## A CENTURY of VISION

by Pauline Couch  
Vice-President & Cashier (Retired)

*J.L. Jones*

Haskell National Bank and Haskell County owe a very great part of their existence to J. L. Jones, Sr.—a true pioneer and entrepreneur. His many accomplishments included being a charter member and founder of Haskell National Bank in November 1890. He served the institution well as Director and as Cashier from January 1893 until January 1901. By January 1896 the fledgeling bank's profits had soared to \$3,059.81, and Mr. Jones' salary was increased to the astronomical sum of \$100.00 per month. However, at the Director's meeting in August 1896, Cashier Jones requested that "owing to dull, times and light business--his salary should be lowered from \$100.00 to \$85.00 per month."

Jesse L. Jones, Sr. came to what is now Haskell County as a young man, and began grazing large herds of cattle on the lush open ranges. When Haskell County was organized, Mr. Jones became the first County Clerk, and was instrumental in bringing a boyhood friend--Arthur C. Foster, Sr.--a lawyer-to help set up the County records. They later became partners in a Real Estate venture in Haskell, known as Foster and Jones Land Office. (Mr. Foster also became one of the original Directors of Haskell National Bank.) They handled most of the land transactions of the County, one of which was the purchase of 200 acres of land in the western part of the County by the newly formed Orient Railroad Company of Kansas City, Mo. This land was divided into lots for a town to be built in the area of the railroad. This sale was made through Mr. Jones' friend W. A. Rule, and the City of Rule was named in his honor.

Mr. Jones moved his family to Rule, and later, again exhibiting a true adventure-some spirit, Mr. Jones opened the first bank in Rule—a private bank. It was later sold to a group of stockholders and became First National Bank, forerunner of Farmers National Bank.

He was the father of seven children, and was interested in their welfare as well as all others, helping build Church Houses in Rule, and serving as President of the School Board when Rule's first brick school was erected. Without the vision, hard work, dedication, guidance, and faith of such hardy pioneers as J. L. Jones, Sr., Haskell County's potential might never have been realized.

One of Mr. Jones' daughters, Mrs. W. S. (Thelma) Cole, still resides in Rule, and her son Ford Cole & family now live in Haskell. A grandson, L. W. Jones, Jr. (Doc) & family also live in Rule, and a granddaughter & family, Mrs. Gene (Mabel) Overton live in the Paint Creek Community.

Haskell National Bank salutes, and honors, the memory of J. L. Jones, Sr., with gratitude and respect for his wisdom and courage in helping to found a prosperous County, and providing his special knowledge to the beginning of Haskell National Bank's one hundred years.

## Experience — We consider it money in the bank.

A face lined by dry, hot summer days, harsh winter, and seven-day work weeks. But there is sparkle, too, remembering warm spring sun or gentle rains and acres of cotton.

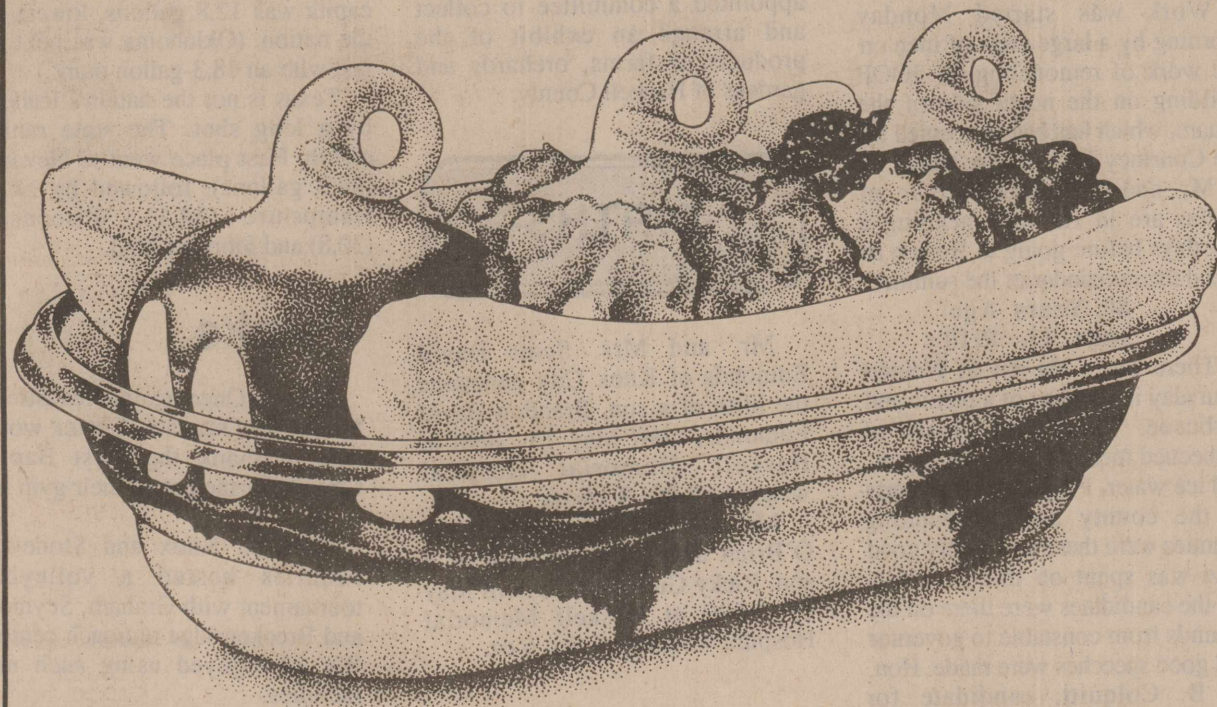

Back when he started farming, a man's labor represented the majority of his investment in the farm. Over the years, when he's had to invest in land and equipment, he's turned to his Land Bank Association for competitive, long-term financing. At the Land Bank we not only place value on a man's farm, but his experience, too.

So, if you need help growing, talk to a neighbor you can bank on — your Land Bank Association.

# Legislature holds hope for success

AUSTIN - Once again, the Legislature adjourned in failure and, despite the leadership's slim hope for success in yet another special session, many rank-and-file legislators are saying forget it.

At week's end, weary lawmakers braced to hear the first official word from the special master appointed to draw a school finance "Robin Hood" plan.

Special master William Wayne Kilgarlin said he might force con-

Democrats as traitors.

"They, along with our governor, ought to be proud of turning our schools over to our courts," said Sen. Carl Parker, D-Port Arthur.

Should Blacks and Hispanics sink the Legislature's plan, they'll risk wearing the blame, and the now-stale attempts by Parker and others to fix all the blame on Clements will be undermined.

The issue is so sensitive and emotional that most lawmakers probably prefer to let the master take all the blame.

### Abortion Group Targets

The Texas Abortion Rights Action League, an Austin-based pro-choice group, has targeted ten political candidates for defeat, all Republicans.

The group also gave its strongest endorsement to Democrat Ann Richards, candidate for governor.

Richards' opponent, Clayton Williams, heads the hit list. Others include Robert Mosbacher and Buster Brown, GOP nominees for Lt. governor and attorney general. Also named were nominees for Senate and House races in Austin, Bryan/College Station, El Paso, Wichita Falls, Georgetown and Houston.

"The Texas Abortion Rights Action League should be renamed the Ann Richards Fan Club," commented the Mosbacher campaign.

### Other Highlights

■ The Senate confirmed the appointment of Chairman Paul Meek to the Public Utility Commission.

■ Victor L. Heller, former Arizona tourism director, took over as president of the new Texas Travel Industry Association shortly before state tourism director Eugene Dilbeck abruptly quit that job after less than nine months.

■ Controversial Valley grower Othal Brand withdrew his name from nomination to a pesticide board, apparently with the knowledge that Brownsville state Sen. Hector Uribe would use the senatorial courtesy privilege to block him.

Brand, a Republican and mayor of McAllen, has long been at odds with farmworker unions and local Mexican-American Democrats.

His March statement about the pesticide chlordane, "Sure, it's going to kill some people but they may be dying of something else anyway," set off a wave of objections.

■ Lt. Gov. Bill Hobby this week will represent his mother, Oveta Culp Hobby, in ceremonies honoring the late President Dwight D. Eisenhower.

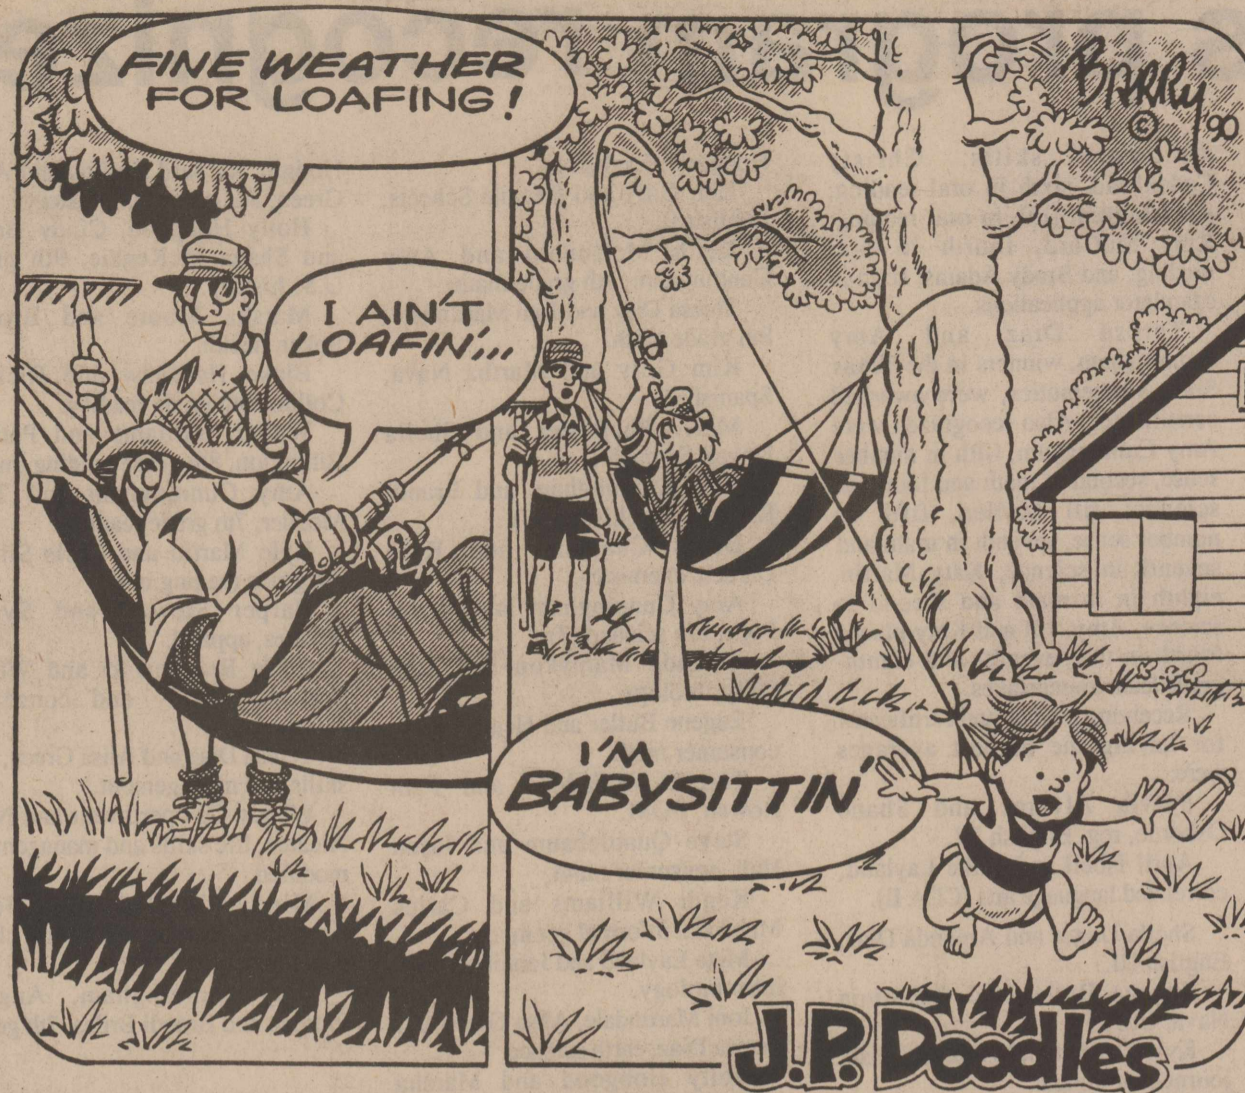

Mrs. Hobby, 85, is one of the three surviving Cabinet members of the Eisenhower administration and was the first U.S. Secretary of Health Education and Welfare.

## Party '90

Editor: I would like to thank all those people and businesses throughout the county who made Party '90 a success for the teenagers again this year.

A big thank you goes to: the volunteers who helped solicit contributions to the party, the volunteers who stayed up all night helping with the party, the Kiwanis for the hamburgers and the Young Homemakers for breakfast, the Lions Club for cleaning up the building, Haskell National Bank for paying the rent on the Civic Center and all those businesses and individuals who gave so generously in either cash or merchandise.

BY WENDELL FAUGHT

Long live the rebels and the Indians.

Jack Westbrook, the Rule booster who now lives in Tulsa, Okla., could easily be identified as a historian, even if everyone didn't already know it.

In his frequent correspondence to The Free Press, he addresses his envelopes to this newspaper in Haskell, Texas CSA. And his return address is Tulsa, Okla. IT.

Fortune magazine, in a report on education, says that 46 percent of Chicago teachers send their own children to private schools.

Sometimes, the best reading in a newspaper is not what the professional journalists write, but what the readers have to say.

A letter writer in the Abilene Reporter-News questions the city's use of the \$425,000 in hotel/motel tax money spent last year on the Abilene Convention and visitors Bureau.

Judy Wilson, the writer, refers to a Reporter-News article in September that reported that "the sales blitz put on by the Chamber of Commerce in Austin, which costs \$10,000, is responsible for 85 to 90 percent of the conventions in Abilene.

"If we get 85 percent of our conventions for \$10,000, where is the other \$410,000 of the ACVB budget?" she properly asks.

Next time you figure up how much you owe, be sure you don't overlook the thousand bucks (or two thousand) you owe as your share of the savings and loan bailout.

A couple of things you might want to remember:

A picture postcard collector is known as a "deltologist" and a male horse has 40 teeth. (A female horse has 36.)

Men outnumber women in the nation's prisons, by almost 10-to-1, but the ratio is shrinking.

Last year, for the ninth consecutive year, the rate of increase at women's institutions far outstripped the men's.

Three-quarters of the women inmates are mothers, and many of them single parents. Typically, she is from a minority race and is better educated than her male counterpart. Some analysts say women have taken to crime to support their families.

In Florida last year, 73.8 percent of the women arrested were jobless, while more than two-thirds of the men arrested had jobs.

Texans drink more than twice as much beer per capita as do residents of Utah.

The Beer Institute reports that Texas had a per capita beer consumption of 27.5 gallons in 1989. Utah's consumption per capita was 12.8 gallons, lowest in the nation. (Oklahoma was next to last with an 18.3-gallon mark.)

Texas is not the nation's leader, by a long shot. The state ranks eighth. First place went to Nevada (39.3 gallons), followed by New Hampshire (34.1), Wisconsin (30.8) and Florida (29.4).

Editor: Once again, Headstream Memorial Outreach Center would like to thank the First Baptist Church for the use of their gym last week.

Thank you for making such a successful outing for all the clients and volunteers from these centers.

solidation of rich and poor school districts, a politically unpopular concept to say the least.

The Robin Hood plan basically adds state-appropriated funds to a portion of local school district property taxes and divides them equally among the state's public school students, taking from the rich districts and giving to the poor ones in the process.

### 'Keep Your Shirt On'

While Houston school officials expressed "fear for the whole state," Gov. Bill Clements advised them to "just keep your shirt on. In due course, we'll get a bill passed."

House speaker Gib Lewis echoed the optimism somewhat: "One thing I am trying to prevent is to allow the master to write the school plan for the future of Texas education. I think that is the job of the Texas Legislature."

The leadership may want a legislative plan, but Black and Hispanic lawmakers predicted they'll prefer a court-ordered plan.

One member of the Black Caucus, state Rep. Fred Blair, D-Dallas, vowed "if the bill comes back anything less than \$555 million, there's no way our Caucus will support it."

The top two Hispanic House members also echoed that stance.

Speaker Pro Tem Hugo Berlanga D-Corpus Christi, predicted that Hispanic lawmakers will go with the master's plan once they see it.

### Bloc Vote Doubtful

"Once the (Hispanic) members look at the impact of the master's plan vs. the legislative plan, it's a foregone conclusion. I don't think we are going to be able to hold the membership to go up against the master's plan."

Eddie Cavazos, chairman of the House Hispanic Caucus, said its members may not vote for any legislative plan. "That's fine. Let them (Republicans) deal with the master."

But the point is, the Hispanic and Black blocs united can stop any bill from coming out of the House, not by sheer numbers, but by party loyalty and the prospect of later reprisal.

The eight Democrats who voted to sustain the governor's veto last week are already painted by some

## William Glenn Hewitt

By Jack E. Westbrook

William Glenn Hewitt was born to William Jackson and Stella Alva Hewitt at Rochester Feb. 26, 1924.

He had seven brothers and sisters: Bryan, Tom, Mildred, Melba, Ann, Dan and Faye.

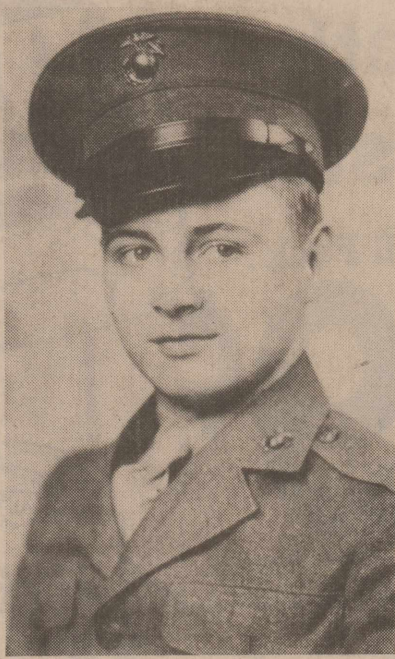

He attended school at Foster, O'Brien and Aspermont, receiving the General Education Diploma later while in the service. His childhood was typical of the youth brought up in large families during the depression. Early on, his talent as an artist came out. He developed the talent and was recognized for his unusual capability. On leaving high school, he entered the Civilian Conservation Corps for a time, another common experience for young men of the time.

In 1941 he entered the service of his country, taking his basic training at Camp Pendleton, Calif. He then trained in New Zealand and Oahu, Hawaii, before seeing action in World War II.

In his first battle, at the Island of Tarawa, after the first wave of Marines in the landing had been wiped out, Glenn went in with the second wave, securing the island. He was later wounded in the left leg while in the Battle for Saipan. Suffering crippling effects from the wound, he left the service for about a year, re-entering the Marine Corps on the improvement of his physical condition.

Cpl. Hewitt's unit, Company "D", Second Battalion, Fifth Marine Division, left the mainland on July 13, 1950, and was among the first Marines to land in Korea. They went in as a United Nations force. He participated in numerous actions, including the Inchon Landing. He had earlier recovered sufficiently from a wound to join his unit there.

On Sept. 24, 1950, he was leading a fire team in a second assault on an enemy held ridge overlooking Seoul, a part of the

William Glenn Hewitt

long battle up the Korean Peninsula. Here the 26-year-old hero lay down his life for his country.

Cpl. Hewitt was up for promotion to sergeant at the time of his death, a capacity in which he had acted for some time. He was awarded three Purple Hearts, the last posthumously; the Pacific Theater Campaign Medal with two battle stars, one for the Battle of Tarawa and the second for the Battle for Saipan; The Korean Service Medal; The Korean Campaign Medal with one battle star; and numerous marksman awards.

Glenn is interred at Montecito Memorial Park in San Bernardino, Calif. When his body was returned home, he was honored with a proclamation by the mayor of that city, by the American Legion, by a detachment from the El Toro Marine Air Station and with Catholic services.

At the time of his death, he was survived by his wife, Albertina Quiroz Hewitt; his parents, Mr. and

Mrs. William J. Hewitt of Rule; and siblings Byron W. Hewitt, Dan Hewitt, Tom Hewitt, Ann Hewitt, Mrs. Mildred Bensenberg and Mrs. Melba Adair.

William Glenn Hewitt is one of the heroes whose name will be carved in the red granite center piece of the Rule Community Memorial monument. He, along with the other men who made the supreme sacrifice, "have their names engraved in the stone of the monument and in the hearts of members of the community and nation." Their having volunteered to defend our country, suffering the rigors of wounds and war, and then giving of their young lives leaves those of us who are left behind in awe of the freedom we enjoy.

Our grief, respect and gratitude are endowed in the monument, that all who gaze upon it may be aware of just how hard gained our freedoms are. And they are to be reminded that with each of these freedoms there is a corresponding responsibility---that we may be called upon at any time to bear up under our responsibility.

### Rain doesn't halt weekend rodeo

Rain forced cancellation of Friday night's session of the Haskell Open Rodeo, but two performances were run Saturday, one in the afternoon and the other at night.

Winners included:

Jim Richard of Stephenville in bareback; Todd Whatley of Comanche in calf roping, Drew Thomas of Wheeler in steer wrestling, Shannon Newland of Stephenville in girls' breakaway.

Junior Crump and Twister Cain in team roping, Sabrina Lewis of Odessa in open barrels, Brittany Bartley of Haskell in junior barrels and Leo Berend of Windthorst in bull riding.

# Officers installed by club

Informal installation of officers for 1990-91 highlighted the final regular meeting of the season May 21 for the Haskell Young Homemakers.

Installed were Sharon Bird, president; Angie Kruger, vice president; Bo Tatum, secretary-reporter; and Sharon Rueffer, treasurer.

Hostesses were Norma Richardson, Gina Foster, Debbie Solomon, Tammy Anderson, Terri Kirk, Betty Michaels, Pam Mathis and Wanda Thompson.

Mrs. Richardson was named outstanding young homemaker for 1990. Mrs. Mathis was presented a gift of appreciation for her outstanding job as Arts and Crafts chairman for the past few years. She will be working with a replacement for the coming year.

The door prize was won by Camin Pittman and the Embassy Suites Night was won by Mrs. Thompson.

On May 25, 11 members met at the Homemaking Cottage for fellowship and food, starting at 10:30 p.m. Exciting games of pictionary and scategories were played until 1 a.m. The official breakfast cooks for Party '90 had breakfast ready for those who attended by 3:30 a.m.

Historians say the word "Yankee", meaning an American, comes from the Dutch word for pirate, which the settlers in New Amsterdam (now New York) applied to their shrewd New England neighbors.

# Master Gardener course available

If you'd like to learn how to grow vegetables for your favorite salads, and later teach others some specifics of gardening, consider enrolling in a Texas Master Gardener program.

A person becomes a master gardener after completing 50 hours of in-depth gardening instruction taught in the course, an examination and 50 hours of volunteer work in horticultural science, said Dr. Douglas F. Welsh, horticulturist with the Texas Agricultural Extension Service.

Welsh said about 500 adults have completed the Texas Master Gardener program and returned more than 25,000 hours of volunteer services in horticulture in the last decade.

"This is the equivalent of 12 full-time employees working for an entire year," said Welsh, who coordinates the state's Master Gardener program.

Welsh said enthusiasm for the program seems high.

"We should be able to double the Texas numbers within the next several years, if current telephone calls are good indicators for expansion.

"People enter the program for

many reasons," Welsh said. "Some want to learn how to grow vegetables to freeze, to can, or to use in their favorite salads, while others want to grow fruits, berries or nut crops. Goals of others are to learn more about growing indoor plants, turfgrasses or landscape maintenance."

Welsh said master gardeners form a network of highly qualified people who assist with a wide range of horticultural teaching projects, such as plant clinics conducted by the Extension Service or as speakers for local garden clubs and other groups.

A 560-page handbook developed by Extension Service horticulturists serves as the class textbook.

In the initial instruction phase, enrollees learn general concepts of basic botany, disease and insect control, plant propagation, pruning, types of soils and fertilizers and pesticide safety, Welsh said.

"After that material is completed, specifics are taught for growing vegetables, fruit and nut crops landscaping and maintenance, indoor plants and turfgrasses," he said.

Welsh said the third training phase is learning how to work with

people for the volunteer "payback" part of the program.

To retain the title, he said, individuals are required every two years to take re-certification training and provide additional volunteer hours through the local Extension Service office.

When people cease active participation in the program, their master gardener designation expires. But Welsh said not many drop out.

"Montgomery County was the first in Texas to organize the program, which continues there," he said. Twelve other counties also have active Master Gardener programs operating, including Harris, Tarrant, Dallas, Jefferson, Orange, Denton, Hood, Bexar, Brazos, Fort Bend, El Paso and Galveston.

Welsh said programs are active in the cities of Houston, Dallas, Fort Worth and San Antonio, where growth potential is virtually unlimited.

While current enrollment is strictly for adults, Welsh said, within about a year a Texas Junior Master Gardener program should be available for youths in junior and senior high schools. The training is expected to be offered through 4-H and other youth groups.

Brazos County conducted its first Master Gardener program earlier this year, with 24 people completing the course.

Class member Sharon Banister of Bryan, who has been growing vegetables for several years, enrolled in the course because she felt it would enhance the lab work in tissue culture that she does for A&M's department of soil and crop sciences.

"The training was very helpful and gave me the confidence to serve as coordinator for volunteer projects of the entire class," Banister said. She has already completed 48 hours of volunteer work by helping at plant problem clinics and teaching Bryan first graders about gardening.

Another Brazos County

participant, Dr. J. Artie Browning, a Texas A&M University professor of plant pathology, is very enthusiastic about the program. He and his wife decided they wanted to be more involved in gardening after completing a home greenhouse.

"We also have new interests in horticultural crops, whereas earlier interests were more in field crops," he said.

"The Master Gardening program is a win-win-win situation for the Extension service, horticulture, the community and the master gardeners themselves," Browning said.

Welsh said several other states have Master Gardener programs, including Minnesota, California and Virginia. The program did not originate in Texas, he said, but it is thriving here.

## County sales show 3% gain

Haskell County businesses reported gross sales in the fourth quarter of 1989 in the amount of \$16,246,118, according to records of the state comptroller.

This represented an increase of 3.3 percent over the \$15,724,263 reported in the fourth quarter of 1988.

The figure includes the total amount of all sales, leases and rentals of tangible personal property and all labor and service charges made during the reporting period by the 259 businesses which filed returns with the state.

Of the total, \$4,888,395 was subject to the state sales and use tax.

# PROTECT YOUR HOME FROM SUMMER HEAT!

## HERE'S HOW:

- ✓ Check your home for adequate insulation — R-30 is recommended in the attic.
- ✓ Help your cooling system's efficiency by caulking and weatherstripping. Infiltration of outside air is your air conditioner's greatest enemy.
- ✓ Help keep the cost of cooled air down by setting your thermostat at 78° or higher and clean your air conditioner's filter regularly.
- ✓ If your present air conditioner needs replacing, consider an all season electric heat pump — it cools in the summer and heats in the winter.

### Firemen at work

Haskell firemen work to save the home of Mr. and Mrs. Barry Tidrow after fire broke out in the house Monday afternoon.

## Club members attend workshop

Three members of the Progressive Study Club attended the Mesquite District Workshop May 26 at the Presbyterian Church in Baird.

They were Mary L. Kaigler, president, and Reatha Mullins and Mary Martin, members of the yearbook committee.

The Wednesday Club of Baird served as hostesses.

At 10 a.m., outgoing president Winifred White of Knox City called the meeting to order and introduced new district president, Louise Massey of Stamford, who presided for the invocation, pledges to the U.S. and Texas flags, the roll call of clubs and recognition of 1990-91 club presidents.

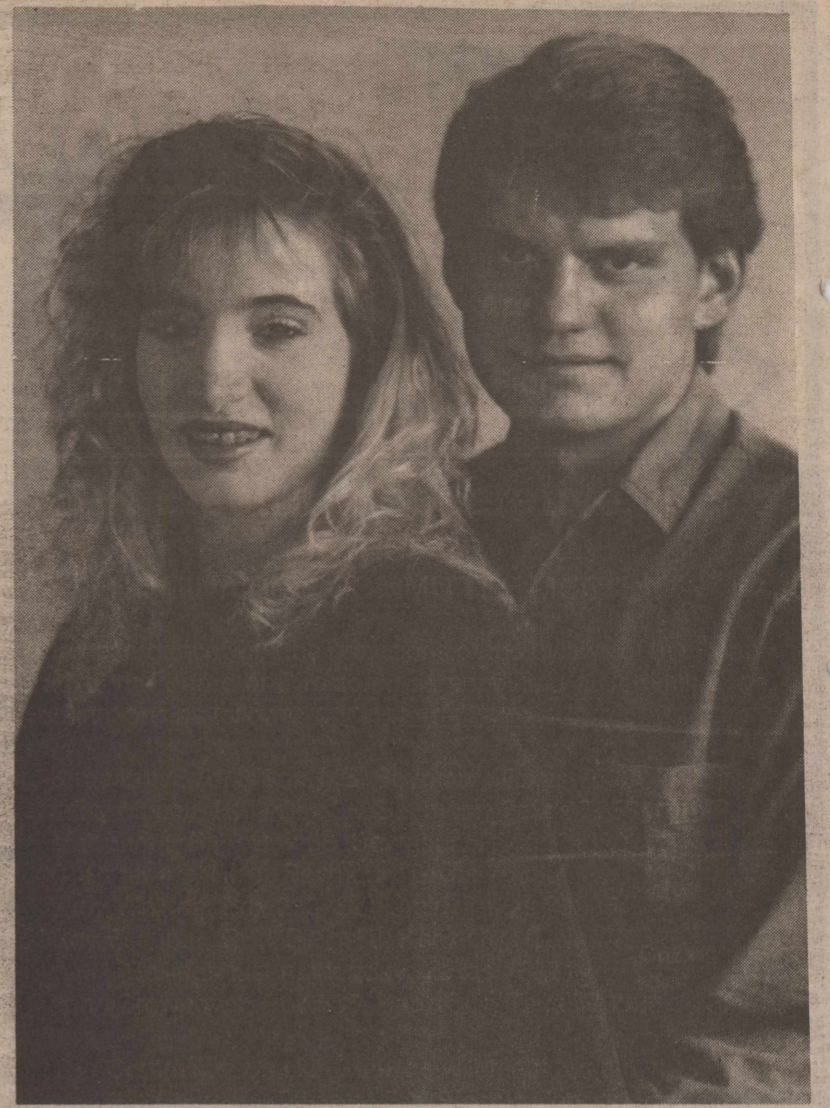

Several women, including Marie Ward of Aspermont and V. Marie Smith of Anson, gave interesting and entertaining highlights of the

1990 TFWC State Convention in Austin.

This was followed by a humorous song, "Protocol," led by Polly Wheeler of Albany, and Erma Liles of Weinert, who played several old songs. After a sack lunch, Doris Duncan of Stamford conducted an extensive session on yearbook rules, score cards, ideas and the required introductory information for the 1990-91 yearbook.

Mrs. Kaigler brought a number of copies of "The Pride of Texas," a collection of recipes from TFWC clubs, to sell.

Other members of the yearbook committee are Francine Johnson, Sammie Turner and Doris Jordan. Jimmie Weinert of Weinert, yearbook chairman in 1989, also attended the workshop.

## Meetings stress skills for parents

Take just a minute to remember what it was like for you when you were growing up. Did you ever feel that nobody understood you, especially your parents? Did you ever think that your parents were cruel and unfair to you at times?

Now take a minute to reflect on your role as a parent or a future parent. Would you like to avoid making the mistakes your parents made and/or would you like to correct mistakes you already have made?

If you would like to learn successful parenting skills that will make life easier around your home, you are invited to participate in the parents' monthly meetings at the First Baptist Church in Haskell.

The June meeting will be Sunday (June 10), starting at 7 p.m. Meetings are in the Family Activity Center, south of the church. Parents are encouraged to attend together and bring their children. The gym at the center will

be open for youngsters. Babies also are welcome.

The meetings are co-sponsored by the First Baptist Church and the Texas Agricultural Extension Service's Haskell County office. Randy McLelland, First Baptist youth director, and Lou Gilly, county agent/home economics, coordinate the lessons for the meetings.

Meetings are held the second Sunday of each month, are open to all and are free of charge.

### Taxes only part of state income

To the general public, state revenue generally means taxes, but other revenue sources are an important part of the total revenue picture.

In fact, tax revenue provided barely one-half (50.4 percent) of total state income in 1988.

# Kress pilot top winner in model airplane show

The old saying about Texas weather was never more true than it was Saturday and Sunday for the many model airplane fliers who had made the trip to Haskell.

Saturday morning's wind, rain and cold were certainly not the ideal climate to begin a two-day meeting at the Haskell Model Airport, but as the day progressed, the weather improved, and Sunday was a perfect day.

A wide variety of aircraft was flown, the smallest being a 24-inch rubber-power model, the largest a 10-foot wingspan Piper Brave that "dusted" the field with flour simulating a full-size crop duster.

A regional fun fly was held on Saturday. Bob Hawkins of Kress demonstrated some outstanding "wind" flying to take first place in all five events and easily win the overall award. Other placings included Bob Giles of Spur, second; Jim Belyev of Plainview, third; Jim Cottingham of Munday, fourth; and Kelvin Heath of Plainview, fifth.

On Sunday, spectators and pilots selected a quarter scale TR 260, flown by Mark Gery of Abilene, as the prettiest plane. At the other end of the scale was a plane belonging to Kip Nemir of Haskell which was

chosen as the ugliest airplane. The worst crash award went to Kirk Styles of Throckmorton who nearly wiped out the scorekeepers as well as his airplane. The pilot coming the farthest to attend was Larry Sanders of Los Alamos, N.M.

In the raffle drawings, the radio control set was won by Debbi Barbour of Haskell, and the three airplane kits were won by Mark Bailey, Bob Baker and Ken Lane, all of Haskell.

All visiting pilots received caps, glues, props and various discount certificates. Special radio discounts were given to Mark Gery of

Abilene and Joe Gross of Altus, Okla.

Members of the Texas Chiefs Model Airplane Club expressed their thanks to the individuals and companies which gave either time or merchandise to help make the event a success.

A freshman this past year at ETSU, he is the son of Billy Wayne and Sheila Hester.

## Public Notice

TO ALL FORMER AND CURRENT INTRASTATE WIDE AREA TELECOMMUNICATIONS SERVICE (WATS/800) SUBSCRIBERS:  
Southwestern Bell Telephone Company has instituted a Class Action Lawsuit seeking judicial approval of a settlement reached in Docket No. 7297, an inquiry of General Counsel of the Public Utility Commission of Texas into possible overcharges which occurred between September, 1976, and February, 1987, due to rounding practices, on bills of intrastate WATS/800 customers sent by Southwestern Bell and other telephone companies which concur in Southwestern Bell's tariff. The suit is styled "Southwestern Bell Telephone Company, Plaintiff, vs. MCI Telecommunications Corporation, A Member of the Class of Texas Intrastate WATS and 800 Service Customers Who Paid Overtime Charges From September 1976 Through February 1987, Defendant," and identified as Cause No. 471,460 in the 126th Judicial District Court of Travis County, Texas.

Pursuant to the settlement, while not admitting liability, Southwestern Bell, the other local exchange telephone companies in Texas, and AT&T Communications of the Southwest, Inc. have agreed to pay refunds to those WATS/800 customers who paid overtime charges attributable to the rounding practices for intrastate WATS/800 services at any time between September, 1976, and February, 1987. The refunds will be based upon either the actual or estimated amount of overtime charges attributable to such rounding practices. An exact refund will be determined for customers able to produce copies of their WATS/800 service bills. For customers who do not have copies of their WATS/800 service bills to establish actual overtime charges paid, an average refund of \$4.53 to \$5.95 per WATS/800 service line per month will be applied. All claims will be subject to verification. The refunds will also include interest at the rate of 7.80% per annum.

**Claim Forms And Additional Information**  
Those customers who think they may be entitled to a refund or who desire more information must call 1-800-782-3026, 8:30 a.m.-4:30 p.m., Monday through Friday, or write to WATS Refund Pool Administrator, One Bell Plaza, Room 670, P. O. Box 650376, Dallas, Texas 75265-0376, to request a WATS Refund Information Package. The WATS Refund Information Package will contain further information regarding the lawsuit and eligibility for a refund, a description of documentation required to support a customer's claim for refund, and a refund claim form to be filled out and submitted requesting a refund. REQUESTING A WATS REFUND INFORMATION PACKAGE DOES NOT OBLIGATE YOU IN ANY WAY.

All claims for a refund must be received by the Refund Pool Administrator by Friday, October 5, 1990, and all rejections of the settlement (that is, requests for exclusion from the class action lawsuit) must be received by the Court by Wednesday, September 5, 1990. Only those who respond by filing a claim or by filing a rejection of the settlement, as explained in the WATS Refund Information Package, will receive notice of future developments in this proceeding.

Persons who wish to obtain further information may also contact the Public Utility Commission, Public Information Division, at (512) 458-0257 or (512) 458-1221, teletypewriter for the deaf.

## TAX PLANNING

Written By  
**James E. Rodgers, CPA**

### IRAS - YOUR INVESTMENT IN YOUR FUTURE

Individual retirement accounts (IRAs) should be alive and well in your investment portfolio. Why? Because even a nondeductible IRA contribution can grow tax-deferred to many times its original value. All it really takes is a little bit of care and planning.

To start, select who will hold your investments. Custodians vary from banks to mutual fund companies to full service brokerage firms. Interview several different firms and choose the one which will best meet your needs.

After selecting your custodian, decide upon your investment strategy. Certificates of deposit (CDs) and Treasury obligations safeguard your principal, but equities (stocks) traditionally have a higher, long-term yield.

How important is yield in your IRA? Over a twenty-year period \$15,000 will grow to \$58,045 at 7%, to \$69,914 at 8% and to \$84,066 at 9%. If you don't understand the stock market, consider mutual funds. Many mutual funds have excellent management and can pool your money with thousands of other people's investments to provide higher returns for everyone.

Always contribute to your IRA early in the year instead of on April 15th of the following year. You'll get an additional fifteen months of tax-deferred earnings. At 10%, this could result in an additional \$4,000 over ten years, \$14,000 over twenty years, and \$41,000 over thirty years.

Finally, monitor your IRA's growth periodically. If you can find that your investment is yielding 7%, and another, equally safe investment is netting 10%, change your investment. A small, temporary decline in yield isn't critical, but a long-term drop of 1% can reduce your retirement funds by a substantial amount.

Contact us if we can assist you in maximizing the benefits of your IRA.

week of June 7

My apologies that there has not been any Rule news recently. Your writer has been out of town as well as "under the weather" part of the time, too. Along with a cousin, we took another cousin to Dallas for a delicate eye operation. While we were there, Marguerite Anderson of Richardson took us out to Prayer Meeting at the Waterview Church of Christ of Richardson. Another night, Kathy Torok, Mrs. Mullins' granddaughter of Carrollton visited. Ms. Torok is an employee of American Airlines and has been to Greece, Australia and Hungary recently. Driving in that awesome Dallas traffic makes me appreciate living in a small town!

Belated sympathy is extended to the families of Mildred Howard of Hamlin, also the Steve Ezzell and Lance Pinkard's families of Rule.

Condolences, too, to the family of Cletus Gray of Stamford.

On May 29 Mrs. Mullins and Mrs. Anderson returned to Dallas to bring Milton Crow home from the hospital. He is doing well postoperatively.

\*\*\*  
Congratulations to all 1990 graduating seniors.

\*\*\*  
Best wishes for a speedy recovery are sent to Rayburne Oliver, who is a patient in St. Mary of the Plains Hospital in Lubbock. He had more surgery on Wednesday on his leg.

\*\*\*  
Mr. and Mrs. C. W. Dunnam have returned from a two week trip to Troy, Idaho. While in Idaho, they attended the wedding of a grandson.

## Marriage Licenses

Nine couples applied for marriage licenses last month at the office of County Clerk Woodrow Frazier.

Licenses were issued to:  
Esequiel Carranza and Maribel Zavala, both of Rhineland.

Jesse Gonzales Jr. and Sheila Michelle Williford, both of Rochester.

Joel Leroy Campbell and Lenda Fae Iley, both of Haskell.

Lupe Rios Jr. of Knox City and Norma Lea Garcia of Rochester.

J. B. Hatch of Portales N.M., and Florence L. Tribbey of Rule.

Stony James Trussell and Linda Michelle Whisenhunt, both of Haskell.

Johnny Silvas and Racheal Rubie Ashcraft, both of Haskell.

Terry Joe Brueggeman and Deborah Ann Parker, both of Haskell.

Cayce Todd Reed of Haskell and Patricia Dianne Carroll of Weinert.

Christi Spain

## Christi Spain best actress

A very successful high school drama experience was concluded recently as Christi Spain was named "Best Actress" at the state UIL one-act play competition.

Miss Spain played the lead in Sonora High School's production of "Shayna Maidel," a play by Barbara Lebow, which depicts the reunion of a Polish family in the aftermath of Hitler's Third Reich and World War II. The play was presented the third-place trophy at the state AAA contest.

This is not the first appearance for Miss Spain at the state contest, as she was named honorable mention all-star cast as a freshman in a play which was runnerup to the state winner in 1987.

In addition to her drama interests, Miss Spain is very active in the 4-H program, having been involved in the sheep project for 10 years. She was the high point judge of the National Wool Judging team in 1988. She serves as media information officer for the Texas State 4-H Council.

Christi is a senior at Sonora High School and will graduate as salutatorian of the 1990 class.

Her father, Hal Spain, graduated from Haskell High School in 1969, and after taking two degrees from Texas Tech University, lives in Robert Lee where he owns and publishes two newspapers, *The Observer/Enterprise* and *The Lone Star Roper*.

Christi's paternal grandmother is Gerry Spain, longtime Haskell resident and a retired teacher.
