

Mr. Muleshoe ...

By J. M. FORBES

A speaker at the Muleshoe Rotary Club last week surprised some when he declared that communities should be well on their way toward planning their civilian defense. "We of the Armed Forces will do our best to see that no bomb falls on American soil," he said.

But, he pointed out, in the worst days of the bombing of London, the gallant Royal Air Force and ground defenders were able to keep out only 10 per cent of the invading German planes. He said it is believed that our defenses can be tightened to the point that we can keep out 30 per cent. It is up to the civilians to defend their communities so that the effects of bombing or a bomb blast may be lessened.

Armed Forces Day served to emphasize the need for civil preparations for a war that may or may not come. The speaker said provision should be made to continue the essential services — fire fighting, electricity, water, etc. — which may be impeded or even knocked out by an A bomb blast.

Muleshoe may seem too insignificant for the enemy to waste effort upon, still it is felt that an ounce of prevention is worth a pound of cure and that a stitch in time saves nine. Very important also is the education of all of us in first aid practices.

Now, in Amarillo, The Daily News has a banner headline: "5,000 Civil Defense Volunteers Needed Here." Amarillo's plans for an emergency are beginning to jell, the paper declared. It is not too soon, neither is it nonsensical for all of us in Muleshoe to begin to think along these lines. We are not in a critical area as Amarillo is, because of her military and industrial installations, but our lives and property must be protected if possible. We have been told that we may avoid unnecessary loss of property and life by taking time by the forelock and making ourselves ready for an eventuality that we sincerely pray may never materialize.

Alsop Insurance Representing New Spraying Firm

Alsop Insurance Agency, representing the Gordon Bros. Aerial Service of Arlington, Texas, is announcing the expansion of the firm and the opening of the branch office in Muleshoe to serve the spraying and dusting needs of the farmers in this area.

This company is completely equipped to do all types of spraying and dusting including spreading of insecticides on all farm crops, cotton defoliation, and sagebrush and mosquito control. They use the control methods recommended by A. & M. College of Texas.

J. L. Alsop, one of the owners of the firm, stated that the production of cotton could be increased by using early season control on flea hoppers which nips the small squares of the cotton as soon as they begin to appear. Other controls possible are aphids, spiders, boll weevils and bollworms of cotton and corn borers which all but ruin patches of corn.

These planes will be here 12 months out of the year and during the periods of heavy infestations each year as many planes as available to serve this area will be needed.

Each year the Gordon Bros. expanded to serve the Rais area and sprayed some 50,000 acres in that vicinity. Loyd Alsop, who is representing the Gordon Bros. here, states that the spraying fee is very reasonable, and invites everyone in to attend them and find out added information about the advantages of aerial spraying and dusting.

Farmers may furnish their own insecticides or buy them from the company at wholesale costs.

5 Inch Rain Floods Muleshoe Streets

Several people in this residential area between Avenue C and the highway on West Second Street had to move to higher ground from the rain on May 15. This view is looking from the highway south down Second Street. Notice how high the water is in Willson-Sanders Lumber Co., at the right of the picture.

The John Gammons farm on the Plainview highway was also covered with water. Water overflowed the stockyards and field on the right side of the barn. Water in the yard by the house (left side of picture) was from two to three feet deep.

Texas Rebekah Assembly President In Official Visit To Muleshoe Lodge

Myrtle Russell, president of the Rebekah Assembly paid her official visit to Muleshoe Rebekah Lodge Tuesday night, May 15, in joint meeting with Needmore 160, Morton 39, Levelland 5, and Littlefield 61. The president's theme was carried out in the decorations. There was a gateway behind the lodge, Grand and Vice Grand stations, entwined with greenery and red roses with the word "Opportunity" in gold letters at the top of the gate.

Other officers introduced were: Thelma Gage, president of L. A. P. M. of Texas; Pauline Hudson, secretary to the president; Jewel Humphries, Assembly Chaplain; Fay Lambert, district supervisor.

The lodge deputies were also introduced from Littlefield, Morton, Levelland, and Muleshoe. Other visitors were Myrtle Lee Hollis of Electra 150, and Gertie Lewis of Lamesa 90.

Clytie Dial presented the president a corsage of red roses from the Muleshoe Lodge, and four pieces of sterling from Muleshoe, Morton, Needmore, Levelland, Littlefield, and Earth Lodges. The president made an inspiring talk which was enjoyed by everyone present.

Refreshments of lime sherbet, cup cakes decorated with roses and salted mints were served from a lace covered table centered with a crystal bowl of white carnations. There were 60 members and visitors present.

Pool Relatives Killed In Crash

Two relatives of the Pool family were among the five victims of the tragic automobile accident which occurred midway between Tahoka and Brownfield Monday night.

Mrs. D. T. Rogers, 68, of Tahoka, one of those who lost their lives was the wife of a brother of Mrs. W. M. Pool, Sr. of Lubbock, mother of Lee and Myron Pool of Muleshoe.

Mrs. Calvin Edwards, another of the dead was the daughter of Mrs. Rogers and is a first cousin of the two Pools. Members of the Pool family attended services held in Tahoka Wednesday.

Others who died of injuries received in the accident were Mr. Calvin Edwards and Mr. and Mrs. Samuel E. Riley of Lamesa.

Wagon Rites Were Conducted Here Saturday

Funeral services for Frank M. Wagon, Sr., were conducted from the Muleshoe Church of Christ Saturday afternoon, May 19, at 2:30 o'clock with the minister, Ebb Rando, officiating. Interment was in Lazbuddie cemetery under direction of the Muleshoe Funeral Home.

Mr. Wagon passed away in the Veterans Hospital in Amarillo Thursday, May 17, after having been admitted on Monday. He had been in ill health a long time and had been confined to his bed for four months. Mr. Wagon, who was 58, was a veteran of World War I and served overseas in France with the American Expeditionary Force.

He was born May 16, 1893, in Comanche County, Texas. He moved to the Lazbuddie community in the early thirties and farmed there until 18 months ago when he and his family moved into Muleshoe.

Mr. Wagon became a member of the Church of Christ in 1920 and had always been a faithful member.

Mr. Wagon was married to Curtis L. Wagon in 1923 at Lorenzo. To this union was born one son, Frank M. Wagon, Jr., who passed away August 17, 1937, at the age of 12.

Mr. Wagon is survived by his wife, Mrs. Curtis Wagon, of Muleshoe, and their children, Buck Witt, Portland, Ore., Mrs. Hershel Bravley, Hobbs, N. M., and Mrs. Velma Keetch; and the following brothers and sisters:

F. C. Wagon, Lazbuddie; E. M. Wagon, Beatty, Nev.; Mrs. Mae Armstrong, Sidney, Texas; Valter Wagon, Fresno, Calif.; Mrs. Earl Barron, San Benito, Texas; W. B. Wagon, Mrs. George Johnson, B. H. Wagon, and Vance Wagon, all of Muleshoe.

Pallbearers were W. B. Wagon, Jr., Dixon Wagon, Joe Mack Wagon, Joe Pat Wagon, Billy Wayne Wagon, and Billy Maples. Honorary pallbearers named were C. M. Baker, Albert Carrol, Walter Burford, John Garrett, Glenn Dunn, and Murray Lemons.

Bill McDanel Addresses More Than 200 At Jaycee Installation Banquet

More than 200 persons were guests of the Muleshoe Junior Chamber of Commerce at their installation dinner and dance last night at the American Legion Home here. Jaycees from all over Region II, local businessmen, city and county officials, and members of the local Junior Chamber of Commerce, and wives, heard an inspiring Memorial Day Address delivered by Bill McDanel, of Dallas, immediate past president of the Texas Junior Chamber of Commerce.

The invocation was given by June Wagon and during the dinner hour Weldon Bright played organ selections. Master of ceremonies was Dr. B. R. Putman of Muleshoe, a candidate for vice president of this region.

Out-of-town guests were introduced by M. F. Blackman, immediate local past president. Paul Gardner introduced the local guests and city and county officials.

Special guest of the Muleshoe Jaycees was Jerry Sanders, state committee chairman on Americanism, from Levelland, who brought an Americanism address as a special part of the program.

Ike Johnson, national director from Levelland, installed officers for 1950-51. New officers are Clio Middlebrooks, president; Roy Howard, first vice president; Bob Harvey, second vice president; Dr. B. R. Putman, secretary; Connie Dale Gupton, treasurer; Irvin St. Clair, state director; and Travis Barnett, parliamentarian.

New directors installed were M. F. Blackman, immediate past president, Carroll Howell, David Weyer, Bennie Chapman, Gerald Priboth, and Aredell Robinson.

Dancing followed the program with music by Weldon Bright and his orchestra of Amarillo. Banquet chairman were: M. F. Blackman, general chairman; food, June Wagon and Gerald Priboth; decorations, Aredell Robinson, Myron Pool, and Clio Middlebrooks; entertainment, Ernest Kerr and Travis Barnett; and program, Paul Gardner and Bennie Chapman. Assisting in the decorations were the wives of several Jaycees.

ON TRIP TO COLORADO Mr. and Mrs. Dudley Malone and children, Kay, Wayne, and Patricia English are spending several days in the mountains of Colorado near Denver.

Rotary Banquet Plans Are Made

Plans were made Tuesday for the ladies night banquet of the Rotary Club of Muleshoe when a report of an arrangements committee was accepted by the club. Bud Holton, D. L. Morrison and E. O. Baker were members of the committee.

The banquet will be held in Fellowship Hall the evening of June 26. It will be the occasion for the installment of new officers. Rotarians of Sudan, Littlefield, Hereford, and Clovis will receive special invitations as will local officials.

President Ray Keeling will direct program arrangement and he appointed other committeemen as follows:

Printing programs and tickets, J. M. Forbes.

Favors, Woodie Lambert.

Ticket sales, welcome, etc., Arnold Morris.

The secretary reported there were only two absentees for the meeting this week and for last week there was a 100 per cent attendance. Likely the two absent this week will make up their attendance before the next meeting.

Herb Covin had charge of the program Tuesday and introduced Capt. Woodie Green of the Air Force, who discussed that branch of the Armed Forces in an entertaining manner.

Saturday Is Poppy Day Here

Members of the Auxiliary of American Legion Post No. 403 of Muleshoe will sell poppies the coming Saturday, May 26. There will be a stand in front of the Western Drug Store.

Mrs. Houston Hart, president, said that these poppies are made by disabled veterans, not only by veterans now in Texas but by Texas veterans. They use this money for recreational purposes and therefore the Auxiliary ladies are anxious to raise as much money as possible for these veterans.

Softball Team Defeats 3-Way

Muleshoe's softball team is off to a good start for the new season with a win over the Three Way Baptist Brotherhood team Tuesday night, 24 to 3.

Orvil Lawless, on the mound for Muleshoe, allowed only 1 hit, but unfortunately this was a home run and an error and a walk had already placed two men on base.

Other first round games in the softball league resulted as follows: Morton Olds 5, Morton Philips 12; Three Way School 5, Arm Motors Morton 9; West Side Morton 19, Reynolds Tire 12.

All games are being played at Morton because that town has a lighted field. The local boys are planning to play every other Sunday afternoon here, alternating with the Capitol League baseball team, also have plans to promote a lighted field here with the help of a local organization.

Players on the Muleshoe team included: Arnold Gross, c; Fred Johnson, cf; J. E. Wilhite rf; Orvil Lawless, p; Duncan 3b; Temple Carter, 2b; Bill Sloan, 1b; Burden ss; Harold Cowan, lf; and H. B. Flanagan, Marion Waggoner, Welch, Bell Chaplin, and Harold Freeman, utility.

MAURINE WILTERDING IS GRADUATED AT McMURRY

Maurine Wilterding, daughter of Mr. and Mrs. Mervin Wilterding received her Bachelor of Arts Degree from McMurry College in Abilene, at the twenty-fifth annual graduation exercise, Tuesday morning, May 22.

Maurine majored in Religion with a minor in English. During the past four years she has participated in many activities holding offices in Christian Foundation, Volunteers, and Kappa Phi, a social club of which she is a member. She was also a member of the Wah Wahtoy Service Club, Art Club and was Football Sweetheart of '51.

Maurine has now accepted the position of Religious Education Director of the St. Paul Methodist Church at Las Cruces, N. Mex.

\$75,000 In School Bonds Voted And Sold, Work Begins Soon

Mooney Funeral Rites Conducted

Funeral services for Mrs. Julia Beatrice Mooney were conducted at the Y. L. Methodist church at 11 a. m. last Saturday, May 19.

Mrs. Mooney died at Amherst Wednesday, May 17. She was born Nov. 8, 1867, in Corinth, Miss., and was 83 years, 6 months and 9 days old at the time of her death.

Survivors include the following children: Lane Mooney, Hood River, Ore., Iva Porter, Hood River; Mrs. Mary Loe, Hepler, Ore.; Mrs. Nineta Scott, Fairfield, Texas; and Frank M. Mooney, Muleshoe, Texas.

Other survivors are two sisters, Mrs. W. D. Leard, Brinkley, Ark., and Mrs. Vannie Hubbard, Lubbock.

Pallbearers were Mervin Wilterding, Louis Norwood, Cecil Buhman, Clyde Buhman, Leon Lewis, and W. T. Millon. Interment was in Tahoka, Texas, cemetery under direction of the Muleshoe Funeral Home.

Hospital News

Medical patients the last few days include: Albert Carroll, Muleshoe; D. J. Kelley, Portales; Daniel Lollis, California; visiting his grandfather, J. A. Wimberly; Mrs. John Mock, Muleshoe; Mrs. W. L. Hannum, Muleshoe; Mrs. Russell Buhman, Muleshoe.

Mrs. Karl L. Lovelady underwent minor surgery.

Mrs. J. R. Moore was treated for a broken hip and has been dismissed. Mrs. M. A. Dodson, Santa Paula, California, injured in an accident last Wednesday near here, was discharged Monday.

Vick Spivey, son of Mr. and Mrs. Curtis Spivey, underwent a tonsillectomy Monday.

Eugene Maxwell, son of Mr. and Mrs. V. E. Maxwell, underwent a tonsillectomy Monday.

CONGRATULATIONS TO: Mr. and Mrs. B. F. Locke on the birth of an 8 lb. daughter, Pamela Delora, May 21.

Mr. and Mrs. M. O. Howard on the birth of a son, Charlie Lee, 7 lbs. 8 ozs., May 22.

Mr. and Mrs. Wesley Hawkins, on the birth of a daughter, 8lbs. 8ozs. LaDonna Paulette, May 16.

Mr. and Mrs. Kenneth W. Miller on the birth of a son, 7 lbs., Jackie Wayne, May 23.

Vehicles Must Be Inspected

AUSTIN, May 22.—Homer Garrison, Jr., Director of the Texas Department of Public Safety, has announced that preliminary plans are under way for the administration of the State's new Motor Vehicle Inspection Act.

Recently passed by the 52nd Legislature and signed into law by Governor Allan Shivers, the act, which is designed to enhance traffic safety by removing unsafe motor vehicles from the highways, will become effective 90 days after the adjournment of the 52nd Legislature.

According to Garrison, an additional period of about 60 days will be required to complete the organizational details of the inspection division which, by law, will fall under the supervision of the Public Safety Department.

Garrison stated that garage owners and other individuals interested in making application for official inspection stations in their areas may do so by writing directly to him at Austin. The proper application blanks will be mailed to those making inquiry as soon as they are available. Those selected will be subject to a thorough examination of facilities and equipment and will be instructed in further details. Garrison further stated that no testing devices have yet been approved and that it was not advisable for applicants to purchase such equipment until his Department has set up the official standards for such devices.

ASSESSING TAXES

Conlie Gupton, school business manager is out this week assessing taxes for the district. He has recently completed taking the school census and says there are a few more pupils in the district than were counted last year.

RODEO BOOSTERS VISIT

Boosters of the Bar None Rodeo which will be held in Plainview May 31, June 1 and 2, paid Muleshoe a visit this morning.

School district bonds in the sum of \$75,000 were sold Tuesday night by the board of trustees at a straight 3 3/4 per cent rate of interest. Representatives of four bond buying companies came to distribute the bonds among the four firms.

The bonds were authorized by a majority of the district tax payers who voted in an election held last Saturday in Muleshoe. The vote on the issue was 112 for, and 66 against.

Jack Lenderson, president of the board, told The Journal this morning that, although it may take six weeks for the legal requirements to be met so that the money will be made available, it is hoped that arrangements can be made to start the work at once, so that all will be completed when school again opens in the fall. This afternoon the board will meet and decide exactly what work will be done in the junior high school building. Details of this remodeling will be published later.

The bonds also will provide money to build three more class rooms at the grade building and to purchase equipment.

Golf Meeting Friday at 7:30

It appears that Muleshoe will soon have a golf course, and all details will be explained at a meeting to be held Friday evening at 7:30 at the Wood Drug.

Everyone who is at all interested in helping to build the course or in playing golf, men, women, or children, is invited to attend this meeting.

Plans call for building a 9-hole course on the east end of the city property on which the airport is located. The course already has been staked out and it was said the par for the 9 holes likely will be 35. Sand greens likely will be used, but if enough people join there will be enough money to build grass greens it is believed.

These and other details are to be gone over at the meeting. So those who want to learn about the golf just come on down to the drug store at 7:30 and join right in.

The golfing ladies of Muleshoe already have organized their association. Many ladies and men, too, have been going to Clovis a time or two each week to play their favorite outdoor game.

Area Students Get Degrees At Texas Tech

LUBBOCK, May 22.—Texas Technological College held graduation ceremonies for 943 students receiving either the Bachelor's or Master's degrees at 8 p. m., Monday, May 21.

Main speaker at the commencement exercise was James Finckney Hart, Chancellor of Texas University.

Dr. Umphrey Lee, President of Southern Methodist University, delivered the Baccalaureate sermon Sunday.

Marvin William Grandy, B. S. in Animal Husbandry; Cecil Calvin Mardis, B. S. in Animal Husbandry; Maurice Mac Crowder, B. A. in Chemistry; Jack Dale Young, B. A. in Government; Margie LaRue Moore, M. of Education, all of Muleshoe.

James E. Layton, B. S. in Animal Husbandry, Enochs.

L. J. Sanders, Jr., B. S. in Petroleum Engineering, Baileyboro.

Fine Services In Nazarene Revival

Good services are reported in the revival being conducted at the Church of the Nazarene in Muleshoe by Rev. Sidney Patrick, pastor. For the cov. Sunday there will be special services, the pastor's recall and the communion service, so all are urged to be present and enjoy these fine services.

Rev. Patrick said the Vacation Bible School will be held beginning June 4 and continuing through June 9. Further announcements concerning the school will be made later in The Journal.

Beware Of Poison Ivy

AUSTIN, May 20. —Poison ivy infection varies according to Dr. Geo. W. Cox, State Health Officer. Sometimes there is only a slight redness of the skin, at other times there will be aggravated swelling and blisters covering large areas of your skin. In mild cases the skin is covered with numerous small blisters.

Poison ivy flourishes in the woods or in the open, in dry or moist locations, and it is particularly abundant along fence rows, paths, and roadways, often climbing posts and trees to considerable heights. While there are a great many plants which may irritate the skin of susceptible persons, most of the cases of plant dermatitis in Texas are caused by poison ivy.

It is impossible for the average person to learn to recognize all the plants which are known to be skin irritants but, many cases of skin poisoning could be prevented if the public would learn to recognize and avoid contact with poison ivy.

Dr. Cox gives these points to remember about poison ivy: (1) you can recognize it by its leaves, which are grouped in threes . . . two of the dark green leaves are short stems and the center one is on a longer stem; (2) The plant appears as a low shrub, a vine hanging over fences or trees, or in a heavy thicket; (3) When you have come into contact with poison ivy, be sure to wash the spots with soap and water several times, as the soapy water removes most of the poisonous material; and (4) If the infection causes much discomfort, see your family doctor.

ATTENDS CONVENTION
Howard Cox attended the Drive-In Theatre convention held in Kansas City Monday until Friday of last week.

Russell Cash Honored As Outstanding Agriculturist In State By Barbecue

RENNER, Tex., May (Special).—Russell N. Cash, Atlanta, Texas, farmer whose neighbors testify that he has contributed more than any other to a better agriculture in Texas in the last decade, Wednesday (May 16) received the Hoblitzelle Achievement Award for the Advancement of Texas Rural Life. The award is a \$5,000 cash prize and a gold medal.

Mr. Cash has taken a depleted 440-acre sandy land farm in Cass County, 15 miles southeast of Atlanta, and brought it back to productive life by carefully conserving and rebuilding the soil, and on his own time and at his own expense he has gone out to show his neighbors how they can do the same through diversified farming and skillful soil management.

Given this year for the first time, the award was presented at the annual open house and barbecue of Texas Research Foundation at Renner, Karl Hoblitzelle, Texas philanthropist and president of the Foundation, made the award possible. Its purpose is to recognize personal accomplishments in the field of rural life improvement. Mr. Cash was chosen from more than 100 throughout Texas who were nominated for the honor.

Mr. Cash was reared on the farm and his love of the soil has kept him there. His philosophy is simply stated in his own words: "The stability of all farm enterprises depends upon conservation and building of the soil. The secret of cheap production and high yields is soil management. A dollar invested in your soil will pay greater dividends than a dollar invested any other way."

In a county where the average corn production is from 10 to 12 bushels per acre, he has averaged 65 bushels for ten years and has produced as high as 133 bushels per acre at a cost as low as 18 cents per bushel. Against a county average of 65 bushels of sweet potatoes, he has averaged 300 bushels per acre for the past six years, but has produced as high as 800 bushels. He has averaged 300 bushels of tomatoes per acre for the past 10 years, and has grown up to 533 bushels per acre. Through proper woodland management on 269 acres of his farm, he has increased his timber growth by \$10 per acre as compared to a normal \$5 per acre per year.

In addition to high production, he has improved his market through quality products and proper grading—factors which not only have increased his sales but have greatly improved his net income.

Mr. Cash believes the character of people depletes with the soil, and has gone out at his own ex-

pense through East Texas to preach the gospel of soil management. In the past two years he has talked his soil-building and cropping methods to more than 12,000 farmers and businessmen from East Texas and adjacent areas of Oklahoma, Arkansas and Louisiana. And in 1950, more than 2,000 visitors came to his farm to appraise first-hand the farming system which has transformed his sandy acres. In addition, he has served as an instructor in vocational agriculture for veterans, community committeeman of the U. S. D. A.'s Production and Marketing Administration, chairman of the board of supervisors of the Marlon-Cass Soil Conservation District, and has written widely about his agricultural philosophy and his production methods.

His farm is not a showplace. Building it up slowly, mostly through his own labors and without any outside source of revenue, he has pointed up what any small farmer through his own efforts can do to rebuild the soil and make a good living on the land.

Soil Testing Equipment Is Working at A & M

COLLEGE STATION, May 21. —Last fall the Soil Testing Laboratory of the Texas A. & M. College System was expanded and its operation became the responsibility of the Agricultural Extension Service. The expanded facilities made possible the handling of up to 100 soil samples per day. The small charge made for the testing service is used to pay, at least partially, for operating the laboratory.

M. K. Thornton, extension agricultural chemist, who has charge of the laboratory, says farmers who have submitted soil samples for testing are finding that the results of the tests and the recommendations that go back to them from the lab are very useful. First, they find that often times different grades and amounts of fertilizer are needed to improve their crop yields; that low yields are not always the result of low soil fertility but that minerals harmful to good plant growth and a lack of organic matter are the chief source of trouble and third that substantial savings can be made on the purchases of recommended fertilizer as compared to former usage.

Thornton says tests are made for easily organized organic matter, from which the nitrogen is estimated; readily soluble phosphoric acid, potash and lime. The laboratory also determines soluble salts as a matter of routine although relatively few salty soils are found. This is a test not made by most laboratories. When certain amounts of salt are found, chlorides and

CITATION BY PUBLICATION

THE STATE OF TEXAS

To: W. H. Kilman, Defendant

Greeting:

You are hereby commanded to appear before the Honorable District Court of Bailey County at the Court House thereof, in Muleshoe, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 2nd day of July A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 19th day of May A. D. 1951, in this cause, numbered 1695 on the docket of said court and styled Louise Kilman, Plaintiff, vs. W. H. Kilman, Defendant.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff alleges that she and defendant were legally married April 18, 1943, and that no children issued from the marriage and that there is no community property. Plaintiff alleges that she and defendant were guilty of such offenses as to warrant treatment and out-rages toward this plaintiff as to render her further living with him insupportable. Plaintiff prays judgment of the court for absolute divorce and general relief as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Muleshoe, Texas this 19th day of May A. D. 1951.

Attest:

M. G. Bass, Clerk,
District Court, Bailey County,
Texas
By Hazel Gilbreath, Deputy,
(SEAL)

sulfates are determined. This gives the answer as to whether salt is influencing crop yields.

Thornton says the facilities have not yet been used to full capacity and urges farmers to submit soil samples for testing, that is, if they have soil problems. He suggests contacting your local county agent for detailed information on how to take a soil sample and how to mail it.

Impressions Of U. S. Air Force Told by Officer

An informative report on the U. S. Air Force was presented before the Rotary Club at its noon luncheon Tuesday by Capt. Durwood "Woodie" Green, former football coach here who re-entered the service last December and is now here on leave visiting friends. Capt. Green re-entered the service at San Antonio and was sent to Langley Field, Va., where he trained with the Tactical Air Force as a B-26 bomber pilot. He is now stationed at Sheppard Field, Wichita Falls.

He described first the work of the Tactical Air Force, which is directly in support of the ground troops. The B-26 is armed with 14 forward .50 caliber machine guns, which are used to blast railroad engines and cars, trucks, troop concentrations, etc. The tactical airforce delivers fire where it is needed to help the ground troops advance.

The B-26 crew consists of the pilot, co-pilot, navigator-bombardier, and the gunner. These crews fly the bomber from Japan to North Korea where they perform the mission assigned them, then return to Taegu, where the plane is refueled and another crew flies it to Japan in a sort of shuttle operation. The B-26 is a modified version of an obsolete plane and is doing a great work in Korea, the captain said.

The Air Force is doing a fine job in Korea, despite bad weather, handicaps of terrain, etc. and the kind of war it is, Capt. Green said. He had a good word for the reserve men who have gone into the service in recent months. A reserve pilot had only 2 1/2 hours in the air when he was made crew captain and had a crew with him.

The reserve men "got in the groove" quickly, although most of them had not flown a plane in five or more years, he said.

It was his opinion that our jet fighters, the F-86 and F-84 are probably as good as the Russian MIG fighter. They are the only new planes that we have in the Korean fighting.

"Red" Gaede Stars As Mile Runner

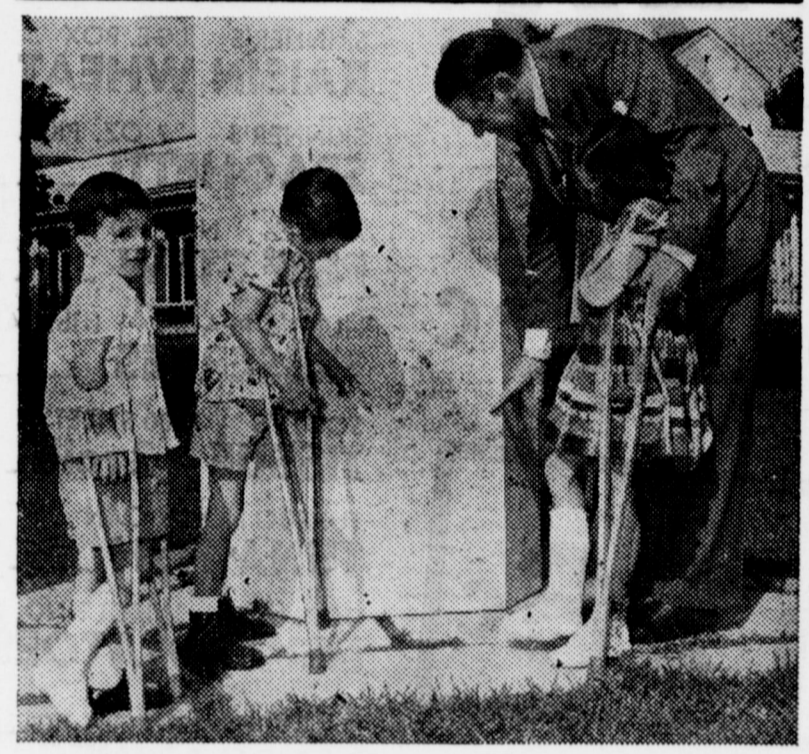

Charles "Red" Gaede, a former Muleshoe boy, now residing at Limon, Colo., has achieved fame as a crack miler in Colorado track circles.

He broke his own Class B mile record at a meet held in Fort Collins recently. He ran the distance in the good time of 4:46.3 to top his previous record, established in 1949 when he was clocked at 4:50.4. Gaede also ran the anchor lap of the Limon mile relay team in the Fort Collins meet, the team setting a new class B record in

Pictured here is James Shafer of the Needmore Community, FFA boy, with some of his registered Corriedale ewes and lambs. James' father, Arthur Shafer, has built a huge sheep feeding barn that is pronounced one of the most modern in this section of the country. He fed out 1400 lambs in this section of the country. This picture was taken at the time of the visit of the FFA boys there under supervision of G. S. Dowell, Voc. Ag. instructor. Another modern sheep lay-out is owned by H. S. Sanders, Jr., of Muleshoe, on his farm in the southwest corner of the county.

HOSPITAL TO HONOR DONORS

Patients of the Texas Scottish Rite Hospital for Crippled Children watch Colonel Alvin M. Owsley point out names of persons who have left bequests to the institution during the last year. Col. Owsley, former diplomat to three European countries and past national commander of the American Legion, will give the principal address of the hospital's 1951 Memorial Services honoring its benefactors. The special services will be broadcast over Texas Quality Network May 20 at 3:30 p. m.

this event in the time of 3:39.29. He is a son of Mr. and Mrs. Francis Gaede, formerly of Muleshoe, now residing at Limon, and is a grandson of A. C. Gaede, pioneer resident of the Muleshoe community. It will be remembered that two cousins of the Colorado youth took part in Muleshoe high school football and basketball during their high school career which closed with their graduation from school this year. They are Jim and Bill Gaede, sons of Mr. and Mrs. Raymond Gaede.

IS AT ABERDEEN Don Mickey Sanders, son of Mr. and Mrs. Claude Sanders, is in the Ordnance Department of the Army and has been fortunate enough to be stationed at the Aberdeen Proving Ground, Maryland. His address is: Pvt. Don Mickey Sanders, U. S. 54059207, Co. "B" 1st Ord. Trg. Bn., ROTC, Aberdeen Proving Ground, Md.

Sand Hills Philosopher Sets Example For Politicians; Admits Big Bust

Editor's note: The Sand Hills Philosopher on his Johnson grass farm seems to be changing his mind, his letter this week reveals. A mind like his ought to be changed occasionally.

I've been thinkin all week about ing the rainfall problem, and on second thought, the trouble with the world today is not enough people are big that letter I wrote you last week, the one about pipin the ocean water to every farm in Texas and solv-

enough to admit they can be wrong, for example, everybody seems to have gotten slipped up on when the Chinese jumped into the Korean war right when we'd been led to believe we had it won and the boys would be home by Christmas, last Christmas, that was, but you don't hear nobody comin right flat out and sayin he just made a plain bust; a Washington expert can guess wrong on somebody who later winds up in jail, but he won't have the spunk to admit he was 100 percent wrong, he spends his time tryin to put the blame on somebody else for steerin him wrong; what this country needs is more men with enough sense of humor to throw back their heads and laugh at their own mistakes and then do their best to correct em. A few more men who admit they ain't infallible and if they're right once in a while it's a pretty good average; could be used practically everywhere today.

At any rate, as I started out to say, on second thought I have decided maybe it wouldn't be such a perfect idea to have salt-free ocean water piped to every farm in Texas.

It would be fine all right to sit on the front porch, throw a switch, and water your crops; but with the water meter tickin off the dollars,

it would take a lot of pleasure out of it. Like it is, we may not always get enough rain, but what we do get is free.

Also, under the present system, the weather is one of the best friends a thinkin man has when it comes to thinkin up excuses for stayin out of his field, no use plowin when it's wet, anybody knows that. But under the proposed new system, everything would be regulated, includin workin hours, and if I wanted to work regular hours, I'd move to town.

When they start layin them water-pipes, they can just by-pass my farm. I was wrong last week. I made a bust. Move over, Truman, MacArthur, Marshall, Atlee, Taft, Hoover, Acheson, etc.

Yours faithfully,
J. A.

School Building At Friona Burns

Fire discovered at 2 a. m. Wednesday morning gutted the Friona High School building before it could be brought under control through the combined efforts of the Friona and Hereford fire departments.

Listed as a complete loss is the building which housed much expensive equipment that was consumed by flames. Saved, however, was the old gymnasium on the south end of the building which is virtually undamaged.

Dalton Caffey, superintendent, estimated damage at \$100,000. Of this, \$80,000 will be covered by school insurance. Original cost of the building, built in 1931 by S. S. Truitt and J. L. Landrum, was \$65,000.

Brick walls of the building are still standing, but the ceiling and interior parts have been consumed. Supt. Caffey said he imagined that the walls would have to be torn down and a new building put up.

The fire was discovered by unidentified high school young people as they drove by the school on Highway 60. It was not until about 4 p. m., however, that two fire departments were able to halt spreading of the flames. They were assisted in part by early morning showers.

Glenn Cunningham, teacher, and two high school students managed to enter the building in time to save most of the records in the offices of the northern part of the building.

Origin of the fire remains undetermined.

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: NORMAN WHITE Defendant, Greetings:

You are hereby commanded to appear before the Honorable District Court of Bailey County at the Court House thereof, in Muleshoe, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 11th day of June A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 23rd day of April A. D. 1951, in this cause, numbered 1688 on the docket of said court and styled ELLEN WHITE Plaintiff, vs. NORMAN WHITE Defendant.

maiden name, Ella Props, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Muleshoe, Texas this the 23rd day of April A. D. 1951.

Attest:
M. G. Bass Clerk,
District Court, Bailey County, Texas

(Seal) 19-4tc

GUARDIANSHIP OF JAMIE RUTH HENDERSON, A MINOR, IN THE COUNTY COURT OF BAILEY COUNTY, TEXAS.

TO ALL PERSONS INTERESTED IN THE ABOVE MINOR OR HER ESTATE:

You are notified that I have on the 17th day of May, 1951, filed with the County Clerk of Bailey County, Texas, an application under oath for authority to make an Oil & Gas Lease on that certain real estate belonging to such minor, described as follows:

Labor Nine (9), League Number One Hundred Sixty-five (165), Irion County School Lands, abstract No. 319, situated in Bailey County, Texas, and containing 177.2 acres of land.

and that said minor owns and holds fee simple title in an undivided interest in said land, reference to said application being made herein for a fuller description of said land for all purposes; that Cecil H. Tate, judge of the County Court of Bailey County, Texas, on the 14th day of May, 1951, duly entered his order designating the 4th day of June, 1951, at 10:00 o'clock A. M. in the county court room in the courthouse of such county as the time and place when and where such application would be heard and that such application will be heard at such time and place.

Naomi Julian, Guardian of the Person and Estate of Jamie Ruth Henderson, A Minor.

Dollars, Cents

The Office of Price Stabilization has announced dollars and cents ceilings on standard grades of apparel wool and other animal fibres at prices which will allow orderly importations at current world markets.

The price of 64S average wool, clean basis, was fixed at \$3.35 and 64S average top at \$4.31, ex-dock at port of entry or at the seller's warehouse, regardless of the country of origin, with customary differentials for different grades.

Prices were similarly set for alpaca and mohair, and for tops and noils of all these fibres, the latter fine semi-manufactures used as raw material by woolen and worsted mills.

The new order, CPR 35, effective today, did not fix dollars and cents ceiling on cashmere vicuna camels

carpet wool, wool waste and re-worked and reprocessed wool. Simultaneously, OPS issued revision 1 to CPR 18 likewise effective today, covering manufacturers' prices for wool yarns and fabrics.

The revision will enable manufacturers to compute in their costs the increase up to the new pegged levels in the prices of wool, mohair and alpaca which occurred early this year after the cut-off date of December 31, 1950, provided under the original CPR 18.

The new ceiling prices on wool and kindred fibres represent a rollback of from 9 to 12 per cent from

the highest sales made during the base period of December 19 1950 to January 25, 1951 fixed under the general ceiling price regulation.

ROLLED BALE
Safe Deposit For Leaves
Reports from ROTO-BALER owners say that weather-resistant rolled bales contain more leaves. Livestock eat rolled hay better because it is soft, sweet and retains its natural color. Here are some of the things farmers wanted to know:
Would rolled bales really shed showers? Would they handle and transport easily? Would livestock eat them without waste, fed whole or unrolled? Could straw for bedding be rolled out without shaking?
The ROTO-BALER has answered "yes" to each of these questions, satisfying farmers everywhere. Stop in and ask us for a free booklet on rolled bales and the ROTO-BALER.

Simple to Fireball Engine!
ALWAYS BE CAREFUL DRIVING
Here's something Special in Spaciousness
A LOT of folks like the two-door idea, because they feel that tiny tots are safer in the back seat. But that's no reason why back-seat headroom should be dimensioned for midgets only. So Buick engineers have done something about it, in the Buick SPECIAL 2-door Sedan pictured here. They've kept the compactness of over-all length that's important in modern garages. But they've arched that sturdy steel top to give you he-man headroom—headroom in back as well as headroom in front—that makes a six-footer feel at home. And they've designed a trunk that has "room for tourists." Don't ask us how they did it. Come see for yourself. Slip into those spacious seats—and while you're there, find out why this compact honey is one of the hottest numbers we've seen in years. Find out how that F-263 valve-in-head Fireball Engine pours out the power and stretches the miles per gallon. Find out how Buick's exclusive combination of torque-tube drive and coil springs on all four wheels puts big-car steadiness and stability into this nimble performer. Find out how Dynaflo Drive* takes the strain out of traffic driving—and brings you relaxed to the end of a long day's cross-country driving. And above all—find out the prices—and how much they'll buy in comfort and convenience. The sooner you see your Buick dealer, the better off you'll be.
*Standard on ROADMASTER, optional at extra cost on other Series. Equipment, accessories, trim and models are subject to change without notice.

Program Given On "Status Of Women"

The Woman's Society of Christian Service of the Muleshoe Methodist Church met Monday afternoon in the church.

The meeting opened with the singing of the hymn "Blessed Assurance." Mrs. I. W. Haney gave an inspirational devotional on Women of the Scriptures, telling of the many times women are used in the building and furtherance of God's Kingdom.

Mrs. Beulah Carles was in charge of the program which was on the Status of Women. Mrs. Carles compared the freedom and privileges of women one hundred years ago and today.

In only thirteen countries of the world today are women not allowed to vote. By grim determination has woman won her rights in society. Woman owes a great debt to Christianity.

Mrs. Ophel Jennings told of several accomplishments of Negro women, in almost all instances with many handicaps.

Mrs. Gross gave a most interesting article on accomplishments of women.

Over one hundred of our songs in the Methodist hymnal were written by women, Maney Crosby being the writer of many.

During a short business session \$11.50 was voted to send a Negro woman as delegate to a training school in Amarillo June 4 to 8.

The Conference school of Missions was announced for the first week in August. Rooms are furnished in the new girls dormitory at Tech, six dollars a week to be paid at time of registration. Mrs. F. E. Pierson urged several to go for at least part of the time.

Quarterly reports were made out and given to Mrs. Willman, promotional secretary to be mailed to district officer.

Ten members attended, all seemed to enjoy the program. At least three members were absent because of illness.

At the close of the meeting Mrs. Beulah Carles thanked the Society for her life membership pin given to her by the women of the Society and presented at the district meeting at Vega last week.

Mrs. Pierson announced that Grandmother Lucy Layne will receive the other life membership pin given by the women of the Society for this year. Mrs. Claude Farrell was asked to mail the pin soon to Mrs. Layne who is convalescing at her daughter's home in New Mexico.

Society News

THE MULESHOE JOURNAL, Thursday, May 24, 1951

Milton E. Crow Marries In N. Y.

The article printed below, taken from the Waverstraw, N. Y. paper, tells of the marriage of a former Muleshoe boy, Milton E. Crow, who is a brother of Mrs. E. K. Angeley. He made his home here with the Angeley family. The family resided at Morton.

In a very pretty wedding ceremony on Easter Sunday afternoon, March 25, at four o'clock, in St. Peter's Church, Haverstraw, Miss Mary R. Ramundo, daughter of Mr. and Mrs. Sebastino Ramundo of Samondale Avenue, West Haverstraw, was united in marriage to Milton E. Crow, S2-c, son of Mrs. Jewel F. Crow and the late Mr. Crow of Hot Springs, New Mexico.

The double ring ceremony was performed before an altar decorated with white Easter lilies. Rev. Thomas Darby officiated.

The pews in front of the church that were reserved for the immediate families were decorated with white satin bows and clusters of gladioli.

Miss Frances Partridge soloist, sang Schubert's "Ave Maria."

The groom had as his best man, Harvey D. Culver of Maple Avenue, Haverstraw. The ushers were Sebastino Ramundo, Jr., the bride's brother, and Bernard DeGirolamo, cousin of the bride.

Given in marriage by her father, the bride wore a white satin princess styled gown. The gown was fashioned with a V-shaped neckline, a high collar, fitted bodice, long pointed sleeves, and a pleated skirt with a long train. Her veil was made of Chantilly lace studded with rhinestones. Clusters of orange blossoms held the veil in place. She carried a cascade of Calla-lilies adorned with white satin streamers.

Miss Virginia Ramundo was her sister's maid-of-honor. She wore a gown styled exactly as the bride's. The gown was pastel orchid and was made of taffeta covered with nylon tulle. Her headpiece was a bonnet made with ruffles of nylon and tulle trimmed with violets. The bonnet tied under the chin. She carried a cascade of yellow daffodils and violets.

Mrs. Ramundo, the bride's mother,

wore an aqua street length dress with white accessories and a corsage of white gladioli.

A reception was held at the Wayside Inn, Stony Point, for 150 guests. Gene Forst and his orchestra entertained.

For her going away outfit the bride wore a navy blue suit with white accessories and a corsage of white roses. The couple left on a honeymoon trip to Niagara Falls and upstate N. Y. Upon their return, the bride will join her husband at Newport, R. I., where he is stationed. She will remain there until her husband receives orders to leave that base.

The bride presented her maid-of-honor with a pearl necklace and matching pearl earrings. The groom's attendants received pen and pencil sets.

The bride attended Haverstraw High School and was employed in the Longlife Webbing Company.

S2-c Crow attended schools in Hot Springs and has been in the Navy for 8 1/2 years.

Out-of-town guests who attended the wedding were: the groom's mother, Mrs. Crow of New Mexico; Thomas Ramundo, of Melrose Park, Ill.; brother of the bride; John Wayne, of New York City; Mr. and Mrs. Michael Ramundo and family of Walden, N. Y.; Catherine Gentry, formerly of New Mexico, Corp. Dwayne Howard of Staten Island.

Coffee Honors Myrtle Russell

Mrs. Hattie Jennings entertained with a 9 o'clock coffee in her home Wednesday, May 16, honoring Myrtle Russell, president of the Rebekah Assembly. Dixie Lee Jennings sang several songs, accompanied at the piano by Mrs. C. W. Grandy.

Donuts and coffee were served to: Myrtle Russell, Pauline Hudson, Myrtle Lee Hallis, Lela Barron, Millie Sims, Twelma Gage, Clytie Dial, Sylvia Wilemon, Iva Gross, Fern Davis, Dixie Jennings, Fay Lambert, Jewell Humphries, and Hattie Jennings.

ATTEND SHRINE SPRING CEREMONIAL IN AMARILLO

Several Shriners of this county attended the spring ceremonial of Khiva Temple, held Sunday and Monday in Amarillo.

Included in the group of local people were: F. L. Shelby, J. E. Mills, Johnny Johnson, Clude Bray, Bill Collins, Herb Covin, Mr. and Mrs. A. S. Stovall and daughter, Helen and Supt. H. H. Homsley, of Three Way.

CARD OF THANKS

We desire to express our deepest thanks to all for all their kind thoughts and deeds, for the food brought to the home, and for the beautiful flowers at the death of our loved one.

Mrs. Frank Wagon and Children.

The Wagon Family.

SHOW CARD Colors and Brushes. We have them at The Journal. tf

Miss Billie Ruth Litte Honored With Pre-Nuptial Shower May 8

A lovely party was given in the Arnold Morris home on Tuesday afternoon, May 8, in compliment to Miss Billie Ruth Little. The young lady is the attractive bride-elect of James Fuston McCarty, the couple's wedding having been scheduled for Friday, June 8.

The honoree's chosen color of pink was given emphasis in decorations for the occasion.

Corsages were presented to the bride-to-be, her mother, Mrs. W. Emma Davis, and to the mother and grandmother of the groom-to-be, Mrs. A. D. McCarty and Mrs. Sally Harden.

Centering the refreshment table which was covered with a white lace dinner cloth, was a lovely arrangement of pink carnations and white snapdragons, symbolizing a wedding ring. Pink candles tied with satin bows and greenery and malene streamers banded in crystal candelabra in flanking positions.

Refreshments of pink frosted punch, ice box cookies, nuts and pink mints were served. Mrs. Buford Butts and Miss Elizabeth Harden, aunts of the groom-to-be, presided at the punch bowl.

Mrs. Bill Jim St. Clair registered the guests in the hand-painted bride's book, which was made by the mother of the bride-to-be.

The lovely gifts were on display in an adjoining room. Many sent gifts who were unable to attend. Those registering were: Mesdames Beulah Carles, Birdie Paul, C. R. Farrell, O. N. Jennings, A. J. Gardner, F. B. Pierson, Lud Tay-

lor, Jim Burkhead, Francis Gilbreath, Robert King, Noel Woodley, W. H. Kistler, J. J. DeShazo, A. S. Stovall, Horace Blackburn, Jerry Kirk, W. B. LeVeque, J. K. Adams, Herbert Griffiths and Jim Bickel.

Also Ben Porter, R. T. Tibbetts, Buck Wood, Vance Wagon, H. Jay Weyer, Olen Jennings, Lowell I. St. Clair, Bill Jim St. Clair, W. Harden, Clyde Bray, Carroll Howell, Harold Cowan, M. F. Blackman, Murrell Brown, A. D. McCarty, Buford Butts, Misses Elizabeth Harden, Patricia Butts, Pamela St. Clair, Marsha Lynn Blackman, Messrs. Lowell I. St. Clair, Raymond Morrison, A. D. McCarty, Buford Butts, Arnold Morris, and Buddie Blackman.

Out-of-town guests for the occasion were Mrs. W. B. Little, mother of the bride-to-be, of Littlefield, Mrs. Emma Davis, grandmother of the bride-to-be, of Levelland, Mrs. E. M. Little, aunt of the bride-to-be, of Levelland, Mrs. Elton Hayk of Littlefield, and the honoree, Miss Billie Ruth Little of Littlefield.

Hostesses for the occasion were: Mrs. James A. Cox, Mrs. Herbert Covin, Mrs. B. H. Morgan, Mrs. Tye Young, Mrs. Naomi St. Clair, Mrs. F. H. Davis, and Mrs. Arnold Morris.

RAINBOW GIRLS TO HAVE INSTALLATION SUN. AFTERNOON

The Muleshoe Order of the Rainbow will have their public installation at 3 p. m. Sunday at the Masonic Hall. The public is cordially invited to attend.

Rainbow Will Install Sunday

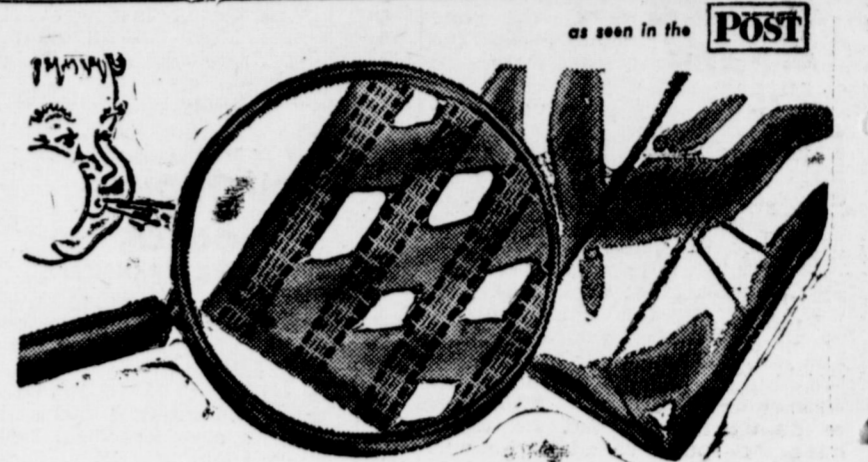

Rainbow installations will be held Sunday, May 27 at three o'clock at the Masonic Hall. The public is invited to attend.

Officers to be installed are as follows: Worthy Advisor, Mary Morton; Associate Worthy Advisor, J. Ann Weyer; Charity, Jackie Bovell; Nature, Barbara Hinkson; Immortality, Sammy Carroll; Fidelity, Norma Graves; Patriotism, Gwenella Workman; Service, Delia King; Con-

fidential Observer, Joan Wright; Musician, Jo Nell Mayberry; Choir Director, Darla Myers; Choir, Charlene Graef; Rita Peeler, Ann Johnson, Helen Stovall, Barbara Douglass, Marion Harris, Bettie Collins, Rose Mary Pool, Ann Woodley, Evelyn Chapman, Billie Redwine, Betty Shook, Diana Barnett, Frances Toten, Tex Ann Holdman, June Freeman, Pat English, Janice Jordan, Sandra Wagon and Ginger Gaede.

Show card ink is available at the Journal office.

TIMELY TIPS
FROM YOUR
H. D. AGENT
By Miss Dian McClurkin

CAKE FOR THE FREEZER

Angel food and sponge cake, baked during the springtime abundance of eggs, may be put in freezer lockers for serving in summertime or later. This type of cake keeps longer in frozen storage than cake containing fat. Baked angel food keeps well as long as a year, if carefully wrapped and sealed, and sponge cake seven months, according to tests made at the University of Tennessee. After thawing, these cakes are freshly baked cake.

Farm housewives with their own plentiful supply of eggs, or those in town who can buy eggs at reasonable prices, may profitably bake a few of these egg-rich cakes for freezing at this season. Freezers often are low in supplies of other foods in spring so have extra space for baked goods, and home baking is a more comfortable job in cool weather than in summer.

Here's a tip on flavoring cake for freezing: If vanilla is used, choose the pure extract. Frozen cake contains synthetic vanilla, or cake may take on an off-flavor if grated orange or lemon rind. If the cake is to be frosted, it a cake may be more difficult with than before freezing. Wrapping

is best to do it after thawing rather than frosting on. Boiled frosting changes texture when frozen; candy-like frosting, such as fudge, cracks after a few months in the freezer; uncooked powdered sugar frosting is better because the fat helps to keep it moist, but the fat may change flavor during long storage.

For freezing, invert the pan of angel food or sponge cake when it comes from the oven, let it cool, then wrap snugly with moisture-vapor, resistant material and seal by heat or tape. To hold its shape, set the wrapped cake in a cardboard box or at least tape a firm piece of cardboard to the bottom. Keep cake wrapped while defrosting unless this is done in an oven. A cake will thaw and be ready to serve in about two hours at room temperature. One way to hasten thawing is to set the wrapped cake in front of a fan.

Freezing can be done in a very slow oven (250 degrees F.) for about 20 or 30 minutes. It is best to remove wrapping because some kinds melt when heated.

PRESERVING PINEAPPLE

Pineapple is now on the market and it is time for us to start putting up for those times ahead. It can either be frozen or canned.

Freezing Pineapple
Varieties
Sugar loaf.
Preparation
Wash, peel, and slice.
Pack
Sugar syrup made from 2½ cups sugar per quart of juice and water. Dry sugar pack also may be used with ½ cup sugar per quart of fruit. Package and freeze immediately.

Come into the office and get a

Price Clinic
At Littlefield

Next Tuesday afternoon, May 29 is price clinic day again in Littlefield, the Office of Price Stabilization will send Alton R. Taylor, price specialist in the Food branch to Littlefield to assist merchants of the area in complying with the federal stabilization program.

The chamber of commerce, co-sponsor with the OPS in the price clinic program, said the price specialist would set up offices in the Chamber of Commerce. The chamber urged all businessmen with questions regarding compliance with the regulations to bring them before the specialist.

Meanwhile, OPS officials reminded merchants of the entire 96-county district of approaching deadlines. Service station operators who sell most of their gasoline at a margin of more than four cents per gallon have until May 25 to file statements of their ceiling prices with the Office of Price Stabilization, Broadway Building, 1202 Texas Avenue, Lubbock, Texas.

May 25 is also the deadline for oil retailers to be pricing under Ceiling Price Regulation 13. The beef regulations became effective this week and retail sellers of beef have until June 4 to post ceiling prices in their stores. May 30 remains the deadline for filing price charts under ceiling price regulation 7 and amendments. That regulation covers the consumer goods field.

MORE LADYBUGS SOUGHT FOR PANHANDLE WHEAT

Ladybugs, that spry, golden-colored "angel" of the beetle family that feeds on harmful crop pests, is coming into increasing favor with farmers in the Texas Panhandle wheat area.

First tests this year with use of the "ladies" against the scourge of greenbugs seeming proved their value, and the Ochiltree County (Perryton) Farm Bureau is taking the lead in encouraging farmers to place orders now for fall delivery of great quantities of the small winged helpers.

At an April meeting in Perryton attended by about 600 farmers, ranchers and businessmen from three Texas and two Oklahoma counties, W. H. Lance, president of the host Farm Bureau unit, said orders can be placed now for October and November delivery of shipments of the beetles from George Quick of Phoenix, who specializes in their propagation and delivery.

Lance suggested that farmers should order at least five gallons of the ladybugs for each half-section of wheat land. He said Quick told him the beetles can be released as soon as received in the fall, and would have time to reproduce into "large families" for a real battle on greenbugs and other pests at their first appearance. Apparently the ladybugs are equipped to survive the sometimes rugged winters on the Plains despite lack of cover and natural protection from elements that are common to other areas.

copy of the bulletin "Frozen Foods." Also we have a bulletin on "Canning of Pineapple."

Letters to the Editor . . .

THOSE DOGGONE DOGS
Muleshoe, Texas

Dear Editor:
As a small shot of Muleshoe, I would like to know if the great big city is going to let the doggone dogs take the town over and the people move out.

I don't have a dog but I can count from 6 to 35 doggone dogs in my yard most any time of the day, destroying shrubs and flower beds.

Yours truly,
A TAX PAYER.

LOCAL TEACHERS WILL ATTEND CANYON COLLEGE

Several Muleshoe teachers will attend West Texas State College, Canyon, this summer to do graduate work pointing to their master degree. The following will attend:
Mrs. Radie Boone, Miss Lula Stotts, Misses Effie and Zeffie Childress, Mrs. Jesse Thompson, and Miss Mary Frye.

TO TEXAS TECH

Mrs. John Watson, of the Muleshoe High School faculty, will attend the summer session at Texas Tech College in Lubbock, doing graduate work toward her master degree.

TO OKLAHOMA U.

George T. Glover of the faculty of Muleshoe school will attend the summer session at Oklahoma U., Norman, Okla., to study toward his master degree.

no vent needed
with an Electric water heater

... because there's no fumes from an electric water heater. It's a clean, flameless, economical way of assuring you and your family of adequate hot water at the proper temperature. It's automatic too; you install it and dependable electric service does the rest.

IT'S CLEAN
There's no soot, no smoke, no fumes 'cause there's no flame.

IT'S AUTOMATIC
You merely set the thermostatic control for the desired temperature.

IT'S LONG LASTING
Automatic electric water heaters last for years. Many literally "breathe" and when they do they drop scales of water corrosion. These fall to the bottom to be removed at convenient times.

IT'S ECONOMICAL
A few cents a day gives you more hot water for ALL the hot water uses in your home. Never any waiting period... hot water NOW... when you want it.

Babson Discusses

Our Employees

NEW BOSTON, N. H., May 18. Senator Kefauver has done this country invaluable service, not just by exposing a bunch of crooks, but by turning the spotlight into the dark corners of our national morality, and showing us up for what we really are!

LOOSE TALK
There has been a lot of loose talk about freedom and the greatness of this country. Recently the Office of Defense Mobilization announced to the papers that we shall be mighty in two years! Just what does it mean by "mighty"?

Character and our Schools
Character isn't something you study in school, do a few problems in, and presto! you have it. Character springs and flourishes in a friendly home environment. Morality is the end product of character. Our children's character traits are determined by the way in which we think, act and believe. Character is taught by example. The Department of Defense can buy airplanes, ships, tanks and munitions, but it cannot buy character which is sorely needed today to make us "mighty."

able when idle. They give the impression that what they want most is a quick, easy buck. We have failed to teach them to follow a path successfully to the end—no matter how difficult the going gets. Graduates today give up too easily.

Careless Parents May Make Careless Employees
"Our schools themselves have succumbed to a philosophy of mediocrity by passing children each year whether the quality of work is good or bad. The training in the schools that there can be reward without hard work has led to irresponsibility. In this sense our schools have failed to discharge their whole duty . . . and in so doing have failed to develop moral virtues . . . character."

In the last analysis, however, it is the parents who are at fault. The average parent today has great difficulty trying to develop industrious children. He won't make his children mow the lawn or wash the car or put on the screens. Junior rebels because Joey down the street doesn't have to do these things, so why should he. The real ailment here, of course, is a lack on the part of the parents of moral courage which comes from religion. When hiring young men employment managers should give some consideration to the applicant's parents.

General Marshall's Forecasts
More than anything else today American business, the federal government, and our schools and homes need men and women of character—individuals whose search for life's realities goes beyond the thin veneer of men and machines. This country can remain great but only if we sustain its moral fiber, and remember, in a democracy that is an individual responsibility. Don't take too seriously the forecasts of the Department of Defense.

Texas Cotton Yield Was High in '50 Despite Weather, Insect Damage

COLLEGE STATION, May 21—Texas cotton growers in 1950 harvested an average of 205 pounds of lint an acre despite weather conditions which increased insect infestation and made control difficult. This yield was of only among the state's highest record of production but emphasized the trend increasing per acre yield as compared with the 1939-48 ten-year average of 170 pounds.

The educational portion of the Texas A. and M. College Extension Service's cotton program was for the fifth consecutive year within the framework of the national Seven-Step Cotton Program. Its objectives were the fitting of cotton into diversified farming; soil conservation; planting best varieties; effective use of labor and machinery; insect and disease control; picking and ginning for high grades; selling for grade staple and variety value. During year outstanding progress was made in the organization and use of county Seven-Step Cotton Committees. Encouraged by the Extension Service cotton work specialist, county agricultural agents formed such committees made up of farmers, and representatives of agricultural agencies and allied cotton interests in 138 counties.

The extension cotton work specialist Fred C. Elliott set his educational program in motion in December, 1949, and pursued it systematically throughout the succeeding months. Training meetings at which visual aids were freely used, tours, practical demonstrations, and publicizing through radio and press comprised his major teaching media. His monthly activities were chiefly with the Extension Service field personnel and devoted to adapting the Seven-Step program to local requirements. In pursuing his objectives the specialist visited 100 counties, held 123 training meetings, and trained 188 county agricultural agents and 1,003 voluntary leaders. In addition, he attended a cotton conference in Mississippi, the three-state regional conference at Texarkana, and participated in the Texas Certified Seed Breeders annual meeting of the Central Texas ginner. Meanwhile he was host to

three representatives of the Turkish Department of Agriculture studying Texas cotton work.

Harvesting Mechanically
Although Texas' cotton acreage was materially less than in the previous year the use of mechanical equipment for cultivating and harvesting the crop showed no decline except in the number of spindle pickers. These totaled 255 and were used in 6 counties compared with 335 in 69 counties in 1949. On the other hand, 7,134 stripped harvesters were used in 82 counties against 7,003 in 84 counties the preceding year, and 10,004 rotary hoe equipped tractors operated in 97 counties compared with 1949 models of 6,966 in 71 counties. Machine hoeing reduced the cost of manual labor by about 65 per cent.

Gross results of the Seven-Step program, according to year-end summaries by county agricultural agents, show that 42,181 farms in 162 counties were assisted in fitting cotton in balanced farming; 17,094 in 129 counties applied barnyard manure to cotton land; 34,549 in 152 counties planted cotton following legumes and phosphate, and 6,089 in 82 counties reported decrease in root rot. The quantity of insecticides used in 1950 suggests the extent of infestation by destructive insects on the 5,285,005 acres of cotton planted. This protective service absorbed 98,000,000 pounds of dust and 3,000,000 gallons of spray.

Ginning Quality Improves
The program of the Extension Service ginning specialist, F. E. Liechte, sought improvement in the

quality of ginning, discontinuance of distorted and under or overweight bales which are often penalized at compresses, and protection against fires originating within gins and "fire packed" bales. He gave frequent demonstrations in controlling fires originating in the latter with chemicals and wetting agents applied with a portable kit. Further, he recommended new equipment for ginning machine-harvested cotton and measures for eliminating static in ginning.

During the year the specialist worked with the Texas Prison System in modernizing a gin, and the \$25,000 invested in new equipment was amortized in the 1950 crop. Plans have been made to modernize two other gins operated by the system in accordance with the specialist's recommendations in 1951.

Today's Meditation
The Upper Room, Nashville, Tennessee
The World's Most Widely Used Devotional Guide

TAPPING DIVINE RESOURCES
"To every thing there is a season, and a time to every purpose under the heaven;" (Ecclesiastes 3:1) Read Ecclesiastes 3:1-8.
My life has been devoted largely to the study of cycles—real estate, commodity, investment, and general business cycles. In more recent years I have been impressed with the fact that the same basic principles apply to everything we do or say.
These eight verses of our Scripture reading mean that our spiritual growth, our physical health, and our real success in life, depend largely upon doing and saying things at the exact time. Merely more thought to proper timing would achieve better results.
When looking back over my life, I find that my faith, health, and successes have largely been due to the correct use at the right time

of only two simple words: Yes or No. Contrariwise, my spiritual, physical, and business failures have resulted from their use at the wrong time.
PRAYER
O God, grant us the wisdom to save the time to speak and to act. Give us patience not to be in a hurry. Give us courage not to be too late. In the name of our Lord and Master, who did all things well. Amen.
Thought for the Day
"My times are in thy hand."
—Roger W. Babson
CALIFORNIANS HERE
Mr. and Mrs. J. M. Forbes have as guests her sister, Mrs. R. L. Dennis, the latter's son, Sterling Dennis, his wife and their three little sons, all of Chula Vista, Calif.; her parents, Mr. and Mrs. J. B. Ross, and her brother, Bud Ross and family, all of Plainview.

Here's why I take my JOHN DEERE Equipment to the man who knows it Best!

There are three mighty important reasons why my John Deere Equipment goes to a John Deere Dealer for reconditioning.
First, I benefit from the skill of his trained mechanics, schooled in servicing methods recommended by John Deere.
Second, his shop is well-equipped with up-to-date precision equipment. His mechanics have the tools to do the work right.
Third, he uses only genuine John Deere Parts, which are made to fit and wear like the originals they replace. Thus, it's a three-way assurance of work well done . . . economically done.
It will pay you to consider the important servicing advantages we offer. See us soon for complete details.

Wilbur Shaw thinks so much of this new Chrysler, he has selected it as Pace Car for the 1951 Indianapolis 500-mile race.

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER—REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions—in his own words—as taken down by a recording machine in the car:
"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whole of an automobile.
"I'm completely bowled over by the ease of steering!
"This steering combined with the automatic transmission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine.
"This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible!
"I drove 111 miles with the feeling I had expended no more effort than in driving around the block.
"When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."
Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important . . . especially in the summertime.
"Often after I have parked a car in the average parking space, I feel I should taxi home, slower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself."
Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . . it has it in every department.
"In fact, I think so much of this car, I've selected it as Pace Car of the 1951 Indianapolis 500-mile race!" (Mr. Shaw's comments are reprinted through the courtesy of Popular Science Magazine.)
*Mr. Shaw refers of course to standard passenger cars—not racing cars or special models.

Shaw inspects FirePower, the greatest new engine in 27 years.

PRIMITIVE BAPTISTS BELIEVE
 THAT all who mourn because of sin, or who ever have a divine inclination, are the children of God, and cannot go to an everlasting hell, because Jesus Christ bought them and paid for them with His own blood.
 THAT the preaching of the Gospel is to prove that glorious fact, so that the individual may choose between living in the glory and honor of God or a vain life of unhappiness and dishonor.
 THAT the church is the most exclusive order on Earth, and that no disorderly conduct should be allowed to walk in her ranks.

BRINGS RAIN TO MULESHOE
 Mrs. Vovella Kinser arrived in Muleshoe Monday night from Grand Prairie, Texas to visit in the home of her brother Mr. Noah Kinser and family. She said that she came to bring Muleshoe a rain. As Grand Prairie had had too much, sure enough it began raining Tuesday. Mrs. Kinser plans to be here about 15 days.

MR. FARMER! Build Now Under the PMA Loan Program—
STILL AVAILABLE!

Put Your Equipment Under Cover!

Stran-Steel Quonset 40
 Your ideal answer to every storage need!

Here's the perfect building for general storage, stock shelter or dairy barn. This sturdy, fire-resistant Quonset 40 gives you the added strength, permanence and *adaptability* found only with Stran-Steel's arch-rib, clear-span design. It offers varying-length flexibility, rugged durability and many-use versatility—all at reasonable cost. See us for complete details without delay.

YOU CAN'T BEAT QUONSET FOR VALUE!

Here's Some Important Information...!
About Financing Grain Storage

DID YOU KNOW? The Commodity Credit Corporation will loan up to 85% of the cost of a grain storage structure erected on your farm.

DID YOU KNOW? The rate or interest on such loan is only 4% per annum.

DID YOU KNOW? Such a loan can be made for a period of five years, with provisions for deferring payments in event of crop failures.

DID YOU KNOW? You can make annual payments on this loan with the profits earned from storing your own grain in your own Quonset.

DID YOU KNOW? That costs for storing grain other than on your farm will pay for your all-steel Quonset within two years or less.

DID YOU KNOW? That this program expires June 30, 1951.

Is Your Estate Large Enough?

1. Is it ample for your family if you die?
2. Is it ample for you if you reach retirement age?
3. If you accumulate it through other property, how much will it SHRINK from Estate and Inheritance Taxes?
4. Are you guaranteed that you will live to accumulate it that way?

I CAN SELL YOU AN ESTATE—ANY SIZE YOU WANT—FOR AS LITTLE AS 2% TO 3% PER YEAR. IF YOU DIE BEFORE YOU HAVE COMPLETED BUILDING YOUR ESTATE, WE WILL GIVE IT TO YOUR HEIRS ANYWAY !!

CHRISTIAN SCIENCE SERVICES
 Absolute trust in God, Soul, reveals the beauty of eternal life and lifts mortals out of the desolation of the belief of life in matter, declares the Lesson-Sermon titled "Soul and Body" to be read in all Christian Science churches on Sunday, May 27.

The Golden Text shows the first step—desire for the things of Soul, Spirit. It is taken from Isaiah 26, and reads, "In the way of thy judgments, O Lord, have we waited for thee; the desire of our soul is to thy name, and to the remembrance of thee." From the Bible will be read this citation, "The Lord redeemeth the soul of his servants; and none of them that trust in him shall be desolate" (Psalms 34:22).

Show card link is available at the Journal office.

Outdoor Girl

You can pay more but you can't make a better buy in a convertible! You get the quiet, get-going power of a V-8 engine... the type of engine now powering the top models of America's top cars. It's fuel-saving power, too, with Ford's Automatic Mileage Maker squeezing the last ounce of power out of every drop of gas. And you get a ride that's the equal in comfort of far costlier cars, with Ford's Automatic Ride Control self-adjusting the ride to the road.

They're built for the years ahead!

Glamour Girl

If you want to enjoy the wide-openness of a convertible and still have a steel-topped car, you can't buy better than Ford's new Victoria! It offers you your choice of 5 beautiful solid colors or 4 smart two-tone combinations (with color harmonized interiors). And for automatic driving at its finest, it offers Fordomatic* the newest, most advanced of all automatic drives!

When you buy for the future—buy

FORD

All-around Girl

One moment, Ford's "Country Squire" is a beautiful eight-passenger station wagon... the next, it's a rugged hauler of half-ton loads. No other low-priced station wagon offers you so much one-level floor space or your choice of V-8 or Six engines. And only Ford, in its field, offers you your pick of three great transmissions: Conventional, Overdrive* and Fordomatic.*

You can pay more but you can't buy better.

*Optional at extra cost. Fordomatic available with V-8 only. Equipment, accessories and trim subject to change without notice.

Singing Convention Set at Portales

The annual Four County Singing Convention will be held in the High School Auditorium in Portales Saturday night and Sunday May 26 and 27. Singing starts at 7:30 Saturday night and at 10:30 A. M. Sunday. Singers are expected from all over the Eastern parts of New Mexico and the Western part of Texas. The public is cordially invited to attend. Lloyd Vaughan is president of the Convention.

CARD OF THANKS
We wish to thank all those who so graciously and unselfishly helped us in our time of need. Thank you all so much. Mr. and Mrs. Floyd Andreas and family.

Common Approach To Communism

(A letter from Thomas J. Shelby, teacher of Economics and History at Youders High School, Youkers, New York.)

As a teacher in the public schools, I find that the socialist-communist idea of taking "from each according to his ability," and giving "to each according to his need" is now generally accepted without question by most of our pupils. In an effort to explain the fallacy of this theory, I sometimes try this approach with my pupils:

When one of the brighter or harder-working pupils makes a grade of 95 on a test, I suggest that I take away 20 points and give them to a student who has made only 55 points on his test. Thus each would contribute according to his ability—and since both would have a passing mark—each would receive according to his need. After I have juggled the grades of all the other pupils in this fashion, the result is usually a "common ownership" grade of between 75 and 80—the minimum need for passing, or survival. Then I speculate with the pupils as to the probable results if I actually used the socialist theory for grading papers.

First, the highly productive pupils—and they are always a minority in school as well as in life—would soon lose all incentive for producing. Why strive to make a high grade if part of it is taken from you by "authority" and given to someone else?

Second, the less productive pupils—a majority in school as elsewhere—would, for a time, be relieved of the necessity to study or produce. This socialist-communist system would continue until the high producers had sunk—or had been driven down—to the level of the low producers. At that point, in order for anyone to survive, the "authority" would have no alternative but to begin a system of compulsory labor and punishment.

JUST THE NECESSITIES
Jerry, six years of age, was getting ready for the first day of school. He wasn't very anxious to start, and his mother's tear-filled eyes only added to his reluctance. As they drove toward the school and his mother's tears continued to flow, he said consolingly, "Aw mom, don't take it so hard. Just as soon as I learn to write and read comics I'll quit."

—Santa Fe Magazine

Air Base Men To Aid Boys Ranch

Part of the Air Force personnel stationed at the Amarillo Air Force Base Thursday night put aside their training for warfare when one officer and three enlisted men went to the aid of the boys at the famous Boys' Ranch, located 40 miles northwest of Amarillo.

Boys' Ranch, cut off from the outside world by flood waters, was unable to obtain its regular food supply which was becoming low. Ordinary traffic to Boys' Ranch was made impossible by road mud-bogs and the rampant Canadian River which left its banks in the early stages of the Panhandle's three-day torrential downpour.

Hearing of the plight of the boys and their supervisors, Colonel A. J. Mason, Executive Officer at the Base, immediately dispatched two trucks to Cal Farley, founder and president of Boys' Ranch, for the mission.

One of the trucks, a six wheeler, and another lighter truck, manned by the lieutenant and three enlisted men, made the night run carrying the food supplies successfully through the high waters. They remained overnight as guests of their happy hosts, the boys of Boys' Ranch.

The boys were quite relieved and pleased to see the two trucks loaded with food enter the Ranch gate. As one boy put it, "Heck, I wasn't worried at all when I found out the Air Corps were sending trucks. When I get big I'm going to be one of them soldiers myself."

against even the low producers. They, of course, would then complain bitterly, but without understanding.

USED CARS

Here's the Chance to Save If You Need A Better Car!!!

'49 CHEV. SPECIAL DELUXE
Extra clean, radio and heater. Seat covers, low mileage. You'll like this one at \$1,295 and you'll get 12,950 Frontier Saving stamps
