The Ozona Stockman has been serving Crockett County for over seventy years and we believe we have always "told it like it is," so to speak. As guardian of the public good, we are compelled to speak out on the proposal for a hospital district, as presented to the Commissioners Court Monday.

If your newspaper doesn't tell you what county officials and board members do, who is going to? It is for this very reason the publisher and editor of this newspaper has never served on any public board nor run for elected office. This was the case when Evert White took over the reigns of a floundering newspaper over 74 years ago and it is still the case today. We are not in anyone's "hip pocket," and nobody directs our editorial policy outside of this office.

We have tried to get a commitment from anyone who knows anything about it on what a hospital district would do for the betterment of Ozona and its citizens, but to no avail. The hospital, presently operated by tax monies, would be still operated by tax monies. The formation of a hospital district would not entice the people to use the hospital, nor would it entice more physicians. The hospital would be operated by an elected board having vast taxing powers. A board with members on it who probably know less than the board presently serving about the operation of a hospital.

In asking the court to form a hospital district, the petition states that in granting the request, the court is allowing the citizens of Crockett County the opportunity to decide, by vote, the fate of medical services in Crockett County. Balderdash! At least six hospitals in West Texas and one in Jal, New Mexico, have ceased operations and either closed the doors or closed and re-opened as emergency medical clinics. This is just in the past week or two, and all were operated by hospital district boards.

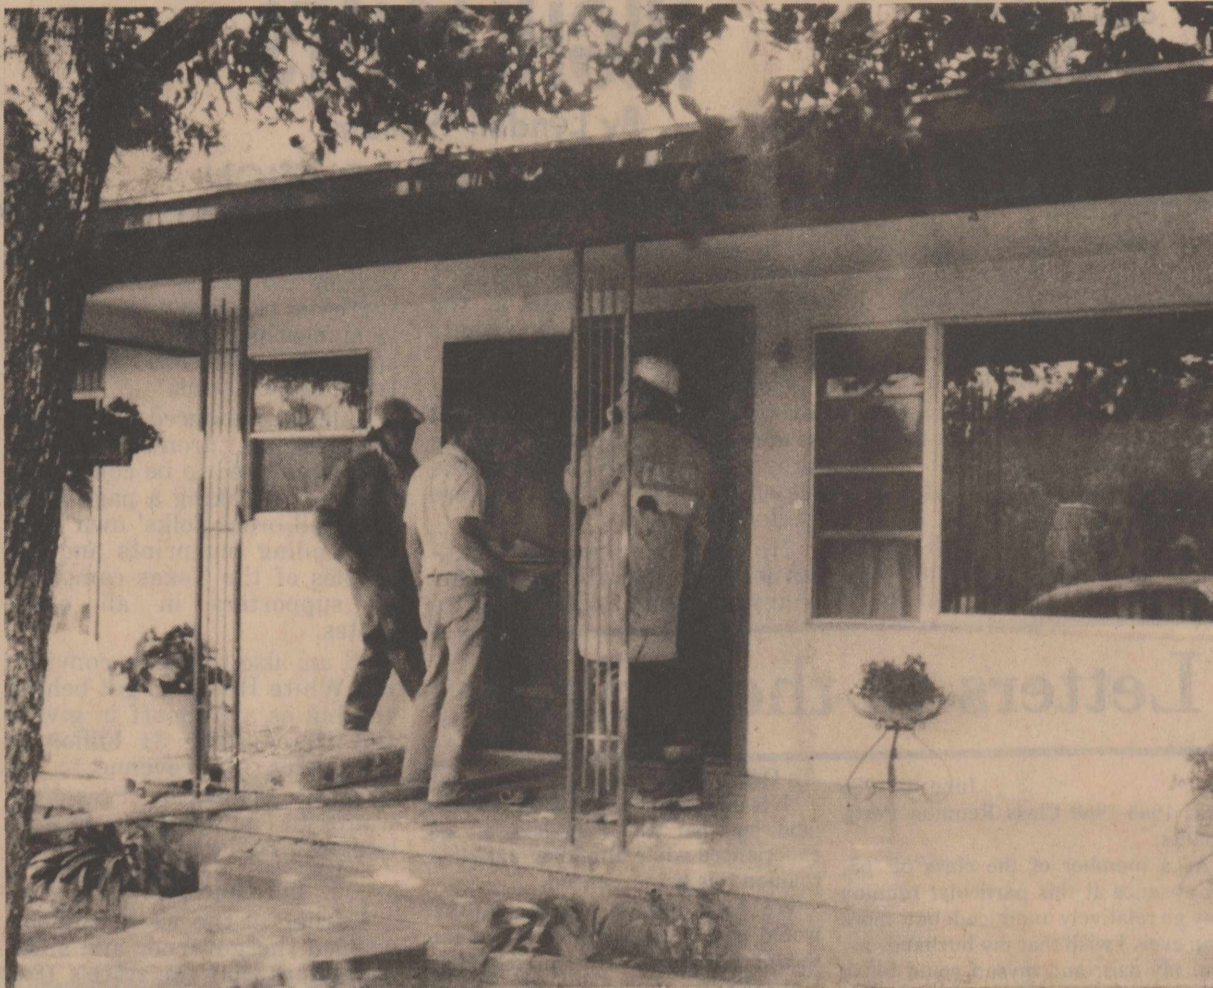

We are certainly willing to hear from anyone who can show us where we would benefit from a hospital district. So far, that has not been forthcoming. So far, all we have heard is "let the people decide." Decide what may I ask? Is it not borrowing from Peter to pay Paul?

The Crockett County Hospital is a county hospital and should be administered by the county court, by officers who were elected for that purpose. If we would get better medical service by turning it into an emergency clinic, so be it. We are lucky to have two doctors here. Some towns have only one or none. We are also fortunate to have an excellent emergency medical service, with two well-equipped ambulances.

Nobody expects a small county hospital to turn a profit, but a budget of almost one million dollars for a facility which has no patients? Now really! That borders on the ridiculous. We are aware that Medicare regulations are responsible for most of the problems of small rural hospitals, also state regulations are demanding as well. However, we do not see a cure at all in a hospital district.

To ask for another taxing entity at this time is just plain poor judgement. We are in a depression due to the drop in oil prices. We have lost over 200 families since the bottom fell out, and the end is not in sight. We are already obligated to pay for a new sewer plant (waste water treatment plant). In the beginning, this project was going to be paid for by revenue from all those who use the service. Now, I understand, we will be taxed up to \$.25 per \$100 valuation to pay off the bonds.

This hospital district proposal is just another way of passing the buck and trying to make the voting public think they did it, whichever way it goes.

House fire Monday

heavily damaged the home of Joe Lara. Two rooms received extensive damage while there was heavy smoke damage in the remainder of the house.

Seventeen firemen answered the call. Above are firemen Max Schroeder, Dorris Haire and Bob Falkner.

Court gives O.K. to form Hospital District

With very little prior discussion in open court, the Crockett County Commissioners Court voted to approve the hospital board's request to set the wheels in motion to form a hospital district, at its regular monthly meeting Monday. Judge A.O. Fields made the motion, seconded by B.W. Stuart. Jack Williams cast the only dissenting vote.

County Attorney Tom Cameron explained the creation of a hospital district would take the burden of the deteriorating financial condition of the hospital out of the hands of the court and place it on an elected hospital board with taxing power. There was no explanation on how the formation of a hospital district would benefit the hospital, attract new physicians, or entice the community to use the hospital.

Of course, the voters will decide this issue in an election which will be held after approval is received from the State Legislature, which will take several months according to Cameron. About the only other information forthcoming was the fact that a hospital district can tax up to 75 cents on a \$100 valuation of property and that if the issue passes, the first board will be appointed and thereafter elected.

Some discussion was held on the problems encountered by small West Texas hospitals, almost all operating under a hospital district.

Onesimo Ortiz gave the cemetery report, and said arrangements had been made with a San Angelo nursery to remove seven liveoak trees from the draw near the cemetery and replant them in the cemetery proper in the next few weeks.

After Debby Puckett reported the new addition to the cemetery had been opened with about 100 plots available, the court set some guidelines for the sale of the 5x10 feet lots or plots. The court voted to sell the lots at \$100 each, with a limit of two to a person. There will be no curbs and all stones are required to be flat with the surface, in order they may be well-kept by cemetery employees. Mrs. Puckett reported the last lot in the old cemetery had been sold.

Ortiz complained about the water pressure at the cemetery, but after the month's water bill in excess of \$2,000 was approved earlier, the commissioners were not inclined to pursue the matter.

County Attorney Cameron advised the court that he had received word there was no discrimination on the part of Crockett County in a discrimination suit brought 2 years ago by four female employees at the cemetery. He also advised that Ortiz had made an excellent witness.

Eddie Moore gave the road department report and told the court the policy for cutting into county pavement for sewer lines and water line repair was not working. Cameron told the court the law was very clear on allowing utility companies to cut into pavement. The court suggested better cooperation between the water district and the county would be in order. Moore was notified by Judge Fields the telephone company plans to cut into the newly paved road in Chandlerdale Addition within the next week.

Moore reported that mowing has ceased for the county, due to equipment down, also he reported a broken roller. The fence on Hwy. 1973 was discussed. Commissioner Williams reported he had examined the fence line with Pie Pierce, one of the landowners, and had come up with some changes which would save the county around \$2,000. After the right-of-way has been cleared and fences, pens and telephone lines restored, the state will take charge and maintain the roadway.

Louise LeDoux gave the library report and submitted the 1987 budget for the library. Janet Hill and Cathy Reavis submitted the Meals on Wheels report. The organization has planned a fund raiser for each month. They are presently selling "Call Police" banners at \$3 each or two for \$5.

Mrs. Reavis reported the community had been very supportive in assisting with the program and asked that the court consider them in the new budget.

Bids were to have been opened for the remodeling of the Care Center dining room at 11 o'clock, but due to lack of specifications the two bids received were not opened, and the job will be re-advertised with specifications. Bids will be opened at the next meeting.

Election judges were named as follows: Stella Valadez, Precinct 1; Arlene Clayton, Precinct 2; Bobbie Fatout, Precinct 3; Concha Zapata,

Precinct 4, and Jean Conner, absentee. Aubrey Carrol will be the judge at the WTU power plant.

County Auditor Dick Kirby was asked to report on tax monies for the 1987 budget. Kirby reported the county has lost \$105 million in valuations. At the present tax rate, this amounts to \$550,000 in lost revenue from property and mineral taxes, \$50,000 lost in licensing of equipment due to the slow-down in the oilfield, and he was unsure about federal revenue sharing. If it is not forthcoming, the loss will amount to around \$80,000.

Following a lunch break, the court re-convened and spent four hours cutting and adding on the 1987 budget. Budgets for the various departments were discussed, the largest being that of the hospital and care center. Boswell submitted a budget of \$906,588 for the hospital and care center, with \$130,000 being earmarked for a new X-ray machine.

Hospital needs a new X-Ray

The Crockett County Hospital Board met in regular session July 10, at the Care Center dining room.

The minutes were read and approved. Jacquie King read the Budget Committee report and with the addition of the Capital expenditure the report will be presented to the Commissioners Court. The Joint Committee report was presented by Bill Boswell and the Board voted to appoint an alternate member to the Committee to fill any vacancy for the regular members who cannot attend. Fred Deaton appointed Raymond Borrego to fill that position.

It was reported that two conditions must be met before construction on the Care Center dining area can begin. The project must have the written approval of the local fire marshal and health officer and scaled drawings of the addition prepared according to good architectural practice. These shall include electrical and HVAC drawings and details of the walls and ceiling-roof construction.

Bill Boswell read a petition to be presented to the Commissioners Court concerning the proposal of a Hospital District. The motion was made by Scotty Moore to accept the petition. The motion was seconded and passed.

Mr. Boswell reported the laundry room, Life Pac #8 and Life Scope #6 were all tabled at the last commissioners meeting until the 1987 budget is reviewed.

Don Elliott adjusted the primary beam on the X-ray machine and reported it will not stay adjusted. Parts are not available because of the age of the machine. A letter was presented by Mr. Boswell from Dr. Jackson regarding the need for new X-ray equipment.

Bill Boswell gave the financial report. Total cash deposits for the hospital were \$29,557.51 and total disbursements were \$81,197.85. This included \$9,000 for audit and \$9,346 General Liability Insurance. The bills

School board lets bids for oil and milk

Members of the Crockett County Consolidated Common School District Board of Trustees, meeting in regular session on Wednesday, July 9, approved a bid from House Fuels of Ozona for gasoline and oil products for the 1986-87 school year. Sherwood Oil Company and Sonora-Ozona Oil Company also submitted bids.

The Board accepted a bid from Gandy's Dairies of San Angelo for school cafeteria dairy products, and they approved the hiring of the auditing firm of Eckert, Ingram, Oliphant, and Featherston to conduct the district's annual financial audit.

The trustees authorized the signing of a 1986-87 school year contract with Narcotics Consultants, Incorporated for school drug prevention services, and they approved revisions in a discipline management plan which will be used by Ozona teachers and administrators next year.

Assistant Superintendent Ted Cotton gave the members a report on a comparison of Ozona's Texas Educational Assessment of Basic Skills (T.E.A.M.S.) test results to statewide T.E.A.M.S. results this year. Mr. Cotton reported that 95% of Ozona's third grade students passed the

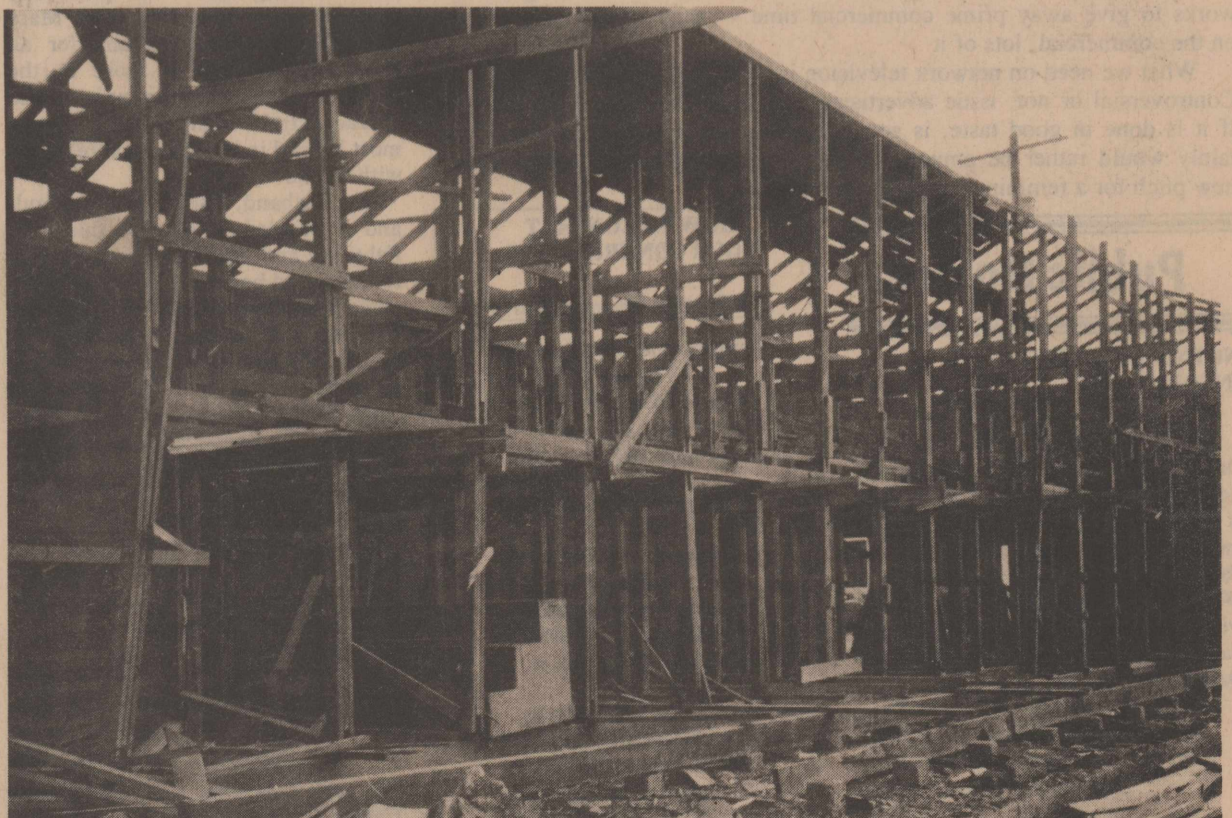

mathematics section of T.E.A.M.S., while only 80% of the state's 186, 120 third grade students passed math. Ninety-one percent of Ozona's third grade student passed reading (74% statewide), and 78% (60% statewide) passed writing.

Eighty-two percent of Ozona's fifth graders passed mathematics, 91% passed reading, and 67% passed writing. Statewide results revealed that 80% of the students in Texas passed math, 83% passed reading, and 64% passed writing.

In the seventh grade, 79% of Ozona's students passed math, 82% passed reading, and 72% passed writing. Across Texas, 81% of the students passed math, 78% passed reading, and 66% passed writing.

Seventy-nine percent of Ozona's ninth grade students passed math, 87% passed reading, and 74% passed writing. Overall, 81% of the ninth grade students in Texas passed math, 80% passed reading, and 63% passed writing.

After Mr. Cotton's report, the remainder of the regular meeting was spent in a 1986-87 school budget work session which was conducted by Superintendent Garland Davis.

End of an Era

The lumber storage bins that were used to store tons of lumber over many years were being torn down and the premises cleaned this week at the old Foxworth-Galbraith site. Foxworth,

one of the oldest businesses in Ozona, closed last year. The building and grounds were purchased by Tom Cameron and plans for the site are not available.

DEFICIT TRIALS

By Edwin Feulner

The year: 2017 A.D. The place: the ruins of American civilization, somewhere in the old capital. An old man, held captive in a futuristic glass interrogation booth, is on trial. His crime: failing to control deficit spending.

Old man (to child prosecutor): "I've already told you, it was all going to work out somehow. There was even talk of an amendment. But no one was willing to make the sacrifices. I'm afraid you're much too young to understand."

Young boy: "Maybe so. But I'm afraid the numbers speak for themselves." (Camera pans ruins and haggard, ragged spectators.) By 1986, for example, the national debt had reached two-trillion dollars. Didn't that frighten you?"

The play goes on for another thirty seconds, the dialogue ending with a close-up of the old man.

"I have a question," the old man says. "Are you ever going to forgive us?"

This eerie projection of the not-too-distant-future is one of a long-running series of W.R. Grace & Company commercials on government waste. The three major television networks have refused to allow it on the air during prime time because the commercial is "controversial" and does not advertise a product. According to the networks, "The Deficit Trials" falls under the Fairness Doctrine rule requiring equal time for opposing viewpoints, adding this as a further reason not to run it — even though Grace has reportedly offered to pay for equal time.

ABC, CBS, and NBC say they will not broadcast in prime time any advertisements that involve "a controversial issue of public importance." You read that right. If it's not "Silver Spoons," "Dynasty," or some other dribble, viewers are presumed not to be able to comprehend it. Thinking, according to network doctrine, is reserved for network news pundits, who presumably bring their flappedoodle ideas from on high. Viewers of NBC Nightly News must suffer through John Chancellor's predominantly liberal nightly commentaries, but these same viewers can't be shown "The Deficit Trials." The networks profess to have concern for public service, at least that's what they usually say when airing some "documentary" or quasi-news program. But now the truth is out. The networks are only for public service so long as it coincides with their self-interest, i.e., boosting the images of their overpaid pundits.

The really perplexing thing about the networks' rejection of "The Deficit Trials" is that other public interest advertising — some of it by W.R. Grace — has run before on network television.

A 1984 Grace ad portrayed a government collector greeting a newborn baby with a contract binding him to his share of the national debt.

The collector (holding out contract): "Morning. Shall we get down to business? Now that you've joined us, you'll enjoy numerous rights and privileges. But you will share certain problems, as well. Specifically, you owe the United States government, in round numbers, \$50,000.

Baby: "Waaaaahhh!"

No one at the networks has explained why "The Deficit Trials" is "controversial" while the baby commercial was not. No one is asking the networks to give away prime commercial time — they would make money on the commercial, lots of it.

What we need on network television is more such advertising, not less. Controversial or not, issue advertising contributes to the public dialogue. If it is done in good taste, is accurate, and does not libel anyone, I certainly would rather be amused by such "controversial" messages than a new pitch for a feminine deodorant spray.

SLOW ME DOWN?
WHY?

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—State Comptroller Bob Bullock and U.S. Rep. Jack Brooks of Beaumont—two of the toughest office holders anywhere—have teamed up on a move which could bring Texas a quick \$100 million a year to apply to the state's budget problems.

That's how much sales tax money Texas would get if Congress passes Brooks' bill—H.R. 5021—to require national mail order firms to collect and remit

state sales taxes. "These big firms are doing \$3 billion a year in Texas business at the expense of the local merchants of Texas," Bullock said.

Congressional backers of Brooks' bill say that they need evidence of widespread public support in order to move the legislation—and that's where Bullock comes in.

He is leaving no stone unturned in prodding the merchants of Main Street to write

their congressmen. He is blitzing the state with a letter writing campaign, with an advertising campaign paid for by local merchants, with television spots and by working with trade associations.

Bullock, convinced that Texas congressmen aren't the only ones who need to be convinced, said he is "taking a page from the mail order folks' own book by sending blueprints and examples of the Texas campaign to supporters in all other states.

"I am also trying to convince the White House to get behind the bill as a tradeoff in giving the states some \$1 billion in new sales tax revenue to replace programs the President wants to cut from the federal budget," Bullock explained.

Ink Gets Redder

Earlier in the week, Bullock warned the governor and state legislators that the state's 10.5 percent unemployment level indicated the state budget might be facing an even larger deficit than revised anticipations.

Bullock wouldn't make a concrete prediction regarding how much further the state is going into the red, opting to wait until next month for a more accurate picture.

"We expect a new revenue estimate shortly before Aug. 1, and, frankly, none of the indicators contain an ounce of good news," he said.

Fiddlin' Around

Whether a special session will actually be called in August is a matter of much speculation, since House Speaker Gib Lewis and other lawmakers say they cannot find two votes for a tax hike.

An impasse exists for the moment between Gov. Mark White and lawmakers: White says he won't call the session until the Legislature comes up with a plan, while legislators, in the words of Rep. Stan Schlueter reply, "Governor, where's your plan?"

WTU to refund fuel costs to Company's retail patrons

West Texas Utilities Company's retail customers will receive another fuel cost refund and a significant decrease in their future electric bills if a request filed Tuesday in Austin is approved by the Public Utility Commission of Texas.

WTU is asking permission to refund a total of \$5.7 million in retail revenues collected in excess of actual fuel costs, and to lower its fuel charge rate for the months of September, October and November. The total refund includes \$5,425,372 in actual fuel cost savings which have accumulated from March through June, plus \$306,511 in interest.

This would be the third time for WTU to make a refund and to lower its fuel cost factor since its last rate increase in November, 1984. Over \$17.6 million was refunded in August 1985, and \$9.3 million was refunded in May 1986.

"This is not an actual rate case filing," WTU President Glen Churchill explained. "It is an adjustment possible because the price of our boiler fuel has been declining. Any savings we can make on fuel cost is passed on to our customer as soon as permitted."

The due amounts on customer bills include both fuel costs and base rates. Utility companies are not allowed to make money on fuel. WTU has had no change in its base rates since 1984.

If a reduction in fuel rates, technically known as the Interim Quarterly Fixed Fuel Factors, is approved, WTU officials estimate the fuel cost charges to its customers will drop by 24 percent, or \$7.9 million, during the three-month period beginning in September.

After the state's Public Utility Regulatory Act was amended in 1983 the PUC ordered the use of the fixed fuel factors and their use was recently re-adopted in an emergency fuel rule. Previously, an automatic fuel adjustment matched fuel billings to fuel expense each month. These immediate adjustments prevented over-recoveries of fuel costs and made refunds unnecessary.

Under WTU's proposal, all existing retail customers would receive refunds through one-time credits to their bills in the billing month of September. A typical residential customer would receive about \$11.

Natural gas is the principal fuel for all of WTU's eight major power generating stations. In recent years, fuel costs have amounted to more than half of the company's total operating costs, but have dropped from all-time high of \$3.18 per million BTU in 1983 to \$1.88 in June 1986.

Green Thumb Day set for Saturday

The first Crockett County Green Thumb Day will take place Saturday, July 19, at the town square from 9:00 a.m. to 3:00 p.m. The show, sponsored by the Crockett County Extension Service, provides an opportunity for persons to bring their horticulture problems to a plant clinic and their excess produce to a produce market and sell to the public.

Cash prizes of \$15, \$10 and \$5 will be given in each division. The divisions include vegetables, tomatoes, horticulture, canned, preserved and dried foods and summer garden arrangements. Ten and five dollar cash prizes will also be awarded in a Dumb Thumb division which is for all oddities, mistakes and accidents from any of the other categories. Cash prizes are furnished by Crockett County National Bank and Ozona National Bank.

All entries must be in by 9:00 a.m. and entries will be on display until 3:00 p.m. Awards will be presented at 11:30 a.m. Paper plates for exhibiting vegetables will be furnished.

Sisters Antonia and Jovita from McAllen and San Antonio and their mother, Maria Perez, from Weslaco are here visiting friends.

were discussed and a motion was made and passed to pay the bills. Elvira Caldwell reported on the Care Center bills. Total cash deposits were \$39,365.30 and total disbursements \$75,180.98. A motion was made and passed to pay the Care Center bills.

In other business Mr. Boswell reported that aprons and dish towels had been purchased for the kitchen for \$132.60. This will save \$1,176.00 per year in laundry costs.

A motion was made and passed to reimburse John L. Henderson on his payment for the Conroe Trauma Life Support School.

The Child Welfare office is open and has hired Janet Henry as clerical person to work four hours a day for them.

Medicare Medicaid will send a letter on new conditions of participation with less restrictions on small hospitals with 50 beds or less.

Mrs. King reported on the new business of Indigent Health Care. An article needs to be placed in the local papers to inform the county they must apply early to qualify, as there is a lot of paper work to be done on each patient. This will go into effect September 1, 1986.

The Ambulance Service is a department of the hospital and a discussion was held on the possibility of reducing the ambulance fees. Mr. Boswell will have a report at the next meeting.

A letter was read from an open hearing held at the Care Center last month with praise on all accounts.

Elvira Caldwell handed the board members a letter from Texas Department of Health stating the new rules and regulations governing nursing homes. As of July 25, 1986 five patients will be looked at extensively and at random. Fines will be assessed if the nursing home is in violation. The board adjourned to executive session.

The board returned to regular session and with no further business the board adjourned at 9:00 p.m.

Those present were Fred Deaton, Maria DeLa Rosa, Jo Davidson, Scotty Moore, Raymond Borrego, Bill Boswell, Jacquie King, Elvira Caldwell, Dr. Don Carlisle, Dr. Robert Owensby, and Tina Moran.

Care center gets an excellent rating

The Crockett County Care Center received an excellent rating from the state in an open hearing conducted at the center June 26, at 9 a.m. by Glen Barker, administrative assistant for long term care units.

In his comments, received by Elvira Caldwell, care center administrator, Barker says: The food is good. The residents and facility are kept clean. Good care is provided. The new whirlpool is very nice and plans are made to remodel the dining room and make other improvements. They have a good activity program and good

community involvement.

In his constructive comments, he said "It would help if they had a designated 'no smoking' area in the lobby and dining room."

At this time when many nursing homes and convalescent homes are being closed due to unsanitary conditions, mistreatment of residents and other general neglect, the report gives Mrs. Caldwell and her staff a great deal of satisfaction. Local residents have been aware of the excellence of the facility for some time and the community congratulates Mrs. Caldwell, her staff and the host of volunteers who add so much to the lives of the residents.

The state report does not mention the care center van, which the auxiliary purchased through donations and fund raisers, to give residents much needed outings. The van is used to take residents shopping, out to eat, and many other errands. This is a distinct plus for care center residents.

There are several openings at the present time and all eligible applicants will be considered.

GARDEN OF THE MONTH—The home of Sandy and Vicki Stokes has been selected as Garden of the Month by The Ozona Garden Club. The Stokes' home, located at 1305 Ave. C, has caladiums, impatiens and other beau-

tiful flowers accenting the shaded yard.

Tips For Gardeners
From the Ozona Garden Club
by Mrs. Bailey Post

It seems that a constant reminder to water is in order during these hot, dry weeks, though it does get rather monotonous day after day. There seems to be so many things to do in the garden, you must plant to accomplish the most in the shortest length of time. Though our days have been very hot, the early mornings and after sun down have been cool and refreshing and a good time to enjoy doing the chores.

The beautiful bougainvilleas do best if kept on the dry side when blooming. Over watering seems to lessen the colorfulness of the bracts. Cut off old blooms, for the bloom on new growth and to extend blooming season. Fertilize, water well and wait for a new blooming period.

Oriental poppies go dormant this month. Dig up crowded clumps before they disappear and divide to make root cuttings before planting.

A July application of fertilizer gives trees and shrubs time to absorb it in forming new growth that will mature before Autumn's first cold spell, but

don't over-fertilize while so hot. Summer flowering shrubs that will respond to a feeding at this time are crepe myrtle, althea, buddleia, hibiscus, hydrangea, oleander and potted plants.

Gourd season is here, so here are a few suggestions to help cure them successfully:

Leave the gourds on the vine until it is perfectly ripe, then cut it off, leaving one inch of stem. Save unblemished specimens. Punch a hole in the bloom end of the gourd before storing in a dry, airy place until needed. If you want to coat them, wait six months or more before waxing or varnishing to be sure they are perfectly cured.

Fertilize annual bedding plants once or twice each month during the summer. Discontinue monthly feeding of camellias and azaleas after July. Apply iron Chelates or Coppers to plants suffering from chlorosis. Plan and prepare soil for your fall vegetable garden.

Hardberger family reunion

An artistic sign of welcome made by Lucille Childress Huff greeted members of the family of Rufus Edwin Hardberger and Jenny Lee Reeves Hardberger as they gathered July 11-14th for a family reunion.

The occasion was opened with a supper in the P.L. Childress garden hosted by the Childresses and Lowell Littletons.

The setting was enhanced with special lighting. About the garden were standing easels of old photos of family members.

After much visiting and a delectable meal, the group was entertained with a family talent show and viewing movies of important events in the life of the family. Of special interest was the wedding of Pleas and Geniece Childress and the poignant scene of the family bidding Billy goodbye as he left for World War II and his final farewell of his brother, George. A family talent show followed in which young and old participated. Charles Childress delighted the group with an original poem he's written about the family.

Earlier in the evening a demonstration of arrow making was given by Rick Bachman, which was of special interest to Boy Scouts in the family—particularly Mathew and Ryan Porter.

Friday the family gathered for breakfast at the Childresses and departure for the Devils River where the party continued with visiting swimming, feasting, and fishing.

Saturday evening was one of music and song to the accompaniment of a keyboard and guitar, played by Julie Childress, Jan West and Raimundo Penaforte. Melissa Huff, age 8, performed on the violin. The Berry sisters, Cynthia and Catherine, sang songs from past and current shows.

The reunion concluded with a brief Sunday morning worship service of song, scripture and prayer.

Members of the family attending were Mrs. Homer Hardberger, O'Donnell; Phil, Linda and Amy Hardberger, San Antonio; Jan, Pat and Jarod Peranteau, San Antonio; R. E., Sandra, Derek and Todd Hardberger, Little Rock, Ark.; Joe, Kim, Drew and Judd Hardberger, Houston; Dan, Katherine, Matthew and Ryan Porter, Corpus Christi; Ron, Genelle, Catherine, Elizabeth and Ron

Jr., Berry of Clear Lake; Cynthia Berry, Denver, Colo.; Charles Childress, Brownwood; Joel, Lucille, Melissa, Abbey Gail and Philip Huff of Lederach, Pa.; Pleas Jr. and Geniece H. Childress, Ozona; Pleas III, Sandra, Julie and Martin Childress, Ozona; Billy and Kay Hardberger, Lamesa; George Hardberger, Phoen-

ix, Arizona; Dan Pullen, Ozona; Lowell and Lucille H. Littleton, Ozona; Raimundo Penaforte, Abilene.

One brother, R. E. Hardberger, of Jefferson was unable to attend. The late Katrina Pullen and Homer Hardberger were lovingly remembered. The Rod Chalmers family were supper guests Saturday evening.

Eyes Of Faith

Rachel, age six, was spending vacation with her grandparents out on their large farm. Grandad had taken her for a long tour of the farm. They went over the fields of growing corn, beans, and everything else birthed and nurtured by God's great world.

When she returned, Rachel found her grandmother busy in the kitchen. "I wish I had granddaddy's eyes," she said.

"Why so, honey?"

"Well, he saw God in everything out there. He saw God in the corn, the trees, the little spring of water, even in the birdnest we found. Know what, he even saw God in the cows and horses and pigs. I sure wish I had his eyes."

"Ah, honey," grandmother said, putting her arms around her little granddaughter. "It is not your granddaddy's eyes you want. It is his FAITH."

Then she kissed Rachel, knelt down and looked her straight in the eyes. "One day, if you work at it, you will have his faith. Then you will see God in everything. Because this is His world. And He is EVERYWHERE if you have faith to see Him."

Approximately twenty-five percent of adults complain about sleep, according to Dr. Frank Perez-Guerra, Director of the Scott and White Sleep Disorders Center and associate professor of internal medicine at Texas A&M University College of Medicine.

"More medications are prescribed and used in connection with sleeping problems than for any other medical problem," said Dr. Perez-Guerra. "It has been well established that sleep, or lack thereof, has a significant impact upon one's health."

The Association of Professional Sleep Societies is concerned with educational standards for doctors who treat patients with sleep disorders and accredits sleep disorders centers.

The clinical specialty of sleep disorders medicine began to evolve in the 1950s when research on the brain's function during sleep began. Major hospitals established sleep disorders centers, such as the one at Scott and White in Temple, to diagnose and treat sleep disorders.

Sleep disorders such as insomnia or constant daytime sleepiness can ruin careers, health and personal relationships. Some sleep disorders, such as sleep apnea (pauses in breathing during sleep), can be life threatening. Narcolepsy, a disease which causes daytime sleepiness and attacks of uncontrollable sleep can be disabling.

According to the APSS, the medical, economic, and social toll of sleep disorders is staggering, from the thousands of tired industrial shift workers who work when the brain is tired to sleep, to the accident victim who lost his fight to remain alert at the wheel, to the elderly grandfather placed in a nursing home because of nighttime wandering, to the sleepy child who once again fails the fifth grade, to the grieving couple who has lost their sleeping child to sudden infant death syndrome. Sleep disorders medicine is concerned with these and all individuals affected by any disturbance of sleep and alertness.

Although more research is needed to solve all of these problems, researchers have established these facts about sleep:

*No matter what a person's age or occupation, the right amount of sleep to get at night is the amount that

keeps the daytime pressure to sleep at a relatively safe level. Each American should have a clear idea of how much nighttime sleep keeps his or her daytime pressure to sleep at a manageable level.

*Daytime sleepiness is caused by poor, inadequate or abnormal sleep. Heavy meals, boring and monotonous activities, and warm rooms encourage, but do not cause the pressure to sleep.

*Nearly all adults obtain less than optimal sleep and most have a sizeable sleep debt. The sleep loss continues to add up like an unpaid charge account and each day the pressure to be sleepy in the daytime grows greater. Drowsiness creates dangerous and vulnerable situations. A person with a big sleep debt is more easily affected by alcohol.

The average high school senior requires about ten hours of sleep at night to maintain optimal alertness throughout the daytime. The typical high school student actually averages about seven hours of sleep.

*About one percent of the population suffer from sleep apnea. Sleep apnea sufferers, typically over-weight middle-aged men who snore heavily, awaken hundreds of times during the night as they struggle to breathe against closed breathing passages. They may not be aware of their abnormal sleep nor understand why they are overwhelmingly sleepy during the day. The condition can affect the function of many jobs and may occasionally be fatal.

*The peak time of dying from all causes occurs during the night, not the day. Researchers are interested in knowing why sleep is less safe than wakefulness and how to make it safer and more restorative.

*Insomnia affects nearly everyone at one time or another. Transient insomnia occurs from jet lag, tension, and environmental disturbances. Chronic insomnia has a variety of physical and mental causes, and most cases can be diagnosed and effectively treated.

West Texas Masters Track Meet

A low number of participants this year can be contributed to the economic status of Texas, but those who came gave it their best effort. There were 167 athletes participating and this made a busy day for those who organized and ran the meet.

Among those who participated were Wendel Palmer (54 years old), from Pampa. He holds two American records in the discus, J. E. Alexander (66 years) who holds one world record and two American records in the 400 meter dash from McCamey, Roy Turner from Dallas (45 years old) who last year won three second places in the Nationals at Indianapolis in the 100, 200, 400 meter dashes, and Josh Awusu, (38 years) from Abilene who ran for Guyana in the Olympics. The oldest athlete was Alford Sealy, 78 yrs., from Sealy, and the youngest was Tasha Kenley from Kermit at 5 yrs.

A large number came from Lovington, Hobbs, and Roswell, New Mexico. Also from Dallas, Ft. Worth, Austin, Lubbock, El Paso, Houston, San Antonio, Victoria, and Harlingen. The majority of the participants came from areas in West Texas, Midland, McCamey, Kermit, San Angelo, El Dorado, Sonora and Sanderson. It was a perfect day Saturday for a track meet with overcast skies until about 5 p.m. when the sun came out but it wasn't really very hot.

While the meet was in full progress, the Knights of Columbus donated their time to run a concession stand selling drinks, chips, candy, t-shirts, caps, fajitas and an evening meal. All proceeds, after expenses, will be given to The Helping Hands, Meals on Wheels, and the Lions Club eyeglass fund.

Crockett County Library Notes

Keys to the Kingdom-Once a Governor of Texas leaves office, he literally throws away the keys. New locks are installed immediately on all Capitol doors each time an administration changes.

Even this security wasn't enough to satisfy the late W. Lee O'Daniel when he was governor from 1939-1941. To protect his private office O'Daniel had an electric lock installed which he alone could operate.

A great big THANK YOU goes out to Friends of the Library Art Chairman Ginger Perner. All of her work organizing the Local Artists Displays each month has really paid off. Little League All-Stars end season with a loss

The Ozona Little League All-Stars had a fun, yet disappointing playoff series as they lost their first game July 8 against Big Lake 8 to 4, came back to defeat Junction 7 to 4 on July 10 and ending their playoff series July 14 with Sonora winning 8 to 4.

The first inning proved to be scoreless for both Ozona and Big Lake getting no one on base in the July 8 game. Ozona came alive during the second inning scoring three runs and allowing Big Lake to score only two.

The third inning was an upset with Ozona scoring only one run and Big Lake scoring six. The remainder of the game was scoreless.

Adrian Vargas pitched against Big Lake striking out five players and walking seven.

Mark Ramirez had a good night on the mound for Ozona Thursday against Junction with only two walks and eight strike outs.

Ozona brought in one run during the first inning and held Junction from scoring. Junction moved ahead in the

second inning scoring three runs and allowing Ozona no runs.

Junction's lead was short-lived as Ozona scored three during the third inning to take the lead 4 to 3. The fourth inning was scoreless, but the fifth inning brought in three runs with one run being a homerun by Adam Alba. No runs were scored by Junction in the fifth.

Junction came up to bat at the top of the sixth inning but scored only one run and clinching the victory for Ozona.

Monday in Sonora, Ozona scored one run in the first inning and held Sonora allowing them no runs. Sonora came back in the second and brought in four runs while Ozona scored one.

Ozona remained scoreless in the third and Sonora scored four. The game was scoreless until the sixth inning when Ozona scored two runs which allowed Sonora to win the game.

Adrian Vargas was on the mound with five strike-outs and three walks.

Senior League gets another shot after San Angelo loss

The Ozona Senior League All-Stars began playoffs July 12, wiping out their opponent 22 to 0, but suffering a loss July 14 against a strong hitting San Angelo team 21 to 0.

Mark Fierro pitched a no-hitter in Junction. George Ybarra led in RBI's with six, and Ruben Borrego and Chris Denman followed with 3 RBI's each.

Ozona's victory in Junction advanced them on to play a tough San Angelo

team. A combination of San Angelo's good pitching and homeruns resulted in Ozona's defeat. San Angelo hit nine homeruns which resulted in 18 runs. Manager Jerry Lay stopped the game at the bottom of the fourth inning.

The playoffs are double-elimination, therefore Ozona will play Wednesday night in Ozona against the winner of the Junction-Sonora game Monday night.

Letters to Everybody wins the Editor participating in 4-H work

Tuesday, July 15, 1986

Dear Friends: The Crockett County Local Welfare Association was organized on January 4, 1954, for the purpose of extending emergency aid to persons whose needs come within the limits of council's care and stipulations, with special attention to transients.

We have had several clubs, organizations, churches, and even individuals help us out each year. The funds are used to help transients in need of help with meals, gasoline, and other minor expenses when stranded in our County.

NOW WE NEED YOUR HELP, our funds are running low! We would like to stress to you that we have very little soliciting or "door to door" entreating in Ozona, but if this program folds, soliciting from strangers might increase in our town. Some of the churches, clubs and organizations know to tell people seeking help to come to the Sheriff's office for aid or assistance. To keep this situation under control we need your financial help.

Please contribute to this fund in order to continue this program. Make checks payable to Crockett County Local Welfare Association, c/o Billy Mills, Drawer H, Ozona, Tx. 76943. Any and all contributions are greatly appreciated.

Thank you Billy Mills-Sheriff

4-H'ers are involved in a lot of competitive events this time of the year—fashion shows, horse shows, roundups and the like. And these types of events are directed toward making youth better individuals, not just winning.

Everybody "wins" with 4-H, says Billy Reagor, county 4-H program coordinator with the Texas Agricultural Extension Service, The Texas A&M University System.

People are the only creatures on earth who survive by serving each other. It is in serving each other that people can find the satisfaction and reward they require for successful living. This fact is one of the basic principles upon which the 4-H club program is built.

Another way to say it is that "people get what they want in life by helping others get what they want," notes Reagor. Individuals cannot succeed or even survive for long without the resources they receive from other people, and vice versa. Today's 4-H program fosters a spirit of cooperation and creativity; a feeling that it is important to help other people develop their potential as human beings.

Opportunities for youth and adults to fulfill this basic need in life are almost without limit in 4-H says Billy Reagor. It's called leadership development, citizenship and community service. Everybody helps everybody else in 4-H and therefore everybody comes out a winner.

In 4-H, 50 percent of the value of a youth's 4-H work is devoted to leadership of others and in citizenship and community service projects. The other 50 percent of a member's work is devoted to his or her own projects.

Not only do people who are 4-H members, parents and volunteer leaders benefit from 4-H, but so does the community in which they live, adds Reagor. 4-H families are devoting more and more of their time and energy to citizenship and community service projects. They want to literally "Make the Best Better" in their own communities.

To find out how to become a part of the 4-H team, contact the county Extension office. Young people enrolled in the third grade through 19 years of age can join as members. Adults of any age can be a part of 4-H as project leaders, activity leaders, club leaders or help in many other ways.

If you see a need for help in your community, tell someone in 4-H about it; 4-H can also be of service to you, says Reagor.
