Stinging and biting pests are a nuisance whether you're on a camping trip or in your back yard. How can we protect ourselves against these biting pests? The best weapon is knowledge--the pest's habits, habitat, when they are in season and how they inflict misery.

Biting flies (blackfly, sand, horse, deer, and stable flies) inflict deep and painful bites. The blackfly is small, ranges from black to grey in color, has a humpback appearance and seeks any exposed surface to bite. The tiny, almost invisible fly is fond of scalp,

### Win-a-Bike program to benefit M/D

KWGH Radio Station in conjunction with Town and Country Convenience Stores is sponsoring a "Win-A-Bike" program to benefit the Muscular Dystrophy Association. You or your child may pick up a collection packet at the Crockett County National Bank in Ozona and be a winner.

A BMX bicycle is on display at the bank. Stop in and have a look than all you have to do is collect \$250 in the packet, bring the money and checks to the bank, and your very own "FREE" bicycle will be delivered to your home within 5-10 days. These bicycles are the famous BMX models with a one year warranty on frame and forks.

All money must be in no later than September 1, 1985 and remember it will be delivered to your home within a week to 10 days at the most.

This program is a simple one and all donations are tax-deductible.

Each child is reminded to wear their identification tags while collecting. The money collected through this program will help fund research and a wide variety of patient services provided by MDA free of charge. Thank you for your help in this most important effort.

For more information, contact Susie Boles, KWGH Radio in Big Lake, 915-884-2828.

Blood drive

A total of 40 pints of blood was collected here Wednesday afternoon by the United Blood Services at the Chamber of Commerce office. Both

### Family Shelter offers help for battered wives

Battering hurts and is embarrassing to talk about. It occurs in about 30% of all marriages regardless of race, religion, educational level or economic status. Anyone can be abused, even men!

Some people try to ignore the problem—they believe their spouse will change or that men have a right to beat them. Economic dependence, guilt, shame, fear of being alone or having no place to go, traps a woman into staying with an abuser.

If you are a victim of abuse, or know someone who is, there is a place for help, and there are people who care.

The Family Shelter offers a 24-hr.

hotline number, provides emergency transportation, and shelter for victims of domestic violence. Counseling, training, goal setting, and legal referrals are just some of the services offered by the Family Shelter, and all information is private and confidential.

For more information about the Shelter, and how the Shelter can help you, call our 24 hour number in San Angelo at (915)655-5774; call collect if necessary. Put a stop to family violence! Take a positive step.

A representative will be at the Courthouse in the law library the second and fourth Tuesday of each month.

**Social Security to see 50th birthday**

Social Security reaches a major milestone August 14. It was just 50 years ago that the Social Security Act was signed into law. It set into motion a major institution that is just as much a part of America for people who have grown up since the depression as public education or the post office. Just about everyone is affected by Social Security. Over nine out of 10 workers pay into the program. And, well over 36 million people--more than one in seven persons--receive monthly disability, survivors, and retirement benefits.

About \$1.54 trillion in retirement and survivors payments were made from 1940 through June 1985, and about \$191 billion in disability benefits were paid from 1957 through June. The current value of just the survivor protection under Social Security is worth nearly as much as the face value of all private life insurance in force.

Under a pay-as-you-go system, Social Security taxes from today's workers finance benefits for current beneficiaries. Using Social Security as a mechanism, it's a way for one generation to care for another.

The impact of Social Security on the lives of our citizens has been nothing short of revolutionary. Benefits provide a modest base of income for most retirees who are able to live more independent lives. Millions of children can count on benefits should a parent die or start getting retirement or disability checks. And, four out of five workers are insured for disability benefits and can get payments if they are unable to work for at least 12 months.

Social Security has come a long way in five decades. The program works because it reflects the needs of people. Social Security is sensitive to needed changes and responsive to challenges. It is a program all Americans can be proud of as it starts its second half-century of providing service.

**New law to make easier land owning**

Beginning next year family farmers and ranchers may find it easier to acquire land or expand their holdings under the provisions of HB 196, which Governor White signed into law earlier this month.

The bill, sponsored by Representative Pete Patterson and Senator Bill Sarpalus, establishes a low-interest loan program with rates fixed for up to 40 years for the purchase of farm and ranch land. It will be administered by the Veterans Land Board using procedures similar to those of the Veterans Land Program.

The Farm and Ranch Finance Program becomes effective September 1, 1986, if Texas voters approve a constitutional amendment this November authorizing the sale of general obligation bonds by the state to fund the program.

"The program's low, fixed interest rates and low down payment requirements make it a boon to young farmers acquiring their first acreage and to established family farmers and ranchers who want to expand their holdings," Gov. White said.

**Exercise a little Self-Control to Help Keep Your Electric Bill from Stacking Up This Summer.**

Sometimes we have to cut down on the things we like — that takes self-control. Self-control is important when it comes to overindulging in too many calories ... or when it comes to over-cooling your home. Your electric bill can stack up if you set your thermostat too low on hot summer days.

WTU recommends setting your thermostat at 78 degrees or higher. Also, clean or replace your air conditioner filter at least once a month so your unit will operate as efficiently as possible. Keep drapes closed during the heat of the day, and avoid opening outside doors frequently to help keep the cool air in and the heat out.

For more information on how you can help keep your electric bill from stacking up this summer, contact your local WTU office today.
