NUMBER 27

SCHOOL CONSTRUCTION was so far behind when time came for the opening of the fall term Tuesday that the school board thought it in the best interest of the school system to postpone the opening until next Monday, Sept. 11. The debris in front of the junior high gymnasium is typical of the conditions the board found in its inspection Monday. However, it was the conditions inside the buildings that caused the postponement.

Construction, Fire Force

School Opening Delayed

Faced with insurmountable odds resulting from tardy progress by building contractors plus fire which destroyed a large segment of available classrooms, school authorities Monday decided to postpone the opening of schools until next Monday, Sept. 11.

Although workmen toiled the Labor Day week-end in an effort to complete much of the renovation schedule in time to permit the opening of

schools on scheduled time, an inspection by the school board and school officials Monday revealed the inadequacy of facilities and prompted the board to call for postponement of the opening until next Monday.

The school board, after a careful inspection of all buildings Monday, concluded that it would be in the best interest of the schools to postpone the opening date until Monday when facilities

will be in more useable condition, Supt. Foy Moody reported.

The four-day delay will not be tacked on at the end of the school year, the superintendent said. The four days this week will be used for in-service training for teachers, thus eliminating such training periods slated for later in the year. One day may have to be cut from Christmas holidays to even out the count.

Generosity on the part of local church congregations will amek it possible for the schools to provide classroom space for those pupils dislodged by the fire which gutted the primary school recently. The fire, of undetermined origin, completely gutted the central classroom section of the primary school building. All churches of the city volunteered their facilities for use of the schools in meeting the emergency.

Adequate facilities were found available at the First Baptist and United Methodist churches. Kindergarten and first grade classes will be accomodated at the Baptist Church and second grade pupils plan classes at the Methodist Church. These pupils will attend classes for a half day only and will not have facilities for cafeteria lunches. Classes will be dismissed a few minutes before 12 noon, Supt. Foy Moody announced, that pupils may have lunch on time at home.

Four portable classroom buildings have been ordered for use of the elementary grades to replace the burned out classrooms and these are expected to be delivered in about two months. The cafeteria at the south school complex was not damaged in the fire and will be available to pupils when they return to make use of the portable classrooms.

Reburshed facilities at the Intermediate school, intended as classrooms for junior high students will serve instead to house the third through sixth grade pupils as before. The new elementary school in the south part of town, is scheduled for completion in October. Contractors were to have had all renovation of existing buildings complete by the school opening date and the construction of new buildings by early October.

Murder Suspect Is Arrested In Arizona

Frank Torres, address unknown, is in custody in Flagstaff, Ariz. and will be brought back here to face charges of murder in connection with the roadside stab-

bing death of Nelson Daniels, Ozona, whose body was found beside his car about 10 miles south of Big Lake on highway 137, a mile and a half south of the

Reagan-Crockett county line. Local officers reported

Torres was arrested in Flagstaff on charge of possessing a stolen automobile. A white Oldsmobile belonging to Demetina Robledo of Ozona had been stolen from her place of business in Barnhart. The car had been seen by a witness who happened to be passing the spot where Daniels was fatally stabbed and saw two men scuffling in the road. Thinking it a pair of drunks in a fight, the witness did not stop but later reported what he had seen. His description of the stolen car, said to have been parked near Daniels' car, led to the arrest.

Daniels was stabbed once in the abdomen, the knife piercing a large artery in the body. Willie Askey of Big Lake discovered Daniels' body and reported to officers. Daniels was pronounced dead at the scene by Justice of the Peace A.O. Fields of Ozona.

Lions Launch '78 Season In Big Lake

King football takes over in Ozona this week, along with the rest of the nation, as the Ozona Lions prepare to open their season Friday night in a non-conference game with the Big Lake Owls.

Head Coach Rip Sewell looked over his charges last week in their first workout, a scrimmage with the Stanton Buffaloes in Stanton. The Lions did a creditable job against the 10th rated Class A team and Coach Sewell was well pleased.

The experts have picked Kermit and Sonora as the chief contenders for the district 7AA crown, the coaches' poll resulting in a tie for the top spot in predictions. Kermit swept the field last year for the district title while Sonora trailed Crane and Ozona for last place in standings.

Great hopes for the Kermit-Sonora prospects seem to stem from the fact that each will have a new coach this year, and each new coach comes from the ranks of 4-A schools, namely Midland Lee and Midland High. Kermit draws Earl Overton, an assistant at Midland Lee in 1977, who hopes to lead the Yellowjackets to their second straight district crown. Fourteen returning lettermen will form the nucleus for the new championship drive under Coach Overton.

Sonora's hopes are pinned on the return of Coach Jerry Hopkins to the Broncho stables. Hopkins carried Sonora to a couple of state playoffs and for the past seven years has been coaching in the 4A field.

Coach Sewell admits his team is small but he is counting on their quickness

and passing ability to make a fair showing in the season's competition. A fair defensive lineup is another factor favoring the Lions this season. Sewell is looking forward to fourteen returning lettermen, eight starters from the 1977 season, three offense and five defense.

JR. HI BOYS PHYSICALS THURSDAY

All Junior High School boys who plan to participate in any form of athletics this school year must report for physical exams at the varsity field house Thursday, between the hours of 10 and 12 a.m.

Daily Rain Showers In Ozona Area Defendants Deny Suit Allegations

Daily light rain showers have fallen in the Ozona area the past week to bring relief to drought conditions that have prevailed most of the summer.

On the heels of moderate showers last week, the rains continued all this week. The best fall of the week was that of Monday night when .49 of an inch was registered at the water office official gauge.

Nightly falls of .3 of an inch were recorded for August 29 and 30 and .22 of an inch Sept. 1, Friday.

The week's total moisture was 1.31 inches. The falls were believed pretty general throughout this area.

Defendants in the lawsuit filed in federal district court in San Angelo by Sostenes DeHoyos issued a general denial of allegations by the plaintiff in an answer filed with the court on August 23.

The suit by DeHoyos, who is now a member of the Commissioners Court of Crockett County, names as defendants Miss Leta Powell, individually and in her official capacity as county clerk; Mrs. Jean North, individually and in her official capacity as deputy county clerk; Tommy Stokes, individually and in his official capacity as deputy county vote registrar; Jess Marley, individually and in his official

capacity as commissioner Precinct 1; Mrs. Janice Marley, the ex-Commissioner's wife; and Crockett County, a political subdivision of the State of Texas.

The defendants' answer lists the defense contention that plaintiff failed to state a claim against defendants on which relief can be granted under various U.S. statutes.

As the plaintiff's original petition states the capacities of the various officials the answer admits to such duties as enumerated, but summarily denies all allegations of conspiracy to block the plaintiff's rights as a candidate or to deny him fair treatment under the election laws.

The defendants' answer, denying paragraph by paragraph the plaintiff's contentions, prays the court to "enter judgment dismissing the plaintiff's action and denying plaintiff any relief sought in his original complaint against these defendants and further prays the court for such other and further relief, at law and equity, to which defendants may be justly entitled."

The defendants' answer was filed by and signed by Dixon Mahon, Crockett County attorney and representing the county as a political unit and its obligations to defend its officers against the legal action; by Charles E. Sherril, Jr. Sonora, Texas and by George Finley, a member of the San Angelo law firm of Smith, Davis, Rose, Finley and Hoffmann, employed by the county to represent its interests.

DeHoyos' suit asks \$240,000 damages, of which \$40,000 is for attorneys' fees and loss of salary, and \$200,000 in punitive damages based on the outcome of the special election of January 7, 1978, which was voided by District Judge George Thurmond of Del Rio, sitting as a special judge in the election contest brought by DeHoyos. Judge Thurmond declared the election void and ordered a new election which was ultimately held on August 12 and resulted in DeHoyos' election in his fifth race against incumbent Jess Marley.

H. S. Assembly Mon. In Baptist Church

Although the opening of Ozona Schools for the 1978 fall term will be delayed a week because of construction difficulties and the primary school fire the scheduled opening game of the new football season will get under way at 8 p.m. in Big Lake Friday night of this week.

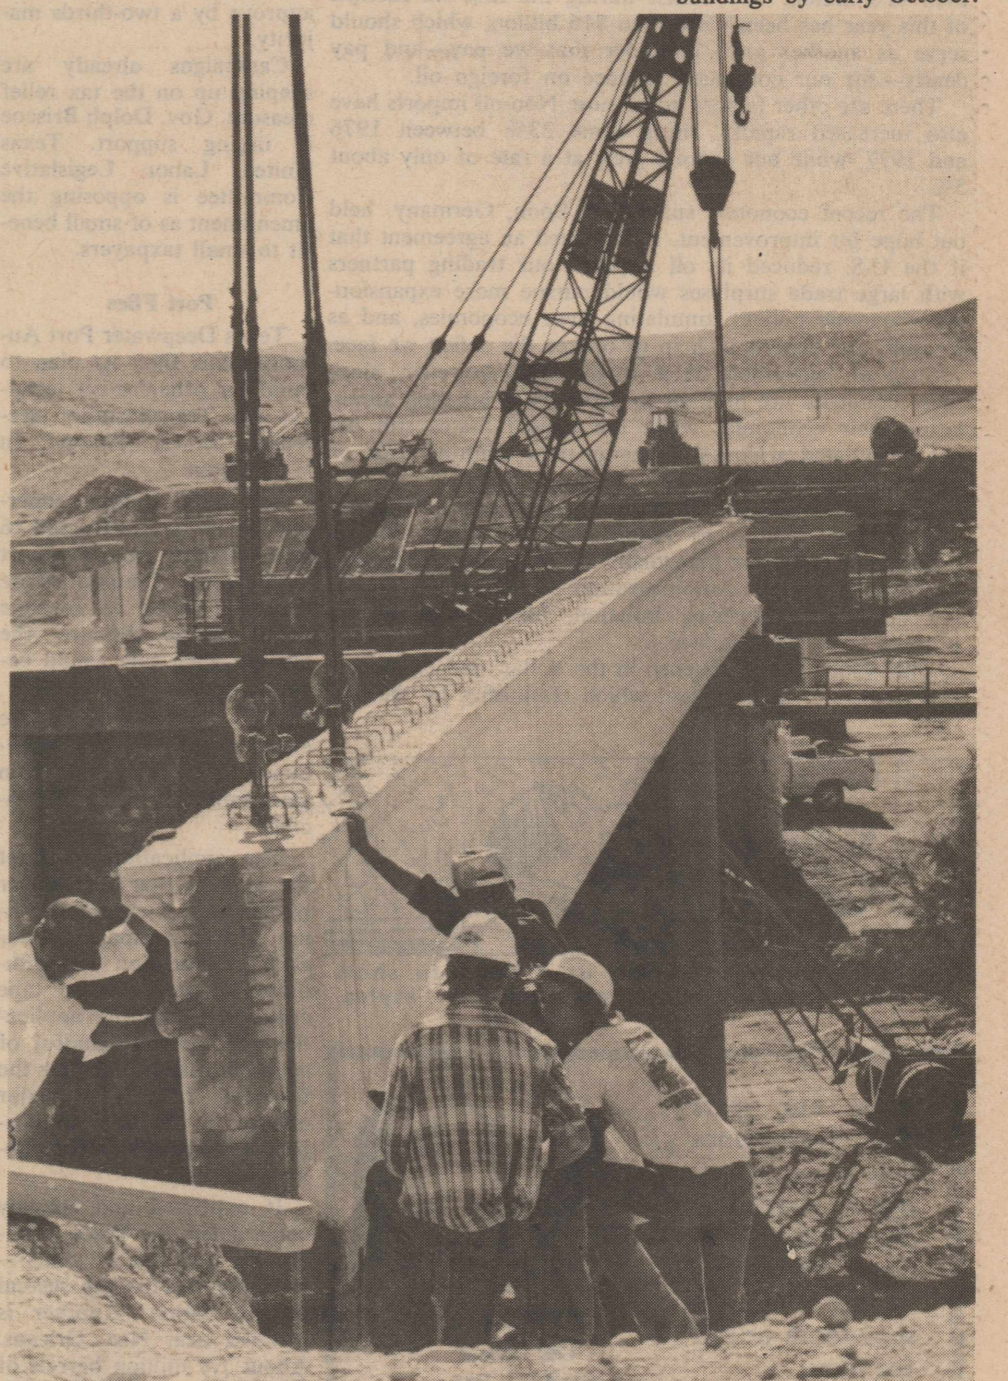

High School Principal Jim Payne reminds that the pep rally prior to the opening football game will be held in the parking lot across from the football stadium starting at 3 p.m. Friday. Mr. Payne also announced

that the High School general assembly will be held in the auditorium of the First Baptist Church, Monday morning at 9 o'clock. From there students will go to classes in the high school. For the Monday morning assembly program, students and parents are requested to park in school parking areas and walk to the church, thus avoiding congestion in the church parking area.

Any high school student who has not yet registered is requested to register before next Monday morning.

HUT! HUT! GO LIONS--Quarterback Danny Sewell and Center Joe Rebelez, show what they will offer as a threat to the opposition when they open the season Friday night in Big Lake against the Owls. Danny, a two-year letterman, is the Lions most experienced player. The veteran quarterback is expected to furnish the experienced leadership for a creditable showing by the young Lion squad.

SPANNING THE PECOS RIVER--Above is pictured the first of a number of huge prestressed concrete beams to be inched in place on the bridge on I-10, crossing the Pecos river 35 miles west of Ozona. The big beams are precast and hauled by truck to the construction site. The big bridge is part of a multi-million dollar project which will carry the interstate highway through some of the most spectacular scenery along its route. The bridge, a 600-foot span, is part of an \$8 million dollar construction contract to Allen Keller. This same firm now holds contract for construction of the Interstate Highway from Live Oak creek to the Pecos River.

TOWER TALKS
by U.S. Senator for Texas
JOHN TOWER

The Dollar's Slump

WASHINGTON—The dollar's slide against foreign currencies on the world markets reflects growing international concern that America's money management know-how leaves something to be desired.

Americans themselves may be wondering now. While the decline of the dollar has been occurring over several years, its decline just since last fall has been particularly sharp.

Since last September, the overall foreign exchange value of the dollar has declined 11½% against the currencies of other countries. The dollar has depreciated more than 27% against the German mark, 8% against the British pound, and 24% against the Swiss franc. It hit a post-war low against the Japanese yen last week.

Everyone and his uncle has a reason for the decline, but if you accept conventional wisdom, a large measure of the blame must be placed on a negative trade balance. That, of course, means the U.S. is importing far more goods than it is exporting. The biggest item on the list is oil. Our oil imports have increased rather than decreased despite the fact the Administration has been screaming to high heaven about the need to cut them back.

In fact, the Administration's plan really amounts to wishful thinking, rather than serious policy. The President's proposed energy program will only further our dependence while drying up incentives for domestic American exploration and production because it relies on the market regulation fundamentally the cause of our current supply predicament.

Oil imports have been a big contributor to our trade imbalance. In 1977, the U.S. trade deficit totaled more than \$26 billion. The deficit during the first six months of this year has been more than \$16 billion, which should serve as another grim reminder that we pay—and pay dearly—for our continued reliance on foreign oil.

There are other factors, to be sure. Non-oil imports have also increased rapidly, rising some 23% between 1976 and 1977, while our exports grew at a rate of only about 5%.

The recent economic summit in Bonn, Germany, held out hope for improvement. It produced an agreement that if the U.S. reduced its oil imports, our trading partners with large trade surpluses would pursue more expansionary economic policy, stimulating their economies, and as a result, our exports to help us reduce the deficit we face.

Such an agreement is a fragile one, however, since those countries are hesitant to incur more inflation stimulating their economies while the United States still has not formulated a workable energy policy cutting back on imports.

Much more foreign skepticism centers around the Administration's ability to reduce inflation. Our rate of inflation, while lower than many countries has accelerated to the point that the Administration, for all its high sounding talk about lowering inflation, hasn't matched the promise with performance.

The result? No confidence in the dollar, and confidence in Presidential management which diminishes by the day.

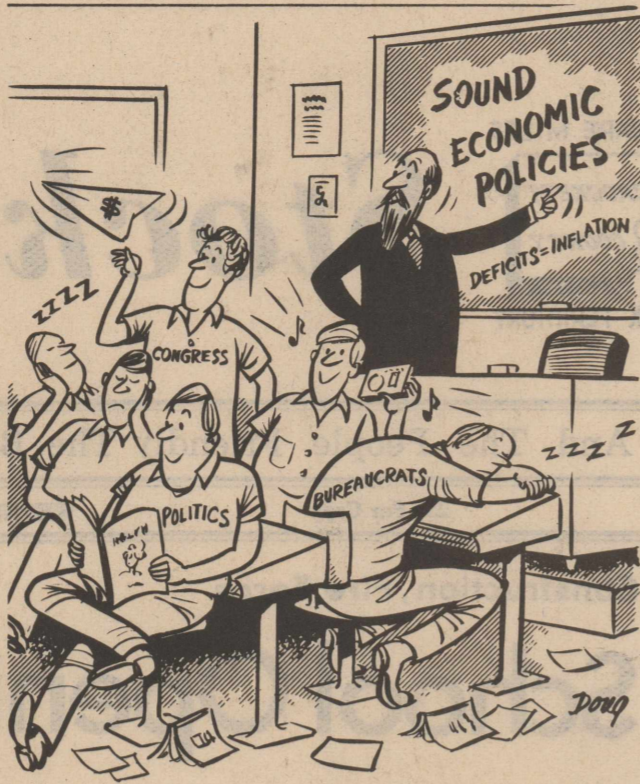

In the 14th century, men used dolls to show the latest fashions in dress and hair styles.

NOTICE BY PUBLICATION

STATE OF TEXAS

TO: MARGARITA CRUZ ZAMORA, Respondent and All Whom it May Concern:

GREETINGS:

YOU ARE HEREBY COMMANDED to appear and answer before the Honorable 112TH JUDICIAL DISTRICT COURT, Crockett County, Texas, at the Courthouse of said County in Ozona, Texas, at or before 10 o'clock A.M. of the Monday next after the expiration of 20 days from the date of service of this cation, then and there to answer the amended petition of JUAN JOSE GOMEZ and TERESA TORRES GOMEZ, filed in said Court on the 30th day of August, 1978, against MARGARITA CRUZ ZAMORA, Respondent, and said suit being Number 3956 on the docket of said Court, and entitled "In The Interest of Johnny Jesse Rosas, a Child," "the nature of which suit is a request to terminate the parent-child relationship and adopt the child." Said child was born the 4th day of March, 1973, in Uvalde, Uvalde County, Texas.

The Court has authority in this suit to enter any judgment or decree in the child's interest which will be binding upon you, including, but not necessarily limited to, the termination of the parent-child relationship, the determination of paternity, and the appointment of a conservator with authority to consent to the child's adoption.

Issued and given under my hand and seal of said Court at Ozona, Texas, this 30th day of August, 1978.

Leta Powell
Clerk of the District Court of Crockett County, Texas 27-1tc

SNIPS, QUIPS, AND LIFTS

By Lottie Lee Baker

Sleep is conducive to beauty. Even velvet looks worn when it loses it's nap.

When you're average you are as close to the bottom as you are to the top.

Money works two ways. It talks, and it stops talk.

Many tombstones are carved by chiseling traffic.

Inflation is a method of cutting a dollar bill in half without damaging the paper.

Research is getting things out of many old books that were never read, and putting them into new books nobody is going to read.

When a habit begins to cost money, it is a hobby.

Forty is a good age—women are still interested in you but the army isn't.

The huge national debt they will inherit should keep our children from one indulgence—hero worship.

The human race has only one really effective weapon and that is laughter.

There are two ways to eat fried chicken—the dainty way and the right way.

Truth is as clear as a bell, but it isn't always tolled.

Better be a wide-awake ugly than a sleeping beauty.

A Lift For The Weak
We live in the present, but we dream of the future, but we learn eternal truths from the past.

Napoleon Bonaparte, banker J. P. Morgan and novelist Leo Tolstoy were all avid solitaire players.

you and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: When my divorce was granted, my share of the settlement included the family cemetery plots. I have since discovered that two of these already have people buried on them. Is there anything I can do to have the bodies moved out of our family plot?

share of his second wife's earnings. The judge is free to consider the second wife's earnings in determining the father's ability to meet child support payments.

Q: Can you tell me how to go about giving my daughter my power of attorney? I am 74 years old and although I'm still able to make decisions, I want to be prepared in case something should happen to me.

A: Now, while you are capable of doing so, you should have a lawyer prepare a Power of Attorney giving your daughter all those powers and authority you wish her to have. The lawyer can include a provision which will make the Power of Attorney continue in effect should your ability to make decisions become impaired.

Q: If I will my property to my married daughter, will it be her separate property or will it be owned jointly by her and her husband?

A: Under Texas law, if she survives you it would become her separate property, and her husband would have no right to it as long as your daughter is alive. However, when your daughter dies, unless she leaves a will that provides otherwise, her surviving husband and her children would share your property; or if your daughter had no children or other close relatives, her surviving husband would likely get most, if not all, of your property.

A: You must obtain the consent of the cemetery association and of the surviving spouse of the deceased; if there is no surviving spouse, then of the children, and if there are no children, then of the deceased's brothers or sisters. If you cannot obtain the consent of any such person or of the cemetery association, you must obtain permission from the County Court in the county in which the cemetery is located. In addition, you must obtain a written order of the health department having jurisdiction, or of the County Court of any county in which the cemetery is located, permitting you to remove the remains.

Q: My husband was taken to court by his ex-wife to increase the amount he pays for child support. Why is my salary considered as part of his income for the support of his other children?

A: The amount of child support set by the court in a divorce decree is based both on the father's ability to pay and on the needs of his children. Subsequent modifications of amount ordered are based on changes of circumstances of children and/or the father. The father's ability to pay is determined by his total financial status, including his community

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

It seems the good showers are still going around on all sides, so the hot, dry weather continues.

September is one of the most important months of the year for gardeners. A few hours spent weeding, mulching, and fertilizing can bring new life to the garden. Marigolds, sage, impatiens, petunias, geraniums, and other bedding plants can be revitalized if they are attended to early in the month. Also, similar attention to warm-season vegetables can keep them producing until frost. Too, be sure to get the fall and winter vegetable garden planted.

Early September is the last time in the growing season that an application of fertilizer will benefit warm-season lawn grasses. Fertilizer applied after this time may be wasted if a killing frost or cool weather causes the grass to turn brown, and go dormant. When in doubt as to how much to use, apply fertilizer at one-half the label recommendation this late in the season. After the application, water the lawn thoroughly to wash fertilizer into the root zone.

A little grooming early this month can bring hybrid tea roses into a second season of beautiful bloom. Remove faded blooms to tidy up the plants and prevent seed formation, which saps plant energy. Snip off damaged or diseased parts and weak, spendly wood. Cut off small branches that have no terminal bud, and remove shoots growing from the base of the plant below the graft union.

Rake all litter out of the bed, apply a complete fertilizer, such as 5-10-10, at the rate of 2 tablespoons per bush after lightly stirring the soil without disturbing the roots. Water thoroughly to wash fertilizer into the soil. Usually our fall roses are the most perfect and colorful, due to less wind to damage them.

Divide overcrowded clumps of oxalis, bearded iris, daylilies, daisies and cannas. Retain only healthy, outer portions of the clumps. Replant in well-prepared soil. Keep watered until roots are established if no rain.

GARDEN CLUB TO MEET

The Ozona Garden Club will have their first meeting of the new club year with a brunch held Monday, Sept. 11 at 9:30 a.m. in the home of Mrs. Steve Kenley at 508 Terrace. All members are urged to attend.

New Brides Must Change Official Records

New brides who change their names have many official records to change, says Lillian Chenoweth, family resource management specialist with the Texas Agricultural Extension Service.

Place of employment is one of the first places to start.

Employers need to know of a new status for pay check purposes and to avoid confusion with federal taxes.

When making name change on insurance policies, consider any change in beneficiaries at the same time.

To change social security records, call the nearest office of the agency and request a name-change form.

After completing and returning the form, a new card will be issued. The number will remain the same.

Another place to change the record is the driver's license office. They will issue a new license for a new name.

To update credit records, notify the local credit bureau of a name change.

Request that they maintain separate files for the bride and her husband in order to retain a credit identity for the bride.

Change all bank accounts—saving or checking—to the new legal name.

PHONE NEWS TO THE STOCKMAN.

ENGAGEMENT TOLD—Mr. and Mrs. John Lee Henderson, Jr. announce the engagement and approaching marriage of their daughter, Virginia Leigh, to Mr. Jack Baggett, Jr., son of Mr. and Mrs. Jack Baggett. The wedding will be December 30, at the Ozona United Methodist Church. Miss Henderson is a 1975 graduate of Ozona High School and will receive her BA in Business Administration from Southwestern University at Georgetown in December. The prospective bridegroom, a 1973 graduate of Ozona High School, received his BBA from University of Texas at Austin.

Catherine Ann (Fifi) Murphy 19, is the object of a continuing search by her parents, Mr. and Mrs. Thomas D. Murphy of Odessa. The young lady disappeared the night of July 19, 1978. She and her boyfriend, Steve Fife, left an Odessa nightclub about 10:30, he told police. She drove Fife to his home and her car later was found in a parking lot a few blocks from the night club.

Mrs. White CC Bridge Hostess

Mrs. Evert White was hostess to bridge club members at the Country Club Thursday. Mrs. Clay Adams won high score award, Mrs. White was second and Mrs. Dave Matney won low. Bingo prize went to Mrs. Bruce Mayfield.

Other players were Mmes. Hugh Childress, Jr., Brock Jones, Jess Marley, J.B. Parker, Sidney Millsbaugh, Kirby Moore, Hillery Phillips, Johnny Hunnicutt, Sherman Taylor, Frank Tillman, C.O. Walker, Byron Williams, Joe Friend, Charles Williams, Jack Williams, and Gene Williams.

Consumer Food News For Week

Best buys at Texas grocery markets this week include fryer chickens, dairy features, nectarines and several fresh vegetable items, according to Mrs. Gwendolyn Clyatt.

Other features include tuna fish, peanut butter, nonfat dry milk and pinto beans.

This week's quality-price trends are the following: Both whole and cut-up fryer chickens are an economical protein choice.

Large-size egg prices are up slightly. In most cases, medium-size eggs are the best values.

Features in dairy products include sour cream, yogurt and a variety of cheeses.

Nectarines are among the best fruit values, although supplies are lower. Select those that are plump, smooth-skinned and well-filled-out with a creamy-to-yellow-colored background.

Other fruits—at moderate prices—include peaches, grapes, cantaloupes, honeydew melons and watermelons. New-crop apples are available, but prices are high.

Hot, dry weather in some growing areas is resulting in fewer vegetables from those areas.

However, potatoes and onions are plentiful with reasonable prices.

Other economical buys are carrots, cucumbers, bell peppers and yellow and zucchini squash. New-crop sweet potatoes are available, but use them within 10 days.

Features are few and scattered in beef cuts. They include chuck cuts, ground beef, round steak and beef liver. Most retail beef is grain-fed currently.

Prices are irregular with most emphasis on smoked cuts—picnics and bacon.

Consumer Watchwords
Compare the different varieties of plums—and prices—with care.

DUPLICATE BRIDGE

Mrs. Sherman Taylor and Mrs. Evert White won first at Duplicate Bridge Saturday afternoon at the country club. In the Sunday afternoon session Mrs. Robert Cox and Mrs. J.B. Parker won first. Other players were Mrs. Sidney Millsbaugh, Mrs. Kirby Moore, Evert White, Mrs. Carl North, Mrs. J.C. Marley and Mrs. George Bunger.

BAND BOOSTERS MEET

First meeting of the Band Boosters is set for Tuesday, Sept. 12, at 7:30 in the band hall. Parents of Junior High School band members are urged to attend.

FORUM YEAR OPENS

The Woman's Forum will begin the 1978-79 club year with a brunch at the Garden-Pool area of the Circle Bar Truck Corral, at 10:30 a.m., Saturday, September 9.

Leta Powell and her sister, Gladine Teel of Big Lake, flew to Los Angeles, to spend the Labor Day weekend. They were joined during the weekend by Mr. and Mrs. Oscar Kost.

JANICE LAYMAN FINALIST IN LITTLE MISS TEXAS CONTEST

Janice Layman, 8, daughter of Mr. and Mrs. Larry Layman, has been notified she is a finalist in the Little Miss Texas contest which will be held in the Astro Village in Houston Oct. 4-7. If Janice should be a winner in Houston, she will enter the Little Miss America Contest as Miss Texas.

County Free From Fatal Accidents

While most of the rest of Texas was witnessing a rash of fatal accidents, pushing the DPS death toll estimate out the top, Crockett County remained free of fatalities during the Labor Day holiday weekend.

The fatality-free weekend may have resulted from an active surveillance of the highways by local Highway Patrolmen. Justice of the Peace A.O. Fields was confronted with a thick sheaf of citations when he went to his office Tuesday morning. Most of the violations were for speeding. Most of the fatal accidents result from drunk drivers on the road.

Debra Says

by Debra Price

Grandma called it "roughage," but today we say "fiber". Fiber is found in fruits, vegetables, bread, cereals, nuts, dried beans and peas. It's needed in the diet to help move food through the digestive tract.

Fiber is a complex compound that makes up plant cell walls. Cellulose-type material like the fibrous part of celery is fiber, but other parts of celery also contain fiber. In fact, most fibers are gelatinous rather than stringy—for example the fiber from potatoes and avocados.

Foods that contain the most fiber are whole-grain cereals—especially the bran. High-fiber foods contain B-vitamins, vitamins A and C and trace minerals. In addition, high-fiber foods are generally lower in calories than other foods such as meat.

To get the amounts of fiber needed daily, eat four servings of foods from the fruit-vegetable group and four servings from the bread-cereal group—using nuts, beans and peas occasionally as alternates for meat. However, avoid excessive amounts of high-fiber foods such as bran in the diet. Many plant materials from which fiber is obtained—such as wheat bran—are also high in phytic acid, which can result in poor absorption of calcium, iron and other trace minerals.

QUICK PINEAPPLE ROLLS

Drain 1 cup crushed pineapple. Mix with ½ cup soft butter, ½ cup brown sugar, firmly packed, and 1 teaspoon cinnamon. Spoon into 10 large muffin cups, greased. Open 1 can refrigerator biscuits; place a bis-

cuit in each cup over pineapple mixture. Bake 10 to 12 minutes in a 425 degree oven. Let cook 5 minutes, then invert to remove from pan. Yields 10 rolls.

BLACK-EYED PEA SALAD

½ cup purple or salad onions, sliced paper thin
½ cup green pepper, sliced thin
½ clove garlic (peel and place toothpick through it; remove garlic before serving salad)

2 14-oz. cans black-eyed peas with snaps, drained
¼ cup mild vinegar
¼ cup salad oil
½ cup sugar
½ teaspoon salt
Dash of hot sauce

Combine ingredients and marinate 12 to 24 hours covered in refrigerator. Serves 6 to 8.

Learn to Prepare Income Taxes

- Accurate with figures?
- Like to meet the public?
- Want to earn extra money?

Enroll in the H & R Block Income Tax Course beginning soon in your area and learn to prepare income taxes for yourself, your friends and as a source of income.

Job interviews available for best students. Send for free information and class schedules today.

Classes begin Sept. 14 at 1612 W. Beauregard San Angelo, Texas

What does *FAMILY* mean? It means *the together trail!*

It means a father and mother sharing the beauty and excitement of God's world with their children.

The hike together. The picnic together. The working together and playing together that Home inspires. Just ask the psychologists — and sociologists — and criminologists — what values are found along "the together trail," or lost when family living misses its mark.

Worship and religious training belong, too, on the *together trail*. Faith grows best in an atmosphere of sharing. Character thrives in the sunlight of Christian example.

In the church of your choice there's precious opportunity for you — and yours. The Church is the together trail of God's Family!

Crockett County Care Center News

by Joan Nicholas

Activities Program Director

I am so happy to report that Gordon Smith is back. He has been through a pretty tough time in the past weeks, but is a determined gentleman.

We were all distressed about Floy Clare Short's accident. I understand she came through the surgery just fine and is in Room 331 at St. John's in San Angelo. Everyone signed a card and sent her our best wishes.

Nita DePriest won the Bingo gift certificate donated by Jim Marks, and Paul Cavin won the second prize. Winners of forty-two were Nita and Jr. Auxiliary member, Kim Buie. The large Bingo cards are now in use. Since they were a little flimsy M.E. Nicholas had poster board for the one hundred cards cut to size and I have been busy glueing them on to this. Now, if possible, I am hoping to get them laminated somewhere and we should have some hard-wearing cards. It is so much easier for our residents to see the large numbers without such a strain on their eyes. Dill Eversole has now joined the Bingo players.

In the day room, Thursday afternoon, we had a large group. I read an item by columnist Rick Smith in the Angelo paper; jokes from Reader's Digest, and a portion of Kitty's column which led to a lively discussion on education in "our day" and now. The main piece of material I used for reading was "The Shroud of Turin" which appears in the September issue of Guideposts as a bonus feature. The Holy Shroud is presently on display until October 8 in Turin, Italy for only the fourth time in this century. It is said to be the burial sheet of Jesus Christ, and the scientific evidence presented is most convincing. We found it both absorbing and fascinating reading.

The fabric of the Shroud is a herringbone weave in a three-to-one twill pattern that was common in the Middle East during the time of Christ. Linen has survived from ancient times; one piece has been dated as far back as 10,000 B.C. If any of you want to read how the Shroud found its way to Turin and what experts and

GLORIA GOMEZ, daughter of Mr. and Mrs. Pete Gomez, Sr. and granddaughter of Mr. and Mrs. Fortunato Tambunga, Sr. of Ozona, has been named a member of the Strutters drill team at Southwest Texas State University. She is a 1978 graduate of Sonora High School. The Strutters have appeared over the U.S. in invited performances.

scientists say about its authenticity, I recommend this article.

It was obvious that something was going to have to be done to stretch our Day Room to accommodate a large group, including many wheelchairs, so I have moved the furniture around a little bit. The room is really the perfect size to enable everyone to hear, and to converse

one with another; having a tightly knit group is a must for us.

During the past two weeks, vunteer helpers have been: Doreen Watson, Im Buie, Kathy Weant, Chy Castro and Phyllis Lig; all Jr. Auxiliary members. Other youngsters are Mary ad George Wall, Alyssa, Maa and Gina Wilson, Donna Omlinson, Paula Sessom, Joter O'Bryant, Lisa Standh, Skipper Carlisle, and Mssy Fierro. Also, Velma Mary, Georgia Kirby, Carol Clisle, Rosa Fierro, Helen Wall, Mildred Fields, Aadilia (Nana) Fierro, (ace Dorsey, Blanche Wker, Maria Vitela, and Agelita Pena, Sr. Auxiliary nbers and others. Sever Ozona people also come at to visit from time to tir. Elvira Pena assisted mewith Bingo on Friday morning. We appreciate you al

In talking Glenda Winkley (Aux. Pres.), she tells me that there will be a general meeting for all members at the end of th month or early October-datto be announced-and it wodb be really nice if everyone would make a special effort to attend. Those who e helping, but who have ot joined the organization please come. We also exnd a sincere welcome to anyone, men or women, whiwould like to help in any of our activities and persona services. We need you, ur ideas and suggestions.

WALKIN' IN THE RAIN-That's the editor, Kitty Montgomery, defying one of last week's showers in downtown Ozona. The Stockman photographer needed a rain pic and he got it, and action too.

Horse Show Leaders To Meet

4-H adult and teen leaders who are involved in Horse Programs are invited to participate in a September 22-24 workshop at the Texas 4-H Center near Brownwood, according to Mr. Billy Reagor, County Extension Agent. "The theme of the weekend workshop sessions is "A More Productive County 4-H Horse Program," and 4-H volunteer leaders from throughout the state will be present to learn and share new ideas.

Instructors for the September 22-24 training will include Dr. Doug Householder and B.F. Yeates, Extension Horse Specialists, College Station; Dr. Bill Jackson, Iris Kalich, and Janet Yeates, Area 4-H and Youth Specialists; and County Extension Agents Mac Gilliat, Real County, and Greg Gerngross, Callahan County.

Participants will select several workshop sessions on such topics as: "How To Work With, Teach, and Challenge 4-H Members;" "Visuals and Resources For 4-H Horse Programs;" "Horse Show Planning and Management;" "Try A Yearly Horse Project Calendar;" "Horse-manship;" "Horse Judging;" and "Demonstrations and Records."

For further information about this 4-H leader training opportunity, call or come by the Crockett County Extension Office located in the Courthouse Annex.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin.

Texas Sheep

&

Goat News

It's trade negotiations time again. This may not sound as exciting as the Superbowl, but it has far-reaching implications.

One particularly crucial area is limitation of textile and apparel imports. The Carter administration has been talking tariff cuts, that is, lessening restrictions on imports. With a few exceptions, these cuts could cover almost all imports including textiles and apparel items.

The entire domestic fiber industry, from cotton producers to wool growers to the weavers of Navajo rugs and makers of Pendleton sweaters have a major stake in the outcome of the talks. Industry leaders, armed with computer data, predict that any cut in tariffs on foreign textiles and apparel could deal a death blow to the domestic industry. This, they

add, would mean the loss of as many as 2.2 million American jobs.

The question of import restrictions is a particularly touchy one. Supporters of relaxed restrictions point out that the most basic of American business philosophies calls for market regulation by the law of supply and demand. Efficient industries need not fear competition, and those that must be protected from competition aren't viable anyway. After all, don't most U.S. industries use this argument themselves to justify demands for less federal intervention?

The argument is sound—at least as far as it goes. It's the very philosophy that made the U.S. a superpower in the first place. It has one critical failing, however, when applied to international

trade. It presupposes that American industries are allowed to be competitive, and the simple, uncomfortable truth is that they often are not.

Excessive, generally unwarranted government regulations make it virtually impossible for American industries to compete with their foreign counterparts. Artificially inflated labor costs further hamstring most industries. Add to these crippling influences the fact that foreign governments often subsidize their industries to further undercut American prices, and it's not hard to understand why many U.S. industries are today reeling with foreign punches.

Still, the less-than-perceptive may ask why we need the U.S. industries at all—why, if foreign governments are willing to foot the bill for

our consumption, we shouldn't simply take them up on it and let American industry go to the dogs. Yes, they definitely are less than perceptive.

From their own selfish point of view they should have enough sense to realize what it would mean to their own jobs. They may or may not be able to see far enough down the road to imagine what would happen if we became completely dependent on foreign goods and then those goods were withheld to run up prices. There must be many people out there who can't see that far—if they could, they'd see that it has already happened in the case of foreign petroleum. It's a classic example of excessive domestic regulation going much too far and foreign suppliers taking natural advantage of it.

There are at present two bills, Senate Bill 2920 and House Bill 10853, that would exempt textiles and apparel from the current round of tariff-cut talks in Tokyo. It's a place to start. The Texas Sheep and Goat Raisers' Association supports these bills and urges their passage. Fiber production, whether it be wool or cotton, is a major Texas industry and is totally dependent on the domestic textile industry for an outlet. A blow dealt to the domestic apparel or textile industry is a blow dealt to American fiber producers—they are our only customers.

Write your senators and congressmen in support of the bills. Vital American industries simply cannot compete fairly with foreign products that are not subject to the same crippling pressures. If the U.S. government is going to beat its own industries about the head and shoulders, the least it can do is offer them a little protection from others who would run in and throw a cheap shot when they're down.

Estimated Tax Installment Due Sept. 15

Taxpayers making estimated tax payments on their 1978 income must pay the third installment by Friday, September 15. The tax installment should be paid using declaration-voucher 3 from the Form 1040-ES package, the Internal Revenue Service said.

Taxpayers whose anticipated income during 1978 has changed may have to file an amended declaration. Space appears in the estimated tax package to compute an amended estimate, the IRS said.

For more detailed information, taxpayers can obtain IRS Publication 505, "Tax Withholding and Declaration of Estimated Tax," available free from local IRS offices. Supplies of the Form 1040-ES package are also available from these offices.

Light colored draperies and curtains don't just look cooler in warm weather, they reflect sun and heat outward—and help reduce the load on the air conditioning system.

Cows Need Phosphorous Year Round

Many Texas beef cattle herds may be deficient in an important mineral—phosphorous—and their performance may suffer for this reason.

Dr. Steve Hammack and Dr. George Alston, specialists with the Texas Agricultural Extension Service, say many cow-calf operators realize that dietary phosphorous is one of the important factors in reproductive efficiency.

"It is fair well recognized that the phosphorous content is adequate for good animal production on most pasture and ranges in the Southwest except for periods of low growth," Alston says. "It is an area agronomist with the Extension Service.

A considerable number of herds breed during the spring when phosphorous may be adequate. So it is tempting to believe that phosphorous supplementation is unnecessary on a spring breeding program.

What producers don't always realize however, is that the mineral is important in many other functions including growth, appetite, feed efficiency and milk production.

"Borderline deficiencies may reduce performance of cows, calves and stocker cattle without producing effects which can be seen," says Hammack, an area beef cattle specialist.

For this reason, the specialists have found that most good operators provide a mineral supplement at all times. The little unnecessary consumption, they emphasize, salt and other minerals are offered separately since cattle will generally eat little mineral when forage is lush.

The Extension specialists suggest caermen use a mineral with about 8 to 15 percent phosphorous and no more than this amount of calcium. The phosphorous content of the mineral is the important factor. Cheap, high-calcium minerals are not beneficial, and these generally have a high cost per pound of phosphorous.

Fertilize Now For Fall Hay

With the right growing conditions, high quality hay can be produced as late as September and early October. And a forage special-

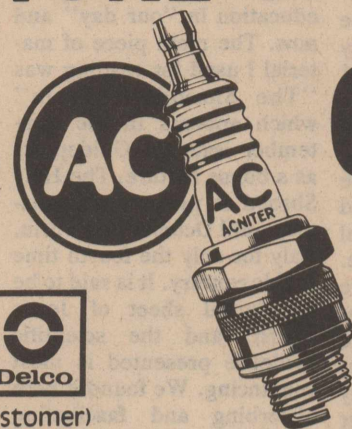

ist says producers can help Mother Nature provide the right conditions.

Don J. Dorsett, with the Texas Agricultural Extension

Service, says a high quality last cutting of hay requires fertility and prime growing conditions, especially moisture.

Crockett Co. Oil & Gas News

A confirmation and five producers were recorded in Crockett County.

The M.A.G. (Pennsylvanian) field gained its second producer and a 3/8-mile southeast extension with completion of Texas Pacific Oil Co. Inc., No. 2 State of Texas, 10 miles southeast of Rankin, for 236 barrels of 46.2 gravity oil, with gas-oil ratio of 1,610-1.

Production was natural through a 12-64-inch choke and perforations at 9,378-388 feet.

The following tops were picked on ground elevation of 2,626 feet: Dean, 7,115 feet; Wolfcamp, 7,250 feet; Pennsylvanian, 8,878 feet; Strawn, detrital, 9,248; Pennsylvanian pay, 9,377 feet; and Atoka lime, 9,474 feet.

Drilled to 9,700 feet, where 5 1/2-inch casing was set, it is plugged back to 9,634 feet.

Location is 1,980 feet from the north and west lines of 29-5-University.

The discovery, the firm's No. 1 State of Texas, was finalized Jan. 10 for 429 barrels of 46 gravity oil, with gas-oil ratio of 1,399-1, through a 19-64-inch choke and perforations at 9,395-406 feet.

O & G, Inc., Houston, completed five projects in the Adams-Baggett Ranch (Canyon gas) field, approximately 26 miles south of Ozona.

The No. 1-127 Adams, one location southeast, was finalized.

NOTICE OF

REWARD

I am offering
\$500 Reward

for apprehension and conviction of guilty parties to every theft of livestock in Crockett County - except that no officer of Crockett County may claim the reward.

Billy Mills
Sheriff, Crockett Co.

ed for a calculated, absolute open flow of 4,500,000 cubic feet of gas daily, with gas-liquid ratio of 111,473-1, through perforations at 4,567-733 feet, which had been acidized with 2,000 gallons and fractured with 60,000 gallons and 83,000 pounds of sand. Gravity of the condensate was 78.8 degrees.

Location is 2,000 feet from the north and 700 feet from the east lines of 127-O-GH&SA.

The No. 1-115-A Adams, 1/2 mile west and the same distance south-southeast, and 1/2-mile north-northwest of the Hudspeth (Canyon gas) field, was finalized for a calculated, absolute open flow of 2,600,000 cubic feet of gas daily, with gas-liquid ratio of 411,972-1, through perforations at 4,426-654 feet, which had been acidized with 2,000 gallons and fractured with 60,000 gallons and 166,000 pounds of sand. Gravity of the condensate was 71.8 degrees.

It was filed as a wildcat and amended to the above field.

Location is 2,059 feet from the south and 2,209 feet from the east lines of 115-O-GH&SA.

The No. 1-114 Adams, 1/2-mile south-southeast and the same distance west, and also 5/8-mile northwest of the Hudspeth (Canyon gas) field,

Anderson Petroleum Co. Complete Extensions

Anderson Petroleum, Inc., Ozona, completed two extensions to Canyon sand gas production in the Ozona multipay field of Crockett County, 30 miles southwest of Ozona.

The No. 2-9 Moody Minerals "G", a 7/8-mile northwest, was finalized for a calculated, absolute open flow of 1,060,000 cubic feet of gas daily, through perforations at 6,924-7,124 feet, which had been acidized with 2,000 gallons and fractured with 80,000 gallons and 115,000 pounds of sand.

Location is 760 feet from the north and 1,980 feet from the west lines of 9-MM-T&T.

was finalized for a calculated, absolute open flow of 1,580,000 cubic feet of gas daily, with gas-liquid ratio of 2,905,882-1, through perforations at 4,462-729 feet, which had been acidized with 2,000 gallons and fractured with 60,000 gallons and 83,000 pounds of sand. Gravity of the condensate was 69.8 degrees.

Location is 2,000 feet from the south and 600 feet from the east lines of 114-O-GH&SA.

The No. 2-115 Adams "B", 1/2-mile north-northeast and the same distance south and very slightly west, and also a 1/2-mile north-northeast of the Hudspeth field, was finalized for a calculated, absolute open flow of 1,500,000 cubic feet of gas daily, with gas-liquid ratio of 267,568-1, through perforations at 4,442-676 feet, which had been acidized with 2,000 gallons and fractured with 50,000 gallons and 83,000 pounds of sand. Gravity of the condensate was 67.9 degrees.

It was scheduled as wildcat and amended to the above field.

Location is 1,980 feet from the south and 2,006 feet from the west lines of 115-O-GH&SA.

The No. 1-154 Adams, link well one mile east and west, was finalized for a calculated, absolute open flow of

St.L. The No. 2-12 Elmer Hoover Hatton Estate "E", 3/4 mile northeast and the same distance west, was finalized for a calculated, absolute open flow of 800,000 cubic feet of gas daily, through perforations at 6,934-952 feet, which had been acidized with 2,000 gallons and fractured with 77,700 gallons and 78,800 pounds of sand.

The project was scheduled also to test at 2,100-4,700 feet as a wildcat.

Location is 1,979 feet from the south and 661 feet from the east lines of 12-MM-T&StL.

1,380,000 cubic feet of gas daily, with gas-liquid ratio of 405,298-1, through perforations at 4,751-921 feet, which had been acidized with 2,000 gallons and fractured with 60,000 gallons and 133,000

Beach To Drill Wildcat In County

William N. Beach, Midland, will drill the No. 1 Bouscaren 43, a 2,600-foot wildcat in Crockett County, 1/2-mile south of the depleted one-well Meadows (Strawn) field, two miles southeast of the depleted Yates oil opener of the Half multipay field, 2 1/4 miles northeast of the two-well Bair (San Andres) field and seven miles northeast of Iraan.

Location is 467 feet from the south and 1,787 feet from the east lines of 43-HH-GC&SF. Ground elevation is 2,307 feet.

pounds of sand. Gravity of the condensate was 72.2 degrees.

Location is 1,537 feet from the south and 1,313 feet from the east lines of 154-O-GH&SA.

The Bair field produces at 1,565 feet.

The Yates opener, Yeatman Drilling Co. No. 1 H.L. Bair, was finalized July 11, 1952 to pump 41 barrels of 30.4 gravity oil from open hole at 1,390-411 feet.

The Meadows opener, Fortune Drilling Corp. No. 1 Meadows, was finalized Aug. 6, 1972, to pump 61.7 barrels of 42 gravity oil, with gas-oil ratio of 1,451-1, through perforations at 6,528-540 feet. It topped the San Andres at 2,130 feet on kelly bushing elevation of 2,665 feet.

RCC Names Co. Field

The Texas Railroad Commission, Oil and Gas Division has announced designation for two fields in District 7-C.

The Todlaw (Queen) oil field of Crockett County was opened July 31 with completion of C.F. Lawrence & Associates Inc., Midland, No. 1 Todd "G", 17 miles northwest of Ozona, for a calculated, absolute open flow of 940,000 cubic feet of gas daily, through perforations at 1,021-59 feet.

Location is 990 feet from the north and 1,667 feet from the east lines of 69-UV-GC&SF.

The Allison (Fusselman gas) field of Terrell County was opened Aug. 2 with completion of Texas Crude Inc., Houston, No. 1 Allison 8-C, nine miles south of Sheffield, for a calculated, absolute open flow of 226,000 cubic feet of gas daily, through perforations at 11,036-200 feet.

Location is 660 feet from the north and 1,980 feet from the west lines of 8-B-1-CCSD&RGNG.
