## Mindy Ballard receives county's highest 4-H award

A 17-year-old Rochester High School senior received the county's highest 4-H club award at the annual 4-H county awards program Saturday night.

Mindy Ballard, daughter of Mr. and Mrs. Don Ballard, is recipient of the 1991 Gold Star award, which goes annually to one or two deserving Haskell County 4-H'ers.

To be considered for the honor, a student must possess excellent leadership and citizenship abilities, must have outstanding academic credentials and have church and community affair responsibilities outside 4-H club work.

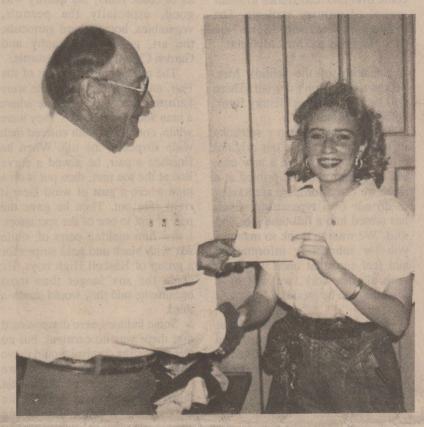

In recognition of her selection, Mindy received a Gold Star pin, courtesy of the State 4-H office, and a U.S. Savings Bond and a 4-H jacket, both courtesy of Home State Bank in Rochester.

In addition, she and her parents will be special guests at the Haskell County Homemakers Information Day Nov. 7, and also at the distict 4-H Gold Star banquet in Vernon

Nov. 18. Mindy has been a member of the Rochester Community 4-H Club for nine years. During this time she has been her club's reporter, treasurer and county 4-H Council delegate. She is currently serving her club as president and is one of her club's delegates on the County 4-H Council and one of her club's members of the County 4-H Committee. She is one of Haskell County's two delegates to the District 4-H Council for the 1991-92 4-H year. She also serves as a teen leader and shares her knowledge and 4-H experiences with younger

Mindy has always had a genuine interest in all aspects of the 4-H organization. During her 4-H career, she has carried a wide variety of projects, inleuding achievement, beef, child care, citizenship, clothing, foods and nutrition, leadership, livestock judging, pet care, recreation, sheep, showmanship, special interest, swine and teen etiquette. As a result of involvement in these projects she has participated in local, county, district and state contests. She participates in major livestock shows and was one of District 3's representatives to the State 4-H Fashion Show last summer.

Mindy also has represented the Haskell County 4-H at various activities. She has attended Teen Leader Lab in Brownwood and State

4-H Congress in San Antonio and in Austin. Last summer she participated in a District 4-H Council Leadership Training in Red River, N.M., and in the National 4-H Citizenships-Washington Focus in Washington, D.C.

Mindy is active in church activities. She attends the First United Methodist Church in Rochester where she willingly volunteers her time to various

activities of the church. She attends Rochester High School where she served as a class officer and has participated in UIL events, FFA and FHA. She is a cheerleader, plays in the band, and is a member of the annual staff. She plays volleyball, basketball and runs track.

She willingly volunteers her time to help with community activities. She has helped with projects to benefit the Rochester museum and has helped with citywide cleanup projects for the improvement of her community.

## Indians seek second victory in district

Hawley's Bearcats furnish the opposition for the Haskell Indians Friday night in round No. 2 of the district 7-2AA title chase.

It will be homecoming for the Indians and a 7:30 kickoff is scheduled.

Both Haskell and Hawley are smarting from victories registered in last week's district inaugurals. The 1-2-1 Indians came roaring

back from a 14-0 fourth-period deficit to capture a 15-14 vicory over Winters, while Hawley was defeating Jim Ned, 26-0.

Hawley stands 3-1 for the season, with victories over Roscoe and Baird, in addition to Jim Ned, and a loss to Throckmorton. The Indians have lost to Munday and Electra and gained a tie with

"Our boys didn't give up. I was real proud of them," said Coach Walter Hargrove on the game at

The Indians were trailing 14-0 in the final 10 minutes when Robert Huff returned an intercepted pass for a touchdown. Five minutes later they scored again and then won the game on Jason Torres' 26-yard field goal with 2 minutes to go.

Hargrove feels the win over Winters is a psychological boost for the Indians as they try to make it two in a row, something they haven't accomplished in three years.

## Frierson, Sullivan exchange vows

Deanna Frierson and Mark Sullivan were united in marriage during a candlelight ceremony on Sept. 28 in Slaughter Chapel at the First Baptist Church of Dallas.

Deanna is the daughter of Mr. and Mrs. Ervin E. Frierson of Haskell. She is the granddaughter of Mrs. E. M. Frierson of Haskell. Mark is the son of Mr. and Mrs. Pat Sullivan of Canyon.

The wedding was performed by Dr. Woodrow W. Dishongh of Little Rock, Ark., great-uncle of the bride. Soloist was Phil Bratten of Pittsburgh, Pa.

The bride's honor attendants were Suzanne Naylor of Mansfield and Connie Brueggeman of Haskell, both sisters of the bride. Serving as flower girl was Sydney Brueggeman, niece of the bride. Groomsmen were Bob Zlotnik of Houston and Mike Featherston of Austin. Ushers were Todd Kent and Jim Longmire, both of Houston.

For her wedding, the bride selected a designer gown by the House of Bianchi. The fitted sheath style gown was fashioned entirely

of white Alencon lace and featured a bateau neckline with a deep "V" back. Long fitted sleeves were of sheer lace and tapered to a point over the hand. The straight skirt fell from beneath a scalloped peplum at the waist. A chapel length train of white satin flowed gracefully from the back waist.

The bridal attendants wore floor length two-piece gowns by Watters and Watters of purple shantung. The tops featured short sleeves and hand rolled shantung rosettes down the front and at the back waist, and fit smoothly over straight skirts which complemented the bride's.

Deanna is a graduate of West Texas State University and is a certified public accountant employed by Maxus Energy Corp. in Dallas.

Mark graduated from the University of Texas and has his MBA from West Texas State University. He is manager of Planning and Analysis for Lifeco Travel Services of Houston.

The couple are currently on a honeymoon trip through Canada.

## -- Paint Creek--

By Mabel Overton

The Free Press didn't have room for last week's news, so they are going to warm it over and I am adding some more.

There is a new group on Paint Creek campus called "Spice", which stands for Student Progress Involves Creative Education.

It is made up of students who are not in Gifted and Talented. Right now they are studying apples. They learned the different variety of apples. They have cut different varieties after predicting the number of seeds each has. They are going to make apple sauce. They are to study sense matrix of apples, taste the things made of apples as apple sauce, apple fritters and apple pie. They will have guest speakers. Lou Gilly came and talked to them about soda pop and bottled drinks.

They are to study Spanish, law and medicine. Isn't that great? I wish I could join them.

Another new thing Mrs. Hobgood is starting is "Grandmother's Lap." We grandmothers will be invited to come over and read stories to small groups of primary students. The teachers involved with "Spice" are Mrs. Hobgood and Mrs. McGuire.

Speaking of the school, Mrs. Morgan said "Don't despair. There will be a Paint Creek History Book before Christmas."

She has had so many setbacks including the death of our original printer. She has found a new one, but in order to have it printed at a price we can afford, we are having to do our own typesetting which has turned into a full time job. She said "We want to thank so many of you for submitting information, and feel sure that once we finish with all the work, we will have something to be proud of."

The teachers have suggested that a wonderful memorial to a loved one would be a good book given to the Paint Creek Library in memory of a loved one.

To you dear, thoughtful Paint Creek people, the Overton family will be ever grateful for your love

and concern, and for the many things you said and did to ease the sorrow of Ray Jr., Margaret and Mary Margaret in the loss of Ray's mother, Laura.

They had planned to go back to Irving right after the funeral. But we talked them into staying until after lunch. Then Lyla Mary Isbell, Ruby Mae Middlebrook, Ann Sinclair, Violet Earles, Lou Kuenstler, Elva Kuenstler, Katsi McBeath and William Overton brought all this delicious food. We invited Ray Jr.'s three coaches to

They all seemed to enjoy it so much---and to appreciate you Paint Creek ladies. I packed boxes of food for them, to take home for supper.

Thank you.

#### (Held from last week)

The Haskell County Fair was a success, I guess. Financially it was a fiasco, and weather wise it was a muddy mess. But the Civic Center looked real nice, and although we didn't have nearly as many entries as in other years, the quality was good, especially the peanuts, vegetables, home-sewed garments, the art, good photography and Garden Club flower arrangements.

The most popular exhibit of the Fair, and where most people were gathered was at the machine where a man was weaving sox. They were white, cotton sox with colored inch wide stripes at the top. When he finished a pair, he sewed a curve line at the toe part, then put it on a pipe where a gust of wind blew it right side out. Then he gave the pair of sox to one of the spectators. I saw him making pairs of white sox with black and gold stripes for a group of Haskell High boys. He made the sox longer than most because he said they would shrink a

Some kiddoes were disappointed that there was no carnival, but no self-respecting carnival would move anywhere in the rainy weather we were having. One of the nicest things I thought was the Rochester Baptist Church booth. Just as one came in the Civic Center, they had a table with a container of cold

water, and a container of lemonade and paper cups. They offered a cup of cold drink to everybody. Behind the table were large posters the Bible School children had made last summer of Bible story scenes. Rochester's pastor is Paint Creek's own Truett Kuenstler and his pretty wife is our own Laverne.

One lady told me that Truett was the only pastor living in Rochester. The Methodist Church pastor commutes from Stamford and the Holiness Church pastor lives out in the country.

The 2nd grade students at Paint Creek each entered a drawing in the Fair and each one won a red ribbon. We think that is great, and when they are older they will enjoy entering at the Fair.

Older Paint Creek students Lee Ann Reel won Best of Show with a dress she made, and Halee Walton won a Reserve ribbon on a T-shirt and 2nd and 3rd with her lambs.

I am sure there were other winners, but I don't know them.

Paint Creek Community is one big mud puddle. We may have to rent boots to gather our gardens and cotton. Wallar Overton had on boots when he went into the garden for some okra and squash for the Fair and his boots sank down so deep he had to step out of them and pull them out of the mud.

We shouldn't complain-and we don't. We are wishing for rain more often than having too much. And this may not be too much. It may be just right.

Patty and Stanley Morton have a puppet ministry at the Paint Creek Baptist Church that meets at 6 on. Sunday night. It is geared for Junior High students and I was told that the young folks are surely enjoying it.

Jody Reel, son of Brenda and Ronnie Reel, was baptized last night at the Paint Creek Baptist Church.

Mrs. Evelyn Rogers who cared for Jess Mickler when he was ill is now helping care for Mr. Sammy Griffith.

Mr. and Mrs. Andy Ruzick from Levelland have moved their trailer home to Veda's Camp and they will move to Paint Creek when he

Aspirin-Still A Wonder Drug: Aspirin may be a greater wonder drug than we realized. One aspirin taken every other day has been shown to prevent heart attacks and reduce the chance of recurrent stroke in those who already have had one. Aspirin also appears to reduce the risk of colon and rectal cancer, cataracts, and gallstones. Finally, those who take aspirin regulartly seem to have fewer migraine head aches. However, taking the drug at higher doses and more often than every other day does not increase its benefits and may result in serious side effects.

# District director to be elected Oct. 8

Election of a soil and water conservation district director to serve Zone 3 in the Haskell Soil and Water Conservation District is scheduled for Oct. 8 at the SCS office at 1203A South Ave. E in Haskell. The election will be at 9 a.m.

State law decrees that to be eligible to vote in a soil and water conservation district director election, a person must own agricultural land within the district where the election is being held. The person also must live in a county, all or any part of which is in the district and the voter must be at least 18 years old.

A candidate must own land in the zone he represents, be 18 or older and be actively engaged in farming or ranching. He must also live in the county which is in the district. Soil and water conservation district directors serve four-year terms. The election is a convention election, meaning the election will take place when the meeting convenes.

Zone 3 includes an area that is the southeast portion of the county. Generally, it is the area south of

# Retired chaplain to preach

Chaplain (Col. Ret.) James R. Barnett will be guest preacher at the Sunday evening service at the First Baptist Church. The service begins at 6.

Licensed to preach in 1936 and ordained in 1938 in the First Baptist Church of Haskell, Barnett became an army chaplain under the auspices of the Southern Baptist Home Mission Board.

He served 27 years. His overseas assignments included Europe during World War II, Berlin and Landshut in Germany after the war, Korea and Japan.

Following his retirement, Barnett became associated with the Billy Graham Evangelistic Association. Now fully retired, he and his wife, Alma Carlton Barnett, live in San Antonio.

He is the son of the late Bob and Mary Barnett and is the brother of Tom Paul Barnett, chief of police in Haskell.

US 380 and east of US 277.

Present members of the board are R. V. Earles of Paint Creek, Steve Alsabrook of Haskell, M. W. Phemister of Weinert, Dan Wadzeck of Rochester and F. A. Ulmer of Sagerton.

Purpose of the Haskell SWCD is to promote sound soil and water conservation programs on agricultural lands within the district and to serve as a voice for farmers, ranchers and local community entities on conservation matters. The district board coordinates the conservation efforts of various local, state and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

All conservation programs managed by the district are of a volkuntary nature to the landowner or operator or other potential users of the SWCD's program.

## Students get teaching aids from GTE

Elementary school principals in local GTE serving areas have received two unique teaching aids that can transform GTE's "The Everything Pages" telephone directory into a potentially lifesaving textbook.

The teaching program for first through third grade students is titled "My Telephone Directory." It is designed to create an awareness of emergency information and reading skill-building that is also practical and fun through the use of the directory.

The second program is written for fourth through sixth graders. Called "Directory Detective," it is designed to create an awareness of emergency information, encourage a sense of control in crisis situations, provide practical answers to the challenges of daily living and develop problem-solving skills through the use of the directory.

Any teacher in the GTE servcie area interested in receiving either of the programs should call Gilbert Montez at (915) 949-9402.

In a world of constant change, there's one thing you can depend on if you value tradition: The Old Farmer's Almanac, America's oldest continuously published periodical. And like any time-honored tradition, the Almanac is treasured by millions of readers year after year.

This year, the 1992, 200th

biggest issue ever, packed with more than 300 pages of humorous anecdotes, facts, folklore and fascinating articles.

Between its covers, you'll find "A Colorful Collection of Candid Commentaries of Conscientious

anniversary edition of the familiar

little yellow periodical is the

20th-Century Celebrities: and "The Consumer's Guide to 1992."

There's a collection of hand-medown recipes representing 200 years of great cooking, including such traditional big hits as "Best-Ever

Pumpkin Pie."

You'll also discover entertaining
200th-anniversary contests to enter,
helpful gardening tips, charts of
sunrises, high and low tides,
planting tables and other useful

guides.

And, of course, there's the 80percent-accurate long-range weather
forecast that folks refer to for
planning everything from outdoor
weddings to how much salt the
highway department needs for the

forthcoming winter.

The Almanac was created by Robert Bailey Thomas in 1792 and sold in Boston bookstores for about nine cents when George Washington was president. The now-traditional yellow "four seasons' cover with Thomas' picture on it is an innovation that didn't appear until 1851, five years after he died.

Back then, as now, it was captivating and informative to read. Happily, the general format and type of material Robert B. Thomas established 200 years ago have remained basically unchanged through 12 editors, 22 publishers, 41 United States presidents, eight wars and 73,000 sunrises and sunsets.

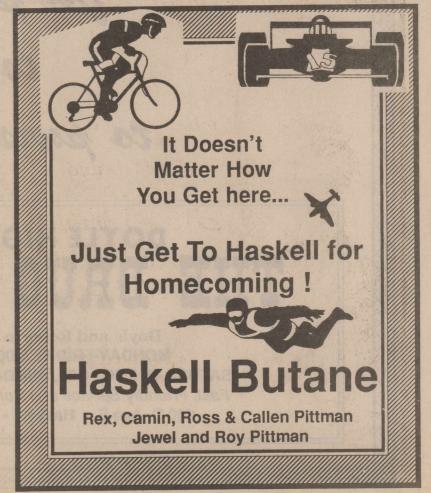

To this day, it remains a publication for anyone who loves trivia, folklore, fun facts and a good story to read on a rainy night. Through its very longevity, the Almanac has become an anchor against the confusion of day-to-day living. As Franklin Roosevelt wrote back in 1938, "The Almanac is one of those old institutions which is perennially young in the appeal which it makes. Today, President Bush describes it as "the journal of American tradition, as relevant today as it was 200 years ago.

If you're a fan of the Almanac, you might be interested in purchasing "The Best of The Old Farmer's Almanac," a book edited by the Almanac's editor Judson Hale and published by Random House. Hale says he spent a year reading every single page of each of the past 199 issues of the Almanac in preparation for editing this book.

## --- Letters to the Editor---

#### Love thy neighbor

Editor: There are few towns that I have lived in where I would feel it appropriate to write such a letter as this, but in Haskell I feel it to be especially appropriate.

We are a community of a religious people and most all of us want to believe that we are trying to follow Christ. At such a time as this in our community, it would be good for all of us to ask the question, "What would Jesus do?"

I have no idea whether he would be pro or con when it comes to the question of a new city hall. I do know he has definite views about our actions and attitudes toward our neighbors here in Haskell. This is a good time for all of us to stop and think about what we are doing and how Christ feels about it.

I am a newcomer in town, having lived here only four years. My family and I love Haskell. There are some very unique things in this community when compared to other communities. We have outstanding schools whose faculties and administration are first class. We have excellent medical care in our doctors, hospital and nursing homes. We have a rich blend of older and younger people in our community. There are more 90year-old people than anywhere I have ever been. At the same time, there is a strong and vibrant group of young adults in Haskell. We have an outstanding merchants association. We are a blessed

Haskell is also a town of high morals and strong values. It is one of the strengths of our town. We try to treat our neighbors like neighbors and like we want to be treated. Sometimes, though, issues arise and we forget our values and forget Christ in the process. This is not a plea for us to cease expressing our views or exercising our freedoms. This letter is a plea that we use our freedom in a loving way.

I know, respect and appreciate our mayor. I know many on the City Council and I respect and appreciate all I know. I also know many of those who oppose the new building and I feel the same respect and appreciation for every one of them

I don't know who is right about everything, but I do know that my neighbors, young and old, who are on both sides of the issue are outstanding people. I am proud to call them neighbors and friends.

As we proceed on whatever course we take in the future, it seems like it would be good for us to all remember what good neighbors we really have.

Dale Huf

#### Also concerned

Editor: I feel the need, for myself, to comment on the new city hall issue.

In the beginning I was a fence straddler---either way was all right. However, I leaned toward a new building because it would show progress, and I certainly want Haskell to be progressive.

My mind was changed when I began hearing comments around town and reading letters to the editor in The Free Press from the Concerned Citizens Committee.

I cannot go along with their pettiness to and intimidation of some of our citizens. There are many people who are "recent additions" to Haskell who have contributed much to our city for its betterment. Without new people moving here we will dry up and blow away. Also we need new businesses and industry to survive.

In the history of Haskell there have been many "ups and downs" and in each instance we had our pros and cons, as we do now. Remember Miller Creek? What a struggle it was for our young people and newcomers to get water.

Yes, it will take a little more effort and a little more money from Haskell citizens to keep Haskell from going downhill. Instead of "casting stones", ask youselves if you want Haskell to be here 50 years from now, or don't you care what happens when we're all dead

and buried? We need to consider future generations, whether they have "roots" here or are newcomers.

The city hall is just a step in that direction of caring. It will make a statement: "Look, we care what happens to Haskell."

Nancy R. Plunkett

## **Bad publicity**

Editor: If anyone is planning to move to Haskell for business or any other reason, or just for a nice place to live, I sincerely hope they don't read the "Letters to the Editor" in The Haskell Free Press.

The constant back biting and bickering gives our town a bad name all over the Big Country, if the circulation of the paper covers that much territory.

To be sure, we all have our complaints, and we have the constitutional right to voice them, but please let us not call names or deal in personalities.

If those people who have grievances would run for mayor or a seat on the City Council, they might be elected by a landslide if public sentiment remains as it is now. Then they would have the opportunity to try to please everyone.

"T" Jackson

## TAX PLANNING

## CHECK YOUR DEPENDENTS

You are allowed a deduction of \$2,150 for each dependent this year (unless subject to the phase-out for high-incomers). Therefore, knowing who qualifies as your dependent could cut your tax bill.

To be claimed as your dependent, an individual must meet five tests:

• Gross income test. The dependent cannot earn more than the personal exemption amount (\$2,150). However, if the dependent is your child, there is no income limit as long as the child is under age 19. If the child is a full-time student for at least five months out of the year, there is no income limit until age 24. Tax-exempt income, such as nontaxable social security benefits and municipal bond interest, is not included as gross income for purposes of this test.

included as gross income for purposes of this test.
• Member of household or relationship test. The dependent must either live in your home or be closely related.

• Citizenship test. The dependent must be a resident of the U.S., Canada or Mexico, or be a U.S. citizen or national.

• Joint return test. The dependent, if married, cannot file a joint return with his or her spouse, unless a joint return is filed just to get a refund for withheld taxes.

• Support test. You must pay more than 50% of the dependent's expenses for the year. Support includes all funds (except from certain scholarships) that were actually spent during the year.

Even if you can claim a dependent, you may not get the deduction. Deductions for you and your dependents begin to be phased out when your adjusted gross income exceeds \$100,000 if you're single or \$150,000 if you are married.

Planning will enable you to maximize your dependency deductions.

Contact our office if you have questions or feel a review of your dependency exemptions is in order.

#### Dear Former Members of Pinkerton Baptist Church:

We are excited about having a Homecoming on Sunday afternoon, October 6, from 3 to 5:50, in the Community Room of the First National Bank here in Haskell.

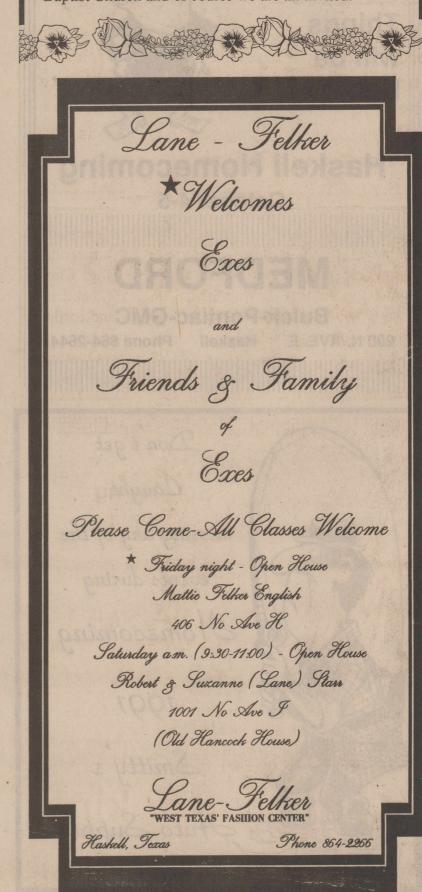

It will be wonderful visiting-and-"Catching Up"-with people kind of meeting. A few words of welcome may be spoken; Coffee, Punch, some Nuts and Mints and Cookies will be served. Remember how we used to linger after the services out there in the country between Rule and Haskell. I can almost feel it! We count on you to be there.

Bob and Alma Barnett from San Antonio will be here, and we hope some others who have come to the school Homecoming. This invitation is to you and your families, and anyone to whom you can get the word, former members and friends of Pinkerton.

At 6 O'Clock Sunday night, October 6, Chaplain Barnett will preach in the evening service of the First Baptist Church and of course we are all invited.

## Indians roar back to edge Winters, 15-14

Jason Torres won't forget this one. Nor will any of the other Haskell Indians.

The 145-pound Haskell sophomore split the uprights with a 26-yard field goal Friday night to give the Indians a 15-14, comefrom-behind victory over the Winters Blizzards.

The victory, the Indian's first after two losses and a tie, gave Haskell a 1-0 record in the infant district 7-2A season.

Exactly two minutes remained in the game when Torres' kick hit the mark. The Indians had gained possession at the 6 after Winters failed to get off a kick when a fourth-down snap went over punter Russell Parramore's head and he recovered at the 6.

A 15-yard penalty set the ball back to the 21. After Cody Josselet picked up 6 yards, Mart Guess hit Jonathan Tatum with a 5-yard pass to the 9. When Josselet picked up another yard, it left the Indians with fourth and goal from the 9. It was then that Haskell elected to go for the field goal. The low kick barely cleared the crossbar, but it counted just as much as a perfect 50-yarder.

Winters had gone out front with touchdown in each of the first two quarters, each followed by a successful kick. The 14-0 margin held up until the 10:10 mark of the final period when Robert Huff intercepted a pass at the Winters 21

and ran it back for a touchdown. Torres' extra point kick missed the mark after the Indians were penalized 5 yards, but it was obvious that momentum of the game had shifted to the Indians.

After forcing Winters to punt following the ensuing kickoff, the Indians took over on the Blizzard 47 after Torres returned the Winters punt to that point from his own 38.

Torres gained 5 yards, Josselet ran for 10 and Torres picked up another yard to the 31. Mart Guess found Tommie Isbell on a 27-yard pass to the 4. Josselet gained 2 and Torres got 1 yard to put the ball on the Winters 1. When a handoff from Guess to Josselet fell on the ground, Brant Breeden fell on the loose ball in the end zone for a touchdown with 5:10 left in the game. The Indians went for 2 points to tie the game, but Guess' pass fell incomplete, so Haskell remained on the short end of a 14-

Torres' game-winning field goal came on the Indians' next possession. Winters attempted to pull the game out after the Indian kickoff. From his own 26, Albert Bernal passed 26 yards to Johnny Rodriquez and a 5-yard penalty moved the ball to the Indian 37. Jody Guy ran 11 yards to the 26. Aftrer an incomplete pass, Guy had runs of 2 and 3 yards to move the ball to the 21 where the Blizzards faced a fourth down. With time running out, Jamey West tried a 37yard field goal, but the kick was short of the mark so the Indians took over with 33 seconds left.

Winters' first touchdown had come on the Blizzards' initial possesion following the opening kickoff. It took the Blizzards only six plays to move 71 yards for the score, the touchdown coming on Roman's 39-yard run. West kicked the extra point with the clock reading 9:04.

Things looked pretty gloomy for the Indians after they fumbled the kickoff back to the Blizzards at their own 31 but the Indian defense held and the Indians took over at the 32.

Winters' second touchdown came midway through the second period when Roman passed to Brandon Boles for 6 yards to climax a 70yard drive, highlighted by Roman's 51-yard run.

## Rochester clouts Newcastle, 58-13

Unbeaten Rochester chalked up victory No. 4 Friday night with a 58-13 win over the Newcastle.

The Steers scored on their first play from scrimmage when Robbie Strickland ran 60 yards for a touchdown. They scored once again in the first period, added three touchdowns in the second, one in the third and two in the fourth before the game was aborted under the 45-point rule with 6:24 remaining.

Newcastle scored on Robbie Blair's 65-yard kickoff return following the Steers' first touchdown, but after that it was all Rochester.

Mark Brown ran 42 yards for the Steers' second first-quarter touchdown. In the third period, the Steers scored on Strickland's 40yard run and on runs of 42 and 37 yards by Brown to build up a commanding 38-6 halftime lead.

Newcastle scored in the third

period on a 2-yard run by Jeff Hobbs, but Srickland countered with a 2-yard TD of his own. The Steers completed the scoring in the final period on a 45-yard pass

from Chris Conner to Kurt Sloan and a 4-yard run by Kyle Hollingsworth. For the night, Brown rushed 10 times for 189 yards and Strickland

12 times for 170 yards. Hollingsworth carried 7 times for 97 yards.

Sloan led in tackles with 13.

The Steers will have an open date this week. Next week, they

(Held from last week)

by Vicky Anderson This is definitely the wettest September in your writer's memory. In fact, an article in the Haskell Free Press last week stated: "At its current pace, 1991 will be one of the five wettest years in four decades for most of Texas." The

Deepest sympathy is extended the family of Jim Pierce of Rule. Also, to the family of Ruby J. Mueller of Stamford.

cooler weather is nice, isn't it?

It was nice meeting Weldon Norman recently as well as renewing acquaintance with Opal Grice, Betty Landreth, and visiting briefly with Oleta Cornelius of Rule; also Edith Pierce of Old Glory.

Back to Mr. Norman He told us quite an interesting tale about 'Texas' Longest Treasure Hunt", which will probably be published soon in the Twin Cities News.

Your writer went to Abilene on Thursday night with a daughter and her family. We stopped by Danny, Nikki and Luke Kittley's where Tori Jenkins and her friend, Sarah Greer of Chattanooga, Tennessee were also visiting. The group went out to eat at The Towne Crier, celebrating the birthdays of my daughter, and of my granddaughter Nikki Kittley. Afterward, we returned to the Kittley's apartment at Smith-Adams Dormitory, had birthday cake, and played a fun game: Taboo. This has been birthday week for your writer as the 17th was the birthday of the oldest daughter, Diane DeLoach of Wheaton, Illinois.

Sincere sympathy is extended to Dela Faye McLain and her family upon the sudden death of her sister from Arkansas. Bob and Dela Fave went to Arkansas for the funeral. More information will be found

## Classes install officers

The Fidelis and Ruth Sunday School classes of the First Baptist Church had a salad supper, followed by the installation of officers, on Tuesday, Sept. 24.

The supper was held in the classes' rooms at the church. Round tables were centered with bud vases holding fall flowers. The serving table was covered with a cloth belonging to Lois Sherman. The cloth was made in Brazil and was a gift from daughter and son-inlaw, Sherri and Don Richards, Southern Baptist missionaries in

Randy McLelland, accompanied by his wife, Robbie, sang "On the Wings of a Dove." Lee Burnett installed the following officers, using "The Bible" as her theme:

Departmental officers: director, Susie Kreger; assistant, Violet Earles; outreach leader, Alice Wootan; secretary, Ozelle Frierson; assistant, Sarah Hodge, song leader, Iola Henshaw; pianist, Ellen

Teacher for the Fidelis class, Billie Cadenhead; president, Frances Lane; vice president, Earmel Bevel; secretary, Ethel Lou Shelton; treasurer, Lorene Adams; reporter, Lois Redwine.

Teacher for the Ruth class, Mary Martin; president, Mildred Robertson; vice president, Emma Franklin; secretary-treasurer, Sarah Hodge; recording secretary, Gladys O'Neal. Assistant teacher for both classes, Linda Burson.

## Teenager finalist in pageant

Cynthia Halliburton has been selected as a finalist in the America's Miss National Teen-Ager Pageant, West Texas region.

The pageant is designed to recognize outstanding young ladies and to aid them in gaining selfconfidence, poise and scholarship assistance. Family unity and personal character is emphasized and many prizes (scholarships) are based on voluntary community service, scholastic achievement, poise, personality and appearance.

Cynthia is a sophomore at Haskell High School. She is a member of the Indian Band and Student Council and is a news editor on the War Whoop staff. She also is a member of East Side Baptist Church.

Cynthia is now seeking sponsors and advertising for the program. The pageant will be May 29-31 on the campus of Wayland Baptist University.

## WTU announces reduction in rates

Customers of West Texas Utilities Co. have some good news in the form of lower costs for electricity beginning with October bills. The lower costs are produced by a one-time credit and a reduction in the fuel cost portion of the bill.

"Our continuing efforts to lower boiler fuel costs and related transporation costs were successful and prompted the reduction," said Gene Rhoads, WTU's Haskell manager. "Those efforts incude renegotiation of supply and transportation agreements, construction of a gas pipeline to the Fort Phantom power station near Abilene to provide better access for supplies, and improvements in the efficiency of some plants so they burn less fuel to make electricity.

The credit will be issued on customer's electric bills during the billing month of October. An average residential customer using

660 kilowatt hours of electricity will see a reduction of \$13.17 on the bill that month. The actual reduction for each customer is based on the previous month's use of

The reduction in the fuel portion of the electric bill will be in effect for all upcoming months. According to Rhoads, it will mean an average 3.5-percent reduction from costs last year.

The Public Utility Commission of Texas (PUCT) recently granted the company's request to reconcile fuel costs for April 1987 through December 1990 and adjust the fuel portion of the bill to recover projected fuel costs. WTU filed the request last February.

West Texas Utilities Co. serves 177,000 customers in a 52-county area that stretches from the Red River to the Rio Grande.

## Notes From The Rolling Plains

Note: The following is one of a series of stories by noted wildlife photographer Wyman Meinzer offered by Haskell Save-A-\$ for your enjoyment.)

A proprietor of the sutlers store at Ft. Griffin during the late 1870's, Frank Conrad was privy to seeing different grades of men pass through his doors during a wild phase of Texas history. Soldiers, cowboys, outlaws, wolfers, and buffalo hunters purchased his goods during those tumulous years before Ft. Griffin passed into history in 1880. Perhaps the most memorable of all were the wild and filthy buffalo men who came to purchase their wares of destruction during the great slaughter from 1875-79. Conrad's first hint of the great kill in Texas came when, one fall day, a tall, bearded man in overalls walked into his store and asked if he had any gun powder. Conrad's impression was that the stout, red faced Kansas hunter wore cloths smeared in buffalo tallow. A long ripping knife and steel hung from his waist, along with the largest cartridge belt he had ever seen. In the hunter's hands hung a heavy Sharps rifle, probably a 14 or 16 pounder used by many of the professionals of the time. The hunter asked for about 50 pounds of powder, leaving Conrad speechless. He had only about 25 on hand. "If you can't get it for me here, I'll get it somewhere else", said the man. Conrad promptly ordered several 25 pound kegs to be delivered within a week or so. This was Frank's first inkling that the slaughter of the Arkansas herd had finished and the southern herd was about to begin. Little did he know that in the ensuing four years he would outfit hundreds of men of this caliber as they hurled a rain of lead into the buffalo herds in the rolling plains and panhandle. During one busy day he would sell over \$4,000.00 worth of goods to these men, most of that amount in rifles, lead and powder. Considering that one big Sharps cost 46.00, one can imagine the number of professional hunters that darkened Conrad's doors during the "big kill". For example, Joe McCombes drove his wagons and teams away from Griffin with a ton of powder and lead. This wagon of death had only enough reloading components for a few months of shooting. During a 2 1/2 year period Conrad sold 182 Sharps rifles to the hunters from the buffalo range to the west. Little did he know that the over 115 later, one of the old Sharps would once again darken the doors of the old store ruins. Some friends and I would be the honored attendants on that day in September 1991 as a rifle sold by Frank Conrad returned to Fr. Griffin where it was sold in

## A message from the ABILENE EYE INSTITUTE CATARACT SURGERY CENTER **DEDICATED TO EXCELLENCE**

We specialize in cataract surgery with intraocular lens implant and routinely use the small incision phacoemulsfication technique. We have 2 modern, fully equipped operating rooms each with its own Zeiss operating microscope and Phacoemulsifier. We also have an observation room so that family and friends may view the surgery while it is happening. Our ambulatory surgery center is State licensed and Medicare approved. We have performed over 3,000 cataract implant operations since 1987. Our doctors accept Medicare Assignment and we think you will find our fees very competitive with most hospitals. Our friendly, dedicated staff is available to answer any of your questions. If you need transportation, we can help.

## "DECISIONS MADE EARLY"

Many people plan for what

Simply come by or call and we

will come by to see you.

might happen-fire, burglary, injury, and accidents. Now more and more people are planning for what will inevitably happen. It simply makes good sense to prepare for that which we can not avoid.

Pre-need funeral arranging allows one to control the type of service they would prefer, select a means of financing it, freeze the prices at todays price, and save loved ones the anguish of deciding these matters at a later date. Really it is the loving thing to do for your family.
