Reports On Lions Nat'l Convention

The Muleshoe Lions Club heard a report of Rufus Gilbreath on the Lions International Convention held in Mexico City, Mexico. Gilbreath was accompanied on the trip by his wife and Mr. and Mrs. Randy Johnson. They returned home June 30th.

In giving an account of the convention, Gilbreath stated that more than twenty four thousand Lions from 28 countries were present and that the meeting was most interesting and entertaining. The meetings were held in a municipal auditorium with a seating capacity of 22,000.

He elaborated on the economic conditions of the country and stated that poverty prevails in practically every section of the country. Mexico City with its more than 3½ million people has over six thousand millionaires and that for the most part the rest of the population lives in poverty. He said that for the most part there was no middle class.

Commenting on the political views of the country, communism can grow very little because nearly 80% of the population is predominantly Catholic. Gilbreath further stated that tourist accommodations are more than adequate and that he would recommend the trip to anybody as a most interesting experience.

Rev. Patrick Hurt In Crash

Rev. Sidney Patrick, pastor of the Church of the Nazarene here, was severely injured and three others of his family received less severe injuries when his car was in collision with a hay truck on Clovis highway west of Muleshoe at 5:30 p. m. Sunday. Riding with him were Mrs. Patrick and their two daughters, Ramona and Marsha.

Mrs. Patrick had a broken arm and Ramona remained in the hospital here several days for observation. Rev. Joe Norton, evangelist for the revival being conducted by the Church of the Nazarene, who was riding with the Patricks received minor injuries.

The group were returning from visit in the home of Mr. and Mrs. Joe Peugh where they had been guests for Sunday dinner.

Traffic Accident Destroys Car

Mr. and Mrs. J. P. Miller and granddaughter, Claudia O'Hair, received minor cuts and bruises Tuesday night when the car in which they were riding collided head-on with a Studebaker pickup driven by Jerry Rogers, 13-year old son of Mr. and Mrs. John Rogers of Baileyboro.

The accident occurred about 10 o'clock. It resulted in complete destruction of the Buick which the Millers were driving. Mrs. Miller received treatment at the Green Hospital where four stitches were taken in a chin cut.

SPENT WEEK END AT BUFFALO LAKE

Leroy Hicks and Markum Chadwick spent the week end fishing at Buffalo Lake. Mrs. Hicks spent the week end with Mrs. Chadwick while they were away.

16 Year Old Jimmy Green Wins All City Golf Tournament

The Muleshoe all city golf tournament was completed last Sunday with young Jimmy Green taking top honors, winning over Lowell I. St. Clair by the score of 5 and 4. Green came in on the turn with an amazing one-over-par 37 and went through the 14th hole with a 2 over par to win the championship.

In winning the tournament Green defeated Russell Haberer in the opening round, took Noel Woodley in a 19 hole thriller and then downed runner-up St. Clair to take the coveted trophy.

In medalist play last Sunday Noel Woodley won top honors with a low score of 73 which is one over par for the 18 holes.

Winner of the second flight was Elmo Evans who beat Houston Hart 5 and 4. Winner of the second flight was Myron Pool, Jr.

In the championship flight consolation, Russell Haberer defeated Gil Wollard 2 and 1. First flight consolation went to Bob Gregory who took A. S. Stovall one up on the 19th. Second flight consolation honors went to Wilbur Le Veque who took Vance Wagnon 3 and 2.

Huge galleries followed the tournament all the way, an estimated gallery of more than one hundred saw Green and St. Clair and Haberer and Wollard play the championship flight. On the whole it was a most successful tournament and one that will be remembered for a long time.

Those competing in the tournament were Noel Woodley, Gil Wollard, Rex Carroll, Russell Haberer, Jimmy Green, Lowell I. St. Clair, John Gammon, and Woodie Lambert all in the championship flight.

Those competing in the first

flight were Elmo Evans, Morris Douglass, Bill St. Clair, L. T. Green, Sam Fox, Joe Alsop, A. S. Stovall, Fred Johnson, Houston Hart, Bill Barbour, L. S. Barron, Don Bryant, Bob Gregory, Dudley Malone and Hoyt Morgan.

In the second flight were Wilbur Le Veque, Troy Wilkerson, Doc Howell, Howard Elliott, Clyde Holt, Sam Damron, Sikkie Watkins, Russell Bryant, Herb Griffiths, Buck Wood, Bob Harvey, Charles Lenu, Ray Keeling, Myron Pool, Jr., Red Johnson and Vance Wagnon.

Troop twenty of the Muleshoe Boy Scouts sold candy and cookies and were caddies at the tournament.

Morton, Muleshoe Golf Cup Match Play Here Sunday

The Muleshoe Golf Association will be host to the Morton Club in a return match this Sunday to determine winner of the cup play. Last year the Morton team defeated Muleshoe to take the trophy home and in the event the local golfers lose again the cup will belong to Morton permanently.

More than 30 golfers from the South City will be here for the match and the tee-off time is scheduled for 1:00 o'clock.

Pairings for the tournament will be via the ladder scale and the local club itself will determine who is to play.

Bountiful Rains Cover Country And Improve Prospects For Good Crops

Beginning with a downpour Friday, June 27, rains have continued to such an extent that the crop outlook in Bailey County has been materially altered. Rains have covered the county, and they particularly were welcome in the south part of the county where little irrigation is practiced.

Where cotton had attained any growth, the rains have given promise of a bountiful yield next fall. Where the drought had prohibited planting, feed has now been planted and in most parts is up to a good stand and off to a fast start. However, sorghum grains will have to hump to mature before frost, it is said.

Many farmers have told The Journal their crop outlook has never been better at this time of year.

Alfalfa and potatoes have furnished cash income to quite a few farmers in the Muleshoe country this spring and summer. Now there is promise that sorghum grains and cotton will provide their share of money returns when harvest time arrives.

In Muleshoe the rainfall to date now totals nearly 6 inches for 1952. R. J. Klump reports that showers through Monday night brought the years' precipitation figure to 5.87 inches.

Feed is humping, although it is barely up to a stand, in the south part of the county, following recent rains amounting to 5 inches of rain, W. R. Byers, of Goodland community reports. He said 3 inches fell at his place, the Koplpin farm, on Friday night, June 27, and 2 inches fell Monday night of this week.

Mr. Byers said that following the rain of the 27th some farmers got into their fields to plant by Monday, July, others planted Tuesday and still others Wednesday, but he said that all of it was up to a good stand by the following Sunday. "There was feeding feed everywhere you looked," Mr. Byers told The Journal.

FEED DOING WELL IN SOUTH PART OF COUNTY

Feed is humping, although it is barely up to a stand, in the south part of the county, following recent rains amounting to 5 inches of rain, W. R. Byers, of Goodland community reports. He said 3 inches fell at his place, the Koplpin farm, on Friday night, June 27, and 2 inches fell Monday night of this week.

Hicks Approved For Inspections

Another official motor vehicle inspection station for Muleshoe was announced this week with the approval of Hicks Tractor Company.

George Hicks of the firm said that official approval of his repair and service department was announced by the Texas Department of Safety in Austin.

He said that his firm is fully prepared with the men and equipment to make the required inspection and qualified to make necessary repairs and adjustments on any motor vehicle. Mr. Hicks reminded that the inspection stamp must be affixed to motor vehicles by September 6.

Green, Cummings To State JayCees Golf Tournament

Jimmy Green and Logan Cummings have been extended an invitation to participate in the JayCees State Junior Golf Tournament to be held at North Texas State College Golf course August 2.

Local JayCees voted at their last meeting to send at least one boy every year and that because of the outstanding play of both Green and Cummings is was voted to send both of the boys.

In the event one of the boys should win the state tournament they then will go to the National JayCees tournament, the date and place yet to be decided.

HAS FINE COTTON

Buck Ragsdale, residing about three miles south of Baileyboro, said 2.6 inches of rain fell at his place Monday afternoon and night of this week. This followed on top of the fine rain which fell June 27. Some of his cotton had been blown out by the unseasonably high winds that blew several days preceding the 27th, but what is left looks extremely good.

The territory around Baileyboro had been about the driest in the county.

The rain of Monday night of this week missed some of the territory west of Muleshoe. It was said to be light, also, around the territory north of Maple.

Verney Towns, who resides west of Muleshoe said the rain was light at his place.

Gov. Shivers In Visit To Plains

AUSTIN, July 9 — At the midway point of his two-week tour through the state, Governor Allan Shivers will make appearances in five West Texas cities and San Antonio during the remainder of the week.

The governor started his tour shortly after being named chairman of the National Governors' Conference by fellow chief executives at the Houston meeting. The honor in Houston, the highest that governors of the United States and its territories can pay an associate, climaxes a long string of achievements by Governor Shivers.

The Texas governor already was serving as chairman of the Southern Governors' Conference. His election as head of the National Conference created the rare situation of one governor holding both these important positions simultaneously.

Governor Shivers was chairman in 1951 of the 22-state Interstate Oil Compact Commission and has just concluded a term on the Executive Committee of the National Governors' Conference.

Fifty thousand bags of No. 1 potatoes had been shipped out to a hungry world from two processing sheds in Muleshoe up to Monday night of this week, according to an estimate by Fain G. Cesar, of the Oklahoma State Department of Agriculture, who is handling sales for all growers in the immediate territory.

Fred Barrett, Sr., and sons operate one shed while the other is owned and operated by Bill Millen. Cesar is managing the Millen shed as well as handling all sales.

No. 1 potatoes were bringing \$4.25 early Tuesday. Mr. Cesar said there was an extremely good demand and that he was considerably behind in filling orders. The potatoes are leaving Muleshoe in train cars and on trucks, many of them to far away centers of population in the U. S.

One reason for the exceptionally strong demand for Muleshoe potatoes is that the harvest here comes at the tail end of the western potato harvest and just before the beginning of the eastern area harvest, Mr. Cesar said.

Good Potato Country

Mr. Cesar said that in his opinion Muleshoe is an ideal spot for growing potatoes. He said the soil is good, there is plenty of water, and the climate is right. He said that yields of as much as 350 sacks of No. 1 potatoes have been reported in this area this year. Some have reported as little as 115 bags to the acre however.

And the price has not been up to \$4.25 during the entire harvest. But all told it has been a harvest that brought a considerable sum of money into the community.

The Barretts, including Fred

Barrett, Sr., Dick, Stan, and Fred, Jr., have the largest acreage. They have growing agreements with several farmers and have grown several hundred acres this year with good success.

Other producers include Bill Millen, Buck Gregory, M. F. Mooney, and J. T. Peugh. Indications are that next year the potato seedling will be much larger than this year.

Employ Many People

The two processing plants in Muleshoe employ at their peak of operation about 55 persons.

In addition, the harvest requires the labor of many others in digging, gathering, sacking, and transporting to the local sheds. That part of the work is contracted to Mexican people, who do the whole job from digging to delivery at the sheds.

Upon arrival at the sheds the potatoes are washed and graded, then resacked for shipping.

Most of the potatoes that have been grown here this year are red potatoes, predominately Bliss Triumphs, however, a few white potatoes, or Cobblers have been produced around Muleshoe.

The local growers were fortunate to secure the services of Mr. Cesar to conduct their marketing operations. He is here temporarily and will soon return to his duties as director of the Marketing Division of the Oklahoma State Department of Agriculture.

Livesay Given Life Sentence In Blocher Murder By Haskell Jury

A jury in district court at Haskell Wednesday found Thomas Clifton Livesay guilty in the murder of Joshua Blocher last August and assessed his punishment at life in the penitentiary. The jury deliberated the case in one hour and 15 minutes. The trial began Monday morning and was attended by a number of Bailey County citizens.

The body of the 85 year old Progress man was found in a cotton field a few miles from his home. He had been beaten and died of shock and lack of water and food. L. D. Stevens, accused with Livesay in the murder, was given the death penalty by a jury in district court in Bailey County.

Livesay's attorney announced that he would waive right of appeal.

coming to Bailey County the morning of Aug. 15 to investigate the murder of Joshua Blocher. Pictures taken of Blocher's body in the cotton field were introduced as evidence.

Dr. L. T. Green, Muleshoe, who performed the autopsy, described three lacerated wounds on Blocher's head, said they apparently were administered while the man was in a standing or sitting position. Bruises on Blocher's left shoulder and burns on the entire right side of his body were caused by his thrashing on the ground after he was left in the field, the doctor said. Summing up, Dr. Green testified that the Hermit of Progress died as a result of concussion and dehydration. Secondary cause of death was contusions and lacerations, he said.

Roy Bayless, Muleshoe, told of finding a set of false teeth, apparently Blocher's, in the cotton field after the body was found.

Sheriff Hugh Freeman of Bailey County, who told of taking Livesay's statement and denied promising the young smelter worker "an easier time of it" if he signed a confession.

"I told Livesay", the sheriff testified, "you have not only committed an offense against the law, you have committed one against the Almighty. Now go to your cell and think about that".

Brooks said he discovered a hole "about the size of a fruit jar" under the bench where Blocher slept. Testifying later, Freeman said he did not notice the hole in the floor but described a litter of papers in the Blocher shanty and other evidence of a search of the premises.

Other witnesses included: J. H. Wimberley of Progress, one of the court-appointed searchers, who described the job of digging up the floor at the little cabin and discovery of an estimated \$14,000 buried in three fruit jars, one of them not more than six inches from the hole under Blocher's bed.

Deputy Sheriff Bill Booth of Muleshoe whose testimony substantiated that given by Freeman concerning the search for Blocher and discovery of his body.

Cecil Clifford Mardis, Bailey County farm boy, who told of finding the old man's body the morning of Aug. 15, as they were riding a tractor to the field on their father's farm five miles southwest of Progress.

Walter Schwede Rites Are Held

Funeral services for William Schwede who died in his sleep early Tuesday at the home of his daughter, Mrs. W. R. Schure, 1101 Sheldon, Clovis, will be held at St. John's Lutheran Church of Lariat today at 4:30 p. m. Interment will be in the Oklahoma Lane Cemetery with Steed Funeral home in charge of arrangements.

Schwede had made his home in Clovis for the past five years. Prior to that time he farmed south of Farwell for about 30 years.

Survivors include four daughters, Mrs. Schure of Clovis, Mrs. John Wiederanders of Vernon, Texas, Mrs. G. P. Miesner of Lariat and Mrs. Alvin Krieger of Muleshoe; one son, Walter Schwede of Roswell; a stepson, A. G. Drager of Dunbar, Neb., and one step-daughter, Mrs. Louisa Drusedow of Haskell, Texas.

Editor Thinks Water Wasted

Many people hereabouts are of the opinion that more conservation of water is due for the Plains in the future, but they don't know how to go about it yet. The editor of the Plainview Herald is of the same opinion, likewise doesn't know where to start, but his comment very well expresses this whole situation:

ARE WE WASTING WATER?

There is terrific waste of water pumped for irrigation on the High Plains of Texas. This scribe knows there must be, because almost everyone with whom he talks, who is informed on the subject, agrees that there is. Yet ask them to define the waste and they are not so explicit.

This is a subject which is vital to the long range welfare of the Plains area, which depends so greatly on the life-giving water that underlies it.

There is a groundwater law in Texas. It provides action by district officials where a district has been created by election, to prevent waste. Yet its definition of waste is obscure. It does not coincide with the popular concept of waste. It merely defines waste as a non-beneficial use of water and enumerates beneficial use.

When you speak of waste of irrigation water most people will generally exclaim: "There ought

to be a law against letting water run down these borrow ditches from the fields."

We have a hunch, based on more than simple intuition, that this is not the principal source of waste, although the most apparent. There are other wastes of water that are as irrational as letting water run down the borrow ditches along the highways. They are not so apparent.

And, the waste of water is not to be curtailed by a law that would provide a penalty for wasting it. It will be curtailed when an intelligent understanding of the economic uses of our water has been arrived at by an application of good, sound common sense, reinforced with exact scientific knowledge.

The Golden Rule is one we could invoke.

The old adage "Waste not, want not", has lived because it has place in human experience.

We need to know more about what constitutes waste of water. We need to know more about utilization of water.

That is not to be accomplished by law, but rather by intelligent understanding of how much water is to be used for the most economic benefit of growing crops, and how much water is being currently applied that is not used beneficially by plants; how much water is being actually wasted by economically preventable evaporation, seepage, and by penetration into the soil zones so deep in the ground that plants we are cultivating may receive no benefit; by supplying enough labor to economically manage the water we are pumping, etc.

These are merely some thought-provokers. An effort is made to give a thorough analysis of waste.

We are wasting water. We are wasting lots of water. We, and posterity, may be sorry, intensely sorry, some of these days.

Cotton Estimate In '51 Too High

AUSTIN, July 8 — A recent admission by the U. S. Department of Agriculture that its 1951 cotton crop estimates was "too optimistic" has verified a claim by Texas Agriculture Commissioner John C. White.

White, who is now seeking his second term in office, said the U. S. D. A.'s over-estimate of 2 million bales last year resulted in a serious break in cotton prices. His own correct estimate of the Texas crop as early as last August, and his advice to farmers to hold their cotton saved them millions of dollars, he said.

The commissioner cited his cotton report, which was upheld last week by the U. S. D. A. annual bulletin, as one of the services rendered by his department during his first term in office. He is actively campaigning this year to repeat his 1950 victory at the polls when he unseated J. E. McDonald, veteran politician who had held the post of Agriculture Commissioner for 20 years.

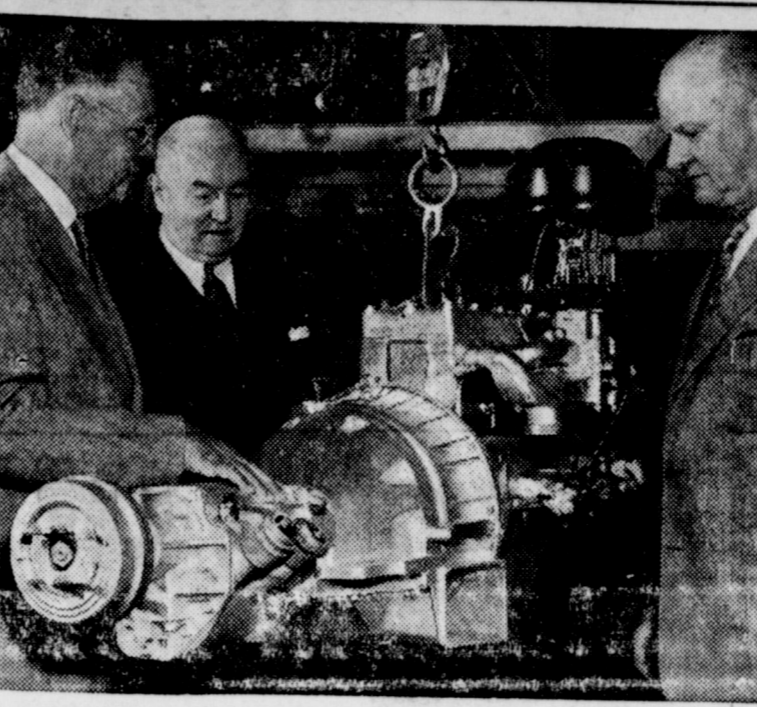

The son of a Clay County tenant farmer, White was formerly head of the Division of Agriculture at Midwestern University, Wichita Falls. He and his wife and three sons have now established their home in Austin.

BACK FROM CALIFORNIA

Buddy Peeler has returned to his home here after a visit in Newport Beach, Calif. It was his first train ride and Buddy had lots of experiences on his return trip by himself. He is the son of Mr. and Mrs. Jeff Peeler. Rita Peeler and Nelda Jo Wilson, the latter the daughter of Mr. and Mrs. Bay Wilson, remained in California for a longer visit. The three went out with Mrs. G. O. Jennings and Bobby, and visited them and Mrs. Peeler's brother and family.

Dizzy Dean Story Coming To Local Theatre

In "The Pride of St. Louis", the screen profile of Dizzy Dean, which comes to the Cox Drive-In Theatre on July 13 and 14 with Dan Dailey starring in the title role and Joanne Dru in the role of Dizzy's wife, many of the real-life incidents that made the screwball National League pitcher the toast of baseball, will be shown for the first time.

For example, the time he was beamed by a pitched ball and made his famous remark, when the x-rays showed nothing, of "Shucks, I knowed it all the time."

Other incidents in the picture, which shows off Dean as the fabulous character he was, include that afternoon in Boston when he announced to the Braves that he would not throw a curve during the game. He didn't either—and allowed only three hits for a 3-0 triumph.

Dizzy, who pitched an amazing all-time total of 1,154 strike outs, always fashioned himself as a hitter. In the 1934 World Series, he got two hits in one inning and bragged, "Only a few other fellows ever got two hits in one World Series inning and no other pitcher except me ever done that!"

Scenes in the earlier part of Dizzy's career show him and his brother Paul playing in the band and acting as ushers in the

There was a young lawyer named Pace Whose car made him lose his last case.

Too late to commence His most brilliant defense.

He walked out of court in disgrace!

Then I got Conoco's NEW 1-2-3 "50,000 Miles No Wear" Service!

Now Lawyer Pace wins every case . . . thanks to one of the greatest services ever offered the motoring public—a service that helps engines last longer, perform better, use less gasoline and oil!

It's exactly the same service that kept test cars new in Conoco's spectacular "50,000 Miles—No Wear" road test! In that famous 50,000-mile test, with 1,000-mile drains and proper filter service, test car engines showed no wear of any consequence; in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000.

Now you can get this same 1-2-3 "50,000 Miles—No Wear" Service, at your Conoco Mileage Merchant's today!

HELPS YOUR ENGINE LAST LONGER, PERFORM BETTER, USE LESS GASOLINE AND OIL!

HERE'S CONOCO "50,000 MILES—NO WEAR" SERVICE

At proper intervals, Your Conoco Mileage Merchant will:

- 1 Drain out grit and sludge, preferably while the engine is hot!
- 2 Recondition all air and oil filters!
- 3 Fill the crankcase with great Conoco SUPER Motor Oil.

Plains Murder Mystery Detailed For Rotary Club

Rep. Harold M. LaFont, of Plainview, related the inside story of the Hunt-Newton murder cases that rocked the Panhandle back in the early forties before the Muleshoe Rotary Club at its Tuesday luncheon meeting.

Mr. LaFont was district attorney during most of the trials and was a principal actor in the Plains murder mystery that never has been solved to the satisfaction of the casual reader. The case came to a close only with the murder of Jim Thomas in Oklahoma last year. Thomas was twice assessed the death penalty for the brutal murder of Dr. and Mrs. Hunt in their home in Littlefield, but was out of custody on appeal when he was slain.

Mr. LaFont, representative in the Legislature, is a candidate for State Senator from the newly created 30th Senatorial District.

The club officially welcomed three new members, D. B. Lancaster, O. D. Holton, Jr., and Melvin Bass.

Local Girls Attend Grand Rainbow Assembly

Marilyn Gupton, outgoing worthy advisor of the Muleshoe Order of the Rainbow Girls, and Jo Addine Wagnon, incoming worthy advisor, attended the annual Grand Assembly of Rainbow Girls of Texas which was held at Ft. Worth from June 15-18.

All grand officers were elected and Jana Beth Laing of Earth became the new grand religion. Next year's Assembly will be held in Galveston.

New officers for the local assembly will assume their duties the first of September.

W. S. C. S. Has Lesson On Youth

The Woman's Society of Christian Service of the First Methodist Church met in the Fellowship Hall Monday, July 7, at 3 p. m.

The opening song was "Tell Me The Story of Jesus", followed by a prayer by Mrs. Beulah Carles. Mrs. O. N. Jennings gave the devotional on the subject, "Let the Little Ones Come".

The president, Mrs. F. B. Pierson, directed the lesson using as her topic, "Children Need Us". Mrs. C. R. Farrell spoke on "Migrant Children" and Mrs. J. J. Gross gave "Inter-racial Centers". As a conclusion, Mrs. D. B. Lancaster presented "The Midcentury White House Conference for Youth and Children".

Mrs. Pierson presided during the business session. Reports of committees for cards and flowers to the sick were read and minutes of the last meeting were read and approved.

Refreshments of Cream O'Plains were served by Mrs. H. Jay Weyer to Mesdames Lucy Layne, Beulah Carles, H. W. Hanks, J. J. Gross, O. N. Jennings, C. R. Farrell, I. W. Haney, J. E. Day, D. B. Lancaster, F. B. Pierson, and Arnold Morris.

Mrs. Holland Is Hostess To H. D. Club Meeting

The Muleshoe H. D. Club met June 8 at 3 p. m. in the home of Mrs. E. E. Holland.

Mrs. J. E. Day gave reports on the special T. H. D. A. meeting called to elect Bailey County chairman and delegates. Mrs. G. T. Maltby was elected chairman, Mrs. A. W. Copley and Mrs. John Bowen were elected as delegates and Mrs. Harold Mardis, Mrs. Leon Julian, and Mrs. Gibson are alternate delegates. The expenses of the delegates will be about \$30. The council will pay half of this amount and the sponsoring club will donate the other half.

Mrs. A. W. Copley displayed cards that were sent, on approval, to be sold by the club. The club decided to sell them as about \$30 was made by selling them last year.

Mrs. Copley read a letter from Mrs. Iris Davenport stating that any member wishing an outline of her speech which was given at the Dimmitt district meeting could obtain one by writing and requesting it.

Mrs. Copley, Mrs. Gillis and Mrs. Witte volunteered to make the preparation necessary for the sale of flowers and the bake sale on Saturday. The annual basket picnic supper will be on the lawn

Budget Campaign Gets Underway

"Kick-Off Dinner" of the Budget Campaign of the First Methodist Church was held Monday night, July 7, at 8:00 o'clock at Fellowship Hall.

SOLVE YOUR PLOWING PROBLEMS WITH MM WHEATLAND DISC PLOWS

For plowing stubble or sod, MM Wheatland disc plows do a superior job and often cut plowing costs as much as 50%. They thoroughly mix trash with soil to increase moisture absorption and to prevent soil blowing. They do not leave air pockets. MM Wheatland disc plows have a wide range of adjustments of disc angles from 40 to 60 degrees. Adaptable to any size farm... offered in 4, 6, 8, and 10-foot sizes.

MM Wheatland disc plows can be set to plow at any depth from 3 to 9 inches, and one of their big advantages is that they hold to their work at the depth for which they are set. Electrically heat-treated discs are 26 inches in diameter. MM larger-diameter discs turn soil better. Disc bearings never require lubrication, and a special end-thrust bearing takes all end thrust of the entire gang assembly. See us for complete facts.

There are Miles that Make You Happy

YOU'LL discover a lot that you like in this neat, fleet and nimble traveler the first mile you drive it.

Such things as cushions broad and deep—six-passenger room unsurpassed by any car in America—fabrics rich, soft, harmonious.

As you take it through traffic—breast a hill or two—try it out on back roads—you'll find that you handle Dynaflow Drive* as if you had always used it—your ride is serenely level—and a great tide of power comes surging up as you need it.

This, you will say, is very Super indeed.

But no one-time sample can tell you the deep-down enduring thrill that is yours when you own this great middle series Buick.

How easy it is to park in round-town driving, especially if you have Power Steering.†

How relaxed you and the family will feel at the end of a long day's vacation jaunt—with Dynaflow Drive to let you drive at ease on the open road, without the tenseness of clutch-pushing in traffic—plus a Million Dollar Ride to protect the comfort of the family.

That ride is something to talk about. More than a dozen selected engineering features control roll and wander on curves—snub dip and sway before they get past the frame—carry you over all kinds of roads with lullaby smoothness.

And that Fireball 8 Engine—man, what a docile thunderbolt you'll find it to be! Here's a high-compression valve-in-

head that really wrings miles from a gallon of gas.

In other words, all the miles you travel in this Buick are going to make you gladder and gladder that you bought it—for comfort, for fun, for thrill and for thrift.

What are you waiting for? Come in and get your sample today.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Now available on Super as well as Roadmaster—optional at extra cost.

BABSON DISCUSSES

Youths' 1952 Opportunities

Babson Park, Mass., July 4. — During the past month nearly every family has had some young member finish school or college and go out into the cold world to work.

FAR FIELDS LOOK GREEN
 Some of these have taken jobs away from home. The brighter lights of another city have looked good. They want to be connected with some big corporation which they have seen advertised in national magazines, forgetting that the large ones have their troubles as well as the small ones. Besides, one does not learn much with a large company. Unfortunately is the young person who thinks his days for study and learning are over because he has "graduated" and has a "diploma".

Young people should also think of the possibilities of World War III when selecting a place to settle. This means that the twelve large cities cited by the Government as especially vulnerable should be avoided. These are: New York, Chicago, Philadelphia, Detroit, Los Angeles, Cleveland, Baltimore, St. Louis, Boston, Washington, and San Francisco. Surely, these cities are

no place to take a young girl and start to bring up a family. Hence, stay where you now live.

TOADS AND PUDDLES
 The real purpose of my little sermon this week is to commend the young people who are getting jobs in the community where they were raised—the city or town which has paid for their education—and friends. These graduates are doing the smart thing. The first principle of success is to build upon the foundations already constructed. These foundations for you, my reader, are in Muleshoe.

Thousands of young people have asked me, "What chance have I without money or capital?" I immediately reply, "You have as much chance to make friends as anyone; real friends are the best capital you can have." I have 170 people here in by Statistical Organization and we are employing more all the time. When looking up the references of applicants for jobs, I always want to know how many "contacts" they have and the character of these contacts. Other things being equal, the one with the most contacts gets the job.

SAND HILLS PHILOSOPHER SAYS
Europeans Not The Only Ones
Baffled By American Politics

Editor's note: The Sand Hills Philosopher on his Johnson grass farm seems a little baffled this week, his letter reveals. Probably the heat.

Dear editor:

I was sittin out here on the Fourth of July takin a holiday, although understand I do not follow the general trend in this matter, if a holiday is good on special occasions it's good on ordinary occasions and I take one say just on Lincoln's birthday, take one ever time you think of Lincoln, and you stretch this out over all the heroes and special days we got and at the end of the year

Your best contacts are in your home town or city. Stay where you are. Protect and increase your present contacts. Every one of them is worth \$500 each to you as capital. Better be a big toad in a little puddle, than a little toad in a big puddle!

OPPORTUNITIES FOR GROWTH
 Statistics show that the rate of growth of some of the largest cities is already declining. The big increase in population is in the towns and smaller cities. These now offer the real opportunities to wide awake young people. Therefore, get a job in the city where your family now lives. Marry a local boy or girl and raise some good kids. Take an interest in the schools, churches and civic organizations. They all need new blood and new ideas. Remember all the present leaders and big shots will die off someday—be one of their successors. This is the least you can do.

Don't be too fussy about the special business or industry where you are working or are going to work. Statistics show that some families are making a great success of every industry and every kind of a store. This proves there are opportunities in every factory, store and other business in your city if the management is wide awake, honest and aggressive. In fact, with a "sleepy" employer you may have a better opportunity than with some other. If you have any doubts as to who are the "wide awake" ones, apply for a job with those who advertise. This is the best barometer that I know of as to whether a concern is on its toes and headed for growth.

WATCH POPULATION OF YOUR CITY

From 1940 to 1950 the net growth in population of the U. S. was about 19,000,000. If we avoid World War III, there will be a net growth in population between 1950 and 1960 of about 25,000,000. These people, moreover, will be better educated and better physically. Although we may have a temporary slump in business and employment during the next two or three years, sometime before 1960 we should witness great prosperity. This means that this year's graduates have the greatest opportunities of any young people who have ever gone forth into the world of business.

you run up a total of holidays a man's entitled to; as I say, I was sittin out here not doin anything when a ripple of wind turned the page on a newspaper I was lookin at and had been wonderin for some time what was on the next page, and since it was as handy as it was I went ahead and looked at that page and noticed an article which reported that most Europeans are baffled by political events in the United States.

Accordin to this article, Europeans can't understand the system whereby American primary elections are held to pick a delegate who goes to a convention and votes as she chooses for a candidate who will have to run all over again in November. In this connection, I would like to say that a man does not have to go to Europe to be baffled by American politics. I ain't never been out of the country and I been baffled all my life.

We Americans, when we get a chance to vote, generally to a pretty passable job, maybe we've made a few mistakes here and there, but the system we got for gettin something to vote for ain't always made too much sense. It puts too much power in the hands of a few people who very seldom come out here and ask me who I want. Maybe they ask you and other important people, but so far I been pretty generally ignored. Of course if they ask me, I ain't sayin I'd have any better ideas than theirs.

However, even if politics is bafflin to the average voter, he ain't by himself. I've seen lots of office holders, even Presidents, who at times was baffled themselves. It's a pretty popular state of mind.

Yours faithfully,
 J. A.

BILL OF RIGHTS GUARANTEES INALIENABLE PRIVILEGES

The American "Bill of Rights", consisting of the first ten amendments to our federal constitution, all adopted at one time in 1791, specifies in some detail a number of basic rights of the individual citizen. Unaltered by subsequent amendment and jealously guarded by our courts, these privileges must still be respected by our governing bodies today.

Among the most familiar of our constitutional guarantees are those relating to freedom of religion, of speech, and of the press. The same article protects the right of peaceable assembly and the privilege of petitioning the government for redress of grievances.

Another amendment secures our persons, houses, papers and effects against unreasonable searches and seizures, and specifies that no warrants shall issue but upon probable cause, and unless supported by oath or affirmation.

The due process of law amendment encompasses not one but several guarantees. Every American is secured against being placed twice in legal jeopardy for the same offense; against being compelled to be a witness against himself in a criminal case; against having his private property taken for public use without just compensation; and

against being held for trial for a capital (death penalty) or other infamous crime, unless upon a presentment or indictment of a grand jury. And, of course, no person may be deprived of life, liberty, or property without orderly court procedure, or due process of law.

The right to a speedy and public trial, by an impartial jury, in the locality where the crime was committed, the right to be informed of the nature and cause of the accusation, and the rights to compel attendance of defense witnesses and to have the assistance of defense counsel are secured by another section of the "Bill of Rights."

Excessive bail and fines, and cruel and unusual punishments, are prohibited in Amendment VIII. Other articles insure the right to bear arms and ban quartering of soldiers in private homes during peace time.

Then, to make quite clear to our governing bodies the underlying intent of the preceding provisions, the Ninth Amendment states: "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."

The Tenth Amendment further emphasizes this basic theory by providing: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people."

Thus, that fundamental philosophy expressed in the Declaration of Independence, that men are endowed with certain unalienable rights, and that "to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed," has been carried forward into the highest law of our land.

(This column, based on the federal constitution, is written to inform, not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

but which he will not admit. Job ever asserts his purity of intentions and his freedom from sin. Finally, Job comes to the place where he forgets himself and his sufferings and losses and takes pity on his would-be comforters. He prays for them. When he does this, he is released from his captivity, freed from his suffering.

Something always happens when one prays for others. The greatest blessings come to them and us. Our greatest prayers are our prayers for others.

PRAYER

Our Father, we desire so many things for ourselves. But help us to forget ourselves in the larger desire to see blessings bestowed upon the needy, the hungry, and the suffering in the world today. Release new powers of life to all through our concern for them. In Christ's name. Amen.

THOUGHT FOR THE DAY

Prayer links man's desire with God's power.
 Guy O. Carpenter, (Indiana)

From where I sit... by Joe Marsh

How Nervy Can a "Tenant" Get?

"Harry the Hermit" dropped in to see Judge Cunningham the other day and started complaining about that dilapidated house he lives in over near Greenwood Lake.

"Who's my landlord?" Harry wanted to know. "Whoever you pay rent to," says the Judge. "Don't pay any rent," says Harry. "Moved into that house twelve years ago and nobody ever came to collect."

"Well," says the Judge, looking mystified, "what do you have to complain about?" "Plenty," replies Harry. "Rain's pouring in my living room and if someone doesn't

fix that roof, I'm moving out!"

Now Harry was only having a little joke, but from where I sit I've seen people act just about as nervy as this sometimes—seriously. Like those who enjoy all the rights Americans have worked for, and yet would take away some of those freedoms from others—for example, our right to enjoy a friendly glass of beer. I say these "leaks of intolerance" have no place in the "home of liberty."

H. D. Club Meets In Stotts Home

The Progress Home Demonstration Club met Tuesday, July 1, in the home of Mrs. George Stotts with Mrs. Joe Simmacher as hostess.

Mrs. George Stotts presided over the meeting and Mrs. G. T. Maltby gave the opening exercise. Roll call was answered with "My Favorite Relish Recipe."

Mrs. Ada Murrah gave the report of the special called meeting of council when Mrs. G. T. Maltby was elected T. H. D. A. chairman. She will be delegate and Mrs. Harold Mardis was elected first alternate to the state meeting the latter part of August at Kings Ranch.

Mrs. Dian Reed gave the program on "Fill the Cookie Jar." She made Scotch short bread, later serving it to the members. She also gave a discussion on the different types of cookies.

Refreshments were served to one visitor, Miss Marion Talley of Oklahoma. Mrs. Dian Reed and nine members.

The next meeting will be July 15 in the home of Mrs. Harold Mardis.

Bownds Family Has Surprise Reunion

Mr. and Mrs. A. R. Bownds were surprised on July 4 when their entire family of two sons and four daughters arrived for a reunion. One granddaughter, Norma Jean Harris, flew from San Antonio to be present for the occasion.

Livable And Loveable

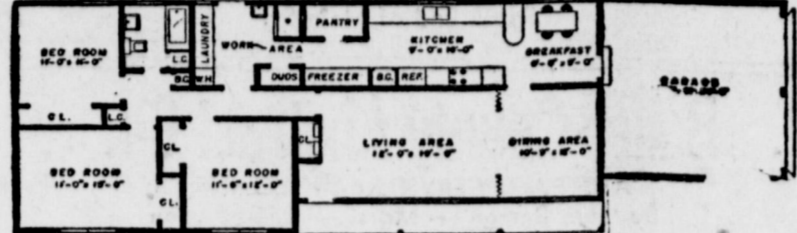

In Farm and Ranch House Plan No. 5246 we have an attractive combination of old and new—the comfort and convenience of a modern home and the long, low horizontal lines found in the old ranch-style homes.

The kitchen-workroom area is so arranged that it has adequate space for comfortably and conveniently serving the meals and preparing and storing food for the family food supply. There is a large pantry and additional space for twelve to fifteen cubic feet of food freezer. There are fourteen lineal feet of drainboard space plus two and a half feet of counter space on either side of

HOUSE PLAN No. 46

the range. Also, there is a storage closet for brooms and mops in the kitchen. The work area leading to the back door can be closed off easily by two sliding doors. It gives

space for laundry equipment, a closet, and a shower and lavatory.

Each bedroom has six or more lineal feet of closet space, and plenty of light and ventilation. The living-dining room combination can be used as two separate rooms or as one large unit. The modern folding door, which comes in pleasing colors, can be used as a separation when you prefer to entertain smaller groups.

This house will be as attractive with or without the attached double garage. We suggest that the exterior finish be of painted vertical boards and strips except for two small areas which may be of masonry to give a variety of texture.

For those who use solid fuels and central heating, the work area can be rearranged so as to give a place for an entrance to the basement and space for a chimney.

The narrow protected area along the front provides excellent protection from the sun and rain and serves to break the monotony of a straight wall.

You can obtain blueprints for this The Muleshoe Journal Farm & Ranch House Plan No. 5246 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor, Farm and Ranch - Southern Agriculturist, Dept. L-36, Nashville, Tenn. Order by number, plan no. 5246. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

Lone Star Farmer Degrees To 579

Austin, July 8 — Lone Star Degrees will be conferred on 579 Future Farmers of Texas at the Lone Star Farmer Awards Banquet to be held as a highlight of the annual State Future Farmer convention Thursday, July 17, at the Adolphus Hotel Ballroom. Headquarters for the July 16-18 meeting are at the Baker Hotel, and more than 3,000 Future Farmer boys and their Vocational Agriculture teachers are expected to attend.

The boys who will receive the Lone Star Farmer Degrees were chosen for this honor for their outstanding agricultural work since they enrolled as Vocational Agricultural students. They come from the 10 Future Farmer Areas of Texas as follows: Area I on the Plains and in the Panhandle, 91; Area II in West Texas, 63; Area III in the Central Coastal region, 56; Areas IV and V in the north part of the state, 131; Area VI in North Central Texas, 62; Area VII in Central Texas, 57; Area VIII in the north central part of the state, 51; Area IX in the East, 25; and Area X in the Valley, 43.

Nation Nearing Victory In 14-Year Polio Fight

The 14-year war waged against polio by the March of Dimes has brought the nation close to the threshold of victory over the disease, J. V. Peeler, Chairman of the National Foundation for Infantile Paralysis declared today.

Mr. Peeler returned yesterday from a 4-state regional conference on polio problems held in Dallas. Attending the sessions were chapter chairmen from Louisiana, Oklahoma, Arkansas, and Texas. More than 105 chapters of the National Foundation were represented.

Also taking part in the "workshop" discussions at the conferences were Dr. Hart E. Riper, Medical Director; George P. Voss, Director of Chapters; Miss Elaine Whitelaw, director of Women's Activities; and Miss Dorothy Duca, director of Public Relations. The conference was arranged by regional director Charles L. Massey for the Southwestern States.

"From all I heard at the conference," said Mr. Peeler, "I am convinced that in years ahead the dark shadow of polio will be removed from our homes. We all left Dallas with the feeling that the time and work we put into the March of Dimes will be repaid a thousand fold in the future."

"Meanwhile," he continued, "we must bear in mind that polio is still with us. Unfortunately we have no reason to believe that the disease will relax its hard grip upon the nation this year. We cannot forget the grim incidence figures of the past four years, nor can we put out of our minds that approximately 30,000 cases now seem to be the annual expectancy rather than an extraordinary occurrence. Until science defeats polio, our work must continue with greater intensity than ever."

A financial burden which chapters of the National Foundation must carry for years to come, he said, is that of caring for an increasing number of severely involved patients, stricken in previous years, who need financial help.

"In our country," said the Chairman, "we are paying patient-care costs for 3 men, women and children who have suffered from polio in the past. This is our obligation even if not a single person should contract the disease this year. A corresponding situation exists throughout the United States, we learn at the regional conference. The National Foundation estimates that between 40,000 and 45,000 cases from other years were being aided by Chapters at the start of 1952."

However, Mr. Peeler declared, the National Foundation faces the 1952 polio season better prepared than ever to cope with a possible polio emergency.

Three Local Boys Returning Home

Returning from Korea aboard the aircraft carrier USS Valley Forge after seven months in the Far East, are three Muleshoe men, Bobby G. Free, fireman, USN, son of Mr. and Mrs. Granvil E. Free; Alvin W. Holms, fireman, USN, son of Mr. and Mrs. J. W. Holms; and Phillip E. Garrett, fireman apprentice, USN, son of Mrs. Birda Garrett of Route 2.

The 27,000-ton carrier will complete her third tour of duty in the Korean area when she docks in San Diego, Calif. July 3. Two years ago, on that same day, the Valley Forge launched the first Navy air attacks against North Korea.

In the past two years, the carrier has spent 14 months in Korea. Five days after she returned to the west coast in Dec., 1950, she was ordered back to the combat area.

Air Task Group One, embarked in the Valley Forge, flew over 6,000 combat missions over Korea.

MERIT SYSTEM COUNCIL HAS MANY JOBS OPEN

Chas. S. Gardiner, Director of the Merit System Council, announced today that the State Department of Public Welfare is in need of employees in clerical and professional positions and that competitive examinations have been scheduled for August 16. County Agent Finds Few Insects, Many Good Crops In Tuesday Tour

The cotton insect report to Texas just released by the A & M College System and the Bureau of Entomology and Plant Quarantine gave the South Plains a reasonably clean bill of health as regards cotton insects in twenty three fields officially inspected in Crosby, Hockley, Lubbock, and Terry Counties. Fleahoppers proved to be very low, averaging 2 per 100 cotton plant terminals. Thrips and lice were doing no damage in most fields and very light damage in others.

J. K. Adams, Bailey County Agent, made a field trip in search of cotton insects on Tuesday of this week and was gratified to learn that none of the many fields inspected would warrant the application of insecticides at this time. The A. H. Daricek field, planted April 16, is probably the oldest and largest field of cotton within fifty miles of Maple, Texas, and should have more insects than the younger cotton, but the field proved to be loaded with squares, blooms and many beneficial insects. One spot in the Daricek field proved to be infested with fleahoppers at the rate of 12 per 100 terminal buds but poisoning would not be recommended until the infestation reached 30 fleahoppers per hundred buds.

CROPS AND RAIN

The heavy rains in Southwest Bailey County will probably erase the nickname of "Death Valley" recently given the drought stricken area. Rain gauges showed 2.1 inches at Needmore, 3 inches at Baileyboro, 2.5 near Stegall and over an inch at Maple and the Enochs area. Reports of complete washouts were common and replanting of 20% of the recently seeded Grain Sorghums is likely. The benefits far outweigh the damage and most of the grain sorghum is up to a stand and planted near enough to the ideal time to give promise of one of the best grain sorghum crops in recent years.

Some 140,000 acres of Bailey County cotton was also greatly benefited.

Friona Boy Is Suffocated

Friona, July 9 — A Friona boy suffocated early Tuesday morning when he slipped and fell into a grain pit and was covered by wheat being unloaded from a box car.

He was Oscar Gentry, 16, son of Mr. and Mrs. Jess J. Gentry of Friona.

Gentry was assisting Albert Davis, night foreman at the Santa Fe Grain Elevator, who was unloading a shipment of wheat sent to Friona for storage.

As they pried a boxcar door open about 4 a. m., Gentry slipped and fell. As the grain poured out, he was pushed into the shallow pit and covered by the wheat.

Davis and another workman were able to reach him only after 20 minutes. They said the pit was only 18 inches deep at the point but, Gentry was buried beneath a huge amount of the grain.

Justice of Peace J. D. Hamlin returned a verdict of accidental death.

Funeral services were held to-

Castor Beans Are Doing Well

Several hundred acres of castor beans in the Muleshoe Country are doing well and give promise of a fair yield. Harvest is only a few weeks away. J. K. Adams, county agent, says he believes

those farmers who have planted some castor beans are very well satisfied with the crop so far.

Up to June 25, 75,148 acres had been planted in 122 Counties of Texas under the Commodity Credit Corporation program. In

addition, the Baker Castor Oil Company has some 16,800 acres under contract in north and northwest Texas.
