Students join SASH smokeout

About 150 Haskell secondary school students chose not to smoke or start smoking during the American Heart Association's "Save a Sweet Heart" (SASH) day observed Feb. 14.

The SASH program was managed completely by the Student Council. Susan Pope, advisor, said that promoting a student-run program makes peer pressure work in a positive way.

"Peer pressure is one of the main reasons teenagers start to smoke," said Mrs. Pope. "When students run the program, they take pride in their success and they want to help their friends stay away from smoking or stop altogether."

Indians meet Early in bi-district Friday

Haskell's Indians begin the long obstacle course to a return to the state tournament Friday night when they meet Early in a bi-district contest.

The game is scheduled for the Clyde high school gym and will begin at 7 p.m.

Should the Indians win, they will play the winner of the Van Horn-Eldorado game in an area playoff next week for the right to advance to the regional tournament.

Haskell, which breezed to the district 7-2A championship with a perfect 12-0 record, closed the regular season with a 24-3 record, the three losses coming at the hands of larger schools, Wylie, Vernon and Mineral Wells. The Indians also had victories over Wylie and Vernon, but played Mineral Wells only once.

That record took somewhat of a beating Saturday and Monday in a pair of practice games the Indians played as warmup tilts for the playoffs.

On Saturday night in Abilene, the Indians dropped a 73-70 overtime decision to highly ranked Eula, and on Monday night in Snyder the Indians lost to 3A Greenwood of Midland.

The Eula game was a cliffhanger. Haskell led 18-16 at the end of the first period and 30-25 at halftime before Eula scored 25 points in the third period to take a 50-43 lead. Haskell then outscored the Pirates 22-15 in the final quarter to make it 65-58 at the end of regulation.

Dusty Meeks, who sat out much of the game after picking up his fourth foul early in the second period, led the Indian scoring with 18 points. Four other Indians were in double figures: Brad Bevel 15, Sam Beakey 12, Chan Guess 11 and James Rike 10.

For Eula, Bryan Barnes scored 33 points.

Rule group to meet

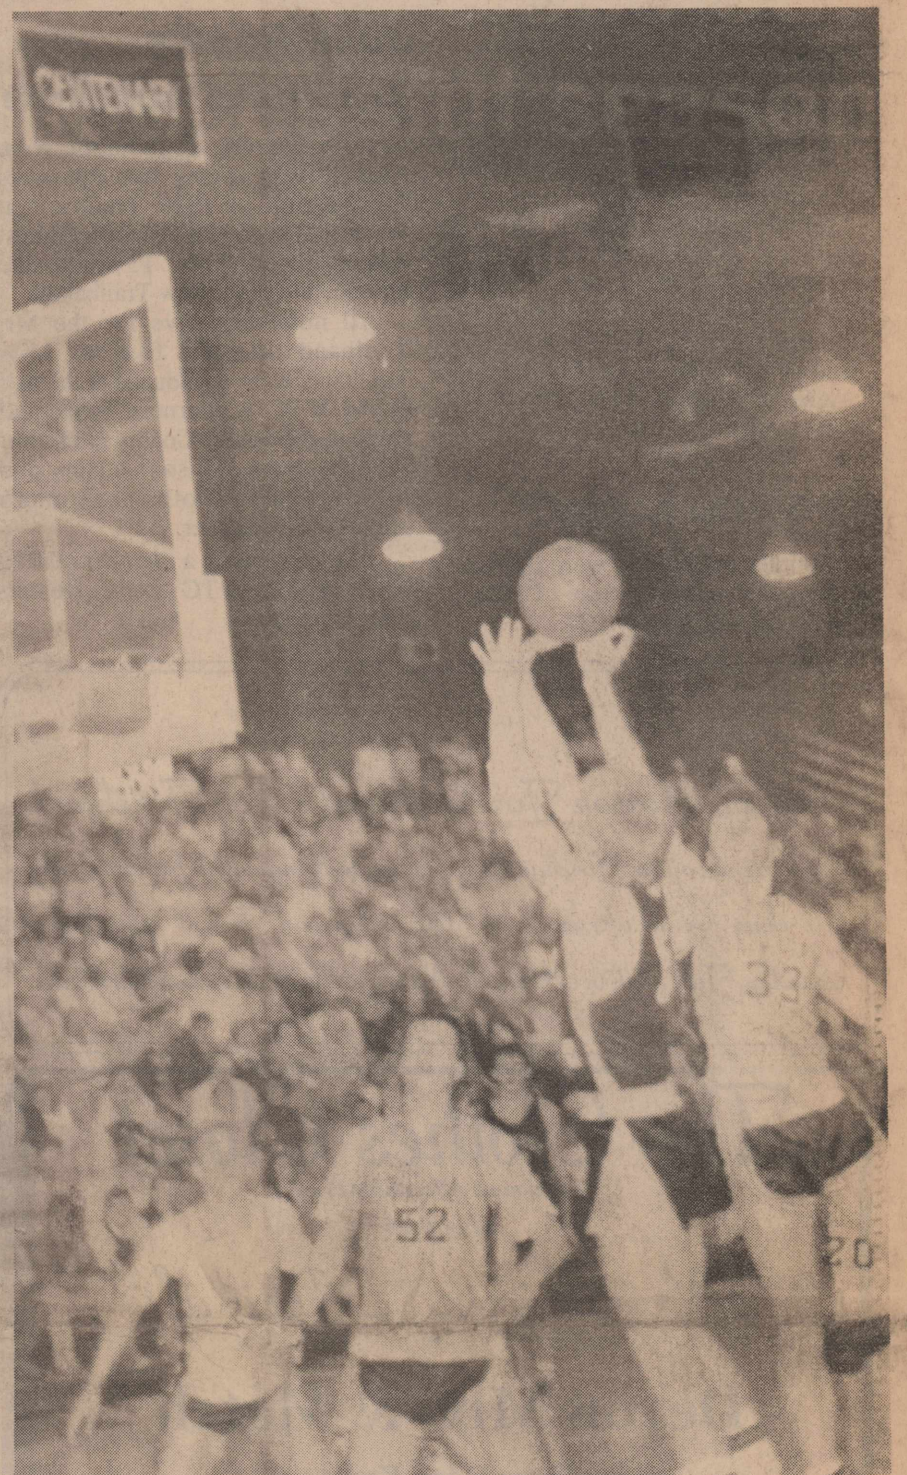

Members and prospective members of the committee for the Rule Community Memorial Foundation will meet at 7:30 p.m. Tuesday (Feb. 28) in the Rule Lions Club building.

Composition of the committee and sub-committees is open for membership. There still are many decisions to be made and plans to be drafted. Anyone interested in the community project is invited to attend and contribute ideas and suggestions.

The purpose of the Rule Community Foundation is to plan, design, finance, promote, construct, dedicate and maintain a befitting veterans' memorial.

Contributions may be sent to the Farmers National Bank, Box 10, Rule 79547. Checks should be made payable to the Rule Community Memorial Foundation.

Contributions may be made in memory of someone, and if requested, the committee will send acknowledgements to the families.

Maidens close out successful season

The basketball season ended Friday night for the Haskell Maidens, but it wasn't over until they had proved they could play with the best.

They went down, 69-59, to a Wall team which is considered the best 2A team in the Big Country. Knock out the first period when Haskell fell behind by 20-11 and the outcome may well have been different.

The Maidens battled back, cutting the deficit to 32-27 by halftime and 47-44 at the three-quarter mark. They still trailed by just 3 points with little more than 3 minutes to play in the final period, but Wall then went on a 10-0 run to pull away.

Miss Davis led the Maiden attack with 29 points, hitting 12 of 25 from the field and 2 of 3 from the free throw line. Dala Harris had 12 points on 3 field goals and 3 free throws. Joy McKeever scored 8 points on 3 of 8 from the field and 2 for 2 at the line. LaKay Gibbs was 2 of 5 from the field and 1 of 2 at the free throw line. Amanda Diaz was 1 of 3 from the field and 1 of 2 at the line, while Sheila Unger was 1 of 3 from the field.

McKeever was top rebounder for the Maidens with 8. Gibbs and Unger had 6 each and Harris had 5. Harris led the team in assists with 7.

The Maidens matched the Wall team in field goals, each hitting on 24. But in the free throw department, Haskell made 9 of 14, while Wall cashed in on 21 of 34. The Maidens led in rebounds, 30-25.

Haskell also committed more turnovers, 14-9.

The Maidens ended their season with a 20-8 record, far better than anyone would have expected at the beginning of the year.

"We were real pleased with this year's team," said Coach George Martin. "We've enjoyed working with the girls and appreciate the parents who shared them with us. We also appreciate the fans who stood by us all year."

This was the fourth consecutive 20-win season for the Maidens and the fifth consecutive playoff team. In Martin's first year, the Maidens went 17-9, but haven't failed to win 20 games since.

EDWARD AND MELBA MOELLER

Moeller couple celebrates 40th

Mr. and Mrs. Edward Moeller of San Angelo were honored Feb. 19 with a dinner party at a local restaurant in observance of their 40th wedding anniversary.

Hosts for the event were their children and grandchildren: Dalton, Marilyn and Melissa Ann Moeller of Wall; Marshal and Phyllis Avants and children, Scotty, Misty and Gary Edward Steely of San Angelo.

Edward Rinehart Moeller and Melba Lois Conner were married Feb. 19, 1949, at St. Paul's Lutheran Church (now Faith Lutheran) in Sagerton. The minister was the Rev. M. C. Hoermann. The couple's best man and matron of honor were Eugene and Amanda Teichelman of Sagerton, sister and brother-in-law of the groom. The wedding reception and shower were in the home of Lydia and Felix Klose of Haskell, sister and brother-in-law of the groom.

Melba is the oldest daughter of Vergil Conner of Haskell and Grace Skipworth of Robert Lee. She was born and reared and attended school in

Haskell. She graduated from Cosmetology College of Beauty in San Angelo in 1967. She worked as a hair dresser and manicurist for Sarah Cash House of Fashions and Coiffure De'Royal in San Angelo. She is now retired.

Edward was the youngest of eight children of the late George and Amanda Ruth Moeller. He was born and reared in the Irby community where he attended school and helped with work on the family farm until joining the U.S. Navy in 1944. He served aboard an air transport carrier in the Pacific. He was discharged in June 1946.

Edward and Melba have been active members of Assemblies of God since 1949. They also are active in many community projects.

Out-of-town guests attending the anniversary party included Grace and Dick Skipworth of Robert Lee; Sybil Hatfield and son, Vince, of Big Spring; Brenda Lawrence of Abilene; and Jeanne and Chesley Forehand of Weinert.

Mrs. Overton hostess to PC club

The Paint Creek Home Extension Club met for its February meeting in the Paint Creek School lunchroom with Mabel Overton as hostess.

Frances Fischer, president, called the meeting to order. Mabel Overton read the thought for the day: "Simple Soul."

Roll call was answered by responding to "On a scale from 1 to 10, how organized am I?" Most agreed that if all phases of our lives were included we would average out at about a 4. However, some areas would rank between 2 and 6 or 7.

The secretary-treasurer report was given by Mabel Overton. Ann Sinclair gave the council report.

The program, "Financial Record Keeping and Taxes," was given by Frances and Mabel. This was interesting and very informative and was appreciated by all.

Some upcoming activities were discussed. The Paint Creek club was to serve monthly county council meeting at the extension kitchen.

Also discussed was the training meeting at Guthrie in February, the Rally Day in Seymour on March 14, the Fabric Sale on Feb. 28 in Haskell in a building at the fairgrounds. The truck will have spring fabrics and will be a good time for ladies to come shop for the Ester and spring sewing.

Also will help host the district meeting at the Civic Center in Haskell April 11 and plans were made for our part of that program.

Next meeting will be March 6 with Lorene Harris as hostess.

Robert Ivey named as most valuable

Robert Ivey was presented the John Fielding Higgs award at Tarleton State University football banquet. The award is given to the team's most valuable player during the past season.

A 1985 graduate of Haskell High School and the son of Mr. and Mrs. L. B. Ivey, he was a four-year starter as a linebacker on the TSU football team and played an integral part in the Texans' success.

During the 1988 season, Ivey received numerous honors. He was voted by teammates as a team captain and was a first-team Texas Intercollegiate Athletic Association all-conference. He also was chosen the defensive player of the year in the conference and received honorable mention on the NCAA division II little All-America team. He was a first-team All-American on the Dan Hansen's Football Gazette team.

In the 1987 season, Ivey was a second-team all-conference selection. His teammates voted him as a team captain as well as the team's most inspirational player. During that season the Texans were the conference's undefeated champions, ended the season ranked ninth in the nation and were NAIA national quarterfinalists. Ivey was named most valuable defensive player in the first game of the national playoffs.

ROBERT IVEY

In 1986, he also was a second-team all-TIAA as his team again went undefeated in conference play and won the NAIA Sunflower Bowl. The Texans finished the season with a No. 8 national ranking while posting the best football record in Texas that year at 9-1-1.

Ivey finished his career with 339 tackles, nine quarterback sacks, seven interceptions, 24 passes broken up, 14 caused fumbles and eight fumble recoveries. He was the team's leading tackler in 1986, 1987 and 1988 as he became the second leading tackler in the school's history.

A senior at TSU, he is a football student assistant. Upon graduation he will begin work toward a master's degree in physical education.

DPS exams to be given year round

Entrance examinations and physical ability tests for the Texas Department of Public Safety (DPS) will be given every Monday and Wednesday year round instead of only during a short period just before an announced recruit school.

"Even though a date for a recruit school has not been determined, we will begin testing all year long," said Major V. J. Cawthon, regional commander for this area.

Perry introduces two insurance bills

State Rep. Rick Perry (D-Haskell) has announced he has filed two bills that would authorize the State Board of Insurance to regulate the premium rates charged for individual accident and sickness insurance policies.

Currently, rates for individual accident and sickness insurance are not regulated by the board. As a result, a problem has developed in that premium charges are growing at a pace far out of line from the benefits provided.

"Allowing health insurance rates to escalate without any apparent control is leaving many of my constituents with no alternative but to drop coverage," Perry said. "This must end, immediately."

At present, the industry must file both policy forms and a schedule of rates for the individual lines of accident and sickness insurance. However, the board neither sets nor approves the rates charged for regulation of these coverages.

The bills introduced by Perry offer two alternatives for rate regulation of these coverages.

HB 628 would give the State Board of Insurance authority over individual accident and sickness insurance by means of a prior approval system, much the same as it currently regulates the general

liability lines. A prior approval system would allow companies to file rates for their different coverages on an individual basis. This system would not require a full board hearing unless an appeal is made subsequent to the board's disapproval of filing.

HB 629 would allow the board to fully promulgate the rates for these lines such as it does for other lines such as worker's compensation and auto. Promulgation of rates would require a board hearing to determine the appropriate level of premium for the benefits provided by the policy.

Cigarette tax could net millions

State Comptroller Bob Bullock said last week that if the Legislature wants to get an additional \$274 million in federal money for health care programs, it could do so by earmarking matching money from an increase in the cigarette tax.

He said a seven-cent per package increase, bringing the total tax to 33 cents, would raise \$166 million in state money, which would earn \$274 million in federal matching money for hospitals and extended Medicaid services.

Commentary

Unusual events gain spotlight

AUSTIN—While legislators labor in obligatory hearings, some unusual happenings in Texas history are occurring:

• The Lt. Governor and Speaker urged the demolition of the original Texas General Land Office

Mattox, who as a congressman served on the House banking panel, faulted lawmakers for failing to address the lending crisis and leaving the industry vulnerable to federal law.

Landmark or Blemish?

Debate over whether to renovate or demolish the 132-year-old Land Office building began when the State Preservation Board got a report detailing its poor construction and deterioration.

Lt. Gov. Bill Hobby, who sits on the board, said the \$3.8 million restoration price tag is too high for a dilapidated building, which happens to sit on Capitol grounds. He plans to either abstain or point thumbs down when the final vote is taken.

Speaker Gib Lewis will tour the building again, but said the wisest decision is to call in the bulldozers.

Unused by the state, the crumbling structure houses museum collections of the Daughters of the Republic of Texas and the United Daughters of the Confederacy.

Briscoe Eyeing Race

Not only is former governor Mark White exploring the prospects of running for governor in 1990, but his predecessor, Dolph Briscoe, has a former aide checking out his chances for a comeback.

Howard Richards, who was Briscoe's general counsel, last week confirmed that he has been asking people around the Capitol what they think about Briscoe making another race. "The response has been very good," Richards said.

Briscoe, a 65-year-old Democrat and Uvalde rancher, was governor from 1973 through 1978.

Other Highlights

• The regents of West Texas State University in Canyon plan to prepare a report by May on the possibility of merging the school with the University of Texas or Texas A&M systems.

• The Senate last week confirmed two of Gov. Clement's appointments to the University of Texas System Board of Regents. Former U.S. Rep. Tom Loeffler of San Antonio and Houston accountant Robert Cruikshank were confirmed, 30-0.

• A recent poll indicated 70 percent of Texas voters believe the Legislature will raise taxes, despite the governor's pledge to veto them.

• The same poll shows Gov. Clement still has a negative rating of about 53 percent, better than the 68 percent rating in 1987.

• The original Goddess of Liberty statue from the Capitol dome will be moved from storage to the Texas Memorial Museum at the University of Texas.

Recorded tax information is available on many tax topics including farming and fishing, the IRS says. Tele-Tax, a year-round automated telephone service, gives brief details on topics such as farming and fishing income and self-employment tax. Complete instructions on how to use Tele-Tax is in the tax forms package most taxpayers receive in the mail.

building, now a crumbling museum in the front corner of the Capitol lawn.

• The attorney general running for governor called for a summit meeting of top Texas bankers to resolve the lending crisis.

• Commissioners of the State Board of Insurance and the Public Utility Commission continued to draw charges of incompetence or conflict of interest from irate senators.

The insurance board took renewed heat for failing to act for at least six months on the insolvency of Best Lloyds Insurance Co.

State insurance officials are now suing two company officials for conspiracy to defraud policyholders and creditors.

Conflict of Interest?

Meanwhile, two of Gov. Bill Clement's appointees to the Public Utility Commission face questions from senators over whether they are too closely tied to the utilities they regulate.

The two commissioners, Marta Greytok and William Cassin, were appointed during the interim but now face confirmation. They denied any conflict of interest.

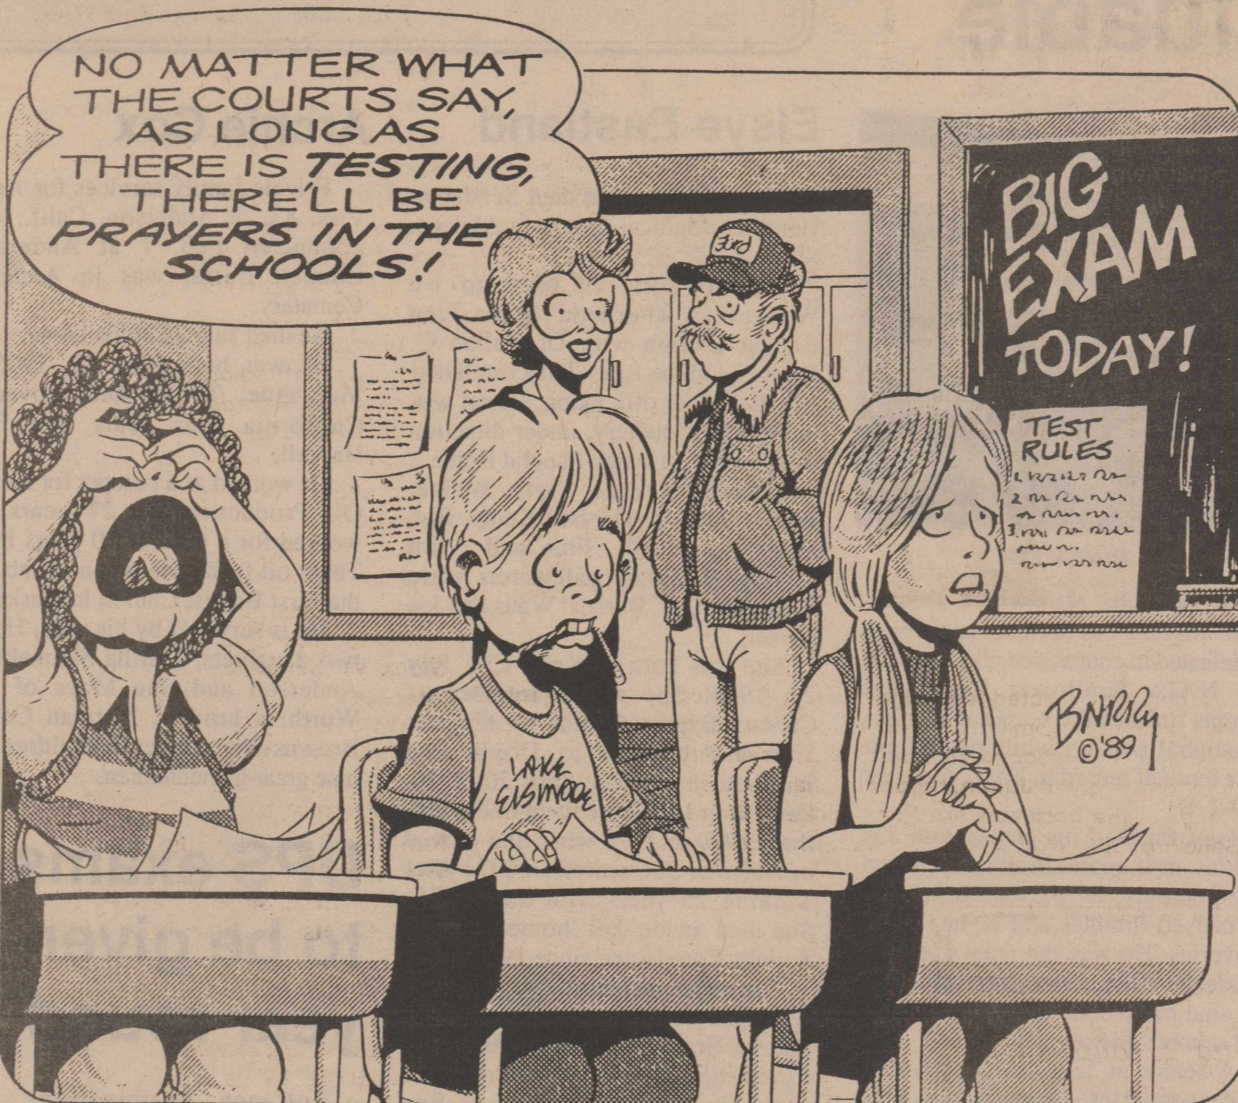

State Rep. Lloyd Criss, D-La Marque, has written senators asking them to deny confirmation of Cassin's appointment because he was long an attorney for Houston Lighting and Power Co., now waging a rate hike battle against consumer advocates and Attorney General Jim Mattox.

Mattox Back In

Mattox was put back into the middle of rate hike battles last week when the Texas Supreme Court reversed, 5-4, its earlier ruling that Mattox had no legal right to represent state agencies as consumers.

The vote split down party lines, except for Raul Gonzalez, who voted with the losing Republicans. The reversal was won on the vote of Franklin Spears, who voted against Mattox in the earlier decision.

Mattox, the activist bulldog who has waded into utility rate cases and insurance industry squabbles, ventured into the banking world by calling for a summit of top state lenders to discuss the crisis facing banks and savings and loan institutions.

The first farming in Haskell County, according to F. G. Alexander, an oldtimer, was done at Jud about 1885 or '86.

Just how many acres were put in Mr. Alexander could not remember, but he thinks now that 40 or 50 acres were broken out and planted to corn, sorghum, melons, etc.

He says that the crop was a success and that George Cook who he states was the first farmer of Haskell County realized a splendid yield on everything planted.

There was prevailing drought over Texas in the years of 1886 and '87, but he says that the Rochester, Jud and Knox City sections did not suffer so severely as the other places. They had some rains through this part of the county all through the two years drought.

The first bale of cotton grown in the county was by Dan Mooneyham in the year of 1887. It was hauled to Abilene to the gin and Mr. Alexander said he went along with the bale. It was grown on the farm owned by C. W. Druesedow north of Haskell.

Unoriginal:
Did you hear about all those honor students on the Oklahoma football team? Yes, your honor. No, your honor.

The word "laser" is an acronym for Light Amplification by Stimulated Emission of Radiation.
Just in case you'd forgotten.

Not bad, but a bit odd that in these liberal times we put so much emphasis on the personal demerits of our leaders. Didn't use to be that way.

George Washington was in love with another man's wife, Thomas Jefferson fathered children by a Negro slave, Andrew Jackson married a woman who was not divorced from her husband, Grover Cleveland had an illegitimate son, Warren Harding sneaked women into the White House, FDR had a mistress, Ike had that thing with his female driver and JFK was a swinger.
But John Tower, a ladies man?

I never was any good in economics. Either in school or in real life.

Therefore, I can't understand why:
An oil import fee would not enable American producers to get a price to justify their costs, perk up the economy in the Oil Belt, decrease our balance of payments deficit and greatly reduce our dependence on foreign oil.

Isn't that the way they do things in Japan? And that's where all the smarts are these days.

And another thing. If cutting the capital gains tax in half will create jobs and increase tax revenue, why not cut it out all together and create twice as many jobs and twice as much tax revenue?

If you think those were two fine basketball teams playing in Abilene Saturday--Haskell and Eula--what do you think the people at Hawley think?

The Bearcats, who finished second to the Indians in district 8-2A, posted a 24-5 record for the season. They lost twice to Eula and three times to Haskell, but never to anyone else.

Our face is red.
It's "xeriscaping", not "keriscaping", despite what you read last week in The Free Press.

Xeriscaping is using landscaping to conserve water and that was a topic of discussion at a recent meeting of the Haskell Garden Club.

In setting the story into type, the "x" was misread as a "k".

"Sex, Drugs, Rock and Roll and Religion."

Those were the catchlines on the advertisement for HBO's "Glory! Glory!"

In smaller type: "She sang like a saint and lived like a sinner."
Those ad people surely know how to get our attention.

With all the no-no's for cholesterol, tropical oils, salt, etc., we're constantly being reminded to read the labels for the ingredients of the food we buy.

Only trouble is that not too many people know what the label says even after they read it.

At the suggestion of a friend, I bought a carton of those heat-and-eat hamburgers the other day. (Although they looked like hamburgers they were called "charbroil sandwiches with cheese and onions.") In each individually wrapped package was a bun, a hamburger patty, a piece of cheese and some onion.

I looked at the list of ingredients on the label: beef patty (beef, water, textured vegetable protein {soy flour, caramel color, niacinamide, ferrous sulfate, calcium pantothenate, phridoxine hydrochloride 86, riboflavin B2, vitamin B1, Vitamin B12} salt, sodium phosphate, caramel color, onion powder, spice and natural flavoring) bun, pasteurized process American cheese and onions.

I ate it anyway. If it had not been far too salty, I would have sworn it was a hamburger.

A program to restore old farm barns is being conducted jointly by the National Trust for Historic Preservation and Successful Farming magazine.
It's called "Barn Again".

Public Notice

On November 9, Southwestern Bell Telephone Company filed a tariff which proposes to prevent local exchange calling over interstate, unrestricted, multi-jurisdictional, WATS Access Lines (UWALS) and intrastate WATS Access Lines (WALS).

UWALS are provided to interexchange carriers for their use in the provision of interexchange interstate and intrastate long-distance and WATS-type services. Similarly, WALS are designed for use in the provision of interLATA and intraLATA WATS services. The UWALS and WALS were not intended to allow local exchange calling.

If these proposed tariff changes are approved, the blocking of local exchange calls over intrastate WATS access lines and UWALS will take place within 30 days. This proposed tariff change will not result in the blocking of local calls placed to an 800 Service number.

The Public Utility Commission (PUC) of Texas has assigned this matter to Docket 8421. A hearing on the merits of these proposed tariff changes is scheduled for March 13, 1989.

Persons who wish to intervene or otherwise participate in these proceedings should mail a request to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 by February 27, 1989. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0223 or (512) 458-0221, teletypewriter for the deaf.

High blood pressure

In 90 percent of the cases of high blood pressure, the cause is unknown. (This type of high blood pressure is called essential hypertension.)

Fortunately, even though scientists don't fully understand the causes of high blood pressure, they've developed drugs effective over the long term in treating this disease.

In the remaining 10 percent of the cases, high blood pressure is a symptom of an underlying problem such as a kidney abnormality, a tumor of the adrenal gland, or a congenital defect of the aorta. When the abnormality that's the root cause is corrected, blood pressure usually returns to normal. This type of high blood pressure is called secondary hypertension.

WHAT CAN BE DONE ABOUT HIGH BLOOD PRESSURE?

Many medications (known as antihypertensives) are available to lower high blood pressure. Some, called diuretics, rid the body of excess fluids and salt (sodium). Others, known as beta blockers, reduce heart rate and the output of blood from the heart.

Another class of antihypertensives are referred to as sympathetic nerve inhibitors. Sympathetic nerves go from the brain to all parts of the body, including the arteries. These nerves can cause the arteries to constrict or narrow, which can raise blood pressure. This class of drugs can inhibit the ability of these nerves to narrow blood vessels.

Yet another group of drugs is the vasodilators. These drugs can cause the muscle in the walls of the blood vessels (especially the arteries) to relax, allowing the artery to dilate (widen).

A relatively new class of drugs sometimes used to treat high blood pressure are the ACE inhibitors. They interfere with the body's production of angiotensin, a chemical that causes the arteries to constrict.

In most cases these drugs lower blood pressure, but every person with high blood pressure must go through a trial period before his or her physician determines the medication

or combination of medications that works best.

The most important things for people with high blood pressure to remember are 1) to follow their doctor's instructions and 2) to stay on their medication.

Dietary changes also may help control high blood pressure. Some people with mild hypertension can lower their blood pressure by reducing the amount of sodium in their diet. Blood pressure also declines to a normal level in many obese people when they lose weight. Excessive alcohol intake (more than two ounces daily) raises the blood pressure of some people and should be restricted. Before drugs are prescribed, these methods to control blood pressure are often recommended for people who have only mildly elevated blood pressure.

WHAT FACTORS CONTRIBUTE TO HIGH BLOOD PRESSURE?

Because medical science doesn't understand the causes of most cases of high blood pressure, it's hard to say how to prevent it. Nonetheless, several factors may contribute to high blood pressure. Being overweight or using a lot of salt are two avoidable factors. Other factors are unavoidable.

Age is one risk factor that can't be changed. Generally speaking, the older people get, the more likely they are to develop high blood pressure.

Heredity is another factor. People whose parents have high blood pressure are more likely to develop it than those whose parents don't. Black Americans are also more likely to have high blood pressure than whites.

While the incidence of high blood

pressure isn't directly related to a person's sex, doctors usually keep a close watch on a woman's blood pressure during pregnancy or if she's taking oral contraceptives. Some women who've never had high blood pressure develop it during pregnancy. Similarly, a woman taking oral contraceptives is more likely to develop high blood pressure if she's overweight, has had high blood pressure during pregnancy, has a family history of high blood pressure, or has mild kidney disease.

TUESDAY, MARCH 7th
HASKELL MEMORIAL HOSPITAL
HASKELL, TEXAS
Call 817-864-2621 for appointment

According to the American Cancer Society, one out of ten women will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as a result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate. (The cost is only \$50.00)

A mammogram can detect a cancer this small, ● even before it can be felt.

--Haskell Nursing Center--

BY MARY BETH HUNT
ACTIVITIES DIRECTOR

The staff and residents wish to extend our deepest sympathies to the families of Jack Tidrow, Connie Cook, Willamet Oliphant and Leatha Flippo.

We have a new resident at the Center. He is Mr. Clarence Friley. Mr. Friley comes to us from Ohio. He is the father of Miss Cindy Friley, the band teacher at Rochester. We welcome this new family to our home.

On Feb. 14, the residents voted for Valentine king and queen. Mrs. Eltis Cox was crowned king and Mrs. Colene Moody was queen. The First Christian Church ladies hosted our Valentine party and it was enjoyed by all. Words are not enough to thank everyone who comes out and volunteers their time in our home. You are loved and appreciated.

On Thursday, March 2, we are having a Family Discussion Night at 6:30 p.m. We want to invite at least one member of each resident's family

to come out and take this opportunity to have any questions you may have answered. The heads of each department will be on hand for this. We will also have Pastor James and Ann Sinclair to bring us musical entertainment and Pastor James has a message about making our relationships count that he will be sharing with us. Please plan to attend.

Our visitors have been:

Jack and Leta B. Sellers of Rule, Ida and Willie Farrell of Weinert, Beatrice Curd, Dora Dixon of Haskell and Jewell Norman of Rule to see Garth Garrett.

Ada and Ora Hefferman of Tulsa, Okla., with Lydia Green; Charles Harvey, Merry Harvey with Mable Witt; Valta Lusk, Margaret Screws, Missy and Justin Teague with Linnie Hickman.

Karen Johnson with Fannie Wilson; Terry and Darlene Carter of Knox City with T. C. Carter; Frank and Isabell Mrazek of Aspermont with Fred, Robert and Ernest Monse.

Mr. and Mrs. Richard Rose of Abilene with Pauline Williams; Daisy Frier of Mana, Utah, Bee Hendrix and Jack Hendrix of Safford, Ariz., with Bill Hendrix.

Odelia and Ocie McGuire of Sulphur, La., Bill McGuire of Rochester with Velma Scoggins; Lois Nickleson of Haskell, Mary Lackey of Irving, Wanda Maxwell of Aspermont with Claribelle Cathey; Tennie Mae Short, Myrtle Townsend with Ruby Clemmer; Mr. and Mrs. Charlie Norman of Knox City with Vera Cook; Myrtle and Marvin Phemister, Greg Phemister with Ima Steward; Odelita Ortiz and David Aguilar with Domingo Gonzales.

King and queen

Eltis Cox and Colene Moody were crowned king and queen at the Feb. 14 valentine party at Haskell Nursing Home.

AT&T ANNOUNCES PRICE CHANGES FOR LONG DISTANCE CALLS WITHIN TEXAS

AT&T announces April 1, 1989, price changes for Long Distance Service (MTS) within Texas. AT&T's prices for long distance calling within Texas will be increased by two cents per minute for calls under 82 miles in distance and one cent per minute for calls that are 82 miles or greater in distance. AT&T's current discounts of 25% for evening calls and 40% for night and weekend calls will remain in effect. The price increases are expected to produce approximately \$22.8 million, which is nearly 2.9% of AT&T's annual revenues for Texas Long Distance Service.

This represents the first AT&T price increase for long distance calls within Texas. AT&T's long distance prices for calls within Texas have been reduced overall by about 12% since 1986.

The Long Distance Service price changes will also impact AT&T's PROSM WATS Texas offering, which offers subscribers a 10% discount on all long distance calls within Texas. These price changes are expected to produce approximately \$661,000, or about 3.5% of the annual revenues for AT&T's PROSM WATS Texas offering.

Prices for AT&T's REACH OUTSM Texas offering will also change. The price for initial hour usage will increase from \$12.55 to \$12.95; the additional hour price will increase from \$11.40 to \$12.00. These price increases are expected to produce approximately \$364,000, or about 2.1% of the annual revenues for AT&T's REACH OUTSM Texas offering.

AT&T's tariffs implementing these changes will be filed with the Public Utility Commission of Texas on March 1, 1989, with an effective date of April 1, 1989. The combined price increases are expected to produce approximately \$23.9 million, which is approximately 2.4% of AT&T's annual revenues for all Texas intrastate services.

If you have questions regarding these price changes please call AT&T's service consultants at 1-800-222-0300 for residential customers or 1-800-222-0400 for business customers. Persons who have questions regarding this tariff filing may also contact the Public Utility Commission of Texas in writing, at 7800 Shoal Creek Blvd., Suite 450N, Austin, Texas 78757, or by calling the Public Information Office at 512-458-0223, or 512-458-0227, or 512-458-0221 teletypewriter for the deaf.

AMERICAN TRUCK DRIVING SCHOOL

--Weinert--

by Myrtle Phemister
We join the rest of the Big Country in our rejoicing about the good rain we received, with the total in town being almost 4 inches. We are especially blessed that it fell so softly, no storm and no wind.
The thunder we heard reminded us of the old legend that "thunder in February foretells a freeze in April".

Many of our people have been "under-the-weather", some with flu, virus, and after-effects of both. We are a community of "Senior Citizens", (with a few young families to balance the population) and we expect to have some ills. We look forward to Spring!

Out of town:
J. T. and Florence Alexander have returned from McKinney where J. T. had an appointment with his eye specialist. Their son, J. W. came to get them, and brought them home. They are both in poor health.

Wayne and Cherie Hutchinson

were in Dallas for the weekend, where Cherie attended a cosmetology seminar.

Mr. and Mrs. Don Hudgens with Caleb and Bryce, spent the last weekend in Pottsboro with friends, and fishing and visitation were on the agenda.

Wanda Vojkufka was in Anson one day, for a visit with her sister, Tiny Driggers.

Ted and Faye Jetton were in Newcastle for a visit with her brother, Stanley and Helen McMillen.

Chet and Jeanie Forehand with Kenny were in San Angelo for the 40th wedding anniversary of her sister, Melba and Edward Moeller.

Principal Chet Forehand was in Abilene on Tuesday for a workshop at the Resource Center.

Herschel and Merle Alexander were enroute to Houston with a truckload

of wheat where they ran into the ice-storm that paralyzed most of East Texas last week. They were stranded at Brennam for a couple of days before completing their haul.

Novaleen and Weldon Walling were in Wichita Falls to check on an aunt, Myrtle Redwine Beason who has been seriously ill in the hospital there. At last report she is somewhat improved.

Karen Yates attended a school workshop in Abilene on Wednesday.

Several from Weinert attended the annual Lectureship at Abilene Christian University this week. Included on the list were D. I. and Mattie White, Helen Boykin, Francis Mahan and Marvin and Myrtle Phemister.

Laverne and John Mayfield were in DeSoto in the home of their daughter, Alexia and Duane Rimmer. Our condolences go to Alexia, who had her car stolen, and stripped, before it was recovered 48 hours later. And the doors were all locked!

Our visitors:
Amy and Stephen Summers were in town for the weekend and renewed acquaintances at the First Baptist Church. Amy is the daughter of Mr. and Mrs. Carter Tucker, former pastor at Weinert, and her husband is enrolled at the Baptist Seminary in Fort Worth. He was guest speaker at the morning worship hour.

Evelyn and Carl Ellington of Mulshoe, and Audra and Bob Schindler of Abilene were in town for a visit in the home of their mother, Bertie Alexander.

Donald Ray Jones, preacher for the Church of Christ in Sonora was here for a visit in the home of his sister, Mattie and D. I. White. He reported his wife is in Alaska with their son's family, awaiting the arrival of a new grandchild.

Wayne Offutt of Wichita Falls was in Weinert on Monday for a visit with his mother, Mildred Offutt, and his wife's parents, Eddie and Myrnie Sanders.

Darlene and Kerry Therwhanger of Megargel spent the weekend in Weinert with her family, Doris and Dale Carroll, Dianne, Denise and Douglas.

They made a side-trip to Aspermont on Saturday, where they participated in an "outsiders" volleyball tournament.

Sandra and Don Vannoy of Breckenridge and children were guests of her parents, the Weldon Wallings, last week.

Becky Fry of Bowie, and Tommy and Selina McGuire and their children of Haskell were weekend guests of their parents, Louise and Ernest McGuire.

Our birthday people this week includes Erlinda Mayfield, Florence Alexander, Bill Briscoe, Doris Carroll, Sheri Ejems and Mary Murphy. Happy birthday, all!

Have a nice day!

Josselet Homemakers have meeting

The Josselet Extension Homemakers Club met Feb. 14 in the home of Mrs. J. L. Toliver.

Since it was Valentine's Day and everyone loves to receive and give Valentines, the hostess told the origin of Valentine's Day.

The TEHA Prayer was read by everyone present.

The roll call was answered by 12 members and one guest by answering: "On a scale from 1 to 10, how organized am I?"

The minutes of the January meeting were read and approved.

Dorothy Trussell gave the January council report.

The club president, Margaret Jones, thanked all club members for their help at the Livestock Show for their work in the concession stand.

The president told that the truck load fabric sale will be Feb. 28 from 9 a.m. to 6 p.m. at the Corral building. She asked for people to work that day.

On March 14, Tri-County Rally Day will be in Baylor County at Seymour. That is Josselet's regular club meeting day so the club voted not to have the meeting as most members will be going to Seymour that day.

Margaret Jones gave a program on "Financial Record Keeping and Taxes." She told several different things that would be helpful in making out one's tax form. Flo Holder's name was drawn for the door prize.

Refreshments were served by the hostess to the following members:

Edna Anderson, Phylecia Bailey, Ermal Bevel, Flo Holder, Margaret Jones, Reatha Mullins, Gladys O'Neal, Helen Owens, Eloise Perrin, Hazel Thomas, Dorothy Trussell and one visitor, Joyce Davis.
