# City calls hearing to discuss project

The City Council has called a public hearing for Tuesday (Sept. 13) to discuss street improvements in the southeast part of town. The meeting will be at 7 p.m. in the City Council chambers at City Hall. A second public hearing will be scheduled at a

Citizen input is required for the City to receive a grant for a street project in that area. A grant request of \$300,000 maximum is being considered by the City. The funds, coming from the federal government, are administered by the State Department of Commerce.

City administrator Robert Baker has been instructed to make a door-todoor survey to ascertain the number of low and moderate income families in the affected area. Federal funds are

available only if at least 61 percent of the families fall in the low and moderate income category. (Family size is considered in defining a low or moderate income family. A family of four, for instance, is considered a moderate income family if annual income is below \$18,000.)

Meanwhile, the City is proceeding with a paving project in the southwest part of the city for which a grant already has been approved. Engineers are now making surveys and getting specifications ready for

Baker said he expected the project to go to bid in October; in which case some of the curbing may be done this year. Paving should start in May of

# Think twice as you walk down aisle

The American Heart Assocition wants you to think twice as you walk down the aisle---the grocery store

From Sept. 11 through Sept. 17, Modern Way and M System will participate in the American Heart's Food Festival. Volunteers will be at Modern Way Wednesday, Sept. 14 from 5:30 to 7:30 and at M System Thursday, Sept. 15 from 5:30 to 7:30 to provide grocery shoppers with heart-healthy information, including recipes and diets.

The American Heart Association's guidelines for wise eating patterns emphasize weight control; a limited intake of cholesterol, saturated fats. refined sugar and sodium; and the assurance that the diet includes a variety of foods.

An obvious place to begin to integrate these guidelines into a person's lifestyle is at the grocery store---the place where Americans make the majority of their decisions on food selections. The event will provide consumers with information on how to improve their diets, yet enjoy a full assortment of delicious foods.

"The week-long event is aimed at increasing nutrition awareness," said Janet Thane, event chairman. "While a consumer will probably not make any major dietary pattern changes in just one week, we hope that through this event people will become aware of the role diet plays in their overall

# Hospital board says tax increase necessary

Hospital board members laid it on the line last Thursday night: "The Haskell Memorial Hospital cannot operate without a substantial tax increase.'

Seven taxpayers showed up at the public hearing on the proposed 42.16percent tax increase (about 9 cents), but the board was firm in its contention that another \$200,000 in tax revenue is necessary for the hospital to continue operation.

Main culprit in the hospital's fiscal dilemma is Medicare, the board maintains. With 64 percent of the institution's patient load comprised of Medicare patients, and with Medicare insurance sometimes paying only a fraction of the hospital charges, the board said it is imperative that tax revenue be used to take up the slack.

Board president Wayne Peiser read off a series of hospital charges and Medicare reimbursements as illustrations, one of them being a \$1,700 Medicare payment for hospital charges of \$16,000.

And there is no way the hospital can collect the difference, the board said. The hospital cannot bill the patient for the difference or file claim with a co-insurer as it must accept the Medicare payment (and the patient's \$540 deductible) as full payment for the hospital charges.

The proposed hospital budget for 1988-89 calls for expenditures of \$1,330,475. On the revenue side, the hospital projects income from patient service to bring in \$686,475, leaving \$644,000 to be raised through taxes if the budget is to be met.

Asked by Tommy Foster of Rule if there could be some way the hospital could get by on a 10-percent tax increase, the board said it had cut everything out of the budget except the necessities, including 10 employees, leaving the hospital with the bare minimum to meet Medicare certification requirements.

The board did say that the proposed budget allows for modest salary increases for hospital employees, most of whom have not had raises in

Asked about the operation of the Hospital Clinic which opened last summer, the board said the clinic is not only paying its own way but is helping the hospital's income situation. Since its second month of operation, Dr. Bill McSmith's monthly income guarantee has been met without help from the hospital district. Bud Comedy, hospital

## Stenholm Funday to be Saturday

Haskell friends of Congressman Charles Stenholm will join others from the area at the 10th annual FUNDay Saturday at the Ericksdahl picnic grounds east of Stamford.

Tickets to the picnic are priced at \$10, the same as in previous years. Activities begin at 4:30 p.m. and continue until 8.

Three other congressmen will be on hand to participate in the event. They include Jake Pickle of Austin, W. J. "Billy" Tauzin of Louisiana and Roy Rowland of Georgia.

administrator, said that the extra lab business the hospital has received from the new clinic has been a substantial plus for the hospital.

Louis Wilson inquired if the tax rate is subject to a rollback election if enough names could be obtained on a petition requesting one, or if the board would be protected as "the county commissioners are.'

Board members Harlan Weinert and Weldon Norman replied that they would take no offense to a rollback election, but each expressed doubt that the hospital could continue in business if taxes are rolled back.

Foster dismissed a rollback election as a devisive measure.

# Haskell-Seymour game this Friday

The Haskell Indians renew an old rivalry with the Seymour Panthers in Seymour Friday night.

Both teams are coming off narrow defeats in last week's opening games. The Indians lost, 12-7, to Munday, while the Panthers were beaten by Knox City, 14-7.

Haskell coach Nelson Coulter expects a stiff battle from the Panthers. He calls Seymour a good team which had two touchdowns called back last week. In running back Beamon, Coulter said Seymour has an outstanding player who can do everything.

The coach was not too disappointed in Haskell's loss to Munday. "We played pretty well,"

Coulter said. "We just couldn't get the ball in the end zone when we had the opportunities.'

He gave plenty of credit to the Munday defense. "They're a better team than they were last year," said Coulter, "especially on defense."

The Indians' defensive play also was complimented by Coulter. He singled out his linebackers, Paul Harvey, Rodney Johnson and Fred Shaw, for playing outstanding games.

Offensively, the Indians were led by Derrick Billington, who rushed for 99 yards on 20 carries. That, along with Chan Guess' three pass completions for 87 yards, pretty well accounted for Haskell's offense.

and soloist was Lori Hill.

Given in marriage by her father and mother, the bride wore a traditional dress of taffeta, designed by Tina Michele. The basque waist was finished with a deep V neckline and was fashioned with deep folds of taffeta which outlined the neck and continued across the front to the waistline. Large, hand-rolled taffeta roses accented the neckline and large puff sleeves.

The satin sash held to the waist line with a white rose which swings down the side. The full skirt swept to a cathedral train. Her tiara-bandeau covered with white satin roses held the two-tiered finger tip veil of illusion, finished with rolled hems and bordered with scrolls of silk floss. She carried a bouquet of baby peach carnations, white roses, baby's breath and ivy leaves.

Maid of honor was Emily Thornhill of Snyder, sister of the bride. Bridesmaids were Laure Grussendorf of Abilene and Lorie Alvarez of Snyder. The attendants wore strapless, tea-length black taffeta skirts with peach bodices, covered with black lace. Each carried two peach roses with black and white ribbon.

Best man was Rusty Hutcherson of Abilene and groomsmen were Chad Kan and Britt Lindsey, also of Abilene. Chris Heard and David Goodner, brother and cousin of the groom, were ushers.

After a wedding trip to Granbury, the couple is living in Abilene.

To Our Friends and neighbors:

It is difficult to find adequate words to convey our appreciation to you who have sustained us through our vigil with such loyal care and loving consideration. You have shouldered Raymond's workload in maintaining the land, crops and cattle-you have tended our home and eased our burden in every possible way. By your cards, letters, flowers, food and visits both at home and in the hospital, you have demonstrated your love and concern for us and though we can never fully repay, we will always remember. For the prayers offered by so many in so many places, we know they helped Raymond and his family. Our sense of this community as a family is overwhelming and reassuring.

Thank you and God Bless You

# Tiger Clubs move up to Cub Scouts

In exercises held at the city partk, 17 Tiger Cubs graduated into Cub Scouts

Each Tiger Cub was presented a certificate by Mrs. Pat Mickler, Tiger Cub coordinator, and then he walked across the bridge with his parent or guardian and was welcomed into Cub Scouting by Scoutmaster Jim Bob Mickler.

Those graduating were Alex Abila, Eric Andersen, Ethan Brown, Randall Cass, Lee Christian, Erik Everett, Marcus Fernandez and Jason Hobgood.

Completing the list were Wesley LeFevre, Joseph Phemister, Henry Rogers, Jake Roysdon, Joshua Roysdon, Ricky Paul Santellana, Martin Silvas, Cody Stone and Brent Toliver.

Mrs. Melodee Christian and Mrs. Sharon LeFevre were Tiger Cub leaders for the group.

Following the ceremony, homemake ice cream was served.

The next special project for Pack 136 will be a School Night Rally at 7 p.m. Sept. 20 at the Haskell Elementary School.

The purpose is to recruit new members.

"We want boys in first through fifth grades in Haskell, Paint Creek and Weinert to bring their parents and be our guests," Scoutmaster Mickler

This fall marks the beginning of 53 years of scouting in Haskell. "We want all boys to experience the thrills and challenges of scouting," Mickler

He also explained the pack needs interested adult male or female den leaders, and the rally would be a good time for them to sign up.

# **BREAST CANCER DETECTION UNIT** AVAILABLE TO AREA WOMEN

FRIDAY, SEPTEMBER 23, 1988 SATURDAY, SEPTEMBER 24, 1988

HASKELL, TEXAS

A Service of

COUNTY HEALTH FAIR

According to the American Cancer Society, one out of ten women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate.

A mammogram can detect a cancer this small, even before it can be felt.

Appointments may be made by calling 864-2546.

The Mobile Breast Cancer Detection Unit will be in Haskell on Friday & Saturday at the Fair.

The American Cancer Society has established guidelines for a mammography in asymptomatic women. (Women who have no symptoms of disease). Those guidelines have been adopted by the American Academy of Family Physicians, American College of Obstetricians and Gynecologists, and The American College of Radiology. Those guidelines are:

1. 35-40 years of age - One baseline mammogram.

II. 40-50 years of age - A mammogram every 1-2 years depending on breast type and risk

III. 50 years of age and over -An annual physical examination and annual mammogram.

IV. Asymptomatic women under 50 years of age with

significant high risk factors should be examined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

V. A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental xrays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$50.00. The Unit accepts cash, check, VISA, MasterCard and American Express.

# Commentary

# -- Letters to the Editor --

Editor: I feel compelled once again to pass along information that is of utmost importance to the Haskell Memorial Hospital District, yet little known generally. A recent tax increase has been announced by the hospital board in order to survive, not just remain status quo. Why?

In the past several years, Medicare (Federal Government) has become more devious and stingy in their efforts to eliminate rural health care and their providers. Cast any doubt aside that this is their long term goal. Rid yourself of any naivete' that the "government" cares for you in rural America and would not do this. No longer complacently assure yourself that you are important despite your rural location. You are in an extreme minority in rural America and financially you are a governmental burden; therefore, on the top of the expendable list and your and my wants and needs are of ever decreasing importance. Believe this! Now we can examine our present state at Haskell Memorial Hospital District--increasing demands, decreasing pay.

Our hospital does not deal with requests from the Federal Government (Medicare). We are commanded and demanded. We have no input into what is demanded of us. We comply, or we are not. Medicare is "all powerful" and I can only compare them to the Internal Revenue Service to give you an idea of the degree of power and un-touchability they have attained. Our "demands" are changed frequently and at their whim. "Demands" can be made to cover months and even years before they even were in existence and the hospital is held responsible for services provided when the "demands" did not even exist. If we did not meet these demands, then we are penalized. This is usually financially. Money that was paid and accounted for months and years before has been demanded within 10 days by Health Care Financing Administration (Medicare). If not paid within this time frame, interest is charged and penalties are applied. No consideration whatsoever is given to any hardship this may cause our hospital and no leeway is available. It is "demanded". At the same time money owed us can sit for weeks and months and we can only sit quietly like a dog and beg. No interest is paid, of course.

All Medicare hospitals (all hospitals) are paid now by DRGs (Diagnosis Relation Groups). If you have a heart attack, Medicare will pay \$2,500, examples, not exact figures, and they pay no more, no less. That is, of course, unless you have your heart attack in Dallas. The city hospital is paid \$6,500 for this illness. The same is true of every other illness. Rural health care facilities and providers (including doctors) are paid significantly less for their efforts and care.

As I pointed out in a previous

letter, my clinic supplies increased \$26,000 in one year. Medications often cost more in rural health care facilities because we can't afford to buy the bulk quantities and get cost breaks tht city hospitals can. It has always been an interesting phenomenon to me that to get cheaper prices, Wal Mart, K-Mart etc. buy in bulk quantities and get cost breaks. In medicine this is somehow supposed to work the opposite. The government (Medicare) obviously believes if you want cheaper care, you should go to rural health care facilities because that is how they pay. On the other hand, they have consistantly made decisions that are generally choking our rural health care facilities to death. This makes usual bureaucratic sense, doesn't it?

A recent case in Haskell Memorial Hospital had an extremely ill elderly lady who required an extensive stay in our hospital. Had she been sent home or to a facility that could not care for her, the provider (doctor) would be quickly taken to task and possibly removed from the Medicare (government) program. At least, he would have had lawyer's expenses and untold aggravation and loss of time dealing with the Texas Medical

Foundation. This group is Medicare's watchdog to be sure doctors meet "demands" placed on them. As a result of this hospitalization, a bill of \$17,000 was accumulated. Of this, Medicare paid Haskell Memorial Hospital \$1,700 total! That is \$15,300 that you and I eat. Another recent case was \$7,500 for an elderly patient for which we were paid nothing. It was decided by Medicare that she did not need to be

in the hospital at all. We will all eat that one together, too. These are real figures. I could easily provide you with 20 or 30 more if you would like, but I think you can see a pattern

A recent patient of mine had been hospitalized for several days and his problem was brought under control. He was informed that he no longer required hospital care and could go home. His family asked if he could stay in our hospital a few days more while they made special arrangements. I informed them that it was fine with me, but Medicare would refuse to pay once the patient was well enough to go home, and they would be responsible for the extra days. This was agreeable with the family and I thought it was settled. I was shortly informed that Medicare has a new "demand". If the patient wants to stay after I feel that he can be dismissed, he has three days of "free" care. Medicare refuses to pay; the hospital is not allowed to bill the patient; and private insurance does not pay if Medicare doesn't. You and I eat another one.

If you are beginning to get the idea that the cards are stacked against the hospital, good for you. Your naivete' is thinning with enlightenment.

If you think this can be demoralizing and disheartening to a staff who are already doing overtime and often several jobs to keep a rural health care facility open, you are

If you think the situation looks extremely dark and forbidding unless a change comes soon in how Medicare (your government) deals with us, you are beginning to see through the eyes of those of us directly involved with dealing with Medicare.

If you have any ideas on how to keep a hospital open that has 60-70 percent of its admissions comprised of Medicare patients, (the majority of you reading this), we would love to

At present, our hospital staff is already stretched as thin as possible and still give quality care. There have been no pay raises in four years and no bonuses for over two years. Employees have already been lost to higher paying facilities. It would appear to me a tax increase is not only inevitable, but is a dire necessity if our rural health care facility is to

Editor: On behalf of the Junior Class we would like to thank the merchants, individuals, and High School classes for purchasing Haskell Indian Flags. The purpose of the flags is to support the Haskell Indian Football Team, and for raising funds for the Junior-Senior banquet at the end of the year. Flags are still available through Mrs. Drinnon, or Mrs. Bartley as class sponsors, or any of the class officers.

Also class officers were elected on the first day of school. To lead the Junior class this year will be Missy Davis as president, Kyle Darden as vice-president, Julie Nanny as secretary-treasurer, and Holly Reed as reporter. Discussed at the meeting were the various projects throughout the year that will raise funds for the Junior-Senior banquet.

Voters in Haskell, Rule, Munday and Goree overwhelmingly approved a \$4,800,000 bond issue for the North Central Texas Municipal Water Authority Saturday, and in a companion election gave similar approval to water contracts between each town and the Authority.

The Haskell Indians showed surprising strength in the line and took advantage of Jacksboro fumbles to overrun the Jacksboro Tigers, 21-0, in that city Friday night in the season opener for both teams.

Central Ward School will be dismissed for three weeks, beginning Sept. 15. The three-week school holiday will be for the purpose of permitting students to assist in the cotton harvest and is an annual custom for the colored school.

Wayne Ammons is president of the Haskell Future Farmers of America. Other officers are Jim Bob Williams, vice president; Tommy Matthews, secretary: Glen Kreger, treasurer; Donnie Hodgin, reporter; and Mike Alsabrook, sentinel.

The O'Brien public schools began the new term Monday with an unusually large enrollment for the first week, and with classes being held in temporary quarters pending completion of a new building. Supt. Elvin T. Mathis reported 145 enrolled in grade school and 31 in high school on opening day.

Paint Creek school opened Aug. 25 with 104 pupils enrolled in grade school and 40 in high school.

Janet Hannsz of Rule was selected as one of the four disrict winners in the 4-H District Dress Review held in Wichita Falls Saturday.

The Sagerton Eagles will play sixman football again this year in grade school competition. They were district champions last year. They are coached by Miss Irene Stewart.

# TV film to depict smut war

An anti-pornography television special, "A Winnable War," will be shown Monday, Sept. 12 on KTAB-TV in Abilene. It will start at 7 p.m.

The showing is under the sponsorship of Focus on the Family, a ministry of which Dr. James C. Dobson is president.

Dr. Dobson said that after 14 months on the Attorney General's Commission on Pornography, he became convinced that obscene material is devastating American and Canadian families. Focus on the Family produced the film featuring Dobson's comments on the fight against obscenity: Why pornography is addictive, how it affects homes and what can be done to stop it.

"Winnable War" has been viewed by thousands of people in churches and civic groups across the nation. It is now being brought to telelvision in the hope that millions more will have the opportunity to see it and get involved in the campaign.

Focus on the Family is a nonprofit Christian organization whose only reason for existence is to contribute the stability of the family in the society. Dr. Dobson is a licensed psychologist and is author of many well-known books, including 'The Strong-Willed Child," "Love Must Be Tough" and "Parenting Is Not for Cowards." He has produced two film series, "Focus on the Family" and "Turn Your Heart Toward Home."

What product or service has increased most in cost since World

I don't know, but I have noticed a couple of candidates lately:

·A shoe shine at the Lubbock airport costs \$3 (that's a 30-fold

·A scale in a shopping center in Bryan where it costs 25 cents to find out how much you weigh (25-fold Gasoline, as high as we think it is

today, is only about five times what it was after the war. That's quite a bit less than the increase for first-class postage, 3 cents to 25 cents. (Post cards, of course, have gone up from a penny to 15 cents, but does anyone use postcards anymore?)

There still are a lot of bargains around, if you consider what they cost now compared to 40 or so years ago, we are told. But I don't think of any right now.

What is this thing they're calling the "Quayle Factor"?

I didn't make a survey, but if I did I'm sure I would find: Everyone who was for Bush in the first place is still for Bush, and everyone who was for Dukakis from the beginning is still for Dukakis.

Voters don't base their presidential choices on vice presidential

Seymour has known how to "Just Say No" for a long time.

The voters there turned down several proposed bond issues to build a state-mandated new school before finally passing one a few months

Back in 1958 when voters of Haskell, Rule, Munday and Goree gave overwhelming support for the \$4.8 million bond issue for the North Central Texas Municipal Water Authority, Seymour voters refused to go along.

While the issue carried 493-115 in Haskell, 102-61 in Rule, 214-31 in Munday and 62-26 in Goree, it went down to a whopping 48-453 defeat in

President Reagan has made much of the fact that government-mandated paperwork has been reduced greatly during his administration.

Hate to tell you this Ronnie, but the savings has been eclipsed many times over by the high-speed computer printers and photocopiers which have drowned offices in invoices, reports and multi-page, multi-copy memos.

Once-held dreams of a paperless office are not even dreams anymore.

Every year, there are about half as many divorces as marriages in Texas, according to the Texas Department of Health's Bureau of Vital Statistics. And Leland Carmichael,

statistician for the bureau, said the ratio of divorces to marriages has been nearly constant for several years. In 1987, 188,315 marriages were

performed and 95,098 marriages were dissolved in Texas, according to Carmichael. The previous year, there were 194,777 marriages and 98,405 divorces in the state.

The most numerous age group of people getting married was 20-24 for both males and females (54,414 men and 55,926 women). Divorces were more common in the 25- through 29year-old group, where 20,413 men and 21,793 women were divorced in The largest number of divorces

occurred during the first five years of marriage (38,578). Some marriages were particularly short-lived since 5,703 divorces ended marriages of less than one year.

In the very young age group, 33 males and 713 females ages 15 or younger were married. But divorces for them were not common in 1987. No males and only seven females, age 15 or younger were divorced last year.

While 3,419 men and 1,830 women age 65 or older were married, 1,588 men and 869 women in the age group were divorced.

Nearly half (49.4 percent), or 46,993 of the 1987 divorces involved no children. And 24.4 percent (23,182) involved just one child. The total number of children involved in divorces last year was 83,569.

As would be expected, the largest counties recorded some of the largest numbers of marriages and divorces, with Harris County leading in both categories.

### TAX **PLANNING**

Written By Gerald Rodgers, CPA

THE "KIDDIE TAX" (How to Reduce or Avoid It)

The Tax Reform Act of 1986 has made it harder for parents to shift incomeproducing assets to their children in order to take advantage of the child's

In its simplest form, the "Kiddie Tax" taxes the net unearned income (e.g. interest, dividends, rents) of children under 14 at their parents' tax rate. It reduces the child's standard deduction to the greater of \$500 or earned income (up to \$3,000). The "Kiddie Tax" doesn't take effect until the child's unearned income passes \$1,000.

Some suggestions to help you reduce the impact of the kiddie tax:

1. Purchase tax-free instruments like municipal bonds for children. 2. Give children assets with inherent tax-deferral features such as Series

EE bonds or annuities. 3. Give children low-income, high-growth stocks and bonds or real

estate parcels with appreciation potential that can be sold after the child turns

Parents who own a business have additional options:

1. Hire the children as employees in the firm to shift family income to the child's lower tax rate as earned income.

2. Give the child money to purchase business equipment. The child can lease the equipment to the family firm, offsetting the rental income against depreciation while the parent takes lease deductions. The equipment can be

sold after the child turns 14. Business owners need to keep in mind that these transactions must have a legitimate business purpose and be arms-length transactions in order to be

There are still important reasons to shift assets to children, such as estate planning and college savings. The "kiddie tax" may be of less significance in

August rainfall of 1.10 inches left Haskell nearly 25 percent below normal for the first eight months of the year.

Sam Herren, weather recorder, said the 1.10 inches brought the first eight months' total to 12.89 inches, compared to a normal of 16.05. The normal for August is 2.77 inches, Herren said.

Temperatures during the month ranged from 62 degrees Aug. to 105 degrees Aug. 9.

# Rainfall here below normal WTU files request for rate increase

West Texas Utilities Co. has asked for permission to increase fuel factors effective on January bills.

In the request filed Sept. 1 with the Public Utility Commission, the company stated that the primary reason for the increase is the expiration of a 20-year gas supply contract at the Rio Pecos Power

"This contract was essentially a fixed price contract which let us buy fuel at pre-1973 oil embargo prices," said WTU local manager Mike Martindale. "Compared to the average cost of fuel during the last 20 years, this 22 cents per million BTU gas will have saved our customers almost \$350 million by the time the contract expires in late December. That includes the period in the early 1980s when average fuel prices had reached \$4 per million BTUs before declining to \$1.95 in 1987.'

Martindale said WTU will continue to operate its system in a way that will minimize fuel cost and is presently studying gas supply

proposals. However, WTU expects to pay 8 to 10 times more for expiring contract.

WTU filed the request four months

The local manager emphasized that this change is tied primarily to expiration of one contract. Since 1985, WTU has lowered the factor five times, and had six refunds totaling almost \$50 million as a result of other contract changes, Martindale said.

WTU's last rate increase went into effect in January of this year. WTU officials said they do not anticipate the need for a rate increase in the foreseeable future although there could be some changes in the fuel factor as prices change.

# "Now you can pay the same amount every month of the year for your electric bill!"

It's easy with WTU's Equal Payment Plan.

Electric bills peak in the Summer and Winter when demand is up and are lower in the Spring and Fall. With the Equal Payment Plan, you can level out your electric bill because the monthly payments are averaged and adjusted over a year.

Any WTU residential customer or church with approved credit and a monthly bill of \$15.00 or more can qualify.

# Paint Creek 37

By Monica Howeth

After they finally got started, the Paint Creek Pirates played well for the last three quarters of football last Friday night in Rochester. Not taking anything away from Rochester though, the 24-0 lead they built up in the 1st quarter was too much for Paint Creek to overcome.

As Paint Creek got on the scoreboard with 6:09 left in the half, it seems as though the entire team changed gears. Senior Michael Guerrerro scored then and three more Coker of Throckmorton, Katherine times to lead all other rushers with 170 yards on ten carries and ten receptions for 115 yards. Michael also returned 3 punts for 75 yards to have 360 total yards of offense on the night. He also led all tacklers with 20 tackles during the game. He was Acosta who hit 18 of 33 passes for 225 yards. Daniel rushed six times for 67 yards and contributed defensively with 9 tackles. Acosta comes into this season as the top ranked passer in 6 man football with over 3000 yards

Also scoring in the contest was sophomore Dane Morgan, a returning letterman who had 34 yards on 2 carries and caught 3 passes for 52 yards. Dane saw limited duty at safety and still had 5 tackles on the night. Freshman starter Rodney Medford had one catch for four yards, returned 2 kickoffs for thirty-two yards and had eight tackles. Sophomore starter Kelly Williams played center and even though it doesn't show up in the stats, had 52 perfect snaps which is significant when you always run from the spread (shotgun) formation. He and junior returning letterman Chris Cockerell also contributed with 3 tackles each. The other junior who played was Johnny Hoadley who had 7 tackles and protected Acosta out of the passing formation all night. Freshman George Mayan contributed with 5 yards rushing and eight tackles from his defensive end position.

Even though they're 0-1 the Pirates are expecting good things in the near future. This Friday they host Harrold in their home opener at 7:30 at Paint Creek. If you like wide open action be there.

# Indians drop opener

# Munday prevails with 12-7 victory

The Munday Moguls scored on their first possession and then repelled three consecutive Indian attacks in the first half to pave the way for a 12-7 victory over Haskell in the season opener here Friday night.

Except for a 70-yard scoring bomb from Chan Guess to Alberto Alvarez in the third period, the Indians couldn't get the scoring door open, despite repeated knocks.

Munday marched 68 yards in 11 plays following the opening kickoff to go ahead 6-0 at the 5:53 mark of the first period. Terry Collier got the touchdown from 3 yards out, but the Indians' Robert Swann blocked Lowell Hutchens' extra point attempt after the Moguls had been penalized on the first try. Big gainer in the touchdown drive was a 41-yard pass from Marc Andrade to Michael Waggoner, one of only two completions the Moguls had for the evening.

The Indians stormed back. With Derrick Billington clicking off runs of 14 and 15 yards, the Indians moved from their own 40 to the Mogul 18. After a penalty moved the ball back to the 23, Munday's Donald Edrington intercepted a Guess pass at

Three Mogul running plays netted only 9 yards before Andrade punted 25 yards to the Munday 47. With Guess' 8-yard scamper being the top gainer, the Indians moved to the 23. After being penalized back to the 28, Guess threw another interception, this one by Andrade on the 12.

Picking up one first down in the process, the Moguls moved to the 28 from where Andrade punted to Guess on the Haskell 45. Guess returned the punt 29 yards to the Munday 26.

Billington picked up nearly 10 yards and then got 11 on the next play to give the Indians a first down at the 5. But four stabs from there netted only margin to 12-7. 4 yards and the Indians surrendered the ball on downs at the 1.

Munday netted just 3 yards in three plays so the Moguls punted on fourth down. Billington hauled in Andrade's punt at the Mogul 31 and ran it back for a touchdown, but the play was nullified by a roughing-the-kicker penalty which gave the Moguls a first down at the 19. Two running plays by Munday ran out the first half with the score remaining 6-0.

After a exchange of possessions to open the third quarter, the two teams erupted for a pair of long-range touchdowns within a span of 11 seconds. Munday struck first when Andrade, on an option, cut up field when he saw the Indian defenders going after the pitchman and scooted 45 yards for a touchdown which put his team ahead 12-0.

Billington returned the ensuing kickoff from his 19 to the 30. Then Guess uncorked his beauty to Alvarez who had slipped behind the defender.

He hauled in the pass on about the Munday 45 on a dead run and easily ran it on in for the score. Guess split the uprights to narrow the Munday

After that dramatic exchange, the two teams settled down in a defensive struggle with neither team mounting a serious threat. Munday did recover a fumble at the Indian 20 in the fourth period, but after penalties of 10 and 5 yards the Moguls wound up with a fourth down on the 29, from where they tried a field goal. Hutchens, who was to be the kicker, picked the ball up off the ground after the snap was mishandled and was swarmed by Indian tacklers at the 37.

The Indians moved out to midfield on Billington's 13-yard scamper, but Haskell could go no farther so Guess lifted a 41-yard punt which Andrade returned from the 9 to the 32. Bo Watson then fell on Andrade's fumble at the 36 and the Indians had another chance. Guess picked up 3 to the 33 and then threw incomplete. A fumbled pitchout lost 7 yards on third down. On fourth down, Guess passed 7 yards to Billington, but the Indians

were still 10 yards short of a first down and had to surrender possession. Haskell had only one more possession, taking over on their own 45 with 2:36 to go. After an

incomplete pass and a 7-yard run by Billington, two consecutive fumbles lost 15 yards so Munday took over at the 37 and ran out the clock.
