner was interviewed on the CBS program "Face the Nation."

WASHINGTON (AP) — An Environmental Protection Agency study shows 24 "priority pollutants" are entering Iowa's Cedar River watershed at Charles City, the site of Salisbury Laboratories, which makes veterinary pharmaceuticals.

The agency describes priority pollutants as toxic, carcinogenic or mutagenic substances. "It's a potentially large threat," says Katherine Camin, EPA regional administrator. But she emphasizes that there is no immediate danger. Salisbury has declined to comment on the report.

General Accounting Office report due to be issued this week shows a backlog of \$4.3 billion in unresolved audit findings among government agencies, according to a House committee report.

A statement released Saturday by the House Government Operations Committee said GAO, an investigative arm of Congress, estimates about \$3.4 billion could be recovered from contractors and grant recipients if audit reports were given a higher priority by administrators of the programs involved.

WASHINGTON (AP) — Opponents of ratification of the Equal Rights Amendment say the adoption of the measure may outlaw social fraternities and sororities. But ERA supporters say that is not so.

Mrs. Albert N. Jorgensen Jr., a member of Kappa Alpha Theta sorority's Grand Council, says the ERA would "nullify the exclusion... granted by Congress which allows college fraternities and sororities to operate as single-sex organizations." But ERA supporters and a 1975 Library of Congress study say the groups would not be affected in any significant way.

**THE WIZARD OF ID**

**SIDE GLANCES**

**Astro-Graph**

By Bernice Bede Osol

October 25, 1978

Many changes are in store for you this coming year which could advance your self-interests. Have patience if things start out slow. Give them a chance to develop.

**SCORPIO (Oct. 24-Nov. 22)** Intimidation is one way to get something you want today, but ask yourself what price you place on your image or reputation. Only then should you decide if it's worth it. Find out to whom you're romantically suited by sending for your copy of Astro-Graph Letter. Mail 50 cents for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify your birth sign.

**SAGITTARIUS (Nov. 23-Dec. 21)** Bring things out in the open rather than stew in silence over a matter that has you greatly disturbed today. Clearing the air will prevent getting an ulcer.

**CAPRICORN (Dec. 22-Jan. 19)** You're not usually a nitpicker but today you're apt to badger pals over picaresque issues. You'll feel different about things tomorrow.

**AQUARIUS (Jan. 20-Feb. 18)** Avoid pressing too hard today in trying to make your points. If you do, you could alienate a pal.

**PISCES (Feb. 19-March 20)** You first must set a good example if you want others to produce for you today. It's easy to criticize that which you're not doing.

**ARIES (March 21-April 19)** Trouble will ensue if you poke your nose in areas where it doesn't belong. Keep your mouth closed, no matter how tempted you are to do otherwise.

**TAURUS (April 20-May 20)** There will be some difficulty in achieving a meeting of minds today. Perhaps it would be best to discuss important matters tomorrow.

**GEMINI (May 21-June 20)** Your tendency to not finish things will be accentuated today. If you don't want to clutter up the workroom, don't begin anything new at all.

**CANCER (June 21-July 22)** Outside pressures by well-meaning friends could lead you to take chances you ordinarily wouldn't. You run the risk of getting into deeper trouble if you do.

**LEO (July 23-Aug. 22)** Mind your temper today if the family does things that don't exactly go along with your desires. Remember, they have rights, too.

**VIRGO (Aug. 23-Sept. 22)** It's not likely you'll have your mind on what you're doing today. You can get away with being absent minded only in unimportant matters.

**LIBRA (Sept. 23-Oct. 23)** Don't involve friends in your financial affairs today. Hard feelings could quickly result. One of you would feel taken advantage of.

National briefs

ELK RIVER, Minn. (AP) — Poultry farmer D'Wayne DeZiel and United Power Association are working on a way to use chicken manure to manufacture energy.

ATLANTA (AP) — Radar, nemesis of the speeding motorist, is being tested by researchers at Georgia Institute of Technology as a way to track flying insects.

DENVER (AP) — Denver has invested more than \$2 million since 1975 in a new computer system aimed at shortening police response time and aiding investigations.

BUFFALO, N.Y. (AP) — Douglas Fraser, president of the United Auto Workers union, says President Carter may be forced to institute mandatory wage and price controls in an effort to slow inflation.

HOUSTON (AP) — Independent oil operators will have to battle "the most extensive regulatory scheme ever designed" in peacetime under natural gas price controls.

BUENOS AIRES (AP) — When the United Nations was established, 33 years ago today, the world organization contained 50 countries.

WASHINGTON (AP) — A bill to build a \$65 million loan, at no interest, to construct new buildings in London, England, was approved by the House of Representatives.

ATLANTA (AP) — In what city are the UN's European headquarters located?

MONDAY'S ANSWER — Budapest is the capital of Hungary.

FOCUS

Where the Nations Meet

When the United Nations was established, 33 years ago today, the world organization contained 50 countries. Today it has 150. In 1946, at its first session in London, England, the General Assembly discussed where the UN's permanent headquarters should be located.

DO YOU KNOW — In what city are the UN's European headquarters located?

MONDAY'S ANSWER — Budapest is the capital of Hungary.

Never answer margin calls

NEW YORK (AP) — "Never answer a margin call," the stock market professional said, leaning heavily on the bar. It had been another bad day on Wall Street, and some savvy traders were relieving their woes at a saloon many blocks away.

are doing so poorly that you're asked to put up more money, then its time to sell out. Don't pump money into a loser. You hear about margin calls only when stocks are doing poorly.

Homeowners unite for higher taxes

PENNSBURY VILLAGE, Pa. (AP) — It was sewage that united villagers last year in a court struggle for independence, but taxes became the rallying cry — higher taxes, not lower.

This year, the 1,000 residents coolly doubled their property taxes as homeowners and politicians across the nation gleefully jumped aboard the bandwagon of Proposition 13.

Leaders of this condominium community, a few miles west of Pittsburgh in southwestern Pennsylvania, have a so-called attitude about bucking the California trend.

"It's not where we are this year compared to last, but where we would have been if we hadn't done any of this," said Donald Speakman, Pennsbury's 27-year-old tax collector and one of the secessionist leaders.

tor and one of the secessionist leaders.

Pennsbury Village — a well-heeled complex of 503 condominiums, with swimming pool, tennis courts, a commercial center and only 1.5 miles of roads on 48 acres of hillside — seceded from Robinson Township in June 1977.

Pennsbury did not decide to go it alone until the township ordered it to tap into the municipal sewage system — at a cost of up to \$400,000 the first year and about \$120,000 a year thereafter.

This made no sense to Pennsburians who had their own sewage treatment plant, for which they pay \$20,000 a year.

But although sewage forced the initial secession drive, closer scrutiny showed Pennsburians that secession might offer other benefits in the bargain — including some lucrative tax write-offs.

By levying its own property tax, revenue would stay within the village. And service normally financed by the non-deductible "common charge," such as gas, water, and road and grounds maintenance,

would be paid for out of the village property tax.

So, with a zealous mixture of indignation, accounting acumen and horse sense, the people of Pennsbury finally cast their lot among themselves and took on the township in the courtroom.
