## Kitty's Korner

By  
Kitty Montgomery

The weak cool front which lowered temperatures considerably Tuesday was most welcome and did bring a promise of cooler weather to come. So, it's not always going to be a sweltering 100 degrees, even though it seems that it has always been so. Even oldtimers say this is the hottest, driest summer ever, and I believe it.

kk  
The opening of school is another promise of fall, although it doesn't open until after Labor Day this year. Good thing, too, since construction is still going on and the primary school burned.

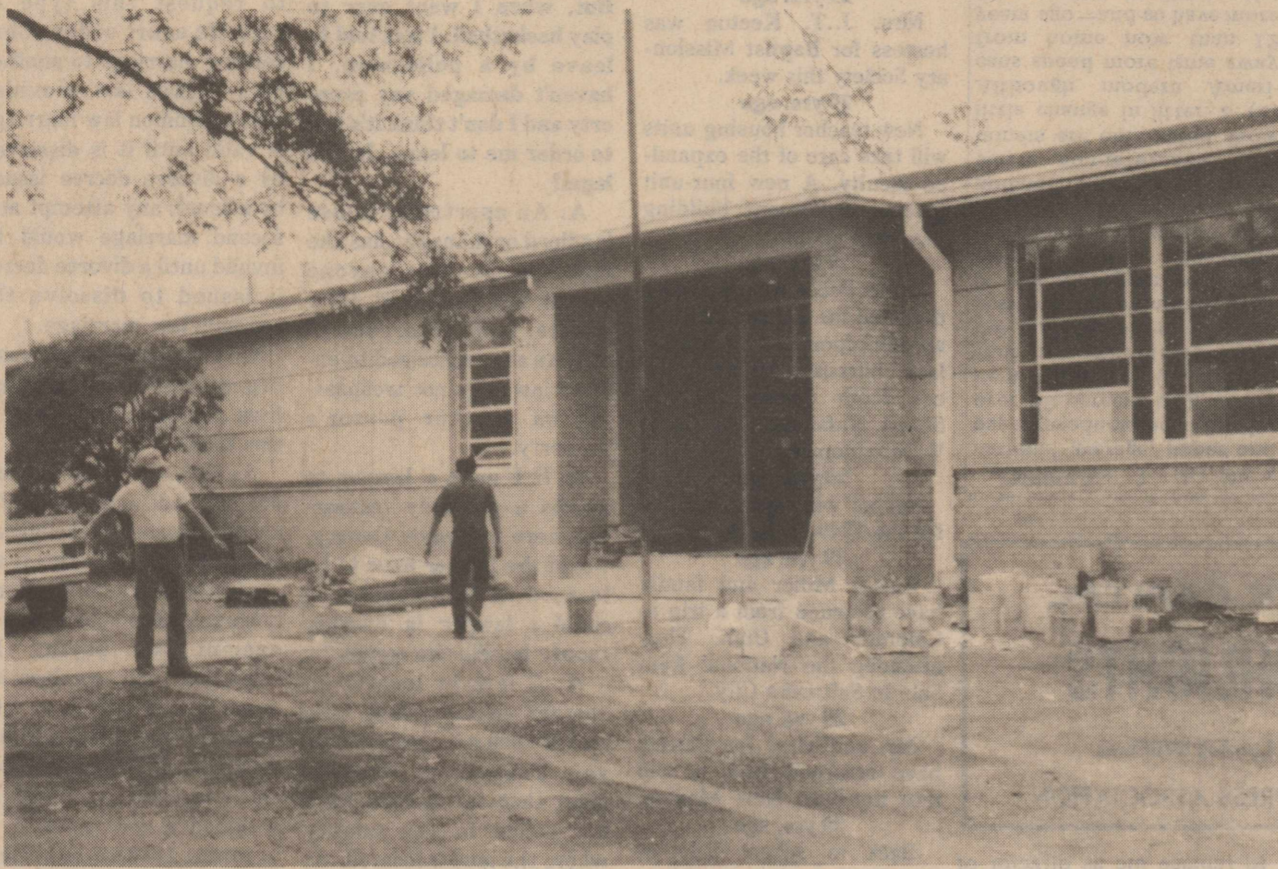

We feel sure the football field and all athletic construction will be completed in time for the first football game, and that's what football fans are most interested in.

We should be more interested in what our kids are learning, but it just doesn't seem to work out that way these days. It seems the more billions of dollars we spend on education, the more poorly educated our kids are and this is an enigma to me. I think what it really means is that better buildings, higher paid teachers, and more visual aids do not necessarily teach the children to read and write. We hear a lot about "back to the basics," I believe this is reading, writing and arithmetic, and I believe this is what we must do if we are to turn out students who will be effective leaders in the future.

At the rate we have been going the past few years, I can readily imagine a President of the United States who is unable to write his name or read speeches in the not too distant future. Of course, that might not be all that bad. We at least wouldn't be a captive audience for the networks. Still, it is shameful that in this nation where untold billions has been spent to educate the masses, we have high school graduates who cannot read nor write.

kk  
As of September 1, our newspaper will go up to 25c per single copy. I have noticed that other weeklies have been charging that for some time. At a press meeting in Kerrville recently I asked why the 10c jump. The best answer I got was from Terry Neill, publisher of the Stanton Reporter. He said "If a cup of coffee is worth 30c, my newspaper is surely worth a quarter."

This single copy rate raise will not affect subscriptions.

NEW FRONT AT OZONA INTERMEDIATE-Workmen have finished everything outside the building but the finishing touches of paint. Originally planned to house the junior

high school, third through sixth grade students will attend school at the same old stand until the new building on the other side of town is completed.

For Fall School Term—

## Faculty Complete

The Ozona school faculty reported for duty Monday morning with all positions filled. The teachers will have a full school week of in-service training before registration for school begins next week.

Due to incomplete construction and the loss of the primary classrooms to fire last week, most teachers will not have access to their classrooms until classes get underway Tuesday, Sept. 5.

Eight resignations over the summer have been filled with new personnel. Mr. and Mrs. Jim Leech (Jim and Donna) resigned from the school system and have moved from Ozona. Leech's place as high school counselor has been filled by Jim Williams, who has coached and taught several years in the Ozona system. Two second grade teachers resigned, Peggy Holden and Judy Brown. Deena Porter resigned as fourth grade teacher. High school English and Spanish teacher Sherman Crandall resigned as did Vo. Ag. instructor Mark Tillman. Edward Silvas who taught high school and junior high Spanish resigned and Pam Riley resigned as first grade teacher.

New members of the faculty include Daniel Moore who will teach HS Civics and History. He has his B.A. from North Texas State.

Pete Maldonado, Ozona native with a B.S. from Sul Ross, will teach automotive, welding and electrical science. Replacing Tillman as Vo. Ag. teacher is Karl Vancil with a BS from Texas Tech. His wife Linda Vancil will teach high school Spanish and English. She has a B.A. from Texas Tech.

Another newcomer is June Williamson, who will teach special education in seventh and eighth grades. She has her degree from Tarleton State. Ora Gean Egger, also with a BS from Tarleton, will teach sixth grade.

Jill Seahorn and Leticia Guerra, both of Ozona, have been hired by the school board. Miss Seahorn will teach sixth grade, she received her degree from Southwest Texas State. Miss Guerra, with a degree from Angelo State, will teach third grade and special education.

New first grade teachers will be Connie Fowler, with a BS from ASU, and Kathy Palmer, who has her BS from Southwest Texas State University. Billie Ann Stewart, who will teach kindergarten, has a BS from ASU.

Peggy McWilliams, R.N., will be school nurse. She replaces Mary Alice Dunlap, who retired last spring after many years service.

Replacing Jim Williams as junior varsity coach and head basketball coach will be Tommy Wilson, assisted by David Porter.

Returning to the high school faculty will be Jim Payne, principal; Barbara Baugh, H.E.; Robbie Biggestaff, girls P.E.; Karen Crumley, biology; Thomas DeHoyos, English; Eugene Hood, math; H.O. Hoover, math; Erlene Jones, librarian; Wayne Palmer, science; David Porter, speech; Frank Reavis, science and math; Lane Scott, band; Chesta Stuart, English; Walter Spiller, history; Louise Taliaferro, commercial; Bob Wallace, shop.

Returning to Ozona Junior High School at the head of the faculty will be Charles Womack, principal; Debbie Arrott, English; Jerry Ayers, P.E.; Lynda Falkner, reading and language arts; Bettye Hoover, English; Mary Nations, science; Dan Pullen, history.

Ted Cotton will head up the faculty at Ozona Intermediate. Tara Brubaker will teach special education. The four sixth grades will be taught by Susan Childress, Joyce Maness and newcomers Seahorn and Egger.

Returning to fifth grade are Elaine Dixon, Debbie Glasscock, Vicki Odom and Modene Whitaker. Fourth grade teachers returning to their classrooms include, Jewell Baggett, Maridel Dudley, Margaret Tabb and Darla Jones.

Jimmie Jacoby, Shirley Kirby, Kathy Reavis and Jane Womack will return as third grade teachers with new teacher Leticia Guerra. Sara Hignight will teach music and David McWilliams will be playground director.

The Ozona Primary school faculty, which will work out of the First Baptist and United Methodist churches, for several weeks due to the fire at Ozona Primary. Jack Probst will return as principal. Kindergarten teachers will be Elizabeth Clark, Evelyn Hall, Katharine Russell and Billie Ann Stuart. First grade teachers include Connie Fowler, Kathy Palmer, Patsy Sinclair, and Barbara Wallace. These classes will be held at First Baptist.

Second grade teachers are Theima Janes, Margaret Spiller, Kathy Skalak, and Glenda Winkley. Linda Wylie will teach music with Darolyn Wilson teaching special ed. and reading.

## School Classes To Start September 5

Teachers reported for duty as scheduled Monday for a week of in-service training before the beginning of classes Tuesday, Sept. 5. Students will register as scheduled the remainder of this week.

Desks will be moved into the annexes at First Baptist and United Methodist churches tomorrow and Friday, where kindergarten through second grade will attend school. Supt. Foy Moody said Monday the school board had ordered four portable classrooms to be placed on the site of the burned primary school building, and along with the buildings which were not damaged by fire, they will have enough room to have kindergarten through second grade all together. He estimated completion of this work would take 4 to 6 weeks.

Work inside the high school had been finished and furniture was moved in Monday. Outside work is still in progress, but this should not hinder classes and registration.

The new school building near I-10 and the teacher-

ages in the west part of town is still under construction, but is expected to be completed within 4 to 6 weeks.

High school seniors will start pre-school registration this afternoon at the high school library. Other high school students will register tomorrow and Friday.

Intermediate school students will register at the Civic Center. Work on the inside of the school is still going on, but furniture and desks are scheduled to be placed in the school this weekend and it will be ready for occupancy next Tuesday when classes start.

Kindergarten through second grade will register Aug. 31, in the fellowship hall of the First Baptist Church. Junior High School students will register at the junior high and will attend school there until all construction is finished.

A state fire inspector spent several days here last week and declared the fire, which destroyed the primary school building, was of "undetermined origin."

A more complete school registration schedule appeared in last week's paper, the August 23, edition.

## Murder Suspect Sought

Crockett County Sheriff's Department personnel had a busy week with duties ranging from issuing traffic citations to solving a murder case.

An arrest had not been made late Monday in the stabbing death of Nelson Daniels, whose body was found 10 miles south of Big Lake early Wednesday morning, Aug. 23, but a warrant had been issued and arrest of a suspect was expected shortly.

Daniel was found stabbed to death near his car on Texas Highway 137 in Crockett County. Foul play was

indicated and an autopsy showed cause of death to be a stab wound which punctured the large vein in the center of the body. Investigation provided local officers with a suspect.

In other actions last week, traffic citations were issued. A family disturbance was investigated in the early hours August 21, and a family disturbance on the highway between Ozona and Barnhart the next day resulted in turning the case over to Barnhart.

A report of gunshots around the south pool sent

officers to the site late Tuesday night, but investigation failed to turn up any evidence. The same night Olene Downs, about 17, was taken to Crockett County Hospital by ambulance after falling from a moving pickup in front of the Shell station on Hwy. 290. Later in the night officers were required to go to the scene of a loud party. Also, a burglary of a residence was reported at 910 Ave. G by Lester Gunter. Officers are still investigating.

Vandalism of an auto at 521 Santa Rosa was investigated late Wednesday night. At 7:30 Thursday night Javier Galan was remanded to the custody of the Sheriff for transportation to Texas Department of Corrections; also holding two prisoners for Sonora.

Over the weekend an arrest for aggravated assault was made and is still under investigation, also a DWI arrest was made. The following morning at 4:30 officers investigated a disturbance after a man had been taken to the hospital with injuries inflicted by another

person. Another family disturbance that night wound up the weekend.

Charles David Ward, 22, is being held in Crockett County Jail on charges of car theft, in connection with a pickup stolen from the Claude Russell residence Aug. 22. Ward was apprehended following a foot chase with officers.

Officers have taken credit for breaking up a fraud ring, known as Networks Productions. The personnel was fraudulently selling advertising to merchants.

## Guilty Verdict Returned

A local man was found guilty of aggravated assault in District Court here Thursday and received seven years in the penitentiary.

Javier Galan was found guilty as charged after the jury deliberated briefly, in connection with the assault by automobile here May 9, 1977 on Larry Morales, a San Antonio insurance adjuster.

Morales suffered numerous injuries, plus broken hips, when Galan rammed his auto with his own.

The jury elected to have the judge set the punishment. Judge Troy Williams set the sentence at 7 years in the Texas Department of Corrections. Galan was not eligible for parole.

## Work Begins On 7 Miles Of I-10

Allen Keller Company of Fredericksburg has begun work on a 7.0 mile section of IH-10 in Crockett County announced D.R. Watson, District Engineer for the State Department of Highways and Public Transportation.

The contract is for grading and structures from 0.15 mile East of Live Oak Creek to U.S. 290 at Bachler Hill.

"This contract will begin work on the last section of Interstate Highway in District 7. Later it will require that we let a contract for base and surfacing before the highway is open to the trav-

eling public," Watson continued.

The contractor will coordinate his work on this project with the adjacent project and does not anticipate any large change in personnel but he did state they were an equal opportunity employer.

William F. "Bill" Dixon, Supervising Resident Engineer in Ozona, will be in charge of the project for the DHT.

This project is all on a new location and the only traffic through the construction area will be on Live Oak Road.

## Rain Falls In Ozona

Brief showers early Sunday morning and before daylight Tuesday morning gave some relief from the heat in Ozona and left a much needed .40 inches of rain, according to the official gauge at the Water District office. Amounts around town varied.

After high temperatures in the high 90's Tuesday was a pleasant 80 degrees at 2:30 p.m. which should have been the high for the day.

A heavy rain storm with gusty winds hit Ozona at 3:45 Tuesday afternoon. A quarter of an inch had fallen by 4 p.m. and rain was still falling.

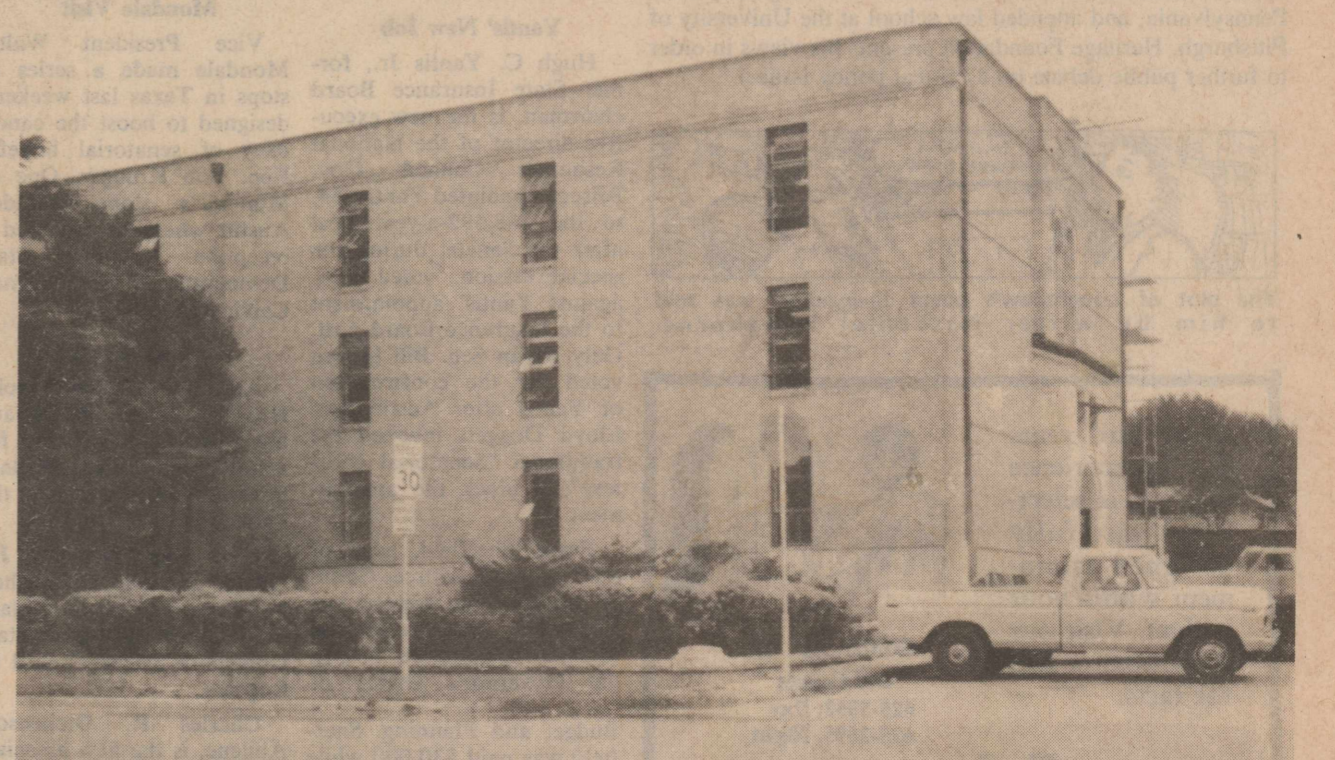

## Brackettville Services For Nelson Daniel

Funeral services for Nelson Daniel, 71, were held Tuesday in Brackettville with burial in Seminole Cemetery under the direction of Shepard Funeral Home of Ozona.

Mr. Daniel was found stabbed to death early Wednesday on Hwy. 137 in Crockett County.

FRESHMEN GIRLS GET INITIATED-Schools may burn down and construction hold up the use of school buildings, but freshmen initiation goes on like clockwork. The main reason for this is "last year's freshmen" who take great pleasure and wait a whole year to put others through the misery they went through this time last year. Many more sophomore students were in evidence Monday afternoon than other upperclassmen. These freshmen are only able to bear it, because their time will come next year.

NEW LOOK FOR OZONA HIGH SCHOOL-Most of the windows have been bricked up at the high school building, but it's of little consequence since air conditioning has been installed throughout the school. Tuesday afternoon work-

men were clearing away the debris and furniture had been moved into the building in preparation of the opening of classes Tuesday.

TEXAS PRESS MEMBER 1978 ASSOCIATION

ERA EXTENSION: ILL-ADVISED TAMPERING

By Sen. Orrin G. Hatch

The proposal to extend the time limit for consideration of the Equal Rights Amendment is an ill-advised attempt to tamper with a fundamental constitutional procedure.

None of us need be reminded of the enormous amount of emotion generated by the ERA issue.

But we must take great care not to allow those emotions to obscure the far-reaching effects of the extension proposal; because the methods by which we consider changes in the Constitution are ultimately of far greater significance than the specific changes themselves.

Central to the amendatory process is the requirement that the people reach an overwhelming consensus on proposed amendments to the Constitution. Article V requires that two-thirds of both Houses of Congress propose the amendment, and that three-quarters of the state legislatures or conventions must ratify it. No distinction is drawn between procedure and substance — both are interrelated steps in a single effort to demonstrate the necessity of the proposed change.

When the 92nd Congress submitted the ERA to the states, it did so in the form of a resolution which conditioned ratification upon the consent of three-quarters of the states "within seven years." The setting of a reasonable time limit in which to demonstrate the consensus required for ratification can hardly be considered a minor procedural detail, as advocates of extension have argued. The choice of seven years was not an arbitrary one, but has been the length of time deemed reasonable for consideration of every proposed amendment since 1917.

Extension advocates now propose that we retroactively change the rules. They maintain that such a change can be affected by a simple majority vote rather than the two-thirds majority required by the Constitution in the proposing of amendments, disregarding the fact that the time limit is an essential component of the amendatory process.

The crowning assertion is the insistence that those states which have approved the amendment under the terms originally proposed by Congress must be content to have the life of their approvals artificially preserved, while only those states which have failed to ratify remain eligible to consider the amendment during the extension. The astonishing unfairness of extending consideration only to states willing to vote "yes" is a particularly ironic proposal, coming as it does from those who represent themselves to be such strong supporters of equal rights.

What emerges from an examination of the extension proposal is the fact that a "contemporaneous" consensus as to the desirability and necessity of the ERA simply doesn't exist.

Like Cinderella's sisters, forcing their feet into her delicate glass slipper, the proponents of this unprecedented proposal would force the amendment into our fundamental law, regardless of the structural damage that would result.

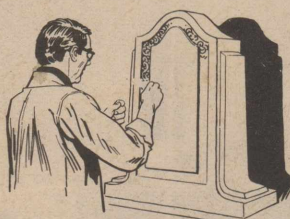

To sustain such damage for the sake of expediency would indeed be tragic.

(Guest columnist Orrin G. Hatch, a Utah Republican, is a member of the Senate Judiciary Committee, and serves on the Subcommittee on the Constitution. He is originally from Pennsylvania, and attended law school at the University of Pittsburgh. Heritage Foundation presents his views in order to further public debate on a critical policy issue.)

The plot of Longfellow's poem 'Evangeline', was told to him by writer Nathaniel Hawthorne.

Quick Quiz!

Do you know a lot about litter? A cleaner America could depend on how well people do on this little quiz.

1. Of the 150 separate items considered part of America's litter problem, the ones that account for over 60 percent of average litter are (a) beverage cans and bottles (b) paper and paper products (c) hub caps and old shoes?

ANSWERS: 1. (b) On a national average, paper and paper products account for over 60 percent of litter by volume. 2. (a) Expenditures in litter cleanup are estimated to be \$1.5 billion annually. Although modern Americans spend more time away from home now than 12 years ago—and so have more opportunity to litter—the collective national budget for litter cleanup has shown little change. 3. During the last 12 years, the collective national budget for litter cleanup has (a) increased (b) decreased (c) shown little change? \* \* \*

2. A good way to control litter is (a) a program of public involvement and updated litter laws (b) requiring all beverages to come in refillable bottles (c) eliminate all packages?

STATE CAPITAL HIGHLIGHTS By Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN — Sen. Walter Mengden, Houston Republican, announced he will strongly oppose any attempt in the Texas Legislature to ratify the proposed amendment to the U.S. Constitution to give Washington, D.C., two U.S. senators.

"I am shocked and appalled that two-thirds of the members of the U.S. Congress would vote for something so incredibly stupid," he said.

"To give the city of Washington, D.C., two voting U.S. senators—the exact same representation the entire state of Texas has in the Senate—is utter insanity," the out-spoken senator said. Washington, D.C., is not a state, it is a city. If it needs representation in the U.S. Senate, then the people should be allowed to vote for the U.S. senators from Virginia, but not have two all their own," Mengden said.

Clayton Eyes Tenure House Speaker Bill Clayton's staff is reportedly working on a proposal to abolish tenure for all new faculty members at public colleges and universities in the state.

The tenure system would be replaced with 10-year renewable contracts, subject to review by administrators and faculty members.

A Clayton aide said this does not mean the speaker is committed to pushing the legislation during the next legislative session which begins in January. "The speaker's staff works on proposals of interest to him and House members often pick them up and sponsor them."

Former Gov. Allan Shivers, chairman of the UT System Board of Regents, said he doesn't expect UT to take a position until the proposal is discussed at length.

Yantis' New Job Vice President Walter Mondale made a series of stops in Texas last weekend designed to boost the candidacy of senatorial hopeful Rep. Bob Krueger. One of Mondale's stops included Austin where he attended a reception honoring State Democratic Party Chairman Calvin Guest.

Short Snorts Attorney General John Hill has called on Department of Energy officials for a full public airing of plans to store nuclear wastes in the Panhandle.

Mrs. Harry Hornby Jr., Uvalde newspaper publisher, has been named to replace her late husband on the State University System Board of Regents.

Charles R. Dickenson, Abilene, is the new associate justice on the Eastland Court of Civil Appeals.

The Texas labor force passed the six-million mark for the first time during June.

to replace me as director of the Natural Resources Council. Yantis' appointment is not subject to Senate confirmation since 1977 legislation creating the Council states the executive director will serve at the pleasure of the governor. Most observers agree Yantis does not expect to continue in the job after Briscoe leaves office in January.

AG Opinions A district judge who is eligible for retirement may be assigned as a special judge even though he may have been defeated for reelection, Attorney General John Hill said.

In other opinions, Hill concluded: —A complaint to a city concerning a subcontractor's administration of a CETA-funded project is subject to disclosure under the Open Records Act.

—The Texas Pawnshop Act is not applicable to state banks which under normal banking practices take possession of tangible personal property as collateral for loans.

—Taxicab financial and usage reports submitted to a city are subject to disclosure under the Open Records Act.

The News Reel A re-run of "The Ozona Story" as gleaned from the files of "The Ozona Stockman"

Thursday, Sept. 1, 1949 Jack Holt bought the new Silver Spur Ranch Motel here. He will take over operation of the motel today.

29 yrs. ago Olen Ray Sterling, 21, of Odessa, was killed in a car crash near here. 2 companions were injured also. The accident was 28 miles south of Ozona, Sunday.

29 yrs. ago Mrs. J. T. Keeton was hostess for Baptist Missionary Society this week.

29 yrs. ago New teacher housing units will take care of the expanded faculty. A new four-unit teacher apartment building has been added.

29 yrs. ago Trans Pecos All-Star Team defeated the Concho Basin in an exhibition in San Angelo last Thursday. All star players from Ozona include Stuart, Hufstедler, Harrison, V. Montgomery.

29 yrs. ago School will open Tuesday for the 1949-50 term.

29 yrs. ago Buster Miller and family have returned from a trip to Colorado and Utah. They attended the National Ram Sale in Salt Lake City.

29 yrs. ago Mr. and Mrs. Joe Patrick have returned from a trip into northern New Mexico.

29 yrs. ago Back to School Sale at Ratliff Store-sweat shirts, \$1.29; boys' khaki pants and shirts, \$1.00; one group women and girls dresses \$1.98; sheets, \$1.98 and \$1.79.

29 yrs. ago Homecoming will be observed by the Methodist Church Sunday, Horace King pastor, announced.

29 yrs. ago Mrs. Fae Bland Tandy has announced that she will open her piano and voice studios September 8.

29 yrs. ago A family reunion was held in the Tom Harris home here. Five of Mrs. Harris' six sisters with their families, attended.

29 yrs. ago Mills Tandy won a number of awards while attending summer camp at Camp Stewart near Kerrville this summer.

29 yrs. ago A bathroom shower and breakfast Wed. and a coke party were given in honor of Miss Joyce West, who will become the bride of Bit Terry Saturday evening. Mrs. George Montgomery, honored Miss West with a breakfast and bathroom shower. Mrs. Charles Davidson, Jr., and Mrs. H.P. McClanahan were hostesses for the coke party.

29 yrs. ago Education without morality breeds only clever criminals.

What the world needs is a cure for loneliness.

The gossip I hear is hard to excuse, since I never gossip! I only spread news!

Killing time isn't murder; it's suicide.

When you invite trouble, it usually accepts.

A man is in a real quandary when his doctor advises him to take up golf, and his golf instructor advises him to quit.

You and the LAW PRESENTED BY THE STATE BAR OF TEXAS

Q: I'm 16 years old, and I enjoyed using the basketball backboard at our apartment house. My family was forced to move because the management wouldn't renew our contract, so we moved into a townhouse across the street. But, when I went over to play basketball, I was told to leave by a policeman. I haven't damaged any property and I don't think it's fair to order me to leave. Is this legal?

A: An apartment house landlord or manager has the right to exclude anyone except residents and their guests. Law enforcement officers are authorized to enforce laws against trespassing on another person's property.

Q: If I need a lawyer to handle a property transaction here in Travis County, would the lawyer have to be located in this county or could a lawyer in another county handle the matter?

A: A lawyer located in another county could take care of such a transaction for you. There is no requirement that the lawyer have his office in the county where the land is located. At times it may be to your advantage for your lawyer to be located in the same county as the land. There are many instances where it makes no difference, however.

Q: I have one child from a common law marriage. Can I draw child support? What is my legal status concerning a marriage to another man now?

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

Good nature is the oil that makes the days work go without squeaking. He who hesitates cannot leave the freeway.

He who sacrifices his conscience to ambition burns a picture to obtain the ashes.

ETIQUETTE: The noise you didn't make while eating soup.

It might be alright to try to build a dream world, but we are in for serious trouble if we try to live in it.

Dress designers live off of the fad of the land.

A Lift For The Week Remember: Some travelers most lasting memory of your town may be you.

### Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Though vacation time and summer relaxation is almost over, another two months of more or less dry, hot weather may be in store for us, unless the usual pattern changes.

Repeating a reminder, watering will likely be your most critical task until it rains.

Now is the time to take stock of how your garden grew this summer. If you were not satisfied, first take look at your soil. Probably the greatest number of failures come from poor soil preparation. Hard baked soil indicates a lack of humus and fertility. The abuse of our soil is avoidable. Too often we add no humus and the soil becomes lifeless, hard to work, poorly drained and generally non productive. In such instances, it might be wise to avoid a fall crop, and concentrate on a rebuilding program.

Where garden space is limited, and every inch must count, the small-scale miniature daffodils can bring that much wanted touch of early color. And they don't present the problems of disheveled foliage remaining too prominently, that you get with the daffodils of ordinary size. The foliage of most of the miniatures is scant or slender and quickly disappears. Most of those on the recommended list will grow in full or partial shade. They need moisture while the foliage is developing after most of them profit from a summer "baking" in ground that is relatively dry. Good drainage is important for all of them. Raised beds, or pockets in rock gardens are ideal. Soil should be on the light side and not rich. Plant these small bulbs two to three inches deep. Usually you will find such bulbs for sale in October but if ordering, do so as soon as catalogues offer them. They need to be planted as soon as available. Some of the varieties that you will enjoy are dwarf "paper white" narcissus, "April Tears," "Tete-a-tete," and narcissus jonquilla simplex and others listed.

## Miss Henson And Mr. Williams Are Married

Miss Lona Kaye Henson became the bride of Jack Craig Williams in a ceremony in the Ozona United Methodist Church Chapel at 2 o'clock Friday afternoon. Rev. Larry Bailey, pastor, officiated.

Parents of the couple are Mr. and Mrs. LeRoy Henson of Jal, N.M. and Mr. and Mrs. Jack Williams.

Maid of Honor was Gaye Henson, sister of the bride. The bridegroom's father served as best man.

The bride is a 1976 graduate of Jal High School and is presently with Anderson Petroleum Co. in Ozona.

The bridegroom is a 1971 graduate of Ozona High School. He attended ASU and Southwest Texas State and is presently employed with Jay Miller Construction Co.

## Mrs. Adams Hostess To Bridge Club

Mrs. Clay Adams was hostess for bridge at the Country Club Thursday.

Winning high was Mrs. Hillery Phillips, second high went to Mrs. Jerry Hayes. Low went to Mrs. Dave Matney and bingo to Mrs. Bob Bailey.

Others playing were Mrs. Charlie Black, Mrs. George Bunker, Mrs. Hugh Childress, Mrs. Velma Marley, Mrs. Bruce Mayfield, Mrs. Beecher Montgomery, Mrs. Kirby Moore, Mrs. C.O. Walker, Mrs. Gene Williams, Mrs. Dick Kirby and Mrs. Charles Williams.

### DUPLICATE BRIDGE

Winners in Duplicate Bridge Club play Saturday at the Country Club were Frank Tillman and Mrs. Clay Adams. Sunday winners were Mrs. Jake Short and Mrs. Hillery Phillips.

A reception followed the wedding at the home of the bridegroom's parents.

Following a wedding trip to Acapulco, Mexico, the couple will be at home at the Country Club Townhouses.

## MUSEUM MEMORIALS

Mr. and Mrs. Dempster Jones and family in memory of Mrs. Jean Henderson Scheuber, Mrs. Ben Robertson, Mrs. Jess Sweeten, Mr. W.E. Ffiend, Jr.

Mrs. Roy Henderson in memory of Mrs. Jess Sweeten, Mr. Emory White, brother of Ted M. White; Mr. Sam Wills, Mr. Harry Hornby, Uvalde, Texas.

Mr. John E. Vickers, Lubbock, Texas in memory of Mrs. Jean Henderson Scheuber.

Mr. and Mrs. Ted M. White in memory of Mrs. Jean Henderson Scheuber, Mr. Albert Bailey, Mrs. Scott Peters, Mr. Sam Wills, Mrs. George Montgomery, Mr. Leonard Bryant, Mr. W.E. Friend, Jr., Mrs. Gertrude Perry.

## Skalak Gets MED Degree

Joe W. Skalak of Ozona was among 191 students to receive degrees during summer commencement at Angelo State University Friday evening.

Featured speaker for the evening's program, which was held in the Physical Education Complex, was Alan W. Ostar, the executive director of the American Association of State Colleges and Universities.

Joe graduated with an MEd. degree, majoring in School Administration.

### GIRL TO TAMBUNGAS

Mr. and Mrs. Nato Tambunga, Jr. are the parents of a daughter born August 19, in Community Hospital in San Angelo. The little girl, who has been named Lori Ann, weighed 8 pounds and 10 ounces.

Grandparents are Mr. and Mrs. Nato Tambunga, Sr.

## EMT Classes Scheduled

An Emergency Medical Technician class will start in Ozona, September 11. This class is sponsored by Crockett County Hospital and will be taught by local Emergency Medical Technicians Brian Henry and Dub O'Bryant with lectures by Dr. Don Carlisle and Dr. Robert Owensby.

The class will consist of 80 hours of in-classroom training and lectures and 40 hours in hospital training in the Shannon Hospital in San Angelo. The class will meet on Monday and Tuesday nights from 7 to 10 p.m. Final testing will be November 27-28 by the Texas

## Baptist To Hold Aging Program

The Triple L Club of the First Baptist Church is presenting a special program Thursday evening at 7:00 o'clock. Mrs. Odene Crawford, Project Director for the Area Agency on Aging, will be speaking on "What We Can Do For Our Older Citizens in Crockett County." There are many resources available to Crockett County citizens, and a brochure listing these resources, their addresses, and the types of services each provides, will be given to each person who attends.

This program is designed to be helpful to our entire community, and a cordial invitation is extended to all.

## Hood Receives Degree

Eugene Fields Hood of Ozona was among 200 graduates receiving degrees from Sul Ross State University at the close of the second summer session.

Hood received his MED degree in school administration.

Degrees were conferred at the President's Reception for Summer Graduates, Aug. 18.

Johnny Meybein of Richmond, Va., and Charles Meybein of Pittsburg, Pa., spent last week here visiting relatives. The two are the sons of Mr. and Mrs. Robert Meybein. Mrs. Meybein is the former Dixie Davidson of Ozona.

Department of Health Resources for state certification. For more information or a class application call 392-3557 or 392-3578.

## Football Tickets On Sale

Reserved seat season tickets for the Ozona High School Lions home football games will go on sale at the Superintendent's office September 5.

Tickets are \$10 per season ticket for the five home games and a reserved seat for the season. Admission at the gate will be general at \$2 for all.

Students will have an opportunity to purchase advanced student tickets at school for \$1.

## Catholic Classes Set

Fr. Larry Droll, pastor of Our Lady of Perpetual Help Catholic Church, will teach an Inquiry Class on Catholicism, beginning September 5. All interested adults are invited to attend. The classes will be taught in English and will be held in the Parish Hall every Tuesday evening at 8:15 through Nov. 28.

Many questions on Catholic beliefs and works will be answered during the sessions. The teachings, based on the book, Christ Among Us, will include a brief overview of the Bible, study of the person and work of Jesus Christ, a description of the sacraments of the add tuna. Pour into small Church, and discussion of the organization of the Catholic Church.

## Debra Says

by Debra Price

Women's fall fashions focus on soft, touchable and layers. Big shapes are evident with shoulder pads for a squared shoulder look of jackets, dresses, sweaters and coats. Popular fabrics include soft crepe, challis, tweed, damask, Crepe de Chine, velour, corduroy and flannel.

Layering the new big look with last year's suit or dress provides the comfort factor needed for warmth and still retains versatility of the wardrobe. Skirts are more narrow, wrapped or with interesting waist detailing such as a higher front waist cummerbund. Lengths range from below the knee to mid-calf. This year's length is regulated by the proportion created with the top.

Watch for damasks or quilted silk vests worn with the big sleeve blouse. Pants are shorter and more narrow. They feature full trouser styling at the top, tapering to the ankle. The Spencer jacket, the newest look worn with skirts, pants and vests, is short and fitted at the waist with slight shoulder pads for the squared touch.

### Tuna Casserole

1 tablespoon chopped onion  
1/4 cup chopped celery  
2 tablespoon margarine  
2 tablespoons chopped cashews  
1 can mushroom or celery soup  
1/4 cup milk  
7-oz. can tuna, drained  
corn flakes or potato chips (optional)  
Saute onion and celery in of the person and work of margarine until clear. Blend Jesus Christ, a description of the add tuna. Pour into small casseroles. Sprinkle cashews

on top; crumble corn flakes over cashews. Yield: 2 servings.

### Sour Cream Pound Cake

2 sticks oleo or 1 stick butter and 1 stick oleo  
3 cups sugar  
6 eggs  
1 teaspoon vanilla or lemon extract or 1/2 teaspoon almond extract  
1 cup sour cream  
1/4 teaspoon soda  
3 cups sifted flour  
Cream oleo and sugar; add eggs, 1 at a time, beating well after each addition. Add sour cream. Add mixture of soda and flour gradually, beating with mixer at low speed. Add vanilla; pour into cake pan. Bake at 325 degrees for 1 hour and 30 minutes; remove from oven. Leave in pan for 10 minutes. Remove from pan and cool.

## Learn to Prepare Income Taxes

- Accurate with figures?
- Like to meet the public?
- Want to earn extra money?

Enroll in the H & R Block Income Tax Course beginning soon in your area and learn to prepare income taxes for yourself, your friends and as a source of income.

Job interviews available for best students. Send for free information and class schedules today.

Classes begin Sept. 14 at 1612 W. Beauregard San Angelo, Texas

## Work Force

You can make good money at things like riveting or welding, but it isn't always a fun job. There's a tension to it that takes its toll of nerves and muscles.

Lots of jobs aren't fun, aren't even fulfilling. They're just necessary, both for the doers and for the rest of us, who profit by their services.

So what comes after work? Staying home and watching TV, or perhaps a little bit of nothing. It shouldn't be that way, not all that way, certainly.

People do have three facets—mental, physical and spiritual. It's the spiritual part that is the most apt to get shortchanged today, more's the pity. Because that's where the miracles begin.

Start finding that out by going to the church of your choice.

ARMY CAPT. James S. Kay, assistant professor of military science at Ouachita Baptist University, is awarded the Army Commendation Medal [First Oak Leaf Cluster] by Lt. Col. Kenneth Hestand, professor of military science at OBU during an Aug. 11 ceremony. Capt. Kay recently finished a three year ROTC teaching assignment at Ouachita and is

being transferred to Germany. The award was given in recognition of Capt. Kay's development of a recruiting/retention program which "met or exceeded the enrollment goals established by higher headquarters." Looking on is Capt. Kay's wife, Charlotte, and his three children. Mrs. Kay is the former Charlotte Johnlign of Ozona.

### Crockett County Care Center News

by Joan Nicholas  
Activities Program Director

Everyone looks forward to dominoes and forty-two on Tuesday mornings, and as this goes to press, Mildred Fields will be in charge of this week's session while I spend the day at ASU.

Last Wednesday morning, took Frances Tolson out early for her walk and she reached her goal of walking to the seat outside the hospital entrance for the first time. When Eleanor Yeager heard of this, a determined look came over her smiling face and she said "If Frances can do it, I can, too," and sure

enough, she did. Of course, we always sit awhile and chat before going into the home stretch.

It is becoming increasingly popular to sit out on the front porch for about thirty minutes before lunch when I have a group of ladies exposing arthritic knees to the warmth of the sun. We joke about it a lot and voice thanks for the convenient cover the shrubs give us from curious passers-by!

Judy Reager came and gave us a delightful program on Wednesday. She has a lovely voice and accompanied herself on the piano. She sang a selection of religious songs, then, on the lighter side, "Somewhere over the Rainbow," after which we took the hymn books down from the shelf and sang some favorites. Judy's three daughters came, too. We were so happy to have you, and please come again soon.

Incidentally, I would like to have some outside entertainment coming in at least once a month, so if any of you out there could bring us a program, don't be shy, please give me a call. Now that clubs are reactivating after the summer, and youth groups, we would like to have you come. Perhaps the high school speech and drama classes, and band students could have something for us soon? We need all of you so much to brighten our days.

Wednesday Bible study welcomed a new member on Wednesday-Johnnie Hokit.

Thursday afternoon always presents me with a challenge to come up with something that will be of interest to our group. Last week I took the September issue of "Texas Highways," and we worked a Texas Quiz and I believe each one of us learned something we did not know before. Most of us thought oil was the answer to the question "What is the oldest and most continuously produced mineral in Texas?" but we discovered it was salt. Apparently Indians extracted salt from lakes and springs long before they were interrupted by the white man. We also learned that oil was first sold in Texas (at Brownwood) in 1878 as a lubricant for 50 cents a gallon. The same oil was sold as a medicine for 25 cents for a four ounce bottle. The article didn't say whether this business man (Martin Meisinger) became a millionaire. We also learned that of Texas' 176 million acres, 80% of this constitutes farm or ranch land.

We would like to thank Doris Kilgore for the large bag of peaches; the two gentlemen who brought Gideon Bibles; Mrs. Gene Perry for donating a walker for use at the Care Center, and I

### Public Notice

THE COMMISSIONERS COURT OF CROCKETT COUNTY will hold a public hearing on the fiscal year 1979 budget at 2:00 P.M. on September 11, 1978. Copies of the proposed budget may be reviewed in advance of the hearing at the County Judges office or the County Auditors office in the County Courthouse. A General summary of the proposed budget follows:

Estimated cash balances 1-1-79	\$133,387.00
Estimated Revenue	
General operating Funds	1,453,205.00
Farm to Market Road Fund	357,110.00

### Sales Tax Rep. To Be Here Tues.

State Comptroller Bob Bullock will have a representative from his San Angelo office in Ozona on Tuesday, September 5, to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Esther Esparza will meet with local taxpayers at the County Library in the Crockett County Courthouse from 1:00 p.m. to 2:30 p.m.

"If Ozona area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing tax forms, Ms. Esparza will be there to assist them," Bullock said.

# Hot Temperatures Can Cause Stress Death In Livestock

Hot summer temperatures can put cattle in stress and cause death losses if they are not managed properly, says a beef cattle specialist with the Texas Agricultural Extension Service.

With proper management, cattlemen should not lose any cattle or suffer production losses during hot weather, believes Dr. Larry L. Boleman.

"When outside temperatures range from 90-100 degrees F., cattle should be left alone as much as possible," contends Boleman. "Avoid

movement, crowding and handling of cattle because exercise and excitement increase body temperature. When the animal's physiological mechanisms are already trying to reduce body temperature during hot weather, any extra physical trauma may result in permanent damage or death to the animal."

Also, protect cattle from flies by using sprays, dust-bags, oilers or other approved control measures.

In addition, the specialist recommends delaying

surgery such as dehorning and castration during hot weather since excessive bleeding may occur due to the animal's increased blood flow.

It's also vital that cattle have a water supply available. Many creeks and stock tanks dry up during a long, hot summer such as the one we're experiencing this year. If water has to be hauled, remember that a yearling required 8-12 gallons of water a day during hot weather while a cow nursing a calf needs about 16

gallons.

If cattle must be moved on foot or transported during heat stress period, this should be done during the early morning, at night or in late afternoon when temperatures are cooler. If cattle must be moved and then later worked, they should be moved to a holding trap in late evening and worked early the next morning. Keep cattle as calm as possible and avoid over-crowding.

Although wind movement from fans can increase feed intake, daily gains and im-

proved feed conversion for feedlot cattle, shade is about the only economical means for cow-calf operators to change the environment. Research has shown that during periods of 90 degrees F. weather with a relative humidity of 63 percent, cattle under shade gained weight while those without shade lost weight.

"To improve management practices, producers must first understand the physiological mechanisms that beef cattle use to control body heat created by increased

environmental temperatures," contends Boleman. "Animals seek to remove excessive heat by increasing blood flow, water is added to the blood and there is a greater rate of respiration and sweating. All cattle possess the ability to maintain body temperatures under heat stress. Studies have shown that Brahman and Brahman cross cattle maintain lower body temperatures and respiration rates due to a lower heat production when compared to other breeds."

It is important to the life processes of the animal that a normal temperature be maintained, emphasizes Boleman. The normal body temperature of cattle taken rectally averages 101.5° F. and has a range of 100.4-102.8 degrees F. It is lower in cold weather, in older animals and at night. Rising environmental temperatures as well as excitement, exercise and infection increase this body temperature along with the pulse and respiration rates.

The pulse rate indicates

the rapidity of heart action. It can be taken either on the outside of the jaw just above its lower border, on the soft area immediately above the inner dewclaw, or just above the hock joint. The normal pulse rate is 60-70 per minute.

To determine the respiration rate, place the hand on the flank or observe the rise and fall of the flanks. The normal respiration rate is 10-30 per minute.

"With proper care during hot weather, cattle can continue to function efficiently," adds Boleman. "The key is to keep their rate of activity down."

Telephone Rate Increase Approved

Southwestern Bell Telephone Company's tariff, filed in compliance with the Public Utility Commission's final order issued on August 2nd granting SWB a \$124.5 million increase, has become effective. (SWB had requested \$214.3 million.)

The tariff was filed with the Commission staff August 4 and approved on August 14.

This latest increase will not affect basic residential and basic business service rates. (Some optional business services may increase slightly.) There will also be no increases in long distance rates, directory assistance charges, pay telephone or WATS service.

The increase will however affect customers' moves, connections and/or changes in service.

A new alternative rate system, referred to as Residential Measured Rate Service, will be offered in portions of 15 exchanges on an optional basis and will be available within six months.

It will be priced between 60 and 70 percent of single party flat rate in each exchange, with 25 free calls and a charge of eight cents per call for each call over the minimum.

The new residential service will be made available in portions of the following exchanges: Austin Metro Exchange, Amarillo, Beaumont, Corpus Christi, Dallas Metro, Fort Worth Metro, Galveston, Harlingen, Houston Metro, Lubbock, Midland, San Antonio, San Benito, Tyler and Wichita Falls.

The new rates became effective August 14, 1978, with the exception of the residential measured rate service which will be implemented within six months, and any changes in billing will be reflected in customers' bills dated August 15th and mailed August 22, 1978.

**OJB, Inc.  
To Drill  
First Well**

OJB, Inc. will begin drilling its first well of a five-well program in Crockett County this week.

Location will be on the C.C. Montgomery Estate Lease; Section 1, Block Z; 810' FEL and 2817' FSL. The second well will be drilled on the V.I. Pierce Lease; Section 9, Block BBB, HE & WT RR Co. Survey, NW/4 467' FEL and 660' FSL.

OJB, Inc. was formed by Jack Bailey of Ozona, in May of 1978 and has offices located at 903 5th Street in Ozona.

**CARD OF THANKS**  
My children join me in expressing our sincere appreciation to our friends who were so kind and thoughtful on the death of our loved one. For the food, the flowers and the many acts of sympathy, we are eternally grateful.  
Sincerely  
The Family of  
Sandra Fielder
