

Best Varieties Of Wheat Will Pay Dividends

Producers of agricultural commodities are being requested to make shifts in their production of certain basic food crops in line with current needs developed by the defense program in this country and by the needs of the other democratic nation. These changes have been made quickly and efficiently and every produ-

cer of foods and fibers is willing and anxious to make such additional changes as may be needed in order to insure the continuation of our democratic processes. In making these shifts in our plan of operation, however, we should not put all of the emphasis on the quantity of production but should also give consideration to the quality of the product. Frequently a large supply of any product of poor quality has less value than a limited supply of the same product of good quality. Recently our attention has been called to the production of certain varieties of wheat (Chiefkan and Red Chief) which are

producing good yields of high grade grain but are found to be lacking in some of the essential milling and baking qualities. We realize that the milling and baking qualities of wheat are very strongly influenced by soil and climatic conditions. The same variety of wheat grown under varying types of growing conditions may vary widely in baking qualities. Varieties, however, that are consistently low in the essential milling and baking qualities are undesirable. Small amounts of these varieties of low baking quality can be blended with better varieties and not seriously affect the finished product. However, when the production in a given area increases to a point where blending will not remove the objectionable characteristics, it is usually necessary for wheat in that territory to move into commercial channels at a substantial discount under the more desirable varieties. Producers should, therefore, give serious consideration to their total wheat income before planting any of the varieties of wheat of low baking quality.

This situation is one which is giving the Department of Agriculture a great deal of concern. We in the AAA feel that unless producers take some action to correct the situation, it may be necessary to make some administrative changes in our program, particularly in regard to wheat loans. We trust, therefore, that each committeeman will feel it his personal responsibility to discuss this situation with the producer in his county and community and suggest that only the better varieties be grown. The varieties which now show low baking qualities may be improved through selection and breeding and milling and baking techniques may likewise be improved until they can move into commercial channels and become mingled with other varieties of wheat without affecting the baking qualities of the flour made therefrom. Until that time comes, however, we should give careful consideration to the quality of wheat which we produce.

I. W. Dugan, Director, Southern Division AAA.

Mr. and Mrs. Pat R. Bobo were Pampa visitors over the weekend. Mr. and Mrs. C. E. Farrell visited in Lubbock Sunday with their daughter, Miss Twila Farrell.

Miss Ita Brummett And Ross Smith Married Friday

In a simple, but impressive, ceremony performed Friday evening of last week, Miss Ita Brummett and Ross Smith were married in Muleshoe by Rev. F. B. Hamilton, Baptist pastor. Mrs. Smith, whose home is in Lubbock, has been employed in Muleshoe for the past several months at the court house in the Farm Security Administration office. Mr. Smith, who has lived in Muleshoe at different intervals for a number of years, is secretary of the Bailey County Selective Service Board.

The couple was accompanied by Mr. and Mrs. H. D. King, and other guests at the wedding were Mrs. Bob Cantrell and Mozelle McClain.

Following a short trip to Big Spring for the weekend, Mr. and Mrs. Smith are at home in Muleshoe.

NAVY WANTS MEN TO LEARN TRADES

Local men between the ages of 17 and 50 years, married or single, will have an opportunity Sept. 17 to take examinations at the Post Office here and if qualified, enlist in the Naval Service for duration of the national emergency. Postmaster A. J. Gardner announced today.

Navy recruiting officials at Lubbock have informed the postmaster that 600 Naval recruits are needed this month from the north half of Texas and Oklahoma district. To give better service to those interested, the 18 Navy recruiting stations in the district are this week opening approximately 100 one-day-week stations in which Muleshoe is included.

Men between the ages of 17 and 36 may enlist in the Naval Reserve for training in aviation, radio, signals, clerical work, metal-smithing, machinists, electrical carpentry and storekeeper work. The Navy is now operating 72 trade schools in which enlisted men may receive the pay and allowance of their rating.

Field Day To Be Held At Lubbock Tuesday, Sept. 16

Invitations have gone out to farmers over this territory to attend Field Day at the Lubbock Experiment Station on Tuesday, Sept. 16. Those who wish to attend should be at the station by 10 a. m., as the morning will be spent going over the various experiments.

Some of the items of interest will be "Cotton Varieties," "Cotton Breeding," "Grain Sorghum Varieties," "Combine Types of Grain Sorghums," "Irrigation Experiments," and "Rotation of Crops."

2.09 Inches Rain Fall In August

The government weather station recorded a total of 2.09 inches of rain for the month of August, bringing the total precipitation for the year to 32.39 inches.

One of the most unusual cool spells on record came Monday night, when a light rain from the north forced the mercury down to 43 degrees by early Tuesday morning.

Wednesday morning was almost like late fall, with a temperature reading of 42 degrees. Coats and sweaters were in vogue and many had heaters turned on until mid-morning.

SEN. FORMBY HURT

State Senator Marshall Formby of Dickens, suffered a painful head injury late Monday in an automobile mishap near Noxie, in northern Coleman county. He is said to have lost control of his automobile on wet pavement at a curve, and it collided with another car. Senator Formby was traveling alone, enroute to Austin.

CAFE REMODELED

Remodeling work at the Chill Bowl Cafe was completed the first of this week. The counter and other fixtures were rearranged, and the seating capacity increased by the addition of two small booths. Mr. and Mrs. Royce Garth are proprietors of the cafe.

UNDERGOES OPERATION

Miss Ruby Duncan, employe of the Muleshoe State Bank, underwent an appendectomy in a Littlefield hospital last Thursday. She is reported to be recovering nicely.

Local Happenings

Miss Hattie Ray Griffiths and Johnny Glascock made a trip to Amarillo Sunday to take Miss Nona Faye Johnson and Miss Lela Mae Barron, where they will attend a business college.

R. H. Points of Crosby, N. D., was in Muleshoe attending to business Saturday.

Geoffrey Gustin has returned to his home in Chanute, Kans., after spending several days with his father, Charles Gustin of the Lazbuddy community.

Eldon Page has returned to his home at Jacksboro, Tex., after spending two weeks with his brother, Alton Page, and his sisters, Mrs. Charlie Gustin and Mrs. Joe Bates Jennings.

Mr. and Mrs. Joe Bates Jennings, Mr. and Mrs. Charlie Gustin and Geoffrey Gustin spent last week in Jacksboro, Texas, visiting homefolks and friends.

Dee Chitwood, son of Mr. and Mrs. E. D. Chitwood, left Friday to enter Texas A. & M. college. He was a 1941 graduate of Muleshoe high school, where he was a star on the football team.

Mr. and Mrs. R. B. Best, and two daughters, of Sweetwater, were guests in the home of Mr. and Mrs. T. L. Kent, of Oklahoma Lane last week.

Mrs. Julian Lenuu returned home Sunday from Pueblo, Colo., where her father, W. L. Koen, has been seriously ill in a hospital. Mrs. Lenuu stated that he is now recovering after undergoing a major operation.

Mrs. Paul Sparkman, and daughters, Betty Jo, and Gay Frances were Lubbock and Slaton visitors Saturday.

Johnnie Williams of West Camp, was in Lubbock Wednesday.

Mrs. A. M. Beaty of Abilene is spending a few days in the home of her daughter, Mrs. A. E. Lewis.

James Warren left last week for Lubbock to enter Texas Tech college, where he will study this year.

Clifford Gordon has entered Texas Tech at Lubbock.

JOHNSONS TO SOUTHLAND

Mr. and Mrs. Vern Johnson of the Higginbotham-Bartlett Lbr. Co., have moved to Southland, where Mr. Johnson will have charge of the company office at that place. These young people have made many friends since coming to Muleshoe, and all of them wish Mr. and Mrs. Johnson the best of success in their new location.

Mrs. Mary Siegfried of Chicago, Ill., is visiting Mrs. Birdie Paul.

Mr. and Mrs. A. T. (Bud) Brown and Mr. Arthur Joe Brown of Etowah, Tenn., spent Tuesday of this week with Mr. and Mrs. R. L. Jones. Bud is L. & N. Railway Co., conductor. Joe owns and operates an insurance agency at Etowah.

STATE FAIR'S ICE QUEEN

Star of the first major ice show ever to be presented in Dallas is the lovely Belita, above, considered the world's greatest feminine skater and former title holder. The show, "Ice-Capades of 1942," will have its world premiere in

Dallas and will run nightly from Sept. 24 throughout the State Fair of Texas at the Dallas Ice Arena on the Fair grounds. In addition to English Champion Belita, the show has a cast of 100 of the world's finest ice performers.

MR. FARMER:

This is a busy season. Do you feel like doing the fall harvesting? Working hands are scarce, throwing an extra burden on the farmer and his family.

ARE YOU ACHIEVING THE MOST WITH YOUR TIME DAY IN AND DAY OUT? OR DO YOU HAVE TO TAKE TIME OUT FROM YOUR WORK TO REST SEVERAL TIMES EACH DAY?

THINK—Two hours wasted each day, six days a week equals twelve hours a week, or one working day. What is your time worth? What is your health worth? You can measure time in dollars and cents; you can wear out your clothes and machinery and buy more. Can you buy a new arm, liver or stomach?

NO --- You have one body,

with all its working parts to start with; you can't replace them, of course, everyone knows that, but do you ever think of your own wonderful body that way? The most perfect piece of machinery that was ever made by mortal man or the great divine power above. There is only one drawback—you cannot replace a single cell, muscle, bone tissue or organ, but you can re-condition it. Clean it up, oil the rusty parts, clean the plugs, timer, and repair the shorts in the connecting "wires." Respect your body and take care of it, it will pay huge dividends. Someone has said: "The stomach is a slave that must accept everything that is given it, but which avenges wrongs as slyly as does the slave."—Truer words were never spoken.

NOW IF YOU HAVE READ THIS FAR

and haven't thrown this to the four winds or split your tongue into three pieces cursing the crazy coot that says this is so—listen and I'll tell you the author—

 Oklahoma City, Okla.

Spindletop STARTED IT!

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its oil reserves.

Our industry, by refining this oil in Texas, has created a great manufacturing enterprise. By cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until directly or indirectly, it supports one million of our people. Its expenditure reaches into every section of the State benefit every Texan.

The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil.

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

This advertisement paid for by various units of the industry and sponsored by

TEXAS MID-CONTINENT OIL & GAS ASSOCIATION

COOPERATING COTTON FARMERS CAN RECEIVE 85 PCT. PARITY LOAN

Bailey county cotton farmers who are cooperating with the AA-A program can obtain 85 percent of parity government loans on their 1941 production. Lonnie Arnold, chairman of the County AA committee, points out. Although the loan rates for

Bailey county have not yet been announced, the AAA official said that the basic loan rate for the nation would be 14.02 cents per pound for 7-8 inch middling cotton gross weight, based upon the parity price of 16.49 cents per pound as of August 1. That rate compares with the 8.90-cent rate available in 1940. The average loan rate for 15-16 inch middling cotton, net weight, was 14.82 cents per pound on August 1, the beginning of the marketing year.

The full loan rate is available to producers planting within established cotton acreage allotments for the 1941-42 marketing year, and producers who knowingly exceed their allotments will be eligible for loans at 60 percent of the rate available to cooperators on that part of the cotton subject to penalty. Arnold continued.

Differentials for grade, staple, and location in the new program will be calculated in relation to the loan rate of 15-16 inch middling cotton which is the basic description of all future and spot contracts. The rate for middling 15-16 inch cotton will be 20 points, or 2 cents per pound, above the basic rate for 7-8 inch middling cotton.

As in 1940, the loan rate will be based on net weight of cotton and will be 60 points above that for gross weights to compensate for the lesser pounds for which the loan is extended. All grades and staple lengths of cotton approved by the USDA Board of Examiners are included in the schedule of loan rates, he said. A classification fee of 15 cents per bale will be made.

Loans will be made directly by the Commodity Credit Corporation through approved lending agencies. The execution of loan papers will be under the supervision of local county AAA committees with such agencies as banks, warehouses and county AA offices being designated by AAA committees to assist producers in preparing and executing loan papers.

The notes, which will mature July 21, 1942, bear interest at 3 percent per annum, and are callable on demand. Arnold said loans will be available until May 1, 1942, and will be made only on cotton represented by warehouse receipts issued by warehouses approved by the Commodity Credit Corporation.

WEST CAMP SCHOOL STARTS
Loren Wells of Hollis, Okla., is the new superintendent of the West Camp school. Other teachers are Miss Brown and Mrs. Wells. Regular classes for the 1941-42 term began Monday.

Buy Defense Savings Bonds.

Classes Elect Year's Officers At Bula School

Under the direction of Supt. O. G. Dickenson, the Bula school began its 1941-42 term August 25, and classes are proceeding satisfactorily. Classes were organized September 2, and the following officers were elected:

Seniors: Sponsor, Coach T. L. Gilley; president, Dale Middlebrook; vice president, Jo Lena Autry; secretary-treasurer, Geneva Terry. Green and white were selected as the class colors; the white carnation as the class flower, and "We succeed by climbing" the class motto. Room parents elected were Mrs. Gilbert, Mrs. Autry and Mrs. Nickels.

Juniors: Sponsor, Virginia Ruth Robertson; president, James Lee; vice president, Buster Hubbard; secretary-treasurer, Evelyn Ethredge; reporter, Betty Jo Gage; room parents, Mr. and Mrs. G. B. Salyers and Mr. and Mrs. C. W. Vanlandingham; room parent, Mrs. Gilbert. Sponsors, Vanlandingham and Robbie Lee Middlebrook.

Sophomores: Sponsor, Opa L. Snitker; president, Oleta Durham; secretary, Cleo Hall; reporter, Ruby Lee Cannon; room parents, Mrs. Jones and Mrs. Blackman; recreation committee, J. A. Nickels and Juanita Weaver.

Freshmen: Sponsor, O. G. Dickenson; president, Leon Jones; secretary, Jennie Payne Pierce; reporter, Eileen Davis; room parents, Mrs. Altman and Mrs. Beasley.

Levelland Bank Robber Sentenced

Deliberating less than thirty minutes, a jury at Levelland Monday afternoon assessed punishment of Larson Lee Crawford, 21, at five years in the penitentiary for bank robbery.

The Levelland youth, son of prominent farm parents, pleaded guilty to the grand jury indictment. Testimony was heard Monday morning and the verdict was returned by 3 o'clock Monday afternoon.

Crawford waived two days allowed by law and accepted sentence which Judge Daniel A. Blair pronounced immediately. The youth entered the Levelland First National Bank last May 22 and forced nine employees to allow him to take \$20,360 from the bank. The money later was recovered in some five places, three of them said to have been on the Crawford farm.

Man wants but little here below—and woman wants the rest.

Water Situation In Area Checked

George D. Kester, associate sanitary engineer of the Farm Security Administration, and J. A. Stanley, Jr., district engineer of the State Health Department, were here Wednesday looking over the water situation in the irrigation district.

Heavy rains this season have flooded many of the irrigation wells, and is causing a typhoid hazard, which should be remedied as soon as possible. Mr. Stanley suggested that owners treat their wells, and take any other precaution necessary to insure against polluted drinking water. In most instances, water should be boiled before using for domestic purposes, or should be treated with proper chemicals.

OLTON ENROLLMENT

The Olton schools opened Monday, Sept. 1, with a total enrollment of 867. In the grade school, 434 enrolled, while 233 registered in the high school.

NEW BUSES AT MORTON

Seven new school buses rolled into Morton last week from the factory at Lima, Ohio. The new vehicles are streamlined, all-steel bodied and mounted on Dodge chassis. The Morton schools opened Monday of this week.

AMHERST SCHOOLS OPEN

A total of 400 pupils registered to attend the Amherst public schools on the opening day, Sept. 1. The high school enrollment was 140 and the grade school 260.

TEACHER RESIGNS

Miss Dorothy Murchison of Farmersville, Texas, who has been commercial teacher in Muleshoe high school for the past two years, resigned the position recently and has accepted a position as commercial teacher at Grand Prairie, Tex.

Local Happenings

Miss Freda Kelly and Reed Johnson of Earth were house guests of Miss Anna Lucy Bray in Muleshoe Monday night. Johnson is stationed with the 56th Air Base at Goodfellow Field, San Angelo.

SOLDIER IS PROMOTED

Announcement was received here this week from the U. S. Marine Barracks at Mare Island, California, of the promotion of Raymond W. Solomon to Private First Class. He is assigned to duty in the Sergeant Major's office at the Navy Yard.

MARINE VISITS HERE

Roy Elrod, who has been in the U. S. Marine Corps for the past year, stationed at San Diego, Calif., arrived in Muleshoe Wednesday afternoon of this week for a 15-day visit with his mother, Mrs. Mills Barfield, his grandmother, Mrs. Sina Wallace and other relatives and friends. This is his first visit home since he enlisted last September. A sharp tongue severs a good many friendships.

MY HAIR STANDS ON END
when Daddy monkeys with the carburetor

When Daddy finally comes up for air, with his hands all black and his face all red, he shouts words that Mummy says aren't for a child's ears. "Whatttheblanckety blank is the matter with this motor", he says.

She answers, "Don't you dare swear in front of our little angel" (that's me) ... and then the hair-raising battle begins.

It's all so foolish and useless, when Daddy ... and you, too ... can get custom-tailored Phillips 66 gasoline, without paying a penny extra.

Yes sir, it needs no carburetor tinkering. It is re-matched every month to the climate in your locality.

Today's Phillips 66 isn't merely a late summer gas. It is actually a September gasoline. And there is hardly a day in 365 when its high test and high anti-knock ratings are not unsurpassed in its price class.

See if you don't feel that difference with your very first trial tankful ... at any Orange and Black 66 Shield.

COTTON PRODUCERS HAVE UNTIL OCT. 1, TO REPAY 1938, '39, '40 LOANS

Bailey county cotton producers with 1938, 1939 and 1940 loan cotton have until Oct. 1, 1941, to repay loans and redeem cotton pledges. J. C. Smith, secretary of the Bailey County AAA Committee, has announced.

All cotton not redeemed by this time will be placed in pools as provided by the loan agreement and sold by the Commodity Credit Corporation after March 1, 1942.

Unredeemed cotton from each pool will be placed in separate pools with the producers retaining title. When the cotton is sold in each pool, net proceeds will be distributed among the producers in proportion to their interests.

Mrs. Dorothy Adkinson of near Redwood left September 8 for Lubbock, where she will attend Draughon's Business college.

Deck Standerfer, son of Mr. and Mrs. Dave Standerfer, left this week for Lubbock, where he will attend Texas Tech.

placed in the pool, the AAA official said, no payments will be made to producers and it cannot be sold during the time it is in the pool.

Recent reports indicate that Texas cotton growers have 77,047 bales of cotton outstanding on the 1940 crop.

Producers who are interested in selling their present equities should redeem their cotton before October 1 since it is possible it will not be sold until sometime after March 1, 1942, Smith said.

Mrs. Eleanor M. Dean of Whittier, Calif., is visiting her sister, Mrs. Gayetta Farrell and other relatives in Muleshoe.

BACK FROM VACATION
Mr. and Mrs. Ed Johnson returned Thursday from a vacation trip to the Gulf Coast. Ed says that he likes the country down there with only about 17 exceptions, these being divided about equally between economic, political and general principles.

Many employers have instituted allotment plans whereby stated amounts withheld from pay are applied to the purchase of Defense Savings Bonds. Individuals can accomplish the same end by buying Defense Stamps until they have enough for a bond—\$18.75.

Garrett Fox, former manager of an auto parts store here, was a Muleshoe visitor Sunday. He is now working in Lubbock.

Mrs. Eleanor M. Dean of Whittier, Calif., is visiting her sister, Mrs. Gayetta Farrell and other relatives in Muleshoe.

Learning HOW for Defense Work

Prof. Barnwell of Stevens Institute Praises Youngsters' Enthusiasm—Experts Helping Thousands to Learn Machine Tool Procedure.

At Stevens Institute of Technology, George W. Barnwell, Professor of Production Practice, has been instructing and turning out some very fine young engineers for a number of years. Some of them today are occupying important positions in the National Defense program. Just ahead of him is perhaps an even more important task—aiding thousands of men of all ages who heretofore have been unable to obtain instruction, to acquire a sufficient knowledge of machine shop practice to make themselves of real value to Defense industries.

"It has been my experience that many young men are better off and happier with a combined use of their hands and their heads, rather than merely using their heads alone to earn a living," remarked Professor Barnwell. "Throughout the country, youngsters today are enthusiastic about getting into Defense industries and are showing a splendid patriotic spirit.

"In the past, one of the greatest handicaps to ambitious, mechanically-inclined boys was that books on the subject they needed most were too costly. Within the next ten days this new book will be published and many who live in places where elementary training is not available, will be able to learn a surprising amount from it—knowledge that will enable them to advance much more rapidly when they obtain jobs in industry. There is an appalling shortage of machinists and trained men. Wages are high. Many companies welcome applicants who

Photos courtesy National Machine Tool Builders' Assn., and U. S. Army Information Service—Left, drilling holes in machine frame; center, hardness tester; bottom—boring propeller shaft of Allison Airplane engine.

have some basic knowledge and desire further practical training." The book to which a score of practical experts have contributed, and which is published by Wm. H. Wise & Co., 50 West 47th St., New York, opens with what is in effect a complete home-study course in one chapter on the use of hand tools. It then covers the whole area of metal working by modern machinery—machine tool operations, turret and automatic lathes, thread-cutting, milling, planing, shaping, gear cutting, jigs and fixtures, punch press operations, forging, welding, cutting, brazing and foundry practice and the use of precision instruments in the shop.

WEST POINT IN EXILE

Future Officers of Free France at Their Studies in English Classroom

TO FIVE generations of French cadets, the 133-year-old Military Academy of St. Cyr, a few miles south of Paris, was what West Point is to the officers of the United States Army. Then, early last summer, invasion swept over Northern France, and ancient St. Cyr closed its doors. Already its corps of cadets had been halved by war-time emergency graduations. The few hundred students remaining were called together and told to flee—to make their way to safety, to England. Some 179, nearly one-half of the entire reduced corps, succeeded in getting there.

Today, supported by Anglo-American refugee organizations, these ex-students of St. Cyr are once more at work, learning to become officers for the Free French armies of General de Gaulle. Many of the original cadets have since found their way to safety in England. Others have taken their place in the classrooms, and nearly 200 young Frenchmen now live at the South English college which Britain has turned over to them. Some of them will be the Generals and Marshals of the free France of the future.

LOOKING BACKWARD

FIFTEEN YEARS AGO (From files of Sept. 10, 1926) Arnold Morris, formerly with the White Front Garage, has accepted a position as service manager with the Valley Motor Co., local Chevrolet dealers, and is now in Oklahoma City receiving a special course of instruction at the Chevrolet Motor Company's new plant in that city. K. K. Smith, manager of the Valley Motor Co., announces that they will be in better shape than ever now to service cars.

F. L. Wenner of Norman, Okla., is here this week looking over his land interests.

Mr. and Mrs. Clifford Wallis of Longview are the parents of a big boy.

Mr. and Mrs. Connie Gupton honored Miss Ruth Harden of Brownwood with a party Thursday evening at which a number of young people were present. Refreshments were served to: Misses Lottie Huke, Lela Glasscock, Lee Green, Kathryn Neal, Harden, and Dovie Morris, and Messrs. Ivan Mardis, Howard Carlyle, Lon Ballaw, Mills Barfield, Harold and Jesse West and Good Hardon.

TEN YEARS AGO (From files of Sept. 10, 1931) A very interesting and inspirational band concert was given last Saturday night on Main st. by the municipal band under the direction of O. W. Wilton. A fifty new portable band stand was used in the concert.

Funeral services were held here for Mrs. Mary Elizabeth Lane, 88 years old, who died following an illness of several months. Survivors included a daughter, Mrs. J. F. Wallace of Muleshoe, and a son, Ed Lane, also of Muleshoe.

Mr. and Mrs. W. H. Graham of Farwell were guests of Mr. and Mrs. Clay Beavers Sunday.

Approximately 20,000 acres of land were signed by 217 farmers of Bailey and adjoining counties toward the organization of a sudan cooperative association in a meeting held at the high school auditorium.

FIVE YEARS AGO (From files of Sept. 10, 1936) Mrs. O. P. Burnham of Altus, Okla., who formerly lived about eight miles east of Muleshoe, was killed in a car wreck, four miles south of Shamrock Monday.

Following a two-day registration period last week, Muleshoe schools opened with an enrollment of 262 in the grammar school and 184 in the high school—a total of 446 pupils.

Mr. and Mrs. Claude Nivens are the parents of a baby girl born September 1, and named Shirley Ann.

The Chill Bowl Cafe located on Main street, was sold the latter part of last week to Mrs. L. S. Barron. The business was owned by Oscar White and the building has been located on a lot owned by Mrs. Barron. For the past several months, the cafe has been leased and operated by Ernest Layman.

Buy Defense Savings Bonds and Stamps.

Progress News

By Bessie Vinson There were 56 present at Sunday school last Sunday.

Next Sunday night is the regular singing night. Everyone is invited to be present. The singing will be held in connection with the program given each Sunday night by the young folks. Eight o'clock is the time set to begin.

Mrs. W. G. Kennedy, Miss Bessie Vinson, Miss Dyaltha Swift and Miss Elzada McMahon returned last Saturday night from Beaumont, Tex., where they attended the election of officers of the Texas Home Demonstration Association. Mrs. Kennedy was elected president of the association to serve for the next two years.

Miss Chrystal Kennedy, daughter of Mr. and Mrs. W. G. Kennedy, left last Friday for Jayton, Texas, where she will teach in the public schools.

Miss Hortense Nordyke arrived here last Friday from Lubbock to teach in the Progress school the coming term.

Gordon Kennedy left last Saturday for College Station, where he will attend school this coming term.

Mrs. J. L. Herrington of West Camp visited her daughter, Mr. and Mrs. Vernon Vinson and children last Sunday.

Mr. and Mrs. I. H. Thomas and sons of Happy, Tex., have moved into this community to make their home.

Mrs. Ada Foster has returned to her home at Hollis, Okla., after an extended visit with relatives and friends.

Mr. and Mrs. Odell Holley and Warren, and Mr. and Mrs. Stanley White and Betty Lou, visited in Littlefield and Sudan Sunday afternoon.

Mr. and Mrs. O. Q. Holley and Evadna Holley were Clovis visitors Saturday afternoon.

Mr. and Mrs. Jess Wilhite, and sons, of Mangum, Okla., spent the weekend visiting his mother, Mrs. Carrie Wilhite and sons, Lonnie and J. E. Wilhite.

Mr. and Mrs. Jesse Murrain, and children, Jessie, June and Jean, visited in Levelland Sunday.

Little Charles Lee Needham is visiting Mr. and Mrs. Roland Bigham, and daughter.

Miss Fern Kindred has entered business college in Altus, Okla.

Miss Imogene Lowry has entered Draughon's Business college at Lubbock.

Mrs. Dave Stovall and son, Dave, Jr., shopped in Clovis, N. M., Monday.

LOCAL HAPPENINGS

Sgt. Rector Jackson of Ft. Bliss is spending a few weeks visiting in Muleshoe with his mother, Mrs. M. W. Jackson.

Mr. and Mrs. Richard Moore of Muleshoe spent the weekend in Plainview visiting her parents and friends.

M. D. Gaddy of the Goodland community transacted business here Saturday.

Miss Adell Sterling returned to her home in Muleshoe Saturday from a Lubbock sanitarium where she received medical treatment for several days.

Clifton Griffiths, student at Texas A. & M. college after visiting in Muleshoe for several days with his parents, Mr. and Mrs. Ray Griffiths, left Wednesday of last week, returning to College Station.

Mrs. Ross Smith attended to business and visited her parents in Lubbock Tuesday.

Jim Cox was a Lubbock business visitor Monday.

C. B. Jordan of Priona was a Muleshoe business visitor Saturday.

W. B. Brown, Lubbock realtor, was here on business Monday.

Alfred Coward is a new employee at Taylor's Produce.

J. M. Jackson of Roaring Springs, Tex., was in Muleshoe Saturday.

Claude Riley left Saturday afternoon for Arizona to visit his mother for several days.

Joe Killough of Ft. Sumner, N. M., attended to business and visited in Muleshoe last week.

Washington Snapshots

As consumers throughout the country are beginning to feel the pinch of shortages in many of the products they were formerly accustomed to buy so freely, increased attention is being given here to the problem of substitutes. It is a complex and considerably confused problem at present. To some observers at least it seems needlessly so. Recent actions of a few of the officials now working on it suggest that they are attempting to solve it somewhat in the manner of some who jumped on a horse and galloped off in all directions.

Those holding this viewpoint to the fact that three months ago government officials were urging all manufacturers to use less zinc and more copper. But now copper is scarcer than zinc and the trade has been asked to turn around again and use more zinc than copper—if they can get it at all. Even with this admitted scarcity, however, the copper industry has experienced no rush of business to cause it to step up production. Observers are wondering why in view of the need for the metal, so few orders are being placed that the industry is still operating on a five day week.

The aluminum shortage furnishes another example that is causing those familiar with the situation to wonder whether the time has not arrived for a great deal more efficiency in handling the whole shortage problem. Despite efforts to conserve aluminum for aircraft construction, it has been revealed that the Army recently ordered 50,000 aluminum pots. 5,000 aluminum coffee filters. 100,000 aluminum water pitchers. 3,000 aluminum plates and an undisclosed number of aluminum cooking utensils valued at \$203,000. This happened at a time when American housewives were contributing their pots and pans to increase the supply of aluminum available for airplane construction.

To take care of part of the metals shortage many officials here are casting their eyes on the Treasury's hoard of about 42,000 tons of non-metallized silver and are wondering if that could not be used as a substitute for scarcer metals. While manufacturers have greatly expanded their use of silver in recent years—particularly those in the electrical, chemical and metallurgical fields—it is estimated that they used only about 10 percent of the available silver last year, the remaining 90 percent having been stacked in the Treasury's vaults. Experiments conducted by manufacturers have proved that many of the packing food can be coated with silver as well as tin and that the use of silver cans would add only about one-half cent per can to the cost. Tin is one of the strategic raw materials.

Subcontracting is also coming in for more attention here as a way of dealing with unemployment and factory shutdowns in industries outside the defense program. Recent changes in Army-Navy purchasing procedure indicate that the practice of farming out work to small plants will be used in the future on a steadily increasing scale.

Although the new purchasing policy is not regarded here as anything like a complete solution of the problems of small business and industries not engaged in defense work, nevertheless, opinion seems to be that it makes a good start in the right direction.

Observers point out, however, that subcontracting is an intricate procedure and one that presents many problems to the industries involved. In their non-defense jobs many manufacturers, it is true, have had considerable experience with the practice of letting out part of their work to other companies. But even when that has been the case, they often face new difficulties now because of the fact that their previous experience has not been with armaments. For other companies, subcontracting is entirely new.

In view of the difficulties in either case, it is generally agreed that the whole problem has been handled in an extremely efficient manner to date by the industries affected by it.

Observers here are also commenting on the restatement of the status of many weekly and semi-weekly newspapers under the Wage and Hour Law that has been announced by General Philip B. Fleming, of the Department of Labor.

As a general rule, newspapers with a circulation of less than 3,000 the major part of which is

within the county where the paper is printed, are exempted from the wage and hour provisions of the Fair Labor Standards Act, but there are important exceptions. If a paper's circulation does not place it under the Act, the volume of its job printing might. According to the interpretation, any employee who spends 50 percent or more of his time on job printing that is to be used outside the state, comes under the provisions of the Act for the time that he spends on such work.

Half Century Club Members Return From Vacation

Members of the Half Century Club returned to Muleshoe Saturday afternoon of last week from a very pleasant stay in the mountains at Ruidoso, N. M.

The trip started with plenty of excitement when 16 members and three visitors boarded a school bus driven by L. R. Hogan, and left Muleshoe at 9:45 o'clock Wednesday morning, September 3.

Lunch was spread on tables shaded by large oak trees in the Roswell, N. M. City Park at noon. After a refreshing lunch in the park, the trip to Ruidoso was resumed.

Five o'clock in the afternoon found everyone happily settled in a large "pine knot" cabin in the mountains at the pleasure resort of Ruidoso.

Evenings were spent playing games in the spacious living room in front of a large fireplace.

The afternoon of the second day, the group took a sight-seeing tour to the Mesacero Apache Indian reservation. While there a visit was paid to the mission which is under construction. The mission was started in 1920, being built and designed by one man in honor of the soldiers of World War I.

Friday afternoon, another excursion took the club members high into the mountains of the reservation, and from there for a scenic drive to Lookout Mountain, where from an altitude of 7,800 feet, everyone had a bird's-eye view of Ruidoso and surrounding territory. The day ended with a visit to the theater, where an entertaining show was enjoyed.

Horseback riding, hiking and wading provided entertainment for all who went.

Everyone returned home happily looking forward to another trip next summer.

Those taking the trip were: Mesdames Beulah Motheral, Savannah Goodson, Hattie Rockey, Martha Harvey, Lula Kistler, Clara Belle Young, Beulah Carles, Lula Glasscock, Stella Eason, Dora Riddle, Ethel Darnell, Snow Davis, Anna F. Moeller, Sina Wallace, Belle Snyder, Millie Lee, and the following visitors: Mrs. John Border, Miss Norma Elrod, Mrs. Eula Wiggins of Clovis, N. M., and L. R. Hogan, the patient driver, "who gets 'em there and brings 'em back."

PLANT GOOD SEED WHEAT

Higher Market Price Per Bushel—
Higher Yields Per Acre

Plant Pure Seed of Recommended
GOOD QUALITY VARIETIES

In recent years the recognized good quality of Texas wheat has been endangered by increasing quantities of (1) poor quality varieties such as Chief, Early Blackball, Red Chief and Super-hard Blackball, (2) varietal mixtures, and (3) wheat-rye mixtures.

You can improve your own wheat crop and help improve the quality level of the wheat in your community and State by planting only pure seed of the recommended good quality varieties, such as TURKEY, TENMARQ, and old STANDARD BLACKHULL.

The quality of wheat and flour largely depends upon the purity and variety of wheat planted on the farm. Handling and processing cannot change the inherent quality of the wheat. Good quality flour is produced only from good quality wheat varieties and consumer demand for flour depends largely upon the quality of the flour. The farmer benefits in direct proportion to the consumer demand for his product.

How and Where to Obtain Good Seed Wheat

Ample seed wheat of any of the recommended good quality varieties is available at reasonable prices. Those desiring this seed should contact their County Agent, Elevator Manager, or the Texas Wheat Improvement Association, Amarillo.

The Texas Wheat Improvement Association AMARILLO, TEXAS

Make Every Farm a Factory Every Day of the Year

Big Business Of Tomorrow

Many of tomorrow's successful men are today struggling for a foothold in our highly competitive system. The same is true of the business man. The fact that they will survive and prosper will be due first to a worthy product or service; second, to sound management. Banking can, and does, play an important role in sound business management. The early alignment with a sound bank means much. If you are looking forward toward bettering your condition, we invite you to establish a working relation with this bank.

CONSERVATION, SOIL BUILDING EMPHASIZED IN 1942 AAA PROGRAM

When final provisions of the 1942 AAA farm program are drafted, increased emphasis will be placed on conservation and soil-building work on individual farms, J. C. Smith, secretary of the Bailey County AAA Committee, said this week.

Soil-building allowance rates, which will be the basis for determining maximum payments farmers may earn, have been announced through the Department of Agriculture. The rates will be substantially the same in 1941.

Under the 1942 program, farmers may receive two kinds of payments with the rates for compliance and special crop allotments to be announced later. The two types of payments are: (1) payment for carrying out approved soil-building practices, and (2) a payment for planting within special crop allotments such as wheat, cotton, rice and peanuts.

As in former years, conservation payments to be made under the 1942 farm program are contingent on the annual appropriation authorized by Congress, the AAA official said.

Instead of a total soil-depleting allotment for the farm, there may be substituted special crop allotments covering certain feed grain in surplus areas, he said adding that the state committee has not yet decided whether this would be necessary in Texas. Feed grains include oats, barley, rye, grain sorghums and corn.

Allotments will not be set up for commercial vegetables this year, he added.

A soil-building allowance is established for each farm on the basis that such factors as the farm's cropland, non-crop pastureland, commercial orchards and vegetables, and the planting farmer may earn his farm's allowance by carrying out approved practices.

Under the 1942 program, a farmer's allowance will be computed at either 70 cents per acre of cropland not included in special crop allotments for the farm in areas where feed grain allotments are not established, or 80 cents per acre of cropland not included in special crop allotments for the farm in areas where feed grain allotments are established. In 1941, the 70-cent rate applies only to areas generally deficient in feed, while the 80 cent rate is available in surplus feed areas. The Texas AAA Committee has not yet designated areas where the different rates of payment will apply.

The rates of non-crop pasture land will be the same as those under the 1941 program, Smith said, and will vary by acre. Fifty cents per acre will be allowed for restoration land. In 1941, the soil-building allowance on restoration land is 45 cents per acre, but the additional payment of 15 cents per acre made on this kind of land in 1941 will not be continued in 1942.

A payment of \$130 is allowed for orchards. For commercial vegetables normally grown on the farm, the 1942 payment is \$1 per acre.

Included in the 1942 program will be the special allowance of \$15 which farmers may earn by

planting forest trees. This payment will be in addition to any other allowance which may be computed for the farm. The \$20 minimum payment to a farm is also included in the 1942 program, Smith said.

Cotton Clothing Best Suited To South's Climate

In outlining the efforts of the Cotton Producing Industry and Cotton Trades Industry to cooperate with the Surplus Marketing Administration, U. S. Department of Agriculture to increase our domestic consumption of 100 percent American cotton products, Irvin St. Clair, chairman of the Bailey County Cotton Industry Committee, said today that cotton clothing is more suited to Southern climates than any other fabric.

"From a viewpoint of comfort and health, there is no fabric which can compete with cotton in Southern climates," Mr. St. Clair declared. "Cotton fibers are so constructed that they have high absorption qualities, enabling them to absorb perspiration much more rapidly than any other fiber, natural or synthetic. This factor makes cottons more cool and comfortable during the hot summer months."

Another reason for cotton's suitability to Southern climates is the fact that it is washable. Cotton fibers, stronger and tougher than steel, can be subjected to countless launderings. Cotton is the only fiber which actually becomes stronger when it is wet.

"Washable cottons are a necessity here in the South," Mr. St. Clair said. "Only through washing can every trace of perspiration be removed from a garment. Most cottons can be washed without fear of shrinkage or running and fading of dyes."

"The increasing popularity of cotton play suits and slacks suits in the South is in a large measure due to cotton's ability to fulfill all the necessary qualifications for a garment that must withstand heat, wear and strain, must be cool and comfortable."

"The fact that cottons are suitable to the South is all the more reason why we should buy cotton garments," the committee chairman continued. "Certainly it is to our economic advantage to wear cottons, for some eleven million of us are directly dependent on cotton for a livelihood and the remainder indirectly derive at least a substantial part of their incomes from the cotton industry."

LOCALS

Mr. L. R. Hogan, Mrs. Gordon Murrar, Mrs. Doc Wilhite and daughter were Clovis visitors Monday afternoon.

Mr. and Mrs. W. D. Tarleton of Tahoka, here in Muleshoe Tuesday of this week looking over the prospects of truck crops in this section of Bailey county.

Mr. S. R. Brooks and daughter, Bonnie were Clovis visitors Monday afternoon.

Mr. and Mrs. T. M. Wilburn of Electra have been visiting here the past few days with her sisters, Mrs. I. W. Hays and Mrs. G. A. Nelson, and other relatives.

Mr. and Mrs. M. O. Hattell and son, Chester, of Plainview attended to business and visited friends here Monday afternoon.

Miss Hattie Ray Griffiths and Herbert Griffiths made a business trip to Clovis Saturday afternoon.

Gordon Kennedy, son of Mr. and Mrs. Wm. G. Kennedy, left Saturday for College Station, where he will begin his second year in A. & M. college.

Mrs. Millard Moore visited in Texico Monday afternoon with her cousin, Mrs. Leon Cantrell, who is leaving this weekend by plane from Brownsville, Texas for the Panama Canal Zone, where she will join her husband, who is stationed there at a naval base.

SELLING IS A MATTER OF GETTING A GOOD BUYER

A New York judge sent a man to jail for taking \$1,000 as a first payment on the Brooklyn Bridge. A few years ago he sold Madison Square Garden. Every now and then a rural visitor from the Middle West buys the Grand Central Terminal.

Selling is not a matter of goods. It is a matter of people.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

To: The unknown successors of Chippy and Goodrich, a partnership; H. D. Chippy, if living, if dead, the unknown heirs and unknown representatives of H. D. Chippy; A. E. Whitehead; Matthew C. Vaughn; J. C. Orr; Bert Shepherd; M. L. McLain; L. S. McLain; Dean M. Stacey; Wm. H. Sulflow; and G. T. Blankenship; if living, if dead, the unknown heirs and unknown representatives of A. E. Whitehead, Matthew C. Vaughn, J. C. Orr, Bert Shepherd, M. L. McLain, L. S. McLain, Dean M. Stacey, Wm. H. Sulflow, and G. T. Blankenship; and the Farmers Mutual Royalty Corporation; the Farmers Mutual Royalty Syndicate Corporation; and the Royalty Holding Company, all foreign Corporations and with no resident agent known to the Plaintiff;

GREETING: I, the undersigned, hereby commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday, the 20th day of October, A. D. 1941, at or before 10 o'clock A. M. before the Honorable District Court of Bailey County, at the Court House in Muleshoe, Texas.

Said plaintiff's petition was filed in the City of Muleshoe, Texas, on the 20th day of September, 1941. The file number of said suit being No. 1350. The names of the parties in said suit are:

C. L. O'Brien as Plaintiff, and Frank L. Stegall, and wife, Frances Stegall, who resides in Bailey County, Texas; Chippy and Goodrich, a partnership, and the unknown successors of Chippy and Goodrich; H. D. Chippy, if living, and if dead, the unknown heirs and unknown legal representatives of the said H. D. Chippy; J. H. Goodrich, who resides in Lubbock County, Texas; C. C. Mardie, who resides in Bailey County, Texas; Higinbotham-Bartlett, a Corporation with a local agent in Bailey County, Texas; J. R. Stegall, who resides in Gregg County, Texas; A. E. Whitehead, whose present address is unknown; the unknown heirs and the unknown legal representatives of the said A. E. Whitehead; Hale County, Texas, a municipal Corporation; W. L. Pirtell and S. B. Bardwell, who resides in Lubbock County, Texas; Matthew C. Vaughn, if living, and if dead, the unknown heirs and the unknown legal representatives of the said Matthew C. Vaughn; the Farmers Mutual Royalty Corporation, a foreign Corporation doing business at Oklahoma City, Oklahoma; the Farmers Mutual Royalty Syndicate Corporation, a foreign Corporation doing business at Oklahoma City, Oklahoma; The Royalty Holding Company, a foreign Corporation doing business at Oklahoma City, Oklahoma; J. C. Orr, if living, and if dead, the unknown heirs and the unknown legal representatives of the said Wm. H. Sulflow; Peck-Royalty-Peck, a foreign Corporation with a local agent at Lubbock, in Lubbock County, Texas; and the Temple Trust Company, a Corporation with its principal place of business at Temple, in Bell County, Texas; Bert Shepherd, M. L. McLain, L. S. McLain, and Dean M. Stacey, who resides in Oklahoma; hereinafter styled as Defendants.

The nature of said suit being substantially as follows, to wit: Suit by the Plaintiff, C. L. O'Brien versus all the named Defendants, praying for judgment for the title and possession of all of the NW 1/4 of Section 12 in Block C; and all of Sections 11 and Block B, both located in Melvin Blum & Blum Subdivision of Bailey County, Texas.

Plaintiff alleging that he has been forcibly ejected from said land and premises by the defendants and asks for \$500.00 damages and for \$500.00 rents on said premises.

Plaintiff pleads peaceful, continuous, and adverse possession under the three, five, ten and twenty-five year statutes of limitation.

Plaintiff has endorsed on his petition that this action is brought as well to try the title as for damages.

Issued this, the 1st day of September, 1941.

Given under my hand and seal of said court, at Muleshoe, Texas, this, the 1st day of September, A. D. 1941.

(SEAL) M. G. BASS, Clerk, District Court, Bailey County, Texas.

(Published Sept. 4-11-18-26)

CITATION BY PUBLICATION STATE OF TEXAS

To: J. H. Glenn, whose present address is unknown, the unknown heirs and the unknown legal representatives of the said J. H. Glenn. All persons owning or having or claiming any interest in the land or lots hereinafter described, same being delinquent to the State of Texas and County of Bailey for taxes, and the same lying and being situated in the County of Bailey, and State of Texas, to-wit:

Lot 12, Block 10, of the Original Town of Muleshoe, Bailey County, Texas.

and the following have been implemented: W. E. Renfrow, State and County Tax Collector, and R. J. Klump, City Tax Collector.

Which said property is delinquent to the Muleshoe Independent School District for taxes for the years 1927 to 1940, inclusive, aggregating the sum of \$38.95, including interest, penalties and costs, said taxes having been legally levied, assessed and rendered against said land and lots, and the same being a lawful charge and constituting a prior lien against the same in favor of the State of Texas and County of Bailey to secure the payment thereof;

AND YOU ARE HEREBY COMMANDED to be and appear before the Honorable 64th Judicial District Court of Bailey County, Texas, at the next regular term thereof, to be held at the Courthouse of said County, in the City of Muleshoe, Texas, on Monday, the 20th day of October, A. D. 1941, the same being the 1st day of December, A. D. 1941, and there to show cause why judgment should not be rendered against you and the said land and lots sold under foreclosure of said lien to satisfy said taxes, interest, penalties and costs, and all court costs; all of which, together with other and further relief, general and special, being duly set out and prayed for in the plaintiff's original petition filed in said court on the 26th day of August, 1941, and appearing on the docket thereof as suit No. 1349, wherein the State of Texas is plaintiff, and J. H. Glenn, whose present address is unknown, the unknown heirs and the unknown legal representatives of J. H. Glenn, are persons owning or having or claiming any interest in said land or lots, defendants.

Given under my hand and seal of said court, at office in the City of Muleshoe, Texas, in the County of Bailey, this 27th day of August, A. D. 1941.

M. G. BASS, Clerk, District Court, Bailey County, Texas.

TRANSIENT FOUND IN TOURIST CAMP

L. S. Stripling, transient loa-blocker and cleaner, was found dead about 8 o'clock last Thursday morning in his room at tourist camp near Sudan on the Littlefield highway.

J. M. Shuttlesworth, justice of the peace and Dr. W. H. For who examined the body, said death was from natural causes and that he succumbed to a heart ailment some time Wednesday night.

The man had been in Sudan about a week soliciting hand cleaning and blocking.

FORMER MULESHOE FOLKS RETURN FROM VACATION

Mrs. G. C. Danner, and daughter, Patsy and Jean, of former residents of Muleshoe, returned to their home last week from a vacation trip which they spent in Oklahoma and Ariz. They were accompanied by sons by Justin Danner, a them; as, where he has an two ship, while getting his degree. Justin was from Muleshoe high school in 1933.

HAUL DAMAGES CROPS AT VALLEY VIEW

A freakish, but destructive hail storm swept through the Valley View section of Lamb county Sunday afternoon and damaged crops on 1,500 to 2,500 acres farm land.

It was the most severe hail storm reported in Lamb county this season.

MULESHOE VACATIONIST DECLARE COLORADO SCENERY BEAUTIFUL

Muleshoe and Bailey county people have been going into the Mountain States for vacations this summer in greater numbers than ever before. Of course there are a few who did not go west, went east, some south. A few took a trip to the north, others joined the writer in strawberry and staying at "We are what is known as working class" and generally around to roll up the side at night. However, we are that our people are among who can journey forth to many wonderful sights of the country. We talked to many of the folks who have gone into the west this summer. They have been in the sights from here to California, and on up the Pacific coast to Washington. Some have gone into Canada. A large percentage of them toured Arizona, Nevada, Utah, Montana, Wyoming and Colorado. We always asked them which state—or states—they liked best. Invariably they would name Colorado. A few preferred Utah, and a few liked Idaho. It was no surprise to us that the vast majority of the most attractive. There is finer scenery in the world, taken as a whole, no finer people. Our homefolks liked Colorado for varied reasons, but the two most often mentioned were the courteous treatment, and

its beautiful mountains. That made us feel good, for we used to live there, and know dozens and dozens of Coloradans. Hundreds of Texans are just recently "discovering" Colorado. There was a good reason for this lateness in finding the world's finest summer playground. Up until recent years, the majority of Colorado's highways were nothing to brag about, especially in most scenic parks. But today, there are things that are hundreds of miles of excellent highways which lead into the heart of the Rockies and in years to come Texans will be found in increasing numbers traveling these trails to summer vacations. As for us, when and if we ever take another vacation, we can think of no better route than the one west of Pueblo, to Canon City and the Royal Gorge. The towering peaks at Buena Vista. The historic and romantic old town of Leadville, from which place one can gaze upon the grand old man of the mountains, Mount Massive. Tennessee Pass and down to the West Slopes through the valley of the Eagle River. The grandeur of the Mount of the Holy Cross and the green, spruce and pine-clad slopes of the western Rockies. Here, there are countless streams of foamy, ice-cold water, where rainbow and speckled trout abound. There's no better land for a vacation in summer. No wonder Texas folks like Colorado.

Bank Examiner Jobs Offered Young Men

An opportunity to enter a career of bank examining is offered young men of the country by the Federal Deposit Insurance Corp., according to a recent announcement by the United States Civil Service Commission. Applications for admission to a competitive examination for positions as Junior Bank Examiners with FDIC, at an annual salary of \$8,000, will be accepted by the Commission until Oct. 2, 1941. These positions, which provide excellent experience in banks of all sizes and which involve extensive travel, should interest eligible young readers of this newspaper. Since so great a proportion of the banks insured by the Corporation are so-called "country" banks, located in small communities and serving primarily agricultural districts, FDIC is particularly eager to attract to the forthcoming examination young men who are familiar with the workings of small and medium-sized banks and with the problems of agricultural credit. Applicants will have excellent opportunities to broaden their knowledge through frequent assignments to banks in larger cities within their districts and through their training under senior examiners with long records of service. The Corporation is seeking men between the ages of 23 and 35 who have had at least one year's experience in a bank, building and loan association, or other financial institution; together with three years of college, accountancy, or law school education. The written examination to be given in a large number of centrally located cities and towns throughout the country, will consist of two sections, the first designed to test applicants' practical knowledge of commerce and banking, and the second to test their education, experience and fitness. An oral examination subsequently will be given to those who rank highest in the written tests. Appointments will be made, as the need arises, from among applicants with the highest combined ratings, for service in the FDIC district which includes the candidate's legal residence.

A hiss does not always mean disgust or disapproval. In Japan it means delight. In greeting one, a Japanese hisses. In West Africa the hiss denotes astonishment. In the New Hebrides they hiss before anything beautiful. The Bantus' hiss is a sign of cordial agreement. Among the Kabyles of Northern Africa the hiss denotes satisfaction. "Next I will tell you how we shake the wheat." "Dear me. Can I listen to this?" murmured the woman from the city. She had spent most of the morning telling her class of evanescent something of the wonders of nature. At the finish, she thought she'd score a point. "And isn't it wonderful how the little chickens get out of their shells?" But one quick-witted little nine-year-old went one better. "What gets me, miss, is how they get in."

An old Negro preacher owned a mule which had an efficient pair of heels and a loud but unimpassioned voice. One Sunday morning, while the preacher was delivering his sermon, the mule persisted in putting his head in at the window and braying loudly. The preacher finally said: "Brethren and sisters, is dere one among you all who knows how to keep dat mule quiet?" "Pahson," replied a man, "if you will jess tie de stone to de mule's tail he sho will keep quiet."

"Brethren and sisters," said the preacher, "let him who is without sin tie de fust stone." Two truck drivers were all snarled up in the traffic at the intersection of two busy streets. One of the drivers lost his temper and yelled at the other one: "Why don't you look where you're going, you great, big, cross-eyed, bow-legged, knock-kneed, son of a blankity blank, blank! blank! blank! pic-eyed dumbbell!" The other driver smiling sweetly said, "You're nice looking, too, buddy."

"Pa," said Johnny looking up from his composition, "is water spelled with a 'w' or do you spell it with a 'hydrant'?" "Customer: "Does a man with a little hair as I've got have to pay full price for it have it cut?" Barber: "Yes, and sometimes more. We usually charge double when we have to hunt for the hair."

"Yes," said the young lady. "I've decided to marry Oswald Potts, father." "What?" he ejaculated. "You're going to marry that insignificant little fellow? Why, you've always said that you'd never marry anyone under six feet."

She shrugged her shoulders. "I know, dad," she replied, "but I've given the matter serious thought, and I've decided to knock off twenty percent for cash."

A rural minister one Sunday took his place in the pulpit, announced his text, and proceeded to expound it as follows: "Brethren, my text this morning will be, 'Seven sons did Miteah bear unto Enon.' I expect old Enon was sick and the doctor told his seven sons (strong, active fellows) that it was necessary he should have some milk; therefore the seven sons went out to look for the cows, and they could not find them anywhere in the whole neighborhood. But they came across a she bear, and they milked her and carried the milk to Enon. And so it is writ, 'Seven sons did milk a bear unto Enon.'"

Mahon Visits

(Continued from page 1) other nations whose sole idea is aggression. "In my opinion," he declared, "The State Department has just about called Japan's bluff in such a way that they are really trying to avoid war. However the Oriental way of looking at things is so different from that of any other people on the globe, it is hard to predict what they will do."

The prospect of war was obviously a matter of much concern to the Congressman. "I pray that we may never have any of this war business," Mr. Mahon said, "and I believe that the vast majority of the members of congress feel the same way about it. But we must be prepared. That much is certain."

This statement led to questions in regard to the morale of new soldiers of which we have heard so much the past few weeks. Also as to the strike situation. Mr. Mahon stated that he was due to visit the Louisiana war games next week, where he will get additional information on matters of this nature. He said that it was his belief that the argument somewhat. The strike situation he admitted to be as bad as pictured, but stated that the administration had the power already to remedy the matter.

The Texas delegation had offered to support any new legislation which would bring radical labor elements down to earth, he said, but congressmen from the industrial centers had fought every move to curb strike violence. Mr. Mahon plans to return to Lubbock for a short stay during the Christmas holidays, provided the war situation gets no worse.

Loan Meeting

(Continued from page 1) unexpired term. Holdover directors are: Geo. W. Bolton of Farwell and B. T. Hendrickson of Farwell.

In his annual report, the secretary-treasurer revealed that the Western National Farm Loan Association now has 609 loans for \$1,814,850 on its books, in addition to 431 Land Bank Commission loans for \$712,973. "But the figures are important only for what they represent," Mr. Woodley announced, "and what they stand for is more than 600 farm families, owning their homes, living on their land, here in Bailey and Farmer counties."

He pointed out that members of the association are protected in their ownership because with a Land Bank loan only a small portion of the total loan comes due at any one time, yet the farmer can pay ahead in farmers to take care of lean ones, reduce the length of time required to pay off his indebtedness.

Stamp Sale at Boystown Store

In the Boystown store the Defense Savings Stamp corner features a display of the Treasury's posters. Father Flanagan stands at the left, while "Mayor" Jimmy Russ of Boystown makes a sale to Mr. and Mrs. Joseph R. Mucci, visitors from Malden, Mass., when Boystown opened up Retailers for Defense Week Stamp sales.

DEFENSE BOND QUIZ

Q. Can Defense Savings Stamps be redeemed? A. Yes; they can be redeemed for cash at face value or exchanged for Defense Savings Bonds. For example, 75 of the 25-cent stamps—total cash value \$18.75—may be exchanged for a Defense Savings Bond which in 10 years will be worth \$25. Q. How long have Defense Savings Stamps been on sale at retail stores? A. Sale of stamps at retail stores originated in the State of Michigan on July 10. The idea met with such success that it is spreading rapidly, and soon will be sold in most retail stores on a nation-wide basis.

SANTA FE CARLOADINGS

The Santa Fe Railway System carloadings for the week ending Sept. 6, 1941, were 20,576 compared with 18,243 for the same week in 1940. Received from connections were 8,060 compared with 5,871 for the same week in 1940. The total cars moved were 26,638 compared with 24,114 for the same week in 1940. The Santa Fe handled a total of 31,486 cars during the preceding week of this year.

TEXAS HAS LARGEST HOME GUARD

Texas apparently has the largest home defense guard of any state in the nation. This was shown recently in a compilation made by the National Council of State Governments and contained in their monthly publication, just received. Strength of the Texas guard was placed at 14,588 while the next nearest state was New York with 13,916.

State Producers Putting Extra Money To Use

HOUSTON, Tex., Sept. 8.—With farm prices up 30 percent over a year ago, Texas producers of crops and livestock are inclined to use extra money to reduce indebtedness and get obligations in current condition rather than in any speculative expansion, reports Jack Shelton, general agent of the Farm Credit Administration of Houston. "Most forward thinking farmers and stockmen realize that they are riding on the crest of a wave and believe this is a good time to stay close to shore," he said. "Food production is vital to defense in every war and farmers and ranchers are making a big contribution in this way. At the same time, most of them feel that this is the time to reduce debts, cut herds and strengthen their operations."

Shelton said that the four permanent units of the Farm Credit Administration, serving more than 100,000 farmers and stockmen in Texas and having more than a quarter of a billion dollars in loans outstanding, have shown considerable increase in the number of borrowers this year as compared with 1940. "The fact that loans to these borrowers were made for amounts that can be repaid from normal income is evidence that this gain is not due to increased financing of speculative operations, but rather to a steady movement toward settling agriculture down to a sound, well-rounded, long-time program," he said. "The gain reflects a desire of farmers and livestock men to finance at lower rates and on a basis where debts can be repaid from normal production income."

Stegg News

Bro. Moore started a revival meeting Sunday morning. Mrs. Emmett Brumbelow is on the sick list this week. Glenn Brinker entered college at Portales, N. M., the first of the week. Mrs. Haines, and daughter, Magdie Lee, are visiting at Spur this week. The club women made mattresses on the last club day. The next meeting will be with Miss Kathryn Phipps. The worms are bad in the cotton, and lots of farmers are applying poison this week. Spurgeon Phipps is employed in the Lockheed Airplane factory at Los Angeles, Calif. Mrs. Norma Arnn's mother of Littlefield visited in the Arnn home the past weekend.

THE RECORD... Facts That Concern You

A BAD ONE DOES TURN UP ONCE IN A WHILE!

Good weather and a bumper crop! Even then one finds a poor stalk once in a while.

The retailing of beer is something like that. Most beer retailers operate respectable law-abiding establishments. Occasionally one finds an exception—a man who tries to beat the law or who permits anti-social conditions.

The beer industry wants this type of undesirable retailer stamped out. Your cooperation will help us in our clean-up efforts.

The beer industry brings important benefits to the community. Here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

Texas, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from over 100 other industries.

You can help us protect these benefits in two ways. First—patronize only the reputable places where beer is sold. Second—report to the proper authorities any law violation you may observe.

THIS BUSINESS OF Living

BY SUSAN THAYER

It was a typical New England factory—a long building of red brick built in an L-shape down by a stream. It had stood by that little river more than 70 years playing a part in making this the greatest industrial nation in the world. For here, from the beginning, have been built machines which are used, in turn, in other factories for making articles for every day living.

Back in the old days, they told me, great presses for paper manufacture had been built here and out machines required for wood working factories. Today, like thousands of other factories throughout the length and breadth of America, they are working on tools needed for the manufacture of machines for national defense.

building until we came to the parking space nearest the front door of the office. It was empty but it was marked "Reserved for Mr. Whitney."

"I can tell his car because it's always parked in the place where his father used to tie his horse."

"But is his car any different?"

"I persisted. "Is it larger or newer than those of the men who work at the machines?"

"I don't know," he said. "I haven't been here much this summer. Perhaps it is—perhaps not."

Just then a car turned in the driveway to the plant and down across the little bridge and onto the grounds. To my great satisfaction it turned into the parking lot "reserved for Mr. Whitney" and I could see for myself just how the boss's car differed from those of his men.

But when I came nearer I saw there was no difference! It was just another useful, dependable automobile—no finer, no newer than any of the others. The only mark of distinction was its special parking place.

And like thousands of other factories it was surrounded by shiny automobiles; dozens of them packed against a railing of white painted boards that made a wide circle about the factory. Those automobiles interested me. They seemed to me to be a symbol of the times and of the opportunities which men have in the United States. All of them seemed to be new enough to be shiny, and all were of approximately the same type and size. I tried to tell which were the cars of the workers and which belonged to the managers of the plant. But I could see no difference so I appealed to my guide.

"Can you tell which car belongs to the owner?" I asked him.

"Yes," he told me, he could—and beckoned me to follow him. We walked around the long

Ohio Visitors Are Entertained By The Hogans

Monday evening of last week, Mr. and Mrs. L. R. Hogan and daughters entertained a few friends and relatives at their home in the Progress community.

After a delicious supper, the evening was spent in informal visiting.

Those present were Mr. and Mrs. C. R. Stockton of Akron, Ohio; Mrs. Lura Rush of Dalhart, Tex.; Mr. and Mrs. R. O. Hogan, and sons, Billy and Jerry Richard, of Akron; Mr. and Mrs. M. L. Hogan, and daughter, Virginia, of Lubbock; Mr. and Mrs. Gordon Murrain, Mr. and Mrs. Doc Wilkitt, and daughter, Mr. and Mrs. C. H. Needham, and son, Charles Lee, Mr. and Mrs. Jim Cook, and Mr. and Mrs. L. R. Hogan, and daughters.

Mrs. Stockton and Mrs. Rush are sisters of R. O. Hogan, M. L. Hogan and L. R. Hogan. It was the first time they had all been together in 34 years.

Miss Modette Lewis And Rev. Hardin Married Saturday

Mr. and Mrs. Paul Lewis of Earth announce the marriage of their daughter, Miss Modette to Rev. Arnold Hardin of Oilton, which took place Saturday afternoon, August 30, at six o'clock in the home of the bride's parents, with Minister Reel Lemmons of Tipton, Okla., officiating.

The bride chose a lovely frock of soldier blue and wore antique brown accessories. She has made her home in the Earth community for the past sixteen years, where she has taken an active part in all school, church and social affairs. Her father is a county commissioner of Lamb county, an office he has held for several years, and the family is well and favorably known throughout the county.

The groom is a young minister of Oilton and Dimmitt, having filled the pulpit at the Church of Christ at both places during the past summer. He is the son of Mr. and Mrs. Arthur Hardin of near Springlake, who have made their home there the past eight years.

After the ceremony, a wedding dinner was served at the Lewis home, with members of both families and the wedding party as guests.

The couple left Sunday night on a honeymoon trip to South Texas.

Legion Convention At Milwaukee To Be Biggest Ever

There will be at least 1,474 delegates at the 23rd annual national convention of The American Legion in Milwaukee, Wis., September 15 to 18, representing the 58 departments, 11,780 posts and a record membership of 1,097,915. A number of foreign and outlying posts are entitled to delegates, and if they are represented, the total number of delegates will be increased by several.

This is the largest number of delegates of any American Legion convention in history. Last year the 22nd national convention in Boston, Mass., had 1,451 delegates.

Texas, with a membership of 31,602, will have 40 delegates at the convention.

Mr. and Mrs. Frank Priboth, and daughters, Martha and Carolyn, of Blackwell, Okla., arrived in Muleshoe Friday to spend a week visiting in the home of Mrs. Myrtle Priboth.

AMHERST, SUDAN ELEVEN OPEN SEASON FRIDAY

The Amherst Bulldogs, bi-district champions last season, began stiff workouts last week in preparation for their opening game of the season Friday against the Sudan Hornets on the Amherst gridiron.

The rest of the Amherst schedule follows:

Sept. 19: Petersburg at Amherst.

Sept. 26: Lubbock Cowhands at Lubbock.

Oct. 3: Abernathy at Abernathy.

Oct. 10: Open.

Oct. 17: Anton at Anton.

Oct. 24: Farwell at Amherst.

Oct. 31: Hale Center at Amherst.

Nov. 7: Springlake at Springlake.

Nov. 14: Whittharral at Amherst.

FOOD FOR DEFENSE

Nutrition today is holding the spotlight along with military training in preparing our nation physically and morally for the great strain of war which seems likely to affect our country.

It is the duty of every housewife to do her part in the great home production program, first by the home production of more foods; second by conserving this food, and third, by preparing it in such a way and in such a combination that it will be nutritious and attractive, so that the family will partake of it generously.

Here is a suggested dinner menu for your family table with recipes following:

DINNER MENU

Cabbage Casserole.
Scalloped Potatoes.
Spoon Cornbread.
Cherry Upside-Down Cake.
Milk.

Cherry Upside-Down Cake

First make up a cherry mixture according to the following method. Drain the juice from one No. 2 can (2 1/2 cups) of red sour cherries. To 1-4 cup of the cherry juice, add 1 cup sugar and 1-4 cup of water. Boil until the mixture spins a thread. Add the drained cherries and boil rapidly until this mixture spins a thread. Melt 1 T butter in a heavy 9-inch frying pan. Pour in the candied cherries and allow the mixture to cool. Then add the following cake batter.

Cream 1-4 cup butter or other fat. Add 1/2 cup sugar and 1 T vanilla. Stir until the mixture is light and fluffy. Add one well beaten egg. Sift together 1 1/2 cups soft-wheat sifted flour, 2 T baking powder, and 1-4 t salt. Add this alternately with 1/2 c milk to the first mixture. Stir to mix well and pour over the cherries. Bake in a moderate oven for about 45 minutes. Loosen the sides of the cake, turn it out carefully upside down. If the fruit sticks to the pan, lift it out and place it on the cake. Serve with whipped cream.

Mrs. Manuel Self Hostess Tuesday To Progress Club

The Progress Home Demonstration club met Tuesday, September 2, at the Progress auditorium.

Plans were completed for an all-day picnic, Friday, September 12, at a park in Lubbock, for all club members, their families and guests. Basket lunches are to be taken. All cars will meet at the court house in Muleshoe at 8:30 Friday morning.

Miss Lillie Gentry gave an interesting demonstration on "Saving Your Own Seed." She stated that saving seeds of home products would prove an advantage as all seeds purchased were not reliable.

The club will meet September 16 at the Progress auditorium with Mrs. Anna Mae Bearden as hostess.

Lime-pineapple iced punch and cookies were served to the following:

Mrs. Ada Foster of Hollis, Okla., Beth Etelle Holley, Evadna Holley, Vera Baker, Lillie Gentry, Mrs. Chas. M. Baker, Marie Maltby, Mrs. O. Q. Holley, Mrs. E. S. Smith, Mrs. C. J. Thompson, Mrs. Anna Mae Bearden, and the hostess, Mrs. Manuel Self.

TONSILS REMOVED

Sara Elizabeth Higdon of Muleshoe, daughter of Mr. and Mrs. Bill Higdon, underwent a tonsilectomy at the clinic here September 2.

Jack Peel of the Goodland community, also underwent a tonsilectomy at the clinic September 2.

Tech To Offer Nurses' Courses

The home economics division of Texas Technological college, in affiliation with the three Lubbock hospitals, will offer a three-year pre-nursing curriculum for the first time during the long session opening this month at Texas Technological college.

The prospective nurse will spend three years or the equivalent in college and three additional years in the school of nursing of either of the three hospitals there.

Students enrolling for the nursing course will study English, government, food selection and elementary nutrition the first year. During the second year she will study English, chemistry, psychology, zoology, dietetics, dress selection, meal planning and table service, and sociology. The third year will include two courses in chemistry, nutrition work with children, child development, bacteriology, art appreciation and several elective courses in home economics.

MRS. BILL WINGFIELD OF HONOLULU, HAWAII TO VISIT IN TEXAS

Mrs. Wingfield, wife of Bill Wingfield, who resided in Muleshoe a few years ago, will visit her father-in-law, J. I. Wingfield, also a former local resident now living in Morton, and family about the 20th of this month and will remain until Christmas.

Mrs. Wingfield and baby son, Bill, Jr., will make the trip from Honolulu, Hawaii, to San Francisco and then on to Texas and Morton.

Mrs. Wingfield is a native Hawaiian, and has never been off the Island. She is well educated, and was, for some time, an employe of a large transportation company on the Island. Bill Wingfield is employed in the Navy yard in Honolulu. He was a jeweler while living in Muleshoe.
