## Carter announces plans to aid sagging dollar

WASHINGTON (AP) — The government announced today a series of measures designed to stop the long slide in the value of the U.S. dollar overseas.

The steps include an unprecedented one percentage point increase in the Federal Reserve Board's key bank lending rate to a record of 9.5 percent.

The action seemed certain to set off another round of increases in interest rates throughout the American economy.

But the president said the actions are necessary "to correct the excessive decline in the dol-

lar which has recently occurred."

"The continuing decline in the exchange value of the dollar is clearly not warranted by the fundamental economic situation. That decline threatens economic progress at home and abroad," said Carter.

The surprise actions, announced without advance notice at the White House by the Treasury Department and the Federal Reserve Board, include:

—Increases in the government's arrangements with other nations to trade their currencies for dollars by \$7.4 billion, to a total of \$15 billion. The arrangements are with West Germany, Japan and Switzerland.

—The beginning of another currency exchange agreement with Japan.

—A requirement that U.S. banks increase their currency reserves by an amount equal to 2 percent of their cash deposits in denominations of \$100,000 or more.

The agencies said in a joint

statement that the reserve requirement will help both to slow bank lending in this country and to increase the incentive for U.S. banks to borrow surplus dollars from abroad.

The increase in the Federal Reserve's discount rate occurred less than a month after the board had raised the rate to 8.5 percent, which at that time was a record high.

The discount rate is the interest charged by Federal Reserve banks on their loans to commercial banks, and the rate has a direct upward influence

on interest rates throughout the economy. A 1 percent increase in the rate is unprecedented.

Treasury Secretary W. Michael Blumenthal told reporters at a White House briefing that the United States will join with West Germany and Japan to "intervene in a forceful and coordinated manner in the amounts required" to try to stabilize the dollar.

He said the long slide in the dollar, which has dropped precipitously in recent weeks against many major currencies, "is hampering progress toward price stability."

## Officials make leasing plans

By Carla Baranauckas  
Pampa News Staff

The Gray County Commissioners' Court hired Bill Waters, attorney for Smith, Waters and Holt in Pampa, to represent the county in lease negotiations with American Medical International (AMI).

The commissioners' court, which met Wednesday at 9 a.m. in the county courtroom of the Gray County Courthouse, is considering leasing the financially troubled Highland and McLean General Hospitals to AMI.

According to Article 5.21 of the Texas Civil Statutes the county attorney is not allowed to represent the county in general legal business such as lease negotiations.

The commissioners' court approved two plats which were submitted for subdivisions in the county.

Gene Barber, representing Walnut Creek Estates, submitted a plat for the housing subdivision north of Pampa near Highway 70.

In approving the plat, the commissioners waived road

width requirements in the recently approved guidelines for county subdivisions and accepted the plat with the understanding that the developer will build a gravel road through the subdivision. The subdivision roadway was dedicated to the county.

Ralph Milliron submitted a plat for a light industrial development outside the city limits. The development is located north of Texas Highway 152 and west of Price Rd.

The Milliron plat had been approved by the the Pampa City

Commission Jan 20, 1977.

Milliron requested the plat be approved, because Pioneer Natural Gas requires the plat to be filed and approved by the county before laying gas lines.

The land will probably be annexed into the city limits sometime next year, according to Milliron.

Joe VanZandt, county extension agent, announced to the commissioners' court that Layton Barton, county extension agent-agriculture, had resigned from the Gray County Extension office effective today.

Barton had worked with 4-H and had helped youngsters with agriculture related projects.

Barton is moving to Hansford County to work in the county extension office.

A replacement for Barton will probably be hired in January, according to VanZandt.

The commissioners' court also:

- approved a contract with the Adult Probation Department.
- appointed Ray Dudley assistant election judge for Precinct No. 10.

## New drug to aid country's arthritis sufferers

By KEVIN MCKEAN  
AP Science Writer

NEW YORK (AP) — A new drug goes on the market today that may allow the nation's 25 million arthritis sufferers to put away their aspirin bottles and find new pain relief with fewer side effects.

The drug is sulindac, and its developers tout it as a substitute for aspirin, still the drug most widely used to fight the nation's most common crippling.

A major feature of sulindac, which is available only by prescription, is that it would only have to

be taken twice a day, not three or four times a day as with aspirin and most other drugs.

The developers of sulindac also say it is a unique anti-arthritis medicine because it doesn't start working until after its absorption by the digestive system, thus reducing stomach upset and chances of ulcers.

Dr. Herbert Diamond, one of 200 researchers who helped in sulindac's 12-year development, says it is "the only non-steroid, anti-inflammatory drug approved for all five major types of arthritis."

Diamond is professor of medicine at the State

University of New York Downstate Medical Center here. He and Dr. John Calabro, director of rheumatology at City Hospital in Worcester, Mass., said sulindac will be useful for patients who have trouble taking aspirin.

The two said studies showed that 19.4 percent of patients developed stomach pain from prolonged use of aspirin, compared to 10.2 percent from sulindac.

Aspirin acts against the disease both as a pain killer and as one of the most effective drugs for reducing swelling in the joints.

Diamond said aspirin, sulindac and all other

non-steroids are believed to work against arthritis by blocking the production of substances known as prostaglandins.

Although their precise action is not well understood, they regulate inflammation, fever, blood clotting and the mucus lining of the stomach, among other functions.

The most common form of arthritis is osteoarthritis, also known as the disease of aging, which affects 16 million Americans. Rheumatoid arthritis is the most severe form, disabling more than half of its 6½ million U.S. victims.

## Good afternoon

News in brief

**PARTLY CLOUDY**

partly cloudy and continued mild through Thursday. The high today and Thursday will be in the mid 60s with the low tonight in the mid 40s. The winds will be variable at 5-10 miles per hour today and tonight.

The forecast for Pampa is

### TIA escalates battle with National

HOUSTON (AP) — Texas International Airlines has escalated its battle for control of National Airlines by asking the Civil Aeronautics Board to let it buy 51 percent of the firm's common stock.

The request came Tuesday on the first day of hearings by the CAB in Washington, D.C., on attempts to acquire national being made by the Houston-based airline and Pan American World Airways.

TIA told the board it already owns 23 percent of National's stock, and asked it to require National to offer any shareholder vote on its

proposed merger with Pan American.

Both TIA and Pan American are trying to gain control of the Miami-based National, and the CAB has authorized each to purchase up to 25 percent of National's outstanding common stock pending its final decision on the matter.

TIA told the board that since July, when it asked permission to place its National shares in a voting trust, circumstances had changed significantly and "the 25 percent limit originally suggested now seems unduly restrictive."

### Police seek to identify victim

HOUSTON (AP) — Police sought today to identify a body found 540 feet south of the ruins of the house where Ivey Beasley, 65, lived before it was razed by a natural gas pipeline explosion last week.

Mrs. Beasley has been missing since the explosion and fire Oct. 24 that killed five others and demolished

part of the Brookside Village mobile home park.

The body was found Tuesday in tall grass after a human chain of searchers combed the area south of the pipeline break.

"We feel sure it will be her's," said Capt. Gene Smith, head of the Brazoria County sheriff's investigative division.

### Grand jury probes comptroller

AUSTIN, Texas (AP) — Comptroller Bob Bullock's former chief public information man testified Tuesday before a grand jury probing possible wrongdoing by Deputy Comptroller Ralph Wayne.

It was Bill Collier, Bullock's chief of tax information until early October, who brought allegations against Wayne to the district attorney's office.

The grand jurors also heard Tuesday from Larry Mendez, a former employee of the state auditor's office

who was assigned to the comptroller's department.

Collier and his chief assistant, George Kuempel, resigned in early October, telling Bullock in a joint letter that Wayne had brought the agency to the brink of "inevitable scandals."

Since then, Collier has talked with investigators from the district attorney's office, alleging that Wayne had his secretary perform tasks for Wayne's private businesses while on state time.

## Israel getting cold shoulder from Carter

By ROBERT B. CULLEN  
Associated Press Writer

WASHINGTON (AP) — The Carter administration is showing a calculated cold shoulder to Israel, even as talks on an Egyptian-Israeli peace treaty continue to show progress.

The White House said Tuesday that President Carter will not meet with Israeli Prime Minister Menachem Begin this

week, although both will be in New York Thursday.

White House press secretary Jody Powell went out of his way to deny reports that Begin had been invited to meet with Carter in Washington over the weekend.

Begin, who arrives in the United States tonight on a private visit, will speak to a religious group in New York

Thursday night. Carter will be campaigning in Manhattan for several hours that day.

"The question is not why aren't they meeting, but why should they meet," Powell said.

Begin will meet only with Secretary of State Cyrus Vance, who will fly up from Washington to see him.

The release of Carter's plans followed closely an announce-

ment that Assistant Secretary of Defense David McGiffert is postponing indefinitely a planned trip to Israel to consult on that country's defense needs.

A low-level team will go to Israel as planned to survey air base sites in the Negev desert. But that team will not be able to discuss Israel's overall defense needs, as McGiffert

would have been.

American officials did not deny that the two slights were caused by American disagreement with Israel's recent announcement that it planned to "thicken" its settlements on the West Bank and in the Gaza Strip.

"You can draw your own conclusions," one said.

In Israel, meanwhile, a spe-

cial ministerial committee decided to allocate about \$32 million for housing and road construction on the West Bank and Golan Heights. Israeli television said the allocations would enable 600 families to move into existing Jewish settlements on the West Bank and 200 families to move to Golan settlements.

## Border clash erupts into war

HALLOWEEN IS over for another year, but it was fun while it lasted. Just ask Tracie Cox, an employee at a local department store, who impersonated the Great Pumpkin.

DAR ES SALAAM, Tanzania (AP) — Invading Ugandan forces and Tanzanian defenders are reported locked in heavy fighting near a Tanzanian border town. Two American archeologists were among 67 foreigners who fled the shooting but there has been no word on other Westerners.

A Tanzanian government statement said the battle was raging around Bukoba, a town of 11,000 some five miles south of the border with Uganda and along the western shore of Lake Victoria. Bukoba is about 650 miles west of Dar Es Salaam, the capital.

The statement said the Ugandans, supported by tanks and

heavy artillery, invaded through the Minziro, Kakuyu and Mutukula areas Monday, advanced as far as Kyaka, about 18 miles inside Tanzania, and that "the fighting is continuing."

Western diplomats said 25 Swedish missionaries and 40 Dutch citizens were evacuated from the war zone. Brown University anthropology researchers Linda and Ben Robertson also escaped, but there was no word on Brown Asst. Prof. Peter R. Schmidt, co-workers Robin Pitterman and Karla Evans, 11 U.S. missionaries or 27 Canadians.

Schmidt, of Santa Rosa, Calif., was doing research on a

tribe he recently discovered had learned to produce steel long before the Europeans. Pitterman graduated last year from the Rhode Island School of Design, and Miss Evans is a junior at Connecticut College in New London, the Providence Journal-Bulletin said.

Ugandan exiles said Ugandan helicopters flew about 200 wounded Ugandan soldiers back home for treatment after the invasion began, and that Uganda was launching air strikes in the battle area.

Kenya called for a cease-fire and withdrawal of troops from the border area and offered to mediate. Reports on the fighting were coming from govern-

ment statements and broadcasts for which there was no independent confirmation.

Ugandan-Tanzanian ties have been strained since January 1971 when Uganda's Idi Amin came to power in a military coup and deposed President Milton Obote. Obote took political asylum in Dar Es Salaam and flies the Ugandan flag from his official residence.

Six years ago Ugandan exiles in Tanzania mounted an invasion against Amin with the tacit backing of the Tanzanian government. But the raid was repulsed in a brief, bloody battle at Mutakula, a few miles from the Tanzanian border.

## Texas will not execute woman

WHARTON, Texas (AP) — A Louisiana woman condemned to die for hiring a gunman to kill her father has given up a chance for a new trial in exchange for a 50-year sentence on a reduced charge of murder and dismissal of a pending capital murder charge.

Mary Lou Anderson, 35, of Lake Charles, La., was convicted in August of hiring Faryl Granger to kill her father for a \$5,000 insurance payoff.

Last month, she testified for the prosecution at Granger's capital murder trial that resulted in his conviction and death sentence as the triggerman in the slayings of Steve and Margie Anderson in their Sugar Land, Texas, home in January.

During Granger's trial, Miss Anderson

denied she had made a deal with prosecutors in exchange for her testimony.

Tuesday, State District Judge Neil Caldwell granted a motion by her attorneys for a new trial, accepted her guilty plea on the reduced charge and handed down the 50-year sentence.

He also dismissed a capital murder charge pending against her in the slaying of her stepmother, Margie Anderson.

The time Miss Anderson has spent in jail since her March arrest will apply toward her 50-year sentence, the judge said. She will be eligible for parole in 18 years.

She appeared more nervous Tuesday than during her jury trial, and was quiet except when answering the judge's questions.

Caldwell asked her if she was admitting her role in the slayings because she was guilty, and she said that was the reason.

After the hearing, she was returned to the Goree prison unit for women.

Fort Bend County District Attorney William Meitzen had said Monday he would not object to a defense motion for a new trial and that a lighter sentence might be assessed.

He said he agreed in principle with Caldwell's actions but that he would have liked to have seen Miss Anderson and Granger both on death row.

Meitzen said Miss Anderson was not promised a new trial or lesser sentence in exchange for her testimony against Granger.

### City and State news

#### Taxpayers should get break

AUSTIN, Texas (AP) — Heavy outlays for expensive firefighting equipment should be returned to taxpayers in the form of measurably lower insurance premiums, Corpus Christi Fire Chief John Carlisle says. Carlisle appeared Tuesday before the State Insurance Board, which is considering proposed revisions in its "key rating" system for setting fire insurance rates.

He said the new system just doesn't give owners of homes and businesses enough return in lower premiums for the taxes they would have to pay for new equipment.

A pumper truck that sold for \$16,000 not so long ago costs \$100,000 today, a truck with an aerial platform costs \$300,000 and a fire boat \$1 million, Carlisle said.

The proposed standards would require cities with one or more miles of wharf to have a fire boat to combat waterfront fires.

"With a one-cent credit key rate, it would be ridiculous to have a fire boat. But if you give a rate that is equal to the premium benefit, I could sell this to my council and my manager," Carlisle said.

Acting Board Chairman Ned Price said it will be at least 60 days before the board decides on the standards, which would take effect Sept. 1, 1979.

Jerry Lambert, Dallas fire marshal and assistant fire chief, scoffed at a requirement that cities maintain fire alarm devices, such as the boxes Dallas has discarded completely.

"Only one fire in nine years was reported with a fire alarm box, and it was reported four other ways," Lambert said.

About all the alarm boxes produced were false alarms, he said.

Key rates are used to categorize cities for establishment of the premium rates home and business owners will pay. They are based on a city's fire suppression capacity, including water supply, water main pressure, fire fighting equipment, location of fire stations and the like.

The recommended standards and point system came from an advisory committee the board appointed under orders from the Legislature. Rep. Bill Blythe, R-Houston, who has claimed the key rate system was outmoded, pushed through the legislative resolution in 1975.

The proposed new system would lower Houston's key rate slightly but raise those for El Paso and Wichita Falls significantly.

## Candidates Hill, Clements offer no new surprises

**By The Associated Press**  
Gubernatorial candidates John Hill and Bill Clements offered no surprises in the last of their three televised debates.

In Amarillo Tuesday night, Democrat Hill pledged to veto any new taxes and to reduce property taxes and charged that his opponent favored a new tax on natural gas that would be "detrimental to consumers."

Republican Clements denied the charge, saying he wants to tax export gas in order to "not subsidize gas going to the eastern seaboard." He called Hill's taking over workmen's compensation cases in the attorney general's office "direct conflict of interest because he's made a lifelong career out of workmen's compensation."

In the state capital Tuesday, Mexican-American members of the Texas House and Senate held a news conference prior to a seven-city tour to boost support for Hill and Democratic senatorial candidate Bob Krueger.

"I don't recall a campaign swing involving the Mexican-American caucus ever being attempted before," said Rep. Gonzalo Barrientos, D-Austin. "I think the eagerness with which the legislators sacrificed

their time for this trip reflects the unity of the Mexican-American community behind Hill and Krueger."

Democratic Candidate Bob Krueger's office announced Tuesday that former U.S. Rep. Joe Kilgore of Austin had endorsed Krueger.

"I co-authored the 1947 Texas Right-to-Work Law while I was in the legislature and I know Bob Krueger is not only 100 percent in favor of the Texas Right-to-Work Law, but he will be an effective spokesman for the Texas position," Kilgore said in a statement.

Sen. John Tower, R-Texas, chose Killeen, home of the Army's sprawling Fort Hood, to say the significant difference between him and Krueger is their attitude toward the military.

"As I have been pointing out for some months during this campaign, my opponent has exhibited signs of an anti-military bias," Tower said. "He has conveniently missed many votes of importance to the defense of this country, and has voted wrong on others ... It is relatively easy to understand his attitude, for he does not understand the hardships of being separated from your home and family due to the demands of

military service. This is because he has never served in the Armed Forces, nor has he ever had family of his own to be separated from," Tower said.

Grady Hazlewood, former chairman of the Senate Penal Servitude Committee, Tuesday announced his support for Republican Jim Baker for attorney general. "He is one of the candidates for high state office

who has based a large part of his campaign on curbing crimes of violence," Hazlewood said.

Five members of the state committee of county officials supporting Hill began a two-day flying tour of Southeast Texas Tuesday. They were led by Medina County Judge Jerome Decker, president of the State Association of County Judges and Commissioners.

**GRAIN RISES**  
**BUENOS AIRES, Argentina (AP)** — The Ministry of Economy reports that while worldwide grain exports rose only 1.9 percent from 1975-76 to 1977-78, Argentina's grain exports soared 22.6 percent during the period.

This increased Argentina's share of the global grain market to 8 percent from 6.7 percent, according to government figures. During the same period, Argentine grain production rose 56.8 percent, and officials said they expected record grain exports in 1978.

### Astro-Graph

By Bernice Bede Osol

**November 2, 1978**  
 Conditions relating to your reputation and finances are likely to improve considerably this coming year. Be on your toes so you can answer the door when opportunity knocks.

**SCORPIO (Oct. 24-Nov. 22)** A well-meaning friend could be more hindrance than help in a matter affecting your status and finances today. Try not to let her become involved. Having trouble selecting a career? Send for your copy of Astro-Graph Letter by mailing 50 cents for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth sign.

**SAGITTARIUS (Nov. 23-Dec. 21)** To be ambitious is admirable, but take care today not to step on someone's toes in order to achieve your aims. This isn't your style.

**CAPRICORN (Dec. 22-Jan. 19)** This should be a very profitable day, but there is also a danger you could create a serious and needless problem for yourself. Maintain your cool.

**AQUARIUS (Jan. 20-Feb. 19)** A friend who disappointed you regarding a joint venture may come to you with a similar proposition today. Keep his track record in mind.

**PISCES (Feb. 20-March 20)** Less-productive persons may cling to your coattails today and try to claim partial credit for your achievements. Shake them loose.

**ARIES (March 21-April 19)** You're extremely creative today. Unfortunately, your impatience is likely to equal your imaginative efforts. You could discard that which you can't immediately implement.

**TAURUS (April 20-May 20)** There's a possibility you could be your own worst enemy in commercial dealings today and weaken your position through impractical action. Be careful.

**GEMINI (May 21-June 20)** If you agree too readily to a matter you're negotiating today you could later be smitten by remorse. Take ample time to weigh your alternatives.

**CANCER (June 21-July 22)** Associates will be irritated if you expect too-large compensation for a service today. Don't unwisely price yourself out of the market.

**LEO (July 23-Aug. 22)** Lady Luck is likely to match you step-for-step today in all except financial areas. She'll surely desert you in outlandish gambles.

**VIRGO (Aug. 23-Sept. 22)** You need a bit more staying power than usual today. Things could start out rosy, but slowly turn sour. If you give up, you'll lose.

**LIBRA (Sept. 23-Oct. 23)** A rift in a relationship with one you're fond of can be avoided today by being a giver as well as a taker. Treat others as generously as they treat you.

# Guidry unanimous Young choice

By FRANK BROWN  
AP Sports Writer  
NEW YORK (AP) — Ron Guidry, whose 25-3 record produced the best American League winning percentage since 1934, today became the fourth New York Yankee to win the Cy Young Award.  
The 28-year-old left-hander won all 28 first-place votes to become the fourth unanimous winner.  
Guidry started the season with a 13-game winning streak. He finished with 25 triumphs — 15 of them after losses by his

team — on the way to the top winning percentage, .893, in the AL in 44 years and the best percentage ever for a 20-game winner.  
His earned run average of 1.74 also was an uncontested league high, while his 248 strikeouts in 2732-3 innings were second to the 260 recorded by California's Nolan Ryan.

"It was a great season — a season a lot of pitchers dream about," said Guidry, the bandlegged left-hander whose scrawny frame belies the speed of his fastball. "I don't think it's fully hit yet. I haven't had time to sit down and reflect on what I've been through."  
"Maybe it will hit me one morning in the duck blind, when I'm hunting," said the na-

tive of Lafayette, La., where hunting fills his winter months.  
The shock may hit him harder than most AL batters did this year. Guidry surrendered just 187 hits in helping New York to its second consecutive World Championship. Mixing a magical potion of sliders with his smoking fastball, he walked just 72 batters in his 35 starts.

The special committee of the Baseball Writers Association of America made Guidry the first unanimous winner since 1968, when Denny McLain of the American League Detroit Tigers and Bob Gibson of the National League St. Louis Cardinals won all the first-place votes.

Mike Caldwell of the Milwaukee Brewers was second

quiet, affable hurler who nearly quit baseball in 1976, when the Yankees sent him to their Syracuse farm team in the International League.  
"I was going up and down, between New York and Syracuse," Guidry recalled. "Then they brought me up for a month or so and this time I figured it was for keeps. But all I did was sit around and finally they told me they were sending me back to the minors. I got fed up."  
He and his wife, Bonnie, were driving home — for good.  
"We drove for about an hour," he said. "I didn't say anything, and neither did Bonnie." Finally, Bonnie Guidry said, "Why don't you give it one more chance?"  
"I thought about it and then I

It was the second consecutive AL Cy Young for a Yankee pitcher. Relief ace Sparky Lyle, the forgotten man in New York's miracle comeback of 1978, won the prize in 1977.

This year's voting came as little surprise, but last week, when Guidry received two awards here in as many days, he was reluctant to consider the award his until official announcement was made.  
"Everyone's been talking about it so much, I'm starting to believe I won it," said the

strikeouts in 31 games. Thus, over two seasons, Guidry's left arm has produced 41 victories in 51 decisions and 424 strikeouts.

## Optimist football

The Packers blanked the Redskins 14-0, while the Colts ground out a 24-6 victory over the Cardinals in Monday night's regular season Tiger League football finale.

The Colts finished at 3-1 on the year, the Packers 2-2, the Redskins 1-3 and the Cardinals 0-4. The Rams

clinched the league championship last week, finishing with four victories against no defeats.

All five town teams will now go into preparation for the eight-team All-City Tournament, scheduled for Nov. 11 at the Optimist Ball Park.

## McCulley axed by 49ers

SAN FRANCISCO (AP) — Another head coach, Pete McCulley, is out and San Francisco 49ers management apparently is solidly behind Joe Thomas, the man who does the firing.

"I sure am," team owner Edward DeBartolo Jr. said Tuesday when asked if he is happy with Thomas, general manager of the National Football League team that stands 1-8 this season.

"He's going to make this club a winner, and he's already gotten us some excellent material.

It's just a matter of time. I know that," the owner added after announcing Tuesday the firing of McCulley and the appointment of an offensive assistant, Fred O'Connor, as interim coach for the rest of the season.

"We'll find out what kind of coach Fred is now," said Thomas after the third coaching change — starting with the dismissal of Monte Clark — since he began running the team last year for new owner DeBartolo.

O'Connor, 39, has never before been a head coach in the

NFL. He was a quarterback at East Stroudsburg, Pa., State and held assistant coaching jobs at Maryland, Southern Mississippi and Villanova before joining the staff of the Chicago Bears, where he was offensive backfield coach the last two seasons.

Ken Meyer, hired and fired by Thomas last year, and McCulley also moved up from assistant coaching jobs.

McCulley, 48, said, "If Billy Martin can get fired after winning a world championship, they can certainly let me go.

DEMETRIA SIMMONS powers the volleyball toward Caprock's side of the court at Harvester Field House Tuesday night. Pampa topped the Longhorns in three games to open the second half of their District 3-AAAA schedule.  
(Pampa News photo by Joe Blobaum)

## Spikers brand Caprock with Harvester insignia

The Harvester Spikers came out smoking but let up midway through the match here Tuesday night as they defeated the Caprock Longhorns 15-0, 9-15, 15-6.

"We just fired into them the first game," Coach Lynn Wolfe said. "Then we kind of relaxed. This team has a tendency to let up."

"In the second game we did what we do best — just stand there. And Caprock came back better. They were hitting some."

In the first game Pampa had little trouble as they jumped to a 7-0 lead on the serving of Mia Dacus and Teresa Stafford.

Caprock had trouble getting organized early, and they were called for double hits and fell victim to Demetria Simmons spikes.

Pampa began to make mistakes after gaining the large lead. The serve changed hands six times before either team was

able to put a point on the board. Pampa's turnovers were for out-of-bounds serves and hitting the ball four times.

With Sharron King serving, Pampa regained momentum, scoring eight straight points to shut out Caprock 15-0.

With the easy win under their belts, the Harvesters let up and gave Caprock 7-0.

Pampa picked up three points with Simmons behind the line, and King added five more to give the Harvesters a one-point lead.

Rosie SantaCruz added one more point for Pampa, but the Harvesters were unable to hold on to the lead as Caprock once again took advantage of Pampa mistakes and scored seven straight points to end the game 9-15.

Pampa came back in the third game, capitalizing on some early Caprock miscues. Dacus put a 4-0 lead up, and after four turnovers, Mary Skoog extended

the lead to 9-0 with the help of Simmons at the net.

The Harvesters hit another dry spell, and were unable to score in two attempts while Caprock picked up three points.

SantaCruz added one more point as the Longhorns were unable to return her serve before turning over the serve to Caprock again.

Dacus extended the Pampa lead to 14-3, before Caprock came back at 14-6. Stafford finally put up the 15th point for Pampa and the Harvesters had a victory to open the second round of District 3-AAAA play.

Wolfe was not pleased with the Pampa victory.

"If we don't win easily, it doesn't feel like we won," she said.

Pampa's junior varsity also recorded a victory over Caprock, topping the Longhorns 15-12 and 13-11. Both teams will be in Amarillo Thursday afternoon to take on Palo Duro.

DANIEL MITCHELL AND JESS FERRILL were winner and runner-up at the Beautiful Legs Contest at the Pampa Nursing Center, Oct. 25.

### DECA members participate in program

The Pampa Chapter of Distributive Education Clubs of America (DECA) was instrumental in organizing and will be participating in a state project to aid children and adults afflicted with Muscular Dystrophy and related muscular diseases.

DECA members from Pampa will be dancing in a 20 hour marathon which will start at 8:00 P.M. Friday, November 3rd and will end at 4:00 P.M. Saturday, November 4th.

The dance marathon will be held at the Maverick Boys' Club in Amarillo and will include DECA Members from throughout the area.

Pampa merchants have provided prizes for the dancers. Trophies will be awarded to the three couples who raise the most money in the dance-a-thon and a \$200.00 cash prize will be awarded to the DECA Chapter that raises the most money.

The Pampa Chapter of DECA raised more money than any other chapter in the State last year in the amount of \$2,100 and hopefully will raise the same amount or more this year.

All proceeds from the dance-a-thon will go to the Muscular Dystrophy Association.

The Pampa dancers are Kim Smith and Tena Cotham along with their dancing partners.

Other DECA Members will be participating in various aspects of the marathon such as registration, providing food for the dancers, cleaning up, etc.
