WEDNESDAY, AUGUST 19, 1981

NUMBER 25

Classes start Monday

Teachers were in classrooms Monday and are attending in-service training in Sonora, this week, before the opening of the first day of school Monday.

Registration has been completed at all schools, but figures will not be released until classes are over Monday. School officials believe most high school and junior high school students have pre-registered, but expect many more students to register Monday at the primary and intermediate schools.

High school and junior high school classes will take up at 8:00 a.m. Monday, and dismiss at 3:28 p.m. High school students will have assembly in the auditorium immediately after the bell rings Monday morning.

Classes begin at 8:05 at the other schools.

Center to honor volunteers

Volunteer Appreciation Night will be held at Crockett County Care Center Friday, Aug. 21, at 7:30 p.m. to give residents and their families an opportunity to thank volunteers for their help during the year.

An informal ice cream party has been planned for the event, and volunteers will have an opportunity to meet the Volunteer Coordinator of the Texas Department of Health, Barbara Eisler, of Abilene.

Local volunteers assist in the bingo sessions, the monthly birthday party, daily and weekly hair care and all holiday parties. They render an invaluable service to the residents of the center. The Friday night party will be a special "thank you" from the residents and personnel at the center.

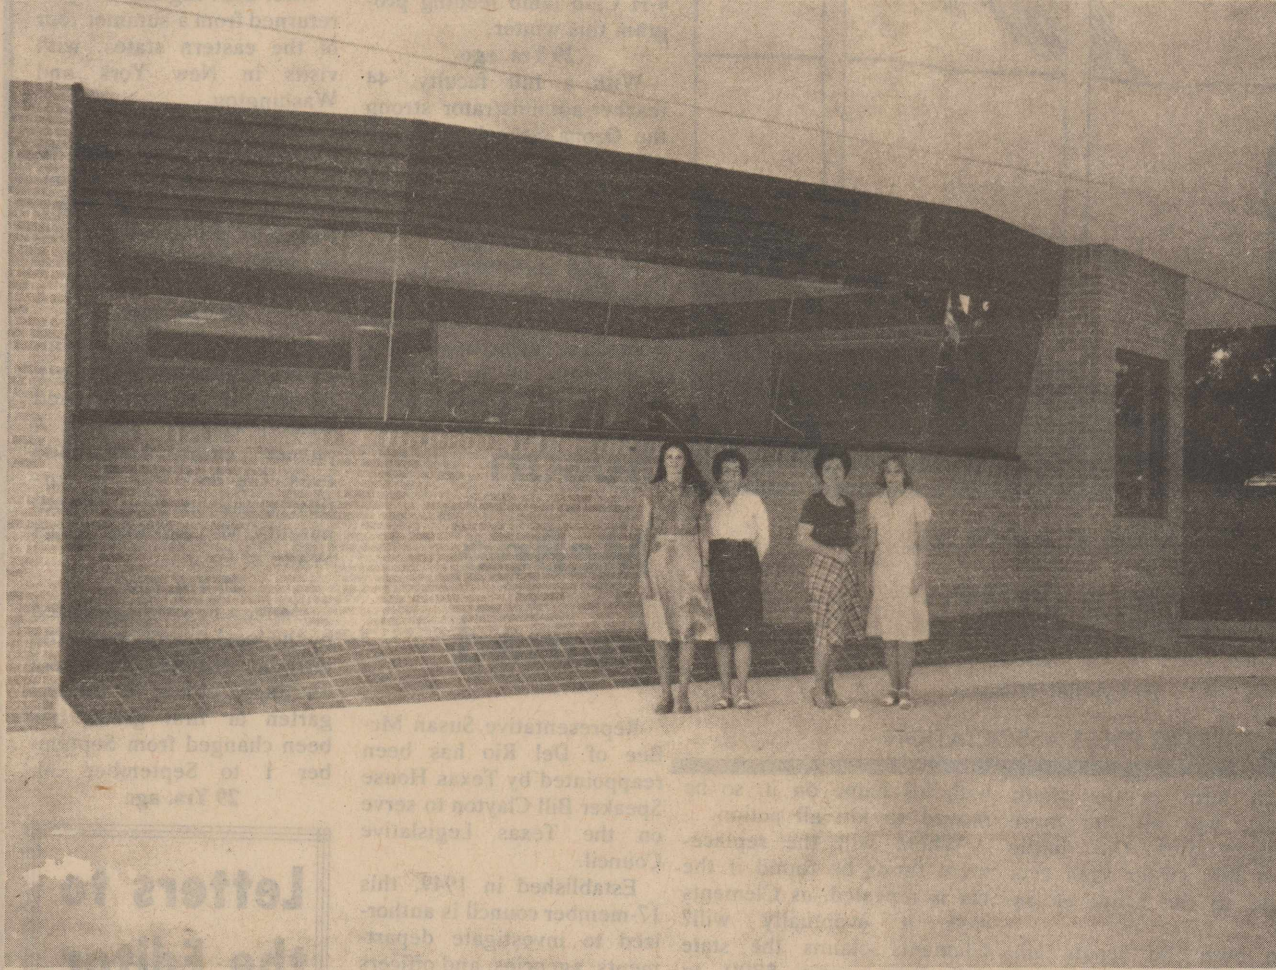

Southland Royalty to drill

Southland Royalty Co., Midland, will drill the No. 1 University "13", a 7,100-foot wildcat in Crockett County, 3/4-mile west and slightly south of the shallow Howards Draw oil and gas field, three miles north of the opener and lone producer in the Howards Creek, North (Pennsylvanian gas) field and the same distance from Pennsylvanian gas in the Howards Creek multipay field, 20 miles west of Ozona.

Location is 660 feet from the south and east lines of 13-30-ULS. International Oil & Gas Corp., Midland, will drill the No. 2 L. B. Cox Jr., a 10,300-foot wildcat, 1,482-feet south of its No. 1 Cox Jr., third producer and a 4 1/2-mile east extension to the Dudley (Devonian gas) field, 1 3/4 mile south-southeast of the two-well Dudley, East (Devonian gas) field, and 23 miles west of Ozona.

Location is 1,418 feet from the south and 987 feet from the east lines of 29 1/2-2-I&GN.

The No. 1 Cox, Jr., drilled as a wildcat to 10,075 feet, was finished Aug. 6 for a calculated, absolute open flow of 7,300,000 cubic feet of gas daily, through perforations at 8,874-9,093 feet.

NEW BANK READY AND WAITING for the grand opening, set for Monday. Completed last week, Ozona National's new motor bank will feature all the conveniences and services of the most modern drive-in banking facility.

The community is invited to inspect the new facility during the open house Monday. The ribbon-cutting is scheduled for 9:00 a.m.

Monday opening set for Ozona Motor Bank

Ozona National Bank will open its new motor bank Monday with ribbon-cutting ceremonies scheduled for 9:00 a.m. The new facility,

recently completed at the corner of 12th Street and Ave. E. will hold open house until 5 p.m. with refreshments served in the lounge

area. Letha Loudamy is the banking officer in charge of the drive-in bank. Pat Cain, Johnny Rae Chapman and Paula Crouch are the other members of the staff. They will be on hand Monday to introduce Ozonans to the operation.

The bank has five customer lanes, one commercial lane and a walk-in lobby for personal transactions. It will be open Monday through Friday from 8 a.m. until 5 p.m., including the noon hour. The five customer lanes are equipped with speaker and transport consoles, which are automatically operated from inside the bank by one of the personnel. The customer drives up along side the console and the teller activates the console from inside the window. Transactions are made by placing check, or cash in a cylinder, which is sent to and from the console by the push of a button inside the bank.

Services offered include cash transactions and deposits, savings transactions and deposits, note payment by check and a night depository.

The glass and steel structure features bullet-proof glass and vault security. Transactions by way of the cylinder are automatically sent to and from the bank underground by the push button action inside the building. Customers will drive into the facility from 12th Street and exit onto Ave. E. The commercial window features drive-through service, and there is a large parking lot on the north side for customers who wish to go into the small but adequate lobby for personal business.

The new motor bank is the first step in major construction to enlarge the bank. There is a scale model in the lobby of Ozona National which gives customers some idea of what the completed project will look like. Another story will be added to the present facility, which will give the bank almost twice the space it now occupies.

Critical time for pecan development

The last part of July and the month of August are critical times for pecan nut development. The water stage occurs at this time and any stress will likely cause

immature pecans to shed. The county agent has already had calls concerning "August Drop."

One of the main causes for pecan drop is moisture stress. The water that pecan trees receive from lawn irrigation is seldom sufficient for tree and nut crop requirements. Filling a shallow basin around the trunk of the tree at weekly intervals will also not satisfy moisture requirements.

Homeowners should apply enough water to soak the soil at least 2 to 3 feet beyond the dripline. This deep watering should be done at 7-10 day intervals. The deep watering in conjunction with required lawn irrigation will help pre-

vent moisture-stress induced nut drop. Pecan trees that are under ideal management may also exhibit some shedding. This may be considered the normal response of a healthy tree to prevent an over-cropped situation.

Insect problems may also cause pecans to shed so homeowners want to watch for the new generation of fall webworms and walnut caterpillars that are hatching now. Now is the time to control them before they do the damage and hurt the appearance of the tree. Sevin or Dipel are recommended.

About the middle of the month, Zalone R applications to control hickory shuckworm should be started. Also, we have some pecan weevils and Sevin is recommended for their control when the developing kernel enters the gel or dough stage usually in late August.

Rule changes for free school meals

New regulations for the Federal Lunch Program have been issued this year and there are several changes for families applying for free lunch or reduced lunch prices for their children who are students in Ozona schools.

The income poverty guidelines range from \$5,600 for a family with one child to \$18,160 annually for a family with eight children on the free lunch program. A family may qualify for reduced price meals at other levels of income and number of children.

The application for free or reduced price meals now

requires the name and social security number of all adult family members. Adults without social security numbers must indicate they do not have one. Proof of current family income must be given and schools may verify the source and amount of income as well as household composition.

Those who do not agree with the school's decision have a right to a fair hearing, and may contact the superintendent for further discussion.

The new regulations also cut out the special milk program. Extra milk will be 20c per half pint.

Board asks for lower tax rate

The Crockett County School board of trustees recommended a tax rate, approved the official 1981-82 budget, leased some school land for oil and gas and set cafeteria prices among other business at the regular meeting this month.

The school budget approved by the board for the coming year is up by 13% but due to increased valuations for tax purposes, the board was able to recommend a lower rate to the county court. The board voted to recommend a tax rate of forty-two cents per \$100 valuation to be set for local maintenance and nine cents per \$100 for interest and sinking fund. This would be a total tax rate of fifty-one cents, and a 7% decrease in last year's rate, which would be a saving of 9.5c per \$100 valuation to the tax payer for school taxes.

Only one bid was received for the 17.7 acres of school land for release for oil and gas. The lease went to Williams Enterprises of Ozona. The proposed lease agreement will be reviewed by the school's attorney, Bill Mason, before it is signed by the President of the school board. Five members of the board voted "for," one against and one abstained.

The official budget for the coming year was approved and the amended budget for this year was approved as required. The fiscal year for the school budget begins September 1.

New cafeteria prices were approved. Lunch prices will be 70c per child in grades kindergarten through fifth; 85c per lunch for grades 6 through 12 and \$1.20 for adult lunch. The reduced lunch price was set at 40c. Breakfast will be 40c paid, and 20c on the reduced breakfast program.

Before adjournment the board agreed to accept the low bid of \$3,039, from Air-Dynamics, Inc. of San

GUIDES AVAILABLE Texas fishing and hunting guides for 1981-82 are available at no charge at the Chamber of Commerce office.

Angelo, to install a new air-conditioning system in the administration building.

and to set the September regular meeting September 15.

School to conduct home language survey

As a result of court order 5821 from Judge William Wayne Justice, the Ozona school system will be taking a home language survey this year. The survey sheets will be sent home with students.

The parent or guardian of students in kindergarten through eighth grade should fill out and sign the survey sheet. Students in ninth through twelfth grades may complete and sign the form themselves.

Superintendent Foy Moody emphasized the court order required the school to make the survey, but parents

and students are under no obligation to return it.

There will be two questions on the survey sheet: "What language does your child speak most of the time?" and "What is the primary language spoken at home?" If Spanish is the answer in either case, the student will be given an English proficiency test to determine if he or she is English-speaking. However, if a Spanish speaking student has scored above the 40 percentile on a language achievement test within the past four months, the test will not be given.

4-H horse show set for Saturday

The Crockett County 4-H Horse Show will be held Saturday, August 22, according to Billy Reagor, County Extension Agent.

The show will get underway at 5:00 p.m. with a showmanship class. Performance classes will follow with 3 age divisions—senior, junior, and under 9. A hamburger supper will be served before the roping events begin.

Following the completion of all events, awards will be presented. Ribbons will be awarded in each class and belt buckles will be given to both junior and senior boy and girl all-around winners and runner-ups. Buckles are donated by Mr. and Mrs. Eugene Miller.

Committee members are: Preston Faris, judge; Jim House, announcer; Nancy Hale, bookkeeper; Susie Black, Alena Faye Hokit & Wanda Bunger, time keepers; Joe Everett, livestock;

Doyal Lovell, gate; Eddie Hale and Ex 4-Hers, flag men; Susie Everett and Gloria Bishop, concession stand and supper; Floyd Hokit and Dee Kellers, cooks.

Heavy rains miss Ozona

The heavy rains and cloud-bursts which have drenched most of the area and much of the county missed Ozona and only .66 of an inch of rain had been recorded here at mid-afternoon Tuesday.

Over 4 inches had fallen in Sonora, and up to 3 inches of rain had fallen in the south part of the county over the weekend and through the early part of the week. Highway 163 was closed due to high water Monday at Juno and Mayfield Store.

NEW LOCATION FOR TOY STORE-The Happy Hollow, owned and operated by Ruth Seahorn and Margaret Miller, opened last week in the new location, the Perner building next to Baker Jewelers in downtown Ozona. The store is

being stocked with new toys and dolls almost daily in anticipation of the Christmas rush. It features the most complete line of gifts for the younger set, this side of Dallas.

CHINA ARMS SALES OPENS POLICY DISCUSSION

By Edwin Feulner

With the return of Secretary of State Alexander Haig from his Peking mission came the announcement that the United States is now ready to sell military equipment to Communist China. The reversal of the previous U.S. stand — coupled with the administration's announcement that it plans to continue selling weapons to our Taiwanese allies as well — has many American policymakers looking more closely than usual at the policies under which the United States provides military assistance to other countries.

Prior to the administration's decision to sell "lethal weapons" to China, the Red Chinese had been limited to purchasing military support equipment and technology with civilian as well as military uses. The arms decision, as described by American and Chinese officials, is a growing effort of coordination and cooperation against Soviet Union expansionism.

Secretary Haig's controversial announcement has triggered a debate in the nation's capital over the role of security assistance in U.S. foreign policy. Former President Carter considered arms transfers "an exceptional foreign policy instrument" and said that in order to enhance world peace security assistance would be provided in only the most extraordinary cases; the policy turned out, however, to be ineffective.

As a result, Third World countries flocked to the Soviet Union and filled their military arsenals with Soviet-built arms. In fact, in a four-year period, from 1977-1980, the Soviets delivered some 41,000 weapons to Third World countries, compared to just 29,000 from the United States and all of the Western allies. That included tanks, self-propelled guns, artillery, armored vehicles, ships and submarines, aircraft, and surface-to-air-missiles. Consider also the reaction of Third World nations which were dependent on American arms sales prior to 1977, only to have their supply abruptly cut off; relations with friendly and allied countries were seriously damaged. The policy, despite the pious airs that surrounded it, was a failure.

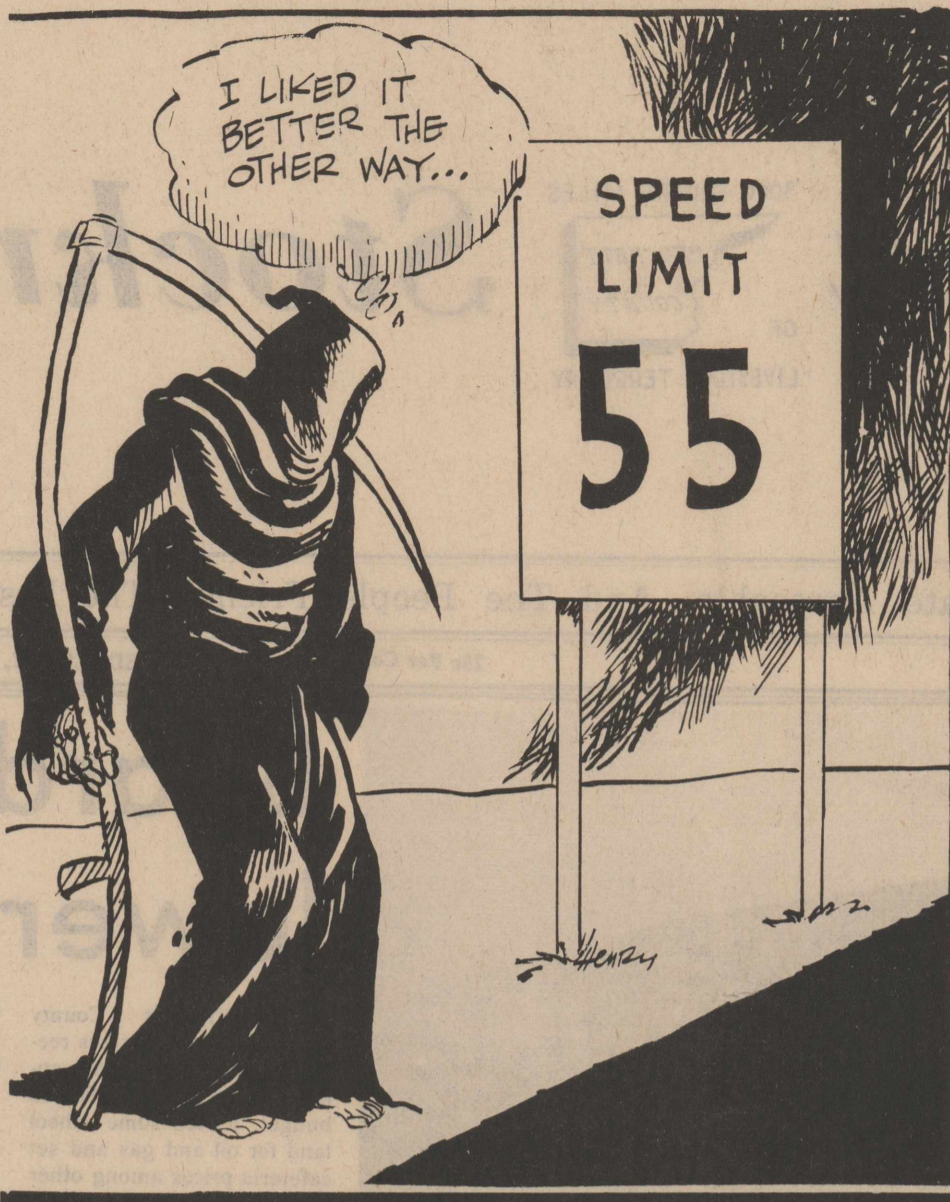

Instead of having some influence over the arms flowing into the Third World, and possibly how they might be used, the United States found itself with none. Moreover, the policy led to the production of conventional arms in other countries and perhaps indirectly encouraged Third World countries to embark on the dangerous path of developing nuclear weapons.

Those with a realistic world outlook know that arms transfers can be a very important component of overall U.S. policy — both as a substitute for direct U.S. involvement in a region, and as a signal to the Soviets and their guerrilla proxies, such as Libya and Cuba, that the United States stands firm.

Moreover, it must be remembered that in the grand scheme of things, military assistance provides major benefits to the United States at minimum cost.

The Reagan Administration is reversing the original Carter approach, and with that reversal, comes the hope that military assistance can be used effectively for larger foreign policy purposes, in addition to helping countries threatened by Soviet aggression.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research institute. Research assistance for this column was provided by Denise Patton, a summer intern at Heritage.)

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—The first special legislative session ended last week with only one issue left unresolved... but Gov. Bill Clements immediately served notice he intends to call a second special session soon.

He wants to hold legislators' feet to the fire until they vote right on his pet issue: repeal of the state ad valorem tax.

The most important issue of the special session, congressional redistricting, was approved by the Legislature only two days before adjournment.

In the end, the Legislature narrowly approved a compromise plan by House Speaker Billy Clayton after a long, complicated, partisan struggle. Clayton claims his plan gives Republicans only six seats in Congress, his opponents claim it actually sets the stage for nine seats.

For Clayton, now a lame-duck speaker finishing his

fourth term in the chair, victory was all the more sweeter after the battle drove him closer than ever before to the brink of defeat.

In both the Senate and the House, the plan was passed by only a one-vote margin on the crucial votes. Three times in a row, the crucial House vote was supplied by the Speaker himself before the tide was turned.

Clayton found himself pitted against a new Democratic coalition which was led, not by his old foes the liberals, but by conservative Democrats who have long stood by him: Bob Bush of Sherman, Carlyle Smith of Dallas, Gerald Hill of Austin and Don Rains of San Marcos. Democratic party chairman Bob Slagle has been active and influential.

In defending his compromise plan, which had the strong support of Republican Clements, Clayton was not understood by the Democrats.

In fact, they have fielded a Speaker candidate in Carlyle Smith to run against Clayton's heir-apparent, Gib Lewis of Fort Worth.

Ad Valorem Tax

On the final day, the Senate gave the House leadership and Clements a choice: either lower the 10-cent ad valorem tax to 3 cents, or watch the whole issue sail out the window. The leadership chose to watch it sail, and with nothing else to do, adjourned early in the day.

In short, the Legislature did not repeal the ad valorem tax.

To give a short recap, early this session the House passed a proposed constitutional amendment by Killean Democrat Stan Schlueter which repealed the tax, but the Senate, led by Pete Snelson of Midland, was reluctant to follow suit. Revenues from that tax are dedicated to construction at 17 state colleges and universities, which would be left without any source of money.

Clements would not allow the Legislature to consider alternative ways of funding those schools this session, but he might include it in the next session.

Snelson amended Schlueter's bill to lower the tax to three cents and sent it back to the House with only half a day left. Schlueter wasn't about to pass out a tax bill

with his name on it, so he moved to kill all action.

Where will the replacement funds be found if the tax is repealed, as Clements says it eventually will? Clements claims the state will have some \$700 to \$800 million in surplus revenues which could be channeled to college construction.

Bullock Says No

The Governor's statement last week drew a prompt dispute from Comptroller Bob Bullock, who said there is no \$700 million surplus.

Bullock, who oversees the state's tax revenues, said he had not discussed the subject with Clements and wondered where the Governor got his information.

Clements explained he was talking about a surplus at the end of this biennium, August 31, calculated by his Office of Budget and Planning.

Political Candidates

The season is arriving for prospective political candidates to lay their plans on the table, and some indications are already in.

Secretary of State George Strake, a Houston oil man, said he plans to run for lieutenant governor against incumbent Bill Hobby. Hobby will seek re-election and has already knocked the dust off his organization.

Strake's election would give Republicans a lock on the top two state offices, if Clements were re-elected.

Running for Agriculture Commissioner will probably be Rep. Pete Laney of Hale Center, a close associate of Clayton's. Incumbent Reagan Brown will probably also be challenged by Jim Hightower, who lost a Railroad Commission race two years ago.

Dallas Republican Congressman Jim Collins will try to unseat U.S. Senator Lloyd Bentsen, and former Dallas quarterback Roger Staubach has squelched all rumors he will run.

Still unannounced are the plans of Clayton, who up to now was thought to be eyeing the Land Commissioner's race against announced candidate Garry Mauro.

Clayton said he will come forth in four or five weeks, and his delay has set many to wondering if he really plans to seek another office, perhaps the State Comptroller seat now held by Bullock.

The Newsreel

A re-run of "The Ozona Story" as gleaned from the files of the "The Ozona Stockman"

Thursday, August 21, 1952
Considerable damage from fire and water resulted at the ranch home of Mrs. W.P. Seahorn, about 30 miles southeast of Ozona Tuesday night.

29 Yrs. ago
Mr. and Mrs. Sidney Moughon of Gilmer, Texas, are parents of a son, named Daniel, weight 7 pounds, 4 ounces, curly hair, blue eyes, big feet and the purtiest grandson ever. Grandparents, Mr. and Mrs. Evert White of Ozona.

29 Yrs. ago
Under a new ruling passed by the local school board, the birthday deadline for school entrance, either in kindergarten or first grade has been changed from September 1 to September 30.

Susan McBee named

Representative Susan McBee of Del Rio has been reappointed by Texas House Speaker Bill Clayton to serve on the Texas Legislative Council.

Established in 1949, this 17-member council is authorized to investigate departments, agencies, and officers of the state and to study their functions and problems, to make studies on selected topics, and to gather information for the use of legislature.

Additional duties of the council are to study revisions of state statutes without substantive changes, to draft proposed legislation, and to operate automated systems in support of the legislative process.

Card of Thanks

I would like to thank Dr. Carlisle, all of the E.M.T. personnel, the hospital staff, and all others involved in caring for me during my emergency on Aug. 5. I would also like to thank the many friends I have, who visited me during my stay in the hospital. Without friends to visit me and bring me all the beautiful plants and all the delicious food those five days could have seemed forever. I wish to thank everyone once again.
Vince Huffman 25-1tc

Thanks,
Paul Shacklette
Road Engineer 24-2tc

Sports Fans

I BET YOU DIDN'T KNOW

By Jerry Lay

Incredibly, a man once pitched a no-hitter in a professional baseball game even though a batter hit a double against him. How is that possible? Sid Monge, now with Cleveland, pitched a no-hitter in the Midwest League in 1971 although Hector Cruz got a double off him during that game. Cruz hit a double against the fence—but failed to touch first base on his way to second. Therefore, Cruz was ruled out and had the hit taken away from him. Monge allowed no other hits, and thus pitched a no-hitter even though he gave up a hit!

See if you can name this unusual husband-and-wife combination in sports. He was a home run king in baseball and his wife was a national champion in tennis. Who was this husband-and-wife combination? The husband was Ralph Kiner who led the majors in home runs in 1950, 1951, and 1952 the same years his wife, Nancy Chaffee Kiner, won various national women's singles championships in tennis.

I bet you didn't know... Now is the time to get the kids set for school with a new car or pickup from L-B Motor Co.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

Though vacation time and summer relaxation is almost over, another two months of more or less dry, hot weather is still in store, unless the usual pattern changes.

For this reason, this is a critical time for gardens and lawns, if they are not to suffer from neglect. Especially shallow rooted shrubs need plenty of moisture and mulch, so they can resist the coming cold weather. Too, they are forming buds for spring blooming. If leaves are looking yellow between the veins, apply iron chelates as a foliage spray or in the soil.

One of our most colorful shrubs are the crepe myrtles which are now in bloom in many yards. They like the summer heat, which seems to stimulate this popular plant to produce better flowers. They are easy to grow and have few insects, or disease problems. Heavy pruning after they are dormant in the fall will result in large flower clusters but fewer in number.

Start your root cuttings of most woody shrubs now to have them ready for fall or spring planting. Most evergreens and deciduous flowering shrubs are commonly propagated this way. Tip cuttings should be 4 to 8 inches long with foliage removed from the lower half of each cutting. Insert the cuttings 3 or 4 inches apart in a well drained rooting medium of sand, soil, peat or a mixture of these. Keep cuttings moist but not wet in a shaded location. After 6 weeks examine cuttings for a callous formation at the cut area. Rooting should occur about a month after a callous forms. Place rooted cuttings in containers until they are the desired size to plant. One August task is to remove dead blooms stalks from daylilies. The best way to remove is to pull sharply on them and they will come up neatly from the crown. If you grow pansies, the seed should be planted this month in moist soil.

Arthur Phillips is undergoing therapy in Shoal Creek Hospital in Austin. He is in room 604. He expects to be there two more weeks.

Back to school fashion tips

Clothing for children going back to school need not be expensive, says Nancy Brown, a clothing specialist.

When choosing back-to-school clothing, consider the child's preferences and activities, styling, fabric type and care factors. Also, pay special attention to choosing shoes, the specialist says.

Brown is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

In planning your child's school clothing purchases, remember that garment styling is very important to youth. They like to "fit-in" with the crowd which means wearing clothing similar to their peers. Therefore, observe what his friends are wearing, Brown advises.

Plan to take your child shopping with you. Prepare him for what you are looking for, too, before you go. When you do go shopping, shop for only him, as children get tired of shopping if there are many other tasks to be done, the specialist re-

minds. Make a list of specific items needed before you go. Also include the quantity needed.

Consider the child's growth patterns when deciding how many of each item to buy. Purchasing a lot of clothes he may grow out of in three months is expensive.

Also, consider purchasing two or three outfits that can be mixed and matched for a more useful wardrobe.

Evaluate what special activities the youth may be involved in, too.

If special clothing will be needed for each activity, consider these as a share of the clothing budget. Decide if parts of these garments could be worn with his regular school clothing for a wardrobe extender.

Unplanned expenditures such as special-activity items can wreck a budget. However, such clothing may be very important to the youth and should be planned for.

Choose styles and fabrics that will grow with the youth. Raglan sleeves, cuffs on pants, large hems in dresses

and tops are features that can add to the wear-life of a garment, the specialist says.

Knits, especially cotton or cotton/polyester, are easy to care for and have stretch for comfort.

Choose durable fabrics such as denim and corduroy to withstand children's abuse and repeated laundering.

Always take special care in choosing shoes, Brown advises.

Select at least two pair that can be interchanged for longer wear and comfort.

Have a reputable shoe salesman determine your child's size.

Then choose sturdy shoes that provide support.

Children should not wear hand-me-down shoes, because such shoes force children's feet to conform to the footprint already in the shoe, Brown says.

DUPLICATE BRIDGE

In Duplicate Bridge Club play Sunday at the Country Club, two couples tied for first and second, Mrs. Evert White and Mrs. Sidney Millspaugh, and Mrs. Robert Cox and Mrs. Tom Montgomery. Mrs. John Childress and Mrs. Gene Williams were third.

GIRL TO SADLERS

Mr. and Mrs. Mike Sadler are the parents of a daughter born August 4, in a San Angelo hospital. The little girl weighed eight pounds and seven ounces and has been named Jena Kay.

Grandparents are Mr. and Mrs. Bill Crowder.

Mr. and Mrs. W. F. Dixon attended commencement exercises at Tartleton State University in Stephenville, Sunday, where their son, Billy, received his B.S. degree in criminal justice.

Baileys and Hayes entertain bridge club

Mr. and Mrs. Bob Bailey and Mr. and Mrs. Jerry Hayes entertained the Supper Bridge Club at the Civic Center Friday night. A delicious meal of barbecued brisket, homemade hot rolls with

Ms. Mayfield hostess for bridge club

Mr. Jake Mayfield was hostess for bridge at the Country Club Thursday.

Mrs. Jake Short won high and Mrs. Gene Williams, second high. Mrs. Mayfield won the bingo.

Others playing were Mrs. Clay Adams, Mrs. Bob Bailey, Mrs. Kirby Moore, Mrs. Hillery Phillips, Mrs. Sherman Taylor, Mrs. Evert White, Mrs. Charles Williams, Mrs. Jerry Hayes, Mrs. John Childress, Mrs. Duane Childress, Mrs. Bill Mason, Mrs. Dick Kirby and Mrs. Brock Jones.

drink and dessert was rounded out with vegetable and salad dishes brought by members.

High score went to Mrs. Robert Cox and Mrs. Tom Montgomery, and second high to Mr. and Mrs. O. D. West. Mr. and Mrs. Joe Couch won the bingo and Mr. and Mrs. Rip Sewell, low. Prizes were scented candles in holders.

Others playing were Mr. and Mrs. Ted White, Mr. and Mrs. Bill Cooper, Mr. and Mrs. Dick Kirby, Mr. and Mrs. Evert White, Mr. and Mrs. L. D. Kirby, and Mr. and Mrs. Jim Dudley.

Debra Says

By Debra Price

The Fest of Fashion program will be an excellent way to update your fall wardrobe. Julie Pollard, instructor for Stretch and Sew will present the program Thursday, August 20th, at 10:00 and 7:30 at the Methodist Church. The program is free.

The Family Living Committee will meet the last week in August to plan the home economic programs that will be offered in Ozona during 1982. If you have ideas on programs you would like to have conducted in our community please give me a call.

With the hectic pace that we live, people are now looking for ways to relax. There are exercises that can help you relax and relieve tension. You need to be in a quiet environment and a comfortable position to do this exercise. This is all you do: Close your eyes, deeply relax all your muscles, beginning at your feet and progressing up to your face. Keep them relaxed. Breathe through your nose. Become aware of your breathing. As you breathe out, say the word "one"; in, out, "one", etc. Breathe easily and naturally. Continue for 10-20 minutes. You may open your eyes to check the time, but do not use an alarm. When you finish, sit quietly for several minutes. Do not worry about whether you are successful in achieving a deep level of relaxation. Maintain a passive attitude and permit relaxation to occur at its own pace.

BANANA SPLIT CAKE
1 stick oleo
2 cups graham cracker crumbs
Melt oleo and mix with crumbs. Spread in a 9x13"

pan.
2 sticks oleo
2 eggs
2 cups powdered sugar
6 bananas
1 (#2) can crushed pineapple

1 large carton Cool Whip
1 cup pecans, chopped
1 small bottle cherries drained

Mix oleo, eggs and powder sugar; beat for 15 minutes (BE Sure). Spread over crumb mixture. Slice bananas over this. Then add pineapple, Cool Whip, nuts and cherries on top. Refrigerate several hours before serving.

mustard; 1 1/2 teaspoons MSG or Accent. Lace on bamboo sticks and cook on out-door grill. Tastes wonderful!

Mrs. Clay Adams celebrated her seventy-fifth birthday over the weekend with an outing at Ft. Clark Springs, with her children and their families. Mr. and Mrs. Charles Garlitz and children of Midland, and Mr. and Mrs. Brock Jones, Jr. and children of Austin.

Calling All Homemakers

Brought To You By Brown Furniture YOUR OWN THING

The art of writing a book or painting a picture or patenting an invention are all very creative means of self-expression, which, unfortunately, most of us are not able to experience - but there is one place where you can be creative, where you can satisfy your self-expression and leave the "fingerprints" of your own special personality.

This is in furnishing and decorating your home where the most important ingredient is to do "your own thing", so that every item in every room, every color scheme and arrangement will express your own personality, taste and living habits.

This is equally true when you receive professional help which really is nothing more than using a professional to aid you in matching your personality with the things you select for your home.

The contents of your home or apartment should spell Y.O.U., or you and your family.

Never let your well-meaning friends or neighbors talk you into buying so called fashionable furniture styles which you do not like, or talk you out of what you really like best. Remember that the important thing is to be yourself and do "your own thing".

And also remember there is no place you can do it better than here. Come into **Brown Furniture Today!**

STANDING ALONE

Trees in a forest protect each other from the wind and sleet. They shelter the young saplings until maturity is reached, letting the warmth and energy of the sun filter through their branches to the forest floor.

A tree standing alone must defy the elements... must survive by the sheer will of nature to live. Yet its source of strength is no different from the source that nurtures the forest. God, who created a million forests, provides what one tree needs to stand alone.

Most of our life is lived close to each other. We share our blessings. We help one another in difficulty. But there are times when we find ourselves standing alone. In such lonely moments God provides the faith and courage we need.

This week, at worship, begin to draw on the Source of all strength.

COUPLES GOLF

Weekly winners in couples golf play at the Country Club were Larry and Carol Hensley and Billie Gene and Jack Baggett, first; tie for second between the team of Judy Justiss and Rick Webster and Katy and Dempster Jones and the team of Ella and Bill Clegg and Jeanette and Bob Bailey.

Closest to the pin on number 9 were Billie Gene Baggett and Larry Hensley.

Foreigners must report holdings

The Agricultural Foreign Investment Disclosure Act of 1978 requires all foreign owners of U.S. agricultural land to report their holdings, acquisitions, dispositions, leases (over 10 years) and

land-use changes to the Agricultural Stabilization and Conservation Service.

Foreigners are reminded that land owned before Feb. 2, 1979 should have been reported by Aug. 1, 1979. Those who have acquired or disposed of farmland since that time are required to report these transactions within 90 days. Those who fail to report or who are late in reporting face possible fines. At the end of 1980, USDA has assessed 1,950 penalties for late filings, amounting to about \$350,000.

Agricultural land is defined as any tract of more than one acre now in agricultural, forestry or timber production. This includes land in agricultural use when purchased as well, as land later converted to agricultural use. Interest means any right, title, or legal share of ownership in farmland, such as partnership, trusts, estates, or shares in a corporation that owns farmland. A farm operator, real estate dealer, bank, attorney, holding company, or other institution can file a report on behalf of foreign clients.

Nationally, foreign investors reported owning about 7.8 million acres or 0.6 percent of U.S. agricultural land at the end of 1980. USDA officials say the total acreage of foreign-owned agricultural land is too small to measure the impact on agriculture at the national level. The actual increase during 1980 was about 414,000 acres out of a total area of about 1.25 billion acres.

Here in Texas, land holdings by foreign investors for the same period totaled 440,431, land acquisitions 277,016 acres, and land dispositions 31,654 acres.

Mohair Council to meet

The Mohair Council of America will hold its summer meeting Thursday, August 20, at the Inn of the Hills in Kerrville. Registration is at 9:30 a.m., with the meeting scheduled to begin at 10:00. All directors, producers, warehousemen, buyers, and others interested in the mohair industry are welcome and encouraged to attend.

A special event has been planned for Wednesday night, August 19. The Texas Department of Agriculture is sponsoring a western style "Taste of Texas" meal. A social hour will begin at 6:30, with serving to start at 7:30 p.m. Following this, the members of the Eastern European Market Survey team will make a report of their trip results.

Several items of business will be conducted in the directors' meeting the following day. The audit will be presented, advertising programs will be reviewed and planned, producer programs will be discussed, as well as other matters that need to be presented.

All activities for this meeting will be in the convention area at the Inn of the Hills. Anyone needing reservations should contact the Mohair Council of America office (915-655-3161) or the Inn of the Hills (512-896-2300).

Royals to host tournament Sun.

The Ozona Royals will host a 4-team tournament which will end their baseball season Sunday, Aug. 23. Two San Angelo teams and a Big Spring team will participate. Action will get underway at 10 a.m. when the Royals play the San Angelo Reds.

A concession stand will be open, offering hamburgers, Cokes, sweets and other snacks. It will be open through all the games.

The Royals swept a double-header from the San Angelo Super Sports last week, 9-8 and 5-3. Hector Perez went to the mound for the Royals, but got knocked out by a first inning grand slam which saw the Sports go ahead 4-0. Jimmy Ortiz relieved the bottom of the first inning and held the Sports to 4 runs thereafter. Hector DeHoyos and Orlando DeHoyos homered for the Royals.

Richard Sanchez went the distance in the second game and struck out seven, for the win.

The Royals brought home the first place trophy from the South Side Lions 10-team tournament in San Angelo Saturday and Sunday. They beat Wall 16-0 in the first game as Hector Perez got a no-hitter. In the next game, they beat Reece-Albert 14-4, getting three

home runs in the first inning from Hector Perez, Hector DeHoyos and Ricky DeHoyos. Jimmy Ortiz got the

victory. Richard Sanchez pitched in the championship game for a 2-1 victory, and the championship trophy for

the second straight year. All tournament trophies went to Hector Perez, Richard Sanchez and Orlando DeHoyos.

Toxic collar study to be discussed

Studies in using "toxic collars" to help reduce coyote predation among Angora goats have been conducted since 1979 on a ranch near here.

The findings of those persons conducting the intensive studies will be the main topics at a Bosque County Angora Goat Field Day on Sept. 1 here and at the L.C. Howard Ranch.

"The toxic collar," says Dr. Dale A. Wade, "is just that, a collar containing a Compound 1080 solution and worn by a sheep or goat. An attacking coyote that bites into the collar is eliminated by the poison."

Wade, a wildlife specialist with the Texas Agricultural Extension Service and a co-investigator on toxic collar research in Texas, will be one of 10 field day speakers.

The event, open to the public, will begin at 8 a.m. in the Clifton Community Center, continue with a tour at 10:30 of the ranch, and end there with a Dutch-treat barbecue lunch and other talks.

Discussions will range from the financial losses by goat producers because of predation to the hazards and limitations of toxic collar research. Says Wade: "Because the Environmental Protection Agency is now reviewing the use and development of Compound 1080 as an experimental and operational predator control toxicant, the information to be provided at the field day is particularly timely."

EPA has already held informal hearings on 1080, July 28-29 in Denver and July 31 in Arlington, Va. EPA Administrator Ann Gorsuch now has to decide, says Wade, whether sufficient new information came out of the informal hearings to warrant formal hearings relative to registration and use of Compound 1080 for the protection of livestock.

Other speakers here will be L.C. Howard, Jr., Pres. Willard Still of First Security Bank at Cranfills Gap, and Guy E. Connolly of the U.S. Fish and Wildlife Service at Twin Falls, Idaho.

Meridian rancher Kenneth Radde will talk about how he uses goats to help control brush and improve rangelands for cattle.

Still other speakers will be Dr. Juan Spillet of the Texas Agricultural Experiment Station, Donald W. Hawthorne of the Texas Rodent and Predatory Control Service, and Dr. Milo J. Shult, Dr. Bob J. Ragsdale and Jack L. Groff all with the Extension Service.

Clifton is on Hwy. 6, 30 miles northwest of Waco. Persons wanting to attend the field day are being asked to register by Aug. 25 with Bosque County Extension Agent Norris Wuensche, Box 436, Meridian, Tex. 76665. Telephone number is 817-435-2791.

PBPA energy report

The Permian Basin again leads the way in Texas oil and gas production in 1980.

According to the Texas Mid-Continent Oil and Gas Association of Dallas, eight of the states' top oil and gas producing counties last year are in West Texas. Yoakum County was the number one oil county while Pecos County was by far the number on gas producer. Yoakum County produced almost 61 million barrels of oil and was followed by Gaines, Ector, Pecos and Hockley counties. Pecos County produced 461 million MCF of natural gas with Crane County second, Ector third, Scurry fourth and Gaines County fifth.

With the cost of oil more than thirty dollars a barrel and gas prices also on the increase, the money going for those products, royalties and salaries took a big jump last year. The oil produced in Yoakum and Gaines Counties sold for more than 1.3 billion dollars in each county. Ector and Pecos County brought 1.1 billion dollars and Hockley County 937 million dollars. Pecos County gas sold for \$686 million dollars.

Royalties paid in Pecos County were \$224 million dollars, followed by Gaines 170.9 million, Yoakum 170.8 million, Ector 163 million and Hockley with almost 121 million dollars in royalty payments.

The total value of gas and oil in the eight counties was 9.6 billion dollars. The counties paid 480 million dollars in state taxes, spent 401 million dollars on drilling expenses.

Drilling projects for Crockett Co.

Two wildcats and five confirmers were scheduled and two projects were finalized in Crockett County.

Texas Oil & Gas Corp., Midland, will drill the No. 1 Baggett "A", a 7,100-foot wildcat, one location northeast of Canyon oil production in the Ozona. Northwest multipay field, 1 1/4 miles northeast of Canyon gas production in the Ozona multipay field, 2 5/8 miles west of the two-well Spraberry oil area of the Ozona, North multipay field and 2 1/4 miles north of Ozona.

Location is 660 feet from the north and 527 feet from the east lines of 20-OP-GC&SF.

Canyon oil production in the Ozona, Northwest field is at 6,774 feet. The field formerly produced gas from the Canyon, which has been merged into the Ozona field.

Marahpeeny Co., Ozona, will drill the No. 1-3 C. C. Montgomery Estate, a 1,500-foot wildcat, surrounded by Canyon gas production in the Ozona multipay field, 1 1/2 miles east of the V.I.P. multipay field and 18.6 miles southwest of Ozona. Location is 90 feet from the south and 2,704 feet from the west lines of 3-R-TCRR. Ground elevation is 2,269 feet. The V.I.P. field produces oil and gas from the Clearfork at an average depth of 2,700 feet and has one 1900 oil producer.

Ten Oil Operating Co., Midland, will drill five outposts to the current one-well Block 46, East (Grayburg oil) field, 24 miles southeast of Big Lake.

All of the projects are in 9-46-University Lands.

The No. 953 University Block 46, 1/2-mile north-northeast, is 2,269 feet from the south and east lines.

The No. 951 University Block 46, 5/8-mile north, is 2,269 feet from the north and west lines.

The No. 954 University Block 46, 1/2-mile northeast, is 901 feet from the south and east lines.

The No. 1151 University Block 46, 5/8-mile east, is 467 feet from the north and west lines of 11-46-University Lands.

Harrison Interests Ltd., Houston, completed two Canyon gas producers, surrounded by that pay in the Ozona multipay field, 17 miles southwest of Ozona.

Older Texans need to take heat seriously

Older Texans, take the "summer sizzle" seriously, warns Judith Warren, a family life education-aging specialist.

Weather forecasts for a lengthy sizzler during July, August and September seem to be true, so for older Texans this means "watch out for heat-danger signals and be ready to take action," the specialist cautions.

"Better yet, know how to prevent heat problems. Summer survival depends on it," she stresses.

As the body ages, it becomes less able to respond to physical stress, such as long exposure to heat, Warren explains.

Older Texans with heart and circulatory disease, stroke or diabetes should be especially cautious of over-exposure to heat, she says.

Use a four-pronged plan to avoid heat-related illness: prevention, preparation, knowledge of danger signals and appropriate action when necessary, Warren suggests.

The best tactic to prevent heat problems is to stay out of direct sunlight—stay in an air-conditioned room, if possible, Warren advises.

If the home is not air-conditioned or has no fan, find a cool place to stay during the hottest hours of the day—public facilities such as the library, a movie theatre or a shopping mall can serve as a haven many days.

Avoid strenuous activity, too.

Recognize and pay attention to the first signs of physical fatigue. Restrict your outdoor activity to early morning or early evening.

Other good ways to keep cool are to take a bath or shower, place ice bags or wet towels on the body and to use an electric fan. Remember: electricity and water don't mix, so turn the fan on before dampening your body.

Choose lightweight, light-colored and loose-fitting clothing to allow perspiration to evaporate.

Drink plenty of such liquids as water, fruit and vegetable juices and ice tea to replace lost body fluids.

Avoid alcoholic beverages or fluids that have too much salt, since salt can complicate existing medical problems. Use salt tablets only with your doctor's approval.

Eat less food as your physical activity decreases.

Set your air-conditioning thermostat sensibly. For example, when outdoor temperatures soar into the 100's, set your thermostat around 80 degrees. Trying to save pennies on an energy bill may cost more than a few dollars in medical expenses.

Remember, pets also need plenty of fresh water, good air circulation and less food because they are much less active. Provide a shady place outdoors or keep your pet inside in a cooled environment.

Keep important phone numbers handy—in your purse or billfold and near the telephone. These include phone numbers for the doctor, the community ambulance service and a relative or close friend.

Also, keep a list of your special medical conditions or drug allergies in easy view. "Buddy up" for safety. The "buddy system" works as well out of the water as in it, Warren says. Find a "buddy" and either call each other or visit each day. Be

sure your buddy has your list of emergency numbers and you have hers, she stresses.

Know the danger signals of various heat-related illnesses to help yourself and others.

Heat cramps are painful spasms often experienced in the leg or abdomen due to loss of salts and water.

Other symptoms include pale, wet and cool skin, yet the body temperature is about normal.

Heat exhaustion also results from loss of body water and salts.

This takes longer to develop than other heat-related illnesses.

Symptoms include weakness, heavy sweating, nausea and dizziness. The body temperature is about normal with pale, wet and cool skin. Heat stroke requires immediate attention and medical treatment.

Symptoms are faintness, dizziness, headache, rapid pulse and hot, flushed but dry skin. The body temperature may vary from 104 degrees to 110 degrees.

For heat cramps, apply warm, wet towels and firm hand pressure to the affected muscle. Drink small amounts of liquid.

For heat exhaustion, remove the victim to a cool room and allow him or her to lie down. Give cool liquids to drink.

Heat stroke requires immediate medical help—but until help arrives, cool off the victim rapidly.

Remove or loosen clothing, and apply cold towels or wet ice packs.

If there are no ice packs or cold towels available, take the victim to a cool room and wrap him in a wet sheet.

Above all, take heat seriously and heed any danger signal, Warren reminds.

Fall gardening time at hand

Although there is still plenty of hot weather ahead, it's time to start getting things in shape for your fall vegetable garden.

Much of Texas is well suited for year-round gardening, and fall vegetables generally have better quality and flavor than those grown in the spring, says Dr. Sam Cotner, horticulturist with the Texas Agricultural Extension Service.

Many popular warm-season vegetables such as tomatoes, peppers, eggplants, pole beans, potatoes, okra, cucumbers and squash can be planted during the coming weeks.

Also, the so-called "winter" vegetables such as broccoli, cabbage, cauliflower, greens, parsley and carrots can be planted now for early harvesting. Later plantings of these cold-hardy crops will supply fresh vegetables well into winter.

What are some of the important aspects of fall gardening?

First of all, get the land into good shape, suggests Cotner. If you had a garden this spring and fertilizer was applied, little if any additional fertilizer will be needed before fall planting.

For new gardens, apply two to three pounds of a complete fertilizer such as 10-20-10 per 100 square feet and work it into the soil, recommends the horticulturist. If plants make slow growth, apply a light amount of fertilizer between rows and water it into the soil.

Adequate water is vital for a successful fall garden, particularly for seed germination and early plant growth. Cotner suggests "pre-irrigation" before

planting followed by subsequent, light waterings three or four times a week to keep soil from drying and crusting. Water stress during early growth of plants can reduce later yields.

Transplanting is a good practice in the fall since this allows seed to be started in areas sheltered from high temperatures and drying winds. Check at garden centers for recommended varieties of vegetables and strong, vigorous, healthy plants. Or you may want to grow your own transplants, notes the horticulturist.

Select a pharmacy carefully

Select a pharmacy carefully to save money and avoid potential problems, says Beverly Rhoades, a consumer information specialist.

Some pharmacies charge less than others, so compare prices over the telephone, she says.

When choosing a pharmacy, also consider services and location. Ask about home delivery, for example. This can save you time and travel expense, and it may be more convenient in the long run, even if the prescription costs a bit more, the specialist says.

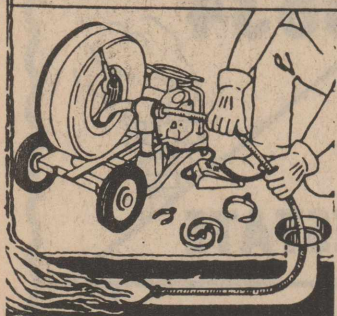

Once you select a pharmacy, buy all your prescription drugs there so you will have a complete record of your medications, she advises.

This will enable your pharmacist to caution you about possible drug interactions, too—and it can help you avoid these kinds of problems entirely.

Save receipts for possible health-insurance reimbursement and for medical deductions on your income tax.

PUT A LITTLE LOVE AWAY
For the things you'll want someday.

As we look back on our lives, one thing we all know is that childhood was truly a magical time filled with fond memories that never fade. It seems as though it only took a moment.

None of us would feel this way if someone hadn't put a little love away for us--someone who cared about making our childhood fantasies come true.

At Ozona National Bank we know all of our lives are filled with hopes and dreams; that tomorrow's dreams can come true if you plan for them today. Having a good bank should be a part of those plans.

We're proud to say people have trusted us for over a half century. Through the years we've repaid that trust and we always will.

So whether it's a savings account, checking account, a loan or any other service we can help you with, see us first. Don't put it off. Put a little love away for the things you and your family will want someday.
