

Farmers must pay fuel tax

As if farmers and ranchers don't have enough to worry about, now they have to pay a tax which they do not owe.

As of April 1, farmers and ranchers who buy diesel fuel for off-road consumption will have to pay the 15.1-cent per gallon diesel fuel tax at the time of purchase. If the purchaser wants his money back, he must apply for a tax credit and wait for the federal government to send the check. U.S. Sen. Phil Gramm said farmers may have to wait up to a year for that refund.

Previously, farmers and ranchers who used diesel gas in their operations were exempt from the tax. They still are, but under the provisions of the U.S. Congress' omnibus budget reconciliation act, they won't get their money back unless they plow through a mound of paperwork.

Texas officials across the political spectrum have said they oppose the change and are trying to do something about it. Bills introduced into Congress by Kika de la Garza, chairman of the house agriculture committee; congressman Larry Combest; congressman Jim Jantz of Indiana, and Gramm all seek to exempt the excise tax which will be levied on all diesel fuel used for farming purposes.

"While the new law permits the refund of these taxes, the requirement that the tax be paid at the time of purchase will add to the farmer's upfront cost of production and will cause cash flow problems," said John Datt, executive director of the Washington, D. C. office of the American Farm Bureau Federation.

"It is ludicrous to tax those who do not owe in the first place," Combest has commented, adding: "Left unchanged, this policy will create an economic hardship for farmers, oil field workers and numerous small business owners." Gramm has said: "There is no legitimate reason for the federal government to have the use of farmers' hard-earned money for as long as a year when they don't owe it anyway."

While there is a provision in the new law for quarterly refund payments, those would be limited to refunds of \$1,000 or more. Otherwise, refund applications would have to be made annually, according to the Texas Farmers' Union. The American Farm Bureau Federation estimates the new rule will result in the collection of approximately \$420 million annually.

The new rule would create a "major cash flow problem" for the American farmer, according to the Farmers' Union. Said a spokesperson recently: "In many cases of family-sized farm operations, which are on the brink of cash flow difficulties, this increased tax burden could well be the 'last straw' which forces them out of business. Gramm has said that the new provision "will do clear damage to Texas farmers and ranchers."

Gramm also stated that when the law takes effect on April 1, "the immediate impact on Texas agriculture will be to increase the cost of diesel fuel by some 20 percent or more per gallon."

Gramm has said he hopes to help defeat the new tax provision before it is scheduled to go into effect. A Gramm aide said that the senator's bill had 25 co-sponsors, drawn from farm-state senators, and that the bill is currently before the senate finance committee.

Should the finance committee not act on it, the repeal of the new tax rule could be added to another bill as a rider later in the session, or it could be a part of a "technical corrections" bill, also later this year.

Council to hear citizens

Four citizens have requested to be heard at tonight's (Thursday's) meeting of the City Council.

Louis Wilson, Christene Greene, Sue Patterson and Randolph Wilson have been placed on the agenda.

The Council is expected to consider a water rate increase and open bids on a police vehicle.

Taxpayers group seeks rollback election

A petition for a writ of mandamus calling for the Haskell County commissioners to order a rollback election on county taxes, was filed last Thursday in 39th District Court in Haskell.

Plaintiffs are 116 citizens, collectively referred to as Haskell County Taxpayers. The petition describes the individuals as "signers of a petition for a rollback election."

The defendants are County Judge B. O. Robertson and Commissioners T. C. Burson, Ronnie Chapman, J. R. Perry and C. A. Turnbow.

Specifically, the petition asks the court to "issue a writ of mandamus requiring 'respondents' to call an election as required by the Texas Constitution and Tax Code, for other and further relief, general and special to which they

may be entitled."

The petition filed last week points out that 716 certified names, "a sufficient amount of registered voters", were contained on the rollback petition presented to the commissioners last fall.

The rollback petition was circulated last fall after commissioners set a tax rate of 45.5 cents per \$100 valuation. The petitions called for an election to roll back the tax rate to 38.09 cents, or 8 percent above the effective tax rate of 35.27.

Although the law makes such provisions for a rollback election, Attorney General Jim Mattox issued an opinion in September which held that rollback elections on the county level are unconstitutional. The commissioners cited this opinion when declining to order the election.

The Haskell County Taxpayers Association has expressed the opinion that the attorney general's opinion will not stand up under a court test.

Some plaintiffs complain

Some of the 116 persons whose names appeared as plaintiffs on the suit filed against the county last week have expressed displeasure that their names were used in the suit.

Several have told The Free Press that they signed petitions last summer asking for a rollback election, but there was never any indication to them that they would become parties to a suit.

Beautify Haskell essay contest set

Adults, high school students and elementary pupils are invited to enter an essay contest being conducted in conjunction with the Beautify Haskell program.

Entries must be at the Chamber of Commerce office no later than March 10. The winning essay in each category will be published in The Haskell Free Press, along with a picture of the writer.

The name, address and telephone number of the writer must be included and the essay must be 200 words or less.

Suggested topics include:

Adults: "Beautify Haskell Together" (this is the official slogan.)

High School: "How Haskell Can Be More Beautiful."

Elementary: "Why I Think Haskell Is Beautiful."

Kevin Walker in concert Sunday

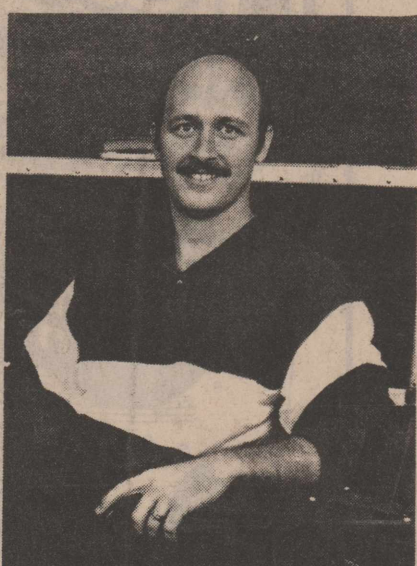

Kevin Walker will be in concert at 7 p.m. Sunday at East Side Baptist Church.

He will present a combination of songs he has composed over the past 10 years, along with other contemporary Christian music.

Walker began singing in church as a small child and began playing the piano at age 7. He is a graduate of Hardin-Simmons University with a BA in church music.

Over the past five years, Walker has been student minister at East Side Baptist Church. During this time he has had opportunity to have some of his songs recorded by other Christian artists. He also has performed at youth camps, retreats, revivals and other Christian settings.

East Side Baptist Church invites the public to attend Sunday's concert.

Maidens' season ends

Reagan County's Lady Owls came from behind in the fourth quarter at Ballinger Friday night to hand the Haskell Maidens a 54-49 defeat.

The loss, only Haskell's fifth in 30 games, eliminated the Maidens from the Class 2-A playoffs.

Haskell went into the fourth quarter with a 33-30 lead, but the Lady Owls peeled off 12 consecutive points at the outset of the final period to pull away from the Maidens.

The Maidens fell behind 11-5 in the first period, but had narrowed the gap to 23-19 by halftime. Haskell then outscored the Lady Owls 14-7 in the third period to take a 3-point lead.

Then the roof caved in. Reagan County pulled ahead 42-33 before Tiffany Moeller broke the fourth-quarter drought for the Maidens. The Lady Owls led by as many as 11 points on two occasions in the fourth period. The final 5-point margin was as close as the Maidens could get after the Lady Owls' 12-point onslaught.

Missy Davis led the scoring for the Maidens with 15 points. Moeller was next with 13. Robyn Weaver scored 9, and Joy McKeever and Sheree Dumas each had 6.

The Maidens had advanced to the second round of the playoffs by defeating highly regarded Coleman 43-40 in a bi-district game in Sweewater last Friday. In winning, the Maidens had to come from behind in the fourth quarter.

Weaver was the top scorer in that game with 12 points, followed closely by Davis with 11, McKeever with 10 and Moeller with 8.

Haskell ended its season with a record of 25-5.

Mayor files for election

Mayor Greg Melton became the first candidate to file for the May 7 city election.

He filed Monday for election to the position he has held by appointment since Sept. 22. He was appointed at that time to fill the unexpired term of Abe Turner who resigned.

The seats of councilmen Kenny Watson and Claude Payne also are up for election this year.

Track team thanks supporters

Coach Jimmy Lisle and members of the Haskell High School track team expressed their thanks this week to the public for cooperating with last Saturday's donut sale.

Team members sold donuts to raise funds for the track program.

They said the sale was very successful.

Absentee voting

Absentee voting for the March 8 primary election, which opened last week, will remain open until March 4.

Two Points

Missy Davis of Haskell gets two of the 11 points she scored in the bi-district game against Coleman Friday. The Maidens won 43-40.

Indians in bi-district in Abilene Friday

Haskell Indians will meet Jim Ned at 7:30 Friday at the McMurry gymnasium in Abilene.

The bi-district playoff pits the 7-2A champion Indians against 8-2A runnerup Jim Ned.

The winner of the bi-district game will play either Marfa or the winner of Tuesday night's Stanton-Ozona

game in a sub-regional (area) playoff next Tuesday.

Haskell warmed up for the playoffs with a couple of practice games. The Indians beat Eastland 87-67, but lost to Breckenridge 59-53 in a pair of contests in Wylie.

These games brought the Indians' record to 25-5.

Hospital sets up new care program

Short-term care which does not require admission by a physician will be offered by the Haskell Memorial Hospital, beginning March 1.

Known as "Inn Care", the service will be provided on a private pay basis. It will not be covered by private insurance or Medicare/Medicaid.

Three levels of care will be offered:

Level I: Room, board and television with minimum supervision, \$40 per day.

Level II: Room, board, television and moderate supervision, \$60 per day.

Level III: Room, board, television and maximum supervision, \$80 per day.

Payment for Inn Care will be due every seven days.

A committee composed of the hospital administration and nursing staff will evaluate each patron every seven days.

If a medical emergency arises for an Inn Care patron, proper medical services will be provided.

Laura (Driscoll) Dalton

Driscoll, Dalton marry in Bula

The First Baptist Church of Bula was the setting for the Sunday afternoon ceremony, Feb. 7, uniting Laura Driscoll and Ronald Dalton in marriage.

Russ Gardner, pastor of the First Baptist Church of Bula, officiated the double-ring ceremony.

The bride is the granddaughter of Mr. and Mrs. Royce Teaff of Bula, formerly of Weinert and Goree. Parents of the groom are Mr. and Mrs. Ronald Dalton of Littlefield. Grandmothers of the groom are Lucy Dalton and Altha Ginn.

Registering the guests was Beverly Jackson.

The bride, presented in marriage by her grandfather, wore a traditional gown by Bridal Originals. It was styled of chiffon and lace. The high neckline lead to straight lace sleeves and a fitted bodice, which flowed to create a full skirt and mid-cathedral train which was edged in lace.

She wore a white hat styled with appliques of lace and seed pearls. The back of the hat had a pouf bow with a veil flowing to the waist. She carried a cascading bouquet of blue and white roses with blue lilies. It was adorned with blue and white ribbon streamers.

For something old, the bride carried a Bible that was carried by the groom's mother at her wedding 26 years ago. Something new was her pearl earrings. Her wedding dress was something borrowed, and something blue was the traditional blue garter.

The groom wore a white tuxedo accented with a white rose.

The church was adorned with an arched candelabra in the center. It was surrounded by two half-spiral candelabras. They were decorated with green foliage, blue ribbon and white candles.

Musical selections were "You Light Up My Life" and "Two Less Lonely People." Pianist was Jean Parkman of Littlefield. Latrell Houk of Levelland was soloist.

Attending the bride as matron of honor was Julie Ricks. She wore a floor length powder blue taffeta dress with drop shoulders. Ruffles accented the shoulders and the bottom of the gown. A satin belt tied into a bow in the back. She carried a bouquet similar to the one the bride carried.

Ronald Dalton, father of the groom, served as best man. Ushers were Brian Dalton and Joey Zahn. They wore gray tuxedos with white shirts and gray bow ties.

Candlelighters were Brian Dalton, brother of the groom, and Joey Zahn, the groom's cousin.

For her granddaughter's wedding, Mrs. Teaff wore a blue three-piece dress ensemble with a white corsage. The groom's mother wore a mauve dress and white corsage.

Following the ceremony, a reception was held in the fellowship hall of the church. The bride's cake was a three-tiered white cake. It was accented with candle lite icing and blue roses.

Serving the bride's table was Mikelle Gardner and Latrell Houk.

The groom's cake was a chocolate sheet cake. It was accented with candle lite icing, blue roses and blue horseshoe in the middle of the cake. Serving the groom's table were Kim Gardner and Julie Ricks.

For their wedding trip to Ruidoso, the bride wore casual clothing. The couple will make their home in Levelland.

The bride attends South Plains College and is employed at South Plains Office Supply in Levelland.

The groom attended South Plains College and is employed by Zachary's in Sundown.

The groom's parents hosted a rehearsal dinner for the wedding party on Saturday, Feb. 6, at Steak N More.

Oil top issue in Texas primary

AUSTIN—The bottom line for Texas voters? Some Capitol folks say the eyes of Texas are looking for presidential candidates who will support limits on foreign oil imports.

Make no mistake about it: Texans have been hurt so badly by the economy that many loyalists in both parties have taken an inde-

The same goes for the Democratic candidates. They all vowed more welfare for the Rio Grande Valley, but only Richard Gephardt has come out for limits on foreign oil.

Maybe a tariff on foreign oil isn't the answer, but Texas voters deserve to be given considerably more than 30-second TV spots to boost someone's name ID. So far, the leadership of both parties has been winned, dined and promised. Who will talk to regular Texans about their economy?

Economy Issue Avoided

So far, the issue has been avoided, perhaps because all voting to date has been in cold-weather states. We're hotter.

Look for a down-poll candidate to tackle it next. Gephardt was down in the polls when he did, and he's now in first place in Texas, aided mostly by his big Iowa win. If the Democrats want to overtake him in Texas, they'd better talk about oil prices and the economy.

On the Republican side, Bush is comfy, but wait and see if Pat Robertson or Bob Dole takes the long-shot and deals with the subjects. Perhaps they'll jump in and claim they said it first.

976 telephone Calls

Public reaction was loud on whether to outlaw the notorious "976" phone numbers which include dial-a-porn.

A possible ban on all numbers was in the works, even those which give sports and weather information.

The pornography numbers are the target of the outcry.

The Public Utility Commission was advised by the attorney general's office the services should be by subscription only.

Thank you for reading The Haskell Free Press.

pendent stance, hoping candidates will address the price of Texas oil.

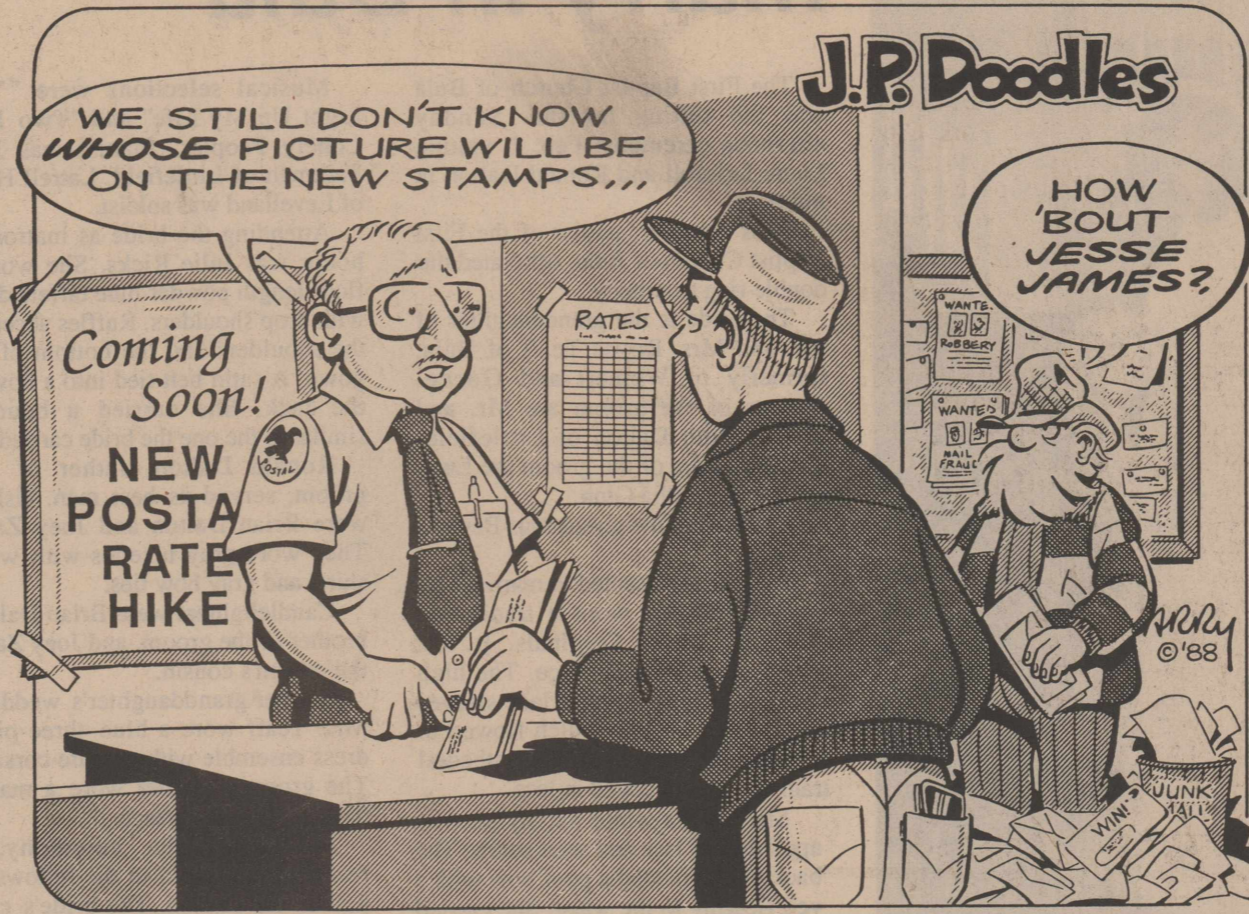

One popular thought is that limiting foreign oil imports would drive up the price of Texas oil, transfusing more dollars into the state. It's opposed by voters in cold weather states.

The candidates flocked to Dallas last week for another round of televised debates, and the television ads have started for some, like Sen. Albert Gore.

The man on the spot is Vice President George Bush. He's been calling himself a Texan, but he won the New Hampshire primary by telling those voters he's one of them.

One Tariff Proposal

Now Bush is coming to Texas, and frankly, all GOP bigwig support aside, most voters wonder if he'll remember Texas once he gets to the White House. And are the others any different?

Question: Can I get information on the Montgomery GI Bill from the local VA regional office?

Answer: Yes.

The Texas Gazette is a newsletter of the Texas Department of Agriculture. According to its masthead, it is published "bi-monthly."

A age 65, middle age ends and old age begins.

Who says so?

Your big brothers in Washington, back in the days of FDR's New Deal, arbitrarily set that as the age for determining who is eligible for federal old age benefits, including Social Security.

Things have changed quite a bit since 1935, but not the beginning of old age. Only about 5 percent of the population was 65 or over then; by 1984 it was 12 percent and growing.

In 1935, it was calculated that the last quarter of a person's life began at age 65. By the year 2030, the last quarter is expected to begin between 72 and 75.

If retirement remains at 65 and the Social Security program remains unchanged, experts predict that 60 percent of the federal budget will be spent on Social Security benefits by the time today's 13-year-olds are 65.

I hate to spend a 22-cent stamp, but this company which says I have a chance to be an instant millionaire says it has to know how I want my money: 1) Check, 2) deposited to my account, or 3) sent to my stock broker?

Top story in New Mexico while I was visiting there last week was of a Santa Fe courier.

He picked up \$750,000 in bets at the race track in Albuquerque, drove to his home in Santa Fe and then chartered a Lear jet for \$12,000 to Washington, D.C. He left \$189,000 in checks and coins in his truck.

But once in Washington, he got cold feet and turned himself in.

His bond was set at \$15,000, which he partially made by surrendering a \$10,000 Rolex watch.

Everyone's heard the remark that "it's a small town when you dial a wrong number and go ahead and talk 20 minutes anyway."

It actually happened to me the other night. I called a friend in Deming, N.M., and got a wrong number. But I talked a good 20 minutes to another old friend.

Editor: Taxes without representation is unconstitutional. We seem to have lost this convention. It is our God-given privilege to be free. Let's not lose it. Meet with our city and county governments and let your views be known.

As a veteran of World War II, I was asked if I thought we could win. I said we can't afford to lose.

'Orphan Train'

Editor: A search is underway for "Orphan Train" riders, especially those now living in Texas or who were brought to Texas.

Between 1854 and 1929, over 150,000 orphaned, abandoned and homeless children were taken out of the institutions of New York City and transported by trains to rural America. At stops along the way the children were lined up on railway station platforms, churches, schools and opera houses for local residents to look them over and perhaps choose a child to take into their homes.

Those not chosen were loaded back on the train, traveling to the next stop where the procedure was repeated.

Texas had received 1,527 of these children by 1910, according to a New York Children's Aid Society report. The number of infants brought by the Foundling Hospitals on "Baby Trains" is not known.

The United States Catholic charities also placed-out infants and children. Agents arranged in advance for families to accept the waifs when they arrived.

Federal child welfare reform laws were enacted in 1929. The "Orphan

Trains" were stopped forever.

The Orphan Train Heritage Society of America, Inc. (OTHSA) is a clearinghouse for information concerning the history of this era.

Your readers are invited to share any information they have about Orphan Train riders, or if they would like a free OTHSA newsletter, send an SASE to: OTHSA, Rt. 4, Box 565, Springdale, AR 72764. (Telephone 501-751-7830-electronic message receiver).

Box jelly

Unwary bathers seldom see Australia's box jelly before they bump into it--but they certainly feel it.

According to *International Wildlife* magazine, many victims initially mistake the jellyfish's sting for a shark bite. But they barely have time to get to the shore. The venom stops the heart--ping! Death can occur in as little as 30 seconds.

Oddly, for such a deadly animal, it is easily foiled. Lifeguards patrolling high-risk bathing areas wear pantyhose, which the Jellyfish's stingers can't penetrate.

Finnell stresses highways

State Rep. Charles Finnell participated in a public forum on the "Future of Transportation Into the 21st Century" in Lubbock last week.

The forum is one of six public hearings scheduled throughout Texas to assist the state's transportation needs and to develop plans for an efficient, expanded system to carry Texas into the next century.

Finnell emphasized the value of modern, convenient roadways to the growth and revitalization of the Texas economy.

The Lubbock forum is a part of a national effort sponsored by government officials, trade and industrial organizations and civic and transportation user groups with the purpose of developing a national transportation plan.

"Good roads make for a strong economy, so a well-planned transportation development program is vital to all Texas," said Finnell, ranking member of the House Committee on County Affairs.

Spinach offers alternative

If you cringe at having to pay a dollar or more for a small head of poor quality iceberg lettuce, march right on down the aisle of the produce section and pick up some fresh spinach for your salad.

"Consumers can find top quality spinach in the markets now," says food marketing expert Marilyn Haggard.

"Spinach often has a quality advantage over lettuce in late winter, but it's especially true this year due to an unusually small lettuce crop from California," she adds. "Spinach is coming fresh from the fields in the Winter Garden area of Texas and will be at its peak in flavor and supply through April."

BREAST CANCER DETECTION UNIT AVAILABLE TO AREA WOMEN

TUESDAY, MARCH 8, 1988

HASKELL, TEXAS

A Service of

HASKELL MEMORIAL HOSPITAL

CALL 864-2621 FOR APPOINTMENT

According to the American Cancer Society, one out of ten women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate.

A mammogram can detect a cancer this small, even before it can be felt.

Appointments may be made by calling 864-2621.

\$50.00

The American Cancer Society has established guidelines for a mammography in asymptomatic women. (Women who have no symptoms of disease). Those guidelines have been adopted by the American Academy of Family Physicians, American College of Obstetricians and Gynecologists, and The American College of Radiology. Those guidelines are:

I. 35-40 years of age - One baseline mammogram.

II. 40-50 years of age - A mammogram every 1-2 years depending on breast type and risk factor.

III. 50 years of age and over - An annual physical examination and annual mammogram.

IV. Asymptomatic women under 50 years of age with

significant high risk factors should be examined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

V. A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast pain.

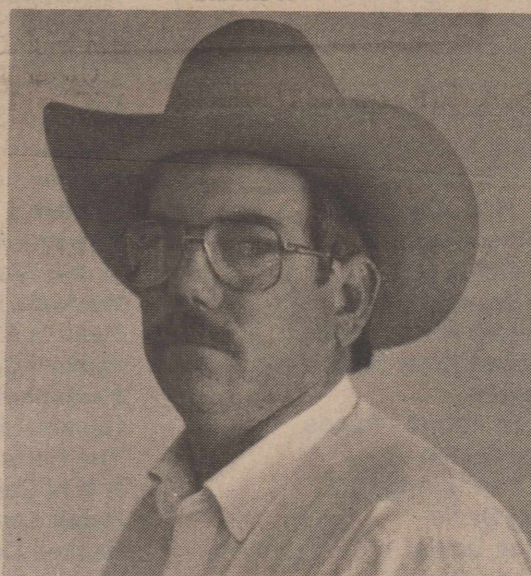

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$50.00. The Unit accepts cash, check, VISA, MasterCard and American Express.

For more information or to make an appointment call 864-2621.

--Weinert--

By Myrtle Phemister
These bright, sunny days are very welcome, a relief from the frigid winter we have endured. Many have started gardens, (to make the rest of us feel guilty) but we do need rain.

The sunshine does not diminish the dark cloud of sorrow surrounding us, as we report the death of one of our prized citizens, Ronnie Alexander.

Ronnie was only 38 years old, was making a successful gin manager, a good farmer, and had a very lovely family. If I were picking flowers for God's bouquet, I would have chosen Ronnie; he was so kind, thoughtful and good.

His death is a tremendous loss to our community. We extend sincere sympathy to his wife, Veda, their two children; his parents, Edward and Zella, and to all the other relatives who mourn his untimely passing.

He suffered a fatal heart attack on Friday, and was interred in the Weinert Cemetery on Sunday, Feb. 21st.

Those who attended memorial services for Ted Boykin, which were held in Nashville, Arkansas on Monday, February 15th, report he was given an inspiring memorial service and was laid to rest in a beautiful country cemetery not far from his home near Nashville, at the feet of tall, whispering pine trees.

Those making the trip were Dale and Doris Carroll, Ted and Faye Jetton, Helen Boykin, Marvin and Myrtle Phemister and Roy and Leta Phemister. Roy officiated at the funeral.

Edna's mailing address is Route 4, Box 73B, Nashville, Arkansas, 71852.

The Weinert Cemetery Association's newsletter is in the mail, thanks to the mailing committee. Those who helped were Brenda Sanders, Crystella Raynes, Lucile Adams, Myrtle Sanders and Myrtle Phemister. If anyone would like to be on the mailing list, please let us know.

R. S. and Betty Sanders were in Winters last week to attend a reception honoring her newly-wed nephew, Mr. and Mrs. Greg Black, son of Betty's sister, Mr. and Mrs. Jimmy Black.

The young couple were married recently in Hawaii, and none of the groom's family were able to attend the wedding ceremony.

The Sanders will be in Abilene on Wednesday, to be with Betty's mother, Mrs. Ras Gideon of Winters, as she undergoes extensive radiation treatment.

Ernest and Louise McGuire have been in Haskell for a few days as they sat with great-grandchildren Brooke and Brandon McGuire while Tommy

and Selina were enjoying a skiing vacation.

Becky Fry of Bowie came on Saturday to spend the weekend in her parents home, and for a visit with her grandchildren, Brandon and Brooke.

Ted and Faye Jetton had their twin daughters for a weekend visit, Jackie Frantz of Dallas and Jimmy Young of Holliday. Other guests were Faye's brother, Ben and Polly McMillen of San Angelo.

They all attended the 100th anniversary celebration of the Haskell Church of Christ, where they are former members. Marvin and Myrtle Phemister also attended the celebration.

The Weinert Church of Christ is the result of a mission effort of the Haskell church in 1939, when J. G. Malphurs was the Haskell minister.

Mr. and Mrs. Billy Alexander and daughter of Slaton, were in town for a visit with his mother, Pearl Alexander, and to attend memorial services for his cousin.

Bruce LaRogue and Laura of Odessa with their children Chad, Jessica and Paul were weekend guests of their grandmother, Francis Mahan and attended worship services with her on Sunday.

Len Mahan of Weatherford was also in town to spend some time with

his mother and Donald.

Debbie Hutchinson of Junction was home for the weekend, and brought a friend, Darla Ferguson, who teaches with Debbie in the Junction school.

Superintendent H. L. Guess has received word through the Annual Performance Report filed by the Texas Educational Agency that the Weinert school made the highest score of any school in the state on the recent TEAMS test the students took.

Representative Rick Perry was notified, because we are in his district, and he relayed his congratulations.

We also extend our congratulations to the students and to their teachers for this achievement.

Kelly Earp and Shannon Forehand are due congratulations for making the Dean's honor roll for the past semester at San Angelo State University.

Special congratulations to Thelma and Clifford Williamson, former Weinert residents, who will celebrate

a golden wedding anniversary on Sunday, Feb. 28th.

Our birthday song will honor Sherri Ejems, Mary Murphy and Doris Carroll. Happy Birthday!

Helen Boykin met her son, Doyle and wife Rita, of Texas City, in Abilene on Saturday and they all attended the annual "Sing-Song" event at ACU.

The Boykins' son, Michael, was one of the performers.

Space prevents the listing of all the relatives, friends, classmates and business associates who were in town for the memorial services held for Ronnie Alexander; but suffice it so say, it was the largest crowd assembled in Weinert since the last school reunion. Steve Peace and Roy Herricks officiated.

Our calendar of future events:
March 1st--Weinert Cemetery workday
March 1st--Home Extension Club day

March 3rd--Ila Moody's birthday.

--Obituaries--

Ronnie Alexander

Ronnie Alexander of Weinert died Friday afternoon at Haskell Memorial Hospital. He was 38.

Funeral services were Sunday afternoon at the First Baptist Church in Weinert with the Revs. Steve Peace and Roy Herricks officiating. Burial, under direction of Holden-McCauley Funeral Home, was in the Weinert Cemetery.

Pallbearers were Frank Dutton, David Earle, Charlie Rueffer, Kenneth Sanders, Pete Perez and Larry Bundrick.

A veteran of the U.S. Marine Corps, Alexander was born in Haskell Sept. 19, 1949. He was a member of the Weinert School Board and a member of the First Baptist Church of Weinert. He was married to Veta Margaret Parker in Munday on June 9, 1972.

He is survived by his wife; a daughter, Melissa Kay Alexander of Weinert; a son, Randall Edward Alexander of Weinert; his parents, Edward and Zella Mae Alexander of Weinert; and a sister, Edna Mae Haynes of Abilene.

Mozetta Elmore

Mozetta Feemster Elmore, 60, died Feb. 15 at her residence in O'Brien. Graveside services were Feb. 16 at

Knox City Cemetery with the Rev. Bill Trice officiating, directed by Smith Funeral Home.

Born in Vera, she was a homemaker and a member of the Baptist church.

Survivors include her husband, Burton Elmore of O'Brien; a daughter, Vonnie Beth Elmore of O'Brien; her mother, Ada Feemster of Knox City; a brother, Harwin Feemster of Oklahoma; and a sister-in-law, Dolly Feemster of Haskell.

Jesse Jones

The Rev. Jesse Jones died Tuesday (Feb. 16) at Rice Springs Care Home. He was 82.

Funeral services were Friday morning at Trinity Baptist Church with the Rev. Kenneth Blair officiating. Burial was in Willow Cemetery, under direction of Holden-McCauley Funeral Home.

Pallbearers were Royce Acuff, Raja Hassen, Loraine Johnson, Charles Swinson, Wallace Cox Jr., Wayne Waincott, Doyle High and Bobby Hobgood.

A retired Baptist minister and businessman, Jones was a prominent Haskell businessman for more than 50 years. He preached in Haskell and Rule, and had a radio program on the Stamford radio station for many years. He was a member of Trinity Baptist Church.

He was born in Haskell May 19, 1905. He was married to Annie Lena Curry in Abilene Dec. 25, 1925. She preceded him in death on Oct. 3, 1985.

Survivors include two daughters, Jessie Nesbitt of Dallas and Lelia Hix of Bowie; two sons, David Jones of Dallas and Chester Jones of Houston; two sisters, Vennie Lytle of Haskell and Lillian Townsend of Brownfield; 16 grandchildren and 12 great-grandchildren. A daughter, Mary Joe Price, preceded him in death in 1984.

Joe F. Kloiber

Services for Joe F. Kloiber, 82, of Littlefield were conducted Saturday morning in Littlefield's First Methodist Church.

He died Thursday (Feb. 18) in Methodist Hospital in Lubbock. He was a brother-in-law of Alma Merchant.

Officiating at the services was the Rev. Derrell Patterson, Methodist pastor.

Burial was in Littlefield Memorial Park with Hammons Funeral Home in charge of arrangements.

Kloiber was born July 5, 1904, in Salzburg, Austria, but grew up at Rhineland. He moved to Pep in 1929, then to Littlefield in 1934. He married Elsie Zahn Feb. 19, 1926.

He was a member of the Sons of Hermann Lodge. A retired farmer, he was a Methodist.

Surviving are his wife Elsie; two sons, Robert and Marvin Kloiber, both of Littlefield; a daughter, Mrs. Elsie Garland of Littlefield; a sister, Elizabeth Zahn of Portales, N.M.; five grandchildren and six great-grandchildren.

Brown issues statement

To the voters of Haskell County: I was born and reared in Haskell County. I attended Rochester Public Schools. I served approximately eight years in the U.S. Army. Since then, I have lived in Haskell County.

My wife and I have two sons and four grandchildren. I have farmed in this county, and have worked for about 12 years for the Rochester and Knox City, O'Brien Independent School Districts.

For the past three years I have been constable of precinct 5. I believe I have done my best to serve you according to the laws prescribed by the Texas lawmakers.

I am running for re-election for Haskell County Constable, and if re-elected I will continue to serve you to the best of my ability. Your vote is greatly appreciated.

Sincerely and respectfully,
Troy P. Brown

Love those eggs

There's nothing any Egyptian vulture would rather eat than an ostrich egg.

But cracking open the hard shell requires a bit of work.

According to *Ranger Rick* magazine, the vulture first picks up a stone with its beak. Then it hurls the stone at the egg. It may take two dozen direct hits, but the shell usually cracks, and the vulture gets its meal.

A special thanks to the Brownies and Girl Scouts who made and donated the Valentine trees to RSCH. They brightened our dining room tables and residents' hearts greatly.

Also a thanks to the ladies of East Side Baptist for the wonderful meal they prepared on Thursday.

The Christian Church brought a wonderful party on Friday the 12th. The theme of Valentine was shown through all the love shown. Our Valentine box was a success; it was running over by party time. Thanks to each that had a hand in this special holiday.

Visitors have included Mr. and Mrs. John Curry from Lubbock with Frankie Cloud; Beulah Ross with Myrtle Cobb and Nellie Ash; Sarah Hodge from O'Brien, Floy and Notchey Starr from Odessa; Jeffrey L. Sellers from Abilene with Alice Sellers Allen; John Neeley from Irving with Lucy Harrell; David and Carolyn Jones from Dallas with Jesse Jones.

Shelia Morrow from Haskell with Alice Allen; Johnny, Jeanna Miller from Pampa with John Earp; H. R. Klose from Stamford; Linda, Elizabeth, John Harris from Midland, Jane Grimsley and Alene Reeves from Dallas, Gilbert, Jana, Jeremy, Crystal

Hobby Club

The Rochester Hobby Club met Feb. 16 for a day of relaxation and quilting. Twelve members and nine guests enjoyed a covered-dish noon meal.

Due to illness and other obligations, several members could not be present. We are looking forward to spring in hopes that everyone will be feeling better and can be present for club meetings.

Virgie Brown and J. C. Yeary have February birthdays. Congratulations!

With delight, we welcome another new member, Myrtle Townsend.

Evelyn Rogers has finished the club's butterfly quilt top and now it is ready for the frames after Modelle Barton's antique "Improved Nine-Patch" is completed.

The club's next scheduled meeting is March 1 with Lois Yeary as hostess.

Visitors and new members are always welcome.

You are reading The Haskell Free Press and we thank you.

STATEMENT

BY Ozzie "Buddy" Jessy Tibbets Jr.
God and Country

People of Haskell County, I am issuing this statement to answer some of the questions I have been asked since I have announced my intentions of running for Commissioner of Precinct 1.

I have been cautioned by a few not to mix God and politics. The more I examined the reasons since I was told that, the more I realized that there are a lot of people that don't know, or have forgotten how the freedom and blessings of America began.

People, it is past time to remember not only the men and women who gave their lives that this nation might be free, but more important a time to remember the principles and ideas for which they gave their lives.

Our nation was born in the hearts of men and women who loved God, who trusted in Jesus Christ as the Divine Redeemer and Savior of the World and who came here for his glory and established a nation that was intended to advance the Christian faith and glorify God.

John Quincy Adams said, "The highest glory of the American Revolution was this: it connected in one indissoluble bond, the principles of civil governments with the principles of Christianity."

George Washington said: "True religion offers the government its surest support."

Today we have people who look upon religion as indeed a danger or a threat to government. This was not the attitude of the first President of this country or of the early founders of America.

Robert C. Winthrop said: "It may do for other countries, and other governments to talk about the state supporting religion. Here, under our own free institutions, it is Religion which must support the State." Indeed, Washington said that without God and Bible, it would be impossible to govern America.

Daniel Webster, when speaking at the bicentennial of the founding of Plymouth ended his address with: "Finally, let us not forget the religious character of our nation." These are just a few that had a part in the Christian movement and government in the heritage of America.

When Christians came to this country they possessed and subdued the land. They worshiped God, and his Son Jesus Christ as the Savior of the world, and acknowledged the scriptures to be the rule of their faith and practice. They introduced their religion into their families, their schools, and their colleges. They abstained from all ordinary business on the Lord's Day, and devoted it to religion. They built churches, erected school houses, and taught their children to read the Bible and to receive and obey it as the Word of God. They formed themselves as Christians into municipal and State organizations. They acknowledged God in their legislative assemblies. They prescribed oaths to be taken in God's name. They closed their courts under the public control, on the Lord's Day. They declared Christianity to be part of the common law of the land. In the process of time, thousands have come among us, who are not Christians.

The infidel demands that the government should be conducted on the principle that Christianity is false. The Atheist demands that it should be conducted on the principle that there is no God, and the positivist on the principle that men are not free agents.

No, this is a nation that was founded by men and women who embraced the Christian principles which made this nation great. In fact, the Civil liberty which we enjoy and the blessings of God on this country have come because of the Christian foundation of our land. All of the blessings that we have enjoyed have come from that foundation and that is why it is so dangerous and so pernicious is our time that there are those who are busy with their axes and hatchets chopping that foundation to pieces and trying to destroy it.

In the last 50 to 75 years there has been an increase of unbelief. The unbelief has gone by many names, whether it be called simply secularism, or humanism, or atheism, or marxism - whatever it may be called - it is always the same thing. It is that which is opposed to the belief in God and belief in his son, the Divine Redeemer, Jesus Christ. These people have been very active and they have been very diligent. They have spread their views and they have moved into positions of significance. They have virtually taken over the bureaucracy of our public school systems. They have moved into government and into the media. They are having an enormous influence on the minds of both young and old alike. But I believe that one of the great things we can do in our time is to try to restore America to the spiritual foundations that made it great. Without these foundations there is no hope for America.

What has our unbelief with it's denial of God, with it's rejection of the moral laws of God gotten us? Well, People, take a good look, we have drug culture, we have a plague of Aids and herpes running across this land. We have all types of diseases. We have rampant crime. We have teenage suicide. We have alcoholism on the rise. We have banks, businesses, merchants, oil companys, farmers, ranchers, & etc. that are going broke. The financial institutions of our government are unsound. People, billions and billions of dollars a year are spent in the United States on drugs, alcohol, and pornography filth, and people all over the United States are asking, "Why are we having all of these problems?" People, if America is going to continue to have a future, the only hope we have is to trust in God for his great wisdom in all things.

No, personal accomplishments, or serving on a lot of committees, or making promises, or excuses, or passing out a lot of cards with your name on it, or any other thing, is not going to get any of the things straightened out in our country, or any other place in the United States until people quit trying to satisfy their own lustful desires, and stand up in Faith before man and give God the Glory for all things.

People, before we vote for someone in our public elections it is the duty of every Christian in the United States to know the intentions of that individual and for what he stands for, before we vote for that individual, and, People, the only place you can get that answer is prayer from God.

People, if we do not do this, and if secularism and Godless unbelief continues to take over this country then the plagues of sin are going to fall more than ever upon this country. Our freedom will be ground under the heel of our own personal man made wants and desires and we will experience the various plagues that come upon the Godless. For blessed is the nation whose God is the Lord and cursed is the nation who turns it's back on the Lord.

People, I am running for Commissioner of Precinct 1, for simple reasons, to glorify the Holy name of God in our politics, and to encourage our people that we need to recommit ourselves to the American Covenant before it is late, and to continue to set an example that only through God's great wisdom and guidance can a man be a good steward over the government affairs and duties of our country.

People, if I am elected Commissioner of Precinct 1, I will stand up for the things that are right, and against the things that are wrong, and do my best to see that the money in our county budget is used in an efficient economical manner that will benefit our taxpayers and county, as well as try to keep our taxes down.

This may make some of you people upset when you read this statement, but before you get upset, you stop and take a long look at the kids, parents, grandparents, and the elderly, everybody has somebody they love, and ask yourselves, "just how much does the freedom and moral laws of God in our politics in this great land of freedom mean to you?" And what do you want to do about it?

People, you remember that the person you vote into a public office can only stand, so long, against the ungodly without God's people standing behind him.

So you see, People, it's going to take all of God's people to get our government affairs back under the protection of God, so we can once again enjoy the blessings of good health and prosperity in this Great Land of America.

Thank you
Ozzie "Buddy" Jessy Tibbets Jr.

Try strategies for saving

If you're like most Americans, your savings probably look pretty slim. In fact, last year American households saved only 3.9 percent of their disposable income--the worst for personal savings since World War II.

Saving, like spending, can be habit forming. So now may be a good time to get back in the saving habit.

Having adequate savings means you can dip into these funds for emergencies or big-ticket purchases rather than run up large credit card bills or installment payments. That's especially important now that there are fewer tax advantages to borrowing.

One method is to get money directly from your paycheck to your savings. Your employer may have a program that allows you to have a payroll deduction made directly into a savings account. Without having the money in hand, you will be less likely to spend it.

Many people have success "paying" their savings account each month, just as though they were paying a regular bill. By doing this regularly, they will always have set-aside savings.

Or try taking the balance in your checking account at the end of each pay period and transferring it to a savings when you deposit a new paycheck.

It may take some creativity and discipline to save from daily living expenses, but it can be done. Consider never spending the change you receive from purchases and putting it into savings.

If you buy something on sale, "pay" the difference between the sale price and regular price to your savings account. Or try saving the money you receive from coupon refunds. There are probably hundreds of small ways

to save that add up to lots of dollars over time.

Having a particular goal in mind is a big help in savings. Let's say, for example, that this year you spent \$1,000 for travel and gifts at Christmas. Rather than "financing" next year's holiday expenses on credit cards, and paying finance charges for several months while you pay off the bills, save that amount in advance.

Here are some strategies for saving \$1,000 in a year.

--Bank one percent of your monthly income the first month, two percent the second month, three percent the third month and so on up to 10 percent or until you reach your goal of \$1,000. Putting away the first one percent will probably be harder than putting away 10 percent later on.

--Give up \$76.41 per month in impulse credit card purchases. That money, plus the interest you save, will total \$1,000.

--Deposit \$18.30 each week in a savings account.

--Save the \$1,000 by shaving \$2.74 per day from your food budget.

Simply bringing a brown bag lunch and drinks from home, rather than eating out and buying drinks from a vending machine will save that much each day. But don't forget to bankroll the savings.

Phone cable being replaced

GTE Southwest has begun a project to replace underground cable from the Rule switching office to Sagerton, according to Jim Adams, GTE's local manager.

The 25-mile project, which began Feb. 12, will involve more than 3,159 man-hours and is scheduled to cost approximately \$189,619. The project will be completed in early June.

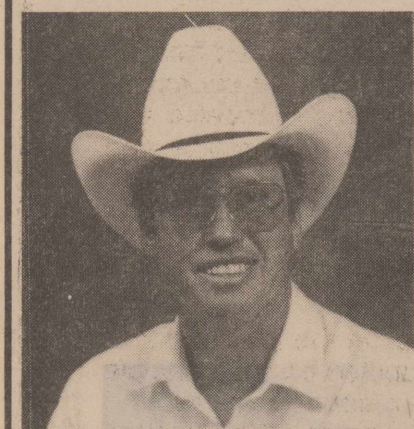

"The new cable will enhance service, provide for future growth, and enable customers to have private-line capabilities," Adams said. "GTE is proud to bring this service to our customers in this area."

Bird brains

Blue jays and other members of the crow family seem to display the greatest levels of intelligence in the bird world.

According to *National Wildlife* magazine, crows, ravens and nutcrackers are able to open and close latches and tie knots. Some captive birds have learned to count and to read clocks.

The birds also have good memories. Blue jays, for instance, can recall locations where they have stashed thousands of acorns.

Kitchen gadgets prevent poisoning

While you can spend hundreds of dollars on gourmet cookware, knives, food processors, pasta makers and other devices, the best investment you could make in kitchen equipment should cost under \$25.

That's the price tag food safety expert Marilyn Haggard puts on several simple kitchen tools that can help prevent food-borne illness.

"Most food-borne illness occurs when bacteria grow in inadequately cooled or heated food, or due to cross contamination from raw animal products," says the extension specialist.

To avoid these problems she recommends investing in an acrylic cutting board for raw meats; a meat thermometer to insure that meat is cooked to an internal temperature of 170 degrees and poultry to 180 degrees; an appliance thermometer to make sure the temperature of the refrigerator is 40 degrees or below; and a kitchen timer you can set to signal you when perishable foods have been at room temperature for two hours.

Choose cold cuts for nutrition

For better nutrition, you should take a closer look at the luncheon meats you select, advises Dr. Alice Hunt, a registered dietitian and nutrition specialist with the Texas A&M Extension Service.

"Luncheon meats vary widely in calories, calories from fat and sodium content," she explains. "Anyone trying to reduce fat or sodium intake should be aware of these differences."

For example, a single slice of bologna will contain about 90 calories and over 80 of those calories will be from fat. Fat also contributes about 77 percent of the 70 calories in a one-ounce slice of cotto salami.

By contrast, Hunt says a slice of "95 percent fat-free" smoked ham has about 8 calories from fat out of a total of about 23.

Likewise, a slice of turkey ham will contain about 35 calories, with only 36 percent from fat.

To the voters and taxpayers of Haskell County:

I am Sue Paterson, candidate for the office of County Commissioner, Precinct 1, Haskell County.

I am married to Nathan Patterson and have two sons, Jim and Terry Strickland. Jim graduated from Paint Creek High School and operated Strickland Road Construction in Brownfield. Terry graduated from Haskell High School, Dallas Institute of Mortuary Science, Panola Junior College and Baylor University. Terry is a State Farm Insurance agent in DeSoto. Nathan has a daughter, Dawn Ham of Lueders, and a son, Dale Patterson of Abilene. Dawn works at the Abilene Eye Institute and Dale is attending Hardin-Simmons University. We have three grandchildren, Jimmy and Christi Strickland and Tanna Ham.

My great-grandparents, W. I. and Sarah Hester, were one of the first families to settle in Haskell County. My grandparents, Mack and Avis (Hester) Thomason, settled in the Rochester-O'Brien area. Mack was commissioner in that area. I was born in Brownfield and Nathan was born and raised in Haskell County.

We have owned property in Haskell County since 1954 and paid taxes on this property. In 1970, I decided to move here and raise my two sons in Haskell. At that time, I purchased Blohm's Studio and after Nathan and I married we established Sue's Flowers, Gifts and Photography. Nathan owned and operated Patterson Welding and has since opened Patterson Sun Shield. The only farm land we own is in Gaines County, Texas.

When other girls were playing with dolls, I was building roads and operating a farm tractor for my father. My dad, Wilton Thomason of Thomason Road Construction, trained to operate a road grader when my grandfather was commissioner in Haskell County. I was raised around road construction and heavy equipment. My father and I flew to different construction jobs to inspect the work his employees were doing. I helped with the mechanics liens,

bidding and overseeing of the construction work. I also sold the D&T gravel spreaders that my father invented. They attached to the tailgate of dump trucks and spread the gravel. I have operated a maintainer and other equipment. I have also worked on the hydraulic systems and other repairs to a backhoe. Equipment and road construction is not foreign to me nor is the business aspect of the job.

Being one of the organizers and treasurer of Haskell County Taxpayers Association, I have been attending the Commissioners Court meetings each session since September 1987. We have brought up many issues that are vital to the lowering of our taxes. On Feb. 18, 1988, we filed a writ of Mandamus against the County to challenge Mr. Mattox. He set forth an opinion that tax roll-backs were illegal. The reason we didn't file sooner was because of financial problems. We filed this suit to benefit every taxpayer in Haskell County and the State of Texas. It also prevents us from having the right to petition taken away from us.

If we don't win this case the County can go up to \$1.25 per \$100.00 valuation. We have tried our best to prove the county and city do not need to raise taxes but do need to trim the budget and buy less expensive equipment. They felt that all the employees needed a raise so we are paying for it in increased taxes. By attending these meetings and filing suit, I feel we have accomplished a lot. We now have all county equipment marked with the name and precinct number.

I feel I am qualified to hold this position and will do my best if elected.

I am sorry I haven't visited with each of you but at the outset of my campaign, I was attacked by a large dog and have been under care of a doctor. Also, Precinct 1 has over half of the voters in Haskell County. There are 2,482 approximately in Precinct 1, 727 in Precinct 2, 520 in Precinct 3 and 712 in Precinct 4. We have requested the county look at this and re-district because it isn't fair to the taxpayers or to the voters. The law says it shall be one man---one vote.

I would appreciate your support and your vote.

Sue Patterson

Did you know?

There are about 20 million more men in the world than there are women.

Sugar alone does not cause tooth decay. Scientists note preventive measures, such as water fluoridation, fluoride treatments and good oral hygiene appear to be working, as the incidence of tooth decay has declined dramatically in the U.S. in recent years.

Paint Creek Boy Scouts have camp out

Paint Creek Boy Scout Troop 148 camped out two nights over the weekend at George Dickey's ranch south of Woodson.

After being led into the campsite by a large flock of turkeys, the boys set up camp and prepared for a sub-freezing night. Saturday, the troop fished and roamed the ranch, finding an armadillo, deer carcass and flocks of red birds. Later, the troop made some plaster casts of wildlife, made some rope and practiced on knots. The troop canoe set a new record of only flipping over once during their stay.

Saturday night, the troop had a campfire and apple cobbler and shared their favorite stories. One overfriendly skunk took this opportunity to move into the Cobra Patrol's tent, but after rummaging through the occupants' bedrolls and dirty clothes, obviously thought that they smelled worse than he and left.

The troop is presently preparing for the Spring Camporee to be held in March in Hamlin and the Scout Show to be held in April in Haskell.

Scouts attending were Hans Overton, Geovanny Mayen, Wesley Cockerell, Marcus Overton, Rodney Tsoodle, Shawn Barbour, Mark Green and Mathew Morton and leaders, Wallar Overton and Stanley Morton.

Scouts attend first aid meet

Two patrols from Boy Scout Troop 136 attended the annual Chisholm Trail Council First Aid meet held Feb. 13 in the Mall of Abilene.

Scouts went through 10 first aid problems from compound fractures to snake bites.

Wolf Patrol members Jimmy Johnston, Stacey Martin, Truett Sandefer, Jeremy Address, Mark Torres, Cody Josselet and Shawn Sanford finished in seventh place. Buffalo Patrol members Matt Perry, Matthew McFadden, Jonathon Tatum, Kenneth Billington, Brian Brzozowski, Jason Torres and Blake Henshaw finished in 13th place.

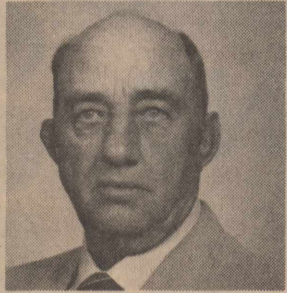

After the first aid meet the Scouts went to a movie and then attended a truck pull where Big Foot was the main attraction.

Ask VA

Q: I selected an endowment at age 65 on my National Service Life Insurance in April 1966. I will turn 65 years of age in January 1988. When can I expect the proceeds of the matured endowment policy?

A: You will receive payment in April 1988, the first anniversary date of your policy after your 65th birthday.

Chamber banquet March 19

The annual banquet of the Haskell Chamber of Commerce will be Saturday, March 19, in the Civic Center.

The program will feature a slide series showing the involvement of local organizations, churches, schools and service clubs in the Beautify Haskell effort. Chairman Bobby Hobgood will narrate.

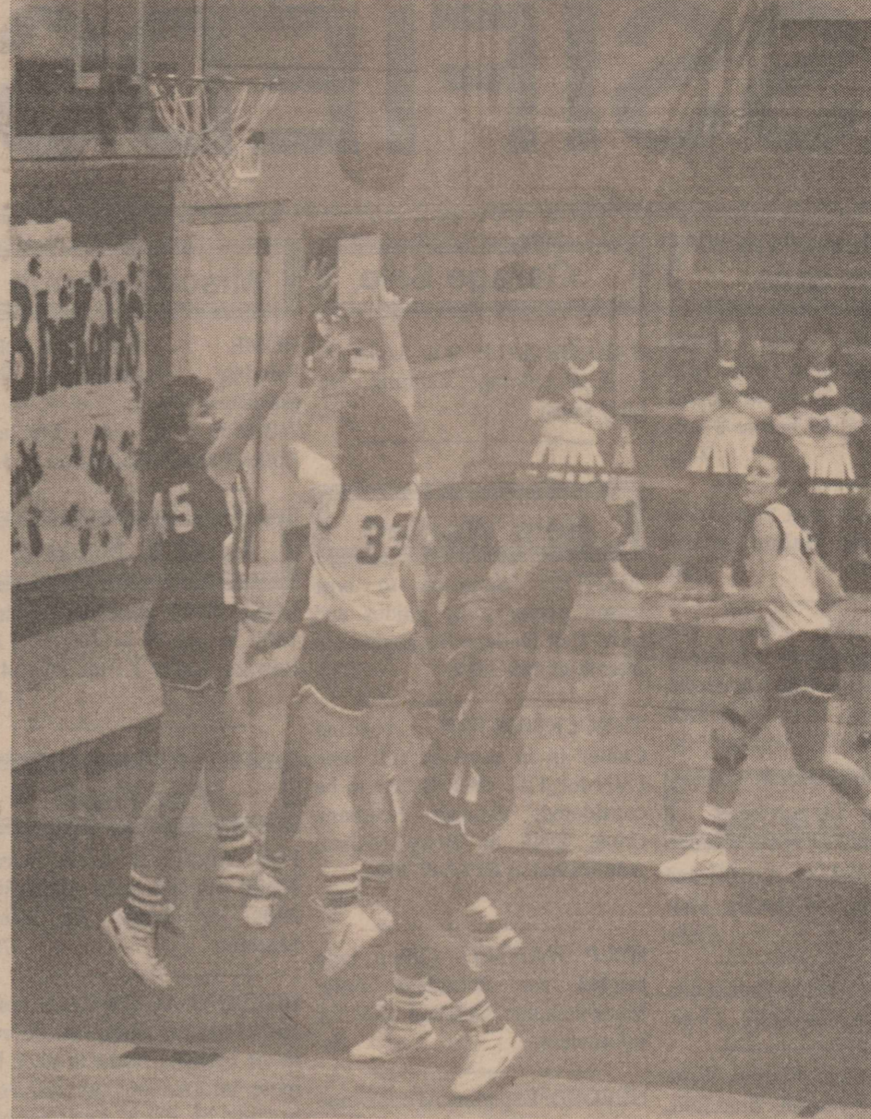

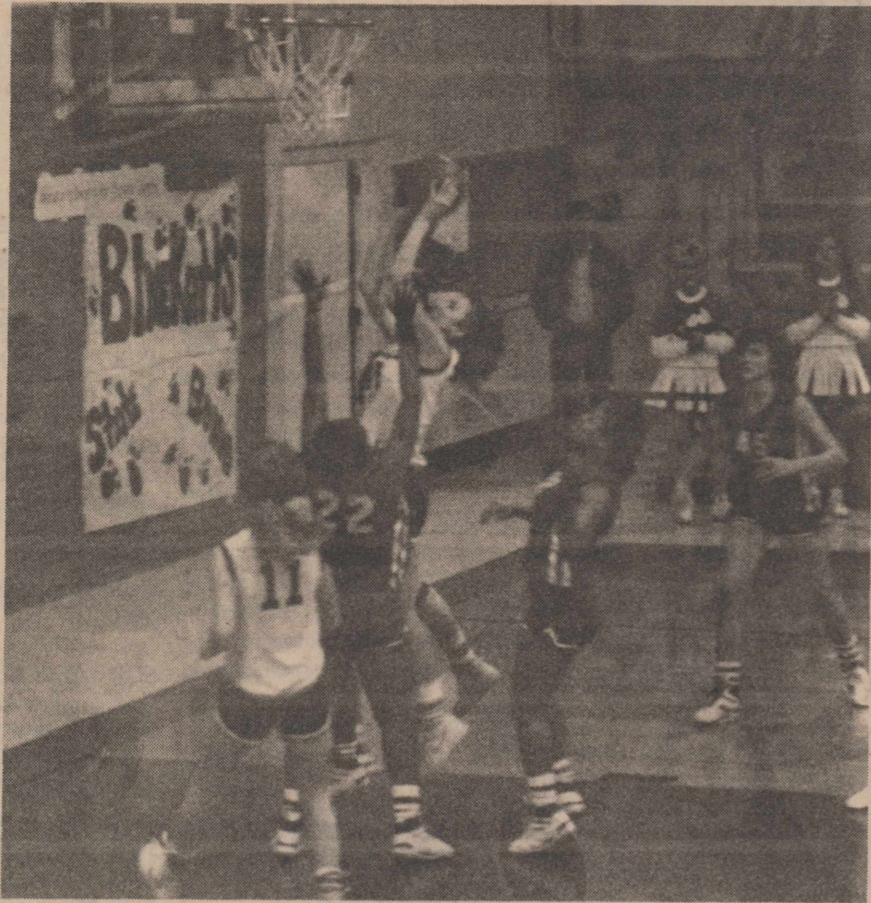

New officers and board members of the Chamber will be presented. Members of the nominating committee are Buddy Lane, chairman, Abe Turner, Carolyn Reynolds and Conrad Roewe.

Traditionally, a special table is reserved for all past Chamber presidents and their guests to honor them for their past leadership and continuing support.

Another highlight is the presentation of the person chosen as Haskell's most outstanding citizen.

Dinner tickets are \$7.50 and will be available March 1

Frontier Days set May 12-14

Haskell's annual Frontier Days celebration will be May 12-14 and will feature a rodeo, parade and a dance to be sponsored by the Haskell Horse Club. Jerry Briscoe is president of the club.

Festivities will begin with at 5:30 p.m. Thursday, May 12, with a parade featuring horse clubs, floats, various vehicles, clowns, bands, ball teams, Scouts, etc. Those wishing to enter may call Charles Thornhill (864-2686) or Buddy Lane (864-2629) for information.

The open rodeo will start at 7:30 p.m. nightly at the arena on the fairgrounds and will include bull riding, saddle bronc riding, bareback riding, barrell racing, calf roping, team roping and junior barrell racing. Books open May 11, from 7 a.m. to 6 p.m., and will be open only one day.

Also on the fairgrounds all three nights at the Corral Building, there will be dance, featuring the music of the Willow Creek Band.

Ants in plants

Some plants actually play landlord, housing ants in their leaves. The bullhorn acacia, for instance, has leaves with hollow spines that look like bulls' horns.

According to *International Wildlife* magazine, fierce stinging ants cut entrance holes into the horns and eat the sweet-tasting pith inside. The ants then have an ideal home, and the plant has a legion of well-fed protectors.

Smooth and sleek Lepen by Marvy. We have them in lots of stationery colors! Haskell Free Press.

Mockingbird

If that mockingbird won't sing...chances are he'll be without a mate.

According to *National Wildlife* magazine, unmated male mockingbirds sing to attract the attention of females. And since there are more males than females, competition is tough.

One study at the University of Miami found that single males sang louder and more often than mated males. Despite all the singing going on, 20 to 30 percent of the mails fail to mate in any given year.
