Probation For Pair Revoked

Two Ozona men were sentenced in Judge Troy Williams 112th District Court Thursday, to serve time in the Texas Department of Corrections after having violated the terms of their probations.

Alberto Borrego, 30, was sentenced to serve not more nor less than two years in the Texas Department of Corrections on charges he was driving while under the influence of alcohol February 11, 1978. In addition, Borrego had failed to pay his \$10 monthly probation fee.

Borrego was on probation after being sentenced to three years in the penitentiary and receiving a probated sentence on a charge of burglary November 3, 1976.

Ray (Regaldo) Borrego, 21, was sentenced to be confined in the penitentiary for two years on a charge of violating his probation when he appeared under the influence of alcohol and inflicted bodily injury to Felipe Castro February 11,

Ray Borrego was on probation after receiving a suspended sentence of 2-5 years in the penitentiary on the November 17, 1977 offense of burglary. He had also failed to pay the monthly probation fee.

All Stars Win One, Lose One

Ozona's Little League All-Stars went down to defeat Friday night at the hands of the San Angelo North All-Stars, after beating Sonora Wednesday night to stay in the play-offs.

Ozona's All Stars downed Sonora Wednesday night at the Little League Park here by a score of 4-2 after seven innings. Winning pitcher was Lonnie Galindo and Jeff Britton took the loss for Sonora. Robert Flores had a double and Kent Hokit, 2 singles, to lead Ozona's win.

The Ozona team was knocked out of further play-off games Friday night when the North All-Stars were victorious 10-1. Winning pitcher was Dwain Thompson and losing pitcher was Diego Leal. Robert Flores got a double for Ozona.

Ozona's Senior League stars were in Abilene Monday and Tuesday for a play-off tournament. Results were not known at press time.

OZONA LITTLE LEAGUE ALL STARS beat Sonora here Wednesday night at the Little League Park to the tune of 4-2, going extra innings. However, it was a different story Friday night when the Ozona Stars lost to San Angelo North Stars to end the Little League season for this year.

Friday night when the Ozona Stars lost to San Angelo North Stars to end the Little League season for this year.

Two New Businesses For Ozona

Quick Steak, owned by Aurora Tobar and managed by Carmen Ramos; and Jim's Junk, owned by Jim and Becky Baggett, are two new businesses opened to the public in Ozona last week.

Featuring steaks, steak fingers, chicken and hamburgers, Quick Steak is located south of I-10, and is open 11 a.m. to 11:30 p.m. every day except Tuesdays.

Equipped with a special machine purchased for the restaurant, the owners promise steaks about ten minutes after ordering, as compared to the normal wait of about twenty minutes in other restaurants.

Meals may be enjoyed in the spacious dining area decorated in Spanish style and accented with a fountain brimming with flowers, or orders may be taken out. For quicker and more convenient service for the customer, Tobar plans to install a drive-in window in the near future.

Open 8-5 Monday-Friday and half a day Saturdays, Jim's Junk is located at 1103 Ave. E in Ozona, and stocks used furniture and appliances and some antiques.

The Baggett's, who have been here almost two years, said they intend to serve the public by furnishing them with the furniture they need.

Heat Calls For Caution

By Jan Naron

Record high temperatures of over 100 degrees daily were interrupted Saturday when Ozona was visited by overhanging dark clouds and a short shower, but hot days are expected to return in full force, unaffected by the

Mechanics Offered Course

Ozona mechanics will have an opportunity to take a course on "Alternators and Their Controls," August 7 through 10, from 7 until 10:30 p.m. at the Civic Center. The classes will be conducted by a training specialist from The Texas State Technical Institute, and sponsored by Crockett Automotive.

All service technicians interested in the latest developments in alternator and regulator service and repair are eligible for the 14 hour short course, which will cover alternators and regulators and the new integral charging systems.

A fee of \$15 will be charged for each enrollee. This covers the tuition and all printed materials.

threat or the hope for rain.

The heat has become a topic of conversation in almost all corners in Ozona, and combatting it has become a main concern of residents.

Heat cramps, heat exhaustion and heat stroke are among the fears of Ozonans, and lack of knowledge about the illnesses and how to avoid them can lead to possibly serious results.

Heat exhaustion and cramps result from depleted stores of electrolyte in the body, and are characterized by weakness, hypotension, nausea and cool, moist skin. A result of low salt, localized muscle cramping is another symptom. Treatment may be administered by rest in a cool area, and oral hydration with salt and water.

Heat stroke, caused when the body fails to perspire, may result in temperatures of over 105 degrees F., with hot dry skin, rapid, bounding pulse and a possible delirious or semi-comatose state. One attack can make an individual susceptible to further attacks.

The best way to avoid heat stroke or other heat-related condition is, of course, to remain cool. However, when it is necessary to work in direct sunlight and heat, it is best to wear light-colored and light-weight clothing to reflect the rays and supply proper ventilation. It is also best to wear clothes that are not too tight, and it is always necessary to cover the body as completely as possible. Wearing no shirt or head covering is a very dangerous habit.

Also when working, it is best to utilize breaks wisely. It is important to avoid rapid and drastic temperature changes as they can trigger heatstroke, asthma and other illnesses. Always try to rest in a cool area, such as shade of a tree or building, and drink cool liquids slowly-avoid very cold drinks. Water is the most advised drink for the body.

Those most susceptible to heatstroke are young children and older people. Mothers should watch their children and make sure they are fully covered to play in the sun.

Coaches Off To School This Week

Ozona coaches left for Houston and annual coaching school last weekend, taking Lion standout Blake Moody, who will play in the all star game Saturday night in the Astrodome.

Blake began workouts with the North All Stars Monday. Ozona coaches have issued the pre-season football schedule and will be working at the field next week upon their return from Houston.

Shoes will be issued August 9, from 9 a.m. until 4 p.m. at the field house for aspiring high school football players.

Physicals for all high school boys who plan to take part in any form of athletics will be given at the football field August 10, at 3:30. Supt. Foy Moody reminded participants that this would be the only free physical for athletes.

Football practice for the Lions will begin August 14, at 8 a.m.

2 Wildcat Locations For County

Crockett County drew locations for two wildcats. Anderson Petroleum, Inc., Ozona, will drill two more 7,400-foot projects as gas wildcats at 2,100-4,700 feet and as Canyon sand gas tests at 5,800 feet in the Ozona multipay field of Crockett County, 28 miles southwest of Ozona.

Both projects are in 8-MM-T&S LRR.

The No. 1-8 Elmer Hoover Hatton Estate "B", 1 1/4 miles northwest of Canyon gas and 4 3/8 miles northwest of Clearfork oil production in the Ozona field, one mile south of the Bump-Gate (Strawn gas) field and 4 1/4 miles east of Clearfork gas production in the American (Strawn, Canyon and multipay Clearfork) field, is 850 feet from the north and 1,000 feet from the east lines. Ground elevation is 2,365 feet.

The No. 2-8 Elmer Hatton Estate "B", one mile west of Canyon gas and 3 1/2 miles northwest of Clearfork oil in the Ozona field, 4 1/4 miles east of Clearfork gas in the American field, is 761 feet from the south and 661 feet from the east lines. Ground elevation is 2,370 feet.

Lions Complete Rodeo Schedule

The Ozona Lions Club has assigned its members to various committees for the upcoming 22nd Annual Youth Rodeo, and the outlook for this year's show is very good with good stock and a large number of contestants.

John Justice is chairman of the dance committee. The committee has secured "Outlaw Express," the western band which proved so popular last year. The dance will be held following the show each night on the slab.

Gates will open each night at 6 p.m. Tickets are \$1 for children and \$2 for adults. Ray Henderson is chairman of the gate committee, with sixteen Lion members assisting him.

Concession Stand Chairman is Dee Keilers, assisted by a host of other Lions Club members. Keilers promises the same good charcoal hamburgers the stand has featured in the past and invites everybody to bring the family for dinner both nights.

Bill Watson is in charge of the arena committee, as in past years. He will be assisted by Dick Kirby, Sonny Kirklen, Fletcher Coates, Lloyd Comer, Jill House, R.J. Everett, Jr., Steve Sessom and Weldon Maness. Timekeepers will be Vernon Jones, Pon Seahorn, Sam Perner and announcer will be Jim House.

John Jones is parade chairman. The downtown parade will kick-off the two-day event before the show on Friday afternoon.

Gary Vannoy and John Parks were in charge of buckle and advertising sales, while publicity is being handled by Bob Falkner and

Mrs. Friend Named To Water Board

Mrs. W.E. Friend Jr., has been appointed by the Crockett County Water Board to serve the unexpired term as secretary of that organization, previously held by her husband before his death July 16.

Mr. Friend was elected in 1950 to the Water Board, and in 1953, was elected as Treasurer. His term as secretary began in 1977.

Rick Whitworth. L.D. Kirby, John Parks and Billy Reager are in charge of securing the rodeo stock. Mrs. Jim Bob (Paula) Bailey

District Studies

New Plant Shower

The Crockett County Water Board, composed of Lowell Littleton, president; Gene Williams, vice president; J.W. Johnigan, director; and Frank McMullan Jr., director, is currently making a study of needs for updating and relocating the waste water treatment plant now located south of Ozona. This action has been made necessary by the population increase in Ozona and around the plant.

During the month of July, the pumps delivered 61,745,700 gallons of water to Ozona, Crockett Heights and the Circle Bar Truck Stop. Although this is not a record in water use, it is an unusually high delivery, according to sources.

The Crockett County Water District is on a priority listing with the Texas Water Quality Board to receive grant assistance in making the study.

is chairman of the rodeo queen contest. She has several events planned for the ten contestants and will be assisted by reigning queen, Lucy Perner.

Arena Director and Flag Judge will be Eddie Hale, while Gary Vannoy and Lloyd Comer will be bucking judges.

Brings .3 Of Rain

A brief shower Saturday afternoon did little but settle the dust, but did make a dent in the month-long heat wave Ozonan's have been suffering from. According to the official gauge at the Water District Office, the shower amounted to .30 of an inch of rainfall, the first since July 1, when .30 was recorded. The last rainfall of any consequence came the first week in June.

Monday was the first day since the middle of June the bank sign and temperature sign has not gone over the 100-degree mark. Ozona has suffered from an unusually hot dry summer, and forecasters see no great relief in the near future.

Grand Jury Indicts Eight

The Crockett County Grand Jury met Thursday, July 20, and returned eight indictments.

John Brinkley was indicted for theft over \$200, in connection with the theft of an automobile from Terrance Gardner. His bond was set at \$2,500.

Rance Bronson, Steve Ingram and Tuffy Waldrip, the three together, were indicted for theft over \$200 and bond was set at \$2,500 on each man. They were charged with theft of equipment from Anderson Petroleum June 13, and were apprehended after trying to sell the stolen items in Eldorado.

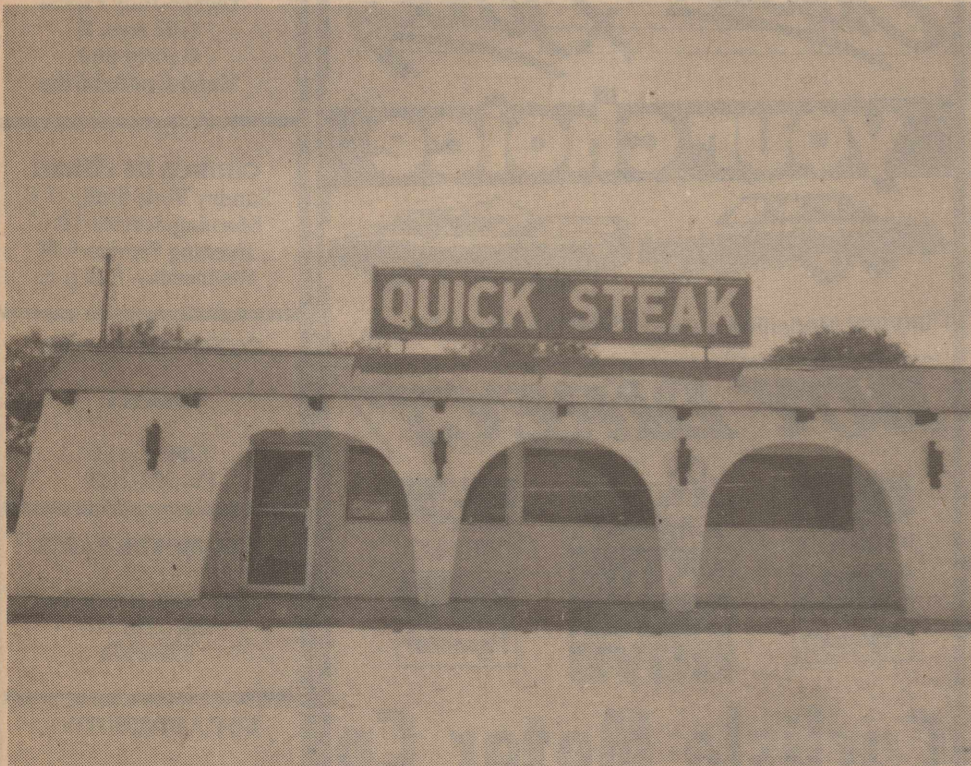

Bruton Martin Wade was indicted with burglary with intent to commit rape, in connection with a break in and attempted assault at the

Buster Deaton home. His bond was set at \$10,000.

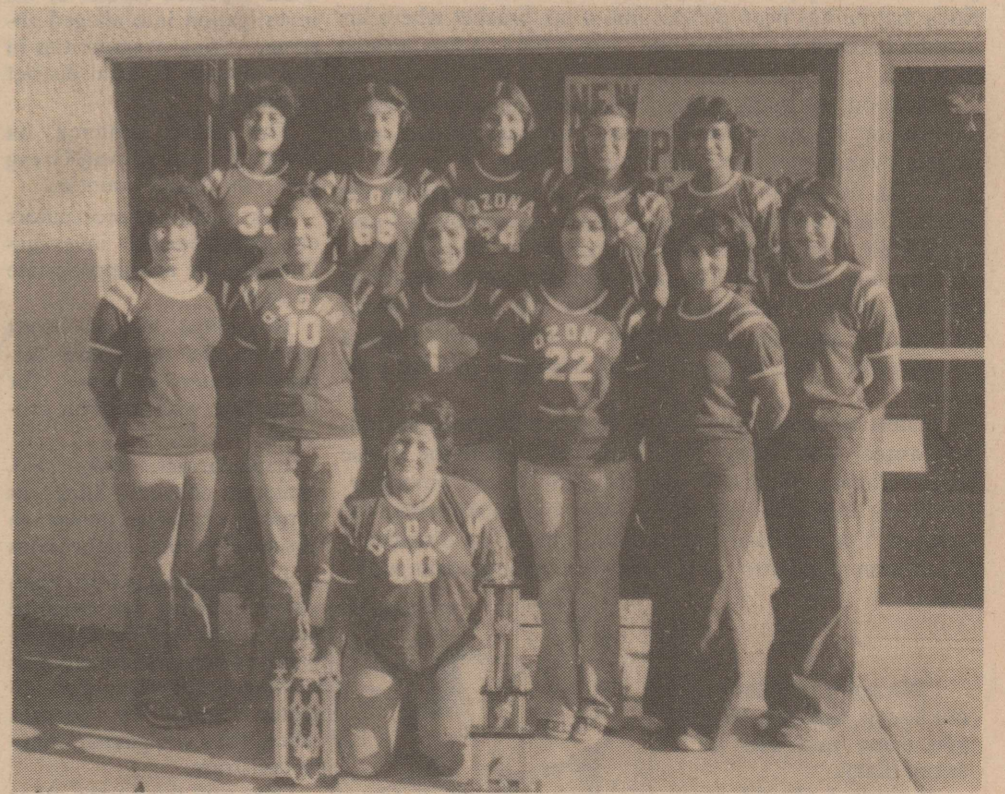

Antonio Borrego was indicted for aggravated assault with serious bodily injury on the person of Felipe Castro. His bond was set at \$5,000.

Chuey Borrego was indicted twice by the grand jury. One for aggravated assault on Felipe Castro and another for aggravated assault on Felipe Castro, Jr. Bond on each indictment was set at \$5,000.

Members of the grand jury were Rex V. Jenkins, foreman; Jo Ann Williamson, Robert Flores, Alma Etheridge, Guy Hester, Cora L. Conaway, Seldon M. Jones, Bernice C. Phillips, H.L. Mearns, Chris Clegg Hill, Leo Cervantez, and W.B. Lindsey.

NEW RESTAURANT OPENS HERE-Another fast food outlet opened its doors here when Quick Steak opened for business last week. The new restaurant, located south of I-10 just at the underpass, specializes in fast service on chicken, steak and hamburgers.

THE PURPLE GANG-Ozona's most successful baseball team with a season record of 13-2, shows tournament trophies. Team members are, top, l. to r., Kathy Sanchez, Sandra Tambunga, Elsa Fierro, Joyce Tambunga, Sandra Borrego. Bottom row, Elsa Delgado, Ruth DeLaRosa, Vera DeHoyos, Lupe Cervantez, Sylvia Elizondo, Shlo Tambunga, and Coach Alice Martinez shows trophies. Not shown is Chris Martinez, manager; Della DeHoyos, Debra DeHoyos, Mel Vela, Sylvia Borrego, Brenda DeHoyos and Nina Martinez.

TEXAS PRESS MEMBER 1978 ASSOCIATION

PLAYING POOR HOUSE POLITICS!

By Rep. Marjorie S. Holt

The public — obviously — is alarmed and even outraged by what has been happening to personal income after inflation and taxes.

Though it took Congress about four months to produce its budget resolution setting forth targets for the 1979 fiscal year, the document does not reflect a bit of alarm about inflation and taxation.

The 1979 budget is up \$46 billion — a 10 percent increase from estimated 1978 spending. Moreover, it is heavily-larded with new or expanding social programs.

President Carter originally proposed a modest \$25 billion tax reduction for 1979. The amount was almost enough to offset the economic damage caused by inflation and the higher Social Security taxes enacted by Congress.

In the House Budget Committee and in the budget proceedings of the full House, I sponsored a substitute that would have reduced the growth rate of federal spending to less than 8 percent a year and allowed a substantial tax reduction of \$29.7 billion.

While companies complained they are finding less oil available for purchase, Texas Railroad Commission set the statewide production allowable for August at 100 percent. Spokesmen for Exxon and Amoco explained their lower requests for purchase reflected an effort to bring nominations in line with actual purchases.

Chairman Mack Wallace said crude and petroleum imports were 7,862,000 barrels a day for the four-week average of July 7, a decrease of 697,000 from 1977. Total nominations for next month came to 3,517,436, a decrease of 4,171 from July.

Secretary of State Steve Oaks reported results of his investigation into alleged absentee voting irregularities in five counties to local district attorneys. The probe centered on Bexar, Brooks, Duval, Gregg and Van Zandt counties.

Oaks said local prosecutors can complete the investigation and file any appropriate charges. He added he will draft bills for the legislature, setting greater penalties for tampering with election processes.

Irregularities, Oaks said, centered on such things as forgery of voters names on absentee voting applications or ballots, persons other than voters applying for absentee ballots, delivery of absentee ballots when the law requires mailing, and assistance to absentee voters by persons other than designated deputy registrars.

Oaks said there were other allegations of payments for transporting voters to the polls on election day. "Nothing is more common than a fool with a strong memory."

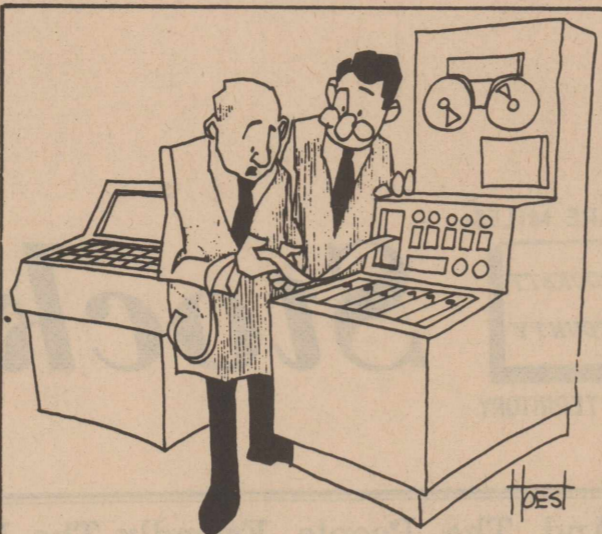

Courts Speak The Court of Criminal Appeals found a San Antonio judge was wrong to force lawyers to represent a man charged with murdering his wife.

The same court ordered dismissal of a criminal contempt charge against Potter County District Attorney Tom Curtis for remarks made in a March 9 pre-trial hearing. In other action, the court: —Reversed an order previously entered and affirmed a 50 year imprisonment sentence in a 1974 Laredo murder conviction.

—Upheld a life imprisonment sentence in a San Antonio heroin possession case. —Sent back for possible new trial a Houston aggravated robbery conviction which ended in a nine-year prison sentence.

The Texas Supreme Court refused to order the Board of Law Examiners to permit a young woman already licensed to practice law in California and several other states to take the State Bar exam.

The Third Court of Civil Appeals upheld a State Banking Board order allowing First State Bank of Hearne to move to College Station and change its name to College Station Bank.

"It says it resents the new computer which, although smaller in size, has a larger memory bank."

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN — Legislators moved through their third week of a special session facing a warning from Gov. Dolph Briscoe that he may keep them on the job if they fail to produce "meaningful" tax relief and limitations.

Both houses passed rival versions of legislation to repeal the sales tax on home utility bills and to increase to \$200,000 the inheritance tax exemption, then moved the issue to conference committee.

The Senate quickly completed action on a proposed constitutional amendment to permit tax valuation of all ranch, farm and timber land on the basis of productivity rather than market value.

Main issue raised was whether the tax break should be enjoyed by corporate agriculture and timber growers. Senators rejected 14-15 an amendment to restrict the advantage to small family farmers and ranchers.

Briscoe, two weeks deep in the session, opened the agenda to consideration of the property tax code reform bill by Rep. Wayne Peveto of Orange and Sen. Grant Jones of Abilene. Committee hearings advanced the bill in the House and Senate, but controversies remained.

Proclaimed Briscoe, as the legislative pace lagged: "It is essential that we have some sort of tax limitation. The people deserve this. If it is not done in 30 days, we will have to take a look at what can be done. I will not rule out any potential on how long it will take. It has to be done—the sooner the better."

AG Opinions Attorney General John Hill said a school district employee is entitled to a copy of a superintendent's memorandum which concerns him.

In another recent opinion, Hill concluded the Austin County commissioners court can amend salary provisions of a contract with the City of Wallis even though the amendment would raise the pay of a commissioner's daughter employed by the city. Hill said the nepotism statute isn't violated because the county cannot control selection of the city's employees.

Short Snorts The Railroad Commission July 28 will announce its final decision on the long-pending Lo-Vaca Gathering Co. settlement plan.

Houston Lighting and Power Company filed a \$174.9 million rate increase with Public Utility Commission and the cities it serves. Texas Deepwater Port Authority agreed to buy for \$11.1 million materials of Seadock related to design of an offshore port.

U.S. Rep. Jim Collins of Dallas will serve as general convention chairman for the 1978 Republican State Convention in Dallas September 8-9.

Agriculture Commissioner Reagan V. Brown suspended permits of nine Oregon seed firms doing business in Texas for failure to pay state inspection fees.

Texas Industrial Commission will vote this week on a 1978-79 advertising campaign promoting Texas' business climate.

The Common Carrier Motor Freight Association called on the Railroad Commission to approve rate increases totalling eight percent on line-haul charges for truckload or less-than-truckload shipments.

Gas rate increases of about 40 cents per month on the average (for six mcf residential) have been permitted for unincorporated areas near La Marque, Texas City, League City, Dickinson and Santa Fe in Galveston County.

"Nothing is more common than a fool with a strong memory." C. C. Colton

The News Reel A re-run of "The Ozona Story" as gleaned from the files of "The Ozona Stockman"

Thursday, July 28, 1949 The \$3 million plant to process propane, butane and gasoline at Todd Ranch Gasoline Plant, now is under construction at Todd field.

29 yrs. ago Mrs. Cleophas Cooke announced this week that two teams have already been partly formed for women's softball, one composed of married women and the other made up among the highschool girls.

29 yrs. ago A large group of Ozona Baptists will attend the Paisano encampment this week.

29 yrs. ago Over 5 inches recorded to the west of Ozona was welcomed this week.

29 yrs. ago Two Ozona men were being held here to face charges of theft of garden tools, wrenches and a wrist watch.

29 yrs. ago Dave Stockbridge of Beeville, governor of the Rotary Club district will be here Aug. 2.

29 yrs. ago Crockett County exceeded its quota by \$20,000 in bond drive. \$28,593 total sales reported in opportunity drive for the sale of Series E Bonds.

29 yrs. ago County Judge Houston Smith, Bill Taylor and son, Donald, left Wednesday for a few days of deep sea fishing in the Gulf.

29 yrs. ago Jimmy McMullan, Graham Childress, Bill Schneemann, Ronnie McMullan, Frankie Jones, Hugh Russell, Carl Conklin, Sonny Henderson, Charles Garlitz, Charlie Black, Tom Kincaid, Sammy Marshall and agent Bill Bergfeld met at the Chandler Ranch for their summer encampment. Reagan and Upton counties were also represented there.

LETTERS TO THE EDITOR

Dear Kitty, I don't know how much the Stockman is at the present time (year), but would like for the paper to be sent to us. So if you will send it to us, and bill me for it, I will send you a check. I wonder if you could tell me what ever became of John Kirkpatrick

SNIPS, QUIPS, AND LIFTS By Lottie Lee Baker

Look for the flowers by the side of the road on this journey through life.

Politicians Re-ELECTION SLOGAN: Honesty is no substitute for experience.

When down in the mouth, remember Jonah—he came out all right.

Hope springs eternal in the shopper who looks for a ripe cantaloupe.

We live in a world of change, but it is hard to get our hands on any of it.

Round shoulders often come from carrying around a grudge.

There are four classes of church members: The tired, the retired, the tiresome and the tireless.

The ultimate disaster would be something that forces a TV station to run a news bulletin in the middle of a commercial.

The ideal diet is expressed in four words: No more, thank you.

What some people call a conviction may be just a prejudice.

The higher you get in the evening the lower you feel in the morning.

The most difficult thing to open is a closed mind.

The trouble with most people who "drink like a fish" don't drink what the fishes drink.

Doubt makes the mountain that faith can remove.

You can buy education but wisdom is a gift from God.

Some men make enemies instead of friends because it is less trouble.

Joggers make dependable husbands. With the outfits they wear, home is the only place they can go.

When a woman talks about her past, she's confessing; when a man does, he's boasting.

Some folks aren't contented with the milk of humankindness they want the cream.

A LIFT FOR THE WEEK People seldom improve when they have no model but themselves.

Greenland which is 840,000 sq. miles is the world's largest island!

And then Blake Brown, also. Wishing all of our friends in Ozona the best of everything. May the good Lord keep them safe and well. I have retired and enjoying life-always did like Ozona. I lived there for about 17 or 18 years, then along came World War 2. Will be looking forward to getting the Stockman. May God bless each and every one of you.

Sincerely, John D. Whately Box 842 Omaha, TX 75571

Scribblings BY BILL MORRISON Minister Ozona Church of Christ

In the early morning hours, a train moved slowly across the plains of Kansas. Weary travelers in one of the passenger cars stirred restlessly as a man tried to quieten the intermittent crying of an infant.

Finally an aggravated complaint was voiced: "Why don't you take that baby to its mother?" After a few minutes of silence, the man replied: "I wish that I could. But she is in the baggage car-in a casket."

Oh, if we only understood! If we only gave people the benefit of the doubt. If we only waited for an explanation. Then we would be more compassionate and forgiving!

In too many instances we make harsh and critical judgments about other people and their actions, forgetting the days when we were under the condemnation of sin.

Who should better understand the lost than the found? Christians-saved sinners-can understand sinners because they have qualified themselves by their own conversion. They have not forgotten the bondage of sin, remembering that "the way of transgressors is hard." (Proverbs 13:15) Christians can understand; therefore, they can say: "Amazing grace! How sweet the sound, that saved a wretch like me! I once was lost, but now I'm found, was blind, but now I see."

Let's try to have "a wise and an understanding heart--", including all and excluding none. It is not hard to condemn someone! Just focus your attention on a mistake and mix it with a touch of self-righteousness. But it takes an abundance of Christianity to understand and to forgive.

Persons who do vigorous physical work or play and sweat profusely may need added sodium-the body loses about 1,000 grams of sodium in one quart of sweat, reports Frances Reasonover, foods and nutrition specialist with Texas Agricultural Extension Service.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Through the parade of hot days and weeks, everyone has continued to water with every implement available. And we should be giving thanks daily for our plentiful water supply and system that we have.

After the prolonged dry year you may be interested in planting an old favorite, Hosta, a durable perennial that requires little if any care. So many of you may want to try it under trees where grass does not do well or for edging of shaded walks. Hostas adapt to most soils and climates, have handsome foliage from spring until frost and produce cool-looking flowers in the late summer when other bloom is scarce. The average gardener needs only to select the plants that are easily available, but there are many less known varieties if you want a collection. The green and yellow or green and white variegated leaf pattern is one of their attributes. Leaf shapes range from quite round or heart-shaped to fairly narrow and lance shaped. Hosta Ventricosa, the blue plantain lily has narrow green leaves that are twisted at the ends. These plants are very striking as specimen plants for a contrast in a group planting, potted plants, or a bed of one variety, or several varieties.

All garden club members especially, should be planting, transplanting or rooting cuttings for a fall plant solo. This is the time to plant Oriental poppies if you have a good place or room for them. They will thrive in most any good garden soil with sufficient drainage. Once established in your garden, they need little but clean cultivation. No strong fertilizer is required, their favorite food being leaf mold. Since they are deep rooted, they rarely suffer from lack of water after the first year. Clumps increase in size with age and may be left in the same place for years. Mulch new plants under the leaves the first winter.

August planting days- Root crops- 1,2,19,20,23,24, 28,29. Above ground crops- 8,9,10, 11,12,15,16.

Ms. Montgomery Is Hostess For CC Bridge Club

Mrs. Beecher Montgomery was hostess for the Country Club Bridge Club Thursday at the club. Winning high was Mrs. Brock Jones and second high went to Mrs. Clay Adams. Mrs. O.D. West was low and Mrs. George Bunker won the bingo.

Others playing were Mrs. Bob Bailey, Mrs. Cuatro Davidson, Mrs. Joe Friend, Mrs. J.J. Marley, Mrs. Dave Matney, Mrs. Bruce Mayfield, Mrs. Kirby Moore, Mrs. J.B. Parker, Mrs. Hilary Phillips, Mrs. Jake Short, Mrs. Sherman Taylor, Mrs. Byron Williams, Mrs. Gene Williams, Mrs. Rip Sewell, Mrs. Joe Clayton and Mrs. Dick Kirby.

Girls Have Best Season Record

Ozona's womens softball team, The Purple Gang, was apparently the most successful baseball team among Ozona's many this season. They had a remarkable record of 13 wins and 2 losses playing teams from neighboring towns.

The team won the second place trophy in the Sonora Tournament and brought home the first place trophy in the Big Lake Tournament. Outstanding players for the team this year were Ruth DeLaRosa, Kathy Sanchez, Delia DeHoyos and Lupe Cervantez.

Morning People Vs. Night People

Most people can easily classify themselves as "morning people" or "evening people" based on their daily habits, reports Debby Johnson, a family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

A recent study was conducted to find out how marriage relationships functioned when spouses were both night or morning people, or when one spouse was a morning person and the other a night person.

The findings of this preliminary study indicate:

1. Couples are aware of how the morning vs. night orientation affects their marriage.

2. Morning people like to go to bed by 10:00 p.m. and get up early, while night people stay up late and have trouble getting up in the morning.

3. Morning people are more

Koerth Signs For Golf Scholarship

Ozona's Ronald Koerth is among four former Western Texas College students to sign with university golf teams for the upcoming 1978-79 school term.

Koerth, a 1976 graduate of Ozona High School, recently inked a scholarship to Eastern New Mexico University in Portales, after completing two years at Western Texas College.

At WTC, Koerth was runner-up conference medalist with a 70.8 average. He was All-Region V with a 70.3 average and was selected to the third team NJCAA All-American. Koerth noted a yearly average of 73.1; plus 1.8.

Koerth was on the golf team 4 years at Ozona High School. He is the son of Mr. and Mrs. Winston Koerth of Ozona.

Mr. and Mrs. Ray Nixon and Todd Foster spent the weekend visiting family in Victoria and West Columbia.

physically active and enjoy outdoor activities. Night people are either homebodies and like to stay up late, watch TV, or talk; or they like parties and an active night life.

4. Morning people value the morning and look forward to sunrise, breakfast, and morning activities. On the other hand, night people do not express a real value for the night hours.

"Matched couples report that this helped stabilize their marriage, making daily routines and preparation easier. Further, their sexual relations were more compatible, making daily routines and preparation easier. Further, their sexual relations were more coordinated and job satisfaction greater."

"Mismatched couples reported more conflict, arguments, and the need for compromise to settle differences," the specialist says.

Several spouses noted that they had little time for conversation, irregular sleep habits and a less-than-ideal

4-H Record Book Workshop

All 4-H'ers are urged to attend the 4-H Record Book Workshop scheduled for August 1,2, and 3 at the Ozona Community Center from 9-11 each morning.

Supplies will be furnished for the workshop, although 4-H'ers are asked to bring one small school picture of themselves, as well as their 4-H projects and awards.

Ribbons will be presented to all 4-H members who complete a record book to be judged August 11, in Fort Stockton.

Refreshments will be served at the Workshop each morning.

Mr. and Mrs. Ray Nixon and Todd Foster spent the weekend visiting family in Victoria and West Columbia.

Debra Says

by Debra Price

Go ahead! Put all your eggs in one basket! The U.S. Department of Agriculture says they're in good supply in July, so make sure your grocery cart is full.

And when you shop for eggs, look for U.S.D.A.'s grade shield on the carton or the tape that seals the carton. It's your best assurance of both quality and size. The grade will be shown within the shield, and the size will be found either within the shield or elsewhere on the carton.

The three grades are U.S. Grade AA (or Fresh Fancy), U.S. Grade A and U.S. Grade B. The grade you'll find most often is U.S. Grade A. Often, AA quality eggs are included in the cartons with A quality eggs.

Egg prices vary by size for the same grade.

Generally speaking, if there is less than a 7-cent price spread between one size and the next smaller size in the same grade, you'll get more for your money by buying the larger size.

Serve eggs often this month while they're in abundant supply. Here is a recipe you may want to try:

BUTTERSCOTCH PIE
1 c brown sugar, packed
1/4 c cornstarch
1/2 tsp salt

1/4 c butter or margarine
1-1/2 tsp vanilla
1 pastry shell, baked, 9-inch
1 c water
1-1/2 c milk
3 egg yolks, slightly beaten
3 egg whites
1/4 tsp salt
1/2 c sugar

Mix brown sugar, cornstarch and salt in saucepan. Gradually stir in the water and milk. Cook over moderate heat, stirring constantly, until thickened. Simmer one minute longer.

Stir a little of the hot mixture into the egg yolks, then stir yolks into remaining hot mixture. Cook one minute longer, stirring constantly. Remove from heat, stir in fat and vanilla. Pour filling into pie shell.

Preheat oven to 350 degrees F. Beat egg whites until foamy. Add salt and beat until soft peaks form. Add sugar gradually, beating constantly, and continue beating until stiff peaks form. Pile meringue on pie while filling is still warm. Bake 15 to 20 minutes, or until lightly browned.

L.D. Kirby was expected home Tuesday night from Shannon Hospital in San Angelo, where has been recuperating from surgery.

DIRECTION AND HOPE

You can find plenty of Biblical texts about the wind. That's not why so many colonial churches have weather vanes atop their steeples.

Our early American ancestors were religious—and practical. A weathercock had to be mounted well above trees and roofs which could alter the course of the wind. Often the local church steeple was the highest place.

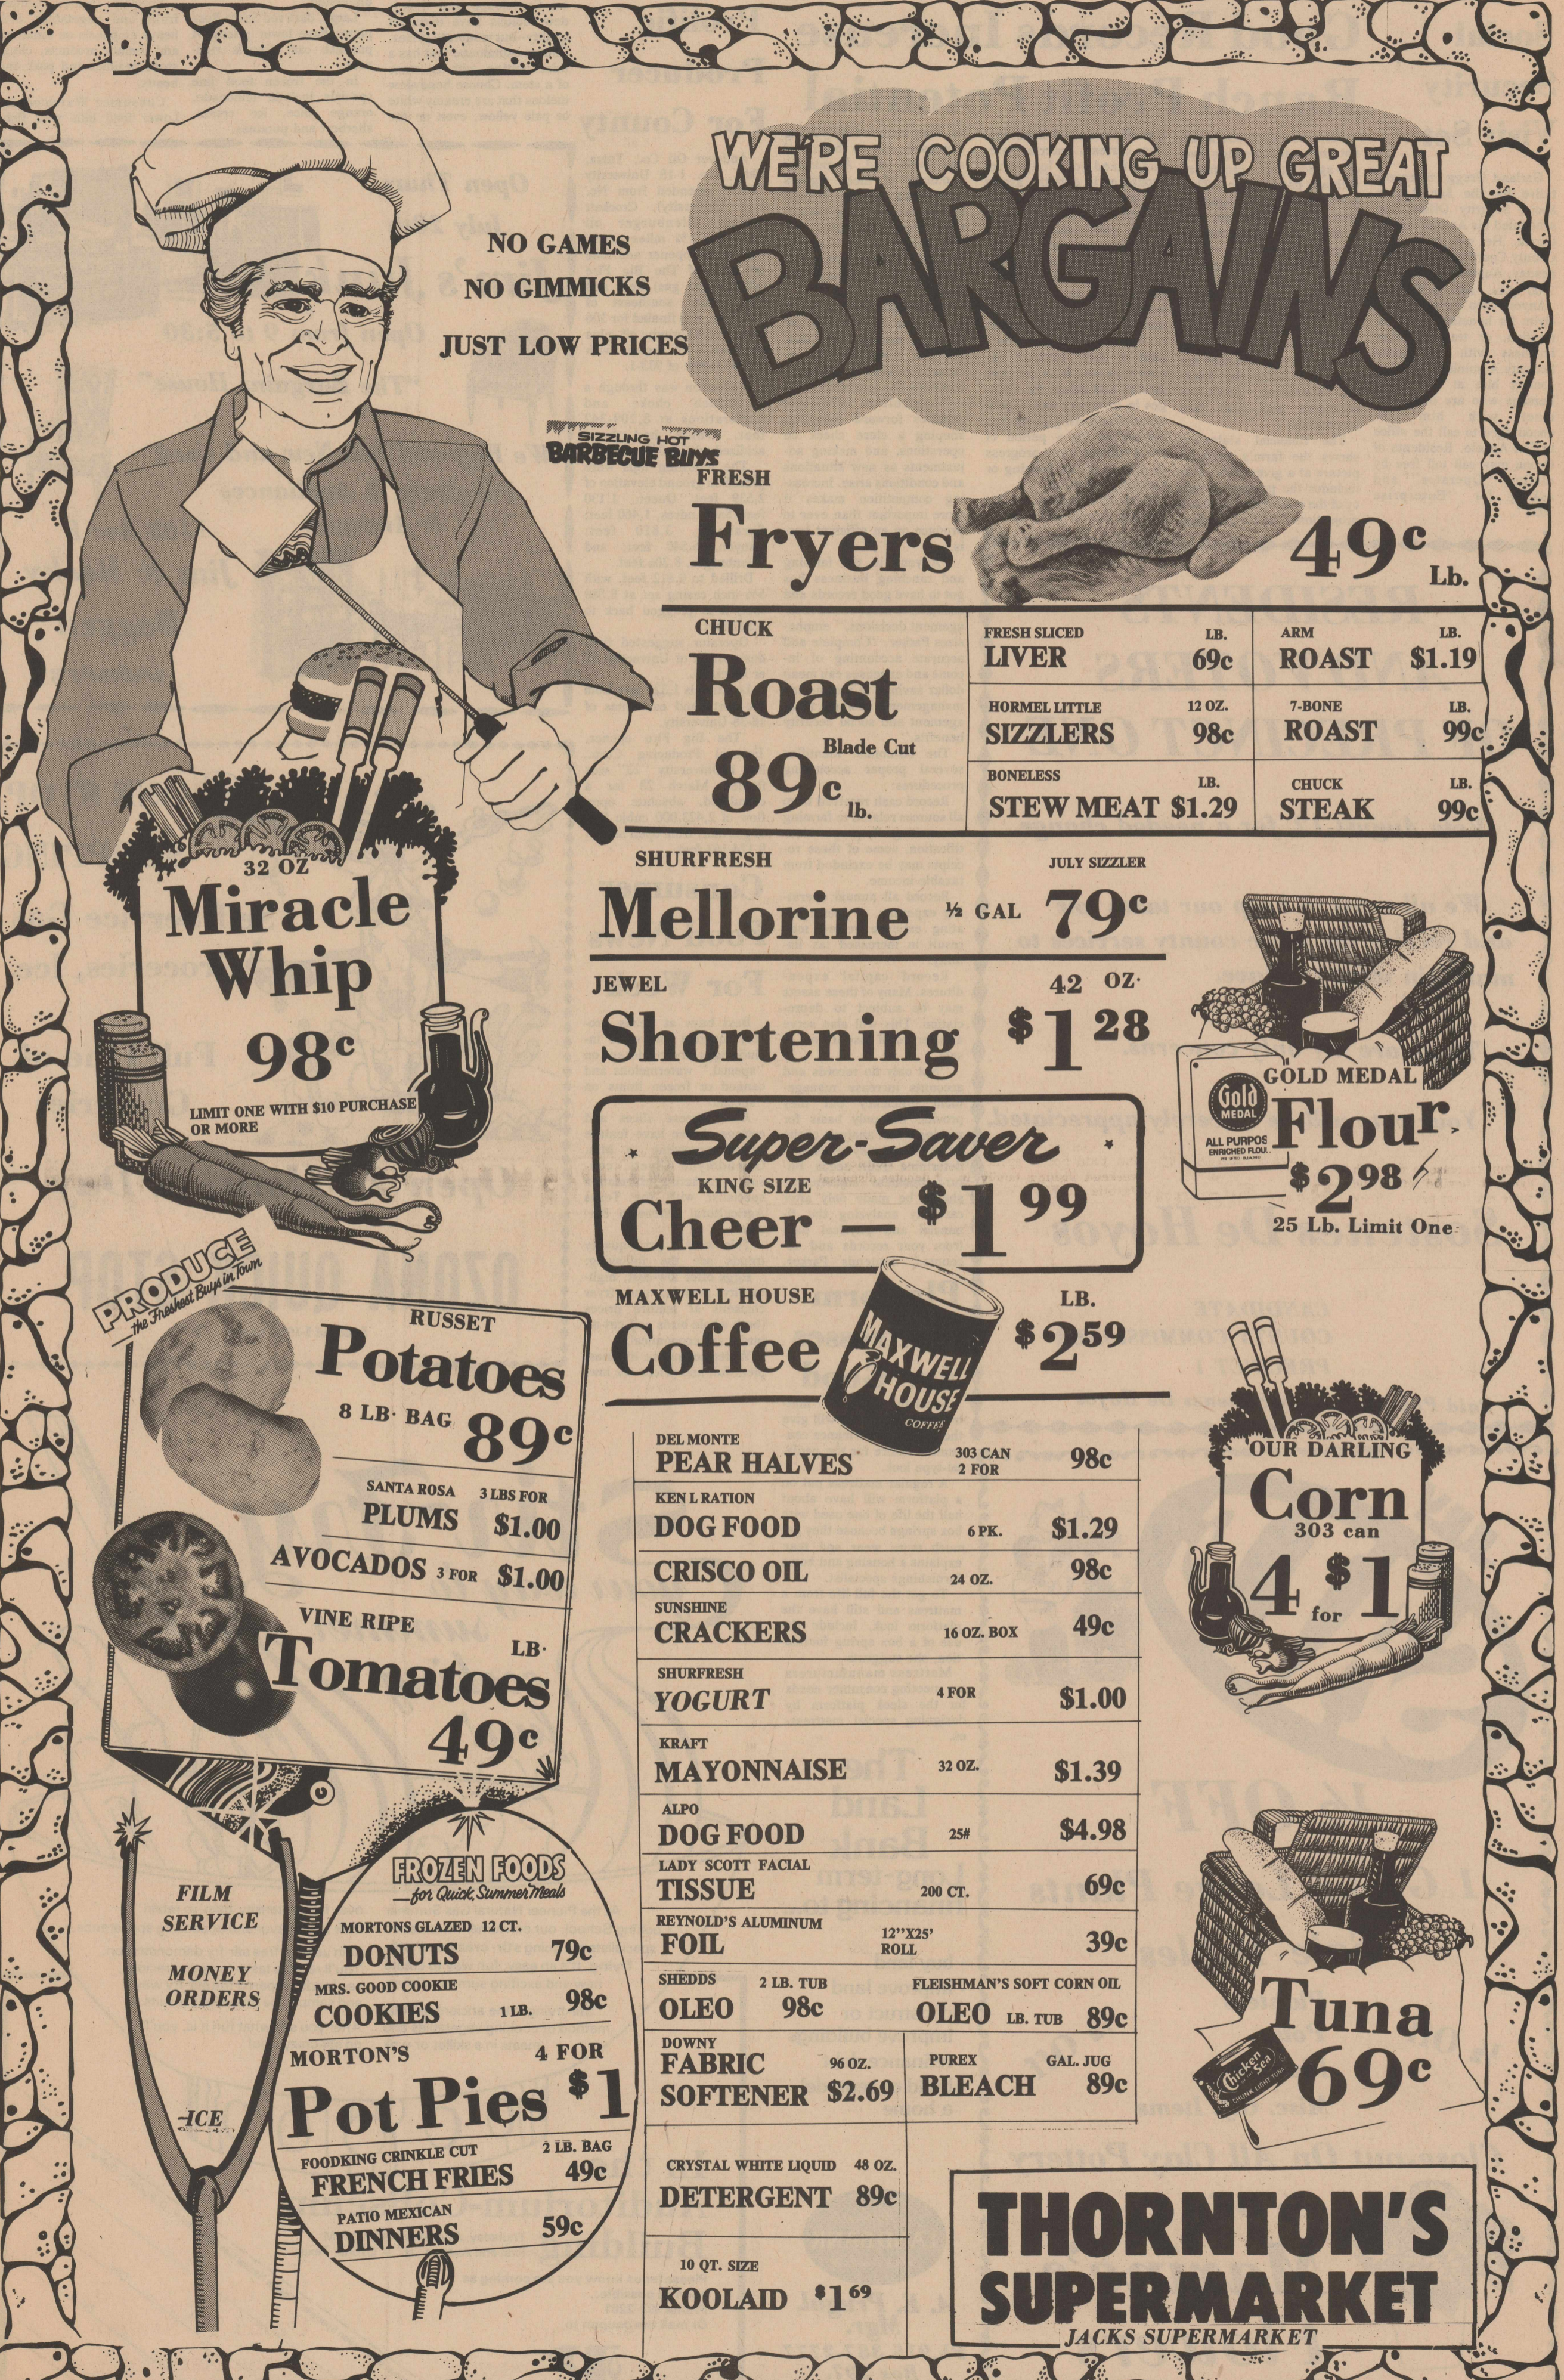

Nor is there anything irrelevant in the custom. For centuries man has looked to the Church for guidance, direction, hope. It seems natural as he pursues his daily work to look to the Church to see which way the wind blows.

We get our weather news today from press, radio and TV. But look to the church of your choosing to gain the faith and courage that see reverent souls through "fair wind or foul."

Social Security Visit Set

Garland Gregg, representative for the San Angelo Social Security Office, has scheduled his August visit to Ozona. He will be at the County Courthouse on Wednesday, August 16, between 2:00 p.m. and 3:30 p.m. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time. Persons who are unable to meet with him are encouraged to call the office in San Angelo. Residents of Ozona may call toll free by dialing "Operator" and asking for "Enterprise 2058".

Good Records Increase Ranch Profit Potential

Farmers and ranchers cannot survive today's high level of agricultural production without good records. They need a financial management plan. Such a plan can also increase their profit-making potential, believes an economist with the Texas Agricultural Extension Service. "Management of capital is vital to production efficiency and maximum profits," says Cecil Parker. Included in this management of finances are three key items—the financial statement, profit-loss statement and cash flow summaries. The financial statement shows the farm's financial picture at a given time. This includes the present solvency of the operation and also a projection of future solvency.

List all assets and liabilities. Use current, intermediate, and fixed or long-term groupings in defining assets and providing a realistic look at repayment requirements. The profit-loss statement sums up income and expenses and the resulting net profit or loss during a given period, such as a crop year, points out Parker. Handle non-farming items separately. To obtain the operation's gain or loss, subtract net cash expenses from net cash income and adjust for changes in inventory and capital items. Comparing profit-loss statements for a period of years will show any progress or decline of the farming or ranching operation. Cash flow summaries list all cash income and expenses.

es. They include family living expenses, money borrowed and debts paid. A monthly summary of these figures determines the flow of cash during the planning period. Cash flow summaries can help determine the time and amounts of credit needs and availability of repayment funds. "Although some time is required to develop a sound financial management plan, the end result can be increased returns on capital," contends the economist. "Agriculture 1978-style requires forward planning, keeping a close check on operations, and making adjustments as new situations and conditions arise. Increasing competition makes it more important than ever to produce on an efficient basis.

"Anyone in the farming and ranching business has got to have good records and accounts to make sound management decisions," emphasizes Parker. "Complete and accurate accounting of income and expenses can mean dollar savings in income tax management, business management and social security benefits."

The economist identifies several proper accounting procedures:

Record cash received from all sources related to farming or ranching. By proper identification, some of these receipts may be excluded from taxable income.

Record all annual operating expenses. A poor operating expense record may result in increased tax liability.

Record capital expenditures. Many of these assets may be subject to depreciation. This will also serve as a record of cost at time of sale.

"Not only do records and accounts increase management efficiency but they provide the only basis for making a cost analysis of the business and may be used to determine credit needs. Future business adjustments should be made only after carefully analyzing the financial and physical data from your records and accounts," contends Parker.

Platform Mattresses Are Good

Specially designed mattresses or platforms will give the quality performance consumers desire for the pedestal-type look.

A regular mattress put on a platform will have about half the life of one used with box springs because they get much more wear and tear explains a housing and home furnishings specialist.

To get the full life from a mattress and still have the platform look, include the use of a box spring foundation, she suggests.

Mattress manufacturers are meeting consumer needs for the sleek platform by designing special mattresses.

Prolific Producer For County

Andover Oil Co., Tulsa, Okla., No. 1-18 University "38C" amended from No. 1-18 University, Crockett County Ellenburger oil discovery, 1 1/2 miles northeast of the opener and lone producer of The Big Fire (Ellenburger gas) field and eight miles southeast of Barnhart, was finalized for 106 barrels of 42 gravity oil, plus six barrels of water, with gas-oil ration of 933-1.

Production was through a 16-64-inch choke and perforations at 8,209-342 feet, which had been acidized with 5,000 gallons.

The following tops were picked on ground elevation of 2,539 feet: Queen, 1,130 feet; San Andres, 1,460 feet; Sprberry, 3,810 feet; Canyon, 6,540 feet; and Ellenburger, 8,206 feet.

Drilled to 9,812 feet, with 5 1/2-inch casing set at 8,580 feet, it is plugged back to 8,542 feet.

Operator suggested field designation of University 38 or Block 38.

Location is 1,320 feet from the north and east lines of 18-38-University.

The Big Fire opener, Estorial Producing Corp., No. 1 University "23" was finalized March 28 for a calculated, absolute open flow of 2,423,000 cubic feet of gas daily from open hole at 8,124-163 feet.

Consumer Food News For Week

Best buys at Texas grocery markets this week include eggs, fryer chickens on "special," watermelons and canned or frozen items on "special."

Also, cheese slices and cottage cheese have feature prices, according to Mrs. Gwendolyne Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service.

This week's price-quality trends are the following:

Eggs offer low-cost, high-quality protein, and fryer chickens at feature prices (both whole birds and cut-up birds) are economical.

Watermelons are the most plentiful, and prices are low-

er. Cantaloupe and honeydew melons have excellent quality—but moderate prices. Choose cantaloupe that has a thick netting—with no trace of a stem. Choose honeydew melons that are creamy white or pale yellow, even on the

underside. Large, dark red Santa Rosa plums have lower prices. A purplish cast signals ripeness.

In the frozen food line specials include lemonade, orange juice, ice cream, sherbert and potatoes.

Specials include canned fruits and vegetables with heavy emphasis on tomatoes and tomato products, clingstone peaches and pork and beans.

Consumer Watchwords: Lower food bills with fish.

Stir-Fry
your way to summer cooking fun!

At the Pioneer Natural Gas Summer Cooking School, our consumer information specialists are going stir-crazy over stir-frying. It's an easy, fun way to create new and exciting summer dishes.

Stir-frying is the ancient oriental method of cooking vegetables and meats in a skillet or wok

over high intensity heat to retain their fresh flavor and appetizing appearance.

Join us for a free stir-fry demonstration. You'll receive taste-tempting recipes, see foods prepared the stir-fry way, and sample the marvelous results.

After you see what fun it is, you'll go stir-crazy, too!

Make Cut Flowers Last Long Sherriff's Department Report For Past Week

Making cut flowers look good for the longest possible time is a challenge faced by many home gardeners.

1. Make certain the container is washed clean with soap and water before using.
2. Cut stems at a slant, using a sharp knife or shears.
3. Before cutting, select flowers that are not fully open; avoid cutting old flowers.
4. Remove foliage from the lower third of the stem; also remove all broken and bruised parts of the stem.
5. Cut flowers in early morning or late afternoon.
6. Wash flowers and foliage to remove dirt, sprays or dusts if possible.
7. Store cut flowers in a cool area or refrigerator until arranged.
8. On receiving bulk flowers from the florist, cut about one inch off the stem ends.

Crockett County Sheriff's office reported a "light week" for last week, though they investigated 22 reports and made a bloodrun for an emergency at the hospital here.

The Quick Stop was the scene of two thefts during the week, both of which were solved. A man from France reported a camera stolen from his car there Monday. The camera was recovered, and five days later, officials investigated a call reporting stolen gas. Deputies caught the car in question 10 miles west of Ozona, and recovered \$7.41 for the gasoline.

Also last Monday, 2,000 feet of four-inch pipe was stolen near McCamey in Crockett County and recovered by deputies in the western part of the county.

An accidental shooting occurred Friday when Gregory Fierro, 14, using a 22 rifle, shot at a bullet lying on a table at his home,

causing it to ricochet and hit him in the shoulder. He was taken to Crockett County Hospital emergency room, where he was treated and released.

Lionel Munoz reported his 1978 Chevy stolen Sunday, from the park. It was later found abandoned near Midway Lane, with no clues left to aid officials.

A hitchhiker, John W. Griffin, Jr., a Louisiana man, reported being picked up near San Antonio and transported to 10 miles east of Ozona, where he said he was beaten and robbed of \$9.

Authorities said Griffin acted strangely, as if perhaps under the influence of alcohol or other intoxicating sources. They said they did not take further action, as they believed the report to be unfounded.

Two tire thefts were investigated at the Circle Bar Truck Corral when a truck driver from California

reported a spare tire stolen from his trailer during the night Thursday. A Dallas woman reported the second theft at the Circle Bar when she found her car had been jacked up in the motel parking lot, and a tire removed from it. Officials said the tire thief left his blown-out castaway near the woman's car.

Alberto Borrego and Ray Borrego, brothers who were recently sentenced to serve two years each in the Texas Department of Corrections after breaking their probations, were escorted by county sheriff's deputies to San Angelo, where they await transportation to Huntsville.

Traffic citations were issued on Wednesday to Curry Sheehan for following emergency equipment, and to Bobby Large for loud mufflers. Large was fined \$53.50 for his offense, and Sheehan had not yet appeared before Justice of the Peace A.O. Fields as of Monday.

Athletes' Proper Nutrition

Well-balanced diets—not fad foods—insure athletes of the proper nutrition they need, says Mary K. Sweeten, foods and nutrition specialist with the Texas Agricultural Extension Service.

Athletes may find food fads attractive because of the pressure on them for physical fitness. Because of this pressure, they often accept any formula which promises quick results. They believe in any food or vitamin supplements they feel will improve their performance, she points out.

However, no dietary special foods or vitamins pills give the athlete competitive skill.

Well-balanced foods are the best source of nutrients for the athlete.

Vitamin pills are unnecessary for a healthy individual and add neither extra energy or pep, Mrs. Sweeten says.

Selections from the basic four food groups are the best insurance of a well-balanced diet.

Eat four or more servings each of the fruit-vegetable and bread-cereal groups, two or more servings of the milk group and two and one-half to three ounce servings of meat group foods every day, she recommends.

In addition, eat very modest amounts of foods supplemented with at least a gallon of water in a 24-hour period prior to any athletic event.

Consider Tax Free Gifts

To help ease the federal estate tax bite individuals may want to consider annual gifts to their heirs, says an economist with the Texas Agricultural Extension Service.

"Annual gifts up to \$3,000 to each individual, or \$6,000 if a husband and wife make the gift jointly, are tax-free under the federal gift tax law. The amount given away during your lifetime will reduce the size of your estate and consequently the amount of federal estate tax on what you leave your heirs someday," points out Tom Prater.

Under the annual exclusion, you can make gifts each year to as many people as you wish, and the first \$3,000 of the gifts to each person is tax-free if it is a gift of a present interest. Present interest indicates that the recipient takes immediate possession and enjoyment of the gift. If possession and enjoyment are postponed or are subject to some condition or the wishes of another it is a gift of a future interest and does not apply to the \$3,000 (or \$6,000 husband/wife joint) annual exclusion, explains the economist.

"Gifts made under the \$3,000 annual exclusion are not subject to be included in the gross estate if the giver dies within three years after making the gift," notes Prater. "Beginning in 1977, all other transfers by gift within the three-year period prior to death will automatically be included in the gross estate of the deceased—and so will be subject to estate tax. This makes the annual exclusion an effective way to reduce the size of your estate regardless of when death occurs."

The recipient of your gift under the annual exclusion has no obligation either to report or pay income taxes on the amount he receives.

In considering tax-free gifts, the economist suggests contacting a lawyer or tax accountant who can assist in planning lifetime gifts and other phases of estate planning.

Mr. and Mrs. Roy Coates and Mr. and Mrs. Perry Hubbard have recently returned from a trip to Nassau.

Ozonans Attend Band Camp

Lupe Gonzales, Jay Justiss and Coy Miles of Ozona participated this week in the fourth annual Angelo State University Band Camp which attracts high school students and band directors from across Texas.

Over 500 persons are attending this year's camp which offers clinic sessions in band twirling, ensembles, stage bands and drum majoring, among others.

Experienced musicians and band directors from across Texas are included in the band camp faculty and

give special instruction in various instruments.

In addition to the workshop sessions, participants are being treated to a variety of evening entertainment including a movie night, talent show, concert, disco show

and other activities. Enrollment in this year's band camp is about 25 percent above last year.

NOTICE OF REWARD

I am offering \$500 Reward

for apprehension and conviction of guilty parties to every theft of livestock in Crockett County - except that no officer of Crockett County may claim the reward.

Humans Can Carry Rabies Virus

Having never seen salt water except as treatment for sore throat, swimming in the ocean was quite a new and interesting experience. Myrtle Beach, South Carolina, I have decided, was my favorite of all spots we visited on our two-week tour of 18 states and part of Canada this summer.

Probably the only people to ever do so, we arrived there at night. After being assigned our camping spot, we drove around what seemed like thousands of campers and tents looking for S110, our spot. After coming to terms with our situation, and considering our pattern of luck, we resigned ourselves to the probability that as late as we had arrived, we would surely be surrounded by people from everywhere from New Jersey to California. And it was a cinch we'd be miles from the waterfront.

When we finally found S110 in that pitch-dark maze, we found ourselves about 500 feet from the ocean, and not a camper between us and water. We'd already learned from experience that good luck was not going to visit us often, so we rejoiced inwardly, trying to avoid taking advantage.

I am sure arriving at night had much to add to the thrill, as when we drove near the coastline, we heard the crashing of the waves and saw the whitecaps appear as the water tumbled toward the shore. I thought it was magical.

We'd always heard the beach is crowded at all times, but there weren't five people as far as we could see, and that was alright as far as we were concerned.

We rushed to put on swimsuits, and once on the beach, we forgot ourselves and started doing crazy stuff like sitting in knee-deep water, letting the great rushes of water push us toward the sandy beach and then recede, leaving us laughing in inch-deep swirls.

We chased the tide as it withdrew back into the ocean, and ran toward shore when it rushed back toward us.

There on the beach, we found broken shells, and some perfect half-shells. Some of them were fossilized, and drifts of tiny ones washed up to make mounds at the water's edge.

We could feel the thickness of the salt in the water as it crashed against and washed over us. We tasted it sometimes when it went over our heads, and I remember all I thought of was that an elementary teacher had once told me men stranded on the

ocean cannot drink the water because it would make them crazy. I find it funny now that the taste did not bother me. (I always hated it when I had sore throats).

It was almost as if we were all under some spell while we were there. We wondered later at the strangeness of it.

I have a friend from the east coast who says, even today, the ocean does those things to her.

Shipping Pets By Air Freight

When shipping the family dog or cat by air, follow the Animal Welfare Act rules and plan ahead for a safe trip, advises Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service.

First, check with the airlines well ahead of the trip to make a reservation for the pet. Ask about state requirements for a health examination, she suggests.

Second, make sure the container will meet federal standards.

It must permit the animal to stand up, turn around and lie down with normal posture and body movements.

Provide a container that is strong enough to withstand shipping, free of interior protrusions that could cause injury, and has adequate access to the animal.

Select a container that's constructed with a solid, leakproof bottom, and provide litter or absorbant material unless a wire or other nonsolid floor separates the animal from the bottom.

Choose a container that's ventilated adequately on at least two opposite sides so that the air flows through both the upper and lower parts of the walls with projecting rims or knobs on the outside so that adjacent cargo will not block ventilation.

The container must be fitted with handles for proper handling and be marked "Live Animal" with arrows indicating the upright position.

Dogs and cats must have food at least every 24 hours and water at least every 12 hours, Ms. Kerbel points out.

Also, dogs and cats must be at least eight weeks old and have been weaned for at least five days before shipping.

Make arrangements to pick up the pet promptly after arrival, or else the airline may have to board the pet—at the owner's expense, the specialist stresses.

The line between rabies in animals and rabies in man is a fine one which is very rarely crossed.

But it can happen, says the Texas Department of Health. Consider this:

When 26-year-old Raul Medina Pantoja left his home in Guanajuato, Mexico, in late May, he didn't know he carried the rabies virus in his body.

He died on a Fort Bend County ranch in mid-June, still not knowing.

It took a Texas Department of Health Regional Laboratory at the Houston City Health Department to discover the death cause of the Mexican national.

His companions didn't recall any animal bites the young man had suffered but were certain Pantoja had received none after reaching Texas.

His was the second death in Texas in two years attributed to rabies acquired in Mexico. Last year a San Antonio youth died of rabies transmitted by a dog bite suffered while visiting relatives in Mexico.

A great increase in animal rabies this year is causing concern among Texas Department of Health officials who believe the case numbers may reach the highest total in more than 10 years.

Dr. Charles R. Webb Jr., Chief of the Bureau of Communicable Disease Services of the Texas Department of Health, said the threat to man is emphasized by the number of rabies cases in animals. Many Texans live in rural areas where rabies is endemic in wildlife, says Dr. Webb.

Through June, the TDH Laboratories confirmed 311 cases of rabies in animals, compared to 240 through the first six months of 1977.

With half a year still remaining, confirmed rabies cases are moving closer to the 389 confirmed rabies cases last year. The 1977 total was the highest since 1966 when 436 cases occurred in Texas.

Some of the largest outbreaks of rabies this year have been in the North Central sections of Texas and in the coastal plains west and southwest of Houston.

The skunk remains the major source of rabies in Texas, says William R. Bilderback, D.V.M., who heads the Zoonosis Control Division of the Bureau of Veterinary Public Health of TDH.

Foy V. McCasland, D.V.M., Chief of the Veterinary Public Health Bureau, said Texans are oriented towards the outdoors and take pets along on picnics, week-end outings and vacation. "This greatly increases the risks to the pets and to their owners," said Dr. McCasland.

The best precaution a pet-owning family can take is to have their cats and dogs vaccinated against rabies, said Dr. McCasland. This is especially true of farm and ranch families, since their pets are more likely to come in contact with wild animals. In some communities

where rabies is a particular problem, special rabies clinics have been held.

People exposed to rabid animals may elect to take a long series of painful injections. The treatment may call for up to 23 injections.

In a recent Young County incident, 17 persons were treated with vaccine after a pet coyote puppy contracted rabies. In Uvalde County during June, nine persons exposed to rabies by a kitten, took the post exposure rabies prophylaxis.

And in the tragic case of Raul Medina Pantoja, who died of rabies, 10 close associates found it necessary to

take the painful, 23-injection treatment to prevent them from contracting rabies from the human exposure.

Crockett County Care Center News

by Joan Nicholas

Activities Program Director

Tuesday morning, Swede Lundgren really showed us all how to play dominoes; everyone was coasting along nicely until he took us by surprise and dominoed picking up an extra thirty-five points, and from then on, he had it in the bag.

Winner of forty-two was the partnership of Nita DePriest and Paul Cavin.

The group of early morning walkers is growing. We now have Eleanor Yeager, Verna Talley, "Granny" Carter, Swede Lundgren, Paul Cavin, Ruby Cecil and Nita DePriest. Although I usually accompany them one at a time, I haven't noticed that I have dropped the pounds I shipped aboard on my trip. Food was very expensive in Europe and the U.K., but evidently not expensive enough!

Music was fun on Wednesday morning, and Ruby really went to town on the bongo drums. Refugio "Cuco" Fierro joined in with the bells and judging from his smile he was enjoying himself.

Bingo was played Tuesday evening and Friday morning,

and the winner of this week's gift certificate was Eleanor Yeager with Mike winning the second prize after a play-off.

Thursday afternoon found us in the day room again; everyone looked at and discussed my picture postcards, including Salisbury and Hereford Cathedrals in England; Notre Dame in Paris; and Swiss cathedrals in Lausanne, Chur, Geneva and Zug. We also "traveled" by boat around Lake Geneva taking in the oldest castle in Switzerland—"Chateau de Chillon" at Montreaux; the vineyards on the shores near Vevy. We saw what St. Moritz is supposed to look like in the summer (even though eight inches of snow fell on June 24th when I was there!) We also examined the coast of Cornwall with its smugglers' caves, little village coves and fishing harbors near Lizard Point, the most southern point of England. Supper time was upon us before we reached Scotland. I must say that I love the spirit of happy camaraderie shown when we adjourn and residents form a train

down the long corridor—those on foot pushing those in wheelchairs—it is really heartwarming to see.

On Monday morning ten residents participated in ceramics. Saw Gertrude Daniels starting on a pair of whales. Opal Eversole was wielding a brush over a delightful frog. Eleanor Bradford and Verna Talley both picked owls. Juana Hernandez glazed the orange she started last week, and then painted a cherub in tones of pink. Nita DePriest did a fine job on some luscious looking grapes, and roommate Frances Tolson is completing a cute bathtub to be used as a soap dish. Swede Lundgren chose a dog with a wobbley head, and Mike Pena is preparing two more frogs for the tic-tac-toe game. Paul Cavin is working on another flowerpot. Eleanor Bradford's two daughters were over from Big Lake and gave a donation to the ceramics fund for which we are most grateful. Eleanor also had the sweetest little baby great-granddaughter visiting, who I immediately commandeered to show off! She has a handsome young great-grandson, too, age nine. They came with their mother.

In the next day or two we hope to start another little project, as an experiment to see how much interest is shown. We will plant some radishes since they grow pretty quickly.

We welcome two new jun-

ior volunteers, namely, Kathy Weant and Kim Buie. We know the other girls are happy to have you join them. We really needed help at bingo on Friday morning, so I was happy they were there. They put in two good days on Friday and Saturday assisting aides and nurses.

MRS. PEARL WINS MONEY

Mrs. Leroy Pearl was the instant winner of \$100 last week in Jim's Foodway's "Make Money Contest."

Check Car Before Trip

Check the condition of automobile belts and hoses before starting a trip, advises Caludia Kerbel, a consumer information specialist.

Ms. Kerbel is with the Texas Agricultural Extension Service, The Texas A&M University System.

BELTS

Look for cracks, peeling, splitting or glazing on belts for the fan, alternator and power steering, the specialist says.

With the engine off, turn the belts and visually

examine the underside. Also, check them for proper tension.

A glazed fan belt may slip causing overheating of the engine. A glazed, slipping alternator belt can result in a lack of proper battery charge which could lead to an expensive battery replacement even though the real problem is a defective belt.

Failure of the power steering belt will result in loss of power steering.

HOSES

Check for swelling or

bulging, cracks (especially near the hose ends where clamps are fastened), and extreme softness of hoses.

Make visual checks with the engine running, but stay away from moving engine parts. Turn the engine off before feeling the hoses, she emphasizes.

Also, listen for squeals or grinding noises coming from the water pump—they may signal impending failure.

While the engine is running, visually check for hose and radiator leaks. If the radiator

periodically needs coolant added, the radiator hose may be leaking or the pressure cap may be malfunctioning, the specialist points out.

Also remember, if the vehicle seems to run hotter than normal there may be some cooling system problem caused by a faulty thermostat or blockage or contamination of the cooling system by rust or sludge.

Have a serviceman correct these problems, she recommends.
