

Mr. Muleshoe . . .

By J. M. FORBES

GOODBYE, MR. CHIPS, or THE WAY OF ALL FLESH

One of the oldest buildings in the Muleshoe country, the old courthouse building which has served various purposes, is to go under the auctioneer's hammer the coming Saturday morning to be sold and moved. It has been decided by officials of the American Legion Post of Muleshoe and Muleshoe Masonic Lodge.

The building is owned by the Post and Lodge. Col. Kenneth Bozeman will cry the auction. However sealed bids may be submitted before the auction begins. Hugh Freeman, who will help in the auction, points out that there is lots of good lumber, sheeting, siding, sub-floors, etc. in this old building, which was erected when plenty of seasoned lumber was available. He thought it would make a good housing for itinerant labor, using the lower floor and employing lumber of the second story to repair the first floor structure.

Nearly everyone knows this is an old building, but when The Journal men set out to unearth the facts, he found himself to be altogether ignorant about it.

In the first place, says no less an authority than Connie Gup-ton, the building was not moved here from Hurley, but was erected especially for use as the Bailey County courthouse when the county was organized in 1918. Now, Connie came here when there was not a single building in Muleshoe, only a grade for a railroad, no depot, no nothing, so he ought to know.

He even drew a diagram of the building as it first was. It stood on the southwest corner of the courthouse lawn with the main door opening into the side from the south, and faced Avenue D. The building was partitioned off so that there were offices for the clerk, the largest room, tax assessor and collector, sheriff, county judge and commissioners in that order from west to east. A corridor extended the length of the building along the south side. Often court, what little they had in those days, was held in the clerk's office, since it was the largest room.

When the American Legion Post bought the building after the new courthouse was erected in 1926, they just "scouted" it west across the street and put it where it now stands. The ground belongs to the county, which owns 100 ft. facing the square on West Second street. The Masonic lodge built the upper story and it remained the Lodge and Eastern Star meeting place until the present hall was completed a couple of years ago.

The building has been used for meeting places of every kind. Recently Teen Town had held their meetings there and other organizations have used the building from time to time.

In the old days there was a brick vault at the west end of the old courthouse building and the concrete foundation of the vault remained on the courthouse lawn until recent times. Away over on the northeast corner of the square was the old jail, built, it was said, mostly of 2x4s.

Now the county will clear the lots on which the structure stands and add to the attractiveness of their own and surrounding property and a phase of Muleshoe history will have ended.

Red Cross Fund Drive Next Week

A kick-off breakfast this coming Monday morning at 7 o'clock in Gerald's Cafe will formally launch the 1952 Red Cross Fund Drive in Bailey County. Herbert Potter, county drive chairman said today. He said that all who are interested in the work of the Red Cross are invited to attend the breakfast.

Mr. Potter will appoint "block captains" to canvass their blocks in the business district in behalf of the fund. Members of women's clubs will help in the residential section and probably the Boy Scouts will be asked to finish the canvass for money to help carry on the work of the Red Cross this year.

The other communities of the county will carry out their own drives through the schools or organizations. Mr. Potter said. The county chairman, Loyd Roberts, and county secretary and treasurer, Mrs. L. S. Barron and the directors are assisting as much as they can with the drive and are hopeful that this year's fund will represent the great need of the organization at this time.

Public School Week Observance Is Set

"Back To School" For Hundreds Of Patrons

Service clubs, lodges, women's clubs, the two P. T. A. groups and citizens here in general are cooperating in the observance in Muleshoe schools of "Public School Week" in Texas, set by proclamation of Governor Allan Shivers for March 2 to March 8.

Objective of Public School Week is to acquaint all the people with the programs and accomplishments of our public educational system. Slogan adopted for the observance is "Texas Public Schools — Democracy In Action."

A feature of the observance of the week in Muleshoe will be "Back To School" night in the various schools, when the parents will go through his child's daily schedule.

Back To School Nights

"Back To School" will be observed in the Muleshoe High School Monday night, March 3. Teachers and officials will be on hand to conduct parents and all visitors through the plant. A general assembly and program will follow.

The junior high school program is set for Thursday night, March 6. Teachers and students will present a brief program following the class schedule. The program will be practically the same as that of the senior high school.

Grade School Program

The Muleshoe elementary school is cooperating in Public School Week as follows:

1. Extending a special invitation to all parents and patrons to visit the school and classrooms during the week.

2. Display of student work will be in all the rooms.

3. Tentative plans for school programs have been made. The following is a tentative outline of these programs:

Tuesday, March 4, 7:30 p. m. in grade building annex.

Demonstration in Teaching of Reading, Miss Effie Childress.

Talk: Reading, Readiness, Miss Reed.

Science Activities: Presentation by 3rd grade.

Scenes from Many Lands, Geography: 4th grade.

Group singing, 5th grade.

Visitation of rooms, meet the teacher.

A committee has been organized to further the observance of Public School Week, and has representatives from the clubs, American Legion, P. T. A. groups, Lions, Rotary, Jaycees, Chamber of Commerce, and several women's groups, the lodges, etc.

Ginners And Farmers Are Urged To Attend C. of C. Meeting Monday

Another Railroad Crossing Sought

Approval and construction of a railroad crossing over the Santa Fe tracks near the western end of the rodeo grounds was adopted as a chamber of commerce project this week. The executive board of the organization approved the project after officials of the Muleshoe Roping Club asked for the chamber's assistance.

Several interested parties have done considerable work on the project, but to date no group of organization has taken the initiative in seeing that approval of the crossing was secured from railroad officials.

Roping club officers stressed the importance of getting the work of various individuals coordinated to expedite the project as rapidly as possible in order that the additional entrance and exit to the rodeo grounds would be ready to accommodate spectators and participants at the summer round-up.

Ross Goodwin, chamber of commerce vice-president, stated that the executive board recognized the need for the additional thoroughfare, and had instructed the staff workers to cooperate to the fullest in exhausting every resource to get the work accomplished.

Spanish Course Planned By C of C

Anticipating an influx of Mexican workers to the Bailey County area this summer, executives of the Muleshoe Chamber of Commerce this week voted to sponsor a class in "Conversational Spanish" for the benefit of local merchants and businessmen.

Early plans for the course indicate that it will start during the week of March 17 with lessons one a week for five weeks. The lesson periods will be for two hours each night, at a time and place to be announced later. A similar plan has been in operation in neighboring towns and has proven immensely popular. Chamber of Commerce spokesmen cited one case where a single class of fifteen was started and within a few weeks several classes of twenty each were in operation. "All of the merchants participating indicated that elementary knowledge of Spanish they received in these short courses had proved of tremendous benefit and had resulted in much improved relations between store operator and customer," they said.

Ray Morrison, chairman of the Retail Merchants division indicated that full details could be obtained from the chamber of commerce offices, in person, or by phoning 2480. He urged everyone that was interested to contact the office as soon as possible.

Interested farmers and cotton ginners in Bailey County have been urged to meet with the board of directors of the Muleshoe Chamber of Commerce Monday night at 8 o'clock in the District Court Room at the Bailey County Court House, to discuss final plans and preparations for securing much needed farm labor in this area.

The meeting will be a continuation of the regular February meeting that was forced to adjourn at its original gathering before the all-important farm labor discussion could be completed. At that time the board voted that the staff and committeemen should continue work on the project, and agreed to reconvene as soon as definite progress could be reported.

Since the meeting two weeks ago, chamber of commerce workers have met with various labor officials and individuals interested in the project and Monday night some five or six out of town visitors will be present to outline the plans for a labor procurement association.

Plans that have been discussed to date indicate that a non-profit corporation will be chartered to furnish Mexican National laborers at a nominal cost to cover actual costs incurred in contracting and transporting the hands. It is reliably reported that a group fully experienced in this program will seek a charter. Purpose of the proposed organization will be to avoid exploitation of workers, strict adherence, by the organization as a whole and by individual members, to the provisions of the work contract, and in general to prevent and deter the abuses that have become prevalent in many instances.

Meeting Open To Public

Chamber of Commerce officials are planning to have the members of the proposed group appear to explain their plans and aims to the board of directors and all interested parties. "This meeting, like all meetings of our directors is open to the public," President Myron Pool, Jr., pointed out, "and we hope that everyone interested in securing an adequate supply of farm labor, either seasonal or year round employees will attend this meeting in the court house at 8 o'clock Monday night."

Hospital News

Al Cassidy has been in for medical treatment and has gone home.

Mrs. Pete Amerson, injured in the fire last Thursday, is resting well. Also, Laverne Merrell, injured in the fire is doing fine.

Mrs. Kelly Joe Barnett underwent surgery and has gone home.

Mrs. B. F. Murdock underwent surgery and is doing fine.

Mrs. Magdalena Guerrero, a medical patient, has gone home.

CONGRATULATIONS TO: Mr. and Mrs. Pete Jenkins on the birth of a daughter, Rebecca Ann, born February 23.

Mr. and Mrs. Floyd Coffee on the birth of a daughter, Jimmie Sue, born February 23.

Roundup Dates To Be Decided At Meet Tonight

The Muleshoe Roping Club will meet tonight (Thursday) in the dining room at the rear of Gerald's Cafe, according to notices mailed out this week by the club secretary, Walter Witte.

Golden Benton, club president, indicated that the major item of business would be the selection of dates for the second Will Rogers Memorial Round-up, and to determine whether or not the event should be expanded to a three day celebration.

Last year's round-up proved to be one of the outstanding events of its type of the South Plains, and local enthusiasts are hoping to make the second one even bigger and better.

Max Daley, business associate of Will Rogers, Jr., in Beverly Hills, California, visited in Muleshoe this week. During his stay he contacted the Chamber of Commerce to get a brief resume of last year's event and a hint of the plans for 1952.

According to the club announcement, the meeting tonight will be called to order at 8 o'clock.

Ladd Pontiac New Auto Dealer

Ladd Pontiac, a newly organized firm in Muleshoe, became dealers in the territory for Pontiac automobiles and GMC trucks and pickups in a deal completed here this week. Ladd Pontiac bought the dealership contracts from the Davis-Lenderson Company.

Ladd Pontiac was formed by Earl Ladd, also the proprietor of the Muleshoe Implement & Supply Co., from whose place of business the Pontiac and GMC business will be operated.

The company already has on display a Pontiac unit in its showrooms.

The Ladd Pontiac bought the parts and equipment of the Davis-Lenderson company also, and has these parts in stock. They will maintain a service department, also, and Clifford Green, who formerly was service manager for this department of Davis-Lenderson has transferred in the same capacity to the new dealership.

Davis-Lenderson has been the dealer here since about 1946 for GMC and Pontiac. They also are dealers for John Deere farm machinery in Muleshoe territory, and said they will now use their entire building to further improve and enhance the service they offer to the farmers of the district. They will devote their entire attention to the John Deere business.

Mr. Ladd pointed out that GMC makes a variety of pickups and trucks, from one-half ton pickups to heavy duty trucks. The Pontiac 1952 line of fine automobiles has been on view for some weeks throughout the country.

H. A. Angeley Rites Friday

H. A. Angeley, a resident of the Muleshoe country for 27 years, passed away Tuesday, February 26, at 5:20 a. m. while being taken to the hospital. He had suffered a heart attack and his daughter, Mrs. Herman Haberer, with whom he made his home, had started to take him to the hospital when death came.

Henry Ambrose Angeley was born March 11, 1873, in Arkansas and was 78 when death came. For many years he farmed northeast of Muleshoe and since retirement had made his home with his children, and was living in the home of his daughter, Mrs. Haberer, about 13 miles northeast of town at the time of his death. His wife passed on Dec. 28, 1949.

Mr. Angeley is survived by the following children:

W. E. Angeley, Morton; E. K. Angeley and Jarvis Angeley, Muleshoe; O. K. Angeley of Earth; Mrs. Herman Haberer, Muleshoe; Mrs. C. E. Bearden, Elsburg, Wash.; Mrs. Adolph Dieter, Vancouver, Wash.; Mrs. Doshia Eastman, Montana; and Mrs. H. E. Baker of Waxachie, Texas.

Funeral services are to be held Friday afternoon, February 29, at 2 p. m. in the Church of Christ, Earth, with Rev. A. W. Blaine and Minister Ebb Randol officiating. Interment will be in Earth cemetery with Muleshoe Funeral Home in charge of arrangements.

Pallbearers will be Russell Haberer, Ted Haberer, Rex Angeley, Jerry Angeley, Jack Angeley, and Jerrell Haberer. Honorary pallbearers named are Pat Bulloch, R. L. Roubinek, Posie Cunningham of Morton, John Adrian, J. L. Alsop, Art Haberer, Roy Haberer, Johnnie Haberer, Jesse Osborn, Charles Hickman, Dr. L. T. Green, M. E. Kelly, J. B. Knox, and Hite Hippotee, of Lipan, Texas.

Local People At Area Meetings

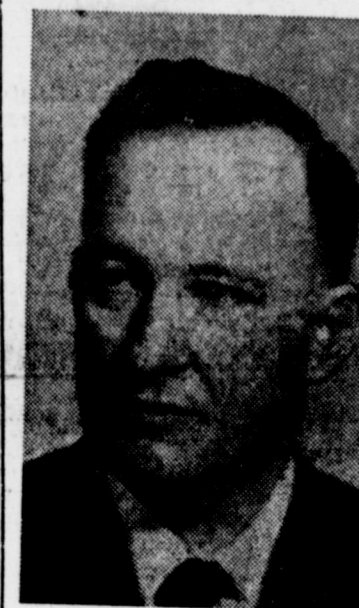

Delegations of chamber of commerce members represented Muleshoe at two area meetings this week. Chamber president W. M. Pool, Jr. headed a group that attended the WTCC District II meeting in Lubbock Wednesday, while George Hicks and E. O. Baker went to Earth on the same night.

Included in the delegation to Lubbock were H. S. Sanders, Sr., member of the board of directors of the West Texas Chamber of Commerce, Jeff Feeler, treasurer of the local chamber, and W. Q. Casey, director; H. D. King and Al Hall, manager.

The Lubbock meeting is an annual event at which a vice-president of the regional chamber from this district is elected and the WTCC program of work is reviewed.

Purpose of the Earth meeting was to discuss a proposed castor bean project. Representatives of the local chamber attended to gather all pertinent data and make their recommendations to the board as to whether or not the idea appeared practical for Bailey County farmers interested in diversification.

H. M. LaFont In Senator Race 30th District

HAROLD M. LAFONT

This week Judge Harold M. LaFont made his announcement for the office of State Senator of the newly created 30th Senatorial District of Texas. In making his announcement, Judge LaFont submitted the following statement.

In asking the people to elect me to this office, it is with a full realization that whoever the people elect has the responsibility of making the laws that govern over 7,000,000 people of the State of Texas. These laws directly affect the daily lives of practically all of us, and serious thought and consideration should be given to each and every law that is passed by the Legislature. It is my humble judgement that men who fill these offices of responsibility and in whom we place our trust and confidence, should be experienced, honest, sincere and capable.

As citizens, all of us are interested in the progress and welfare of our Senatorial District and of the State of Texas as a whole, and we have a right to expect our fair share of those things for which our tax money is spent. These include educational assistance, police protection for our families and property, a good system of state highways and farm to market roads. All of these items of state government help make our district a better place in which to live and to rear our families.

My home is located on an irrigated farm about three miles Northeast of the town of Plainview. I am married and have a son 11 years of age and a daughter 7 years of age.

I am now serving as Representative of the 120th Representative District of Texas, which includes eight of the fifteen counties in this Senatorial District. At the close of the last session of the Legislature, the Speaker of the House of Representatives appointed me as a member of the Legislative Council of Texas, which consists of ten members of the House of Representatives and five members of the Senate, whose duty it is to study statewide problems.

Having served as County Judge of Hale County, Texas, from 1932 to 1939, and District

Neighbors Help Johnson Family

Funeral services for Raymond Dale Johnson, 6, son of Fred A. Johnson, were conducted at 2 o'clock Saturday afternoon, February 23, from the First Baptist Church with Rev. A. W. Blaine, pastor, officiating. Interment was in Sudan cemetery, with Muleshoe Funeral Home in charge of arrangements.

Raymond Dale died at 11:25 p. m. Thursday of burns received about 3 o'clock Thursday afternoon in a gasoline explosion which burned the family home and injured three other persons. Clothes were being washed in gasoline. Apparently there was one fire going which had been overlooked and which caused the explosion.

The home was destroyed. All furniture and household goods went up in flames. No insurance was carried.

The flames injured Mrs. Pete Amerson, 19, an older daughter of Mr. Fred Johnson, who was hospitalized with first and second degree burns. Glenda Fern Johnson, 15, and Laverne Merrell, 15.

The injured are reported as doing well.

Meantime, people from all over Bailey County have come to the aid of the stricken family. Nearly enough money has been sent in to pay for a new house, which cost \$1,400, to be moved from a farm near Muleshoe. Bay Wilson and his crew of movers will move the house and place it on the family lot free of any charge; individuals and firms have generously given appliances, beds, bedclothing, furniture, and the family will be enabled to carry on. King Grain & Seed Co., employers of Mr. Johnson will use their equipment to help clear the lot and make ready for the new home. The big heart of the people of the Muleshoe country; even the folks from the parts of the county have given voluntarily, people of the Needmore community having raised quite a sum to help rehabilitate the unfortunate family.

In its issue next week, it is possible that The Journal might be able to print a list of these happenings; today there is such a plethora of gifts and generous and praiseworthy actions that it is impossible.

Defrosting Is Automatic On IH Refrigerator

Automatic defrosting, one of the most significant recent advances in domestic refrigeration, is a feature of new 1952 refrigerators now on display at Johnson-Nix, local dealers.

Striking color inside, as well as colored door handle inserts, is another important feature of these new "femineered" refrigerators, built by International Harvester.

Tri-Matic defrosting, as Harvester calls it, is a great improvement in automatic defrosting because it permits the owner to choose any of three defrosting methods," said the dealers. "It leaves the homemaker with absolutely nothing to do to defrost her refrigerator, no muss, no fuss, no worry."

To defrost automatically, a homemaker has only to set the control dial and forget it, he said. Automatic defrosting then occurs every morning at 3 o'clock. The refrigerator also may be defrosted electrically at any time merely by changing the control setting.

NEW FRONT-MOUNTED MOWER for the Model CA Tractor

The new CA mower mounts in front of the tractor drive wheels. You can watch it constantly without tiresome turning around. Turn corners easily. Mow right up to fences and ditches. Hydraulic control lifts, lowers and controls cutter bar height. Twin V-belts transfer smooth, shock-resistant power flow from the tractor to the mower drive shaft.

Quick hitch plus solid anchoring to tractor gives fast, clean mowing. And the tractor drawbar is always free for raking, baling or other work without removing the mower.

Here is the latest in mower engineering to match Allis-Chalmers CA power and speed. Write or stop in for full details.

A NEW, FAST, ECONOMICAL PRINCIPLE IN LAND LEVELING

A WESTATE WILL WORK WITH YOUR TRACTOR

You don't need a heavy 3- or 4-plow tractor to operate a Model D WESTATE LAND LEVELER. A WESTATE keeps the scraper in a plane with the FRONT WHEELS of your tractor and the REAR FLAT by means of a remarkable new principle using an exclusive PARALLEL LINKAGE CONTROL mechanism. Because the scraper is attached to the lift-arm close to your tractor, it makes for a lighter pull and better traction while retaining top leveling efficiency. No matter what kind of a tractor you use, you can finish your seed bed preparation faster and cleaner with the new WESTATE. Your dealer will show you. A WESTATE is a most valuable machine, for by simple adjustments, it can be changed to a fast, efficient scraper, or a bulldozer capable of moving large amounts of dirt. You get all these useful machines for less than an old-type leveler alone. There's a WESTATE Model for YOUR tractor. Write for literature today.

H. D. Club Meets In Snyder Home

The Muleshoe Home Demonstration Club met February 26 at 2:30 p. m. in the home of Mrs. F. L. Snyder.

The roll call was answered with "An idea to entertain a child who is ill."

Mrs. J. E. Day reported on the last council meeting.

The Muleshoe Club will aid in the support of the scholarship for Betty Eubanks of Copley County who was an outstanding 4-H Club girl.

The courses the club wish to study in the three day short course at Texas Tech of Lubbock are interior decorating, nutrition, landscaping, and grooming. Council will make the final decision on the courses of study.

The T. H. D. A. will meet at Dimmitt for its next meeting. The Chamber of Commerce of that city will serve lunch to the guests.

Mrs. A. W. Copley will be the Muleshoe delegate and Mrs. Leon Julian will be alternate delegate to that meeting.

A suggestion for a Bailey County Demonstration Club pin was discussed. A mule jumping thru a shoe with a sack of potatoes on one side and a basket of tomatoes on the other was considered.

The Muleshoe Club will subscribe to "The Messenger," Texas State H. D. Club paper.

The club agreed to help prepare the food for a Sorority meeting in the Fellowship Hall April 20. Proceeds will go to the Council.

An interesting lecture was given by Mrs. Wiley Bowers on making a cutting bed and rooting all types of trees, vines and shrubs. The extension office has pamphlets containing information on this.

After the business meeting, Mrs. Bob Hardy led songs while Mrs. C. E. Briscoe accompanied her on the piano.

Refreshments were served to visitors, Mrs. J. L. Mauldin and Mrs. H. V. Snyder and the members, Mrs. C. E. Briscoe, W. H. Awrey, Don Bruns, J. E. Day, C. H. Gillis, Leon Julian, J. L. Smallwood, Dave St. Clair, Wiley Bowers, and S. C. Caldwell.

CARD OF THANKS

We wish to take this opportunity to extend our sincere gratitude to the many friends for the kindness and sympathy shown us during the illness and death of our husband and father.

Mrs. O. J. Harris and family

CARD OF THANKS

We wish to express our deepest appreciation to everyone for

Robert Perkins Is Party Honoree

Robert Perkins, son of Mr. and Mrs. Troy Perkins, was honored with a party on his eighth birthday, Friday, Feb. 22.

Games were played and movies of the group were made.

After the gifts were opened and displayed, refreshments of ice cream, cake, and cookies were served to Sylvia and Cynthia Pool, Peggy Jo Griffin, Rhonda Johnson, Jeannie Coffman, Sandy Warner, Lynn Leau, Cliff Jones, Wayne Malone, Don Gardner, Vick Spivey, Butch and Johnny West, John Wilkins, Jerry Howard, Mrs. Jack Beddingfield, Carey Lynn Perkins, and the honoree.

Mrs. Stovall Hosts Wesleyan Guild

The Wesleyan Guild met Monday evening, Feb. 25, at 7:30 in the home of Mrs. A. S. Stovall.

Mrs. Francis Gilbreath brought the devotional followed by a prayer by Mrs. H. W. Hanks.

Mrs. Mesdames Curtis Spivey, Alex Wilkins, Homer Sanders, Jr., and Jim Cox gave discussions on the work the W. S. C. S. and the Guild are doing in different parts of the World and the United States.

Mrs. Homer Sanders, Jr., president, presided over the business session.

Plans were made for the banquet to be held March 13 for the Muleshoe teachers and their guests.

Mrs. Jim Burkhead and Elizabeth Harden were appointed on the menu committee to work with two ladies that will be appointed from the W. S. C. S.

Special stress was placed on the prayer service to be held Friday, Feb. 29. There will be a program given at 2:30 with several churches taking part.

The next meeting will be March 10 in the home of Mrs. Alex Wilkins.

Delicious refreshments were served to Mesdames C. W. Grandy, Buford Butts, Jim Cox, Jim Burkhead, Francis Gilbreath, Fred Johnson, Velma Jennings, Delma McCarty, Homer Sanders, Jr., H. W. Hanks, Alex Wilkins, Elizabeth Harden and the hostess, Mrs. Stovall.

their kindness, sympathy, and help at the time of our tragedy, for the beautiful flowers, and for assistance of every kind. May God bless each of you in our prayer.

"Save and Have" Said Wise Mr. Franklin

Franklin was speaking of money—but we might extend his meaning to take in our soil, which is still being depleted despite our strenuous efforts to halt the disastrous erosion caused by wind and water.

If we have soil in the future we must save it today.

There are many things which we can do—let us consult with the Blackwater Valley Soil Conservation District Office in Muleshoe. Let them devise a plan to help prevent erosion, then follow the plan closely in the years to come.

Springlake To Present Minstrel

The negro minstrel is well underway. The showboat landing precedes the entrance of the negro cast for the talent show. Captain Ike played by Bill Thorne, grade school principal, will conduct the talent show. The talent show will consist of tapping by Jane McCord, Barta Jo Hale, Shirley Ann Chaney, and Bennie Sue Welch. A high school chorus "Jazz Babies" will be played by high school boys dressed as girls.

They are Douglass Higgins, Douglass Lewis, Dolan Fennel, Harlon Watson, Dale Landers, Ray, Joe Riley, Bud McNamara, and Dwan Wheat. The "Jazz Babies all warmed Over" will be played by Norma Dawson, Waunett Fowler, Betty Parish, Doris Burrow, Peggy Woodson, Yvonne O'Hair, Georgia Stockard, and Freda Axtell, Dorothy Kisinger will play guitar music. Rosebud, who mothers the crew will be portrayed by Katy Thorne. Numerous musical selections will be played. The show is purchased by Interlocutor Johnny Cardinal and is turned to Mr. Cardinal, high school coach, for the second act.

Interlocutor Johnny Cardinal leads the regular minstrel show which is in a tavern with his special end men played by Earl Parish, Bill Thorne, Pody Welch, Bob Rowan, T. L. Scott, Don Atkinson, G. W. Simmons, and Jim Sanders. Numerous local citizens play an important role in the show and also high school students and faculty members.

The show is well planned throughout for good wholesome entertainment and extend a cordial welcome to everyone to attend and bring someone with you. The show will only be one night and the admission price is .50 and \$1.00.

All proceeds from the show will go into a fund to purchase band uniforms for the local band. Let's suit them up with new uniforms by attending this show.

Chamber To Air Muleshoe Events

News of Muleshoe and the surrounding trade territory will be broadcast each Saturday morning starting March 1 by the Muleshoe Chamber of Commerce, it was announced this week.

Time of the broadcast will be from 7:30 to 7:45 a. m., Muleshoe time, and the program will originate over station KICA, Clovis.

Format of the program will include items of business interest, community progress and development, chamber of commerce activities, and agricultural notes, including progress in the farm labor situation.

Five minutes of each period will feature a local businessman, who will discuss non-political matters of national importance under the title of "The Business Viewpoint."

Directors of the local chamber of commerce endorsed the program this week as a three-fold project to serve the Muleshoe trade territory in general publicity, local and national affairs. "We want to serve as many organizations as possible," said a spokesman, and we shall be glad to carry announcements of any coming events that they care to phone in to the office, 2480, before 5 o'clock on Friday afternoons.

New Official Texas Highway Map Off Press

The shortest distance between two points is established by an old axiom, but from the standpoint of motorists, the shortest distance between two points can only be established by the Official Highway Travel Map.

Mr. D. C. Greer, State Highway Engineer, announced today that the Department's new 1952 Official Highway Travel Map is now available free to the general public. The Official Highway Map is revised and published annually. It is used by all state agencies as the basis for computing official car mileage. The new map is 28"x36" and is chock full of travel guidance and information on Texas. The material is illustrated and in color for easy comprehension and appearance. Several important changes have been made in this year's map which include a topographical relief drawing along with the addition of symbols which show the locations of the 854 roadside parks & turnouts. Special emphasis has been placed on indicating various recreational, scenic, and historical spots. All U. S. and State highways are shown. The more important Farm & Ranch to Market roads which serve the cross-country motorist are also shown. The travel information reflected on the map is designed to supply motorists with guidance needed for safety, comfort, and pleasure while traveling Texas highways.

The back side of the map is jam-packed with factual and pictorial Texas history. The story of Texas is unfolded with the map. Many famous milestones and landmarks are described and portrayed pictorially. There are 26 pictures in full color of the more popular historical points of

School Census To Be In March

The school census will begin March 1 and continue through the month in all school districts of the county, according to announcement from the office of Cecil H. Tate, ex-officio county superintendent.

Parents of children who will become 6 years of age before Sept. 1, 1952, especially are reminded of the importance of registering for them during March.

It is very important that each child in the school district of school age should be registered and officials in all districts will strive to get 100 per cent registration during the coming month.

Interest in the State with a full caption explaining each scene. A panorama is used to introduce some of the more popular historical characters in a "passing parade" of Texas history.

Included also for the first time is a map of Mexico, incorporated with the small U. S. map, showing the principal highways and cities, however, it is primarily for geographical purposes.

This new map can be obtained by mailing the map card distributed by the Tax Assessor-Collector's office with the sale of license plates, or by writing directly to the Texas Highway Department, Austin, 14, Texas. Copies are also available in any Highway District Office or the Highway Travel Information Bureau.

Style Show Set For March 28

A big event of the season is being planned by Los Planos Study Club in the form of an Easter fashion show. The local clothing firms are cooperating in furnishing the clothes for the show and they promise to have some of the most outstanding creations this season that have ever been shown in Muleshoe. Clothes for all ages will be modeled; refreshments will be served; and lovely door prizes donated by local merchants will be given. There will be many entertaining and valuable items for persons of every taste at this outstanding fashion show.

The event will be held at the American Legion Hall on Friday night, March 28, and the public is invited to attend. Admission will be \$1.00 for adults and 50¢ for children of high school age and under. More will appear in The Journal later regarding models, clothes, prizes, etc., but remember to keep the night of March 28th open on your calendar for this occasion.

Tickets may be obtained from any member of the Club or from the publicity committee, Mrs. John Smith, Mrs. Arch Fowler, and Mrs. Sam Damron.

No matter what happens there is always someone who knew it would. —Rotary Signpost, Ash-tabula, Ohio.

Annual FHA Meet To Be Tuesday

Tuesday, March 4 is the day of the annual meeting of all Farm Ownership borrowers in Bailey County. This year the meeting will be held in the Election Room in the rear of the FHA office building.

The program will begin at 10:30 Tuesday morning. Mr. Otis R. Bruner, State Field Representative, from Amarillo and Mr. Harry Harvey, with the Extension Service and headquarters in Lubbock will be on the program. Mr. Harvey will also show an entertaining and educational moving picture on beneficial insects. A review of the past year's business will be discussed.

All real estate borrowers of the agency will be invited to attend. About 30 people are expected to be in attendance for the all day meeting.

SOLID KNOTTY PINE

For the first time available in a complete open stock series of matched dining room and bedroom pieces, Unique has captured the informal charm of knotty pine in a perfect design for American living, whether it be ranch style, Cape Cod, contemporary apartment or the Colonial style home.

The color, a rich brown "aged" pine tone that has been given a hand rubbed satin-like finish that both protects and enhances the beauty of the solid pine. Every detail of construction and design indicates quality you can live with and enjoy for a lifetime.

Greatest Challenge In History Is Faced By Texas Farmers In 1952

Texas and U. S. farmers have the greatest challenge in their history in 1952 production goals. The University of Texas Bureau of Business Research reports.

Feed grain production is being stressed very heavily in order to maintain the high level output of livestock, dairy products and poultry. Because of its importance to the economic and military strength of the free world, the national cotton crop is again placed at 16 million bales.

If these goals are reached, the Bureau notes, farmers will have turned out a new record total production, almost 50 per cent greater than the pre-war average. Texas farm output was forced

above the apparent trend in 1942, and has increased steadily since then, due to heightened demand. U. S. government contributions toward the supplies of the UN army in Korea represent a large portion of the demand.

Because of the war situation, the market for farm production promises to remain at a high level, the Bureau's forecasters state. Increased government purchases, aid to foreign countries, and increased savings in consumer hands are among factors responsible for farmers' success in 1951.

These factors, the Bureau reports, forced Texas farm income to an all time high of 2,148,000, a 22 per cent increase over 1950, despite devastating effects of the drought. The increase in farm income was shared by all U. S. Department of Agriculture crop reporting districts except 2, 3 and 4.

Mrs. Muleshoe Favors Pricing By The Retailer

Mrs. Muleshoe apparently does the most of the family purchasing, resents mandatory price setting by the manufacturer, and takes quality as well as price into consideration.

These traits of the average buyer were revealed this week in a poll conducted by the Muleshoe chamber of commerce in response to a request from the American Issues Press, a nationwide opinion tabulating company.

Over a score of Muleshoe housewives, their names selected at random from the telephone directory, were quizzed by the Chamber of Commerce staff and asked a half dozen questions beginning with "Do you do most of the household buying for your family?" Without exception the person interviewed answered in the affirmative.

All but one housewife said that when shopping she looked for well-known brands rather than taking the first article of its type offered, even though the price of the latter might be cheaper.

When the price of an article was higher than its relative value, Mrs. Muleshoe said she thought that the manufacturer suffered more than the retail seller, or who was at liberty to replace the article with a better value and, said Mrs. Muleshoe, she does not think that the manufacturer of nationally advertised brands should dictate the retail price. She wasn't quite as definite on these points however, only 70 per cent of the total giving these opinions, while 12 per cent said that they didn't know.

Retailer Should Set Price
But although Mrs. Muleshoe wants the retailer to set the prices, Mr. Businessman feels otherwise. Following the poll of the housewives, chamber of commerce callers contacted a representative group of merchants to get their reaction and opinions on the Fair Trade Law.

All agreed that the law could serve a useful purpose and would do much good to assure fair profits and avoid price wars and unethical competition.

Merchants pointed out that in nearly all instances of pre-marked items they were already following the manufacturers' recommendations, and all of them emphasized the point that enactment of such a law would not restrict competition nor prevent any of them from holding sales events with special incentive prices.

"All we would be prohibited from doing would be to name the nationally advertised brand in our advertising," one merchant said.

Another pointed to the Oklahoma law that prohibits any retailer from pricing his merchandise at less than 6 per cent mark-up, as a good workable idea. Still another remarked that competition between nationally ad-

Cerebral Palsy Clinic March 17

A clinic for the examination of cerebral palsied children will be held Monday, March 17, at the Cerebral Palsy Treatment Center, 3502 Avenue N, Lubbock.

Orthopedic specialists from Midland, Plainview, and Lubbock, a neuropsychiatrist, pediatrician, eye specialist, and a dentist will be present to examine children.

Cerebral palsy is sometimes referred to as spastic paralysis or birth injury and may be evidenced by the child's inability to sit alone, stand alone, walk or hold objects at the age these things are accomplished by the average child. Research has shown that treatment is most effective if started within the first few months of the child's life although children respond to treatment begun at a much later age.

Parents planning to bring children to the clinic are requested to register the children at the Center prior to the date of the clinic. Information regarding the clinic may be obtained by writing Miss Elinor Guza, Director, or calling Lubbock 5-6541.

Flies Are No Good For Nothing

AUSTIN, Feb. 19 — This is a story about flies, told by a man who despises them for the disease they spread.

"Flies are one of the few species of life which does absolutely no good on this earth," State Health Officer Geo. W. Cox charges. "Other insects are annoying, but they earn their existence by pollinating plants or by feeding on less desirable forms of life. But not flies."

He says the black swarming insects have but one saving grace: their short lives. A fly reaching maturity in the spring won't live to annoy autumn picnickers. One reaching adulthood in the fall might make it through the winter, but by spring he'll be aged and feeble, too old to pester folks out to witness the wonders of the fresh new season.

But during its lifespan, Dr. Cox says, a fly is extremely prolific. If a single pair begin their family in April, and if all their progeny live, there would be countless millions by fall.

"That's no pipe dream," the doctor said. "It's based on the most accurate entomological evidence."

In case you have ever wondered how far a fly can fly, Dr. Cox has the answer to that one, too. He says entomologists have found an energetic one can cover up to 15 miles in one day without the aid of wind currents. How did they find out?

They trapped one, fed him radioactive phosphorus and set him loose. Retrapped, experimenters used a Geiger counter to make the identification. He was 15 miles from the starting point.

There's only one answer to the fly problem in Texas, Dr. Cox believes. He says cleanliness, using chemical science as a tool,

vertical lines of similar merchandise would still keep prices within bounds and allow salesmen to sell merchandise on its merits and the services of the dealer.

So although Mrs. Muleshoe appears to have the utmost confidence in the reliability of her retailer to give her honest values, Mr. Merchant is content to pass the pricing and mark-up headache on to the manufacturer.

COVIN VICE-PRESIDENT OF ATHLETES' DOMITORY

NORMAN, Feb. 26 — Bill Covin, Muleshoe, was honored this week by his election to the office of vice-president of Jefferson house, athletes' dormitory at The University of Oklahoma.

Covin, son of Mr. and Mrs. will keep them under control. "And start now," he advises. "This weather is ideal for fly breeding."

He doesn't like flies at all.

Pictures of... OLD-FASHIONED LIVING MODERN LIVING

MODERN LIVING IS ELECTRIC LIVING!

Scrub-a-dub-dub, work in the tub... that was the old way of clothes washing with the steaming kettles of hot water on the old kitchen wood stove. Water in the tub was either too hot or too cold, cleansing of the really dirty garments meant backbreaking scrubbing on the old corrugated scrub board and usually the kitchen floor got its share of messy, slopped-over yellow soap suds. Today, thanks to electric service, and modern electric appliances, wash day is almost completely automatic. Your clothes are washed automatically with correct water temperatures and modern improved soaps or detergents replace the old scrub board.

CHRISTIAN SCIENCE SERVICES
Christ Jesus understood that there is one Mind, who is God, and was thus enabled to do God's will, destroying evil of every nature, according to the Lesson-Sermon to be read at Christian Science services next Sunday. The Golden Text is from Romans (12:2): "Be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."
The infinitude of Mind, God, is expressed in these words from the Bible (Romans 11:33,34): "Of the depth of the riches both of the wisdom and knowledge of God; how unsearchable are his judgements, and his ways past finding out! for who hath known the mind of the Lord? or who hath been his counsellor?" Mary Baker Eddy, the Discoverer and Founder of Christian Science, says this: "There can be but one Mind, because there is but one God; and if mortals claimed no other Mind and accepted no other sin would be unknown. We can have but one Mind, if that one is infinite. We bury the sense of infinitude, when we admit that, although God is infinite, evil has a place in this infinity, for evil can have no place, where all space is filled with God" (Science and Health with Key to the Scriptures, p. 469).

5:00. Everyone is invited to come and take a part.
Rev. L. J. Helm, Methodist pastor, and Rev. James Tidengerg, Baptist pastor, will be present and assist in the meeting.

BABSON CHEERS

"Small Business"

Babson Park, Fla., Feb. 22. — "Good morning, Mr. Babson, I've saved for you the newspaper you usually order. And, will you please tell your wife that the breakfast food she mentioned has come in, — in case she still is interested." As long as you and I (together with some tens of thousands of other folks) want that personal, neighborly, friendly service, we must remain incurably optimistic on the future of small business in America.

WHAT IS "SMALLNESS"?

Let us ever remember that vast size is no omen of huge success. Who was that spindle-shanked champion pugilist of a bygone era who voiced the deathless dictum: "The bigger they come, the harder they fall"? Bob Fitzsimmons. If I recollect aright, other philosophers of equal eminence are wont to remind us that bones of extinct and childless mastodons now adorn museums. Tiny insects, however, and microscopic microbes did right well down through the ages; and their myriad descendants today are still on the job and someday may exterminate Man himself.

Moreover, the Scriptures have given us the impressive, inspired account of David, the Small; and his decision over Goliath, the Big. Here is no mere pretty parable or fable of false cheer,—but eternal verity! On this Divine pledge (this sponsorship of the individual), the smallest businessman can lean with everlasting faith, dance.

FIGURES FORECAST BETTERMENT

Currently compiled statistics show that the "little fellows" have been more prosperous; while the "big boys" have been taking the beating. In 1950, corporation profits (after taxes) totaled nearly \$23 billions. Almost completed figures show that corporation profits for total 1951 sagged about 20% below 1950; while the small unincorporated business held its own much better.

Another prediction emerges from perusal of recent business records: Namely, much of the creme-skimming of profits by

Small Business has been done in the war work fields, — an area supposed to be hogged by Big Business. Realistic and authentic figures thus disclose that getting smaller concerns are getting along well, not alone in civilian production and trade, but also in the "arduous arena of armament-making."

ONE-MAN WAR-SHOP

It was recently reported that a large prime-contractor arranged to buy and install costly machine-tool equipment in a factory hardly more than a one-man enterprise. Of course, the proprietor of this little shop was a highly skilled expert. He put in long hours of overtime in personal operation of the machines. Every piece turned out had to pass several inspections,—and delivery schedule had to be met without fail. This incident significantly shows how success is being won by businessmen who rate small in number-of-employees and dollar assets, but rate big in talent, tenacity, and personal industry. Demonstrations like that — look around for yourself and find many others — prove better than mere cold figures and logical theories that the roots of economic success go far deeper than dollar capital.

Ture: You cannot run a business without Capital. False: Capital is measured only in terms of cash in the till, bank balances, and securities. Given intelligence, initiative, and continuous personal application, any man or woman can "capitalize" skill, patience, diplomacy, good taste, or other intangible but valuable resources. Thousands of potential winners have quit dismally—or failed even to start—because obsessed by the Dollar Delusion. They think only of going to their Bank, instead of their Church, for the needed "Capital." Abraham Lincoln, I believe, was keen observer who noted that "God must have loved the common people, because He made so many of them." In all reverence, may we conclude that the preponderance of smaller concerns is testimony to their enduring importance and perpetuity.

SAND HILLS PHILOSOPHER

Falls Out With Congressman Who Wants To Buy Chairs Without A Test

Editor's note: We don't know whether the Sand Hills Philosopher on his Johnson grass farm has his tongue in his cheek or not, but here's his letter just like we received it. Dear editor:

I read in a paper the other day where a Congressman was denouncing a government agency for spending 60 days testin a new-type super de luxe upholstered typist chair for "safety and durability" since it was figurin on buyin 20,000 of em to replace the chairs it had and didn't want to go wrong. He was pretty scathin about it, sayin it was the silliest thing he'd ever heard of, that chairs already have been "researched" adequately and the government has no business wastin money in such a fashion.

I do not look at it that way. That is, I'm not in favor of wastin in money, unless it's in this area, but about chairs now, there is no time limit on how long a chair should be tested. 60 days seems to me like leanin over backwards to get on with the defense effort in a hurry. Why, I've been testin a chair of mine out here on my front porch on my Johnson grass farm at Circleville for 35 years, and I ain't prepared to say yet whether it's gonna work out satisfactorily or not. So far it has proved durable and safe, but I ain't makin no snap judgement. One thing wrong with this modern generation is it's craze for speed, its intolerable haste to

get on with things. It would be just like this Congressman to throw any kind of a chair he could grab under 20,000 government typists and then have them break down right in the midst of a crisis. Legs fallin off all over the place, backs splittin in two, blisters showin up in the wrong places, errors in the typin too much time out for coffee, I tell you this mad rush to sling things together, take things for granted, tear into a new program without adequate fore-thought, is one of the things that's makin taxes so high.

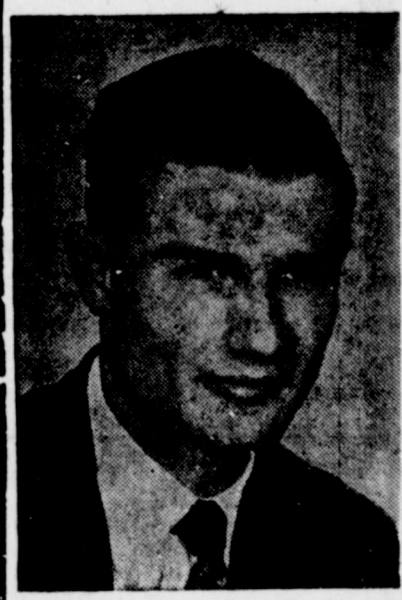

I may not know anything about bein a Congressman, may not know anything about typin, may not know anything about the economic index and the far-flung complexities of the defense program, but if there's anything I know something about it's chairs and I'm here to tell you and the entire Congress that selectin a chair that'll bring the best out of a man's mind is a life-time job. Washington ought to slow down.

Only 60 days to test out a chair? That ain't long enough to test out a new mayor. Why nearly any movie actor will take longer that that just to test out a wife.

Yours faithfully,
J. A.

Mother: "Jimmie, I wish you would run over and see how old Mrs. Smith is this morning."
Jimmie (returning): "She said to tell you it was none of your business."

Mother: "Why, Jimmie, what in the world did you ask her?"
Jimmie: "Just what you told me to. I said you wanted to know how old she was."

YOU and YOUR CONGRESS

Chairman Hebert (D-La.), a former newspaper editor who knows the value of publicity, dubbed the oddly decorated hear-

ing room the "chamber of horrors." The hearings so far have produced one fact that promises to be discussed at length when Congress gets around to debating new appropriations for the Defense Department. The fact is that for years Congress has not known much about how the armed forces spend a great deal of the money they get from Congress.

A serious matter any time, that becomes more serious than ever before in peacetime—because the Defense Department is slated to spend more money than ever before in peacetime. The President's 1953 budget calls for military spending of over \$51 billion (compared to \$40 billion this year and \$20 billion in 1951). In short, the Defense Department is to spend more money than any other single organization in the country and, as a matter of fact, in the world.

Another fact which promises to heat up Congressional debate is that while Congress ordered armed services unification in 1947, there has been virtually no unification of military buying. In fact, as Rep. Cole (R-N. Y.) notes, there appears to be a trend toward "triplication" rather than unification. The Air Force wants to establish its own procurement service, like the Army's and Navy's.

The subcommittee quickly got a taste of the resistance to unification that flavors a large portion of the Pentagon, and didn't like it. The subcommittee got tough

and is staying tough. It found that while a standard purchase and supply catalog for the various branches of the service was ordered prepared five years ago, none has been completed yet. The subcommittee called Deputy Defense Secretary Foster to explain. Shortly after he testified—and was grilled—Foster signed an order to speed up the cataloging.

Pointing to its "chamber of horrors" displays, Chairman Hebert declared that "millions and billions" of taxpayers' dollars had been wasted through delay of unified purchasing of standard military clothing items.

Munitions Board officials were summoned to explain the delay but said they didn't know the answer. They thought someone among the high military brass was to blame but weren't sure who. The Munitions Board, however, has now decided that unified clothing buying is a good idea and will get going on it.

The subcommittee, taxpayers will be pleased to learn, is getting results.

Bankers Of Texas Urged To Speed Inevitable Changes On State Farms

DALLAS, Feb. 19 — The bankers of Texas through sound financing practices today were urged to speed the inevitable changes on our farms which in the next 25 years will completely change the agricultural landscape of Texas.

This appeal came from a fellow banker, Ben H. Wooten, president of the First National Bank in Dallas and a member of the board of trustees of Texas Research Foundation at Renner.

"Our agriculture is caught in the march of sciences and mechanization, and within our own lifetimes I can see our whole agricultural landscape changed beyond recognition," Wooten said. "Our banks — all of them, the big ones and the little ones — have a vital responsibility. The challenge to us is through sound

financing to speed this inevitable change which will raise the level of living on the land by increasing its dollar productivity."

Wooten's remarks are contained in a January issue of the "Texas Bankers Record". Wooten said that he is very much interested in the crusade which Texas Research Foundation is leading to build back our agricultural economy and put farming on a permanently productive basis.

The Foundation, he said, is seeking through new farming systems to rebuild the productive capacity of our soils and to provide a virtual economically self-sufficient region, growing what it needs and processing what it grows.

Fewer Acres To Row Crops
Wooten said that as our agricultural landscape changes during the next 25 years, fewer and fewer acres will be devoted to row crops, and there will be a greater diversification of crops, particularly on the small farms. The greatest change of all will be a return to grass, which is al-

ready in process. Texas Research Foundation findings have indicated that grassland farming coupled with more and more beef and dairy production, is this region's best approach to a permanently productive agriculture.

"As a banker, I am specifically interested in the tremendous investment in capital which will be required to bring about this change in our agricultural landscape. Think of the outlay which will be needed to fence several million acres of pasture, the millions of dollars which will be spent to improve these soils, the farm tools and machinery which will be purchased, and the many other expenditures as we convert from a wasteful soil-depleting one-crop agriculture to a modern system of farming," Wooten said.

Letters to the Editor . . .

SARCASM & IRONY EMPLOYED BY WRITER

Dear Editor:
I am enclosing a copy of the mystery face of the month. I would like to propose that we have a county-wide contest, the Journal sponsoring it, of course — to see who in this county, if any, might be able to recognize this outstanding figure of Muleshoe Society.

I think that possibly The Journal might offer a life time subscription to your paper and I would offer a life time insurance program to the lucky winner.

Please give this proposal careful study and let me have your decision as soon as possible.

Yours very truly
BOB GREGORY

Editor's Note:
Bob is referring to the fact that his face is always dirty in his picture in his advertisement, and that is has been that way quite some time.

But dern yore hide, Bob, it's one time that it ain't our fault. We keep trying to get a good plate from those old cheap mats you supplied us with no improvement noted. We agree, however, that your pic leaves something to be desired; it certainly could not be said to be, like the face of Helen of Troy, "the face that launched a thousand ships". Rather, it might stop a freight train. But we'll see how it comes out this week, we'll see. We always try to correct things when brought to the attention of the publishers.

TIMELY TIPS FROM YOUR H. D. AGENT

By Mrs. Dian Reed

Freeze 'Em Now, Eat 'Em Later

College Station — At present prices, it will pay homemakers to freeze and store eggs. Thawed eggs may be used the same as fresh eggs for cakes, meringues, omelets, souffles and scrambled as well as in any other recipe calling for eggs.

For freezing, eggs should be cooled to about 32 degrees F. Egg whites and egg yolks may be frozen separately or mixed. Egg whites need no treatment. Mixed whites and yolks or just yolks should have 1 tablespoon light colored corn syrup mixed with 2 cups of the eggs to prevent the yolks forming into a thick curd-like mass during storage. Salt, 1 teaspoon per cup of yolks, may be used instead of corn syrup if the eggs are to be used for making mayonnaise.

Clean each egg and break into a small dish to be sure there is no stale odor. Pour into a bowl, mix thoroughly and freeze in small containers. Use promptly after thawing.

The following are correct mea-

surements when using thawed eggs.

- 1 tablespoon yolk equal 1 egg yolk;
- 2 tablespoons whites equal 1 egg white.
- 3 tablespoons yolk and whites equal 1 whole egg.

Recipe Of The Week

- ##### Escalloped Eggs Deluxe
- 8 hard cooked eggs
 - 1 cup coked peas
 - 6 tablespoons butter
 - 2 tablespoons flour
 - 1 cup cooked peas
 - 1 1/2 cups milk
 - 4 eggs
 - 1/2 teaspoon salt
 - 1-8 teaspoon pepper

Prepare a sauce using 4 table- spoons of the butter, flour, milk, salt, and pepper. Cool slightly. Butter baking dish and arrange peas in a layer on the bottom of the pan (6 cup size) with the sliced hard cooked eggs on top. Season each. Add the 4 raw eggs to the sauce and beat to combine thoroughly. Pour over the eggs. Bake in a slow oven, 325 degrees F. until firm about 45 to 60 minutes. Let stand in the pan for several minutes before un- molding. Garnish and serve hot with or without sauce. A well seasoned white sauce to which 1/2 cup chopped, blanched almonds is added may be served

with the dish. An attractive effect may be secured by placing the center slices of the eggs around the outside of the dish. Use other vegetables if desired.

Timely Tips
1. Eggs have protein in the top class with foods like meat and milk for building and re- pairing body tissues.

2. Eggs are rich in Vitamins A

and D, and mineral iron.
3. Eggs are plentiful and cheap now, serve them often and in place of meat.

Chances are 10 to 1 YOU DO BUSINESS BY THE TRUCKLOAD...

that's why this message about America's first 2 1/2-ton Diesel may be the most important you've ever read!

IF yours is like most businesses today, medium-weight transportation enters many times into the cost of your product — from procurement of raw materials to delivery of the finished product.

For the first time, these "average" loads can be moved at spectacular savings—at a cost far below anything you've ever paid for medium-weight transportation in the past!

The efficiency and economy of Diesel power become available to every user of trucks rated as low as 2 1/2 tons (19,500 GVW — 35,000 GCW). It's the latest advance from the world's largest producer of Diesel trucks.

It's an entirely new kind of GMC truck-tractor — powered by a revolutionary, lighter-weight, more compact model of the famous General Motors two-cycle engine that is first choice among Diesel truck users today. It offers the advantages of more miles per gallon and lower maintenance in hauling operations where there has been no choice but gasoline power in the past.

Before you waste another cent in your largest hidden cost of doing business — transportation — check the important role this new GMC 2 1/2-ton Diesel truck-tractor stands ready to play in your own operation.

As your GMC dealer, we extend this invitation: if you are a processor, manufacturer, retailer, distributor, farmer or commercial hauler using 2 1/2-ton equipment — come in and see why this new GMC Diesel will mean extra profits to you every mile of the way.

Daddy Galt Honored On 92nd Birthday With Open House

Open house was held February 10 at the home of Mrs. Wallace Louthan, Hale Center, in honor of Mr. T. R. Galt, who was 92 on February 7.

Daddy Galt, as he is affectionately known, is the father of eight children, four of whom were able to be on hand for the birthday party. These included Mrs. Louthan, with whom he makes his home, Tommy Galt of Goodland, Mrs. Walter Graham, Albuquerque, New Mexico, Mrs. Floyd Ferguson of Hale Center, and their families.

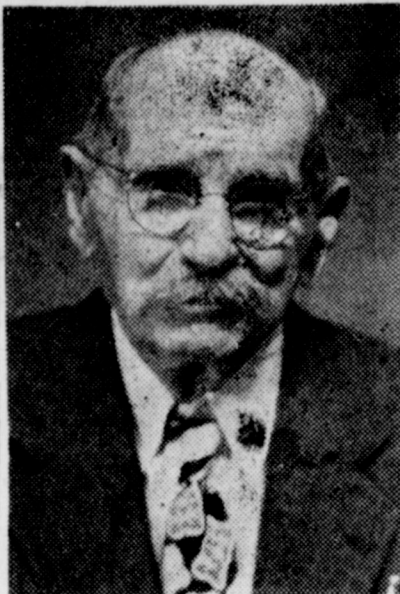

Approximately seventy five guests called during the afternoon. At Mr. Galt's request there were no gifts.

The honoree and hosts wore tiny pink boutonnières. Ladies of the house party wore carnation corsages.

Mrs. Tommy Galt had charge of the guest register. Two granddaughters, Mrs. Claude Burnett and Mrs. Wade Davis, served at the refreshment table, which was covered in lace over pink. A bouquet of mixed spring flowers

present by two members of Mr. Galt's Sunday School class, formed the centerpiece. Pink tapers burned in crystal holders. The silver service completed the decor.

"Daddy" Galt has lived in Hale county for 35 years and was

DADDY GALT

engaged in farming until about twelve years ago when he sold his farm to his son-in-law, Wallace Louthan. His wife died 18 years ago.

Two years ago the honoree received a fractured skull and arm in an auto mishap in which the other car was completely demolished. Mr. Galt was in the hospital only one week, making a complete recovery. Last year he suffered an attack of pneu-

W. S. C. S. Zone Meeting Is Held In Earth Church

The zone meeting of the Methodist W. S. C. S. met in the First Methodist Church of Earth Wednesday, Feb. 20.

The meeting was directed by the zone leader, Mrs. Henry Ivy, of Lazbuddy.

The meeting was opened with a song, "The Church is One Foundation" followed by a prayer by Mrs. George Mitchell of Progress.

The devotional, "My Church", was given by Mrs. Gustin of Lazbuddy.

Mrs. H. Jay Wyer of Muleshoe gave "The History of the Early Churches Under Paul."

Mrs. Snodgrass of Oklahoma Lane told of the beginning of Methodism by the Wesley's.

A beautiful solo was then rendered by Mrs. Parish of Earth.

A skit was presented by the Friona W. S. C. S. on "Methodism in Germany Today" and Mrs. Estes of Friona spoke on "The Church Needs You."

Mrs. H. C. Holt of Muleshoe dismissed the morning session with a prayer.

After a delicious lunch served by the Earth W. S. C. S. the meeting was resumed with the hymn, "Faith of our Fathers" and a prayer by Mrs. Broyle of Friona.

The business meeting was opened by the reading of the minutes and the treasury reports of the last meeting, which was at Muleshoe June 14, by the secretary, Mrs. W. C. Williams of Lazbuddy.

Reports from the churches were as follows: Earth by Mrs. Henson with 15 present, Muleshoe by Mrs. Pierson with 9 present, Progress by Mrs. Westbrook with 5 present, Friona by Mrs. Mayer, with 5 present, Bovina by Mrs. Estes with 4 present, Y. L. by Miss Wilterding with 8 present, Oklahoma Lane by Mrs. Shelley with 8 present, and Lazbuddy by Mrs. Ivy with 3 present.

New officers elected were: zone leader, Mrs. Henry Ivy of Lazbuddy, assistant zone leader, Mrs. Snodgrass of Oklahoma Lane; and secretary and treasurer, Mrs. Ruby Jennings.

An impressive solo, "The New Jerusalem", was sang by Mrs. Axtell of Earth. What the Church Means to Me was given by Mrs. H. C. Holt of Muleshoe, Mrs. Huckobee of Bovina and Miss Dottie Wilterding of Y. L.

A skit was then presented by the W. S. C. S. of Y. L. on the origin of the W. S. C. S.

The meeting was closed with the benediction by Mrs. Tidwell of Friona.

Attending the meeting from Muleshoe were Mesdames H. Jay Wyer, Finley Pierson, I. F. Willman, Ruby Jennings, H. C. Holt, J. E. Day, Tom Smallwood, David Anderson, and Mrs. Willman's guest, Mrs. Scott.

Mrs. Gross Hosts H. D. Club

The Progress Home Demonstration Club met Tuesday, Feb. 19, in the home of Mrs. Arnold Gross. The district agent, Mrs. Aubrey W. Russell, was present.

The meeting was opened by the president, Mrs. Edward Little. She asked the club to read the club creed. The minutes of the last meeting were then read and approved.

Roll call was answered by "A shut in to whom our club could send greetings."

Council report was given by Mrs. Albert Davis due to the absence of the delegate because of illness.

Mrs. Edward Little was elected nominee to council for delegate and Mrs. T. Haley was elected alternate nominee to council for alternate delegate to the District T. H. D. A. meeting which will be held May 7 at Dimmitt.

The club decided to start a box for the young boy in the State Hospital in Abilene. All gifts must be taken to the next meeting as the boy's birthday is in May.

Mrs. Dian Reed presented the program on "Planting and Sodding a Lawn." She gave examples of seeds best suited to this territory.

Mrs. Reed directed two games for the recreation hour.

Refreshments were served to twelve members and seven visitors, Mesdames Aubrey Russell, Dian Reed, O. C. Thomson, Carl Stockton, Lois Dowell, Alma Dean Mock, and from the Muleshoe Club, Mrs. A. W. Copley.

The next meeting will be Tuesday, March 4, in the home of Mrs. Davis Gully. The program will be "Planning and Making a Drive" and roll call will be a recent magazine article of interest.

PREVIEW OF '52

Fabulous is the word for the new 1952 cottons for spring and summer. Cotton Council fashionists say. Typical is this design by Carolyn Schurer in Dan River dobby embroidered striped cotton. The skirt is "target pleated" so that it flares accordion wide.

HOW TO GET MORE RESULTS FROM YOUR NEWSPAPER ADVERTISING

Your newspaper is the basic advertising medium.

Why are newspapers the basic advertising medium?

... because many people make it a habit to read newspaper ads before buying goods or services.

... because the newspaper is an advertising medium that awaits the convenience of the reader.

... because every newspaper has something of interest for every reader in every family.

... because subscribers pay for their newspaper; they want it, they buy it, they read it.

... because readers look to their newspaper for information, advertising has a good atmosphere.

Evidence of the value of newspapers as an advertising medium for advertisers is seen in their choice, year after year, by the nation's greatest advertisers who study markets and spend their money where they get the greatest return per advertising dollar invested. Newspapers consistently and dominantly top all other media: magazines, radio, direct mail, etc.

The more you study your advertising problems, the more you become convinced that your newspaper is your best buy.

I hate those guys
Who criticize
And minimize
Vigorous guys
Whose enterprise
Has helped them rise
Above the guys
Who criticize.

OLD MASONIC HALL — LEGION HOME
2-STORY FRAME BUILDING —
SATURDAY MAR. 1
At 11 a. m. at building site
This building was erected years ago when good seasoned lumber was plentiful. There are lots of good 2x4s, 2x6s, 2x12s, tongue and groove siding, some good sheet rock, etc.
Would make an excellent housing for transient labor, using first story, materials of second story for repairing, etc.
If you desire you may make sealed bid and leave at The Muleshoe Journal office.
