## Kitty's Korner

by  
Kitty Montgomery

Ozona's annual basketball tournament starts tomorrow and for three full days basketball fans can indulge to their heart's content. Not only boys basketball, but girls basketball will be on tap. This is a first for Ozona High School, having girls and boys at the same tournament. The girls will be playing with and against girls, of course, and boys the same. I believe it's set us for a girls game and a boys game, etc. We'll have the brackets in another part of the paper, if there is room.

kk  
The last couple of weeks I've suspected something or someone unknown of conspiring to keep me from writing this little tidbit. Last week one of the machines, the computerized headline setter and our newest, broke just as I was sitting down to put words on paper. Of course, this took all hands and all heads. Not that a one of us knows anything about the workings of this particular machine, but we all had to poke and peer when we took the top off it. After some discussion, I was elected to explore underneath the mechanisms (motors, pulleys, film strips and gadgets) and under a "Danger! High Voltage!" box, I found what we could only describe as "a little round thing." We knew this came off the machine and we knew the machine would not perform without it, but that was the extent of our knowledge. We have a book on maintenance, but it is written by an electronic computer technician for an electronic computer technician, so that didn't do us much good. I've always heard that a picture is worth a thousand words, and believe me, that is the gospel. While looking at the pictures in the manual, I saw the little round thing. It was attached to a flasher lamp in the middle of the film strip cylinder. Looking back in our machine, we could easily see that the little

**PECAN SHOW FOOD WINNERS**—First place winners in the various food divisions at the pecan show Tuesday were Suzie Everett, Betty Allen, Kaleta Shepperson, Doris Moore and

Nancy Hale. The winners were selected from 52 food entries in the show. [see story for complete results]

## Honor Roll Announced

The Ozona High School honor roll for the first quarter of the 1978-79 school term was announced by high school principal Jim Payne last week. To make the list, a student must have a 90 or better average and no grade below B- on his report cards. Band and P.E. grades do not count toward the average.

The freshman class led the list this time with 20 honor students, followed by the senior class with 16. The sophomore and junior classes each had 9 honor students. Making the list in the freshman class were: Varlyn Aldridge, Shelley Behrens, Ernie Borrego, Annette Cervantez, Mike Couch, Ampara Delgado, Felice Delgado, Esmeralda Enriquez, Elsa Fierro, Fernando Galvan, Thomas Gries,

John Justiss, Adolph Martinez, Jennifer Naron, Dugan O'Bryant, Larry Payne, Dale Perry, Jill Sanchez, Joyce Tambunga, Jack Thompson.

Senior class members making the honor list were Kathy Adams, LaDawn Adcock, Margaret Dominguez, Becky Everett, Jose Gutierrez, James Hearne, Janice James, D'Anna Koerth, Bobby Longoria, Teresa Martinez, Clair McDaniel, Tracey Preddy, Danny Sewell, Rocky Stephens, Wayne Sutton, Karen Warren.

Junior honor students included: Wade Beasley, Gay Burns, Chris Carlisle, Kristi Kirby, Ramon Maldonado, Jody Naron, Peri Pennington, Gregg Perry, Jeffrey Young.

Sophomores making the honor roll are: Tereca Carlisle, Lisa Hohertz, Tilly Kramer, Jesse Moreno, Kim Sinclair, Gary Smith, Kaye Thompson, Connie Trujillo, Molly Womack.

## Courthouse Lighting Completed

Night lighting of the courthouse was completed this week, a project of the Crockett County Historical Commission. The lights give a "moonlight glow" and the courthouse can be seen from highway 163 as well as from all sites on the west hill. The project was completed by Bill Cooper and Dudley McCary and his crew. Funds used were those left over from the Bicentennial projects.

## Preston Services In Eldorado

The baby boy died Thursday afternoon in Santa Rosa Hospital in San Antonio, where he had been flown shortly after his birth in the Eldorado hospital last week.

Graveside services for George Austin Preston, infant son of Mr. and Mrs. Richard Preston of Eldorado, were held at 10 a.m. Saturday in the Eldorado cemetery.

Survivors include his parents; two brothers, Trey Preston and Hunter Preston, of the home; his maternal grandparents, Mr. and Mrs. Charlie Applewhite of Ozona; his paternal grandparents, Mr. and Mrs. R.E. Preston of Eldorado, and a great grandmother, Mrs. S.A. Coose of Ozona.

## Kunkel Has Grand Champion

# 3rd Annual Pecan Show Results Told

The Third Annual Crockett County Pecan Show was another success this year. It was held at the Civic Center Tuesday. The show is sponsored by the Crockett County Program Building Committee. The chairman of this year's show was John Parks. The pecan division was judged on Monday and there were 68 entries in spite of the small pecan crop, however, this was well below last year's entries. Herb Kunkel's Western Schley variety was judged Champion in the Shelling Division and the Grand Champion of the show. Susie Childress's Burkett was Champion in the In-shell Division and Reserve Champion of Show. L.D. Kirby's John Garner was the runner-up Ed Hale's High School Native was Champion Native.

Prize money awarded was as follows: Herb Kunkel, \$50.00 for Grand Champion, Susie Childress \$35.00 for Reserve Champion, L.D. Kirby \$15.00 for Runner-up and Buster Deaton \$10.00 for

most pecan entries. Individual Class results were Burkett-Susie Childress, 1st; Tom Powers, 2nd, and Floyd Hokit, 3rd. Delmas-Dona Lilly, 1st; Bret Hood, 2nd; and Wendy Hood, 3rd. John Garner-L.D. Kirby, 1st; Buster Deaton, 2nd; and Otis Pride-more, 3rd. Mahan-Crystelle Childress, 1st; Buster Deaton, 2nd; and Lou Deaton, 3rd. Stuart-Buster Deaton, 1st; Lou Deaton, 2nd; Larry Bailey, 3rd. Success-Buster Deaton, 1st. Halbert-Gary Vannoy, 1st. Kincaid-June Henderson, 1st. Moore-Ola Mills, 1st; Donna Lilly, 2nd; Jana Lilly, 3rd. Western-Herb Kunkel, 1st; Tom Stokes, 2nd; and Bernice Jones, 3rd. Variety Seedlings-June Henderson, 1st; C.O. Spencer, 2nd; Tom Powers, 3rd. Native-Ed Hale, Ozona High School, 1st; Troy Williams, 2nd; Dub Stokes, 3rd.

A total of 52 food entries were prepared for the Third Annual Crockett County Pecan Show. Terri Mallory and

Kaleta Shepperson were awarded \$5 each for the most food entries. Complete results of the show include: Cake-Betty Allen, 1st; Doris Hood, 2nd; Nancy Hale, 3rd. Pie-Suzie Everett, 1st; Lou Deaton, 2nd; Kim Bishop, 3rd. Cookies-Kaleta Shepperson, 1st; Terry Mallory, 2nd; Kaleta Shepperson, 3rd. Candy-Doris Moore, 1st; Doris Moore, 2nd; Sherry Holt, 3rd. Bread-Suzie Everett, 1st; Linda Vancil, 2nd; Kaleta Shepperson, 3rd. Miscellaneous-Nancy Hale, 1st; Kristal Williams, 2nd; Debra Price, 3rd.

Other persons entering the show were Tina Moran, Marg Smith, Roberta Bailey, Janette Hill, Kathy Lee, Dennis Young, Katherine Russell, Hilda Powers, Earnestine Hokit, Karen Bailey, Tonya Stephens, Larry Bailey, Karen Bailey, Sandra Childress and Kim Williams.

Judging this year's show was the Senior Home Economics Class coached by Mrs. Barbara Baugh.

## Christmas Mailing Tips

Although some of the suggested mailing deadlines have passed, Postmaster Floyd Hokit gave some tips this week on mailing deadlines and packaging instructions.

Deadlines are coming up for priority mail, PAL. Priority to Alaska armed forces and Africa and Greenland armed forces deadline is December 9; to armed forces in the far east, Dec. 12, to the Caribbean, West Indies and Iceland, Dec. 14; and Dec. 16 for first class to armed forces in Alaska and Hawaii.

December 9, is the deadline for air mail packages to Europe and the Far East as well as airmail letters and cards to North, South and West Africa. Deadline for air

parcels to Caribbeans and West Indies, Dec. 14, is the deadline.

On the domestic mail scene, postal patrons are urged to mail as soon as possible to distant states. Packages to all Texas areas should be mailed by Dec. 15, for Christmas delivery, and cards and letters should be mailed as soon as possible.

Postal officials suggest when mailing packages, a good, sturdy box should be selected, well packed, and with an address label on the inside. If a good box is used and there is room on the outside for the address and return address, the package need not be wrapped with paper. The upper left hand

side of the package should contain the return address and the address should be placed in the center of the package. A good marking pen will do. Twine is not prohibited, but is not recommended, since it can tangle in mailing machines. A good reinforced tape is recommended for sealing packages. Brown, gummed tape is acceptable, while masking tape and scotch tape is not. "Good common sense in packing and wrapping parcels is the best advice we can give," Hokit added.

"Mainly," he added, "just pack adequately, use good packing boxes and close securely." Also, he said, "address properly and use the correct zip code."

# OHS Basketball Tournament Opens Thursday

Ozona's Annual Basketball Tournament gets underway tomorrow, Thursday morning with 16 boys and girls teams participating. This will be the first time Ozona has combined boys and girls teams in the tournament. The Lion Varsity will host the boys teams, while all three

Ozona girls teams will participate, due to lack of girls teams entered.

Activities get started in the morning at 10 o'clock with the Sonora and Wall girls opening the tournament. The opening game will be followed at 11:30 with a game between Iraan and Menard

boys.

The afternoon session will begin at 1 o'clock with the Big Lake girls playing the Ozona junior varsity Lionettes, followed at 3:00 by Coahoma and the Big Lake boys. The final game in the afternoon session will be between Menard and the Ozona freshman girls. Wall

and Sonora boys will start the evening session off at 6:30, followed at 8 by a game between the Big Lake girls junior varsity and the Lionettes. The first day's activities will close with a game at 9:30 between the Eldorado Eagles and the Ozona Lions. A full three sessions will

be played Friday with winners playing winners and losers playing losers. The first game to start at 9 a.m. Playoffs will start at 11 a.m. Saturday. Boys and girls consolation places will be decided in the morning session, third places in the afternoon session and the

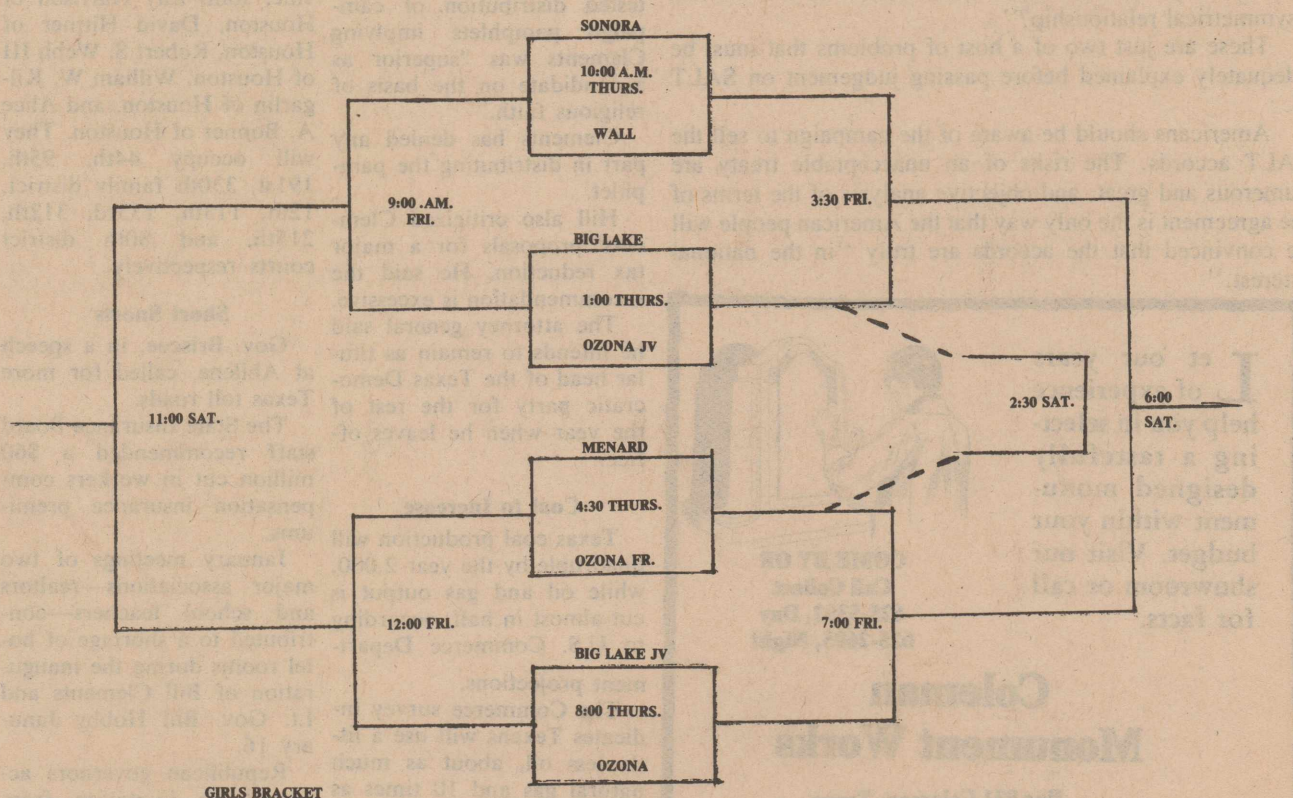

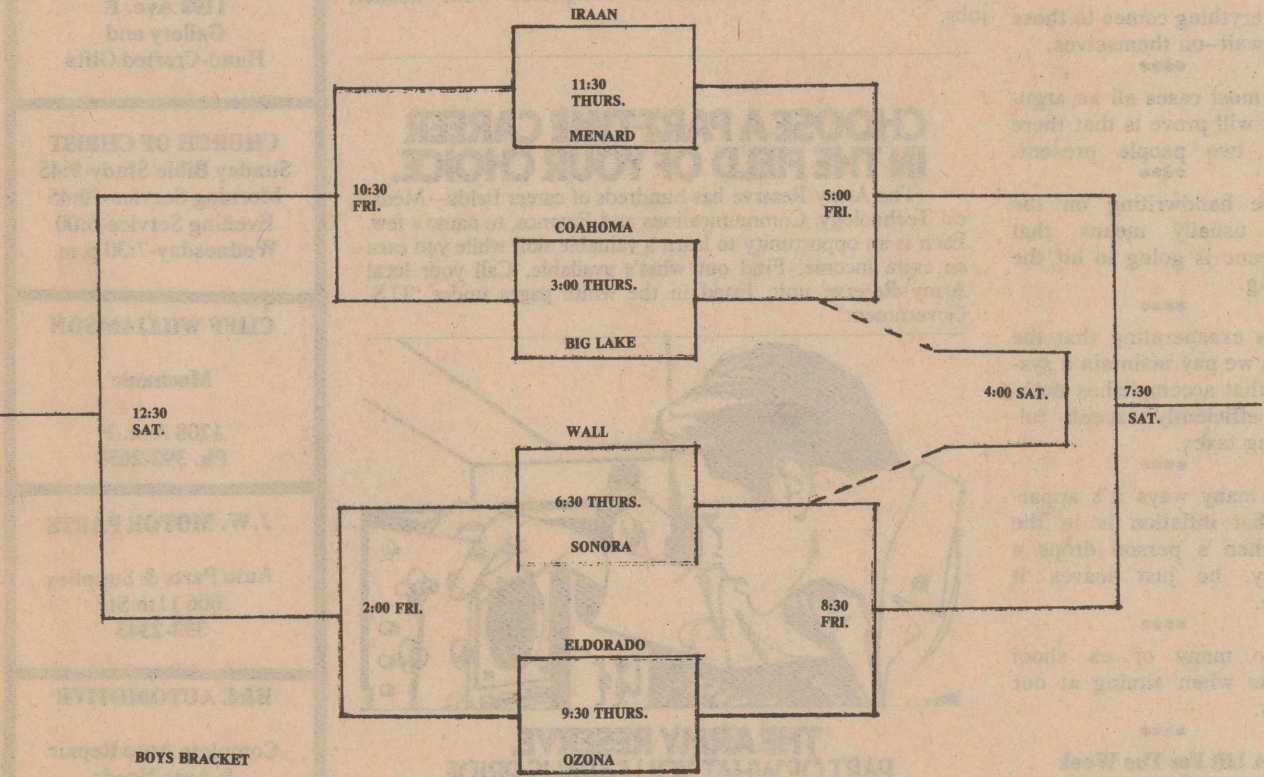

two championship games will be held at the night session, with the girls championship game slated at 6 and the boys at 7:30. Following the evening session, trophies will be presented and the all-tournament team selected.

Chick Womack and Pete Maldonado are in charge of

the gate and ticket sales. Prices are 50c for children and students and \$1. for adults for all sessions except the championship, which will be 75c and \$1.50.

The concession stand will be open for all sessions. Tournament directors are David Porter, Robbie Biggerstaff and David McWilliams.

Timekeepers are Winston Koerth, Steve Poage, Rip Sewell, Gene Hood and Frank Reavis. Scorers are Bob Wallace, H.O. Hoover, Jerry Ayers and Wayne Palmer. Officials for the tournament will be Luis Salinas, Mike Yell, Tom Moore, Howard Mann and James Brewer.

## The Heritage Foundation FORUM

### THE SELLING OF SALT

By Edwin Feulner

The Carter Administration is busily putting together a nationwide lobbying effort to "sell" the inevitable SALT II Treaty with the Soviet Union to the American people. But we must warn: don't buy a pig in a poke.

Despite the fact that the final proposal has not yet been agreed upon, the State Department, pro-SALT Administration allies on Capitol Hill, and Pentagon brass have all teamed up to convince the public that the SALT II accords are in America's best interests. But how can something that doesn't exist be preordained "in the public interest"?

According to Heritage Foundation's Michael B. Donley, editor of the *National Security Record*, "... the timing of the agreements seems almost doomed to follow the precedent set in the Panama Canal debate."

As Donley sees it, this means the Administration will "announce the agreement; build support for the 'diplomatic breakthrough'; then reveal the terms; and initial the agreements at a summit meeting — all while the Congress is in recess and the nation slumbers through the holiday season. When Congress reconvenes in January, the Administration's SALT campaign will have been long underway."

By that time — the Administration apparently hopes — the momentum will be too strong for a realistic appraisal of the accords. As Donley notes, however, "the difference between SALT and Panama ... is that there is very little chance that any terms of the agreements would be open for change or modification."

"Under these circumstances, the Administration will present the agreements as the 'best we could do,' and since SALT seems so wedded to 'detente,' it will no doubt appear that there is no alternative but to ratify the agreements." The opposition, however, is stirring and the debate is expected to shape up as one of the major foreign policy challenges to the Carter Administration.

Regardless of one's disposition towards the present Administration and its policies, it would certainly seem unwise to accept, on face value, their predetermined judgment that SALT II is in the national interest.

In fact, it would be a major disservice to the nation to allow the treaty to escape the most careful public scrutiny.

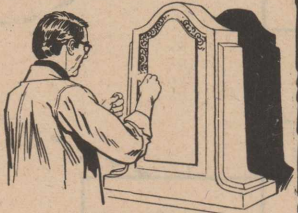

For example, in SALT I the Soviet Union was allowed higher limits on ICBM launchers and ballistic missile submarines than the U.S. Donley asks, "Are numerical limits applied equally in SALT II? If so, in order to evaluate the aggregate of forces allowed, one must know which systems are included and which are omitted, and what the characteristics of those systems are." Again, these are not just idle questions.

Another problem the Treaties will have to deal with is the approach to replacing old, worn out equipment. As Donley relates, "basically the same U.S. bombers and missiles have been in service for nearly 20 years. The major Soviet push in strategic weaponry is just now beginning to blossom. Under SALT constraints, how can the U.S. effectively modernize its forces? How does SALT deal with this asymmetrical relationship?"

These are just two of a host of problems that must be adequately explained before passing judgement on SALT II.

Americans should be aware of the campaign to sell the SALT accords. The risks of an unacceptable treaty are numerous and great, and objective analysis of the terms of the agreement is the only way that the American people will be convinced that the accords are truly "in the national interest."

## HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—Governor-elect Bill Clements proposes to recommend an effective \$2 billion worth of tax relief during his first two years in office.

Clements, planning transition and inaugural activities, announced his legislative program will assign high priority to a new \$1 billion tax reduction package.

But he emphasized that is in addition to the approximate \$1 billion worth of benefits to taxpayers—home and agricultural land owners, primarily—proposed in the tax relief constitutional amendment. The amendment, submitted by the legislature last August, was approved by voters November 7.

Gov. Dolph Briscoe, while cautioning that budget recommendations are still being developed, said he agrees with Clements that a significant tax reduction, in the range of \$2 billion, will be possible next year.

"In my opinion, there will be adequate funds for additional tax reduction," Briscoe said at a news conference. "I hope we have a cut in the range of \$1 billion—in addition to that called for by the tax relief amendment."

Clements indicated strongly he is leaning toward recommending that one cent of the sales tax (\$500 million a year) be applied toward forced reduction of school property taxes.

Another possibility, he conceded, is a flat reduction of one cent in the sales tax. The governor-elect also favors elimination of the state's 10 cent property tax for college building.

### Law Proposed

Attorney General John Hill contends Texas should have a fair campaign practices law.

If one had been in effect, Hill said, late-hour campaign tactics by supporters of Clements in their gubernatorial race would have overstepped it.

The attorney general protested distribution of campaign pamphlets implying Clements was "superior as a candidate on the basis of religious faith."

Clements has denied any part in distributing the pamphlet.

Hill also criticized Clements' proposals for a major tax reduction. He said the recommendation is excessive. The attorney general said he intends to remain as titular head of the Texas Democratic party for the rest of the year when he leaves office.

### Coal to Increase

Texas coal production will quadruple by the year 2,000, while oil and gas output is cut almost in half, according to U.S. Commerce Department projections.

The Commerce survey indicates Texas will use a little less oil, about as much natural gas and 10 times as much coal.

Gas production by 1985,

according to the study, may drop from seven trillion cubic feet to slightly more than six trillion. Oil production is expected to drop from four million barrels a day in 1976 to 3.3 million in 1985 and finally to two million by 2,000.

The forecast projects completion of coal slurry pipelines from Colorado and Montana to the Houston area in another two decades.

### Courts Speak

In reversing a minor theft conviction, Texas Court of Criminal Appeals held persons who do not speak English are entitled to interpreters during trial even if they fail to ask.

The same court reversed a Lubbock robbery conviction due to introduction of evidence acquired in an illegal search warrant.

It further reversed a life sentence assessed a LaPorte man in a forgery case and, threw out McKinney drug case convictions due to faulty instructions by the trial judge.

Texas Supreme Court reversed a \$7,500 insurance judgment in a case where a pilot who crashed his plane held medical and flying certificates issued after he made false representations concerning a heart condition. The finding upheld the trial court, which had been overruled in part by the Eastland Court of Civil Appeals.

Fourth Court of Civil Appeals reversed a \$3 million damage award against Southwestern Bell to a former company executive and the family of a deceased top official.

### Appointments Announced

Gov. Dolph Briscoe named Freeman B. Dunn of Porter and T.L. Roach Jr. of Amarillo to vacancies on the Texas Board of Corrections. Briscoe also named these judicial appointees: P. Oswin Crisman, Kenneth C. Kippel, Joan T. Winn and Steven G. Condos, all of Dallas.

Erwin G. Ernest of Huntsville, John Ray Harrison of Houston, David Hittner of Houston, Robert S. Webb III of Houston, William W. Kilgarlin of Houston, and Alice A. Bonner of Houston. They will occupy 44th, 95th, 191st, 330th family district, 12th, 113th, 133rd, 312th, 215th, and 80th district courts respectively.

### Short Snorts

Gov. Briscoe, in a speech at Abilene, called for more Texas toll roads.

The State Insurance Board staff recommended a \$60 million cut in workers compensation insurance premiums.

January meetings of two major associations—realtors and school teachers—contributed to a shortage of hotel rooms during the inauguration of Bill Clements and Lt. Gov. Bill Hobby January 16.

Republican governors accepted an invitation from Clements to hold their 1979 national meeting in Texas—

## The News Reel

A re-run of "The Ozona Story"

as gleaned from the files of "The Ozona Stockman"

Thursday, December 8, 1949

Handel's "The Messiah," will be presented at the Methodist Church this next week. The Ozona Music Club will sponsor the cantata presented by a community choir. 29 yrs. ago

More than a hundred pupils of the high school speech classes and choral groups will appear in a Christmas pageant to be presented in the high school auditorium. Mrs. R.J. Adams will direct the choir. 29 yrs. ago

Davidson roping is set for opening next Thursday. 29 yrs. ago

An Ozona student is a nominee for TCU Class Favorite. He is Chris Perner. 29 yrs. ago

Sheriff and Mrs. V.O. Earnest suffered slight injuries when their car was struck by a truck near Balmorhea. 29 yrs. ago

Christmas lights will be turned on here Friday night. The spirit of Santa has invaded the city as decorations go up. 29 yrs. ago

"The Skeleton Walks" is the title of the junior play to be presented soon. K. Parker, Darrene Thompson, Marjorie Parrish, Bobby Halydier, Ruth Sparks, Alton Smith, Betty Sue Maddox, Hallie Kinser, Betty Maness, and Betty Knox are members of the cast. 29 yrs. ago

Mrs. Ruth Williams is the new music teacher at Ozona Junior High. 29 yrs. ago

Student of the week is Marjorie Parrish, a junior. 29 yrs. ago

The High School faculty defeated the Ozona Lions in a closely fought basketball game last Saturday. 29 yrs. ago

Judy White and Tommy Laxson were chosen Most popular girl and boy in high school and Jo Lou Brewer and William Meinecke were chosen most beautiful and most handsome. 29 yrs. ago

JOHN TOWER

### Regulation or Strangulation

WASHINGTON—You wouldn't think that one of America's fastest growing industries would inspire such hatred.

But when that industry is government regulation—and its growth is strangling business and taxpayer alike—today's largely vocal opposition may yet break out into open revolt.

And well it should. Regulation at all levels of government has grown by leaps and bounds. At the Federal level, the growth has been uncontrollable, and the American taxpayer is paying for the cost, a cost rising more rapidly than the budget as a whole, more rapidly than the population, and more rapidly than the gross national product.

No one is more aware of the escalating costs associated with compliance with government regulation than the small businessman. He confronts the red tape and its rising costs on a daily basis.

Currently, there are over 4,400 different Federal forms that the private sector is required to complete each year, which consumes over 143 million worker hours.

The Federal Paperwork Commission estimates that the total cost of Federal paperwork on the businessman is in the \$25-\$32 billion range. It also declared that "a substantial portion of this cost is unnecessary."

But regulation's long arm reaches consumers in other ways. Federal, state, and local regulatory requirements impact on the potential homeowner, for example, who pays between \$1500 and \$2500 more when purchasing a new home because of regulation. A conservative estimate of the added cost to homeowners in 1977 came to some \$4 billion.

Federally ordered safety and environmental features increased the cost of new passenger cars in 1978 by over \$650. This means that compliance costs the auto-buying public \$7 billion in the form of higher priced cars.

Consumers everywhere pick up the tab. The aggregate cost of complying with Federal regulation amounted to almost \$63 billion in 1976, or over \$300 for every man, woman, and child in the country.

The ripple effects of such costs cannot help but impact on such economic indicators as unemployment, growth of the capital market, and business expansion.

One of the most destructive examples of government intervention on the exercise of the free economy can be seen in the recently passed minimum wage increase. It priced hundreds of thousands of people out of the labor markets and carefully documented research has shown that minority teenagers have suffered disproportionately as a result.

Forced compliance with Federal environmental, safety, and other regulatory requirements has been a principal factor in the decline of business expansion, and indeed many industrial facilities have chosen to shut down rather than continue to absorb losses attributed to regulation. Along with those closed-down businesses went needed jobs.

## Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Take time to enjoy the holidays—December is the only month of real rest from gardening. That is because other interests push our gardening enthusiasm to the background. Not that there aren't plenty of chores to do. You can start dormant spraying, proceed with winter pruning, and start all types of tree, shrub, fruit and rose plantings. The continuous job of cleanliness that comes from the falling of leaves is always with us. These can be delayed, but with county clean-up and pick-up coming soon, you may want to take advantage of this, so have your trash ready when date is announced.

Many of you may consider giving landscape plants for Christmas gifts, and I'm sure nothing would be more appreciated.

Berries brighten the well-landscaped home. Burford holly, pyracantha and the beautiful tree holly, add greatly to the festive holiday season. Burfords always seem to need pruning, so it doesn't hurt to take those holly berries inside. The green of magnolia leaves is unsurpassed in a spray or wreath.

Maybe this is a time of taking stock, measuring successes and failures, noting new practices, deciding which varieties are worthwhile for next year's plans.

We've just been through quite a year. First, the coldest winters, this and last year and then the summer with its drought has caused many to replace plants.

Up to now we have not had but one good soaking rain, so if no more moisture soon, don't neglect watering all your evergreens. Though many think they don't need winter watering, maybe the cause—especially if ground is cracked and the air gets to the roots. Winter seed harvest has begun. After collecting seed pods of red-bud, soak the seeds overnight, then store in a plastic bag in the crisper of refrigerator for three months before sowing them in flats. Others treated the same are barberries, and sweet shrub. Seeds that need no cold treatment can be sown as soon as they are ripe.

## Miss Henderson Honored At Gift Tea Saturday

Miss Virginia Henderson, bride elect of Jack Baggett, Jr., was honored with a gift tea Saturday, Dec. 2, in the home of Mrs. Lowell Littleton.

Other hostesses were Mrs. Billy Carson, Mrs. H.M. Phillips, Jr., Mrs. P.L. Childress, Jr., Mrs. James Dockery, Mrs. Bob Bissett, Mrs. Ted White, Mrs. Jeffrey Sutton, Mrs. C.O. Walker, Mrs. Gene Perry, Mrs. L.D. Kirby, Mrs. Ernest Dunlap, Mrs. Fred Hagelstein, Mrs. J.J. Marley, Mrs. Foy Moody, Mrs. Bonnie Warth and Mrs. Jess C. Marley. The bride's chosen colors of old rose and ivory were used in floral arrangements throughout the home. Arrangements of roses, carnations and mums were used.

Receiving guests were the honoree; her mother, Mrs. John L. Henderson, Jr.; mother of the bridegroom, Mrs. Jack Baggett, and the bride's grandmother, Mrs.

T.J. Bailey.

Members of the houseparty included Mrs. David Bean, Mrs. Boyd Clayton, Mrs. Roy Henderson, Miss Jeannine Perry, Mrs. Eldred Roach, Mrs. Rick Webster, Mrs. Massie West, Mrs. Jack Williams and Mrs. Steve Wilkins.

Also in the houseparty were Miss Kathleen Slaughter, Miss Melinda Johnston, and Miss Jamie Farr of Georgetown, Mrs. Pierce Miller and Camille, Mrs. LaNelle Manuel and Mrs. O'Neal Dendy, all of San Angelo, Miss Julie Crain of Austin, Mrs. Lad Linthicum of Barnhart, Mrs. Leslie Terry of Del Rio, Mrs. Ted Weatherford of Miles and Mrs. Perry Demere of Abilene.

Other out of town guests included Mrs. Richard Beane and Mrs. J.D. Harper of Eldorado.

Ninety guests attended during the tea hours.

## 3 Homes Featured In Tour

The Christmas Homes Tour, sponsored by the American Cancer Society, Dec. 14, will feature three homes of distinctive styles and architecture.

The R.N. Aycock home at 114 Country Club Drive is of Spanish and Indian styling, typical of New Mexico and Arizona. Mr. and Mrs. James Childress' home at 602 Angus is a traditional style, featuring native stone and tile roof. The L.B. (Bud) Cox, III, home at 906 Ave. J is New England architecture, furnished in a traditional manner.

The annual event will be held from 7 until 9 p.m. and participants may visit any home during these hours. Tickets are \$2 per person and may be purchased at Maxine's, Village Drug, Teacher Store, Happy Hollow, Small Fashions, Ozona Boot & Saddlery, and South Texas Lumber Co. Tickets may also be purchased from Cathy Carson-Special Events Chairperson for the Crockett County Chapter of the American Cancer Society.

## Toy Exhibit Unveiled At Christmas Party

The Holiday Spirit came alive in Ozona Monday evening when an exhibit of antique toys and dolls was formally opened at the Crockett County Museum. Members of the Crockett County Historical Society and volunteer workers at the Museum, under the direction of Mrs. P.L. Childress, Museum Director, were greeted by Luminarias outside the entrance and a festive, native cedar Christmas tree inside.

The tree was gaily decorated with strings of cranberries and popcorn and numerous red and print calico bows. A red carpet led to the Museum proper where some sixty-five members and guests viewed numerous antique toys and family mementoes more than fifty years old. Backdrops of green felt and large vases of fresh holly added to the holiday decor.

The refreshment table in the hallway was covered by a green calico print cloth with a centerpiece of red apples and pine sprigs in an antique wooden bread bowl. Delicious sandwiches, cookies, nuts, dips, hot punch and coffee completed the spread.

A very popular feature was the serving of cheese and crackers from the old Meier store cheese cutter which is part of the Museum's permanent Country Store display.

The main exhibit featured china and bisque dolls, tea sets of china and pressed glass, toy banks, marbles, large toy trucks, small iron cookstoves, a tricycle, doll cradles and buggies, children's rocking chairs and other small toys treasured in many homes.

The public is urged to visit

### VIRGINIA HENDERSON

Bride Elect of Jack Baggett, Jr.  
has made selections in Housewares at

the Museum and enjoy the exhibit which will be on display until March 1, 1979. Regular hours are 2:00-5:00 p.m. each day. Special hours for groups may be arranged by contacting either Mrs. Childress or Mrs. Violenne Stanton, Museum Hostess. The Board of Directors of the Crockett County Museum expresses its appreciation to Mrs. Childress and the many volunteers who gave hours of work to make the evening special and wishes a continued 'Happy Holiday Season' to one and all.

## Mrs. Black Is Bridge Hostess

Mrs. Charlie Black was hostess for the Country Club Bridge Club Thursday at the club.

Winning high was Mrs. J.B. Parker. Second high went to Mrs. Dave Matney, and low to Mrs. Hugh Childress. Mrs. Evart White won the bingo.

Others playing were Mrs. Clay Adams, Mrs. George Bunker, Mrs. Billy Carson, Mrs. Joe Friend, Mrs. Bruce Mayfield, Mrs. Beecher Montgomery, Mrs. Kirby Moore, Mrs. Hillery Phillips, Mrs. Sherman Taylor, Mrs. Byron Williams, Mrs. Charles Williams, Mrs. Gene Williams, Mrs. Jack Williams, Mrs. John Childress, Mrs. Brock Jones, Mrs. John R. Hunnicutt, Mrs. Jim Bob Bailey, Mrs. Tommy Harris and Mrs. Eddie Arnold.

## Debra Says

by Debra Price

Plan ahead for holiday meals—and stay "sane and merry."

Prepare chicken for dinner—and cook extra chicken meat for a casserole to freeze and have ready for unexpected company or a last-minute meal.

Have packaged seasonings on hand to dump into cottage cheese and blend for a quick dip.

Buy a supply of low-calorie crackers to use as dippers.

Stash away canned and frozen fruit juice and ginger ale for quick-to-mix punch. Check pantry and freezer to see that a supply of foods from each of the basic four groups of foods are ready and available for putting together nutritious meals.

Have a supply of non-fat dry milk and canned milk to fall back on if fresh milk supply runs out unexpectedly.

Keep canned meats such as chopped meat, boned chicken and canned tuna on hand for quick sandwiches.

Have a supply of canned and frozen vegetables and fruits, such as green beans, asparagus, peaches, apricots and pineapple, in stock.

Preparation takes little time and effort.

Store a variety of ready-to-eat cereal on the shelf and an assortment of breads in the freezer.

Buying foods ahead when there's time to plan for the purchases and time to store them so they are in easy reach will make for a merrier holiday season of good cheer.

### FESTIVE CHEESE BALL

1 (16 oz.) pkg. process cheese spread, softened  
1 lb. sharp Cheddar cheese, softened  
1 (8 oz.) pkg. cream

cheese, softened  
4 cloves garlic, minced  
½ cup chopped pecans or walnuts

Chopped pecans or walnuts or paprika and minced parsley

Combine cheese, mixing until well blended. Stir in garlic and ½ cup chopped pecans. Divide mixture into 3 equal portions and shape into balls. Roll each ball in nuts or paprika and parsley. Yield: 3 (1½ cups) cheese balls.

### HOLLY CHEESE BALLS

4 (3 oz.) pkgs. cream cheese

2 small jars Cheddar spread

6 ozs. Blue Cheese

2 tablespoons grated onion

1 teaspoon Worcestershire sauce

½ cup ground nut meats

¼ cup parsley

Mix cheese, onion and Worcestershire sauce. (Have ingredients at room temperature and use blender if you have one). Add chopped nuts and parsley and blend. Shape mixture into ball and

chill for several hours. Shape into small balls (using about 1 teaspoon cheese mix), roll in additional chopped parsley. Place balls in plastic freezer bag or carton and store until 20-30 minutes before serving them. Very festive addition to your hors d'oeuvre tray or salad plate.

Guests on the Ted White ranch over the weekend were their son and his family, Mr. and Mrs. Mark White, Kay Lynn and Teddy of San Angelo and Dr. James Landeen and son, Todd, of San Antonio.

## When Kathy Prays

When Kathy prays I can almost hear angel wings flutter. Her simple conversations with God are so full of trust and confidence, I feel as though I am standing at the doorstep of heaven.

After prayers, I tuck her into bed, turn out the light and go downstairs. And I find myself continuing the conversation she has started. My prayer is always the same . . . that as she grows, and her needs and wishes change, my little girl will continue to develop her understanding and love of God.

How grateful I am for my church. It has been a constant source of inspiration for my own religious growth. I know it will be ready to help me answer Kathy's questions. It is wonderful to know that I do not have to tackle the religious education of my daughter alone.

Attend your church. Let it help you as you guide your child's religious thinking.

## Crockett County Care Center News

by Joan Nicholas

Activities Program Director

In lieu of the usual Sunday afternoon service, Mrs. Larry Bailey and Sara Hight brought a small group of their Sunday School children on Sunday morning. Their program was in celebration of the first Sunday of Advent as we look forward to the anniversary of the birth of Christ. They are, of course, from the United Methodist Church.

I wish that I could have been there to welcome them, but I was involved in my Episcopal church in Sonora at the time. We do have a picture for the album of the group, with the Advent candles.

We had fun in the dining room this Monday morning as, once again, a couple of our ladies challenged the men at dominoes and, as I predicted last week, they won. Verna Talley was the one with the highest all round score, and Opal Eversole cinched their victory over the menfolk. Mike Pena and Swede Lundgren accepted their defeat as true sportsmen!

Nita DePriest and partner Paul Cavin won the forty-two game played with Eleanor Yeager and Frances Tolson.

### Notice of

### REWARD

Newest Americans' learning about three families from Vietnam, of different educational backgrounds, and how they are succeeding in this, their new country. It seemed a timely piece to read considering the news we are currently hearing about "the boat people" and their plight in seeking refuge from their communist dictators.

No! We don't just sit around playing games, or dozing all the hours away at the Center. My goals are many, and one of them is to offer as many new and acceptable learning experiences as possible, to maintain maximum interest in living; (finding those which appeal to the majority isn't always easy,) also stimulating interest in current events, which contributes to alertness of minds. We also try to alleviate loneliness by promoting social contact within the nursing home itself, which also helps new residents adjust quicker to a totally different lifestyle. One of my greatest joys is to see a new friendship unfolding and, in addition, to witness as I am, the growing ability to be able to laugh at oneself when the occasion arises. As we travel along life's way we also find an increasing need for spiritual fulfillment, and this, too, is kept in mind.

May I make an appeal for some Bingo volunteers to help residents watch their cards on Tuesday evenings from 6:30 to 7:30 p.m. and Friday mornings from 10 to 11 a.m.? Please call me, or Auxiliary president, Carol Carlisle, if you can spare us an hour.

Come by any time, of course, and visit with us during the Christmas season.

## Public Notice

### PUBLIC NOTICE

We are seeking authority from the Public Utility Commission for an upward adjustment of rates to recover part of the (approximately) 15% increase we have experienced in our costs for equipment, labor and utilities with which we serve our subscribers. If granted, the adjustment will be effective January 1, 1979.

# Education Helps Diabetics Survive

By the Texas Medical Association

A Texas team is stressing education for diabetics, their friends and families in order to help diabetics survive. The team's techniques also help hold down health care costs.

Writing in the November issue of Texas Medicine, the Texas Medical Association's (TMA) monthly journal, the team outlined a study they did of two groups of diabetics for five years. The group educated by the team had to go to the hospital fewer times and saved approximately \$41,000 in hospital costs, plus office visits and other fees. After adequate education, one patient's total costs dropped more than 75 percent.

This program obviously helped diabetics but also benefited the public. Unused hospital facilities were available for other patients and taxpayers saved whatever costs Medicaid and other programs would have paid.

The team, headquartered at the pediatrics department of The University of Texas Medical Branch at Galveston, stressed teaching diabetics physical facts, coping skills and proper attitudes.

The American Diabetes Association has said friends and families of diabetics also need to know about the disease. In fact, with more than one million undiagnosed diabetics in the U.S., knowledge is necessary for everyone's health because an estimated one in five will get diabetes eventually.

Diabetes mainly strikes people in the following categories: those who are overweight, those related to diabetics, those who are over 40, and women.

The most common symptoms include excessive thirst, frequent urination, constant hunger, weight loss, itching, blurred vision

and slow healing of cuts. However, some diabetics, especially those who are older, have few symptoms because of the slow progress of the disease. Luckily a physician can give several simple tests to help detect diabetes.

Once diabetes is diagnosed, it often can be controlled by a combination of diet and exercise. But sometimes oral drugs or insulin injections are necessary.

Patients can be taught to use these techniques to manage their disease and live full, active lives. But diabetics also need support from family and friends. TMA said people should understand and support some diabetics' needs to eat proper foods at regular times, take injections, test urine and practice other management techniques.

Being able to recognize an insulin reaction also is important. The diabetic usually can tell when the body's blood sugar drops too low and the person then can eat something with a high sugar content. But companions also should be alert for a diabetic's insulin reaction symptoms such as weakness, trembling, double vision, drowsiness, slurred speech, sweating and extreme hunger. Symptoms can progress and include confusion, awkwardness, hostility, and unconsciousness. This condition, which can happen in minutes to hours, sometimes is mistaken for drunkenness.

Diabetic coma, which develops in hours to days, needs to be treated by giving insulin, not sugar. Symptoms of oncoming coma can include fruity smelling breath, vomiting, heavy breathing, flushed skin, frequent urination and unconsciousness, a diabetes association spokesman said.

Touch Calling now available in most areas.

### Looking for a Christmas gift idea with a special ring to it?

This Christmas, why not surprise someone you love with a very special phone of his or her very own.

We have so many different ones to choose from. Each with its own unique style and character to express the person (and personality) you have in mind.

# Texas Sheep

&

# Goat News

The federal government spends millions of dollars warning people of the hazards of high blood pressure, then turns right around and spends more of our dollars printing such garbage as the recently-released "Golden Eagle Management Plan", guaranteed to raise blood pressure at least 50 points.

Texas Sheep and Goat Raisers' Association president Norman Rousselot described the plan as "totally inadequate". Rousselot says it's "absurd that the Department of the Interior expects sheep and goat producers of Texas to try to protect their livestock in the manner described."

Just what manner is described? Essentially nothing. The "plan" concentrates almost entirely on increasing eagle numbers. Most of the balance of the paper is given over to outlining ways of increasing law enforcement in eagle country, and only as an afterthought do the Interior staffers address the real problem--that of golden eagle depredation on livestock.

The paper lists six alternatives: first, do nothing about anything; second, issue kill permits for depredating eagles; third, provide federal compensation for stock losses; fourth, provide insurance for stock losses; fifth, continue the current (non) program; and sixth, develop and implement a golden eagle management plan. This last item is more than a little strange because the publication it's printed in is supposed to be just such a plan. But never mind.

Only the last two options are actually recommended. The option of issuing kill permits is soundly denounced and was apparently included only as an excuse to do so. Permits were, by the way, recommended by Interior's field staff (the only ones who know anything about eagles) but vetoed by the brass.

TS&GRA's executive secretary, Bill Sims, says Interior Secretary Cecil Andrus "just ignored his field people and did what was politically attractive to him."

As for continuing the existing program, page 11 of the "plan" says this will include "hazing techniques such as aircraft, rockets, explorers, recorded distress calls, distress chemicals and other sight and sound repellants." Live trapping and relocation "may" be included.

Three pages later the report states that these same techniques "have not been effective for reducing eagle depredations to an acceptable level," which is obviously why they will be allowed.

What, then, do they propose? More study. Oh, yes, they also presume to tell stockmen how their land should be used and their livestock managed. On page 10 of the report, the bureaucrats have the audacity to tell producers that they must "plan lambing dates to avoid eagle migrations!"

Undoubtedly the most infuriating thing about the "plan" is its obviously antagonistic attitude toward producers. On page five the planners state that depredation control assistance "will be commensurate with

the number of requests" for that assistance. In plain English this means that no assistance, not even the next-to-nothing kind they propose to give, will be offered without a whale of a demand for it.

The first item under "law enforcement" however, requires Animal Damage Control personnel to notify law enforcers "of all requests for assistance." In other words, the only way a producer can get any help at all is to hound ADC about his problem, thereby setting himself up to be watched like a hawk (pardon) by the law enforcement people.

Considering the type of assistance he can expect to receive, the producer will still have the same problem after he receives it. If he then becomes frustrated enough to break down and help himself, the law enforcers will be forewarned and waiting to cart him away.

In the end there are likely to be precious few requests for assistance/surveillance and the Interior boys can chirp, "See, there've been no requests so there must be no problem."

Lest anyone entertain the notion that this surveillance idea is more paranoia than probability, a paragraph from page 13 of the report should clear up any doubts. Says the report, "Undercover efforts to detect illegal eagle shooting and/or poisoning would be undertaken in suspected problem areas."

Simply stated, the "Golden Eagle Management Plan" is a spiteful slap in the face to livestock producers and definitive proof that federal Interior brass don't give a flying squat about the losses "their" predatory birds inflict on someone else's property and livelihood.

TS&GRA's Sims say of the report, "It's amazing how little a group of well-educated grown men can do if they put their narrow minds to it."

## Cattle Brand Search By A&M In Progress

The search continues throughout Texas for outstanding cattle brands to include in another chapter of their history by "burning 'em in" Texas A&M University's "branded stairway".

L.A. Maddox, chairman of the unique branding project, said that some 3,500 brands, or more, are expected to be imprinted on the 254 "county oak panels" in the University's new \$9.5 million Robert J. Kleberg Animal and Food Sciences Center.

"County Extension agents are working with their local beef cattle committees to select eight brands per county, and with historical societies to select other brands for the panels," Maddox, Texas Agricultural Extension Service

beef cattle specialist, said. "We now have slightly more than 500 burned in."

There are some 200,000 brands recorded in Texas and on file with the Texas and Southwestern Cattle Raisers Association in Fort Worth. This is the state's most complete record.

The "branding" was an idea of Dr. O.D. Butler, for many years head of Texas A&M's Animal Science Department and now associate vice president for agriculture and renewable resources. He said that not only are cattle brands a rich part of Texas livestock history but a prized possession of ranchers in identification of their cattle.

"We felt that the branding ceremonies would bring

about a closer tie-in between cattlemen and our animal science facilities on campus as well as with research and educational work throughout Texas," Butler said.

Application of the brands was initiated last June during a meeting of directors of the Texas and Southwestern Cattle Raisers Association. Officials of other livestock groups also are being invited for a "branding party".

Maddox said that branding ceremonies also will be conducted by Extension district groups until "all panels are branded." This probably will be about next April 2-3 when the annual Texas Animal Agriculture Conference is staged at Texas A&M.

Mrs. James Dockery spent the weekend in San Marcos visiting her daughter and her husband, Mr. and Mrs. Dane Vickers.

## Weekly Fur Report

By Bill Williams

Although buyers are anxious to take on a certain amount of fresh collection furs which are needed to finish out this manufacturing season, only limited amounts have sold on the New York fur market.

Because of cost, the best demand is fur items buyers can make a quick turnover on. Raccoon, Red and Grey Fox, Coyote, and Bobcats, are good selling furs. Ringtail which got so high last year has not been selling and a readjustment of price has to take place. Today's prices for furs in our area are as

follows:

Lynx Cat, \$80-100; Bobcat, \$55-75; Wildcat, \$45-55; Grey Fox, \$20-\$30; Red Fox, \$30-\$40; Ringtail \$3-\$6; with some out of town buyers going slightly higher but they are expected to drop their opening prices. Raccoon, \$8-\$20; opossum, \$1-\$2.50; Skunk, \$1-\$2.

These prices are subject to change without notice but should be used only as a guide to the seller.

Furs that are fresh, prime and well taken care of bring the highest price. Dry, poorly taken care of and blue pelts bring the lowest price.

## Hay Needs To Be Tested

Hay is now being fed in many areas of the state, yet most producers do not know the quality of hay they have. Since much of the 1978 hay crop was of low quality due to dry conditions, producers should consider having their hay tested.

A hay test to determine the protein content is helpful in several respects, points out Al Novosad, forage specialist with the Texas Agricultural Extension Service. Protein content relates to production practices which influence quality, such as maturity and fertilization, and also provide a guide as to feeding such hay according to its nutritional value.

Different classes or types of beef cattle have different nutritional requirements, emphasizes Novosad. Animal nutritionists say that beef cattle cannot meet their requirements for protein when hay is 7 percent crude protein or below. Yet a recent summary of hay tests

conducted for producers by the Forage Testing Service at Texas A&M University revealed that 39 percent of the Coastal bermudagrass hay tested 7 percent or below. The summary also indicated that more than 65 percent of such hay as bahiagrass, sudan, sorghum, bluestems and Johnsongrass tested 7 percent crude protein or below.

A hay test for protein is therefore encouraged because of the variability, says Novosad. Hay samples can be tested at several public and private laboratories over the state, including the A&M Forage Testing Service. County Extension agents have information for submitting hay samples for testing at Texas A&M.

## Lock Up Gifts When Shopping

Lock Christmas gifts in the car trunk during shopping trips, advises a consumer information specialist.

Packages left inside a car "on display" make tempting items for thieves--even if the car is locked, warns Claudia Kerbel.

Mrs. Kerbel is with the Texas Agricultural Extension Service.

For those who must leave the car for only a few minutes--and who feel they cannot take time to lock gifts in the trunk, be sure to close all the car windows and lock all the doors.

It is risky, also, to depend on an insurance policy to cover any loss from stolen property, unless that type of coverage is actually part of the policy.

A loss may be covered in a homeowners "package" policy, and it may be covered if the shopper has a personal-property floater type of policy.

However, the loss may be covered only if the thief forces the vehicle open in spite of locked doors, windows and other openings.

# Crockett County Oil & Gas News

Champlin Petroleum Co., Midland, No. 1 Todd, Crockett County Grayburg oil discovery, 1 1/4 miles south and slightly west of the Todd, Southwest (Grayburg and multipay San Andres oil) field, but separated by failures, 3 3/8 miles southeast of the Soma gas opener and lone producer from that pay in the Double R (Cinoidal oil and Soma gas) field of Crockett County, 22 miles west and slightly west of Ozona, was finalized for 40 barrels of oil, gravity unreported, with gas-oil ratio of 500-1.

Production was through perforations at 2,045-257 feet, which had been acidized with 500 gallons.

Drilled to 8,000 feet in the Ellenburger, with 4 1/2-inch casing set at 7,194 feet, it tested through perforations at 6,994-7,034 feet.

Location is 2,173 feet from the north and 787 feet from the west lines of 5-YZ-EL & RR.

The Double R field also formerly produced oil from the Grayburg.

Anderson Petroleum, Inc., Ozona, will drill five more 7,500-foot projects as gas wildcats at 2,100-4,700 feet and as outposts to Canyon gas production at 5,800 feet in the Ozona multipay field of Crockett County, 30 miles southwest of Ozona.

The No. 2-29 Moody Minerals "R", 1 3/8 miles south of Canyon gas and 3 1/4 miles southwest of Clearfork gas in the Ozona field and one mile north of a long northwest extension to the Euleone (Wolfcamp gas) field, is 1,979 feet from the south and 1,150 feet from the east lines of 29-MM-T&STL. Ground elevation is 2,247 feet.

The No. 3-29 Moody Minerals "T", 3/4-mile south of Canyon and 2 5/8 miles southwest of Clearfork gas in the Ozona field and 1 5/8 miles north of production in the Euleone field, is 661 feet from the north and east lines of the same section. Ground elevation is 2,272 feet.

The No. 2-13 Elmer Hoover Hatton Estate "J", one

mile north-northwest of Canyon and 2 5/8 miles west of Clearfork gas production in the Ozona field, is 1,979 feet from the north and east lines of 13-MM-T&STL. Ground elevation is 2,154 feet.

The No. 2-14 Elmer Hoover Hatton Estate "K", two miles west-northwest of Canyon gas in the Ozona field and three miles east of Clearfork gas in the American (Canyon, Strawn, Wolfcamp and multipay Clearfork gas) field, is 1,979 feet from the south and 1,705 feet from the west lines of 14-MM-T&STL. Ground elevation is 2,381 feet.

The No. 3-23 Moody Mineral "P", 3/4-mile southeast of Canyon gas and 1 7/8 miles southwest of Clearfork gas in the Ozona field, is 1,979 feet from the south and 1,600 feet from the east lines of 23-MM-T&STL. Ground elevation is 2,287 feet.

It is 1/2-mile north of the firm's previously scheduled No. 3-23 Moody Minerals "P", which will be amend-

ed to No. 4-23 Moody Minerals "S".

The firm has 17 other projects in the vicinity filed as shallow gas wildcats and as Canyon tests in the Ozona field. Several have been completed, however, none have been completed in any zone, other than the Canyon.

The Live Oak (Strawn gas) field of Crockett County was extended 3/4-mile northwest with completion of Dan J. Harrison, Jr. Houston, No. 11 Joe Tom Davidson, Jr., eight miles south of Ozona, for a calculated, absolute open flow of 1,540,000 cubic feet of gas daily.

Production was through perforations at 9,080-177 feet, which had been acidized with 7,500 gallons.

Drilled to 9,496 feet, 4 1/2-inch casing was set at 9,363 feet.

Location is 1,980 feet from the north and west lines of 7-F-GC&SF.

One of the field's producers is dually completed with the 7890 Pennsylvanian gas zone in the Davidson Ranch multipay gas field.

## Money Management Tips

### INCREASING SUPPORT

One requirement for claiming someone as a dependent is that you must have provided more than half of that person's support for the tax year. If you are falling short of meeting that requirement, you might consider increasing your support in the remaining weeks of 1978.

### SO IT'S NOT A TOTAL LOSS

If you have been thinking about selling off a capital asset that has dropped in value since you bought it, remember that selling it by year's end may help save taxes for you on your 1978 return. You might be able to use a portion of the loss to offset some income.

### THERE'S still time

It's not too late to take steps that may help reduce your 1978 income tax bill. For example, if you're planning to itemize deductions, you can pay bills for deductible expenses that might otherwise not get paid until after the New Year (medical and dental services, charitable contributions, certain state and local taxes). And you might be able to delay some income until 1979.

### CHOOSING THE RIGHT SAVINGS ACCOUNT CAN MEAN EXTRA DOLLARS EARNED

When opening a savings account, it's useful to recognize the distinction between "day-of-deposit-to-day-of-withdrawal" accounts and "grace days" accounts. The former allows you to withdraw funds before the end of a quarter and still be paid interest on that money

for the time it was in the account. A "grace days" arrangement permits you to earn interest from the first of the month on money deposited after the first. Both pay the same rate of interest, so choose the account that best suits your savings habits.

### LOWERING CREDIT COSTS

One way to reduce credit expenses is by taking advantage of passbook loans. Typically, a savings bank or savings and loan association will let you borrow against your savings at rates as much as four to ten percent below the rates normally paid on credit cards and most other credit sources. There's a drawback, however: an amount equal to your loan balance is kept frozen in your savings account, so don't borrow against funds you're likely to need soon.

### ADVANTAGE OF SHORT-TERM CDs

Bank depositors who are hesitant to tie up funds in high-interest, long-term time accounts sometimes fail to realize that they can earn perhaps a half percent more on savings by committing funds for only three months at a time. Both savings and commercial institutions offer this advantage on 90-day certificates of deposit. At the end of each 90-day period the depositor can renew the certificate or shift the funds into a regular account.

### DON'T LET ACCOUNTS BECOME DORMANT

Don't allow your bankbooks to lie around too long without having any transactions recorded on them. Accounts that are "dormant"

for too many years cease to draw interest and may even be taken over by the state government. If you have no deposits or withdrawals to make, have the interest posted in the book every year or so.

### STILL ANOTHER WAY

In addition to regular savings accounts and certificates of deposit, there is a third type of account offered by some commercial banks. In return for high interest—perhaps a half-percent above the regular savings rate—the bank restricts withdrawals to a brief period at the end of each quarter and may also require advance written notice of any withdrawal.

LIONETTE JUNIOR VARSITY will play the Big Lake girls varsity in the second session of the tournament tomorrow afternoon at 1:00 o'clock. The girls are, l. to r., front, Celda Elizondo, Lana Cole, Manie Enriquez, Annette Cervantez,

Connie Badillo. Top row, Coach Biggerstaff, Tilly Kramer, Kim Sinclair, Melinda Stephens, Melinda Hokit, Lupe Villarreal and Lisa Hohertz.

## Proper Skin Care Delays Wrinkling

Proper skin care for face and neck delays wrinkling, says Beverly Rhoades, a clothing specialist.

Diet, water, moisturizers, oil and cleansing are key factors, she says.

Keep skin healthy with a proper diet, enough rest and regular exercise—including facial exercises.

Healthy skin looks better and resists wrinkling longer. Drink plenty of water—and use water (never hot) on the face and neck frequently. A mist of water under a freshener—to help seal it in—helps skin stay moist.

Use a humidifier in controlled-air environments. Moist air is less likely to "steal" moisture from the skin.

Moisturize day and night. Skin type dictates whether cream or lotion is best.

Apply moisturizers on the face and neck to replace moisture lost from exposure to air, wind and sun.

Moist skin is more supple and has greater elasticity to resist wrinkling.

Even oily skin needs moisturizers, especially in later years.

For oily skin, use a lotion or very light cream.

For dry skin, a heavier cream may be more effective.

Both skin types may need more moisturizers in cold, dry winter weather.

In addition, apply a foun-

dation over a moisturizer for protection against the elements—and to hold in moisture. A light cover is adequate and should not threaten women unaccustomed to wearing foundation.

Apply oil as needed, especially around the eyes where skin has few oil ducts. Oil helps skin retain moisture which, in turn, keeps it supple.

Obviously, oily skin needs less oil applied than dry skin, but skin tends to produce fewer natural oils as it ages.

Deep facial cleansing is a "must."

Facial bars—not body soaps—are safe for oily skin, but creams or lotions are best for dry skin.

Soap can leave a film on the skin, and that promotes dryness.

Avoid stretching the skin during makeup application or skin-care procedures.

Be especially careful around the delicate eye area, which has little muscle control and is highly susceptible to wrinkling.

Skin loses elasticity with age, and lack of elasticity, coupled with stretching, causes wrinkling.

Also, avoid prolonged exposure to the sun.

Use a sun screen on the face, if possible, during outdoor activities on sunny days.

Hands also show early signs of wrinkling, so keep them moist with lotions, too.

## Best Food Buys For The Week

Best values in Texas grocery markets this week include fryer chickens, grapefruit and deep-yellow vegetables, according to Gwendolyn Clyatt.

Also, stock up on frozen orange juice concentrate if it's a favorite—prices will go up soon, she advises.

Mrs. Clyatt is a consumer marketing information specialist with the Texas Agricultural Extension Service.

Price-quality trends this week are the following:

Poultry still remains the "economy" meat with fryer chickens "on special" in some markets. Whole birds are the budget buy. Egg prices are rising, and that trend will continue until after the holiday baking demand is over.

Grapefruit is plentiful, economical and in the peak of quality. Now is the season to buy, although it is availa-

ble almost all year. Thin-skinned fruits have more juice. Avoid thick-skinned fruits or those with a pointed end. Also avoid fruit with soft or discolored areas.

Other fruits to consider include cranberries, bananas, oranges, grapes, pears, tangerines and tangelos, along with a record supply of apples.

Economy items are sweet potatoes, rutabagas, hard-shell squash and carrots. Other budget buys are cabbage, potatoes and onions. More salad items are worth price checks for good buys: head lettuce, escarole and endive, cucumbers and peppers. The last two will see price hikes soon.

Also, compare prices on cooking greens and broccoli.

Best values are chuck roasts and steaks, liver and ground beef with soy protein. Some markets offer values on round and sirloin steaks.

## WILLIAM'S FURS

Buy all furs and deer hides.

Please salt deer hides and roll them up with the salt in them. See Bill or Larry

Williams. Call 392-3109 or 392-2705 after 6:30 p.m. or before 7:45 a.m.

## Holiday Flair In All Rooms

Let a "holiday flair" touch every room in the house—and involve everyone in the project, says Glenda Moore, a housing and home furnishings specialist.

Miss Moore is with the Texas Agricultural Extension Service, The Texas A&M University System.

Choose suitable decorations for the children's rooms from items already on hand. Then let each child select some from these.

Encourage their creativity by allowing them to decorate their own rooms.

Don't forget the entryway, bedrooms and bathrooms throughout the rest of the house.

For a more satisfactory job, start by removing existing accessories from tables, shelves and mantels. Then plan the decorating themes.

After the holidays, study each room before returning the original accessories.

This is a convenient time to make changes in arrangement, color or mood—and it offers a chance to get rid of clutter.

Automobile complaints rank number one among consumer problems with poor auto repairs being the major problem.

Appliances were the ignition source for 3.4 million fires, with stoves, ovens and ranges making up 45 percent of the total.

"Life is a jigsaw puzzle with most of the pieces missing." Anonymous

## Christmas Tree Buying Tips

Many people still enjoy and appreciate the beauty, color and aroma of a traditional cut Christmas tree. Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service, offers some tips to help you select your Yule tree and maintain it in the best possible condition throughout the holiday season.

1. Choose your tree early. Most Christmas trees are cut four or five weeks before they arrive on the lot. The sooner you can get the tree

home and into water, the better.

2. Select a full, dense tree that is evenly branched. The branches should be firm and flexible. Shake the branches when selecting to see if needles fall. Fresh, healthy Yule trees do not drop their needles.

3. Select a tree with good green color. This indicates that the choice is fresh, has good needle retention, fragrance, fire resistance and longer holiday beauty.

4. Once you have select-

ed your tree, saw off the lower two inches of the trunk. This will help the tree absorb water which will insure freshness and lasting qualities.

Stand the tree in water in a cool location outside until you are ready to trim it. Then, place it in a tree stand that holds water and keep it filled during the holiday season.

6. Place your tree in the coolest location possible indoors, away from the open fireplace, radiators and heaters.

"While it might seem a great waste to cut down thousands of trees every year just to have something to hang ornaments on at Christmas, we really should not criticize this practice," says Janne.

Emeralds were supposed to be effective against snakebite.

**PECAN SHOW WINNERS**—The four top honors in the Crockett County Pecan show went to Herb Kunkel, whose Western Schley was Grand Champion of the show; Susie Childress, whose Burket was Reserve Champion of the

show; L.D. Kirby, runner-up with his John Garner, and Ed Hale with the champion native, High School Native variety. The annual show was held Tuesday at the Civic Center.

## '79 Retirees Should Plan Now For SS

People who are planning to retire in early 1979 should act now to make sure that social security checks start coming when their income from work stops, Franklin H. Upp, social security manager in San Angelo, said recently.

A person should apply for social security retirement checks 2 to 3 months before he or she wants them to begin. This way, the checks will start coming when they are needed.

Mr. Upp said it would be helpful if people planning to apply get certain information together before they apply. What is needed is: The person's social security card, or a record of the number.

Proof of the person's date of birth, preferably a birth

certificate or church record of birth or baptism.

Evidence of 1977 earnings, such as a Form W-2 or copy of a self-employment tax return.

Information about 1978 expected earnings.

A person should not delay applying because he or she does not have this information. The people at the social security office can suggest substitute evidence, Mr. Upp said.

In most cases, a person does not have to come to the social security office to apply for benefits. It can be done by phone and mail.

For more information about social security benefits, call the San Angelo Social Security Office at 2214 Sherwood Way. The telephone number is 949-4608. Residents of Ballinger, Big Lake, Brady, Junction, Mason, Ozona, Sonora, and Winters can call toll free by dialing "Operator" and asking for "Enterprise 2058".

Use track lights or wall washers directed to favorite pictures to brighten a dreary hallway.

### SPORTS FANS!

#### I BET YOU DIDN'T KNOW

In all of football history, which game had the biggest surprise ending?...A national news service surveyed thousands of results and says nothing can top the Harvard-Yale game of 1968 when Yale led 29-13 with 42 seconds left...You'd figure that with a 29-13 lead and only 42 seconds remaining, there would be no way for Yale not to win...but they didn't win...With 40 seconds to go, Harvard threw a touchdown pass and ran for a 2-point conversion... That made it 29-21... Then Harvard recovered an on-side kickoff and with only 3 seconds left threw a TD pass...That made it 29-27, and for the conversion, they completed another pass for a 2-pointer and the game wound up 29-29...Thus Harvard had overcome a 29-13 lead in the last 42 seconds for an amazing finish.

\*\*\* Here's an oddity... Only one head coach in football history ever won both the national championship in college football, and the pro championship in the National Football League...Can you guess who's the only man to do it?...Answer is Paul Brown who coached Ohio State to the national college championship in 1942, then won several NFL championships when he was coach at Cleveland.

\*\*\* I bet you didn't know...Brand new '78's are a real bargain while they last can be found at L-B Motor Co.

## Making Housework Easier

"Question" household tasks, and discover more efficient answers, advises a family resource management specialist.

Many disabled homemakers are learning better methods for managing their households by using this "questioning approach," says Linda McCormack.

Six questions will give answers that lead to greater household efficiency:

What is the job to be done? Why should it be done-- is it necessary?

Where should it be done? Would another location save time or energy?

When should it be done? Who should do the job?

Is this the best investment of the homemaker's energy and time? Could another member of the family do it? Could the family afford to have someone else do it in the home or outside?

How should it be done? Must there be some adaptation of household equipment?

Is there a need for new tools or appliances?

Will the family accept a finished product that takes less work?

For example, "question" the task of dishwashing.

It involves table clearing, scraping, stacking, washing, rinsing, drying and storing.

With the "questioning approach," a homemaker may find that drying and putting them away wastes one hour each day.

She may decide to let them air dry--leaving them "ready to use" at the next meal.

Expert stilt walkers used to be able to travel as fast as a horse could trot. The footrests they used were often five or six feet above the ground.

## Seventeen Complete EMT Class

Seventeen persons completed the Emergency Medical Technician Course in Ozona, Thursday night. The course consisted of 80 hours classroom work with lectures by Dr. Don Carlisle and Dr. R.M. Owensby, with the

skills being taught by Emergency Medical Services Instructors, Brian Henry and Dub O'Bryant.

The students completed 40 hours in hospital training at Shannon Memorial Hospital in San Angelo, and 5 emergency ambulance runs, to be

eligible to complete the class. The extraction class of 8 hours was completed in the Village Shopping Center in conjunction with the Heart Association Blood Pressure Clinic. The next step in the EMS program is the special skills class on I.V.'s. This is to be scheduled in January.

Those completing the class were: Marge Baggett, Blake Ballard, Thersia Black, Sue Bissett, Chris Carlisle, Elsie DeHoyos, Connie Galvan, Andy Glasscock, Forest Henderson, William Lamb, Pauline Maness, Tommy Kay O'Bryant, Barbara Sanchez, Merlin Schoenhals, Kay Wilson, Buzz Wilson, and Jene Wilton.

## Lions Win One And Lose One

The Ozona Lions Basketballers had a win and a loss last week before the annual tournament coming up this weekend. Big Lake varsity and junior varsity got the best of the two Lion teams early in the week. The Owls downed the varsity 67-50 and the junior varsity 43-34. However, both teams made a comeback Friday night when they downed Wall 54-47 for the varsity and 50-37 for the JV.

In the Big Lake game, Rocky Stephens led the losing effort with a big 22 points, followed by Danny Sewell with 14 and Clair McDaniel with 10. Jay Hufstetler led the winning Lions Friday night with 14 points, followed by Stephens with 12 and Sewell with 10.

## Parties Honor Couple

Recent parties honoring Miss Virginia Henderson, bride elect of Jack Baggett, Jr. have included a luncheon in San Angelo, hosted by Mrs. Louise Bean Appel, a kitchen shower in the George Bunger, Jr. home given by Mrs. David Bean and Mrs. Steve Wilkins; a bridal luncheon at the Circle Bar Restaurant hosted by Mrs. Roy Henderson, Mrs. George Bunger, Jr., and Mrs. Tom Cameron.

A Mexican dinner party and plant shower at the Gregory Stuart home, honored Miss Henderson and Mr. Baggett. Other hosts were Mr. and Mrs. Rick Webster, Mr. and Mrs. Chester Wilson, and Mr. and Mrs. Randy Crawford.

# CLASSIFIED

**KK--**

[Continued From Page 1]

round thing wasn't in place on our machine. We had found the problem, but we had no solution. Alas, it wouldn't go back where it belonged. Remembering the old hot type days, when we kept everything fixed with a rubber band or hairpin, I summoned Bekie and with fear and trembling he approached the machine with a wrench. He took the mechanism apart and we stuck it back on with double-faced tape we used to use to stick cuts on wood blocks. He put it back, Willa sat down at the machine and we were back in business.

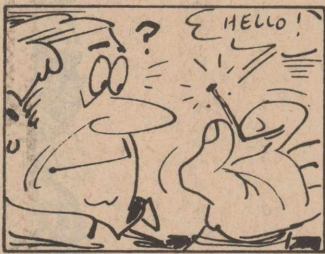

Tom, wanting to do his part, rushed out to buy some Super Glue. We are still using the machine stuck together with tape. Tom used his finger to get the glue out of the tube, at least he squeezed the glue onto his finger and didn't get the tube back in time and it stuck. He's had some week doing everything he does with a tube of glue on his forefinger. When you see those television commercials about Super Glue, you'd better believe it.

kk

Before the machine broke, I was going to give my opinion on the Jonestown suicide-murder fiasco. However, so much has been written, told and shown, it would be sort of whipping a dead horse to expound on it. At the risk of creating controversy, I will say the whole thing was a gigantic obscenity. I found the pictures and details obscene, and the waste of taxpayers' money to transport that many dead bodies back to the United States absurd if not insane.
