NUMBER 32

Kitty's Korner

by
Kitty Montgomery

Don't take medicine in the dark. I've heard that warning all my life, but it was brought home to us rather abruptly last Wednesday. Tom takes the paper to Big Spring for printing early Wednesday. Before dawn he gets up, takes his arthritis medicine and his blood pressure pill and hits the road. He followed the same routine last Wednesday, but had different results.

About 8 a.m. that date, Bob Rogers, who prints our paper at the Big Spring Herald, called me at home and asked me to have someone pick up the paper, as he was taking Tom to the hospital. I didn't ask any questions. I knew Tom was sick if he would allow someone to take him to a doctor. I threw some things together, came by the office to pick up Bekie and we got to Big Spring in record time.

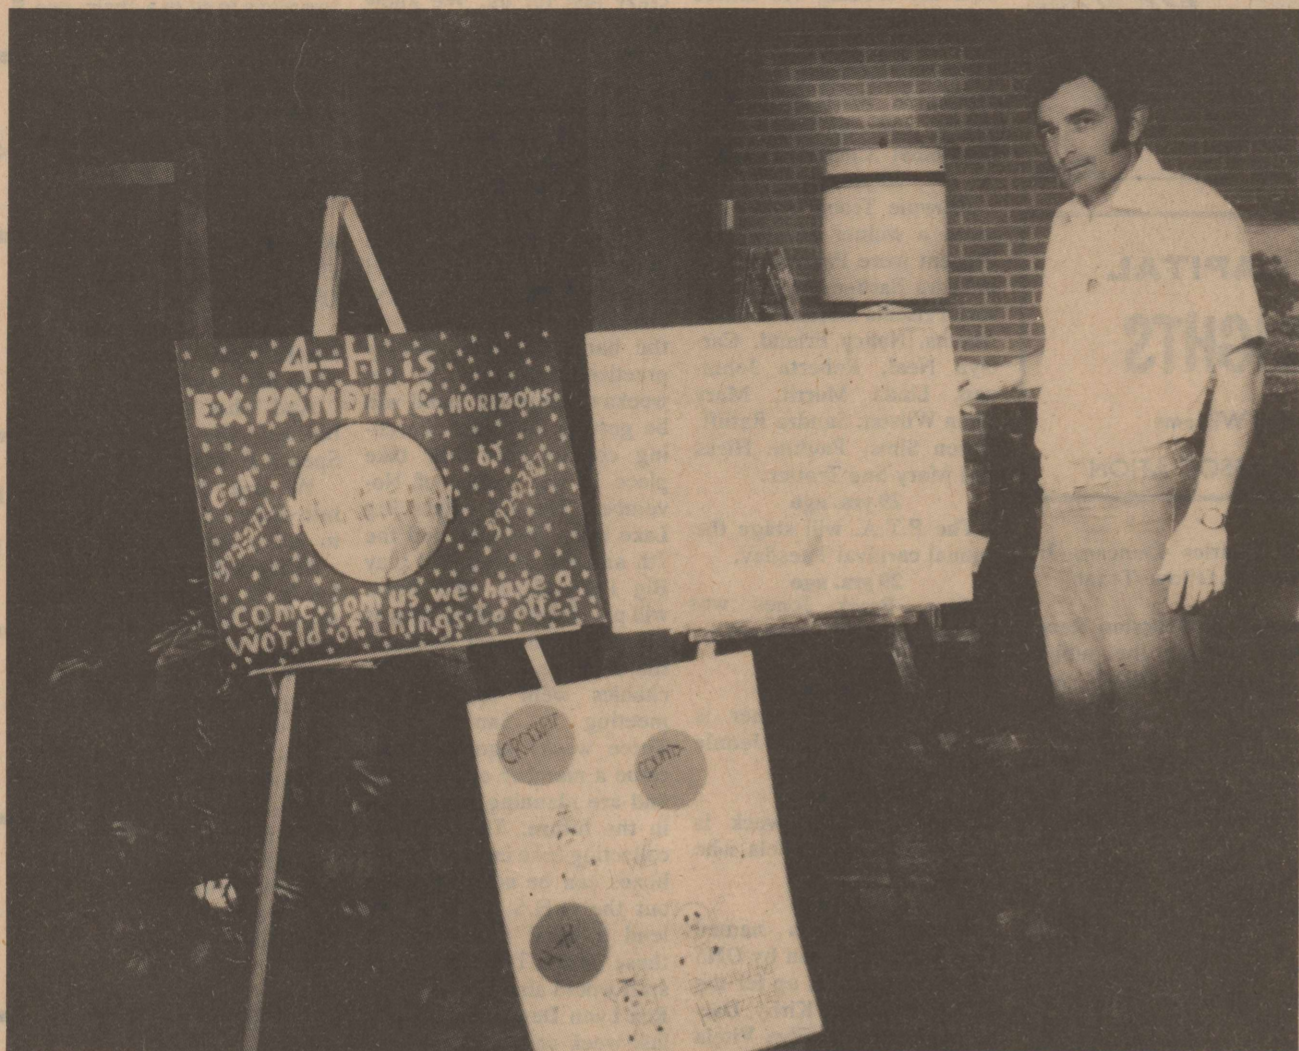

We found Tom at the Herald looking kind of pale and feeling clammy, but better he said. His symptoms were curious and they found nothing alarming at the emergency room in the hospital. He said he was fine until he reached a point on the other side of Big Lake and he began seeing double and was unable to coordinate his movements. His hands and arms became numb, along with his face.

By the time we arrived he had already begun to suspect he had taken the wrong pill. When we finally got home, he looked in the medicine cabinet and discovered he had taken a prescription drug for pain, a Class 2 narcotic, instead of his blood pressure pill. Somehow the pain pill bottle had been placed where he normally keeps his blood pressure medicine.

Of course, this was my fault. By that time he had come down off his "high" or back from his "trip" or whatever they call it and was really lecturing me about fooling with his medicine. I have no earthly idea how the bottle got there. Willa suggested he quit being so tight with electricity and avoid a future occurrence by just turning on the light when he took his medicine. That is such a simple thing to do. It never occurred to Tom to look at his medicine before he took it, but I believe he will do so in the future.

Fortunately there were no after-effects and the only bad

CONTINUED ON LAST PG.

EXPANDING HORIZONS is the theme for National 4-H Week which the 223 members of the Crockett County 4-H Club are celebrating this week. 4-H members have made

posters commemorating the occasion and they have been placed around the community. County Agent Billy Reagor is placing three of the posters in the bank.

Fall clean up begins

Ozona's Fall Clean-up Week is underway and will continue through next week.

County crews will pick up unwanted items and debris, including junked cars the remainder of this week and next. Trucks will be cruising the town and telephone calls are not necessary.

Please pile unwanted items and rubbish near a curb or an alley so the trucks and crews can reach them easily for pick up.

Reception for faculty

The entire school faculty, administrators, teachers and aides, are invited along with their spouses to a reception in their honor at the Catholic Parish Hall, Monday, Oct. 15 from 7:00 to 8:00 p.m.

Rev. Larry Droll, pastor, said the people of the church want to show their appreciation for the work done in educating the youth. He added the reception will also give the faculty an opportunity to meet the parents of the children. All parents are encouraged to attend.

To host Iraan Friday-

Lions lose 14-7 tilt to Rankin

The Ozona Lions were downed 14-7 by the Rankin Red Devils Friday night. A reorganization of the team saw several Lions playing in new positions. Adjusting well after the first half, the Lions held the Red Devils scoreless the second half and tacked on 7 points of their own in the third quarter.

Iraan's Braves come to town Friday night and the Lions have a good opportunity to chalk up their second win of the season. Iraan, also rebuilding and making adjustments, is winless for this season. Coach Don Sessom said the Lions had been working hard this week with a real upturn in attitude and he expects them to put forth good effort Friday night. Fans may expect an exciting game.

Freddy Garza scored Ozona's lone touchdown Friday night in Rankin with Rudy Martinez kicking the PAT.

Shane Fenton led the Lions' defense with a daz-

ling 18 tackles, four assists and two quarterback sacks. Louis Bunger had 7 tackles and 8 assists, while Freddy Garza had 6 tackles and 7 assists.

Danny Crawford and Aldo Delgado both caused fumbles for the Red Devils and Frank Galvan and Jeffrey Young recovered fumbles.

Mike Vallejo, who was injured and taken to Odessa Medical Center with a concussion, returned to school Tuesday.

4-H Week being observed here

The 223, 4-H members in Crockett County are working together to make the 1979 National 4-H Week, October 7-13, an event to remember. The Crockett County 4-H Council planned a 4-H Poster-Art Contest for 4-Hers in Crockett County. The posters will be displayed in our community during 4-H Week.

The theme of this year's 4-H week is "Expanding Horizons." The theme urges 4-H members to become productive members of their community. In our changing world, it is important that young people learn life skills, prepare for meaningful careers, and assume citizenship and leadership responsibilities.

Crockett County 4-Hers will be among more than 130,000 in Texas and more than 5.2 million in the United States who will be observing National 4-H Week. Boys and girls 9-19 years old participate in 4-H through organized clubs, special in-

terest groups, short-term projects, camping, television series, and programs planned to meet their specific needs in the communities where they live.

4-H is the youth education program of the Texas

Agricultural Extension Service and is directed at the local level by county agents who work with volunteer adults and junior leaders and other local citizens interested in youth development.

Martinez Services Thursday

Funeral services for Bernarda Cardenas Martinez, 66, will be held Thursday at 4:00 p.m. in Our Lady of Perpetual Help Catholic Church with burial in Lima Cemetery under the direction of Sheppard Funeral Home.

Mrs. Martinez died Tuesday morning at 10:15 in Crockett County Hospital. She was born June 11, 1913 in Devine, and was married to Abel Martinez, March 1929 in Ozona.

Survivors include her husband of Ozona; 3 daughters, Mrs. Pedro Garza, Mrs. Jesus Guerra and Mrs. Romulo Vela, all of Ozona; 2 sons, Abel Martinez, Jr. and Luis Martinez, both of Ozona; one sister, Mrs. Juan Delgado of Ozona; 20 grandchildren and 12 great grandchildren.

Clean up week scheduled-

Commissioners in routine meeting

The Crockett County Commissioners Court met in regular session Monday and held a routine monthly meeting, approving bills for payment and getting reports from department heads. They did set the annual fall clean-up, accepted the low bid on a vehicle for the county agent and appointed election judges.

County Clerk David Weant read the minutes of the last meeting and they were corrected to add a resolution that the county would not go along with the school in the re-appraisal of property taxes at this time. Law requires all school districts in the state to tax property at its full value beginning in 1980.

Von Parker gave the road department report and requested the court to hold the fall clean-up at this time. It was decided to begin the cleanup now and continue through Oct. 22. The county will clean lots, pick up debris and old cars. Some discussion was held on useless vehicles littering the town. Judge Jones said the law is specific in that any old unregistered vehicle in sight of a county street or road could be picked up and disposed of after sending the owner a registered letter stating the county's intent.

Parker reported that his crew had completed some 90 miles of paving in all four precincts to end the paving program for this year. He said he would give the court maps of each precinct and commissioners could be deciding where pavement is needed for next year. He asked for a new dump truck and pickup for his department and the court approved getting bids for both vehicles.

Dump ground problems were discussed and Judge Jones reported work had progressed to the point the county is near compliance with the State Health Department regulations on dump grounds. He said, according to the regulations, trash can be burned but the fill must be covered at least once a month to remain in compliance. Some discussion was held on a proposal by the

R.A. Harrells to give the county more land adjacent to the present dump ground in exchange for a road in another area and the closing of the present dump ground road. Commissioner B.W. Stuart was appointed to represent the court in working with Bill Cooper and the Harrells in the matter.

Justice of the Peace Al Fields met with the court to ask that his car be replaced or that his salary be raised to compensate. The court voted to give the JP a \$200 a month car allowance and trade the old car in.

County Tax Assessor-Collector Tom Stokes informed the court the annual tax roll had been delayed and tax bills could not be mailed until the roll arrives next week. He asked that the 3% discount given in October, be extended into November. The court agreed.

Dudley McCary reported on work at the hospital and 4-H barn.

Bids on a new Suburban for the County Agent were

opened at 11:00 o'clock. Carlisle Motors bid \$11,281.29 with a trade in of \$2,931.29 for a difference of \$8,350. L-B Motor Co. bid the vehicle at list \$11,755.62 with a trade in of \$4,900 on the present vehicle for a total of \$6,855.62. Another \$210 was taken from that total due to error on the motor, making the total cost \$6,645. The low bid was accepted in a unanimous vote.

Hospital Administrator E.L. Kirklen gave the monthly hospital report. He said he had not been able to contact Dr. Pat Dwyer, but as far as he knew the doctor still plans to set up a practice in Ozona. He reported work on the doctor's office near completion and submitted a bid for flooring in the amount of \$2,145.15. The court decided to wait until the doctor set a more definite opening date before spending more money on the office.

Kirklen reported he had asked for the resignation of

Cont'd on Page Twelve

Hospital board holds meeting

The board of directors of the Crockett County Hospital and Care Center met Thursday, Oct. 4, in the dining room of the Care Center.

Hospital Administrator Edwin Kirklen reported again that Dr. Pat Dwyer was making final arrangements to move to Ozona and work has begun on renovation of the Clinic Building where he will have an office. Dr. Dwyer had planned to move to Ozona by Sept. 1, last month the date was set up to October 1, and now no exact date has been established.

Kirklen reported the new ice machine has been installed and is functioning very well.

Kirklen asked the board's approval for the purchase of a new typewriter, a new desk, six four-drawer filing cabinets and a new Burroughs calculator. After discussion, motion was made by

Chester Wilson and seconded by Blas Vargas that the new equipment be purchased. The motion carried.

Bills were reviewed and the financial statement presented. It was noted that this was the first time in several months that complete financial information had been available on both the hospital and the care center. It was noted that the hospital had a 38% occupancy for the month and the total loss reflected only around \$4,000.

The board approved payment of the bills and approved the financial statement.

Board members present were Chester Wilson, Blas Vargas, Dennis Clark and Bekie Diaz. Also present were Dr. and Mrs. Don Carlisle, Dub O'Bryant, along with Kirklen.

SALVATION ARMY CREW organizes at a luncheon Tuesday at the Ozona Steak House. David Weant, left, has taken over the chairmanship of the local chapter, from Jim Adams, center, who has served as area chairman for several years. Ralph F. Lennon of Kermit, right, who is service unit field representative for 30 counties was here for the meeting.

NO MORE PARKING AFTER DARK AT THE PARK-So the sign proclaims. Workmen put up the signs Tuesday afternoon after the park was declared off limits for night time gatherings. The action was taken after the granite statue of Davy Crockett was found badly scarred. Also, in an attempt to stop littering of the park and street around it with broken glass almost nightly.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

The cooler weather of late has been most welcome to all of us, as well as the vegetation of our area which is really suffering for the lack of moisture.

Garden-grooming should be our emphasis this month to be ready for the fall clean-up. If you have friends or relatives that own lots here, and they need grooming, write them a note to remind them of our concern to get our city clean for the winter months. There is more to fall garden clean-up than just tidying. Garden cleanup is necessary to remove overwintering places for insects and disease organisms that could plague your plants next year. Dead plants can be turned into valuable compost to use in backfill soil for trees and shrubs you may want to plant this winter.

Wall is catalogue time so order nursery catalogues this month to allow yourself plenty of time to study them and place orders for plants and seeds. This is prime time for planting, so start planning what you want to add to your garden.

Transplant daylilies in the fall. They look best in masses rather than in individual clumps and all the same variety or colors that blend. Dig each clump carefully; then hose down the roots to wash off the soil. If you can't pull the root ball apart by hand, use a sharp knife. Reset plants at least 10 inches apart in well-prepared soil. Keep plants watered until frost.

Now that your mums are or will be in full bloom soon, take a little extra care to insure the staying power of the flowers and increase your enjoyment of them right up until frost. Potted mums are especially prone to wilting. If you notice plants wilting, water them at once. After all flowers have faded, cut the plants back to about 6 inches tall. Divide and transplant next spring if you don't plant in soil after blooming. For instant color now, chrysanthemums are now available in containers for use where needed. They can be planted outdoors after the flowers bloom.

Pandale Study Club in meeting

The Pandale Study Club met Thursday, October 4, in the home of Mrs. Tom Everett.

During a short business meeting the members decided to order a new printing of the Pandale Cookbook. Correspondence from two of the club projects; West Texas Boys Ranch and High Sky Girls Ranch, was read.

Judy Norsworthy presented a program on the origin of Halloween and shared with the club her personal favorite Halloween mask.

Hostess Opal Everett served a salad and dessert buffet. Opal's centerpiece was a bouquet of crocheted flowers which she had made. After refreshments were served, Opal presented the flower bouquet to the newest member of the club-Judy Norsworthy.

Members present were Mrs. Welton Bunker, Mrs. Tom Everett, Mrs. Terry Gries, Mrs. Henry Mills, Jr., Mrs. Will O. Mills, Sr., and Mrs. David Norsworthy.

DAUGHTER TO HESTERS

Mr. and Mrs. Guy Hester are the parents of a daughter born at 11:17 p.m., October 2, in Community Hospital in San Angelo. She weighed 5 lb. 15 1/2 oz. and has been named Susan Lavine.

Grandparents are Mr. and Mrs. George Hester of Ozona and Mr. and Mrs. David Humphries, Sr., of Del Rio.

Forum meets at center

The Woman's Forum met in the Civic Center, October 2, with Ms. Bonnie Warth and Mrs. Dempster Jones as co-hostesses.

The meeting opened with a prayer by Mrs. Huey Ingram. The President, Mrs. J.D. Brown, presided over the business meeting. Roll call was answered and the minutes of the previous meeting were read and approved. A report on the State Convention was given by Bonnie Warth.

The program was Federation's Role in the Free Enterprise Economy. Mrs. Brock Jones gave an interesting talk on Inflation and

Unemployment, taken from Howard Ruff's book "How to Prosper During the Coming Bad Years." Ms. Bonnie Warth spoke on Government Regulations and Controls, pointing out the red tape and wastefulness of the Federal Government. Our Energy Policies were discussed by Mrs. R.M. Owensby.

Other members attending were Mrs. P.L. Childress, Ms. Madye Jo Humphreys, Mrs. Jess Marley, Mrs. J. McCartney, Mrs. Roy Pearson, Mrs. Gene Perry, Mrs. Arthur Phillips, Mrs. C.O. Spencer, Mrs. W.T. Stokes, Mrs. W.H. Whitaker, and Mrs. Marshall Montgomery.

Garden Club has brunch

The Ozona Garden Club met for brunch Monday, October 8, at 10 a.m. in the Steve Kenley home. Mrs. Kenley and Mrs. Frank Justiss were hostesses.

During the business meeting, Mrs. James Montgomery, treasurer, reported the White Elephant Sale in September was a success. A special thanks goes to the community for supporting the sale. Plans for the home flower show were discussed at length. The show will be Monday, October 15, at the Steve Kenley home, 508 Terrace Drive. The public is invited to the show from 4 to

6 p.m. Mrs. Tom Stokes discussed methods of drying flowers in the microwave oven. She showed the club some beautiful flowers which she had dried by this method.

Members present were Mrs. Fleet Coates, Mrs. L.B. Cox, Jr., Mrs. Lee Graves, Mrs. James Haire, Mrs. J.W. Howell, Mrs. Frank Justiss, Mrs. Steve Kenley, Mrs. A.S. Lock, Mrs. James Montgomery, Mrs. Bailey Post, Mrs. Jack Probst, Mrs. Tom Stokes, Mrs. Glenn Sutton, and Mrs. Charles Williams.

Mrs. Cox hosts bridge

Mrs. Bud Cox was hostess for luncheon and bridge at the Country Club Thursday.

Winning high was Mrs. Evert White. Second high went to Mrs. Pete North, and low to Mrs. Byron Williams. Mrs. Dwight Childress won the bingo.

Others playing were Mrs. Clay Adams, Mrs. Larry Braden, Mrs. George Bunker, Mrs. Joe Clayton, Mrs.

Joe Couch, Mrs. Joe Friend, Mrs. Deene Holden, Mrs. Brock Jones, Mrs. Ann Mayfield, Mrs. Beecher Montgomery, Mrs. Douglas Moore, Mrs. J.B. Parker, Mrs. Jake Short, Mrs. Sher-

man Taylor, Mrs. C.O. Walker, Mrs. Charles Williams, Mrs. Gene Williams and Mrs. Jack Williams.

Luncheon guests included Mrs. Robert Cox and Mrs. Dempster Jones.

- Oct. 15-Ozona Garden Club-Flower Placement Show-the Steve Kenley home. Public invited.
- Oct. 16-Southside Lions Club-G.I. Forum hall 8:00 p.m.
- Ozona Womans Forum to meet with Mrs. Beecher Montgomery at 3:30 p.m.

Weight control program set

A program on "Weight Control" will be presented October 11, 7:30 p.m. at the Ozona Community Center. Debra Price will present the program for the Extension Homemakers Club. All homemakers are welcome to attend.

Debra Says

BY DEBRA PRICE

"V" describes the fall '79 fashion silhouette with broadened shoulders, defined waistslines, slim and shorter skirts.

A return to shape provides a neat, softly tailored and glamorous "retro" look of the 50's.

The shaped suit is destined to be fall's hottest item. Jackets have broadened shoulders and closer fit at the waist-usually accented with belts, wide or narrow.

Worn over skirts, pants or dresses, the jacket or blazer is a bit shorter than in past seasons.

Suitable blouses include soft, simple, uncluttered lines in silky fabrics of bright or subtle colors. Other blouse news features flanged and broadened shoulders, small classic collars, and pocket detail.

To accessorize, add ribbon ties, narrow neckties or decorative pins.

Shapely shirt dresses make headlines with a structured look. Shoulders are well-shaped, skirts slim and waists cinched. Watch for asymmetrical closings, front wraps, and soft, silky fabrics.

Pants continue a slimmed down or tapered look. Newest length is at the ankle-strap showing off an ankle strap pump or low boot. Pleats, gathers, and tucks give fullness at the waist.

Great news for Texans is frontier fashion-the western look. Styles include shirt yokes trimmed with piping, side buttoned narrow pants, and denim skirts.

Accessorize with authentic western boots with pointed toe and slanted low heel.

To layer for warmth, add a classy sweater or vest. Choose from shaker knits, twin sets, jacquards or argyles. Wear sweaters over a coordinated blouse and accent with a belt at the waist.

For those colder days, coats draw attention. Coats are narrow with wider shoulders tapered to the hem line.

Duplicate Bridge Club

Winners in Duplicate Bridge Club play at the Country Club Saturday were Mrs. Evert White and Mrs. Sidney Millsbaugh, first, and Mrs. Robert Cox and Mrs. Tom Montgomery, second. In play Sunday, Mrs. White and Mrs. Millsbaugh were again first with Mrs. J.J. Marley and Mrs. Sherman Taylor, second.

Girl Scout leaders meet

The Ozona Girl Scout Neighborhood Meeting for leaders and assistant leaders was held Thursday, October 4, with 8 leaders present. Business discussed included the upcoming citywide Halloween Carnival which the Girl Scouts will sponsor several booths. In addition to sponsoring the booths a Girl Scout costume parade has been set for October 27 at 6 p.m. to help kick off the Halloween Carnival.

Other business included a general discussion of the upcoming events. A district wide Christmas party, the Girl Scout Junior Olympics and the 1980 Trails of Texas Caravan which will be spending the night in Ozona in July, were discussed. Tentative plans were made to show the travelers some high points of interest in and around Ozona as hosting the evening meal and an early morning breakfast.

Troop organization was also a subject discussed at Thursday's meeting. At present there are 11 Girl Scout Troops in Ozona with enough girls for a 12th troop if a leader can be secured. Anyone interested in becoming a Girl Scout Leader should contact Terry Adams at 392-3028 as soon as possible.

Refreshments were served following the meeting.

Those present were Pam Coates, Peggy Phillips, Terry Adams, Cynthia Ramos, Charolett Judd, Betty Koerth, Lavell Crawford, and Regina Whitworth. Winner of the door prize was Pam Coates.

your very own pew?

There is no name on this pew. But through the years some very devout people have thought of it as "theirs" and willingly — eagerly — shared it with friends and strangers. Right now it is waiting for somebody to claim it. Come a little early next Sunday and it's yours.

Next Sunday is World Communion Sunday. In every land those who believe in Jesus Christ will be joining together to partake of the Lord's Supper. It is a day for realizing our privileges and blessings, renewing our commitments and responsibilities.

Christians everywhere will come to worship their Lord... and go forth to serve Him.

Have you a pew to call your own? On Sunday you can have: it's first come... first served.

The Scientists Tell Me...

Clean Up of Oil-spill Land Hastened By A New Process

By Robert L. Haney
TAES Science Writer

Oil spills, one of the oil industry's messiest problems, may be easier to handle in the future with help of a process developed by a soil scientist in Texas.

Dr. Fred Turner, with the Texas A&M University Research and Extension Center at Beaumont, has developed a relatively low-cost method that encourages natural soil microorganisms to decompose the crude.

His experiments show that 3 to 4% crude oil in soil is the critical level. Any more than that will severely restrict or prevent growth of most plants.

Three percent crude oil in soil is equivalent to 3,500 gallons of crude oil spread in a 2 1/2-inch surface layer covering an acre, according to the Experiment Station scientist.

Soils containing 10% crude oil may require 2 years to reclaim, whereas those containing less than 4% crude oil may be reclaimed within 1 year under ideal conditions of moisture, nutrition, temperature and aeration for native, soil microorganisms.

Excessive soil salinity (saltiness) will increase the time required to restore soils since excess salt alone can prevent plant growth.

"The basic requirement in reclaiming oil-contaminated land," Turner says, "is to develop the ideal physical and chemical conditions in the soil that will enhance growth of the microbes which biodegrade the crude oil."

"Amounts of nutrients needed to enhance the reclamation rate are somewhat dependent on the soils' ability to supply nutrients. Generally, about five parts nitrogen and 0.5 part phosphorus fertilizer per 100 parts carbon in the crude oil are required to speed the rate of reclamation."

"The fertilizer supplies the soil microbes with the necessary nitrogen and phosphorus needed to decompose the organic material in the oil."

"The organisms work best when the soil contains just the right amount of moisture. Usually, this is the amount that's also best for plant growth."

"In addition to its potential usefulness to landowners and oil companies contending with pipeline leaks and other accidents related to oil production, this technique is of value to industrial interests since many oil spills occur near factories and other industrial sites," Turner concluded.

Fall clean up saves spring garden problems

A neglected garden site this fall and winter can become an insect haven waiting to explode next spring with hundreds of hungry and unwanted insect pests.

So, to reduce the number of insects in your garden next spring, destroy their critical food supply and shelter, points out Billy Reagor, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

Garden insects, like most living creatures, need food and shelter to survive freezing temperatures and other adverse weather conditions. Don't give them a place to spend the winter in your garden, says Reagor.

Ideal places for insects to overwinter are trash, vegetable stubble, unharvested fruits and tubers, boards, mulch, tall grass and weeds. Removing plant residues and disposing of debris, weeds and other volunteer plants eliminates food and shelter

for many insect pests such as cutworms, webworms, aphids, wireworms, white grubs, millipedes, sowbugs and spider mites.

When a garden plant stops producing, spade plant material into the soil or take it to the compost pile. Don't allow it to remain in the garden, emphasizes Mr. Reagor.

Spading the soil deeply during the fall is also good as it will expose many insects to be eaten by birds and predators. Other insects will be killed deep enough into the soil to prevent their emergence.

By practicing good garden sanitation this fall, you'll be ridding yourself of many undesirable garden "friends" and saving time and money for insect and disease control next growing season, reminds the Agent.

Garden club show is Monday at Kenley home

"Please be Our Guests," is the theme for the Fall Flower Placement Show, sponsored by the Ozona Garden Club and to be held at the Steve Kenley home, 508 Terrace Dr., Oct. 15. The public is invited to attend the show from 4 until 6 p.m. with no admission charge.

Purpose of the show is to stimulate interest in the beauty of flower arranging and to exhibit the club members' handiwork to the community.

Entries will be received from 1:00 to 2:00 p.m. at the Kenley home on the day of the show. Each member will exhibit one arrangement in the show. Bases, accessories and foliage may be used in all classes. Fresh, dried or treated plant materials may be used. No artificial flowers or foliage will be permitted in any of the classes.

Club members should be present when the show is open to the public. All entries must be removed immediately following the show.

There will be eight arrangement classes with several designs in each class. Arrangements will be placed

Facts about fabric types

Every fabric type displays certain characteristics—both good and bad, says a clothing specialist, Becky Culp.

The combination of the fabric type, fiber content and finishes applied combine for the fabric's total characteristics, she explains.

Fabrics are most often made by knitting or weaving but can also be netted, braided, bonded, fused or felted.

Woven fabrics are made by interlacing yarns one over the other.

The pattern of interlacing is varied to result in different fabrics such as twills or satins.

When woven interlacings are compact, fabrics are durable, firm, water and wind repellent, strong, stable and have increased fire retardance.

Correspondingly, fewer interlacings result in fabrics that are more open, flexible, permeable to water and wind, drapeable, raveling and flammable.

Woven fabrics with loose threads on the surface have greater luster, smoothness, flexibility, resiliency and tendency to ravel and snag.

Knits are made by looping yarns together, Ms. Culp continues.

This looped structure generally results in elasticity, stretch, wrinkle resistance, instability and snagging. The smaller the loop, the greater the durability.

Tricots are one major knit variety. They have lengthwise, ribs on the right side and crosswise ribs on the wrong side.

Tricots are smooth, flowing, resist bagging and sagging and do not run or ravel.

Single knits are smooth on the right side and textured on the wrong side. They stretch equally in the crosswise and lengthwise direction and edges curl.

Double knits have lengthwise ribs on both sides of the fabric. They do not curl but lie flat, stretch more in the crosswise than lengthwise direction and snag.

Interlocks are a type of double knit, the specialist says.

throughout the home with classes designated for each room, beginning with the front doors and entry hall table and ending with the master bedroom. Class 9, will feature one design in the office.

Poor man's supper is Friday nite

Ozona and Iraan football fans are invited to the Ozona Lion Band Poor Man's Supper Friday evening at the Civic Center before the game. Serving will begin at 5 p.m. and continue until the 8:00 p.m. kickoff time. Tickets are \$2, and may be purchased at the door or in advance from any band member.

The menu consists of beans, cornbread, salad, dessert, tea and coffee, all you can eat. Take outs are 25c extra and parents may pay at the door for children under the age of 6 years.

The public is cordially invited to enjoy the supper and fellowship and support the Ozona Lion Band.

News of the ill

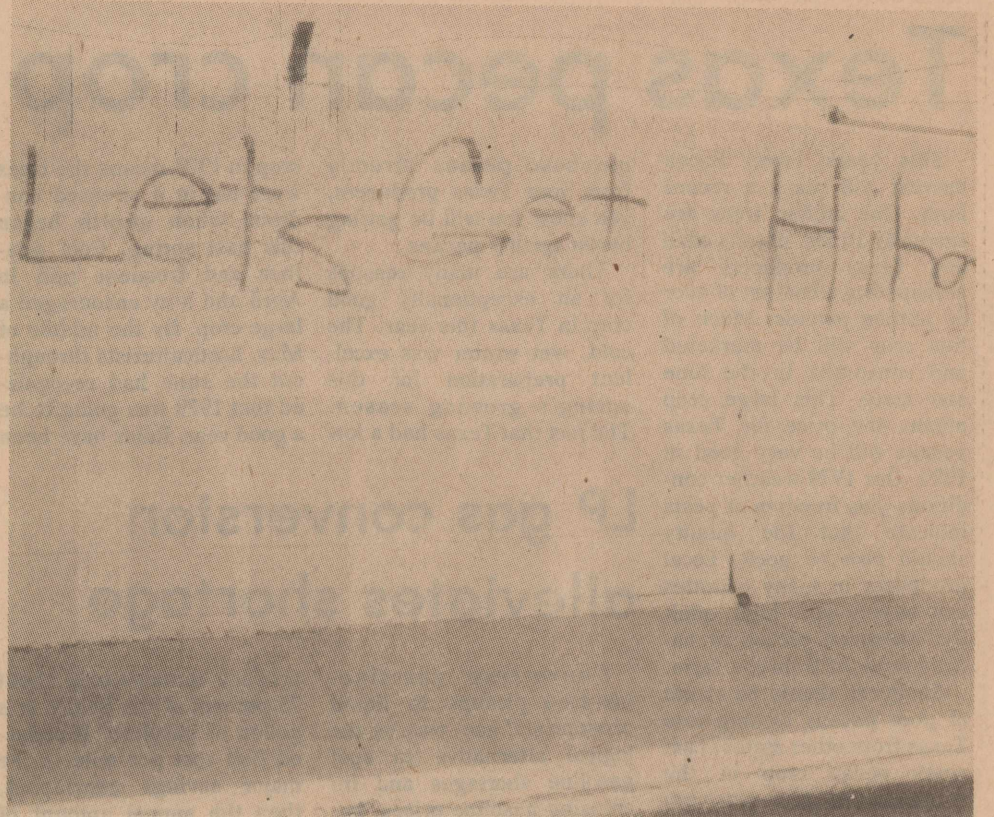

Bob (Sonny) Bailey returned home last week and is well on the mend from surgery performed in a San Angelo hospital two weeks ago.

Johnny Henderson suffered a broken hip in a fall at his home here early Monday morning. He was transferred by ambulance to a San Angelo hospital.

Armond Hoover Jr., who was being treated in Houston's Methodist Hospital, suffered a relapse and was reported dangerously ill Sunday afternoon.

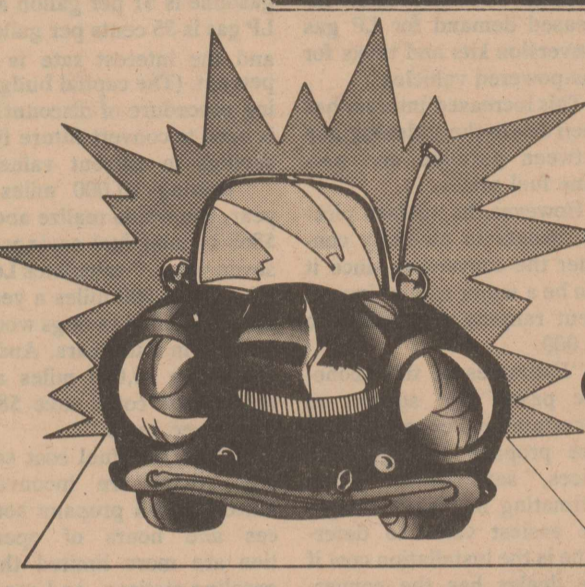

Ray Boyd was back at the Village Drug Tuesday after a two week confinement in the hospital being treated for back injury. He was moving slow.

Some "New Wrinkles" make you look older.

ONLY ONE OF THESE PRODUCTS WILL NEVER HIT YOU WITH A REPAIR BILL.

"Every GTE telephone we lease comes complete with a service technician—like me. If anything goes wrong, I'm there to fix it, fast. No matter what the problem, there's no extra charge for my services. It's all covered by your regular monthly phone bill.

"That way, General Telephone can make sure you get the most efficient and reliable telephone service possible at the lowest cost. That's why I'm proud to be one of the people General Telephone is talking about when they say 'We keep you talking.'"

Lee Owen, Customer Service Specialist, Weslaco, Texas
One of the 100,000 GTE professionals who are working to bring you better and more efficient telephone service.

Texas pecan crop hits record high

This year's Texas Pecan harvest will reach a record high. One million trees are currently 10 lbs. of nuts each and Texas producers are anticipating a harvest of over 80 million pounds. Much of this crop will be marketed and consumed in the lone star state. This large crop means the price for Texas pecans will be very good in 1979. Our 1979 weather conditions plus freedom of pests indicate that the quality should also be good. Local producers in many counties can supply you high quality, improved pecans or natives straight from the farm. Shoppers should be aware of poor pecans coming into Texas from other states. Last year's pecan crop in the Southeastern states was very large and their annual rainfall was very low which resulted in poor quality nuts. These nuts have been held over in refrigeration and will be sold in November. If you

purchase pecans directly from your Texas producers, you know you will be getting better quality pecans.

There are many reasons for an exceptionally good crop in Texas this year. The cold, wet winter was excellent preparation for this spring's growing season. The fact that Texas had a low

crop in 1978 means the trees were not in a stressed condition when growth began this past spring. Cool weather and frequent rain in April and May encouraged a large crop. By the middle of May, horticulturists throughout the state had recognized that 1979 was going to be a good year. Rains have been

way above average in most sections of the state and have come on a three-week interval which is almost perfect for setting a good crop of pecans. The low spring temperatures also suppressed pecan scab which is a major disease in many seasons. An insect known as the pecan nut casebearer can frequent-

ly reduce the crop 30 to 90 percent, however, in 1979 this pest was essentially non-existent in many areas of the state. More importantly, many growers are following recommendations of the Texas Agricultural Extension Service and through good management are producing high quality pecans on a

regular basis. This management program includes nitrogen fertilization, zinc sprays, insect and disease control, weed management and regular irrigation. The test of a good pecan producer will come in 1980, for only the growers who have a good management program will have a good crop next year.

LP gas conversion alleviates shortage

Converting gasoline-powered pickups to liquid propane (LP gas) may be the logical alternative to spot gasoline shortages and increasing gasoline prices, believes an economist with the Texas Agricultural Extension Service.

Dr. Ashley Lovell with the Texas A&M University System notes that there has recently been a sudden increased demand for LP gas conversion kits and tanks for gas-powered vehicles.

This increased interest has been due to the widening gap between gasoline and propane fuel prices.

However, he advises pickup owners to carefully consider the conversion since it can be a major capital investment ranging from \$600 to \$1,000.

"Estimates of the economic payoff are subject to uncertainties, especially future propane and gasoline prices," says Lovell. "When estimating net fuel savings, the easiest value to determine is the installation cost if the dealer has the conversion kit and tank in stock."

Total fuel savings over a given period of time will increase due to a widening of the gap between gasoline and LP gas prices, high mileage use of the vehicle, and the greater fuel consumption of less efficient vehicles (gas guzzlers).

"A major conversion benefit is the anticipated lower fuel cost per mile," points out Lovell. "However, propane causes a 20-30 percent decrease in miles per gallon since one gallon of

propane contains only about 75 percent of the BTU's in a gallon of gasoline. If reduced fuel cost per mile is the major savings considered, then the annual amount of savings is directly related to annual mileage."

The economist gives this example. Assume a vehicle gets 15 mpg from gasoline and 11.25 mpg from LP gas, gasoline is \$1 per gallon and LP gas is 55 cents per gallon, and the interest rate is 10 percent. (The capital budgeting procedure of discounting is used to convert future fuel savings to current values.) "Driving 10,000 miles a year, you would realize about \$865 in total fuel savings in seven years," calculates Lovell. "At 15,000 miles a year, the discounted savings would be \$845 in four years. And if you drove 20,000 miles annually, you could save \$884 over three years."

Despite the fuel cost savings, there are inconveniences. Retail propane sources and hours of operation are more limited than gasoline stations, and repair of LP systems requires specialized skills and parts, notes the economist.

Also, cargo space in a pickup bed must be sacrificed for the propane tank. This is costly if the truck is regularly used for hauling or for pleasure such as carrying a camper.

"If you have a propane system, you should frequently check it for leaks," warns Lovell. "Don't park in a closed garage, especially if it houses a gas hot water heater."

Sales tax rep. to visit here

Garland Gregg, Social Security Representative for the San Angelo Social Security office, has scheduled his visit to Ozona for October. He will be at the County Courthouse, Wednesday, October

17 from 2:00-3:30. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

Persons who are unable to meet with him are encouraged to call the office in San Angelo. Residents of Ozona may call toll free by dialing "operator" and asking for "Enterprise 2058."

Oct. Social Security visit set

State Comptroller Bob Bullock will have a representative from his San Angelo office in Ozona on October 18, to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Steve Mercer will meet with local taxpayers in the Crockett County Courthouse Annex from 9:30 to 11:00 a.m.

"If Ozona area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing state tax forms, Mr. Mercer will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office, and we believe these face to face sessions with taxpayers help do just that," Bullock added.

The San Angelo office, headed by Thomas M. Goff, serves San Angelo and surrounding counties.

GIRL TO URBANKES

Mr. and Mrs. Troy Urbantke are the parents of a daughter born Sept. 22 in Houston M.W. Medical Center. She weighed 8 pounds and has been named Anna Danielle. She has a brother, Tab, 3.

Grandparents are Mr. and Mrs. Thadd Tabb and Mrs. Volie Urbantke of San Angelo.

Crockett County Care Center News

by Joan Nicholas — Director of Activities & Social Care

Ann Shaw brought a lively arrangement of flowers to the Center over the weekend, and someone brought several containers of ivy. We do have a book to sign for donated gifts and we would love to know who you are! Thank you very much.

A new resident moved in Friday around noon and his name is Mauricio Hernandez who comes to us from Del Rio. August Prugel is presently in Sonora.

In Bible class our theme was "Teaching the Faith" with texts taken from 1 Thessalonians and Titus. There are some schools of thought, apparently, that believe Paul's letter to Titus might have been written later by someone who was a good friend of Paul's since the style in which it is written differs somewhat from Paul's other epistles. We had a good group, and as always, I asked the question before leaving "is there anything anyone would like to add?" And Eleanor Bradford, as quick as a wink, says "yes". So, I said "go ahead Eleanor" and she replied "I would like to add my feet to my wheel chair!" Eleanor likes to remove her feet from the foot rests and place them on the floor, and she caught me unawares with her cute humor (not bad for 93 years young next month.)

Talking of Eleanor, she won the dominoes game this Monday at one table, with Nila Turnella a close second. Paul Cavin won at the other table with Ruby Cooksey in second place. Gertrude Daniels was the Toss-across champion.

In Bingo last week, Swede Lundgren won the gift certificate with Leona Harris winning the second prize after a play-off with him.

We had a lot of input at the reading and discussion session on Thursday afternoon. We continued, of course, with Vic Pierce's story with many breaks to allow members of the group to share their own experiences on the same subjects.

A great birthday party was the "happening" this Monday afternoon. Verna Talley had her picture taken with family (four generations), Mary Pender posed with brother Bill Davis, and Jacinto Flores was pictured with his daughter, granddaughter and great-granddaughter from Odessa. He received a congratulatory letter from the Governor of

Texas for reaching his 97th birthday, which was read to all the party guests. Ages reached totalled 260 years for the three honorees.

We had two cakes, one in the shape of a very fancy hat brought by hostess Alma Wilson which was most original in the shape of a very fancy hat; she also furnished a delicious fruit punch. The other cake was huge, and beautifully decorated brought by Lilia Gonzales and the Odessa group.

I am arranging, from now

on, for us to participate in the Governor's program where all residents of nursing homes reaching ninety or more years, receive a letter. Our ladies were really dressed up and looked so pretty for their party; Shorty wore a new shirt given to him for his birthday and all wore flowers which were gifts from Maxine's.

Doris Moore sent lovely selection of cards for our use at the Center. We thank volunteers and everyone for another good week.

Lion JV drops tough one to Sonora Thurs.

The Lion's J.V. fell 14-8 to the Bronco's J.V. last Thursday in one of the most hard fought football games ever for the J.V. squad. The Lion's took the opening kickoff and marched 75 yards for the first score. Gains were picked up by Harvey Huereca, David Badillo, and Gino Tambunga, with the score coming from an 8 yard pass from David Badillo to Les Hale. Providing the blocking for the scoring drive were Robert Hearne, Dugan O'Bryant, Randy DeHoyos, Mike Couch, Fernando Galvan, and Santiago Lopez. The J.V. went for a two point conversion on an outside sweep and was successful, bringing the score to 8-0, Ozona.

Sonora connected next on a long pass play setting up a touchdown for the Broncos. They went for two points and tied the score 8-8. The Broncos scored once more but were stopped on the conversion, bringing the total score to 14-8.

The Lions led more scoring threats against Sonora, but were turned back by penalties or fumbles. Offensively, the Lion J.V. rolled up 203 yards total offense, almost twice the yards as their previous game. Passing yards totaled 122 with passes from David Badillo and Harvey Huereca to Larry Payne, Les Hale, Robert Hearne and Fabian Delgado. Rushing hit 81 yards led by David Badillo and Harvey Huereca with 34 and 33 yards respectively. Robert Hearne and Gino Tambunga also added to the total yardage.

Harvey Huereca led the defense with 12 tackles and 8 assists, followed by Mike

Couch with 7 tackles and 5 assists. Other defensive standouts were Jene Wilton with a key interception, Robert Massey, Javier Sanchez, Zeke Martinez, Randy DeHoyos, Santiago Lopez, Larry Payne, Carlos Borrego, and Henry Delgado.

The J.V. plays Big Lake's J.V. here this Thursday night.

Name the players winners

In naming the players on the championship Lion team of the early 40's printed in last week's paper, four persons were able to correctly name the players out of about fifty or so lists submitted.

Winning a year's subscription to The Stockman were Mrs. James Dockery, Kent Hokit, Suzie Semmler and Charles Schneider. Several had only one incorrect name.

The players were, top row, l. to r., Carl Thurman, Wayne (Cap) West, Marvin Porter, Billy Hannah, Calvin Williams, Bland Tandy, Lloyd Coates and L.B. Cox III; second row, Floyd Hokit, Billy Carson, Loraine Wyatt, Byron Williams, Roy Coates, Tom Ed Montgomery, Dorris Haire and Henry Patrick; bottom row, Coach Dan Patterson, Billy McWilliams, Perry Hubbard, Stanley Lemmons, Jimmy Read, Arthur Byrd Phillips, Charles McDonald, Garrett McWilliams and Coach Elmo McCook.

Ranchmen enjoy good year

Crockett County ranchmen have enjoyed a good year for the most part, according to Billy Reagar, county agent. Most areas of the county have enjoyed a good early spring with better than average range conditions in the spring and summer. This was due to above average rainfall in the spring and summer.

However, it is extremely dry now because the county failed to get the September (fall) rains that it normally gets.

For the most part of the county, the forage (dry grass) will probably be about average going into the winter.

Although many ranchers had to feed a lot last winter, the lamb crop percentage, weaning weights of calves and lambs, and price was such that this was one of the better years for most Crockett County ranchmen.

The ranchmen lambing in January hit some bad cold weather and had to feed both ewes and lambs in order to get these lambs to market by the last of May and the first of June. Also, the lamb crop was lower because of bad weather—about 90% was excellent for January.

However, the February and March lambs had over 100% lamb crop in many instances and required less supplemental feed because rains started greening up pastures. However, these lambs had to be carried through the hot summer before marketing. The slightly higher market was also in favor of the late lambs.

One might ask: "If you have higher lamb crop percentages, less feed, better market prices and comparable weights, why not lamb in February and March every year?" In most cases, the early lambs were shipped by June 15 and the range had all summer to grow grass, where as the late lambs were grazed all summer and the range didn't have a chance to come back. With the extremely dry conditions, the range without cured grass going into the winter is serious. This indicates that above normal amounts of supplemental feed will be required to winter the livestock.

Cattle conditions were much the same as sheep. Calf crop percentages were slightly below average for the county due to the hard dry winter and early spring of 1978. Cattle prices were well above normal. Five Hundred eighty pound weaning weights at \$1.00 per pound were not uncommon. This is certainly one of the best years for the cow-calf producer since 1973-74. Cows didn't breed back readily and some of those that did were stretched out over longer periods than normal. This hurt the calf crop and the uniformity of calves. However, the good spring of '79 with adequate forage took up a lot of slack and the average weaning weights were well above average.

The buck deer should have good antlers this year. Wildlife biologists say that a good early spring with plenty of

forage (high level nutrition) is required for bucks to grow good antlers. It is hard to remember how good the spring was since it is so dry now. But hunters are expected to harvest a large number of big antlered deer. However, the body condition might be down this year since it has turned off so dry. It should still be above

average and certainly above last year. In areas of the county with good acorn crops, deer will be in prime condition. The other areas where acorns are not present will be hurting some.

Although prices received from livestock have been high and livestock are in good condition, ranchmen can't help but be apprehen-

sive about dry weather, inflation, lunch labor, including shearing crews and livestock hauling.

When you see how hard our consultants work for you, you'll be glad there's no charge.

Being a General Telephone Communications Consultant is a full-time job. It means taking as much time as needed to survey, plan and discuss all the details of a business customer's phone installation.

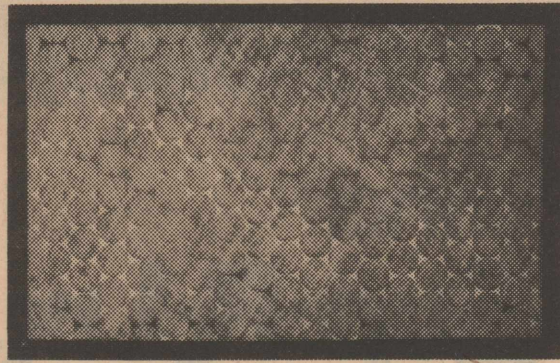

But they don't stop there. They are also busy looking for ways to show customers how to use their phones more efficiently. Sometimes they can show them how to save money and maybe even how to make money.

Sound like good people to know? They'll be happy to meet you anytime and make a survey of telephone requirements. Call your local General Telephone business office and make an appointment today. And remember there's never an extra charge for their services.

We keep you talking.

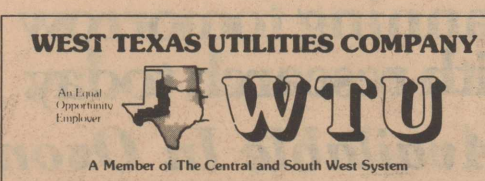

Fall Winter Spring or Summer your filter can get dirty, clogged, waste energy...

but a clean filter saves energy, money.

The purpose of a filter on your air conditioning or heating air blower is to keep the air inside your home clean. The filter catches dust and dirt before it can enter your home. In time, the filter will accumulate dust and dirt... if it gets clogged, it can't do the cleaning job it's supposed to and uses more electricity. To avoid damage to your unit, to keep your home cleaner, and to save energy and money, be sure filters are clean. Permanent types can be cleaned according to the manufacturer's instruction. Non-permanent types are replaced, since they are inexpensive. It is wise to check filters every 30 days.

Save energy... save money... use clean filters.

Panthers, Cats, Wolves, & Coyotes—

Pierce shares memories of early west

By I. Pierce

PART VII

Every ranch had a different way of putting up meat. We had big wagons that hauled wood for cook stoves, heaters, and a fireplace, also hay that we raised to feed surrey horses and a milk cow. These wagons would haul back groceries for the ranch and salt for the sheep and cattle. We bought no livestock feed of any kind, all livestock including saddle horses had no feed. They had to rustle grass.

We milked from five to ten cows two times a day. These cows were just pasture cows that looked like they would give a lot of milk. They were as wild as deer. We had to tie their head to a fence and hobble their hind legs to keep them from kicking the buckets out of our hands. Some got gentle, others never did.

My wife, Ada, and I are 85 years old and have spent nearly all those years in Crockett County in the ranching business. We are still running our ranches and enjoying the ranch business.

We have two children, Vicky Miller and Miles Pierce, also in ranch business and several grandchildren; none of the grandchildren are in the ranching business.

I've been a director at San Angelo National Bank for 40 years. I am the oldest living

director.

At one time I was the biggest registered Rambouillet breeder in the world, raising and selling over 6000 head of Rambouillet rams a year. I've sent rams to South America, Europe, Russia and other foreign countries. Most of these rams were sold on order, the buyer never seeing them before he bought them. We guaranteed these rams to suite the buyers when they arrived at their places or he could load them back on the trucks and send them back at no cost to them. I am happy to say I sold Rambouillet rams for 54 years and never had a load returned to me.

My wife and I raised registered Hereford cattle for many years, raising about 250 head of bulls each year. We would sell them at auction sales held in San Angelo, Texas. We dispersed these Hereford cattle in San Angelo and San Antonio in 1976.

Today we are running Brangus cows breeding them on Hereford bulls. They are not as much work. Registered Hereford cattle are lots of work and we got too old to do it.

After we had built net wire fences and turned the flocks of sheep loose in pastures, we began to hunt and kill coyotes, wolves, and wild cats. It took 10 years to eradicate them all.

We have had about 30 years without wolves, or cats

to kill our sheep. Now the wolves, panthers, and cats are back because we have had some groups of people get laws passed making it illegal to kill wolves, cats or eagles. These people have no idea what they are doing. The present day stockmen are going to have to organize and oppose these laws that are protecting predatory animals.

It took 10 years of hard work by every ranchman and his men to get the wildcats and wolves killed out of ranches in Crockett County. It has been more than 50 years since we cleaned out these cats and wolves. Everybody had a pack of dogs at that time and rode their fencelines with the dogs each day.

Then afterward all ranchmen quit hunting cats and wolves and today the country is full of them. They are coming back again but still the ranchmen are not much concerned for they are a new generation that does not know how to catch cats and wolves and don't care very much.

Panthers are coming from Big Bend Park now, and very few people are concerned.

Marshall Montgomery and I have had in the last three years lots of sheep killed by panthers. In 1978, I had over 400 grown sheep killed by panthers, and I think Marshall might have had as many. We caught in 1978, 13 panthers on his and my ranch with dogs. Marshall caught nearly all of them but mostly on my ranch. Marshall is a good hunter and never quits until he gets the panther.

We had a Mexican driving a feed truck, and he found a sheep a panther had killed the night before in a big deep draw near a 30 ft. high rock bluff, that had a round hole about the size of a gasoline barrel about 20 ft. above the ground.

This Mexican took his gun and a 14 yr. kid down into the draw where some big trees grew from ground up to this hole about 20 ft. from the ground. This kid climbed these trees and maneuvered on ledges to get under this hole in the bluff. He could only see into the hole by tiptoeing which he did.

When he looked in the hole a big panther looked out, and jumped on top of him knocking him off the bluff and he fell into the top of these big trees and was not hurt.

The man below with the gun looked up just in time to see the panther stick his head out of the hole and jump, he landed on top of the man with the gun, knocking him down and the gun out of his hand.

A few days afterward, Marshall Montgomery caught this panther close to that bluff with a hole 20 ft. from the ground.

Another good panther story that is also true happened on our Altuda Ranch near Alpine, Texas.

We had a crew of men building fences, camped out near a deep draw probably 50 ft. deep, with big oak trees growing out of the deep draw. The cook killed a goat one evening and to dress him, hung him in one of these big oak trees that grew in the bottom of this deep draw. This cook put a steel trap there that night, and about midnight the men heard a chain rattle. They jumped out of bed, one got a Dad's Lantern, the other grabbed crow bars and ran down this deep draw. They had caught a big wildcat which they killed and I gave the cook \$10.00 for catching the wildcat.

The next goat he killed, he set another trap and that night he heard the chains rattle again. He hollered to the other fellow, "Come on boys, we've got another wildcat." The boys said, "You kill him by yourself, you got the \$10.00. The cook grabbed the Dads lantern in one hand and a crowbar in the other and started down the bank of this deep draw. He had a big panther in the trap but he was going so fast down this steep bank, he saw by the light what he had but he couldn't stop and ran straddle of this big panther. He scared the big cat so much he broke the trap chain and ran off with the trap on his foot.

We had a man riding with dogs every day and he happened along just after daylight and his dogs picked up the trail, and he got the panther. He carried this panther in to Alpine, he was so large the people said he was not a panther but a mountain lion. That cook never put out another trap after that. Miles sent some men out to round up some ewes with young lambs and told the men not to holler, that scared ewes and they would run off and leave their lambs.

After they had been gone a while, he heard them yelling as loud as they could, so he got into his pickup and went in to that pasture. He found them all chasing a panther in open country. They scared the panther so much he went up a tree, and Miles took his picture and then shot him. He also was an extra large panther.

Just the other day a ranchman near Sheffield caught a female panther in a trap, that

showed to be nursing some kittens. They put some kind of an iron cage over her and fastened it to the ground and the next morning there were 4 kittens there with their mother at the cage. They got them all.

The most unbelievable story is about a man that hunted panther for us at the Altuda ranch near Alpine.

This man owned his dogs and a mule he rode and lived by himself on the ranch. He hunted panther, he was known as a "Panther Hunter."

One real cold day with ice on the trees, freezing rain and snow, he was out with his dogs.

The dogs jumped a panther up in the high rough country. He left his mule and followed the dogs on foot. The dogs caused a rock slide to come down the mountain that he was unable to get out of the way of. This rock slide hit him, breaking both legs between the knees and ankles. It was three miles from the ranch, freezing raining and snowing. This hunter crawled on his all-fours all day and reached a barn about 400 yards from the Altuda ranch house, but could go no farther. The next morning, Mexicans went down to this barn and found him there in that barn.

They flew him to El Paso, and in 6 months he was back out there riding that mule and hunting panther again. The people that settled

Crockett County were the best group of people in the state of Texas or any other state, they put the good of the country above their own good.

There were a few individuals that I have known that were just naturally good, honest people, people that it was just automatic to them to do the Christian thing without even thinking before they did it. This kind of person has been very, very few, but they do exist.

Myrtle Mitchell to me (Myrtle Hoover) was raised across the street from me. She could outrun any boy in Ozona. She was our first pick in choosing up baseball teams and stink base which we play in the streets of a night.

After she had children, she was a wonderful mother, always doing the right thing without any special effort. Tom Mitchell, her son, filled her front yard with old worn out cars, using her carport to lift motors out of old cars. She was naturally a Christian, lived and died a Christian, without having to ask the Lord for forgiveness each day.

I have had men work for me that were honest Christians without any special effort, they were not aware they were any different from the others.

I have 3 Mexicans that have worked for me over 30 years that I place in this group. [Cont'd next week]

Sheep and Goat meet is Thurs.

Ranchmen are reminded of the upcoming Sheep and Goat Meeting to be held Thursday, October 11, at the Civic Center.

This Extension sponsored meeting was planned by the Livestock and Range Committee.

Billy Reager reminds everyone of the program topics. Registration and coffee is at 9:30 a.m. with a film following at 10:00 on Angora Goats. "Nutrition For Increased Production" by George Ahlschwede, "Predator Control" by Ellis Helmers, and Fred Campbell will speak on Mohair Council Activities.

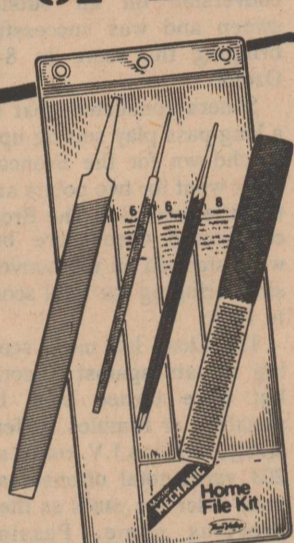

A barbecue lunch will be held at noon.

At 1:00 Bob Childress and R.J. Everett, Jr. will speak on "Kidding and Kid Development." Jack Groff will speak on "Selection for Conformation, Wool and Mohair." Billy Reager will present a speech on "Pregnancy Determination." George Ahlschwede will speak on "Ram and Billy Management."

It is easier to save money if a specific goal or use is set for the money. For example, someone saving for a vacation or for a new car is more likely to save regularly than a person with no specific goals.

I BET YOU DIDN'T KNOW

By Jerry Lay

Here's an interesting question...Can you guess which man has played in more World Series games than anyone else in history?...Answer is Yogi Berra...Yogi set the all-time record by playing in a grand total of 75 different World Series games.

What was the strangest World Series ever Played?...How about the one in 1960?...Did you know in that Series the Yankees scored 55 runs and the Pirates only 27, yet the Pirates won the Series four games to three!

Could you imagine the manager of a pennant-winning baseball team saying he didn't want his team to play in the World Series!...Did you know such a thing once happened?...It was in 1904...The Giants won the National League pennant but their manager, John McGraw, refused to let them meet the American League winner, the Red Sox...And so, no World Series was played in 1904.

I bet you didn't know...L-B Motor Co. knows you're looking for just the right car for your needs. Come by and see if we have the one. We have a large selection of new and used cars. See our Oldsmobiles, Chevrolets, Buicks, Cadillacs and Pontiacs. Also our line of pickups.

Letters to the editor

October 5, 1979 Ozona, Texas 76943

Dear Kitty: May I take strong exception to your editorial of October 3 regarding the students of Ozona High School, their parents, and the school administration. In keeping with your Chinese parable on beating your child for something he might have done, you obviously feel all the students should be disciplined for something. The charges in the Stockman, however, were general, vague, and seemed to apply to the students en masse. Most parents would prefer to have a specific reason before punishing a child. To discipline on general principle is not responsibility. It is sadism. What kind of morality do you teach with all punishment and no praise? I agree with you that discipline begins at home. It should also end at home. The purpose of the school system is to teach. In a minority of cases, for the good of the system, the school administration must take responsibility for parents lack of control or indifference, but this is not the primary function of the school. When they must take this responsibility, the teaching process suffers. You can't win for losing.

I have been active as a parent in Texas Public Schools for the past twenty years. I have belonged to several "strong parent organizations," most of which degenerated into petty squabbling over how much to charge for the cake walk at the school carnival. In those twenty years and several school systems, I have never encountered more supportive and interested parents than in Ozona, nor school administration members and teachers who spend so many after-hours with student organizations, youth groups, and individual students.

We have parents who care, school officials and teachers who care, and I personally think it shows up in the majority of darn good kids we have. One bad apple doesn't spoil the bushel, Kitty.

Sincerely, Betty Perry

[Ed note-Ah Betty-After reading your letter, I went back to read over my editorial to which you took such strong objection, and suggest you might do so also. Ozona High School was never mentioned, neither the students nor their parents. And to imply I meant the "Chinese parable" to be taken literally is an exercise in density, really now. As for charges, I made none. I gave facts, and most of the information I have came from teachers and parents.]

October, 8, 1979 Ozona, Texas

Dear Kitty, I was interested to learn from your last issue of The Stockman that Crockett County has a problem of discipline with the youth. I thought your recommendation was very worthwhile re the parents banding together to seek a solution. I suggest we begin at the root of the problem by contacting our local congressman for his (or her) proposal of how to deal with this problem, since they are the ones who stripped the authority from our law enforcement officers and have made it very difficult for the schools to deal with discipline problems--from trying to standardize our academic program to having to prove someone guilty before a charge can be made. This problem is certainly not unique to Crockett County.

Thank goodness for the element of time. That way we can place all the blame on our youth. Marolyn Bean

Mrs. Delvenia Pearson was in Wichita Falls last week to attend the funeral services for her sister, Jewel Carter.

TEJAS TROOP 147 receives compensation for boxing a room full of clothes for the Salvation Army. Jim Adams presents the check to Girl Scout Troop.

Greek cookery turns simple meal into gourmet delight

Greek cookery can turn simple, lower costing ingredients into gourmet delights, says a foods and nutrition specialist, Mary K. Sweeten, with the Texas Agricultural Extension Service.

Most ingredients needed for Greek cookery are readily available in the ordinary supermarket but may require a special trip to an international or gourmet grocery store or delicatessen, she points out.

The main Greek cooking ingredients include olive oil which is a monounsaturated fat. It is used for flavor as well as an ingredient in pastries.

A variety of cheeses are used in Greek cookery--including the different hard cheeses Kasser, Kefaloteri and Mezithra.

Feta, the most widely used cheese, is a crumbly white cheese made from goat's milk and stored in a salt brine. It is low in fat and comes in mild, regular and sharp varieties.

Food safety with feta cheese once was a major concern in Greece, but now that a microbiological inspection is performed regularly, there is no longer a problem with food safety with cheese, the specialist explains.

Olives are a very important ingredient in Greek recipes.

The speciality blackish-maroon olives known as Calamata are the most delicious. They are soaked in oil and vinegar, have pointed tips and a meaty solid texture.

Other Greek olives include a smooth black, a shriveled black and a cracked green variety.

Lemon juice is an important ingredient used for flavor and as an acid ingredient for marinating meat.

Olive oil and lemon (Lad-holemono) are beat together in a liquid-fat mass to use as a marinade for chops, kebabs and beef steaks. The oil provides calories and the lemon juice vitamin C.

Favorite herbs and spices

used in Greek cookery include anise used in flavoring of the clear, high-proof liquor ouzo made from raisins and in baking.

Small amounts of cinnamon, allspice and nutmeg are combined and used in flavoring beef, lamb, chicken and rice pilaf.

Cumin is used in flavoring beef and fresh dill with lamb. Mint is used in flavoring beef dishes. Oregano is the most frequently used herb in Greek cookery.

Pine nuts are used to give pilafs the mild, nutty flavor. Sesame seeds are used in baked goods, pastries and candies, the specialist adds.

Other ingredients used in Greek cookery are bulguri or cracked wheat, chickpeas, fides (a fine egg noodle) and filo dough.

Filo dough is a tissue-thin, high-fat dough used in Greek pastries and main-dish pies. Filo sheets can be bought frozen in the United States in Greek grocery or gourmet shops and make a delicate, flakey crust of tissue-thin layers.

Grapevine leaves are soaked in a brine and used to make stuffed vine leaves. These are usually stuffed with a mixture of rice, onion, anise, parsley, grated mint, lemon juice, olive oil, water, salt and pepper.

Tejas troop organizes

Girl Scout Tejas troop 147 met Tuesday in the Dean Phillips home and elected officers for the year. Paula Sessom was elected president; Deena Phillips, vice-president; Kala Sessom, secretary; Dinky St. Clair, treasurer; and Evelyn St. Clair, telephone chairman.

The troop will meet every other Tuesday at the Dean Phillips home. The troop selected "Friendship" for their motto.

Jim Adams, Salvation Army chairman for the Crockett County area, presented the troop with a check from that organization.

Davises honored

Mr. and Mrs. Grady Davis and son, John Randel, were honored with a pink and blue gift supper Thursday, Oct. 4, in the home of Mr. and Mrs. Bill Morrison.

Assisting the Morrisons in hosting the event were members of the Church of Christ.

Approximately 50 guests were served sloppy joes, cake and homemade ice cream.

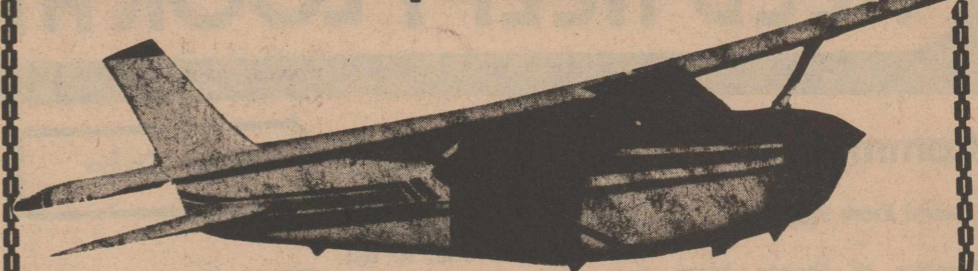

Special guests for the occasion were Mr. and Mrs. W.A. Davis, grandparents of the baby and Mrs. Lillian Preas of Brownwood.

Comm. Court

[Cont'd From Page One]

Director of Nurses Mary Barrow and the hospital was without a director of nurses and lacking in registered nurses. He also reported a donation to the hospital of two electric beds by Mrs. Roy Henderson.

The court approved the building of a 20x30-foot storage building and a canopy cover for the two ambulances and the emergency door. Judge Jones was authorized to contact a builder with specifications.

The court also gave Kirklen a \$50 a month car allowance.

The court approved a Texas Parks and Wildlife Commission's proposal to raise the bag limit on quail from 10 to 16 a day with a possession limit of 48.

Election judges for the November election were appointed in each precinct. Precinct 1 judge will be Edna Tambunga; Precinct 2, Mae Lay; Precinct 3, Frank Reavis and in Precinct 4 the judge will be Concha Zapata.

The court agreed to put out bids for a tractor for the ball parks and approved Billie Jo Hayes as Chief Deputy County Clerk before adjourning.

KK

[Cont'd From Page One] result was getting back late with the papers. It could have been much worse.

You might take a page out of our book, and be sure that you and your family know what you are taking when taking medicine. A frightening and potentially dangerous situation could have been avoided with just a flick of the switch.

I had a somewhat similar experience several months ago. Suffering from chronic insomnia, I went to the little electric drink box for a Diet Dr. Pepper one morning about 3:00 o'clock. I got my canned drink out, opened it, took a big gulp and discovered what I had opened was not my usual drink, but beer. What a surprise at three o'clock in the morning.

GIRL TO VARGASES

Mr. and Mrs. Richard Vargas are the parents of a daughter born Thursday, Oct. 4, at 8:40 a.m. in the Eldorado hospital. The little girl weighed 6 pounds and 3 ounces and has been named Reba Leigh. The couple has one other child, Richard, 8. Grandparents are Mr. and Mrs. Bekie Diaz and Mr. and Mrs. Felipe Vargas.

CARD OF THANKS

A special thanks to all for your get well wishes and prayers during my injury and stay at the hospital. God Bless You.
Michael Vallejo

May I take this opportunity to express my appreciation to all my friends for the flowers, cards and visits while I was in the hospital. Being hospitalized for two weeks really made me realize how much friends can mean to a person.
Sincerely,
Ray Boyd
