"Out In The West, Where The Air Is Pure, The Climate Agreeable, And The People Friendly ---- The Best Place On Earth To Call Home"

His and Hers

By Scotty and Linda Moore

His

Seen any midnight lights burning in the Stockman office lately? I really don't know how you could have missed them! Some way, some how, we have managed to publish three papers while in motion, the motion of moving from one building to another. Went into the Inn of the West to eat a quick supper the other night and realized that I had a red rag in one hip pocket and a pair of scissors in the other. Now, that is what I call loaded for bear!

One woman I didn't know looked at me with a funny stare as though I had just walked down from I-10. Surely I didn't look that done in, but maybe I did.

We have had call after call from all of the good people wishing Linda and me all the success in the world, and it really warms the heart knowing that the old hometown is still the old hometown, and we love it a bunch!

Please excuse this short shorty, but we only have 30 minutes before we have to leave for the printer. If you have anything that might be of interest to our readers, please come by and fill me in. We need all the information getters that we can muster up! Preferably before the Monday deadline at 5 p.m.

Hers

Some Ozonans got excited last week when they received a report that a news story on a San Angelo television station had said a teacher was holding students hostage in the local junior high.

The story was soon laid to rest when someone spoke up with the information "that was Arizona, not Ozona".

How often we get up in the air over what we think we heard, not what was really said.

The hospital district issue is a case in point. Don't confuse me with facts, my mind is made up seems to be the reaction of some. And an article this week by Bill Boswell, administrator, indicates that some facts have been reported incompletely or have not been reported at all.

Before the election, which has yet to be set, many "facts" will be put before the voters.

Your job as a voter is a hard one. Weigh and deliberate AND VOTE.

Mohair Sale

"A lot of buyer participation" was reported at last week's mohair sale by Wool Growers manager Jim Adams. "All our customers seemed fairly happy," said Adams who believes that the market seems to be softening up.

The warehouse was cleared of 159,000 pounds of mohair, most of which was adult hair. Prices on adult ranged from \$2.31.7 to \$2.97.3 per pound. Young Angora hair brought \$3.93.5 to \$4.78.6 per pound.

Wool Growers will have a wool sale Thursday.

The Texas mohair clip for 1986 was 15.2 million pounds. Average mohair price received in Texas in 1986 was \$2.51 per pound, down 94 cents from 1985.

The 1.95 million goats clipped in 1986 averaged 7.8 pounds per goat.

Nine indicted

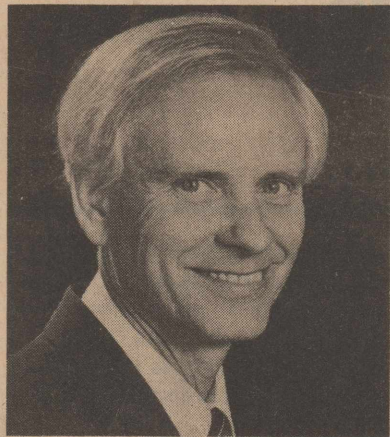

Nine indictments were handed down April 22 when the grand jury met. District Attorney J. W. Johnson presented the cases to the grand jury for the 112th District.

Indicted were: Ejinio L. Martinez, burglary; John M. Perez, aggravated assault; Noe Ramirez of San Angelo, kidnapping; William Lamar Swearingen, burglary; David Lopez Gonzales, burglary; Santiago Vargas, burglary; Robert Chambers III of Salem, Oregon, unauthorized use of a motor vehicle; William Anthony Tennes of West Covina, California, possession of a controlled substance; and Richard Garcia Cardona, burglary of a habitation.

Banquet to honor OHS athletes May 5

Ozona High School athletes will be honored Tuesday, May 5, at the annual all-sports banquet. The event will begin at 6:30 p.m. at the Ozona Civic Center under the sponsorship of the Ozona Lions Booster Club.

Guest speaker for the event is Willard N. Tate of Abilene.

Willard N. Tate is associate professor in the Department of Communication at Abilene Christian University. He is a special lecturer in the university's "Life Learning Skills" program designed to help students improve their self-image, basic academic skills and study habits. He previously was the university's head men's basketball coach.

Tate came to ACU in March of 1973. He had been athletic director and head basketball coach at Alabama Christian College in Montgomery for 13 years.

He is a 1954 graduate of Corner, Alabama High School. He received a BA degree in Bible from Alabama Christian in 1961, a B.S. degree in social science from Auburn University in 1963, and M.Ed. in secondary education from Troy State Uni-

versity in 1965.

Tate was born Dec. 23, 1935. He is married to the former Bobbie Campbell, and the couple has two children, Mark and Elisabeth.

He is a frequent speaker at lectureships, workshops and special dinners on personal development for businesses, schools, churches, youth groups and other professional organizations.

He built Alabama Christian's basketball program from nothing to one of the top junior college programs in the nation. The last four years - when ACC had its own gym and scholarship program - he had a 72-31 record. His 13-year record was 148-151. In 1972-73, his last year at Alabama Christian, his team was 25-4 and ranked 16th in the nation. He also coached at Alabama Christian High School.

At Abilene Christian, his 1974-75 team won the Lone Star Conference west zone championship. His 1976-77 team was 19-9. In 1970-80 the Wildcats posted a 27-5 record, winning more games in one season than any other team in the school's history. The Wildcats won the LSC regular season championship and advanced to the quarterfinals of the NIAA national tournament in Kansas City, MO. Tate was named LSC Coach of the Year.

He resigned as coach at ACU in March of 1980 with a seven-year record of 119-79 (60 percent), including a fine mark of 81-19 (81 percent) at home in Moody Coliseum.

Tickets for the banquet are available from any Booster Club member or at I-10 Exxon.

Ozona schools may lose \$1,092,000 in tax revenue

Ozona schools will lose \$1,092,000 if the projected drop in tax revenue is as great as expected says Supt. of Schools Garland Davis. This amount would be 20 percent of the 1986-87 budget and 33 percent of total tax dollars raised for the school system.

The first figures received from Tax Assessor Tom Stokes are expected to be the worst according to Davis. The school system will lose 149 million in assessed mineral value, which is equivalent to 31 percent of the 1986-87 school budget.

The budget process is generally completed in August after final figures are in from the Tax Office.

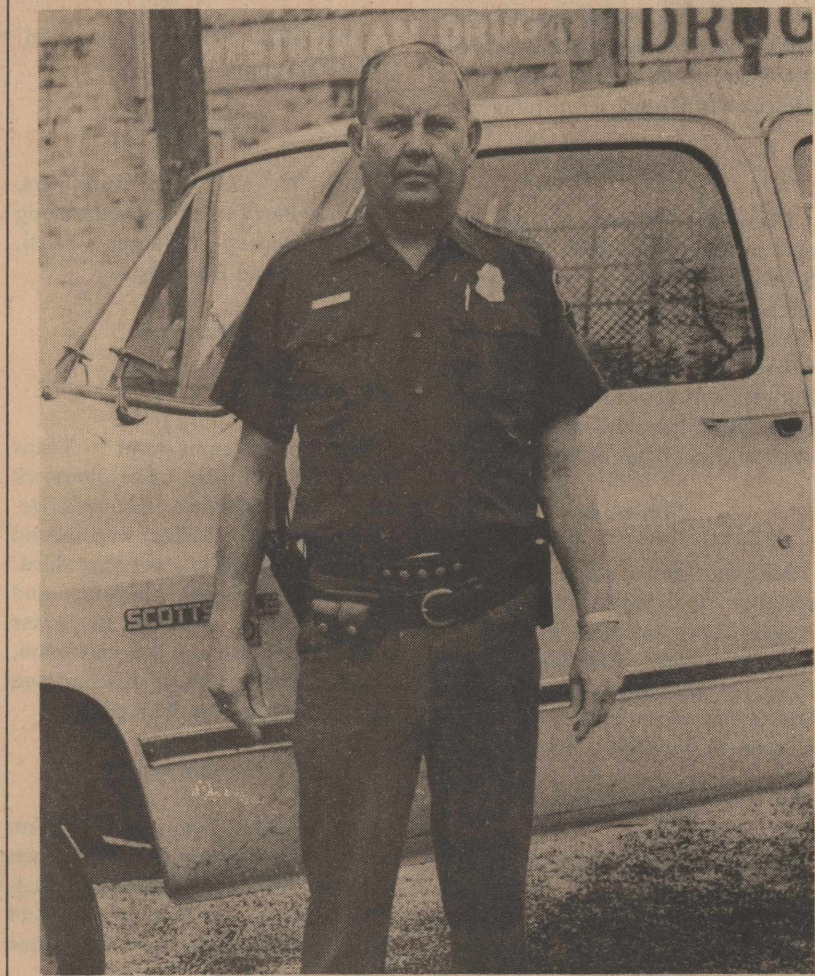

"We realize what our problems are," said Davis, adding that "we will definitely be looking for ways to reduce the budget."

Some tax increase will be necessary according to the superintendent.

The board does not anticipate any personnel cuts as a result of the reduction of tax dollars. "I feel we are working with minimal staff now," said Davis. Further reduction in personnel would reduce the quality of education in the community, he concluded.

Approximately two million dollars, or 40 percent of the 1986-87 budget, is payroll.

Hearne retires after 21 years in the U. S. Border Patrol

Border Patrol Agent James M. (Jim) Hearne will retire from the Immigration and Naturalization Service May 2. Hearne joined the Border Patrol Jan. 3, 1966 and was first stationed in Chula Vista, CA. He was transferred to Ozona Aug. 20 1968 and has worked at the station here since that time.

Hearne served in the U. S. Air Force from 1954 to 1958 and was employed by Halliburton before entering the Border Patrol.

"I have really enjoyed my career. I've met a lot of wonderful people," says Hearne. "I've been to some strange places and some fun places," he says of his years with the Patrol.

Hearne modestly says "there's not much to it" when asked to relate stories from his years with the Patrol.

Following retirement, he plans to continue his hobby of flying and to take up welding and light construction work.

Jim and Mary Jo Hearne have four children, James R. Hearne of Chula Vista, CA, Robert D. Hearne of Brackettville and Jo Anne and Sandra Hearne of Ozona. Both sons are also Border Patrol agents.

Maria De La Rosa winds up 25 years with WTU

"Experience is the best teacher" as the old adage goes, and West Texas Utilities in Ozona is fortunate to have the benefit of a very experienced employee. Maria De La Rosa will celebrate 25 years of employment with WTU in May. Maria is a knowledgeable, diligent and highly respected employee for WTU in Ozona.

"We are proud that she has been assisting the local office for these many years and we look forward to more years of her smiling face," according to Stephen Williams, the manager of WTU in Ozona.

Maria first joined WTU in Ozona in August of 1954 and worked until 1970. After a period of getting her children off to school, she rejoined the company in 1977.

She was born in Ozona and has lived here most of her life. She graduated from Ozona High School in 1950. Maria has served the community in a number of ways through the years. She has been of service to her church, Our Lady of Perpetual Help Catholic Church, the Ozona Community Center, the 4-H Club, and the hospital board.

Maria and her husband, Raul, a local plumber, were married in 1956. They are the parents of four children, Raul Jr. of Plainfield, Ill., Ruth Craig of Weatherford, Rita Rodriguez of Snyder and Rene of Ozona. They also enjoy five grandchildren.

Wool Sale

The American Wool and Mohair Association sold 1,642,500 pounds of prepared and graded wool April 23 according to Brian May of Ozona Wool and Mohair.

Prices were the highest for any wool sold in the United States to date May said.

The Ozona portion of the offering included 20,000 pounds of skirts at \$1.10 per pound, 26,000 pounds of tender clothing wool brought \$1.30 to \$1.40 per pound and 215,000 pounds of staple wool went for \$1.70 to \$2.15 per pound.

Other warehouses participating in the sale were located in Mertzon, Sonora, Del Rio and Eden.

Volume buyer was Burlington Industries Wool Co. with 960,000 pounds. Forstmann Wool Co. bought 416,000 pounds and Prouvost, Lefebvre and Co., Inc. bought 266,000.

An average of 81 cents per pound was received for wool by producers in 1986, one cent less than 1985.

The 1986 Texas wool crop was 19.4 percent of the national total of 84.4 million pounds. Texas produced 16.4 million pounds in 1986 from 2.25 million head of sheep and lambs.

Georgia Kirby, Marylee Jones and Ruth Gilliam were among those attending the Woman's Forum arts and crafts fair April 21 at the Civic Center.

Museum receives service award

Crockett County Museum was the recipient of the 1986 Museum Service Award at the 1987 Historic Preservation Conference in El Paso last week. Mrs. Geniece Childress accepted a certificate from T. R. Fehrenbach, Texas Historical Commission chairman and well-known author, for the Indians of Crockett County exhibit.

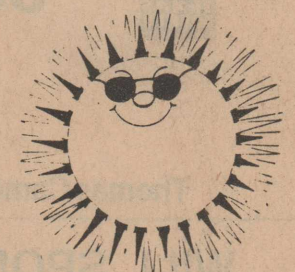

The Indian exhibit, which opened in February of 1986, was the result of meticulous research by Mrs. Childress and others. Crockett County has documented Indian artifacts from as far back as the Paleo period which ranged from 10,000 to 6,500 B.C.

Mrs. Childress was accompanied to the state conference by Mrs.

STATE CAPITAL HIGHLIGHTS

TEXAS PRESS ASSOCIATION

AUSTIN-Gov. Bill Clements spent last week stumping 17 Texas cities with his anti-tax message, while pro-tax Democratic senators sent their "truth squad" following on his heels.

Clements and some 100 Democratic lawmakers, led by Lt. Gov. Bill Hobby, are now locked on a collision course over whether state government can continue adequate services without a \$3 billion tax hike.

The Democrats sent a group each day after adjournment to the cities where Clements is urging voters to write to the legislators. They either used Hobby's private plane, or will be reimbursed by the Senate Democratic Campaign Committee.

The House, for now, is siding with Hobby over Clements, but the support doesn't come cheap.

House members are shaping a budget somewhat in the middle of Clements' low and Hobby's high, but they also passed a ban on all state income taxes unless the voters approve.

Income Tax Ban

Clements favors the ban; Hobby does not.

Obviously, one bill is a condition for the other, as far as the House leadership is concerned, but Hobby isn't buying. He said the Senate won't pass the ban on income taxes because it's bad policy.

Political Risk

Hobby's resistance is not without political risk, for if he denies the ban, he may lose House support for his higher budget.

And since Hobby has already expressed his possible candidacy for governor in 1990, he will surely find himself branded by conservatives as the man who paved the

way for income taxes.

In 1990, the burning issue will probably be the introduction of state income taxes to Texas, and that's why some conservatives risk jockeying now to leverage Hobby into a no-win position.

Hobby can take care of himself in the Legislature; he may wind up teaching school to lots of folks. No one doubts that with Hobby, it's principle over preservation.

Clements' Credibility

For Clements, his no new taxes roadshow will be a test on whether "Ponygate", the SMU football scandal, has hurt his credibility.

He's saying that his budget plan won't hurt education and social services, while some Democratic senators say he's wrong.

In fact, they accuse each other of distorting the facts, among other things, and it'll boil down to a swearing match with the confused public as judge. They'll go with whom they believe.

Clements swept into office on "no new taxes", and he feels he's got a mandate, Ponygate or no. The Senate will find out if the mandate has stuck by him.

Other Highlights

•The House isn't rushing to pass Texaco's proposal to post less bond in its legal squabble with Pennzoil, but in committee, witnesses said the company's fate affects jobs, state retirement and education funds. House members are reluctant to be stamped in the closing weeks of the session.

•The Senate Economic Commit-

tee sent to the floor a package of tort law reforms aimed at reducing the high dollar awards given in personal injury cases. The hammering is not over, as the sponsor expects more concessions to opponents.

•The full Senate last week passed five bills limiting the powers of grand juries, all compromises between prosecutors and defense lawyers.

•The House approved a spousal rape bill, making the act a crime, and included a felony penalty for any AIDS carrier who knows he or she has the disease but continues to have sex with spouse or person without informing them.

Sponsor Debra Danburg wanted to protect wives against rape, and didn't like the amendment tacked on by Hallsville Rep. Jim McWilliams, saying it will kill her bill.

Danburg's Houston district includes the Montrose area, which has a high homosexual population.

•Attorney General Jim Mattox is using Southwestern Bell Telephone's billing mail to advise consumers on protection against fraudulent telephone marketing schemes.

•Prominent Texas Republican Anne Armstrong, former Ambassador to Great Britain, was selected by President Reagan to receive the Presidential Medal of Freedom.

•The State Aircraft Pooling Board will try to swap the controversial, expensive jet used by former Gov. Mark White for two smaller planes.

Crockett County Care Center News

by JoAnne Marshall

This week's activities started on a cheerful note. Sara Hignight played the organ Monday morning and residents joined her in a sing-a-long. We would like to thank Sara for dropping by.

The quarterly hospital and care center auxiliary meeting was held Monday afternoon. Ruth Hester was elected treasurer. Future fund raisers and National Hospital Week were among the subjects discussed.

Minnie Karr not only won the El Chato's gift certificate in Tuesday morning's bingo, but also the special game played for a colorful necklace. Other prize winners were: Samuel Martinez, Tomasa Ramos, Virginai Hoover, Doris Robnett, Lucia Rios, Emma Taylor, Manuela Perez and Rebekah West. Volunteers were Sophie Kyle, Mattie Cooper and Melinda Hokit.

Tuesday afternoon's scheduled outing to the arts and crafts show was cancelled due to the rain. Although it was wet outside, residents' spirits were not dampened. They enjoyed watching the rain and catching up on their crocheting and reading.

Thursday morning's beauty shop volunteers Vivian Hughes, Joann Williamson, Lola Rios and Melinda Hokit did a splendid job of styling residents' hair. Thank you, ladies.

The mid-week Bible study was presented by Charles Huffman of

Faith Lutheran Church. Ruby Olson played the piano. Homemade oatmeal cookies, compliments of Phillis Harms, were served afterward.

Fr. Alberto Tijerina conducted Mass during the Spanish Hour of Praise. A large number of visitors attended, and the singing was beautiful.

Residents were pleased to welcome two new volunteers, Tena Lockridge and Veronica Tibbetts, for Friday morning's bingo. We appreciate Tena, Veronica and regular volunteers Mattie Cooper and Melinda Hokit's assistance. Prize winners were: Tomasa Ramos, Edna Wallace, Ethel Youngblood, Emma Taylor and Rebekah West. Juana Hernandez won the first place prize of a Watson's gift certificate, and Harry Blatchford won the special game played for a delicate pink rose pin donated by Jones Williams.

Wheel of Fortune was played Friday afternoon. Vanna White was portrayed by Lillian Tambunga wearing a gown of black and white trimmed with silver sequins. The gown sparkled with sleek, sophisticated beauty. Puzzles were solved by Samuel Martinez, Emma Taylor and Hazel McDaniel. Hazel was the grand prize winner of a silver puffed heart necklace.

Sunday worship service was presented by the Church of Christ.

Forum hosts Easter party

The Woman's Forum met April 14 at the Crockett County Care Center for an Easter party. The hostesses for the day were Glenda Henderson, Geniece Childress, Marcille Long, Katharine Russell, Bobby Fatout and Joycelynn Graves.

In the business meeting, in the Day Room at the center, the vice president Louisa Pearson presided. She read an invitation from the Woman's League to their guest day style show at the Teacher Store later that day.

At the Ballinger Spring Convention it was decided to have a Hall Leaf Design Quilt as a Heart of Texas District fund raising project. Leta Casey and members of her quilting club have volunteered to make the quilt. Each club is asked to send \$5 for materials for this quilt. Lu Ingram moved the Forum send this \$5 and the motion carried. The funds earned will be used for district

operating expenses.

In reference to the Robin Jones Memorial Fund, the Care Center needs a fence, and the Forum is willing to help with building this.

Louisa told that their 1986-87 Forum yearbook won first place in the state.

The May 2 meeting for the Forum will gather at Madeline Stokes home at 10:00 to go to the Bill Carson Ranch for the day. Bring a sack lunch.

For the party for the Care Center residents, Katharyn Russell arranged an Easter program. Babara Wallace, Glenda Henderson and Lu Ingram sang several songs and then the Forum members and Care Center residents joined them with singing and playing rhythm instruments. The hostesses served punch and cookies and gave each resident an Easter favor. There were 18 Forum members present.

Mrs. Ruth Hester of Ozona, Mrs. Ouida Caldwell of Richardson, Mrs. La Rue Montgomery of Houston, Mrs. Bill Bushong of Brownwood and Mrs. Jo Krebs of Houston and their husbands met at South Padre Island last week for their annual get-together. The school friends do this each year.

Former residents celebrate 50th wedding anniversary

The golden wedding anniversary of Mr. and Mrs. O. D. Paulk was celebrated with a reception from 2-4 p.m. April 26 at Jefferson Street Church of Christ in Hobbs, NM. Paulk married the former Madge Nell Kniffen April 26, 1937. They moved to Jal in 1939 and resided in Ozona before moving to Hobbs.

They have four children, O. D. Paulk, Jr. of Houston, Ronnie Paulk of El Paso, Janice Herman of Las Cruces and Debbie Kellum of Midland. They also have eight grand-

children, including Kevin Paulk of Hobbs, and two great-grandchildren.

Breast cancer detection unit

According to the American Cancer Society, one out of 11 women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that more than 37,000 women die each year as a result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mam-

mography before a lump can be felt has a 97 percent five year survival rate and a 90 percent 10 year survival rate.

A mobile breast cancer detection unit will be in Ozona Thursday, May 14, at Crockett County Hospital. The unit is approved by the American Cancer Society.

The charge for the screening mammogram is \$50.00. The unit accepts cash, check, Visa, Mastercard and American Express.

For more information or to make an appointment, call 392-2671.

The Church as Keeper

In many newspapers "Church news" seldom makes front page. Some coming-event, a special program, or visiting clergy receives notice somewhere in the printed page but hardly any mention on television. (Unless there is church controversy that rates as hard-core news.) And this is understandable from news media's point of purpose.

Yet the church is the "keeper of the springs" of society's great ocean. Jesus called His followers "salt" and "light." One seldom comments on the salt but the steak; not the yeast but the hot rolls; not the lights but the ballgame being played at night.

The church, the great "keeper of the springs," has seasoned society by being the first in education. Many of the great universities were birthed by the church as well as hospitals, medical schools, orphanages, and homes for the aging. Jesus followers seasoned the U.S. Constitution and outright wrote the Bill of Rights through the efforts of Rev. John Leland and James Madison (whom moved its adoption).

While the church is not front page news, it is nonetheless quietly going about its appointed mission in hamlet and city keeping the springs clean and purifying the water that flows into the mainstream of human existence.

Hospital district discussion

by Bill Boswell, Administrator

This article is to clarify a few things that have been talked about around town, or published, over the past few months; things that are not 100% correct or 100% incorrect, but have been slanted towards the view of the proponent.

A number of people have been laboring under the assumption that the reason for a hospital district election was to let the voters decide if they wanted to continue being taxed to support Crockett County Hospital. Allegedly, the vote was not to determine how medical services in Crockett County would be financed, or who would hold the purse strings, but if there would be a hospital or not.

It seems that several people share in this assumption. Dr. Carlisle stated, "I have no quarrel with Mr. Boswell, he is doing a fine job of keeping the hospital open. If he fails, the hospital closes and he loses his job." He also stated, "If I felt that there was at least some hope for the hospital's survival, I would not have left, the hard fact is that the federal government wants small hospitals and rural hospitals closed." A public official was quoted as saying, "If the election fails, we won't have a hospital; if it passes, we'll have a hospital district." The County Commissioners passed a resolution that stated in part, "The Crockett County Commissioners Court is allowing the citizens of Crockett County the opportunity to decide, by vote, the fate of medical services in Crockett County." It seems a number of people are thinking along these lines.

It has been mentioned that if a hospital district law is passed, the law would create another bureaucracy in Crockett County. The word bureaucracy conjures up thoughts of red tape, inefficiency, over-staffing too much paperwork and too many employees. The fact is that the creation of a hospital district would not require the hiring of one single employee. The hospital district board of directors would administer the district's business just as the water district board and the school district board does theirs.

The hospital district would contract with the county to collect the district's taxes. The county already has people employed to collect taxes and who are already collecting hospital taxes. Even the county would not have to employ additional personnel.

The creation of a hospital district, in this case, would decrease inefficiency in that it would eliminate one step in the decision-making process. A hospital district board could make decisions itself and would not be subordinated to the rule of only making recommendations.

It is true that on occasions, people present facts in such a way that the facts tend to support that person's point of view. However, a fact by definition "has the quality of being actual." If it is actual, it is a fact and cannot be changed. Partial reporting does to automatically equate to false information. If the partial reporter is reporting facts, he/she is still reporting the truth. Facts, no matter who is doing the reporting, can be substantiated and, therefore, cannot be false. Facts that are not reported impartially are a whole lot more acceptable than purposely created doubts which lead to confusion about a subject when the doubts

and confusion created are based purely on subjective speculation which have no basis in fact and which were created to sway public opinion in a particular direction.

I would not, in any way, contradict the statement, "that the Commissioners Court has never refused proper requests from the hospital board" or the statement, "they (the Commissioners Court) will continue to allocate the money the hospital wants, needs, and asks for."

Accepting the validity of the statements above, the problem then must be in what and how much financing has been asked for in the past. Otherwise, we could point with pride to a renovated, well-equipped, Crockett County Hospital. A hospital that could be compared favorably with Eldorado, Big Lake, and Iraan, among others. For some reason, Crockett County Hospital does not quite measure up to their quality. They are all three hospital districts. It may not be a fact that their hospitals are what they are because they are hospital districts, but it would be a very subjective assumption to assume that is the case.

It has been rumored that some people are saying, "We don't want a hospital district. Look at what happened in Sonora." To try to compare the situation in Sonora to the situation in Ozona is like trying to compare elephants and butterflies. You just cannot compare the two. Sonora set their tax rate too low and had to retroactively tax for the year 1986. That will not happen here in Crockett County. The county is already taxing 17c per \$100 valuation to support the hospital, care center, and indigent care.

To demonstrate how little it would cost to upgrade our hospital, let's assume that the hospital needed to increase its budget by \$300,000.00 and that your taxable property was valued at \$30,000.00. Your share of the tax increase would be \$15.90 per year; not per week or per month, but \$15.90 per year. That's not very much when you know that in four or five years, you could point with pride to a renovated, well-equipped hospital.

Don't misunderstand--this is not to imply that the tax rate would go up 0.053 cents per year every year. If the tax rate were set at 21 or 22 cents and left there, we could drastically alter the deliverability of medical services at the hospital in 4 or 5 years. Big Lake was at 20 cents

for three years; then as utilization picked up, cut their tax rate to 10 cents. The more the community supports the local hospital, the less it costs in taxes to maintain the services. Eldorado was maintaining theirs for 21 cents in 1985. The 1986 figures are not available at this time. That's not much to pay to have such nice well-equipped facilities.

This article is not an attempt to repudiate statements made by Dr. Carlisle in his letter to the editor. Dr. Carlisle was quoted only to open a discussion on a couple of subjects that needed public airing. I, also, have no quarrel with Dr. Carlisle. Quoting his peers, he is a very competent physician.

Reference is made frequently to "just an emergency room." Legally, Crockett County cannot operate just an emergency room. The state does not have any medical facility in the State of Texas without a license. If we let our hospital license lapse, or if the state revoked the license, we would have to close the hospital and the emergency room.

The only legal way to keep the emergency room open, if the hospital were to close, is to lease the emergency room to a physician or a group of physicians, and run the E.R. as an extension of the physician's office. The emergency room could also be leased by another hospital. However, Crockett County, itself, cannot operate an emergency room without a hospital license. For further information on this subject, please contact Mr. Gerald Guthrie, Director, Hospital and Professional Licensure Division; Texas Department of Health; Austin, at (512) 358-7531.

If anyone has any questions concerning a hospital district, or its implications, please call Mr. Bill Boswell at Crockett County Hospital. He will get you in touch with someone, other than himself if you wish, who can answer your questions. Nobody is trying to pull a fast one or do anything behind anyone's back. We are only trying to present the facts honestly and, to some degree, speculate on the effect the district will have on the citizens of Crockett County.

TRACK TENNIS GOLF 1987

REGIONAL GIRLS TRACK QUALIFIERS ARE: [L-R] Kristina Martinez, Maria Sanchez, Tressa Crawford, Dee Frazier, Lanessa Porter.
[Kneeling] Diane Sanchez and Kelly Williams.

Congratulations regional qualifiers

Ozona sports diverse regional qualifiers

By T. C. Tucker

All three spring sports have athletes representing them at the regional meet this week. Competition started Tuesday for golfers, and tennis and track members will perform their events Friday and Saturday in Big Spring.

Jennifer Probst, Gina McCollum, Randi Thompson, Loretta Ledbetter and Trebie West make up the girls' golf team that easily won their district to advance to regional.

Although the boy golfers did not fare well enough to make the regional event, Bret Hood placed first as the highest individual medalist, earning himself a trip to the meet.

Kelly Williams placed in both the long and triple jumps, qualifying in two events and having twice the chance.

Maria Sanchez had done well all year in both the two-mile and mile events. However, she suffered an injury, causing her to miss the two track meets before district, plus hindering her running at district.

Despite all this, Maria placed second in the two-mile. She also serves as alternate in the mile run after finishing third in that event.

Last year, Diana Sanchez fell in her specialty running event and lost all chance of making regionals that year. This year, though, she responded with a second place finish in the 100m hurdles and a trip to Big Spring.

The mile-relay team of Dee Frazier, Tressa Crawford, Lacy Miller and Maria Sanchez also qualified.

The boys sent their mile-relay squad as well. Robby Tambunga, Roger Flores, Danny Sanchez and Valdo Galindo make up the four-

some.

Sanchez and Galindo qualified in separate events, also. Sanchez cruised to first place finishes in both the mile and two-mile running races.

Galindo followed the same pattern in the 100 and 200m sprints, winning both. He jumped far enough in the long jump to place second and qualify in his third event for regional.

Scott Denman hurled his way into region, placing second at district in the discus field event.

In tennis, Sylvia Flores and Suzy King placed second and earned themselves a trip to region. Summer Shacklette proved how valuable an alternate could be after she finished third at district. Soon following, grades came out and the second place finisher failed, allowing Shacklette the opportunity to represent Ozona and her district at region.

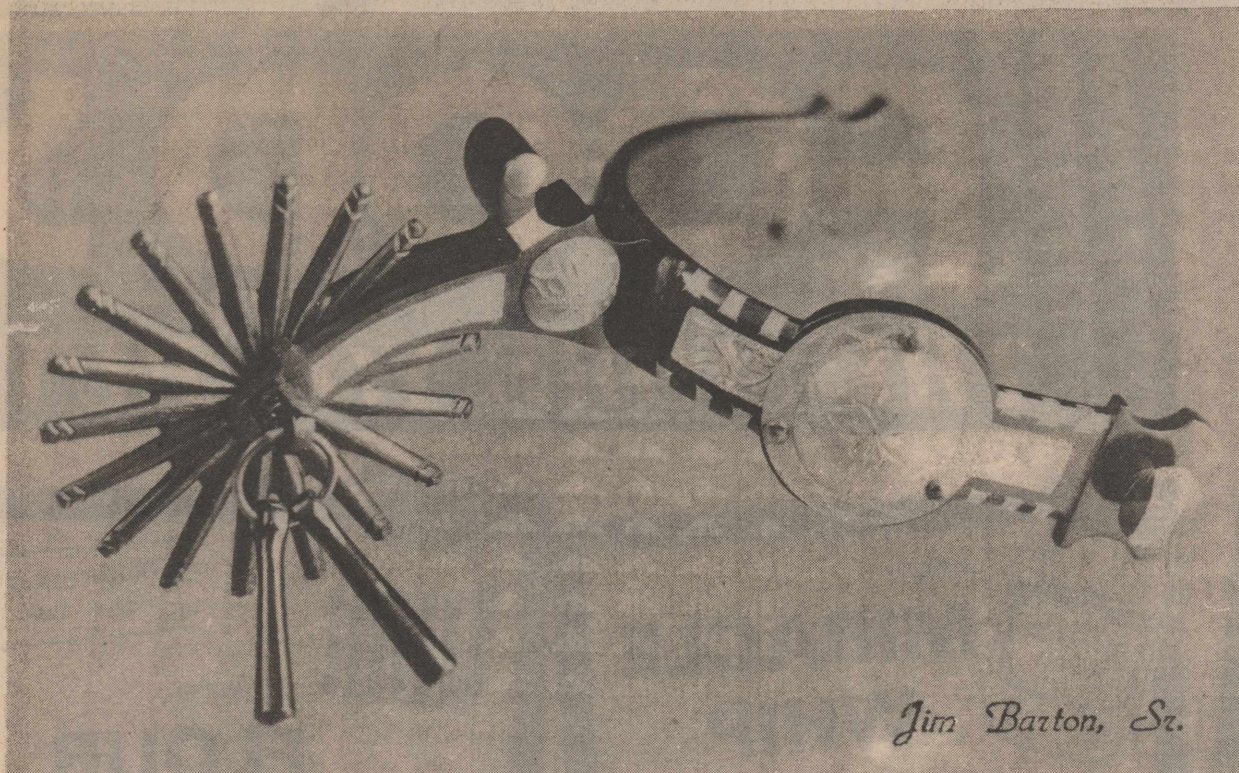

REGIONAL BOYS TRACK QUALIFIERS ARE: [L-R] Danny Sanchez, Robby Tambunga, Scott Denman, Valdo Galindo, James Sanchez, Roger Flores and Jason Montgomery.

Custom bits, spurs created by Lee Friend

Reagan County bit and spur maker Lee Friend plans to become one of the top craftsmen in his field in the United States.

Friend and his wife Patricia and their 14-month-old daughter Cheyenne live on the family ranch 14 miles north of Big Lake. He is the son of Benny Friend of Ozona and Carol Crews of Big Lake. Lee is the grandson of Mr. and Mrs. Batts Friend of Sonora and the late Mr. and Mrs. J. P. Crews of Mertzon.

While attending college, the San Angelo native worked part time as an apprentice welder. In 1980, he started his own welding business. In 1984, he sold the welding business and went back to ranching.

After a time, he bought more welding equipment and began making bits and spurs. "Making bits and spurs was something I had wanted to do for a long time," Friend said. Requests from neighbors put him into the bit and spur business on a part time basis. Now the demand has turned the enterprise into a full time business.

Customers include horse trainers, working cowboys, professional cowboys and other custom orders. Lee

makes the basic overlay bit and spur, the most common in Texas. The silver, copper or brass is overlaid on the outside of the bit or spur. All current bit and spur makes in Texas use this overlay method.

However, Lee saw that there were no bit and spur makers in Texas who knew how to inlay. Inlaying is a totally different procedure. To inlay, Lee chisels out the steel for the silver, brass or copper to be inlaid. When the inlay is finished, the silver, brass or copper is flush with the steel. Many bit and spur makers do not like this inlay procedure because it involves more hand work and time to inlay. "It takes approximately 12 hours for an overlaid spur whereas it takes approximately 48 hours for an inlaid spur," said Friend. As far as he knows, he is the only bit and spur maker in Texas who offers both the handmade inlay and overlay bits and spurs.

Lee recently spent a month in Nampa, Idaho with 79-year-old Elmer Miller who has been making bits and spurs for 40 years. There Lee learned the proper procedure to inlay bits and spurs. He also learned how to make all kinds of belt buckles, conchos, and silver trim for saddles

in Idaho. Miller is the only bit and spur maker in the United States to have his work on display in the Smithsonian Institute.

At least 70 percent of the work that goes into making bits and spurs is done by hand. Friend uses only the finest materials available for all orders and each pair is unique. His goal is to make his customer happy, always satisfied he or she gets the bit or spur ordered.

OJHS netters fare well at district Sat.

by T. C. Tucker

Cody Morris and Amy Sewell survived three-set matches to win first places at the junior high zone-district tennis tournament held here last Saturday, April 25.

Seeded second in 8th grade boys' singles, Morris received a bye then reached the finals after easily winning his semifinal match 6-1, 6-1. Morris faced Justin Edmiston of Eldorado in the championship match. After losing the first set, Morris rebounded and scrapped with a win and first place, 3-6, 6-3, 6-4.

Amy Sewell and Katie Sellers, both of Ozona, were seeded as number one and two in the tournament and that's how it turned out. Sewell barely slipped by in her semifinal match 6-3, 7-5 while Sellers won 6-3, 6-3 to set up the confrontation.

Sewell opened play by taking the first set 6-3; however, Sellers won the next set by the same score, paving the way for a third and decisive set.

Sewell wasted little time rallying, collecting points on her way to a 6-3, 3-6, 6-2 7th grade girls' singles win.

Jennifer Colin and Teena Tambunga received a bye. In their semifinal match, they almost suffered an upset as a duo from Eldorado won a set off of them.

In the championship match, Amy Evans and Amy Henderson of El-

dorado, the number two seeds, easily defeated Ozona 6-2, 6-4.

The other 8th grade girls doubles besides Colin and Tambunga included Tonya Ramos and Janet King. They won their first match 6-0, 6-2, but then lost to Evans and Henderson. In the third place match, Ramos and King fell to the other Eldorado team 3-6, 1-6.

Second seeded Kriti Porter and Terrie Willmon lost a close first set and then the match in the semis, forcing them to play for third. There they met up with Gina Snyder and Valeria Perez who had also lost their opening match.

Porter and Willmon easily defeated their hometown rivals 6-1, 6-1, to win third in 7th grade girls doubles.

Seventh grader Alex Sanchez lost in the semifinals and then ended up fourth after losing to Andy Patterson of McCamey in the third place match.

Chris Hobbs almost pulled off an opening win against the player who would eventually get third place. Hobbs lost this match 4-6, 2-6.

Both Coach Martha Sims and Jerry Tucker seemed very pleased with the outcome of the tournament and Ozona players. Although the playing of the tourney looked dim at one point, the rain let up on Saturday and the courts were cleared in time for playing; however, scoring was changed to no-add due to the late start from clearing courts.

Glaze and Jones state bound

By Cople Davis

Senior Michael Glaze entered the 1987 Region I U.I.L. literary contest with a vengeance. In three years he had thrice failed to make it to the state contest. This year, he would not be refused. Glaze's mastery of two events paid for his ticket to Austin.

As a journalism student, Glaze represented District 6-AA as the district champion. As an accounting student, he also entered regionals as the district champion. Last Saturday, Glaze won both events, ending his three year wait in the wings. What makes Glaze's feat so phenomenal is that through two contests he has yet to finish lower than first. That kind of performance rarely occurs.

Accompanying Glaze to Austin will be freshman Margaret Jones. Jones, whose academic endeavors allowed her to forego the eighth grade, waltzed through the early round of Lincoln-Douglas debate before finally succumbing and settling for a bronze medal. Jones' counterpart, junior Mark Sanchez, will serve as alternate to the state competition with a fourth place finish.

Cople Davis took fifth place in extemporaneous informative speaking and will serve as second alternate to state. Summer Shacklette won alternate honors with a fourth in prose interpretation.

Larisa Schoenhals competed in

ready writing while T. C. Tucker wrote in editorials.

Bret Hood competed in typewriting and chemistry.

Isabel Benitez represented Ozona in spelling.

The state qualifiers, Glaze and Jones, were understandably excited about their achievements but remained calm and low key. "I'm just so relieved," said Glaze. "After missing state three years in a row, it feels so good to finally get there!"

Although both have the same goal, Glaze made it on his last try, while Jones did it on her first. "More than anything, I feel honored," said the 14-year-old freshman. "Going to state in my first year is an opportunity that I really appreciate. It's the ultimate experience."

Glaze qualified for regionals in three events, but because of conflicting schedules, had to choose between accounting and editorial writing. The choice of accounting paid off. Sponsor Jackie Shacklette put it this way. "Michael worked hard to get to Austin and deserves the privilege."

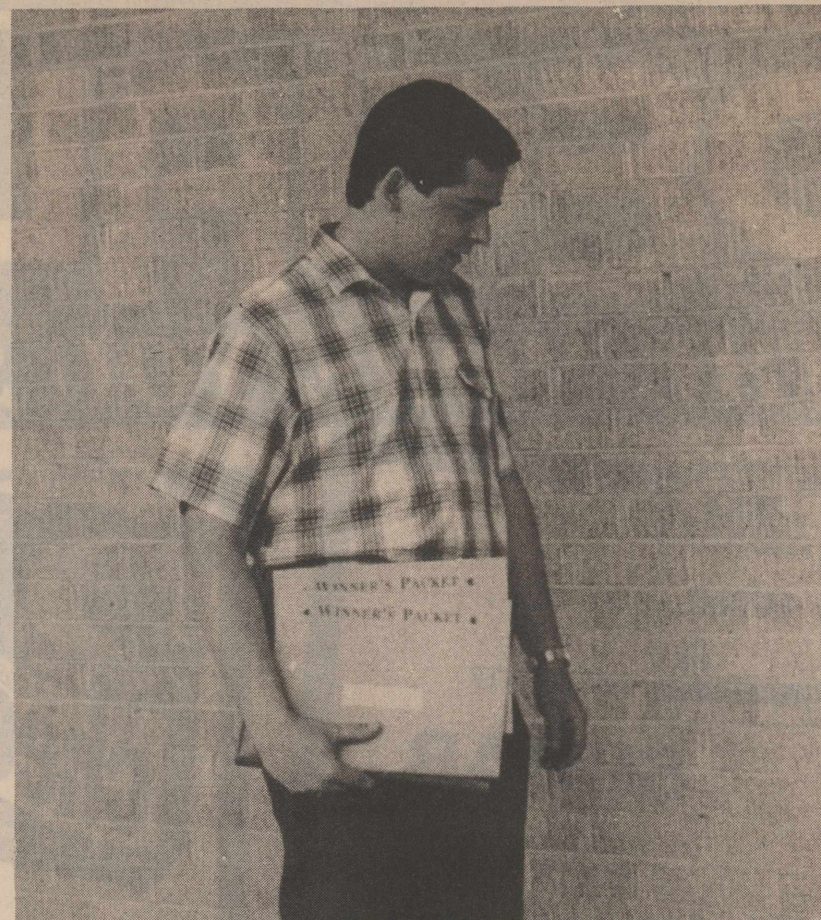

Jones, with her qualification for state competition, becomes only the second Ozona student to get to state in the freshman year. The first was T. C. Tucker just last year.

For Shacklette, taking her proteges to Austin is becoming commonplace. In the 3½ years she has taught journalism in Ozona, Glaze becomes her fourth state competitor.

Louise Taliaferro, Ozona accounting teacher, is enjoying her very first trip to state as she accompanies Glaze along with Shacklette.

Debate sponsors Frances Curry and David Porter are making their first Austin excursion also via Jones' performance.

The U.I.L. state literary competition will begin Thursday, May 7, and extend through May 9.

Senior student Michael Glaze won first place in both newswriting and accounting at regional competition in Big Spring last week. He will compete at state next week.

Lady Lions qualify for regional meet

By Allison Larisa Schoenhals

Two weeks ago, April 16 and 18, the Ozona Lady Lions' track team captured a District 6-AA runner-up win. Last week an article was printed revealing the regional qualifiers. Due to lack of information, the places beyond third were not available. Official results are now in.

Lydia Pena two fifth place finishes. One was in the shot put and the other in discus.

Polly Villarreal received two seventh place honors. The first was in shot put and the second in the discus.

The long jump and triple jump were conquered by Kelly Williams and Regina Cervantez. Kelly won two second places in the events, which qualified her to advance to regional. Regina placed fourth in the triple jump and fifth in the long jump.

Ozona had one girl place in the high jump. Kristina Martinez was sixth in this event.

All three relay teams placed, however, only one was able to qualify for regional. The qualifying team was the 1600m relay with a second place. Team members are Lacy Miller, Tressa Crawford, Dee Frazier and Maria Sanchez.

The 400m and 800m teams each placed fourth. The 400 team is made up of Regina Cervantez, Lacy Miller, Tressa Crawford and Kelly Williams. The 800 squad is made up of Regina Cervantez, Lacy Miller, Tressa Crawford and Kelly Williams.

The 3200 and 1600 meter runs had placings from Ozona. Maria Sanchez was second in the 3200 to qualify for regional.

Tricia Ethridge placed third in the 3200 and Amy Graham was fourth.

Maria Sanchez was third, Diane Sanchez fourth and Lanessa Porter fifth in the 1600.

Diane Sanchez will advance to regional with her second place win in the 100m hurdles. She was followed closely by Kristina Martinez who placed fourth in the same event.

A number of Ozona girls placed in the 100, 200, 400 and 800 meter dashes.

Regina Cervantez was fourth in the 100m dash. Kelly Williams and Bibi Cervantez took sixth and seventh places, respectively, in the 200m dash.

Kristina Martinez was fourth and Lacy Miller fifth in the 400m.

Fifth place in the 800m dash fell to Lanessa Porter.

Regional qualifiers will compete May 1 and 2 in Big Spring.

Hood, Reavis chosen to attend UT symposium

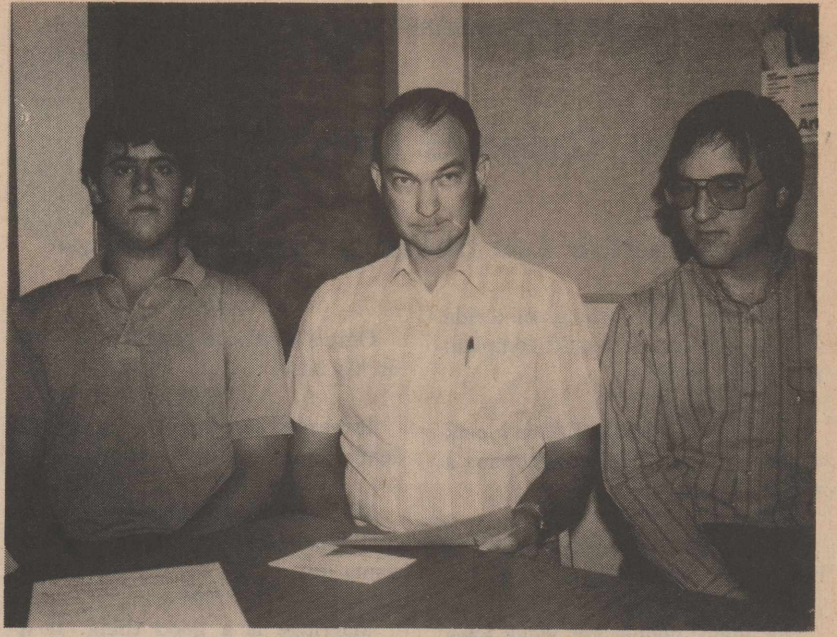

Ozona High School student Bret Hood and science teacher Frank Reavis have been chosen to attend the 27th Annual Energy Science Symposium at the University of Texas in Austin, June 8-11.

Hood and Reavis will be among only four hundred high school science students and teachers throughout the state who will attend the sessions in Austin. They will have the rare opportunity to hear some of the nations outstanding scientists speak and to see some of the finest science facilities available.

West Texas Utilities will pay all expenses for 30 students and teachers from their service area to attend the four day symposium in June.

"I think the Science Symposium offers WTU an excellent opportunity to assist in the advancement of scientific knowledge in our public schools," said Steve Williams, Ozona local WTU manager.

The symposium is jointly sponsored by the Texas Atomic Energy Research Foundation and the University of Texas. West Texas Utilities is one of the sponsoring companies in the Foundation.

WTU manager Stephen Williams [r] presents Bret Hood and science teacher Frank Reavis with information about the WTU Energy Science Symposium they will be attending this summer in Austin.

EATING NUTRITIOUS RESTAURANT MEALS

A 1986 Gallup survey conducted for the National Restaurant Association shows that six out of 10 adults have changed their eating habits at home to reflect nutrition concerns, but only four out of 10 have done the same in restaurants.

For some people, restaurant eating is thought of as an indulgence, or a break from eating what's "good for us". Others may not know how to select restaurant items on the basis of nutrition, or find that it seems like more trouble than it's worth.

Some restaurants are making it easier for patrons by printing calorie counts and other nutrition information on the menu. But if that information isn't available, you'll have to make some educated guesses.

Selecting nutritious restaurant meals is easier than you think.

Start by reading the menu carefully, noting the ways foods are prepared. If you have questions, ask your food server.

In general, ordering a la carte will help control what you actually eat because side dishes are eliminated. When you order food by the meal, you may be tempted to eat foods you ordinarily wouldn't just because you're paying for them.

For an entree, select roasted, baked, broiled or grilled dishes without rich sauces, gravies or breading. Trim off visible fat on meat or skin on poultry before eating it.

Ask that vegetables be prepared with no cheese, cream sauce or almonds. If you choose a baked potato, limit or omit the use of butter and sour cream.

Request vinegar and oil for your salad instead of creamy dressings. Try food before salting it. You may be able to get along without it or with much less.

If you have a choice, order whole grain bread or buns. When bread is placed on the table, avoid over-

eating by asking the food server to take it away when you have had your serving.

In Mexican restaurants, ask that the taco chips be taken away after you have had a few, or ask that they not be served at all.

When you can't resist dessert, choose fresh fruit or fruit sherbet.

Perhaps most importantly, when you're full, ask the food server to take your plate and the remaining food from the table.

ATTITUDES INFLUENCE RESTAURANT AND MENU SELECTION

A recent study conducted for the National Restaurant Association shows that the dining-out public can be divided into four groups - the traditional, health-conscious, weight-conscious and uncommitted consumer - whose attitudes influence both restaurant and menu selection.

According to the study, health-conscious consumers represent 19 percent of the population and 17 percent of all restaurant occasions. These consumers have a strong commitment to the government's dietary guidelines and select foods that meet these goals.

Weight-conscious consumers order light foods for few calories and are less concerned with nutritional value. These consumers represent 28 percent of the population and 25 percent of restaurant dining.

The traditional consumer accounts for 37 percent of the population and 43 percent of the restaurant visits. The study found that these consumers often visit fast food restaurants and "meat and potatoes" dining.

The uncommitted consumer has a tendency to skip meals and eat smaller portions. This group represents 12 percent of the population and accounts for 12 percent of the restaurant occasions.

Which category, if any, describes your restaurant eating habits?

Achievement award earned by Lion's Roar

The Lion's Roar has earned the Award of Achievement from the Interscholastic League Press Conference, missing top honors by 15 points.

The rating was announced in the ILPC convention held in Austin earlier this month.

Rated on a scale ranging from 0 to 1,000 points, the Ozona High School student newspaper garnered 736 points. The Award of Achievement is given to those papers amassing 501 to 750 points. Only two papers in the Lion's Roar P-2 category received the highest Award of Distinguished Merit with 750 plus points.

The P-2 category includes those newspapers from high schools with populations ranging from 175 to 350 and which are printed by offset.

The rating sheet abounds with constructive criticisms as well as a number of compliments, according to high school journalism teacher and newspaper advisor, Jacquelyn Shacklette.

"It was pleasing to read that our paper looks and reads like many professional papers," Shacklette said. "But, we were told to use more quotes to add credibility and color, and we lost some points because we didn't use enough of them."

The paper received only 15 of 40 possible points for in-depth coverage with the admonition to go farther: "You have started obtaining information. Your athlete drug policy stories are a good start...There's a lot more to this -- keep going."

The critique judge commented that she had enjoyed reading the "Box Score" sports column written by Mark Sanchez, but this column needed a name and Mark's picture on it.

The staff was told that they have done a good job in featuring much of the student body, but can do more. Feature stories on uncommon things such as "riding a bus" were suggested. More thorough research and interviewing were suggested for feature stories, but the paper was awarded 50 of 60 possible points for feature stories and 30 of a possible 35 for feature editing.

Editorial coverage by the school paper received its share of comments

as well. "Your staff has come up with some good topics for editorials, but an editorial is to have something done or changed," the judge wrote. "A good start would have been for you to come up with a specific set of guidelines for your athlete alcohol problem."

"It is quite difficult for students to design a broadsheet, and your students have done a good job in their design," the judge commented. "Trends today show the use of larger pictures and larger headlines with more important stories at the top of the page."

The judge also said the community should be complimented for its obvious support of the school publications.

Not realizing that Ozona High School has no clubs, the rating sheet recommends better coverage of club news by the paper.

"I agree wholeheartedly with at least 90 percent of the judge's criticisms and comments," Shacklette said. "We usually know when what we are doing is lacking in some way or if it is good. You just have to do the best you can with your limitations of time, money and energy."

Shacklette agreed with the critique by saying the student staff should be proud of the effort they have made to put out a quality product.

"I am proud of the newspaper staff," Shacklette said. "Naturally, I would have liked a few more points to put us over into the top award category, but the rating we received is very good. We came up a few points from last year, and last year's rating was good, too. It (the rating) is certainly nothing to be ashamed of. The Lion's Roar staff has done an excellent job."
