Edd Cade services Sunday

Funeral services for Edd V. Cade, 72, were held at 2 p.m. Sunday in First Baptist Church with burial in Cedar Hill Cemetery under the direction of Sheppard Funeral Home.

Mr. Cade died Friday in Crockett County Care Center after a lengthy illness.

He was born Jan. 20, 1907, in Tennyson and was married to Sybil Norwood, April 26, 1947, in San Angelo. She died March 16, 1979. He was a master plumber and an Ozona resident of many years. A member of the First Baptist Church, he was also a member of the Masonic Lodge and Eastern Star.

Survivors include a daughter, Mrs. Charles (Dorothy) Jones of Houston; a son, Eddie V. Cade Jr.; his stepmother, Ellen Cade of San Angelo, and two grandchildren.

Court to air county budget

The Crockett County Commissioners Court will hold the annual budget hearing during the regular monthly meeting Sept. 10, at 11:00 a.m. Tax rates will be set at that time.

Estimated receipts from taxes for 1980 are \$2,928,593. This represents an increase of from \$18 to \$20 million over last year's receipts, based on the same tax rate which was \$2.92 per \$100 valuation. Estimated disbursements are also up to compare with receipts.

The estimated receipts include \$123,493.00 in Federal Revenue Sharing Funds, which have tentatively been budgeted as follows: two cars for the Sheriff's Department at an estimated \$12,000; a hospital bond payment of \$50,000; equipment for the Water District in the amount of \$20,000; another \$33,000 for equipment for road and dump ground use; and \$8,000 for a vehicle for 4-H.

The county's general operating budget will also be aired during the hearing. Anyone interested may examine the budget at the offices of the County Judge and County Auditor Monday through Friday.

FIRST ANNUAL PET SHOW for youngsters, sponsored by the Ozona Chamber of Commerce Saturday in the downtown park saw local children entering everything from dogs to goldfish. Parents look on while judges make their rounds.

Storm lashes Ozona

A raging storm brought Ozona to a standstill about 4 o'clock Thursday afternoon. The storm, which contained all the violent elements of nature, pounded the downtown and residential sections with hail and rain, whipped by high winds for the better part of an hour.

Sheets of rain blew horizontally from the northeast, cutting visibility to zero. Within minutes from the time the cloudburst came, streets were flooded in both downtown and the shopping center. The pea-size hail was whipped by the fury of the wind which made it sound much worse than it was. The gale-force winds stripped trees of leaves and covered streets and parks with large limbs.

The only reported damage from hail was to aluminum siding, according to a spokesman for the Baggett Insurance Agency. The storm caught Ozonans off guard and cars belonging to back-to-school shoppers and employees were left to the mercy of the storm. Fortunately, although the hail

was abundant, it was small and soft, and did little more

Garza services Thursday

Funeral services for Guadalupe H. Garza, 82, were held at 4 p.m. Thursday at Our Lady of Perpetual Help Catholic Church with burial in Lima Cemetery under the direction of Sheppard Funeral Home.

Mr. Garza died Wednesday morning in Shannon Hospital in San Angelo.

He was born Sept. 28, 1896, in Mexico and was married to Maria Aguilar Sept. 28, 1921 in Ozona.

Survivors include six daughters, Mrs. Otilo Duran, Mrs. Ernesto Garza and Mrs. Casiana Fierro, all of Ozona; Mrs. Andrew Rivers of Colorado City, Mrs. Americo Vargas of Dallas and Mrs. Ricardo Ramirez of Tampa, two sons, Fermin Garza and Guadalupe Garza Jr., both of Ozona; 43 grandchildren and 36 great-grandchildren.

than pile up on curbs and embankments. There was no reported damage to cars in town, but a truck driver, traveling east on I-10, had a windshield knocked out.

Electric service was knocked out in the west part of Ozona for the better part of two hours. Besides being flooded, the Village Shopping Center was without electricity, along with the homes in that area.

The storm scored an almost direct hit on Ozona, as there were no reports of storms in other parts of the county. The official gauge at the Water District office recorded a total of 1.75 inches

JUNIOR HIGH PHYSICALS

All 7th and 8th grade boys who are planning to participate in any athletic event during the 1979-80 school year must have a physical examination before participating. The date for this physical is set for Thursday, August 30, 1979, at 4:30 p.m. in the high school library. All boys should wear T-shirts and shorts to help expedite the examination.

of rainfall, one inch falling in the space of less than an hour. Other gauges around town had up to 2.5 inches for the storm period.

Another storm threatened Saturday afternoon, with high winds, thunder and lightning, but only a trace of rain fell in Ozona, .08 of an inch. However, Charlie Davidson reported a fall of 1.5 inches at the ranch east of Ozona, for the same period.

Pena-Alfaro gets Sul Ross degree

Ruben Pena-Alfaro of Ozona was among 202 Sul Ross State University students receiving degrees Aug. 17 during the President's Reception for Summer Graduates.

Mr. Pena received his M.Ed. degree in education.

Wildlife seminar scheduled

A cooperative wildlife seminar will be held at the Crockett County Auditorium Coliseum Building-Ozona-7:30 p.m. Wednesday, September 12.

The seminar is being sponsored by the cooperative efforts of The Crockett County Extension Service, Texas Parks and Wildlife, Soil Conservation Service, and Agricultural Stabilization Conservation Service.

Tommie Hailey, Extension Biologist, Texas Parks and Wildlife Department will discuss the nutritional and genetic aspects of producing quality white-tailed deer. Doctor Milo J. Shult, Wildlife Specialist, Extension Service, will discuss the economic aspects of wildlife enterprises, deer herd management with respect to buck/doe ratios, reproductive potential and age classes. Willard Richter, Biologist, Soil Conservation Service, will cover brush management, range management, deer food habits and judging vegetative use as related to deer densities and population control.

End of summer for students and teachers

Classes Tuesday for all schools

Classes begin Tuesday in all Ozona schools, marking the start of the fall school term. Early registration last week saw 907 students registered in all schools. Superintendent Foy Moody estimated that number was approximately 90% of the students who would attend classes the first day. He

expects at least 100 more students to register on the first day of school. This year is the first time registration has been held a full week before classes begin.

Primary students, kindergarten through second grade, will attend classes in the portable buildings brought in last year after the main classrooms burned. The new building is under construction and the projected finish date is August, 1980, so students will attend classes in the portable classrooms throughout this year. The tardy bell for the Primary School will ring at 8:15 a.m. and students will be dismissed at 2:30 p.m. Principal Jack Probst will be on hand to direct students Tuesday morning.

Ozona Intermediate, third through sixth grades, will attend school at the newly finished school building on Jones St. where the tardy bell will ring at 8:10 a.m. and classes will be dismissed at 3:15 p.m. Principal Ted Cotton will direct students to classrooms.

Junior High School and High School will take up at 8:00 a.m. with tardy bells ringing at 8:05. Both schools will dismiss classes at 3:25. Tuesday morning the junior high students are to report to

the new gym on Ave. G at 8:00. The entire junior high has been moved to the former intermediate school building and at present the old junior high building will be used for storage.

High school students are to report to the high school auditorium Tuesday morning for assembly before classes, also at 8:00 a.m.

The cafeteria will be open Tuesday for breakfast and lunch. Lunches are slightly higher this year in price. Kindergarteners through fifth grade prices are 60c a meal, and sixth grade through high school students will pay 75c per meal. All adult lunches will be \$1.10 per meal. Extra milk will cost 8c this year.

Participation in the breakfast program was disappointing last year, but officials hope more students will participate this year. All breakfast meals are 20c each.

Monday holiday

Most Ozona businesses will be closed Monday in observance of the Labor Day holiday. All offices will be closed, including the bank and post office.

Exceptions are grocery stores, convenience stores and a few service stations.

STORM LEAVES HAIL PILED up in downtown Ozona Thursday. The hail was most noticeable against the black background of the bank, but the storm left its calling card all over town. Damage was not as heavy as expected, but the entire town was littered with leaves and tree limbs.

Lion scrimmage is here Friday with Stanton

Ozona football fans who failed to make the scrimmage in Bronte Friday night will have an opportunity to see the Fighting Lions in action at a scrimmage here Friday night against the Stanton Buffaloes. Junior varsity action will begin at 5 p.m. and the varsity will follow at approximately 7 p.m. Ozona fans are expected to turn out in droves to see the Lions make a comeback.

The Lions held Bronte to no touchdowns scored and Coach Sessom felt this was a good sign of an upcoming tough defense on the part of the team. He also said he anticipates a really tough season for the unseasoned Lions, as they will have to battle to overcome a size deficit against some seasoned ball teams.

Ozona's new coach said he expected a good performance from some experienced boys on the team and noted that all team members are putting forth good effort. He said with their attitude, fans could expect their team to show up well against all comers this season. "Folks are going to be pleased," Sessom said with the performance and quality of this year's Lions.

The first game will be with the Big Lake Owls, Sept. 7.

with kickoff time set for 8:00 p.m. The Lions will travel to Junction Sept. 14 to battle the Eagles, another out of town game will follow Sept. 21, with Eldorado. Sept. 28, the Lions will host the Menard Yellowjackets. This will be the homecoming game. The team will be in Rankin Oct. 5, and play their next two pre-district games at home, Iran on Oct. 12 and Alpine, Oct. 19.

The team will have an open date, Oct. 26, and will be getting ready for District. The first district game will be in Crane Nov. 2, Nov. 9, the Lions will play Kermit, here, and the final game with the Broncos will be Nov. 16, in Sonora.

OZONA HIGH SCHOOL BAND TWIRLERS-This foursome will head up the band this fall. Recently back from camp where they received a first division rating, the girls are Lisa

Mitchell, Debbie Wallace, Jennifer Marley and, standing, Rose Mary Ybarra.

BIG BROTHER'S NOT SO COOL

We now have a mandate ordering most places of business to set their thermostats at 78 degrees. It's bearable and not unreasonable. Unfortunately, like the President's "voluntary" wage-and-price guidelines, the heavy hand of the government is going to be used to see that we all comply.

The plan is to hire 100 to 200 Department of Energy enforcers to see that there are no secret softies among us, and violators will be fined as much as \$10,000 a day. In addition, the President and his aides suggested it is our patriotic duty to report all violators to the appropriate federal officials.

All right. So we all want to do our part. But I had been under the impression that national efforts like this were an all-pull-together kind of thing.

But snoops and informers?

After listening to the President's speech several weeks ago and nodding in agreement that we do have a "crisis of confidence," I went to bed and had a dream. I dreamed I got up Monday morning, adjusted the thermostat, cast a wistful look at my car and resolutely set out for the bus stop.

Many of my friends and colleagues did the same. When I arrived at my office, on the ground level of a converted two-story townhouse in the Northeast section of Washington, it warmed my heart — not to mention the rest of me — to find the thermostat in our building had already been set, by our receptionist, at the now legal limit of 78 degrees.

In the new dawn of renewed patriotism and determination to swelter it out in the spirit of our pioneer ancestors, those of us on the ground floor forgot all about the laws of physics.

Hot air rises. Of course. Even the President can't argue with that, and while I and my fellow ground floor workers were reasonably comfortable in our shirt sleeves at the magic 78, directly above us, in a 95 degree rain forest on the second floor, a mutinous, darkly unpatriotic group, including the entire staff of *Policy Review* and the editor of the *Heritage Foundation Forum*, plotted an illegal act.

As the day wore on, the grumbling ceased and I felt noticeably cooler. I remained innocently unsuspecting however, even when confronted with the self-satisfied smiles of the people from upstairs, until a loud pounding on the front door brought the only chills of the day to our entire staff. Before anyone realized what was happening, the reception hall was filled with perspiring Department of Energy "cool guys."

The spokesman strode up and slapped a sticky paper into my hand. "Violation," it read, "Ten thousand dollar fine." Standing behind them, peering anxiously over their shoulders, was our informer — a stranger who had stopped in earlier to ask directions (and incidentally to cool off).

I woke up at this point, relieved to find it was only a dream. Then I read the morning paper.

I was paranoid the rest of the day, and no longer so enthusiastic.

As for Big Brother, I hope he swelters along with the rest of us.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research organization.)

IT'S A FACT!

It's a fact that joining a carpool can save you and your company money. Besides the gas dollars you'll save, carpooling may eliminate the necessity for owning a second car. The company saves if it doesn't have to devote as much space to parking facilities.

Carpooling is one answer to conserving energy. The U.S. Department of Transportation's Federal Highway Administration estimated in 1975 that a driver can save \$281 to \$654 a year on a 20-mile daily round-trip by carpooling. It's more now, of course.

For a free copy of the "Rush Hour Book," which tells more about carpooling, write: Answer Books, Shell Oil Co., P.O. Box 4315, Dept. N, Houston, Texas 77001.

Many large companies have computer matching systems for people interested in joining or forming carpools.

Answer Books, Shell Oil Co., P.O. Box 4315, Dept. N, Houston, Texas 77001

STATE CAPITAL HIGHLIGHTS
By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—Texas Attorney General Mark White, after inspecting beaches damaged by the run-away Mexican oil spill Ixtoc I, said last week he hasn't ruled out the possibility of suing Mexico and the company which drilled the well.

Such legal action might pit the state's top lawyer against the governor, if the investigation showed faulty equipment caused the blow-out. The drilling company, SEDCO, Inc. of Dallas, is owned by Texas Governor Bill Clements.

"We're not going to hesitate to try to discover the fault in the blow-out," White said, but added it could be months before the blame can be pinpointed.

White acknowledged the possible suit is a touchy political issue with state as well as international implications.

The offshore well which blew out on June 3 is the largest in history and has covered thousands of square miles in the Gulf of Mexico with crude oil.

Officials say the well is expected to be capped sometime in mid-September, and that crude oil will continue to wash onto Texas beaches for three months after that.

White's lawsuit is being considered to collect damages that have already been inflicted on the Gulf Coast tourist, fishing and shrimping businesses and for clean-up costs, among other things. The oil spill which has covered 130 miles of Texas beaches has cost state taxpayers \$2.2 million so far.

Clements to Europe Next
The governor and a delegation of Texas agriculturalists will visit the Soviet Union and four Eastern European countries during a three-week trip next month.

Among those in the delegation are Carroll Chaloupka, president of Texas Farm Bureau; State Sen. Bob Price, R-Pampa; McAllen Mayor Othal Brand; and James H. Clements of Kingsville, president of King Ranch.

The entourage will visit Hungary, Poland, Yugoslavia and Czechoslovakia.

Boy Can Play
Attorney General White, in an opinion released last week, ruled that a 16-year-old orphan can play football at Lorena High School near Waco.

The boy lived in an orphanage at Corsicana last year and played high school football there. He was adopted by a Lorena couple and wanted to play football at Lorena, but the University Interscholastic League said no.

White's opinion upheld a law passed in the recent session which exempted foster children from "durational requirements" which had previously denied participation in sports for up to three years.

Legislative Playwright
"The Kingfish," a play about the controversial one-man ruler of Louisiana, Huey P. Long, who was assassinated in 1935, opened in Washington, D.C. last week. Co-authors are a couple of Texans, Larry L. King and Ben Z. Grant.

Grant is a 10-year veteran legislator from Marshall. This is his first play. King is the author of the Broadway hit, "The Best Little Whorehouse in Texas."

Clayton Launches Inquiry
Speaker of the House Bill Clayton has also begun a legislative inquiry into the damage caused by the spill. The House Environmental Affairs Committee, chaired by Rep. Bennie Bock, D-New Braunfels, held a public hearing Friday at Corpus Christi.

The Speaker visited Port Aransas and Brownsville last week while acting as governor of Texas, the first time in history a House speaker has performed that chore. By a quirk of circumstances all three persons ahead of Clayton in the state's chain-of-command were out of the state: Clements was vacationing in New Mexico, Lt. Gov. Bill Hobby was vacationing in Wyoming and Rep. Bill Braecklin, D-Dallas, senate president pro tem, was in Alaska.

Veto Costs \$63 Million
The Legislative Budget Board announced Friday that a veto of new state construction projects could wind up costing the state \$63.4 million in two years.

If the Legislature decides then that the construction projects which Clements vetoed in June are necessary, inflation and other costs will have driven up the price. Inflation will account for an extra \$51.6 million and state fees for office rent will add almost another \$12 million.

Public Notice

PUBLIC NOTICE BUDGET HEARING CROCKETT COUNTY

Notice is hereby given that a public hearing will be held on the County Budget of Crockett County, Texas as prepared for the year of 1980, at 11:00 AM September 10, 1979, at the Court-house and after adoption of said budget, Tax Rates will be established. Federal Revenue Sharing Proposed Budget for 1980, Estimated Receipts including appropriation \$123,493.00, Disbursements Estimates, two (2) Sheriff Cars \$12,000.00, Hospital Bond Payment \$50,000.00, County Water Control Equipment \$20,000.00, Road and Dump-ground Equipment \$33,000.00 and 4-H Suburban \$8,000.00. Total estimated Federal Revenue Sharing Disbursements \$123,000.00. Crockett County General Operating Budget for 1980, including above; Estimated Receipts \$2,928,593.00 and Estimated Disbursements \$2,914,354.00.

All interested citizens of Crockett County have the right to present oral and written comments and the budget may be examined at the offices of the County Judge and County Auditor any Monday through Friday.

JOHN R. JONES
COUNTY JUDGE
CROCKETT COUNTY

you and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: I've got a question concerning personal property taxes. I have lived all over Texas and for the first time I've received a tax notice. Everyone I have talked to does not pay it. Can they make you pay back taxes on cars you do not own anymore? What happens if I don't pay it?

A: The property you own as of the first day of the tax year, usually the first of January, is subject to personal property tax in most jurisdictions. This means that if you own a car on the assessment day and sell it the following day, that car is still subject to tax.

The taxing authority has the power to file suit against you for payment. Some cities may also have a lien on the property and could foreclose. It could be sold through the power of the court to pay the taxes. True, some taxing jurisdictions are more aggressive in their efforts to collect than others.

Q: My husband and I married about two years ago. Just the other day he surprised me saying that after we married, he adopted a 15 year old girl. Somehow that doesn't ring true. Is it possible that he could legally adopt a child in Texas after our marriage and without my knowledge?

A: You're right, it doesn't ring true. The law says that if the person filing for the adoption of a child is married, both spouses must join in the petition seeking the adoption.

Q: Can a doctor or hospital perform an autopsy on the body of a patient who died in that hospital without obtaining permission from the patient before death, or without permission of relatives?

A: A coroner who has reason to suspect foul play in connection with a death has authority to order an autopsy to determine the cause of death. However, any other interference with a deceased person's body, without first obtaining consent of the surviving spouse or next of kin, is prohibited by law. Any unauthorized interference with a deceased person's body may provide the basis for a suit for damages filed by the person entitled to its custody.

Q: My volunteer group is going to hold a fund-raising banquet for charitable purposes. Do we need to charge the sales tax on the tickets to the banquet, or on the food when we serve it?

A: If your organization is non-profit and the function is not a regularly scheduled one; and, if the function is not being held in an established restaurant or other eating place; and, if it's all volunteer—you most likely will not have to collect any sales tax. To be absolutely certain, however, you may wish to check with the nearest district office of the State Comptroller.

Send your questions to "You and the Law," State Bar of Texas, P. O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

Changes in law make dying easier

Changes in the Texas "living will" law make it easier for terminally ill patients to have their own life support measures withdrawn, the Texas Medical Association says. The Texas Natural Death Act states that an adult can sign a document saying that a physician can halt life support measures that would only artificially prolong the moment of death.

related to the patient and who will not benefit from any inheritance.

Snips, Quips and Lifts
By Lottie Lee Baker

How often have you met a critic of the church who has tried to make it better?

Truth is as clear as a bell, but it isn't always tolled.

Clothes do not make the man, but a good suit can make a lawyer.

It's a sin to play golf on Sunday, especially the way some play it.

There is plenty of room at the top, but not to sit down.

The art of biography is different from geography. Geography is about maps, and biography is about chaps.

Our business of tomorrow often depends on our business of today.

He who has good health, good humor, and no debts is not really poor.

To put more heart in religion, one must have more religion in the heart.

The problem is how to stay in the groove without making it into a rut.

When a speech is boiled down it isn't so dry.

Breathes there a man with soul so dead who has not lately, sadly, said: "Can this be my own country?"

Men who talk like big wheels are merely spokesmen.

How well most people like hard work depends upon whether they are doing it or paying for it.

A Lift For The Week

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Since the last of August is here, it is time to start a new season for planting and improving well established flower beds. Most of our gardens are just past their prime now and will soon give way to the fall blooming mums, asters and fall roses. One of the most enjoyable aspects of gardening is the seeking and finding of good combinations of perennials. One horticulturist says one key to successful companion plantings is controlled competition. The gardener who grows a perennial flower border is designed not only for color, texture, height and bloom sequence, but also for control of competition through proper spacing and varying heights. Large plants often form small protective sites for smaller ones. Any plants grown together must do well under the same conditions. Many rock gardens need well drained sunny sites and less water than many other plants. Make your own useful discoveries by watching your companion plants. Mix vegetables with the flowers and flowers with vegetables. With good care and spacing, both gardens will be more interesting.

If you have a sunny window or space for potted plants, select one of your favorite petunias. Clip it back to force it into bushy new growth, loosen the soil around it and give liquid fertilizer. By the end of September, dig it, and put in a pot, keep watered until established, and then when needed. It should bloom all winter.

Continue to clip your hedges for another month or two.

Plan to feed your roses now for beautiful fall blooms. To keep your lawn a rich green and healthy, use a nitrogen fertilizer this and next month.

September Planting Days
Above-ground crops - 1, 2, 3, 22, 23, 24, 25, 29, 30
Root-Crops - 6, 7, 10, 11, 14, 15, 16

Instantly cooler homes

Want to try for an almost instantly cooler home?

Cool down your home with reflective film on the windows--to keep heat out of the house, says Pat Seaman, a housing and home furnishings specialist.

Simply buy the film and apply it to windows.

It stops heat from coming in through the windows--by reflecting heat away, she explains.

Reflective film is made of metal and polyester, and it's available in a variety of colors and reflective ability.

You can buy it in several widths by the foot--and in premeasured packages.

Follow the manufacturer's directions for a do-it-yourself installation project, Ms. Seaman suggests.

Make sure the windows are spotlessly clean before installing it.

Also, follow directions for care after you install it.

Remember that the film also reduces light in the house, so you may need to use interior lighting and relocate certain plants.

Finally, it offers another saving--it retards color fading in home furnishings.

Brown's Brides

The following have made bridal selections at our store:

MRS. DONALD HUFF
nee
Kim Davis

KATHY ADAMS
bride-elect of
Randy Stephens

BROWN FURNITURE CO.

MRS. STANLEY FLANAGAN
...nee Miss Vonda Maness

Maness-Flanagan vows exchanged in Eldorado

Miss Vonda Glynn Maness became the bride of Mr. Stanley Dwayne Flanagan in a 4 o'clock ceremony Saturday afternoon, Aug. 25, in the Eldorado Church of Christ. Bill Morrison, minister of the Ozona Church of Christ, officiated.

Parents of the couple are Mr. and Mrs. Billy G. Maness of Eldorado and Mr. and Mrs. Grandville Flanagan.

The bride, given in marriage by her father wore a gown of white satin with chiffon overlay. The bodice of accordion chiffon was accented with lace. The lace motif was carried out in the cuffs of the bell sleeves and around the hem of the skirt. She wore a chiffon hat covered with lace and silk illusion which formed a fingertip veil. The bride carried a lace fan, adorned with gardenias, greenery and baby's breath.

Mrs. Tom Williams, sister of the bride, of Amarillo was matron of honor. Bridesmaids were Mrs. Steve Crawford of Dallas and Mrs. Kerry Joy of Eldorado.

The attendants wore light brown Qiana sleeveless gowns with capes attached at the shoulders, adorned with watermelon, blue and yellow flowers. They carried lace fans with the floral theme carried over.

Best man was Johnny Childress. Groomsmen were Chuck Womack and Michael Wellman. Ushers were Tom Williams of Amarillo, Jimmy

Clark of Tulsa, and Bill King. Soloist was Johnny Childress, accompanied by Mrs. Evelyn Stigler.

Polished brass candelabra with greenery flanked the altar and greenery and candles were used as pew markers.

A reception followed on the lawn of the bride's parents home.

After a trip to Las Vegas, the couple will be at home in Ozona, where the bridegroom is employed by Jay Miller Construction Co. and the bride is office manager for Frisco, Inc.

The bridegroom is a graduate of Ozona High School and attended Aero-Tech in Wichita Falls. The bride is a graduate of Eldorado High School and Abilene Christian University.

Duplicate bridge winners

Winners in Duplicate Bridge Club play Saturday at the Country Club were Mrs. Gene Williams and Mrs. Clay Adams. Second place went to Mrs. Robert Cox and Mrs. Jake Short.

In play Sunday Mrs. Williams and Mrs. Hillery Phillips came in first with Mrs. Kirby Moore and Mrs. Gene Perry, second.

Corduroy fabrics at top of fashion list

Look for corduroy fabrics at the top of the list for fall fashions, says Nancy Brown, a clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Corduroy is usually made of cotton, but some are blends of nylon or polyester and cotton. It may be knitted or woven, she points out.

Corduroy is a napped fabric which makes the fabric look darker and richer when the pile runs up and lighter when the pile runs down. Determine the pile direction by running your hand over the fabric. The smooth-feeling direction is the one to go by.

In planning a garment, use a simple pattern so the emphasis is on the plushness of the fabric, the specialist recommends.

In buying corduroy, select yardage for a nap fabric. If yardage is not listed for nap, add three-eighths (34 cm) to three-fourths (68 cm) yard. Place all pattern pieces going the same direction when cutting.

Match wide or thick and thin wale corduroy just like a striped fabric.

On wide wale corduroy, buy a lightweight fabric for facings to eliminate extra bulk.

Before sewing, be sure to preshrink fabric and zipper. Most corduroy are washable, but check care labels, Miss Brown continues.

Use tailor's tacks or pins for marking. A tracing wheel will mar the fabric.

In sewing, use a slightly longer machine stitch--about 10 stitches per inch.

Cut and press darts open so pressed marks will not

show on the garment's right side.

Zig-zagging is the best and most efficient way to finish seams or hem edges.

Trim or grade inside seams, such as a skirt waistband, to prevent bulk on the edges. To do this, trim one edge an eighth of an inch narrower than the other.

To press, place fabric over a needleboard or a heavy Turkish towel with nap face down and steam. This will prevent the nap from being crushed.

Supper Bridge meets

Mr. and Mrs. Joe Couch and Mr. and Mrs. Ted White were hosts for the Supper Bridge Club Saturday night at the Couch home.

After a meal of fried chicken and all the trimmings, there were four tables of bridge.

High score prize went to Mr. and Mrs. Bill Carson; low, to Mr. and Mrs. L.D. Kirby, and bingo to Mr. and Mrs. Tom Montgomery.

Others playing were Mr. and Mrs. Pat Wester, Mr. and Mrs. O.D. West, Mr. and Mrs. Ted White, and Mr. and Mrs. Bill Cooper.

Sunday dinner guests of Dr. and Mrs. Don Carlisle were Dr. and Mrs. Gene Sherrod of San Angelo. Dr. Sherrod practices cardiology at Shannon Hospital in San Angelo.

Debra Says

by Debra Price

Whatever "jean look" you want to create, the jean-fashion menu has it--so choose those that flatter you. With jeans still a "staple" in the clothing "diet," more varieties are on the scene from the very bland to the very gourmet.

To look your best and feel your best, consider how jeans make you look and choose the right ones for you.

Think color first. Light colors generally make an area look larger, while darker ones look smaller.

One way to look slender starts with choosing traditional navy-blue denim. However, watch out for the now-fashionable bright, eye-catching colors, unless you want added emphasis.

Think texture next. Medium weights are the most flattering. On the other hand, today's shiny looks "adds" pounds.

Consider line and shape, too. They're created by seaming.

Generally, the slimmer the leg cut, the wider the hips look.

For added height, look for lengthwise topstitching, piping and slanted pockets.

For more width, choose jeans with crosswise patch pockets, especially those that are brightly decorated. You'll also look shorter in jeans with this feature.

Finally, don't overlook the back view--it's just as important as all other considerations in choosing jeans.

Oriental Green Beans
2 packages frozen green beans
2 tablespoons butter
2 tablespoons minced onion

1 package bean sprouts
1 can water chestnuts, drained
1 can cream of mushroom soup
1/2 cup can milk
1/2 cup shredded cheese
1 can french fried onion rings

Layer green beans, bean sprouts and water chestnuts in baking dish. Combine cream of mushroom soup, milk, butter, cheese and onion; Pour sauce over layered vegetables. Put onion rings on top. Bake at 350 degrees for 25 minutes.

Weekend guests of Mr. and Mrs. Jerry Perry were his brothe and family, Mr. and Mrs. Jimmy Perry and Valerie of Austin.

Mrs. Perry is bridge hostess

Mrs. Gene Perry was hostess for bridge at the Country Club Thursday.

High score went to Mrs. C.O. Walker, second high, to Mrs. James Dockery and low to Mrs. J.J. Marley. Mrs. Jake Short won the bingo.

Others playing were Mrs. Clay Adams, Mrs. George Bunker, Mrs. Duane Childress, Mrs. Hugh Childress, Mrs. Brock Jones, Mrs. Arthur Kyle, Mrs. Beecher Montgomery, Mrs. Kirby Moore, Mrs. J.B. Parker, Mrs. Hillery Phillips, Mrs. Sherman Taylor, Mrs. Evert White, Mrs. Byron Williams, Mrs. Gene Williams and Mrs. Dick Kirby.

THE DEVELOPMENT

The attractive sign on the highway says "Glenview Estates" or something like that. But to folks in the older part of town it is just "the development."

And to the folks who live here it is home!

Before the builder completed his development a group of the neighbors got together and built a church here. It's a small church, and it took a lot of financial help from denominational headquarters to build... but it's here!

And now that the developer has left, our little church has become The Developer. It is bringing to life in Glenview Estates (or something like that) essential ingredients that architects, builders and landscapers cannot provide... the Faith around which to build a home... the Truth by which to raise a family.

In or near every development there is a real Developer. Thank God! And thank also the earnest people who establish, attend, support and serve our churches!

Carlises attend med. workshop

Dr. and Mrs. Don Carlisle returned late Wednesday from Aspen, Colo., where they attended lectures and workshops dealing with orthopedic problems encountered by emergency physicians and family practitioners. There was special emphasis on sports-related problems such as high school football injuries.

Another participant was

Dr. E.L. Dyer, former Ozona physician, now of Oak Creek, Colo. Dr. Dyer moved from Ozona prior to Dr. Carlisle's move here in 1969. The two physicians renewed acquaintances and Dyer was brought up-to-date on Ozona.

Mr. and Mrs. Maurice Black attended funeral services in Alpine Wednesday for Tot Richardson, former Ozona resident.

Insurance dividends misleading

Your life-insurance "dividends" aren't really dividends—they're extra money you needlessly paid to the company, and you're getting some of it back, says a family resource management specialist.

True dividends are considered taxable income, but even the tax collector won't tax your life-insurance "dividends," because he recognizes them as only a refund of your money, Linda McCormack explains.

Mrs. McCormack is with the Texas Agricultural Extension Service, The Texas A&M University System.

So-called "dividends," such as these are also "idle" money, Mrs. McCormack says.

You could have taken that same money and invested it,

getting a far better return on it—or you could have put it in a savings account where it would earn interest.

Nor are life-insurance "dividends" guaranteed.

Just because the company overcharges you, they are not required to repay the money, although they usually do.

However, you may not receive the full overcharge back as a "dividend," and, of course, the "dividends" are not guaranteed.

Some insurance agents tell you that these so-called "dividends" are a "share" in the company's profits—which they are not, Mrs. McCormack says.

"That is a deceptive sales practice," she adds.

So-called "dividends" are given by mutual insurance companies (participating in-

A sweeping identity change has been wrapped up for the Atlanta-based corporation headed by Ted Turner. First, the FCC granted a name change for the licensee of Channel 17, WTCG, from Turner Communications Corporation to Superstation, Inc. The phrase 'Super Station' has been trademarked by Turner and used on the air and in advertising to support the premise that WTCG is "The" Super Station. The FCC further granted the Atlanta independent new

call letters: WTBS, which was official August 27, 1979. The 24-hour sports and movie channel signed off as WTCG at midnight, August 26, and immediately signed on as WTBS.

Authorization was given by the company to let the WTBS call letters stand for 'Turner Broadcasting System', and that led to approval by stockholders, on August 16, of a change in corporate name from Turner Communications Corporation to Turner Broadcasting System, Inc.

The new WTBS call letters and corporate name, Turner Broadcasting System, Inc., are in keeping with a national advertising medium that now has a potential reach of five million households.

Most TV stations that operate in one market put emphasis on a channel number. WTBS will be emphasized more than Channel '17', because as much as 80% of the total WTBS audience receives the station on any of 12 converted VHF

channels.

An extensive campaign introduced the new call letters on August 27, prior to the introduction of the WTBS fall schedule on September 10.

Turner Broadcasting System, Inc. owns Atlanta National League Baseball Club,

Inc., The Atlanta Braves, and a majority limited partnership interest in the NBA Team, The Atlanta Hawks. Another Turner corporation is Cable News Network, Inc., the 24-hour, all news service scheduled to be fed nationwide to cable systems on June 1, 1980.

Remove clothes that need ironing from the dryer while they are still slightly damp. There's no point in wasting energy to dry them thoroughly if they'll only have to be dampened again for ironing.

Select processed fruits packed in light rather than heavy syrups to save money.

Oil painting workshop to be held in Ozona

George Maxwell, noted San Angelo artist and art teacher, will conduct a twelve-week oil painting and teaching workshop in Ozona, beginning Sept. 19, in the building adjacent to the Cameo Beauty Salon. The course will continue for twelve weeks and classes will be held each Wednesday from 1:30 to 4:30. Limited to twelve students, the cost for the entire course is \$120. For more information, call 392-2733.

Mutual companies don't have stockholders who have invested money in them. So, the actual cost of providing insurance is shared by the policyholders.

For that reason, this type of company charges more for its insurance premium than you'd pay for a similar policy from a non-participating company—in fact, the overcharge may be as much as 30 per cent.

Once the mutual company's costs become known, if the premium charged for coverage proves to be more than actually needed, the leftover or extra money is invested.

Then the earnings on this investment are returned annually in the form of a policy "dividend."

love for the natural landscapes that surround us is deeply satisfying to the artist.

It is around these goals that he has designed his courses in oil painting. Texts are furnished for each lesson. Text materials include color study (value systems and compositional keys), perspective, and philosophy of painting.

Each student is encouraged and helped to complete a landscape and cloud painting in each three-hour session. This is easily accomplished by using some innovative brush handling and color-mixing techniques.

Each student is encouraged and helped to complete a landscape and cloud painting in each three-hour session. This is easily accomplished by using some innovative brush handling and color-mixing techniques.

Reduce energy demands in home lawn care

Energy-conscious homeowners can take steps to reduce the energy demands of lawn care without lowering lawn benefits.

"While lawns offer many aesthetic and recreational benefits, these may be offset by energy requirements of lawn care," says Dr.

Richard Duple, turfgrass specialist with the Texas Agricultural Extension Service.

"Mowing, watering, fertilizing, pest control and leaf clipping disposal are all energy-consuming requirements of lawn care. During spring and summer months lawn

watering and collection and disposal of grass clippings place a heavy burden on cities for these services. Grass clippings may account for more than 30 percent of total trash collections in cities during spring," notes Duple.

He offers several sugges-

tions to help homeowners reduce these energy demands. Reducing fertilizer applications to maintenance levels—two to three pounds of nitrogen per 1,000 square feet of lawn per year—will go a long way toward reducing energy demands. This will also reduce mowing requirements, water use, insect and disease problems, and grass clippings. "Excessive fertilization is the single most important factor contributing to high energy demands for lawn care," contends Duple.

Other lawn care practices to reduce energy demands include returning or composting grass clippings. Using a mulching mower can be beneficial if grass clippings are not removed, says the specialist. Also adopting proper watering practices to reduce water use can save energy. Reducing pesticide use to only essential applications to prevent loss of turf is another energy-saving practice.

Duple advises new homeowners to select and plant adapted low-maintenance turfgrasses to reduce energy demands. Centipedegrass is ideally suited to East Texas while buffalo-grass is adapted to much of West and North Texas. Both of these grasses have low maintenance requirements.

In some situations ground covers such as Asiatic jasmine, English ivy or Liriope can reduce maintenance requirements effectively without sacrificing the benefits of a plant cover, says the specialist.

"It is possible to enjoy the luxury of an attractive lawn and landscape," contends Duple, "without excessive energy requirements. In fact, the net energy balance for a lawn can be in favor of energy conservation."

Houseguests in the home of Mr. and Mrs. Oscar Kost over the weekend included his sister and her husband, Mr. and Mrs. Clark Self of Slaton.

Crockett County Care Center News

by Joan Nicholas
Director of Activities & Social Care

Our sincere thanks to Mrs. Ray Baker for the artificial flowers for crafts and next year's Easter Bonnet Contest; Mrs. Watkins of Big Lake for jars of jelly for residents, and to volunteers named below not already mentioned for special programs in previous columns this month. Res. Frances Borrego, the Rev. Larry Bailey, Mattie Cooper, Grace Dorsey, the Rev. Larry Droll, Rosa Fierro, the Rev. C. Fuantoz, Pete Jacoby, Louise Johnigan, Doris Karr, Doris Kilgore, Georgia Kirby, Mary Lou Knox, the Rev. Nelson Lanham, Lois Lock, Velma Marley, Bill Morrison, Liz Mary Pipes, Alice Ross, Alma Wilson; and Junior Doreen Watson. Doreen has served 67½ hours this month and we find her very capable.

We lost Ida West and Edd Cade last week. There was always a special joy that Ida had, and that was her love of poetry. I don't believe there will be a time when I read a poem at the Center that I won't think of this quiet little lady. Edd, when he was able, was particularly fond of being on hand when our various bands came to play, and after he was confined to his room, he enjoyed my tapes and player. Our sympathy is extended to families of both these former residents.

Newcomers moving in with us last week are Vera Miller and Nila Turnell, both of Big Lake. Vera, a Presbyterian, is a native of Wisconsin but says she has lived in Texas for forty-four years. While all of her family reside in the north, she has a special friend in Big Lake.

Nila is a Church of Christ member and for many years was a pharmaceutical assistant. She likes to go walking outdoors as often as possible, and both ladies are joining in activities and socializing.

Bingo winner of the week's gift certificate donated by Watson's Department Store was Mike Pena; second prize went to Eleanor Bradford. In dominoes at table No. 1 Paul Cavin was first and Mike second; at table No. 2 Verna Talley won with Nila Turnell second.

We had a very full day Wednesday. In the morning we studied in Isaiah, did exercises and moved to the lobby to sing hymns. Fortunately Thelma Schneider, Opal Eversole's daughter, was visiting and led the singing with her lovely voice. On Wednesday afternoon,

we had a very unusual program. Mike Esquivel, the son of Juana Hernandez, a graduate of St. Thomas University in Houston and presently studying to be a Roman Catholic priest at a seminary in Minnesota, has recently returned from living, studying and traveling in the Holy Land and other countries, for six months. He showed us colored slides and lectured in English and Spanish. He really brought the Old Testament to life for his audience as he explained the many slides. He also dressed in an Arab head dress and demonstrated how it is worn and used. This was the first half of his program.

That wasn't all for Wednesday; after supper, Jamie Knox and Don Kilgore came and played and sang for us. Everyone was happy to see them back.

On Thursday evening after supper, Mike Esquivel returned with more slides as his presentation progressed into the New Testament era. He also could give us an impartial view of the problems of the people of varying cultures living together in the Middle East. This was an excellent two-part series and I wish we could have shared it with some of our townfolk. The interest of residents was evidenced by the numerous questions asked. Thanks, Mike, for putting such a magnificent program together for us.

I just discovered the other day who our benefactor is who put some fish in the aquarium—thanks Lela Nussbaumer! Our thanks, also, to Jo Nell Stokes for checking out the aquarium (an expert in such matters), and working on it with me. We found we had a "killer" fish and he (or she) has now been removed and, I believe, peace reigns once again!

S.O.S. We need volunteers for Thursday morning (8:30 a.m.) hair rolling and combing. Please call me if you can help tomorrow, or Thursdays to come. Also, Tuesday morning crafts session could use several more hands between 10 a.m. and 11:15 a.m. You don't have to be professionals in either department! Usually it is just having a hand available for those who only have the use of one hand, or have sight difficulties.

"The cruellest lies are often told in silence."
Robert Louis Stevenson

Traffic accidents to claim 37 Labor Day

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today estimated that traffic accidents will claim 37 lives in Texas during the Labor Day holiday weekend.

The holiday runs from 6 p.m. Friday, August 31, to midnight Monday, September 3. During the comparable 78 hour period last year, there was a preliminary death count of 45, with late deaths raising the toll to 62.

"Our estimate is lower this year because, due primarily to the supply and cost of fuel, weekend travel is reduced from 1978. But at the same time, we recognize that traffic will probably increase during Labor Day since it is the last holiday weekend of the summer," Speir said. "We could easily have more deaths than estimated if drivers fail to put safety first. I would appeal to all motorists to save both fuel and lives by observing the 55 mile speed limit, and am hopeful that persons who are drinking will let others do the driving," he noted.

"People should also be aware that many holiday accidents happen close to home. Deaths in many of our cities are up substantially from 1978 levels, and it is possible that the majority of deaths during the Labor Day holiday will result from accidents in urban areas," Speir added.

Scout leaders' seminar

Terry Adams, Crockett County Neighborhood Chairperson for the Ozona Girl Scouts, has announced a Leaders Training Seminar to be held here in Ozona, August 30, at 7 p.m. in the home of Mrs. Thelma Janes at 118 Ave. G.

Anyone interested in becoming a Girl Scout leader or assistant leader should contact Mrs. Adams at 392-3028 prior to the seminar. In addition to needing new leaders the Ozona Girl Scout Troops are in need of interested people that could help with the scouting program doing such things as serving on telephone committees and other similar jobs.

For more information about the leader seminar or the helping committees call 392-3028.

Toll-free number for taxpayer assistance is 1-800-492-4830.

To help keep traffic moving safely, DPS and many local law enforcement agencies will be placing special emphasis on traffic enforcement during the Labor Day weekend. All available DPS Troopers will be on duty statewide, and the department will also work with the news media in the "Operation Motorcade" program which seeks to focus public attention on holiday traffic safety problems.

4-H food projects to organize

The 4-H food and nutrition projects will be organizing in September. All youth between 9-19 are welcome to participate in a project. In the projects kids learn to prepare new foods, shopping for food, meal planning, food storage, mealtime manners, and to eat the foods that keep us healthy.

4-H food project books are available from the Extension Service for both 4-H members and leaders. Adults are needed to serve as volunteer leaders for the projects. If you would like to participate in a group or be a leader, call Debra Price at 2-2721.

Caution needed in school zones

Calling children "our greatest natural resource," Governor Clements has asked all drivers to become "especially aware of the need for increased safety and vigilance, particularly around our school zones."

Clements proclaimed Back to School Safety Week, from August 25 through September 1, to "call attention to this need for added caution during the start of school." Clements cited the nearly 4,000 traffic deaths in Texas last year and the 389 children killed because of traffic accidents in setting aside this week for particular driver awareness.

"Increased traffic safety awareness and careful driving can help preserve the lives of our children and save them from harm," said Clements.

4-H workshop set for horse program

All 4-H leaders who are interested in "a more productive county 4-H horse program" are invited to participate in a weekend workshop on that theme, September 14-16. This training activity for leaders will be conducted at the Texas 4-H Center, located on Lake Brownwood in Central Texas. Crockett County Extension Agent, Billy Reagor, indicates that the weekend training sessions will include information and demonstrations on topics such as "Horsemen's Handcraft Workshop", "Futurity Projects", "Selection," and "Economics of Training and Fitting for the Market."

Instructors for the workshop activities are: B.F. Yeates and Dr. Doug Householder, Extension Horse Specialist, College Station; and Carolyn Gilbert and Dr. Bill Jackson, 4-H and Youth Specialists at Brownwood and Stephenville, respectively.

For further information and registration details, interested persons should contact the Crockett County Extension office located Court-house Annex, or phone 2-2721. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages, regardless of socioeconomic levels, race, color, sex, religion or national origin.

Back-To-School Meals

Rice and lean ground beef along with Cheddar cheese, canned soup and crushed corn chips provide good nutrition and good taste in this skillet meal.

During the busy time of Back-To-School weeks, family meals, including lunch if the kids are among the lucky few that come home for lunch, are kept simple.

Rice is the perfect basic, subtle-tasting background for such meals. It's bland enough in taste to team with most any dish, American or foreign. Rice is low in cost and can provide the quick energy all children need.

This lively main dish Beef Skillet Ranchero is a good example.

BEEF SKILLET RANCHERO

- 1 pound lean ground beef
- 1 cup chopped onions
- 2 cloves garlic, crushed
- 1 can (10-3/4 ounces) condensed cream of mushroom soup
- 1/2 cup beef broth or water
- 1/4 to 1/2 cup chopped green chiles
- 3 cups cooked rice
- 1-1/2 cups diced Cheddar cheese
- 1 cup crushed corn chips

Saute beef, onions, and garlic until lightly browned. Stir in soup, broth, green chiles, and rice. Heat thoroughly. Season to taste. Stir in diced cheese and top with corn chips just before serving. Makes 6 servings.

ENGAGEMENT ANNOUNCED—Mr. and Mrs. Jerry L. Beasley of Houston announce the engagement and approaching marriage of their daughter, Karen, to Lt. Craig Tallafiero, son of Mr. and Mrs. Warren Tallafiero. The couple will be married Oct. 20, in Faith Lutheran Church. The bride-elect is a graduate of the University of Texas. Lt. Tallafiero is a graduate of the U.S. Air Force Academy and is presently stationed at Laughlin AFB in Del Rio.

S.S. visit scheduled

Garland Gregg, representative of the San Angelo Social Security Office, has scheduled his September visit to Ozona. He will be at the County Courthouse on Wednesday, September 19 between 2:00 p.m. and 3:30 p.m.

Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time. Persons who are unable to

meet with him are encouraged to call the office in San Angelo. Residents of Ozona may call toll free by dialing "Operator" and asking for "Enterprise 2058".

This is the "International Year of the Child." If your child needs a social security number or you feel he or she should have one, please telephone any social security office to see what documents are needed in order to get your child a social security number.

Working couples should check withholding taxes

It's not too early to think about your federal tax bill, especially if you're among the millions of couples in which both spouses bring home a paycheck.

"Last filing period, many married couples who expected refund checks were surprised to find out that they instead had to write a check to cover a balance due on their tax bill," noted A.W. McCanless, Director for the Dallas District of the Internal Revenue Service. "The problem lies in the fact that the withholding rates are designed around the individual's wages and do not take a spouse's wages into account."

For example, the highest tax rate applicable to a couple filing a joint return with only one wage earner making \$26,000 is up to 32 percent. The withholding would be adequate. But for a couple with one spouse earning \$10,000 and the other \$16,000, the likelihood that an insufficient amount would be withheld is very great.

Mr. McCanless offers several alternatives for the two-paycheck couple. One possibility is to pay additional tax by means of estimated taxes. In this system, the amount is paid in quarterly installments directly to the IRS using vouchers that come with Form 1040-ES, "Declaration of Estimated Tax for Individuals."

Another choice is to file a revised Form W-4, "Employee's Withholding Allowance Certificate," with the employer claiming fewer or no allowances or requesting

The black rhinoceros cow bears only one calf about every three years, and both parents guard it jealously.

additional withholding. Also, married taxpayers may choose to have taxes withheld as if they were single. Both Forms 1040-ES and W-4 are available by calling the IRS taxpayer assistance telephone operation.

Additional information may be found in IRS Publication 505, "Tax Withholding and Declaration of Tax," available free from the IRS.

Best food buys for this week

Best buys at Texas grocery markets this week include pork, poultry, fresh produce and some dairy "specials," says Gwendolyn Clyatt, a consumer marketing information specialist.

More features on pork are appearing in markets. Focus is on Boston butt roasts, end and mixed chops, bacon, liver, semi-boneless hams and boneless hams.

Eggs have low prices, along with whole fryers and parts. Turkeys and drumsticks have moderate prices.

Best buys in vegetables are carrots, crowder peas, cucumbers, cushaw, soft-shell squash radishes and green onions.

Also, attractive prices appear on green beans, beets, celery, dry yellow onions and corn, although corn is past its peak-supply season.

Budget items in fruits include bananas, nectarines, grapes, peaches, cantaloupe, watermelons, pineapples, prunes, plums and pears.

"Specials" are milk, half-and-half, sour cream, yogurt and several cheeses, including cottage cheese in the dairy line. Use cottage cheese a short time after buying it for the sweetest flavor.

Some beef "specials" appear in some markets on ground beef, round steak, rump roasts, beef liver and chuck cuts.

Build menus around "specials" or seasonal foods in plentiful supply—based on the four food groups.

I BET YOU DIDN'T KNOW

Of all the National Football League teams, which one do you think has finished in first place the most different years?.. The answer may surprise you. The answer is the New York Giants.. They have finished in first place 15 different seasons.

Here's a fantastic record.. Do you know there's a college football team that won its first game of the season for an incredible 65 straight years!.. Princeton won its first game of the season every year from 1878 through 1942!

Here's an interesting football question for you.. What player once won the Heisman Trophy as the best college football player in the nation even though—oddly enough—the team he played on lost 8 out of 10 games that season!.. The answer is Paul Hornung who won the Heisman in 1956 while playing for Notre Dame.. That season Notre Dame won only 2 games and lost 8—but Hornung was still voted the Heisman Trophy.

I bet you didn't know.. L-B Motor Co. is the place to go for that Chevrolet, Oldsmobile, Buick, Cadillac, Pontiac and Chevy truck you are needing. Come by soon!!

Sheep and goat field day set

The annual Sheep and Goat Field Day will be in San Angelo Sept. 6 at the Texas A&M University Agricultural Research and Extension Center.

Registration will begin at 9 a.m., and lunch will be catered and Dutch-treat.

The Sept. 6 program will be in two parts--the morning session in the auditorium and

the afternoon session at various outside demonstrations.

Ranchers and other guests will hear a panel of area producers tell how they lamb in sheds in semi-confinement operations. The speakers will be E.H. Brosig Jr. of Lowake, Ralph Edens of Talpa, August Haechten of Lowake and Calvin Helm of Winters. Other topics to be discussed

in the auditorium will include the supplemental feeding of the ewe flock, research in bluetongue and polyarthritis and the potential for short wool.

Afternoon demonstrations will involve lamb feeding, ewe types, selective goat feeding, bitterweed toxicity, control of prickly pear and other rangeland weeds, Angora goat performance test, and thin ewe syndrome.

Sewing seminar slated

A designer-sewing seminar will be held Oct. 22-24 at the Community Center in Big Lake. Maurine Werst, who secured the expert personnel for the course, said a maximum of 25 area students could be accommodated.

Giving the courses will be Designers Collaborative, 6434 Mockingbird Lane, Suite 215, Dallas, Tx. 75214. Cost of the course is \$85 per person and the deadline for registering is Sept. 25.

The seminar includes road-map pattern design for the seamstress, pattern design for the difficult to fit person, how to sew on ultra suede and silk and appropriate patterns for certain materials.

Students must bring their own sewing machines, but tables for pattern-cutting and design will be furnished.

ENGAGEMENT ANNOUNCED-Mr. and Mrs. Bob Balley announce the engagement and approaching marriage of their daughter, Sally, to Mr. Mike John Oglesby, son of Mr. and Mrs. W.R. Oglesby of Pecos. The wedding has been set for October 13, in the chapel of Ozona United Methodist Church.

Cattlemen's round-up for crippled children

Jim Alexander of Abilene, general chairman of the Cattlemen's Round-Up for Crippled Children, has named

the following area chairmen: J.B. Criner and Steve Coates, both of Mertzon.

Cattlemen wishing to donate livestock or equipment to benefit the West Texas Rehabilitation Center should contact an area chairman or the Central Office of WTRC, 4601 Hartford, Abilene, Texas 79605.

The 20th annual Round-Up will raise money to help the handicapped being treated at WTRC's three campuses in Abilene, San Angelo and Snyder.

"We appeal to every rancher, farmer and stockman to join in the Round-Up to help crippled youngsters," Alexander said. "We anticipate a record number of calves, horses, and other livestock donated for sale with all money going directly to the Rehab. Center to provide treatment programs for the handicapped."

Dates for the sales are cattle sale, September 24, Abilene Auction; horse sale, October 6, Abilene Auction; sheep and goat sale, October 15, Junction, and special sale, October 17, Coleman. Farm equipment sale at Brownwood will be scheduled during the fall.

Mourning Dove hunting opens Fall season

The fall hunting season gets started in this area when mourning dove season opens September 1. Following is a general wrap-up of hunting season dates.

The North Zone split mourning dove season is Sept. 1-Oct. 21 and Jan. 5-13. The South Zone seasons are Sept. 22-Nov. 4 and Jan. 5-20. However, in counties along the Rio Grande which have white-winged dove hunting, the fall segment of the South Zone will end Oct. 31. The mourning dove situation is somewhat encouraging, with a good carry-over of birds which nested and wintered in Texas during the past year. Surveys show the breeding population to be about 10 percent over last year according to reports from Texas Parks and Wildlife Department officials.

Over most of the western half of the state, the quail season in regulatory counties is Oct. 27-Feb. 3. With some exceptions, the rest of the state has a Nov. 17-Feb. 17 season. Thanks to widespread rains during the critical spring nesting months, biologists expect a good to outstanding crop of birds in most areas of the state this fall.

The deer situation looks bright in both numbers and condition. A wet winter and early spring provided ample cover and forage. Habitat conditions have continued favorable into the summer. Antler growth is expected to be better than last year. In regulatory counties through

out most of the central portion of the state, the white-tailed deer season is Nov. 17-Jan. 1. In Panhandle counties, the season is Nov. 17 for 16 consecutive days. In Trans-Pecos counties, the white-tail season is Nov. 24 for nine consecutive days, except in Jeff Davis, Pecos, Terrell and Val Verde (west of the Pecos River) Counties, where the season continues through Jan. 1. The mule deer season in the Trans-Pecos is Nov. 24 for nine consecutive days, and in the Panhandle it is Nov. 17-25. Archery deer seasons are opened prior to the gun season in most counties.

Turkey populations look excellent over most of the state, with the exception of the western portion of the Edwards Plateau which failed to get its share of spring and summer rains. In general the fall turkey seasons coincide with the archery and gun deer seasons.

Pronghorn antelope hunters in West Texas can expect an outstanding season. Aerial counts showed antelope populations in both the Trans-Pecos and Permian Basin regions have been boosted by the best fawn crop in 10 years--an approximate 100 percent reproduction rate. In addition, Trans-

Pecos adult populations are 12 to 15 percent higher than last year and in the Permian Basin adult antelopes number about 10 percent higher than last year. The pronghorn season is Sept. 29-Oct. 7.

Prospective hunters are reminded to have a current hunting license and other required items such as federal waterfowl and white-winged dove stamps if doing that type hunting. Check the Texas Parks and Wildlife Department's free Guide to 1979-80 Hunting, Fishing and Trapping Regulations booklet available where hunting licenses are sold to determine regulations in all Texas counties.

Television safety list

Don't take television safety for granted, advises Claudia Kerbel, a consumer information specialist with the Texas Agricultural Extension Service.

Can you say "yes" to every "safety must" listed below about your television set?

1. It has adequate ventilation, and the ventilation openings can allow heat generated during operation to be released.
2. The television is not placed on a bed, sofa or rug, and is not placed in a built-in enclosure unless proper ventilation is provided.
3. The openings are not covered with cloth or other material.
4. The set is not placed near or over a radiator or heat register.
5. The polarized power line plug (a plug with one blade wider than the other) has not been tampered with.
6. The television is in a power outlet that is not overloaded with several extension cords.
7. Nothing is allowed to rest or roll over the power cord. This can result in shock or fire hazard.
8. Whenever you leave the room or the house, the television is turned off.
9. The television is never exposed to rain or water, and is never operated near water.
10. If the television set becomes damp or wet, it is inspected by a service technician before further use. Rain or excessive moisture may cause electrical shorts that can result in fire or shock hazards.
11. The television screen is always cleaned with the set turned off. Dampen a cloth to clean it, rather than applying liquid or aerosol cleaners directly to the screen.

Days of the buckboard, muddy roads, pioneer life recalled...

Pierce's saga of early Crockett enthralling

Wash chickens

A Foreword by Evert White: Beginning in this issue The Stockman is publishing in serial form the remarkable first-hand story of life in Ozona and Crockett County before the days of the auto, the telephone or the electric light. Not only will you find it fascinating for its unique quality as a story of the old west but you will find it almost unbelievable that it is the work of an 85-year-

old Ozona native whose lifetime in the ranching business has brought him not only tremendous success but also a lifetime of joyous accomplishment, eminently satisfactory living and continued zest for life, and left with an amazingly sharp mind and memory.

Always ready to use his wealth for community promotion or for charitable relief, Vic Pierce has been a

great blessing for Crockett County and I for one am grateful for his keen mind that has enabled him to leave us this vivid account of the earliest days of ranch life and town living in Crockett County. [Incidentally this story is destined for inclusion in the archives of the Crockett County Museum and will be there in perpetuity for the enjoyment of future generations as well as

the present.]

By Victor I. Pierce

My father, J.S. Pierce Sr., had come to Kerr and Kimble Counties in 1872 and had owned a lot of land, cattle, and sheep; however, in President Cleveland's administration, wool went down from 50 cents to five cents per pound because the government removed the duty on all wool. Other countries flooded the U.S. with foreign wool. Wool did not sell at all for two years; then for only five cents per pound.

Cattle also went down to nothing! My father lost all he had except one flock of sheep and about 300 head of cows. Father moved these animals across the Pecos River near Sanderson to free land or nearly free and leased one section from the State of Texas and drilled a water well. The state land leased for three cents per acre, and he also used 50 sections or more--FREE.

We lived in Junction, Texas, and my father wanted my mother to move to Sanderson and send us kids to school there. In 1889, my mother, who was from Pennsylvania, refused to move any further west than Ozona.

We left Junction with our furniture on ranch wagons and our food and our beds on a hack (a small wagon with two seats in front, that seated five people. It also had a top with curtains you let down in case of rain or cold weather.) We also had a Buck Board--a small wagon with no top, one big seat, and no springs--a real rough riding vehicle.

We arrived in Ozona about noon and unloaded into a house my father had bought. The same lot is in use today by Erby Chandler. His mother, Tommy Chandler, is my niece.

That first night happened to be one of the nights the cowboys shot up the town. My mother was scared, but Father assured her that they were just having fun, and that nobody ever got hit by a stray bullet. They had taken the sheriff home and told him to go to bed or he might get shot. However, one cowboy

did get shot that night. He shot himself...he bet that he could shoot a bug off the toe of his boot. He failed to kill the fly, but did manage to shoot himself through the foot.

About two years later, my father sold out near Sanderson and moved to a ranch that had 42,000 acres south of Ozona about 30 miles. The state of Texas owned the land; my father just owned all the improvements and paid the state three cents per acre lease on the entire 42,000 acres. Our family still owns this land today.

My father bought this ranch from John Perry, the sheriff of Crockett County. He pastured some cattle for a while after selling to my father. He told my father that he wanted to sell him the cows because Crockett County had become too settled for him. The idea of a man having to pay three cents an acre for land to run his stock on!!! He said that when his term ended, he was going to move to South America where he could graze his stock free.

He did move to South America, and his wife wrote many interesting letters back to friends in Ozona. These letters were printed in the "Ozona Kicker."

I only remember one letter she wrote to Ozona. She said that they had heard of three men from Ozona, Texas, that had bought a big ranch about 200 miles from them. Being lonesome and eager to see someone from home, they decided to take a hack with a camping outfit and go to see these three men from Ozona.

When they arrived, the three men were not at home and when they inquired about their names, they found out that the three men were outlaws that he had once arrested and sent to the

penitentiary. She said that they left immediately and went back to their own ranch without the three men ever knowing they had been there.

People of today seem to think that the people who lived in Crockett County before the telephone, automobiles, roads, and mail once a week were to be pitied! In fact, there has never been a time since the first auto that people were as well satisfied and happy as the period before the coming of the automobile. Roads were few, and people travelled by horseback.

Each ranch had at least three mattresses on each bed and a closet full of quilts and blankets ready to bed any travelers that might happen by. Also, each meal always had enough extra food for anyone that came by during meal time. Strangers, as well as acquaintances, knew they were welcome both at night and meal time, and "figured" on this before leaving their homes.

At roundup time, my father sent notes to all adjoining ranches a few days before the round up and they would come and stay until the roundup was over--taking their cattle back home.

In Ozona, kids delivered notes--10 cents each--after school! Once there was going to be a big dance, and all the men sent notes to their girls--asking for dates. They paid us kids for each note. I took two notes from two boys to two sisters asking for dates to the dance. One sister gave me a note "right quick" saying she would be glad to go. The other sister told me to wait. She wanted to see if she couldn't do better! I had to wait all afternoon, losing a lot of note business, but finally she answered that she would be glad to go. I never

took another note to that girl.

Women in Ozona would send notes to other women saying that they would have open house on a certain day and to be sure and come. I cannot remember them playing any kind of games--they just talked. I can remember one woman that kept the others laughing by the things she told. Some woman said, "Well, your daughter got married!" "Yes," she said, "it happened about midnight! I heard someone raise a window, and I awoke my husband and told him 'some boy is stealing our daughter--get your gun quick!'" He answered, "Be quiet--that boy is very timid--you might scare him off without our daughter!!"

Anytime there was any kind of a public gathering or a party, every person knew. They were welcome, and they all came and had a good time.

There was very little money here and no banks. The North had never let any money come to the South so the girls could not have a big wedding. It was understood that the boys would have to steal their brides.

CONTINUED NEXT WEEK

Laboratory studies at Texas A&M University have shown that broiler chickens can be stored longer in a refrigerator if first rinsed in cold tap water.

Dr. James H. Denton, poultry marketing specialist with the Texas Agricultural Extension Service, notes that this procedure resulted in the lowest bacterial count after broilers were refrigerated at 40 degrees F. for eight days.

The different procedures included leaving the chicken carcasses in unopened retail packages; opening the retail packages to permit air circulation during storage; repacking broilers in air-tight plastic bags; and washing the carcasses in cold, running tap water for 60 seconds, then repacking in airtight plastic bags.

Bacterial counts after eight days storage exceeded spoilage levels on all groups except the washed carcasses, reports Denton. Washing the birds reduced the initial bacterial population, thereby extending their shelf life.

All other treatments did not extend shelf life. Repacking caused a slight increase in bacterial numbers, apparently due to increased handling, believes Denton.

How much love is enough for kids?

"Just enough" love is best for kids--rather than too little or too much, says Dorothy Taylor, a family life education specialist.

"Children who receive too little love feel rejected.

"Those who receive too much may suffer 'smother love'--and never be allowed to mature," she explains.

Children can be damaged by excessive--or insufficient amounts of such essentials as affection, attention, stimulation and praise, the specialist cautions.

Different children require different amounts and expressions of love, so it's important for parents to know their children and their special needs, she says.

Some children respond to a hug, a kiss or other displays of affection.

Other children feel better about a good grade, verbal praise or special privileges.

Praise and recognition are closely associated with feelings of love.

Too little recognition may lead to feelings of inadequacy. When a child doesn't feel appreciated, he may become discouraged and develop a sense of futility or hopelessness.

On the other hand, an over-abundance of praise may create self-centeredness. Also, excessive praise can lose its meaning and lead to feelings of dishonesty or mistrust.

Finally, the most important fact to remember about love, affection, attention, stimulation and praise is to give it immediately to children.

When the act or deed has long been forgotten, love and attention have no impact or real meaning, the specialist reminds.

Do you want extra money?

Learn to Prepare Income Tax Returns

People who have a flair for dealing with figures, enjoy working with the public, and would like to earn extra income may enroll in H&R Block's Tax School. With classes in over 2,000 communities, there is almost certain to be a class near you. Job interviews available for best students. Send for free information and class schedules today. HURRY!

Classes start Sept. 5
Classes will be held at
12W. Gillis in Eldorado

Contact the office nearest you:
H&R BLOCK
Box 891
Eldorado, Tx. 76936

Please send me free information about your tax preparation course. I understand there is no obligation.

Ozonans receive degrees

Two Ozona students at Angelo State University were among 189 students to receive degrees during summer commencement at the University.

Emma Olga Martinez received a bachelor of arts degree with a major in Spanish; and Mary Jo Hyde Jernigan received a bachelor of science degree in elementary education, graduating magna cum laude.

Graduates heard U.S. Representative Tom Loeffler during ceremonies in the physical education building at ASU.

Church to show film

A film, "Beyond the Cross," about the lives of Christians in the Soviet Union, will be shown Sept. 2, at 9:45 a.m. at Calvary Baptist Church. The public is cordially invited to attend.

The film contains a message from Christians in communist lands to the Church in the West, a message of suffering and pain. The message is graphically portrayed in film.

CARD OF THANKS

I would like to thank all that were so kind and generous during my father's sickness and death. A special thanks to Dr. and Mrs. Carlisle and Mr. Kirklen for helping to transfer him from Dallas. To all the people that were so kind and generous with gifts of flowers, food, prayers and other acts of condolences.

May God Bless Each of You.
Sincerely,
Casiana Fierro and Family

We wish to extend our appreciation for the food, flowers and other thoughtful gestures on the death of our loved one. A special thank you for the loving care from the staff of the Care Center.

The family of Edd Cade
