NUMBER 48

Kitty's Korner

by
Kitty Montgomery

The hostages have been returned and all is well. Hopefully, the television networks will allow the 52 men and women, who spent 444 days imprisoned by Iranian terrorists, some privacy as they go back to resume their normal lives. I don't know whether it's worse to be imprisoned by terrorists or constantly interrogated by the tube media. Either way, it can hardly be called freedom.

Besides having the hostages home, Americans can be thankful they have been drawn together for the first time in ten years in a great outpouring of patriotism. At the same time we can be ashamed we failed to welcome our service men and prisoners of war from Viet Nam with the same nationwide outpouring of solidarity.

I was gratified to hear one of the former hostages say the militants who took over the embassy were not "students." I wondered about this when the takeover occurred and the thugs were described as "students" by every newscaster who gave a bulletin on the situation. They never did look like "students" to me, but then what did I know. After several months passed, I was convinced the band of cutthroats holding the hostages were not students in any sense of the word. Finally about two months ago, the newscasters even began to drop the word "students," and use "militants," which should have been used all the time.

I am disgusted at the treatment of the hostages, not surprised. Any group who would take over a country's diplomats and hold them hostage, certainly would not have humane treatment in their minds. The very act of depriving an individual of his freedom is in itself inhumane.

Personally, I'm with the former hostage who, when asked if he would go back to Iran, said he would if he were in a B-52 bomber.

We need to convince the barbarians of the world that retribution will be "swift and terrible," should this happen again, and that "he who lives by the sword, dies by the sword." Force is the only element the uncivilized respect, and the sooner the bleeding hearts of the world realize this the better off we'll all be.

kk
On the lighter side, a couple of Ozonans are in the process of opening a shop in downtown San Angelo. Reg Manning and Dub Robertson have been working on "The Gilded Cage," which will feature famous name brand fashions for women. The shop will be located across Chadbourne from Nathan's. See their ad on page four of this edition of *The Stockman*.

kk
Ozona got a shot in the arm from the feature story in the *Odessa American*, Sunday's edition. It was a far cry from the lousy story and picture printed in the *San Angelo Standard* a few weeks ago. We have a copy here at the office, if you haven't seen that paper. In fact, we have a copy of both papers, if you care to read and compare.

kk
We have experienced the weather's every season in Ozona the past week. From last week's snow and freezing weather, we came to a

Cont'd on Page Seven

OZONA DID ITS BIT for the former hostages Monday. While this large yellow ribbon bow decorates the Davy Crockett Statue, smaller yellow bows decorated every business in town. Patti Jones furnished the ribbons and bows from the flower shop and Chamber of Commerce

manager Beth Boyd attached them with the help of Wyna Boyd. Mrs. Boyd said 52 bows were attached to the various businesses and offices here Saturday afternoon and they were still in place Monday morning, which is unusual over an Ozona weekend.

Outbreak near epidemic-

Ozonans fall victim to flu-type illnesses

Influenza and pneumonia-type illnesses felled many Ozona residents during the last month of 1980 and the first month of the new year. Apparently the near epidemic outbreak is not over yet. School attendance reached a record low due to the illness last week, according to Superintendent Foy Moody. Teachers were also out with the flu, he said. Attendance in Ozona schools fell to 75% last week, a far cry from the normal 95 to 98%. Moody expressed hope that the flu season had peaked and was on the wane, as attendance is up some this week.

It is the same story at the Crockett County Hospital, where attendance is up most days to 100% occupancy lately, according to Glen Rumley, Hospital Administrator. He said the hospital has averaged 80% occupancy the past two months, with most patients being hospitalized with the flu or related disease. The flu season has taken its toll on the hospital staff as well, with

most members of the staff coming down with the disease sometime during the past two months.

Rumley said he hoped the worst of it was over, with admissions slowing down some the past three days. However, he said there were no beds available Sunday, and one recuperating patient was dismissed in order for a new victim of the disease to have a hospital bed.

Texas health officials claim 138 Texans died of flu and pneumonia during the last five weeks of 1980 and the latest foreign strain, A-Bangkok, has affected virtually every major city in the state, with more to come.

Rumley said he knew of no lethal complications in the local hospital, but doctors and nurses have been working long hours the past two months due to the disease.

Dr. R.M. Owensby, Chief of the hospital medical staff, said he could offer little hope for prevention at this stage and added if flu shots were not obtained in the fall, it is

too late for advice. Symptoms include headache, dizziness, general weakness and aches, sometimes involving high fever. Cases vary in intensity he said.

Dr. Owensby added that those who contact the virus infection should get plenty of rest and take care not to get chilled. He recommends aspirin, lots of fluids and allowing the worst of the effects to be thrown off through natural resistance.

"If you run high fever with

Emergency loans are available

Emergency loans due to drought and extreme high temperatures from Sept. 1, 1979 through August 31, 1980 are available at 5% interest through the Farmers Home Administration until July 28, 1981. These loans are made to farmers and ranchers who cannot obtain credit elsewhere due to the disaster.

The loan can be used to replace installations, equipment, or buildings, (including homes for farmers or ranchers) as a result of the disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming or ranching operation.

Crockett County is serviced by Ben T. Rucker, Jr., County Supervisor. The office period in Ozona is the 4th Thursday of each month from 10:30 a.m. to 12 noon in the ASCS Office. The office period in Eden is each Monday morning from 9 a.m. to 12 noon and is located in the ASCS Office. The Eden telephone number is 915-869-3941.

it, however, see your doctor," he advises. He added that antibiotics have no effect on the flu, only the infections which follow.

Dr. Owensby said he had rather not comment when asked if the disease here was the A-Bangkok strain identified by the Disease Center in Atlanta, Ga. He said he would have no way of knowing the type, unless specimens had been sent to the center for identification from cases here, and they have not. He did say the symptoms appeared to be the same, but would make no comment otherwise.

He also warned flu victims to stay in bed until most symptoms have disappeared. He said a return to work or school before the disease had run its course only served to spread the disease and risk a relapse.

Snider services here Mon.

Funeral services for Ronda Louise Snider, 53, were held at graveside in Cedar Hill Cemetery at 2:00 p.m. Monday under the direction of Sizemore Funeral Home.

Mrs. Snider died at 7 p.m. Saturday in Odessa Medical Center Hospital after a long illness.

Mrs. Snider was born Louise McLaughlin, March 5, 1927, in Coke County. She moved here with her family at an early age and attended Ozona schools. She was married to Wayne Neel and resided in Ozona until after his death in the early 60s.

She was married to Clyde Snider June 3, 1965, in San Angelo. He died in 1979. One daughter preceded her in death, Lynn Neel Montgomery.

Survivors include two daughters, Tommie Williams of Hagermana, N.M., and Sue Richardson of Monahans; and seven grandchildren.

Activity up in county fields

Heightened activity in Crockett County gas and oil fields followed the new year. An influx of oilfield construction workers and their families has created a serious housing problem in Ozona since the first of the year. Several plants are under construction in various parts of the county, and drilling is up in all fields.

Tenneco, San Antonio, will drill the No. 1-17 Arledge, a 15,500-foot wildcat in Crockett County, 2,310 feet west-southwest of the Euleeone (Wolfcamp) field, 3/8-mile southwest of a 5,660-foot failure, three miles southwest of the Watson Ranch (Strawn gas) field, nine miles east-northeast of Ellenburger gas production in the JM multipay field and 30 miles southwest of Ozona.

Location is 500 feet from the south and 850 feet from the east lines of 17-A-TCRR.

The Euleeone field produces from 4,520 feet.

Harrison Interests Ltd., Houston, will drill the No. 4 Joe F. Bean "C", an 8,500-foot wildcat, 2,310 feet east and slightly north of a 1 1/2-mile northeast extension to the Pikes Peak Draw (Canyon gas) field and 17 miles northwest of Ozona.

Location is 1,320 feet from the north and 660 feet from the west lines of 27-UV-

HEAP apps available to poor

The HEAP program, which provides for home energy assistance for very low income families, is now available in Crockett County. Applications for the assistance may be picked up at County Judge Johnny Jones' office in the courthouse annex.

A representative of the Texas Department of Human Resources, which administers the program here, will be in Ozona, at the courthouse each Monday to take the applications.

GC&SF. The extender, Joe McGuire No. 3 Joe F. Bean, South, drilled as a wildcat to 7,700 feet and amended to the above field, was finalized Dec. 22, 1980 for a calculated, absolute open flow of 1,402,000 cubic feet of gas daily, with gas-liquid ratio of 6,153-1, through perforations at 6,625-7,141 feet.

C.F. Lawrence & Associates Inc., Midland, will drill the No. 1 Red Oak, a 2,200-foot wildcat, 5/8-mile southwest of an active test, 3/4-mile east-northeast of the opener and lone producer of the Oaklaw (Grayburg) field, 1 1/8 miles southwest of the shallow Hoover field and 16 miles east of Iraan.

Location is 1,600 feet from the north and 500 feet from the east lines of M. Carriena No. 12.

The active test, the firm's No. 2 Live Oak, in 7-Jose Zunigas, Abst. 1032, at last report was shut in after acidizing with 2,000 gallons and fracturing with 10,000 gallons and 2,000 pounds of sand, through perforations at 1,918-50 feet. Drilled to 2,070 feet, with 4 1/2-inch

casing set at 1,965 feet, it is plugged back to 1,954 feet.

The Oaklaw opener, the firm's No. 1 Live Oak, drilled to 2,050 feet, was finalized Sept. 11, 1980 for a calculated, absolute open flow of 417,000 cubic feet of gas daily, through perforations at 1,563-680 feet.

OJB Inc., Ozona, will drill the No. 1 Nat Read as a 2 1/4-mile northwest outpost to the Crockett portion of Whitehead (Strawn gas) field, 1 3/8 mile south of the three-well Seawolf (Strawn gas) field and 16 miles southeast of Ozona.

Location is 933 feet from the north and east lines of I-G-GC&SF. Contract depth is 9,100 feet.

The Whitehead field was opened in Sutton County.

Masonic Lodge barbecue set

Ozona Masonic Lodge #747 will host a barbecue Thursday, Jan. 29, at 7:00 p.m. at the Masonic Lodge.

All Masons and visiting brothers are invited to attend.

Junior High Cubs remain undefeated

The Ozona Junior High seventh grade Cubs, the only undefeated basketball team in school, made Big Lake its tenth victim last Saturday and remained undefeated for the year.

The Cubs brought home the championship trophy from the Reagan County tournament with impressive wins over McCamey and Iraan and a close one over their hosts for the win.

The Cubs downed McCamey, 29-14, and Iraan 22-13, before the showdown came against Big Lake. The lead changed hands each time one of the teams scored, but the Cubs outlasted the Owlets, 38-36.

Cub Coach Freeman said of the win "they have an outstanding team, obviously

the second best in West Texas, and our boys and coaching staff find it most satisfying to beat them in the championship game of their own tournament."

High point man for the Cubs in the tournament was Steve Sanchez with 40 points, followed by Chuy Hernandez with 18 and David Lovell with 12. Others scoring for the Cubs were Blas Vargas, 7; Harvey Fierro, 6; Mark Marshall, 4, and John Clark, 2. Leading the defense were David Adams, Jody Everett, Andy Dews and Armando Sanchez.

In their quest for a perfect season, the Cubs will be back in Big Lake Feb. 5, for their final regular season game and Feb. 12-14 in Eldorado for the 9-AA tournament.

TWO MEN WERE INJURED here Sunday morning when this hole-digging rig became electrified with 69,000 volts of electricity. Sooner Williams and Douglas Ogelby had a narrow escape when the top of the rig they were operating came in contact with the major transmission line above. Both men suffered burns and were hospitalized.

The stagflation economy

By Anthony Harrigan

While President-elect Reagan is optimistic about the future, he will be faced with staggering problems when he enters the White House. The most serious of these problems are economic.

The United States suffers from what economist Sidney Weintraub refers to as a "stagflation malaise of unemployment and inflation."

If Mr. Reagan fails to make headway against inflation and unemployment, his support will be eroded. The American people are desperate for relief from inflation. While unemployment is a grave problem, it hits only a small percentage of the population—at this time. Inflation, however, hits the great mass of America's blue collar and white collar work force.

Mr. Reagan will be bombarded with advice when he is in the Oval Office. It is to be hoped that he will listen to those advisers who warn of the peril in high interest rates. These sky-high rates threaten paralysis to the country's most important business activities—home construction and automobile sales. The ordinary man simply can't afford to buy housing and transportation at current interest rates.

Results are what counts. Let's hope Mr. Reagan bears that in mind. In Britain, Mrs. Thatcher's government came to power with all the right theories. But the country in a terrible mess, with widening unemployment, high inflation and high wage settlements for public employees. She simply isn't getting the results she promised.

The Reagan administration must do everything possible to avoid the mistakes of the Thatcher government, otherwise it will be a flash in the pan. This means the incoming administration must focus on the needs of citizens with moderate incomes. Every effort must be made to save the jobs of these citizens and to reduce the impact of inflation upon them. In other words, the administration must develop policies with a keen appreciation of the impact upon ordinary people. If belts are to be tightened, everyone must do it.

One banker recently made the points to me that the new administration must do everything it can to end the system whereby it is more profitable to put funds into the money market than into productive enterprises. Many well-to-do citizens have departed from the investment scene in order to reap the rewards offered in money market funds.

The American people are deeply concerned about pocketbook issues. When they buy things, they are cruelly aware of the advancing price tide. Of necessity, there must be a halt to wage settlements that push salaries way out of line. As Mr. Weintraub said in *The New Leader*, "Without a slackening in pay increases inflation will stay with us." This is the measure of financial discipline that is required. It will be tough going in 1981.

TIPS ON TAXES

You can deposit money in a financial plan that will save your estate some taxes.

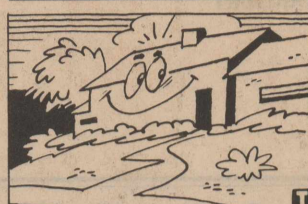

You can set up a trust that will generate tax-free income.

You can save yourself some tax money now and your estate some tax money later in three different ways.

One way is with a Missions Agreement Savings Plan. You deposit money with World Vision, Inc., a Christian humanitarian and service agency. Like a bank, the plan pays you interest and you are free to withdraw your money whenever you wish. When you die the amount you have on deposit will go toward Christian work so none of it is subject to estate tax.

Another way is to set up a trust that will pay you and a survivor a regular income for the rest of your lives. Part of that income will be tax-free. Afterwards, the trust fund will be used to help the poor and tell them about Christ. It, too, will require no estate tax.

The third way is to donate your home, farm or other

You can avoid paying taxes on your home—legally.

property, yet retain the right to use it for as long as you live. This is called a Life Estate. When you die your gift will be used to God's glory—and because you are making a charitable gift, you will also save a large amount in taxes now. What's more, you'll know your property will be used as you want it to be.

For free booklets on these programs, write to: Booklets Dept., Attention: Miss Jill Ungar, World Vision, Inc., 919 West Huntington Drive, Monrovia, CA 91016.

The Lion's Roar
CONNIE TRUJILLO, Editor
KAYE THOMPSON
MERCY STRATUS

Well, we have started another week of school. This past week there were three games held here with Menard. The J.V. boys beat Menard with a score of 47-40. The varsity boys also beat Menard. The Varsity girls had a very disappointing game. They lost by three points.

It seems as if every week our paragraph is on the games. This week it is also going to be on the games, but it will also be a little different. Many of you girls and boys out there complain about the Lions Roar. That we, the editors should think of something new. We believe that if you want something new you are going to have to give us ideas in order to change it. Starting next week we will put a box in the library and we want you all to put your suggestions and ideas in that box.

Well Seniors, your day to graduate will soon be here. But just be sure to remember Ozona High and those of us less fortunate to finish school

Public Notice

NOTICE TO BIDDERS
THE COMMISSIONERS COURT OF CROCKETT COUNTY, TEXAS will receive sealed bids until 11:00 a.m., February 9, 1981, at which time bids will be opened and read for the purchase of the following equipment:

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Hope all of you had a happy and meaningful Christmas and New Year holiday. My two weeks visit in Houston and San Antonio kept me going and busy the entire time. To me, San Antonio is the most interesting city in Texas, and it brought back memories of the beautiful Battle of Flowers that we attended several times in my early youth. When I was asked where I lived and I told them Ozona, all had complimentary remarks of our beautiful and interesting little city that they had planned to stop in. Perhaps the late unfortunate picture painted of our city will bring our citizens to realize the importance of working together to keep Ozona a most unusual and pleasant place to live.

Outdoor gardening in January may be rather slow, but soil preparation may be undertaken when the ground is in suitable condition to work.

Few practices promote good gardening more than having beds and borders spaded and manured well in advance of the planting time. To save time later on, get rid of winter weeds and grass where they are not wanted.

Finish pruning grapevines, if this has not already been done, and attend to the pruning of other fruit trees well in advance of new growth beginning. Also those shrubs that bloomed in late summer should be pruned between now and the end of February. Pruning now will encourage thicker and prettier specimens and will

result in better summer flowering of abelia, althea, butterfly bush, crepe myrtle, elaeagnus, flowering willow, vitex, salt cedar, mallow hibiscus, and oleanders.

Houseplants face rather difficult conditions during January. The air indoors is likely to be exceedingly dry due to use of artificial heat. Keep varieties that prefer low temperatures in cool locations and never near direct heat. During the short days of winter all house plants respond favorably to exposure to maximum sunlight and especially ones that bloom.

Let me remind you again to water your evergreens deeply if no rain and freezing weather in the forecast.

If you're planning to plant an oak tree in honor of Arbor Day (January 16), be sure to choose a type adapted to our area of the state.

Duplicate bridge

In Duplicate Bridge play Sunday at the Country Club, Mrs. Evert White and Mrs. J.J. Marley tied with Mrs. Clay Adams and Mrs. Joe Clayton for first place. Mrs. Sherman Taylor and Mrs. Buddy Phillips were third.

Shirley Kirby is in Shanon Hospital in San Angelo, where she had surgery early this morning.

Clothing leader workshop

"Spotlighting the Trends" is the theme of the 4-H Clothing Leader Workshop, January 31 and February 1, at the Texas 4-H Center in Brownwood. All 4-H clothing leaders are welcome to attend.

Leaders will participate in short workshops on clothing topics. The sessions will include coordinating your clothes, sewing techniques for today's fabric, selecting appropriate pattern for 4-H age figures, and pattern alterations.

Leaders participating in the training should bring portable sewing machines (zigzag preferred). Extension cords and personal sewing equipment are also needed. Registration fee for the training is \$18.70. The sessions will be taught by clothing specialists from Texas A&M University and other professional sewing instructors.

Please contact Debra Price for details about registering for the class.

Reducing the temperature of the hot water delivered to the washer will cause a too-cool "warm" water cycle for soil removal.

Instead, save energy by rinsing in cold water and adjusting the water level setting to match the load size.

For best eating quality, use commercially and home-canned foods within one year.

Moving? This is a "made-to-order" situation, rather than dreaded chaos.

It's the chance to put order into your life. You'll need only a little advance scheme, boxes, a packing plan, "strict" sorting and maybe a few special storage steps for your new home.

First, start collecting boxes if you're going to move yourself.

Boxes used to pack liquor make excellent crates, and they're a good size.

Also, boxes that transport poultry products to grocery markets are useful. As you start to pack, label boxes by room or closet for the new home.

To help with this, use a plan of your new living space, especially if you can get the dimensions of closets and rooms.

Plan to put things at-or near-the point where they will be used.

For example, locate toys near or in a child's room. Put coats and other outdoor items near the entry way. Put linens in the closet between the bedrooms. Let the living room cabinets or storage hold adult games, ashtrays and other entertainment items.

Sort items and clean as you pack.

Remember, though, if you aren't strict about it, your whole plan will suffer.

If an item is no longer used by the family, this is a good opportunity to plan a garage sale, to give items to friends or charity or to throw items out.

Exception: if it's a senti-

mental item, don't throw it away and suffer regrets, since feelings are as important as space, and many heirlooms are sentimental items that someone saved.

Items of personal care and clothing which the family will need in the first few days at the new home should be packed separately.

These "first-needs" boxes will free you to analyze the space in your new home and plan storage of the family's possessions better.

Before unpacking any cartons, complete needed storage adaptations.

If closet space would be more useful with two clothes rods, add a second one to

PURCHASING A HOME IS STILL A GOOD IDEA, NOTES ECONOMIST

While some families will find it harder than ever to purchase a home in the next decade, a home will remain their best investment.

"It used to be that gathering several thousand dollars for a down payment was the biggest problem people faced when wanting to buy a house," said Dr. Arthur Wright, a research economist for the Texas Real Estate Research Center at Texas A&M. "Now the problem is continuing increase in monthly payments."

By rule of thumb, house payments were about 25 percent of the monthly household income, Wright said, but today people can expect the percentage to be higher. In some instances, it has been as much as 35 percent of the monthly household income.

CALLING ALL HOMEMAKERS

Brought To You By Brown Furniture
Sometimes women are reluctant to ask for help in choosing and arranging furnishings for their homes.

But we don't want you to be afraid to ask us for this help.

We are ready, willing and able to do it, and in fact, we invite you to come in and talk over your particular decorating situation.

We want you to know that we have the experience in helping people like yourself with furniture and other furnishings.

And it doesn't matter if you have a big budget or a small one. We've helped many people who must work on a limited budget. We can work around existing furniture that you now have and want to keep, suggesting, for example, just the few pieces you might need at this time to brighten your home, or we can, of course, help if you want a whole room-full or a whole house-full of furniture.

We've helped newlyweds just starting out as well as those who've been home makers for many years.

The main thing to remember is that no matter how small your budget may be, you should not hesitate to come in and talk over your furnishing needs and hopes. We can evaluate your family's way of life and suggest furnishings tailored to your specific situation. Remember, don't be afraid to ask. Stop in **Brown Furniture**.

Probably coming down with something

Even a frown can worry Mother. And when he has a fever — she always fears the worst!

Did you know, Mother, that more children fall victim to *spiritual neglect* than any of the crippling diseases we dread? It has wrecked the fond hopes and bold dreams of hundreds of thousands of parents.

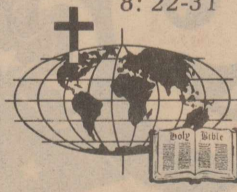

Yet it isn't a disease, at all!

It is a HESITATION; hesitating to start our child in Church School, hesitating to go with him and worship God, hesitating to discuss at home the need for moral and religious foundation for the whole family.

Face it today! Do something about it next week! Choose YOUR place of worship. And make attendance a regular habit. And through a lifetime of worship and faith it can be for your child... **HIS** place of worship.

Veterinarians complete seminar

A total of 676 accredited veterinarians throughout the state have completed a two-day seminar in conjunction with the Texas brucellosis program.

The sessions were held in seven cities in Texas, and were designed to give veterinarians an in-depth study into the program. Subjects covered included a detailed study of brucellosis, reduced dosage of Strain 19 vaccine, and regulations on movement of livestock.

"This is another major part of the Texas brucellosis program. The accredited veterinarian is a cornerstone of the Texas Plan, and we of the Texas Animal Health Commission know we must have the support of the private practitioner in order to

make our program succeed," John Armstrong, Kingsville, chairman, TAHC, said.

The veterinarians who completed the seminar are now certified to work with livestock producers in accordance with the fee-base regulations of the Texas brucellosis program.

The meetings were sponsored by the Texas Animal Health Commission, Texas Veterinary Medical Association, and the Texas Agricultural Extension Service. They were held in Austin, Amarillo, Fort Worth, San Angelo, San Antonio, Palestine, and College Station.

"Veterinarians who have completed the seminars are now quite knowledgeable about the Texas brucellosis program, and are qualified to

assist livestock producers with this disease," Dr. Frank Mann, president, TVMA, Wharton, explained.

Brucellosis is a highly contagious disease of livestock, centering in the reproductive organs. It causes abortions, weakened calves, loss of milk and sterility.

Revised regulations have been in effect for Texas since July. Other elements of the Texas plan include a multi-area plan, reduced dose of Strain 19 vaccine, improved laboratory systems, increased surveillance, and individual herd plans.

Plans are being formulated for a "make-up" session for veterinarians who were unable to attend the previous seminars. That seminar likely will be held in February.

B'ball teams get wins

Both the Lions and Lionettes posted wins in their respective games against Sonora here Saturday night. The girls won by a score of 50-46. The boys edged their Sonora opponents 43-42 in a real cliff hanger.

High point for the Lionettes was Lori Clayton with 18 points, followed by Lana Cole with 13. The Lions' high point man was Gary Smith with 14, followed by Dan Bean with 10.

Both teams were in El Dorado last night for district games.

Include landscape costs

Building a new home soon? If so, be sure to allow for the cost of landscape development, says Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service, Texas A&M University System.

Factors to consider are the driveway, patio, grading, retaining walls and screen fences. Under average conditions, the landscape budget should be 10 to 20 percent of the cost of the house and lot. This estimate does not include features such as a swimming pool or tennis court.

All too often the house design is chosen with no thought as to the lot on which it is to be located, notes Janne. Consequently, many valuable and irreplaceable trees and other landscape

features must be removed to make room for the house.

The ideal procedure is to plan the house and landscape as a unit before construction begins. Design the house to fit the site, with a minimum of grading or cutting and filling of soil. The less the site must be changed, the better use one can make of existing features and still achieve unity in the total landscape design, says the horticulturist.

Other factors that should be considered when developing the site are views, topography (surface features), seasonal wind directions, sun angles, legal building restrictions and space usage, both inside and outside the house.

With coordinated planning of the house and lot, the destruction of existing beauty can usually be eliminated and money can be saved, says Janne.

Mrs. Tillman Davis, sister of O.D. West, died in Abilene last week and services were held there.

Super Supper For A Single

CHICKEN WALDORF SALAD

- 2 to 4 tablespoons mayonnaise
- 1 teaspoon sugar
- 1/2 teaspoon lemon juice
- 1 apple
- 1/2 cup diced cooked chicken
- 1/2 cup diced celery
- 1/4 cup Baker's Angel Flake coconut, toasted
- 1 small carrot, cut in thin strips

Combine mayonnaise, sugar and lemon juice in bowl. Cut half the apple into slices; set aside. Dice remaining apple. Stir in diced apple, the chicken, celery and 3 tablespoons of the coconut into mayonnaise mixture. Serve on crisp spinach leaves or other salad greens with carrot sticks and reserved apple slices. Makes 1-1/2 cups or 1 entree serving.

Final tax payment is due soon

Taxpayers must pay by January 16, 1981, the final installment of estimated income tax if they did not have enough 1980 Federal tax withheld or if their amended income Estimates for 1980 changed substantially during the last quarter, the Internal Revenue Service says.

The one exception to this rule is for taxpayers who file their returns to pay all taxes due by February 2, 1981, according to the IRS.

Generally, taxpayers must file estimated tax if their tax is expected to be \$100 or more and if they have more than \$500 in income not covered by withholding.

For additional information, taxpayers may order the IRS free Publication 505, "Tax Withholding and Estimated Tax," using the order form in the tax package. The publication can be ordered by calling the IRS forms/tax information number listed in the local telephone directory.

SHOP AND SAVE IN OUR GREATEST JANUARY SALE!

Maddoux services in Abilene

Funeral services for Mr. H.W. (Herman) Maddoux, 79, of 325 Fannin St., Abilene, Texas, were held at 2:00 P.M. Friday, in the North Side Baptist Church, with burial in the Cedar Hill Cemetery under the direction of Elliott - Hamill Funeral Home of Abilene. Grandsons served as pallbearers.

Mr. Maddoux died at 4:50 A.M. Thursday in Hendricks Medical Center after a brief illness.

Born August 6, 1901, in Crockett Texas. Mr. Maddoux resided in Ozona for several years before moving to Abilene in 1959.

He married Merrie Imogene Houston on March 24, 1926, in Paint Rock.

He is survived by his wife; a son, Howard of Houston, three daughters. Mrs. Armond (Sue) Hoover Jr. of Ozona; Mrs. Tyline Rutherford and Mrs. Nancy Birmingham, both of Lubbock; five brothers; Bill of Uvalde, Clinton of Eden, Lois of Eola, Carl of Odessa and Gerald of Midland; two sisters, Velma Nasworthy of Crockett and Beatrice Shrum of San Angelo; eight grandchildren and four great-grandchildren.

MELINDA HOKIT

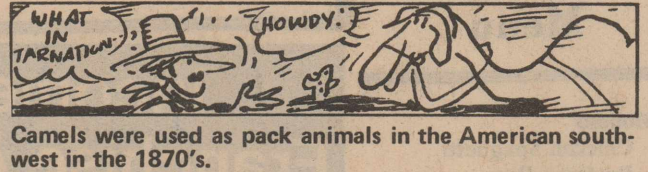

Miss Hokit to enter pageant

Miss Melinda Sue Hokit, age 18, of Ozona, has entered The Miss Rodeo Texas Pageant, which will be held Jan. 14th thru 18th in San Antonio. Melinda is entering the pageant under the title of Ozona Jr. Rodeo Queen and is being sponsored by the Ozona Lions Club.

Over 40 contestants are expected to enter the pageant and the winner will receive a hand made saddle from Ryon's Western Store of Ft. Worth, Gold and Silver Buckle from Nelson-Silvia; chaps from The Rodeo Shop in Ft. Worth, spurs from Ed Sims Spur Co. of Uvalde,

\$1,000 scholarship, suits from D-J; Panhandle Slim & Lasso. Hats from Bailey and Resitol. Boots from Tony Lama, Larry Mahan, Justin and Nocona. Jeans and shirts from Wrangler. Comfy Coat from Comfy Coat Company.

With these items she will receive a GMC pickup from San Antonio Truck and Sales and a Kay Leu trailer, these will be hers to use during her year of reign. The winner will travel throughout the state to promote rodeo and western events. In December she will travel to Oklahoma City to compete in the Miss Rodeo America Pageant.

Camels were used as pack animals in the American southwest in the 1870's.

PBPA energy report

The federal government is trying to have the courts dismiss the lawsuit filed against the Windfall Profits (Excise) Tax. The government claims the Wyoming District Court has no jurisdiction because of the doctrine of sovereign immunity. That means the government hasn't granted permission to be sued. Second, the government says no refund was claimed by the plaintiffs nor denied by the IRS. And, third, Federal law prohibits

declaratory judgements or injunctions in tax suits. The State of Texas has filed as a friend of the Court against the tax. We'll keep you posted on further developments in the case.

The governments in England and Canada are following in the footsteps of the United States and have imposed taxes and restrictions on the oil industry. England slapped a 20% tax on gross revenues from North Sea production. The government has also made six changes in the Petroleum Revenue Tax in the last 18 months and all of the changes have hurt the oil industry. In Canada, there will be 50% less exploration money available in 1981 than in 1980, up to 4 billion dollars will be spent by Canadians in the United States rather than in Canada, and some 20,000 jobs will be lost because of government energy policies. You would think that the politicians in Canada and England would have learned a lesson from our disastrous energy policy of the last 25 years, but I guess they'll have to learn for themselves.

Flu season to peak

If you're suffering from a fever, coughing, sore throat, runny nose, and generally just ache all over, guess what you have? January marks the beginning of the peak influenza season, so brace yourself to ward off or weather the attack says the Texas Medical Association (TMA).

Anyone can come down with the flu, especially if it is widespread in a community. It is more likely to be serious for those with chronic diseases, the aged or women who are pregnant.

The flu usually takes one to three days to develop. When it does come out into the open, you may notice chills, fever, headache, backache, muscular pains and a loss of appetite. Your temperature may go up quickly during and first day of symptoms, and will gradually drop over a few days. Fever usually lasts for about three days, but it may go on for as long as seven.

As your fever drops, you may notice more stuffiness in your nose and the cough may continue. There might also be a pus in the discharges from your nose and throat. From that point on, however, you'll begin healing quickly.

While most patients recover completely within a week, many continue to feel unusually tired for some time. The standard remedies of getting plenty of rest, drinking fluids and taking aspirin still hold true says the TMA. Hot chicken soup coupled with tender loving care couldn't hurt either. In most cases, the flu leaves no permanent after effects, but occasionally, people do develop other illnesses. The most common complication is pneumonia. Other sicknesses that piggy-back the flu are persistent cough or bronchitis, sinus trouble and ear infections.

Solution to teenage pregnancies

Something can be done about the high rates of teenage pregnancies, says Betty Jo Smith, a family life education specialist.

Improved and expanded sex-education classes and the appropriate use of contraceptives could greatly decrease the problem, even though many other factors contribute to high rates of teenage pregnancy, the specialist explains.

Dr. Smith is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Looking at the "why's" connected with teen pregnancies, current home economics research on the subject is, at the same time, suggesting some answers, Dr. Smith says.

In a study examining sex education and the knowledge of pregnancy risk among teenage females, several facts surfaced.

Seventy percent of the females ages 15-19, who had never been married, had taken a course on sex education.

Of those having a sex-education course, more than 90 percent had been instructed about the menstrual cycle and venereal disease. Seventy percent had been instructed on contraceptives.

When the students were

asked if they knew which period in the menstrual cycle afforded the greatest risk of pregnancy, 60 percent claimed to know which period. However, when tested, only one-third of the students could correctly identify the time when risk of pregnancy is greatest.

These findings are particularly important because many teenagers say they do not use contraceptives since they think they are protected by the time of month they have intercourse, Dr. Smith adds.

Other research shows that teenagers ages 16 and 17 delay using birth control for an average of six months after they become sexually active. Teens ages 15 and younger wait even longer - for an average of one and a half years after they become sexually active.

So, current research seems to indicate two factors that contribute to a high incidence of teenage pregnancy are:

1) postponement of using contraceptives until several months after the teen has become sexually active and

2) lack of knowledge concerning menstrual flow and the period when risk of pregnancy is greatest.

These findings suggest a need for improved and expanded sex-education classes.

Sutton Services

Funeral services for Mrs. J.C. (Norma) Sutton, 59, mother of Jeffrey Sutton, were held Sunday in Menard. Mrs. Sutton died at 6 p.m. in Menard hospital after a short illness.

Mrs. Sutton, a lifetime resident of Menard County, was born January 20, 1921 in Menard. She was married to J.C. Sutton April 16, 1938, in Menard. He died in 1959. She was a rancher.

Other survivors include a daughter, Jetty Sutton of Lubbock; two sons, Jeffrey of Ozona and Quade Sutton of Sonora; her mother Mrs. Lela Bradford of Menard; and three grandchildren.

A NEW MACHINE

The first new type of rotating electrical machine to be invented in the 20th Century is credited to the Center for Electromechanics at The University of Texas.

The invention - a computerized pulsed alternator (compulsator, for short) - can store large amounts of kinetic energy and deliver it in high-powered bursts of electrical energy.

It can be used to replace large and expensive capacitor systems in supplying the energy needed for laser fusion research where energy requirements call for millions of watts of power in pulses of less than a thousandth of a second.

Pender service in Coleman

Funeral services for Mrs. Mary Pender, 83, will be held this afternoon in Henderson Funeral Chapel with burial in Coleman City Cemetery.

Mrs. Pender died Monday morning in Overall-Morris Memorial Hospital in Coleman after an illness.

A resident of Coleman since 1912, she was a resident of Crockett County Care Center until moving back to Coleman three months ago.

Survivors include a sister, Mrs. Lillian Preas of Brownwood; four brothers, R.C. Davis of Hale Center, Tom Davis and Henry Davis, both of Coleman and Bill Davis of Ozona.

Crockett County Care Center News

By Mary Wilton -Director of Activities & Social Care

Maude Pettit was the first place winner in dominoes this Monday morning and Bertha Miller won second place. Also playing were Paul Cavin and Evelyn Bryant.

Tuesday almost everyone was seated in the lobby to watch the TV as Ronald Reagan took the oath of office as the 40th president of the United States.

Frances Borrego and Juana Hernandez, with the help of Grace Dorsey and Dorothy Doll, were busy decorating soap boxes. Some of them have butterflies, others have animals or frogs and snails. They all turned out real cute and are now on display in the showcase that is located near the nurses station in the lobby.

Thanks to Dorothy Doll, Hortensia Ybarra and Orphella Enriquez for coming Tuesday afternoon to help with bingo. It seemed to be Juana Hernandez's lucky day as she was the winner of three games. Paul Cavin and Leona Harris both won two games.

"Honest With God," from Grit magazine, was read in Bible study on Wednesday morning. We also read about Jonah and had a good discussion on how important it is to do what God tells you.

Thanks again to our volunteers who come every Thursday morning to set hair, Hazel Storms, Maria Vitela,

Ruth Dorris and Dorothy Doll, they really do a great job.

The movies this week were "Woff Woff" and "Foxfire." Thanks to the Ozona High School Library for their help in getting these movies for us.

Willie Tooke sent us two jars of popcorn to be used on Friday mornings when we play bingo. It seems as if the games are enjoyed more if there is fresh hot popcorn to munch on.

Mrs. Oran Zeisler brought by a large sack of craft materials that will be used on Tuesday morning.

Mrs. Myrtle Post brought us a beautiful Ideals magazine. It will be used in reading & crafts.

While Liz Mary Pipes and Annabell Patrick were busy making popcorn, Georgia Kirby, Alice Ross, Dorothy Doll and Hortensia Ybarra got the tables and cards ready to play bingo. Ann Mayo came in to help out as the playing began. Winner of the gift certificate, donated by the Teacher's Store, was Juana Hernandez. There was a playoff between Paul Cavin and Leona Harris for second place. Paul came out the winner and was given a pair of dress socks and a bottle of Avon after shave lotion.

Around 4:00 in the afternoon Sara Hignight came to play the piano and sing for us. Everyone enjoyed the good entertainment. Vera Miller, Louise McWilliams, Virginia Russell, Paul Cavin and Maude Pettit sang along as Sara played some of the songs of yester-year.

T.K. O'Bryant gave us ten craft books. These will be a big help as we are always in need of new ideas. Anyone wishing to help with our crafts is more than welcome to come on Tuesday mornings at 10:00.

The Church of Christ was in charge of the Sunday afternoon church services held in the lobby.

Girl Scout cookie sale underway here

What has become an annual American tradition continues in our community-Girl Scout cookie sale began January 23 and extends for two weeks.

This year, seven cookie and cracker varieties will be

Robin Jones Memorials

Mr. and Mrs. Demp Jones in memory of Mrs. Walter Capps and Mrs. J.C. Sutton.

Mr. and Mrs. Roy Pearson in memory of Mrs. Vivian Clayton and Mrs. Mary Jess Childress.

Memorials Chairman Mrs. J.J. Marley

KITTY'S KORNER

(Cont'd From Pg.1)

weekend of balmy temperatures with a high of 78 here Sunday. A front blew in Monday with a preview of the March winds and cooled things off a bit, but Tuesday dawned bright and sunny and at 4:30 the temperature was 69 degrees, with even warmer forecast for Wednesday.

Cubettes take second

The Eighth Grade Ozona Cubettes took second place at the Big Lake Jr. High Basketball Tournament last weekend.

Friday they played Sonora and won 20-16. Tracy Cole was high point with 8. Others scoring were Teresa Lee, Christy Parks, Marla Wilson, and Dina Flores.

Saturday the Cubettes lost to Eldorado by a score of 23-21. Teresa Lee was high point with 8. Others scoring were Tracy Cole and Marla Wilson.

available. El Camino Girl Scout members will be taking orders door-to-door, at fixed points around town, and over the phone at the council office.

Since 1936, cookie sale funds have helped neighborhood girls participate in national and international Girl Scout events, to purchase equipment and property for camperships and other council and troop activities.

Every penny earned by the cookie sale remains in our council to be used for Girl Scout programs and activities.

Supporting your local Girl Scout Council can be a delicious experience-especially when you use Girl Scout cookies in your dessert recipes.

Boxing team competes

The Ozona Boxing Team fielded three winners in a tournament Saturday night in San Angelo. Marcello Hernandez, George Lara and Armanda Lara were the winners.

The team will enter a tournament Saturday, Jan. 31, in the Colorado City High School Gym. The tournament starts at 7:00. Saturday night winners will advance to the finals Sunday.

Boxing coaches are Coy Tambunga and George Ybarra.

Brucellosis meeting is scheduled

There will be a meeting at the Civic Center Tuesday, February 3, on the Brucellosis Control Program. Three doctors will be on hand to make presentations and answer questions.

Dr. Nelson Adams will discuss the disease and its spread. Dr. Obie Oliver will discuss the Regulations and Dr. Gary Vannoy will discuss "What Can We Do on Local Ranches?"

Following the presentations the three men will serve on a panel to answer questions pertaining to the disease, regulations, and control.

Lionettes win one, lose one

The Ozona High School Lionettes won one and lost one last week in district play to finish the first half 3-3.

Ozona was victorious over Junction last Tuesday night 28-27. The Lionettes trailed the first half but came back to lead by 1 point going into the 4th quarter. Junction was ahead 1 point with 20 seconds left in the game. Ozona had the ball at their basket and Lana Cole made a basket from the free throw line with 5 seconds remaining to win the game. Lori Clayton was the leading scorer for the Lionettes with 11 points.

Friday night the Lionettes could not get things going and lost to Menard 25-28. Lori Clayton was a gain high point with 8 points.

Museum Memorials

BET YOU DIDN'T KNOW

By Jerry Lay
To appreciate how much better a scorer Wilt Chamberlain was than any other man who ever played basketball, consider this. In the entire history of pro basketball, nobody has ever come within 4 thousand points of Chamberlain's record total. Wilt scored 31,419 points in his pro career. The next closest player on the all-time list of scorers is Oscar Robertson who finished with 26,710.

Oddly, at one time last season, on the roster of the Cleveland Cavaliers of the National Basketball Association, more than one-third of all the players had the same last name. NBA teams carry 11-man rosters, and Cleveland had 4 players named Smith - Randy Smith, Elmore Smith, Willie Smith and Bingo Smith.

Here's an amazing fact. When third baseman George Brett hit .390 for Kansas City last season, that marked that highest batting average for a regular third baseman in major league baseball in 81 years, or since John McGraw hit .391 in 1899.

I bet you didn't know... L-B Motor Co. will be glad to show you the new cars and pickups we have on show. So come on by and see our selection.
