Crutchfield services are held

Funeral services for W. E. (Eddy) Crutchfield, 67, were held at graveside Tuesday morning in Fort Sam Houston Cemetery.

Mr. Crutchfield died Wednesday, June 30, in Audie Murphey Hospital in San Antonio, following surgery.

He was born November 28, 1914 in Arkansas. He was a paint contractor in Ozona for 20 years. He had been employed by Lilly Construction for the past three or four years.

Survivors include a son, Donald E. Crutchfield of California, and one sister, Maxine Rankin, also of California.

Joslins married 60 years

Mr. and Mrs. Harry Joslin were honored on the occasion of their 60th wedding anniversary, Thursday, with a dinner at the Inn of the West. The dinner was hosted by their son and his wife, James and Lenell Joslin of Houston.

Harry and Agnes Joslin were married in Eldorado, July 6, 1922.

Others attending the celebration were the Joslins' grandchildren and their families, Mr. and Mrs. Travis Joslin, Brady and Katie, of Baton Rouge, La.; Mr. and Mrs. Mark Joslin and Evin, of Austin, and Lyndon Joslin of Houston.

Mrs. Jones is United manager

Melodye Jones, former manager of the retail store at the Circle Bar Truck Corral, took over as Manager of the United Department Store in Ozona, as of July 1. This marks a first for the store, in that Mrs. Jones is the first woman employed here in that capacity.

Mr. and Mrs. Herman Feltner have retired and will be moving from Ozona in the near future, according to an announcement by the chain's head office in El Paso. Mr. Feltner has served as manager of the store for the past several years.

Wilson services in Stanton

Funeral services for Mary Ann Wilson, 84, were held last week in the Church of Christ in Stanton with burial in Evergreen Cemetery.

Mrs. Wilson died June 27, in Martin County Hospital in Stanton following an illness of one week.

She was born Oct. 16, 1897 in Comanche County. She moved to Ozona in 1918 and lived here for eleven years.

Survivors include one son, Col. Woodrow W. Wilson of Wellesley, Mass.; one daughter, Irma Lee Smetek of Bacaville, Calif.; six sisters, Alta Henson, Esta Kelly, Stella Kelly, Elvie Henson, Norma Blocker and Zella Bennett of Ozona.

LITTLE LEAGUE ALL STARS were announced last week at the close of the Little League season. They will play Big Lake here Monday. From left to right they are, front row, Oscar Payne, Armando Fierro, Jesse Badillo, Danny Sanchez, Mark Fierro, Richard Borrego, Bret Hood and Stan

Winkley. Top row, Bill Crawford, manager, Paul Galan, Jeff Sanchez, Roger Flores, Darrell Vargas, Eloy Gonzales, Jones Fay, Jimmy Ethridge, Greg Underwood, Will Seahorn and Jesse Fierro, coach.

Ozona has variety of July 4 holiday activities

A variety of activities kept Ozonans busy this year on the Fourth of July weekend. The Fourth of July party, sponsored by the Ozona Chamber of Commerce, and held at the Little League park Sunday night afforded participants food, drink and entertainment, topped off by a dazzling display of fireworks.

Ozona Girl Scouts, who manned the concession stand sold out of every morsel, while music was furnished by Willena Holden, Larry Petron and the Bob McDaniel Band. The chamber's watermelon stand also did a rushing business, selling around 100 large watermelons in 50c slices.

Roads were blocked for miles around for the fireworks display, which could be seen from anywhere in

town. Beth Boyd, chamber manager, said the event went off more smoothly this year than last and the crowd was much larger.

Ozona High School Class of 1962 held its 20-year reunion Saturday at the Civic Center, with a large crowd of exes and their families attending. Organizers of the reunion were exceptionally pleased with the interest shown. Several families were here from out of state.

A full slate of activities for the three-day period was planned for Ozona Country Club members. There was a dance Saturday night following ladies golf and bridge. A covered dish luncheon was the highlight of the day Sunday, and a hamburger supper ended the three days of festivities.

All kinds of games were held for youngsters, and there was golf for every player, plus a tennis tournament. A three-day tournament kept bridge players busy.

Les Russell won the men's golf championship at the Annual Ozona Country Club tournament Sunday, after a play-off with Steve Poage and Duane Childress. The three shot 36-hole scores of 148. Marie White is the new club champion for the women, shooting 91 for the 18-hole play. Kent Hokit is the high school boys champ with an 85 for the 18-hole tournament and Jennifer Justiss won the girls tournament with a 56 for the 9-hole event. Bret Hood won the junior high championship with a 49 for 9 holes.

In play Monday for the men and women select shot tournament, the team of R. B. Babbitt, Joann Babbitt, Wade Beasley and Gary Yeager, prevailed over the field of 82 golfers to win the championship with an 18-hole total of 59. The second place team of Ted Cotton, Margie Cagle, Don Sessom and Carol Sessom shot a 61. Closest to the pin on number nine were Wade Beasley and Sherry Webster.

A total of 370 hamburgers were served to club members after the tournament Monday.

In the men's tournament, Gene Hood won the president's flight with a 151, and John Childress was second with 155.

Bill Clegg won the first flight after a playoff with Joe Williams. Both men shot scores of 161.

Second flight winner was Pete Jacoby with 168. Jerry Fatout was second with 172. Larry Hensley won the third flight with 178 and Bill Cooper was second with 183.

Winner of the fourth flight was Jack Bailey with 192 and Jim Sanker was second with 196.

In the high school tournament Robert Massey was second with an 87 for the boys and Krystal Williams

was second for the girls with a 77 for nine holes of play. Will Seahorn came in second in the junior high tournament with 58 for the day. In the ladies tournament Wanda Stuart was runner up to the champion with a score of 93.

Katy Jones won the first flight with a 99 and Marilyn Cox was second with 100.

Carol Hensley won the second flight with a 104 and Doris Hood was second with 108.

Third flight winner was Janet Stuart with 123 and Bobbie Fatout was second with 130.

Sherry Holt won the 9-hole play with a 56.

4-H baby sitting school

A 4-H Baby Sitting School will be held July 12, 13, 14 from 3:00 to 5:00 p.m. at the Methodist Church. The school will teach teenagers how to be good babysitters. After students graduate from the sitters' course, a list of available sitters will be compiled for families in the community.

The course will include basic care of children, first aid, responsibilities of a sitter, tricks to entertain kids and actual experience in caring for children.

Sara Highnight and Debra Price are coordinating the course. Any youth that did not enroll for the class at school should call the Extension office at 392-2721 to register. Youth must be at least the sixth grade to participate in the sitters class.

Autopsy ordered in holiday death

Local law enforcement officials were keeping a tight lid on any information about the death of Gregoria Lara, 29, who was dead on arrival at Crockett County Hospital early Sunday morning.

Justice of the Peace A. O. Fields pronounced Lara dead at 6:20 a.m. July Fourth. Time of death was apparently between four and five o'clock the same morning. Lara's body was brought to the hospital in the back of a pickup from the rodeo arena park.

The body was taken to San Antonio for an autopsy, and Chief Deputy Sheriff Wayne Wahl refused to speculate on the cause of death. He said the department would release a statement following the autopsy report.

Apparently there was some sort of altercation in

the park before Lara's death. The park will be closed from 8 p.m. until 8 a.m. beginning Tuesday night. The commissioners court ordered this action some time ago, due to vandalism and other acts. Gates were finished and locks installed last week, but it was decided to wait until after the holiday period to close and lock them.

Funeral services for Lara will be held this afternoon, Wednesday, at 4:00 p.m. at Our Lady of Perpetual Help Catholic Church with burial to follow in Lima Cemetery under the direction of Sizemore Funeral Home.

Lara was born July 30, 1953 in Ozona. He was an employee of Teledyne Exploration Co.

Survivors include his father, Rosendo Lara of Ozona; a daughter, Minnie F. Lara

of Ozona; four sisters, Thelma L. Vitela, Nancy Lara and Mattie Lara, all of Ozona, and Tina Tinsdale of Alta Loma; one brother, Abel Lara of Ozona, and his grandmother, Guadalupe Lara of San Angelo.

Immunization clinic to be held Thurs.

An Immunization Clinic will be held Thursday, July 8 at the Civic Center. Public Health Nurses will conduct the clinic from 10:00 a.m.-12:00 p.m. and 1:00-3:00 p.m.

Parents may bring their children to the clinic and the nurses will check the records to see what shots are needed.

OLD GLORY flew alone in front of the Stockman office Monday, the national holiday for the Fourth of July. Possibly the reason it was the only flag flying downtown, was because it was the only establishment open for business as usual. Flag thefts the past few years have kept flags indoors unless business people could keep a watchful eye during open hours.

SURPRISE-SURPRISE That's what Kitty Montgomery was when a group gathered in the Stockman office Thursday morning for a Tenth Anniversary Party. Mrs. Montgomery bought the newspaper July 1, 1972 and with the help of the community and her able staff, has managed to keep it afloat. She purchased the Stockman from Evert White, who had been the editor-publisher for 46 years. Mr. and Mrs. White hosted the party. From left to right, Tom Montgomery, Mrs. White, Mrs. Montgomery and Mr. White.

OPERATION RESCUE

By Edwin Feulner

Mention the word pirate, and a host of romantic visions come to mind: buried treasure, peg legs, the Jolly Roger, and a swashbuckling Errol Flynn dueling on a tropic beach — all the fantasies of a B picture on a Saturday afternoon. For Jack Bailey, though, piracy conjures up a different image, and well it should; he has to deal with it on a daily basis.

Few of us realize that the pirate legend is not just an adventure-filled footnote to history. There are pirate vessels operating at this very moment in the waters off the coast of Thailand. For these modern-day buccaneers, however, the prey is not some treasure-laden Spanish galleon or British merchantman. Rather, it is the continuing stream of boat people fleeing the Communist tyranny in Vietnam. Unarmed, and often weak from hunger and thirst, the boat people make an easy target. Operating in the guise of innocent fishing vessels, the pirates take what meager possessions the boat people are able to escape with, and often abduct the women and children. Women are raped; the men beaten. Frequently, the pirates cruelly dump overboard what food, water, and fuel remains on the boats, leaving their victims adrift to fend with the elements as best they can.

In the past year alone, over 700 murders, 500 rapes, and 200 abductions have been documented, but most knowledgeable observers think this constitutes only a fraction of the real total. Far more never make it to shore.

For a time, the pirates were kept in check to a degree by U.S. Navy patrols, but those now have ceased. Efforts by the Thai government have been well-intentioned, but the lack of adequate equipment and manpower has limited their effectiveness. The United Nations voted funds to assist the Thais in their efforts, but then proceeded to attach so many strings that the Thai government could not accept them. Other U.N. funds allocated to the problem have only resulted in the compilation of impressive statistics — statistics that document a steadily worsening problem. It is these facts, perhaps, that make Jack Bailey all the more remarkable.

A retired U.S. Air Force colonel, Bailey has a long history of involvement in humanitarian endeavors. While in the service, he raised funds to build orphanages. After his retirement, he worked for a time helping to establish centers for abused children. When the weak and innocent needed help, Bailey was there. It was probably inevitable that the plight of the boat people would eventually attract Bailey's attention.

Bailey is a passionate man, who can rail about the bureaucratic ineptitude of the United Nations at one moment, and then break out in a grin as he recounts some comic episode in the next. He has a strong belief in God, and it is this, perhaps, more than anything else that has sustained him over the years. As he tells his story, you have to believe his faith is justified.

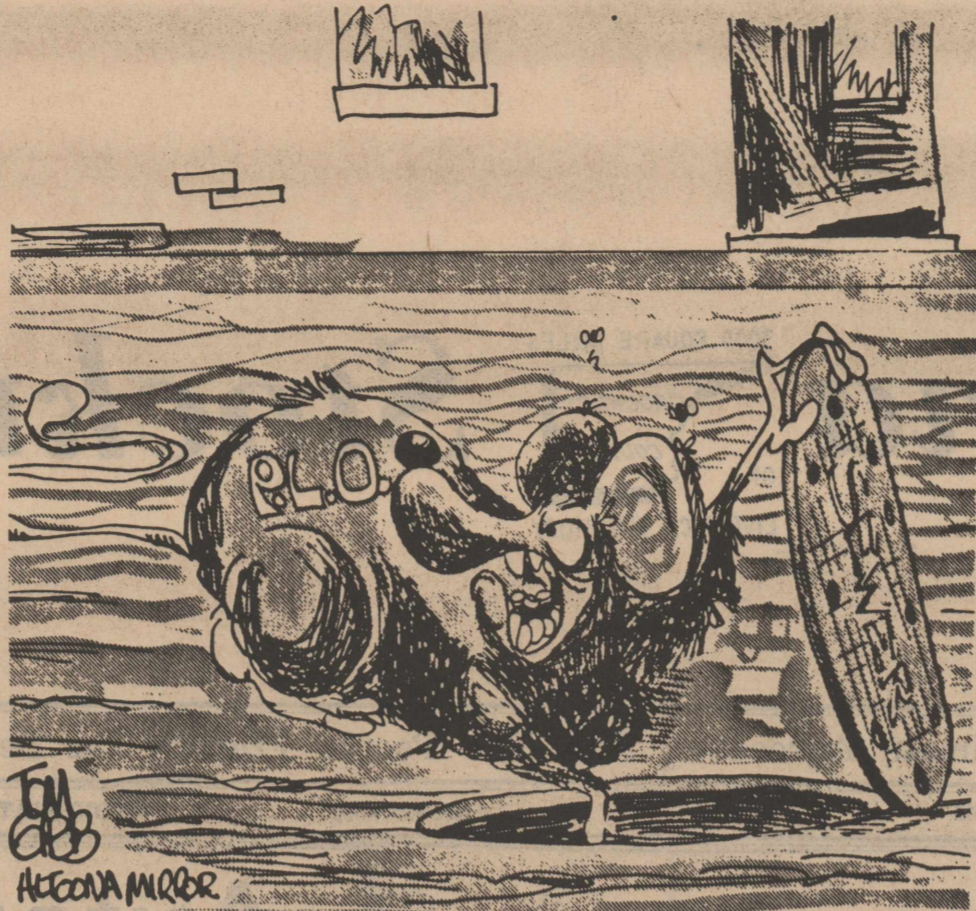

On hearing of the refugees' plight, Bailey and his business partner Don McCullough pooled their savings and leased an old ship, the Ankuna II, from the "Food for the Hungry" program. The ship was hardly the sort you would expect to take on pirates. Outdated, and barely able to make six knots, the Ankuna II had a rudder with the unfortunate habit of freezing at critical moments. Still, as wornout and rusty as she was, the ship was a welcome sight to the hundreds of men, women, and children who would have died without her. Before long, it became evident that a new ship was needed, only Bailey had no idea where the money would come from. Despite what seemed like a hopeless situation, Bailey's faith held. Somehow, he said, the Lord will provide.

Well, it seems Bailey was right, because just about the time he was ready to give up, an agent for the government of Singapore suggested he bid on a confiscated smuggler's vessel that was being sold at auction. When Bailey protested that the figure the agent suggested he submit was hardly a fraction of the ship's scrap value, the agent just smiled. Bailey made his bid, and — surprise — was awarded title to the 190-foot Japanese freighter.

Bailey is still struggling. He takes no compensation and has put over \$85,000 of his own money into Operation Rescue, as his organization is called. At present, his crew hasn't been paid for a month, and he needs \$10,000 to get the Sri Ankuna III out of drydock, but he contends that somewhere out there a check is waiting.

For the sake of humanity, we hope he's right.

GO AHEAD, ISRAEL... DRIVE ME OUT OF LEBANON I'LL GO UNDERGROUND.... I LIKE IT THERE!

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN — Texas taxpayers got some good news last week when the Texas Research League released a study indicating that the state should be able to get through at least the next decade without a major tax increase.

The study, conducted by TRL Vice President James W. McGrew, shows that tax revenues generated from the state's oil and gas industry should be sufficient to meet spending needs into the 1990s.

TRL, a private research organization, began the study in 1979 at the request of Gov. Bill Clements.

Despite the good news for the 1980s, the report predicts that declining oil and gas production in the 1990s could result in a "staggering tax bill."

McGrew concluded that production estimates from five sources indicated that oil production in Texas will drop from the 954 million barrels produced in 1980 to as low as 196 million barrels by 2000.

Oil and gas severance taxes amounted to some 27 percent of the state's total revenue last year.

With those funds decreasing, spending would have to be cut or taxes increased to comply with the constitutional limitation against deficit spending.

McGrew says TRL doesn't think a spending cut is "very likely."

Homeowners Insurance

Homeowners also got some good news recently when the State Board of Insurance decided that insurance rates should be reduced.

The board decided to cut homeowners insurance rates by an average of some 16 percent statewide, despite protests by spokesmen for the insurance industry.

Insurance company officials agreed that rates should go down, but they wanted a much more conservative cut of only about 2 percent.

Under the new rates, which become effective Sept. 1, a basic homeowners policy on a \$50,000 brick home would go down anywhere from 16.9 percent to 25.2 percent, depending on what area of the state the policyholder lives in.

The news for renters, however, wasn't as promising. Tenant homeowner rates are slated to go up by an average 22.3 percent.

The board approved an additional five percent credit for homeowners who install security devices — such as deadbolt locks and solid core doors — but renters won't qualify for that credit.

Redfish Ban
Lawmakers got a preview

of arguments that are likely to surface during the 1983 legislative session when the House Committee on Environmental Affairs and the Senate Committee on Natural Resources held public hearings on the continued

need for a ban on commercial fishing for redfish and speckled sea trout.

The redfish ban was one of the most controversial subjects of the 1981 session, but lawmakers voted to prohibit commercial fishing for the two species for two years despite cries from the fishing industry that hundreds of fishermen would be put out of work.

Even after the ban has been in effect for a year, there is still no agreement over what effect it has had on redfish and trout populations.

Texas Parks and Wildlife officials say that an \$800 million annual sport fishing industry and 12,000 jobs which support it would have been endangered if the ban had not been passed.

Commercial fishermen, however, say not only the fishermen have been put out of business but seafood transporters and wholesale and retail fish markets as well.

Parks and Wildlife, however, says that loss will amount to no more than \$12 million annually compared to the potential loss of the sports fishing industry.

The Legislature will be deciding next year whether to continue the ban or lift it, but the politically strong sportsmen's lobby is expected to win since commercial fishermen have little political clout.

Attorneys Fees

The state finally has won at least a partial victory in its fight against federal imposed prison reforms, but the cost of that victory was high.

One vehicle is stolen every six minutes in Texas. The motives for these thefts vary from joyriding, stripping and reselling the vehicles, to a means of committing additional crimes.

Auto theft rings steal over 80,000 cars annually in our state. Last year alone, 350 million dollars worth of vehicles were reported stolen. Car thieves, like home burglars, generally have an easy time of it. Their thievery is made simple by car owners who obligingly leave doors unlocked, which occurs in four out of five cases of auto theft, or who leave keys in the ignition, which occurs in one out of five cases.

Vehicle theft is a serious crime that affects the entire community and results in higher insurance rates, property damage, injuries and loss of life from accidents. This crime has reached such serious proportions that it

can no longer be controlled by law enforcement alone. Every citizen must exercise greater care over their property, thus preventing unnecessary crimes caused by carelessness.

For the month of July, 1982, the Crime Stoppers Advisory Council is focusing its statewide "Crime of the Month" on auto theft. Any citizen having information about auto theft rings is encouraged to call the anti-crime hotline at 1-800-252-TIPS. Cash rewards are available for information leading to the arrest and indictment of these criminals.

Help meet this problem head on by locking your car and pocketing the key. This can greatly reduce your chances of losing your vehicle to these thieves. Call 1-800-252-TIPS today and put an end to this activity in Texas.

Gov. Bill Clements has called those charges "excessive and exorbitant" and he has frequently criticized Attorney General Mark White for his handling of the case.

White says he agreed to hire outside attorneys under pressure from Clements and the Texas Department of Corrections.

Foreman Remarks

The famous defense lawyer from Houston, Percy Foreman, told the Texas Bar Association convention meeting in Austin last week that the state should not outlaw the insanity plea.

The aging Foreman, veteran of many a courtroom victory, in his address said that insanity was a sickness and, like cancer, was impossible to outlaw.

The issue of changing the insanity plea promises to be a topic for the Legislature meeting in January. Some lawmakers have promised to modify the plea, possibly changing the legal verdict from "not guilty by reason of insanity" to "guilty but insane."

Q: Recently I received a promotional letter trying to interest me in some land. I was invited out to look at the property, with a chance to win in a drawing. I wasn't interested so I threw the letter away. Two weeks later another letter arrived informing me that I had won, but I had to tour the property to receive the prize. Must I go there to get my prize? Since they said I am a winner, shouldn't I be entitled to it anyway?

A: Usually, these records may be discarded three years from the date the return was due or filed, or two years from the day the tax was paid, whichever comes later. However, records of property transactions should be kept as long as they are useful to you in determining the value of the property. For example, you should keep all records involving the purchase of your home including any major improvements you make.

Q: I've been needing an answer to this question . . . How can a person get in touch with a reliable lawyer in another state to handle a legal matter?

A: There are several ways to go about it. You can contact your lawyer here to handle it. That might be best, because an out-of-state lawyer may need to consult with a Texas attorney before acting in your behalf. Or, you can write the State Bar of the other state to put you in touch with their lawyer referral service. In addition, your local attorney has access to directories of out-of-state attorneys who specialize in particular areas of law.

Q: In a job interview last year, a company paid me more for my travel expenses than I actually spent. Do I have to report this excess amount as income on my tax return?

A: Yes, you do. The compensation you receive from a prospective employer for job interviews is seen as income if the amount you received was greater than the amount you paid. The Internal Revenue Service requires you to report as income, any reimbursement for interview expenses that exceeds the actual amount expended.

LETTERS TO THE EDITOR

July 1, 1982

Dear Kitty,
Why? That is the question my 3 1/2 year old son asked when I got home last Wednesday afternoon "Why did some mean person poison my puppy dog." How do you answer a question like this when you do not understand yourself? I fail to see the reasoning behind this.

I had a 1 1/2 year old golden retriever that was pregnant. The dog cost me \$300.00 and the pups she was going to have would have sold for around the same amount. Is this inhumane dog slaughtering not a felony offense? Not only the money I lost but the companionship and emotional trauma someone put my son through is heartbreaking. What is it going to take to stop this nonsense? A child being poisoned himself? Then it's really too late.

I understand this is a ranching community. I also understand some dogs are a threat to livestock. But a dog that is kept in a five foot high cyclone fence in the middle of town? This I fail to understand. My dog had been let out of the fence while my back yard was being mowed. During this time my son, Jason, was next door playing in a sprinkler with some neighbor kids and my dog within 30 minutes had come into contact with this poison. Where did she get it? In my front yard? In the neighbors yard? The thought of this is frightening. The thought that someone would actually put poison where it is easily accessible to dogs and children. Who knows what a child might put in his or her mouth?

I guess a child being poisoned is the only thing that is going to open up some peoples eyes and maybe put a stop to all this. That is really frightening. My son found my dog lying in the front yard having convulsions. By the time my wife and son rushed her to the Vet, it was too late. She died shortly after reaching the Vet. My son cried for a few minutes and then began asking questions "Why?" Can the sick person that did this answer this question for my boy? I sure as hell can't.

Jeffrey Stuart
P.S. I would like to take time to thank Gary Vannoy who tried his best to save my dog. He was in surgery but he took time to try to help but it

was just too late. Let's all hope it is not too late if this happens to one of our children.

June 30, 1982
Roswell, N.M.
Dear Mrs. Montgomery:
I'm sending check for you to renew my subscription to The Stockman. I love to hear about the people of my old home town.

Sincerely,
Mrs. Billy Stewardson
(Kathleen Buck)

THE NEWSREEL
A re-run of "The Ozona Story" as gleaned from the files of the "The Ozona Stockman"
Thursday, July 9, 1953

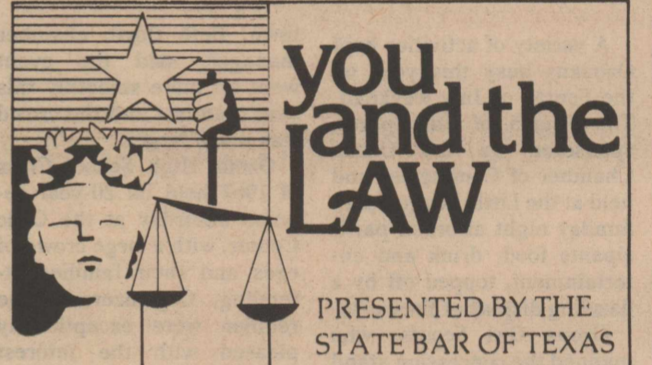

Fifty-four golfers, men and women, participated in the annual Ozona Country Club Fourth of July tournament at the Country club course Saturday and Sunday.

Floyd Hokit won the men's championship flight over Beecher Montgomery and in the women's division Mrs. Beecher Montgomery won the championship flight.

Ozona's first drive-in theatre, The Triangle, located in the "triangle" at the intersection of Highway 163 and the new Vaughn Field-Big Lake road at the north edge of Ozona, is scheduled to open Friday night of this week.

29 Yrs. ago
Johnny Jones, 11 year old son of Mr. and Mrs. Brock Jones, proved his ability as an all-around judge of wool, mohair, sheep, goats, range plots, and grasses at the Sonora Wool Show judging contests. Johnny ranked 17th high individual in all-around judging among 71 contestants and lead his team to 7th place in the over-all judging contests.

29 Yrs. ago
Mr. and Mrs. Bland J. Tandy of Abilene are the parents of a son, Hugh Duncan, born July 2 at an Abilene hospital. Grandparents are Dr. and Mrs. H.B. Tandy of Ozona and Mr. and Mrs. A.E. Duncan of Decatur, Texas.

Debra Says

By Debra Price

Money was named as a source of conflict by more than half the families surveyed in a recent study, according to Margaret Nelson, University of Wisconsin-Extension family economics specialist. So engaged couples may want to make sure they are as compatible in money matters as they are in other areas.

One way to start communicating about money is to take an inventory of financial priorities. As a couple, list all the expenses you would face in a month, including rent, furniture, clothing, church contributions, life insurance, savings, and others. Then imagine you have a very low income. Individually, rank the top 10 items you would pay first.

Comparing the lists can help you see whether your priorities are the same or if you have very different expectations. Researchers have found that men and women frequently rank their first three priorities alike, choosing rent, food, and medical insurance. Priorities differ farther down the list.

In addition to daily budgeting concerns, couples need to discuss long-range goals. Do they want to save for annual trips to Florida, new cars, a house, or higher education? It's easier if they can work toward common goals.

Couples also need to decide who will manage the money, pay bills, keep records, and prepare budgets, Nelson says. Researchers estimate that wives are the money managers in about 40 percent of all marriages.

As you compare your priorities, you may find you cannot agree on some expenditure, Nelson says. If your differences are so great that you decide you could never be happy together, perhaps it's better you discover those differences before you marry. But you also may use financial differences to build communication skills, learn to solve problems together, and strengthen your relationship.

FROZEN LEMON PIE

1/2 cup fine graham cracker crumbs; 3 egg whites; 1/2 cup sugar; 3 egg yolks; 1 cup whipping cream; 2 to 3 teaspoons grated lemon rind; 1/4 cup lemon juice.

Press half of crumbs into well greased 9-inch pie pan. Beat egg whites until frothy; gradually add sugar. Beat until stiff and glossy. Beat egg yolks until lemon colored; fold into egg white mixture. Mix cream, lemon rind and juice; beat until stiff. Fold into egg mixture.

Pour into crumb lined pan and sprinkle remaining crumbs over top. Freeze. Makes 6 to 8 servings.

FRESH PEACH PIE

3 cups fresh, peeled and sliced peaches; 1 cup sugar; 2 1/2 tablespoons Minute Tapioca; 1 tablespoon melted butter; 1/4 teaspoon salt.

Combine peaches, sugar, tapioca, butter and salt. Let stand about 15 minutes, or while making pastry. Pour into 9-inch unbaked pie shell. Arrange lattice of pastry strips across top. Sprinkle with sugar and cinnamon, if desired. Bake at 350 degrees F. about an hour, or until peaches are done.

Couples golf

Winners in couples golf play Tuesday at the Country Club were Rick Webster and Judy Justiss, Carl and Larry Hensley, first; Jimmie and Pete Jacoby and Marilyn and Bud Cox; third were Billie Gene and Jack Baggett and Wanda and Byron Stuart.

Winning nearest to the pin on number nine were Katy Jones and Pete Jacoby.

Engagement announced

Mr. and Mrs. Donald Setzler of DeLeon, announce the engagement and approaching marriage of their daughter, Brenda Bailey, to Mr. Gerald Huff, son of Mr. and Mrs. Vance Huff.

The bride-elect is a graduate of DeLeon High School and is employed with a trucking company in Monahan. Mr. Huff is a graduate of Ozona High School, he attended Southwest Texas State University in San Marcos, and is presently employed by a mud engineering firm in Monahan.

The couple will be married July 24, in a private home in Monahan.

Try generic-labeled food products--they're almost always a "good value" for the money, and they offer an alternative to the highly advertised, more expensive brands.

Marie White is golf champion

Marie White won the championship in the annual Fourth of July ladies club tournament this year. Runner up was Wanda Stuart and in third place was Sheila Hartman.

MARIE WHITE

Other winners with handicaps in the championship flight were Wanda Stuart, low putts and low net, Nell Wester, second and Marie White, third. Winning longest drive was Hartman and nearest pin on number nine was White.

Monte Sanker won the first flight with Katy Jones second.

Annual July 4th bridge tournament

The annual July Fourth ladies club bridge tournament was held at the Ozona Country Club during the three-day weekend. Mrs. Clay Adams was the tournament director.

Mrs. Robert Cox was the winner in Saturday play. Mrs. Byron Williams was second and Mrs. Sherman Taylor, third.

In play Sunday Mrs. Joe Bean won. Mrs. Gene Williams came in second and Mrs. John Childress was third. Mrs. Jerry Perry won the hard-luck prize.

Mrs. Sherman Taylor won Monday. Mrs. James Dockery was second and Mrs. Jake Short, third. The hard-luck prize went to Mrs. Brock Jones.

Winning prizes for bidding and making slams were Mrs. Jim Williams, Mrs. Brock Jones, Mrs. Gene Williams,

and Marilyn Cox, third. Low putts and longest drive went to Sanker and nearest pin on number nine was Cox.

Carol Hensley won the second flight, also low putts and nearest pin on number 9. Doris Hood was second and also had the longest drive. Chesta Stuart was in third place.

Janet Stuart won the third flight and was nearest the pin on number 9. Second place went to Sally Bailey Oglesby, who also had the longest drive. Bobbie Fatout won third. Barbara Wallace won low putts.

Nine-hole flight winners were Sherry Holt who won first, also had the longest drive and won low putts; second place went to Bennie Gail Hunnicutt, who was also closest to pin on number 9, and third place went to Mary Lou Lilly.

Other golfers were Jonesy Williams, Jeanette Bailey, Ella Clegg, Mary Webster, Jimmie Jacoby, Joann Babbitt, Darolyn Webster and Jill Crawford.

Following golf play, picnic lunch was enjoyed in the club room, following awards presentation.

Mrs. Buddy Phillips, Mrs. Evert White, Mrs. Billy Carson, Mrs. James Dockery, Mrs. Bean and Mrs. Byron Williams.

Ladies golf play

In Ladies Golf Play Wednesday at the Country Club, Katy Jones won low net and low gross.

Low putts were won by Jeanette Bailey. Marilyn Cox was nearest the pin on number 9 and winning low in the nine-hole flight was Bennie Gail Hunnicutt.

Other golfers for the day were Janet Stuart, Mary Lou Lilly, Barbara Wallace, Ella Clegg, Bobbie Fatout, Billie Gene Baggett, Jonesy Williams, Jimmie Jacoby, Carol Hensley, Wanda Stuart and Nell Wester.

Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

Summer is a perfect time for relaxed entertaining and picnics away from home.

Even the most casual summer meal becomes a delightful occasion when there is a fresh flower and cut greenery arrangement for your table.

Now there is plenty of plant material to choose from to name a few, zinnias, marigolds, day lilies and wild flowers. Try using an unexpected container that will compliment the plant material you use. You may have a basket, clay pot, glass cylinder, watering can or colorful old jars and bottles.

July and August are perhaps the two most difficult months for successful gardening in our area. We, in Ozona, are fortunate to have good water available to keep our yards green and growing well.

An ideal summer bloomer is the common geranium, for heat and dry weather do not effect its growth and bloom. They require very little care, a light, not too rich soil and not as much water as some other plants, but plenty of sunshine.

Another versatile and popular plant are the cannas used in our gardens for blooms and beautiful foliage. The leaves are attractive before they unfurl and give a tropical feeling to any planting or arrangement. New varieties are being developed which are superior in color and size of bloom. Their range in height is from dwarf to tall for backgrounds and screening. Cannas will get along with what they have, but they reward you with greater beauty for the care you give them. If they have a ragged appearance in the summer after flowers have faded, cut the stalk off even with the ground. Soon a new stalk will replace the old one.

This will keep your plants neat and fresh looking. The color range had been shades of yellow, orange, and red. Now, they may have had in all of pink tones, cream, whites and two-toned varieties. The Humbert varieties produce bronzy foliage.

Plant zinnias in a sunny new location for fall blooming.

Mrs. Moore hostess for bridge club

Mrs. Kirby Moore was hostess for the monthly luncheon and bridge play at the Country Club Thursday.

Luncheon guests were Mrs. Pete North, Mrs. Sidney Millsbaugh, Mrs. Pleas Childress, Mrs. Lowell Littleton and Mrs. Joel Huff.

Mrs. Evert White won high and Mrs. Sherman Taylor, second high. Mrs. Gene Williams won the club bingo and Mrs. Hugh Childress, the Charlotte Phillips bingo.

Others playing were Mrs. Clay Adams, Mrs. Charlie Black, Mrs. Billy Carson, Mrs. John Childress, Mrs. Jake Short, Mrs. Charles Williams, Mrs. Jack Williams and Mrs. Dick Kirby.

Don't fall for "bait and switch" tactics at the marketplace. An illegal tactic, "bait and switch" works this way: a merchant offers an item at a special price and then tries to sell you a different or more expensive item.

GOOD NEWS IN FURNITURE

Not long ago, the thought of costly cleaning or re-upholstering made many people worry about buying upholstered furniture--always fearful of spots, stains and spills. But it can be a different story today.

Many upholstered pieces are now treated with one of several good chemical soil and stain repellents that protect your furniture. It's good news to know that the furniture industry has done so much about an age-old problem.

And there are now other fibers on the market, too, mostly the products of chemistry that almost wholly reject stains and soil without the need of a repellent. They are called polypropylene and are known by various trade names, such as Vectra and Herculan, and are also used in the manufacture of both outdoor and indoor carpets.

This fiber is almost completely moistureproof and non-absorbent so that it's almost impossible for waterborne stains, dirt, oil, grease, lipstick, crayon, even ink, to get into the fiber.

Seating comfort has also improved tremendously. Many manufacturers use a foam cushion filling for the center which has a soft outer wrap of polyester. This combination gives the soft feeling of down but costs less and keeps its shape much better. There are many improvements in furniture, and we invite you to come in and see them.

blemishes or misshapen stems will not spoil the delicate color, rich fragrance and sheer beauty of the total flower.

How clearly a rose illustrates that nothing in life is truly perfect! But, rather than discourage us, this should give us fresh confidence and strength.

God did not make the rose perfect--nor did He make us perfect. Yet He thinks none the less of us for our faults and blemishes. In His eyes we always have another chance. But it is up to us to take it.

Start by going to the church of your choice this week!

A "Perfect" Rose

Look closely at a so-called perfect rose! Scan the petals; you will find they are far from perfect. But uneven shapes,

PBPA energy report

Several major oil companies have been accused of spending increased profits for the wrong things between 1979 and 1981. The Citizen-Labor Energy Coalition, made up of union, senior citizens and community groups, said the companies involved spent more than 16 billion dollars on acquisition's during that period. This was an increase of 600 percent over the three years prior to 1979 according to the report. The Citizen-Labor group said while most of the acquired companies were energy related, the mergers did little to increase domestic oil production. It added that the amount the major oil companies spent on acquisitions and investments in non-petroleum lines of businesses equalled the amount spent to explore and produce oil in the United States during that three-year period.

The major oil companies were also charged with a major cause of higher interest rates, not cutting oil prices and not returning more dividends to their shareholders.
 The American Petroleum Institute replied that the study was a "gross distortion of the facts, typical of the shoddy, biased economic work of the coalition." A.P.I. added, the total industry investment rose from 21.3 billion dollars in 1976 to 50 billion in 1981.

In other news, oil analyst Dan Lundberg says gasoline prices should remain stable throughout the summer months.
 In the Permian Basin our rig count for this week was 296. One year ago it was 445.

PHONE NEWS TO THE OZONA STOCKMAN.

Sales tax rep. to visit here

State Comptroller Bob Bullock will have a representative from his San Angelo office in Ozona on July 8, to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Oscar H. Gutierrez will meet with local taxpayers at the Ozona Court House (Law Library) from 10:00 a.m. to 11:00 a.m.

"If Ozona area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing state tax forms, Mr. Gutierrez will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office, and we believe these face to face sessions with taxpayers help do just that," Bullock added.

Crockett County Care Center News

BY ANN MCCARTNEY
 DIRECTOR OF ACTIVITIES & SOCIAL CARE

Church services the last two weeks have been conducted by members of the Church of Christ and the United Methodist. Residents were introduced to the new pastor of the United Methodist, Rev. Wayne Boyce. They also enjoyed a solo sung by his wife, Jayne.

Bingo winners the last two weeks include: Maude Pettit, a certificate from Westernman Drug, Jesus Hernandez, a certificate from Clayton's Village Drug, Tomasa Ramos, a certificate from Baker's Jewelers, Nija Turzell and Moriana Perez, certificates from El Chato's. Second place winners were Meriama Perez, Maggie Crawford and Verna Talley.

Ruth Hester directed ceramics the last two Wednesday mornings. Afternoon sunshine hour refreshments were served by Mayde Jo Humphreys, Bernice Phillips, Bernice Jones and Kathy Jones.

Clayton's Village Drug furnished everyone with a milkshake week before last. Thanks goes to Ann Mayo,

Elvira Caldwell and Leila Tambunga for taking the group.

Residents were treated to a flag performance by Candy Stripers Shelly Rumley and Julie Reager for a special 4th of July program. Residents also enjoyed patriotic songs led by Dale Rumley and Cheryl McCartney, visiting daughter-in-law of the J. McCartneys.

Another 4th of July treat was enjoyed by the residents when Cruz Trevino and her evening crew found seats out front for everyone to watch the fireworks Sunday night.

Follow simple washer-dryer "do's and don'ts" for efficiency, longer equipment lifecycles and your own personal safety. Key guidelines include these: keep lint filters clean, use only suggested laundry cleaning aids, follow manufacturer recommendations, don't overload and don't reach into the washer or dryer until it stops.

Zipper care

Take care of zippers on clothing to prolong their usefulness, says Alma Fonseca, clothing specialist with the Texas Agricultural Extension Service.

Always close zippers after use--and before washing--to prevent misalignment.

For balky zippers, try rubbing with beeswax, candlewax or zipper lubricant.

Repair frayed tape edges promptly--look for fraying at the top or bottom of zippers where they meet the garment fabric, Fonseca says.

Notice of

REWARD

Pat Walker's, I love you I feel like I am 20, again!

After losing 64 pounds and 75 inches, I feel that I've found the fountain of youth. For health reasons, I had to lose weight, and I was unable to stay with a diet on my own. I joined Pat Walker's and that was the greatest thing I've ever done for myself. A size 18 was getting too tight for me, and now I'm in a size 6!!!!

From Ozona to San Angelo is 85 miles and I traveled it twice a week, for a total of 276 miles every week (until the Sonora Salon opened). Believe me, it was worth every mile and every penny, and this is one diet I have really enjoyed.

Being middle-aged and a grandmother doesn't mean you can't be thin and feel pretty. When your husband looks at you as if you were 20 again, that's for me! Thanks again, I couldn't have done it without you!

Pearletta Morris
 Ozona, Texas

P.S. Since you've had me in your ad, the most popular question I've been asked, is, "How long did it take you to lose all that weight and inches?" It took me 7 1/2 months. I'd also like to add that I don't want to lose any more weight, just inches. I went through the Christmas Holidays having turkey and all the Holiday trimmings and lost 1/2 pound and 3 1/2 inches.

Again — I love you and thanks.

How many inches would you like to lose in 1982?

10 YEAR NO SWEAT WARRANTY

If Air Conditioning doesn't have it here it probably doesn't have it.

Gas Air Conditioning Has It!

No other air conditioner has a warranty like a gas air conditioner because no other air conditioner is built like a gas air conditioner.

Gas air conditioning has fewer moving parts and no compressor to wear out or break down. This means less wear and tear and lower maintenance costs.

That's why gas air conditioning is so dependable and why it has a warranty that's *twice* as long as other types of units . . . a full 10 years!

Find out more about the air conditioning that's backed by the best warranty available. Call Energas today for a free cooling survey and cost estimate. There's no obligation.

Remember, all air conditioning was not created equal. And we have the paper to prove it!

Manufacturer's limited warranty covers all defects in materials and workmanship on the sealed refrigeration unit for ten years from the date of installation of the air conditioner when it is installed in a single family residence. All other parts are warranted for one year from date of installation.

ENERGAS

AT POOLSIDE at the country club, swimmers and sponsors take a break before beginning the next contest during the pool marathon Saturday. Kool Aid was served at poolside during the contests.

THE EGG RACES FOR KIDS at the Country Club Saturday saw many start but few finish. Here the front runner drops her egg, as Jill Seahorn prepared to claim the winner.

Blood transfusions help save lives

The body of an average-sized man contains about 13 pints of blood. The sudden loss of less than half that amount threatens his life.

Blood transfusions can help save it—with the aid of a blood bank.

The Texas Medical Association says serious blood loss during injury, childbirth, an operation, or a disease that caused hemorrhaging can lead to shock and, left untreated, even death. The person in shock may receive a whole blood transfusion or certain blood components.

For operations, a transfusion may precede the procedure and help the patient build tolerance toward it. Or a transfusion may take place during the operation to offset lost blood.

For an operation that may require a transfusion, the doctor orders procedures to match blood from the blood bank with that of the patient. Human blood comes in four types: A, B, AB and O. The most common are O and A. Blood the patient receives must be compatible with his own. The donor's and patient's blood also are tested

for sensitivity to other factors, which occur particularly in people who have received previous transfusions or have been pregnant.

Recent developments in blood banking have made it possible to separate blood into many of its components: white blood cells for fighting infection, red blood cells for delivering oxygen, and platelets for helping stop bleeding, along with numerous components of the liquid (plasma) part of the blood. Each component can save lives under the right circumstances.

In addition, New York researchers now have successfully changed type B red blood cells into type O cells by using an enzyme from green coffee beans. The enzyme—alpha galactosidase removes a sugar molecule from the surface of the type B cells, turning them into type O cells. The researchers say they hope to find a similar method for changing type A blood into type O. Still, blood banks constantly need blood to replenish their supply.

Veterans to get larger pensions

More than 600,000 veterans and their survivors in Texas and elsewhere will be getting larger Veterans Administration pension checks next July 1—the result of a 7.4 percent increase in the government's cost of living index.

Some 1.9 million VA pensioners are affected in some way by the cost of living index, said Ted W. Myatt, Director, Houston VA Regional Office.

Pensions are paid to veterans totally and permanently disabled from circumstances unrelated to their military service. They are paid also to survivors of veterans who are in need. Unlike compensation paid to those disabled because of military service, pensions are affected by income from other sources.

The 600,000 who will get increases this month and payable July are those who are receiving benefits under the "improved" VA pension plan inaugurated by Congress in 1979. The plan links VA pension rates to adjustments in social security payments. Before the change, an individual's pension was subject to reduction each time social security increased.

Pensions for veterans and survivors under the "old plan" remain fixed and payable at the rates in effect in 1978. But those rates are protected against reductions that would otherwise result from cost of living increases in their income from other

sources. "Old plan" recipients may request transfer to the "improved" plan at any time, Myatt pointed out. The agency will carefully review each application to advise applicants to choose the plan which works to their personal advantage.

With the new increase, a veteran with one dependent and no other income will receive \$6,980. But each additional dependent will add \$903 per year.

For further information, telephone the Houston VA Regional Office.

Houseguests in the home of Mr. and Mrs. David Marrs during the holiday weekend were his parents and grandmother, Mr. and Mrs. Wayne Marrs and Mrs. Eva Marrs of Lovington, N.M.

UNCLE SAM DRIVES the refreshment wagon during the golf tournaments at the Country Club during the July Fourth weekend. Flags flew from his vehicle and the red, white and

blue bunting blew in the breeze. Under the top hat and behind the dark glasses, Uncle bears a sharp resemblance to Bill Glasscock.

Ozona girls in racing meet

Eight Ozona girls, Donna Sanchez, Pam Miles, Vanessa Miller, Diana Sanchez, Christina Martinez, Lacy Miller, Kelly Williams, and Christy Cotton, traveled to San Angelo last Thursday to compete in the Hershey's National Track and Field Youth Program regional meet. The girls qualified for the state meet in Austin on July 10 by placing first or second in their events. Winners at state will be eligible for consideration to participate in the national meet in Charleston, West Virginia in August. The Hershey's sponsored meet is for boys and girls between the ages of nine and fourteen.

In running events, Kelly Williams placed first and Christy Cotton, fourth, in the 200 meter dash for nine and ten year olds. The thirteen and fourteen year old division winners in the 200 meter dash were Vanessa Miller, first, and Pam Miles, second. In the 400 meter dash, 9 and 10 year olds, Christy Cotton was first and Kelly Williams, fourth. The 400 meter dash for 11 and 12 year olds was won by Christina Martinez with Lacy Miller taking third place. Vanessa Miller and Pam Miles were first and second in their division 400 meter dash.

In the 800 meter run, Christina Martinez was first and Lacy Miller, third. Donna and Diana Sanchez competed in the 1500 meter run. The race was so close that judges called a tie between the two sisters and gave both girls blue ribbons for first place.

Field event results were as follows: standing long jump, 9-10, Kelly Williams, second and Christy Cotton, fourth; standing long jump, 11-12, Lacy Miller, second; standing long jump, 13-14, Vanessa Miller, first, Diana Sanchez, third; softball throw, 11-12, Christina Martinez, first; softball throw 13-14, Donna Sanchez, third.

Crawford receives scholarship

Terry Wayne Crawford, a freshman industrial arts student entering Sul Ross State University in the fall, has been awarded a \$400 industrial arts departmental scholarship for the fall and spring semesters at Sul Ross. "Terry has shown great potential and we hope to encourage his education with this award," said Dr. William Leavitt, chairman of the Industrial Arts Department at Sul Ross, in making the award.

A graduate of Ozona High School, Terry is the son of Mr. and Mrs. Bill Crawford of Ozona.

Outposts set for drilling

Omeegas Minerals Inc., Corpus Christi, will drill two outposts to the Crockett County portion of the Weger (San Andres) field of Crockett County, 23 miles northwest of Ozona.

Clean up your air

Indoor pollutants are a hidden health threat. Are they conquering your home's air?

If so, clean up your air, advises Dr. Jane Berry, a housing and home furnishings specialist on the home economics staff of the Texas Agricultural Extension Service.

Indoor pollutants that are potential hazards for humans include carbon dioxide, carbon monoxide, formaldehyde gas, ultraviolet light waves, other chemical vapors, dust, pollen and tobacco smoke.

Berry recommends three methods for controlling indoor pollution:

Allow enough fresh outside air to come inside to dilute indoor pollutants by using an air-to-air heat exchange system to pre-heat or pre-cool outside air. As the system pre-heats or pre-cools outside air, it saves energy that would otherwise be used by your main cooling or heating system--and it cleans your inside air. This system is a small supplemental device available from many heating and cooling companies.

Bring outside air indoors with adequate ventilation--this could be eave vents or simply the occasional opening of windows and doors.

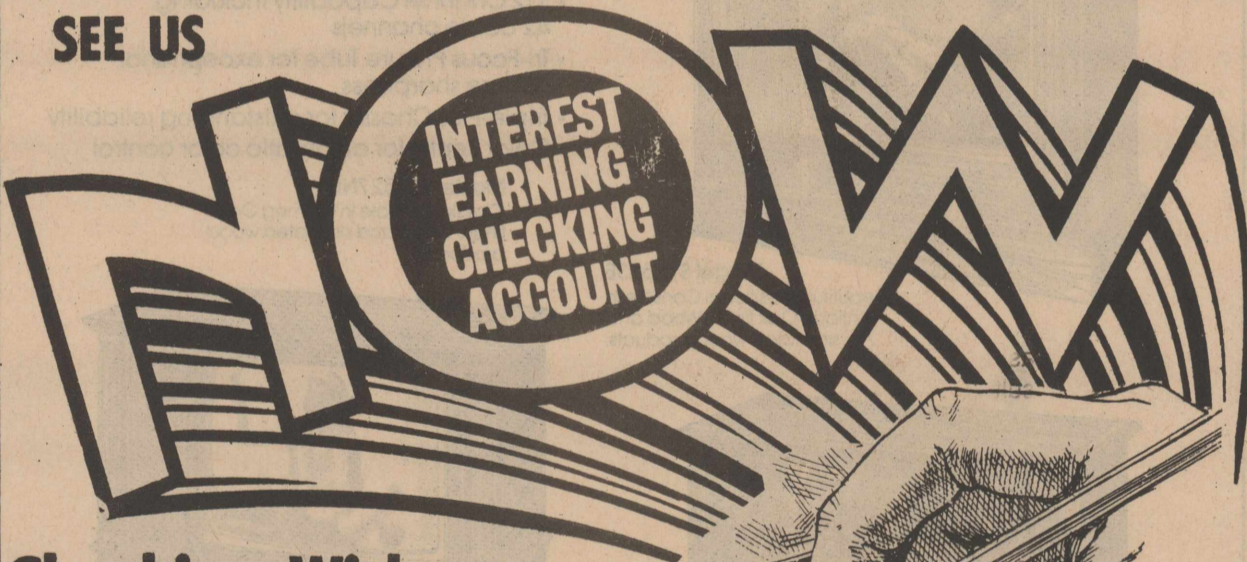

MENS CLUB CHAMPION-Les Russell won the club championship at the annual Ozona Country Club tournament held over the holiday weekend. Watching him tee off are Rick Webster, Steve Poage and Randy Upham. Russell beat out Poage and Duane Childress for the top spot.

Catfish--the whiskered favorite to eat or catch

To many Texans, the mention of catfish immediately creates visions of trotting, juglining or still fishing in a favorite pond, lake or river. To others, it means platters of golden fried fish complete with all the trimmings.

According to Billy Higginbotham, fisheries specialist for the Texas Agricultural Extension Service, catfish are members of the family Ictaluridae and are readily distinguished from other freshwater fish by their

scaleless bodies, sharp dorsal and pectoral spines, and barbels or whiskers located around the mouth.

The major species of catfish sought by Texas anglers are the channel, blue and flathead. Yellow and black bullhead catfish are not considered major sport species in Texas, although they are the specific target of some fishermen.

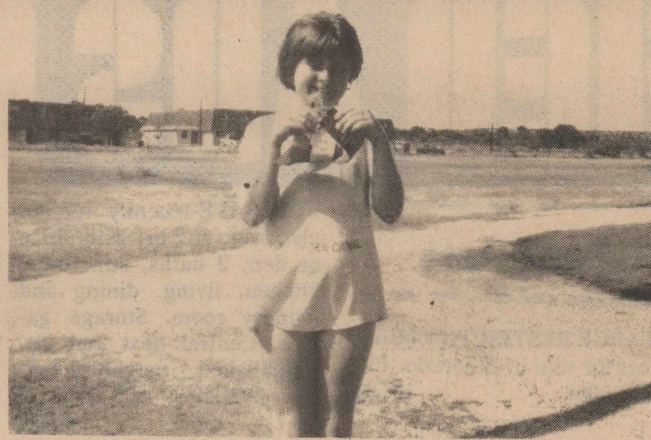

Channel and blue catfish are easily distinguished from the flathead because of their deeply forked tails. The blue catfish, as its name implies, is bluish in color on the back and sides and white on the belly. The channel catfish is somewhat darker in color and usually has dark spots along the sides on fish smaller than five pounds. The easiest method of distinguishing between these two species is by examining the shape of the anal fin. The blue catfish has an anal fin with a straight margin, whereas on the channel, the fin is somewhat rounded.

The flathead catfish is native to all major river systems in Texas and can be found in most large reservoirs. This species has a blunt or unforked tail and the lower jaw protrudes past the upper jaw. Flathead catfish are dark to olive brown in color and appear mottled or splotchy on the back and sides. For this reason, many anglers simply call this species opelousas cat or op. In muddy water, the color is paler, thus the name of yellow catfish.

Catfish are primarily bottom dwellers. The barbels or whiskers act as feelers to orient the fish along the bottom. The barbels also serve as an aid in locating food. Catfish rely heavily on their sense of smell to locate food. It is this acute sense of smell that makes stink and blood baits so effective for taking catfish.

Channel and blue catfish eat a variety of food, both dead and alive. Fish, aquatic and terrestrial insects, and crustaceans are favorite foods. Flathead catfish are active predators and rely mainly on sight for locating food. Live fish make up the bulk of their diet and fishermen specifically after flatheads use live fish almost exclusively as bait.

Although catfishing is a year round activity, these species are most active during the spring, summer and fall, Higginbotham says.

SWIMMING WINNER in the contests held July 4, at the Country Club pool, was Summer Shacklette, daughter of Mr. and Mrs. Paul Shacklette. Summer shows off her collection of ribbons.

Family personnel policies to come

Family-oriented personnel policies may be in the near future for employees. A greater public awareness of the need for family-sensitive personnel policies was a major outgrowth of the 1980 White House Conference on Families. As a result, greater flexibility will be expected from employers, along with a more dedicated effort from company insurers to make "pick-and-choose" employee-benefit packages available.

Emergency steps can limit shock

The condition known medically as shock results from a lack of blood circulating in the body.

External or internal bleeding or the loss of body fluids in severe burns can interrupt circulation. Hard blows, crushed bones or muscles, bone fractures, and bullet wounds may cause shock.

Shock is dangerous because its symptoms can go unnoticed by the untrained person, according to the Texas Medical Association. An accident victim may appear only slightly injured but can be suffering from shock. If not treated promptly, it can cause death.

Early signs that may indicate shock include cool, pale, clammy skin; restlessness and anxiety developing into mental cloudiness, listlessness and unconsciousness; and a pulse that is weak but of normal rate.

Late signs include great thirst; rapid, weak pulse; shallow, irregular breathing; and nausea and vomiting.

If you come upon an accident victim, you should first try to control severe bleeding and restore breathing while someone calls a doctor. Next, treat for shock. Here are some tips:

Keep the person lying down. If neck or back injuries are apparent, keep the victim lying flat. If the person has chest pains or difficulty in breathing, slightly elevate the head and shoulders, but not the legs. For other injuries, elevate the feet and legs 8 to 12 inches.

Protect the person from chill or dampness, but don't let the victim become overheated.

Lost fluids must be re-

placed, but do not try to force liquid into the mouth of an unconscious person. If the person is conscious, give plain water. Never give alcoholic beverages. Start slowly but give the person all the water he or she can drink. Anything that lessens pain will help in reducing shock damage.

Reassurance often works like medicine. Handle your patient calmly and confidently. Above all, do not panic.

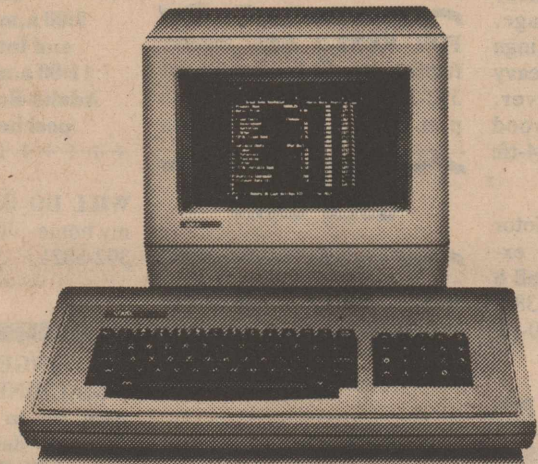

AIRPLANE FUEL TAX COULD HELP MAINTAIN LOCAL AIRPORTS

An aviation fuels tax similar to the gasoline tax paid by motorists is needed to maintain local airports so vital to the state's economy, says a Texas Transportation Institute researcher.

George Dresser, who has studied Texas airports for more than 10 years, said a five cents per gallon tax on noncommercial use of aviation fuel would bring in about \$7 million per year.

Many existing general aviation airports have not been maintained or modernized and will require substantial investment to bring them up to acceptable standards, he said. Dresser, a researcher with the Texas A&M University-based center, said an aviation fuels tax seems the best solution to the problem.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective July 27, 1982, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 13.4 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

Notice to El Paso Area Customers

Effective January 1, 1982, Southwestern Bell adopted the Mountain States tariffs in effect for El Paso County. Southwestern Bell proposes to merge the separate El Paso tariffs with its tariffs applicable to the rest of Texas. The resulting new rate schedule is on file with the PUC and the El Paso area municipalities served by Southwestern Bell, and is available for inspection at our El Paso business office.

Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs. While Southwestern Bell has proposed no increase in long distance rates, any change in those rates would also affect customers of other telephone companies.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 27 de julio, 1982, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 13.4 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios que resulten de la manera en la cual Southwestern Bell aplique sus tarifas.

Aviso a Clientes en la Región de El Paso

Con vigencia a partir del 1o de enero de 1982, Southwestern Bell ha adoptado las tarifas de Mountain States efectivas en el condado de El Paso. Southwestern Bell propone unir las tarifas de El Paso con sus otras tarifas que se aplican al resto de Texas. El nuevo arancel que resulta de ésta unión se ha archivado en la Comisión de Servicios Públicos (Public Utility Commission), al igual que en las municipalidades de la región de El Paso servidas por Southwestern Bell, y está disponible para inspección pública en nuestras oficinas de El Paso.

Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio también afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell. Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para larga distancia, cualquier cambio en las mismas también afectaría a los clientes de otras compañías de teléfono.

Sports Fans

I BET YOU DIDN'T KNOW

By Jerry Lay

What would you say were the 5 most dramatic events in sports history? One national news service picks these: Bobby Thomson's home run in the 1951 playoffs that climaxed the Giant's incredible pennant drive after being 13 1/2 games behind in August. Joe Namath pulling off the amazing Super Bowl upset of 1969. Franco Harris' miraculous catch of a deflected pass, on the last play of a 1972 playoff game. Joe DiMaggio's 56-game hitting streak in 1941. And the stunning upset victory of the U.S. hockey team in the 1980 Olympics.

Who's the only man in baseball history to hit 200 or more home runs in each major league? Only man ever to do it is Frank Robinson who hit 343 homers in the National League and 243 in the American.

Here's an incredible fact. The entire payroll for the 25 players on the Minnesota Twins baseball team this season is less than the Montreal Expos are paying one player. The payroll for all 25 Minnesota Twins this year is reported at \$1.9 million. That's less than Montreal is reportedly paying catcher Gary Carter this season.
