## Boy Scouts earn cycle badges

Eight Ozona Boy Scouts left Ozona by bicycle Friday morning and pedaled the 85 miles to San Angelo to earn their cycling merit badges. The boys traveled along State Hwy 163 and U.S. Hwy. 67, followed by assistant scoutmaster Blake Ballard in a pickup. They arrived in San Angelo just at sunset. After spending the night in a Boy Scout cabin on the banks of the Concho River, they returned to Ozona Saturday, taking the same route. Scouts making the trip were Daniel Vasquez, Sidney Gunnels, Roger Flores, Shawn Ballard, Jason Montgomery, Kenneth Sessom, Peter Shacklette, George Wall and Jimmy Grado.

## Commission services for Huffman

There will be a Commissioning Service Sunday, Dec. 4, for Mr. Charles Huffman of Ozona. The service will be held at Hope Lutheran Church, 415 E. Second St., in Sonora at 3:30 p.m.

Mr. Huffman completed his training in June of 1983 at Concordia College in Milwaukee, Wisconsin and has been certified to serve as a Lay Minister in the Lutheran Church-Missouri Synod. He will be serving both Hope Lutheran Church in Sonora and Faith Lutheran Church in Ozona. Participants in the service include Rev. George Ascher of Brownwood, Rev. Ken Holdorf of San Angelo, and Rev. Doug Williams of Eden.

## Cold front brings rain

A cold front, which created a great deal of damage in some parts of Texas, left .45 of an inch of rain in Ozona as it blew through early Wednesday morning. The rain came with gale-force winds which entered the area late Tuesday night. There have been no reports of wind damage here, although east Texas had heavy damage from the same front the following day.

## Contest winner

Beecher Montgomery won the weekly football contest this week outright, missing only one game. Second place went to Gene Castro, who only missed two. The contest will continue through the season and entry blanks may be found on the sports page, sponsored by local merchants. All entries must be in the mail or the post office by five p.m. on Friday.

## No ugly dolls for Ozona kids

A check with Ruth and Margaret at the Happy Hollow revealed they had not purchased any of the sought after Cabbage Patch dolls. They saw the dolls at market and thought they were so ugly they would never sell. However, they have had numerous requests for the dolls, one from as far away as California.

## House burglary is the Crime of the Week

Wednesday afternoon, November 23, someone entered the Dick Kirby residence at 119 Cedar Drive. It is believed that entry to the house was through the garage doors and then through another door that led inside the residence. The intruders went through the kitchen and into the dining room and removed over 19 silver trays and bowls. Many of these silver items were in black Pacific cloth bags. A tablecloth was used to carry the items from the home. Crime Stoppers ask that anyone noticing someone

carrying a tablecloth with what appeared to be items inside call Crime Stoppers at 392-5000. If you hear of anyone trying to sell silver bowls or trays, call Crime Stoppers at 392-5000. If the information you furnish leads to the arrest or indictment of those responsible, Crime Stoppers will pay you \$800.00. Remember you do not have to give your name. You will be identified through a code number and the payment if a payment is due, will be made as you direct. Call Crime Stoppers today at 392-5000.

## Judge Fields declares Christmas Seal Month

Judge A. O. Fields has signed an official proclamation declaring December as Christmas Seal Month in Crockett County. Over 1,000,000 Texans suffer from some form of chronic lung disease. The American Lung Association of Texas is concerned about each one of them. Program activities sponsored by ALAT to help these Texans are: The Better Living, Better Breathing Clubs for adults with lung disease; the Family Asthma Program for children

with asthma, their families and friends; educational programs in schools to help students make informed decisions about smoking; support groups in industries to help people who smoke "Kick the Habit"; educational programs for health professionals to enable them to provide expert care to lung disease patients. Judge Fields encourages all citizens of Ozona to answer their Christmas Seal letter. It's a "Matter of Life and Breath."

## Sheriff denies rights violation

County Attorney Tom Cameron filed an answer on behalf of Sheriff Billy Mills last week to a civil suit which was filed in U.S. District Court in San Angelo earlier this month by an inmate in Crockett County Jail, which denied all the allegations in the plaintiff's original complaint. Thomas Bloecher filed suit against Crockett County Sheriff Billy Mills, alleging that conditions of the Crockett County Jail violate his civil rights. Bloecher, who is in jail under a charge of auto theft, filed suit on his own using a form distributed by the Federal Government along with instructions and location of the district where it should be filed. Bloecher lists his permanent address as Sarasota, Florida. He filed his complaint under the Civil Rights

Act, saying he wants conditions in the Ozona jail brought up to 1983 standards. Less than a year ago Sheriff Mills received a commendation from the Texas Department of Jail Standards which gave approval to the jail. It was quite a feather in the cap of the Crockett County Sheriff's Department, since the jail had been out of compliance since the D of JS came into being. Getting the jail approved took years and a lot of tax money. Bloecher, in his complaint, alleges his civil rights were

violated because the jail diet provides no fresh fruit, no juice and no variety in meals. He also complains he has not been provided with a television set and it prevents him from keeping up with current events. Also, the jail has no windows, no air conditioning and he is allowed only two hours a week of recreation. An official at the jail informed the Stockman the inmate in question refused to go into the recreation area. In his answer, Sheriff Mills denies all allegations and asks that the suit be set for hearing.

## Prosecutors discuss justice

The following article is a public service by the Ozona Stockman through the cooperation of Bill Mason, District Attorney and Tom Cameron, County Attorney of the 112th Judicial District. Its purpose is to make you aware of a prosecutor's role, of your responsibility as a resident of Crockett County and how we can work together to alleviate some of society's problems.

### AMERICAN JUSTICE

#### [Part I] Crime & Imprisonment

The system of justice in America is complex, often confusing, and even contradictory. No doubt misconceptions about it flourish among the public. Here is the first part of a short quiz to test your knowledge of its operation and effect.

The entire quiz (three parts) is based largely on research gathered by U.S. News & World Report. It is offered here as general information, not specific to this county, nor is it a substitute for legal advice on any issue. Rather, it should serve to heighten your interest and awareness of concerns of the justice system.

In the last two decades the rate of reported violent crimes has more than quadrupled. This has put an ever-

increasing strain on police, prosecutors, courts, and prisons-whose facilities and staff have not quadrupled.

On the average, for every 100 felony crimes committed, how many result in a person going to jail? Only 5. Eighty of the 100 cases will go unsolved; the others (save the one imprisonment) will result in probation for the defendant, bail-jumping by the judge, or rejection by the prosecutor.

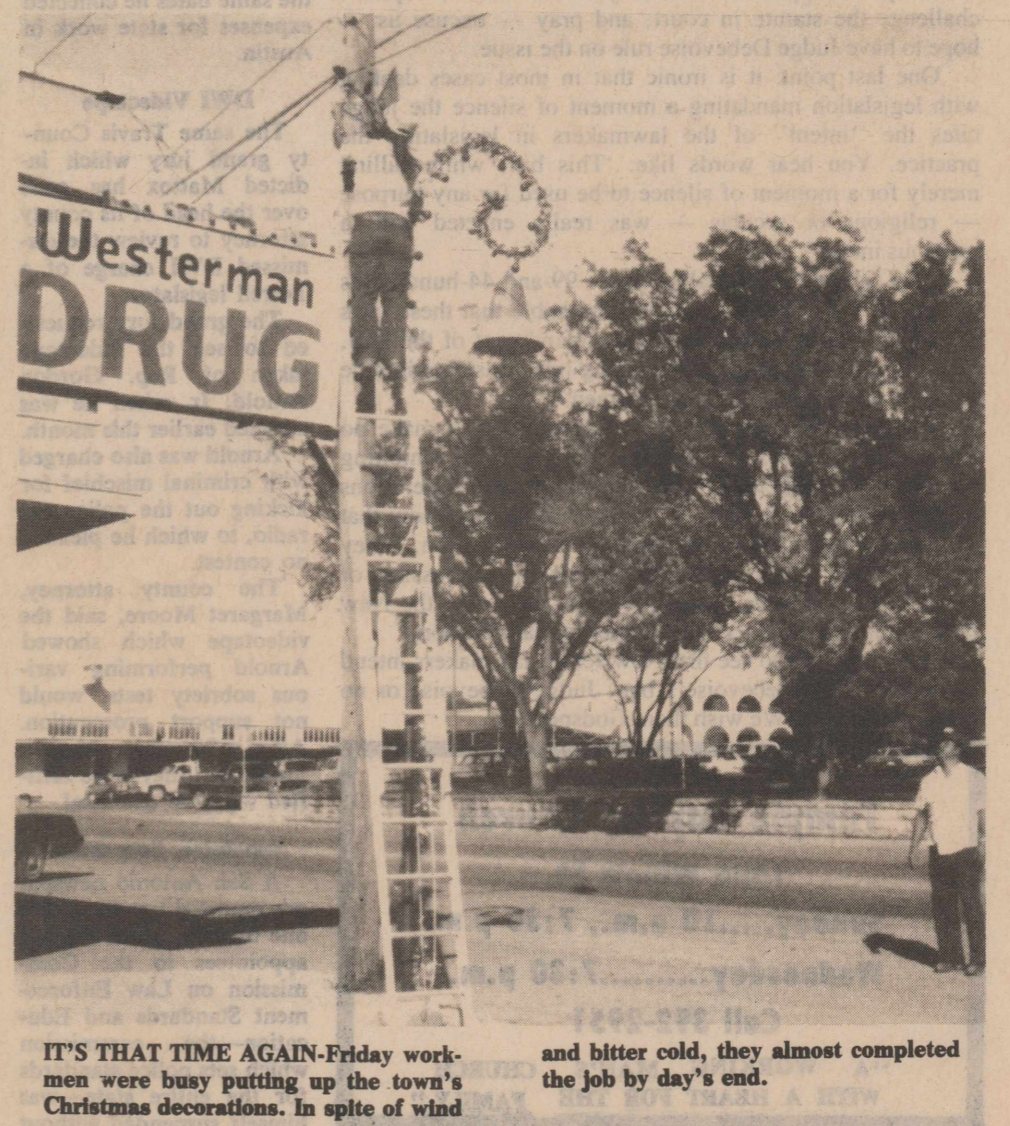

400,000 persons are inmates in America's prisons? This is double the number of a decade ago.

The average time served in prison by a convicted felon is 26 months. That average might be longer if more cells were available. As it is, parole boards must release some inmates in time to make room for new ones.

About 1,000 persons await death sentences in the U.S. Given the legal battles, however, few are likely to be executed soon.

About 25% of probationers and parolees are arrested for new crimes. Defenders of this figure see it as proof that rehabilitation works; critics see it as proof that the system is too lenient.

This article is provided by Bill Mason, your District Attorney, and Tom Cameron, your County Attorney.

IT'S THAT TIME AGAIN-Friday workmen were busy putting up the town's Christmas decorations. In spite of wind

and bitter cold, they almost completed the job by day's end.

## Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

"Autumn to winter, winter into spring, spring into summer, summer into fall, so rolls the changing year, and so we change, motion so swift, we know not that we move." Dinah Molock Craik

It seems we are having more northerly blows in than we usually do at this time. We hope to miss a severe freeze so our colorful trees, shrubs and vines will give us a beautiful fall show. The light rains we have had have been most welcome.

The gardener can now take things easier than during almost any month in the year. Once the outdoor garden is tucked away for winter, there is comparatively little to do, though planting should continue until very cold weather.

When fruit trees have dropped their leaves they may be given a first dormant spray and pruning may be started. Dormant spraying to combat scale, insects, and certain other pests and diseases may now be given attention for evergreens and other plants. Do not spray if there is danger of the temperature dropping below freezing.

Some of the fruit trees that do well in this area are: Plums-Santa Rosa, a large red plum that ripens in late June seems to be the best. Bruce is a large red plum that ripens in May and needs a pollinator to produce fruit. Methley, a purple plum ripens in early June. Figs-Texas everbearing produces large yellow figs. Celeste has small purple fruit of high quality.

Pear-the Kieffer is dependable and productive. Le Conte does especially well here. Pecans-check with county agent for best varieties to plant here and he may have the names of newer fruit trees that do well here.

Hardwood cuttings of deciduous shrubs may be made and planted in a sheltered border, or buried in sand, to be taken out and planted where you want them in the spring. Among these that can easily be increased in this manner are flowering almond, Forsythia, Prit, Philadelphus, Crepe Myrtle, Dogwood, Weigela and others.

A reminder to plant pansies if you haven't done so already.

For many of your friends and kin you might make Christmas a gardening affair. There are so many creative gifts as well as shrubs, trees, roses, bulbs, books and houseplants.

## Extension office news

By Rachel Hall

Christmas trimmings, trees and wrappings add up to festivity, but also to fire; the most frequent and most often tragic of all of the season's hazards. To help prevent a Christmas fire:

Pick a tree as fresh as possible. Be sure needles are not dried out.

Cut the trunk diagonally about two inches above the original cut and place in water, wet dirt or sand. Set up away from heat.

Do not use candles on a Christmas tree. Use only lights with UL (Underwriters' Laboratories) label of approval. Be sure cords are in good condition. Check for overloaded circuits. Keep cords away from traffic areas. Identify proper types of outdoor lighting.

If using a fireplace, be sure the opening is completely covered with a tight screen.

Do not burn a large amount of trash or wrapping paper in a fireplace. Remember that soft woods, such as pine and spruce burn quickly, throwing sparks and coating the chimney with resins that could start a chimney fire.

Avoid hanging stockings or greens from the mantel if the fireplace is being used.

Make Christmas trees, greens, and other items flameproof with this simple formula: 14 ounces borax, 6 ounces boric acid, 1 gallon water, 1/2 tsp. low sudsing detergent. Mix thoroughly, saturate trees and/or greens by soaking them completely in the solution.

Fire is not the only Christmas hazard. Slippery streets, the holiday rush and poor visibility take their toll every year. One of every four Christmas accidents involves a pedestrian. Christmas toys also contribute to the season's mishaps, especially those which are unsafe or

unsuited to the age of the recipient.

## THE DAY THE COMPUTER FAILED

If you're tired of being treated like a number you'll appreciate this story... They asked the computer a simple question it couldn't answer!

"NOT PROGRAMMED FOR THIS FACTOR." Everyone was astounded. Then they discovered that a typist copying the word sole had spelled it S-O-U-L.

Thank the Lord that all of life cannot be programmed like a computer. There are values and realities—precious ones—which defy mathematical expression.

We will be looking for you in Church next week. We are the millions of your neighbors who are seeking and finding spiritual answers to life's problems.

## County government in good shape prof. says

County government is alive and well in Texas and is doing a good job just the way it is, a professor of political science said recently at College Station.

Addressing the first annual Tax Assessor-Collectors Seminar at Texas A&M University Nov. 15-17, Dr. Willard Stouffer of Southwest Texas State University pointed out some of the things that he viewed as being "right" about county government.

"First of all, county government in Texas is run by some mighty patient, hard-working people, and secondly, it works," Stouffer said. "For over 100 years, in both good times and bad, the men and women elected by the people of Texas have made county government work."

One reason that county government works as well in the 20th century as it did in the 19th century is that it adapts to changing conditions, Stouffer told the more than 125 county officials in attendance. "This is the third thing that is right about

county government; it can change and does," he noted. "County government has changed through Constitutional amendments, statutes, court rulings, attorney general opinions and by the actions of county officials. In every case it has been the county officials that have brought about effective change."

"Another thing that is right about county government is that the folks who run it are professionals," Stouffer said. "They take their jobs seriously, and they are constantly looking for new ways to improve the way they do things."

County government also is flexible, he noted. There is a lot of structural variety in county governments across Texas, enabling them to address specific needs.

In addition, county government offers a wide range of services, depending on county needs and capabilities. Some of these include day care centers, meals on wheels, roads, hospitals, libraries, water and sewer service, and solid waste management.

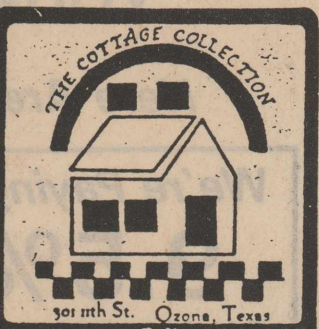

"A final thing that is right about county government is that it is only beginning to realize its vast potential," Stouffer emphasized. "In the years to come the counties of Texas will play an increasingly important role in meeting the problems of statewide growth and metropolitan sprawl."

"While all these are 'right' things about county government, there is one thing that is 'wrong,'" the political science professor added. "It has to do with overcoming your inherent modesty. You have not been doing a good job in telling the people of Texas the good news about county government."

"Let your local news media know about the accomplishments of county government," he told the seminar participants. "You are performing a valuable service with such actions because many people don't believe that our system of county government works. You can help the young people of today become the leaders of tomorrow by telling all the good things about county government. Newspapers like success stories, but you've got to help them get the information."

"Let's not keep the good news of county government a secret," Stouffer challenged the officials.

Joe Tom Davidson returned home last week after spending several weeks receiving treatment in a Houston hospital.

## Crockett County Care Center News

BY ANN McCARTNEY  
DIRECTOR OF ACTIVITIES & SOCIAL CARE

Thanksgiving is now behind us and Christmas is just around the corner. Our young people of the community were so kind to remember our residents. Vicki Stoke's fifth grade students all sent their "grandparents" a poster and a turkey leg, made of construction paper. Twenty-two students participated in this class project.

The G.A.'s of the First Baptist Church, under the leadership of Judy Adams, brought individual candy favors and a nice Thanksgiving program on Tuesday afternoon. Some nineteen girls participated. Wednesday afternoon Marina Garza and Sally Borrego brought their six 4-H girls and Fannie Sanchez brought five 5th grade girls from her church and together both groups helped Father Richard Altenbaugh with the song service part of the Bible study he held on Wednesday afternoon.

Thanks goes to these girls for bringing candy favors, beauty parlor supplies, and lots of friendly smiles along with their lovely songs.

Thanks also goes to Mr. and Mrs. George Alexander and Paul Cavin for the memorial sent in memory of Clara Williams.

Tuesday we had lovely weather and a nice time going across the street to the League's bazaar. Eleven residents made the trip, six of whom went in wheelchairs. A real big thank you goes to the League for letting us in early to look and for escorting our residents around once they were inside!

Wednesday morning all our ladies had their hair fixed for Thanksgiving. Lola Rios, Eglantino Estrado, and Anna Yruegas were our volunteer workers.

Thursday morning I gave a special Thanksgiving reading in the living room and then eight of our lady residents met in the dining room and made a fruit salad for supper.

Friday morning's bingo winner of a gift certificate from Western Drug was Nila Turnell. Maude Pettit and Minnie Karr tied for second. Paul Cavin and Bertha Miller tied for the El Chato dinner for two on Tuesday. Volunteers for the two games included: Alice Ross, resident and volunteer, Maude Pettit, resident and

# Select the perfect ham for Christmas holiday

Selecting the "perfect" ham for your holiday dinner can require some careful label reading.

Variations in the moisture content, style, cut and brand of ham affect its price and the quality of the product you put on the table, says foods and nutrition specialist Dr. Dymple Cooksey.

But these variations are clearly stated on the label so consumers can compare features and costs, says Cooksey, a home economist with the Texas A&M University Agricultural Extension Service.

The first choice you have to make is between a fully cooked or a cook-before-eating ham. The two types of hams are processed for different amounts of time, but both are pre-cooked long enough to make them safe to

eat, she notes. Fully cooked hams offer convenience since they can be eaten as is, or baked for about ten minutes per pound. Smoked or cured hams require further cooking to develop desired flavor and tenderness, usually 18 to 20 minutes per pound for whole hams.

Fully cooked and cook-before-eating hams contain equal amounts of moisture at the end of processing, but usually differ in moisture content by the time they are served, says the specialist. Hams that contain no more moisture after processing than before, are labeled "cured smoked," or "fully-cooked," with no further qualifying statement on the label.

Because cured or smoked hams require additional

home cooking their moisture content at serving time is lower than fully cooked hams. This means the meat will be somewhat denser and less juicy.

"The 'water added' statement on fully cooked hams is there to call attention to the amount, rather than the presence of water," says Cooksey.

If more moisture is added to a ham than is removed during processing the label must carry the words, "water added." Even then, the weight of the finished product cannot exceed the weight of the fresh ham by more than 10 percent.

The choice of a bone-in or boneless ham has a great affect on yield, notes the home economist.

In a semi-boneless ham, bone is removed to the joint at each end of the ham, leaving only the long bone in the center. These hams yield four to five servings to the pound.

Boneless hams may be purchased in a wrapper or in a can. Wrapped boneless hams have about five servings to the pound; but canned hams yield only four, because the net weight will include the congealed juices in which the ham was packed.

Shank or butt portion hams are often not the good value they appear to be because they are ham ends with center cuts removed. Yields vary, says Cooksey, but an estimate of two and one half serving per pound is usual for shank or butt hams with bone.

Mr. and Mrs. Tom Montgomery were in San Angelo Thursday to spend Thanksgiving Day with their son and his wife, Jim and Debbie Montgomery, and her family from Dallas.

# Ozonans enjoy safe holiday

Ozonans enjoyed a safe holiday period, but the day before and the day after was sad for two Ozona families.

The Dick Kirby home on Cedar Drive was burglarized sometime before 3:30 Wednesday afternoon. The thief took several hundred dollars worth of silver, a ring valued at at least \$500, belt buckles and silver baby cups belonging to the Kirby daughters. Adding insult to injury, the thief wrapped the stolen goods in the table cloth Mrs. Kirby had planned to use for Thanksgiving dinner the following day. So far no clues have been left leading to the identity of the thief.

Monday morning a fire place fire ruined the recently remodeled interior of the T. R. Connor home on Eleventh St. and Mrs. Connor was slightly burned while trying to put the fire out. After firemen arrived on the scene and extinguished the blaze, heavy smoke damage was reported along with burned carpet and furniture in the room where the fire started.

# Lions trounce Rankin

The Ozona Lions, in their first game of the season, downed Rankin here Friday night to the tune of 48-29, and looked very impressive this early in the season.

Steve Sanchez was high point man for the Lions with 18. David Vargas swished the nets for 12 points.

Others on the Lion varsity basketball team are Lonnie Galindo, Harvey Fierro, Bob Reneau, Marcello Hernandez, Ishmael Mavarrette, Paul Tambunga and Ed Borrego.

The junior varsity also won their game with the Rankin J.V.

# Good record keeping necessary for taxes

Keeping accurate financial records is probably one of the best tax saving actions that a taxpayer can take, the Internal Revenue Service advises.

When the time comes for filing a federal tax return, good records can mean the difference between filing an accurate return or an inaccurate one, the Internal Revenue Service says. Also, good records can help taxpayers take all the deductions and benefits to which they are entitled.

Taxpayers are not required to use a specific recordkeeping system. However, receipts, cancelled checks, bills, old returns, and other written documents are essential in proving expenses. Tax records should be kept at least three years after the

return is due or filed, or two years after the tax was paid, whichever is later.

An exception to the three-year retention rule is a property transaction, such as the purchase of real estate. These records should be kept for as long as they are helpful in determining the basis of original or replacement property.

### Temple Baptists hold brief school dedication ceremony

Temple Baptist Church held a brief Flag Dedication Service Monday, November 28, as the opening assembly for their Christian School ministry. The church received an American flag, through the office of Senator John Tower, that had been flown over the nation's Capitol at Washington, D.C. This flag was dedicated as a symbol of pride and patriotism in our country.

Stan Lambert, President of the Crockett County National Bank, was the guest speaker for the dedication. He spoke briefly on the subject of patriotism and the meaning of our flag to the parents and the students who attend Temple Baptist Academy.

An Honor Guard was formed from representatives of the three local law enforcement agencies. John Thompson represented the U.S. Border Patrol, Dale Burger represented the Department of Public Safety, and the Crockett County Sheriff's Department was represented by Danny Simmons. The participation in this Honor Guard in the Ceremony made this a memorable occasion for everyone involved.

Mr. and Mrs. Ricky Perry and Bryan of Abilene spent the weekend with his parents, Mr. and Mrs. Jerry Perry.

### Lionettes beat Rankin Immunization in first game of season Clinic scheduled

The Lionettes basketball team won its season opener against Rankin Tuesday night with a score of 39 to 35. Members of the 1983-84 team are Sherri Buckner, sr.; Kristall Williams, sr.; Lydia Maldonado, sr.; Rita Delarosa, sr.; Christy Parks, jr.; Vanessa Miller, soph.; Donna Sanchez, soph.; Kim Williams, soph.; Julie Reagor, soph.; and Raedene Flores, soph. Managers are Alma Kay Ramos, jr.; Marla Wilson, jr.; and Martha Hernandez, soph.

Sherri Buckner was high point with 15 points, 10 rebounds, and 7 steals. Kristal Williams had 8 points, 5 rebounds, and 1 steal. Vanessa Miller scored 6 points, had 5 rebounds, and 2 steals. Zelda Munoz also scored 6 points, had 2 rebounds, and 1 steal. Donna Sanchez rounded out the scoring with 4 points, 1 rebound, and 1 steal. Other rebounders were Lydia Maldonado, 2; Rita Delarosa, 2; Christy Parks, 2; Raedene Flores, 1; and Kim Williams, 1.

Coach Terri McColloch felt that Buckner played a good game with a lot of hustle and determination, and that she also made some key steals. Coach McColloch stated that Kristal Williams played a good game and that once she got over her nervousness she

played tough. Miller played her usual good defense and made some good offensive moves. Sanchez, a sophomore, did a good job on the press and on running the offense. She made some crucial free throws toward the end of the game. Sanchez shot 67 percent from the free throw line, and Miller shot 100 percent from the line. Munoz did a good job coming off the bench in the last quarter. She made 2 crucial free throws in the last seconds of the game.

Overall, Coach McColloch felt that the team was very tight and nervous throughout the game and was never really relaxed enough to play good consistent ball. They never got control of the fast break and were not as organized on the press as they should have been. However, as the season progresses, the girls will improve and be more consistent with their playing.

The Lionettes' next game will be against the Eldorado Eagles in Eldorado and then they will compete in the Sonora Tournament December 1, 2, and 3rd.

The Public Health Nurses will conduct Immunization Clinic Thursday, December 1 for all youth and students. Records are kept on each child once they attend a clinic.

Shots will be given for tetanus, mumps, measles, rubeella, diphtheria, and tuberculosis. Shots will be administered from 10:00-12:00 noon and 1:00-3:00 p.m. at the Civic Center.

### Felons lose S.S. benefits

Social Security benefits are no longer payable to people convicted of felonies as long as they are in prison, Frank Upp, Social Security Manager in San Angelo, said recently.

Benefits are payable to eligible family members while the person is in prison.

"Under the old law, a prisoner who had been convicted of a felony could not get Social Security disability insurance payments. The new provision extends the restriction to people getting retirement and survivors benefits," Upp said.

Additional information about the rights and obligations of people getting Social Security benefits may be obtained from the San Angelo Social Security Office located at 2214 Sherwood Way. The telephone number is 949-4608.

# Crockett County gas and oilfield activities

Anderson Petroleum Inc., Midland, will drill the No. 1-33 Joe Bean, an 8,200-foot wildcat in Crockett County, surrounded by Canyon sand gas production in the Ozona multipay field, 1 1/2 miles southeast of the Ellenburger opener and lone producer from that pay in the Pikes Peak Draw field and 30 miles northwest of Ozona.

Location is 1,980 feet from the south and 1,000 feet from the east lines of 33-UV-GC&SF. Ground elevation is 2,509 feet.

The Ellenburger opener, Joe McGuire No. 2 Joe F.

Bean "C", drilled to 7,500 feet, was finished Oct. 5, 1981 for a calculated, absolute open flow of 607,000 cubic feet of gas daily, with gas-liquid ratio of 307,984-1, through perforations at 6,851-7,226 feet.

The Excondido multipay field of Crockett County gained its third upper Strawn oil producer and a 1/2-mile north extension to that pay with recompletion of Conoco Inc., Midland, No. 3 J.M. Shannon "8", former Fusselsman producer, 14 1/2 miles northeast of Iraan, to pump 20 barrels of 43.6 gravity oil, plus 140 barrels

# Holiday season to see many non-traditional family celebrations

This holiday season many non-traditional families--mom and dad, children and step-children from previous marriages, and several sets of grandparents-- will gather for a "traditional" family celebration.

"Although the number of families created by divorce and re-marriage has increased dramatically in the past decade, this doesn't necessarily mean that the family as an institution is growing weaker," says Diane T. Welch, a Texas A&M University Agricultural Extension home economist.

"Changes in families mean educational, community and church programs dealing with families have had to change too," says Welch. "Perhaps the most significant change is a greater concern with building family strengths in all types of families."

Family strengths are thought of as a set of factors--relationship patterns, interpersonal skills, social and psychological characteristics, she explains. These factors create a sense of positive family identity, promote satisfying and fulfilling family interaction, encourage the development of family members' potential and help the family deal effectively with stress and crisis.

Families can actively work to develop these strengths especially at holidays, says Welch.

Because traditional family life is often idealized during the holidays, members of non-traditional families may feel badly about being "different," she says.

But non-traditional families should recognize that they are not alone, says the specialist: An increasing proportion of all marriages are re-marriages. As a result, 13 percent of children under 18 now live in step-families. An additional 17 percent of children live in single parent-families.

According to the home economist, non-traditional families can take the following steps to build family strengths during the holiday season:

Before the holidays parents should decide where and how the children will spend their time, without placing them in the middle of disagreements among ex-spouses, parents and step-parents.

Also in advance of the holidays, parents may have to remind relatives that children and step-children need to be treated equally and with sensitivity. All children should be included equally in receiving gifts from relatives and in family celebrations, ceremonies, pictures or other activities.

Take some time to focus on something the family enjoys doing together. This may include hobbies, a sports activity, or even an enjoyable work task, such as remodeling for a family reception room.

Family members should avoid over-extending their

energies by trying to be "all things to all people."

When finances are limited, discuss the situation honestly with the children and consider alternative gifts, homemade gifts and gifts of services to other family members.

Plan together for entertainment that can involve all members of the family, rather than just the adults or just the children. Include those friends who are enjoyed by all members of the family.

Focus on someone or something outside the family to extend the spirit of the holidays. Many community organizations and church groups provide ample opportunities to do things for others, which will also help families develop their own identity.
