Kitty's Korner

by
Kitty Montgomery

After watching television (Cable News Network) all night and into Monday morning and taking it up again at 3:00 a.m. Tuesday, I missed out on all the big news, just got in on the suspense. It's 4 o'clock Central Standard Time at this writing, so I feel pretty encouraged about the 52 hostages. I just learned they had landed in Athens, Greece, to refuel and the U.S. Ambassador there was the first official to greet them. I join the rest of America in thanking God for their return, but wonder how 14 months of being held in captivity will affect them.

I don't think I ever really felt they would get out alive. Now that they have, the American people should demand that our government not send spare parts or military equipment of any kind to Iran. Another thing, we should demand that all Iranians who are not naturalized citizens, be deported.

Being Tuesday, I had to work through the Inauguration Day ceremonies, but everyone who heard the Inaugural speech seemed encouraged. I look forward to the replay this time. I am hopeful we will look back on January 20, 1981, secure in the knowledge that this was the day the country was turned around and began its return to sanity.

kk
A small crime wave has been going on the past few months out in Country Club Estates. It was culminated this morning by the poisoning of several dogs. Homes have been broken into, autos burglarized and at least one woman was the victim of an attempted hit and run while out jogging. Several valuable guns and other items have been stolen. The community is made up of young adults and their children for the most part and this needs to be stopped. It needs to be stopped regardless of the make-up of the community.

I would suggest a public appeal for information on anything suspicious in that neighborhood after dark, or in the daytime for that matter. Perhaps if the residents banded together and offered a reward, this could be brought to an end.

kk
We've been missing Lottie Lee's "snips" since the first
Continued on Page Ten

TEXAS CONFEDERATE HEROES DAY was celebrated in Ozona with a flag and ribbon-tying ceremony at the Fort Lancaster-Confederate soldier marker in the park at high noon Monday. Meanwhile, members of the Veterans of Foreign Wars Post marked the six Confederate graves with

flags. Taking part were Alvin Harrell, Mrs. Harrell, president of the Crockett County Historical Commission, Junior High history teacher Sherry Scott, and one of her pupils, Patricia Lara. The cold and snow kept the crowd to a minimum.

17th Annual Banquet coming up

C of C has new officers and directors for year

New officers were elected by the Board of Directors of the Ozona Chamber of Commerce at the regular meeting Wednesday night and four new directors were elected by ballot from the entire membership. The annual banquet, which will be held February 12, was discussed and plans made.

Lee Carlisle heads up the officers' slate as president. Elected executive vice-president was Curley Sharp. Charles Sizemore is second vice-president and Jeffrey Sutton, third vice-president. Becky Childress was re-elected secretary-treasurer and Don Sessom, activity director.

Outgoing directors Jerry Lay, Tom Stokes, Duane Childress and Rick Whitworth were replaced by Fred Chandler, Sandy Stokes, Tom Cameron and Lane Scott.

Beth Boyd, manager of the C of C, said around 125 tickets have been sold for the upcoming banquet, which will feature Justin Wilson,

ACP sign-up to start

The Crockett County ASCS Office is now accepting applications for the Agricultural Conservation Program.

Ranchers may apply for program practices they intend to carry out in the near future. Applications should be filed early, since the request must be considered and approved by the county committee before work is started.

The ACP Program shares with ranchers the cost of meeting their most critical conservation needs.

noted Cajun humorist, as guest speaker. Tickets are \$10 each and may be purchased at the chamber office or from any of the directors listed above.

Final plans for the banquet will be made at a called meeting of the board of directors, Tuesday, Feb. 10. Members of the Veterans of Foreign Wars will cater the banquet with a barbecue dinner and all the trimmings, a departure from former years when traditional banquet fare has been on the menu. The banquet will be held at the Civic Center with registration set to begin at 7:00 p.m.

The banquet will begin at 7:30 with the invocation by Ralph Anderson, minister of the Ozona Church of Christ.

Ozona man sentenced to prison

In District Court Friday, Mariano Maskill received a 4-year sentence in the Department of Corrections in Huntsville. Also his probation, four years on a burglary charge, was revoked.

Maskill was charged with aggravated assault with serious bodily injury on Haskell Waddel. He entered a plea of nolo-contendere and as a result was given the four-year sentence, according to District Attorney Bill Mason. Mason said Maskill will serve four years on his probated sentence and four years on the assault charge.

Construction near for sewage plant

The Crockett County Water District is nearing a construction date for the new sewage treatment plant which will be built downstream from the existing plant at least two miles.

The engineer is looking at two locations, according to Bill Cooper, manager. He has details and data ready to present to the Water Board

3 inches of snow blankets Ozona

Ozona was directly in the middle of the big weekend snow storm which covered West Texas. For the second time this season over three inches of snow fell here. The snow began falling around 2:00 a.m. Saturday and continued through Sunday, covering everything in sight with a white blanket. The heaviest snowfall came early Sunday morning.

Motorists were warned of hazardous road conditions early Saturday and the warning continued through the weekend. However, only one minor accident occurred Saturday 28 miles west of Ozona on Hwy 290. Trucks stalled on Lancaster Hill Sunday and wreckers had to be called out to clear the road, but these incidents were not listed as accidents. A hard freeze Sunday night was respon-

sible for two wrecks early Monday. Both Monday accidents were one-vehicle and caused from ice on bridges. There were no injuries.

Temperatures warmed late Monday, but freezing temperatures prevailed throughout the morning hours and icicles hung from roof-tops and awnings all over town. The sudden thaw Monday afternoon sent icicles melting and water running in torrents from buildings in town. However, the wind chill factor

made it uncomfortable for human beings and beasts.

The snow amounted to .37 of an inch of moisture, according to the official gauge at the water district office, bringing the total for the month and year to 1.18 inches. Already .18 of an inch more than January, 1980, has fallen.

A total of 15.79 inches of moisture fell in droughty 1980, almost four inches below the 46-year average of 19.02 for this area.

Ranchers reminded of wool incentive

Crockett County ranchers are reminded to turn in their 1980 wool sales slips so they will be eligible to file for incentive payments under the wool program. Applications should be filed by Jan. 31 to avoid late payments.

Ranchers who have a record of their wool sales are eligible for payments but only if the sales are reported to the county ASCS Office. The quantity sold does not affect the eligibility. Sales slips should show the month of sale, pounds of wool shorn and net proceeds. Sales slips for lambs should show the liveweight and state whether the lambs were unshorn.

In addition to the information on the sales slip, applications for payment must show the month of shearing and the number of head shorn.

The federal support price for 1980 shorn wool marketings is \$1.23 per pound and \$2.90 per pound for mohair. Pulled wool will continue to be supported at a level comparable to the support price for shorn wool through payments on unshorn lambs.

Shorn wool payments are based on a percentage of each producer's returns from sales. The percentage is the amount required to raise the national average price received by all producers for shorn wool in 1980 up to the support price of \$1.23 a pound. Shorn wool prices fluctuated between 82 and 94 cents per pound in 1980.

New Mgr. for Perry Bros. store

Mike Gantt moved here this week to take over as manager of Perry Bros. Gantt was manager in the Malakoff store in east Texas before making the move to Ozona.

Gantt has a wife, Lynna, four children, Robin, 19; Leigh, 18; Mike Jr., 14; and Kimberly, 11; and one grandchild, Stephen.

Gantt said the store personnel is in the process of a gigantic re-stocking program which will continue until the after-inventory sale which starts this week, is over. He also asked that Ozona patrons contact him personally about any complaints about the store or personnel.

BEST LOOKING SNOWMAN IN TOWN went to this saucy character, who held court on the lawn at the Dale Bebee home on Eleventh St. Almost every house in town boasted a snowman by Sunday afternoon, but they had all melted away by Monday night.

THIS WAS THE SCENE IN DOWNTOWN Ozona at mid-morning Monday after two days of snow. The bank sign tells the tale as well as the snow-laden shrubs. Estimates ran from 3 inches to 7 inches on the two-day snowfall. By all accounts, it measured about the same as the early snowstorm after Thanksgiving in 1980.

STATE CAPITAL HIGHLIGHTS
By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—When the Legislature convened last week, the Senate quickly wrapped up its early business, then sat back to watch activities in the House, or "The Billy Clayton Show." Clayton, who has been eyed for signs of weakness following the Brilab scandal, has never been stronger. He gathered 120 votes in his re-election as House Speaker for an unprecedented fourth term, and led his forces in passing his version of the House rules.

Nevertheless, there remains an element of revolt in the House which came out fighting on opening day. Guessing the strength of that faction will be one of this session's primary guessing games. Surprisingly, the last week's drama opened with the Clayton's old nemesis, Rep. John Bryant, D-Dallas, withdrawing his name from nomination for Speaker, leaving Clayton as the lone candidate.

The race for speaker was virtually over when Clayton was acquitted of Brilab charges last October, and Bryant knew he had no chance of winning. He apparently withdrew to spare his soldiers from the retribution they feared for voting against Clayton, and to keep his strength hidden.

Nevertheless, 21 Bryant supporters voted against Clayton on the record, and a bloc of some 40 members was put together in a losing effort on the rules fight.

Clayton may well hold his coalition tightly for the duration of the session. Regarded as a master politician who doesn't like to spend state dollars, he is highly respected by his supporters. He has already said he might seek a fifth term as speaker, overturning a previous statement that the present term would be his last.

Despite the obvious rumblings prompted by that statement, Clayton's tenure is appreciated by many, especially those who believe he is the one Democrat tough enough to challenge Republican Gov. Bill Clements in the '82 gubernatorial election. It's the same toughness which often leads his opponents to consider him tyrannical.

Election Voided

For the first time in the history of the Texas Legislature, the house voted to void the election of one of its San Antonio members and order a new election to fill the seat.

Despite a 5-to-4 committee recommendation to seat District 57-C winner Alan Schoolcraft, a Republican, the House decided that charges of absentee balloting fraud were sufficient to warrant a new election. Schoolcraft narrowly won in November over incumbent Democrat Al Brown, who filed a protest.

By contrast the Texas Senate was serene, with Lt. Gov. Bill Hobby announcing committee chairman after a quiet establishment of Senate rules. Senator John Traeger of Seguin was elected president pro tem.

New chairman of some of the more powerful committees include Sen. Roy Blake, Administration; Ray Farrabee, State Affairs; Ike Harris, Economic Development; Traeger, Intergovernmental Relations; and Pete Snelson, Education.

Six Months Deadline

The U.S. Dept of Education has told Texas it has six months to comply with federal civil rights statutes and provide minorities with better college opportunities or lose \$300 million in federal funds.

The feds said they found racial imbalance in enrollments in most Texas schools and a lack of minority members on university governing boards and academic jobs. Officials cited "vestiges" of dual education systems, particularly the Texas A&M University system which includes the predominantly black Prairie View A&M.

Texas Atty Gen. Mark White apparently stopped the feds from launching a lawsuit against the state by working out a compromise which includes the Legislature providing additional funding for mostly black schools this session.

Baylor Bears

One university which fared better than the others in the Legislature last week was Baylor University, whose football team won the 1980 Southwest Conference title.

The House full of UT and Texas A&M alumni began to boo when Betty Denton of Waco announced her resolution, but Clayton banged the measure on through, saying "The chair hears no objections from Aggies and Teasips."

However, when Bill Healy of Paducah, a former Baylor football player, asked the speaker whether he was aware the Bears were leading the SWC basketball standings with UT and A&M in the cellar, Clayton, an Aggie, fired back, "Mr. Healy, I'm here to inform you the season's just begun."

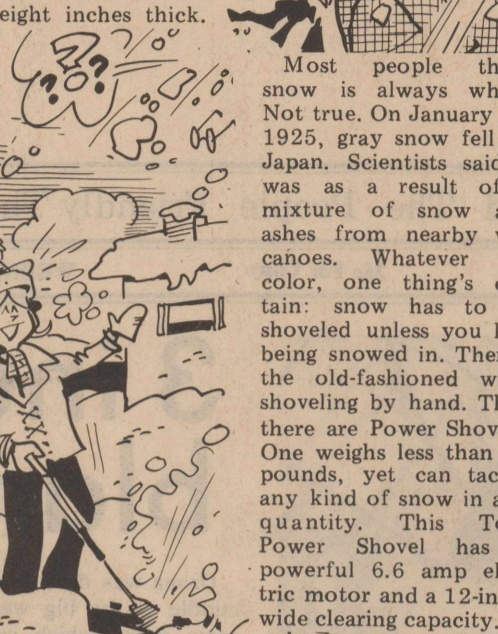

PUBLIC NOTICE

Sealed proposals for contract mowing on various tracts in Crockett County, will be received at the State Department of Highways and Public Transportation, San Angelo, Texas, on February 4, 1981, until 10:30 a.m. and February 5, 1981, until 10:30 a.m. and then publicly opened and read.

Plans, specifications, and proposals are available at the office of Charlie F. Low, District Maintenance Engineer, San Angelo, Texas. Usual Rights Reserved. 47-2tc

SNOW Facts and Fancies

Here are some cold facts about snow: Did you know that snowflakes change directly from water vapor into snow without going through an intermediary stage as rain? The biggest snowflakes ever recorded fell in Montana in 1887. They measured 15 inches in diameter and were at least eight inches thick.

Most people think snow is always white. Not true. On January 31, 1925, gray snow fell on Japan. Scientists said it was as a result of a mixture of snow and ashes from nearby volcanoes. Whatever the color, one thing's certain: snow has to be shoveled unless you like being snowed in. There's the old-fashioned way: shoveling by hand. Then there are Power Shovels. One weighs less than 12 pounds, yet can tackle any kind of snow in any quantity. This Toro Power Shovel has a powerful 6.6 amp electric motor and a 12-inch-wide clearing capacity.

It was certainly a winter to remember—the winter of 1910-11. It included a snowfall to end all snow falls. In a one-month period, 390 inches of snow fell on the mountain town of Tamarack, California.

Public Notices

NOTICE TO BIDDERS SALE OF COUNTY EQUIPMENT

THE COMMISSIONERS COURT OF CROCKETT COUNTY, TEXAS will receive sealed bids until 11:00 AM February 9, 1981 at which time bids will be publicly opened and read at the Courthouse, Ozona, Texas for the sale of the following used equipment:

Item #1-1963 Wayne Street Sweeper Model 660 S.N. 30256, various parts missing. Item #2-1964 Dodge Pickup Cab only. Item #3-1967 Chevrolet Truck Cab with motor and transmission only.

Item #4-300 gal. emulsion tank, divided compartments 100 and 200 gal. Item #5-1,000 gal. water tank on pipe skids. Item #6-Sidewinder Rotary Mower Model 72L Serial #75019, 3 point hookup.

Item #7-1953 Dodge Power Wagon, short bed with wheels, no motor, Serial #893-4232. Item #8-Littleford Pull Type Broom, Model VF 4D Full type broom, engine gasoline, 4 cycle Serial #2550035.

Item #9-Grace Pneumatic roller, pull type Serial #1297, 11 wheel. Item #10-1970 GMC Truck Chassis, no motor or rear end, with 6 yards Commercial Body dump bed Hydraulic control Serial #CE6032142840.

Item #11-1967 Chevrolet Truck rear end and part of front axle. Item #12-1967 Chevrolet Truck 2 1/2 Ton, with 2000 gal. water tank Serial #CS5378156378.

Item #13-1970 GMC 3/4 ton pickup, 350 CI Engine Serial #CE234S266031. Item #14-Approximately 38 pieces of miscellaneous Sheet Iron siding.

Item #15-3500 to 4000 gal. steel tank on skids. Item #16-24 Used steel cattle guards, miscellaneous sizes.

Item #17-2 tandem axles & springs from Grobett Bros. Tank Trailer Serial #3035, 1956 Model.

Item #18-Asphalt Storage tank 3500 gal., not insulated, pipe in bottom for heating purposes, mounted on pipe stand.

Item #19-Butane tank 560 gal. 200/WP, Serial #SG831, rack on bottom, equipped with gage and 60% full of butane.

Item #20-Butane tank, Mfg by Wendland, 565 gal. 125/WP, Serial #8738, rack on bottom, equipped with gage and 36% full of butane. Item #21-2 used motor grader tires size 1300X24. Item #22-1967 Dodge V-8 motor 318 CI and standard 4 speed transmission mounted on skids. Item #23-1 asphalt storage tank, 3500 gal., not insulated, pipe in bottom for

heating, mounted on pipe rack stand.

All required Safety Equipment, Safety Inspection, and Rear View Mirrors, AM & FM Radio.

CAPITOL UPDATE

John Tower
U.S. SENATOR FOR TEXAS
142 RUSSELL OFFICE BUILDING
WASHINGTON, D.C. 20510

As our nation begins to grapple with its economic problems, and as the new Congress and Administration start work, the federal budget will be the subject of a great deal of concern and discussion.

That is as it should be, for controlling the size of the budget is an essential step toward solving all of the problems facing our economy. But adopting the budget is a long and complex process. It involves all quarters of the legislative and executive branches of government. Each step is important, and a roadblock in one phase affects every subsequent step. So I would like to take a moment to outline the basic actions involved in determining what the federal government will spend.

We are currently in "fiscal year" 1981, which began Oct. 1. There probably will be modifications to that year's budget in the coming months, but the wheels already are in motion for the budget for fiscal year 1982, which will begin next October.

The first official action is the presentation to the Congress of the President's budget recommendation, based on consultation with the various agencies and arms of the executive branch. President Carter already has sent Congress his budget, and President Reagan will send his recommendations as soon as he and his Cabinet make decisions on priorities.

The Congress can approve, modify or reject any of the President's recommendations.

In Congress, the budget is determined through three different processes. The first step is called authorization. The various committees of the House and Senate look at the needs in areas under their jurisdiction and "authorize" programs and spending levels to meet those needs. The Armed Services Committee, for instance, is responsible for defense budget authorization.

Each of the committees reports its budget estimates to the Budget Committee, which then compiles a recommended overall budget. This first "Concurrent Budget Resolution," passed by the House and Senate, becomes the blueprint for all future action. That step allows Congress to look at the budget as a whole.

With the Budget resolution in hand, the Congress is ready to move to the appropriations process. The appropriations bills set out what actually is to be spent during the year for each program in the budget. The authorization bill sets the ceiling for the appropriation. Simultaneously, any tax legislation is considered, also in light of the Budget Resolution.

When action is completed on all money bills, the Congress adopts a Second Concurrent Budget resolution, which firmly sets spending limits. It also relates these figures to projected revenues, and calculates the resulting deficit or surplus.

Each of these steps involves both the Senate and the House. In most cases, the two bodies will adopt bills that differ in their provisions. Then a Conference Committee irons out the differences and presents the compromise bill to the two houses. Before a bill is sent to the President, both houses must approve identical versions.

In recent years, Congress has had problems meeting its budget deadlines. It is my hope that this year, we can act in timely fashion so that the budget can be in place when the new fiscal year begins.

TRADE IN ON ITEM II-One (1) 1979 Chrysler Newport Police Special equipped approximately as item being purchased. Serial #TH42L9A192614.

The Automobiles being traded are equipped with Sheriff Department equipment that will be exchanged on the new automobiles at county expense.

Each item will be bid separately and bids will show price of new automobile less trade in consideration, other deductions and net cost to county.

Each bid envelope should be plainly marked (Item Number and Bid on Sheriff Automobile).

Any bid received after stated opening time will not be considered and will be returned unopened.

Bids should be mailed or given to Dick Kirby, County Auditor, Box 266, Ozona, Texas 76943.

The Commissioners Court reserves the right to reject any or all bids submitted.

Dick Kirby
County Auditor
Crockett County 47-2tc

Public Notice

PUBLIC NOTICE
Ozona National Bank, 503 Eleventh St., Ozona, Texas, has on January 14, 1981, filed application to establish a branch (detached drive-in facility) to be located at 1200 Avenue E, Ozona, Texas.

Any person wishing to comment on this application may reply in writing to the Regional Administrator of National Banks, Eleventh National Bank Region, within 21 days of this notice. This application is on file in the Regional Administrator's Office in Dallas, Texas, and is available for public inspection during regular business hours.

KAYE THOMPSON
MERCY STRATUS

It was a disappointing week for all the Lions and Lionettes basketball teams. All four basketball teams lost to Wall. The Lions and Lionettes are fired up now and plan on doing a lot better. All four teams went to Junction Tuesday. The girls varsity, junior varsity, and boys varsity play Menard here Friday. We want to wish all the basketball teams good luck in their district games. We want everybody to go and support the teams.

LR
This week Mr. and Miss OHS were elected. They were Aldo Delgado and Kaye Thompson.

Class Favorites were also chosen. Senior Class favorites were Tammy Adams and Jay Moreno. Junior Class favorites were Elsa Fierro and Jack Thompson. Sophomore class favorites were Evelyn Cervantez and Harvey Hurreca. Freshman Class favorites were Sherrie Buckner and Adrian Tijerina. Congratulations!

IT'S THE LAW!

Your 'Right to Know'
The State of New York has taken the lead in the fight for the right of employees to know the identity and effects of substances with which they work, says the International Brotherhood of Teamsters.

Gov. Hugh Carey recently signed the nation's first comprehensive "right to know" law, to take effect at the end of 1980. The new law, sponsored by a state assemblyman from the Love Canal area, requires employers to provide, upon request, information on the toxic effects of chemicals in the workplace. Any employee or an employee's representative may request this information.

One outstanding feature of the law, says the union, protects workers against employers who are reluctant to provide hazard information. If a company fails to respond to an employee request within 72 hours, the law gives the affected employee the right to refuse to work with the substance.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Enjoy springtime blooms this winter - spring can come earlier this year with bulbs you grow especially for indoor bloom. Before they put up a single flower out doors, you can be enjoying their burst of color if you plan ahead. With the right timing you could have a pot of daffodils in full bloom for Valentine's or a little later.

Not every springtime bulb is suitable for forcing. Crocuses, daffodils, hyacinths, and paper white daffodils (narcissus) are among the best, but you can also grow tulips, anemones, and amaryllis as well. Early-blooming types tend to be more desirable than those that flower later in the season. Double-flowered selections make a better show than single-flowered types.

Nurseries are offering pre-packaged forcing kits complete with bulbs, a potting medium, and even the container. It isn't difficult to put together your own bulb-forcing kit. The materials are all available and you will be able to get the exact flower type and color you want because you pick the bulbs yourself. You will find complete instructions on how to plant the bulbs, what's required to bring them into bloom, and what to do with them after the flowers fade. Always buy top-quality (jumbo) bulbs.

Early planting of fruit trees and other bare-root shrubs will allow them to develop new roots before leaves appear, resulting in easier establishment and more vigorous growth. Plan to plant them as soon as you

get them home; otherwise the exposed roots will be subjected to drying. Dig planting holes wide and deep enough to accommodate the roots without crowding. Position shrubs so that the bud union (swelling on the stem just above the roots) is above ground level. Back fill planting holes so no air holes are left in soil and water thoroughly. Keep moist.

If you have blue bonnet plants coming up, keep watered if showers do not continue. We hope for a beautiful wild flower show this spring if more rain comes our way.

Ms. Williams hostess for bridge club

Mrs. Gene Williams was hostess for bridge at the Country Club Thursday.

High score went to Mrs. Evert White and second high to Mrs. Jack Williams. Bingo winners were Mrs. Bill Mason, Mrs. Joe Friend, Mrs. Beecher Montgomery, Mrs. Charles Williams, Mrs. J.J. Marley, Mrs. Sherman Taylor and Mrs. Joe Couch.

Others playing were Mrs. Clay Adams, Mrs. Charlie Black, Mrs. George Bunker, Mrs. John Childress, Mrs. Joe Bean, Mrs. Brock Jones, Mrs. Arthur Kyle, Mrs. Kirby Moore, Mrs. Buddy Phillips, Mrs. Jake Short, Mrs. C.O. Walker, Mrs. Byron Williams, Mrs. James Dockery, Mrs. J.B. Parker, Mrs. Jake Mayfield, Mrs. Omega Shelby, Mrs. Bill Cooper and Mrs. John R. Hunnicutt.

Womans League meets with Mrs. Braden

The Ozona Woman's League met in the home of Mrs. Larry Braden for its first meeting of the new year. Mrs. Tom Cameron assisted Mrs. Braden in hostess duties. Mrs. Bailey Post, noted flower show judge and author of the weekly gardening column in The Ozona Stockman, was guest speaker. Mrs. Post gave many inside tips on preparing and planting a new lawn, evergreens, shrubs, trees, vines and ground covers that adapt well to our changeable West Texas weather, and displayed cuttings of several of her favorite plants.

Mrs. Pleas Childress, III, president, conducted the business meeting following Mrs. Post's program. Members answered roll call with the name of their favorite plant. The most common answer was "anything that I can't kill," with the common ivy running a close second. Mrs. Jeffery Sutton reported that the Crockett County Museum was in need of lights for display cases. It was decided that the League would furnish whatever lights the Museum needed. Mrs. Sutton also read a letter from the Palmer Drug Abuse Program expressing their appreciation for the League's moral and financial support of their program which provides help for drug abusers.

In connection with the League's support of promoting local awareness of drug and alcohol abuse in our community, Mr. Bobby Aycock presented a program on Teenage Alcoholism in Ozona, Texas. In his speech, Mr. Aycock presented some possible causes such as availability, entertainment, lack of control, and peer pressure

and also some possible cures such as tighter or stricter control concerning the consumption of alcohol by minors and the selling of alcohol to minors. He also asked for each members' moral support and backing on this issue. The sooner that our community can pull together and stop or slow down this rapid growing misuse of alcohol, the sooner we can eliminate the dangers connected with teenage drinking.

Members in attendance were Mmes. Bobby Aycock, Erby Chandler, Duane Childress, Randy Crawford, Buster Deaton, Deene Holden, H.O. Hoover, Frank Justiss, Steve Kenley, Jerry Lay, Douglas Moore, J.S. Pierce, IV., Lane Scott, Gregory Stuart, Gary Vannoy, Rick Webster, and Bill Mason.

Museum to hold exhibit

The Crockett County Museum is planning to have an exhibit of men's, women's and children's hats and bonnets from the 1880-1940 period. It is hoped that many examples of headgear will be made available for this exhibit and that each item can be dated within a period of 5 to 10 years.

Items may be left at the museum each day from 2:00-5:00 p.m. or call Mrs. P.L. Childress, museum director for further information.

The generous cooperation of Crockett County citizens make such exhibits possible and past exhibits have created much interest for all.

Hufstедler engagement announced

Mr. and Mrs. Edward Anton Vogt Jr. of Victoria, Texas announce the engagement and forthcoming marriage of their daughter, Susan Lynn Vogt, to David Ross Hufstедler of Victoria, son of Mr. and Mrs. Joe Ross Hufstедler of El Paso.

The couple will be married February 14, at 2 p.m. in Trinity Evangelical Lutheran Church in Victoria.

The bride-elect is a 1978 Cum Laude graduate of Stroman High School, where she was a member of Anchor Club, the Senior Science Club, National Honor Society, and National Junior Honor Society. She is presently attending Victoria College and is employed as bookkeeper for Baskin Robbins.

The prospective groom, a 1972 graduate of Coronado High School in El Paso, graduated with a B.B.A. degree in Accounting from The University of Texas at El Paso in 1977. A member of the Accounting Society, he is employed as an accountant by Leo Anger Inc., local Texaco distributorship.

David is the grandson of Mrs. Ross Hufstедler of Ozona and Mrs. Lee Graves of Uvalde, Texas.

DUPLICATE BRIDGE

In Duplicate Club play Saturday at the Country Club, Evert White and Mrs. Buddy Phillips won high and Mrs. Jack Williams and Mrs. Clay Adams, second high. Mrs. Robert Cox and Mrs. Dale Bebee won the top spot Sunday with Mrs. Joe Friend and Mrs. J.J. Marley taking second.

Debra Says

BRAN MUFFINS

1 c. bran cereal
1 c. milk
1 egg, beaten
½ c. brown sugar
½ c. white sugar
1 c. flour
2 tsp. baking powder
¼ tsp. soda
½ tsp. salt
½ c. raisins
¼ c. salad oil or melted shortening

her; add to mixture. Add raisins. Add salad oil or melted shortening. Stir a minimum number of strokes, about 17 to 22 just to combine ingredients. Pour into greased muffin tins. Bake for 20 minutes at 350 degrees. Yield: 12 muffins.

Brought To You By Brown Furniture

One way to increase the beauty in a room is to use the combination of a wall mirror, a table under that mirror, and an attractive accessory placed on the table in front of the mirror. By placing the good-looking accessory there you get double exposure of its beauty; it will be seen by itself and it will also be reflected in the mirror to be seen at other angles throughout the room.

A practical piece of furniture for your hallway is a chest that has space on top to hold mail, keys, etc., and drawers underneath to store odds and ends.

Always try to leave room in a bedroom for a comfortable chair or chaise.

Don't neglect the decorating possibilities that lamps can give you. By picking the right size and shape, you can give your room a better overall decorator look, stop in and see us at **Brown Furniture.**

DESIGNED FOR POWER

In the annals of sailing there have been few to surpass the clipper. She plied the seven seas and helped a new nation become a world power.

But what was their formula for success? God's power and man's design making fullest use of it. You don't have to count the sails or study the rigging to know that.

Is it any different when we employ steam, electricity or atomic power? These are sources of power God has provided. We design the craft and machinery to put them to use.

Try that formula for everyday living. The power comes from God, you put it to the best use. That's what religion is about!

They were wise and skilled Americans who designed the "clipper." They are wise and skilled, likewise, whose week begins with the worship of God, and whose days put his Power to Christian use.

Students participate in jogging club

Several students are participating in a jogging club at Ozona Intermediate School. The goal for the fifth grade is to jog 100 miles and for the fourth to jog 75 miles before school is out.

These students have already jogged 60 miles or more and are getting close to their goal.

There are several other students jogging but 31 students run daily except in the snow.

STUDENTS ARE: Bottom row, left to right, Matt Defelice, Patty Sanchez, Carrie Douglas from Mrs. Dudley's class; J.J. Baker, Dottie Gonzales, Martha Mendoza, Mark Trujillo, Ray Wheeler, from Mrs. Bailey's class; Naomi Borrego, Keith Fowler from Mrs. Jones class; Eileen Moran, Lydia Pena from Mrs. Stokes class; Alma Duner, Scott Denman, Michael Sanchez, Ofelia Llanas, Cory Pate, from

Mrs. Dixons class. Carl Vandiver, Richard Galvan from Mrs. Glasscock's class; Isabel Benitez, Melissa Vallejo, Ernesto Castillo, Regina Cervantez, Juan Rodriguez, Emelinda Mata, Bret Hood, Tommy White, and Juventino Perez from Mr. White's class; Shane Cooper (not pictured), Feliciano Esmerado, Christi Haynes from Mrs. Macias's class. The teacher in the jogging club is Roberta Bailey, top row.

U.S. consumers spend less

Despite the many economic problems of the 1970's - including rising food prices - U.S. consumers continue to spend less of their income on food than do consumers in other countries.

In 1977, the latest year for which complete data are available for countries other than the United States, only 16.5 percent of U.S. private consumption expenditures went for food, tobacco, and beverages (and only 13.6 percent if tobacco and alcoholic beverages are excluded). This continued a downward trend that has reduced the share from 20 percent in 1965 to 18.0 percent averaged in 1970-72 and 17.0 percent in 1976. (U.S. Department of Commerce data show that this share dropped further to 15.9 percent in 1978 and held at that level in 1979).

Canada's 1977 share of 21 percent was the second best. Elsewhere, spending on food, beverages, and tobacco ranged from one-fourth to one-half of total expenditures in high-income countries of Europe and Asia: around 45-50 percent in the centrally planned countries; and between 40 and 65 percent in developing countries.

Surprisingly, the share was a relatively high 28-29 percent in countries with incomes above those in the United States - Sweden, Denmark and Switzerland - reflecting high domestic market prices for food. Nations with incomes comparable to those in the United States - Austria, Belgium, France, and the Netherlands - spent around a fourth of their incomes on food, beverages, and tobacco.

Despite such variances, food consumption patterns in 43 countries surveyed generally support the economic law that the proportion of income spent of food (excluding tobacco and beverages) declines as income rises. This inverse relationship between income and proportion of income spent on food was first observed by a German economist, Ernst Engel, in 1857 while he was studying the patterns of consumption expenditures of about 200 Belgian laborers. Subse-

quent studies have supported this last.

Expenditures in alcohol and tobacco, in contrast, are not highly related to income levels.

As incomes rise, consumers do spend increased amounts of money on upgrading and diversifying their diets, as they substitute more vegetables, fruit, and meat for much of their starch consumption. These dietary improvements, however, compete with alternative purchases, which increase at an accelerated rate of income rise.

Spending, of course, also is influenced by variances in food prices from one country to another. In Switzerland, for instance, 1977 per capita income was almost \$1,200 above that in the United States. Yet when spending on food, tobacco, and beverages was subtracted out, the United States ended up with a higher per capita disposable income - the world's highest, in fact. Lower U.S. food prices accounted for most of the difference.

4-Hers in District food show

Five local 4-H members participated in the District 6 4-H Food Show in Midland on Saturday, January 17.

In the Senior Division, Jay Justiss entered a pecan pie in the Breads and Desserts Category receiving a red ribbon. Gail Hunnicutt entered a fruit salad in the Side Dish Category receiving a red ribbon. Wendy Hood entered zucchini bread in the Snacks and Beverage Division and received a blue ribbon.

In the Junior Division, Jennifer Parks entered Dream Bars in the Breads and Desserts and received a red ribbon. Susan Scott entered Cranberry Salad Ring in the Side Dish category and received a blue ribbon. Susan Scott was named first alternate in the Side Dish Category.

The theme of this year's show was Expanding Horizons. The 4-H members were judged on their knowledge of nutrition, the food exhibited, and a complete day's menu.

MR. AND MISS O.H.S.-Aldo Delgado and Kaye Thompson were voted Mr. and Mrs. Ozona High School by the student body Monday. Class favorites, voted on by individual classes, were Sheri Buckner and Adrian Tijerina, freshman class; Harvey Huereca and Evelyn Cervantez, sophomore class; Elsa Fierro and Jack Thompson, junior class, and Tammy Adams and Jay Moreno, senior class.

Junior High basketball

The Junior High girls' basketball teams travelled to Sonora Thursday for a double-header against the Sonora girls' teams.

The seventh grade Cubettes won their game 18-13. Olga DeHoyos was high point girl with 6 points. Others scoring were Raedene Flores, Velda Munoz, Amanda Enriquez, Eli Tijerina and Shelly Rumley.

The eighth grade Cubettes lost 22-18. Christi Parks was high point with 8. Others scoring were Tracy Cole and Teresa Lee.

Monday the Cubettes played Eldorado in Ozona.

The seventh grade lost 19-15, and the eighth grade took a 28-17 loss.

Vanessa Miller was high point for the seventh grade. Others scoring were Raedene Flores, Melissa Vargas, Julie Reagor and Shelly Rumley. Marla Wilson was high point for the eighth grade with 6. Adding points were Tracy Cole, Teresa Lee and Dina Flores.

Ozonans graduate from ASU

Three Ozona students at Angelo State University in San Angelo were among 180 students who were graduated at the end of the 1980 fall semester.

Janera Lee Henderson received a bachelor of arts degree; Melissa J. Henderson received a bachelor of science degree and D. Renee Yeager received a bachelor of business administration degree.

Diplomas will be mailed to graduates upon receipt from the engraver. December graduates may, upon request, participate in spring commencement exercises slated May 15.

Airman Cedillo graduates

Airman Juan J. Cedillo, son of Maria A. Cedillo of Pine St., Ozona, has graduated from the U.S. Air Force Base, Texas.

Graduates of the course were trained in aircraft maintenance, repair and service, and earned credits toward an associate degree in applied science through the Community College of the Air Force. Airman Cedillo will now serve at Holloman Air Force Base, N.M.

Sewell on Sul Ross dean's list

Dan Sewell of Ozona was named to the Dean's List at Sul Ross State University for the 1980 fall semester.

According to Dr. Earl Elam, vice president for Academic Affairs, undergraduate students who have been enrolled for as many as 15 semester hours during the previous semester and have earned a grade point average of at least 3.0 on a 4.0 scale are named to the list each semester.

Mr. Sewell earned a grade point average of 3.6.

If you find your initials in the threads of a spider's web, it is said, you will be lucky forever.

Winter driving can be "chilling" act

"Driving in messy winter weather requires skill and concentration," says the non-profit organization's executive director, George Gustafson, who notes that January 19-24 is Texas Winter Driving Week.

"Safe winter driving is no accident. Stay alert to hazards and know how to avoid them, and you can make it through the next few months safely," Gustafson emphasizes.

"Be prepared for cold weather," the association head urges. He suggests checking your car's (1) battery for sufficient power to function in the cold; (2) brakes for equalized stopping action; (3) windshield equipment including wipers, washers and defrosters; and (4) exhaust system for deadly carbon monoxide leaks.

"After your vehicle is ready and you're out on the road, take all precautions possible to travel safely," Gustafson comments. "For instance, it may sound elementary, but make sure that you can see. Keep all windows clear, headlights clean and if driving in fog, sleet or heavy snow, low beam headlights on."

"Know and use correct steering procedures for winter driving, too," he remarks. "Change directions gradually, anticipating turns and slowing down for them early. If you hit an unexpected patch of ice in the road, ease up on the accelerator, hold the wheel steady and roll through," he adds.

"And if you should go into a skid, never hit the brakes," Gustafson stresses. "Instead take your foot off the gas and steer in the direction the rear of the car is skidding until you feel the car regaining a grip on the road. Then straighten your wheels."

Icy, wet conditions also make it hard to stop, Gustafson says. Therefore, he suggests that motorists keep plenty of distance between themselves and other automobiles and that drivers anticipate and gradually slow down for stops.

"Never slam on the brakes to stop on a slippery surface - you'll lock them and go into a skid. Keep the wheels rolling by pumping and releasing the brakes in short, rapid jabs," he explains.

Master Charge VISA

Crockett County Care Center News

By Mary Wilton - Director of Activities & Social Care

Monday morning domino games are played in the dining room, winners this week were first place, Louise McWilliams and second place went to Paul Cavin.

In the afternoon there was a birthday party honoring Cora Webb, who will be 74 on the 20th and Nautie Tatum who will be 85 on the 21st. Hostesses for this month's party were Blanche Walker and Georgia Kirby. Cake and punch was served to all residents seated in the lobby. Leona Harris entertained us by playing the piano.

Tuesday is the day to gather in the dining room for arts and crafts. This week, with the help of Dorothy Doll and Gracy Dorsey, we made pictures using greeting cards, styrofoam trays, rick rack and glue. These, along with some cute flower arrangements made from the tops of spray cans and cloth flowers, are on display in the lobby.

At 3:30 Alice Ross, Ophelia Enriquez, Hortensia Ybarra, Sophie Kyle, Georgia Kirby and Dorothy Doll came to help out with a few games of bingo. Ramona Lugo won three games and Gertrude Daniels, Juana Hernandez, and Hilario Cortez all won two games. Friday morning we will play again and the winner of the week will be decided.

In Wednesday morning Bible class we studied the

3rd chapter of Matthew. Frances Borrego shared her feelings on loving and caring for one another. Even though the attendance was small due to sickness, we had a good discussion. We sure have enjoyed the cassette tapes on the King James Version of the Bible donated by Mrs. Jack Brewer.

The film "Martin The Cobbler" was shown by Ann Mayo at 3:30 in the afternoon, everyone seems to look forward to the Wednesday films.

Hazel Storms and Maria Vitela were here early this Thursday to set the ladies hair. The beauty shop is opened every Thursday morning and is run by volunteers. This is a service free of charge to all the ladies.

Stories from The Good Old Days and Sunshine magazines were read in reading and discussion group. Almost everyone had a story to tell about something that happened in the days of their youth.

I would like to thank Bill Davis for a \$15 donation to our activities fund. This money is used to purchase supplies for arts and crafts, bingo prizes, film and items needed to carry out our other activities.

By 10:00 the dining room was filled with people ready to play bingo. The smell of fresh, hot popcorn filled the air as everyone selected a card. Volunteers who helped out are Hortensia Ybarra, Georgia Kirby, Alice Ross, Annabell Patrick, Liz Mary Pipes, and Doris Karr. First place winner for this week was Ramona Lugo, she received a \$5.00 gift certificate. Leona Harris was given a red scarf and a bottle of lotion for second prize. Joan Nicholas came Friday afternoon to play the piano, everyone enjoyed singing old hymns.

Sunday church services were held in the lobby. Bro. Lanham of the First Baptist Church brought the message.

Last year's headlines fail to deter tourists

Reviewing last year's headlines from right here in Texas could make a Hollywood disaster producer drool. Remember?

"Mexican Oil Fouls Texas Beaches"

"Texas Ranchers 'Wiped Out' by Record Drouth"

"Heat-Wave Deaths Mount"

"Hurricane of the Century Aims at Texas"

And once again, Texas teams didn't quite make it to the Super Bowl. But a funny thing happened along the way: Tourists kept on coming.

When the highway department's Travel and Information Division closed out its books on state tourist bureau operations during the "disaster year," its 11 hospital-ity centers had hosted virtually the same number of travelers as during the previous year...over 2,070,000 of them. What's more, a brand-new, 12th bureau that opened during September in the Valley was serving 500 eager tourists a day even before all the signs went up.

Assessing Texas tourism past and future, Tom H. Taylor commented that "tourists are a determined lot." Taylor has deciphered

IF YOU CAN'T COPE THERE'S STILL HOPE!

Some Americans find it hard to cope - to do such seemingly simple tasks as read transportation schedules or handle consumer rip-offs.

At The University of Texas, a special program known as the Adult Performance Level Project has developed materials for teaching necessary life-coping skills. The materials are in use by adults and in school districts across the nation.

The project arose from a study made by UT in 1975 that found almost 20 per cent of Americans were functionally incompetent and almost 34 per cent only minimally competent.

Former Ozonans Mr. and Mrs. Roy Thompson of Clyde, were Ozona visitors Monday.

Widows may be entitled to special tax benefits

A taxpayer who became a widow or widower in 1978 or 1979 may be entitled to a special tax benefit. The benefit allows the taxpayer to use the "Married Filing Jointly" Tax Table or a Tax Rate Schedule in computing the tax liability, a tax rate significantly lower than those in the "Single" category. To qualify for the benefit, the taxpayer (1) must have been entitled to file a joint return with the deceased spouse for the year of death, even if one was not actually filed; (2) must have a child or stepchild who qualified as a dependent; and (3) must have furnished over half the cost of maintaining a home

the highway department's tourist operations since the 1940s.

"Sometimes," Taylor said, "I think tourists are a lot like squirrels. They're fidgety and they spook easily, but not for long." He reminisced about the first Arab oil embargo that caused blocks-long gas station lines, and the nationwide shock

Answer for crying

For years, parents have listened to their newborn babies cry without any way of telling why--sleepiness, hunger, illness or anger.

Howard Golub may have an answer.

Golub, a doctoral candidate at the Massachusetts Institute of Technology, is developing a technique for diagnosing illnesses by listening to infants' cries, says Mary Ann Shirer, a health education specialist.

Dr. Shirer is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

After listening to numerous tape recordings of healthy and unhealthy babies, medical researchers in connection with Golub's project have programmed a computer to analyze 88 different components of a baby's cry, Dr. Shirer explains.

Now in the experimental stage, Golub's technique is being tested on mothers and their infants at the Boston Hospital for Women.

Researchers report that this new computer program may have the capability to detect in newborns the following conditions: jaundice, respiratory distress, brain damage and Down's Syndrome, sometimes referred to as mongolism, which is a congenital abnormality with mental and physical manifestations.

Some day Golub's technique may serve as the early-detection device for problems that would otherwise not surface until later in life.

when gasoline first broached a dollar a gallon.

"For a few weeks each time," Taylor recalled, "tourists disappeared from the highways like frost in July. Then all of a sudden, there they were again, knocking at the state's front door--which is how we think of our Texas tourist bureaus."

"Have you ever tried to foil a squirrel who's bound to get to your backyard bird feeder? That's the kind of persistence that American tourists apply to their freedom of mobility."

"But don't misunderstand," Taylor cautioned. "They're determined to travel alright, but not neces-

Challenge faces new Secretary of Ag.

"The greatest challenge the new Secretary of Agriculture will likely face is winning support of his producer-oriented policy proposals within other agencies of government."

Several of the major issues confronting Agriculture Secretary Designate John Block are of direct interest to other government departments, according to Dr. Ronald D. Knutson.

Knutson is an economist in policy and marketing with the Texas Agricultural Extension Service, Texas A&M University System. He also has been serving on the staff of the U.S. Department of Agriculture's Transition Task Force for the incoming Reagan administration.

Knutson said agricultural issues where conflicts are likely to occur among agencies of government include lifting of the Soviet grain embargo, increases in food prices, and proposals to increase price and income supports that have the potential for adding to government outlays.

Knutson, in an address before the Texas Farmers Union in Dallas Jan. 9, said that two major changes will occur within the USDA as a result of the election of Ronald Reagan as President and appointment of Block as Agriculture Secretary.

"First, USDA policy proposals and decisions will be more market-oriented. In this situation, forces of supply and demand are the prime determinants of farm prices and income," said Knutson.

This contrasts directly with the Carter administration farm policies where prices of major food and feed grains have been maintained in a relatively narrow range, mainly through low release and call levels within the government-controlled but farmer-held reserve, the economist explained.

"Second, USDA policy proposals and decisions will be more producer-oriented. In this type of farm policy, decisions are made primarily on the basis of their impact upon producers." This also contrasts with the Carter administration where policy decisions have been heavily

influenced by consumers and consumer impacts.

"In other words, the trend toward consumerization of the USDA will be interrupted," Knutson said.

These changes will have significant implications for farmers and their organizations, the economist noted. "While farm income will be higher in a market-oriented environment, farm prices will fluctuate more - and risk will increase," he predicted.

"In addition, with primarily a producer clientele, it will be critical that the new Secretary have a broad unified base of producer support. Without such support base, the Secretary's position in winning the assistance of other agencies for his producer-oriented proposals will be undermined," emphasized Knutson.

income for the state than the sale of every head of livestock from every farm and ranch in Texas!"

All in all, Taylor assessed 1980 as "a good year" for Texas tourism. And barring a catastrophe like an all-out war in the Middle East, he estimated the future can be as good or better.

"After all, we have a couple of very favorable things going for us," he said. "What with fuel and travel costs, Texans are vacationing

more in-state. The folks in Galveston welcome Dallas dollars as much as they do 'foreign' ones from Denver.

And speaking of foreign, Texas' worldwide image really appeals to foreign travelers, who are discovering Texas is one of the best holiday bargains on earth! For example, a good steak costs \$40 in Tokyo, and nearly that much in Paris.

"As to 1981 here in Texas," said Taylor, "we're looking forward to it!"

Texas safety week set

A Texas Safety Calendar focuses on 15 separate safety issues to start off a Decent Decade, the Texas Safety Association announced.

Alerting Texans to accident prevention will be the National Safety Council, government agencies and private associations, and the Texas Safety Association. Emphasis is on stressing accident prevention at home, play, work, or on the road.

Safety Weeks include: Jan. 19-24, Texas Winter Driving Week - Feb. 13-15, National Safety Sabbath - March 15-21, National Poison Prevention Week; April (First Week), Texas Defensive Driving Week - April 20-26, National Bike Safety Week - May (First Week), Texas Motorcycle Awareness Week - June 1-7, National Safe Boating Week - June (Second Week), Texas Highway and Freeway Driving Week - June (Last Week), Safety Belt Use Week;

July 25-31, National Farm Safety Week - August (Last Week), Back to School Week - October (First Week), National School Bus Safety Week - Oct. 4-10, National Fire Prevention Week - Oct. (Third Week), Railroad Grade Crossing Week - Oct. 25-31, National Safety on the streets Week.

The heat pump

"THE ELECTRIC SAVINGS MACHINE"

Stretch your energy dollars -
install an energy-efficient
electric heat pump

A heating system that's more than 200% efficient may seem like something out of the future. But it isn't. It's yours today, with the electric heat pump. Because when correctly installed in a properly insulated home, the heat pump produces two units of heat for each single unit of electricity it uses. It transfers heat that's always present in sun-warmed outside air into your home during the winter. And reverses the process, pumping heat outdoors during the summer.

If you have plans to buy, build, or remodel, or are looking for a new heating and cooling system for your home, call a local FACTORY TRAINED heat pump dealer or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you. Learn more about the easy-to-install, economical electric heat pump--your most energy-efficient heating and cooling system buy.

"DON'T PUT IT OFF" FLASH-FLASH-FLASH

Have you been putting off buying that new car because interest rates are too high?

Well, take a good look: sure, the bank prime rate is way up. Sure, home mortgage costs are up.

But the cost of financing your car with GMAC hasn't rocketed up like everything else.

L-B Motor Co. who uses GMAC not only has money available, right now, but at rates that haven't changed that much in the past few years.

So come on into L-B Motor Co. and check out that new Chevy, Pontiac, Olds, Buick or Cadillac today.

New Manager Mike Gantt

Beef production short course to be held here

A beef production short course for adults will be held February 16, 17, 18, and 19, under the sponsorship of the Ozona High School Vocational Agriculture Department according to Mr. Foy Moody, Superintendent, and Mr. Karl Vancil, Teacher of Vocational Agriculture.

Dr. Elmer V. Krehbiel, Beef Production Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Animal Science at Texas A&M University, will be the instructor for the course. He is headquar-

tered at Texas A&M University. Dr. Krehbiel has a strong background in animal production and genetics. He received a B.S. degree from Oklahoma State University in 1950, an M.S. degree from the University of Arkansas in 1959, and a Ph. D. degree from Virginia Polytechnic Institute in 1966. His graduate studies were based on selection for type and reproduction performance of cow herds.

Between periods of formal training, Dr. Krehbiel worked with the beef cattle industry as artificial insemina-

tion technician, beef cattle herdsman and ranch manager in Oklahoma. He also served as beef cattle research assistant in Arkansas, and animal geneticist for the USDA at Miles City, Montana. For two years prior to joining the Agricultural Education Specialist Program, he served as Area Livestock Extension Agent in Ohio.

The short course at Ozona High School is scheduled to begin Feb. 16, at 7:00 p.m. in the Vocational Agriculture Building. During the dates the short course is in progress, Dr. Krehbiel will be available to assist cattlemen

with individual problems and to provide on-the-farm instruction, according to Karl Vancil.

Cattlemen interested in attending the short course should write or call Karl Vancil, the teacher of vocational agriculture at Ozona High School. An entry fee of \$5.00 will be charged.

Beef Production Short Course certificates will be presented to each cattlemen who attends all the training sessions.

Dr. Krehbiel states that the field of beef cattle production must take a close look at efficiency of production in the future. With land

prices, feed, and taxes rising, the producer is meeting more and more competition for the consumer's dollar at the meat counter. From the economic view of the beef cattle business, there is every indication that in comparing the producer of yesterday and the producer of tomorrow, beef must be produced more efficiently in order to be a profit-making business. Dr. Krehbiel indicated that the beef production short course will deal with methods of producing beef at a lower cost and the ways of producing the kind of beef that the homemaker wants to buy. The course will include such important topics as nutritional requirements, winter feeding, minerals, vitamins, feed additives, implants, facilities, equipment, selection of bulls and cows, animal identification including freeze branding, crossbreeding, feeder cattle grades, diseases, para-

sites, reproduction, market trends and management for efficient production. The

course can be altered to meet the wishes and interests of the farmers and ranchers

iversity, who coordinates the program for Texas A&M. "This Cooperative program," states Jaska, "is designed to make the services of specialists available to conduct short courses under the supervision of public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to people engaged in agricultural production and agri-business."

Specialists are now available in the fields of beef production, farm electric wiring and safety, arc welding, horticulture, tractor maintenance, pasture, and oxy-acetylene welding.

How to button jackets

For the well-dressed man, confusion sometimes arises over how many buttons to button on jackets and vests, says Beverly Rhoades, a clothing specialist.

The number of buttons to button differs according to whether the wearer is standing, walking or sitting, she points out.

Miss Rhoades is with the Texas Agricultural Extension Service.

In general, here are some guidelines to follow:

When standing, button all jacket buttons.

When walking, button only the top button on a two-button jacket. Button only the middle one for a three-button jacket.

For double-breasted jackets, button all buttons, if possible. Button at least the top two for six-button, double-breasted jackets.

When sitting, a man can leave all jacket buttons open.

For vests, button all buttons unless the vest is tight. This is true for standing, walking or sitting.

However, if the last button on a vest is off-set purposely by the manufacturer, do not button it - it will cause puckering.

For the five - or six-button vest, buttoning the bottom one is optional. Leaving the bottom button open may provide a more neat, well-polished appearance in case buttoning it causes pulls and puckers.

If vests are snug, the wearers may want to unbutton them when sitting.

Sweater vests follow the same rules as indicated above if they are buttoned up the front.

For a more casual look, leave all buttons on sweater vests open especially if a jacket is not worn.

DR. ELMER V. KREHBIEL

Pool to combat oil thefts

David W. Biegler, President of Pool Well Servicing Company, announced today that Pool is joining forces with a growing number of oil field equipment manufacturers, service companies and trade associations which have pledged to offer rewards and vigorously pursue the arrest and conviction of oil field equipment thieves.

With the current boom in drilling and well servicing activity throughout the United States, various types of oil field equipment and tools are in short supply and, as a result, represent a growing target for thieves.

Biegler announced that Pool Well Servicing Company has ensured that its equipment is marked with identifying numbers. It is now offering rewards for information leading either to arrest and conviction of the offenders or to recovery of the equipment stolen from the company. He further stated that every effort will be made to prosecute the thieves regardless of cost.

Pool Well Servicing Company currently operates more than 280 rigs in Texas, California, Louisiana, Michigan, Montana, New Mexico, North Dakota, Oklahoma, Pennsylvania and Wyoming.

attending. "Short courses in beef production, as well as in other areas, are available to farmers throughout the state under the cooperative pro-

Crockett wildcat slated

Harrison Interests Ltd., Houston, resubmitted application to drill the No. 1-B Joe F. Bean, a 9,000-foot wildcat in Crockett County, one mile east-northeast of the four-well Pikes Peak Draw (Canyon gas) field, 3/4 miles northeast of Strawn detrital gas production in the University 31 (Strawn detrital and Queen gas) field and nine miles northwest of Ozona.

Original application was filed June 27, 1979 by Dan J. Harrison Jr. (now Harrison Interests), however, it ex-

pired July 3, 1980. Location is 660 feet from the north and east lines of 12-UV-GC&SF. Ground elevation is 2,473 feet.

The Pikes Peak Draw field, all of which is temporarily abandoned, produces from 6,443 feet; the University 31 field produces from 8,624.

Expansion program for ONB

Ozona National Bank began the new year with an expansion program. A new drive-in facility is planned for the lot on Ave. E which is presently a parking lot for bank employees.

John L. Parks, bank president, said he expects construction to get under way early in February.

The bank is now offering money market certificates at current interest rates. Another innovation will come with computerized accounts when the computer becomes operational in mid-March. All accounts have been assigned a number and when the computerized system goes into operation, all checks must have the account number printed on them, making counter checks a thing of the past.

KITTY'S KORNER

[Cont'd From Page 1]

of the year, but we don't know how Terry Neill is making out. He's been using her material for years in his front page column.

She said the monthly writing of four or five columns, one for each week, had become a chore after fifteen years and she needed a rest. Perhaps she will see fit to resume after she gets "rested." If you miss her little "quips," give her a call and tell her so.

Will and I attended the Texas Press Association meeting in Dallas Thursday through Saturday noon of last week. If we didn't learn anything else, we learned to better appreciate Ozona. When we hit the freeways and expressways, we could understand what they meant by the "rat race." We headed for home shortly after noon and ran into snow in San Angelo about 3:00 p.m., just light snow. The further west we went, the worse it got. When we turned at Barnhart, we ran into ice on the road and it took longer to get to Ozona than from Dallas to San Angelo. I found disaster when I got home. The furnace was not working, the fireplace wood was too wet to burn and the sewer was stopped up.

I'm going to have to start leaving Tom with Gary Nany when I leave town. The last time, during the worst heat of the summer, I came in to find the air-conditioner broken and temperature inside my house was a stifling 89 degrees.

Flores services

Funeral services for Jacinto Flores, 98, were held Wednesday afternoon in Our Lady of Perpetual Help Catholic Church with burial in Lima Cemetery under the direction of Sizemore Funeral Home.

Mr. Flores died at 7:35 p.m. Sunday in Crockett County Care Center where he had been a resident for several years.

He was born Oct. 20, 1882, in Mexico.

Survivors include two daughters, Rosa Pena of Fort Worth and Lillie Gonzales of Odessa; a son, Felipe Flores of Dallas; seven grandchildren; 35 great grandchildren and 19 great great grandchildren.

Don McCaleb drafted by Phillies

Don McCaleb, Jr. received notification that he was drafted in the Baseball Winter Draft by the World Championship Philadelphia Phillies.

Young McCaleb is a former Bellaire High School player and is currently attending Angelina College in Lufkin, Texas, on a baseball scholarship.

Don is the son of Don and Patricia McCaleb of Bellaire and the grandson of Mr. and Mrs. L.A. McCaleb of Ozona.

Sports Fans I BET YOU DIDN'T KNOW

Here's a question you can have some fun with. The Super Bowl has been played in 6 different stadiums in its history, and naming 5 of those stadiums is fairly easy, but most people can't name all 6. The Super Bowl has been played at the Coliseum in Los Angeles, the Orange Bowl in Miami, the Rose Bowl in Pasadena, Tulane Stadium and the Superdome in New Orleans and - the tough one to get - Rice Stadium (and NOT the Astrodome) in Houston Super Bowl 8 was in Rice Stadium. *****

What's the biggest bet anyone ever won on a sports event? The world record was set in 1975 when a man won at odds of 4-MILLION to one. He bet the equivalent of 50 cents on a soccer pool in Brazil and won over 2-million dollars. The biggest gambling loss ever at one time was reported by a European industrialist who lost over 1-million dollars in 5 hours at the casino in Monte Carlo. *****

I bet you didn't know... L-B Motor Co. offers you a wide selection of Chevrolets, Buicks, Pontiacs, and Oldsmobiles. Come by and look at our wide selection.

L-B Motors 516 9th St. Ozona, Tx.

Haste makes waste. Remember Poor Richard's advice? We think it's as sound today as it was in the eighteenth century. Get-rich-quick schemes only make their promoters prosper and the investors wiser for their loss. Most of us never discover gold, strike oil or inherit a million or two from a rich uncle. We have to rely on ourselves to earn financial security. Why risk your hard-earned money on a shaky investment? Money deposited in an account with us is insured by an agency of the federal government. Need we say more? Old-fashioned virtues like service & savings, the convenience of tomorrow's bank today. Ozona National Bank Member of FDIC
